

# Native Warm Season Grass Drills - Publicly Available

June 8, 2011

**NOTE 1:** The drills included on this list have special features that allow them to accurately plant fluffy-seeded native grasses such as the bluestems and indiangrass, and small native forb seeds. Other standard seed drills may be available from the listed non-TWRA entities that can be used to plant smooth native grass seeds such as switchgrass and eastern gamagrass.

**NOTE 2:** Drills available from TWRA are provided free-of-charge, courtesy of the sportsmen of Tennessee, and are primarily intended for the use of non-USDA program conservation plantings (practice cost-share that factors in drill rental is provided in USDA programs). The TWRA drills are not available for commercial or for-profit projects.

County	Contact	Phone	Comments	Make & Size planting width / (overall width)
Bedford	Bedford County Soil Conservation District	931-684-1441	Rental fee	Truax 5.3'(8')
Benton	Benton County Soil Conservation District	731-584-8186	Rental fee	Haybuster 9.9'(10.5')
Bledsoe	Bledsoe County Soil Conservation District	423-447-2532	Rental fee	Haybuster 9.9'(10.5')
