

TDMHSAS Dynamic Risk Assessment Checklist (RAC)
 (to be completed by day 90, then at 3-month reviews,
 and whenever requesting a change of status, pass, transfer, furlough or discharge)

Legal status:	Compliance/Cooperation with Treatment:	Reason for Risk Assessment at this time:
T.C.A. § 33-7-301(b)	Good (describe as needed)	Continued Hospitalization
T.C.A. § 33-7-303(c)	Fair	Pass
Other	Poor	Change of Status
	None	Transfer
		Furlough or Discharge

Service recipient's name <

Time period reviewed (since last Risk Assessment): From / / to / /

Current Diagnosis

Dynamic Risk Factors *

+ ½ - N/I

- (1) Active substance use or desire/threats to use substances (type):
- (2) Active symptoms of a major mental illness (list):
- (3) Command hallucinations to harm others (specify):
- (4) Clinically significant anger/agitation (specify):
- (5) Clinically significant impulsivity/disinhibition:
- (6) Threats or urges to harm others (specify):
- (7) Recent (past month) violent act(s) toward people or property (specify):
- (8) Absence of insight into mental illness and/or the need for treatment
- (9) Present non-compliance with recommended treatment
- (10) Poor motivation in current and future treatment
- (11) Poor response to current treatment (after adequate trial)
- (12) Does not demonstrate an understanding of the warning signs for relapse of mental illness and addiction
- (13) Cannot plan for dealing with warning signs of relapse of mental illness and addiction
- (14) Unrealistic, inadequate, after-care plan (regardless of cause)
- (15) Unemployment
- (16) Little or no stable income/financial support
- (17) Absence of healthy, supportive social/interpersonal relationship(s)

*Please consult the manual for scoring directions and guidelines. A "+" means the factor is present beyond a reasonable doubt; "-" means that the factor is absent beyond a reasonable doubt; "1/2" means the factor is present based on a preponderance of evidence (more likely than not); "N/I" means there is insufficient information to score the factor.

Dynamic Risk Assessment Checklist*

+ ½ - N/I

- (18) Criminal living partners/anti-social peer group/family
- (19) Criminal attitudes/thinking
- (20) Clinically significant psychosocial stressors (other than above stressors)
- (21) High risk of exposure to destabilizing influences (specify):

- (22) Availability of and interest in weapons (specify):
- (23) Accessibility of target victims (specify class(s)):
- (24) Prior lifetime elopement(s) or attempt(s) to elope (specify):

*Please consult the manual for scoring directions and guidelines. A "+" means the factor is present beyond a reasonable doubt; "-" means that the factor is absent beyond a reasonable doubt; "1/2" means the factor is present based on a preponderance of evidence (more likely than not); "N/I" means there is insufficient information to score the factor.

Other factors/comments:

Violence Risk Appraisal Guide Findings (NOTE: Update VRAG score if additional information has been obtained):

Recommendations:

- Continuation of hospitalization at
- Supervised pass to
- Unsupervised pass to
- Transfer to
- Furlough to
- Discharge to
- Other
