

PUBLIC NOTICE
REVISED NOTICE OF TEMPORARY AUTHORIZATION TO INCREASE THE
WEEKLY TREATMENT CAPACITY LIMIT FOR THE OPEN BURN UNIT
Kilgore Flares LLC
EPA ID NUMBER (TND 981026594)

Kilgore Flares Company (Kilgore), EPA ID Number TND TND981026594, submitted to the Tennessee Division of Solid Waste Management (DSWM) a request for Temporary Authorization to increase the treatment capacity limit at its open burn unit (OBU) from 5,000 pounds a week to 7,500 pounds a week. The daily burn limit is to remain at 1,500 pounds. The Temporary Authorization is for a term of not more than 180 days and may be reissued for one additional term of up to 180 days.

Kilgore currently treats hazardous waste pyrotechnics generated during the manufacturing process at Kilgore's main facility at the OBU on Keller Road. Kilgore's main production facility is located at 155 Kilgore Drive, Toone, Tennessee 38381, and the address for the open burning unit (OBU) is Keller Road, Toone, Tennessee, 38381.

Kilgore operates the OBU as an interim status facility under the standards established in Tennessee Hazardous Waste Management Regulations for an existing hazardous waste treatment facility. During the period of Temporary Authorization Kilgore will be working with the DSWM to complete the processing of a finalized Hazardous Waste Treatment Permit which includes the increased weekly treatment capacity.

Further information on this matter can be obtained by contacting either Will Ownby, Environmental Manager, Kilgore Flares Company [(731) 228-5280; wownby@kilgoreflares.com] or Al Frakes of the DSWM [(615) 532-0855; Albert.Frakes@tn.gov]
