Since 1986, Youth Villages has helped more than 66,000 children and their families live successfully. Headquartered in Memphis, this year alone we will help more than 18,000 children and families in 11 states and Washington, D.C. Please help us celebrate the remarkable success rates we achieve with our country's most vulnerable children and young people, and help us thank our 2,500 employees who make it possible.
