

DEER, ELK AND MOOSE CARCASS IMPORTATION RESTRICTIONS

ATTENTION TENNESSEE HUNTERS

If you hunt out-of-state, please be aware of Tennessee’s carcass importation rule. This rule is in effect to protect the state from the unintentional introduction of Chronic Wasting Disease (CWD).

If you harvest a deer, elk or moose from a CWD positive area (highlighted below), it must be properly processed (see rule 1660-01-15-.02 below) before bringing it back into Tennessee. The carcasses of deer, elk or moose harvested outside of these highlighted areas may be imported without restrictions.

 Areas where carcass importation is restricted by the Carcass Importation Rule (1660-01-15-.02)

RESTRICTED COUNTIES

Virginia Frederick and Shenandoah
