The Tennessee Division of Air Pollution Control (TDAPC) has received a request for modification of air contaminant sources as noted below. The proposed modification is subject to part 1200-03-09-.01(1)(h) of the Tennessee Air Pollution Control Regulations, which requires a public notification and 30-day public comment period. Interested parties may express their comments and concerns in writing to Mr. Barry R. Stephens, Director, Division of Air Pollution Control, 9th Floor, L & C Annex, 401 Church Street, Nashville, Tennessee 37243-1531 within thirty (30) days of the date of this notice. Questions concerning a source may be addressed to the assigned Division personnel at the same address or by calling 615-532-0554.

Individuals with disabilities who wish to participate should contact the Tennessee Department of Environment and Conservation to discuss any auxiliary aids or services needed to facilitate such participation. Such contact may be in person, by writing, telephone, or other means, and should be made no less than ten days prior to the end of the public comment period to allow time to provide such aid or services. Contact the Tennessee Department of Environment and Conservation ADA Coordinator, 12th Floor, 401 Church Street, Nashville, TN 37243, 1-866-253-5827. Hearing impaired callers may use the Tennessee Relay Service, 1-(800)-848-0298.

The applicant is Norandal USA, Inc. with a mailing address of 400 Bill Brooks Drive, Huntingdon, TN 38344. They seek to obtain an air contaminant permit (Division identification number: 09-0012-06, 24, 25, 26, 27, 28/64727) for modification of their Aluminum Melting Operations located at the same address. The existing operations consist of aluminum melting and holding furnaces and associated equipment used to melt aluminum later to be casted into aluminum sheet and foil products. Natural gas is used for fuel. A baghouse, an afterburner, and an absorption column are used for pollution control. The requested modification is to revise the emission factors used to calculate actual emissions generated from the melting and holding furnaces. There would not be physical construction. Regulated air contaminants are emitted by this source. Mr. J. Fuss is the assigned Division person.

For the "Carroll County News-Leader"--publish once as soon as possible.

No alterations to the above are allowed:

Norandal USA, Inc. must pay to place this advertisement in the newspaper. Air Pollution Control must be furnished with one complete sheet from the newspaper showing this advertisement, the name of the newspaper and the date of publication. Mail to John Fuss, Division of Air Pollution Control, 9th Floor, L & C Annex, 401 Church Street, Nashville, Tennessee 37243-1531
