Dyersburg State Community College  
Student Center  
1510 Lake Road  
Dyersburg, TN 38024

### WHY?

To learn about our water resources....  
& how to protect them!

# Help Protect Our Water Resources!!

WHAT IS A WATERSHED? Well.....It's simply a land area that drains into a particular stream or lake. EVERYONE lives in a watershed!

A healthy watershed is important because these waters supply our drinking water, water for agriculture, habitat for plants and animals as well as recreational opportunities like swimming, fishing and boating.

The North Fork Forked Deer River Watershed is almost 1000 square miles! (Carroll, Crockett, Dyer, Gibson, Henderson & Madison counties)

It is up to all of us to protect and improve the water resources where we live!

## Come on out and find out how to get involved.

For more information please contact:
