

Early Grades Reflection

As we conclude this section on the Early Grades, briefly reflect on what you have learned and what key teacher and leader actions need to occur. Complete the following chart as we look at what we are already doing, what we need to stop doing, and what we need to start doing in our instructional practices around early grades.

<i>What instructional practices are we already using in our school/district that supports student success in third grade?</i>	<i>What practices do we have in place in our school/district that do not support student success in third grade that we need to stop?</i>	<i>What instructional objectives and practices do we need to start and prioritize to maximize student success in third grade?</i>

Notes:
