

TGEI Alumni Network

What does a person do after they complete the awesome TGEI experience?

First, go home and catch up on sleep!

Second, take your place among the TGEI Alumni as an active member of our Alumni Network.

Third, do great things for your organization!

The TGEI Alumni Network is an exciting forum for ideas, an educational resource, a place to recognize innovative management philosophies, and a source for maintaining friendships and camaraderie across all the classes.

Our Alumni Network has been an active part of state government for over twenty-five years. Just think of it, over a quarter of a century of active leadership by a group of individuals united in their service to the public and their experiences in the Tennessee Government Institute! Some of the most critical decisions made in state government have been made by our alumni. The success that we enjoy today has been directly or indirectly accomplished by our TGEI alumni.

As you near graduation, you will elect a representative from your class to serve on the Alumni Network Steering Committee for a two year period. We meet once a month and organize various projects throughout the year. Over the years, each graduating class has made a unique contribution to the Alumni Network Steering Committee. It is a great leadership opportunity to help sustain the rich heritage of the Tennessee Government Institute and I encourage you to consider serving.

I look forward to meeting the class of 2009 and upon graduation I welcome your active participation within our TGEI Alumni Network.

George Zukotynski, Chairperson
Class of 2004

Tennessee Government Institute
"Leaders Transforming Tennessee"
