

New Source Review newspaper advertisements for construction permit applications, October 15, 2009. The following public notices have been published in the newspapers listed below each advertisement. These newspaper advertisements for construction permit applications were published on one of the following dates: November 10, November 11, or November 12, 2009. Public notices are generally published every two weeks. The previous publication of public notices was October 29, 2009.

PUBLIC NOTICE

The Tennessee Division of Air Pollution Control (TDAPC) has received requests for construction and/or modification of air contaminant sources as noted below. The proposed construction and/or modification is subject to part 1200-3-9-.01(1)(h) of the Tennessee Air Pollution Control Regulations, which requires a public notification and 30-day public comment period. Interested parties may express their comments and concerns in writing to Mr. Barry R. Stephens, Director, Division of Air Pollution Control, 9th Floor, L & C Annex, 401 Church Street, Nashville, Tennessee 37243-1531 within thirty (30) days of the date of this notice. Questions concerning a source may be addressed to the assigned Division personnel at the same address or by calling 615-532-0554.

Individuals with disabilities who wish to participate should contact the Tennessee Department of Environment and Conservation to discuss any auxiliary aids or services needed to facilitate such participation. Such contact may be in person, by writing, telephone, or other means, and should be made no less than ten days prior to the end of the public comment period to allow time to provide such aid or services. Contact the Tennessee Department of Environment and Conservation ADA Coordinator, 12th Floor, 401 Church Street, Nashville, TN 37243, 1-866-253-5827. Hearing impaired callers may use the Tennessee Relay Service, 1-(800)-848-0298.

The applicant is Giles Industries with a mailing address of 405 South Broad Street, New Tazewell, Tennessee 37825. They seek to obtain an air contaminant permit (Division identification number: 13-0019-05/63058) for construction of a surface coating operation located at the same address. This proposed operation would consist of a caulk applicator and associated equipment used to glue rafters to ceiling board. Because of the amount and type of emissions, the use of air pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants would be emitted by this source. Ms. Hymelia Craig is the assigned Division person.

For Claiborne County "Claiborne Progress" --published once on or before Thursday, November 12, 2009.

The applicant is Crossville, Inc. with a mailing address of P.O. Box 1168, Crossville, TN 38557. They seek to obtain an air contaminant permit (Division identification number: 18-0086-13/63116) for modification of a Natural Gas-Fired Roller Kiln located at 346 Sweeney Drive, Crossville, TN 38555. This existing operation consists of a natural gas-fired roller kiln and associated equipment used to produce ceramic tile. Propane is used as a backup fuel. The requested modification is to increase the emission allowables on the permit. The new emission allowables will be based on stack test results. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be no physical construction. Regulated air contaminants are emitted by this source. Mr. M. Reynolds is the assigned Division person.

For the Cumberland County "Crossville Chronicle"-- published once on or before Thursday, November 12, 2009.

The applicant is UCM Zirconia, Inc. with a mailing address of PO Box 1240 Greeneville, TN 37744. This company seeks to obtain an air contaminant permit (Division identification number: 30-0147-17/63088) for the modification of a grain packaging process located at 109 Coile Street, Greeneville, TN 37744. This source

consists of blending screening and packaging equipment necessary to package coarse grain where emissions will be exhausted to a baghouse for control. There will be physical construction. Regulated air contaminants will be emitted by this source. Mr. Doug Warden is the assigned Division person.

For *The Greeneville Sun* --published once as soon as possible.

The applicant is Modine Manufacturing Company, with a mailing address of 2009 Remke Avenue, Lawrenceburg, TN 38464. They seek to obtain air contaminant permit(s) (Division identification number(s): 50-0056-30/63074P) for construction of a new Fin Machine located at the same address. This proposed operation consists of the fin machine and associated equipment used to produce fins. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. Jim A. Attar is the assigned Division person.

For the Lawrence County "Democrat-Union"--published once on or before Thursday, November 12, 2009.

The applicant is Vulcan Construction Materials, L.P. with a mailing address of P.O. Box 7, Knoxville, Tennessee 37901. They seek to obtain an air contaminant permit (Division identification number: 78-0011-04/63112) for construction of a 1081 hp diesel generator located at 1138 Park Road, Sevierville, TN 37862. This proposed operation would consist of a generator used to provide power for quarry pit dewatering pumps. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants would be emitted by this source. Ms. Hymelia Craig is the assigned Division person.

For Sevier County "Mountain Press" -- publish once on or before Thursday, November 12, 2009.

The applicant is Custom Packaging, Inc. with a mailing address of 1315 W. Baddour Pkwy., Lebanon, Tennessee 37087. They seek to obtain an air contaminant permit (Division identification number: 95-0070-03/62832) for construction of a Corrugated Board Scrap System to be located at the same address. This existing operation consists of one (1) cyclone, baler and associated equipment used to collect and recycle corrugated scrap produced during package manufacturing. A cyclone is used for pollution control. There would be no physical construction. Regulated air contaminants are emitted by this source. Ms. Elizabeth Peeler is the assigned Division person.

For the Wilson County "Lebanon Democrat" -- published once on or before November 6, 2009.
