Subject: **Class <sup>1</sup> Modification of Hazardous Waste Management Permit TNHW-131 to Integrate Hazardous Waste Combustor Maximum Achievable Control Technology Standards Resulting from a Comprehensive Performance Test on Boiler 22**

On January 27, 2011, the Director of the Tennessee Department of Environment and Conservation, Division of Solid Waste Management (DSWM) approved a Class <sup>1</sup> modification of Hazardous Waste Management Permit TNHW-131 in accordance with the requirements of Tennessee Rules 1200-01-11-.07(9)(c)5(i)(II) and 1200-01-11-.07(12)(a)1(i)(II), to revise relevant permit conditions upon documenting compliance with Maximum Achievable Control Technology (MACT) standards codified as 40 CFR Part 63 Subpart EEE (§§63.1200 through 63.1221), the National Emission Standards for Hazardous Air Pollutants (NESHAP) for Hazardous Waste Combustors (HWC), commonly referred to as the HWC MACT. In accordance with Rule 1200-01-11-.07(9)(c)5(i)(II), the permittee may put into effect Class 1 permit modifications identified in Appendix I in paragraph (10) of the Rule by a <sup>1</sup> only with the prior written approval of the Commissioner or his authorized representative. Questions regarding the processing of the permit modification can be addressed to Mr. Richard A. Whitson, P. E., Johnson City Environmental Field Office, 2305 Silverdale Road, Johnson City, Tennessee, 37601-2162. Questions concerning the modifications can be directed to Mr. Keith Harris with Eastman Chemical Company at (423) 229-3926 or by mail at P. O. Box 511 – B-54D, 5<sup>th</sup> Floor, Kingsport, Tennessee, 37662.
