Service Definitions

Tennessee Prevention Network

The Tennessee Prevention Network is a statewide prevention program directed at providing primary prevention services to individuals who have not been determined to require treatment for substance abuse. The array of services falls into two (2) categories: (1) *Selective* prevention services which include programs and practices that are delivered to sub-groups of individuals identified on the basis of their membership in a group that has an elevated risk for developing substance abuse problems. An individual's personal risk is not specifically assessed or identified and is based solely on a presumption given his or her membership in the at-risk subgroup. (2) *Indicated* prevention services which include programs that focus on populations that are identified on the basis of individual risk factors or initiation behaviors that put an individual at high risk for developing substance abuse problems. The individuals targeted at this stage, although showing signs of early substance use, have not yet reached the point where a clinical diagnosis of substance abuse can be made.

Comprehensive Alcohol, Tobacco, and other Drug Prevention Services for Youth

The Prevention Program (PP) consists of structured, intensive group sessions targeting youth who may be at risk for developing alcohol, tobacco, or other drug (ATOD) use and abuse problems. The sessions should be age-specific, developmentally appropriate, include a parent component, and include a community service project that strengthens commitment against ATOD use and abuse.

School Based Liaisons for At Risk Youth

The School Based Liaisons for At Risk Youth service is the provision of face-to-face consultation with classroom teachers to assist them in structuring the classroom to enhance the learning environment for children with Serious Emotional Disturbance (SED), behavior problems, or Substance Use and Abuse Disorders (SUAD). Training and education regarding childhood mental health and substance abuse will be provided to classroom teachers, school staff, and students to promote a healthy teaching environment. The SBL-ARY will provide liaison support between family and school and will assist parents and youth with the Individualized Education Plan (IEP) process.

Partnership For Success Project

The Partnership for Success project is an \$11.5 million grant from the Substance Abuse and Mental Health Services Administration (SAMHSA) to reduce alcohol binge drinking among the state's 14-25 year olds. The five year project began on October 1, 2009, and funds twenty Tennessee Community Prevention Coalitions (CPCs). The CPCs involved in the project are located in the following counties: Blount, Coffee, Davidson, Franklin, Hamblen, Hamilton, Jackson, Johnson, Knox, McMinn, Madison, Maury, Putnam, Roane, Rutherford, Scott, Shelby, Sumner, Washington, and Weakley. The project is designed for participating CPCs to implement evidence-based and emerging practices to positively impact the policies, practices and attitudes that currently support unsafe alcohol consumption and create a hazard to public safety in communities across the state. The project's goals are to reverse the state's upward trend in binge drinking; prevent the onset and progression of substance abuse among 14-25 year olds; strengthen prevention capacity and infrastructure at the state and county levels; and leverage, redirect, and realign Tennessee's funding streams for prevention services.

Service Definitions

Developing Coalitions

The Developing Coalitions program is one through which Substance Abuse Prevention Coalitions (SAPCs) who are in the infancy stages of development complete a comprehensive community plan that includes: an Assessment of Need; a Capacity Assessment; a Planning Process; an Implementation Plan as described by the Substance Abuse and Mental Health Services Association's Strategic Prevention Framework process.

Tennessee Technical Assistance Program (TN TAP)

The Tennessee Technical Assistance Program (TN TAP) will provide designated Substance Abuse Prevention Coalitions (SAPCs) with the skills, education, and information necessary to develop and implement alcohol and drug abuse prevention programs in their own communities using the U.S. Department of Health and Human Services' Substance Abuse and Mental Health Services Administration's (SAMHSA's) Strategic Prevention Framework (SPF).

The Tennessee Teen Institute

The Tennessee Teen Institute is a five-day assembly to provide education and training in youth development, leadership and prevention. TTI offers various formats of training, including workshops, seminars, and activities that help young people grow to be strong, healthy individuals who will not only see the value of their communities, but will have the skills needed to make a difference in those communities in which they live. TTI 2010 will be held on the campus of Austin Peay State University the week of June 14-18 and will host approximately 400 teen leaders, adult advisors, and TTI staff. These participants leave TTI motivated not only to make healthy decisions in their own lives, but also committed to work so that others are making healthy decisions as well.

Higher Education

The Tennessee Independent Colleges and Universities Association (TICUA) engages Tennessee's private colleges and universities to work collaboratively in areas of public policy, cost containment, and professional development to better serve the state and its citizens. TICUA's 35 member colleges and universities educate more than 72,000 students from across the state, country, and throughout the world.

Tennessee Prevention Network

TDMH Region 1

Agency Name: Comprehensive Community Services (CCS)
Address: 2514 ½ Wesley St., Suite 5
Johnson City, TN 37601
Counties Served: Greene, Sullivan and Washington
Contact: Vanessa Scott (423) 928-6581 vscottmail@aol.com
Website: www.ccsTreatment.com

Program Description:

CCS's Prevention Program is one of the means used to accomplish our mission "to prevent or alleviate the problems associated with the use of alcohol or other drugs." Our Prevention Program encompasses three (3) prevention models which are used to prevent the use of alcohol and other drugs for our targeted audience. 1) Prime for Life – (Lifestyle Risk Reduction Model for ages 13-24); 2) Reconnecting Youth – (SAMHSA Model Program for ages 14-18); 3) Moral Reconnection Therapy (MRT) – (SAMHSA Model Program for ages 14-18). CCS selects curriculum from the three (3) models and adapts them to meet the need of the individual/group, i.e. domestic violence, shoplifting, underage drinking, responsible living, and other topics. Using this method offers the Substance Abuse Prevention Specialist the ability to assign homework that will help the individual between prevention groups. These programs are five (5) week programs offered two (2) days a week for two (2) hours each group. CCS serves the following populations: Selective Subgroups; a) Juvenile Offenders; and b) Children of Substance Abusing Parents and Indicated Populations; a) Adolescent binge drinking and excessive alcohol use (age 13-18) and associated problems; b) Young adult binge drinking (ages 18-24) and associated problems; c) Inhalant use (ages 10-16) and associated problems; d) Adolescent prescription drug use (ages 13-18) and associated problems; and e) Adolescent co-occurring disorders (ages 13-18) and associated problems. CCS will serve 80 participants in our prevention program, who have not been clinically diagnosed as requiring alcohol or other drug treatment, between the ages of 10-24 depending on the screening results. CCS will serve 80 participants during July 1, 2010, through June 30, 2011. Residents of Greene, Sullivan and Washington Counties are eligible to participate in CCS's Prevention Program and may or may not be court ordered.

Population Served:

Juvenile Offenders; Children of Substance Abusing Parents; Adolescent binge drinking and excessive alcohol use (age 13-18) and associated problems; Young adult binge drinking (ages 18-24) and associated problems; Adolescent prescription drug use (ages 13-18) and associated problems; Adolescent co-occurring disorders (ages 13-18) and associated problems.

Agency Name: Cross-Roads Area Alcohol and Drug Association**Address:** 413 East Elk Ave.
Elizabethton, TN 37643**Counties Served:** Carter, Johnson and Unicoi**Contact:** Teresa Blevins (423) 543-7828 x 20adiah4302@hotmail.com**Program Description:**

Cross-Roads Area Alcohol and Drug Association serves three counties in upper-east Tennessee, Johnson, Carter and Unicoi Counties. These counties serve an Indicated target group aimed at 170 adolescent students ages 10-18 who have been in trouble with the juvenile justice system, are in state's custody or on state probation and who attend an Alternative High School. We work with a variety of evidence-based programs so as to better target an individual students specific area of improvement. These programs include 1) Drug Prevention with early adolescent binge drinking and/or drug use with associated problems thereof using the Project Towards No Drug Use; 2) Anger Management with adolescents who show inappropriate aggression towards peers and/or authority figures using the Positive Action Program; 3) Truancy Prevention with identified youth at elevated risk for school failure using the Positive Action Program; 4) Alternative High School Curriculum for those who have a significantly higher risk of poor academic success and discipline problems using the Positive Action Program. These programs are offered one day a week for one hour per day for ten weeks. We also serve an average of 20 juvenile offenders with early initiation tobacco usage who attend a four week program offered one day per week for one hour per day using the Life Skills-Immediate Effects of Tobacco. Finally, we have an Indicated target group that serves an average of 30 parents with children that have been referred to the Unicoi County juvenile justice system one or more times within the last 2-3 years. These parents attend a twelve week program offered one day per week for three hours per day using the Nurturing Parenting Program for Adults and Adolescents.

Population Served:

Juvenile Offenders; Parents of Juvenile Offenders (Unicoi County)

Agency Name: Frontier Health
Address: 1167 Spratlin Park Dr.
Gray, TN 37615
Mailing Address: P.O. Box 9054
Gray, TN 37615
Counties Served: Hancock, Hawkins and Sullivan
Contact: Jill White (423) 224-1083 jgwhite@frontierhealth.org
Website: www.frontierhealth.org

Program Description:

Frontier Health offers an after school, substance abuse prevention and intervention program that uses the SAMSHA evidence based curriculums Too Good For Drugs (TGFD) and Guiding Good Choices (GGC). TGFD is based on a curriculum composed of 10 weekly sessions, 1 hour each. It focuses on developing personal and interpersonal skills to resist peer pressure, goal setting, decision making, bonding with others, having respect for self and others, managing emotions, effective communication, and social interactions. GGC is a drug use prevention program that provides parents of children with the knowledge and skills needed to guide their children through early adolescence. It seeks to strengthen and clarify family expectations for behavior, enhance the conditions that promote unity within the family, and teach skills that allow children to resist drug use successfully. It consists of a five session curriculum. In addition to the two curriculums used, we will provide services to students who qualify dealing with drug free activities such as arts and crafts, martial arts, gymnastics or dance instruction and any other sports/recreational activity. Students will participate for 3 hours each week for 10 weeks. We will be serving a selected population of children with substance abusing parents and 2 indicated populations of students who have had early initiation of alcohol and drug use and associated problems and those who have excessive use of alcohol and drug use. We will serve approximately 150 students in Hancock, Hawkins and Sullivan county. Those students eligible will be those who have used alcohol, tobacco and/or some other kind of drug before the age of 13 or who are at risk of using alcohol, tobacco and/or some other kind of drug. We will target school aged students (ages 10-18).

Population Served:

Children of Substance Abusing Parents; Early initiation (age 13 and under) of Alcohol and drug use and associated problems; Adolescent high rate/ excessive use of alcohol and/or drugs (ages 13-18).

Agency Name: Anderson County Schools
Address: 101 S. Main St., Suite 501
Clinton, TN 37716
County Served: Anderson
Contact: Kent Bailey (865) 200-1790 kbailey@acs.ac
Website: www2.acs.ac

Program Description:

The Adventure Counseling and Survival Experience for School Students (ACSESS)/ Breakaway Program is a multi dimensional substance abuse prevention program that services a selective population of 55 families of Anderson County, TN. This program address's the needs of juvenile and campus court offenders that are at high risk for substance abuse. ACSESS/ Breakaway utilizes a holistic approach to educating and developing resistant skills for the youth and families that it serves. The program centers around a family based approach to dealing with substance abuse prevention, family management issues, self-efficacy, and improved academic performance. The ACSESS / Breakaway program utilizes an adventure based counseling model, and therapeutic wilderness experience to educate and equip its participants with the tools necessary to prevent future alcohol and drug use. This approach includes 10 weeks of programming with a 2 hour weekly session and a 4-day therapeutic wilderness experience for high school students. Middle school students participate in 7 weeks of programming with a 1.5 hour weekly session and up to 5 days of adventure activities. Families of the participants also engage in the weekly session with up to 22 contact hours over the course of the program.

Population Served:

Anderson County Schools Campus Court Offenders

Agency Name: Cherokee Health Systems
Address: 2018 Western Ave.
Knoxville, TN 37921
Counties Served: Cocke, Grainger, Hamblen, Jefferson and Union
Contact: Larry "Brad" Smith (423) 586-6553 brad.smith@cherokeehealth.com
Website: www.cherokeehealth.com

Program Description:

The elementary and middle schools within the service area will provide access to the targeted population. Students will be referred to the program via guidance counselors, teachers, and other school administrators, as well as case managers in the community. After the students have been referred to the program, the Adventure Quest Counselor gives permission forms for the program to go to the parents. When the permission forms are returned, the counselor can then conduct a screening interview to determine eligibility for the program. If it is determined that the student has risk factors that make him/her at-risk for future alcohol and drug abuse, then the student will be able to participate in Adventure Quest as a part of the corresponding selective or indicated population.

Population Served:

Economically disadvantaged as determined by student's acceptance for free/reduced lunch program at the school; Experiencing Family Disruption as determined by one of four characteristics 1) Guardian is someone other than parents. 2) Single-parent home 3) ATOD abuse by parent, sibling, or other individual in the home. 4) Abuse victim, domestic violence situation. *School:* As determined by one of three characteristics 1) Pattern of office referrals, detention, or suspension; 2) Pattern of absenteeism; 3) Academic failure; *Personal:* As determined by one of two characteristics 1) Student has a diagnosis that requires medication (i.e. ADD, ADHD), 2) Poor social skills; Early initiation (age 13 and under) of alcohol and drug use and associated problems.

Agency Name: Children's Center of the Cumberland's
Address: 22510 Alberta St.
Oneida, TN 37841
Mailing Address: P.O. Box 4797
Oneida, TN 37841
County Served: Scott
Contact: Angel Sexton (423) 569-8900 angelsexton@highland.net
Website: www.childrenscenterofthecumberlands.org

Program Description:

Through the Scott County Drug-Free Youth Program, the Children's Center of the Cumberland's (CCC) will provide Primary Prevention to youth in Scott County to ensure a safe community for our children. We will provide services to youth who show indicators of behaviors that put them at high risk for developing substance abuse problems by providing mentoring and/or group intervention services. The psycho-educational groups will focus on high risk youth who would benefit from additional education regarding risks and consequences resulting from substance use. Participants will be those who have been exposed to drug and/or alcohol through their family or community and have a high risk for developing on-going substance abuse problems. The educational groups will teach daily living skills, interpersonal skills, and in-depth awareness of problems surrounding substance use. The educational groups will be conducted after school hours at the Children's Center of the Cumberland's. The evidenced based curriculum Life Skills and Lion's Quest will serve as our methods of education. Youth enrolled will participate in 2 hours of group work weekly, consisting of 15 weeks. Upon completion, participants will receive a certificate of attendance and graduate from the program. Mentoring will focus upon high risk children that would most benefit from personal and academic support. Participants will be those who have been identified as high risk youth, whom are children of substance abusing parents or guardians. These high risk behaviors can include, but are not limited to, academic failure, truancy, behavioral problems, continued contacts with school administrators and referrals to juvenile justice systems. The program will help at risk youth focus upon their educational and personal values through intensive mentoring and academic support. The program will consist of approximately 15 weeks of mentoring. The STAND (Schools Together Allowing No Drugs) Program offers a wide variety of drug education and counseling services to youth in Scott County, grades 6-12. The counseling sessions are conducted on an average of eight to fifteen weeks for all students testing positive to drugs or alcohol within the school system. The program is provided after school hours at the school. The Keepin' It Real curriculum serves as a learning tool for future drug preventative strategies.

Population Served:

Children of Substance Abusing Parents; Early initiation (age 13 and under) of alcohol and drug use and associated problems; Adolescent binge drinking and excessive alcohol use (age 13-18) and associated problems; Adolescent high rate/ excessive use of alcohol and/or drugs (ages 13-18); Inhalant use (ages 10-16) and associated problems; Adolescent prescription drug use (ages 13-18) and associated problems.

Agency Name: Helen Ross-McNabb Center
Address: 2455 Sutherland Ave
 Knoxville, TN 37919
County Served: Knox
Contact: Tom Torkelson (865) 544-5005 tom.torkelson@mcnabb.org
Website: www.mcnabbcenter.org

Program Description:

The Life Skills Training program is for 80 Juvenile offenders referred from Knox County Juvenile Court. This selective population is at high risk for experimentation and onset use of AOD. The program services include 15 weeks of groups in which Life Skills Training Evidence Based Curriculum is used. Groups are after school during high risk hours for exposure to and/or usage of AOD. Groups are from 4:30 to 7:30 weekly.

Population Served:

Juvenile Offenders

Agency Name: Helen Ross-McNabb Center
Address: 201 W. Springdale Ave.
 Knoxville, TN 37917
County Served: Knox
Contact: Kristin Bradley (865) 329-5818 krisitn.bradley@mcnabb.org
Website: www.mcnabbcenter.org

Program Description:

The TRACS program is based off of the 14 week Strengthening Families Evidence Based curriculum. Groups are held weekly for four hours with an additional hour-long individual case management visit offered. Groups are held after school, during high risk times for exposure/pressure to use drugs and/or alcohol. Groups are held from 4:00-7:00 p.m., three times a week. During the weekly group sessions, the teens and parents meet separately and then come together for the family session during the last hour. During the family session, families are able to practice the skills they have learned in their separate groups. The population being served is a selected population of 10-16 year olds and their families. These participants are from economically disadvantaged homes and have experienced residential disruption. The program will serve approximately 120 youth and 80 parent/caretakers a year. Youth between the ages of 10 and 16 that meet at least one of the criteria and reside in Knox County are eligible for the program.

Population Served:

Foster Care Children; Children of Substance Abusing Parents; Poor Academic Performance, witnessing violence/trauma in the home.

Agency Name: Ridgeview Psychiatric Hospital and Center, Inc.
Address: 240 West Tyrone Road
Oak Ridge, TN 37830
Counties Served: Anderson, Campbell, Morgan, Roane and Scott
Contact: Amy Olson (865) 481-6170 ext. 1162 olsonaa@ridgevw.com
Website: www.ridgevw.com

Program Description:

Ridgeview offers a school based substance abuse prevention and intervention program that utilizes the SAMHSA evidence based curriculum Too Good for Drugs and Violence Program (TGFDV). This program is based on a core curriculum composed of 14 weekly, 1 hour lessons and builds on students' resiliency by teaching them how to be socially competent and autonomous problem solvers. TGFDV focuses on developing personal and interpersonal skills to resist peer pressures, goal setting, decision making, bonding with others, having respect for self and others, managing emotions, effective communication, and social interactions. The program also provides information about the negative consequences of drug use and the benefits of a nonviolent, drug free lifestyle. It contains a pre-post test and assessments to measure changes in students' knowledge, skills, attitudes, and behaviors. This program is offered for an indicated population of students in the 7-12 grades in Anderson, Morgan, Campbell, Scott and Roane county schools. The TGFDV program will serve a minimum of 125 students per school year, by targeting 25 students in each county. Referrals to the program may come from school staff, parents or the students themselves and each referral must complete a screening tool and meet criteria to be enrolled in the program.

Population Served:

Early initiation (age 13 and under) of alcohol and drug use and associated problems; Adolescent binge drinking and excessive alcohol use (age 13-18) and associated problems; Adolescent high rate/ excessive use of alcohol and/or drugs (ages 13-18); Inhalant use (ages 10-16) and associated problems; Adolescent prescription drug use (ages 13-18) and associated problems.

Program Description:

Positive Action is a nationally recognized, evidence-based program that has been improving academics, behavior, and character for the benefit of individuals, families, schools, and communities for 25 years. The Positive Action philosophy is that you feel good about yourself when you think and do positive actions, and there is always a positive way to do everything. This program targets children and adolescents in from 5th grade to 12th grade (typically between ages 11 and 18) with one or more of the following associated risks: high school drop-out risk, involved in foster care, involved in the juvenile justice system and/or have parents who are substance abusers. In addition, the program will work with indicated groups of children/adolescents who are at high risk or involved in early initiation of alcohol and drugs, or those who are actively using alcohol and drugs. The number of persons served will include 650 children/adolescents and 30 families.

Population Served:

High School Dropouts – seen at High Schools, GED programs, Goal Academy, and VBHCS facilities; Foster Care Children – seen at DCS offices, VBHCS facilities, schools, and after-school facilities; Juvenile Offenders – seen at courthouses, schools, VBHCS facilities, and after-school facilities; Children of Substance Abusing Parents – seen at schools and VBHCS facilities; Students at risk of dropping out of school; Early initiation (age 13 and under) of alcohol and drug use and associated problems;- seen at schools, courthouses, and VBHCS facilities; Adolescent high rate/ excessive use of alcohol and/or drugs (ages 13-18); - seen at schools, courthouses, and VBHCS facilities.

Program Description:

Bethlehem Centers of Nashville's Say Yes To Success Program targets Middle School Youth in Grades 5-8 who reside in North Nashville. BCN uses the All-Stars evidenced-based curriculum as the basis for its prevention program. The domain will be classified as community and the dosage and duration will include meeting with approximately 20 youth per quarter or over a twelve-week period at three-times per week. The program sessions are slated for 2-hour periods per session meeting days. The SYTS sessions will offer participants prevention education, community pride and appreciation activities to value-add alternatives that include social competency skills training, character education, academic enrichment activities, fitness and positive alternative field trips. We serve a total of eighty (80) youth in a school year.

Population Served:

Selective prevention services are given to an estimated 80 middle school age youths in grades 5-8 that reside in the North Nashville area.

Children (ages 6 to 16) of incarcerated parents.

Agency Name: Centerstone Community Health Centers, Inc.
Address: 1101 6th Ave. North
Nashville, TN 37208
Counties Served: Dickson, Giles, Humphreys, Lawrence, Lincoln and Montgomery
Contact: Camille Lashlee (615) 460-4590 camille.lashlee@centerstone.org
Website: www.centerstone.org

Program Description:

The *Be Sharp* program will serve 260 youth, ages 11-18, in Cheatham, Dickson, Giles, Hickman, Humphreys, Lawrence, Maury, Montgomery, and Robertson counties. A Selective population of youth identified as being a potential high school dropout, in foster care, a juvenile offender, living at or below poverty level, or has an active or veteran military family member, will be referred by local community agencies or organizations to receive services. Once parental / caregiver permission is received, Centerstone Prevention Specialists will facilitate 10 weeks [2 hours per week] of program services to small groups at a community site [school, community center, local agency, etc.]. Weekly sessions include one hour of education, using the evidence-based *Keepin' it REAL* curriculum materials as designed, supplemented by one hour dedicated to a service-learning component. When needed, two additional weeks of services may be provided to each group in order to complete the selected service project or to administer evaluation instruments. Interactive and engaging activities allow youth participants to gain knowledge and competence to resist and avoid risks associated with substance use. Involvement in a service project will allow program participants to apply skills learned and bond with their communities.

Population Served:

High School Dropouts, Foster Care Children, Juvenile Offenders, Low-Income, Active/Veteran Military Family Member, Youth with Substance Abusing Family Member.

gflaming1@comcast.net

Program Description:

The ASK-PEP Program incorporates pre and post test for youth and parents who participate in a (15) week program offered two days a week and two hours per session. The ASK-PEP Program serves young men and young women along with their parents and siblings. There are separate groups for young men and young women with two facilitators in each group. Parents meet in a group focusing on parent ATOD and managing at risk youth. Both groups meet for an hour and then come together to share a nutritious meal and engage in discussion concerning session topics designed to improve family communication. The ASK-PEP Program serves approximately 100 youth, parents and siblings in Davidson County referred from Juvenile Court adjudications. The ASK-PEP Program serves young men and women between the ages of 13-18 and their families.

Population Served:

Juvenile Offenders and their parents

Agency Name: Nurses for Newborns
Address: 50 Vantage Way, Suite 101
Nashville, TN 37228
Counties Served: Davidson, Hamilton, Maury, Montgomery, Robertson, Rutherford, Sumner and
Williamson
Contact: Ms. Vicki Beaver, RN, MSN (615) 313-9989 vicki.beaver@nfnf.org
Website: www.nfnf.org

Program Description:

Nurses for Newborns of Tennessee uses Motivational Interviewing (MI) to engage clients to explore and resolve their ambivalence towards change. This includes educating them on the risks of using ATOD during and after pregnancy. This approach helps to empower young women and gives them confidence to make positive and productive next-steps. Our selected population consists of pregnant and post-delivery teenage mothers who previously engaged in risky behavior (i.e. sexual intercourse). Our indicated population consists of women of childbearing age with a history of a mental health disorder and/or report use of alcohol, drugs or tobacco (an indicated population) with a history of ATOD use and/or a mental health issue, and are the primary caregiver of children (age 0-24 months). Nurses schedule regular home visits that average 60-90 minutes at an estimated 24 times per year, and may stay involved in the case until the child reaches the age of 2 years. Referrals should be directed to the Nurses for Newborns office.

Population Served:

Pregnant & post-delivery teen mothers (ages 13-18); Women of childbearing age who serve as the primary caregiver of their child (ages 0-24 months) and have a mental health disorder and/or report use of alcohol, drugs or tobacco.

Agency Name: Oasis Center, Inc.
Address: 1704 Charlotte Avenue, Suite 200
Nashville, Tennessee 37203
County Served: Davidson
Contact: Dr. Judy Freudenthal (615) 327-4455 jfreudenthal@oasiscenter.org
Website: www.oasiscenter.org

Program Description:

Oasis Center proposes to serve 480 of Davidson County’s most vulnerable youth with the well-researched Teen Outreach Program (TOP) to delay onset of, reduce, and eliminate alcohol and drug abuse. Priority is given to 11 to 18 year olds from these selective groups: youth who are in foster care, juvenile justice involved, in alternative learning centers, at risk of dropping out of schools with high concentration of poverty rates, and acculturating immigrant and refugee youth. TOP’s youth development approach combines school based skill building/discussion groups with in and out-of-school hands-on service-learning projects that typically operates weekly (1 hour group + 2-3 hr. afterschool project) for the entire school year. The duration is shortened at Woodland Hills and Cameron Middle School to better suit their parameters. TOP develops healthy behaviors, life skills, and a sense of purpose as youth contribute to their communities in meaningful ways. We also encourage youth to consider college and create multiple opportunities to interact with first generation college students from similar backgrounds. Summer groups focus on careers, college, and cultural enrichment that further builds and maintain healthy friendships with community members. School success increases while school dropouts, suspensions, course failure, and substance abuse decreases. The TOP Program is currently on more than a dozen national best practice listings.

Population Served:

Foster Care Children; Juvenile Offenders; Acculturating immigrant and refugee youth; and youth in poverty attending schools with 90% rate of free and reduced lunch and at risk for dropping out.

Agency Name: Renewal House
Address: 3410 Clarksville Pike
Nashville, TN 37218
County Served: Davidson
Contact: Amy Diller (615) 255-5222 adiller@renewalhouse.org
Website: www.renewalhouse.org

Program Description:

Renewal House has a residential wrap-around program for addicted women in poverty and their children. The substance abuse prevention program at Renewal House serves the *selective* population of children of mothers living in the Renewal House residential program. Prevention services include Project MAGIC, a research-based program specifically designed for children of mothers struggling with addiction and living at Renewal House. Facilitated by a licensed professional, the Project MAGIC curriculum focuses on topics such as: communication, wellness, self-esteem, anger management, drug awareness and prevention. Typically a family participates in Project MAGIC for six (6) months. Project MAGIC sessions are multi-family activities held on two weekends per month. Except for the quarterly family outings described below, each Project MAGIC session is divided into a half-hour group for children 0-4 years old and their mothers and a one hour group for children ages 4 and older and their mothers. For the final Project MAGIC session in each quarter, all participating children and their mothers are engaged in an outing to a community site/event that typically lasts three hours. The Renewal House prevention program will typically serve 40 children and 35 mothers over the course of a year.

Population Served:

Children of Substance Abusing Parents (mothers living at Renewal House).

TDMH Region 4

Agency Name: STARS-Nashville
Address: 1704 Charlotte Avenue, Suite 200
Nashville, Tennessee 37203
Counties Served: Davidson and Rutherford
Contact: Andrea Reed (615) 983-6806 areed@starsnashville.org
Website: www.starsnashville.org

Program Description:

STARS Nashville will provide Student Assistance Program (SAP) services for 150 students with Individualized Education Plans (IEP), and are at high risk of dropping out of school in 3 Davidson county and 2 Rutherford county high schools with low graduation rates. SAP will utilize several evidence-based programs (All STARS, Brief Intervention, Project SUCCESS, Reconnecting Youth, Young Men's Work, and Young Women's Lives) that reduce substance use and increase graduation rates by providing protective factors that promote better decision making with regard to substance use and future orientation. The program will last for 15 weeks and will consist of meeting 4 hours a week; 1 hour for group sessions, 2 hours after school for service learning projects and 1 addition hour of check-ins throughout the week. In Davidson County the focus will be on students in special education or receiving IEP services who are at risk for both dropping out of high school as well as substance abuse. Rutherford County will administer the program at 2 of the largest high schools in the county; they will receive referrals from graduation coaches and attendance officers that have access to those students who are at risk for not graduating from high school.

Population Served:

Students with Individual Education Plans, and/or students who have been assigned a graduation coach, and have been identified as in danger of dropping out of school.

Program Description:

The Deaf and Hard of Hearing Prevention Services Program (DHHPS) serves the selective population of deaf and hard of hearing youth ages 6-20 and their families in Davidson County. This program focuses on: In-school alcohol tobacco and other drug information via the evidence based program All Stars and PATHS, in-home American Sign Language classes, after-school programs, summer camps, and exposure to post-secondary education and career options. This is an all year program that is available to all deaf and hard of hearing students in Metro Davidson County schools. It serves an average of 47 deaf and hard of hearing youth and 30 family members annually, and offers services five days a week with direct contact ranging from an average of 24 hours per week during the school year and to 35 hours a week during the two month summer camp.

Population Served:

Deaf and hard-of-hearing youth and families in the Metro Nashville School District.

Population Served:

Moral Reconciliation Therapy (MRT) is a systematic treatment strategy that seeks to decrease recidivism among juvenile offenders by increasing moral reasoning. Its cognitive-behavioral approach combines elements from a variety of psychological traditions to progressively address ego, social, moral, and positive behavioral growth. MRT takes the form of group and individual counseling using structured group exercises and prescribed homework assignments. The MRT workbook is structured around 16 objectively defined steps (units) focusing on seven basic treatment issues: confrontation of beliefs, attitudes, and behaviors; assessment of current relationships; reinforcement of positive behavior and habits; positive identity formation; enhancement of self-concept; decrease in hedonism and development of frustration tolerance; and development of higher stages of moral reasoning. Participants meet in groups weekly and can complete all steps of the MRT program in a minimum of 3 to 6 months. Moral Reconciliation Therapy (MRT) is included in SAMHSA's (Substance Abuse & Mental Health Administration) list of evidence-based programs and practices. All MRT groups must be operated by MRT-certified facilitators —professional staff, who complete a 32-hour training. Participants are selected through the juvenile court system, department of human services, parent referral, school guidance counselor or social worker. The majority of participants usually demonstrate behaviors of substance abuse however; we do not exclude participants who are sanctioned for unruly behavior, truancy, theft or disorderly conduct due to the fact that these behaviors typically are underlying issues of substance abuse. We anticipate serving one hundred juveniles this year. Young adult participants are sanctioned through general session's court. We anticipate on serving twenty- five young adults ages eighteen to twenty-five this year. The majority of young adults are sanctioned due to alcohol related offenses.

Agency Name: Jackson Area Council on Alcoholism and Drug Dependency

Jackson, Tennessee 38301
County Served: Madison
Contact: Barry Cooper (731) 423-3653 barryc@jacoa.org
Website: www.jacoa.org

Program Description:

JACOAs substance abuse prevention program will implement the curriculum, Positive Action. Positive Action is an evidence-based, SAMHSA Model program with an integrated, comprehensive, coherent program for schools, families and communities. The curriculum aims to promote character development, social and emotional skills and to reduce problem and disruptive behavior. All lessons are scripted and use various forms of two-way communication such as classroom discussion, role-play, games, songs, activity sheets, and text booklets. The program will be implemented in one setting. This setting targets the selective population, juvenile offenders, or more specifically juvenile offenders ages 15-17 who have been placed on intensive probation by the Madison County General Sessions Division II Juvenile Judge. The program will be delivered to two groups of approximately 8-12 youth that will meet every Tuesday and Thursday for one hour after school in the Walter Baker Harris Jr. Juvenile Court Building. The groups will receive a total of 30 sessions. The program will be offered in the Spring and again in the Fall. After approximately 5-6 weeks, a new group of participants will be added in.

Population Served:

Juvenile Offenders

Agency Name: Pathways of Tennessee, Inc.
Address: 238 Summar Drive

Program Description:

Botvin *Life Skills Training* (LST) is a research-validated substance abuse prevention program proven to reduce the risks of alcohol, tobacco, drug abuse, and violence. This program will serve an estimated 200 selective population students in elementary, middle, high, or alternative schools in Hardeman, Henderson, Lake, Obion and Weakley counties who have committed a delinquent offense, history of poor academic performance, poor parent child relationships, family history of alcohol or drug use, broken homes, low neighborhood attachment, student admitted use of alcohol or drugs past/present and a history of disciplinary problem. In the targeted elementary schools students in grades 3-5 lessons will be offered once a week for one hour for a minimum of 8 weeks and a maximum of 12 weeks. Students in grades 6-8 lessons will be presented lessons once a week for one hour for 15 weeks. Students in grades 9-12 lessons will be presented once a week for one hour for 10 weeks.

Population Served:

Elementary, middle, high, or alternative school students who have committed a delinquent offense, history of poor academic performance, poor parent child relationships, family history of alcohol or drug use, broken homes, low neighborhood attachment, student admitted use of alcohol or drugs past/present and a history of disciplinary problems.

Agency Name: Professional Care Services of West Tennessee
Address: 1997 Hwy 51 South
Covington, TN 38019
Counties Served: Dyer, Fayette, Lauderdale and Tipton
Contact: Lisa Kent (901) 313-1133 lisa.thurman@pcswtn.org
Website: www.pcswtn.org

Program Description:

1) PCS prevention specialist will use a combination of three different curriculums. We are also reviewing other relevant programs and may purchase a new program. However one program to be used will be Too Good for Drugs. This program will mainly be used for the Early Initiation population and focuses on increasing participants decision making skills, more appropriate coping skills, choosing positive peers, refusal skills, including drugs and negative peer group and increasing positive self image. The program is designed to meet with participants one time a week for 45-60 minutes for 12-15 weeks. PCS has two programs that are for elementary age students and middle school students. Both programs will be used, as prevention specialist will work with this indicated population in the schools for 10-14 year olds. Prevention specialist will work with approximately 185-200 children with this indicated population. Students eligible for this program will be individuals in Dyer County, Lauderdale County, Fayette County and Tipton County. The program will be offered in the schools listed in number 7. Students who have been referred by PCS staff, school personal, DCS, parents and local health departments will be eligible to be screened for the program.

2) Project Alert and/or Too Good for Drugs will be used for the juvenile Offender selective population. While both programs focus on improving decision making skills, increasing positive self image and refusal skills, Project Alert goes a little more in depth with alcohol and drug abuse, educating participants on effects of drugs of abuse, legal issues and early warning signs of addiction. Both programs are designed to last 12-15 weeks for 45-60 minutes and will target to serve approximately 30-35 children for the year. This group will meet 2 times a week for the stated 12-15 week period at the Ripley Professional Care office at approximately 3:30 PM. In addition Prevention Specialist can provide this group in Alternative Learning Centers meeting 2 times a week for 15 weeks in all four counties. Since this will be in a school setting the numbers are reflected in the 185-200 youth served in a school setting. Referral will come from, but not limited to; Department of Children Services, School Personal, Lauderdale Juvenile Court (including Probation Offices and Judges) and PCS staff for youth 12-17 years age who are at risk of being placed on probation, first time offenders and/or currently on probation.

3) Co-occurring Disorder Group will use the Hazelden Co-Occurring Program. This curriculum can be tailored to specific problems of the group participants. The program will meet one time a week for 15 weeks with each group lasting 45-60 minutes. Group times will be either after school (if school will allow) or during school hours. Participants will be referred by school personal, PCS staff, Department of Children Services, Medical doctors and/or other mental health counselors who work with children exhibiting symptoms of ADHD, anxiety, conduct problems, high risk of substance abuse and/or social anxiety. The group will be offered for youth 13-16 year olds exhibiting any or all of the above issues in Dyer, Fayette, Lauderdale and/or Tipton counties working with approximately 45-50 youth.

Population Served:

1) Selective: Juvenile Offender Group will be recruited with the collaboration from staff at PCS, Juvenile court, Department of Children Services, truancy officers, school guidance counselors and juvenile probation officers. PCS staff has a good relationship with the above-mentioned individuals and already have established a referral process for the targeted group. Even though this group has had a slow start, referrals have increased over the past month. Staff will continue to increase communication to agencies for appropriate referrals.

2) Indicated: Early initiation groups are established in middle and elementary schools in all four counties. The groups are a huge success and much appreciated by the school personal. A middle school in Dyer County has already asked for this group to be established in their school as well as a new middle school from Fayette County. Guidance counselors, teachers, parents and PCS staff will make referrals to the group. Referral behaviors include but not limited to; experimentation of drugs, negative peer group, emotional/behavioral problems in school and lack of commitment to school. Inclusion criteria include identified problems in the four domains (community, family, school and individual and peers). In addition a history/screening form as well as Rosenberg Self Esteem Test is administered to the child evaluating the domains to determine appropriateness for group.

3) Mental Health: PCS plans to take a different direction and venue for this program next fiscal year. Staff attempted to have this program at the Covington PCS office this past fiscal year using referrals from PCS staff, DCS, school personal and other mental health agencies. We did receive referrals, however transportation was a barrier. Prevention specialist switched gears and is now offering the group after school at Munford High School. The school already has a 'late' bus running in the afternoons the youth can ride home, making transportation more assessable. Plans are to have program in more schools either during or after school for next fiscal year. A referral form is used for youth in this group also. Criteria include but not limited to: substance use, family history of substance use, conduct problems, depression, social anxiety and unpredictable mood.

Agency Name: Tennessee Community Services Agency

Program Description:

CASASTART, a project administered by the Tennessee Community Services Agency, is an evidence-based program serving a selective population of 30 youth with low socioeconomic status, between the ages of 8 and 13, who are at risk of alcohol and drug use and associated problems due to a combination of early initiation of alcohol and drug use and associated problems (School behavior or academic problems, family problems and individual problems) and extreme poverty. By forming partnership and collaborations with various community resources such as Operation Excel, YMCA, APSU, CASASTART is able to provide after school enrichment 3 afternoons per week, Pro-Social activities and participation in community activities events at least one afternoon per week, leadership and life skills development activities at least one afternoon per week and participation in mental toughness seminars at least once per quarter. The CASASTART specialist also provides roundtrip transportation to and from all program activities. These activities occur during the school year. Youth are identified and referred through the school (teacher, family resource center and/or guidance counselor) or the juvenile court.

Population Served:

Students in families that suffer with extreme poverty and/or social deprivation with early and persistent anti-social behavior between the ages of 7-13 that have been identified with behavioral disorders by the schools, courts and or parent.

Program Description:

The Early Risers program is a multi-component that targets elementary school children 6 to 12 years of age who are experiencing early adjustment difficulties that may be linked to later risky behaviors such as substance use. Early Risers is based on the premise early, comprehensive, and sustained intervention is necessary to target multiple risk and protective factors. The program uses integrated child-focused, school-focused, and family focused interventions to move high risk children onto a more adaptive developmental pathway. A family advocate coordinates the child and family focused components, which include: Summer Day Camp, School Year Friendship Groups, School Support, Family Nights and Family Support. Program services will include weekly school based youth groups, monthly home visits, family events throughout the school year and following summer to 100 youth and their families. Eligible youth will be from selective groups of children who failing academically and/or children with excessive absences, including disciplinary problems resulting in risk or occurrence of suspensions identified by school staff within the 4 targeted Memphis City Schools.

Population Served:

Elementary school children in the Frayser area of Memphis, failing academically, with excessive absences, and with school suspensions for behavioral problems.

Contact: Ariane Arnold (901) 523-0217 aarnold@girlsincmemphis.org
Website: www.girlsincmemphis.org

Program Description:

The goal of Girls Incorporated of Memphis *Friendly PEERsuasion* program is to target 50 girls in the 38116 zip code. The selective population of girls between the ages of 12 and 15 who are from low SES households, have a history of behavioral problems (as indicated by school records) and have poor academic performance. Participants will be recruited from Lanier Middle School and referred to the program by school administration. Program services will be offered Tuesday through Friday between the hours of 7:30 am and 5:30 pm. Participants may receive weekly one (1) hour sessions during school and three (3) hours of after-school programming. The *Friendly PEERsuasion* program is a substance abuse prevention program for girls ages 11-15 that: Builds decision making, assertiveness, and communication skills, teaches about short-and long-term effects of substance use, help girls to recognize media and peer pressure, show girls healthy ways to manage stress and prepares girls to teach younger “PEERsuade-MEs” about staying drug and alcohol free. Our program also includes sessions on conflict resolution, team building, anger management, self esteem, and social skills.

Population Served:

Middle school aged females in low SES households with a history of behavior problems, and low academic performance.

Agency Name: Memphis Affiliate of the Congress of National Black Churches
Address: 4384 Stage Rd.
Memphis, TN 38128
County Served: Shelby
Contact: Dr. Walter Green (901) 386-2051 greenws@yahoo.com

Program Description:

The Memphis Affiliate Congress of National Black Churches partners with local churches to provide a comprehensive AOD prevention program for at risk youth in Memphis. The program uses the Project Alert as a core curriculum to help educate the youth as to the dangers of alcohol and other drugs. The MACNBC plans to serve 150 youth classified in the 'selective' population by the Institute of Medicine's Prevention Interventions. Each session for Project Alert will last for 60 minutes once a week for 30 weeks in each of the 10 Covenant Churches (partnering churches). The MACNBC utilizes a faith-based approach to prevention. The Covenant Churches provide instruction, and activities for the youth spiritual, physical, social, behavioral, cultural, and civic development. All of our churches in the program are located in inner city areas, with high crime, and poverty rates. The areas are plagued by drugs, gangs, and other problems. The MACNBC has worked with diverse congregations in Memphis since 1999 to make these communities better.

Population Served:

Low income population/at risk for substance abuse in economically disadvantaged communities.

Agency Name: Memphis City Schools MHC
Address: 2597 Avery Avenue
Memphis, TN 38112
County Served: Shelby
Contact: Dr. Fleetis Hannah (901) 416-5600 hannahfleetis@mcsk12.net
Website: www.mcsk12.net

Program Description:

The Memphis City School Mental Health Center (MCSMHC) Intensive Focus Group Program is a locally-developed prevention/intervention program concerned with the identification of substance use and prevention of deterioration of functioning and condition due to substance use. This is done by providing Intensive Focus Group services to 200 students at the first instance of their coming to the attention of the discipline system of the MCS for an alcohol- or other drug-related offense. Students are screened and assessed in order to determine whether they are in need of more intensive services. The MCSMHC Intensive Focus Group Program meets twice a week for five weeks. While the resulting program is not a pre-packaged or commercial program, program content and activities are driven by theoretical models that underlie many research and evidence-based programs; specifically, Motivational Interviewing, Motivational Enhancement Therapy, Stages of Change, CBT, and Solution-Focused Brief Therapy.

Population Served:

Students, ages 13-18, enrolled in the Memphis City Schools, who 1) receive a suspension and/or expulsion for an alcohol or other drug-related offense (alcohol possession or use, drug possession, or drug use on a school campus or at a school sponsored event or trip), or 2) through some other means (such as a parent or school referral or a health screening at one of the MCS Regional Health Clinics) are identified as a drug user, who are not eligible for a DSM-IV TR diagnosis of substance abuse or dependence.

Tennessee Prevention Network

TDMH Region 7

Agency Name: South Memphis Alliance
Address: 1048 S. Bellevue Blvd.
Memphis, Tennessee 38106
County Served: Shelby
Contact: Reginald Milton (901) 774-9582 milton@smaweb.org
Website: www.smaweb.org

Program Description:

Project Success is a prevention education series focusing on youth in foster care conducted in 6-8 sessions. These sessions will be conducted once per week in small groups of no more than 10 lasting for 1-½ hours each with a maximum of 90 youth. Upon completion of the education series, participants will continue in specially designed individual or group counseling to address issues, which came up during the prevention piece. Parents/guardians may be included based on need and desire.

Population Served:

Children in low socio-economic areas who live in high crime areas who may be children of substance abusing parents and/or foster children.

Comprehensive Alcohol, Tobacco, and other Drug Prevention Services for Youth TDMH Region 2

Agency Name: Boys and Girls Clubs of the Tennessee Valley
Address: 220 Carrick Street, Suite 318
Knoxville, TN. 37921
Counties Served: Anderson, Blount, Fentress, Loudon, Knox & Scott
Contact: Bruce Crabtree (865) 248-1200 ext. 1106 bcrabtree@bgctnv.org
Website: www.bgctnv.org

Program Description:

The Boys & Girls Clubs of the Tennessee Valley's **SMART Moves** grant reaches 358 youth, ages 6 to 15, who attend the Boys & Girls Club and their parents in Knox, Blount, Loudon, Anderson, Scott, and Fentress Counties. **SMART Moves** (an acronym for Skills Mastery and Resistance Training), is a nationally recognized and field tested comprehensive program curriculum, which uses small group activities to teach young people to recognize and resist media influences and peer pressures to engage in alcohol, tobacco, other drug use. The objective of the SMART Moves program is to prevent or delay the onset of alcohol and other drug use by young people, which is accomplished by increasing participants' knowledge about the harmful consequences of alcohol, tobacco, and other drugs; teaching youth social skills (communication, problem solving, goal-setting, find positive adult role models, positive use of free time, positive friendships), needed to both resist the pressures of these harmful substances; and teaching parents how to communicate with their children about the harmful consequences of alcohol, tobacco, and other drugs. SMART Moves will be taught once or twice a week (depending on the Club sites choice) for the different age groups at each Club site, until all the lessons in each age-group curriculum are complete. Each group will be able to meet at least once a week during the program sessions at every location while the program is being conducted. The SMART Moves curriculum is an age-appropriate program providing participation for the following age groups:

- **SMART Kids** (ages 6-9 years) provides 17 sessions of about 45-60 minutes in duration made up of three parts: Introductory questions, a creative activity, and an interactive activity.
- **Start SMART** (ages 10-12 years) provides 12 sessions of about 60-90 minutes in duration that consist of small group discussions, games, role plays, and rehearsal of skills.
- **Stay SMART** (ages 13-15 years) provides 12 sessions of about 60-90 minutes in duration that consist of small group discussions, games, role plays and rehearsal of skills.
- **SMART Parents** provides 4 sessions of about 2 hours each and consists of discussion, small group exercises, and role plays.

SMART Moves curriculum is taught at least once in the fall and again in the spring at each Club site, or even during summer months.

Population Served:

Youth considered at-risk because they are economically disadvantaged, come from single parent homes, have had involvement with Knox County Juvenile Court or Detention, live in impoverished communities (both urban and rural), or are in state's custody (foster care system).
