Essay #7**Score Point: 2**

This flawed essay fails to demonstrate proficiency in expository writing skills. The writer introduces the response by copying a portion of the text from the first sentence of the prompt. The remainder of the response provides several details to explain why the writer would like to travel with his/her grandfather. The writer attempts to create an organizational structure by paragraphing the essay, but clusters sentences arbitrarily. There are serious errors in mechanics and usage ("he has millon of doller," "wen i tern 18," "I won't all of his car"). In addition, the response lacks development.
