

Gastrointestinal Culture Independent Diagnostic Tests (CIDT)

**A Partnership between Clinical
and Public Health**

**1 Hour of CEU
Credit for State
Laboratory
Continuing
Education
Requirements**

Presented by:
**The Tennessee Department of Health
Epidemiology and Laboratory**

Date: June 23, 2016

Time: 1:00-2:00 PM Central Time

**Lab and
Epidemiology
Objectives**

- List specific diseases that are reportable to the health department and identify isolates/specimens needed to be sent to the State Public Health Laboratory for further identification/characterization
- Describe the difference between culture testing and a culture independent diagnostic test (CIDT)
- Understand the challenge CIDT poses to public health
- Interpret CIDT results
