

New Source Review newspaper advertisements for construction permit applications, April 2, 2009. The following public notices have been published in the newspapers listed below each advertisement. These newspaper advertisements for construction permit applications were published on one of the following dates: March 31, April 1, or April 2, 2009. Public notices are generally published every two weeks. The previous publication of public notices was March 19, 2009.

PUBLIC NOTICE

The Tennessee Division of Air Pollution Control (TDAPC) has received requests for construction and/or modification of air contaminant sources as noted below. The proposed construction and/or modification is subject to part 1200-3-9-.01(1)(h) of the Tennessee Air Pollution Control Regulations, which requires a public notification and 30-day public comment period. Interested parties may express their comments and concerns in writing to Mr. Barry R. Stephens, Director, Division of Air Pollution Control, 9th Floor, L & C Annex, 401 Church Street, Nashville, Tennessee 37243-1531 within thirty (30) days of the date of this notice. Questions concerning a source may be addressed to the assigned Division personnel at the same address or by calling 615-532-0554.

Individuals with disabilities who wish to participate should contact the Tennessee Department of Environment and Conservation to discuss any auxiliary aids or services needed to facilitate such participation. Such contact may be in person, by writing, telephone, or other means, and should be made no less than ten days prior to the end of the public comment period to allow time to provide such aid or services. Contact the Tennessee Department of Environment and Conservation ADA Coordinator, 12th Floor, 401 Church Street, Nashville, TN 37243, 1-866-253-5827. Hearing impaired callers may use the Tennessee Relay Service, 1-(800)-848-0298.

The applicant is Food City Gas N Go #647, with a mailing address of P.O. Box 1158, Abingdon, VA 24212. They seek to obtain an air contaminant permit (Division identification number: 05-0296-01/62702) for construction of a Gasoline Dispensing Facility located at 2135 East Broadway, Maryville, TN 37804. This proposed operation would consist of two gasoline storage tanks and associated gasoline dispensing equipment. Stage I gasoline vapor recovery would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Ms. Hymelia Craig is the assigned Division person.

For the Blount County *Maryville Daily Times* – published once on or before Thursday, April 2, 2009.

The applicant is Cornetech, Inc. with a mailing address of 3300 Old Tasso Road, Cleveland, TN 37312. They seek to obtain an air contaminant permit (Division identification number: 06-0218-03/62468) for modification of a selective catalytic reduction(SCR) catalyst manufacturing plant located on 3300 Old Tasso Road, Cleveland, TN 37312. This existing source consists of four electric calciners and associated equipment to produce SCR systems for air pollution control. Electrical power is used to operate the calciners. Four baghouses are used for pollution control. The requested modification is for the addition of two additional calciners and two additional baghouses. There would be physical construction. Regulated air contaminants emitted by this source would increase. Mr. R. Benjamin is the assigned Division person.

For the Bradley County *Cleveland Daily Banner* – published once on or before Thursday, April 2, 2009.

The applicant is Knox Energy, LLC with a mailing address of 105 Mitchell Road, Oak Ridge, TN 37830. They seek to obtain air contaminant permits for construction of a Gas Compressor Driver (Division identification number: 65-0047-06/62690) located approximately 5 miles on 116 N from Petros, TN. The proposed operation would consist of a 1,340 horsepower natural gas-fired engine used to compress natural gas for transport. The engine would be equipped with a catalytic convertor for control of carbon monoxide, volatile organic

compounds, and nitrogen oxides. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. T. Blake is the assigned Division person.

For the *Morgan County News* – published once on or before Wednesday, April 2, 2009.
