Treatment and Recovery Services Provider Directory

Version 3
July 1, 2012

State of Tennessee
Department of Mental Health and Substance Abuse Services
Division of Substance Abuse Services
SAPT Block Grant Treatment Services, ADAT DUI & ADAT SPOT Treatment Services,
ARP Recovery Support Services and TDOC CTC Treatment Services

This listing represents providers of alcohol and drug treatment and recovery services with the Tennessee Department of Mental Health, Division of Alcohol and Drug Abuse Services and is funded through either the federal Substance Abuse Prevention and Treatment (SAPT) Block Grant, the Alcohol and Drug Addiction Treatment Program (ADAT), Tennessee Addictions Recovery Program (ARP) funding, Department of Corrections Community Treatment Collaborative (CTC) funding, or Supervised Probation Offender Treatment Program (SPOT), or a combination of funding from these sources.

This provider listing is organized by region based on where the corporate office is located. Many of these providers take treatment referrals from across the state. Also, many of the providers have treatment programs and satellite offices in locations other than the address listed in the directory. Please call the provider to determine the locations of their programs and their service area.

The following is a description of the services that are provided through the block grant, ADAT, ARP, CTC, and SPOT funding sources:

Adult Outpatient: One on one, or group treatment that is provided for a minimum of 50 minutes, usually once a week or twice a month. Outpatient sessions may include family therapy sessions. If performed in a group setting, group size must be a minimum of 6 clients and no more than 12 clients. The duration is a minimum of 50 minutes for an individual session and 90 minutes for a group session.

Adult Intensive Outpatient: Group treatment that is more intensive and is provided 9 to 19 hours per week, with sessions on 3 to 4 days per week. Education about addiction and counseling for issues about recovery is provided. Clients are introduced to the 12 step recovery program and are encouraged to work steps of the program. Family members are encouraged to participate in treatment. Group size must be a minimum of 6 clients and no more than 12 clients. All clients are expected to attend 12 step meetings and to have random drug screens while they are in treatment.

Adult Partial Hospitalization: Group treatment that is intensive and is provided 20 or more hours per week on an outpatient basis, with a minimum of 4 hours of treatment per day. Group size must be a minimum of 6 clients and no more than 12 clients.

Adult Residential Treatment: Intensive group treatment that is provided in a residential treatment facility. (Facility clients stay overnight usually 5 to 21 days). Clients participate in group and other treatment activities throughout the day. Client's family members are encouraged to participate in treatment. Clients must have 5 counseling contacts and 5 lectures/seminars a week.

Adult Halfway House: Group and individual treatment that is provided in a therapeutic, licensed living environment, which includes the expectation that the client will seek and maintain employment or job training in the community, participate in a minimum of one counseling contact and one educational lecture per week, work the 12 step program with a sponsor, and regularly attend 12 step meetings. Clients must also agree to participate in random drug screens. Halfway houses are either all male or all female.

Adult Social Detox: A residential level of care for those in withdrawal but who do not require medical monitoring during their detoxification. Social detox is only appropriate for clients who are withdrawing from substances which do not pose a threat to physical safety during the withdrawal process.

Adult Medically Monitored Detox: A residential level of care for those who need medical monitoring and attention during withdrawal from substances. Medical detox is only appropriate for clients who are withdrawing from substances which pose a threat to their physical safety during the withdrawal process.

Adult Medically Monitored Crisis Detox: A residential level of care for those who need medical monitoring and attention during withdrawal from substances and who are experiencing a crisis due to their substance abuse. Medical detox is only appropriate for clients who are withdrawing from substances which pose a threat to their physical safety during the withdrawal process.

Adult Medically Managed Detox: This is a hospital based detox for those clients who need close medical monitoring and attention during withdrawal from substances which pose a threat to their physical safety. Clients are referred to a substance abuse treatment center after they have completed detox.

Women's Intensive Outpatient: Intensive outpatient groups which are only for women, which provide at a minimum 3 hrs a day and at least 3 days a week to not exceed 19 hours.

Pregnant Women's Intensive Outpatient: Intensive outpatient groups which are for pregnant women or those who have recently delivered a baby. This service provides at least 3 hours of treatment, for at least 3 days a week and clients receive support related to recovery during pregnancy.

Pregnant Women's Resident Treatment: Extended residential programs that provide treatment and support for pregnant women who are striving to maintain sobriety during their pregnancy to protect the health and well being of their child. The program also provides support for the mother's other minor age children and support for the mother and child/children after she delivers.

Women's Wrap Around Service: Case management services for women who are in substance abuse treatment and recovery. These services may also include transportation, child care, child maintenance and supportive housing.

Adolescent Outpatient: One on one or group treatment that is provided to an adolescent for a minimum of 50 minutes, usually once a week. Outpatient sessions may include family therapy sessions. The duration is a minimum of 50 minutes for an individual session and 90 minutes for a group session.

Adolescent Day/Evening Treatment: This is group treatment that is more intensive and is provided 3 or more hours per day (exclusive of school activities), a minimum of 4 days a week for after school and evening programs and 5 days a week for day programs. Family members are encouraged to participate in treatment.

Adolescent Residential Treatment: Intensive group treatment that is provided in a residential facility. Clients receive a minimum of 5 counseling contacts and 5 lectures/seminars a week. Family members are encouraged to participate. Education is also an important component of this treatment.

TENNESSEE ADDICTIONS RECOVERY PROGRAM (TN-ARRP) SERVICES

Recovery Support Services Assessment

This consists of the TN-ARRP screening tool and the TN-ARRP Recovery Support Services Assessment Summary and Service Plan. This is available to those consumers accessing ONLY recovery support services.

Case Management

This service involves coordination of care services which assist a consumer in identifying, accessing, and coordinating resources that are supportive in achieving the consumer's treatment and recovery goals. Services may be delivered face-to-face or by telephone. Time spent in direct contact with the consumer, or with a collateral on behalf of the consumer, is reimbursable. The staff performing this service must be trained and qualified according to the agency's governing body. This service may be offered by state licensed treatment providers and non-licensed recovery support providers.

Drug Testing

Random drug testing is used to determine the presence of substances.

Recovery Skills

This service is designed to assist the consumer in obtaining the necessary skills to be a successful and productive member of the community and offers skill building topics such as budgeting, parenting, personal growth, responsible decision making, etc. If performed in a group setting, group size must be a minimum of 2 consumers and no more than 20 consumers.. The staff facilitating this service must be trained and qualified according to the agency's governing body. This service may be offered by state licensed treatment providers and non-licensed recovery support providers. Individual sessions are 50 minutes and group sessions are 60 minutes in duration.

Relapse Prevention

This service is designed to assist the consumer in developing skills to recognize early signs that may lead to relapse and to develop methods to counteract these triggers. If performed in a group setting, group size must be a minimum of 2 consumers and no more than 20 consumers. Staff must be trained and qualified according to the agency's governing body. This service may be offered by state licensed treatment providers and non-licensed recovery support providers. Individual sessions are 50 minutes and group sessions are 60 minutes in duration.

Spiritual/Pastoral Support

Spiritual Support is designed to assist the consumer in developing their spirituality as an integral part of their recovery and may cover practices and principles such as establishing a relationship with a higher power, identifying a sense of purpose and mission in one's life, achieving serenity and peace of mind, balancing one's body, mind, and spirit, utilizing spiritual practices such as prayer, meditation, and yoga, etc. This service is based on universal spiritual principles and practices and not based on specific religious convictions and beliefs. Pastoral Support includes a variety of recovery support services which incorporate faith and specific religious beliefs and convictions as well as in the recovery process. Examples of this service include a consumer meeting with a minister, priest, rabbi, imam, monk or other qualified person to study the application of a religion's beliefs, convictions, and scripture to recovery, for support during a crisis, or to determine a recovery plan, etc. If performed in a group setting, group size must be a minimum of 2 consumers and no more than 20 consumers. The staff facilitating this service must be trained and qualified according to the agency's governing body. This service may be offered by state licensed treatment providers and non-licensed recovery support providers. Individual sessions are 50 minutes and group sessions are 60 minutes in duration.

Transitional Housing

This is housing that is required on a transitional basis to support the consumer during their treatment and/or recovery phase. The housing must be community based, safe, and drug free. This service must be governed or staffed to assure a safe and drug free environment. The agency must meet all local housing codes and have adequate liability insurance. The staff providing this service

must be trained and qualified according to the agency's governing body. This service is done in conjunction with other treatment/recovery services, i.e., **it is not offered as a stand alone service.** This service may be offered by state licensed treatment providers and non-licensed recovery support providers.

Transportation

This service provides transportation for consumers for the purpose of accessing treatment and/or recovery services or any other activity that supports a consumer's recovery. **It is not offered as a stand alone service.** The vehicle used must be owned or leased by the TN-ARRP authorized provider agency. The agency must have proper vehicle insurance coverage. Agency staff may use their personal vehicles if the following conditions are met: a) must have a class F license and b) staff must have copy of current full coverage automobile insurance on file at agency. The vehicle driver(s) must have the appropriate chauffeur's or commercial driver's license. Transportation is reimbursable based on the following 3 criteria: 1) there is no other payment source for this service, and 2) the consumer has no other reliable transportation alternative, and 3) there is no public transportation or its use would create a hardship on the consumer.
