

STATE OF TENNESSEE

HOUSE JOINT RESOLUTION NO. 890

By Representative Bone

and

Senators Burks, Herron

A RESOLUTION memorializing the United States Congress to enact and fully fund the Agent Orange Equity Act of 2009 (H.R. 2254/S.1939).

WHEREAS, during the Vietnam War, the United States military sprayed more than nineteen million gallons of Agent Orange and other herbicides over Vietnam to reduce forest cover and crops used by the enemy; these herbicides contained dioxin, which has since been identified as carcinogenic and has been linked with a number of serious and disabling illnesses now affecting thousands of veterans; and

WHEREAS, the United States Congress passed the Agent Orange Act of 1991 to address the plight of veterans exposed to herbicides while serving in the Republic of Vietnam; the Act amended Title 38 of the United States Code to presumptively recognize as service-connected certain diseases among military personnel who served in Vietnam between 1962 and 1975; this presumption has provided access to appropriate disability compensation and medical care for Vietnam veterans diagnosed with such illnesses as Type II diabetes, Hodgkin's disease, non-Hodgkin's lymphoma, chronic lymphocytic leukemia, multiple myeloma, prostate cancer, respiratory cancers, and soft-tissue sarcomas; and

WHEREAS, pursuant to a 2001 directive, United States Department of Veterans Affairs policy has denied the presumption of a service connection for herbicide-related illnesses to Vietnam veterans who could not furnish written documentation that they had "boots on the ground" in-country, making it virtually impossible for countless United States Navy and United States Air Force veterans to pursue their claims for benefits; many who had landed on Vietnamese soil could not produce proof due to incomplete or missing military records; moreover, personnel who had served on ships in the "Blue Water Navy" in Vietnamese territorial waters were, in fact, exposed to dangerous airborne toxins, which not only drifted offshore, but also washed into streams and rivers draining into the South China Sea; and

WHEREAS, warships positioned off the Vietnamese shore routinely distilled seawater to obtain potable water; a 2002 Australian study found that the distillation process, rather than removing toxins, in fact concentrated dioxin in water used for drinking, cooking, and washing; this study was conducted by the Australian Department of Veterans' Affairs after it found that Vietnam veterans of the Royal Australian Navy had a higher rate of mortality from Agent Orange-associated diseases than did Vietnam veterans from other branches of the military; when the U.S. Centers for Disease Control and Prevention studied specific cancers among Vietnam veterans, it found a higher risk of cancer among Navy veterans; and

WHEREAS, Agent Orange did not discriminate between soldiers on the ground and sailors on ships offshore, and legislation to recognize this tragic fact and restore eligibility for compensation and medical care to U.S. Navy and U.S. Air Force veterans who sacrificed their health for their country is critical; and

WHEREAS, when the Agent Orange Act passed in 1991 with no dissenting votes, Congressional leaders stressed the importance of responding to the health concerns of Vietnam veterans and ending the bitterness and anxiety that had surrounded the issue of herbicide exposure; Congress should reaffirm this nation's commitment to the well-being of all of its veterans and direct the Department of Veterans Affairs to administer the Agent Orange Act under the presumption that herbicide exposure in the Republic of Vietnam includes the country's inland waterways, offshore waters, and airspace; now, therefore,

BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF THE ONE HUNDRED SIXTH GENERAL ASSEMBLY OF THE STATE OF TENNESSEE, THE SENATE CONCURRING, that this General Assembly respectfully urges the Congress and the President of the United States to restore the presumption of a service connection for Agent Orange exposure to U.S. Navy and U.S. Air Force veterans who served on the inland waterways, territorial waters, and in the airspace of the Republic of Vietnam and in Thailand, Laos, and Cambodia.

BE IT FURTHER RESOLVED, that we urge Congress to enact and fully fund the Agent Orange Equity Act of 2009 (H.R. 2254/S.1939), with the request that this resolution be officially entered into the *Congressional Record* as a memorial to the Congress of the United States of America.

BE IT FURTHER RESOLVED, that that enrolled copies of this resolution be transmitted to the President of the United States, the Speaker of the House of Representatives and the President of the Senate of the United States, and to each member of Tennessee's delegation to the 111th Congress.

ADOPTED: May 24, 2010

KENT WILLIAMS, SPEAKER
HOUSE OF REPRESENTATIVES

RON RAMSEY
SPEAKER OF THE SENATE

APPROVED: June 2, 2010

PHIL BREDESEN, GOVERNOR
