0680-01-.12 GENERAL AND SPECIALTY CLASSIFICATIONS.

- (1) The Board will utilize the system of general and specialty classifications of contracting set forth in Appendix A of this rule. However, in view of the increasing specialization and technological advances in the construction industry, the Board reserves the right to depart from the classification system in appropriate individual cases.
 - (a) A contractor licensed in one or more sub-classifications under a general construction classification may perform work in such sub-classification(s) under any other general construction classification, provided that such work:
 1. is consistent with established usage and procedures in the construction business; and
 2. is related to that which he is licensed to perform.

Generally, for purposes of determining the classifications in which an applicant is qualified to engage, the Board will primarily consider whether or not the applicant:
- (2) has adequate experience in the classifications requested; (2) has an established plant (office; warehouse; equipment areas) from which his business is conducted; and (3) has (or has the ability to acquire) the necessary equipment for the classifications requested, and the experience to operate such equipment. The "experience" of an applicant will be considered to be that of one or more of the partners in the case of a partnership applicant; and one or more of the officers in the case of a corporate applicant.

Authority: T.C.A. §62-609. **Administrative History:** Original rule filed July 22, 1974; effective August 21, 1974. Repeal and new rule filed January 20, 1977; effective February 19, 1977. Amendment filed May 19, 1980; effective July 3, 1980.

0680-01-.13 MONETARY LIMITATIONS.

- (1) Generally, the monetary limitation placed on a classification of a license will be determined as follows:
 - (a) for applicants having no apparent deficiency with respect to plant or equipment, the lesser of:
 1. ten (10) times the applicants net worth; or
 2. ten (10) times the applicant's working capital.
 - (b) at the Board's discretion, renewal applicants having no apparent deficiency with respect to plant or equipment, but with limited working capital, the greater of:
 1. ten (10) times the applicant's working capital; or
 2. fifty percent (50%) of the applicant's net worth.
 - (c) for other applicants, a lesser amount reflecting the degree of lack of plant or equipment.
- (2) Lines of credit and indemnities (on forms furnished by the Board) may be considered to raise a monetary limitation. Lines of credit may be added up to its full value to the working capital. Credit for indemnities will be limited to fifty percent (50%). However, if the applicant has a negative working capital, lines of credit will be recognized at 50% of value.
- (3) A tolerance of ten percent (10%) will be allowed on the monetary limitation placed on any classification of a license.
- (4) Subject to such tolerance, no contractor shall engage, or offer to engage, in any project of which the cost (including all material and labor furnished by or through another source other than the owner) would exceed the monetary limitation placed on his license. If a contractor holds a license with more that one classification with different monetary limit, the monetary limits shall not be combined to bid a project.

Authority: T.C.A. §§62-6-108 and 62-6-111. **Administrative History:** Original rule filed July 22, 1974; effective August 21, 1974. - (1) Request for Change of Classification or Limitation. A licensee may request the Board to consider revision of his classification(s) and/or monetary limitation(s) at any of its regular meetings. Such request shall be made by letter, which shall be accompanied by financial, equipment, and experience statements relative to the classification request accurate as of no more that twelve 12 months prior to the date of the request. The request must be received in the Office of the Board by the last day of the month preceding the month in which it is to be considered.
- (2) A request for a change in monetary limitation to be less than one million five hundred thousand dollars (\$1,500,000) shall be reviewed or audited by a licensed accountant or certified public accountant. A request for a change in monetary limitation to more than one

(Rule 0680-01-.14, continued)

million five hundred thousand dollars (\$1,500,000) shall be audited and attested to by a licensed public accountant or certified public accountant.

- (3) The Board reserves the right to require examination pursuant to request for change of classifications. The Board further reserves the right to consider a request for change of classification or limitation at any time if consideration of the request at the regularly scheduled meeting would cause an undue hardship on the owner and be in the best interest of the public safety and welfare.
- (4) Increases within the first year will not be allowed without special permission from the Board.

0680-01-.15 REVIEW AND ADJUSTMENT OF CLASSIFICATIONS AND MONETARY LIMITATIONS.

- (1) The Board may require that financial statements submitted by contractors in conjunction with an application for renewal of a license or a request for change of classification(s) or limitation(s) be examined by the Comptroller of the Treasury of his designated representative. The Board may, because of the results of an audit, changing financial conditions, or any other relevant factors:
 - (a) require the submission of additional financial information prior to acting on a renewal application or request for change of classification(s) or limitation(s); and (2) change the general or specialty classifications or monetary limitations of any license when in the public interest. However, before changing adversely the classification(s) and/or monetary limitation(s) of any license, the Board shall afford the licensee the opportunity for a hearing to show cause why such action should not be taken.
