What is the Tennessee Angler Recognition Program?

The Tennessee Angler Recognition Program (TARP) allows anglers to have their trophy-size fish recognized by the Tennessee Wildlife Resources Agency (TWRA). Anglers of any age, who catch large fish that meet or exceed qualifying lengths, may apply. The TWRA Fisheries Management Division sends these accomplished anglers TARP certificates featuring color reproductions of fish artwork by renowned wildlife artist Joseph R. Tomelleri.

The program is designed to acknowledge anglers for outstanding sportfishing accomplishments, encourage catch-and-release of trophy-size fish, and provide the TWRA with information on large fish caught throughout the state.

TARP should not be confused with the State Record Fish program that recognizes anglers who catch a new state record fish (largest fish recorded for that species in the state). Instead, TARP recognizes anglers who catch trophy-size fish that are not necessarily state records.

Trophy Fish/Master Angler Certificates

TARP features five levels of angler recognition. Anglers catching a fish that meets or exceeds the minimum “trophy” length requirements, listed in the table to the right, will receive a Trophy Fish certificate. These certificates feature Tomelleri artwork representing the species caught by the applicant. After anglers catch five trophy-size fish, in any combination, a Master Angler Level I certificate and patch will be awarded at no cost to the angler.

Anglers submitting five different trophy-size fish will receive a Master Angler Level II certificate and patch. The Master Angler III will be awarded to anglers submitting ten different trophy-size fish. In addition to a certificate and patch, the angler will receive a “tackle package,” courtesy of Bass Pro Shops–Sevierville.

The newest level, Master Angler IV, will be awarded to anglers submitting fifteen different trophy fish. The award will consist of a certificate, a patch, and an engraved trophy.

How Do You Qualify?

- The fish must meet or exceed the minimum length, listed at the right.
- Persons 13 years of age and older must be licensed anglers and must provide their license number (TWRA #) on the application.
- The fish must be caught legally (in accordance with Tennessee Sportfishing Regulations) in Tennessee waters, by sportfishing methods only (rod and reel or cane pole).
- The length of the fish must be verified by either a witness or a photograph. The witness must complete the section on the application and/or the photo must be of the fish lying flat on top of or beside a measuring rule or tape and included with the application.

If you believe your catch exceeds the current state record for that species, you should immediately contact a TWRA Fisheries Biologist for positive identification of the fish and the appropriate application.

How Do You Apply?

An application form is located on the back of this brochure. Complete one application form for each fish you are registering. You may include more than one application form per envelope. If the fish length is being verified by photo, the picture must be enclosed with the application. For the Trophy Fish certificate only, a \$5.00 processing fee, per application, must also be enclosed and mailed within 90 days from the date of catch. Make check or money order payable to TWRA and mail, with the application(s), to the address at the bottom of the application. The processing fee is nonrefundable for nonqualifying applications. For further information about TARP or the State Record Fish program, call 615-781-6575 or visit www.tnwildlife.org.

Measuring Your Fish

Lay the fish on top of or beside a flat measuring rule or tape. Do not lay the rule over the curvature of the fish's body. Close the fish's mouth and squeeze the tail lobes together. Measure from the tip of the snout to the end of the tail to the nearest 1/4 inch. See illustration below.
