

NOTICE OF RECEIPT OF THE PERMIT RENEWAL APPLICATION FOR MILAN ARMY AMMUNITION PLANT

Milan Army Ammunition Plant (MAAP) submitted a Part A and Part B Hazardous Waste Management Permit Renewal Application on August 20, 2010, to the Tennessee Department of Environment and Conservation's (TDEC's) Division of Solid Waste Management (DSWM). The application is for the renewal of MAAP's current permit (TNHW-104) to continue to store hazardous waste in containers at its facility located at 2280 Highway 104 West in Milan, Carroll and Gibson Counties, TN 38358 (see map). The Pre-Application Public Meeting was conducted by the facility on September 30, 2010, as required by Tennessee Rule 1200-01-11-.07(2)(c)3(i). Several members of the community attended the meeting, and questions/comments concerning the renewal application were addressed during the meeting.

MAAP (EPA ID No.: TN0 21 002 0582) is a government-owned, contractor-operated military industrial installation that loads, assembles and packs ammunition items; handles and stores strategic and critical materials; and performs production quality assurance functions in support of procurement and production. The current permit, issued on February 16, 2001, is effective for ten years. This permit allows the facility to store hazardous waste in 16 container storage units. The total storage capacity for solid waste is 284,360 gallons, and the total liquid waste capacity is 101,938 gallons. No changes in the storage capacities or container storage units are proposed in the renewal application.

Tennessee Hazardous Waste Management Regulations (Regulations) require that the facility submit the permit renewal application at least 180 days before the current permit expires on February 16, 2011, thus enabling the facility to continue to operate under the current permit until another permit is issued or denied. Renewal of this permit will allow the facility to continue its operation for an additional ten years.

The permit renewal application also provides information on all solid waste management units (SWMUs) and Areas of Concern (AOCs) at the facility, including any previous or ongoing investigations or corrective actions for any releases of hazardous wastes or hazardous constituents. The conditions of this permit will require that any future and existing SWMUs or AOCs be evaluated for potential releases and remediation, as necessary. Requirements for Land Disposal Restrictions and Air Emissions Standards will also be included in the renewal permit.

As set forth in the Regulations, a complete permit application, consisting of a Part A and a Part B, must include certain text, drawings and other information adequate to demonstrate that the facility will comply with the various technical, administrative, and financial standards applicable to such a facility. Evaluation of the renewal application involves an in-depth review of the application materials by DSWM staff and subsequent correspondence between DSWM and the facility identifying and correcting any deficiencies in the submitted information. Once it determines the application is complete, DSWM will make a tentative decision to either grant or deny the permit and issue either a draft permit or a notice of intent to deny the permit. A draft permit would also include conditions regulating both the operational units and SWMUs and AOCs at the site. Public Notice will be given of this tentative decision, and the public will have

at least 45 days to submit written comments on the draft permit/proposed action. A public hearing, if requested, may also be held to receive public comments within this public comment period. After considering the public comments received and making any appropriate revisions, the DSWM director will issue a final permit decision to either issue a final permit or terminate the existing permit. A Response to Comments will also be issued at that time.

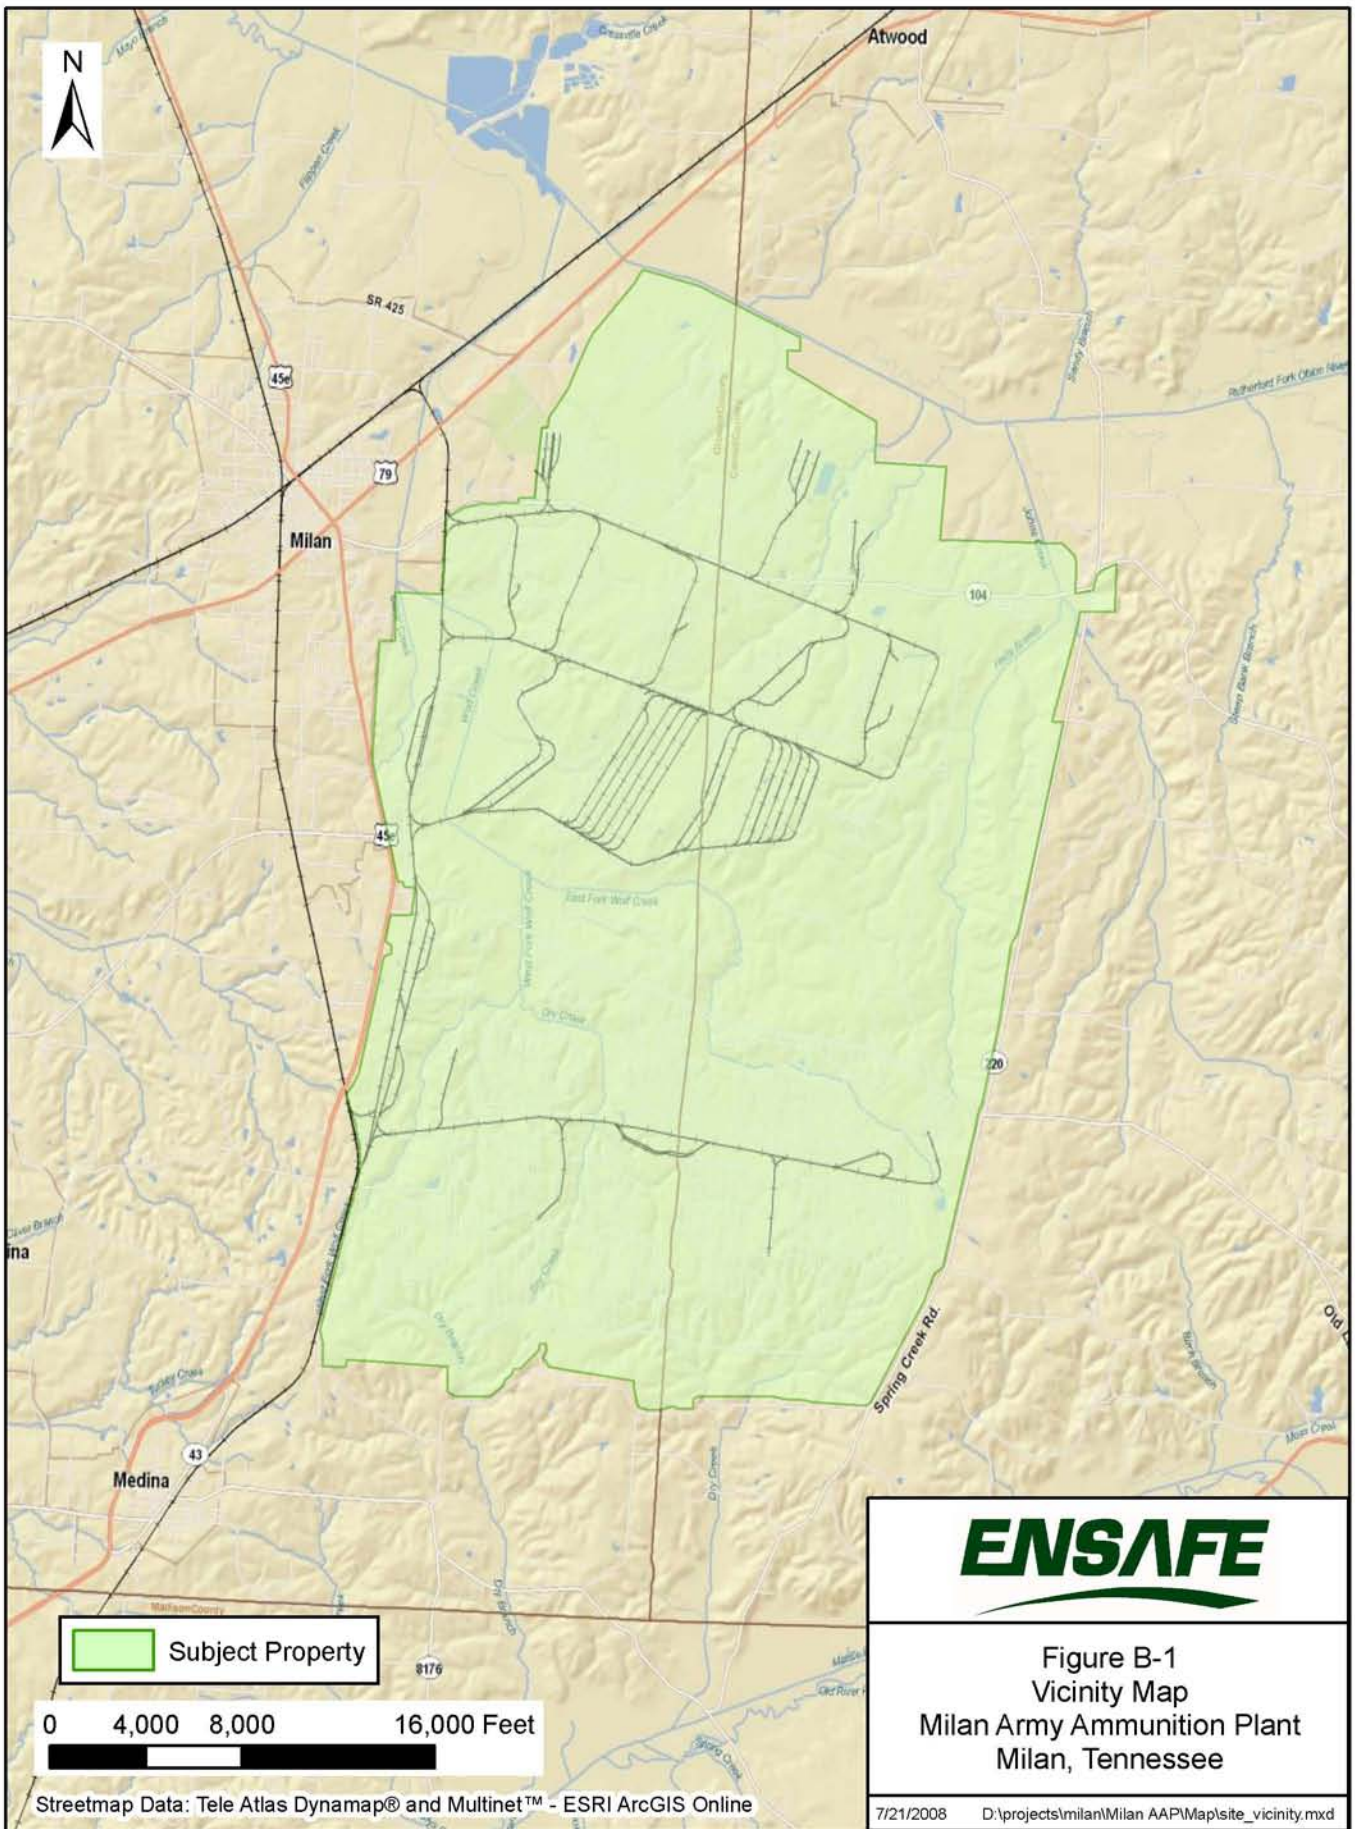

Interested persons may view the renewal application at any of the following locations: Mildred G. Fields Memorial Library, 1075-A East Van Hook Street, Milan, TN 38358 (731-686-8268), TDEC's Jackson Environmental Field Office, Public Access Area, 1625 Hollywood Drive, Jackson, TN 38305 (731-512-1300); and TDEC's Nashville Central Office, 401 Church Street, Nashville, TN 37243-1535 (615-532-0780). Normal state office hours are 8:00 a.m. to 4:30 p.m. on weekdays, excluding legal holidays.

Further information on this matter may be obtained by contacting: Mr. William R. Corrigan; Milan Army Ammunition Plant; 2280 Highway 104 West, Suite 1; Milan, TN 38358-3176 (731-686-6911). Also information, opinions, and inquiries may be directed throughout the permit review process to Ms. Dilraj Mokha; Treatment, Storage and Disposal Section; Division of Solid Waste Management; TDEC; 5th Floor, L & C Tower; 401 Church Street; Nashville, TN 37243-1535 (615-532-0821), fax 615-532-0886 or e-mail Dilraj.Mokha@tn.gov.

Persons wishing to be on DSWM's mailing list should request a Mailing List Request form by calling or writing: Public Participation Officer; Division of Solid Waste Management; Tennessee Department of Environment and Conservation; 5th Floor, L & C Tower; 401 Church Street; Nashville, Tennessee 37243-1535; phone 615-532-0798 or e-mail Solid.Waste@tn.gov.

TDEC is committed to principles of equal opportunity, equal access, and affirmative action. Contact the EEO/AA Coordinator at 1-888-867-7455 or the ADA Coordinator at 1-866-253-5827 for further information. Hearing impaired callers may use the Tennessee Relay Service (1-800-848-0298).
