Moody's Outlook Stable

Opinion

NEW YORK, Mar 29, 2010 -- Moody's Investors Service has assigned Baa1 ratings to Mountain States Health Alliance's (MSHA) \$190.2 million of Series 2010A and \$37.8 million of Series 2010B fixed rate refunding revenue bonds to be issued by The Health and Educational Facilities Board of the City of Johnson City, TN and the Industrial Development Authority of Smyth County (Virginia), respectively. The outlook remains stable. At this time we are affirming the Baa1 unenhanced ratings on \$770 million of rated debt to remain outstanding.

USE OF BOND PROCEEDS: The bond proceeds will be used to (1) refund the outstanding Series 2007A, Series 2007C and Series 2008A bonds, (2) establish a debt service reserve fund, and (3) pay the costs of issuance.

LEGAL SECURITY: The bonds are secured by a security interest in the Pledged Assets (receivables, inventory, equipment, general intangibles, contracts and contract rights, government approvals, fixtures and other personal property, goods, instruments, chattel paper, documents, credits, claims, demands and assets) and a first lien on the Mortgaged Property, which includes the major hospitals, subject to certain permitted liens.

INTEREST RATE DERIVATIVES: MSHA is a party to interest rate swaps and other derivative agreements to establish floating rate exposure and to reduce fixed rate debt service. MSHA holds three basis swaps, two fixed payer swaps and one total return swap with Merrill Lynch Capital Services Inc. (guaranteed by Merrill Lynch & Co) for a total notional amount of \$594 million. The fair market value of the swaps at March 18, 2010 was a liability of \$14.5 million, against which MSHA posted \$1,844 in collateral.

MSHA holds eight additional agreements (\$106 million notional amount) with Lehman Brothers Special Financing, Inc. (Lehman) for various notional amounts that are linked fixed payer and total return swaps. Fair market value of the swap at January 31, 2009 was a liability of \$11.0 million, against which MSHA has posted \$13.2 million of collateral (collateral is not included in unrestricted cash). Lehman filed for bankruptcy and the swaps were terminated effective January 1, 2009. There is a dispute between MSHA and Lehman regarding the cost of such termination, which is currently under discussion. MSHA has stated that it believes that the amount of the posted collateral should be sufficient to pay the cost of the terminations.

In addition, MSHA has two outstanding interest rate swaptions, four float contracts and five forward sale agreements with Bear Stearns Capital Markets, Inc. (guaranteed by Bear Stearns Companies, Inc., acquired by JP Morgan) whereby MSHA received advance payments that have been placed in a guaranteed investment contract as collateral against the agreements (this collateral is not included in unrestricted cash). As of March 18, 2010, liability on the swaptions, float contracts and forward sale agreements exceeded the collateral by \$2.4 million. MSHA has the option to terminate the swaptions on July 1, 2011 at a predetermined price equal to the value of the collateral on deposit with Bear Stearns or to hold the swaptions to maturity and let them expire. Given the terms of the agreements, the collateral held against the derivative transactions and MSHA's credit profile and strong liquidity position, we believe the transactions do not detract from the Baa1 rating.

STRENGTHS

*Multi-hospital system with strong and growing leading market share in a large geographic region where the flagship facility serves as a regional referral center offering a wide array of high-end services for hospitals in Tennessee and Virginia

*Multi-year growth in volumes with acquisitions

*Strong and stable operating cash flow margins in the 11.4% to 16.7% range in each of the past fifteen audit years, with volume increases contributing to cash flow growth; projected operating cash flow margins remain in the double digits

*Good liquidity position with 242 days cash on hand at fiscal year end (FYE) 2009 (June 30) and 244 days as of December 31, 2009

*Reduction in exposure to variable rate debt and exposure to tenders under letter of credit supported debt, increasing fixed rate debt to 66% from 45% of total debt outstanding; pro forma cash-to-puttable debt at 151%

*Tenured management team

CHALLENGES

*Very high debt burden evidenced by a low 48% cash-to-debt ratio, high 9.9 times debt-to-cash flow ratio and moderate Moody's-adjusted maximum annual debt service coverage of 2.39 times in FY 2009 as compared with Moody's Baa1 medians of 72%, 5.7 times and 3.2 times, respectively

*Capital spending projected to remain high in the near term with major spending on consolidation of two smaller Johnson City facilities into a single replacement facility, and capital commitment for investment into new 80% owned Smyth County Community Hospital and capital commitment for Johnston Memorial Hospital; however, no new debt is currently expected in connection with these projects and several have already been financed with debt in whole or in part;

*Sizable and consistent competition from Wellmont Health System, which holds a close but lesser market share (37% vs. 29%) in the extended 29-county service area and a significantly smaller market share (52% versus 37%) in the 13-county core service area, but has been increasing its presence in the extended service area through acquisition

*High 22.3% TennCare/Medicaid and self-pay load

MARKET POSITION/COMPETITIVE STRATEGY: DOMINANT MARKET POSITION IN JOHNSON CITY, WITH LEADING MARKET POSITION IN 13-COUNTY CORE AREA AND 29-COUNTY EXTENDED SERVICE AREA

MSHA, a multi-hospital system operating ten acute care hospitals and 14 facilities in northeastern Tennessee, southwest Virginia, southeast Kentucky and western North Carolina, gains much credit strength from its dominant 90% market share in Washington County, TN where it operates six of its facilities, including its flagship 583-licensed bed Johnson City Medical Center (JCMC), and is the only provider of acute care services. JCMC includes the 60-licensed bed Quillen Rehabilitation Hospital, providing a complete array of rehabilitative services for brain injury, stroke, and spinal cord injury and the 75-licensed bed Woodridge Hospital offering inpatient psychiatric and substance abuse services (purchased in 2005). MSHA also holds a leading 51.8% market position in its combined 13-county primary and secondary service areas (PSA/SSA), and a leading and consistent 36.6% market share in its 29-county extended service area. Competition is limited to one multi-hospital system (Wellmont Health System) and several small independent rural providers. Wellmont Health System operates four of its eight hospitals in MSHA's core market, garnering a distant 37.4% market share in the core service area, but a close 29.4% market share in the extended 29-county service area. Many of the rural hospitals in the primary and secondary service area are affiliated with MSHA through network affiliations.

JCMC is a regional referral center for northeastern Tennessee offering a full array of acute care services, including one of only five state-designated Level III Regional Perinatal Centers, a Level I trauma center, and performs kidney and pancreatic transplants. Also in Johnson City is 91-licensed bed North Side Hospital offering acute care and skilled nursing services, and 36-licensed bed Johnson City Specialty Hospital offering inpatient and outpatient obstetrical, gynecological and otorhinolaryngologic (ear, nose & throat) services. MSHA also owns Indian Path Medical Center and Pavilion located in Kingsport (Sullivan County), which competes against the much larger Wellmont facilities, Sycamore Shoals Hospital located in Elizabethton (Carter County) with no direct competition, and the designated critical access hospital Johnson County Community Hospital in Johnson County.

MSHA opened its newly constructed free-standing children's hospital in March 2009. It is the region's first free-standing children's hospital. In addition, MSHA is constructing a single 80-bed replacement facility for its North Side Hospital and Johnson City Specialty Hospital facilities. The new hospital will provide much more state-of-the-art care, replacing two much older facilities. Along with the relocation of certain long-term care beds to Quillen and acute care beds to JCMC, the project is estimated to cost \$120 million and to be funded 50% from cash flow and 50% from proceeds of the Series 2008 bonds.

In November 2006, MSHA began an expansion strategy in Virginia with the purchase of an 80% interest in 154-licensed general acute care/109 long-term care bed Smyth County Community Hospital (SCCH) located in Marion, Virginia. MSHA committed to \$48 million in capital improvements with the acquisition, of which \$28 million has yet to be invested. In October 2007, MSHA acquired a 50.1% equity interest in 129-licensed bed Norton Community Hospital and 25-licensed bed Dickenson Community Hospital (Clintwood). The Series 2007 bond issues included \$52 million to support capital commitments at these new facilities. Effective January 31, 2008 MSHA acquired 78-licensed bed Russell County Medical Center in Lebanon, Virginia. Approximately \$53 million of Series 2008 bond proceeds financed this acquisition and provided funds for capital expenditures. In April 2009 MSHA acquired a 50.1% interest in Johnston Memorial Hospital (revenue bonds rated A3) in Abington, VA, committing to invest \$132 million for capital; \$100 million of the proceeds from the Series 2009C bonds will be used to fund a portion of this commitment.

MSHA's main competitor, Wellmont Health System, has also expanded with the acquisition of 133-licensed bed Mountainview Regional Medical Center also located in Norton, VA, and 50-bed Lee Regional Medical Center located in Pennington Gap, VA. Wellmont Health System is an eight hospital system with hospitals in TN, VA and KY, some of which compete directly with MSHA facilities.

OPERATING PERFORMANCE: OPERATING CASH FLOW MARGIN REMAINS CONSISTENTLY STRONG

FY 2009 operating profit grew to \$6.4 million from \$0.4 million the prior year (including capitalized interest of \$596,000 and \$3.7 million in FY 2009 and FY 2008, respectively), but operating margin remains modest at 0.8%. Operating cash flow increased \$12.0 million to \$120.8 million to generate a strong 14.4% margin. MSHA's operating cash flow margins remain strong and have consistently ranged between 11.4% and 16.7% in each of the past fifteen audit years. The expansion into Virginia along with volume growth contributed to a very good 13.1% growth in revenues in FY 2009. Projected operating cash flow margins remain in the double digit teens.

Debt-to-cash flow improved in FY 2009 but remains high at 9.90 times (Baa1 median of 5.7 times). Moody's-adjusted MADS coverage is

adequate at 2.39 times in FY 2009, but again unfavorable to the Baa1 median of 3.2 times. Management is forecasting for improvement in these ratios with major capital projects completed or near completion through 2011. There are no additional facility expansion plans at this time, and management plans to focus on integrating the new Virginia hospitals into the system. Through the first six months of FY 2010 operating profit improved \$4 million over the same period of the prior year and operating cash flow improved \$10 million.

BALANCE SHEET POSITION: DEBT LOAD REMAINS HIGH; ABSOLUTE LIQUIDITY GROWTH BUT RELATIVE LIQUIDITY FLAT TO DECLINING

Unrestricted liquidity improved 12% in FY 2009 to \$515.1 million from \$458.7 million at FYE 2008 despite unfavorable market returns on investments, yet cash on hand remained stable at 242 days due to growth in the expense base with the addition of Johnston Memorial in Virginia. FY 2009 liquidity was unfavorably impacted by the \$18 million cash defeasance of part of the Series 2006C bonds, but favorably impacted by a reduction in capital spending from cash flow. Absolute liquidity continued to grow in the first six months of FY 2010 to reach \$567 million and cash on hand (annualized) was stable to FYE 2009 at 244 days.

The debt load remains high, reaching \$1.072 billion at FYE 2009 with the addition of debt to finance the capital contribution for Johnston Memorial in Virginia and the consolidation of Johnston Memorial's \$34 million of outstanding debt into the financial statements. MSHA's debt-to-revenue of 128% at FYE 2009 is one of the highest in our portfolio. Moody's notes that outstanding debt has increased annually since FY 2002, due largely to expansion into Virginia as well as the major capital projects for the new children's hospital and the replacement hospital for Northside and Johnson Specialty. As a result of the high debt load cash-to-debt remains low at 48% at FYE 2009 (Baa1 median of 72%). Management is forecasting for steady, annual improvement in the cash-to-debt ratio. The only potential near term debt plan is to provide up to \$30 million of capital funding for Smyth Hospital. Moody's will evaluate the impact of additional debt as funding plans are finalized.

With the current refinancing, MSHA is restructuring its debt portfolio to reduce variable rate risk exposure and risk of tendered bonds by refunding certain variable rate debt instruments. We note that approximately \$368 million of outstanding debt is scheduled to remain outstanding as variable rate puttable debt supported by letters of credit (LOCs) that expire in December 2012. MSHA's current liquidity comfortably covers potential puttable debt by 151%. MSHA has 367 days from the provision of a draw for tendered bonds to repay Regions Bank for the draw. Covenants in the LOCs include a maximum annual debt service coverage ratio of no less than 1.3 times for the obligated group, and a days' cash-on-hand ratio for the obligated group. The days cash covenant requires no less than 110 days or a consultant must be brought in, no less than 100 days in any case, and if it falls below 150 days then the debt service reserve funds supported by the LOCs must be fully funded with cash or a letter of credit.

Outlook

The stable outlook reflects our belief that MSHA will continue to generate strong and stable operating cash flow margins to support its high debt load. We believe liquidity will improve barring any major negative fair market value adjustments. Management is considering additional debt in the near-term to support capital investments in recent hospital acquisitions. We will evaluate the rating impact of future debt issues as plans develop.

What could change the rating--UP

Continued growth in operating cash flow to support the high debt load; material improvement in debt measures; regrowth of liquidity; increased diversification of cash flow

What could change the rating--DOWN

Increase in debt load without commensurate increase in cash flow; notable loss in market share; trend of decline in operating cash flow; material decline or loss of supplemental payments for servicing the Medicaid and indigent populations

KEY INDICATORS

Assumptions & Adjustments:

-Based on financial statements for Mountain States Health Alliance

-First number reflects the audit year ended June 30, 2008

-Second number reflects audit year ended June 30, 2009

-Expenses include capitalized interest of \$0.6 million and \$3.7 million in FY 2009 and FY 2008, respectively

-Investment returns smoothed at 6% unless otherwise noted

*Inpatient admissions: 54,307; 57,127

*Total operating revenues: \$743.6 million; \$839.9 million

*Moody's-adjusted net revenue available for debt service: \$139.2 million; \$154.1 million

*Total debt outstanding: \$938 million; \$1.072 billion

*Maximum annual debt service (MADS): \$54.9 million; \$64.4 million

*MADS Coverage based on reported investment income: 2.66 times; 2.11

*Moody's-adjusted MADS Coverage: 2.53 times; 2.39 times

*Debt-to-cash flow: 10.32 times; 9.90 times

*Days cash on hand: 2424 days; 242 days

*Cash-to-debt: 49%; 48%

*Operating margin: 0.1%; 0.8%

*Operating cash flow margin: 14.7%; 14.4%

RATED DEBT (as of November 30, 2009):

Issued by The Health and Educational Facilities Board of the City of Johnson City, Tennessee:

-Series 2009A fixed rate term bonds (\$5.6 million outstanding), rated Baa1

-Series 2008A Variable Rate Hospital Revenue Bonds variable rate (\$72.8 million outstanding; \$0 to remain outstanding post financing) rated Aa3/VMIG 2 supported by letter of credit with Regions Bank expiring December 14, 2012; Baa1 unenhanced rating

-Series 2008B Variable Rate Hospital Revenue Bonds variable rate (\$54.1 million outstanding) rated Aa3/VMIG 2 supported by letter of credit with Regions Bank expiring December 14, 2012; Baa1 unenhanced rating

-Series 2007A Variable Rate Hospital Revenue Bonds (\$95.9 million outstanding; \$0 to remain outstanding post financing), joint support rating of Aa3/VMIG 2 with letter of credit from Regions Bank expiring December 31, 2012, Baa1 unenhanced rating

-Series 2007B Variable Rate Hospital Revenue Bonds (\$314.2 million outstanding), joint support rating of Aa3/VMIG 2 with letter of credit from Regions Bank expiring December 31, 2012, Baa1 unenhanced rating

-Series 2006A Fixed Rate First Mortgage Revenue Bonds, serial and term bonds (\$170.3 million outstanding), rated Baa1

-Series 2001A Fixed Rate Hospital First Mortgage Revenue Term Bonds (\$23.9 million outstanding), rated Baa1

-Series 2000A Hospital First Mortgage Revenue Refunding Capital Appreciation Bonds (\$26.6 million outstanding), certain bonds insured by MBIA, Baa1 unenhanced rating

-Series 2000C Fixed Rate Hospital First Mortgage Revenue Term Bonds (Taxable) (\$35.3 million outstanding), insured by MBIA, Baa1 unenhanced rating

Issued by Industrial Development Authority of Smyth County, Virginia:

-Series 2009B fixed rate term bonds (\$5.5 million outstanding), rated Baa1

-Series 2007C Variable Rate Hospital Revenue Bonds (\$34.7 million outstanding; \$0 to remain outstanding post financing), joint support rating of Aa3/VMIG2 with letter of credit from Regions Bank expiring December 31, 2012, Baa1 unenhanced rating

Issued by Industrial Development Authority of Washington County, Virginia:

-Series 2009C fixed rate term bonds (\$116.0 million outstanding), rated Baa1

Direct Obligation of Mountain States Health Alliance:

-Series 2000D Fixed Rate First Mortgage Term Bonds (Taxable) (\$15.2 million outstanding), insured by MBIA, Baa1 unenhanced rating

CONTACTS

The rating assigned to Mountain States Health Alliance was issued on Moody's municipal rating scale. Moody's has announced its plans to recalibrate all U.S. municipal ratings to its global scale and therefore, upon implementation of the methodology published in conjunction with this initiative, the rating will be recalibrated to a global scale rating comparable to other credits with a similar risk profile. Market participants should not view the recalibration of municipal ratings as rating upgrades, but rather as a recalibration of the ratings to a different rating scale. This recalibration does not reflect an improvement in credit quality or a change in our credit opinion for rated municipal debt issuers. For further details regarding the recalibration please visit www.moodys.com/gsr.

The principal methodology used in rating Mountain States Health Alliance was Moody's Rating Methodology: Not-For-Profit Hospitals and Health Systems, published in January 2008 and available on www.moodys.com in the Rating Methodologies sub-directory under the Research & Ratings tab. Other methodologies and factors that may have been considered in the process of rating Mountain States Health Alliance can also be found in the Rating Methodologies sub-directory on Moody's website.

The last rating action on Mountain States Health Alliance was on December 22, 2009 when the Baa1 ratings were affirmed with a stable outlook.

Rating Description	LOC

Opinion

NEW YORK, Sep 29, 2010 -- Moody's Investors Service has assigned Aa3/VMIG 1 rating to the Health and Educational Facilities Board of City of Johnson City, TN Hospital Revenue Bonds (Mountain States Health Alliance) Series 2007 B-3 (the Bonds)

RATING RATIONALE

The rating is based upon the irrevocable direct pay letter of credit provided by Mizuho Corporate Bank, Ltd. (the Bank), the structure of the transaction, which ensures timely debt service and purchase price payments to investors; and Moody's evaluation of the creditworthiness of the Bank issuing the letter of credit.

Mizuho Corporate Bank, Ltd. is currently rated Aa3 for long-term bank deposits and Prime-1 for short-term bank deposits.

Interest Rate Modes and Payment

The Bonds will bear interest in a weekly rate mode and interest will be paid on the first business day of each month. The bond trust indenture permits conversion of the Bonds, in whole, to a medium term or fixed interest rate period and upon any conversion the Bonds will be subject to mandatory purchase. The rating applies to the Bonds bearing interest in the weekly period only.

Additional Bonds

No additional bonds shall be issued under the bond trust indenture.

Flow of Funds

The trustee is instructed to draw under the LOC on or before 4:00 p.m., New York City time, on the business day prior to any principal and interest payment date, in accordance with the LOC so as to receive moneys on the next business day in amount sufficient for the payment in full of the principal and interest due on the Bonds. The trustee is also instructed to draw under the LOC by 11:30 a.m., New York City time, on each purchase date to the extent remarketing proceeds are insufficient. Bonds which are purchased by the Bank due to a failed remarketing are held by the trustee and will not be released until the trustee has received confirmation from the Bank stating that the LOC has been reinstated in the amount of the purchase price drawn for such Bonds.

Letter of Credit

The LOC is sized for full principal plus 37 days of interest at the maximum rate applicable to the Bonds (12%) calculated based on 360 days year and will provide coverage for the Bonds while they bear interest in the weekly rate mode.

Draws on the Letter of Credit

Conforming draws for principal and interest presented to the Bank at or before 4:00 p.m., New York City time, on a business day, will be honored by the Bank no later than 2:30 p.m., New York City time, on the next business day. Conforming draws for purchase price presented to the Bank at or before 12:00 noon, New York City time, on a business day, will be honored by such Bank no later than 2:30 p.m., New York City time, on such business day.

Substitution of the Letter of Credit

The Bonds will be subject to mandatory tender on the fifth (5th) business day prior to substitution of the LOC. Draws for purchase price upon the substitution will be made under the existing LOC and the existing LOC will not be surrendered to the Bank for cancellation until after such tender draw is honored.

Reinstatement of Interest Draws

Draws made under the LOC for interest shall be automatically reinstated at the close of business on the date of payment of such interest drawing unless the trustee receives from the Bank a notice by 4:00 p.m. on such payment date stating that the Bank has not been reimbursed for such drawing or that an event of default under the reimbursement agreement has occurred. Upon receipt of such notice the trustee will immediately declare the principal of and accrued interest on the Bonds due and payable and interest on such Bonds will cease to accrue on the day it becomes payable, which day shall be one business day after declaration of acceleration.

Reimbursement Agreement Defaults

Upon an event of default under the reimbursement agreement, the Bank may direct the trustee to accelerate the Bonds. Upon receipt of such notice, the trustee will declare the principal of and accrued interest on the Bonds immediately due and payable. Interest will cease to accrue one day following the date on which the Bonds are declared immediately due and payable. Upon receipt of such notice the trustee will immediately declare the principal of and accrued interest on the Bonds due and payable and interest on such Bonds will cease to accrue on the day it becomes payable, which day shall be one business day after declaration of acceleration.

Bond Indenture Events of Default Related to Payment

Upon a failure to pay when due the principal or interest or the purchase price on the Bonds, the trustee may, and at the written request of the Bank or the holders of more than two-thirds (2/3) in aggregate principal amount of the outstanding Bonds shall declare the principal of and accrued interest on the Bonds due and payable and interest on such Bonds will cease to accrue on the day it becomes payable, which day shall be one business day after declaration of acceleration.

Expiration / Termination of the Letter of Credit

The LOC shall terminate upon the earliest to occur of: (i) September 29, 2013, the stated expiration date; (ii) the business day following conversion of an interest rate of the Bonds to a rate other than a weekly interest rate; (iii) the day which is fifteen (15) days after trustee's receipt of a notice from the Bank stating that an event of default under the reimbursement agreement has occurred and directing acceleration of the Bonds, (iv) the date an acceleration drawing is honored by the Bank; (v) receipt by the Bank of a certificate from the trustee stating that (A) no Bonds remain outstanding and all draws under the LOC have been made and honored, or (B) a substitute LOC has been issued; or (vi) the date on which a stated maturity drawing that causing the stated amount of the LOC to be reduced to \$0 is honored by the Bank.

Optional Tenders

Bondholders may optionally tender their Bonds on any business day during the weekly rate mode with five (5) business days prior written notice to the trustee and the remarketing agent.

Mandatory Purchases

The Bonds are subject to mandatory purchase on: (i) each interest rate conversion date (ii) any interest reset date, (iii) the fifth (5th) business day prior to the effective date of an alternate letter of credit or (iv) the second (2nd) business day prior to the expiration date of the letter of credit.

What Could Change the Rating-Up

Long-term: The long-term rating on the Bonds would be raised if the long-term bank deposits rating on the Bank was upgraded.

Short-term: Not applicable.

What Could Change the Rating-Down

Long-Term: The long-term rating on the Bonds would be lowered if the long-term bank deposit rating on the Bank was downgraded.

Short-Term: The short-term rating on the Bonds would be lowered if the short-term bank deposit rating on the Bank was downgraded.

Contacts

Remarketing Agent: Bank of America Merrill Lynch

Trustee: The Bank of New York Mellon Trust Company

The principal methodology used in rating this issue was Moody's Rating Methodology for Letter of Credit Supported Transactions rating methodology published in August 2005. Other methodologies and factors that may have been considered in the process of rating this issue can also be found on Moody's website.

REGULATORY DISCLOSURES

Information sources used to prepare the credit rating are the following: parties involved in the ratings and public information.

Moody's Investors Service considers the quality of information available on the issuer or obligation satisfactory for the purposes of assigning a credit rating.

MOODY'S adopts all necessary measures so that the information it uses in assigning a credit rating is of sufficient quality and from sources MOODY'S considers to be reliable including, when appropriate, independent third-party sources. However, MOODY'S is not an auditor and cannot in every instance independently verify or validate information received in the rating process.

Please see ratings tab on the issuer/entity page on Moodys.com for the last rating action and the rating history.

The date on which some Credit Ratings were first released goes back to a time before Moody's Investors Service's Credit Ratings were fully digitized and accurate data may not be available. Consequently, Moody's Investors Service provides a date that it believes is the most reliable and accurate based on the information that is available to it. Please see the ratings disclosure page on our website www.moodys.com for further information.

Please see the Credit Policy page on Moodys.com for the methodologies used in determining ratings, further information on the meaning of each rating category and the definition of default and recovery.

All information contained herein is obtained by MOODY'S from sources believed by it to be accurate and reliable. Because of the possibility of human or mechanical error as well as other factors, however, all information contained herein is provided "AS IS" without warranty of any kind. MOODY'S adopts all necessary measures so that the information it uses in assigning a credit rating is of sufficient quality and from sources MOODY'S considers to be reliable including, when appropriate, independent third-party sources. However, MOODY'S is not an auditor and cannot in every instance independently verify or validate information received in the rating process or in preparing the Moody's Publications.

To the extent permitted by law, MOODY'S and its directors, officers, employees, agents, representatives, licensors

and suppliers disclaim liability to any person or entity for any indirect, special, consequential, or incidental losses or damages whatsoever arising from or in connection with the information contained herein or the use of or inability to use any such information, even if MOODY'S or any of its directors, officers, employees, agents, representatives, licensors or suppliers is advised in advance of the possibility of such losses or damages, including but not limited to: (a) any loss of present or prospective profits or (b) any loss or damage arising where the relevant financial instrument is not the subject of a particular credit rating assigned by MOODY'S.

To the extent permitted by law, MOODY'S and its directors, officers, employees, agents, representatives, licensors and suppliers disclaim liability for any direct or compensatory losses or damages caused to any person or entity, including but not limited to by any negligence (but excluding fraud, willful misconduct or any other type of liability that, for the avoidance of doubt, by law cannot be excluded) on the part of, or any contingency within or beyond the control of, MOODY'S or any of its directors, officers, employees, agents, representatives, licensors or suppliers, arising from or in connection with the information contained herein or the use of or inability to use any such information.

NO WARRANTY, EXPRESS OR IMPLIED, AS TO THE ACCURACY, TIMELINESS, COMPLETENESS, MERCHANTABILITY OR FITNESS FOR ANY PARTICULAR PURPOSE OF ANY SUCH RATING OR OTHER OPINION OR INFORMATION IS GIVEN OR MADE BY MOODY'S IN ANY FORM OR MANNER WHATSOEVER.

Moody's Investors Service, Inc., a wholly-owned credit rating agency subsidiary of Moody's Corporation ("MCO"), hereby discloses that most issuers of debt securities (including corporate and municipal bonds, debentures, notes and commercial paper) and preferred stock rated by Moody's Investors Service, Inc. have, prior to assignment of any rating, agreed to pay to Moody's Investors Service, Inc. for appraisal and rating services rendered by it fees ranging from \$1,500 to approximately \$2,500,000. MCO and MIS also maintain policies and procedures to address the independence of MIS's ratings and rating processes. Information regarding certain affiliations that may exist between directors of MCO and rated entities, and between entities who hold ratings from MIS and have also publicly reported to the SEC an ownership interest in MCO of more than 5%, is posted annually at www.moody.com under the heading "Investor Relations — Corporate Governance — Director and Shareholder Affiliation Policy."

For Australia only: Any publication into Australia of this document is pursuant to the Australian Financial Services License of MOODY'S affiliate, Moody's Investors Service Pty Limited ABN 61 003 399 657AFSL 336969 and/or Moody's Analytics Australia Pty Ltd ABN 94 105 136 972 AFSL 383569 (as applicable). This document is intended to be provided only to "wholesale clients" within the meaning of section 761G of the Corporations Act 2001. By continuing to access this document from within Australia, you represent to MOODY'S that you are, or are accessing the document as a representative of, a "wholesale client" and that neither you nor the entity you represent will directly or indirectly disseminate this document or its contents to "retail clients" within the meaning of section 761G of the Corporations Act 2001. MOODY'S credit rating is an opinion as to the creditworthiness of a debt obligation of the issuer, not on the equity securities of the issuer or any form of security that is available to retail clients. It would be dangerous for "retail clients" to make any investment decision based on MOODY'S credit rating. If in doubt you should contact your financial or other professional adviser.

For Japan only: MOODY'S Japan K.K. ("MJKK") is a wholly-owned credit rating agency subsidiary of MOODY'S Group Japan G.K., which is wholly-owned by Moody's Overseas Holdings Inc., a wholly-owned subsidiary of MCO. Moody's SF Japan K.K. ("MSFJ") is a wholly-owned credit rating agency subsidiary of MJKK. MSFJ is not a Nationally Recognized Statistical Rating Organization ("NRSRO"). Therefore, credit ratings assigned by MSFJ are Non-NRSRO Credit Ratings. Non-NRSRO Credit Ratings are assigned by an entity that is not a NRSRO and, consequently, the rated obligation will not qualify for certain types of treatment under U.S. laws. MJKK and MSFJ are credit rating agencies registered with the Japan Financial Services Agency and their registration numbers are FSA Commissioner (Ratings) No. 2 and 3 respectively.

MJKK or MSFJ (as applicable) hereby disclose that most issuers of debt securities (including corporate and municipal bonds, debentures, notes and commercial paper) and preferred stock rated by MJKK or MSFJ (as applicable) have, prior to assignment of any rating, agreed to pay to MJKK or MSFJ (as applicable) for appraisal and rating services rendered by it fees ranging from JPY200,000 to approximately JPY350,000,000. MJKK and MSFJ also maintain policies and procedures to address Japanese regulatory requirements.

New Issue: MOODY'S ASSIGNS Aa3 (ON WATCH FOR DOWNGRADE)/VMIG 1 LETTER OF CREDIT-BACKED RATING TO THE HEALTH AND EDUCATIONAL FACILITIES BOARD OF CITY OF JOHNSON CITY, TN HOSPITAL REVENUE BONDS (MOUNTAIN STATES HEALTH ALLIANCE) SERIES 2007 B-2

Global Credit Research - 29 Sep 2010

\$105.0 MILLION IN DEBT AFFECTED. LONG-TERM JDA RATING BASED ON LONG-TERM RATINGS OF PNC BANK, N.A. AND MOUNTAIN STATES HEALTH ALLIANCE

Johnson City Health & Educ. Fac. Bd., TN
Fully Supported
TN

Moody's Rating

ISSUE	RATING
Ser. 2007B-2 (Taxable)	Aa3/VMIG 1
Sale Amount \$105,000,000	
Expected Sale Date 09/29/10	
Rating Description Joint Default Analysis	

Opinion

NEW YORK, Sep 29, 2010 -- Moody's Investors Service has assigned Aa3 (on watch for downgrade)/VMIG 1 rating to the Health and Educational Facilities Board of City of Johnson City, TN Hospital Revenue Bonds (Mountain States Health Alliance) Series 2007 B-2 (the Bonds)

RATING RATIONALE

The long-term rating is based on a joint default analysis (JDA) which reflects Moody's approach to rating jointly supported transactions. The JDA rating is based upon the long-term rating of PNC Bank, National Association (Bank) as provider of the letter of credit (LOC); the underlying rating of the Bonds; and the structure and legal protections of the transaction which ensures timely debt service payments to investors. The timely payment of purchase price is reflected in the short-term rating of the Bonds. The short-term rating of the Bonds is based upon the short-term rating of the Bank as provider of the letter of credit.

PNC Bank, National Association is currently rated A1 for long-term other senior obligations (OSO) and Prime-1 for short-term OSO. The long-term rating of the Bank is currently on watch for downgrade. Moody's maintains Baa1 underlying rating on the Bonds.

Since a loss to investors would occur only if both the Bank and Mountain States Health Alliance (the Borrower) default in payment, Moody's has assigned the long-term portion of the rating based upon the joint probability of default by both parties. In determining the joint probability of default, Moody's considers the level of default dependence between the Bank and the Borrower. Moody's has determined that there is a high level of default dependence between the Bank and the Borrower. As a result, the joint probability of default for the Bank and the Borrower results in a credit risk consistent with a JDA rating of Aa3 (on watch for downgrade) for the Bonds.

Interest Rate Modes and Payment

The Bonds will bear interest in a weekly rate mode and interest will be paid on the first business day of each month. The bond trust indenture permits conversion of the Bonds, in whole, to a medium term or fixed interest rate period and upon any conversion the Bonds will be subject to mandatory purchase. The rating applies to the Bonds bearing interest in the weekly period only.

Additional Bonds

No additional bonds shall be issued under the bond trust indenture.

Flow of Funds

The trustee is instructed to draw under the LOC on or before 4:00 p.m., New York City time, on the business day prior to any principal and interest payment date, in accordance with the LOC so as to receive moneys on the next business day in amount sufficient for the payment in full of the principal and interest due on the Bonds. If the Bank fails to honor a draw under the applicable LOC, the trustee shall immediately notify the Borrower and demand payment of such amount. The trustee is also instructed to draw under the LOC by 11:30 a.m., New York City time, on each purchase date to the extent remarketing proceeds are insufficient. Bonds which are purchased by the Bank due to a failed remarketing are held by the trustee and will not be released until the trustee has received confirmation from the Bank stating that the LOC has been reinstated in the amount of the purchase price drawn for such Bonds.

Letter of Credit

The LOC is sized for full principal plus 37 days of interest at the maximum rate applicable to the Bonds (12%) calculated based on 360 days year and will provide coverage for the Bonds while they bear interest in the weekly rate mode.

Draws on the Letter of Credit

Conforming draws for principal and interest presented to the Bank at or before 4:00 p.m., Pittsburgh, PA time, on a business day, will be honored by the Bank no later than 2:30 p.m., Pittsburgh, PA time, on the next business day. Conforming draws for purchase price presented to the Bank at or before 12:00 noon, Pittsburgh, PA time, on a business day, will be honored by such Bank no later than 2:30 p.m., Pittsburgh, PA time, on such business day.

Substitution of the Letter of Credit

The Bonds will be subject to mandatory tender on the fifth (5th) business day prior to substitution of the LOC. Draws for purchase price upon the substitution will be made under the existing LOC and the existing LOC will not be surrendered to the Bank for cancellation until after such tender draw is honored.

Reinstatement of Interest Draws

Draws made under the LOC for interest shall be automatically reinstated at the close of business on the date of payment of such interest drawing unless the trustee receives from the Bank a notice by 4:00 p.m. on such payment date stating that the Bank has not been reimbursed for such drawing or that an event of default under the reimbursement agreement has occurred. Upon receipt of such notice the trustee will immediately declare the principal of and accrued interest on the Bonds due and payable and interest on such Bonds will cease to accrue on the day it becomes payable, which day shall be one business day after declaration of acceleration.

Reimbursement Agreement Defaults

Upon an event of default under the reimbursement agreement, the Bank may direct the trustee to accelerate the Bonds. Upon receipt of such notice, the trustee will declare the principal of and accrued interest on the Bonds immediately due and payable. Interest will cease to accrue one business day following the date on which the Bonds are declared immediately due and payable. Upon receipt of such notice the trustee will immediately declare the principal of and accrued interest on the Bonds due and payable and interest on such Bonds will cease to accrue on the day it becomes payable, which day shall be one business day after declaration of acceleration.

Bond Indenture Events of Default Related to Payment

Upon a failure to pay when due the principal or interest or the purchase price on the Bonds, the trustee may, and at the written request of the Bank or the holders of more than two-thirds (2/3) in aggregate principal amount of the outstanding Bonds shall declare the principal of and accrued interest on the Bonds due and payable and interest on such Bonds will cease to accrue on the day it becomes payable, which day shall be one business day after declaration of acceleration.

Expiration / Termination of the Letter of Credit

The LOC shall terminate upon the earliest to occur of: (i) September 29, 2013, the stated expiration date; (ii) the business day following conversion of an interest rate of the Bonds to a rate other than a weekly interest rate; (iii)

the day which is fifteen (15) days after trustee's receipt of a notice from the Bank stating that an event of default under the reimbursement agreement has occurred and directing acceleration of the Bonds, (iv) the date an acceleration drawing is honored by the Bank; (v) receipt by the Bank of a certificate from the trustee stating that (A) no Bonds remain outstanding and all draws under the LOC have been made and honored, or (B) a substitute LOC has been issued; or (vi) the date on which a stated maturity drawing that causing the stated amount of the LOC to be reduced to \$0 is honored by the Bank.

Optional Tenders

Bondholders may optionally tender their Bonds on any business day during the weekly rate mode with five (5) business days prior written notice to the trustee and the remarketing agent.

Mandatory Purchases

The Bonds are subject to mandatory purchase on: (i) each interest rate conversion date (ii) any interest reset date, (iii) the fifth (5th) business day prior to the effective date of an alternate letter of credit or (iv) the second (2nd) business day prior to the expiration date of the letter of credit.

What Could Change the Rating-Up

Long-Term: the long-term rating on the applicable series of Bonds could be upgraded if the long-term OSO rating of the Bank or the long-term rating of the Borrower was upgraded, or if

there was a decrease in the level of default dependence between the Bank and the Borrower.

Short-Term: N/A

What Could Change the Rating-Down

Long-Term: the long-term rating on the Bonds could be lowered if the long term OSO rating of the Bank or the long-term rating of the Borrower was downgraded, or if there is an increase in the level of default dependence between the Bank and the Borrower.

Short-Term: the short-term rating on the Bonds would be lowered if the short-term OSO rating, on the Bank was downgraded.

Moody's Investors Service, Inc., a wholly-owned credit rating agency subsidiary of Moody's Corporation ("MCO"), hereby discloses that most issuers of debt securities (including corporate and municipal bonds, debentures, notes and commercial paper) and preferred stock rated by Moody's Investors Service, Inc. have, prior to assignment of any rating, agreed to pay to Moody's Investors Service, Inc. for appraisal and rating services rendered by it fees ranging from \$1,500 to approximately \$2,500,000. MCO and MIS also maintain policies and procedures to address the independence of MIS's ratings and rating processes. Information regarding certain affiliations that may exist between directors of MCO and rated entities, and between entities who hold ratings from MIS and have also publicly reported to the SEC an ownership interest in MCO of more than 5%, is posted annually at www.moody.com under the heading "Investor Relations — Corporate Governance — Director and Shareholder Affiliation Policy."

For Australia only: Any publication into Australia of this document is pursuant to the Australian Financial Services License of MOODY'S affiliate, Moody's Investors Service Pty Limited ABN 61 003 399 657AFSL 336969 and/or Moody's Analytics Australia Pty Ltd ABN 94 105 136 972 AFSL 383569 (as applicable). This document is intended to be provided only to "wholesale clients" within the meaning of section 761G of the Corporations Act 2001. By continuing to access this document from within Australia, you represent to MOODY'S that you are, or are accessing the document as a representative of, a "wholesale client" and that neither you nor the entity you represent will directly or indirectly disseminate this document or its contents to "retail clients" within the meaning of section 761G of the Corporations Act 2001. MOODY'S credit rating is an opinion as to the creditworthiness of a debt obligation of the issuer, not on the equity securities of the issuer or any form of security that is available to retail clients. It would be dangerous for "retail clients" to make any investment decision based on MOODY'S credit rating. If in doubt you should contact your financial or other professional adviser.

For Japan only: MOODY'S Japan K.K. ("MJKK") is a wholly-owned credit rating agency subsidiary of MOODY'S

Group Japan G.K., which is wholly-owned by Moody's Overseas Holdings Inc., a wholly-owned subsidiary of MCO. Moody's SF Japan K.K. ("MSFJ") is a wholly-owned credit rating agency subsidiary of MJKK. MSFJ is not a Nationally Recognized Statistical Rating Organization ("NRSRO"). Therefore, credit ratings assigned by MSFJ are Non-NRSRO Credit Ratings. Non-NRSRO Credit Ratings are assigned by an entity that is not a NRSRO and, consequently, the rated obligation will not qualify for certain types of treatment under U.S. laws. MJKK and MSFJ are credit rating agencies registered with the Japan Financial Services Agency and their registration numbers are FSA Commissioner (Ratings) No. 2 and 3 respectively.

MJKK or MSFJ (as applicable) hereby disclose that most issuers of debt securities (including corporate and municipal bonds, debentures, notes and commercial paper) and preferred stock rated by MJKK or MSFJ (as applicable) have, prior to assignment of any rating, agreed to pay to MJKK or MSFJ (as applicable) for appraisal and rating services rendered by it fees ranging from JPY200,000 to approximately JPY350,000,000. MJKK and MSFJ also maintain policies and procedures to address Japanese regulatory requirements.

Rating Update: MOODY'S ASSIGNS Aa1 (ON WATCH FOR DOWNGRADE)/VMIG 1 LETTER OF CREDIT-BACKED RATING TO THE HEALTH AND EDUCATIONAL FACILITIES BOARD OF CITY OF JOHNSON CITY, TN HOSPITAL REVENUE BONDS (MOUNTAIN STATES HEALTH ALLIANCE) SERIES 2007 B-1

Global Credit Research - 29 Sep 2010

\$144.4 MILLION IN DEBT AFFECTED. LONG-TERM JDA RATING BASED ON LONG-TERM RATINGS OF U.S. BANK, N.A. AND MOUNTAIN STATES HEALTH ALLIANCE

Johnson City Health & Educ. Fac. Bd., TN
Fully Supported
TN

Opinion

NEW YORK, Sep 29, 2010 -- Moody's Investors Service has assigned Aa1 (on watch for downgrade)/VMIG 1 rating to the Health and Educational Facilities Board of City of Johnson City, TN Hospital Revenue Bonds (Mountain States Health Alliance) Series 2007 B-1 (the Bonds)

RATING RATIONALE

The long-term rating is based on a joint default analysis (JDA) which reflects Moody's approach to rating jointly supported transactions. The JDA rating is based upon the long-term rating of U.S. Bank National Association (Bank) as provider of the letter of credit (LOC); the underlying rating of the Bonds; and the structure and legal protections of the transaction which ensures timely debt service payments to investors. The timely payment of purchase price is reflected in the short-term rating of the Bonds. The short-term rating of the Bonds is based upon the short-term rating of the Bank as provider of the letter of credit.

U.S. Bank National Association is currently rated Aa1 for long-term other senior obligations (OSO) and Prime-1 for short-term OSO. The long-term rating of the Bank is currently on watch for downgrade. Moody's maintains Baa1 underlying rating on the Bonds.

Since a loss to investors would occur only if both the Bank and Mountain States Health Alliance (the Borrower) default in payment, Moody's has assigned the long-term portion of the rating based upon the joint probability of default by both parties. In determining the joint probability of default, Moody's considers the level of default dependence between the Bank and the Borrower. Moody's has determined that there is a high level of default dependence between the Bank and the Borrower. As a result, the joint probability of default for the Bank and the Borrower results in a credit risk consistent with a JDA rating of Aa1 (on watch for downgrade) for the Bonds.

Interest Rate Modes and Payment

The Bonds will bear interest in a weekly rate mode and interest will be paid on the first business day of each month. The bond trust indenture permits conversion of the Bonds, in whole, to a medium term or fixed interest rate period and upon any conversion the Bonds will be subject to mandatory purchase. The rating applies to the Bonds bearing interest in the weekly period only.

Additional Bonds

No additional bonds shall be issued under the bond trust indenture.

Flow of Funds

The trustee is instructed to draw under the LOC on or before 4:00 p.m., New York City time, on the business day prior to any principal and interest payment date, in accordance with the LOC so as to receive moneys on the next business day in amount sufficient for the payment in full of the principal and interest due on the Bonds. If the Bank fails to honor a draw under the applicable LOC, the trustee shall immediately notify the Borrower and demand

payment of such amount. The trustee is also instructed to draw under the LOC by 11:30 a.m., New York City time, on each purchase date to the extent remarketing proceeds are insufficient. Bonds which are purchased by the Bank due to a failed remarketing are held by the trustee and will not be released until the trustee has received confirmation from the Bank stating that the LOC has been reinstated in the amount of the purchase price drawn for such Bonds.

Letter of Credit

The LOC is sized for full principal plus 37 days of interest at the maximum rate applicable to the Bonds (12%) calculated based on 360 days year and will provide coverage for the Bonds while they bear interest in the weekly rate mode.

Draws on the Letter of Credit

Conforming draws for principal and interest presented to the Bank at or before 3:00 p.m., St. Louis, Missouri time, on a business day, will be honored by the Bank no later than 1:30 p.m., St. Louis, Missouri time, on the next business day. Conforming draws for purchase price presented to the Bank at or before 11:00 a.m., St. Louis, Missouri time, on a business day, will be honored by such Bank no later than 1:30 p.m., St. Louis, Missouri time, on such business day.

Substitution of the Letter of Credit

The Bonds will be subject to mandatory tender on the fifth (5th) business day prior to any substitution of the LOC. Draws for purchase price upon the substitution will be made under the existing LOC and the existing LOC will not be surrendered to the Bank for cancellation until after such tender draw is honored.

Reinstatement of Interest Draws

Draws made under the LOC for interest shall be automatically reinstated at the close of business on the date of payment of such interest drawing unless the trustee receives from the Bank a notice by 4:00 p.m. on such payment date stating that the Bank has not been reimbursed for such drawing or that an event of default under the reimbursement agreement has occurred. Upon receipt of such notice the trustee will immediately declare the principal of and accrued interest on the Bonds due and payable and interest on such Bonds will cease to accrue on the day it becomes payable, which day shall be one business day after declaration of acceleration.

Reimbursement Agreement Defaults

Upon an event of default under the reimbursement agreement, the Bank may direct the trustee to accelerate the Bonds. Upon receipt of such notice, the trustee will declare the principal of and accrued interest on the Bonds immediately due and payable. Interest will cease to accrue one day following the date on which the Bonds are declared immediately due and payable. Upon receipt of such notice the trustee will immediately declare the principal of and accrued interest on the Bonds due and payable and interest on such Bonds will cease to accrue on the day it becomes payable, which day shall be one business day after declaration of acceleration.

Bond Indenture Events of Default Related to Payment

Upon a failure to pay when due the principal or interest or the purchase price on the Bonds, the trustee may, and at the written request of the Bank or the holders of more than two-thirds (2/3) in aggregate principal amount of the outstanding Bonds shall declare the principal of and accrued interest on the Bonds due and payable and interest on such Bonds will cease to accrue on the day it becomes payable, which day shall be one business day after declaration of acceleration.

Expiration / Termination of the Letter of Credit

The LOC shall terminate upon the earliest to occur of: (i) September 29, 2013, the stated expiration date; (ii) the business day following conversion of an interest rate of the Bonds to a rate other than a weekly interest rate; (iii) the day which is fifteen (15) days after trustee's receipt of a notice from the Bank stating that an event of default under the reimbursement agreement has occurred and directing acceleration of the Bonds, (iv) the date an acceleration drawing is honored by the Bank; (v) receipt by the Bank of a certificate from the trustee stating that (A) no Bonds remain outstanding and all draws under the LOC have been made and honored, or (B) a substitute LOC has been issued; or (vi) the date on which a stated maturity drawing that causing the stated amount of the LOC to be reduced to \$0 is honored by the Bank.

Optional Tenders

Bondholders may optionally tender their Bonds on any business day during the weekly rate mode with five (5) business days prior written notice to the trustee and the remarketing agent.

Mandatory Purchases

The Bonds are subject to mandatory purchase on: (i) each interest rate conversion date (ii) any interest reset date, (iii) the fifth (5th) business day prior to the effective date of an alternate letter of credit or (iv) the second (2nd) business day prior to the expiration date of the letter of credit.

What Could Change the Rating-Up

Long-Term: the long-term rating on the applicable series of Bonds could be upgraded if the long-term OSO rating of the Bank or the long-term rating of the Borrower was upgraded.

Short-Term: N/A

What Could Change the Rating-Down

Long-Term: the long-term rating on the Bonds could be lowered if the long term OSO rating of the Bank or the long-term rating of the Borrower was downgraded.

Short-Term: the short-term rating on the Bonds would be lowered if the short-term OSO rating, on the Bank was downgraded.

Moody's Investors Service, Inc., a wholly-owned credit rating agency subsidiary of Moody's Corporation ("MCO"), hereby discloses that most issuers of debt securities (including corporate and municipal bonds, debentures, notes and commercial paper) and preferred stock rated by Moody's Investors Service, Inc. have, prior to assignment of any rating, agreed to pay to Moody's Investors Service, Inc. for appraisal and rating services rendered by it fees ranging from \$1,500 to approximately \$2,500,000. MCO and MIS also maintain policies and procedures to address the independence of MIS's ratings and rating processes. Information regarding certain affiliations that may exist between directors of MCO and rated entities, and between entities who hold ratings from MIS and have also publicly reported to the SEC an ownership interest in MCO of more than 5%, is posted annually at www.moody.com under the heading "Investor Relations — Corporate Governance — Director and Shareholder Affiliation Policy."

For Australia only: Any publication into Australia of this document is pursuant to the Australian Financial Services License of MOODY'S affiliate, Moody's Investors Service Pty Limited ABN 61 003 399 657AFSL 336969 and/or Moody's Analytics Australia Pty Ltd ABN 94 105 136 972 AFSL 383569 (as applicable). This document is intended to be provided only to "wholesale clients" within the meaning of section 761G of the Corporations Act 2001. By continuing to access this document from within Australia, you represent to MOODY'S that you are, or are accessing the document as a representative of, a "wholesale client" and that neither you nor the entity you represent will directly or indirectly disseminate this document or its contents to "retail clients" within the meaning of section 761G of the Corporations Act 2001. MOODY'S credit rating is an opinion as to the creditworthiness of a debt obligation of the issuer, not on the equity securities of the issuer or any form of security that is available to retail clients. It would be dangerous for "retail clients" to make any investment decision based on MOODY'S credit rating. If in doubt you should contact your financial or other professional adviser.

For Japan only: MOODY'S Japan K.K. ("MJKK") is a wholly-owned credit rating agency subsidiary of MOODY'S Group Japan G.K., which is wholly-owned by Moody's Overseas Holdings Inc., a wholly-owned subsidiary of MCO. Moody's SF Japan K.K. ("MSFJ") is a wholly-owned credit rating agency subsidiary of MJKK. MSFJ is not a Nationally Recognized Statistical Rating Organization ("NRSRO"). Therefore, credit ratings assigned by MSFJ are Non-NRSRO Credit Ratings. Non-NRSRO Credit Ratings are assigned by an entity that is not a NRSRO and, consequently, the rated obligation will not qualify for certain types of treatment under U.S. laws. MJKK and MSFJ are credit rating agencies registered with the Japan Financial Services Agency and their registration numbers are FSA Commissioner (Ratings) No. 2 and 3 respectively.

MJKK or MSFJ (as applicable) hereby disclose that most issuers of debt securities (including corporate and municipal bonds, debentures, notes and commercial paper) and preferred stock rated by MJKK or MSFJ (as

applicable) have, prior to assignment of any rating, agreed to pay to MJKK or MSFJ (as applicable) for appraisal and rating services rendered by it fees ranging from JPY200,000 to approximately JPY350,000,000. MJKK and MSFJ also maintain policies and procedures to address Japanese regulatory requirements.

Rating Update: MOODY'S UPGRADES TO Aa1 (ON WATCH FOR DOWNGRADE)/VMIG 1 FROM A3/VMIG 2 LETTER OF CREDIT-BACKED RATING OF THE HEALTH AND EDUCATIONAL FACILITIES BOARD OF CITY OF JOHNSON CITY, TN HOSPITAL REVENUE BONDS (MOUNTAIN STATES HEALTH ALLIANCE) SERIES 2008A

Global Credit Research - 29 Sep 2010

\$13.245 MILLION IN DEBT AFFECTED. LONG-TERM JDA RATING IS BASED ON LONG-TERM RATINGS OF U.S BANK, N.A. AND MOUNTAIN STATES HEALTH ALLIANCE

Johnson City Health & Educ. Fac. Bd., TN
Fully Supported
TN

Opinion

NEW YORK, Sep 29, 2010 -- Moody's Investors Service has upgraded to Aa1 (on watch for downgrade)/VMIG 1 from A3/VMIG 2 rating of The Health and Educational Facilities Board of City of Johnson City, TN Hospital Revenue Bonds (Mountain States Health Alliance) Series 2008A (the Bonds) in conjunction with the substitution of the current letter of credit supporting the Bonds provided by Regions Bank with an alternate irrevocable direct-pay letter of credit (LOC) provided by U.S. Bank National Association (Bank).

RATING RATIONALE

The long-term rating is based on a joint default analysis (JDA) which reflects Moody's approach to rating jointly supported transactions. The JDA rating is based upon the long-term rating of the Bank as provider of the letter of credit; the underlying rating of the Bonds; and the structure and legal protections of the transaction which ensures timely debt service payments to investors. The timely payment of purchase price is reflected in the short-term rating of the Bonds. The short-term rating of the Bonds is based upon the short-term rating of the Bank as provider of the letter of credit.

U.S. Bank National Association is currently rated Aa1 for long-term other senior obligations (OSO) and Prime-1 for short-term OSO. The long-term rating of the Bank is currently on watch for downgrade. Moody's maintains Baa1 underlying rating on the Bonds.

Since a loss to investors would occur if both the Bank and Mountain States Health Alliance (the Borrower) default in payment, Moody's has assigned the long-term portion of the rating based upon the joint probability of default by both parties. In determining the joint probability of default, Moody's considers the level of default dependence between the Bank and the Borrower. Moody's has determined that there is a high level of default dependence between the Bank and the Borrower. As a result, the joint probability of default for the Bank and the Borrower results in a credit risk consistent with a JDA rating of Aa1 (on watch for downgrade) for the Bonds.

Interest Rate Modes and Payment

The Bonds will continue to bear interest in a weekly rate mode and interest will be paid on the first business day of each month. The bond trust indenture permits conversion of the Bonds, in whole, to a medium term or fixed interest rate period and upon any conversion the Bonds will be subject to mandatory purchase. The rating applies to the Bonds bearing interest in the weekly period only.

Additional Bonds

No additional bonds shall be issued under the bond trust indenture.

Flow of Funds

The trustee is instructed to draw under the LOC on or before 4:00 p.m., New York City time, on the business day

prior to any principal and interest payment date, in accordance with the LOC so as to receive moneys on the next business day in amount sufficient for the payment in full of the principal and interest due on the Bonds. If the Bank fails to honor a draw under the applicable LOC, the trustee shall immediately notify the Borrower and demand payment of such amount. The trustee is also instructed to draw under the LOC by 11:30 a.m., New York City time, on each purchase date to the extent remarketing proceeds are insufficient. Bonds which are purchased by the Bank due to a failed remarketing are held by the trustee and will not be released until the trustee has received confirmation from the Bank stating that the LOC has been reinstated in the amount of the purchase price drawn for such Bonds.

Letter of Credit

The LOC is sized for full principal plus 37 days of interest at the maximum rate applicable to the Bonds (12%) calculated based on 360 days year and will provide coverage for the Bonds while they bear interest in the weekly rate mode.

Draws on the Letter of Credit

Conforming draws for principal and interest presented to the Bank at or before 3:00 p.m., St. Louis, Missouri time, on a business day, will be honored by the Bank no later than 1:30 p.m., St. Louis, Missouri time, on the next business day. Conforming draws for purchase price presented to the Bank at or before 11:00 a.m., St. Louis, Missouri time, on a business day, will be honored by such Bank no later than 1:30 p.m., St. Louis, Missouri time, on such business day.

Substitution of the Letter of Credit

The Bonds will be subject to mandatory tender on the fifth (5th) business day prior to substitution of the LOC. Draws for purchase price upon the substitution will be made under the existing LOC and the existing LOC will not be surrendered to the Bank for cancellation until after such tender draw is honored.

Reinstatement of Interest Draws

Draws made under the LOC for interest shall be automatically reinstated at the close of business on the date of payment of such interest drawing unless the trustee receives from the Bank a notice by 4:00 p.m. on such payment date stating that the Bank has not been reimbursed for such drawing or that an event of default under the reimbursement agreement has occurred. Upon receipt of such notice the trustee will immediately declare the principal of and accrued interest on the Bonds due and payable and interest on such Bonds will cease to accrue on the day it becomes payable, which day shall be one business day after declaration of acceleration.

Reimbursement Agreement Defaults

Upon an event of default under the reimbursement agreement, the Bank may direct the trustee to accelerate the Bonds. Upon receipt of such notice, the trustee will declare the principal of and accrued interest on the Bonds immediately due and payable. Interest will cease to accrue one day following the date on which the Bonds are declared immediately due and payable. Upon receipt of such notice the trustee will immediately declare the principal of and accrued interest on the Bonds due and payable and interest on such Bonds will cease to accrue on the day it becomes payable, which day shall be one business day after declaration of acceleration.

Bond Indenture Events of Default Related to Payment

Upon a failure to pay when due the principal or interest or the purchase price on the Bonds, the trustee may, and at the written request of the Bank or the holders of more than two-thirds (2/3) in aggregate principal amount of the outstanding Bonds shall declare the principal of and accrued interest on the Bonds due and payable and interest on such Bonds will cease to accrue on the day it becomes payable, which day shall be one business day after declaration of acceleration.

Expiration / Termination of the Letter of Credit

The LOC shall terminate upon the earliest to occur of: (i) September 29, 2013, the stated expiration date; (ii) the business day following conversion of an interest rate of the Bonds to a rate other than a weekly interest rate; (iii) the day which is fifteen (15) days after trustee's receipt of a notice from the Bank stating that an event of default under the reimbursement agreement has occurred and directing acceleration of the Bonds, (iv) the date an acceleration drawing is honored by the Bank; (v) receipt by the Bank of a certificate from the trustee stating that (A) no Bonds remain outstanding and all draws under the LOC have been made and honored, or (B) a substitute

LOC has been issued; or (vi) the date on which a stated maturity drawing that causing the stated amount of the LOC to be reduced to \$0 is honored by the Bank.

Optional Tenders

Bondholders may optionally tender their Bonds on any business day during the weekly rate mode with five (5) business days prior written notice to the trustee and the remarketing agent.

Mandatory Purchases

The Bonds are subject to mandatory purchase on: (i) each interest rate conversion date (ii) any interest reset date, (iii) the fifth (5th) business day prior to the effective date of an alternate letter of credit or (iv) the second (2nd) business day prior to the expiration date of the letter of credit.

What Could Change the Rating-Up

Long-Term: the long-term rating on the applicable series of Bonds could be upgraded if the long-term OSO rating of the Bank or the long-term rating of the Borrower was upgraded.

Short-Term: N/A

What Could Change the Rating-Down

Long-Term: the long-term rating on the Bonds could be lowered if the long term OSO rating of the Bank or the long-term rating of the Borrower was downgraded.

Short-Term: the short-term rating on the Bonds would be lowered if the short-term OSO rating, on the Bank was downgraded.

ALL INFORMATION CONTAINED HEREIN IS PROTECTED BY LAW, INCLUDING BUT NOT LIMITED TO, COPYRIGHT LAW, AND NONE OF SUCH INFORMATION MAY BE COPIED OR OTHERWISE REPRODUCED, REPACKAGED, FURTHER TRANSMITTED, TRANSFERRED, DISSEMINATED, REDISTRIBUTED OR RESOLD, OR STORED FOR SUBSEQUENT USE FOR ANY SUCH PURPOSE, IN WHOLE OR IN PART, IN ANY FORM OR MANNER OR BY ANY MEANS WHATSOEVER, BY ANY PERSON WITHOUT MOODY'S PRIOR WRITTEN CONSENT.

All information contained herein is obtained by MOODY'S from sources believed by it to be accurate and reliable. Because of the possibility of human or mechanical error as well as other factors, however, all information contained herein is provided "AS IS" without warranty of any kind. MOODY'S adopts all necessary measures so that the information it uses in assigning a credit rating is of sufficient quality and from sources MOODY'S considers to be reliable including, when appropriate, independent third-party sources. However, MOODY'S is not an auditor and cannot in every instance independently verify or validate information received in the rating process or in preparing the Moody's Publications.

To the extent permitted by law, MOODY'S and its directors, officers, employees, agents, representatives, licensors and suppliers disclaim liability to any person or entity for any indirect, special, consequential, or incidental losses or damages whatsoever arising from or in connection with the information contained herein or the use of or inability to use any such information, even if MOODY'S or any of its directors, officers, employees, agents, representatives, licensors or suppliers is advised in advance of the possibility of such losses or damages, including but not limited to: (a) any loss of present or prospective profits or (b) any loss or damage arising where the relevant financial instrument is not the subject of a particular credit rating assigned by MOODY'S.

To the extent permitted by law, MOODY'S and its directors, officers, employees, agents, representatives, licensors and suppliers disclaim liability for any direct or compensatory losses or damages caused to any person or entity, including but not limited to by any negligence (but excluding fraud, willful misconduct or any other type of liability that, for the avoidance of doubt, by law cannot be excluded) on the part of, or any contingency within or beyond the control of, MOODY'S or any of its directors, officers, employees, agents, representatives, licensors or suppliers, arising from or in connection with the information contained herein or the use of or inability to use any such information.

NO WARRANTY, EXPRESS OR IMPLIED, AS TO THE ACCURACY, TIMELINESS, COMPLETENESS, MERCHANTABILITY OR FITNESS FOR ANY PARTICULAR PURPOSE OF ANY SUCH RATING OR OTHER OPINION OR INFORMATION IS GIVEN OR MADE BY MOODY'S IN ANY FORM OR MANNER WHATSOEVER.

Moody's Investors Service, Inc., a wholly-owned credit rating agency subsidiary of Moody's Corporation ("MCO"), hereby discloses that most issuers of debt securities (including corporate and municipal bonds, debentures, notes and commercial paper) and preferred stock rated by Moody's Investors Service, Inc. have, prior to assignment of any rating, agreed to pay to Moody's Investors Service, Inc. for appraisal and rating services rendered by it fees ranging from \$1,500 to approximately \$2,500,000. MCO and MIS also maintain policies and procedures to address the independence of MIS's ratings and rating processes. Information regarding certain affiliations that may exist between directors of MCO and rated entities, and between entities who hold ratings from MIS and have also publicly reported to the SEC an ownership interest in MCO of more than 5%, is posted annually at www.moody.com under the heading "Investor Relations — Corporate Governance — Director and Shareholder Affiliation Policy."

For Australia only: Any publication into Australia of this document is pursuant to the Australian Financial Services License of MOODY'S affiliate, Moody's Investors Service Pty Limited ABN 61 003 399 657AFSL 336969 and/or Moody's Analytics Australia Pty Ltd ABN 94 105 136 972 AFSL 383569 (as applicable). This document is intended to be provided only to "wholesale clients" within the meaning of section 761G of the Corporations Act 2001. By continuing to access this document from within Australia, you represent to MOODY'S that you are, or are accessing the document as a representative of, a "wholesale client" and that neither you nor the entity you represent will directly or indirectly disseminate this document or its contents to "retail clients" within the meaning of section 761G of the Corporations Act 2001. MOODY'S credit rating is an opinion as to the creditworthiness of a debt obligation of the issuer, not on the equity securities of the issuer or any form of security that is available to retail clients. It would be dangerous for "retail clients" to make any investment decision based on MOODY'S credit rating. If in doubt you should contact your financial or other professional adviser.

For Japan only: MOODY'S Japan K.K. ("MJKK") is a wholly-owned credit rating agency subsidiary of MOODY'S Group Japan G.K., which is wholly-owned by Moody's Overseas Holdings Inc., a wholly-owned subsidiary of MCO. Moody's SF Japan K.K. ("MSFJ") is a wholly-owned credit rating agency subsidiary of MJKK. MSFJ is not a Nationally Recognized Statistical Rating Organization ("NRSRO"). Therefore, credit ratings assigned by MSFJ are Non-NRSRO Credit Ratings. Non-NRSRO Credit Ratings are assigned by an entity that is not a NRSRO and, consequently, the rated obligation will not qualify for certain types of treatment under U.S. laws. MJKK and MSFJ are credit rating agencies registered with the Japan Financial Services Agency and their registration numbers are FSA Commissioner (Ratings) No. 2 and 3 respectively.

MJKK or MSFJ (as applicable) hereby disclose that most issuers of debt securities (including corporate and municipal bonds, debentures, notes and commercial paper) and preferred stock rated by MJKK or MSFJ (as applicable) have, prior to assignment of any rating, agreed to pay to MJKK or MSFJ (as applicable) for appraisal and rating services rendered by it fees ranging from JPY200,000 to approximately JPY350,000,000. MJKK and MSFJ also maintain policies and procedures to address Japanese regulatory requirements.

Rating Update: MOODY'S AFFIRMS Aa3/VMIG 1 LETTER OF CREDIT-BACKED RATING TO THE HEALTH AND EDUCATIONAL FACILITIES BOARD OF CITY OF JOHNSON CITY, TN HOSPITAL REVENUE BONDS (MOUNTAIN STATES HEALTH ALLIANCE) SERIES 2007 B-3

Global Credit Research - 25 Oct 2010

\$58.5 MILLION IN DEBT AFFECTED. LONG-TERM JDA RATING BASED ON LONG-TERM RATINGS OF MIZUHO CORPORATE BANK LTD. AND MOUNTAIN STATES HEALTH ALLIANCE

Johnson City Health & Educ. Fac. Bd., TN
Fully Supported
TN

Opinion

NEW YORK, Oct 25, 2010 -- Moody's Investors Service has affirmed Aa3/VMIG 1 rating currently assigned to the Health and Educational Facilities Board of City of Johnson City, TN Hospital Revenue Bonds (Mountain States Health Alliance) Series 2007 B-3 (the Bonds) in connection with the application of the joint default analysis methodology.

RATING RATIONALE

The long term rating which was previously based on the long-term rating of the Bank will now be based on a joint default analysis (JDA) which reflects Moody's approach to rating jointly supported transactions. The JDA rating is based upon the long-term rating of Mizuho Corporate Bank, LTD (Bank) as provider of the letter of credit (LOC); the underlying rating of the Bonds; and the structure and legal protections of the transaction which ensures timely debt service payments to investors. The timely payment of purchase price is reflected in the short-term rating of the Bonds. The short-term rating of the Bonds is based upon the short-term rating of the Bank as provider of the letter of credit.

Mizuho Corporate Bank, LTD is currently rated Aa3 for long-term bank deposits and Prime-1 for short-term bank deposits. Moody's maintains Baa1 underlying rating on the Bonds.

Since a loss to investors would occur only if both the Bank and Mountain States Health Alliance (the Borrower) default in payment, Moody's has assigned the long-term portion of the rating based upon the joint probability of default by both parties. In determining the joint probability of default, Moody's considers the level of default dependence between the Bank and the Borrower. Moody's has determined that there is a high level of default dependence between the Bank and the Borrower. As a result, the joint probability of default for the Bank and the Borrower results in a credit risk consistent with a JDA rating of Aa3 for the Bonds.

Interest Rate Modes and Payment

The Bonds will bear interest in a weekly rate mode and interest will be paid on the first business day of each month. The bond trust indenture permits conversion of the Bonds, in whole, to a medium term or fixed interest rate period and upon any conversion the Bonds will be subject to mandatory purchase. The rating applies to the Bonds bearing interest in the weekly period only.

Additional Bonds

No additional bonds shall be issued under the bond trust indenture.

Flow of Funds

The trustee is instructed to draw under the LOC on or before 4:00 p.m., New York City time, on the business day prior to any principal and interest payment date, in accordance with the LOC so as to receive moneys on the next business day in amount sufficient for the payment in full of the principal and interest due on the Bonds. If the Bank

fails to honor a draw under the LOC, the trustee shall immediately notify the Borrower and demand payment of such amount. The trustee is also instructed to draw under the LOC by 11:30 a.m., New York City time, on each purchase date to the extent remarketing proceeds are insufficient. Bonds which are purchased by the Bank due to a failed remarketing are held by the trustee and will not be released until the trustee has received confirmation from the Bank stating that the LOC has been reinstated in the amount of the purchase price drawn for such Bonds.

Letter of Credit

The LOC is sized for full principal plus 37 days of interest at the maximum rate applicable to the Bonds (12%) calculated based on 360 days year and will provide coverage for the Bonds while they bear interest in the weekly rate mode.

Draws on the Letter of Credit

Conforming draws for principal and interest presented to the Bank at or before 4:00 p.m., New York City time, on a business day, will be honored by the Bank no later than 2:30 p.m., New York City time, on the next business day. Conforming draws for purchase price presented to the Bank at or before 12:00 noon, New York City time, on a business day, will be honored by such Bank no later than 2:30 p.m., New York City time, on such business day.

Substitution of the Letter of Credit

The Bonds will be subject to mandatory tender on the fifth (5th) business day prior to substitution of the LOC. Draws for purchase price upon the substitution will be made under the existing LOC and the existing LOC will not be surrendered to the Bank for cancellation until after such tender draw is honored.

Reinstatement of Interest Draws

Draws made under the LOC for interest shall be automatically reinstated at the close of business on the date of payment of such interest drawing unless the trustee receives from the Bank a notice by 4:00 p.m. New York City time, on such payment date stating that the Bank has not been reimbursed for such drawing or that an event of default under the reimbursement agreement has occurred. Upon receipt of such notice the trustee will immediately declare the principal of and accrued interest on the Bonds due and payable and interest on such Bonds will cease to accrue on the day it becomes payable, which day shall be one business day after declaration of acceleration.

Reimbursement Agreement Defaults

Upon an event of default under the reimbursement agreement, the Bank may direct the trustee to accelerate the Bonds. Upon receipt of such notice, the trustee will declare the principal of and accrued interest on the Bonds immediately due and payable. Interest will cease to accrue one day following the date on which the Bonds are declared immediately due and payable. Upon receipt of such notice the trustee will immediately declare the principal of and accrued interest on the Bonds due and payable and interest on such Bonds will cease to accrue on the day it becomes payable, which day shall be one business day after declaration of acceleration.

Bond Indenture Events of Default Related to Payment

Upon a failure to pay when due the principal or interest or the purchase price on the Bonds, the trustee may, and at the written request of the Bank or the holders of more than two-thirds (2/3) in aggregate principal amount of the outstanding Bonds shall declare the principal of and accrued interest on the Bonds due and payable and interest on such Bonds will cease to accrue on the day it becomes payable, which day shall be one business day after declaration of acceleration.

Expiration / Termination of the Letter of Credit

The LOC shall terminate upon the earliest to occur of: (i) September 29, 2013, the stated expiration date; (ii) the business day following conversion of an interest rate of the Bonds to a rate other than a weekly interest rate; (iii) the day which is fifteen (15) days after trustee's receipt of a notice from the Bank stating that an event of default under the reimbursement agreement has occurred and directing acceleration of the Bonds, (iv) the date an acceleration drawing is honored by the Bank; (v) receipt by the Bank of a certificate from the trustee stating that (A) no Bonds remain outstanding and all draws under the LOC have been made and honored, or (B) a substitute LOC has been issued; or (vi) the date on which a stated maturity drawing that causing the stated amount of the LOC to be reduced to \$0 is honored by the Bank.

Optional Tenders

Bondholders may optionally tender their Bonds on any business day during the weekly rate mode with five (5) business days prior written notice to the trustee and the remarketing agent.

Mandatory Purchases

The Bonds are subject to mandatory purchase on: (i) each interest rate conversion date (ii) any interest reset date while the Bonds are in the medium-term rate period, (iii) the fifth (5th) business day prior to the effective date of an alternate letter of credit or (iv) the second (2nd) business day prior to the expiration date of the letter of credit.

What Could Change the Rating-Up

Long-Term: the long-term rating on the Bonds could be upgraded if the Bank's long-term deposits rating or the long-term rating of the Borrower was upgraded, or if there was a decrease in the level of default dependence between the Bank and the Borrower.

Short-Term: N/A

What Could Change the Rating-Down

Long-Term: the long-term rating on the Bonds could be lowered if the Bank's long term deposits rating or the long-term rating of the Borrower was downgraded, or if there is an increase in the level of default dependence between the Bank and the Borrower.

Short-Term: the short-term rating on the Bonds could be lowered if the Bank's short-term deposits rating was downgraded.

Methodology

The principal methodologies used in rating this issue were Moody's Rating Methodology for Letter of Credit Supported Transactions published in August 2005 and Applying Global Joint Default Analysis to Letter of Credit Backed Transactions in the U.S. Public Finance Sector published in September 2010. Other methodologies and factors that may have been considered in the process of rating this issue can also be found on Moody's website.

Ser. 2011B	A2/VMIG 1
Sale Amount	\$20,000,000
Expected Sale Date	10/19/11
Rating Description	DP LOC

Ser. 2011A	Aa2/VMIG 1
Sale Amount	\$65,260,000
Expected Sale Date	10/19/11
Rating Description	DP LOC

Opinion

NEW YORK, Oct 14, 2011 -- Moody's Investors Service ("Moody's") has assigned ratings of: Aa2/VMIG 1 to the Health and Educational Facilities Board of the City of Johnson City, Tennessee Hospital Revenue Bonds (Mountain States Health Alliance), Series 2011A, and A1/VMIG1 to Series 2011B of that same issue; Aa2/VMIG 1 to the Industrial Development Authority of Smyth County, Virginia Hospital Revenue Bonds (Mountain States Health Alliances), Series 2011C, and Aa3/VMIG 1 to Series 2011D of that same issue; and Aa3/VMIG 1 to the Mountain States Health Alliance Taxable Bonds, Series 2011E (collectively, the "Bonds"). The long-term ratings of Series 2011D and 2011E are on review for downgrade in connection with Moody's ongoing review of Mizuho Corporate Bank, Ltd.

The proceeds of the sale of the Bonds will be used to: (a) finance certain capital expenses at Mountain State Health Alliance facilities; (b) refinance \$11.2 million of the Hospital Refunding and Improvement Revenue Bonds (Norton Community Hospital, Inc.), Series 2001 issued by the Industrial Development Authority of the City of Norton, Virginia; and (c) pay certain expenses incurred in connection with the issuance of the Bonds.

SUMMARY RATINGS RATIONALE

The ratings are based upon: (i) direct-pay letters of credit provided by U.S. Bank National Association for Series 2011A and Series 2011C, PNC Bank, National Association for Series 2011B, and Mizuho Corporate Bank, Ltd. for Series 2011D and Series 2011E; (ii) the structure and legal protections of the transaction which ensure timely payment of debt service and purchase price to bondholders; and (iii) Moody's evaluation of the credit quality of the Banks issuing the letters of credit.

Moody's currently rates U.S. Bank N.A. Aa2 for its long-term other senior obligations ("OSO") and Prime-1 for its short-term OSO. PNC Bank, N.A. is currently rated A2 for its long-term OSO and Prime-1 for its short-term OSO. Mizuho Corporate Bank, Ltd's long-term and short-term issuer ratings are currently A1 (on review for downgrade) and Prime-1, respectively.

DETAILED CREDIT DISCUSSION

Interest Rate Modes

The Bonds will be issued in the weekly rate mode and pay interest on the first business day of each month, commencing November 1, 2011. Each letter of credit provides sufficient coverage for the applicable Series of bonds in the weekly rate mode only. The bond documents permit conversion of the interest rate on the Bonds, in whole, to the medium-term rate or fixed rate modes. The Bonds will be subject to mandatory tender upon each conversion. Moody's rating on the Bonds applies only to Bonds bearing interest in the weekly rate modes.

Flow of Funds

The trustee is instructed to draw under the applicable letter of credit by 4:00 p.m. on the business day prior to the payment date in order to receive funds sufficient to pay the principal, and interest accrued thereon, when the same becomes due. The trustee shall also draw for purchase price under the letter of credit by 11:30 a.m., in accordance with its terms thereof, so as to receive sufficient funds by 2:30 p.m. on the same day to pay the purchase price of Bonds tendered on the purchase date to the extent remarketing proceeds received are insufficient. Bonds which are purchased by the applicable bank due to a failed remarketing are held by the trustee and will not be released until the trustee has received written confirmation from that bank stating that the applicable letter of credit has been reinstated in the amount of the purchase price drawn for such Bonds. (All times refer to Eastern Standard Time).

Letters of Credit

Each letter of credit is sized for the full principal amount plus thirty-seven days of interest at a rate of 12%, the maximum rate on the Bonds. Each letter of credit provides sufficient coverage for the applicable Series of bonds while they bear interest in the weekly rate mode only. Each letter of credit is governed by and construed in accordance with the International Standby Practices 1998, International Chamber of Commerce Publication No. 590 (ISP98).

Draws on the Letters of Credit

Conforming draws for principal or interest received by U.S. Bank N.A., for Series 2011A and 2011C, at or before 3:00 p.m. on a business day will be honored by 1:30 p.m. on the next business day. Conforming draws for purchase price received by U.S. Bank N.A. at or before 11:30 a.m. on a business day will be honored by 1:30 p.m. on the same business day. (All times refer to Central Standard Time).

Conforming draws for principal or interest received by PNC Bank, N.A. or Mizuho Corporate Bank, Ltd., supporting Series 2011B, and 2011D and 2011E, respectively, at or before 4:00 p.m. on a business day will be honored by 2:30 p.m. on the next business day. Conforming draws for purchase price received by those banks at or before 12:30 p.m. on a business day will be honored by 2:30 p.m. on the same business day. (All times refer to Eastern Standard Time).

Reinstatement Of Interest Draws

Draws made under each letter of credit for interest shall be automatically reinstated at the close of business on the date of such payment unless the trustee receives written notice from the applicable bank by 3:00 p.m. (Central Standard Time) in the case of Series 2011A or 2011C bonds, or 4:00 p.m. (Eastern Standard Time) in the case of Series 2011B, 2011D, or 2011E on the date of such payment specifying the occurrence of an event of default under the reimbursement agreement and directing the trustee to accelerate the applicable Series of Bonds. With direction to accelerate the applicable Series of bonds, the trustee shall declare bonds of that Series then outstanding to be immediately due and payable, whereupon they shall become and be immediately due and payable. The trustee is instructed to immediately draw on the letter of credit. Interest will cease to accrue one calendar day following the trustee's declaration of acceleration.

Reimbursement Agreement Defaults

In the event of a default under the reimbursement agreement, the applicable bank may, at its option, deliver written notice to the trustee stating that such event of default under the reimbursement agreement has occurred and direct the trustee to accelerate the applicable Series of bonds. With direction to accelerate the applicable Series of Bonds, the trustee shall declare bonds of that Series then outstanding to be immediately due and payable, whereupon they shall become and be immediately due and payable. The trustee is instructed to immediately draw on the letter of credit. Interest will cease to accrue one calendar day following the trustee's declaration of

acceleration. The applicable letter of credit will terminate on the fifteenth calendar day following the trustee's receipt of notice from the applicable bank specifying the occurrence of an event of default under the reimbursement agreement and directing the trustee to accelerate the applicable Series of bonds.

Expiration/Termination of the Letters of Credit

Each letter of credit will terminate upon the earliest to occur of: (i) close of business on October 19, 2014, the stated expiration date of the applicable letter of credit; (ii) the business day following the conversion of all of the applicable Series of bonds to a rate mode other than the weekly rate; (iii) the date the bank receives notice from the trustee specifying that (a) no applicable bonds of a Series remain outstanding and all required draws available under the applicable letter of credit have been made and honored, or (b) an effective substitute letter of credit has been issued to replace the applicable letter of credit; (iv) the date on which an acceleration drawing is honored by the applicable bank; (v) fifteen calendar days following the trustee's receipt of notice from the applicable bank specifying the occurrence of an event of default under the reimbursement agreement and directing the trustee to accelerate the applicable Series of bonds; or, (vi) the date on which a stated maturity drawing is honored by the applicable bank.

Substitution

The Bonds will be subject to mandatory tender on fifth business day prior to the effective date of a substitute letter of credit. Draws for purchase price upon the substitution of the letter of credit will be made under the existing letter of credit and the existing letter of credit will not be surrendered to the bank for cancellation until such tender draw has been honored.

Optional Tenders

Bondholders may optionally tender their Bonds, while the Bonds are in the weekly rate mode, on any business day by providing written notice to the trustee and remarketing agent by 3:00 p.m. at least five business days prior to the purchase date. (All times refer to Eastern Standard Time).

Mandatory Tenders

The Bonds are subject to mandatory tender on: (i) on any interest rate mode conversion date, or any proposed interest rate mode conversion date; (ii) on the fifth business day preceding the effective date of a substitute letter of credit; (iii) on the adjustment date while the Bonds bear interest at the medium-term rate; (iv) on the first calendar day of a weekly rate period following a medium-term rate period; and (v) on the second business day prior to the expiration date of the letter of credit.

What Could Change the Rating - Up

Long-Term: The long-term rating on the applicable Series of bonds could be raised if the long-term rating of the applicable bank was upgraded.

Short-Term: Not applicable.

What Could Change the Rating - Down

Long-Term: The long-term rating on the applicable Series of bonds could be lowered if the long-term rating of the applicable bank was downgraded.

Short-Term: The short-term rating on the applicable Series of bonds would be lowered if the short-term rating of the applicable bank was downgraded.

The principal methodology used in this rating was Moody's Methodology for Rating U.S. Public Finance Transactions Based on the Credit Substitution Approach (August 2009). Please see the Credit Policy page on www.moodys.com for a copy of this methodology.

REGULATORY DISCLOSURES

The Global Scale Credit Ratings on this press release that are issued by one of Moody's affiliates outside the EU are considered EU Qualified by Extension and therefore available for regulatory use in the EU. Further information on the EU endorsement status and on the Moody's office that has issued a particular Credit Rating is available on www.moodys.com.

For ratings issued on a program, series or category/class of debt, this announcement provides relevant regulatory disclosures in relation to each rating of a subsequently issued bond or note of the same series or category/class of debt or pursuant to a program for which the ratings are derived exclusively from existing ratings in accordance with Moody's rating practices. For ratings issued on a support provider, this announcement provides relevant regulatory disclosures in relation to the rating action on the support provider and in relation to each particular rating action for securities that derive their credit ratings from the support provider's credit rating. For provisional ratings, this announcement provides relevant regulatory disclosures in relation to the provisional rating assigned, and in relation to a definitive rating that may be assigned subsequent to the final issuance of the debt, in each case where the transaction structure and terms have not changed prior to the assignment of the definitive rating in a manner that would have affected the rating. For further information please see the ratings tab on the issuer/entity page for the respective issuer on www.moodys.com.

Information sources used to prepare the rating are the following: parties involved in the ratings and public information.

Moody's considers the quality of information available on the rated entity, obligation or credit satisfactory for the purposes of issuing a rating.

Moody's adopts all necessary measures so that the information it uses in assigning a rating is of sufficient quality and from sources Moody's considers to be reliable including, when appropriate, independent third-party sources. However, Moody's is not an auditor and cannot in every instance independently verify or validate information received in the rating process.

Please see Moody's Rating Symbols and Definitions on the Rating Process page on www.moodys.com for further information on the meaning of each rating category and the definition of default and recovery.

Please see ratings tab on the issuer/entity page on www.moodys.com for the last rating action and the rating history.

The date on which some ratings were first released goes back to a time before Moody's ratings were fully digitized and accurate data may not be available. Consequently, Moody's provides a date that it believes is the most reliable and accurate based on the information that is available to it. Please see the ratings disclosure page on our website www.moodys.com for further information.

Please see www.moodys.com for any updates on changes to the lead rating analyst and to the Moody's legal entity that has issued the rating.

ALL INFORMATION CONTAINED HEREIN IS PROTECTED BY LAW, INCLUDING BUT NOT LIMITED TO, COPYRIGHT LAW, AND NONE OF SUCH INFORMATION MAY BE COPIED OR OTHERWISE REPRODUCED, REPACKAGED, FURTHER TRANSMITTED, TRANSFERRED, DISSEMINATED, REDISTRIBUTED OR RESOLD, OR STORED FOR SUBSEQUENT USE FOR ANY SUCH PURPOSE, IN WHOLE OR IN PART, IN ANY FORM OR MANNER OR BY ANY MEANS WHATSOEVER, BY ANY PERSON WITHOUT MOODY'S PRIOR WRITTEN CONSENT.

All information contained herein is obtained by MOODY'S from sources believed by it to be accurate and reliable. Because of the possibility of human or mechanical error as well as other factors, however, all information contained herein is provided "AS IS" without warranty of any kind. MOODY'S adopts all necessary measures so that the information it uses in assigning a credit rating is of sufficient quality and from sources MOODY'S considers to be reliable including, when appropriate, independent third-party sources. However, MOODY'S is not an auditor and cannot in every instance independently verify or validate information received in the rating process or in preparing the Moody's Publications.

To the extent permitted by law, MOODY'S and its directors, officers, employees, agents, representatives, licensors and suppliers disclaim liability to any person or entity for any indirect, special, consequential, or incidental losses or damages whatsoever arising from or in connection with the information contained herein or the use of or inability to use any such information, even if MOODY'S or any of its directors, officers, employees, agents, representatives,

licensors or suppliers is advised in advance of the possibility of such losses or damages, including but not limited to: (a) any loss of present or prospective profits or (b) any loss or damage arising where the relevant financial instrument is not the subject of a particular credit rating assigned by MOODY'S.

To the extent permitted by law, MOODY'S and its directors, officers, employees, agents, representatives, licensors and suppliers disclaim liability for any direct or compensatory losses or damages caused to any person or entity, including but not limited to by any negligence (but excluding fraud, willful misconduct or any other type of liability that, for the avoidance of doubt, by law cannot be excluded) on the part of, or any contingency within or beyond the control of, MOODY'S or any of its directors, officers, employees, agents, representatives, licensors or suppliers, arising from or in connection with the information contained herein or the use of or inability to use any such information.

NO WARRANTY, EXPRESS OR IMPLIED, AS TO THE ACCURACY, TIMELINESS, COMPLETENESS, MERCHANTABILITY OR FITNESS FOR ANY PARTICULAR PURPOSE OF ANY SUCH RATING OR OTHER OPINION OR INFORMATION IS GIVEN OR MADE BY MOODY'S IN ANY FORM OR MANNER WHATSOEVER.

Moody's Investors Service, Inc., a wholly-owned credit rating agency subsidiary of Moody's Corporation ("MCO"), hereby discloses that most issuers of debt securities (including corporate and municipal bonds, debentures, notes and commercial paper) and preferred stock rated by Moody's Investors Service, Inc. have, prior to assignment of any rating, agreed to pay to Moody's Investors Service, Inc. for appraisal and rating services rendered by it fees ranging from \$1,500 to approximately \$2,500,000. MCO and MIS also maintain policies and procedures to address the independence of MIS's ratings and rating processes. Information regarding certain affiliations that may exist between directors of MCO and rated entities, and between entities who hold ratings from MIS and have also publicly reported to the SEC an ownership interest in MCO of more than 5%, is posted annually at www.moody's.com under the heading "Investor Relations — Corporate Governance — Director and Shareholder Affiliation Policy."

For Australia only: Any publication into Australia of this document is pursuant to the Australian Financial Services License of MOODY'S affiliate, Moody's Investors Service Pty Limited ABN 61 003 399 657AFSL 336969 and/or Moody's Analytics Australia Pty Ltd ABN 94 105 136 972 AFSL 383569 (as applicable). This document is intended to be provided only to "wholesale clients" within the meaning of section 761G of the Corporations Act 2001. By continuing to access this document from within Australia, you represent to MOODY'S that you are, or are accessing the document as a representative of, a "wholesale client" and that neither you nor the entity you represent will directly or indirectly disseminate this document or its contents to "retail clients" within the meaning of section 761G of the Corporations Act 2001. MOODY'S credit rating is an opinion as to the creditworthiness of a debt obligation of the issuer, not on the equity securities of the issuer or any form of security that is available to retail clients. It would be dangerous for "retail clients" to make any investment decision based on MOODY'S credit rating. If in doubt you should contact your financial or other professional adviser.

For Japan only: MOODY'S Japan K.K. ("MJKK") is a wholly-owned credit rating agency subsidiary of MOODY'S Group Japan G.K., which is wholly-owned by Moody's Overseas Holdings Inc., a wholly-owned subsidiary of MCO. Moody's SF Japan K.K. ("MSFJ") is a wholly-owned credit rating agency subsidiary of MJKK. MSFJ is not a Nationally Recognized Statistical Rating Organization ("NRSRO"). Therefore, credit ratings assigned by MSFJ are Non-NRSRO Credit Ratings. Non-NRSRO Credit Ratings are assigned by an entity that is not a NRSRO and, consequently, the rated obligation will not qualify for certain types of treatment under U.S. laws. MJKK and MSFJ are credit rating agencies registered with the Japan Financial Services Agency and their registration numbers are FSA Commissioner (Ratings) No. 2 and 3 respectively.

MJKK or MSFJ (as applicable) hereby disclose that most issuers of debt securities (including corporate and municipal bonds, debentures, notes and commercial paper) and preferred stock rated by MJKK or MSFJ (as applicable) have, prior to assignment of any rating, agreed to pay to MJKK or MSFJ (as applicable) for appraisal and rating services rendered by it fees ranging from JPY200,000 to approximately JPY350,000,000. MJKK and MSFJ also maintain policies and procedures to address Japanese regulatory requirements.

Rating Update: MOODY'S ASSIGNS LETTER OF CREDIT BACKED RATINGS TO THE MOUNTAIN STATES HEALTH ALLIANCE, SERIES 2011A, 2011B, 2011C, 2011D, AND 2011E

Global Credit Research - 17 Oct 2011

\$211.8 MILLION OF DEBT AFFECTED. RATING IS BASED ON THE JOINT SUPPORT FROM U.S. BANK N.A., PNC BANK, N.A. AND MIZUHO CORPORATE BANK, LTD AS LETTER OF CREDIT PROVIDERS

Smyth County Ind. Dev. Auth., VA
Fully Supported
VA

Opinion

NEW YORK, Oct 17, 2011 -- Moody's Investors Service ("Moody's") has assigned ratings of: Aa2/VMIG 1 to the Health and Educational Facilities Board of the City of Johnson City, Tennessee Hospital Revenue Bonds (Mountain States Health Alliance), Series 2011A, and A1/VMIG1 to Series 2011B of that same issue; Aa2/VMIG 1 to the Industrial Development Authority of Smyth County, Virginia Hospital Revenue Bonds (Mountain States Health Alliances), Series 2011C, and Aa3/VMIG 1 to Series 2011D of that same issue; and Aa3/VMIG 1 to the Mountain States Health Alliance Taxable Bonds, Series 2011E (collectively, the "Bonds"). The long-term ratings of Series 2011D and 2011E are on review for downgrade in connection with Moody's ongoing review of Mizuho Corporate Bank, Ltd.

The proceeds of the sale of the Bonds will be used to: (a) finance certain capital expenses at Mountain State Health Alliance facilities; (b) refinance \$11.2 million of the Hospital Refunding and Improvement Revenue Bonds (Norton Community Hospital, Inc.), Series 2001 issued by the Industrial Development Authority of the City of Norton, Virginia; and (c) pay certain expenses incurred in connection with the issuance of the Bonds.

SUMMARY RATINGS RATIONALE

The ratings are based upon: (i) direct-pay letters of credit provided by U.S. Bank National Association for Series 2011A and Series 2011C, PNC Bank, National Association for Series 2011B, and Mizuho Corporate Bank, Ltd. for Series 2011D and Series 2011E; (ii) the structure and legal protections of the transaction which ensure timely payment of debt service and purchase price to bondholders; and (iii) Moody's evaluation of the credit quality of the Banks issuing the letters of credit.

Moody's currently rates U.S. Bank N.A. Aa2 for its long-term other senior obligations ("OSO") and Prime-1 for its short-term OSO. PNC Bank, N.A. is currently rated A2 for its long-term OSO and Prime-1 for its short-term OSO. Mizuho Corporate Bank, Ltd's long-term and short-term issuer ratings are currently A1 (on review for downgrade) and Prime-1, respectively.

DETAILED CREDIT DISCUSSION

Interest Rate Modes

The Bonds will be issued in the weekly rate mode and pay interest on the first business day of each month, commencing November 1, 2011. Each letter of credit provides sufficient coverage for the applicable Series of bonds in the weekly rate mode only. The bond documents permit conversion of the interest rate on the Bonds, in whole, to the medium-term rate or fixed rate modes. The Bonds will be subject to mandatory tender upon each conversion. Moody's rating on the Bonds applies only to Bonds bearing interest in the weekly rate modes.

Flow of Funds

The trustee is instructed to draw under the applicable letter of credit by 4:00 p.m. on the business day prior to the payment date in order to receive funds sufficient to pay the principal, and interest accrued thereon, when the same becomes due. The trustee shall also draw for purchase price under the letter of credit by 11:30 a.m., in accordance with its terms thereof, so as to receive sufficient funds by 2:30 p.m. on the same day to pay the

purchase price of Bonds tendered on the purchase date to the extent remarketing proceeds received are insufficient. Bonds which are purchased by the applicable bank due to a failed remarketing are held by the trustee and will not be released until the trustee has received written confirmation from that bank stating that the applicable letter of credit has been reinstated in the amount of the purchase price drawn for such Bonds. (All times refer to Eastern Standard Time).

Letters of Credit

Each letter of credit is sized for the full principal amount plus thirty-seven days of interest at a rate of 12%, the maximum rate on the Bonds. Each letter of credit provides sufficient coverage for the applicable Series of bonds while they bear interest in the weekly rate mode only. Each letter of credit is governed by and construed in accordance with the International Standby Practices 1998, International Chamber of Commerce Publication No. 590 (ISP98).

Draws on the Letters of Credit

Conforming draws for principal or interest received by U.S. Bank N.A., for Series 2011A and 2011C, at or before 3:00 p.m. on a business day will be honored by 1:30 p.m. on the next business day. Conforming draws for purchase price received by U.S. Bank N.A. at or before 11:30 a.m. on a business day will be honored by 1:30 p.m. on the same business day. (All times refer to Central Standard Time).

Conforming draws for principal or interest received by PNC Bank, N.A. or Mizuho Corporate Bank, Ltd., supporting Series 2011B, and 2011D and 2011E, respectively, at or before 4:00 p.m. on a business day will be honored by 2:30 p.m. on the next business day. Conforming draws for purchase price received by those banks at or before 12:30 p.m. on a business day will be honored by 2:30 p.m. on the same business day. (All times refer to Eastern Standard Time).

Reinstatement Of Interest Draws

Draws made under each letter of credit for interest shall be automatically reinstated at the close of business on the date of such payment unless the trustee receives written notice from the applicable bank by 3:00 p.m. (Central Standard Time) in the case of Series 2011A or 2011C bonds, or 4:00 p.m. (Eastern Standard Time) in the case of Series 2011B, 2011D, or 2011E on the date of such payment specifying the occurrence of an event of default under the reimbursement agreement and directing the trustee to accelerate the applicable Series of Bonds. With direction to accelerate the applicable Series of bonds, the trustee shall declare bonds of that Series then outstanding to be immediately due and payable, whereupon they shall become and be immediately due and payable. The trustee is instructed to immediately draw on the letter of credit. Interest will cease to accrue one calendar day following the trustee's declaration of acceleration.

Reimbursement Agreement Defaults

In the event of a default under the reimbursement agreement, the applicable bank may, at its option, deliver written notice to the trustee stating that such event of default under the reimbursement agreement has occurred and direct the trustee to accelerate the applicable Series of bonds. With direction to accelerate the applicable Series of Bonds, the trustee shall declare bonds of that Series then outstanding to be immediately due and payable, whereupon they shall become and be immediately due and payable. The trustee is instructed to immediately draw on the letter of credit. Interest will cease to accrue one calendar day following the trustee's declaration of acceleration. The applicable letter of credit will terminate on the fifteenth calendar day following the trustee's receipt of notice from the applicable bank specifying the occurrence of an event of default under the reimbursement agreement and directing the trustee to accelerate the applicable Series of bonds.

Expiration/Termination of the Letters of Credit

Each letter of credit will terminate upon the earliest to occur of: (i) close of business on October 19, 2014, the stated expiration date of the applicable letter of credit; (ii) the business day following the conversion of all of the applicable Series of bonds to a rate mode other than the weekly rate; (iii) the date the bank receives notice from the trustee specifying that (a) no applicable bonds of a Series remain outstanding and all required draws available under the applicable letter of credit have been made and honored, or (b) an effective substitute letter of credit has been issued to replace the applicable letter of credit; (iv) the date on which an acceleration drawing is honored by the applicable bank; (v) fifteen calendar days following the trustee's receipt of notice from the applicable bank specifying the occurrence of an event of default under the reimbursement agreement and directing the trustee to accelerate the applicable Series of bonds; or, (vi) the date on which a stated maturity drawing is honored by the

applicable bank.

Substitution

The Bonds will be subject to mandatory tender on fifth business day prior to the effective date of a substitute letter of credit. Draws for purchase price upon the substitution of the letter of credit will be made under the existing letter of credit and the existing letter of credit will not be surrendered to the bank for cancellation until such tender draw has been honored.

Optional Tenders

Bondholders may optionally tender their Bonds, while the Bonds are in the weekly rate mode, on any business day by providing written notice to the trustee and remarketing agent by 3:00 p.m. at least five business days prior to the purchase date. (All times refer to Eastern Standard Time).

Mandatory Tenders

The Bonds are subject to mandatory tender on: (i) on any interest rate mode conversion date, or any proposed interest rate mode conversion date; (ii) on the fifth business day preceding the effective date of a substitute letter of credit; (iii) on the adjustment date while the Bonds bear interest at the medium-term rate; (iv) on the first calendar day of a weekly rate period following a medium-term rate period; and (v) on the second business day prior to the expiration date of the letter of credit.

What Could Change the Rating - Up

Long-Term: The long-term rating on the applicable Series of bonds could be raised if the long-term rating of the applicable bank was upgraded.

Short-Term: Not applicable.

What Could Change the Rating - Down

Long-Term: The long-term rating on the applicable Series of bonds could be lowered if the long-term rating of the applicable bank was downgraded.

Short-Term: The short-term rating on the applicable Series of bonds would be lowered if the short-term rating of the applicable bank was downgraded.

OPINION OR INFORMATION IS GIVEN OR MADE BY MOODY'S IN ANY FORM OR MANNER
WHATSOEVER.

Moody's Investors Service, Inc., a wholly-owned credit rating agency subsidiary of Moody's Corporation ("MCO"), hereby discloses that most issuers of debt securities (including corporate and municipal bonds, debentures, notes and commercial paper) and preferred stock rated by Moody's Investors Service, Inc. have, prior to assignment of any rating, agreed to pay to Moody's Investors Service, Inc. for appraisal and rating services rendered by it fees ranging from \$1,500 to approximately \$2,500,000. MCO and MIS also maintain policies and procedures to address the independence of MIS's ratings and rating processes. Information regarding certain affiliations that may exist between directors of MCO and rated entities, and between entities who hold ratings from MIS and have also publicly reported to the SEC an ownership interest in MCO of more than 5%, is posted annually at www.moody's.com under the heading "Investor Relations — Corporate Governance — Director and Shareholder Affiliation Policy."

For Australia only: Any publication into Australia of this document is pursuant to the Australian Financial Services License of MOODY'S affiliate, Moody's Investors Service Pty Limited ABN 61 003 399 657AFSL 336969 and/or Moody's Analytics Australia Pty Ltd ABN 94 105 136 972 AFSL 383569 (as applicable). This document is intended to be provided only to "wholesale clients" within the meaning of section 761G of the Corporations Act 2001. By continuing to access this document from within Australia, you represent to MOODY'S that you are, or are accessing the document as a representative of, a "wholesale client" and that neither you nor the entity you represent will directly or indirectly disseminate this document or its contents to "retail clients" within the meaning of section 761G of the Corporations Act 2001. MOODY'S credit rating is an opinion as to the creditworthiness of a debt obligation of the issuer, not on the equity securities of the issuer or any form of security that is available to retail clients. It would be dangerous for "retail clients" to make any investment decision based on MOODY'S credit rating. If in doubt you should contact your financial or other professional adviser.

For Japan only: MOODY'S Japan K.K. ("MJKK") is a wholly-owned credit rating agency subsidiary of MOODY'S Group Japan G.K., which is wholly-owned by Moody's Overseas Holdings Inc., a wholly-owned subsidiary of MCO. Moody's SF Japan K.K. ("MSFJ") is a wholly-owned credit rating agency subsidiary of MJKK. MSFJ is not a Nationally Recognized Statistical Rating Organization ("NRSRO"). Therefore, credit ratings assigned by MSFJ are Non-NRSRO Credit Ratings. Non-NRSRO Credit Ratings are assigned by an entity that is not a NRSRO and, consequently, the rated obligation will not qualify for certain types of treatment under U.S. laws. MJKK and MSFJ are credit rating agencies registered with the Japan Financial Services Agency and their registration numbers are FSA Commissioner (Ratings) No. 2 and 3 respectively.

MJKK or MSFJ (as applicable) hereby disclose that most issuers of debt securities (including corporate and municipal bonds, debentures, notes and commercial paper) and preferred stock rated by MJKK or MSFJ (as applicable) have, prior to assignment of any rating, agreed to pay to MJKK or MSFJ (as applicable) for appraisal and rating services rendered by it fees ranging from JPY200,000 to approximately JPY350,000,000. MJKK and MSFJ also maintain policies and procedures to address Japanese regulatory requirements.

Rating Update: MOODY'S AFFIRMS MOUNTAIN STATES HEALTH ALLIANCE'S (TN) Baa1 BOND RATING; OUTLOOK REMAINS STABLE

Global Credit Research - 26 Apr 2012

APPROXIMATELY \$1.03 BILLION OF RATED DEBT OUTSTANDING

MOUNTAIN STATES HEALTH ALLIANCE, TN
Hospitals & Health Service Providers
TN

Opinion

NEW YORK, April 26, 2012 --Opinion

Moody's Investors Service has affirmed the Baa1 unenhanced ratings assigned to Mountain States Health Alliance's (MSHA) \$821 million of outstanding bonds issued by The Health and Educational Facilities Board of the City of Johnson City, TN, the Industrial Development Authority of Smyth County (Virginia), the Industrial Development Authority of Russell County (Virginia), and directly by MSHA. The Series 2011 bonds (\$211.8 million) are supported by direct pay letters of credit and do not carry unenhanced ratings. The outlook remains stable.

SUMMARY RATING RATIONALE

Leading market share for this multi-hospital system offering a wide-array of high-end services is a key credit strength. MSHA continues a long history of double digit operating cash flow margins with a good cash balance that remains over 200 days despite decline in market values at the end of calendar year 2011. Major capital spending is nearly complete, enabling future growth in liquidity, minor additional debt plans. These strengths are tempered by one of the highest debt loads in our portfolio, generating weak debt measures. One other multi-facility health system provides competitive pressures.

STRENGTHS

*Multi-hospital system with strong and growing leading market share in a large geographic region where the flagship facility serves as a regional referral center offering a wide array of high-end services for hospitals in Tennessee and Virginia

*Multi-year growth in volumes with acquisitions

*Strong and stable operating cash flow margins in the 11.4% to 16.7% range in each of the past seventeen audit years, with volume increases contributing to cash flow growth; projected operating cash flow margins remain in the double digits

*Good liquidity position with 246 days cash on hand at fiscal yearend (FYE) 2011 (June 30) and 217 days as of December 31, 2011

*Major capital spending nearly complete with upcoming opening of Smyth County Community Hospital; minor additional new debt planned for later this year

*Tenured management team

CHALLENGES

*Very high debt burden evidenced by high 110% debt-to-operating revenue, low 55% cash-to-debt ratio, high 7.7 times debt-to-cash flow ratio, and moderate Moody's-adjusted maximum annual debt service coverage of 2.55 times in FY 2011 as compared with Moody's Baa1 medians of 41.2%, 83.4%, 4.8 times and 3.5 times, respectively

*Sizable and consistent competition from Wellmont Health System, which holds a close but lesser market share (37% vs. 30%) in the extended 29-county service area and a significantly smaller market share (52% versus 38%)

in MSHA's 13-county core service area

*High 22.2% TennCare/Medicaid and self-pay load

DETAILED CREDIT DISCUSSION

LEGAL SECURITY: The bonds are secured by a security interest in the Pledged Assets (receivables, inventory, equipment, general intangibles, contracts and contract rights, government approvals, fixtures and other personal property, goods, instruments, chattel paper, documents, credits, claims, demands and assets) and a first lien on the Mortgaged Property, which includes the major hospitals, subject to certain permitted liens.

INTEREST RATE DERIVATIVES: MSHA is a party to interest rate swaps and other derivative agreements to establish floating rate exposure and to reduce fixed rate debt service. MSHA holds four basis swaps and one total return swap with Merrill Lynch Capital Services Inc. (guaranteed by Merrill Lynch & Co) for a total notional amount of \$594 million. The fair market value of the swaps at December 31, 2011 was a liability of \$15.3 million.

MSHA holds eight additional agreements (\$106 million notional amount) with Lehman Brothers Special Financing, Inc. (Lehman) for various notional amounts that are linked fixed payer and total return swaps. Fair market value of these swaps at December 31, 2011 was a liability of \$10.5 million, against which MSHA has posted \$13.2 million of collateral (collateral is not included in unrestricted cash). Lehman filed for bankruptcy and the swaps were terminated effective January 1, 2009. There is a dispute between MSHA and Lehman regarding the cost of such termination, which is currently under discussion. MSHA has stated that it believes that the amount of the posted collateral should be sufficient to pay the cost of the terminations.

In September 2011 MSHA negotiated a full termination of the swaptions at no direct cost.

Two additional swaps, for a notional amount of \$20.2 million and a mark to market liability value of \$618,000 as of December 31, 2011.

RECENT DEVELOPMENTS/RESULTS

Operating cash flow margins continue to be strong at double digit levels, reaching 15.7% in FY 2011 (ended June 30) on operating cash flow of \$153.2 million, up 9.9% and \$139.4 million in FY 2010. As a result, debt-to-cash flow improved to 7.74 times in FY 2011 from 8.88 times in FY 2010 and high 10.22 times just two years earlier in FY 2009. This improvement occurred despite the rapid expansion with facility acquisitions (including equity interests) in Virginia between 2006 and 2009, which contributed to revenue growth to \$976.1 million in FY 2011 from \$678.5 million in FY 2007.

System expansion into southwest Virginia from a concentration in northeastern Tennessee has included the following: November 2006 purchase of 80% interest in Smyth County Community Hospital in Marion; October 2007 purchase of 50.1% interest in Norton Community Hospital that includes Norton Community Hospital in Norton and Dickenson County Community Hospital in Clintwood; January 2008 acquisition of Russell County Medical Center in Lebanon; and April 2009 purchase of 50.1% interest in Johnston Memorial Hospital in Abingdon. Combined, the Virginia hospitals added 627 licensed beds and about 10,000 acute care discharges to the system. Management continues to work on full integration of these facilities into the system with no current plans for additional facility acquisitions.

In addition to expanding in Virginia, in Tennessee MSHA opened a new free standing children's hospital in March 2009, consolidated two smaller facilities in Washington County, and undertook other renovation projects. As a result, the system grew admissions 27% across a four year period to 61,035 admissions in FY 2011 from 48,055 admissions in FY 2007. Outpatient visits and emergency room visits grew a sizable 66.8% and 50.8%, respectively, and total surgeries 26.3% across the same four year period. For the first six months of FY 2012 admissions grew another 3.3%, and outpatient visits by 3.6%.

MSHA's main competitor remains Wellmont Health System (Wellmont). Wellmont, with its flagship hospitals located in Sullivan County in the cities of Bristol and Kingsport, has grown to an eight facility system across northeastern Tennessee and southwest Virginia. MSHA defines its 13 county core service area largely as those nine counties where its acute care facilities are located plus an additional four neighboring counties. Within this 13 county service area MSHA maintains a leading and slightly growing market share, to 51.9% in 2010 from 51.5% in 2007 (management provided data), to Wellmont's 37.9%. In its extended 29 total county service area, management shows a leading 36.8% market share in 2010 compared to Wellmont's 30.1%.

The total system debt load remains high, evidenced through a 110% debt-to-revenue ratio in FY 2011, one of the

highest in our portfolio. The debt structure is a mixture of fixed and variable rate bonds, notes and capital leases. As of December 31, 2011, about 60% of total debt is in a fixed rate mode and 40% in a variable rate mode. Letters of credit on outstanding Series 2007B and Series 2008A & B bonds have been extended to October 19, 2014 (\$252.3 million). The new Series 2011A-E bond letters of credit expire October 19, 2014 (\$211.8 million). Cash-to-demand debt of 116% at December 31, 2011 is down from a stronger 157% at FYE 2011 due to both an increase in debt load and a decline in liquidity. Moody's-adjusted maximum annual debt service (MADS) coverage of 2.55 times in FY 2011 improves in the first half of FY 2012 to an annualized 2.95 times with a decline in MADS with debt restructuring in the fourth quarter of 2011. There is minor additional debt planned for later this year.

Unrestricted liquidity declined \$53.1 million (9%) in the first six months of FY 2012 to \$539.4 million at December 31, 2011 from \$592.5 million at June 30, 2011. Major drivers to the decline included a decline in market value to offset investment returns, debt service payments, capital spending and an increase in accounts receivable. As a result cash on hand declined to 216 days from 246 days, but consistently remains above 200 days. Cash-to-debt, which had improved to 55% in FY 2011 from 48% in FY 2009, declined with the decline in liquidity to 50% as of December 31, 2011, but remains comparable to the 47.9%-64.4% range from 2007-2011.

Outlook

The stable outlook reflects our belief that MSHA will continue to generate strong and stable operating cash flow margins to support its high debt load. We believe liquidity will improve barring any major negative fair market value adjustments.

WHAT COULD MOVE THE RATING UP

Continued growth in operating cash flow to support the high debt load; material improvement in debt measures; regrowth of liquidity; increased diversification of cash flow

WHAT COULD MOVE THE RATING DOWN

Increase in debt load without commensurate increase in cash flow; notable loss in market share; trend of decline in operating cash flow; material decline or loss of supplemental payments for servicing the Medicaid and indigent populations

KEY INDICATORS

Assumptions & Adjustments:

- Based on financial statements for Mountain States Health Alliance
- First number reflects the audit year ended June 30, 2010
- Second number reflects audit year ended June 30, 2011
- Non-operating income excludes loss on early extinguishment of debt and change in fair value of derivatives
- Investment returns smoothed at 6% unless otherwise noted

*Inpatient admissions: 60,101; 61,035

*Total operating revenues: \$944.3 million; \$976.1 million

*Moody's-adjusted net revenue available for debt service: \$175.5 million; \$193.0 million

*Total debt outstanding: \$1.08 billion; \$1.07 billion

*Total comprehensive debt outstanding: \$1.13 billion; \$1.13 billion

*Maximum annual debt service (MADS): \$75.6 million; \$75.6 million

*MADS Coverage based on reported investment income: 2.14 times; 2.32 times

*Moody's-adjusted MADS Coverage: 2.32 times; 2.55 times

*Debt-to-cash flow: 8.88 times; 7.74 times

*Days cash on hand: 235 days; 246 days

*Cash-to-debt: 51%; 55%

*Cash-to-total comprehensive debt: 49%; 53%

*Operating margin: 0.5%; 0.9%

*Operating cash flow margin: 14.8%; 15.7%

RATED DEBT (as of December 31, 2011)

Issued by The Health and Educational Facilities Board of the City of Johnson City, Tennessee:

Series 2011A variable rate bonds (\$65.3 million outstanding), rated Aa2/VMIG 1 supported by letter of credit from US Bank expiring October 19, 2014

-Series 2011B variable rate bonds (\$20.0 million outstanding), rated A2/VMIG 1 supported by letter of credit from PNC Bank expiring October 19, 2014

-Series 2010A fixed rate bonds (\$161.9 million outstanding), rated Baa1

-Series 2009A fixed rate term bonds (\$5.6 million outstanding), rated Baa1

-Series 2008A Variable Rate Hospital Revenue Bonds (\$13.2 million outstanding), rated Aa2/VMIG 1 supported by letter of credit from US Bank expiring October 19, 2014; Baa1 unenhanced rating

-Series 2007B-1 Variable Rate Hospital Revenue Bonds (\$26.2 million outstanding), joint support rating of A1/VMIG 1 with letter of credit from US Bank expiring October 19, 2014, Baa1 unenhanced rating

-Series 2007B-2 Variable Rate Hospital Revenue Bonds (\$102.8 million outstanding), joint support rating of A1/VMIG 1 with letter of credit from PNC Bank expiring October 19, 2014, Baa1 unenhanced rating

-Series 2007B-3 Variable Rate Hospital Revenue Bonds (\$34.2 million outstanding, \$6.4 million of these redeemed on March 1, 2012), joint support rating of Aa3/VMIG 1 with letter of credit from Mizuho Corporate Bank expiring October 19, 2014, Baa1 unenhanced rating

-Series 2006A Fixed Rate First Mortgage Revenue Bonds, serial and term bonds (\$169.0 million outstanding), rated Baa1

PRINCIPAL METHODOLOGY USED

The principal methodology used in this rating was Not-For-Profit Healthcare Rating Methodology published in March 2012. Please see the Credit Policy page on www.moodys.com for a copy of this methodology.

REGULATORY DISCLOSURES

The Global Scale Credit Ratings on this press release that are issued by one of Moody's affiliates outside the EU are endorsed by Moody's Investors Service Ltd., One Canada Square, Canary Wharf, London E 14 5FA, UK, in accordance with Art.4 paragraph 3 of the Regulation (EC) No 1060/2009 on Credit Rating Agencies. Further information on the EU endorsement status and on the Moody's office that has issued a particular Credit Rating is available on www.moodys.com.

For ratings issued on a program, series or category/class of debt, this announcement provides relevant regulatory disclosures in relation to each rating of a subsequently issued bond or note of the same series or category/class of debt or pursuant to a program for which the ratings are derived exclusively from existing ratings in accordance with Moody's rating practices. For ratings issued on a support provider, this announcement provides relevant regulatory disclosures in relation to the rating action on the support provider and in relation to each particular rating action for securities that derive their credit ratings from the support provider's credit rating. For provisional ratings, this announcement provides relevant regulatory disclosures in relation to the provisional rating assigned, and in relation to a definitive rating that may be assigned subsequent to the final issuance of the debt, in each case where the transaction structure and terms have not changed prior to the assignment of the definitive rating in a manner that would have affected the rating. For further information please see the ratings tab on the issuer/entity page for the respective issuer on www.moodys.com.

Information sources used to prepare the rating are the following: parties involved in the ratings, parties not involved in the ratings, public information, and confidential and proprietary Moody's Investors Service's information.

Moody's considers the quality of information available on the rated entity, obligation or credit satisfactory for the purposes of issuing a rating.

Moody's adopts all necessary measures so that the information it uses in assigning a rating is of sufficient quality and from sources Moody's considers to be reliable including, when appropriate, independent third-party sources. However, Moody's is not an auditor and cannot in every instance independently verify or validate information received in the rating process.

Please see the ratings disclosure page on www.moodys.com for general disclosure on potential conflicts of interests.

Please see the ratings disclosure page on www.moodys.com for information on (A) MCO's major shareholders (above 5%) and for (B) further information regarding certain affiliations that may exist between directors of MCO and rated entities as well as (C) the names of entities that hold ratings from MIS that have also publicly reported to the SEC an ownership interest in MCO of more than 5%. A member of the board of directors of this rated entity

may also be a member of the board of directors of a shareholder of Moody's Corporation; however, Moody's has not independently verified this matter.

Please see Moody's Rating Symbols and Definitions on the Rating Process page on www.moody's.com for further information on the meaning of each rating category and the definition of default and recovery.

Please see ratings tab on the issuer/entity page on www.moody's.com for the last rating action and the rating history.

The date on which some ratings were first released goes back to a time before Moody's ratings were fully digitized and accurate data may not be available. Consequently, Moody's provides a date that it believes is the most reliable and accurate based on the information that is available to it. Please see the ratings disclosure page on our website www.moody's.com for further information.

Please see www.moody's.com for any updates on changes to the lead rating analyst and to the Moody's legal entity that has issued the rating.

All information contained herein is obtained by MOODY'S from sources believed by it to be accurate and reliable. Because of the possibility of human or mechanical error as well as other factors, however, all information contained herein is provided "AS IS" without warranty of any kind. MOODY'S adopts all necessary measures so that the information it uses in assigning a credit rating is of sufficient quality and from sources MOODY'S considers to be reliable including, when appropriate, independent third-party sources. However, MOODY'S is not an auditor and cannot in every instance independently verify or validate information received in the rating process or in preparing the Moody's Publications.

To the extent permitted by law, MOODY'S and its directors, officers, employees, agents, representatives, licensors and suppliers disclaim liability to any person or entity for any indirect, special, consequential, or incidental losses or damages whatsoever arising from or in connection with the information contained herein or the use of or inability to use any such information, even if MOODY'S or any of its directors, officers, employees, agents, representatives, licensors or suppliers is advised in advance of the possibility of such losses or damages, including but not limited to: (a) any loss of present or prospective profits or (b) any loss or damage arising where the relevant financial instrument is not the subject of a particular credit rating assigned by MOODY'S.

To the extent permitted by law, MOODY'S and its directors, officers, employees, agents, representatives, licensors and suppliers disclaim liability for any direct or compensatory losses or damages caused to any person or entity, including but not limited to by any negligence (but excluding fraud, willful misconduct or any other type of liability that, for the avoidance of doubt, by law cannot be excluded) on the part of, or any contingency within or beyond the control of, MOODY'S or any of its directors, officers, employees, agents, representatives, licensors or suppliers, arising from or in connection with the information contained herein or the use of or inability to use any such information.

NO WARRANTY, EXPRESS OR IMPLIED, AS TO THE ACCURACY, TIMELINESS, COMPLETENESS, MERCHANTABILITY OR FITNESS FOR ANY PARTICULAR PURPOSE OF ANY SUCH RATING OR OTHER OPINION OR INFORMATION IS GIVEN OR MADE BY MOODY'S IN ANY FORM OR MANNER WHATSOEVER.

Moody's Investors Service, Inc., a wholly-owned credit rating agency subsidiary of Moody's Corporation ("MCO"), hereby discloses that most issuers of debt securities (including corporate and municipal bonds, debentures, notes and commercial paper) and preferred stock rated by Moody's Investors Service, Inc. have, prior to assignment of any rating, agreed to pay to Moody's Investors Service, Inc. for appraisal and rating services rendered by it fees ranging from \$1,500 to approximately \$2,500,000. MCO and MIS also maintain policies and procedures to address the independence of MIS's ratings and rating processes. Information regarding certain affiliations that may exist between directors of MCO and rated entities, and between entities who hold ratings from MIS and have also publicly reported to the SEC an ownership interest in MCO of more than 5%, is posted annually at www.moody.com under the heading "Investor Relations — Corporate Governance — Director and Shareholder Affiliation Policy."

For Australia only: Any publication into Australia of this document is pursuant to the Australian Financial Services License of MOODY'S affiliate, Moody's Investors Service Pty Limited ABN 61 003 399 657AFSL 336969 and/or Moody's Analytics Australia Pty Ltd ABN 94 105 136 972 AFSL 383569 (as applicable). This document is intended

to be provided only to “wholesale clients” within the meaning of section 761G of the Corporations Act 2001. By continuing to access this document from within Australia, you represent to MOODY’S that you are, or are accessing the document as a representative of, a “wholesale client” and that neither you nor the entity you represent will directly or indirectly disseminate this document or its contents to “retail clients” within the meaning of section 761G of the Corporations Act 2001. MOODY’S credit rating is an opinion as to the creditworthiness of a debt obligation of the issuer, not on the equity securities of the issuer or any form of security that is available to retail clients. It would be dangerous for “retail clients” to make any investment decision based on MOODY’S credit rating. If in doubt you should contact your financial or other professional adviser.

For Japan only: MOODY’S Japan K.K. (“MJKK”) is a wholly-owned credit rating agency subsidiary of MOODY’S Group Japan G.K., which is wholly-owned by Moody’s Overseas Holdings Inc., a wholly-owned subsidiary of MCO. Moody’s SF Japan K.K. (“MSFJ”) is a wholly-owned credit rating agency subsidiary of MJKK. MSFJ is not a Nationally Recognized Statistical Rating Organization (“NRSRO”). Therefore, credit ratings assigned by MSFJ are Non-NRSRO Credit Ratings. Non-NRSRO Credit Ratings are assigned by an entity that is not a NRSRO and, consequently, the rated obligation will not qualify for certain types of treatment under U.S. laws. MJKK and MSFJ are credit rating agencies registered with the Japan Financial Services Agency and their registration numbers are FSA Commissioner (Ratings) No. 2 and 3 respectively.

MJKK or MSFJ (as applicable) hereby disclose that most issuers of debt securities (including corporate and municipal bonds, debentures, notes and commercial paper) and preferred stock rated by MJKK or MSFJ (as applicable) have, prior to assignment of any rating, agreed to pay to MJKK or MSFJ (as applicable) for appraisal and rating services rendered by it fees ranging from JPY200,000 to approximately JPY350,000,000. MJKK and MSFJ also maintain policies and procedures to address Japanese regulatory requirements.

Moody's Outlook STA

Opinion

NEW YORK, August 15, 2012 --Moody's Investors Service has assigned a Baa1 unenhanced rating to Mountain States Health Alliance's (MSHA) \$54.9 million of Series 2012A fixed rate revenue bonds to be issued by The Health and Educational Facilities Board of the City of Johnson City, TN The outlook remains stable.

SUMMARY RATING RATIONALE

Leading market share for this multi-hospital system offering a wide-array of high-end services is a key credit strength. MSHA continues a long history of double digit operating cash flow margins with a good cash balance that remains over 200 days despite decline in market values at the end of calendar year 2011. Major capital spending is nearly complete, enabling future growth in liquidity. These strengths are tempered by a high debt load in comparison to the rest of our portfolio, generating weak debt measures. One other multi-facility health system provides competitive pressures.

STRENGTHS

*Multi-hospital system with strong and growing leading market share in a large geographic region where the flagship facility serves as a regional referral center offering a wide array of high-end services for hospitals in Tennessee and Virginia

*Multi-year growth in volumes with acquisitions

*Strong and stable operating cash flow margins in the 11.4% to 16.7% range in each of the past thirteen audit years and unaudited fiscal year (FY) 2012, with volume increases contributing to cash flow growth; projected operating cash flow margins remain in the double digits

*Good liquidity position with 212 days cash on hand at fiscal yearend (FYE) 2012 (June 30)

*Tenured management team

CHALLENGES

*Very high debt burden evidenced by high 115% debt-to-operating revenue, low 46% cash-to-debt ratio, high 9.2 times debt-to-cash flow ratio, and moderate Moody's-adjusted maximum annual debt service coverage of 2.20 times in FY 2012 as compared with Moody's Baa1 medians of 41.2%, 83.4%, 4.8 times and 3.5 times, respectively

*Sizable and consistent competition from Wellmont Health System, which holds a close but lesser market share (38% vs. 30%) in the extended 29-county service area and a significantly smaller market share (53% versus 37%) in MSHA's 13-county core service area (market share on 2011 data and provided by management)

*High 22.6% TennCare/Medicaid and self-pay load

DETAILED CREDIT DISCUSSION

USE OF BOND PROCEEDS: The Series 2012A-C bond proceeds will be used to (1) help finance certain capital improvements and equipment acquisitions, mainly the new \$66 million Johnson City Medical Center Surgery Tower project and \$10 million of projects at Norton Community Hospital (approximately \$65 million in total will be borrowed), (2) reimburse for prior capital spending (approximately \$26.5 million), (3) refinance certain capital leases (approximately \$5.0 million), and (4) pay the costs of issuance.

LEGAL SECURITY: The bonds are secured by a security interest in the Pledged Assets (receivables, inventory, equipment, general intangibles, contracts and contract rights, government approvals, fixtures and other personal property, goods, instruments, chattel paper, documents, credits, claims, demands and assets) and a first lien on the Mortgaged Property, which includes the flagship hospital, Johnson City Medical Center, subject to certain permitted liens.

INTEREST RATE DERIVATIVES: MSHA is a party to interest rate swaps and other derivative agreements to establish floating rate exposure and to reduce fixed rate debt service. MSHA holds five basis swaps and one total return swap with Merrill Lynch Capital Services Inc. (guaranteed by Merrill Lynch & Co) for a total notional amount of \$591 million. The fair market value of the swaps at July 20, 2012 was a liability of \$11.1 million against which MSHA has no posted collateral.

MSHA holds eight additional agreements (\$106 million notional amount) with Lehman Brothers Special Financing, Inc. (Lehman) for various notional amounts that are linked fixed payer and total return swaps. Fair market value of these swaps at June 30, 2012 was a liability of \$10.4 million, against which MSHA has posted \$13.8 million of collateral (collateral is not included in unrestricted cash). Lehman filed for bankruptcy and the swaps were terminated effective January 1, 2009. There is a dispute between MSHA and Lehman regarding the cost of such termination, which is currently under discussion. MSHA has stated that it believes that the amount of the posted collateral should be sufficient to pay the cost of the terminations.

There are two additional swaps, for a notional amount of \$19.2 million and a mark to market liability of \$221,000 as of June 30, 2012.

MARKET POSITION/COMPETITIVE STRATEGY: DOMINANT MARKET POSITION IN JOHNSON CITY, WITH LEADING MARKET POSITION IN 13-COUNTY CORE AREA AND 29-COUNTY EXTENDED SERVICE AREA

MSHA, a multi-hospital system operating nine acute care hospitals and 12 facilities in northeastern Tennessee, southwest Virginia, southeast Kentucky and western North Carolina, gains much credit strength from its dominant 90% market share in Washington County, TN where it operates seven of its facilities, including its flagship 514-licensed bed Johnson City Medical Center (JCMC), and is the only provider of acute care services. JCMC includes the 60-licensed bed Quillen Rehabilitation Hospital, providing a complete array of rehabilitative services for brain injury, stroke, and spinal cord injury and the 84-licensed bed Woodridge Hospital offering inpatient psychiatric and substance abuse services.

MSHA also holds a leading 52.6% market position in its combined 13-county primary and secondary service areas (PSA/SSA), and a leading and growing 37.6% market share in its 29-county extended service area. Competition is limited to one multi-hospital system (Wellmont Health System) and several small independent rural providers. Wellmont Health System operates four of its eight hospitals in MSHA's core market, garnering a distant 37.0% market share in the core 13-county service area, but a closer 29.6% market share in the extended 29-county service area. Many of the rural hospitals in the primary and secondary service area are affiliated with MSHA through network affiliations.

JCMC is a regional referral center for northeastern Tennessee offering a full array of acute care services, including one of only five state-designated Level III Regional Perinatal Centers and is a Level I trauma center. MSHA also owns Indian Path Medical Center and Pavilion located in Kingsport (Sullivan County), which competes

against the much larger Wellmont facilities, Sycamore Shoals Hospital located in Elizabethton (Carter County) with no direct competition, and the designated critical access hospital Johnson County Community Hospital in Johnson County.

System expansion into southwest Virginia from a concentration in northeastern Tennessee has included the following: November 2006 purchase of 80% interest in Smyth County Community Hospital in Marion; October 2007 purchase of 50.1% interest in Norton Community Hospital that includes Norton Community Hospital in Norton and Dickenson County Community Hospital in Clintwood; January 2008 acquisition of Russell County Medical Center in Lebanon; and April 2009 purchase of 50.1% interest in Johnston Memorial Hospital in Abingdon. Combined, the Virginia hospitals added 627 licensed beds and about 10,000 acute care discharges to the system. Management continues to work on full integration of these facilities into the system with no current plans for additional facility acquisitions.

In addition to expanding in Virginia, in Tennessee MSHA opened a new free standing children's hospital in March 2009, consolidated two smaller facilities in Washington County, and undertook other renovation projects. As a result, the system grew admissions 27% across a four year period to 61,035 admissions in FY 2011 from 48,055 admissions in FY 2007. Outpatient visits and emergency room visits grew a sizable 66.8% and 50.8%, respectively, and total surgeries 26.3% across the same four year period. Several volume metrics continued to grow in FY 2012, with admissions increasing only slightly to 61,154, yet emergency room volumes increasing 1.7% to 246,821 and outpatient visits increasing 3.0% to over 1.59 million. Growth has tempered for surgical cases and births, however. There are no additional facility expansion plans at this time.

OPERATING PERFORMANCE: OPERATING CASH FLOW MARGIN REMAINS CONSISTENTLY STRONG

Operating cash flow margin of 13.3% on unaudited FY 2012 results continues to be strong at double digit levels, though mitigated slightly from the recent peak level of 15.7% in FY 2011 (fiscal year ends June 30). Operating cash flow was tempered 14.5% (\$22 million) by a sizable increase in charity care. As a result, debt-to-cash flow weakened to 9.15 times from 7.74 times in FY 2011, but remains better than levels in fiscal years 2008 and 2009. Correspondingly, Moody's-adjusted maximum annual debt service coverage weakened slightly to 2.20 times from 2.55 times the prior year, and is below the 2.32 times low across the past five audited years.

MSHA continues to work on revenue enhancement and cost reduction efforts. Revenue enhancement initiatives focus on computerized coding, retail initiatives, growth in ambulatory and outpatient volumes, and clinical documentation. For FY 2012 MSHA is budgeting for increases in both admissions and outpatient visits, strategic increases in pricing, meaningful use dollars, increased revenue related to Medicare Shared Savings Program and Medicare Advantage through its health network. Expense initiatives include LEAN, reductions in length of stay, improvements in physician practice losses, reductions in lease expense and control of supply costs. MSHA will reduce contract labor costs, right-size personnel and modify benefits, and focus on other non-clinical expenses. These revenue and expense initiatives are currently underway.

BALANCE SHEET POSITION: DEBT LOAD REMAINS HIGH; LIQUIDITY REMAINS ABOVE 200 DAYS

The total system debt load remains high, evidenced through a 115% debt-to-revenue ratio in FY 2012, one of the highest in our portfolio, along with 9.15 times debt-to-cash flow. The Series 2012 bonds increase debt load 4.1% from our last review based upon December 31, 2011 pro forma debt, and 6.3% over FYE 2011 debt load. No additional debt is planned at this time. The debt structure is a mixture of fixed and variable rate bonds, notes and capital leases. As of June 30, 2012, about 57% of total debt is in a fixed rate mode and 43% in a variable rate mode, and will remain comparable post financing. Pro forma cash-to-demand debt of 106% at June 30, 2012 is down from 116% at December 31, 2011 due to both an increase in debt load and a decline in liquidity. Moody's-adjusted pro forma maximum annual debt service (MADS) coverage of 2.20 times in FY 2012 is down from the prior year and the lowest across the past five audited years, but within range of historical performance.

The current upcoming Series 2012 bond issuances area expected to include Series 2012A fixed rate bonds \$54.9 million new money project bonds, Series 2012B variable rate capital reimbursement and lease refinancing bonds, and Series 2012C variable rate new money project bonds. The variable rate bonds are expected to be supported by letters of credit and rated at a later date. In addition, MSHA will establish an \$18.4 million variable rate taxable note with a bank to refinance existing capital leases for anticipated present value savings (this note will not be rated). Our analysis incorporates all pieces of new debt.

Unrestricted liquidity declined \$68.5 million (11.6%) since FYE 2011 to \$524.1 million at June 30, 2012 from \$592.5 million at June 30, 2011. Major drivers to the decline included a decline in market value to offset investment returns, debt service payments, capital spending and an increase in accounts receivable. As a result cash on

hand declined to 212 days from 246 days, but consistently remains above 200 days. Cash-to-debt, which had improved to 55% in FY 2011, declined with the increase in debt and decline in liquidity to a pro forma 46%, but remains comparable to the 47.9%-64.4% range from 2007-2011.

Outlook

The stable outlook reflects our belief that MSHA will continue to generate strong and stable operating cash flow margins to support its high debt load. We believe liquidity will improve barring any major negative fair market value adjustments.

WHAT COULD MOVE THE RATING UP

Continued growth in operating cash flow to support the high debt load; material improvement in debt measures; regrowth of liquidity; increased diversification of cash flow

WHAT COULD MOVE THE RATING DOWN

Increase in debt load without commensurate increase in cash flow; notable loss in market share; trend of decline in operating cash flow; material decline or loss of supplemental payments for servicing the Medicaid and indigent populations

KEY INDICATORS

Assumptions & Adjustments:

- Based on financial statements for Mountain States Health Alliance
- First number reflects the audit year ended June 30, 2011
- Second number reflects pro forma unaudited year ended June 30, 2012, including the impact from the Series 2012 bonds
- Bad debt is reflected as a revenue reduction in FY 2012
- Non-operating income excludes loss on early extinguishment of debt and change in fair value of derivatives
- Investment returns smoothed at 6% unless otherwise noted
- *Inpatient admissions: 61,035; 61,154
- *Observation stays: 20,894; 22,179
- *Medicare % of gross revenues: 43.7%; 44.1%
- *Medicaid % of gross revenues: 13.7%; 14.1%
- *Total operating revenues (\$): \$976.1 million; \$988.5 million
- *Revenue growth rate (%) (3 yr CAGR): 8.9%; 5.6%
- *Operating margin (%): 0.9%; 1.0%
- *Operating cash flow margin (%): 15.7%; 13.3%
- *Debt to cash flow (x): 7.74x; 9.15x
- *Days cash on hand: 246 days; 212 days
- *Maximum annual debt service (MADS) (\$): \$75.6 million; \$77.2 million
- *MADS coverage with reported investment income (x): 2.32x; 2.16x
- *Moody's-adjusted MADS Coverage with normalized investment income (x): 2.55x; 2.20x
- *Direct debt (\$): \$1.070 billion; \$1.137 billion

*Cash to direct debt (%): 55%; 46%

*Comprehensive debt: \$\$1.126 billion; not available

*Cash to comprehensive debt (%): 53%; not available

*Monthly liquidity to demand debt (%): 149%; not available

RATED DEBT (as of June 30, 2012)

Issued by The Health and Educational Facilities Board of the City of Johnson City, Tennessee:

Series 2011A variable rate bonds (\$65.3 million outstanding), rated Aa2/VMIG 1 supported by letter of credit from US Bank expiring October 19, 2014

-Series 2011B variable rate bonds (\$20.0 million outstanding), rated A2/VMIG 1 supported by letter of credit from PNC Bank expiring October 19, 2014

-Series 2010A fixed rate bonds (\$161.9 million outstanding), rated Baa1

-Series 2009A fixed rate term bonds (\$5.6 million outstanding), rated Baa1

-Series 2008A Variable Rate Hospital Revenue Bonds (\$13.2 million outstanding), rated Aa2/VMIG 1 supported by letter of credit from US Bank expiring October 19, 2014; Baa1 unenhanced rating

-Series 2007B-1 Variable Rate Hospital Revenue Bonds (\$26.2 million outstanding), joint support rating of Aa2/VMIG 1 with letter of credit from US Bank expiring October 19, 2014, Baa1 unenhanced rating

-Series 2007B-2 Variable Rate Hospital Revenue Bonds (\$102.8 million outstanding), joint support rating of A1/VMIG 1 with letter of credit from PNC Bank expiring October 19, 2014, Baa1 unenhanced rating

-Series 2007B-3 Variable Rate Hospital Revenue Bonds (\$27.8 million outstanding), joint support rating of Aa3/VMIG 1 with letter of credit from Mizuho Corporate Bank expiring October 19, 2014, Baa1 unenhanced rating

-Series 2006A Fixed Rate First Mortgage Revenue Bonds, serial and term bonds (\$169.0 million outstanding), rated Baa1

-Series 2001A Fixed Rate Hospital First Mortgage Revenue Term Bonds (\$22.3 million outstanding), rated Baa1

-Series 2000A Hospital First Mortgage Revenue Refunding Capital Appreciation Bonds (\$32.9 million outstanding), certain bonds insured by MBIA, Baa1 unenhanced rating

-Series 2000C Fixed Rate Hospital First Mortgage Revenue Term Bonds (Taxable) (\$33.2 million outstanding), insured by MBIA, Baa1 unenhanced rating

Issued by Industrial Development Authority of Smyth County, Virginia:

-Series 2011C variable rate bonds (\$49.9 million outstanding), rated Aa2/VMIG 1 supported by letter of credit from US Bank expiring October 19, 2014

-Series 2011D variable rate bonds (\$60.7 million outstanding), rated A1/VMIG 1 supported by letter of credit from Mizuho Corporate Bank expiring October 19, 2014

-Series 2010B fixed rate bonds (\$32.5 million outstanding), rated Baa1

-Series 2009B fixed rate term bonds (\$5.5 million outstanding), rated Baa1

Issued by Industrial Development Authority of Russell County, Virginia:

-Series 2008B Variable Rate Hospital Revenue Bonds (\$52.9 million outstanding) rated Aa2/VMIG 1 supported by letter of credit with US Bank expiring October 19, 2014; Baa1 unenhanced rating

Issued by Industrial Development Authority of Washington County, Virginia:

-Series 2009C fixed rate term bonds (\$116.0 million outstanding), rated Baa1

Direct Obligation of Mountain States Health Alliance:

-Series 2011E variable rate bonds (Taxable) (\$16.0 million outstanding), rated A1/VMIG 1 supported by letter of credit from Mizuho Corporate Bank expiring October 19, 2014

-Series 2000D Fixed Rate First Mortgage Term Bonds (Taxable) (\$14.3 million outstanding), insured by MBIA, Baa1 unenhanced rating

PRINCIPAL METHODOLOGY USED

The principal methodology used in this rating was Not-For-Profit Healthcare Rating Methodology published in March 2012. Please see the Credit Policy page on www.moody.com for a copy of this methodology.

REGULATORY DISCLOSURES

The Global Scale Credit Ratings on this press release that are issued by one of Moody's affiliates outside the EU are endorsed by Moody's Investors Service Ltd., One Canada Square, Canary Wharf, London E 14 5FA, UK, in accordance with Art.4 paragraph 3 of the Regulation (EC) No 1060/2009 on Credit Rating Agencies. Further information on the EU endorsement status and on the Moody's office that has issued a particular Credit Rating is available on www.moody.com.

For ratings issued on a program, series or category/class of debt, this announcement provides relevant regulatory disclosures in relation to each rating of a subsequently issued bond or note of the same series or category/class of debt or pursuant to a program for which the ratings are derived exclusively from existing ratings in accordance with Moody's rating practices. For ratings issued on a support provider, this announcement provides relevant regulatory disclosures in relation to the rating action on the support provider and in relation to each particular rating action for securities that derive their credit ratings from the support provider's credit rating. For provisional ratings, this announcement provides relevant regulatory disclosures in relation to the provisional rating assigned, and in relation to a definitive rating that may be assigned subsequent to the final issuance of the debt, in each case where the transaction structure and terms have not changed prior to the assignment of the definitive rating in a manner that would have affected the rating. For further information please see the ratings tab on the issuer/entity page for the respective issuer on www.moody.com.

Information sources used to prepare the rating are the following: parties involved in the ratings, parties not involved in the ratings, public information, and confidential and proprietary Moody's Investors Service's information.

Moody's considers the quality of information available on the rated entity, obligation or credit satisfactory for the purposes of issuing a rating.

Moody's adopts all necessary measures so that the information it uses in assigning a rating is of sufficient quality and from sources Moody's considers to be reliable including, when appropriate, independent third-party sources. However, Moody's is not an auditor and cannot in every instance independently verify or validate information received in the rating process.

Please see the ratings disclosure page on www.moody.com for general disclosure on potential conflicts of interests.

Please see the ratings disclosure page on www.moody.com for information on (A) MCO's major shareholders (above 5%) and for (B) further information regarding certain affiliations that may exist between directors of MCO and rated entities as well as (C) the names of entities that hold ratings from MIS that have also publicly reported to the SEC an ownership interest in MCO of more than 5%. A member of the board of directors of this rated entity may also be a member of the board of directors of a shareholder of Moody's Corporation; however, Moody's has not independently verified this matter.

Please see Moody's Rating Symbols and Definitions on the Rating Process page on www.moody's.com for further information on the meaning of each rating category and the definition of default and recovery.

Please see ratings tab on the issuer/entity page on www.moody's.com for the last rating action and the rating history.

The date on which some ratings were first released goes back to a time before Moody's ratings were fully digitized and accurate data may not be available. Consequently, Moody's provides a date that it believes is the most reliable and accurate based on the information that is available to it. Please see the ratings disclosure page on our website www.moody's.com for further information.

Please see www.moody's.com for any updates on changes to the lead rating analyst and to the Moody's legal entity that has issued the rating.

License of MOODY'S affiliate, Moody's Investors Service Pty Limited ABN 61 003 399 657 AFSL 336969 and/or Moody's Analytics Australia Pty Ltd ABN 94 105 136 972 AFSL 383569 (as applicable). This document is intended to be provided only to "wholesale clients" within the meaning of section 761G of the Corporations Act 2001. By continuing to access this document from within Australia, you represent to MOODY'S that you are, or are accessing the document as a representative of, a "wholesale client" and that neither you nor the entity you represent will directly or indirectly disseminate this document or its contents to "retail clients" within the meaning of section 761G of the Corporations Act 2001. MOODY'S credit rating is an opinion as to the creditworthiness of a debt obligation of the issuer, not on the equity securities of the issuer or any form of security that is available to retail clients. It would be dangerous for "retail clients" to make any investment decision based on MOODY'S credit rating. If in doubt you should contact your financial or other professional adviser.

For Japan only: MOODY'S Japan K.K. ("MJKK") is a wholly-owned credit rating agency subsidiary of MOODY'S Group Japan G.K., which is wholly-owned by Moody's Overseas Holdings Inc., a wholly-owned subsidiary of MCO. Moody's SF Japan K.K. ("MSFJ") is a wholly-owned credit rating agency subsidiary of MJKK. MSFJ is not a Nationally Recognized Statistical Rating Organization ("NRSRO"). Therefore, credit ratings assigned by MSFJ are Non-NRSRO Credit Ratings. Non-NRSRO Credit Ratings are assigned by an entity that is not a NRSRO and, consequently, the rated obligation will not qualify for certain types of treatment under U.S. laws. MJKK and MSFJ are credit rating agencies registered with the Japan Financial Services Agency and their registration numbers are FSA Commissioner (Ratings) No. 2 and 3 respectively.

MJKK or MSFJ (as applicable) hereby disclose that most issuers of debt securities (including corporate and municipal bonds, debentures, notes and commercial paper) and preferred stock rated by MJKK or MSFJ (as applicable) have, prior to assignment of any rating, agreed to pay to MJKK or MSFJ (as applicable) for appraisal and rating services rendered by it fees ranging from JPY200,000 to approximately JPY350,000,000. MJKK and MSFJ also maintain policies and procedures to address Japanese regulatory requirements.

Rating Update: Moody's affirms Mountain States Health Alliance's (TN) Baa1; outlook stable

Global Credit Research - 10 Mar 2015

\$590m of rated debt outstanding

JOHNSON CITY HEALTH & EDUCATIONAL FACILITIES BOARD, TN
Hospitals & Health Service Providers
TN

NEW YORK, March 10, 2015 --Moody's Investors Service affirms the Baa1 rating on Mountain States Health Alliance's (MSHA) outstanding debt. The rating outlook is stable.

SUMMARY RATING RATIONALE

The Baa1 rating reflects improved financial performance demonstrated by this large multi-hospital system in eastern Tennessee and southeastern Virginia. Performance is showing good momentum with stronger results through the first half of FY 2015 given a re-invigorated focus on operations, expense management and physician relations under the direction of a new CEO and engaged Board. The rating also incorporates the organization's leading market position in Johnson City and the expansive 29-county service area.

These attributes are mitigated by the organization's leverage position which is very high and unfavorable to Moody's medians. Management is endeavoring over the next several years to de-leverage the system with increased cash flow and a new debt reduction strategy. Above average exposure to Medicare and Medicaid is also a credit risk.

OUTLOOK

The rating outlook is stable and based on our expectation that favorable performance should continue over the near term and the system will continue its efforts to de-leverage.

WHAT COULD MAKE THE RATING GO UP

- Material de-leveraging of the organization with improvement in key debt metrics such as debt-to-revenue, debt-to-cash flow, cash-to-debt and maximum annual debt service coverage that are more in line with A-rated health care systems
- Continued maintenance of favorable financial performance through organic growth and expense management

WHAT COULD MAKE THE RATING GO DOWN

- Departure from historically favorable financial performance that results in weaker debt coverage metrics
- Increase in leverage without enterprise growth
- Decline in absolute and relative liquidity metrics
- Loss of market share

STRENGTHS

- Historically strong financial performance with operating cash flow and operating cash flow margins exceeding Baa1 medians; good momentum demonstrated through the first half of FY 2015 with a 12.9% operating cash flow margin (compared to Baa1 median of 7.9%)
- Days cash is favorable at 255 days, providing ample headroom to the 100 days cash covenant in place under bank lending agreements and well exceeding the Baa1 median of 150; absolute and relative liquidity metrics should show improvement due to a forecasted reduction in capital spending and an increase in debt repayment

- Leading market position in Johnson City and the region for this multi-hospital system providing a wide array of tertiary services allows the system to focus on performance improvement
- Sharp focus on cost management strategies, including increasing productivity and labor management, and solidifying physician relations

CHALLENGES

- Highly leveraged enterprise with debt metrics that are unfavorable to Baa1 medians; debt to revenue is very high at 110% (compared to Baa1 median of 41%); despite the strong cash flow, Moody's adjusted maximum annual debt service is below average at 2.2 times (compared to Baa1 median of 3.2 times)
- Competition is present from a sizable system based 25 miles away in Kingsport, with primary hospitals in Kingsport and Bristol.
- Material exposure to government payors (51% Medicare and 14% TennCare/Medicaid gross revenues) while operating in two states that have not elected to expand Medicaid coverage
- Complex debt structure, including multiple bank agreements and a large swap portfolio, although no collateral postings have been required recently

RECENT DEVELOPMENTS

Recent developments are incorporated in the Detailed Rating Rationale section.

DETAILED RATING RATIONALE

MARKET POSITION: DISTINCTLY LEADING MARKET SHARE IN JOHNSON CITY AND THE REGION

MSHA is a multi-hospital system operating 11 acute care hospitals, the region's only children's hospital, an inpatient psychiatric facility, and other services such as home health, urgent care and rehabilitation in a broad service area that encompasses northeastern Tennessee, southwest Virginia, southeast Kentucky and western North Carolina. Credit strength derives from its 90% market share in Washington County, TN, where it is the only provider of acute care services and operates its flagship, 514-licensed bed Johnson City Medical Center (JCMC). Except for Kingsport, the system reports either the leading market share or is the sole provider in its primary service area. MSHA's Indian Path Medical Center (Kingsport) competes with Holston Valley Medical Center, owned by Wellmont Health System (not rated by Moody's).

Wellmont represents MSHA's primary competition and operates six hospitals. Market share trends provided by management through publicly available data show a growing divergence between the two systems with MSHA increasing market share to 41% in its 29-county extended service area compared to Wellmont's 26% market share, a declining trend (for Wellmont) through Q3 2014. Many of the rural hospitals in the primary and secondary service area are affiliated with MSHA, and primarily refer higher acuity patients to its three "hub" hospitals in Abingdon, VA., Johnson City, TN, and Kingsport, TN.

OPERATING PERFORMANCE, BALANCE SHEET, AND CAPITAL PLANS: ABOVE AVERAGE OPERATING CASH FLOW MARGINS CONTINUE, ADEQUATELY SUPPORTING A HIGH DEBT LOAD

A historical credit strength, MSHA continues to report above average operating cash flow margins although with some declines in recent years. FY 2014 reported a 12.3% margin, on par with FY 2013 but down from higher levels in FY 2010 through FY 2012. Performance through the first half of FY 2015 ending December 31, 2014 shows good momentum without any one-time revenue enhancements, reporting a 12.9% operating cash flow margin. Management expects it will reach its FY 2015 budget of 14.1%. MSHA's above average operating cash flow adequately supports the high debt load.

Management has set a new goal to reach an annual 4% operating margin; this denotes a material change in financial strategy given years of breakeven operating income. Under the direction of a new CEO, MSHA is focusing on costs, operating efficiencies, and integrating many of the assets the system added through various growth strategies over the past decade. A reinvigorated medical staff has also produced growth in volume trends. Over the past year, MSHA enacted a 10% system-wide reduction in non-patient care FTEs through layoffs and attrition. Additionally, benefit plans were changed. These strategies combined translate into \$25 million of annual labor savings. Further, the recent joint venture with HealthSouth (now 51.1% owner) of the Quillen Rehab Center should improve cash flow by \$2 million annually.

MSHA's payor mix has remained fairly stable, but does present material exposure to government payors (51% Medicare and 14% Medicaid in gross revenues). Neither Tennessee nor Virginia elected to expand Medicaid although management reports that 88,000 individuals are now enrolled in Medicaid given the 'woodworking' effect of the exchanges. Tennessee made no cuts to Medicaid in FY 2015 and held rates steady; Virginia held rates steady in FY 2015 following a 7% increase in FY 2014.

Liquidity

Liquidity is below average as long-term debt out sizes absolute liquidity, resulting in cash to debt ratio of 59% (Baa1 median is 104%). Relative liquidity to the size of the enterprise is favorable at 255 days and has historically exceeded 200 days. Unrestricted cash increased and investments grew to \$646 million at the end of FY 2014 from \$588 million at the end of the prior year due to good cash flow, lower capital spending and the use of bond proceeds for capital.

DEBT AND OTHER LIABILITIES

MSHA is highly leveraged as indicated by relative debt metrics compared to medians. Debt to revenue is 110%, compared to the Baa1 median of 41%. Despite lofty cash flow margins, debt service coverage measures are below Baa1 medians given the amount of leverage that the organization services. Moody's-adjusted maximum annual debt service coverage of 2.2 times in FY 2014 was below the Baa1 median of 3.2 times. Likewise, debt to cash flow of 8.9 times is nearly double the Baa1 median of 4.5 times.

To de-leverage the enterprise, management and the board has approved a new plan to accelerate the repayment of debt in conjunction with annual principal payments. In summary, through a combination of scheduled principal amortization and voluntary prepayment, MSHA anticipates paying down \$532 million of debt from FY 2016 through FY 2022. Given that MSHA has completed a number of large capital projects, management anticipates using more of its cash flow for debt repayment. After FY 2015 (\$53 million in capital planned), capital spending will hover at \$45 million per year. While not covenanted to do so, MSHA plans to repay \$70.5 million of debt in FY 2016, followed by \$16 mm in FY 2017, \$107.8 million in 2019, \$46.0 million in 2020, \$55.6 million in 2021 and \$58.8 million in 2022. This does not include the normal repayment of amortizing bond principal that totals an additional \$177 million.

Debt Structure

MSHA maintains 58% fixed rate debt and 42% variable rate. The expiration dates on the various Letters of Credit and the tenors on the direct placements are staggered with the largest amounts expiring in 2018. Master Trust Indenture covenants are the following: 1.3 times historical and maximum annual debt service; consultant call-in required if fails to meet test; 75 days cash measured at FYE. MBIA has a 110 days cash on hand covenant as long as MBIA-insured debt is outstanding. Letters of credit and private placement bank debt covenants are similar but measured more frequently: 1.3 times maximum annual debt service measured on a quarterly rolling basis; 100 days cash on hand measured semi-annually. MSHA has very comfortable headroom to the days cash on hand covenant although more narrow headroom on the rate covenant.

Debt-Related Derivatives

MSHA is a party to several interest rate swaps and other derivative agreements to establish floating rate exposure and to reduce fixed rate debt service. MSHA holds five basis swaps (\$132 million), 3 CMS Basis Swaps (\$438 million) and one total return swap (\$19 million) for a total notional amount of \$589 million. The swaps are long-dated maturities and all are with the same counterparty (Bank of America) which indicates concentration risk. The fair market value of the swaps at November 24, 2014 was a liability of \$12.2 million against which MSHA has no posted collateral.

Pensions and OPEB

MSHA has a defined contribution plan, limiting demands on liquidity.

MANAGEMENT AND GOVERNANCE

In December 2013 a new CEO joined MSHA with a strong background in hospital operations. His arrival follows the planned retirement of the former CEO. All c-suite positions are filled. The Board is highly engaged as evidenced by the approval to de-leverage the system through debt repayment.

KEY STATISTICS

Assumptions & Adjustments:

- Based on financial statements for Mountain States Health Alliance
- First number reflects audit year ended June 30, 2013
- Second number reflects audited year ended June 30, 2014
- Investment returns smoothed at 6% unless otherwise noted
- Comprehensive debt includes direct debt, operating leases, and pension obligation, if applicable
- *Inpatient admissions: 58,103; 57,040
- *Observation stays: 23,554; 24,218
- *Medicare % of gross revenues: 50.6%; 51.3%
- *Medicaid % of gross revenues: 14.6%; 14.4%
- *Total operating revenues (\$): \$994 million; \$1,000 million
- *Revenue growth rate (%) (3 yr CAGR): 2.0%; 1.1%
- *Operating margin (%): -0.5%; 0.7%
- *Operating cash flow margin (%): 12.0%; 12.3%
- *Debt to cash flow (x): 9.5 times; 8.9 times
- *Days cash on hand: 233.8 days; 255.7 days
- *Maximum annual debt service (MADS) (\$): \$77.2 million; \$77.2 million
- *MADS coverage with reported investment income (x): 1.8 times; 2.0 times
- *Moody's-adjusted MADS Coverage with normalized investment income (x): 2.1 times; 2.2 times
- *Direct debt (\$): \$1,123 million; \$1,104 million
- *Cash to debt (%): 52.4%; 58.5%
- *Comprehensive debt (\$): \$1,176 million; \$1,151 million
- *Cash to comprehensive debt (%): 50.0%; 56.1%
- *Monthly liquidity to demand debt (%): 120.8%; 133.9%

OBLIGOR PROFILE

Mountain States Health Alliance is a \$1.0 billion (total revenues in FY 2014) system comprised of 13 hospitals with the flagship, Johnson City Medical Center (514 licensed beds), located in Johnson City, TN (eastern Tennessee).

LEGAL SECURITY

The bonds are secured by a security interest in the Pledged Assets (receivables, inventory, equipment, general intangibles, contracts and contract rights, government approvals, fixtures and other personal property, goods, instruments, chattel paper, documents, credits, claims, demands and assets) and a first lien on the Mortgaged Property, which includes the flagship hospital, Johnson City Medical Center, subject to certain permitted liens. Bank debt is parity to the Master Trust Indenture.

PRINCIPAL METHODOLOGY

The principal methodology used in this rating was Not-for-Profit Healthcare Rating Methodology published in March 2012. Please see the Credit Policy page on www.moodys.com for a copy of this methodology.

REGULATORY DISCLOSURES

For ratings issued on a program, series or category/class of debt, this announcement provides certain regulatory disclosures in relation to each rating of a subsequently issued bond or note of the same series or category/class of debt or pursuant to a program for which the ratings are derived exclusively from existing ratings in accordance with Moody's rating practices. For ratings issued on a support provider, this announcement provides certain regulatory disclosures in relation to the rating action on the support provider and in relation to each particular rating action for securities that derive their credit ratings from the support provider's credit rating. For provisional ratings, this announcement provides certain regulatory disclosures in relation to the provisional rating assigned, and in relation to a definitive rating that may be assigned subsequent to the final issuance of the debt, in each case where the transaction structure and terms have not changed prior to the assignment of the definitive rating in a manner that would have affected the rating. For further information please see the ratings tab on the issuer/entity page for the respective issuer on www.moodys.com.

Regulatory disclosures contained in this press release apply to the credit rating and, if applicable, the related rating outlook or rating review.

Please see www.moodys.com for any updates on changes to the lead rating analyst and to the Moody's legal entity that has issued the rating.

Please see the ratings tab on the issuer/entity page on www.moodys.com for additional regulatory disclosures for each credit rating.

Rationale

Standard & Poor's Ratings Services assigned its 'BBB+' long-term rating to the Health and Educational Facilities Board of the City of Johnson City, Tenn.'s \$107.495 million tax-exempt series 2010A and \$104.165 million taxable series 2010B fixed-rate bonds. Standard & Poor's also assigned its 'BBB+' long-term rating to the Industrial Development Authority of Smyth County, Va.'s \$38.905 million series 2010C tax-exempt fixed-rate bonds, and the Industrial Development Authority of Russell County, Va.'s \$60.525 million series 2010D tax-exempt fixed-rate bonds. All series were issued for Mountain States Health Alliance, Tenn. (MSHA). Standard & Poor's also affirmed its 'BBB+' issuer credit rating (ICR) on MSHA and its 'BBB+' long-term rating underlying rating (SPUR) on all other rated bonds issued for MSHA by various issuers. The outlook is stable.

Series 2010A, C, and D bonds will fully refund \$184.8 million of combined 2007A, 2007C, and 2008B series bonds. The series 2010B taxable fixed-rate bonds will refund the next 10 years of principal payments of the series 2007B bonds, an amount equal to \$91.7 million. Other than the funding of a debt service reserve and costs of issuance, no new money is being borrowed.

More specifically the 'BBB+' rating reflects:

- MSHA's excellent business position, which is characterized by solid demographics, a high market share, and a broad range of services;
- Strong management and governance, which is reflected in a favorable performance record since the system's creation in 1998;
- Continued strong financial performance, highlighted by very strong fiscal-year EBIDA margins, a sixth consecutive year of operating profitability in fiscal 2009, and solid liquidity for the rating level based on days' cash on hand; and
- The leveling-off of MSHA sizable capital and debt financing needs as there are few remaining independent hospital acquisition targets in the service area. Future debt increases should be limited as the system can handle most of its remaining capital needs with cash flow.

MSHA's sizable debt and accompanying high leverage remain the system's most significant credit risk. The system has a pro forma debt-to-capital ratio of 78% and a debt burden of 6.8% of revenue. Even with typical EBIDA margins of 14%-18%, maximum annual debt service (MADS) coverage has historically been below median 'BBB+' levels. On a pro forma basis, MADS coverage is 2.0x based on fiscal year-end 2009 results.

Standard & Poor's Debt Derivative Profile (DDP) overall score on MSHA's swap portfolio is '2.5' on a scale of '1.0' to '4.0', whereby '1.0' represents the lowest risk. The overall DDP score of '2.5' reflects Standard & Poor's view that MSHA's swap exposure is a low to moderate credit risk at this time. MSHA has two total return swaps with a total notional amount of \$50 million whose counterparty was Lehman Brothers Special Financing Inc., guaranteed by Lehman Brothers Inc. The timing for termination of those swaps is uncertain pending resolution of issues related to Lehman's bankruptcy. MSHA estimates the mark-to-market value of the Lehman swaps to be negative \$11 million, against which MSHA has posted \$12.6 million of collateral. Standard & Poor's does not count collateral funds as unrestricted liquidity, so the possibility of paying a termination cost is not likely to have a major credit impact.

Merrill Lynch is the counterparty for two other swaps, including a \$438 million constant maturity swap with a mark-to-market value in MSHA's favor of \$7.1 million, and a \$132 million fixed-payer swap with a mark-to-market value of negative \$16.3 million, against which MSHA has no posted collateral (all figures as of Jan. 15, 2010).

MSHA had \$532 million of unrestricted liquidity on Sept. 30, 2009, net of \$13.1 million of posted swap collateral. Should the swaps terminate, there will be a modest negative effect since the swaps generate positive cash flow, including \$1.1 million for the first three months of fiscal 2010. However, MSHA will easily be able to absorb the lost income, given its \$37 million of EBIDA for the first quarter (EBIDA was \$123 million for the full year ended June 2009).

Outlook

The outlook is stable. Additional risk related to MSHA's high debt levels is offset by the business position, benefits of the system's acquisition activity over the past several years, MSHA's favorable record of integrating acquired facilities, and the natural improvement in debt ratios that will occur as the system's results begin to reflect the acquired facilities for a full year in fiscal 2010. Also adding to credit stability is MSHA's history of maintaining solid earnings. However, given that debt service coverage is low for the rating level, the system's high debt burden remains a credit concern. We do not expect a higher rating until MSHA's debt levels moderate. Although not

expected, should balance sheet metrics become more constrained, a lower rating or negative outlook would be likely.

Organizational Profile

Since its formation in 1998, MSHA has nearly tripled its asset base and net patient revenues to roughly \$1.9 billion and \$840 million, respectively. Due in large part to its acquisition strategy, the system's pro forma debt has doubled since 2005 and is now very high at over \$1 billion. The system's growth was accomplished through strategic hospital acquisitions in its core northeastern Tennessee and southwest Virginia service areas. With the 2009 acquisition of a 50.1% stake in Johnston Memorial Hospital (JMH) in Abingdon, Va., MSHA now owns and operates 11 acute-care facilities and one psychiatric hospital, led by the flagship Johnson City Medical Center, a 623-licensed-bed tertiary regional provider. The system's hospital facilities include 1,780 staffed acute-care beds. The system also includes a range of outpatient facilities and ancillary services, such as a home health agency, a hospice, and other facilities including the ownership and management of medical office buildings. The affiliation with JMH completed MSHA's hospital acquisition strategy, which has included the acquisition of five Virginia hospitals over the past three years.

MSHA also operates a number of physician practices employing about 172 physicians. MSHA has steadily reduced losses at the physician practices through a modest attrition in the number of physicians, improvements in compensation when contracts were renewed, and other efficiency measures. However, MSHA does not intend to discontinue the employment of physicians, nor does its competitor, Wellmont, which also has staff physicians as part of its recruiting, retention, and market share strategies.

Since the system's creation in 1998, management and governance have evolved effectively, with a strong central leadership focused on maximizing the system's potential as a whole, as evidenced by the consolidation efforts in its core market of Washington County. In addition, management has broadened the access to managed-care contracts for all of the facilities, while centralizing the negotiations at the system level. It has also centralized other functions like billing and collections, purchasing, and laboratory services. The board improved its effectiveness by reducing its size to a very manageable 13 members, and has upheld its values of strong planning, education, and transparency.

Market Position

The system's defined market area has broadened significantly over with its acquisition activity. The core service area now has 13 counties in Tennessee and Virginia, of which MSHA has approximately 52% market share, including JMH. Today only about 30% of the system's patients originate from its original home county of Washington County, Tenn. In the broader 29-county service area, MSHA has a 37% share, and Wellmont, 30%, with no significant third player.

Wellmont has acquired three hospitals in its secondary service area within the past two to three years and is in the midst of a sizable renovation of its largest campus, Holston Valley Medical Center. We believe that the spate of acquisitions by both health systems over the past several years has largely played out as there are very few remaining independent hospitals in the region. While the service area remains very competitive, its market characteristics remain favorable in terms of population growth and the market's size will continue to support two sizable competitors.

While MSHA's market share is extremely strong in the core Washington County market, Wellmont Health System dominates in adjacent Sullivan County. The nine-hospital Wellmont has two flagship hospitals in Sullivan County, with combined admissions of roughly 30,000, while MSHA has a relatively modest-size facility, Indian Path Medical Center (7,873 admissions in fiscal 2009). Historically, Sullivan County was the only part of MSHA's primary service area where the two systems competed head to head, whereas in other parts of their service areas, MSHA and Wellmont generally did not overlap. However, they are increasingly overlapping in their service areas. For example, MSHA traditionally had no hospitals in Virginia, while Wellmont did. However, recent affiliations with the five Virginia hospitals have thrust MSHA into a service area that traditionally has fed Wellmont's facilities. The two systems now compete head-on in Norton, Va., a two-hospital town where in 2007, MSHA acquired a 50.1% ownership Norton Community Hospital, while Wellmont acquired the other one (Mountain View).

Competition in Sullivan County is likely to heat up soon due to Wellmont's major renovation of its flagship campus, Holston Valley Medical Center, at an estimated cost of more than \$100 million.

Projects Update

Niswonger Children's Hospital

MSHA completed and opened the \$34 million Niswonger Children's Hospital on March 2, 2009. The project, which created the region's first free-standing children's hospital, expanded pediatric services at the Johnson City Medical Center by seven beds. About \$25 million of the project's cost was funded through philanthropy.

Franklin Woods Community Hospital (FWCH)

FWCH is a new \$118 million, 80-bed hospital replacement facility that will replace the inpatient acute-care services at MSHA's North Side Hospital and its Johnson City Specialty Hospital. FWCH is expected to open in May/June 2010. North Side Hospital will remain open and serve outpatients and provide skilled nursing care.

Johnston Memorial Hospital (JMH)

Series 2009E bonds funded MSHA's acquisition of a 50.1% interest in the 135-bed JMH in April 2009. MSHA is building a 250,000-square-foot replacement hospital next to the JMH cancer center in Abingdon, Va., which opened in 2007. The new hospital is scheduled to open in March 2011.

Finances

MSHA demonstrated modest operating performance improvement during fiscal 2009. For the year ended June 30, net operating income climbed to \$7 million, or a 0.83% margin on \$840 million in total operating revenues, compared with \$6.2 million, or a 0.82% margin, on \$756 million in revenues in fiscal 2008. Although inpatient admissions grew to 57,127 in fiscal 2009 from 54,307 in fiscal 2008, volume growth was largely generated from acquisitions, and not same-store volumes, which were flat. Fiscal 2010 will be the first full year of operating results with the acquired facilities, and MSHA is budgeting \$16 million in operating revenues (1.6% margin) on \$1.0 billion in total operating income. The system is forecasting 9.1% inpatient volume growth to 62,305 from 57,127 in 2009. MSHA estimates that it will be eligible for about \$46 million in stimulus payments over the next five years. However, no stimulus funds are included in the system's 2010 budget or five-year forecast.

In 2009 MSHA implemented revenue and expense initiatives including eliminating 126 staffers, restricting hiring,

limiting travel, and eliminating pay increases for management. Additionally, the system closed its Indian Path Pavilion (a behavioral health facility), which will create about \$3 million in annual savings. Management has also identified about \$7.5 million of revenue enhancement opportunities for its operations in southwest Virginia. No TennCare cuts are expected for 2010 and management expects no increase in Virginia Medicaid for 2010. But TennCare cuts are a possibility for 2011. Other expected major payor increases are 5%-7% for fiscal 2010.

EBIDA margin was 14.4% for fiscal 2009. Pro forma MADS coverage, based on MADS of \$71 million, was 1.9x based on June 30, 2009, fiscal year-end results.

Net excess income for the year was \$21.2 million due to \$19.1 million of interest, dividend, and derivative related income that was offset by realized investment losses.

Interim Financial Performance: Sept. 30, 2009 (Three Months)

Through the first three months of fiscal 2010, MSHA reported an operating loss of \$2.4 million on \$235 million in operating revenues. First quarter losses are typical for MSHA since it is their practice is to be very conservative in realizing income early in the year. Last year the system reported a first quarter operating loss of \$546,000 on \$204 million of operating revenues.

Balance Sheet

MSHA's aggressive pace of acquisitions has positioned the system to compete effectively in its core service area; however, those investments have leveraged the system's balance sheet and limited the growth in unrestricted liquidity despite solid operating cash flow.

Unrestricted cash and investments totaled \$515 million at fiscal year-end 2009, equal to 242 days' cash. The system's target asset allocations include maintaining 165 days' cash in high-quality and highly liquid fixed-income investments. Above 165 days' cash, the system may invest in equities up to an allocation limit of 50%. MSHA does not invest in hedge funds or in private equity. Long-term debt to capitalization is high at 79%. Due to high system leverage, year-end cash to debt was 48%, which is well below the median for the current rating. MSHA remains in compliance with all bond covenants. We expect that leverage and liquidity metrics will improve over the next several years now that the system's acquisition program is essentially complete.

Debt Derivative Profile

MSHA's DDP overall score is a '2.5' on a scale of '1' to '4', whereby '1' represents the lowest risk. The score of '2.5' reflects Standard & Poor's view that MSHA's swap exposure is a low to moderate credit risk at this time.

The key components of the overall DDP score of '2.5' are:

- There are strong management practices, including a written swap policy, frequent communication of swap performance to the board, good audit disclosure related to swaps, and the use of independent financial advisers to assist in evaluating swap strategies and performance.
- The termination and collateral-posting risk is offset from a credit standpoint by MSHA's collateral being clearly segregated from unrestricted liquidity, and none of the collateral is included in any of Standard & Poor's

unrestricted liquidity calculations.

Mountain States Health Alliance, TN's Series 2008A Bonds Rating Raised To 'AAA/A-1+'; Joint Criteria

Credit Profile

Johnson City Hlth & Ed Fac Brd, Tennessee

Mountain States Hlth Alliance, Tennessee

Johnson City Hlth & Ed Fac Brd (Mountain States Health Alliance) hosp VRDO ser 2008A

<i>Long Term Rating</i>	AAA/A-1+	Upgraded
<i>Unenhanced Rating</i>	BBB+(SPUR)/Stable	Affirmed

Rationale

Standard & Poor's Ratings Services raised its rating on Johnson City Health and Educational Facilities, Tenn.'s hospital revenue bonds series 2008A, issued on behalf of Mountain States Health Alliance (MSHA), to 'AAA/A-1+' from 'AA-/A-2' based on the substitution of the letter of credit (LOC) to one provided by U.S. Bank N.A. (AA-/A-1+) from the LOC provided by Regions Bank (BBB/A-2). The long term component of the rating is based jointly on the combined rating of MSHA (BBB+) and the LOC provided by U.S. Bank N.A. The short term component of the rating is based solely on the LOC provided by U.S. Bank N.A.

The LOC provides coverage for the payment of principal of and interest on the bonds, including the payment of unremarketed tendered bonds. The LOC provides for a maximum of 37 days of interest coverage at the maximum rate of 12% per annum. If interest is not re-instated following an interest drawing, then the trustee is directed to declare an acceleration with interest ceasing to accrue on the first business day following declaration of acceleration. The LOC is scheduled to expire on Sept. 29, 2013, unless earlier extended or terminated pursuant to their terms.

For more information on MSHA's 'BBB+' issuer credit rating, see "Mountain States Health Alliance, Tennessee," published Jan. 22, 2010, on RatingsDirect on the Global Credit Portal.

Credit Profile

Russell Cnty Indl Dev Auth, Virginia

Mountain States Hlth Alliance, Tennessee

Russell Cnty Indl Dev Auth (Mountain States Health Alliance) hosp VRDO ser 2008B

<i>Long Term Rating</i>	AAA/A-1+	Upgraded
<i>Unenhanced Rating</i>	BBB+(SPUR)/Stable	Affirmed

Rationale

Standard & Poor's Ratings Services raised its rating on Russell County Industrial Development Authority, Va.'s hospital revenue bonds series 2008B, issued on behalf of Mountain States Health Alliance, Tenn. (MSHA), to 'AAA/A-1+' from 'AA-/A-2', based on the substitution of the letter of credit (LOC) to one provided by U.S. Bank N.A. (AA-/A-1+) from one provided by Regions Bank (BBB/A-2). The long-term component of the rating is based jointly (assuming low correlation) on the combined rating of MSHA (BBB+) and the LOC provided by US Bank N.A. The short-term component of the rating is based solely on the LOC provided by U.S. Bank NA.

The LOC provides coverage for the payment of principal of and interest on the bonds, including the payment of unremarketed tendered bonds. The LOC provides for a maximum of 37 days of interest coverage at the maximum rate of 12% per annum. If interest is not re-instated following an interest drawing, then the trustee is directed to declare an acceleration with interest ceasing to accrue on the first business day following declaration of acceleration. The LOC is scheduled to expire on Sept. 29, 2013, unless earlier extended or terminated pursuant to their terms.

Summary:

Mountain States Health Alliance, TN's Series 2007B Bonds Rating Raised To 'AAA/A-1+'; Joint Criteria

Credit Profile

Johnson City Hlth & Ed Fac Brd, Tennessee

Mountain States Hlth Alliance, Tennessee

Johnson City Hlth & Ed Fac Brd (Mountain States Health Alliance) hosp VRDO Taxable ser 2007B-1

<i>Long Term Rating</i>	AAA/A-1+	Upgraded
<i>Unenhanced Rating</i>	BBB+(SPUR)/Stable	Affirmed

Rationale

Standard & Poor's Ratings Services raised its rating on Johnson City Health and Educational Facilities Board, Tenn.'s (Mountain States Health Alliance) hospital revenue bonds series 2007B (taxable) to 'AAA/A-1+' from 'AA-/A-2', following the splitting of the series 2007B bonds into sub-series 2007B-1 (taxable), sub-series 2007B-2 (taxable), and sub-series 2007B-3 (taxable); and the substitution of current letter of credit (LOC) with individual LOCs. The long-term component of the rating on all three sub-series will be based on joint criteria (assuming low correlation). The obligor is rated 'BBB+/Stable'. The series 2007B-1 (taxable) bonds will be enhanced with a LOC provided by U.S. Bank N.A. (AA-/A-1+). The series 2007B-2 (taxable) bonds will be enhanced with a LOC provided by PNC Bank National Association (A+/A-1). The series 2007B-3 (taxable) bonds will be enhanced with a LOC provided by Mizuho Corporate Bank (A+/A-1). The short-term component on the individual series will be based solely on the LOC providers.

The LOCs provide coverage for the payment of principal of and interest on the bonds, including the payment of unremarketed tendered bonds. The LOCs provide for a maximum of 37 days of interest coverage at the maximum rate of 12% per annum. If interest is not reinstated following an interest drawing, then the trustee is directed to declare an acceleration, with interest ceasing to accrue on the first business day following declaration of acceleration. The LOCs are scheduled to expire on Sept. 29, 2013, unless earlier extended or terminated pursuant to their terms.

For more information on MSHA's 'BBB+' ICR rating, see "Mountain States Health Alliance, Tennessee," published Jan. 22, 2010, on RatingsDirect on the Global Credit Portal.

Long Term Rating

BBB+/Stable

Affirmed

Rationale

Standard & Poor's Ratings Services affirmed its 'BBB+' issuer credit rating (ICR) on Mountain States Health Alliance (MSHA), Tenn. Standard & Poor's also affirmed its 'BBB+' long-term rating and underlying rating (SPUR) on rated bonds issued for MSHA by various issuers. The outlook is stable.

The 'BBB+' ratings reflect our view of:

- MSHA's excellent business position, which is characterized by solid demographics, a high market share, and a broad range of services;
- Strong management and governance, which is reflected in a favorable performance record since the system's creation in 1998;
- Continued strong financial performance, highlighted by very strong fiscal-year EBIDA margins, a seventh consecutive year of operating profitability in fiscal 2010, and solid liquidity for the rating level based on days' cash on hand; and
- The leveling-off of MSHA's sizable capital and debt financing needs as there are few remaining independent hospital acquisition targets in the service area.

According to management, future debt increases will likely be limited as the system can handle most of its remaining capital needs with cash flow. MSHA's sizable debt and accompanying high leverage remain the system's most significant credit risk. The system has a debt-to-capital ratio of 77% and a debt burden of 6.7% of revenue. Even with typical EBIDA margins of 14%-18%, maximum annual debt service (MADS) coverage has historically been below median 'BBB+' levels, although MADS coverage improved to 2.5x based on fiscal year-end 2010 results.

Standard & Poor's Debt Derivative Profile (DDP) overall score on MSHA's swap portfolio is '2.5' on a scale of '1.0' to '4.0', whereby '1.0' represents the lowest risk. The overall DDP score of '2.5' reflects Standard & Poor's view that MSHA's swap exposure reflects low to moderate credit risk at this time. MSHA has two total return swaps with a total notional amount of \$50 million, whose counterparty was Lehman Brothers Special Financing Inc., guaranteed by Lehman Brothers Inc. The timing for the termination of those swaps is uncertain pending the resolution of issues related to Lehman's bankruptcy. MSHA estimates the mark-to-market value of the Lehman swaps to be negative \$11 million, against which MSHA has posted \$12.6 million of collateral. Standard & Poor's does not count collateral funds as unrestricted liquidity, so the possibility of paying a termination cost is not likely to have a material credit impact.

Merrill Lynch is the counterparty for two other swaps, including a \$438 million constant maturity swap with a mark-to-market value in MSHA's favor of \$3.9 million and more than \$2 million positive annual cash flow, and a \$132 million fixed-payer swap with a mark-to-market value of negative \$27 million, against which MSHA had \$5.1 million of posted collateral (all figures as of Nov. 30, 2010).

MSHA had \$550 million of unrestricted liquidity on Sept. 30, 2010, net of \$17.7 million of posted swap collateral. Should the swaps terminate, MSHA will lose the more than \$2 million positive annual cash flow from the swaps; however, MSHA will also be relieved of more than \$4 million of negative carry on its fixed payor swaps if the full portfolio is terminated.

Outlook

The stable outlook reflects our view of MSHA's business position, the benefits of the system's acquisition activity over the past several years, MSHA's favorable record of integrating acquired facilities, and the natural improvement in debt ratios that has started to occur as the system's results have begun to reflect the acquired facilities for a full year. Also adding to credit stability is MSHA's history of maintaining solid earnings. However, given that debt service coverage is low for the rating level, the system's high debt burden remains a credit concern. We do not expect to raise the rating until MSHA's debt levels moderate. Although not expected, should balance sheet metrics weaken, a lower rating or negative outlook would be likely.

Organizational Profile

Since its formation in 1998, MSHA has roughly tripled its asset base and net patient revenues to more than \$1.9 billion and \$930 million, respectively. Due in large part to its acquisition strategy, the system's pro forma debt has doubled since 2005 and is now very high at over \$1 billion. The system's growth was accomplished through strategic hospital acquisitions in its core northeastern Tennessee and southwest Virginia service areas.

MSHA owns and operates 11 acute-care facilities and one psychiatric hospital led by the flagship Johnson City Medical Center, a 623-licensed-bed tertiary regional provider. The system's hospital facilities include 1,780 licensed acute-care beds. The system also includes a range of outpatient facilities and ancillary services, such as a home health agency, a hospice, and other facilities including the ownership and management of medical office buildings. The affiliation with Johnston Memorial Hospital (JMH) in 2009 completed MSHA's hospital acquisition strategy, which has included the acquisition of five Virginia hospitals over the past four years.

As part of its physician integration efforts, MSHA has consolidated its employed physician practices into Mountain States Medical Group, which currently employs about 230 physicians. MSHA has steadily reduced physician practice losses through attrition of less productive physicians, improvements in compensation when contracts are renewed, and other efficiency measures.

Since the system's creation in 1998, management and governance have evolved effectively. A strong central leadership is focused on maximizing the system's potential as a whole, as evidenced by the consolidation efforts in its core market of Washington County. In addition, management has broadened the access to managed-care contracts for all of the facilities, while centralizing the negotiations at the system level. It has also centralized other functions like billing and collections, purchasing, and laboratory services. The board improved its effectiveness by reducing its size to a very manageable 13 members, and has upheld its values of strong planning, education, and

transparency.

Market Position

The system's defined market area has broadened significantly due to its acquisition activity. The core service area encompasses 13 counties in Tennessee and Virginia, of which MSHA has approximately 52% market share. Today only about 30% of the system's patients originate from its original home county of Washington County, Tenn. In the broader 29-county service area, MSHA has a 37% share; MSHA's main competitor, Wellmont, holds about a 30% share. There is no significant third player.

Wellmont has acquired three hospitals in its secondary service area within the past few years and completed a sizable renovation of its largest campus, Holston Valley Medical Center, during the past year. We believe that the spate of acquisitions by both health systems over the past several years has largely played out as there are very few remaining independent hospitals in the region. While the service area remains very competitive, its market characteristics remain favorable in terms of population growth, and the market's size will continue to support two sizable competitors.

While MSHA's market share is extremely strong in the core Washington County market, Wellmont Health System dominates in adjacent Sullivan County. Historically, Sullivan County was the only part of MSHA's primary service area where the two systems competed head to head, whereas in other parts of their service areas, MSHA and Wellmont generally did not overlap. However, they are increasingly overlapping in their service areas. For example, MSHA traditionally had no hospitals in Virginia, while Wellmont did. However, recent affiliations with the five Virginia hospitals have thrust MSHA into a service area that traditionally has fed Wellmont's facilities. The two systems now compete head-on in Norton, Va., a two-hospital town where in 2007, MSHA acquired a 50.1% ownership Norton Community Hospital, while Wellmont acquired the other one (Mountain View).

Projects Update

Smyth County Community Hospital is a \$60 million, 44-bed replacement hospital for the more than 40-year-old local community hospital. Funding for the project is coming from operating reserves, a new market tax credit loan, and vendor financing. The project is expected to be complete by November 2011.

Franklin Woods Community Hospital (FWCH) is a new \$114 million, 80-bed (plus 20 shelled beds) hospital replacement facility that replaced inpatient acute-care services at MSHA's North Side Hospital and its Johnson City Specialty Hospital. FWCH opened in July 2010. North Side Hospital has remained open and provides skilled-nursing care.

Series 2009E bonds funded MSHA's acquisition of a 50.1% interest in the 135-bed JMH in April 2009. MSHA is building a 250,000-square-foot replacement hospital next to the JMH cancer center in Abingdon, Va., which opened in 2007. The new hospital is scheduled to open in May 2011.

Finances

MSHA demonstrated solid operating performance improvement during fiscal 2010. For the year ended June 30, 2010, net operating income climbed to \$13.5 million, or a 1.4% margin, on \$945 million in total operating

revenues, compared with \$7.0 million, or a 0.83% margin, on \$840 million in revenues in fiscal 2009. Although inpatient admissions grew to 60,101 in fiscal 2010 from 57,127 in fiscal 2009, volume growth was largely generated from acquisitions, and not same-store volumes, which were flat. Fiscal 2010 was the first full year of operating results with the acquired facilities, and MSHA's operating performance was slightly weaker than the \$16 million budgeted (1.6% margin). The system is forecasting flat inpatient volume growth of 0.42% (to 60,355) in fiscal 2011. MSHA estimates that it will be eligible for about \$57 million in stimulus payments between 2010 and 2015; however, no stimulus funds are included in the system's five-year forecast.

EBIDA margin was 16.7% for fiscal 2010. MADS coverage, based on MADS of \$65 million, was 2.5x (or 2.3x on an operating lease-adjusted basis) based on June 30, 2010, fiscal year-end results.

Net excess income for the year was \$38.1 million due to \$24.6 million of interest-, dividend-, and derivative-related income.

Interim financial performance

Through the first three months of fiscal 2011 (Sept. 30, 2010), MSHA reported an operating loss of \$2.7 million on \$241 million in operating revenues. First-quarter losses are typical for MSHA since it is the system's practice to be very conservative in realizing income early in the year. Last year the system reported a first-quarter operating loss of \$2.4 million on \$235 million of operating revenues.

Balance Sheet

MSHA's aggressive pace of acquisitions has positioned the system to compete effectively in its core service area; however, those investments have leveraged the system's balance sheet and limited the growth in unrestricted liquidity despite solid operating cash flow.

Unrestricted cash and investments totaled \$576 million (or \$550 million net of cash collateral posted against swaps) at fiscal year-end 2010, equal to 247 days' cash. Long-term debt to capitalization is high, at 77%. Due to high system leverage, year-end cash to debt was 53%, which is well below the median for the current rating. MSHA remains in compliance with all bond covenants. We expect that leverage and liquidity metrics will improve over the next several since the system's acquisition program has been complete. We understand that other than about \$45 million of additional debt that MSHA expects to issue for a surgery center project in 2012, the system's current capital spending plans can be funded with cash flow.

The system's target asset allocations include maintaining 110 days' cash in high-quality and highly liquid fixed-income investments. Above 110 days' cash, the system may invest in equities up to an allocation limit of 50%. MSHA does not invest in hedge funds or in private equity.

Debt Derivative Profile

MSHA's DDP overall score is a '2.5' on a scale of '1' to '4', whereby '1' represents the lowest risk. The score of '2.5' reflects Standard & Poor's view that MSHA's swap exposure is a low to moderate credit risk at this time.

The key components of the overall DDP score of '2.5' are:

- Management practices are strong, and include a written swap policy, frequent communication of swap

performance to the board, good audit disclosure related to swaps, and the use of independent financial advisers to assist in evaluating swap strategies and performance.

- The termination and collateral-posting risk is offset from a credit standpoint by MSHA's collateral being clearly segregated from unrestricted liquidity, and none of the collateral is included in any of Standard & Poor's unrestricted liquidity calculations.

Mountain States Health Alliance, Tennessee; Letter of Credit

Credit Profile

US\$15.96 mil hosp rev bnds ser 2011E due 07/01/2026

Long Term Rating

A+/A-1

New

Profile

Expected closing date: Oct. 19, 2011

Maturity date: July 1, 2026

Structure type: Direct-pay letter of credit (LOC)

Obligor: Mountain States Health Alliance

LOC providers: Mizuho Corp. Bank Ltd. (rating dependency*)

Trustee: Bank of New York Mellon Trust Co.

*Standard & Poor's rating on the bonds is linked to its rating on the LOC provider.

Rationale

Standard & Poor's Ratings Services assigned its 'A+/A-1' rating to Mountain States Health Alliance, Tenn.'s taxable bonds series 2011E. The 'A+' long-term component of the rating is based on the irrevocable direct-pay letter of credit (LOC) provided by Mizuho Corp. Bank Ltd. (A+/A-1) and reflects our opinion of the likelihood that bondholders will receive interest and principal payments when due if they do not exercise the put option. The 'A-1+' short-term component of our rating is based on the short-term component of the issuer credit rating on Mizuho Corp. Bank Ltd. (A+/A-1) and reflects our opinion of the likelihood that bondholders will receive interest and principal payments if they exercise the put option.

The LOC fully supports all bond payment obligations when the bonds are in the weekly interest mode. Therefore, our rating applies only during this covered mode. If the bonds are converted to a non-covered rate mode, we will likely withdraw our rating (see the Structural Analysis section for more information).

Transaction Highlights

The debt is variable rate with a bondholder option to demand repayment before the bonds mature (the put or tender option). The bondholders may exercise the put option at any time during the covered mode with appropriate notice to the trustee. Those bondholders choosing to exercise the put option will receive a price equal to par plus accrued interest funded with remarketing proceeds that the trustee holds and, in the event of a failed remarketing, with the amounts available under the LOC.

Structural Analysis

When evaluating the bonds, Standard & Poor's considers various risk factors, as described below.

LOC coverage for the covered mode

The LOC covers 37 days of interest accruals at a maximum interest rate and the entire bond principal amount. We believe the LOC's coverage is sufficient to pay interest and principal while the bonds are in the covered rate mode, even assuming maximum interest rate accruals (see table).

Maximum bond rate:	12%
First interest payment date:	Nov. 1, 2011
Covered mode interest payment date:	First business day of month
LOC interest reinstatement period:	One calendar day
Remedy for non-reinstatement:	Trustee will accelerate the bonds' maturity date, and interest shall cease to accrue one calendar day after declaration.
Interest accrual for covered mode(s):	The accrual period begins on an interest payment date and continues up to, but excluding, the next interest payment date.

Interest rate mode changes

In addition to covered modes, the transaction documents provide that the bonds may be converted to a medium-term or fixed interest rate mode (uncovered modes). While the bonds are in the uncovered modes, a put option is not available. Furthermore, we believe the LOC does not provide enough interest coverage to account for the additional days of interest that would accrue between interest payment dates during the uncovered modes. Despite these issues, we do not believe there is any mode conversion-related risk of a put option loss or an interest shortfall because the bonds are subject to a mandatory tender at par plus accrued interest before the rate mode can be changed.

The transaction terms do not expressly provide for the bonds to operate in multiple modes concurrently.

LOC termination

The transaction structure is such that the LOC could terminate before the bonds mature. If this happens, the bond documents call for the trustee to declare a date to repay the bonds in full before the LOC terminates. Therefore, we believe the LOC termination risk is addressed. The LOC is scheduled to expire on Oct. 19, 2014, unless it is extended or earlier terminates. The trustee shall declare a mandatory tender on the second business day prior to the LOC expiration date. In addition, for other events that cause the LOC to terminate, a mandatory tender funded by the LOC provider is a precondition for LOC cancellation.

LOC provider replacement

The transaction documents provide that the obligor may replace the LOC provider with appropriate notice to bondholders. The condition for replacing an existing LOC provider is that a mandatory tender must occur on the fifth business day prior to LOC replacement.

In our view, the conditions for replacing the LOC mitigate any risk that the existing bondholders would see the rating on their bonds lowered as a consequence of the LOC provider being replaced.

Additional bonds

The transaction terms do not expressly provide for additional bond issuances under the same series.

Ratings Sensitivity

In view of the bond structure, changes to our rating on the bonds in the covered mode can result from, among other things, changes to our rating on the LOC provider or amendments to the transaction's terms. We will maintain a rating on the bonds as long as they are in the covered mode and the LOC has not expired or otherwise terminated. If either of these conditions changes, we will likely withdraw our rating on the bonds.

Other Call Provisions

During the covered mode, bonds are subject to mandatory and optional redemptions. In all cases, the redemption price will at least equal par plus accrued interest and the repayments are backed by the LOC provider.

Credit Profile

US\$65.26 mil hosp rev bnds (Mountain States Hlth Alliance) ser 2011A dtd 10/19/2011 due 07/01/2033

<i>Long Term Rating</i>	AA-/A-1+	New
-------------------------	----------	-----

US\$20.0 mil hosp rev bnds (Mountain States Hlth Alliance) ser 2011B dtd 10/19/2011 due 07/01/2033

<i>Long Term Rating</i>	A+/A-1	New
-------------------------	--------	-----

Profile

Expected closing date: Oct. 19, 2011

Maturity date: July 1, 2033

Structure type: Direct-pay letter of credit (LOC)

Obligor: Mountain States Health Alliance

LOC providers: Series 2011A: U.S. Bank N.A. (rating dependency*); series 2011B: PNC Bank N.A. (rating dependency*)

Trustee: Bank of New York Mellon Trust Co.

*Standard & Poor's rating on the bonds is linked to its rating on the LOC provider.

Rationale

Standard & Poor's Ratings Services assigned its 'AA-/A-1+' and 'A+/A-1' rating to Johnson City Health & Educational Facilities Board, Tenn.'s (Mountain States Health Alliance) hospital revenue bonds series 2011A and 2011B. The 'AA-' long-term component of the rating on the 2011A bonds is based on the irrevocable direct-pay letter of credit (LOC) provided by U.S. Bank N.A. (AA-/A-1+). The 'A+' long-term component of the rating on the 2011B bonds is based on the irrevocable direct-pay LOC provided by PNC Bank N.A. (A+/A-1). The long-term component of each rating reflects our opinion of the likelihood that bondholders will receive interest and principal payments when due if they do not exercise the put option. The 'A-1+' short-term component of the rating on the 2011A bonds is based on the short-term component of the issuer credit rating on U.S. Bank N.A. The 'A-1' short-term component of the rating on the 2011B bonds is based on the short-term component of the issuer credit rating on PNC Bank N.A. The short-term component of the rating reflects our opinion of likelihood that bondholders will receive interest and principal payments if they exercise the put option.

Each LOC fully supports all bond payment obligations when the bonds are in the weekly interest mode. Therefore, our rating applies only during this covered mode. If the bonds are converted to a non-covered rate mode, we will likely withdraw our rating (see the Structural Analysis section for more information).

Transaction Highlights

The debt is variable rate with a bondholder option to demand repayment before the bonds mature (the put or tender option). The bondholders may exercise the put option at any time during the covered mode with appropriate notice to the trustee. Those bondholders choosing to exercise the put option will receive a price equal to par plus accrued interest funded with remarketing proceeds that the trustee holds and, in the event of a failed remarketing, with the amounts available under the LOC.

Structural Analysis

When evaluating the bonds, Standard & Poor's considers various risk factors, as described below.

LOC coverage for the covered mode

Each LOC covers 37 days of interest accruals at a maximum interest rate and the entire bond principal amount. We believe each LOC's coverage is sufficient to pay interest and principal while the bonds are in the covered rate mode, even assuming maximum interest rate accruals (see table).

Maximum bond rate:	12%
First interest payment date:	Nov. 1, 2011
Covered mode interest payment date:	First business day of month
LOC interest reinstatement period:	One calendar day
Remedy for non-reinstatement:	Trustee will accelerate the bonds' maturity date, and interest shall cease to accrue one calendar day after declaration.
Interest accrual for covered mode(s):	The accrual period begins on an interest payment date and continues up to, but excluding, the next interest payment date.

Interest rate mode changes

In addition to covered modes, the transaction documents provide that the bonds may be converted to a medium-term or fixed interest rate mode (uncovered modes). While the bonds are in the uncovered modes, a put option is not available. Furthermore, we believe the LOC does not provide enough interest coverage to account for the additional days of interest that would accrue between interest payment dates during the uncovered modes.

Despite these issues, we do not believe there is any mode conversion-related risk of a put option loss or an interest shortfall because the bonds are subject to a mandatory tender at par plus accrued interest before the rate mode can be changed.

The transaction terms do not expressly provide for the bonds to operate in multiple modes concurrently.

LOC termination

The transaction structure is such that the LOCs could terminate before the bonds mature. If this happens, the bond documents call for the trustee to declare a date to repay the bonds in full before the LOCs terminate. Therefore, we believe LOC termination risk is addressed. Each LOC is scheduled to expire on Oct. 19, 2014, unless it is extended or earlier terminates. The trustee shall declare a mandatory tender on the second business day prior to the LOC expiration date. In addition, for other events that cause the LOC to terminate, a mandatory tender funded by the LOC provider is a precondition for LOC cancellation.

LOC provider replacement

The transaction documents provide that the obligor may replace each LOC provider with appropriate notice to bondholders. The condition for replacing an existing LOC provider is that a mandatory tender must occur on the fifth business day prior to LOC replacement.

In our view, the conditions for replacing the LOC mitigate any risk that the existing bondholders would see the rating on their bonds lowered as a consequence of the LOC provider being replaced.

Additional bonds

The transaction terms do not expressly provide for additional bond issuances under the same series.

Ratings Sensitivity

In view of the bond structure, changes to our rating on the bonds in the covered mode can result from, among other things, changes to our rating on each LOC provider or amendments to the transaction's terms. We will maintain a rating on the bonds as long as they are in the covered mode and each LOC has not expired or otherwise terminated. If either of these conditions changes, we will likely withdraw our rating on the bonds.

Other Call Provisions

During the covered mode, bonds are subject to mandatory and optional redemptions. In all cases, the redemption price will at least equal par plus accrued interest and the repayments are backed by the LOC provider.

US\$49.875 mil hosp rev bnds (Mountain States Hlth Alliance) ser 2011C dtd 10/19/2011 due 07/01/2031

<i>Long Term Rating</i>	AA-/A-1+	New
-------------------------	----------	-----

Profile:

Expected closing date:	Oct. 19, 2011
Maturity date:	July 1, 2031
Structure type:	Direct-pay letter of credit (LOC)
Obligor:	Mountain States Health Alliance
LOC providers:	Series 2011C: U.S. Bank N.A. (rating dependency*), series 2011D: Mizuho Corp. Bank Ltd. (rating dependency*)

*Standard & Poor's rating on the bonds is linked to its rating on the LOC provider.

Rationale

Standard & Poor's Ratings Services assigned its 'AA-/A-1+' and 'A+/A-1' ratings to Smyth County Industrial Development Authority, Va.'s (Mountain States Health Alliance) hospital revenue bonds series 2011C and 2011D, respectively. The 'AA-' long-term component of the rating on series 2011C is based on the irrevocable direct-pay letter of credit (LOC) provided by U.S. Bank N.A. (AA-/A-1+). The 'A+' long-term component of the rating on series 2011D is based on the irrevocable direct-pay LOC provided by Mizuho Corp. Ltd. (A+/A-1). The long-term component of each rating reflects our opinion of the likelihood that bondholders will receive interest and principal payments when due if they do not exercise the put option. The 'A-1+' short-term component of the rating on series 2011C is based on the short-term component of the issuer credit rating on U.S. Bank N.A. The 'A-1' short-term component of the rating on series 2011D is based on the short-term component of the issuer credit rating on Mizuho Corp. LTD (A-1). The short-term component of the rating reflects our opinion of the likelihood that bondholders will receive interest and principal payments if they exercise the put option.

Each LOC fully supports all bond payment obligations when the bonds are in the weekly interest mode. Therefore, our rating applies only during this covered mode. If the bonds are converted to a non-covered rate mode, we will likely withdraw our rating (see the Structural Analysis section for more information).

Transaction Highlights

The debt is variable rate with a bondholder option to demand repayment before the bonds mature (the put or tender option). The bondholders may exercise the put option at any time during the covered mode with appropriate notice to the trustee. Those bondholders choosing to exercise the put option will receive a price equal to par plus accrued interest funded with remarketing proceeds that the trustee holds and, in the event of a failed remarketing, with the amounts available under the LOC.

Structural Analysis

When evaluating the bonds, Standard & Poor's considers various risk factors, as described below.

LOC coverage for the covered mode

Each LOC covers 37 days of interest accruals at a maximum interest rate and the entire bond principal amount. We believe each LOC's coverage is sufficient to pay interest and principal while the bonds are in the covered rate mode, even assuming maximum interest rate accruals (see table).

Maximum bond rate:	12%
First interest payment date:	Nov. 1, 2011
Covered mode interest payment date:	First business day of month
LOC interest reinstatement period:	One calendar day
Remedy for non-reinstatement:	Trustee will accelerate the bonds' maturity date, and interest shall cease to accrue one calendar day after declaration.
Interest accrual for covered mode(s):	The accrual period begins on an interest payment date and continues up to, but excluding, the next interest payment date.

Interest rate mode changes

In addition to covered modes, the transaction documents provide that the bonds may be converted to a medium-term or fixed interest rate mode (uncovered modes). While the bonds are in the uncovered modes, a put option is not available. Furthermore, we believe the LOC does not provide enough interest coverage to account for the additional days of interest that would accrue between interest payment dates during the uncovered modes.

Despite these issues, we do not believe there is any mode conversion-related risk of a put option loss or an interest shortfall because the bonds are subject to a mandatory tender at par plus accrued interest before the rate mode can be changed.

The transaction terms do not expressly provide for the bonds to operate in multiple modes concurrently.

LOC termination

The transaction structure is such that the LOCs could terminate before the bonds mature. If this happens, the bond documents call for the trustee to declare a date to repay the bonds in full before the LOCs terminate. Therefore, we believe LOC termination risk is addressed. Each LOC is scheduled to expire on Oct. 19, 2014, unless it is extended or earlier terminates. The trustee shall declare a mandatory tender on the second business day prior to the LOC expiration date. In addition, for other events that cause the LOC to terminate, a mandatory tender funded by the LOC provider is a precondition for LOC cancellation.

LOC provider replacement

The transaction documents provide that the obligor may replace each LOC provider with appropriate notice to bondholders. The condition for replacing an existing LOC provider is that a mandatory tender must occur on the fifth business day prior to LOC replacement.

In our view, the conditions for replacing the LOC mitigate any risk that the existing bondholders would see the rating on their bonds lowered as a consequence of the LOC provider being replaced.

Additional bonds

The transaction terms do not expressly provide for additional bond issuances under the same series.

Ratings Sensitivity

In view of the bond structure, changes to our rating on the bonds in the covered mode can result from, among other things, changes to our rating on each LOC provider or amendments to the transaction's terms. We will maintain a rating on the bonds as long as they are in the covered mode and each LOC has not expired or otherwise terminated. If either of these conditions changes, we will likely withdraw our rating on the bonds.

Other Call Provisions

During the covered mode, bonds are subject to mandatory and optional redemptions. In all cases, the redemption price will at least equal par plus accrued interest and the repayments are backed by the LOC provider.

<i>Long Term Rating</i>	AAA/A-1	Upgraded
<i>Unenhanced Rating</i>	BBB+(SPUR)/Stable	Rating Assigned

Rationale

Standard & Poor's Ratings Services assigned its 'BBB+' underlying rating (SPUR) to Mountain States Health Alliance (MSHA), Tenn.'s series 2011A, 2011B, 2011C, 2011D, and 2011E bonds from various issuers. At the same time, Standard & Poor's affirmed its 'BBB+' issuer credit rating (ICR) on MSHA and its 'BBB+' long-term rating and SPUR on existing rated bonds from various issuers for MSHA. The outlook is stable.

The 'BBB+' ratings reflect our view of MSHA's:

- Excellent business position, which is characterized by solid demographics, a high market share, and a broad range of services;
- Strong management and governance, which is reflected in a favorable performance record since the system's creation in 1998;
- Continued strong financial performance, highlighted by very strong fiscal-year EBITDA margins, an eighth consecutive year of operating profitability in fiscal 2011, and solid liquidity for the rating level based on days' cash on hand; and
- More moderate capital spending needs during the next five years and no sizable incremental debt plans, which will likely support further growth in unrestricted liquidity and a reduction in leverage over time.

MSHA's \$235 million series 2011A, 2011B, 2011C, 2011D, and 2011E bonds were issued for a variety of purposes, including refunding taxable series 2007B bonds to convert them to tax-exempt obligations, reimbursing MSHA for projects and equipment funded from cash reserves, funding \$14 million of the \$66 million Smyth County replacement hospital construction project, achieving interest rate and letter of credit (LOC) fee savings, and diversifying the institutions that provide credit enhancements. With the series 2011 debt refinancing, MSHA added Norton Community Hospital and Smyth County Community Hospital to its obligated group -- although analytically Standard & Poor's evaluates the consolidated Mountain States Health Alliance, not the obligated group.

On Oct. 19, 2011, MSHA's series 2011A and series 2011C bonds were assigned an 'A+/A-1' rating based on the irrevocable direct-pay LOCs provided by U.S. Bank N.A. (A+/A-1). Series 2011B was assigned an 'A/A-1' rating based on the LOC provided by PNC Bank N.A. (A/A-1). Series 2011D and series 2011E were assigned an 'A+/A-1' rating based on LOCs provided by Mizuho Corp Ltd (A+/A-1).

With the assignment of the SPURs to the series 2011A, 2011B, 2011C, 2011D, and 2011E bonds, MSHA has requested that Standard & Poor's apply its criteria for rating jointly supported obligations to the bonds, for which both MSHA as the obligor and the direct-pay LOC provider are fully responsible for repayment. Based on the low correlation joint support of MSHA and U.S. Bank N.A., Standard & Poor's assigned its 'AAA/A-1' long-term rating to MSHA's series 2011A and 2011C obligations. Based on low correlation joint support of MSHA and PNC Bank N.A., Standard & Poor's assigned its 'AA+/A-1' long-term rating to MSHA's series 2011B bonds. And, based on the low correlation joint support of MSHA and Mizuho Bank Ltd., Standard & Poor's assigned its 'AAA/A-1' rating to MSHA's 2011D and 2011E series obligations.

As of its June 30, 2011 fiscal year-end, MSHA had \$1.04 billion of long-term debt and capital lease obligations outstanding. We understand MSHA's plans for additional debt during the next few years will likely be limited to a \$50 million issue in fiscal 2013 for the surgery tower project, as the system expects to be able to fund most of its remaining capital needs with cash flow and reserves. However, currently, MSHA's sizable debt and accompanying high leverage remain the system's most significant credit risks, in our view. The system has a debt-to-capital ratio of 69.5% and a debt burden of 6.8% of revenue. Even with typical EBITDA margins of 16% to 18%, maximum annual debt service (MADS) coverage has historically been below median 'BBB+' levels, although MADS coverage levels have improved during the past two years to be consistent with the 'BBB+' median of 2.7x.

Standard & Poor's Debt Derivative Profile (DDP) overall score on MSHA's swap portfolio is '2.5' on a scale of '1.0' to '4.0' in which '1.0' represents the lowest risk. The overall DDP score of '2.5' reflects Standard & Poor's view that MSHA's swap exposure reflects low to moderate credit risk at this time. MSHA has two total return swaps with a total notional amount of \$50 million, whose counterparty was Lehman Brothers Special Financing Inc., guaranteed by Lehman Brothers Inc. The timing for the termination of those swaps is uncertain pending the resolution of issues related to Lehman's bankruptcy although a mediation hearing was scheduled in early December to discuss a settlement related to swap termination. MSHA has posted \$13.8 million of collateral against the Lehman swaps. Standard & Poor's does not count collateral funds as unrestricted liquidity, so the possibility of paying a termination cost is not likely to have a material credit impact.

Bank of America is the counterparty for two other swaps -- a \$438 million constant maturity swap with a negative mark-to-market (MTM) value of \$2.0 million, and \$5.6 million positive annual cash flow, and a \$132 million basis swap (converted from fixed payer to reduce the negative carry and MTM volatility) with an MTM value of negative \$22 million, against which MSHA had \$5.8 million of posted collateral (all figures as of November 2011).

MSHA had \$514 million of unrestricted liquidity on Sept. 30, 2011. Should the swaps terminate, MSHA will lose the positive annual cash flow from the swaps, which historically has exceeded \$2 million annually; however, MSHA will also be relieved of the negative carry on its swaps (currently about \$800,000 per year) if the full portfolio is terminated.

Outlook

The stable outlook reflects our view of MSHA's business position, the benefits of the system's acquisition activity during the past several years, MSHA's favorable record of integrating acquired facilities, and the natural improvement in debt ratios that has started to occur. Also adding to credit stability, in our view, is MSHA's history of maintaining solid earnings. However, the system's high debt burden remains a credit risk, in our view. While we could raise the ratings in the future, we do not expect to do so until MSHA's debt levels moderate, and we would expect long-term debt to total capitalization to decline to a level below 50% without a diminution of MSHA's liquidity. We would also expect that the organization's business position would remain strong, as demonstrated by stable to improving patient volumes and solid cash flow. Although not anticipated, should balance sheet metrics weaken, we could take a negative rating action.

Enterprise Profile

Since its formation in 1998, MSHA has tripled its asset base and more than tripled net patient revenues to almost \$2.0 billion and \$960 million, respectively. Due in large part to the system's acquisition strategy, the system's pro forma debt has doubled since 2005 and is now very high, in our view, at more than \$1 billion. The system's growth was accomplished through strategic hospital acquisitions in its core northeastern Tennessee and southwest Virginia service areas.

MSHA owns and operates 11 acute-care facilities and one psychiatric hospital led by the flagship Johnson City Medical Center, a 514-licensed-bed (including 69 beds associated with Niswonger Children's Hospital) tertiary regional provider. The system's hospital facilities include 1,749 licensed acute-care beds although MSHA's licensed beds will decline to 1,623 once the new, smaller 44-bed Smyth county replacement hospital is completed. The system also includes a range of outpatient facilities and ancillary services, such as a home health agency, a hospice, and other facilities such as the ownership and management of medical office buildings.

As part of its physician integration efforts, MSHA has consolidated its employed physician practices into Mountain States Medical Group, which currently employs about 400 physicians. MSHA has steadily reduced physician practice losses through increased physician leadership including regional Chief Medical Officers, the attrition of less productive physicians, improvements in compensation when contracts are renewed, and other efficiency measures.

Since the system's creation, management and governance have evolved effectively, in our view. A strong central leadership is focused on maximizing the system's potential as a whole, as evidenced by the consolidation efforts in its core market of Washington County. In addition, management has broadened the access to managed-care contracts for all of the facilities while centralizing the negotiations at the system level. It has also centralized other functions like billing and collections, purchasing, and laboratory services. The board improved its effectiveness by reducing its size to a very manageable 13 members, and has upheld its values of strong planning, education, and transparency.

Today, as it approaches the changing health care landscape MSHA's leadership remains focused on quality, ongoing physician integration, smart growth through service line and revenue cycle opportunities, cost reduction initiatives, and on the development and implementation of new accountable care models, initially for the hospital's own employee population (15,000 lives), and for its Medicare patient base.

Market position

The system's defined market area has broadened significantly due to its acquisition activity. The core service area encompasses 13 counties in Tennessee and Virginia, of which MSHA has a 52.3% market share. Currently only 27% of the system's patients originate from its original home county of Washington County, Tenn. In the broader 29-county service area, MSHA has a 37% share; MSHA's main competitor, Wellmont, holds about a 30% share. There is no significant third player.

We believe that the spate of acquisitions by both MSHA and Wellmont have largely played out as there are very few remaining independent hospitals in the region. While the service area remains very competitive, its market characteristics remain favorable in terms of population growth, and the market's size will continue to support two sizable competitors, in our opinion.

While MSHA's market share is extremely strong in the core Washington County market, Wellmont Health System dominates in adjacent Sullivan County. Historically, Sullivan County was the only part of MSHA's primary service area where the two systems competed head to head, whereas in other parts of their service areas, MSHA and Wellmont generally did not overlap. However, they are increasingly overlapping in their service areas. For example, MSHA traditionally had no hospitals in Virginia, while Wellmont did. However, recent affiliations with the five Virginia hospitals have introduced MSHA into a service area that traditionally has fed Wellmont's facilities. The two systems now compete head-on in Norton, Va., a two-hospital town where in 2007 MSHA acquired a 50.1% ownership Norton Community Hospital, while Wellmont acquired the other one (Mountain View).

Projects update

Smyth County Community Hospital is a \$66 million, 44-bed replacement hospital for the more than 40-year-old local community hospital. Funding for the project is coming from series 2011 bonds (\$14 million) and operating reserves. Management expects the project to be complete by April 2012.

Series 2009E bonds funded MSHA's acquisition of a 50.1% interest in the 135-bed Johnson Memorial Hospital (JMH) in April 2009. In July 2011 MSHA completed and opened a 250,000-square-foot Gold LEED certified replacement hospital next to the JMH cancer center in Abingdon, VA.

In January 2012 MSHA commenced a \$69 million surgery tower project at Johnson City Medical Center. The number of operating room suites will remain at 16; however, the renovation will expand the space in each suite to accommodate modern equipment. In addition, the project will structurally allow MSHA to build eight additional floors for a future bed tower when additional capacity is needed (although there are currently no plans to construct the tower). The surgery project will be funded by a \$50 million bond issue in fiscal 2013 and from operations and reserves and a small amount of philanthropy. The project is estimated for completion in October 2013. We understand that MSHA has no other major committed capital projects beyond 2013.

Financial Profile

MSHA again demonstrated solid operating performance improvement during fiscal 2011, in our view. For the fiscal year ended June 30, 2011, net operating income climbed to \$20.5 million, or a 2.1% margin, on \$960 million in total operating revenues, compared with \$13.5 million, or a 1.4% margin, on \$928 million in revenues in fiscal 2010. MSHA's operating performance in fiscal 2011 was on target with budget. Inpatient admissions grew to 61,035 (or 1.6%) in fiscal 2011 from 60,101 in fiscal 2010. Volume growth was supported by an increase in medical admissions. Following several years of growth, outpatient volumes declined to 1.59 million (or 0.82%) in 2011 from 1.60 million in 2010 as MSHA's medical screening initiative shifted many patients to clinics and away from the emergency department, and as payers took a more stringent posture on certain procedures such as imaging. The system is forecasting modest increases in both inpatient and outpatient volume of 1.1% and 2.6%, respectively, in fiscal 2012. MSHA is projecting a fiscal 2012 operating margin of 2.5% and an excess margin of 4.0%, which we consider reasonable, particularly given management's historical ability to meet its targets.

No stimulus funds are included in MSHA's five-year operating income forecast; however, the system estimates that it will be eligible for about \$57 million in stimulus payments between 2012 and 2016 related to its IT investments. Management believes that within three years all of its hospitals will be on one IT platform

For fiscal 2011 MSHA's EBITDA margin was 17.6%, compared with 16.7% for fiscal 2010. MADS coverage, based on MADS of \$68.2 million, was 2.6x (or 2.4x on an operating lease-adjusted basis) based on June 30, 2011 fiscal year-end results.

Net excess income for fiscal 2011 was \$41.1 million due to \$23.3 million of interest, dividend, and derivative-related income.

Interim financial performance

Through the first three months of fiscal 2012 (Sept. 30, 2011), MSHA reported an operating income of \$8.8 million (inclusive of minority interests, as per Standard & Poor's methodology) on \$254 million in operating revenues, which compared favorably with MSHA's first-quarter fiscal 2010 operating loss of \$2.7 million on \$241 million in operating revenues. Historically, first-quarter losses have been typical for MSHA since it is the system's practice to be very conservative in realizing income early in the year. For fiscal 2012 total operating revenues increased by 3.7% relative to the same period last year while operating expenses climbed a more modest 1.4%, on reduced use of contract labor, lower supplies expenses, and reductions in bad debt expense, interest, and depreciation.

Balance sheet

During the past several years MSHA's aggressive pace of acquisitions positioned the system to compete effectively in its core service area. However, those investments leveraged the system's balance sheet and for a while limited the growth in MSHA's unrestricted liquidity despite robust operating cash flow. Given that major acquisition and construction activity is completed, and with a low current 6.5-year average age of plant, we believe that MSHA will likely be able to remain at or near its goal of 250 days' cash and reduce debt outstanding when cash exceeds that level. However, in fiscal 2012 MSHA projects days' cash will decline to 232 from funding capital spending out of cash reserves.

Unrestricted cash and investments totaled \$597 million at fiscal year-end 2011, equal to 251 days' cash. Long-term debt to capitalization is high, in our view, at 69.5%, although MSHA continues to pay down its long-term debt, and

prior to fiscal year-end paid off about \$9.3 million of notes. Due to high system leverage, year-end cash to debt was 57%, which was improved over last year but remains well below the median for the current rating. MSHA remains in compliance with all bond covenants. We anticipate that leverage and liquidity metrics will improve over the next several years since the system's acquisition program and major capital spending initiatives have been completed. We understand that other than about \$50 million of additional debt that MSHA expects to issue for a surgery center project during fiscal 2013, the system's current capital spending plans can be funded with cash flow.

The system's target asset allocations include maintaining 110 days' cash in high-quality and highly liquid fixed-income investments. Above 110 days' cash, the system may invest in equities up to an allocation limit of 50%. MSHA does not invest in hedge funds or in private equity.

Debt Derivative Profile

MSHA's DDP overall score is a '2.5' on a scale of '1' to '4' in which '1' represents the lowest risk. The score of '2.5' reflects Standard & Poor's view that MSHA's swap exposure is a low to moderate credit risk at this time.

The key components of the overall DDP score of '2.5' are:

- Management practices are strong and include a written swap policy, frequent communication of swap performance to the board, good audit disclosure related to swaps, and the use of independent financial advisers to assist in evaluating swap strategies and performance.
- The termination and collateral posting risk is offset from a credit standpoint by the clear segregation of MSHA's collateral from unrestricted liquidity, and none of the collateral is included in any of Standard & Poor's unrestricted liquidity calculations.

In fiscal 2011 MSHA reconfigured its swaps to lock in positive cash flow of \$16 million over three years on \$435 million of constant maturity swaps, and converted its \$132 million of fixed payer swaps to basis swaps, which will reduce their overall MTM volatility and collateral posting requirements. In addition, in 2011 MSHA terminated its swaption agreement with JP Morgan at no incremental cost. MSHA plans to terminate the \$132 million of basis swaps when market conditions allow, and to resolve the Lehman swap termination on \$106 million of total return and fixed payer swaps as soon as possible.

Rationale

Standard & Poor's Ratings Services assigned its 'BBB+' long-term rating to Mountain States Health Alliance (MSHA), Tenn.'s \$54.9 million series 2012A bonds, and its 'BBB+' underlying rating (SPUR) to MSHA's \$30.2 million series 2012B bonds, issued by The Health and Educational Facilities Board of the City of Johnson City, Tenn., and \$9.8 million series 2012C variable-rate structure bonds issued by Wise County Industrial Development Authority.

At the same time, Standard & Poor's affirmed its 'BBB+' issuer credit rating (ICR) on MSHA, and its 'BBB+' long-term rating and SPUR on existing rated bonds from various issuers for MSHA. The outlook on all ratings is stable.

The 'BBB+' ratings reflect our view of MSHA's:

- Excellent business position, which is characterized by solid demographics, a high market share, and a broad range of services;
- Strong management and governance, which is reflected in a favorable performance record since the system's creation in 1998;
- Continued strong financial performance, highlighted by solid EBITDA margins, a 10th consecutive year of operating profitability in fiscal 2012, and solid liquidity for the rating level based on days' cash on hand; and
- More moderate capital spending needs during the next five years, and no sizable incremental debt plans, which will likely support further growth in unrestricted liquidity and a reduction in leverage over time.

Proceeds from MSHA's series 2012 bonds will be used to construct a surgical tower at Johnson City Medical Center, to reimburse \$26.5 million for previous capital spending, and to refinance debt and leases outstanding to achieve interest rate and letter of credit (LOC) fee savings. Concurrent with the issuance of the rated bonds, MSHA is issuing \$18.4 million of taxable variable-rate direct purchase debt to Bank of America that is not being rated. Combined, new money associated with the 2012A, 2012B, and 2012C bonds and unrated direct purchase debt is approximately \$89 million.

While the assigned SPURs on MSHA's \$40 million series 2012B and 2012C obligations are 'BBB+', we expect to assign long-term and short-term ratings of 'A+/A-1' based on credit enhancement provided by irrevocable direct-pay LOCs

from Mizuho Corp. Ltd. (A+/A-1). MSHA has also requested that Standard & Poor's apply its criteria for rating jointly supported obligations, for which both MSHA as the obligor, and Mizuho Bank as LOC provider, are fully responsible for repayment. Based on the low correlation joint support of MSHA and Mizuho, we expect to assign a 'AAA/A-1' joint support rating to the series 2012B and 2012C obligations.

As of its fiscal year ended June 30, 2012 (unaudited), MSHA had \$1.07 billion of long-term debt and capital lease obligations outstanding. We understand that MSHA has no plans to issue a significant amount of additional debt during the next few years as management expects to fund most of its remaining capital needs with cash flow and reserves. MSHA may convert its remaining \$125 million of taxable debt outstanding to tax exempt; however, the conversion would not represent any additional debt other than costs of issuance and any required reserves. Currently MSHA's sizable debt and accompanying high leverage remain the system's most significant credit risks, in our opinion. One of management's goals is to reduce leverage. The system has a pro forma debt to capital ratio of approximately 66% and a debt burden of 7.5% of revenue. Even with typical EBITDA margins of 16% to 18%, maximum annual debt service (MADS) coverage has historically been below median 'BBB+' levels. However, MADS coverage improved modestly during the past two years to approximately 2.6x, and will be 2.1x to 2.3x on a pro forma basis, which is in line with the 'BBB+' median.

MSHA has \$106 million total notional amount of total return and fixed payer swaps whose counterparty was Lehman Brothers Special Financing Inc., guaranteed by Lehman Brothers Inc. The timing for the termination of those swaps is uncertain pending the resolution of issues related to Lehman's bankruptcy and mediation of settlement terms. MSHA has posted \$13.8 million of collateral against the Lehman swaps. Standard & Poor's does not count collateral funds as unrestricted liquidity, so the possibility of paying a termination cost is not likely to have a material credit impact.

Bank of America is the counterparty for five other swaps -- \$438 million constant maturity swaps with a mark-to-market (MTM) value of \$6.6 million and \$5.6 million positive annual cash flow, and \$132 million of basis swaps (converted from fixed payer to reduce the negative carry and MTM volatility) with an MTM value of negative \$17.7 million, against which MSHA has no posted collateral (all figures as of July 20, 2012). MSHA also has a \$21.4 million total return swap in place related to the series 2001A bonds outstanding.

Outlook

The stable outlook reflects our view of MSHA's business position, the benefits of the system's acquisition activity during the past several years, MSHA's favorable record of integrating acquired facilities, and the natural improvement in debt ratios that will likely occur over time. Also adding to credit stability, in our view, is MSHA's history of maintaining solid earnings although we believe the system's high debt burden remains a credit risk. While we could raise the ratings in the future, we do not expect to do so until MSHA's MADS coverage equals or exceeds 3.0x, cash to long-term debt approaches 1.0x, and debt to capitalization declines to roughly 55%. We would also expect that the organization's business position would remain strong, as demonstrated by stable to improving patient volumes and solid cash flow. Although not anticipated, should balance sheet metrics weaken, we could take a negative rating action.

Enterprise Profile

Since its formation in 1998, MSHA has tripled its asset base and more than tripled net patient revenues to almost \$2.0 billion and \$978 million, respectively. Due in large part to the system's acquisition strategy, the system's pro forma debt has approximately doubled since 2005 to more than \$1.0 billion, equal to about 66% of capitalization, which we consider elevated. The system's growth was accomplished through strategic hospital acquisitions in its core northeastern Tennessee and southwest Virginia service areas.

MSHA owns and operates 11 acute-care facilities and one psychiatric hospital, led by the flagship Johnson City Medical Center, a 514-licensed-bed (including 69 beds associated with Niswonger Children's Hospital) tertiary regional provider. The system's hospital facilities include 1,623 licensed acute-care beds. The system also consists of a range of outpatient facilities and ancillary services, such as a home health agency, a hospice, and other facilities such as the ownership and management of medical office buildings.

As part of its physician integration efforts, MSHA has consolidated its employed physician practices into Mountain States Medical Group, which currently employs about 400 physicians. MSHA has steadily reduced physician practice losses through increased physician leadership including regional chief medical officers, the attrition of less productive physicians, improvements in compensation when contracts are renewed, and other efficiency measures.

Management

Since the system's creation, management and governance have evolved effectively, in our view. A strong central leadership team is focused on maximizing the system's potential as a whole, as demonstrated by the consolidation efforts in its core market of Washington County. In addition, management has broadened the access to managed-care contracts for all of the facilities while centralizing the negotiations at the system level. It has also centralized other functions like billing and collections, purchasing, and laboratory services. The board improved its effectiveness by reducing its size to 13 members and has upheld its values of strong planning, education, and transparency.

Today, as it approaches the changing health care landscape MSHA's leadership remains focused on quality, ongoing physician integration, smart growth through service line and revenue cycle opportunities, cost reduction initiatives, and the development and implementation of new accountable care models, initially for the hospital's own employee population (approximately 15,000 lives), and for its Medicare patient base.

Market position

The system's core service area encompasses 13 counties in Tennessee and Virginia, and MSHA has a 53% market share. Currently, only 27% of the system's patients originate from its original home county of Washington County, Tenn. In the broader 29-county service area, MSHA has a 38% share. MSHA's main competitor, Wellmont, holds about a 30% share. There is no significant third player.

We believe that the spate of acquisitions by both MSHA and Wellmont have largely played out as there are very few remaining independent hospitals in the region. While the service area remains competitive, market characteristics remain favorable in terms of population growth, and the market's size will continue to support two sizable competitors, in our opinion.

While MSHA's market share is strong in the core Washington County market, Wellmont Health System dominates in adjacent Sullivan County. Historically, Sullivan County was the only part of MSHA's primary service area where the two systems competed head to head, whereas in other parts of their service areas, MSHA and Wellmont generally did not overlap. However, they are increasingly overlapping in their service areas. MSHA traditionally had no hospitals in Virginia, while Wellmont did. However, affiliations with five Virginia hospitals during the past few years introduced MSHA into a service area that traditionally fed Wellmont's facilities. The two systems now compete head-on in Norton, Va., a two-hospital town where in 2007 MSHA acquired a 50.1% ownership in Norton Community Hospital, while Wellmont acquired the other one (Mountain View).

Recent projects update

In April 2012, MSHA completed a \$66 million, 44-bed replacement facility for the more than 40-year-old Smyth County Community Hospital. Funding for the project came from the series 2011 bonds (\$14 million) and operating reserves.

In January 2012, MSHA commenced a \$69 million surgery tower project at Johnson City Medical Center. The project is being funded with the series 2012A bonds proceeds, operations, reserves, and a small amount of philanthropy. The number of operating room suites will remain at 16; however, the renovation will expand the space in each suite to accommodate modern equipment. In addition, the project will structurally allow MSHA to build eight additional floors for a future bed tower when additional capacity is needed (although there are currently no plans to construct the tower). The project is estimated for completion in October 2013. We understand that MSHA has no other major committed capital projects beyond 2013.

Financial Profile

MSHA again demonstrated good but less robust operating performance in fiscal 2012 compared with fiscal 2011. For the fiscal year ended June 30, net operating income was \$10 million, or a 1.0% margin, on \$996 million in total operating revenues, down from \$21 million, or a 2.1% margin, on \$960 million in total operating revenues in fiscal 2011. According to management, operating performance came in below budget for a variety of reasons, including timing issues surrounding reimbursement; lower-than-budgeted volumes, particularly in inpatient surgeries; and an increase in charity care and bad debts.

For the year, inpatient admissions were flat year over year, at 61,154 (or a 0.2% increase), compared with 61,035 in fiscal 2011, while total surgical cases were down 4% to 36,972 from 38,521. By contrast, outpatient volumes grew to 1.59 million (or 3%) in fiscal 2012 from 1.55 million in fiscal 2011 as more volumes shifted from an inpatient to outpatient setting consistent with industry trends.

Net excess income for fiscal 2012 was solid, in our view, at \$37.9 million (a 3.7% margin) compared with \$41.1 million (or a 4.1% margin) the previous year. MSHA's EBITDA margin was 15.5% in fiscal 2012, compared with 17.6% for fiscal 2011. MADS coverage, based on pro forma MADS of \$68 million to \$77 million, depending upon final pricing, is 2.1x to 2.3x.

Balance sheet

During the past several years, MSHA's aggressive pace of acquisitions positioned the system to compete effectively in its core service area. However, those investments leveraged the system's balance sheet, and for a while limited the growth in MSHA's unrestricted liquidity despite robust operating cash flow. Major acquisition and construction activity is completed, and that the current average age of plant is eight years, which we consider low. As a result, we believe that MSHA will be able to comfortably maintain more than 200 days' cash and over time build back to its goal of 250 days' cash. We understand that management has targeted to reduce debt outstanding when cash exceeds that level.

Unrestricted cash and investments totaled \$534 million at fiscal year-end 2012, equal to 214 days' cash. Pro forma long-term debt to capitalization remains elevated, in our view, at 66%, although we anticipate that leverage and liquidity metrics will improve during the next several years since the system's acquisition program and major capital spending initiatives have been completed. Due to high system leverage, pro forma cash to debt is approximately 48%, which remains well below the median for the current rating. MSHA remains in compliance with all bond covenants. We understand that capital spending plans can be funded with cash flow, in addition to the series 2012 bonds.

The system's target asset allocations include maintaining 110 days' cash in high-quality and highly liquid fixed-income investments. Above 110 days' cash, the system may invest in equities up to an allocation limit of 50%. MSHA does not invest in hedge funds or in private equity.

Profile:

Expected closing date:	Sept. 18, 2012
Maturity date:	Aug. 15, 2042
Structure type:	Direct-pay letter of credit (LOC)
Obligor:	Mountain States Health Alliance
LOC provider:	Mizuho Corp. Bank Ltd. (rating dependency*)
Trustee:	Bank of New York Mellon Trust Co.

*Standard & Poor's rating on the bonds is linked to its rating on the letter of credit provider.

Rationale

Standard & Poor's Ratings Services has assigned its 'AAA/A-1' rating to Johnson City Health & Educational Facilities Board, Tenn.'s (the issuer's) hospital revenue bonds series 2012B and Wise County Industrial Development Authority, Va.'s series 2012C, both issued on behalf of Mountain States Health Alliance (MSHA). At the same time, Standard & Poor's assigned its 'BBB+' underlying rating (SPUR) to the bonds. The 'AAA' long-term component of the rating is based on the application of joint criteria (assuming low correlation) between the irrevocable direct-pay letter of credit (LOC) and the obligor, and reflects our opinion of the likelihood that bondholders will receive interest and principal payments when due if they do not exercise the put option. The 'A-1' short-term component of our rating is based on the short-term component of the rating on Mizuho Corp. Bank Ltd. (A+/A-1), and reflects our opinion of the likelihood that bondholders will receive interest and principal payments if they exercise the put option.

The LOC fully supports all bond payment obligations when the bonds are in the weekly interest mode. Therefore, our rating applies only during this covered mode. If the bonds are converted to a non-covered rate mode, we will likely withdraw our rating (see the Structural Analysis section for more information).

The SPUR reflects our opinion of MSHA's excellent business position, strong management and governance, and

continued solid operating performance, highlighted by a 10th consecutive year of operating profitability, robust EBITDA margins, and good liquidity for the rating level. Additionally, MSHA has no sizable capital needs or incremental debt plans, so it should benefit from growth in its unrestricted liquidity and a reduction in leverage over time.

For more information, please see the report published Aug. 16, 2012, on RatingsDirect on the Global Credit Portal.

Transaction Highlights

The debt is variable rate with a bondholder option to demand repayment before the bonds mature (the put or tender option). The bondholders may exercise the put option at any time during the covered mode with appropriate notice to the trustee. Those bondholders choosing to exercise the put option will receive a price equal to par plus accrued interest funded with remarketing proceeds that the trustee holds and, in the event of a failed remarketing, with the amounts available under the LOC.

Structural Analysis

When evaluating the bonds, Standard & Poor's considers various risk factors, as described below.

LOC coverage for the covered mode

The LOC covers 37 days of interest accruals at a maximum interest rate and the entire bond principal amount. We believe the LOC's coverage is sufficient to pay interest and principal while the bonds are in the covered rate mode, even assuming maximum interest rate accruals (see table).

Maximum bond rate:	12%
First interest payment date:	Oct. 1, 2012
Covered mode interest payment date:	First business day of month
LOC interest reinstatement period:	One calendar day
Remedy for non-reinstatement:	Trustee will accelerate the bonds' maturity date and interest shall cease to accrue one calendar day after declaration.
Interest accrual for covered mode(s):	The accrual period begins on an interest payment date and continues up to, but excluding, the next interest payment date.

In addition to covered modes, the transaction documents provide that the bonds may be converted to a medium-term or fixed interest rate mode (uncovered modes). While the bonds are in the uncovered modes, a put option is not available. Furthermore, we believe the LOC does not provide enough interest coverage to account for the additional days of interest that would accrue between interest payment dates during the uncovered modes. Despite these issues, we do not believe there is any mode conversion-related risk of a put option loss or an interest shortfall because the bonds are subject to a mandatory tender at par plus accrued interest before the rate mode can be changed.

The transaction terms do not provide for the bonds to operate in multiple modes concurrently.

LOC termination

The transaction structure is such that the LOC could terminate before the bonds mature. If this happens, the bond documents call for the trustee to declare a date to repay the bonds in full before the LOC terminates. Therefore, we believe LOC termination risk is addressed. The LOC is scheduled to expire on Sept. 17, 2015, unless it is extended or earlier terminates. The trustee shall declare a mandatory tender on the second business day prior to the LOC expiration date.

LOC provider replacement

The transaction documents provide that the obligor may replace the LOC provider with appropriate notice to bondholders. The condition for replacing an existing LOC provider is that a mandatory tender must occur on the fifth business day prior to LOC replacement.

In our view, the conditions for replacing the LOC mitigate any risk that the existing bondholders would see the rating on their bonds lowered as a consequence of the LOC provider being replaced.

Additional bonds

The transaction terms do not provide for additional bond issuances under the same series.

Ratings Sensitivity

In view of the bond structure, changes to our rating on the bonds in the covered mode can result from, among other things, changes to our rating on the LOC provider or amendments to the transaction's terms. We will maintain a rating on the bonds as long as they are in the covered mode and the LOC has not expired or otherwise terminated. If either of these conditions changes, we will likely withdraw our rating on the bonds.

Other Call Provisions

During the covered mode, bonds are subject to mandatory and optional redemptions. In all cases, the redemption price will at least equal par plus accrued interest and the repayments are backed by the LOC provider.

Credit Profile

Mountain States Health Alliance ICR

Long Term Rating

BBB+/Stable

Affirmed

Rationale

Standard & Poor's Ratings Services affirmed its 'BBB+' long-term rating and underlying rating (SPUR) on existing rated obligations from various issuers for Mountain States Health Alliance (MSHA), Tenn. At the same time, Standard & Poor's affirmed its 'BBB+' issuer credit rating (ICR) on MSHA. The outlook on all ratings is stable.

The 'BBB+' ratings reflect our view of MSHA's:

- Excellent business position, which is characterized by solid demographics, a high market share, and a broad range of services;
- Strong management and governance, which is reflected in a favorable performance record since the system's creation in 1998;
- Continued strong financial performance, highlighted by solid EBITDA margins, a 10th consecutive year of operating profitability in fiscal 2012, and solid liquidity for the rating level based on days' cash on hand; and
- More moderate capital spending needs during the next five years and lack of sizable incremental debt plans, which will likely support further growth in unrestricted liquidity and a reduction in leverage over time.

Despite MSHA's strong business position and consistent operating profitability, system leverage is elevated and remains an offsetting credit factor, in our opinion. MSHA has a debt-to-capital ratio of approximately 65% and a debt burden of 7.2% of revenue. One of management's goals is to reduce leverage, and we believe that will be key to achieving a higher rating. Also, even with typical EBITDA margins of 16% to 18%, maximum annual debt service (MADS) coverage has historically been below median 'BBB+' levels. MADS coverage as of Sept. 30 on annualized basis was 1.7x.

In 2012 MSHA issued \$89 million in new-money debt (in series 2012A, 2012B, and 2012C and including unrated bank direct purchase debt). Proceeds from MSHA's series 2012 bonds were used to construct a surgical tower at Johnson City Medical Center, to reimburse \$26.5 million for previous capital spending, and to refinance debt and leases outstanding to achieve interest rate and letter of credit (LOC) fee savings. Concurrent with the issuance of the rated bonds, MSHA issued \$18.4 million of taxable variable-rate direct purchase debt to Bank of America that was not rated.

While the assigned SPURs on MSHA's \$40 million series 2012B and 2012C obligations are 'BBB+', the long- and

short-term ratings on series 2012B and 2012C bonds are 'AAA/A-1' based on the low correlation joint support of MSHA, and of Mizuho Bank as the LOC provider. Both MSHA and Mizuho are fully responsible for repayment.

As of its fiscal year ended Sept. 30, 2012 (unaudited), MSHA had \$1.12 billion of long-term debt and capital lease obligations outstanding. We understand that MSHA has no plans to issue a significant amount of additional debt during the next few years as management expects to fund most of its remaining capital needs with cash flow and reserves. MSHA may convert its remaining \$129 million of taxable debt outstanding to tax exempt; however, the conversion would not represent any additional debt other than costs of issuance and any required reserves. Currently, MSHA's sizable debt and accompanying high leverage remain the system's most significant credit risks, in our opinion.

In October 2012 MSHA came to a resolution with Lehman Brothers and terminated its \$106 million of total return and fixed payer swaps. The settlement allowed Lehman to retain \$7.4 million of the \$13.8 million of collateral that had been posted by MSHA. The remaining \$6.4 million was returned to MSHA.

Bank of America is the counterparty for five other active swaps -- \$438 million constant maturity swaps with a mark-to-market (MTM) value of \$9.8 million and \$5.6 million positive annual cash flow through February 2014, and \$132 million of basis swaps (converted from fixed payer to reduce the negative carry and MTM volatility) with an MTM value of negative \$17.0 million, against which MSHA has no posted collateral (all figures as of November 2012).

Outlook

The stable outlook reflects our view of MSHA's business position, the benefits of the system's acquisition activity during the past several years, MSHA's favorable record of integrating acquired facilities, and the natural improvement in debt ratios that will likely occur over time. Also adding to credit stability, in our view, is MSHA's history of maintaining solid earnings although we believe the system's high debt burden remains a credit risk. While we could raise the ratings in the future, we do not expect to do so until MSHA's MADS coverage equals or exceeds 3.0x, cash to long-term debt approaches 1.0x, and debt to capitalization declines to roughly 55%. We would also expect that the organization's business position would remain strong, as demonstrated by stable to improving patient volumes and solid cash flow. Although not anticipated, should balance sheet metrics weaken, we could take a negative rating action.

Enterprise Profile

Since its formation in 1998, MSHA has tripled its asset base and more than tripled annual net patient revenues to \$2.0 billion and more than \$950 million, respectively. Due in large part to the system's acquisition strategy, the system's pro forma debt has approximately doubled since 2005 to more than \$1.0 billion, equal to about 65% of capitalization, which we consider elevated. The system accomplished this growth through strategic hospital acquisitions in its core northeastern Tennessee and southwest Virginia service areas.

MSHA owns and operates 11 acute-care facilities and one psychiatric hospital, led by the flagship Johnson City Medical Center, a 514-licensed-bed (including 69 beds associated with Niswonger Children's Hospital) tertiary regional provider. The system's hospital facilities include 1,623 licensed acute-care beds. The system also consists of a range of

outpatient facilities and ancillary services, such as a home health agency, a hospice, and other facilities such as the ownership and management of medical office buildings.

As part of its physician integration efforts, MSHA has consolidated its employed physician practices into Mountain States Medical Group, which currently employs about 400 physicians. MSHA has steadily reduced physician practice losses through increased physician leadership including regional chief medical officers, the attrition of less productive physicians, improvements in compensation when contracts are renewed, and other efficiency measures.

Management

Since the system's creation, management and governance have evolved effectively, in our view. A strong central leadership team is focused on maximizing the system's potential as a whole, as demonstrated by the consolidation efforts in its core market of Washington County. In addition, management has broadened the access to managed-care contracts for all of the facilities while centralizing the negotiations at the system level. It has also centralized other functions like billing and collections, purchasing, and laboratory services. The board improved its effectiveness by reducing its size to 13 members and has upheld its values of strong planning, education, and transparency.

Today, as it approaches the changing health care landscape MSHA's leadership remains focused on quality, ongoing physician integration, smart growth through service line and revenue cycle opportunities, cost reduction initiatives, and the development and implementation of new accountable care models, initially for the hospital's own employee population (approximately 15,000 lives), and for its Medicare patient base.

Market position

The system's core service area encompasses 13 counties in Tennessee and Virginia, and MSHA has a 53% market share. Currently, only 27% of the system's patients originate from its original home county of Washington County, Tenn. In the broader 29-county service area, MSHA has a 38% share. MSHA's main competitor, Wellmont, holds about a 30% share. There is no significant third player.

We believe that the spate of acquisitions by both MSHA and Wellmont have largely played out as there are very few remaining independent hospitals in the region. While the service area remains competitive, market characteristics remain favorable in terms of population growth, and the market's size will continue to support two sizable competitors, in our opinion.

While MSHA's market share is strong in the core Washington County market, Wellmont Health System dominates in adjacent Sullivan County. Historically, Sullivan County was the only part of MSHA's primary service area where the two systems competed head to head, whereas in other parts of their service areas, MSHA and Wellmont generally did not overlap. However, they are increasingly overlapping in their service areas. MSHA traditionally had no hospitals in Virginia, while Wellmont did. However, affiliations with five Virginia hospitals during the past few years introduced MSHA into a service area that traditionally fed Wellmont's facilities. The two systems now compete head-on in Norton, Va., a two-hospital town where in 2007 MSHA acquired a 50.1% ownership in Norton Community Hospital, while Wellmont acquired the other one (Mountain View).

Recent projects update

In April 2012, MSHA completed a \$66 million, 44-bed replacement facility for the more than 40-year-old Smyth County Community Hospital. Funding for the project came from the series 2011 bonds (\$14 million) and operating reserves.

In January 2012, MSHA commenced a \$69 million surgery tower project at Johnson City Medical Center. The project is being funded with the series 2012A bonds proceeds, operations, reserves, and a small amount of philanthropy. The number of operating room suites will remain at 16; however, the renovation will expand the space in each suite to accommodate modern equipment. In addition, the project will structurally allow MSHA to build eight additional floors for a future bed tower when additional capacity is needed (although there are currently no plans to construct the tower). The project is estimated for completion in October 2013. We understand that MSHA has no other major committed capital projects beyond 2013.

Financial Profile

MSHA's operating performance was good in fiscal 2012, in our view, but less robust than in fiscal 2011. For the fiscal year ended June 30, net operating income was \$8.3 million, or a 0.9% margin, on \$992 million in total operating revenues, down from \$21 million, or a 2.1% margin, on \$971 million in total operating revenues in fiscal 2011.

According to management, operating performance came in below budget for a variety of reasons, including timing issues surrounding reimbursement; lower-than-budgeted volumes, particularly in inpatient surgeries; and an increase in charity care and bad debts.

For the year, inpatient admissions were flat year over year, at 61,154 (or a 0.2% increase), compared with 61,035 in fiscal 2011, while total surgical cases declined by 4% to 36,972 from 38,521. By contrast, outpatient volumes grew to 1.59 million (or 3%) in fiscal 2012 from 1.55 million in fiscal 2011 as more volumes shifted from an inpatient to outpatient setting consistent with industry trends.

Net excess income for fiscal 2012 was solid, in our view, at \$39.7 million (a 3.9% margin), compared with \$41.1 million (or a 4.2% margin) the previous year. MSHA's EBITDA margin was 13.1% in fiscal 2012, compared with 15.7% for fiscal 2011. Coverage, based on new MADS of \$71 million, was 2.3x for fiscal 2012.

Balance sheet

During the past several years, MSHA's aggressive pace of acquisitions positioned the system to compete effectively in its core service area. However, those investments leveraged the system's balance sheet, and for a while limited the growth in MSHA's unrestricted liquidity despite robust operating cash flow.

Major acquisition and construction activity is completed, and the current average age of plant is eight years, which we consider low. As a result, we believe that MSHA will be able to comfortably maintain more than 200 days' cash and over time build back to its goal of 250 days' cash. We understand that management has targeted to reduce debt outstanding when cash exceeds that level.

Unrestricted cash and investments totaled \$578 million at Sept. 30, 2012, equal to 231 days' cash. Long-term debt to capitalization remains elevated, in our view, at 65%, although we anticipate that leverage and liquidity metrics will

improve during the next several years since the system's acquisition program and major capital spending initiatives have been completed. Due to high system leverage, cash to debt is approximately 51%, which remains well below the median for the current rating. MSHA remains in compliance with all bond covenants.

The system's target asset allocations include maintaining 110 days' cash in high-quality and highly liquid fixed-income investments. Above 110 days' cash, the system may invest in equities up to an allocation limit of 50%. MSHA does not invest in hedge funds or in private equity.

Long Term Rating AA-/A-1+ Affirmed

US\$16.235 mil hosp rev bnds (Mountain States Hlth Alliance) ser 2013A

Long Term Rating AA-/A-1+ Affirmed

Rationale

Profile

Expected closing date: July 30, 2013

Maturity date: Aug. 15, 2043

Structure type: Direct-pay letter of credit

Obligor: Mountain States Health Alliance

LOC provider: U.S. Bank National Association

Trustee: The Bank of New York Mellon Trust Company N.A. (AA-/Stable/A-1+)

Standard & Poor's Ratings Services assigned its 'AA-/A-1+' rating to The Health and Educational Facilities Board of the City of Johnson City, Tenn.'s series 2013A hospital revenue bonds and series 2013B taxable hospital revenue refunding bonds, both issued on behalf of Mountain States Health Alliance.

The 'AA-' long-term component of the rating is based on the long-term issuer credit rating (ICR) of U.S. Bank National Association (AA-/Stable/A-1+), which has entered into an irrevocable letter of credit (LOC) with the trustee, and reflects our opinion of the likelihood that bondholders will receive principal and interest payments when due if they do not exercise the put option. The 'A-1+' short-term component of the rating is based on the LOC provider's short-term ICR and reflects our opinion of the likelihood that bondholders will receive principal and interest payments if they do exercise the put option.

The initial interest rate mode for the bonds, which is fully supported by the LOC, is the weekly mode. The bonds can also be converted to term and fixed rate modes, which are not supported by the LOC. However, pursuant to the trust indenture, any rate mode conversion must be preceded by a mandatory tender (See the Structural Analysis section below for more information).

Transaction Highlights

The debt is variable rate with a bondholder option to demand repayment before the bonds mature (the put or tender option). The bondholders may exercise the put option at any time during the covered mode with appropriate notice to

the trustee. Those bondholders choosing to exercise the put option will receive a price equal to par plus accrued interest funded with remarketing proceeds or amounts available under the LOC.

Structural Analysis

When evaluating the bonds, Standard & Poor's considers various risk factors, as described below.

LOC coverage for the covered mode

The LOC covers the entire bond principal amount, plus interest accruals equal to 37 days. We believe this LOC coverage is sufficient to pay principal, interest, and, in the event of a tender, the purchase price while the bonds are in the weekly mode (the covered mode), even assuming maximum interest rate accruals (see table below).

Maximum bond rate:	12%
Next interest payment date:	Aug. 1, 2013
Covered mode interest payment date:	1st business day of each month
LOC interest reinstatement period:	Automatic reinstatement by close of business on an interest payment date unless prior notice of non-reinstatement is provided
Remedy for nonreinstatement:	Acceleration
Interest accrual for covered mode:	Accrual from the preceding interest payment date to, but not including, the next interest payment date

Interest rate mode changes

The current (and covered) mode is the weekly mode; the transaction terms do not provide for the bonds to operate in multiple modes concurrently. In addition to the covered mode, the transaction documents provide that the bonds may be converted to term and fixed rate modes. While we offer an opinion of the sufficiency of interest coverage only as to the covered mode, it should be noted that the bonds are subject to a mandatory tender at par plus accrued interest before the rate mode can be changed.

LOC termination and expiration

Termination risk is addressed, in our opinion, because by its terms, the LOC cannot terminate prior to expiration while the bonds are outstanding in the covered mode unless the LOC provider is replaced or, following certain events of default, the LOC provider has directed the trustee to draw on the LOC to cover an acceleration.

LOC provider replacement

The transaction documents generally provide that the obligor may replace the LOC provider with appropriate notice to bondholders. However, a mandatory tender must occur prior to the date proposed for the replacement of the LOC provider. In our view, this and other requirements related to LOC provider replacement sufficiently mitigate any risk that the existing bondholders would see the rating on the bonds lowered as a consequence of the LOC provider being replaced.

Additional bonds

The transaction terms do not provide for additional bond issuances.

Ratings Sensitivity

In view of the bond structure, changes to our rating on the bonds in the covered mode can result from, among other things, changes to our rating on the LOC provider or amendments to the transaction's terms. We will maintain a rating on the bonds as long as they are in the covered mode and the LOC has not expired or otherwise terminated. If either of these conditions changes, we will likely withdraw our rating on the bonds.

Call And Put Provisions

The bonds are subject to redemption and tender, both mandatory and optional, under various scenarios. In all cases in the covered mode, the redemption or tender price will at least equal par plus accrued interest and will be fully supported by the LOC. Premiums for tenders or redemptions are not currently supported by the bond documents.

<i>Long Term Rating</i>	AAA/A-1+	Current
<i>Unenhanced Rating</i>	BBB+(SPUR)/Stable	Current

Rationale

Standard & Poor's Ratings Services confirmed its 'AAA/A-1+' and 'AA+/A-1' ratings on Johnson City Health and Education Facilities Board, Tenn.'s (Mountain States Health Alliance) series 2007-B1, 2007-B2, 2007-B3, and 2008A hospital revenue bonds. At the same time, Standard & Poor's confirmed its 'AAA/A-1+' rating on Russell County Industrial Development Authority, Va.'s (Mountain States Health Alliance) series 2008B hospital revenue bonds. The confirmations reflects extensions of the letters of credit provided by U.S. Bank National Association (for series 2008A and 2008B) and PNC Bank N.A. (for 2007B-1 and 2007B-2) to July 30, 2018, for 2007-B1 and Oct. 19, 2014, for 2007B-2, 2008A, and 2008B. The long-term components of the ratings are based jointly (assuming low correlation) on the ratings on the issues' respective obligors and letter of credit (LOC) providers. The short-term components of the ratings are based solely on the ratings on the respective LOC providers.

The Hlth & Educl Facs Brd of the City of Johnson City, Tennessee

Mountain States Hlth Alliance, Tennessee

Johnson City Hlth & Ed Fac Brd (Mountain States Health Alliance) VRDO ser 2011A

Long Term Rating AAA/A-1+ Current

Unenhanced Rating BBB+(SPUR)/Stable Current

Johnson City Hlth & Ed Fac Brd (Mountain States Health Alliance) VRDO ser 2011B

Long Term Rating AA+/A-1 Current

Unenhanced Rating BBB+(SPUR)/Stable Current

Rationale

Standard & Poor's Ratings Services confirmed its 'AAA/A-1+' and 'AA+/A-1' ratings on Johnson City Health and Educational Facilities Board, Tenn.'s (Mountain States Health Alliance) series 2011A and 2011B variable-rate demand revenue bonds, respectively, due to the issues' bank facilities being extended to July 30, 2016, for series 2011B and July 30, 2018, for series 2011A. The long-term components of the ratings are based jointly (assuming low correlation) on the ratings on the obligor, Mountain States Health Alliance (BBB+), and the letter of credit providers: PNC Bank N.A. (A/A-1) for series 2011B, and U.S. Bank National Assn. (AA-/A-1+) for series 2011A. The short-term components of the ratings are based solely on the ratings on PNC Bank N.A. (A-1) and U.S. Bank National Assn. (A-1+) for series 2011B and 2011A, respectively.

Mountain States Health Alliance ICR

Long Term Rating

BBB+/Stable

Affirmed

Rationale

Standard & Poor's Ratings Services affirmed its 'BBB+' long-term rating and underlying rating (SPUR) on existing rated obligations from various issuers for Mountain States Health Alliance (MSHA), Tenn. At the same time, Standard & Poor's affirmed its 'BBB+' issuer credit rating (ICR) on MSHA. The outlook on all ratings is stable.

The 'BBB+' ratings reflect our view of MSHA's strong business position and solid level of unrestricted reserves and corresponding days' cash on hand. These factors are partially offset by the system's light maximum annual debt service (MADS) coverage for the rating level, and high leverage remaining from the aggressive acquisition activity that ended a few years ago.

More specifically, the 'BBB+' ratings reflect our view of MSHA's:

- Excellent business position, which is characterized by solid demographics, a high market share relative to its competition, and a broad range of services;
- Strong management and governance, which is reflected in the system's favorable performance record since its creation in 1998, and our expectation that the system's solid leadership will continue under Alan Levine, who joined MSHA as CEO in January;
- Continued strong financial performance, highlighted by solid EBITDA margins, and an 11th consecutive year of operating profitability in fiscal 2013 -- although results softened compared to previous years -- and solid liquidity for the rating level based on days' cash on hand; and
- Declining capital spending, which will likely support further growth in unrestricted liquidity and a reduction in leverage over time.

Despite MSHA's strong business position and consistent operating profitability, system leverage is elevated and remains an offsetting credit factor, in our opinion. MSHA has a debt-to-capital ratio of approximately 61% (down from 64% at fiscal year-end 2012) and a debt burden of roughly 7% of revenue. One of management's goals is to reduce leverage; we believe that will be key to achieving a higher rating. Also, even with typical EBITDA margins of 15% to 18%, MADS coverage has historically been below median 'BBB+' levels. MADS coverage as of Sept. 30 on an annualized basis was 2.0x.

The 'BBB+' ratings also incorporate our view of MSHA's group credit profile and the obligated group's core status.

Accordingly, the bonds are rated at the same level as the group credit profile. Our determination of the group status of MSHA's obligated group is "core" as the obligated group contains the majority of system assets and accounts for most of its revenues and income.

Bonds that are not otherwise secured by letters of credit (LOCs) are secured by MSHA's gross revenues, or are jointly secured by gross revenues and an irrevocable direct-pay LOC. Various debt issues supported by irrevocable direct pay LOCs for which there is no SPUR (including series 2013A and 2013B) are based solely on the long-term and short-term ratings of the LOC provider. While we are not affirming those ratings herein, we have factored the debt amounts into our analysis of MSHA's overall leverage and debt service capacity.

We are affirming the ratings on several series of bonds, including series 2007B1, 2007B2, 2007B3, 2008A, 2011A, and 2011B, whose ratings are based on the low correlation joint support of both MSHA and the LOC provider. For those bonds, MSHA and the LOC provider are each individually fully responsible for their repayment.

As of its interim period ended Sept. 30, 2013 (unaudited), MSHA had \$1.1 billion of long-term debt and capital lease obligations outstanding. Outstanding debt is split between 58% fixed- and 42% variable-rate obligations. We understand that MSHA has no plans to issue a significant amount of additional debt during the next few years, as management expects to fund its modest capital needs with cash flow and reserves. MSHA may continue to convert its remaining \$117 million of taxable debt to tax-exempt obligations; however, conversion would not result in any additional debt other than for costs of issuance and any required reserves. In our opinion, MSHA's sizable debt and accompanying high leverage remain the system's most significant credit risks.

In addition to its outstanding debt obligations, MSHA has \$570 million of active swaps with Bank of America as the counterparty. The swaps include \$438 million of constant maturity swaps with a mark-to-market (MTM) value of positive \$5.7 million. These swaps generate \$4.9 million of positive annual cash flow. MSHA also has \$132 million of basis swaps with a MTM value of negative \$20 million, against which MSHA has no posted collateral. All amounts are as of November 2013.

Outlook

The stable outlook reflects our view of MSHA's business position supported by the system's past acquisition activity, MSHA's favorable record of integrating acquired facilities, and the natural improvement in debt ratios that is occurring, and that we expect to continue over time. Also adding to credit stability is MSHA's history of maintaining solid earnings, although we believe the system's high debt burden remains a credit risk. While we may raise the ratings in the future, we do not expect to do so until MSHA's MADS coverage equals or exceeds 3.0x, cash to long-term debt reaches 70% to 75%, and debt to capitalization declines to roughly 55%. We will also expect the system's business position to remain strong --demonstrated by stable to improving patient volumes and by sustained robust cash flow. Although not anticipated, if balance sheet metrics weaken, coverage declines to less than 1.7x, or operating margins decline and be sustained at or below 1.0%, we could take a negative rating action.

Enterprise Profile

Since its formation in 1998, MSHA has tripled its asset base and more than tripled annual net patient revenues to just over \$2 billion and more than \$1 billion, respectively. Today, MSHA owns and operates 14 acute-care facilities led by the flagship Johnson City Medical Center, a 514-licensed-bed tertiary regional provider.

The system's hospital facilities include 1,717 licensed acute-care beds, including 94 beds acquired in the October 2013 acquisition of Unicoi County Memorial Hospital. MSHA also consists of a range of outpatient facilities and ancillary services, such as a home health agency and a hospice, and other activities such as the ownership and management of medical office buildings.

MSHA acquired the Unicoi hospital for \$2.5 million plus \$4 million of outstanding Unicoi debt, which was retired at closing. The agreement included a commitment from MSHA to build a 20-bed replacement hospital by 2018. MSHA expects the acquisition will be accretive within 15 months as Unicoi transitions to MSHA's rates, which are current at about 50% of MSHA system levels.

As part of its physician integration efforts, MSHA has consolidated its employed physician practices into Mountain States Medical Group, which employs about 400 physicians. MSHA has steadily reduced physician practice losses through increased physician leadership, including regional chief medical officers, the attrition of less productive physicians, improvements in compensation when contracts are renewed, and other efficiency measures.

Management

Effective Jan. 1, Alan Levine became President and CEO of MSHA, replacing the retiring Dennis Vonderfect. Mr. Levine joined MSHA from Health Management Associates where he served as Group President. Before that he served as Secretary of the Louisiana Department of Health and Hospitals, and Senior Health Policy advisor to Governor Jindal.

Since the system's creation, MSHA's management and governance have evolved effectively, in our view. A strong central leadership team is focused on maximizing the system's potential as a whole and broadening access to managed-care contracts for all of the facilities while centralizing the negotiations at the system level. It has also centralized other functions like billing and collections, purchasing, and laboratory services. The 13-member board has upheld its values of strong planning, education, and transparency.

Today, as it approaches the changing health care landscape, MSHA's leadership, in our view, remains focused on quality, ongoing physician integration, smart growth through service line and revenue cycle opportunities, cost reduction initiatives, and the development and implementation of new accountable care models, for the system's own employed population, and for its Medicare patient base.

Market position

The system's core service area encompasses 13 counties in Tennessee and Virginia where MSHA has about a 53% market share. Currently, fewer than 30% of the system's patients originate from its original home county of Washington County, Tenn. In the broader 29-county service area, MSHA has a 38% share, while Wellmont Health System, MSHA's main competitor, holds about a 30% share. There is no significant third player. While MSHA's market

share is strong in the core Washington County market, Wellmont Health System dominates in adjacent Sullivan County. But, over the past several years the two health systems service areas have increasingly overlapped. Although the service area remains competitive, market characteristics remain favorable in terms of population growth, and the market's size will continue to support two sizable competitors, in our opinion.

Recent projects update

In October 2013 MSHA completed its \$69 million surgery tower project at Johnson City Medical Center. The project was funded with series 2012A bond proceeds, and through operations, reserves, and a small amount of philanthropy. The project left the number of operating room suites at 16, but expanded the space in each suite to accommodate modern equipment. MSHA also renovated and expanded the radiation oncology suite. The project structurally allows MSHA to add eight floors for a future bed tower if the capacity is needed, although there are currently no plans to build those additional floors.

Other than a \$20 million replacement hospital project for the recently acquired Unicoi County Memorial Hospital, we understand that MSHA has no other major committed capital projects beyond 2014.

Financial Profile

Change in accounting for bad debt

In accordance with the publication of our article, "New Bad Debt Accounting Rules Will Alter Some U.S. Not-for-Profit Health Care Ratios But Won't Affect Ratings," published Jan. 19, 2012 on RatingsDirect, we recorded MSHA's fiscal 2012 audit and all subsequent financial statements incorporating the adoption of Financial Accounting Standards Board 2011-07, but not in prior periods. The new accounting treatment means that MSHA's fiscal 2012 and subsequent financial statistics are not directly comparable to the results for fiscal 2011 and prior years. For an explanation of how each financial measure is affected by the change in accounting for bad debt, including the direction and size of the change, please see the above article.

In our view, MSHA's operating performance remained good in fiscal 2013 but it was less robust than it had been in fiscal 2012, primarily due to lower inpatient volumes and the ongoing shift to observations, and to more patient care occurring in an outpatient setting. Reimbursement from both governmental and commercial sources remains under pressure and MSHA, like almost all other acute care providers, continues to incur sizable costs to transform its processes to succeed in the changing health care landscape and under the Affordable Care Act.

For the fiscal year ended June 30, net operating income was \$11.5 million (as per Standard & Poor's methodology), or a 1.1% margin, on \$1.01 billion in total operating revenues. Results were down from \$19.6 million, or a 2% margin, on \$1.00 billion in total operating revenues in fiscal 2012. For the year, inpatient admissions were lower year over year, at 58,103 (or a 5.0% decrease) compared with 61,154 in fiscal 2012 and 61,035 in fiscal 2011. Inpatient volume declines in fiscal 2013 reflect marketwide conditions, as MSHA's system market share remains stable to slightly improved. Management is expecting a same-store reduction in inpatient volumes of about 3% in fiscal 2014 although total admissions will likely be down only about 2% (at 57,809) due to approximately 800 admissions from Unicoi Memorial, which joined MSHA in October (the 800 admissions from Unicoi represent about eight months of inpatient volume from the hospital). Observation volumes continue to grow, increasing by 6% in 2013 to 23,554. Management projects

another 3% growth in observations for fiscal 2014. Management sees an opportunity to reduce the number of observations as a percentage of total admissions through appropriate physician documentation and is working toward that goal. Every 1% shift in observations has a financial impact of approximately \$1.4 million to the system. Outpatient volumes continued their strong growth to 1.67 million (a 4.7% increase) in fiscal 2013 from 1.59 million in fiscal 2012 as more volumes shifted from an inpatient to outpatient setting consistent with industry trends.

Net excess income for fiscal 2013 was solid, in our view although less robust, at \$35.1 million (a 3.4% margin), compared with \$39.7 million (a 3.9% margin) the previous year. MSHA's EBIDA margin was 15.4% in fiscal 2013, compared with 15.7% for fiscal 2012. Coverage, based on MADS of \$71 million, was 2.3x for fiscal 2013.

Interim

On an interim basis for the three months ended Sept. 30, 2013, MSHA had an operating loss of \$3.6 million (as per Standard & Poor's calculations) and excess income of \$4.2 million (1.7% margin), generating cash flow of \$35 million, producing annualized MADS coverage of just under 2.0x. Results year to date reflected continued weak inpatient volume trends.

Five-year financial plan

MSHA's five-year forecast assumes modest 0.5% to 2.7% decreases in inpatient admissions out to 2018. The forecast further assumes no Medicaid expansion in Tennessee or Virginia, and factors in additional declines in Medicare reimbursement. However, supported by reduced length of stay and other operating and cost containment initiatives, management expects to sustain \$150 million to \$160 million of annual EBIDA, which is adequate to comfortably support debt service and further reduce debt, once cash exceeds 250 days.

Balance sheet

MSHA's aggressive acquisition spending ended a few years ago, and while we believe the spending put the system in a better competitive position, it nevertheless resulted in very high leverage, which remains elevated and an impediment to a higher rating. As of Sept. 30, 2013, MSHA's long-term debt to capitalization was 61%, which, due to robust operating cash flow, has continued to improve after being having been as high as 79% in fiscal 2009.

Unrestricted cash and investments totaled \$606 million at Sept. 30, 2013, equal to 245 days' cash, which we view as robust for the rating level; due to high system leverage, however, cash to debt is approximately 56%, which remains well below the median for the current rating. MSHA remains in compliance with all bond covenants.

MSHA's current average age of plant is just under nine years, which we consider low, and the system has only modest capital plans, in our opinion, during the next several years. As a result, we believe that MSHA will be able to comfortably maintain more than 200 days' cash, and over time build back to its goal of 250 days' cash. We understand that management has targeted to reduce debt outstanding when cash exceeds 250 days.

Management plans to spend about \$91 million on capital expenditures in fiscal 2014, primarily on small projects not exceeding \$20 million on an individual basis. Spending for fiscal 2014 represents about 114% of fiscal 2013 depreciation. Between fiscal 2015 and fiscal 2018 capital spending is expected to be moderate, at less than 100% of depreciation. Spending in fiscal years 2015 and 2016 is expected to include the construction of the new 20-bed replacement hospital for Unicoi County, as part of MSHA's hospital affiliation agreement that was effective in

November 2013. Management has no future financing plans as Unicoi and other projects will be funded from operations.

Mountain States Health Alliance ICR

Long Term Rating

BBB+/Stable

Affirmed

Rationale

Standard & Poor's Ratings Services affirmed its 'BBB+' long-term rating and underlying rating (SPUR) on existing rated obligations from various issuers for Mountain States Health Alliance (MSHA), Tenn. At the same time, Standard & Poor's affirmed its 'BBB+' issuer credit rating (ICR) on MSHA. The outlook on all ratings is stable.

The 'BBB+' ratings reflect our view of MSHA's strong business position and solid level of unrestricted reserves and corresponding days' cash on hand. These factors are partly offset by the system's just adequate maximum annual debt service (MADS) coverage for the rating level, and improving, but still high, leverage remaining from the past capital spending and acquisition activity. While our ratings and outlook remain unchanged for now, we believe that MSHA's overall operational and financial trends are positive and, if sustained, will support favorable rating action over the near to intermediate term.

More specifically, the 'BBB+' ratings reflect our view of MSHA's:

- Excellent business position, which is characterized by solid demographics, a robust market share relative to its competition, and a broad range of services;
- Strong management and governance, which is reflected in the system's favorable performance record since its creation in 1998;
- Continued strong financial performance, highlighted by solid EBITDA margins, a 12th consecutive year of operating profitability in fiscal 2014 (although results continued to soften compared to previous years), and solid liquidity for the rating level based on days' cash on hand; and
- Reduced capital spending, which will likely support further growth in unrestricted liquidity and a reduction in leverage over time.

Despite MSHA's strong business position and consistent operating profitability, system leverage is elevated and remains an offsetting credit factor, in our opinion. MSHA has a debt-to-capital ratio of approximately 59% and a debt burden of roughly 7% of revenue. One of management's goals is to reduce leverage, and we believe that is key to achieving a higher rating. Also, even with EBITDA margins of 14% to 16%, MADS coverage has historically been below median 'BBB+' levels. MADS coverage was 2.2x at fiscal year end and about 1.4x as of Sept. 30 on an annualized basis, lower than 2.5x for the 'BBB+' rating median.

The 'BBB+' ratings also incorporate our view of MSHA's group credit profile and the obligated group's core status. Accordingly, the bonds are rated at the same level as the group credit profile. Our determination of the group status of MSHA's obligated group is "core," as the obligated group contains the majority of system assets and accounts for most

of its revenues and income.

Bonds that are not otherwise secured by letters of credit (LOCs) are secured by MSHA's gross revenues or are jointly secured by gross revenues and an irrevocable direct-pay LOC. Various debt issues supported by irrevocable direct pay LOCs for which there is no SPUR (including series 2013A and 2013B) are based solely on the long-term and short-term ratings of the LOC provider. While we are not affirming those ratings herein, we have factored the debt amounts into our analysis of MSHA's overall leverage and debt service capacity.

We are affirming the ratings on bonds, including series 2007B1, 2011A, and 2011B, whose ratings are based on the low correlation joint support of both MSHA and the LOC provider. For those bonds, MSHA and the LOC provider are each individually fully responsible for their repayment.

As of its interim period ended Sept. 30, 2014 (unaudited), MSHA had \$590 million of long-term debt and capital lease obligations outstanding. Outstanding debt is split between approximately 58% fixed- and 42% variable-rate obligations. We understand that MSHA has no plans to issue a significant amount of additional debt during the next few years, as management expects to fund its modest capital needs with cash flow and reserves. Also, management plans for an additional \$30.5 million of debt retirement in fiscal 2015, which we view favorably since, as noted, MSHA's sizable debt and accompanying high leverage remain the system's most significant credit risk, in our opinion.

In addition to its outstanding debt obligations, MSHA has \$590 million swaps with Bank of America as the counterparty. The swaps include \$438 million of constant maturity swaps with a mark-to-market (MTM) value of positive \$3.5 million, a \$132 million basis swap with a MTM of negative \$15.7 million, and a \$20 million total return swap with a positive MTM value of \$320,000. Combined, these swaps generate \$5.4 million of positive annual cash flow. All amounts are as of November 2014.

Outlook

The stable outlook reflects our view of MSHA's sound business position, favorable record of integrating acquired facilities, and improvement in debt ratios, which we expect will continue given modest capital spending needs, although we continue to believe the system's high debt burden remains a rating constraint. While we view MSHA's trends favorably, and, if sustained, we may raise the ratings in the future, we would expect to do so once MSHA's MADS coverage and leverage metrics reach levels more consistent with 'A' category medians. We will also expect the system's business position to remain strong -- demonstrated by stable to improving patient volumes and by sustained robust cash flow. Although not anticipated, if balance sheet metrics weaken, coverage declines, or operating margins decline and are sustained at or below 1.0%, we could consider a negative rating action.

Enterprise Profile

Since its formation in 1998, MSHA has tripled its asset base and more than tripled annual net patient revenues to just over \$2 billion and more than \$1 billion, respectively. Today, MSHA owns and operates 13 acute-care facilities led by the flagship Johnson City Medical Center, a 548-licensed-bed tertiary regional provider. The system's hospital facilities

include 1,669 licensed beds (1,305 acute care beds). MSHA also consists of a range of outpatient facilities and ancillary services, such as a home health agency and a hospice, its own provider sponsored health plan, and other activities such as the ownership and management of medical office buildings. In fiscal 2014, MSHA had combined inpatient admissions of just over 57,000, 1.7 million outpatient visits, and 240,000 emergency department visits. As part of its physician integration efforts, MSHA employs 400 physicians through various physician entities, including Mountain States Medical Group.

Management

In January 2014, Alan Levine became President and CEO of MSHA, replacing the retiring Dennis Vonderfecht. Mr. Levine joined MSHA from Health Management Associates, where he served as Group President; before that, he served as Secretary of the Louisiana Department of Health and Hospitals, and Senior Health Policy advisor to Governor Jindal. Also in 2014, Marvin Eichorn became MSHA's COO after having served as the system's CFO for 16 years. Lynn Krutak, who for over 10 years served as Corporate CFO and CFO for MSHA's Blue Ridge Medical Management Corporation, replaced Mr. Eichorn as CFO.

Since the system's creation, MSHA's management and governance have evolved effectively, in our view. A strong central leadership team is focused on maximizing the system's potential as a whole and broadening access to managed-care contracts for all of the facilities while centralizing the negotiations at the system level. It has also centralized other functions like billing and collections, purchasing, and laboratory services. We believe that the above, as well as other recent organizational changes, will be favorable for the organization. In addition, we believe that MSHA's capable 13-member board provides sound governance to the organization.

Market position

The system's core service area encompasses 13 counties in Tennessee and Virginia, where MSHA continues to have a dominant market share. Currently, fewer than 30% of the system's patients originate from its original home county of Washington County, Tenn. In the broader 29-county service area, MSHA has a 38% share, while Wellmont Health System, MSHA's main competitor, holds about a 27% share. There is no significant third player. While MSHA's market share is strong in the core Washington County market, Wellmont Health System dominates in adjacent Sullivan County. However, over the past several years, the two health systems service areas have increasingly overlapped. Although the service area remains competitive, market characteristics remain favorable in terms of population growth, and, in our opinion, the market's size will continue to support two sizable competitors.

Financial Profile

In our view, MSHA's operating performance remained adequate in fiscal 2014, supported by stabilizing inpatient volumes, reduced labor and benefits expense from staff reductions, and improved personnel and productivity management. Net patient revenues, however, continued to be offset by a sizable and growing provision for bad debts despite the commercial exchanges going live in January 2014. Like almost all other acute care providers, MSHA continues to incur sizable costs to transform its processes to succeed in the changing health care landscape and under the Affordable Care Act. In addition, reimbursement from both governmental and commercial sources remains under pressure.

For the fiscal year ended June 30, net operating income was \$7.0 million (as per Standard & Poor's methodology), or a 0.7% margin, on \$1.0 billion in total operating revenues. Results were down from \$11.5 million, or a 1.1% margin, on \$1.01 billion in total operating revenues in fiscal 2013. For the year, inpatient admissions were modestly lower year over year, at 57,040 (or a 1.8% decrease), compared with 58,103 in fiscal 2013. Like the previous year, the inpatient volume decline in fiscal 2014 reflected market and industry conditions. However, since the fiscal year end, MSHA's inpatient volume trends have improved. For fiscal 2015, patient volumes are expected to increase, with inpatient admissions budgeted to increase to 57,904 and outpatient volumes by about 3.5%, to 1.75 million visits.

Net excess income for fiscal 2014 was solid and improved over fiscal 2013, at \$37.6 million (a 3.7% margin), compared with \$35.1 million (a 3.4% margin) the previous year. MSHA's EBIDA margin was 14.9% in fiscal 2014. Coverage, based on MADS of \$67 million, was 2.3x for fiscal 2014.

Interim

On an interim basis for the three months ended Sept. 30, 2014, MSHA had operating income of \$2.0 million (as per Standard & Poor's calculations) and a net excess before extraordinary items of \$5.3 million, generating cash flow adequate to support annualized MADS coverage of 2.0x.

Five-year financial plan

MSHA's five-year forecast calls for inpatient admissions to increase in fiscal 2015 and then decrease by 4.3% to 4.7% per year until fiscal 2019. The forecast further assumes no Medicaid expansion in Tennessee or Virginia, and factors in additional declines in Medicare reimbursement. However, supported by reduced length of stay and other operating and cost containment initiatives, management expects to sustain \$150 million to \$160 million of annual EBIDA, which is adequate to comfortably support debt service and further reduce debt. For fiscal 2015, MSHA is budgeting operating income of \$29.2 million and EBIDA of \$153 million, which would produce 2.3x MADS.

Balance sheet

MSHA's aggressive acquisition spending ended several years ago, and, while we believe that made the system a stronger competitor, it resulted in high leverage, which has been an impediment to MSHA achieving a higher rating. As of Sept. 30, 2014, MSHA's long-term debt to capitalization was 59%, which, due to robust operating cash flow, has continued to improve from as high as 79% in fiscal 2009.

Unrestricted cash and investments totaled \$642 million at Sept. 30, 2014, equal to 251 days' cash, which we view as robust for the rating level. Due to high system leverage, cash to debt is approximately 61%, which remains well below the median for the current rating. MSHA remains in compliance with all bond covenants.

MSHA's current average age of plant is just under 11 years, which we consider in line with the median, and the system has only modest (in our opinion) capital plans during the next several years. As a result, we believe that MSHA will be able to comfortably maintain robust days' cash and be able to accelerate the reduction of outstanding debt.

Management plans \$31 million of additional debt reductions beyond the required amortization in fiscal 2015.

Management plans to spend about \$53 million on capital expenditures in fiscal 2015, primarily on IT and other small projects. Spending for fiscal 2015 represents about 75% of fiscal 2014 depreciation. Between fiscal 2016 and fiscal 2019, capital spending is expected to be moderate, at well less than 100% of depreciation. Spending in fiscal years

2017 and 2018 is expected to include the construction of the new 20-bed replacement hospital for Unicoi County, as part of MSHA's hospital affiliation agreement that was effective in November 2013. Management has no future financing plans as Unicoi and other projects will be funded from operations.

Exhibit 11.5

Financial Summary for Wellmont

Wellmont Summary for the Fiscal Years
Ended June 30, 2011 through June 30, 2015

Volumes:

Fiscal Year ended June 30, 2011:

Inpatients were up 690 or 1.7% and observation patients were up 1,311 or 13.8% (so total “patients in a bed” were up 2,001 or 3.9%). Emergency room visits were down 1.9% primarily due to utilization trends. Other outpatient volumes were up 3.0%. Surgeries were up 2.3% entirely due to outpatient volumes. Deliveries were down 8.1% due to obstetrician turnover at Holston Valley Medical Center and Lonesome Pine Hospital. Physician office visits were up 20.4% primarily due to the acquisitions of a large cardiology practice in May 2010 and a pulmonology practice in January 2011.

Fiscal Year ended June 30, 2012:

Inpatients were down 1,949 or 4.6% and observation patients were up 2,828 or 26.1% (so total “patients in a bed” were up 879 or 1.7%), due to a change in post-surgical patient classification and to continued managed care payor changes. Emergency room visits were the same as last year and other hospital outpatient volumes were up 5.1%. Surgical volumes were the same as last year and deliveries were down 1.7%. Physician office visits were up 15.9% primarily due to the acquisitions of a cardiology practice in October 2011 and a multispecialty practice in January 2012.

Fiscal Year ended June 30, 2013:

Inpatients were down 2,323 or 5.8% and observation patients were up 72 or 0.5% (so total “patients in a bed” were down 2,251 or 4.2%) primarily due to reduced inpatient utilization from the implementation of the accountable care organizations in our area. Emergency room visits were down 6.7% due to Wellmont now having three urgent care centers as a more cost effective and patient friendly alternative, other outpatient volume was up 0.5%, and surgeries were down 2.6%. Deliveries were up 14.3% as a result of new physicians and physician office visits were up 17.2% primarily due to the urgent care centers and the acquisitions of a cardiology practice in October 2011 and a multispecialty practice in January 2012.

Fiscal Year ended June 30, 2014:

Inpatients were down 2,066 or 5.7% and observation patients were up 1,192 or 9.2% (so total “patients in a bed” were down 874 or 1.8%) primarily due to reduced utilization from the implementation of the accountable care organizations and high deductible plans in our area. Emergency room visits were down 4.7% due to Wellmont now having four urgent care centers and surgeries were down 2.2%, with all of the surgery decrease coming from the ambulatory surgery centers which is attributed to the increase in high deductible plans in our area.

Deliveries were down 99 or 4.3%. Physician office visits were up 2.6%, including urgent care visits which were up 30.5% due to Wellmont now having four urgent care centers.

Fiscal Year ended June 30, 2015:

Inpatients were down 1,320 or 3.8% and observation patients were up 2,488 or 17.5% (so total "patients in a bed" were up 1,168 or 2.4%) primarily due to reduced inpatient utilization from the implementation of the accountable care organizations and high deductible plans in our area and the continued shift to observation patient status. Emergency room visits were up 4.7%, surgeries were down 2.3%, and deliveries were up 1.6%. Outpatient volumes are generally up, especially due to the expansion of infusion centers (visits up 64%) and urgent care centers (visits up 88%).

Statement of Operations:

Fiscal Year ended June 30, 2011:

Net patient revenue increased \$23.2 million and bad debt expense increased \$1.8 million over fiscal 2010, so the net change of these two lines is an increase of \$21.4 million or 3.3%. Other revenue decreased as a result of lower performance related to the Takoma, imaging and lab joint ventures.

Salaries and benefits increased by \$6.2 million or 2.0% driven by the higher volumes, an increase in FTEs for patient care as well as to support computerized order entry and electronic health record system build and implementation. Supplies increased by \$8.3 million or 5.5% driven by the higher volumes and higher drug costs, particularly in oncology. Purchased services increased by \$3.5 million as a result of physician fees at the hospitals, a new urgent care operation, and physician practice management and system implementation costs. Interest and depreciation increases are related to the completion of Project Platinum.

Income from operations of \$17.2 million for fiscal 2011 was below fiscal 2010 of \$22.8 million.

Fiscal Year ended June 30, 2012:

Net patient revenue increased \$12.2 million or 1.7% over fiscal 2011. Other revenue increased \$18.1 million primarily as a result of the Electronic Health Record Meaningful Use amounts earned during the year, with \$13.1 million earned by Wellmont Health System hospitals and physician practices and \$3.2 million earned by Takoma Regional Hospital (of which Wellmont Health System owns 60% so recorded \$1.9 million). However, significant costs were incurred to purchase and implement the systems necessary to achieve Meaningful Use. This includes approximately \$13 million of capital costs which resulted in approximately \$5 million of annual depreciation and maintenance costs plus \$4.6 million of staff costs to implement the systems.

Salaries and benefits increased \$21.6 million or 6.2% primarily due to the physician practice acquisitions (\$9.5 million) and the \$4.6 million to implement the systems. Hospital productivity

improved, as hours per adjusted discharge decreased 6.7%. Supplies increased \$3.8 million or 2.4% primarily due to growth in infusion volumes, particularly in oncology.

Income from operations of \$22.3 million for fiscal 2012 exceeded fiscal 2011 of \$17.2 million.

Fiscal Year ended June 30, 2013:

Net patient service revenue increased \$14.0 million or 1.9% from fiscal 2012. Other revenue decreased \$4.2 million primarily as a result of lower volumes in subsidiaries providing services to hospitals such as laundry and blood services (\$1.5 million) and lower earnings in an imaging joint venture (\$1.3 million). Note that there was \$13.7 million of Electronic Health Record Meaningful Use amounts earned in fiscal 2013 which is essentially the same as fiscal 2012 amounts of \$13.2 million.

Salaries and benefits increased \$12.9 million or 3.5%, primarily driven by the physician practice growth and acquisitions and an increase in healthcare benefit costs due to increasing enrollment. Supplies decreased \$0.4 million or 0.3%. Purchased services increased \$1.4 million or 1.8% from several factors, the largest of which are from changes in the hospital physician services such as anesthesia and emergency medicine. Interest expense was essentially unchanged. Depreciation increased \$5.0 million or 10.7% primarily for systems necessary to achieve Meaningful Use.

Income from operations of \$12.9 million for fiscal 2013 was below fiscal 2012 of \$22.3 million.

Fiscal Year ended June 30, 2014:

Net patient service revenue increased \$5.3 million or 0.7% compared to fiscal 2013. The acquisition of Wexford House and consolidation of Holston Valley Imaging Center added \$11.3 million of net revenue, while the same store net revenue decreased \$6.0 million due to Medicare reimbursement reductions and volume decreases.

Other revenue decreased \$12.7 million primarily as a result of (a) \$7.2 million of Electronic Health Record Meaningful Use amounts earned in fiscal 2014 being \$5.1 million below fiscal 2013 amounts of \$12.3 million due to the scheduled annual decreases in the program's payments, (b) blood bank revenue reductions of \$3.4 million due to the loss of a significant contract, and (c) \$1.9 million from lower performance of the managed care, home care and Takoma joint ventures.

Salaries and benefits increased slightly by \$1.2 million or 0.3%. Supplies increased \$4.1 million or 2.5% primarily in chemotherapy drug volume and cost. Purchased services decreased \$4.0 million or 5.2% due to changes in physician agreements. Interest expense decreased by \$1.9 million or 9.6% due to the capitalization of interest for the Epic electronic health record project and scheduled decreases in outstanding principal. Depreciation increased by \$0.6 million or 1.2%. Lease and rental decreased by \$2.4 million or 13.3% due to the conversion of some operating leases to capital leases. Other expenses increased \$5.6 million or 20.8% primarily

due to an increase in the professional and general liability expense of \$3.5 million and to the change in allocation of support services costs as a result of the closure of Lee Regional Medical Center.

Income from operations of \$4.8 million for fiscal 2014 was below fiscal 2013 of \$15.4 million.

Fiscal Year ended June 30, 2015:

Net patient service revenue increased \$47.7 million or 6.4% compared to fiscal 2014 due to (a) the Wexford House acquisition in December 2013 and the HVIC acquisition at the end of March 2014 and (b) the increase in other outpatient revenue. Other revenue decreased \$7.7 million primarily as a result of (a) \$3.2 million of Electronic Health Record Meaningful Use amounts earned in fiscal 2015 being \$4.0 million below fiscal 2014 amounts of \$7.2 million due to reduced payments from lower volumes and the scheduled annual decreases in the program's payments, (b) blood bank revenue reductions of \$1.7 million due to the loss of a significant contract, and (c) \$3.0 million decrease from the prior investment in HVIC now being consolidated in each line of the statement of operations.

Salaries and benefits increased \$25.6 million or 6.9% as a result of (a) the acquisitions noted above and (b) one-time five year physician retention compensation earned. Supplies were up 1.2%. Purchased services increased 2.8%. Interest expense decreased 3.2%. Depreciation increased \$8.5 million or 17.0% due to the Epic system going live in April 2014. All other expenses increased 0.6%.

Income from operations of \$6.7 million for fiscal 2015 was above fiscal 2014 of \$4.8 million.

Balance Sheet and Ratios:

Fiscal Year ended June 30, 2011:

In May 2011, the Series 2006A bonds (par \$76,595,000) were refunded with the Series 2011 bonds (par \$76,165,000). The total return swap associated with the Series 2006A bonds was terminated and a new total return swap associated with the Series 2011 bonds was initiated with a different counterparty. Also in May 2011, the letter of credit provider on the Series 2005 bonds was replaced with a different letter of credit provider. In November 2010, a \$30 million bank qualified loan was issued with a cumulative drawdown of \$15 million at June 30, 2011. This partially offset the use of \$13 million in the first quarter to pay off the taxable bond issue. \$7 million of the short term note payable was repaid in January 2011 and the remaining \$7 million was repaid in June 2011. The purchase of the pulmonary practice that operated a free standing ambulatory surgery center and two sleep laboratories resulted in the increase in goodwill. Net patient receivables grew as a result of our physician practice acquisitions and billing system conversion. Debt to capitalization and debt service coverage both improved. Days cash on hand decreased slightly due to the acquisitions and debt changes.

Fiscal Year ended June 30, 2012:

Days cash on hand increased as a result of the strong operating performance and investment returns. Net patient accounts receivable increased primarily as a result of the physician practice acquisitions. Other receivables increased due to the accrual of the Meaningful Use amounts earned at June 30, 2012. Accounts payable and accrued expenses increased primarily due to having a pay period end on June 30, 2012. Net assets was negatively impacted by an increase in pension liabilities as a result of the continued low interest rate environment. Debt to capitalization and debt service coverage ratios both improved as a result of the strong operating performance.

Fiscal Year ended June 30, 2013:

Days cash on hand increased primarily as a result of strong investment valuations, receipt of Meaningful Use funds, and net borrowings. The net borrowings consist of (a) \$12.5 million taxable bank loan for the Epic implementation (fully drawn), (b) \$42.5 million of tax exempt lease for the Epic implementation (\$16.2 million drawn thus far), (c) \$10 million lease line of credit (\$5.2 million drawn thus far), less (d) regular debt and capital lease payments of \$14.5 million. Other receivables decreased due to the receipt of the Meaningful Use amounts earned and accrued at June 30, 2012. The debt to capitalization ratio improved slightly due to the increase in net assets outweighing the impact of the net borrowings. The debt service coverage ratio dropped slightly due to the net borrowings.

Fiscal Year ended June 30, 2014:

The significant changes in the balance sheet were (a) expenditures for the Epic electronic health record project of \$60.2 million and draws on the financing thereof of \$26.7 million, (b) the acquisition of Wexford House of \$13.5 million (\$5.8 million land, buildings and equipment and \$7.7 million goodwill), (c) the acquisition of the remaining 25% of Holston Valley Imaging Center of \$7.9 million (all goodwill), (d) the associated conversion of Holston Valley Imaging Center from the equity method to consolidation which resulted in an increase in goodwill of \$21.5 million, (e) the impairment of Lee Regional Medical Center of \$22.5 million (\$21.7 million buildings and equipment and \$0.8 million goodwill) and (f) the sale of Wellmont Health System's 60% interest in Takoma Regional Hospital of \$11.7 million as of July 1, 2014 (the cash was received on June 30, 2014 and is in other current liabilities). In addition, the 2003, 2005 and 2010 series of debt were refinanced in June with new direct placement tax-exempt debt.

Days cash on hand increased as a result of the above activity and appreciation of the investment portfolio. The debt to capitalization ratio improved slightly. The debt service coverage ratio decreased due to income available for debt service being \$17.8 million lower and MADS being \$1.5 million higher.

Fiscal Year ended June 30, 2015:

The only significant changes in the balance sheet were the sale of Wellmont Health System's 60% interest in Takoma Regional Hospital of \$11.7 million as of July 1, 2014 (the cash was received on June 30, 2014 and was in other current liabilities). In addition, a portion of the

Series 2006C debt was advance refunded in September with new direct placement tax-exempt debt.

Cash on hand decreased by 2 days and the debt to capitalization ratio and debt service coverage ratio both improved slightly.

Wellmont 2011 Bonds Official Statement for 2011 Bonds

\$76,165,000
THE HEALTH, EDUCATIONAL AND HOUSING FACILITIES
BOARD OF THE COUNTY OF SULLIVAN, TENNESSEE
Hospital Revenue Refunding Bonds
(Wellmont Health System Project),
Series 2011

Bond Issuer. The Bonds are being issued by The Health, Educational and Housing Facilities Board of the County of Sullivan, Tennessee (the “Issuer”).

Beneficiary of Financing. The Bonds are being issued to provide financing for the benefit of Wellmont Health System (the “Corporation”).

Wellmont Health System

Purpose of Financing. The Bonds will be issued for the purpose of refunding bonds previously issued to provide financing for the benefit of the Corporation. See “THE FINANCING PLAN”.

Financing Documents. The Bonds are being issued pursuant to a Bond Trust Indenture dated as of May 1, 2011 (the “Indenture”) between the Issuer and The Bank of New York Mellon Trust Company, N.A., as trustee (the “Trustee”). Proceeds of the Bonds will be loaned to the Corporation pursuant to a Loan Agreement dated as of May 1, 2011 (the “Loan Agreement”) between the Issuer and the Corporation. The loan repayment obligation of the Corporation will be evidenced and secured by a promissory note (the “Series 2011 Obligation”) issued by the Corporation as an obligation under the Master Indenture described herein.

Source of Payment and Security. The Bonds will be limited obligations of the Issuer payable solely out of payments by the Corporation pursuant to the Loan Agreement and payments by the Obligated Group pursuant to the Series 2011 Obligation. Payment of the Bonds is secured by the trust estate established under the Indenture, which includes (i) rights of the Issuer under the Loan Agreement and the Series 2011 Obligation, and (ii) money in the funds and accounts established under the Indenture. The Series 2011 Obligation and all other obligations issued under the Master Indenture will be secured by a pledge and assignment of gross receipts of the Obligated Group and a mortgage on certain operating assets of the Obligated Group. See “SOURCE OF PAYMENT AND SECURITY”.

The Bonds will not be general or full faith and credit obligations of the Issuer. The Bonds will be limited obligations of the Issuer payable solely out of the sources identified in the Indenture. Neither the State of Tennessee nor any of its political subdivisions, agencies or instrumentalities (including without limitation Sullivan County, Tennessee) is liable in any way for payment of the Bonds.

Pricing Terms and Payment Dates. Pricing information for the Bonds, including principal maturities, interest rates, payment dates and authorized denominations, is shown on the inside cover of this Official Statement.

Form and Date of Delivery. The Bonds are being issued under the book entry system maintained by The Depository Trust Company (“DTC”). The Bonds are expected to be delivered on May 5, 2011.

Redemption. The Bonds are subject to redemption prior to maturity as herein described.

Legal Opinions. McGuireWoods LLP, Richmond, Virginia, has served as bond counsel and will deliver its opinion with respect to the Bonds in substantially the form attached as APPENDIX D. In connection with the issuance of the Bonds, Penn, Stuart & Eskridge, A Professional Corporation, Bristol, Tennessee, has served as counsel to the Issuer, Hunter, Smith & Davis, LLP, Kingsport, Tennessee, has served as counsel to the Corporation and the Obligated Group, and Presley Burton & Collier, LLC, Birmingham, Alabama, has served as counsel to the Underwriter.

Tax Status. In the opinion of Bond Counsel, under existing law and subject to conditions described in the sections herein entitled “TAX STATUS” (1) interest on the Bonds is excludable from gross income for federal income tax purposes under Section 103 of the Internal Revenue Code of 1986, as amended (the “Code”), (2) interest on the Bonds is not treated as a preference item in calculating the alternative minimum tax imposed under the Code with respect to individuals and corporations, and (3) interest on the Bonds will be included in the adjusted current earnings of certain corporations for purposes of computing the alternative minimum tax imposed thereon. In the opinion of Bond Counsel, under the existing laws of the State of Tennessee, the Bonds and the interest thereon are exempt from all State of Tennessee state, county and municipal taxation except for inheritance, transfer and estate taxes and except to the extent that the Bonds and the interest thereon are included within the measure of certain privilege and excise taxes imposed under Tennessee law. See the section herein entitled “TAX STATUS.”

Risk Factors. For a description of certain risk factors involved in an investment in the Bonds, see “RISK FACTORS”.

Underwriter. The Bonds are being purchased from the Issuer by the following underwriter:

BofA Merrill Lynch

The date of this Official Statement is May 2, 2011.

\$76,165,000
The Health, Educational and Housing Facilities

OFFICIAL STATEMENT

Regarding

\$76,165,000

**The Health, Educational and Housing Facilities
Board of the County of Sullivan, Tennessee
Hospital Revenue Refunding Bonds
(Wellmont Health System Project),
Series 2011**

INTRODUCTION

This Official Statement provides information for use in connection with the offering by The Health, Educational and Housing Facilities Board of the County of Sullivan, Tennessee (the “Issuer”) of its \$76,165,000 Hospital Revenue Refunding Bonds (Wellmont Health System Project), Series 2011 (the “Bonds”). The Issuer is a public corporation organized under the laws of the State of Tennessee. The Bonds will be issued pursuant to a Bond Trust Indenture dated as of May 1, 2011 (the “Indenture”) between the Issuer and The Bank of New York Mellon Trust Company, N.A., as trustee (in such capacity, the “Trustee”).

The Bonds will be issued to provide financing for the benefit of Wellmont Health System, a Tennessee nonprofit corporation and a 501(c)(3) organization under the Internal Revenue Code (the “Corporation”). The Corporation is headquartered in Kingsport, Tennessee and operates a health care delivery system that includes six acute care hospitals and one critical access hospital that serve northeast Tennessee and southwest Virginia.

The Bonds are being issued for the purpose of refunding bonds previously issued to provide financing for the benefit of the Corporation. Proceeds of the Bonds will also be used to pay costs incurred in connection with the issuance of the Bonds. See “THE FINANCING PLAN”.

The proceeds of the Bonds will be loaned by the Issuer to the Corporation pursuant to a Loan Agreement dated as of May 1, 2011 (the “Loan Agreement”) between the Issuer and the Corporation. Pursuant to the Loan Agreement the Corporation will agree to make payments at times and in amounts sufficient to pay debt service on the Bonds. The Corporation’s loan repayment obligation will be evidenced by a promissory note issued as an obligation (the “Series 2011 Obligation”) under the Master Indenture described below.

The Corporation and certain of its affiliates have entered into a Master Trust Indenture dated as of May 1, 1991, as amended (the “Master Indenture”), with U.S. Bank National Association (as successor to Wachovia Bank, National Association, First Union National Bank, and Dominion Bank of Middle Tennessee), as trustee (the “Master Trustee”). The Corporation and its affiliates that have joined in the execution and delivery of the Master Indenture are referred to in the Master Indenture and this Official Statement as the “Obligated Group”. The Corporation, Wellmont, Inc. (“Wellmont”), Wellmont Foundation (“Wellmont Foundation”) and Wellmont Hawkins County Memorial Hospital, Inc. (“Wellmont Hawkins”) are currently the only members of the Obligated Group. See APPENDIX A for information about the current members of the Obligated Group. Members of the Obligated Group are jointly and severally liable for payment of the obligations issued under the Master Indenture (the “Master Indenture Obligations”). The Master Indenture permits the addition and withdrawal of members of the Obligated Group. Pursuant to the Loan Agreement, the Corporation will covenant not to withdraw from the Obligated Group as long as any Bonds remain outstanding. See APPENDIX C for the pertinent provisions of the Master Indenture. Pursuant to the Master Indenture the Obligated Group has pledged and assigned its gross receipts as security for all Master Indenture Obligations. The Obligated Group has also entered into separate deeds of trust (the “Deeds of Trust”) in the State of Tennessee and the Commonwealth of Virginia in favor of the Master Trustee that create a mortgage lien on certain operating assets of the Obligated Group. The Master Indenture and the Deeds of Trust are for the equal and proportionate benefit and security of all Obligations issued under the Master Indenture. See “SOURCE OF PAYMENT AND SECURITY—The Master Indenture”.

The Bonds will be limited obligations of the Issuer payable solely out of payments by the Corporation pursuant to the Loan Agreement and payments by the Obligated Group pursuant to the Series 2011 Obligation.

The Bonds will not be general or full faith and credit obligations of the Issuer. The Bonds will be limited obligations of the Issuer payable solely out of the sources identified in the Indenture. Neither the State of Tennessee nor any of its political subdivisions, agencies or instrumentalities (including without limitation Sullivan County, Tennessee) is liable in any way for payment of the Bonds.

The Indenture will establish a trust estate (the “Trust Estate”) that will be pledged and assigned to the Trustee. The Trust Estate includes (i) the Issuer’s rights under the Loan Agreement and the Series 2011 Obligation, and (ii) money in the funds and accounts established under the Indenture. The Trust Estate will be held by the Trustee for the equal and proportionate benefit of the holders of the Bonds. See “SOURCE OF PAYMENT AND SECURITY—Trust Estate Created by the Indenture”.

Investment in the Bonds involves a certain degree of risk. See “RISK FACTORS” for a description of those risks.

DEFINITIONS

This section contains the definition of terms frequently used in this Official Statement.

“**Act**” means Sections 48-101-301 to 48-101-318, inclusive, Tennessee Code Annotated, as amended.

“**Authorized Denominations**” means denominations of \$5,000 and any integral multiple thereof.

“**Bonds**” means the bonds offered by this Official Statement.

“**Book Entry System**” means the book entry system maintained by DTC for the registration, transfer, exchange and payment of debt obligations.

“**Business Day**” means any day other than (a) a Saturday or Sunday, (b) a day on which the Bond Trustee is required or permitted by law to close, and (c) a day on which the New York Stock Exchange is closed.

“**Corporation**” means Wellmont Health System, a Tennessee nonprofit corporation and a 501(c)(3) organization under the Internal Revenue Code. The Bonds are being issued to provide financing for the benefit of the Corporation.

“**Deeds of Trust**” means the Tennessee Deed of Trust and the Virginia Deed of Trust.

“**DTC**” means The Depository Trust Company.

“**Financing Documents**” means the Indenture, the Loan Agreement, the Master Indenture, the Series 2011 Obligation and the Deeds of Trust.

“**Gross Receipts**” means the receipts, revenues and other income pledged and assigned by the Obligated Group pursuant to the Master Indenture. See “SOURCE OF PAYMENT AND SECURITY—The Master Indenture” and the definition of Gross Receipts in APPENDIX C – “SUMMARY OF THE FINANCING DOCUMENTS – SUMMARY OF THE MASTER INDENTURE”.

“**Indenture**” means the Bond Trust Indenture dated as of May 1, 2011 between the Issuer and the Trustee.

“**Indenture Funds**” means any fund or account established pursuant to the Indenture. See “SOURCE OF PAYMENT AND SECURITY—Pledge Under Indenture”.

“**Issuer**” means The Health, Educational and Housing Facilities Board of the County of Sullivan, Tennessee, a Tennessee public corporation. The Issuer is the issuer of the Bonds.

“**Loan Agreement**” means the Loan Agreement dated as of May 1, 2011 between the Issuer and the Corporation.

“**Master Indenture**” means the Master Trust Indenture dated as of May 1, 1991, as amended and supplemented, and as further supplemented in connection with the issuance of the Bonds, between the members of the Obligated Group and the Master Trustee.

“**Master Indenture Obligations**” means all obligations issued under the Master Indenture, including the Series 2011 Obligation being issued as evidence and security for the loan repayment obligation of the Corporation.

“**Master Trustee**” means U.S. Bank, National Association (as successor to Wachovia Bank, National Association, First Union National Bank and Dominion Bank of Middle Tennessee), as trustee under the Master Indenture.

“**Mortgaged Facilities**” means property subject to the liens of the Deeds of Trust.

“**Obligated Group**” means the Corporation and the affiliates of the Corporation that have joined in the execution and delivery of the Master Indenture. The current members of the Obligated Group are the Corporation, Wellmont, Wellmont Foundation and Wellmont Hawkins. The Master Indenture permits the addition and withdrawal of members of the Obligated Group. See APPENDIX C for the pertinent provisions of the Master Indenture.

“**Series 2006A Bonds**” means the bonds previously issued to provide financing for the benefit of the Corporation that are being refunded through the issuance of the Bonds. See “THE FINANCING PLAN” herein.

“**Series 2011 Obligation**” means the Master Indenture Obligation being issued as evidence of and security for the Corporation’s loan repayment obligation with respect to the Bonds.

“**Tennessee Deed of Trust**” means collectively:

(A) Deed of Trust, Security Agreement and Fixture Filing dated as of March 1, 2002, from Wellmont Health System and Kingsport Medical Center, Inc., to Jack W. Hyder, Jr., Trustee, filed for record on March 28, 2002, at 8:00 a.m. in Deed Book 1749C, page 738, securing First Union National Bank, as Master Trustee, and BNY Trust Company of Missouri, as Trustee, the sum of \$244,030,000.00 as amended by (i) First Amendment to Deed of Trust, Security Agreement and Fixture Filing dated as of February 1, 2003, filed for record on Book 1947C, page 148, said Register’s Office, (ii) Second Amendment to Deed of Trust, Security Agreement and Fixture Filing dated as of December 1, 2005, filed for record on Book 2342C, page 154, (iii) Third Amendment to Deed of Trust, Security Agreement and Fixture Filing dated as of June 1, 2006, filed for record on Book 2416C, page 0378, (iv) Fourth Amendment to Deed of Trust, Security Agreement and Fixture Filing dated as of November 1, 2006, filed for record on Book 2466C, page 289, said Register’s Office, (v) Fifth Amendment to Deed of Trust, Security Agreement and Fixture Filing dated as of July 1, 2007, filed for record on Book 2567C, page 695, said Register’s Office, and (vi) Sixth Amendment to Deed of Trust, Security Agreement and Fixture Filing dated as of November 1, 2010, filed of record in Book 2924C, page 455, said Register’s Office;

(B) Deed of Trust, Security Agreement and Fixture Filing dated as of August 1, 2009, of record in Book 2807C, page 174, Office of the Register of Deeds for Sullivan County at Blountville, Tennessee, as amended by First Amendment to Deed of Trust, Security Agreement and Fixture Filing dated as of November 1, 2010, filed of record in Book 2924C, page 471, said Register’s Office; and

(C) Leasehold Deed of Trust, Security Agreement and Fixture Filing dated as of August 1, 2009, of record in Book 2807C, page 205, Office of the Register of Deeds for Sullivan County at Blountville, Tennessee, as amended by First Amendment to Leasehold Deed of Trust, Security Agreement

and Fixture Filing dated as of November 1, 2010, filed of record in Book 2924C, page 485, said Register's Office.

"Term Bonds" means Bonds subject to scheduled mandatory redemption requirements. Term Bonds are identified in the pricing information included on the inside cover of this Official Statement. See "THE BONDS—Redemption Prior to Maturity".

"Trust Estate" means the trust estate established under the Indenture.

"Trustee" means The Bank of New York Mellon Trust Company, N.A., as trustee under the Indenture.

"Virginia Deed of Trust" means collectively:

(A) Deed of Trust, Assignment of Leases and Rents, Security Agreement and Fixture Filing dated as of July 1, 2007, of record as Instrument No. 200703183, Office of the Circuit Court Clerk for Lee County, Virginia, as amended by First Amendment to Deed of Trust, Assignment of Leases and Rents, Security Agreement and Fixture Filing dated as of November 1, 2010, of record as Instrument No. 201003584, said Circuit Court Clerk's Office; and

(B) Deed of Trust, Assignment of Leases and Rents, Security Agreement and Fixture Filing dated as of July 1, 2007, of record as Instrument No. 0708240, Office of the Circuit Court Clerk for Wise County, Virginia, as amended by First Amendment to Deed of Trust, Assignment of Leases and Rents, Security Agreement and Fixture Filing dated as of November 1, 2010, of record as Instrument No. 1010076, said Circuit Court Clerk's Office.

"Wellmont" means Wellmont, Inc., a Tennessee corporation. Wellmont is a member of the Obligated Group under the Master Indenture.

"Wellmont Foundation" means Wellmont Foundation, a Tennessee nonprofit corporation and a 501(c)(3) organization under the Internal Revenue Code. Wellmont Foundation is a member of the Obligated Group under the Master Indenture.

"Wellmont Hawkins" means Wellmont Hawkins County Memorial Hospital, Inc., a Tennessee nonprofit corporation and a 501(c)(3) organization under the Internal Revenue Code. Wellmont Hawkins is a member of the Obligated Group under the Master Indenture.

THE BONDS

Date, Form of Bonds and Denominations

The Bonds will be dated as of the date of initial delivery. The Bonds will be issuable only as fully registered bonds in denominations of \$5,000 or any multiple thereof.

Book Entry System

The Bonds are being issued in electronic form under the Book Entry System procedures of The Depository Trust Company ("DTC"). While the Bonds are in the Book Entry System, the method and procedures for payment of the Bonds and matters pertaining to transfers and exchanges of the Bonds will be governed by the rules and procedures of the Book Entry System. If the Book Entry System is discontinued, the Indenture contains alternate provisions for the method of payment and for transfers and exchanges. See APPENDIX F for a description of the DTC Book Entry System. See APPENDIX C – "SUMMARY OF THE FINANCING DOCUMENTS – SUMMARY OF CERTAIN PROVISIONS OF THE 2011 BOND INDENTURE" for a description of applicable Indenture provisions if the Book Entry System is terminated.

Pricing Information

See the pricing terms on the inside cover of this Official Statement for principal maturities, interest rates and payment dates for the Bonds. The Bonds will be subject to redemption prior to maturity. See “THE BONDS—Redemption Prior to Maturity”.

Fixed Interest Rates

The Bonds are being issued as fixed rate obligations.

Calculation of Interest Payments

Interest payable on the Bonds will be calculated on the basis of a 360-day year with 12 months of 30 days each.

Redemption Prior to Maturity

The Bonds will be subject to redemption prior to maturity as follows:

(a) **Optional Redemption.** The Bonds are subject to redemption prior to maturity by the Issuer at the option of the Corporation, on or after March 1, 2015, in whole or in part at any time, less than all of such Bonds to be selected by lot or in such other manner as the Trustee determines, at the redemption prices of par plus accrued interest to (but not including) the redemption date.

(b) **Mandatory Bond Sinking Fund Redemption Without Premium.** The Bonds maturing September 1, 2026 are subject to mandatory redemption prior to maturity pursuant to the operation of a sinking fund, in part by lot, at a redemption price equal to the principal amount thereof, without premium, plus accrued interest to the redemption date, beginning on September 1, 2013 and on each September 1 thereafter in the years and in the principal amounts set forth below:

September 1	Principal Amount
2013	\$ 865,000
2014	890,000
2015	990,000
2016	1,390,000
2017	1,155,000
2018	1,205,000
2019	1,285,000
2020	5,585,000
2021	5,595,000
2022	5,895,000
2023	4,090,000
2024	4,280,000
2025	4,480,000
2026 (maturity)	4,680,000

The Bonds maturing September 1, 2032 are subject to mandatory redemption prior to maturity pursuant to the operation of a sinking fund, in part by lot, at a redemption price equal to the principal amount thereof, without premium, plus accrued interest to the redemption date, beginning on September 1, 2027 and on each September 1 thereafter in the years and in the principal amounts set forth below:

September 1	Principal Amount
2027	\$ 4,980,000
2028	5,175,000
2029	5,475,000
2030	5,775,000
2031	6,075,000
2032 (maturity)	6,300,000

In the case of any optional or extraordinary redemption or any purchase and cancellation of any term Bonds that are subject to mandatory sinking fund redemption as described above, the Issuer shall receive credit against its required Bond Sinking Fund deposits with respect to Bonds of the same maturity and interest rate as those being redeemed or purchased.

(c) ***Extraordinary Redemption in Whole or in Part Without Premium.*** The Bonds are also subject to redemption prior to maturity in the event of damage to or destruction of the Property of any member of the Combined Group or any part thereof or the condemnation of the Facilities or any part thereof, if the Net Proceeds of insurance or condemnation received in connection therewith to the extent that Net Proceeds are not applied either to any lawful purposes of the Combined Group or to the repair, replacement, restoration or reconstruction of the affected Facilities pursuant to the Master Indenture, but only to the extent of the funds provided for in the Master Indenture. If called for redemption in the events referred to in the preceding sentence of this paragraph, the Bonds will be subject to redemption at any time, in whole or in part, and if in part, the Corporation may decide the order of maturity or portion of each maturity to be redeemed by lot. Such redemption shall be at the principal amount thereof plus accrued interest to the redemption date, and without premium, from the proceeds of such insurance or condemnation award or such sale but not in excess of the amount of such proceeds applied to such purpose. If no direction is given by the Corporation, the Trustee will redeem Bonds then Outstanding pro rata based on the then Outstanding principal amount in the inverse order of maturity thereof.

Notice of Redemption. While the Bonds are in book-entry form, notice of redemption will be given only to DTC or its nominee. See “THE BONDS—Book Entry System.” Notice of the call for redemption will be given by the Trustee by mailing a copy of the redemption notice (a) by first class mail at least 30 days but not more than 60 days prior to the date fixed for redemption to the owner of each Bond to be redeemed in whole or in part at the address shown on the registration books and (b) by registered or certified mail, facsimile (or other electronic means), or overnight delivery service at least 30 days prior to the date fixed for redemption, to certain following registered securities depositories then in the business of holding substantial amounts of bonds of the type comprising the Bonds and to one or more national information services that disseminate notices of redemption of bonds such as the Bonds. No defect in any notice delivered pursuant to clause (b) above nor any failure to give all or any portion of such notice will in any manner defeat the effectiveness of a call for redemption if notice is given as prescribed in clause (a) above. Any notice mailed as described above will be conclusively presumed to have been duly given, whether or not the owner receives the notice. Failure to mail any such notice, or the mailing of defective notice, to any owner will not affect the proceeding for redemption as to any owner to whom proper notice is mailed.

If at the time of mailing of notice of any optional redemption there has not been deposited with the Trustee moneys sufficient to redeem all the Bonds called for such redemption, such notice may state that it is conditional on the deposit of moneys with the Trustee not later than the redemption date, and such notice will be of no effect unless such moneys are so deposited.

Purchase of Bonds in Lieu of Redemption. The Issuer has irrevocably granted to the Corporation the option to purchase at any time, and from time to time, any Bond which is to be redeemed pursuant to the optional redemption provisions described above on the dates of such redemption and at a purchase price equal to the redemption price. To exercise this option, the Corporation must notify the Trustee not less than five Business Days before the proposed redemption date that amounts available to pay the redemption price of such Bonds shall be applied to purchase such Bonds in lieu of redemption. No notice other than the notice of redemption described under “Notice of Redemption” above must be given in connection with any such purchase in lieu of redemption. On the date fixed for redemption, the Trustee will purchase the Bonds to be redeemed in lieu of such redemption and following such purchase, shall cause such Bonds to be registered in the name of or upon the direction of the

Corporation and deliver them to or as directed by the Corporation. No purchase of Bonds as described in this paragraph will operate to extinguish the indebtedness of the Issuer evidenced thereby. Bonds purchased in lieu of redemption will continue to bear interest at the interest rate in effect on the date of such purchase in lieu of redemption.

SOURCE OF PAYMENT AND SECURITY

Pledge Under Indenture

Pursuant to the Indenture, to secure the payment of the principal of, premium, if any, and interest on the Bonds, the Issuer grants, assigns, transfers, pledges, sets over and confirms and grants a security interest in the property described below (the “Trust Estate”) to the Trustee:

(a) All right, title and interest of the Issuer in and to the Series 2011 Obligation and any additional Obligations pledged under the Indenture and all sums payable in respect of the indebtedness evidenced thereby.

(b) All right, title and interest of the Issuer in and to the Loan Agreement (except for Reserved Rights), including, but not limited to, the present and continuing right to make claim for, collect, receive and receipt for any of the sums, amounts, income, revenues, issues and profits and any other sums of money payable or receivable under the Loan Agreement, to bring actions and proceedings thereunder or for the enforcement thereof, and to do any and all things which the Issuer is or may become entitled to do under the Loan Agreement.

(c) All right, title and interest of the Issuer in moneys and securities from time to time held by the Trustee under the terms of the Indenture, other than moneys held in the Rebate Fund.

(d) Any and all other property rights and interests of every kind and nature from time to time hereafter by delivery or by writing of any kind granted, bargained, sold, alienated, demised, released, conveyed, assigned, transferred, mortgaged, pledged, hypothecated or otherwise subjected to the Indenture, as and for additional security thereunder, by the Corporation or any other person on its behalf or with its written consent or by the Issuer or any other person on its behalf or with its written consent.

The Bonds are limited obligations of the Issuer and are payable solely from the Trust Estate. The Corporation agrees under the Loan Agreement and in the Series 2011 Obligation to make payments thereunder directly to the Trustee.

Pledge of Gross Receipts

The Series 2011 Obligation, along with all other Obligations issued under the Master Indenture, including but not limited to the Series 2003 Obligation, the Series 2005 Obligation, the Series 2006C Obligation, the Series 2007A Obligation and the Series 2010 Obligation, are secured on a parity by a security interest in all of the right, title and interest of the Obligated Group in and to its Gross Receipts. “Gross Receipts” are defined in the Master Indenture as: all receipts, revenues, income, gifts, donations, contributions, grants, bequests, pledges, chattel paper and instruments, and other monies received by or on behalf of the Obligated Group, including, but without limiting the generality of the foregoing, (i) revenues derived from the ownership or operation of Property including insurance and condemnation proceeds with respect to Property or any portion thereof, and (ii) all rights to receive the same, whether in the form of accounts, accounts receivable, contract rights or other rights and the proceeds of such rights, whether now owned, or held or hereafter coming into existence; provided, however, that (a) gifts, contributions, grants (including Hill-Burton Grants), bequests and pledges heretofore or hereafter made and designated or specified by the granting authority, donor or maker thereof as being for specified purposes (inconsistent with the payment of debt service on Indebtedness) and income derived therefrom to the extent required by such designation or specification, and (b) revenues, receipts and income derived from the ownership and operation of Property which secures Non-Recourse Indebtedness shall be excluded from Gross Receipts. See “SOURCE OF PAYMENT AND SECURITY—The Master Indenture” and APPENDIX C – “SUMMARY OF THE FINANCING DOCUMENTS – SUMMARY OF CERTAIN PROVISIONS OF THE MASTER INDENTURE.”

Deeds of Trust

The Series 2011 Obligation, along with all other Obligations issued under the Master Indenture, including but not limited to the Series 2003 Obligation, the Series 2005 Obligation, the Series 2006C Obligation, the Series 2007A Obligation and the Series 2010 Obligation (collectively, the “Obligations”), are also secured on a parity by the Tennessee Deed of Trust and the Virginia Deed of Trust (collectively, the “Deeds of Trust”) which pledge, grant and convey a security interest in certain real estate and the improvements located thereon (the “Mortgaged Facilities”) owned by the Corporation, subject to Permitted Liens. The Tennessee Deed of Trust does not encumber all real estate and the improvements located thereon which are owned or leased by the Corporation in the State of Tennessee. The Virginia Deed of Trust does not encumber all real estate and the improvements located thereon which are owned or leased by the Corporation in the Commonwealth of Virginia.

The Mortgaged Facilities that will be subject to the lien of the Tennessee Deed of Trust are the following facilities: Wellmont Bristol Regional Medical Center and Wellmont Holston Valley Regional Medical Center. The Mortgaged Facilities that will be subject to the lien of the Virginia Deed of Trust are the following facilities: Mountain View Regional Medical Center and Lee Regional Medical Center. Only these facilities are subject to the Deeds of Trust, and certain adjacent medical office buildings and other non-hospital facilities not listed here are not subject to the Deeds of Trust. The Corporation and the Obligated Group also own and lease certain undeveloped land and other real property not subject to the Tennessee Deed of Trust or the Virginia Deed of Trust, including two additional hospitals.

Series 2011 Obligation

Payments on the Series 2011 Obligation pledged under the Indenture will be the joint and several obligation of the members of the Obligated Group. Notwithstanding uncertainties as to the enforceability of the covenants of the members of the Obligated Group in the Master Indenture to be jointly and severally liable for each Obligation (as described under “RISK FACTORS—Limitation on Enforcement of Remedies – *Limitations on Joint and Several Liability of Obligated Group Members*”), the accounts of the members of the Obligated Group will be combined for financial reporting purposes and will be used in determining whether various covenants and tests contained in the Master Indenture (including tests relating to the incurrence of Additional Indebtedness) are met. The members of the Obligated Group currently consist of the Corporation, Wellmont Hawkins, Wellmont and Wellmont Foundation.

Parity Debt

The Corporation’s obligation under the Loan Agreement to pay debt service on the Bonds will be secured by the Series 2011 Obligation. The Series 2011 Obligation is being issued on a parity with Master Indenture obligations issued to secure the following: (a) \$12,966,415.15 outstanding principal amount of Series 2010 Bonds, (b) \$55,000,000 outstanding principal amount of the Series 2007A Bonds, (c) \$200,000,000 outstanding principal amount of the Series 2006C Bonds, (d) \$59,580,000 outstanding principal amount of the Series 2005 Bonds, (e) \$33,035,000 outstanding principal amount of the Series 2003 Bonds, and (f) any Additional Indebtedness issued, from time to time, under and pursuant to the Master Indenture.

The Loan Agreement provides that the Corporation is required to make designated payments to the Trustee for deposit into the Bond Fund in amounts sufficient to pay the principal of and interest on the Bonds when due.

Limited Obligations

The Bonds and the interest and premium, if any, payable thereon do not constitute a debt or liability of Sullivan County, the State of Tennessee or any political subdivision thereof other than the Issuer, but are payable solely from the funds pledged therefor in accordance with the Indenture. The issuance of the Bonds does not directly, indirectly or contingently, obligate the County, the State or any political subdivision thereof to levy any form of taxation for the payment thereof or to make any appropriation for their payment. The Bonds and the interest and premium, if any, payable thereon do not now and will never constitute a debt of the State within the meaning of the Constitution or the statutes of the State and do not now and will never constitute a charge against the credit or taxing power of the County, the State or any political subdivision thereof. Neither the County nor the State will in

any event be liable for the payment of the principal of, premium, if any, or interest on the Bonds or for the performance of any pledge, mortgage, obligation or agreement of any kind whatsoever which may be undertaken by the Issuer. No breach by the Issuer of any such pledge, mortgage, obligation or agreement may impose any pecuniary liability upon the County or the State or any charge upon its general credit or against its taxing power. The Issuer has no taxing power.

The Master Indenture

The Series 2011 Obligation will be issued as an Obligation under the Master Indenture. The members of the Obligated Group currently consist of the Corporation, Wellmont Hawkins, Wellmont and Wellmont Foundation. The members of the Obligated Group are jointly and severally liable for the payment of the Series 2011 Obligation, all other Obligations issued under the Master Indenture and for performance of the covenants and agreements set forth in the Master Indenture and the Eleventh Supplemental Master Indenture. Subject to certain conditions, the Master Indenture will permit additional entities to become members of the Obligated Group thereunder and will permit members of the Obligated Group to designate any or all of their respective affiliates as Restricted Affiliates for the purposes of the Master Indenture. Members of the Obligated Group will also be obligated to cause their respective Restricted Affiliates (such Restricted Affiliates, together with the Obligated Group, being herein referred to collectively as the “Combined Group”) to make such payments and perform such covenants and agreements as are necessary for the Combined Group to comply with the Master Indenture. The Master Indenture also permits members of the Obligated Group and Restricted Affiliates to withdraw from the Combined Group under specified conditions, whereupon such withdrawing members of the Obligated Group and Restricted Affiliates will cease to be bound by the Master Indenture and no longer obligated to pay the sums due under all Obligations, including the Series 2011 Obligation.

See APPENDIX C – “SUMMARY OF THE FINANCING DOCUMENTS – SUMMARY OF CERTAIN PROVISIONS OF THE MASTER INDENTURE” for further information regarding the Master Indenture, including a discussion of the conditions under which entities will be permitted to join or withdraw from the Combined Group, the provisions regarding the incurrence of and security for additional Obligations or other Indebtedness and the various financial and operating covenants and agreements to be performed by the Combined Group.

At the time of issuance of the Series 2011 Obligation, the only other Obligations Outstanding under the Master Indenture will be the Series 2003 Obligation, the Series 2005 Obligation, the Series 2006C Obligation, the Series 2007A Obligation and the Series 2010 Obligation.

Additional Indebtedness Under the Master Indenture

The Master Indenture permits the members of the Obligated Group to incur Additional Indebtedness (including Guaranties), all upon the terms and subject to the conditions specified therein. Such Additional Indebtedness may, but need not, be evidenced or secured by an Obligation. See APPENDIX C – “SUMMARY OF THE FINANCING DOCUMENTS – SUMMARY OF CERTAIN PROVISIONS OF THE MASTER INDENTURE.” Additional Indebtedness may be issued to the Issuer or to persons other than the Issuer. Except to the extent entitled to the benefits of additional security as permitted by the Master Indenture and except for Subordinated Indebtedness, all Obligations issued under the Master Indenture will be equally and ratably secured thereby.

Subject to certain conditions set forth in the Master Indenture, Additional Indebtedness incurred by any member of the Obligated Group may be secured by security which does not extend to any other Indebtedness. Such security may include Liens on the Property (including healthcare facilities) of the members of the Obligated Group, letters or lines of credit or insurance, and could also consist of Liens on cash or securities deposited or held in any depreciation reserve, debt service or interest reserve, debt service or similar fund established pursuant to the terms of any Supplemental Master Indenture, Related Bond Indenture or Related Financing Documents. The Master Indenture provides that Supplemental Master Indentures pursuant to which one or more series of Obligations entitled to additional security are issued may provide for such amendments to provisions of the Master Indenture, including the provisions thereof relating to the exercise of remedies upon the occurrence of an event of default, as are necessary to provide for such security and to permit realization upon such security solely for the benefit of the Obligations secured thereby.

Limitations on Remedies

The rights of the Trustee, the Master Trustee, the holders of Master Indenture Obligations, and the holders of the Bonds may be limited by (i) bankruptcy, insolvency, or other similar laws affecting the enforcement of creditors' rights and (ii) general principles of equity, including the exercise of judicial discretion in appropriate cases. See also "RISK FACTORS".

THE FINANCING PLAN

General

The Bonds are being issued for the purpose of refunding bonds previously issued to provide financing for the Corporation. Proceeds of the Bonds will also be used to pay costs incurred in connection with the issuance of the Bonds. See "Sources and Uses of Funds".

The Refunding Plan

To provide financing for the benefit of the Corporation, the Issuer previously issued its Hospital Revenue Refunding Bonds (Wellmont Health System Project), Tax-Exempt Series 2006A (the "Series 2006A Bonds"), which are now outstanding in the aggregate principal amount of \$76,595,000. The Series 2006A Bonds are not subject to optional redemption until March 1, 2013. In order to refund the Series 2006A Bonds, the Corporation made a tender offer to the holders of the Series 2006A Bonds. The holders of all outstanding Series 2006A Bonds have agreed to tender their Series 2006A Bonds to the Corporation. Proceeds of the Bonds will be used to pay the purchase price of Series 2006A Bonds tendered for purchase. All outstanding Series 2006A Bonds will be purchased by the Corporation on the date of issuance of the Bonds and will be immediately surrendered to the trustee for the Series 2006A Bonds for retirement and cancellation.

Sources and Uses of Funds

The estimated sources and uses of funds for the financing plan are as follows (rounded to the nearest whole dollar):

Table 1. Sources and Uses of Funds

Sources of Funds

Principal amount of Bonds	<u>\$76,165,000</u>
Total sources	\$76,165,000

Uses of Funds

Purchase and retirement of Series 2006A Bonds	\$74,942,165
Costs of issuance of the Bonds ⁽¹⁾	<u>1,222,835</u>
Total uses	\$76,165,000

Note (1) Includes underwriter's discount, legal and accounting fees, printing costs, rating agency fees, and other costs of issuance. Costs of issuance in excess of available Bond proceeds will be paid by the Corporation with its own funds.

Debt Service Requirements on the Bonds

The following table contains the estimated debt service requirements on the Bonds.

Table 2. Debt Service Requirements on Bonds

Bond Year Ending September 1	Debt Service on Bonds		Total Debt Service
	Principal	Interest	
2011	\$ 0	\$ 1,526,947	\$ 1,526,947
2012	0	4,738,800	4,738,800
2013	865,000	4,738,800	5,603,800
2014	890,000	4,686,900	5,576,900
2015	990,000	4,633,500	5,623,500
2016	1,390,000	4,574,100	5,964,100
2017	1,155,000	4,490,700	5,645,700
2018	1,205,000	4,421,400	5,626,400
2019	1,285,000	4,349,100	5,634,100
2020	5,585,000	4,272,000	9,857,000
2021	5,595,000	3,936,900	9,531,900
2022	5,895,000	3,601,200	9,496,200
2023	4,090,000	3,247,500	7,337,500
2024	4,280,000	3,002,100	7,282,100
2025	4,480,000	2,745,300	7,225,300
2026	4,680,000	2,476,500	7,156,500
2027	4,980,000	2,195,700	7,175,700
2028	5,175,000	1,872,000	7,047,000
2029	5,475,000	1,535,625	7,010,625
2030	5,775,000	1,179,750	6,954,750
2031	6,075,000	804,375	6,879,375
2032	<u>6,300,000</u>	<u>409,500</u>	<u>6,709,500</u>
Total	\$76,165,000	\$69,438,697	\$145,603,697

THE ISSUER

The Issuer was incorporated as a public nonprofit corporation on August 31, 1979, by Sullivan County, Tennessee (the "County"), pursuant to the Act. The Issuer was organized to assist hospital institutions in providing facilities and structures for the development and maintenance of the public health, thereby providing County residents with access to adequate medical care and hospital facilities to improve their welfare, prosperity, health and living conditions. The Issuer is authorized by the Act to issue revenue bonds payable solely from the revenues and receipts from such facilities and structures or other sources designated by the Issuer and secured by a pledge of such revenues and receipts. The Issuer may issue bonds to refund any prior issues of its bonds.

Neither the County nor the State will in any event be liable for the payment of principal of, premium, if any, or interest on the Bonds or other bonds issued by the Issuer or for the performance of any pledge, mortgage, obligation or agreement of any kind undertaken by the Issuer. None of the bonds issued by the Issuer, including the Bonds, and none of the Issuer's agreements and obligations are an indebtedness of the County, the State or any political subdivision thereof within the meaning of any constitutional or statutory provision or otherwise. The Issuer has no taxing power.

The Issuer has full power and authority under the Act to enter into the Indenture and the Loan Agreement and to perform its covenants and obligations thereunder.

The Issuer is governed by a seven member Board of Directors appointed by the Board of Commissioners of the County. Members of the Board of Directors serve staggered 6-year terms.

Although the Issuer has consented to the use of this Official Statement in connection with the offer and sale of the Bonds, it has not participated in the preparation of this Official Statement and makes no representation as to its accuracy or completeness.

THE CORPORATION AND THE OBLIGATED GROUP

The Corporation is a nonprofit corporation under the laws of the State of Tennessee and is a 501(c)(3) organization under the Internal Revenue Code. Wellmont Foundation and Wellmont Hawkins are also nonprofit corporations organized under the laws of the State of Tennessee and are also 501(c)(3) organizations under the Internal Revenue Code. Wellmont is a Tennessee corporation. The Corporation, Wellmont, Wellmont Foundation and Wellmont Hawkins are currently the only members of the Obligated Group. For information about the Corporation and the Obligated Group, see APPENDIX A.

RISK FACTORS

General

The Bonds are special limited obligations of the Issuer payable solely from the revenues pledged to the payment of the Bonds in accordance with the Indenture, as described herein. The Bonds do not constitute a debt of the Issuer within any constitutional or statutory provision and do not give rise to a pecuniary liability of the Issuer. No Holder of any of the Bonds shall ever have the right to enforce payment of the Bonds against any property of the Issuer or any funds other than those expressly pledged under the Indenture to the payment thereof. The Bonds are payable solely from and secured by the Trust Estate, as described under "SOURCE OF PAYMENT AND SECURITY."

There are certain factors herein that may adversely affect the Corporation's ability to make timely payments under the Loan Agreement and the Obligated Group's obligation to make timely payments on the Series 2011 Obligation. Such failure could, among other things, result in an acceleration of the Bonds. No representation or assurance can be made that revenues will be realized by the Corporation or the Obligated Group in amounts sufficient to pay maturing principal of, premium, if any, and interest due on the Bonds or payment of the Series 2011 Obligation. Purchasers of the Bonds should bear in mind that the occurrence of any number of events, some of which are specified in more detail below, could adversely affect the revenue-producing ability of the Corporation and the Obligated Group. Further, economic and other conditions, including demand for hospital services, the ability of the Corporation and the Obligated Group to provide the services required by patients, physicians' confidence in the Corporation and the Obligated Group, economic conditions in the service area of the Corporation and the Obligated Group, competition, rates, costs, third-party reimbursement and governmental regulations, may adversely affect the Corporation's and the Obligated Group's revenues and, in turn, the payment of principal of, premium, if any, and interest on the Bonds and payment of the Series 2011 Obligation.

THERE CAN BE NO ASSURANCE THAT THE REVENUES OF THE CORPORATION AND THE OBLIGATED GROUP OR UTILIZATION OF THE OBLIGATED GROUP'S HEALTHCARE FACILITIES WILL NOT DECREASE.

The following risk factors, among others, should be considered in evaluating the ability of the Obligated Group, including the Corporation, to provide sufficient revenues for payment of the principal of, premium, if any, and interest on the Bonds and payment of the Series 2011 Obligation. This discussion of risk factors is not, and is not intended to be, exhaustive.

Market Risk

There can be no assurance that there will be a secondary market for the Bonds. In the absence of such a market for the Bonds could result in investors not being able to resell the Bonds should they need to.

Impact of Market Turmoil

The disruption of the credit and financial markets in the last several years has led to volatility in the securities markets, significant losses in investment portfolios, increased business failures and consumer and business bankruptcies, and is a major cause of the current economic crisis. In response to that disruption, the Dodd-Frank Wall Street Reform and Consumer Protection Act (the “Financial Reform Act”) was enacted and approved by the President on July 21, 2010. The Financial Reform Act includes broad changes to the existing financial regulatory structure, including the creation of new federal agencies to identify and respond to risks to the financial stability of the United States. Additional legislation is pending or under active consideration by Congress and regulatory action is being considered by various Federal agencies and the Federal Reserve Board and foreign governments, which are intended to increase the regulation of domestic and global credit markets. The effects of the Financial Reform Act and of these legislative, regulatory and other governmental actions, if implemented, are unclear.

The health care sector, including the Corporation and the Obligated Group, has been materially and adversely affected by this market turmoil. The consequences of this market turmoil have generally included, among other things, realized and unrealized investment portfolio losses, increased borrowing costs and periodic disruption of access to the capital markets.

The Corporation and the Obligated Group have experienced some impact from current economic conditions, but the payor mix of the Corporation and the Obligated Group is stable. Bad debt of the Corporation and the Obligated Group has increased as employers and insurers shift additional financial responsibility to the patient. Patients have delayed some elective business but outpatient surgical volume is up 6.6 percent for the six-month period ended December 31, 2010 over the six-month period ended December 31, 2009. While the budgets for the States of Tennessee and Virginia are under stress, reductions in amounts provided by the State of Tennessee to the Corporation and the Obligated have been offset by the assessment fee. The Corporation and the Obligated Group expect to receive a cut of approximately \$450,000 for the upcoming year from the State of Virginia. See “RISK FACTORS - Patient Service Revenues” and in APPENDIX A – “Historical Financial Information”, and “Management’s Discussion and Analysis of Financial Information”.

In February 2009, the American Recovery and Reinvestment Act of 2009 (“H.R. 1”) was enacted and includes several provisions that are intended to provide financial relief to the health care sector, most of which will be spent by 2011. These funds include, among other things, a temporary increase in Federal payments to states to fund the Medicaid program, a requirement that states promptly reimburse healthcare providers, and a subsidy to the recently unemployed for health insurance premium costs. H.R. 1 also establishes a framework for the implementation of a nationally-based health information technology program. For more information on this program, see “The HITECH Act” below.

Health Care Reform

In March, 2010, the Patient Protection and Affordable Care Act (the “Health Care Reform Act”) was enacted and approved by the President. Some of the provisions of the Health Care Reform Act took effect immediately, while others will take effect or will be phased in over time, ranging from a few months following approval to ten years. Because of the complexity of the Health Care Reform Act generally, additional legislation is likely to be considered and enacted over time. The Health Care Reform Act will also require the promulgation of substantial regulations with significant effects on the health care industry and third-party payors. In response, third-party payors and suppliers and vendors of goods and services to health care providers are expected to impose new and additional contractual terms and conditions. Thus, the health care industry will be subjected to significant new statutory and regulatory requirements and contractual terms and conditions, and consequently to structural and operational changes and challenges, for a substantial period of time.

A significant component of the Health Care Reform Act is reformation of the sources and methods by which consumers will pay for health care for themselves and their families and by which employers will procure health insurance for their employees and dependents and, as a consequence, expansion of the base of consumers of health care services. One of the primary drivers of the Health Care Reform Act is to provide or make available, or subsidize the premium costs of, health care insurance for some of the millions of currently uninsured (or underinsured) consumers who fall below certain income levels. The Health Care Reform Act proposes to

accomplish that objective through various provisions, summarized as follows: (i) the creation of active markets (referred to as exchanges) in which individuals and small employers can purchase health care insurance for themselves and their families or their employees and dependents, (ii) providing subsidies for premium costs to individuals and families based upon their income relative to federal poverty levels, (iii) mandating that individual consumers obtain and certain employers provide a minimum level of health care insurance, and providing for penalties or taxes on consumers and employers that do not comply with these mandates, (iv) expansion of private commercial insurance coverage generally through such reforms as prohibitions on denials of coverage for pre-existing conditions and elimination of lifetime or annual cost caps, and (v) expansion of existing public programs, including Medicaid, for individuals and families. The Congressional Budget Office (“CBO”) has estimated that in federal fiscal year 2015, 19 million consumers who are currently uninsured will become insured, followed by an additional 11 million consumers in federal fiscal year 2016. To the extent all or any of those provisions produce the expected result, an increase in utilization of health care services by those who are currently avoiding or rationing their health care can be expected and bad debt expenses may be reduced. Associated with increased utilization will be increased variable and fixed costs of providing health care services, which may or may not be offset by increased revenues.

Some of the specific provisions of the Health Care Reform Act that may affect hospital operations, financial performance or financial conditions, including those of the Members of the Obligated Group, are described below. This listing is not, is not intended to be, nor should be considered by the reader as, comprehensive. The Health Care Reform Act is complex and comprehensive, and includes a myriad of new programs and initiatives and changes to existing programs, policies, practices and laws. At this time, management of the Corporation cannot predict the aggregate effect of the Health Care Reform Act upon the Obligated Group, as a whole.

- Commencing upon enactment through September 30, 2019, the annual Medicare market basket updates for hospitals will be reduced. Beginning October 1, 2011, the market basket updates will be subject to productivity adjustments. The reductions in market based updates and the productivity adjustments will have a disproportionately negative effect upon those providers that are relatively more dependent upon Medicare than other providers. Additionally, the reductions in market basket updates will be effective prior to the periods during which insurance coverage and the insured consumer base will expand, which may have an interim negative effect on revenues. The combination of reductions to the market basket updates and the imposition of the productivity adjustments may, in some cases and in some years, result in reductions in Medicare payment per discharge on a year-to-year basis.
- Commencing October 1, 2010 through September 30, 2019, payments under the “Medicare Advantage” programs (Medicare managed care) will be reduced, which may result in increased premiums or out-of-pocket costs to Medicare beneficiaries enrolled in Medicare Advantage plans. Those beneficiaries may terminate their participation in those plans and opt for the traditional Medicare fee-for-service program. The reduction in payments to Medicare Advantage programs may also lead to decreased payments to providers by managed care companies operating Medicare Advantage programs. All or any of these outcomes will have a disproportionately negative effect upon those providers with relatively high dependence upon Medicare managed care revenues.
- Commencing October 1, 2012, a value-based purchasing program will be established under the Medicare program designed to provide incentive payments to hospitals based on performance on quality and efficiency measures. These incentive payments are funded through a pool of money collected from all hospital providers.
- Commencing October 1, 2013, Medicare disproportionate share hospital (“DSH”) payments will be reduced initially by 75%. DSH payments will be increased thereafter to account for the national rate of consumers who do not have health care insurance and are provided uncompensated care. Commencing October 1, 2013, each state’s Medicaid DSH allotment from federal funds will be reduced.
- Expansion of Medicaid programs to a broader population with incomes up to 133% of federal poverty levels. CBO has estimated that 16 million consumers who are currently uninsured will

become newly eligible for Medicaid through 2019 as a result of this expansion. Providers operating in markets with large Medicaid and uninsured populations are anticipated to benefit from increased revenues resulting from increased utilization and reductions in bad debt or uncompensated care. The increase in utilization can also be expected to increase in costs of providing that care, which may or may not be balanced by increased revenues.

- Commencing October 1, 2012, Medicare payments that would otherwise be made to hospitals that have a high rate of potentially preventable readmissions of Medicare patients for certain clinical conditions will be reduced by specified percentages to account for those excess and “preventable” hospital readmissions.
- Commencing October 1, 2014, Medicare payments to certain hospitals for hospital-acquired conditions will be reduced by 1%. Commencing July 1, 2011, federal payments to states for Medicaid services related to health care-acquired conditions will be prohibited.
- Commencing October 1, 2011, health care insurers will be required to include quality improvement covenants in their contracts with hospital providers, and will be required to report their progress on such actions to the Secretary of Health and Human Services (“HHS”). Commencing January 1, 2015, health care insurers participating in the health insurance exchanges will be allowed to contract only with hospitals that have implemented programs designed to ensure patient safety and enhance quality of care. The effect of these provisions upon the process of negotiating contracts with insurers or the costs of implementing such programs cannot be predicted.
- With varying effective dates, the Health Care Reform Act enhances the ability to detect and reduce waste, fraud, and abuse in public programs through provider enrollment screening, enhanced oversight periods for new providers and suppliers, and enrollment moratoria in areas identified as being at elevated risk of fraud in all public programs, and by requiring Medicare and Medicaid program providers and suppliers to establish compliance programs. The Health Care Reform Act requires the development of a database to capture and share health care provider data across federal health care programs and provides for increased penalties for fraud and abuse violations, and increased funding for anti-fraud activities.
- Effective for tax years commencing immediately after approval, additional requirements for tax-exemption will be imposed upon tax-exempt hospitals, including obligations to adopt and publicize a financial assistance policy; limit charges to patients who qualify for financial assistance to the amount generally charged to insured patients; and control the billing and collection processes. Additionally, effective for tax years commencing January 1, 2013, tax-exempt hospitals must conduct a community needs assessment and adopt an implementation strategy to meet those identified needs. Failure to satisfy these conditions may result in the imposition of fines and the loss of tax-exempt status.
- The establishment of an Independent Payment Advisory Board to develop proposals to improve the quality of care and limitations on cost increases. Beginning January 15, 2019, if the Medicare growth rate exceeds the target the Board is required to develop proposals to reduce the growth rate and require the Secretary of HHS to implement those proposals, unless Congress enacts legislation related to the proposals.

The Health Care Reform Act creates a Center for Medicare and Medicaid Innovation to test innovative payment and service delivery models and to implement various demonstration programs and pilot projects to test, evaluate, encourage and expand new payment structures and methodologies to reduce health care expenditures while maintaining or improving quality of care, including bundled payments under Medicare and Medicaid, and comparative effectiveness research programs that compare the clinical effectiveness of medical treatments and develop recommendations concerning practice guidelines and coverage determinations. Other provisions encourage the creation of new health care delivery programs, such as accountable care organizations or combinations of provider organizations, which voluntarily meet quality thresholds to share in the cost savings they achieve for the

Medicare program. The outcomes of these projects and programs, including their effect on payments to providers and financial performance, cannot be predicted.

Lawsuits have been filed and additional ones may be filed challenging the constitutionality of the Health Care Reform Act. Two federal district court judges of the United States District Court for the Eastern District of Virginia and the Northern District of Florida, respectively, have ruled that the “individual mandate,” requiring most individuals to maintain a minimum level of health insurance by 2014 or be subject to a penalty, is unconstitutional, with the District Court judge for the Northern District of Florida concluding that the entire Health Care Reform Act must be declared void. On March 3, 2011, the District Court judge for the Northern District of Florida stayed his ruling pending an appeal to the 11th Circuit U.S. Court of Appeals; an appeal was subsequently filed on March 8, 2011. Similar challenges filed in other District Courts have been dismissed but are on appeal and arguments in a number of other cases remain pending. In addition, on January 19, 2011, the United States House of Representatives approved a bill to overturn the Health Care Reform Act. However, on February 6, 2011, the U. S. Senate rejected a bill to repeal the Health Care Reform Act. The ultimate outcome of these lawsuits, and any additional legislative challenges, and their effect on the Health Care Reform Act is unknown.

Management of the Corporation is analyzing the Health Care Reform Act and will continue to do so in order to assess the effects of the legislation and evolving regulations on current and projected operations, financial performance and financial condition. However, management cannot predict with any reasonable degree of certainty or reliability any interim or ultimate effects of the legislation.

Nonprofit Healthcare Environment

The Obligated Group Members other than Wellmont, Inc. are nonprofit corporations, exempt from federal income taxation as organizations described in Section 501(c)(3) of the Internal Revenue Code of 1986, as amended (the “Code”). As nonprofit tax-exempt organizations, the Obligated Group Members other than Wellmont, Inc. are subject to federal, state and local laws, regulations, rulings and court decisions relating to their organization and operation, including their operation for religious and charitable purposes. At the same time, the Obligated Group Members conduct large-scale complex business transactions and are often the major employers in their geographic areas. There can often be a tension between the rules designed to regulate a wide range of charitable organizations and the day-to-day operations of a complex, multi-state healthcare organization.

Over the past several years, an increasing number of the operations or practices of healthcare providers have been challenged or questioned to determine if they are consistent with the regulatory requirements for nonprofit tax-exempt organizations. These challenges are broader than concerns about compliance with federal and state statutes and regulations, such as Medicare and Medicaid compliance, and instead in many cases are examinations of core business practices of the healthcare organizations. Areas which have come under examination have included pricing practices, billing and collection practices, charitable care, executive compensation, exemption of property from real property taxation, and others. These challenges and questions have come from a variety of sources, including state attorneys general, the Internal Revenue Service (the “IRS”), labor unions, Congress, state legislatures, and patients, and in a variety of forums, including hearings, audits and litigation. These challenges or examinations include the following, among others:

Congressional Hearings. In recent years, three congressional committees have conducted hearings and other proceedings inquiring into various practices of nonprofit hospitals and healthcare providers. The Health Care Reform Act, discussed above, contains many features from previous tax exemption reform proposals. It does not mandate specific levels of charity care for nonprofit hospitals, but it does include a set of sweeping changes applicable to charitable hospitals exempt under Section 501(c)(3) of the Code. The Health Care Reform Act (a) imposes new eligibility requirements for 501(c)(3) hospitals, coupled with an excise tax for failures to meet certain of those requirements; (b) requires mandatory IRS review of the hospital’s entitlement to exemption; (c) sets forth new reporting requirements, including information related to community health needs assessments and audited financial statements; and (d) imposes further reporting requirements on the Secretary of the Treasury regarding charity care levels.

Internal Revenue Service Examination of Compensation Practices. In August 2004, the IRS announced a new enforcement effort to identify and halt abuses by tax-exempt organizations that pay excessive compensation and

benefits to their officers and other insiders. The IRS announced that it would contact nearly 2,000 charities and foundations to seek more information about their compensation practices and procedures. In February 2009, the IRS issued its Hospital Compliance Project Final Report (the “IRS Final Report”) based on its examination of such tax-exempt organizations. The IRS Final Report indicates that the IRS (i) will continue to heavily scrutinize executive compensation arrangements, practices and procedures and (ii) in certain circumstances, may conduct further investigations or impose fines on tax-exempt organizations.

Litigation Relating to Billing and Collection Practices. Lawsuits have been filed alleging, among other things, that hospitals have failed to fulfill their obligations to provide charity care to uninsured patients and have overcharged uninsured patients. Many of these cases have since been dismissed by the courts but a number of cases are still pending in various courts around the country with inconsistent results. While it is not possible to make general predictions, some hospitals and health systems have entered into substantial settlements. Currently, no Obligated Group Members have been named as defendants in any action alleging failure to fulfill obligations to provide charity care to uninsured patients or overcharging uninsured patients.

Challenges to Real Property Tax Exemptions. Recently, the real property tax exemptions afforded to certain nonprofit healthcare providers by state and local taxing authorities have been challenged on the grounds that the healthcare providers were not engaged in charitable activities. These challenges have been based on a variety of grounds, including allegations of aggressive billing and collection practices and excessive financial margins. Several of these disputes have been determined in favor of the taxing authorities or have resulted in settlements. While the Corporation is not aware of any current challenge to the tax exemption afforded to any material real property of the Obligated Group Members, there can be no assurance that these types of challenges will not occur in the future.

The foregoing are some examples of the challenges and examinations facing nonprofit healthcare organizations. They are indicative of a greater scrutiny of the billing, collection and other business practices of these organizations, and may indicate an increasingly more difficult operating environment for healthcare organizations, including the Obligated Group. The challenges and examinations, and any resulting legislation, regulations, judgments, or penalties, could have a material adverse effect on the Obligated Group.

Charity Care

Hospitals are permitted to obtain tax-exempt status under the Code because the provision of health care historically has been treated as a “charitable” enterprise. This treatment arose before most Americans had health insurance, when charitable donations were required to fund the health care provided to the sick and disabled. Some commentators and others have taken the position that, with the onset of employer health insurance and governmental reimbursement programs, there is no longer any justification for special tax treatment for the health care industry, and the availability of tax-exempt status should be eliminated. Federal and state tax authorities are also beginning to demand that tax-exempt hospitals justify their tax-exempt status by documenting their charitable care and other community benefits.

As described above under the caption, “Health Care Reform,” the Health Care Reform Act imposes additional requirements for tax-exemption upon tax-exempt hospitals, including obligations to adopt and publicize a financial assistance policy; limit charges to patients who qualify for financial assistance to the amounts generally billed to insured patients; and control the billing and collection processes. Additionally, effective for tax years commencing after March 23, 2012, tax-exempt hospitals must conduct a community needs assessment and adopt an implementation strategy to meet those identified needs.

Failure to complete a community health needs assessment in any applicable three-year period can result in a penalty on the organization of up to \$50,000, in addition to possible revocation of status as a section 501(c)(3) organization.

The Health Care Reform Act also imposes new reporting and disclosure requirements on hospital organizations. The IRS is required to review information about a hospital’s community benefit activities at least once every three years. The Health Care Reform Act requires the Secretary of the Treasury, in consultation with the Secretary of HHS, to submit annually a report to Congress with information regarding the levels of charity care, bad debt expenses, unreimbursed costs of government programs, as well as costs incurred by tax-exempt hospitals for

community benefit activities. The Secretary of the Treasury, in consultation with the Secretary of HHS, must conduct a study of the trends in these amounts, and subject a report on such study to Congress not later than five years after the date of enactment of the Health Care Reform Act. These statutorily mandated requirements for periodic review and submission of reports relating to community benefit provided by section 501(c)(3) hospital organizations may increase the likelihood that Congress will consider additional requirements for section 501(c)(3) hospital organizations in the future and may increase IRS scrutiny of particular 501(c)(3) hospital organizations.

Parity Debt and Additional Indebtedness

The Bonds are secured under the Master Indenture on a parity with (a) approximately \$360,581,415 aggregate outstanding principal amount of other long-term Indebtedness and (b) any Additional Indebtedness (as defined in APPENDIX C) issued, from time to time, under and pursuant to the Master Indenture. Additional debt, whether or not secured by the Master Indenture, will increase debt service requirements and could adversely affect debt service coverage on the Bonds and the availability of the Obligated Group to meet its obligations under the Series 2011 Obligation.

Limitations on Enforcement

The enforcement of the Indenture, the security interest in the funds held by the Trustee granted therein, and the rights of the Trustee in funds held under the Indenture may be limited by a number of factors, including: (a) provisions prohibiting the direct payment of amounts due to healthcare providers from Medicaid and Medicare programs to persons other than such providers; (b) certain judicial decisions which cast doubt upon the right of the Trustee, in the event of the bankruptcy of the Corporation or the Obligated Group, to collect and retain accounts receivable from Medicare, TennCare, Medicaid, and other governmental programs; (c) state and federal laws giving super priority to certain kinds of statutory liens, such as tax liens; (d) rights arising in favor of the United States of America or any agency thereof; (e) constructive trusts, equitable or other rights impressed or conferred by a federal or state court in the exercise of its equitable jurisdiction; (f) Bankruptcy Laws which may affect the right of the Trustee to collect and retain accounts receivable from Medicare, TennCare, Medicaid and other governmental programs; (g) state laws affecting the continuation of perfected and first priority security interests granted by the Corporation, the Obligated Group or the Issuer, including the Deed of Trust; and (h) claims that might arise if appropriate financing or continuation statements are not filed in accordance with the Uniform Commercial Code as from time to time in effect in Tennessee and Virginia.

The ability of the Trustee to enforce the terms and agreements set forth in the Loan Agreement and in the Series 2011 Obligation may be limited by laws relating to bankruptcy, insolvency, reorganization or moratorium and by other similar laws affecting creditors' rights. In addition, the Trustee's ability to enforce such terms will depend upon the exercise of various remedies specified by such document which may in many instances require judicial actions that are often subject to discretion and delay or that otherwise may not be readily available or be limited.

The remedies available to the Trustee or to the Owners of the Bonds upon an event of default under the Indenture are in many respects dependent upon judicial actions which are often subject to discretion and delay. Under existing constitutional and statutory law and judicial decisions, including specifically the Bankruptcy Law, the remedies provided in the Indenture and under the Bonds may not be readily available or may be limited.

The Corporation and the Obligated Group

General. The ability of the Corporation to make the payments under the Loan Agreement, the Obligated Group to make payments on the Series 2011 Obligation sufficient to provide debt service on the Bonds and the Obligated Group to make other payments provided for under the Master Indenture depends solely upon the receipt by the Corporation and the Obligated Group of sufficient revenues from their operations in excess of their expenses of operation. A number of risks which could prevent the Corporation and the Obligated Group from receiving such amounts are outlined below. No representation or assurance can be given that revenues will be realized by the Corporation in amounts sufficient to pay principal of, premium, if any, and interest on the Bonds or the Obligated Group in amounts sufficient to pay the Series 2011 Obligation and the other amounts owed under the Master Indenture. Future economic and other conditions, including demand for healthcare services, the ability of the Corporation and the Obligated Group to provide the services required by patients, physicians' confidence in the

Corporation and the Obligated Group, return on investments made by the Corporation, including investments in other enterprises, economic developments in the service area and competition from other healthcare institutions in the service area, together with changes in rates, costs, third party reimbursement and governmental regulation, may adversely affect revenues and expenses and, consequently, the Corporation's and the Obligated Group's ability to make such payments. The future financial condition of the Corporation and the Obligated Group could also be adversely affected by, among other things, legislation, regulatory actions, increased competition from other healthcare providers, demand for healthcare services, demographic changes, changes in the local economy, the increasing cost of malpractice insurance, malpractice claims and other litigation and a number of other conditions which are unpredictable.

While an identification of all additional risk factors possibly affecting operations of the Corporation and the Obligated Group in the future cannot be accomplished, a discussion of certain risk factors follows. This discussion of risk factors is not, and is not intended to be, exhaustive. Some of the changes that are possible in the future include the following:

(a) Legislation or regulations, including federal healthcare reform legislation, which could increase the operating costs of the Corporation and the Obligated Group or further limits the payment of operating costs and the payment or reimbursement of capital costs, would adversely affect the operating costs of the Corporation and the Obligated Group.

(b) Reductions in the funding levels and reimbursement levels of the Medicare, TennCare or Medicaid programs and other legislative and regulatory changes which further reduce Medicare, TennCare or Medicaid reimbursement to hospitals. See "Patent Service Revenues - Medicare and Medicaid Programs" herein.

(c) Future contract negotiations between the Corporation and the Obligated Group, and public and private insurers, health maintenance organizations and preferred provider organizations and efforts of other entities and employers to limit hospitalization costs which could adversely affect the utilization and the level of reimbursement to the Corporation and the Obligated Group.

(d) Increased unemployment or other adverse economic conditions increased cost and decreased availability of health insurance which could increase the proportion of patients who are uninsured or who are otherwise unable to pay fully for the cost of their care, and increased numbers of patients suffering from uninsured illnesses.

(e) There have been and may be in the future a number of state and federal legislative proposals and enactments which have as one of their principal purposes the stimulation of competition in the healthcare industry. Competition from healthcare providers located in the service area of the Corporation and the Obligated Group, from other types of healthcare providers that may offer comparable healthcare services and from alternative or substitute healthcare delivery systems or programs, may decrease utilization of the Corporation's and the Obligated Group's healthcare facilities. In addition, the development of future medical and other scientific advances may result in decreased usage of inpatient hospital facilities. Efforts by insurers, employer-purchasers of healthcare insurance and governmental agencies to reduce utilization of hospital facilities by such means as preventive medicine, improved occupational health and safety standards, the possibility of future unionization and more extensive utilization of outpatient care at facilities not related to the healthcare facilities of the Corporation and the Obligated Group could adversely affect the operations of the Corporation and the Obligated Group. Also, the growth and development of health maintenance organizations, preferred provider organizations and other managed care programs may result in decreased usage of inpatient Corporation and Obligated Group facilities.

(f) In recent years, numerous hospitals have closed their doors, annual admissions to hospitals have dropped and annual patient days have been reduced. In addition to competition from other facilities, a number of other factors have been reducing hospitalization nationwide and in Tennessee. Physicians' practice patterns indicate a trend to fewer inpatient admissions and shorter length of stay for those who are admitted. Third-party payors such as Medicare, Medicaid and Blue Cross have exerted

efforts to contain their costs by reviewing and questioning the need for certain inpatient admissions and the length of hospital stays. Insurers and managed care organizations are attempting to use various cost control methods to attempt to provide employers with adequate but low cost insurance programs for their employees. To minimize the cost of such health insurance programs, insurers and managed care organizations are offering products which include such elements as higher deductibles, pre-admission review, concurrent hospital review, retrospective review and other provisions, which tend to reduce hospital admissions and stays and, accordingly, healthcare revenues. It is impossible to predict at this time the extent to which such trends and actions will affect the Corporation and the Obligated Group and its operations.

(g) Operation of certain healthcare facilities of the Corporation and the Obligated Group necessitates the production of waste products, including certain radioactive wastes, infectious wastes and hazardous wastes as defined in federal and state laws. As the generator of these wastes, the Corporation and the Obligated Group are responsible for compliance with applicable federal, state and local laws and regulations, including the proper handling, labeling, storage, transport and disposal of the wastes, and may incur liability without regard to fault or remedial actions and for personal injury and property damage related to a release or threatened release of these wastes. Such liability could be substantial and may adversely affect the Corporation's and the Obligated Group's financial condition.

(h) Availability of nurses and other qualified healthcare technicians and personnel is an important factor to the Corporation and the Obligated Group. Healthcare facilities nationwide are experiencing a shortage in the number of nurses available and qualified to perform nursing services. The nursing shortage has forced many hospitals to increase nursing salaries and has caused some to cut back operations. Efforts to organize nurses and other nursing and technical personnel into collective bargaining units have resulted at times in adverse labor actions and conditions. The occurrence of any of these events could adversely impact future operations of the Corporation and the Obligated Group.

(i) Unforeseen labor actions could result in a substantial decrease in revenues of the Corporation and the Obligated Group without corresponding decreases in costs.

(j) The occurrence of natural disasters, including hurricanes, floods and earthquakes, may damage the Corporation and the Obligated Group, interrupt utility service thereto, or otherwise impair Corporation and Obligated Group operations and the generation of revenues therefrom. Although the Corporation and the Obligated Group are covered by general property insurance in an amount which management considers to be sufficient to provide for the replacement of such facilities in the event of such a natural disaster, there is no assurance that such insurance would in fact be adequate to do so.

(k) Availability of revenues in the event of bankruptcy of the Corporation, the Obligated Group or related entities. Certain judicial decisions have cast doubt upon the right of a bond trustee, in the event of a hospital's bankruptcy, to collect and retain for the benefit of Bondholders portions of revenues consisting of Medicare, TennCare, Medicaid and other governmental receivables.

(l) Potential depletion of the Medicare Trust Fund, as projected by various studies.

(m) The cost and availability of medical malpractice insurance for medical personnel working or practicing in the hospitals.

(n) Other risk factors may also affect the operation of the Corporation and the Obligated Group, including without limitation the following: (1) the cost and availability of energy; (2) the cost and availability of insurance, such as fire, general comprehensive liability and excess liability, that healthcare facilities of a similar size and type generally carry; (3) uninsured acts of God; (4) imposition of wage and price controls for the healthcare industry; (5) decrease in population in the Corporation's and the Obligated Group's service areas; (6) reduced need for services arising from future medical and scientific advances; (7) preventive medicine; (8) improved occupational health and safety and improved outpatient care which could result in decreased usage of Corporation and Obligated Group facilities; (9) the impact of a pandemic or other need for surge capacity at Corporation and Obligated Group facilities and (10) an increase in the

rate of inflation and difficulties in increasing service charges and other fees, while at the same time maintaining the quantity and quality of healthcare services, may affect the ability of the Corporation and the Obligated Group to maintain sufficient operating margins.

Financial Information. Certain financial and operating information in connection with the Obligated Group (which includes the Corporation) is set forth in APPENDICES A and B. There can be no assurance that the financial results achieved by the Obligated Group in the future will be similar to historical results set forth in APPENDICES A and B. Such future results will vary from historical results, and actual variations may be material. Therefore, the historical operating results of the Obligated Group cannot be taken as a representation that the Corporation will be able to generate sufficient revenues in the future to make payment of principal of, premium, if any, and interest on the Bonds, that the Corporation will be able to generate sufficient revenues in the future to make payments on the Series 2011 Obligation and that the Obligated Group will be able to generate sufficient revenues in the future to make payment on the other indebtedness owed under the Master Indenture.

Risks Related to Corporation and Obligated Group Operations. Through various changes in governmental policy, advances in technology and treatment, increased costs of operations, increased charges, changes in payment methodology, utilization review and greater competition, inpatient hospitalizations have generally decreased in recent years. It is uncertain whether that decrease will continue, and to what extent the factors mentioned above will continue to create operational and economic uncertainty for hospitals. It is now generally acknowledged that hospital operations pose greater complexity and higher risk than in years past and this trend is expected to continue. It is not practical to enumerate each and every operating risk which may result from hospital operations, and certain risks or combinations of risks which are now unanticipated may have material adverse results in the future. Certain risks relating to hospital operations are enumerated below.

Equipment. Technological advances in recent years have accelerated the trend toward the use of sophisticated diagnostic and treatment equipment in hospitals. The availability of certain equipment may be a significant factor in hospital utilization, but in the near future purchase of such equipment may be subject to health planning agency approval on the federal or state level and the ability of the Corporation and the Obligated Group to finance such purchases. The cost of acquiring and maintaining such equipment may affect the ability of Corporation and Obligated Group to maintain sufficient operating margins. There is also the risk of material adverse impact from problems in implementing technology, in particular health care information systems.

Competition. The Corporation's and the Obligated Group's costs and revenues could be substantially affected by future changes in the number and mix of both patients and services brought about by increased competition among healthcare providers and insurers. This competition could take several different forms, including:

- (a) Competition among hospitals to sell their services more cheaply to third-party payors;
- (b) Competition from existing hospitals in the Corporation's and the Obligated Group's service area and from tertiary facilities in surrounding urban centers to offer new services or expand existing services or to reduce charges;
- (c) Competition from nursing homes, home health agencies, ambulatory care facilities, surgical centers, rehabilitation and therapy centers, increasingly sophisticated physician group practices, and other non-hospital providers for many services for which patients currently rely on hospitals;
- (d) Competition for patients from freestanding specialty hospitals which tend to provide only medical procedures with a high financial return, such as orthopedics, thus siphoning off potential revenue from full-service acute care hospitals;
- (e) Competition for patients between physicians, who generally use hospitals, and non-physician practitioners such as nurse-midwives, nurse practitioners, chiropractors, physical and occupational therapists and others, who may not generally use hospitals;

(f) Competition for enrollees between traditional indemnity insurers, whose members generally have a free choice of hospitals and other providers, and health maintenance organizations or other prepaid plans, who either own their own hospitals or contract with hospitals and other providers and thus substantially restrict the providers from whom their members can receive healthcare services; and

(g) Competition from proprietary providers of healthcare, which proprietary providers may have access to equity capital markets to obtain funds with which to compete under financing instruments which generally do not restrict the operational flexibility of such providers to the degree that the tax-exempt capital market restricts the operations of the Corporation and the Obligated Group.

Medical Staff. A significant portion of the Corporation's and the Obligated Group's revenue is derived from charges to patients, or reimbursement from third-party intermediaries on behalf of patients, for treatment delivered to patients admitted to the Corporation's and the Obligated Group's healthcare facilities by members of its medical staff. There is no assurance that the medical staff will continue to do so, or, if they continue to do so, to do so in the same manner and numbers as before. Each physician on the medical staff has the option of admitting a particular patient, with the patient's consent, to one or another acute care hospital with which the physician is or may become affiliated.

Environmental Laws and Regulations. Healthcare providers are subject to a wide variety of federal, state and local environmental and occupational health and safety laws and regulations which address, among other things, provider operations or facilities and properties owned or operated by providers. The types of regulatory requirements faced by healthcare providers include, but are not limited to, air and water quality control requirements, waste management requirements, specific regulatory requirements applicable to asbestos, polychlorinated biphenyls, radioactive substances and other hazardous substances, requirements for providing notice to employees and members of the public about hazardous materials handled by or located at the Corporation's and the Obligated Group's facilities and requirements for training employees in the proper handling and management of hazardous materials and wastes.

In their role as owners and/or operators of properties or facilities, healthcare providers may be subject to liability for investigating and remediating any hazardous substances which have come to be located on the property, including any such substances that may have migrated off the property. Typical healthcare provider operations include, but are not limited to, in various combinations, the handling, use, storage, transportation, incineration, disposal and/or discharge of hazardous, infectious, toxic, radioactive, flammable and other hazardous materials, wastes, pollutants or contaminants. As such, healthcare provider operations are particularly susceptible to the practical, financial and legal risks associated with compliance with such laws and regulations. Such risks may result in damage to individuals, property or the environment, may interrupt operations and/or increase their cost, result in legal liability, damages, injunctions or fines, and result in investigations, administrative proceedings, penalties or other governmental agency actions.

At the present time, management of the Corporation and the Obligated Group is not aware of any pending or threatened claim, investigation or enforcement action regarding environmental issues which, if determined adversely to the Corporation and the Obligated Group, would have material adverse consequences to the operations or financial condition of the Corporation and the Obligated Group. There can be no assurance given, however, that the Corporation and the Obligated Group will not encounter environmental risks in the future, and such risks may result in material adverse consequences to the operations or financial condition of the Corporation and the Obligated Group.

Malpractice Insurance. The Corporation has malpractice and other insurance providing coverage in amounts that it has determined to be adequate to protect its property and operations. Malpractice and other claims, however, could adversely affect the financial position of the Corporation and the Obligated Group, as could substantial increases in the cost of malpractice insurance. There are currently no claims against the Hospital that exceed its insurance coverage limits.

Certain Bankruptcy Risks

In the event of bankruptcy of an Obligated Group Member, the rights and remedies of the Holders of the Bonds are subject to various provisions of the United States Bankruptcy Code. If an Obligated Group Member were to commence a proceeding in bankruptcy, payments made by that Obligated Group Member during the 90-day (or, in some circumstances, one-year) period immediately preceding the commencement may be avoided as preferential transfers to the extent payments allow the recipients thereof to receive more than they would have received in the event of the Obligated Group Member's liquidation and the other requirements set forth in Section 547(b) of the United States Bankruptcy Code have been met. Security interests and other liens granted to or perfected by a Trustee or the Master Trustee during the preference period may also be avoided as preferential transfers to the extent the security interest or other lien secures obligations that arose prior to the date of the grant or perfection. Such a bankruptcy filing would result in the imposition of an automatic stay of the commencement or continuation of any judicial or other proceeding against the Obligated Group Member and its property, and as an automatic stay of any act or proceeding to enforce a lien upon or to otherwise exercise control over its property as well as various other actions to enforce, maintain or enhance the rights of a Trustee and the Subordinate Master Trustee. If the bankruptcy court so ordered, the property of the Obligated Group Member could be used for the reorganization of the Obligated Group Member despite any security interest of the Trustee therein. The rights of the Trustee and the Master Trustee to enforce their respective interests and other liens could be delayed or altered during the pendency of the reorganization.

Such Obligated Group Member could file a plan for the adjustment of its debts in any bankruptcy proceeding which could include provisions modifying or altering the rights of creditors generally, or any class of them, secured or unsecured. The plan, when confirmed by a court, would bind all creditors who had notice or knowledge of the plan and, with certain exceptions, discharges all claims against the debtor to the extent provided for in the plan. No plan may be confirmed unless certain conditions are met, among which are conditions that the plan be feasible and that it shall either have been accepted by each class of claims impaired thereunder or, if the plan is not so accepted, the court shall have determined that the plan is fair and equitable with respect to each class of nonaccepting creditors impaired thereunder and does not discriminate unfairly. A class of claims has accepted the plan if at least two-thirds in dollar amount and more than one-half in number of the class cast votes in its favor.

In addition, the bankruptcy of a health plan or physician group that is a party to a significant managed care arrangement with one or more of the Obligated Group Members could have material adverse effects on the Obligated Group Members.

In the event of bankruptcy or insolvency of an Obligated Group Member, there is no assurance that certain covenants, including tax covenants, contained in the Indenture, the Loan Agreement or the Master Indenture and certain other documents would survive. Accordingly, a debtor or bankruptcy trustee could take action that would adversely affect the exclusion of interest on the Bonds from gross income of the Bondholders for federal income tax purposes.

Patient Service Revenues

Net patient revenues realized by the Obligated Group are derived from a variety of sources and will vary among the individual facilities owned and operated by the Obligated Group Members and also among the various market areas and regions in which the facilities are located. Certain facilities and regions may realize substantially more revenues from private payment programs, such as managed care organizations, than do others.

A substantial portion of the net patient service revenues of the Obligated Group is derived from third-party payors which pay for the services provided to patients covered by third parties for services. These third-party payors include the federal Medicare program, state Medicaid programs (including TennCare) and private health plans and insurers, including health maintenance organizations and preferred provider organizations. Many of those programs make payments to Members of the Obligated Group in amounts that may not reflect the direct and indirect costs of the Members of providing services to patients.

The financial performance of the Obligated Group has been and could be in the future adversely affected by the financial position or the insolvency or bankruptcy of or other delay in receipt of payments from third-party payors that provide coverage for services to their patients.

Medicare, Medicaid and TennCare Programs

Medicare and Medicaid are the commonly used names for reimbursement or payment programs governed by certain provisions of the federal Social Security Act. Medicare is an exclusively federal program, and Medicaid is a combined federal and state program. Medicare provides certain health care benefits to beneficiaries who are 65 years of age or older, blind, disabled or qualify for the End Stage Renal Disease Program. Medicare Part A covers inpatient hospital services, skilled nursing care and some home health care, and Medicare Part B covers physician services and some supplies. Medicaid is designed to pay providers for care given to the medically indigent and others who receive federal aid. Medicaid is funded by federal and state appropriations and administered by the various states. As further discussed under the caption "Medicaid - Tennessee Medicaid Alternative" below, Tennessee implemented a program named TennCare as a Medicaid alternative in 1994. TennCare is a demonstration program under a Section 1115 waiver granted by the Centers for Medicare and Medicaid Services, ("CMS"). For the six months ended December 31, 2010, approximately 31% of the net patient service revenue of the Obligated Group was derived from the Medicare program and approximately 10% of the Obligated Group's net patient service revenue was derived from the combined Medicaid and TennCare programs.

Medicare

Medicare is a federal governmental health insurance system under which physicians, hospitals and other health care providers are reimbursed or paid directly for services provided to eligible elderly and disabled persons and persons with end-stage renal disease. Medicare is administered by CMS. In order to achieve and maintain Medicare certification, a health care provider must meet CMS's "Conditions of Participation" on an ongoing basis, as determined by the state in which the provider is located and/or The Joint Commission ("The Joint Commission") or the Healthcare Facilities Accreditation Program. The federal government frequently revises the laws, regulations and policies governing Medicare eligibility, coverage, payment and participation under the Medicare program. At this time, it is not known whether future changes to such laws, regulations or policies will have a material adverse financial effect on the Obligated Group.

The Obligated Group depends significantly on Medicare as a source of revenue. Because of this dependence, changes in the Medicare program may have a material effect on the Obligated Group. Future reductions in Medicare reimbursement, or increases in Medicare reimbursement in amounts less than increases in the costs of providing care, may have a material adverse financial effect on the Obligated Group.

A substantial portion of the Medicare revenues of the Obligated Group is derived from payments made for services rendered to Medicare beneficiaries under a prospective payment system, or PPS. Under a prospective payment system, the amount paid to the provider for an episode of care is established by federal regulation and is not related to the provider's charges or costs of providing that care. Presently, inpatient and outpatient services, skilled nursing care, and home health care are paid on the basis of a prospective payment system. Under inpatient PPS, fixed payment amounts per inpatient discharge are established based on the patient's assigned diagnosis related group, or DRG. DRGs classify treatments for illnesses according to the estimated intensity of hospital resources necessary to furnish care for each principal diagnosis. All services paid under the PPS for hospital outpatient services are classified into groups called ambulatory payment classifications, or APCs. Services in each APC are similar clinically and in terms of the resources they require. A payment rate is established for each APC. The capital component of care is paid on a fully prospective basis.

PPS-exempt hospitals and units (inpatient psychiatric, rehabilitation and long-term hospital services) are currently reimbursed for their reasonable costs, subject to a cost per discharge target. These limits are updated annually by an index generally based upon inflationary increases in costs of providing health care services.

From time to time, the factors used in calculating the prospective payments for units of service are modified by CMS, which may reduce revenues for particular services. Additionally, as part of the federal budgetary process, Congress has regularly amended the Medicare law to reduce increases in payments that are otherwise

scheduled to occur, or to provide for reductions in payments for particular services. These actions could adversely affect the revenues of the Obligated Group.

In the Prospective Payment Final Rule for 2008 and in the Prospective Payment Final Rule for 2009 (together, the “IPPS Rules”), CMS included provisions preventing hospitals from assigning patient cases to DRGs with higher payments where a secondary diagnosis warranting higher payment is one of several specified health conditions and was acquired in the hospital. Specifically, the IPPS Rules identify certain conditions, including certain infections and serious preventable errors (“never events”), for which CMS will not reimburse hospitals unless the conditions were present at the time of admission. CMS has also announced its intent to identify additional conditions for which higher payment will be unavailable. Various HMOs and other private insurers have followed suit in refusing to pay for certain hospital-acquired conditions. There can be no assurance that these future payment limitations will not adversely affect the revenues of the Obligated Group. Never events may be more likely to be publicized and may negatively impact a hospital’s reputation, thereby reducing future utilization and potentially increasing the possibility of liability claims.

Additional payments may be made to individual providers. Hospitals that treat a disproportionately large number of low-income patients (Medicaid and Medicare patients eligible to receive supplemental Social Security income) currently receive additional payments in the form of disproportionate share payments. Additional payments are made to hospitals that treat patients who are costlier to treat than the average patient; these additional payments are referred to as “outlier payments.” Eligible hospitals are paid for a portion of their direct and indirect medical education costs. These additional payments are also subject to reductions and modifications in otherwise scheduled increases as a result of amendments to relevant statutory provisions.

The costs of providing a unit of care may exceed the revenues realized from Medicare for providing that service. Additionally, the aggregate costs to a provider of providing care to Medicare beneficiaries may exceed aggregate Medicare revenues received during the relevant fiscal period.

Medicare Audits. Hospitals participating in Medicare are subject to audits and retroactive audit adjustments with respect to reimbursements claimed under the Medicare program. The Members of the Obligated Group receive payments for various services provided to Medicare patients based upon charges or other reimbursement methodologies that are then reconciled annually based upon the preparation and submission of annual cost reports. Estimates for the annual cost reports are reflected as amounts due to/from third-party payors and represent several years of open cost reports due to time delays in the fiscal intermediaries’ audits and the basic complexity of billing and reimbursement regulations. These estimates are adjusted periodically based upon correspondence received from the fiscal intermediary. Medicare regulations also provide for withholding Medicare payment in certain circumstances if it is determined that an overpayment of Medicare funds has been made. In addition, under certain circumstances, payments may be determined to have been made as a consequence of improper claims subject to the Federal False Claims Act or other federal statutes, subjecting the Members of the Obligated Group to civil or criminal sanctions. Management of the Corporation is not aware of any situation whereby a material Medicare payment is being withheld from the Members of the Obligated Group.

CMS enlists Recovery Audit Contractors (“RACs”) to further assure accurate payments to providers. RACs search for potentially improper Medicare payments from prior years that may not have been detected through CMS’s existing program integrity efforts. RACs are private contractors, paid on a contingency fee basis and use their own software and review processes to determine areas for review. Once a RAC identifies a potentially improper claim as a result of an audit, it applies an assessment to the provider’s Medicare reimbursement in an amount estimated to equal the overpayment from the provider pending resolution of the audit. Such audits may result in reduced reimbursement for past alleged overpayments and may slow future Medicare payments to providers pending resolution of appeals process with RACs. Under the Health Care Reform Act, recovery audits were expanded to include Medicaid by requiring states to contract with RACs to conduct such audits. It is unknown what, if any, future impact such reviews will have on the revenues of the Obligated Group. See the caption, “Health Care Reform,” above for changes to the Medicare program in the Health Care Reform Act.

Medicaid

Tennessee Medicaid Alternative. Effective January 1, 1994, Tennessee implemented a healthcare program as an alternative to traditional Medicaid called TennCare. The principal elements of TennCare that distinguish it from Medicaid include: eligibility standards, the nature and content of the standard benefit package, the organization of health services delivery, the methodology of payment and requirement for global budgeting, and preventive care features.

Medicare waiver programs such as TennCare are time-limited, and TennCare's current waiver is set to expire on June 30, 2013 unless it is renewed.

The current TennCare program consists of two programs: (1) TennCare Medicaid, which is for persons who are Medicaid eligible, and (2) TennCare Standard, which is for persons who are not Medicaid eligible but who have been determined to meet the state's criteria as being either uninsured or uninsurable. Historically, individuals in both programs have received the same services. TennCare Standard enrollees with family incomes at or above poverty are required to pay premiums and copays.

TennCare services are offered through several managed care entities. Each enrollee has a Managed Care Organization (MCO) for his primary care and medical/surgical services, a Behavioral Health Organization (BHO) for his mental health and substance abuse treatment services, and a Pharmacy Benefits Manager (PBM) for his pharmacy services. Children under the age of 21 are eligible for dental services, which are provided by a Dental Benefits Manager (DBM). Enrollees are allowed to choose the MCO they wish from among those available in the areas in which they live.

MCOs have traditionally been compensated based on a per member, per month capitation fee for each enrollee, regardless of how many services the enrollee used. However beginning in July 2002, TennCare began utilizing an Administrative Services Only ("ASO") compensation structure. The ASO structure requires MCOs to submit invoices to TennCare for payment of medical services delivered in order to receive a fixed administrative fee.

Because TennCare includes quality monitoring as well as efficiency monitoring, together with limitations on payments, it is expected to cause downward pressure on the economics of healthcare delivery. In addition, TennCare limits payments for educational services, such as those offered by medical schools. Furthermore, funding for hospitals in urban areas which deliver higher levels of acute care may not be adequate to meet the needs of such hospitals. It cannot be predicted whether the funding sources for TennCare will be adequate to meet the funding needs of the program; therefore, if TennCare utilization increases, the financial performance of the providers will be adversely affected. In fiscal year 2010 the Obligated Group received approximately 6% of its gross patient revenues from the treatment of TennCare inpatients and outpatients.

The management of the Obligated Group estimates that the System is paid approximately 60-70 cents on each dollar spent to care for TennCare and Medicaid patients. Treatment of TennCare and Medicaid patients accounted for 13% of the Obligated Group's gross patient service revenues for the fiscal year ended June 30, 2010.

Payments for services provided by the Corporation and the Obligated Group to TennCare beneficiaries are the sole responsibility of the managed care organizations contracting for such services. No assurance can be given that the managed care organizations will be financially able to pay all amounts owed the Corporation or that such amounts will be timely paid.

State Children's Health Insurance Program

The State Children's Health Insurance Program ("SCHIP") is a federally funded insurance program for families which are financially ineligible for Medicaid, but cannot afford commercial health insurance. The CMS administers SCHIP, but each state creates its own program based upon minimum federal guidelines. SCHIP insurance is provided through private health plans contracting with the state.

Each state must periodically submit its SCHIP plan to CMS for review to determine if it meets the federal requirements. If it does not meet the federal requirements, a state can lose its federal funding for the program.

Private Health Plans and Managed Care

Managed care plans generally use discounts and other economic incentives to reduce or limit the cost and utilization of health care services. Payments to the Obligated Group from managed care plans typically are lower than those received from traditional indemnity/commercial insurers. Defined broadly, for the six months ended December 31, 2010, managed care payments constituted approximately 35% of the net patient service revenues of the Obligated Group. There is no assurance that the members of the Obligated Group will maintain managed care contracts or obtain other similar contracts in the future. Failure to maintain contracts could have the effect of reducing the market share of a member of the Obligated Group and the Obligated Group's net patient services revenues. Conversely, participation may maintain or increase the patient base but could result in lower net income or operating losses to the Obligated Group if the members are unable to adequately contain their costs.

The Corporation's management anticipates that the Health Care Reform Act will substantially alter the commercial health care insurance industry. The Health Care Reform Act imposes, over time, increased regulation of the industry, the use and availability of state-based exchanges in which health insurance can be purchased by certain groups and segments of the population, the extension of subsidies and tax credits for premium payments by some consumers and employers and the imposition upon commercial insurers of certain terms and conditions that must be included in contracts with providers. In addition, the Health Care Reform Act imposes many new obligations on states related to health care insurance. It is unclear how the increased federal oversight of state health care may affect future state oversight or affect the Corporation and the other Members of the Obligated Group. The effects of these changes upon the financial condition of any third-party payor that offer health care insurance, rates paid by third-party payors to providers and thus the revenues of the Obligated Group, and upon the operations, results of operations and financial condition of the Obligated Group cannot be predicted.

Many preferred provider organizations, or PPOs, and health maintenance organizations, or HMOs, currently pay providers on a negotiated fee-for-service basis or on a fixed rate per day of care, which, in each case, usually is discounted from the typical charges for the care provided. The discounts offered to HMOs and PPOs may result in payment to a provider that is less than its actual cost. Additionally, the volume of patients directed to a hospital may vary significantly from projections, and/or changes in the utilization of certain services offered by the provider may be dramatic and unexpected, thus further jeopardizing the provider's ability to contain costs.

Some HMOs employ a "capitation" payment method under which hospitals are paid a predetermined periodic rate for each enrollee in the HMO who is "assigned" or otherwise directed to receive care at a particular hospital. In a capitation payment system, the hospital assumes a financial risk for the cost and scope of care given to the HMO's enrollees. In some cases, the capitated payment covers total hospital patient care provided. However, if payment under an HMO or PPO contract is insufficient to meet the hospital's costs of care or if utilization by enrollees materially exceeds projections, the financial condition of the hospital could erode rapidly and significantly.

As a consequence of the above factors, the effect of managed care on the Obligated Group's financial condition is difficult to predict and may be different in the future than the financial statements for the current periods reflect.

Dependence Upon Third-Party Payors

The Obligated Group Members' ability to develop and expand their services and, therefore, profitability, is dependent upon their ability to enter into contracts with third-party payors at competitive rates. There can be no assurance that they will be able to attract third-party payors, and where they do, no assurance can be given that they will be able to contract with such payors on advantageous terms. The inability of the Obligated Group Members to contract with a sufficient number of such payors on advantageous terms could have a material adverse effect on the Obligated Group Members' future operations and financial results.

Alternative or Integrated Delivery System Development

Many hospitals and health systems are pursuing strategies with physicians in order to offer an integrated package of health care services, including physician and hospital services, to patients, health care insurers and managed care providers. The Health Care Reform Act encourages the development of health care delivery models that are designed to enhance quality and reduce cost and that will effectively require greater integration between and collaboration among hospitals and physicians by allowing accountable care organizations (“ACOs”) that meet quality thresholds to share in the savings achieved for the Medicare Program. The Health Care Reform Act requires the Secretary of HHS to implement a shared savings program through ACOs requiring integration between hospitals and physicians, that will deliver health care services to Medicare beneficiaries, and to implementation a demonstration project to develop ACOs for pediatric patients under the Medicaid program.

In addition to ACOs, these integration strategies may take many forms, including management service organizations, or MSOs, which may provide physicians or physician groups with a combination of financial and managed care contracting services, office and equipment, office personnel and management information systems. Integration objectives may also be achieved via physician-hospital organizations, or PHOs, organizations which are typically jointly owned or controlled by a hospital and physician group for the purpose of managed care contracting, implementation and monitoring. Other integration structures include hospital-based clinics or medical practice foundations, which may purchase and operate physician practices as well as provide all administrative services to physicians. Many of these integration strategies are capital intensive and may create certain business and legal liabilities for the related hospital or health system.

Often the start-up capitalization for such developments, as well as operational deficits, are funded by the sponsoring hospital or health system. Depending on the size and organizational characteristics of a particular development, these capital requirements may be substantial. In some cases, the sponsoring hospital or health system may be asked to provide a financial guarantee for the debt of a related entity which is carrying out an integrated delivery strategy. In certain of these structures, the sponsoring hospital or health system may have an ongoing financial commitment to support operating deficits, which may be substantial on an annual or aggregate basis.

These types of integrated delivery developments are generally designed to conform to existing trends in the delivery of medicine, to implement anticipated aspects of health care reform, to increase physician availability to the community and/or enhance the managed care capability of the affiliated hospital and physicians. However, these goals may not be achieved, and, if the development is not functionally successful, it may produce materially adverse results that are counterproductive to some or all of the above-stated goals.

All such integrated delivery developments carry with them the potential for legal or regulatory risks in varying degrees. Such developments may call into question compliance with the Medicare fraud and abuse laws, relevant antitrust laws and federal or state tax exemption. Such risks will turn on the facts specific to the implementation, operation or future modification of any integrated delivery system. MSOs which operate at a deficit over an extended period of time may raise significant risks of investigation or challenge regarding the tax-status of health care providers participating in MSOs or compliance with the Medicare fraud and abuse laws. In addition, depending on the type of development, a wide range of governmental billing and other issues may arise, including questions of the authorization of the entity to bill for or on behalf of the physicians involved. Other related legal and regulatory risks may arise, including employment, pension and benefits, and corporate practice of medicine, particularly in the current atmosphere of frequent and often unpredictable changes in federal and state legal requirements regarding health care and medical practice. The potential impact of any such regulatory or legal risks on the Obligated Group Members cannot be predicted with certainty. There can be no assurance that such issues and risks will not lead to material adverse consequences in the future.

Regulatory Environment

Licensing, Surveys, Investigations and Audits

Health facilities, including those of the Obligated Group, are subject to numerous legal, regulatory, professional and private licensing, certification and accreditation requirements. These include, but are not limited to, requirements relating to Medicare Conditions of Participation, requirements for participation in Medicaid, state

licensing agencies, private payors and the accreditation standards of The Joint Commission. Renewal and continuation of certain of these licenses, certifications and accreditations are based on inspections, surveys, audits, investigations or other reviews, some of which may require affirmative actions by a member of the Obligated Group.

The Corporation's management currently anticipates no difficulty renewing or continuing currently held licenses, certifications or accreditations, nor does management anticipate a reduction in third-party payments from events that would materially adversely affect the operations or financial condition of the Obligated Group. Nevertheless, actions in any of these areas could result in the loss of utilization or revenues, or the ability of a member of the Obligated Group to operate all or a portion of its health care facilities, and consequently, could have a material and adverse effect on the Obligated Group.

Certificates of Need

The State of Tennessee also administers a similar health planning program which includes certificate of need ("CON") requirements. The CON program requires that capital expenditures above certain limits or the introduction of new health services by or on behalf of a hospital first be approved by the Tennessee Health Facilities Commission before the expenditures are incurred or the new services are initiated. If a hospital desires to undertake a project involving capital expenditures above the limits or to add new health services, there can be no assurance that the expenditure will be granted CON approval. Amendments to or the repeal of the existing CON program could result in the entry of additional providers of healthcare services in the Corporation's and the Obligated Group's service area, thereby increasing competition and thus possibly reducing the demand for the Corporation's and the Obligated Group's services.

Negative Rankings Based on Clinical Outcomes, Cost, Quality, Patient Satisfaction and Other Performance Measures

Health plans, Medicare, Medicaid, TennCare, employers, trade groups and other purchasers of health services, private standard-setting organizations and accrediting agencies increasingly are using statistical and other measures in efforts to characterize, publicize, compare, rank and change the quality, safety and cost of health care services provided by hospitals and physicians. Published rankings such as "score cards," "pay for performance" and other financial and non-financial incentive programs are being introduced to affect the reputation and revenue of hospitals and the members of their medical staffs and to influence the behavior of consumers and providers such as the Obligated Group Members. Currently prevalent are measures of quality based on clinical outcomes of patient care, reduction in costs, patient satisfaction and investment in health information technology. Measures of performance set by others that characterize a hospital negatively may adversely affect its reputation and financial condition.

Civil and Criminal Fraud and Abuse Laws and Enforcement

Federal and state health care fraud and abuse laws regulate both the provision of services to government program beneficiaries and the methods and requirements for submitting claims for services rendered to beneficiaries. Under these laws, individuals and organizations can be penalized for submitting claims for services that are not provided, billed in a manner other than as actually provided, not medically necessary, provided by an improper person, accompanied by an illegal inducement to utilize or refrain from utilizing a service or product, or billed in a manner that does not otherwise comply with applicable government requirements.

Federal and state governments have a range of criminal, civil and administrative sanctions available to penalize and remediate healthcare fraud and abuse, including exclusion of the provider from participation in the Medicare/TennCare/Medicaid programs, fines, civil monetary penalties, and suspension of payments and, in the case of individuals, imprisonment. Fraud and abuse may be prosecuted by one or more government entities and/or private individuals, and more than one of the available penalties may be imposed for each violation.

Laws governing fraud and abuse apply to all individuals and healthcare enterprises with which a hospital does business, including other hospitals, home health agencies, long term care entities, infusion providers, pharmaceutical providers, insurers, health maintenance organizations, preferred provider organizations, third party administrators, physicians, physician groups, and physician practice management companies. Fraud and abuse

prosecutions can have a catastrophic effect on a provider and potentially a material adverse impact on the financial condition of other entities in the healthcare delivery system of which that entity is a part.

Based upon the prohibited activity in which the provider has engaged, governmental agencies and officials may bring actions against providers under civil or criminal False Claims Acts, statutes prohibiting referrals for compensation (including the federal “Anti-Kickback Law”) or fee-splitting, or the “Stark law,” which prohibits certain referrals by a physician to certain organizations in which the physician has a financial relationship, unless an exception applies. Many States also have self-referral prohibitions. The civil and criminal monetary assessments and penalties arising out of such investigations and prosecutions may be substantial. Additionally, the provider may be denied participation in the Medicare, TennCare and/or Medicaid programs. If and to the extent any member of the Obligated Group engaged in a prohibited activity and judicial or administrative proceedings concluded adversely to the member, the outcome could materially affect the Obligated Group.

On August 20, 2010, the Corporation filed a Report of Internal Investigation and Self-Assessment (the “Self Report”) with the United States Attorney’s Office in Southwest Virginia. This report was based upon the Corporation’s discovery of certain issues involving office space at a Wellmont-owned medical office building at the Corporation’s Lonesome Pine Hospital in Big Stone Gap, Virginia. The Corporation made certain office space in the medical office building available to certain members of the Lonesome Pine medical staff. Due to changes in personnel and miscommunications within the Corporation’s internal office and administrative functions at Lonesome Pine Hospital, the billing procedures for such lease arrangements lapsed and certain physician groups were not billed for the applicable rent. The Corporation’s investigation concluded that these circumstances were not intentional and were the result of oversights and lapses in internal communication.

Under applicable procedure, the United States Attorney’s Office in Southwest Virginia advised the Office of Inspector General (the “OIG”) of the Corporation’s Self-Report. On October 21, 2010, the Corporation was advised that the OIG had accepted the Corporation’s Self-Report into the OIG’s Self-Report protocol. Subsequently, the Corporation and the OIG negotiated a complete resolution of the Self-Report. The resolution calls for the Corporation to make a settlement payment of approximately \$250,000. The Corporation is awaiting the OIG’s preparation of the necessary settlement documents for the Corporation’s review and signature, at which time the required settlement payment will be made.

Tennessee has several anti-kickback and fee-splitting provisions, some of which apply on an all-payor basis (i.e., not just to governmental payors). Like the federal Anti-Kickback Statute, the Tennessee anti-kickback and fee-splitting provisions generally prohibit inducements or improper remuneration for the referral of patients. These Tennessee laws are broadly worded and generally have not been the subject of interpretation by Tennessee courts or by the Tennessee Attorney General. Therefore, it is difficult to predict the possibility or outcome of adverse enforcement action under these Tennessee laws.

Tennessee also has an all-payor physician self-referral law that prohibits physicians from referring patients to a healthcare entity in which the physician has an investment interest, unless an exception is met. Because the Tennessee physician self-referral law has been subject to limited judicial interpretation, it is difficult to predict the possibility or outcome of adverse enforcement action under this law.

The Health Care Reform Act authorizes the Secretary of HHS to exclude a provider’s participation in Medicare, Medicaid and SCHIP as well as suspend payments to a provider pending an investigation of a credible allegation of fraud against the provider.

The Obligated Group Members have internal policies and procedures and have developed and implemented a compliance program that management believes will effectively reduce exposure for violations of these laws. However, because the government’s enforcement efforts presently are widespread within the industry and may vary from region to region, there can be no assurance that the compliance program will significantly reduce or eliminate the exposure of the Obligated Group to civil or criminal sanctions or adverse administrative determinations.

False Claims Act

The False Claims Act, or FCA makes it illegal to submit or present a false, fictitious or fraudulent claim to the federal government and may include claims that are simply erroneous. FCA investigations and cases have become common in the health care field and may cover a range of activity from intentionally inflated billings, to highly technical billing infractions, to allegations of inadequate care. Violation or alleged violation of the FCA most often results in settlements that require multi-million dollar payments and compliance agreements. The FCA also permits individuals to initiate civil actions on behalf of the government in lawsuits called “qui tam” actions. Qui tam plaintiffs, or “whistleblowers,” share in the damages recovered by the government or recovered independently if the government does not participate. The FCA has become one of the government’s primary weapons against health care fraud. FCA violations or alleged violations could lead to settlements, fines, exclusion or reputation damage that could have a material adverse impact on a hospital. A number of States, including Tennessee, have false claims laws in place that are comparable to the FCA.

Review of Outlier Payments

CMS is reviewing health care providers that are receiving large proportions of their Medicare revenues from outlier payments. Health care providers found to have obtained inappropriately high outlier payments will be subject to further investigation by the CMS Program Integrity Unit and potentially the Office of Inspector General. Management of the Corporation does not believe that any potential review of the Obligated Group Members would materially adversely affect the Obligated Group’s results of operations.

Patient Records and Patient Confidentiality

The Health Insurance Portability and Accountability Act of 1996 (“HIPAA”) addresses the confidentiality of individuals’ health information. Disclosure of certain broadly defined protected health information is prohibited unless expressly permitted under the provisions of the HIPAA statute and regulations or authorized by the patient. HIPAA’s confidentiality provisions extend not only to patient medical records, but also to a wide variety of health care clinical and financial settings where patient privacy restrictions often impose new communication, operational, accounting and billing restrictions. These add costs and create potentially unanticipated sources of legal liability.

HIPAA imposes civil monetary penalties for violations and criminal penalties for knowingly obtaining or using individually identifiable health information. The penalties range from \$50,000 to \$250,000 and/or imprisonment if the information was obtained or used with the intent to sell, transfer or use the information for commercial advantage, personal gain or malicious harm.

The HITECH Act

Provisions in the Health Information Technology for Economic and Clinical Health Act (the “HITECH Act”), enacted as part of H.R. 1, increase the maximum civil monetary penalties for violations of HIPAA and grant enforcement authority of HIPAA to state attorneys general. The HITECH Act also (i) extends the reach of HIPAA beyond “covered entities,” (ii) imposes a breach notification requirement on HIPAA covered entities, (iii) limits certain uses and disclosures of individually identifiable information and (iv) restricts covered entities’ marketing communications.

The HITECH Act also established programs under Medicare and Medicaid to provide incentive payments for the “meaningful use” of certified electronic health record (“EHR”) technology. Beginning in 2011, the Medicare and Medicaid EHR incentive programs will provide incentive payments to eligible professionals and eligible hospitals for demonstrating meaningful use of certified EHR technology. Health care providers demonstrate their meaningful use of EHR technology by meeting objectives specified by the Centers for Medicare and Medicaid Services for using health information technology and by reporting on specified clinical quality measures. Beginning in 2015, hospitals and physicians who have not satisfied the performance and reporting criteria for demonstrating meaningful use will have their Medicare payments significantly reduced.

Security Breaches and Unauthorized Releases of Personal Information

Federal and state authorities are increasingly focused on the importance of protecting the confidentiality of individuals' personal information, including patient health information. Many states have enacted laws requiring businesses to notify individuals of security breaches that result in the unauthorized release of personal information. In some states, notification requirements may be triggered even where information has not been used or disclosed, but rather has been inappropriately accessed. State consumer protection laws may also provide the basis for legal action for privacy and security breaches and frequently, unlike HIPAA, authorize a private right of action. In particular, the public nature of security breaches exposes health organizations to increased risk of individual or class action lawsuits from patients or other affected persons, in addition to government enforcement. Failure to comply with restrictions on patient privacy or to maintain robust information security safeguards, including taking steps to ensure that contractors who have access to sensitive patient information maintain the confidentiality of such information, could consequently damage a health care provider's reputation and materially adversely affect business operations.

Patient Transfers

A federal "anti-dumping" statute imposes certain requirements that must be met before transferring a patient to another facility. Failure to comply with the law can result in exclusion from the Medicare, TennCare and/or Medicaid programs as well as civil and criminal penalties. Failure of any Member of the Obligated Group to meet its responsibilities under the law could adversely affect the financial conditions of that Member.

The Corporation's management is not aware of any pending or threatened claim, investigation, or enforcement action regarding patient transfers that, if determined adversely to a Member of the Obligated Group, would have material adverse consequences to the Obligated Group.

Certain Business Transactions

Physician Relations

The primary relationship between a hospital and physicians who practice in it is through the hospital's organized medical staff. Medical staff bylaws, rules and policies establish the criteria and procedures by which a physician may have his or her privileges or membership curtailed, denied or revoked. Physicians who are denied medical staff membership or certain clinical privileges, or who have membership or privileges curtailed, denied or revoked often file legal actions against hospitals. Such action may include a wide variety of claims, some of which could result in substantial uninsured damages to a hospital. In addition, failure of the hospital governing body to adequately oversee the conduct of the medical staff may result in hospital liability to third parties. All hospitals, including those owned and operated by the members of the Obligated Group, are subject to such risk.

Physician Contracting

The Members of the Obligated Group may contract with physician organizations (such as independent physician associations and physician-hospital organizations) to arrange for the provision of physician and ancillary services. Because physician organizations are separate legal entities with their own goals, obligations to shareholders, financial status, and personnel, there are risks involved in contracting with the physician organizations.

The success of the Obligated Group will be partially dependent upon its ability to attract physicians to join the physician organizations and to participate in their networks, and upon the ability of the physicians, including the employed physicians, to perform their obligations and deliver high quality patient care in a cost-effective manner. There can be no assurance that the members of the Obligated Group will be able to attract and retain the requisite number of physicians, or that physicians will deliver high quality health care services. Without paneling a sufficient number and type of providers, the Obligated Group could fail to be competitive, could fail to keep or attract payor contracts, or could be prohibited from operating until its panel provided adequate access to patients. Such occurrences could have a material adverse effect on the business or operations of the Obligated Group.

Affiliations, Merger, Acquisition and Divestiture

The Obligated Group Members evaluate and pursue potential acquisition, merger and affiliation candidates as part of the overall strategic planning and development process. As part of its ongoing planning and property management functions, the Obligated Group reviews the use, compatibility and business viability of many of the operations of the members, and from time to time the members may pursue changes in the use of, or disposition of, their facilities. Likewise, members of the Obligated Group occasionally receive offers from, or conduct discussions with, third parties about the potential acquisition of operations and properties which may become subsidiaries or Affiliates of members of the Obligated Group in the future, or about the potential sale of some of the operations or property which are currently conducted or owned by the members. Discussion with respect to affiliation, merger, acquisition, disposition or change of use of facilities, including those which may affect the members, are held from time to time with other parties. These may be conducted with acute care hospital facilities and may be related to potential affiliation with a member of the Obligated Group. As a result, it is possible that the current organization and assets of the members may change from time to time.

In addition to relationships with other hospitals and physicians, the members of the Obligated Group may consider investments, ventures, affiliations, development and acquisition of other health care-related entities. These may include home health care, long-term care entities or operations, infusion providers, pharmaceutical providers, and other health care enterprises that support the overall operations of the members of the Obligated Group. In addition, the members of the Obligated Group may pursue transactions with health insurers, HMOs, preferred provider organizations, third-party administrators and other health insurance-related businesses. Because of the integration occurring throughout the health care field, management will consider these arrangements if there is a perceived strategic or operational benefit for the Obligated Group. Any initiative may involve significant capital commitments and/or capital or operating risk (including, potentially, insurance risk) in a business in which the members of the Obligated Group may have less expertise than in hospital operations. There can be no assurance that these projects, if pursued, will not lead to material adverse consequences to the Obligated Group.

Antitrust

Enforcement of antitrust laws against health care providers is becoming more common, and antitrust liability may arise in a wide variety of circumstances, including medical staff privilege disputes, third party contracting, physician relations, and joint venture, merger, affiliation and acquisition activities. While the application of federal and state antitrust laws to health care is still evolving, enforcement activities by federal and state agencies appear to be increasing. Violators of antitrust laws could be subject to criminal and civil liability by both federal and state agencies, as well as by private litigants.

Tax Matters

Tax Exemption for Not-For-Profit Corporations

Loss of tax-exempt status by an Obligated Group Member could result in loss of tax exemption of the Bonds and of other tax-exempt debt issued for the benefit of the Obligated Group Members, and defaults in covenants regarding the Bonds and other related tax-exempt debt would likely be triggered. Such an event would have material adverse consequences on the financial condition of the Obligated Group. Management of the Corporation is not aware of any transactions or activities currently ongoing that are likely to result in the revocation of the tax-exempt status of any Obligated Group Member.

The maintenance by each Obligated Group Member (other than Wellmont, Inc.) of its status as an organization described in Section 501(c)(3) of the Code is contingent upon compliance with general rules promulgated in the Code and related regulations regarding the organization and operation of tax-exempt entities, including their operation for charitable and educational purposes and their avoidance of transactions that may cause their assets to inure to the benefit of private individuals. The Internal Revenue Service has announced that it intends to closely scrutinize transactions between not-for-profit corporations and for-profit entities, and in particular has issued audit guidelines for tax-exempt hospitals. Although specific activities of hospitals, such as medical office building leases and compensation arrangements and other contracts with physicians, have been the subject of interpretations by the Internal Revenue Service in the form of Private Letter Rulings, many activities have not been

addressed in any official opinion, interpretation or policy of the Internal Revenue Service. Because the Obligated Group Members conduct large-scale and diverse operations involving private parties, there can be no assurances that certain of their transactions would not be challenged by the Internal Revenue Service.

The Internal Revenue Service has taken the position that hospitals which are in violation of the Anti-Kickback Law may also be subject to revocation of their tax-exempt status. See the information herein under the caption, "RISK FACTORS - Regulatory Environment - Civil and Criminal Fraud and Abuse Laws and Enforcement." As a result, tax-exempt hospitals, such as those of the Obligated Group Members, which have, and will continue to have, extensive transactions with physicians are subject to an increased degree of scrutiny and perhaps enforcement by the Internal Revenue Service.

The Taxpayers Bill of Rights 2, referred to for purposes of this Official Statement as the Intermediate Sanctions Law, allows the Internal Revenue Service to impose "intermediate sanctions" against certain individuals in circumstances involving the violation by tax-exempt organizations of the prohibition against private inurement. Prior to the enactment of the Intermediate Sanctions Law, the only sanction available to the Internal Revenue Service was revocation of an organization's tax-exempt status. Intermediate sanctions may be imposed in situations in which a "disqualified person" (such as an "insider") (i) engages in a transaction with a tax-exempt organization on other than a fair market value basis, (ii) receives unreasonable compensation from a tax-exempt organization or (iii) receives payment in an arrangement that violates the prohibition against private inurement. These transactions are referred to as "excess benefit transactions." A disqualified person who benefits from an excess benefit transaction will be subject to an excise tax equal to 25% of the amount of the excess benefit. Organizational managers who participate in the excess benefit transaction knowing it to be improper are subject to an excise tax equal to 10% of the amount of the excess benefit, subject to a maximum penalty of \$20,000. A second penalty, in the amount of 200% of the excess benefit, may be imposed on the disqualified person (but not upon the organizational manager) if the excess benefit is not corrected within a specified period of time.

In certain cases, the IRS has imposed substantial monetary penalties and future charity care or public benefit obligations on tax-exempt hospitals in lieu of revoking their tax-exempt status, as well as requiring that certain transactions be altered, terminated or avoided in the future and/or requiring governance or management changes. These penalties and obligations are typically imposed on the tax-exempt hospital pursuant to a "closing agreement" with respect to the hospital's alleged violation of Section 501(c)(3) exemption requirements. Given the size of the Obligated Group, the wide range of complex transactions entered into by the Obligated Group Members and uncertainty regarding how tax-exemption requirements may be applied by the IRS, Members are, and will be, at risk for incurring monetary and other liabilities imposed by the IRS through this "closing agreement" or similar process. Like certain of the other business and legal risks described herein which apply to large multi-hospital systems, these liabilities are probable from time to time and could be substantial, in some cases involving millions of dollars, and in extreme cases could be materially adverse.

Bills have been introduced in Congress that would require a tax-exempt hospital to provide a certain amount of charity care and care to Medicare and Medicaid patients in order to maintain its tax-exempt status and avoid the imposition of an excise tax. Other legislation would have conditioned a hospital's tax-exempt status on the delivery of adequate levels of charity care. Congress has not enacted such bills. However, there can be no assurance that similar legislative proposals or judicial actions will not be adopted in the future.

In recent years, the IRS and state, county and local taxing authorities have been undertaking audits and reviews of the operations of tax-exempt hospitals with respect to their exempt activities and the generation of unrelated business taxable income. The Obligated Group Members participate in activities that may generate unrelated business taxable income. Management of the Corporation believes it and the other Obligated Group Members have properly accounted for and reported unrelated business taxable income; nevertheless, an investigation or audit could lead to a challenge which could result in taxes, interest and penalties with respect to unreported unrelated business taxable income and in some cases could ultimately affect the tax-exempt status of a Obligated Group Member as well as the exclusion from gross income for federal income tax purposes of the interest payable on the Bonds and other tax-exempt debt of the Obligated Group Members. In addition, legislation, if any, which may be adopted at the federal, state and local levels with respect to unrelated business income cannot be predicted. Any legislation could have the effect of subjecting a portion of the income of the Obligated Group Members to federal or state income taxes.

Obligated Group Members have been, are being and most likely will be audited regularly by the IRS. Management believes that it has properly complied with the tax laws. Nevertheless, because of the complexity of the tax laws and the presence of issues about which reasonable persons can differ, an audit could result in additional taxes, interest and penalties. An audit could ultimately affect the tax-exempt status of a Obligated Group Member as well as the exclusion from gross income for federal income tax purposes of the interest payable with respect to the Bonds and other tax-exempt debt of the Obligated Group Members.

In addition to the foregoing proposals with respect to income by not-for-profit corporations, various state and local governmental bodies have challenged the tax-exempt status of not-for-profit institutions and have sought to remove the exemption of property from real estate taxes of part or all of the property of various not-for-profit institutions on the grounds that a portion of its property was not being used to further the charitable purposes of the institutions or that the institutions did not provide sufficient care to indigent persons so as to warrant exemption from taxation as a charitable institution. Several of these disputes have been determined in favor of the taxing authorities or have resulted in settlements.

It is not possible to predict the scope or effect of future legislative or regulatory actions with respect to taxation of not-for-profit corporations. There can be no assurance that future changes in the laws and regulations of federal, state or local governments will not materially adversely affect the operations and financial condition of the Obligated Group Members by requiring any of them to pay income or local property taxes.

Tax-Exempt Status of the Bonds

The Code imposes a number of requirements that must be satisfied for interest on state and local obligations, such as the Bonds, to be excludable from gross income for federal income tax purposes. These requirements include limitations on the use of bond proceeds, limitations on the investment earnings of bond proceeds prior to expenditure, a requirement that certain investment earnings on bond proceeds be paid periodically to the United States, and a requirement that the issuers file an information report with the IRS. The Corporation has agreed that it will comply with such requirements. Failure to comply with the requirements stated in the Code and related regulations, rulings and policies may result in the treatment of the interest on the Bonds as taxable. Such adverse treatment may be retroactive to the date of issuance.

Bond Examinations

The IRS has added a new Schedule H to IRS Form 990, on which hospitals and health systems will be required to report how they provide community benefit and to specify certain billing and collection practices. The IRS has also added a new Schedule K to IRS Form 990. This new schedule requests detailed information related to all outstanding bond issues of nonprofit corporations, including, for bonds issued after 2002, information regarding operating, management and research contracts as well as private business use compliance. Filers must complete the entire schedule for tax years beginning in 2009.

Although the Corporation believes that its expenditure and investment of bond proceeds, use of property financed with tax-exempt debt and record retention practices comply with all applicable laws and regulations, there can be no assurance that an IRS review triggered by information submitted on a Schedule H or Schedule K would not adversely affect the market value of the Bonds or of other outstanding tax-exempt indebtedness of the Obligated Group. Additionally, the Bonds or other tax-exempt obligations issued for the benefit of the Obligated Group Members, may be, from time to time, subject to examinations by the IRS. The Corporation received a notice from the IRS dated January 26, 2011 to the effect that the Series 2005 Bonds had been selected for a routine examination to determine compliance with federal tax requirements, together with a Form 4564 Information Document Request requesting certain documentation relating to the Series 2005 Bonds. On March 15, 2011, the Corporation responded to such request providing the requested documentation. Such examination is ongoing. The Corporation believes that the Series 2005 Bonds and other tax-exempt obligations issued for the benefit of the Obligated Group Members properly comply with the tax laws. In addition, Bond Counsel rendered an opinion with respect to the tax-exempt status of the Bonds upon their issuance, as described under the caption "TAX STATUS." No ruling with respect to the tax-exempt status of the Bonds, has been or will be sought from the IRS, however, and the opinions of counsel are

not binding on the IRS or the courts. There can be no assurance that any IRS examination of the Bonds will not adversely affect the market value of the Bonds. See “TAX STATUS” below.

Other Risks

Indigent Care

Tax-exempt hospitals often treat large numbers of “indigent” patients who, for various reasons, are unable to pay for their medical care. Typically, urban, inner-city hospitals, including hospitals owned by certain Obligated Group Members, may treat significant numbers of indigents. These hospitals may be susceptible to economic and political changes which could increase the number of indigent persons or the responsibility for caring for this population. General economic conditions which affect the number of employed individuals who have health insurance coverage will similarly affect the ability of patients to pay for their care. Similarly, changes in governmental policy, which may result in coverage exclusions under local, state and federal healthcare programs (including Medicare and Medicaid) may increase the frequency and severity of indigent treatment in such hospitals. It is also possible that future legislation could require that tax-exempt hospitals maintain minimum levels of indigent care as a condition to federal income tax exemption or local property tax exemption. In sum, indigent care commitments of the Obligated Group Members could constitute a material and adverse financial risk in the future.

Cost of Capital

From time to time, Congress has considered and is considering revisions to the Internal Revenue Code that may prevent or limit access to the tax-exempt debt market to corporations or issuers such as the Obligated Group Members. Such legislation, if enacted into law, may have the effect of increasing the capital costs of the Obligated Group Members.

Interest Rate Swaps

The Corporation has entered into certain interest rate swap transactions with respect to its outstanding bonds. Under certain circumstances, the interest rate swap may be terminated prior to the maturity of the related outstanding bonds. If the interest rate swap is terminated under certain market conditions, the Corporation may owe a termination payment to the applicable swap counterparty. Such a termination payment generally would be based upon the market value of the related interest rate swap on the date of termination and could be substantial. In addition, a partial termination of an interest rate swap could occur to the extent that any outstanding bonds hedged with an interest rate swap is redeemed pursuant to an optional redemption. If such an optional redemption occurs, a termination payment related to the portion of the interest rate swap to be terminated will be owed by either the Corporation or the applicable swap counterparty, depending on market conditions. In the event of an early termination of an interest rate swap, there can be no assurance that (i) the Corporation will receive any termination payment payable to it by the applicable swap counterparty, (ii) the Corporation will have sufficient amounts to pay a termination payment payable by it to the applicable swap counterparty and (iii) the Corporation will be able to obtain a replacement swap agreement with comparable terms. The Corporation has credit risk to the extent the applicable swap counterparty’s credit or ability to perform is reduced.

Bond Ratings

There is no assurance that the ratings assigned to the Bonds will not be lowered or withdrawn at any time, the effect of which could adversely affect the market price for and marketability of the Bonds. See the information herein under the caption “RATINGS.”

Investments

Corporation has significant holdings in a broad range of investments. Market fluctuations have affected and may continue to affect the value of those investments. Those fluctuations may be at times material.

Staffing Shortages

From time to time, the healthcare industry has suffered from a scarcity of nursing and other qualified health care technicians and personnel. Staffing shortages could force the Obligated Group Members to pay higher salaries to nursing and other qualified health care technicians and personnel as competition for such employees intensifies and, in an extreme situation, could lead to difficulty in keeping the facilities licensed to provide nursing care and thus eligible for reimbursement under Medicare, TennCare and Medicaid.

Professional Liability Claims and Liability Insurance

In recent years, the number of professional and general liability suits and the dollar amounts of damage recoveries have increased nationwide, resulting in substantial increases in malpractice insurance premiums. Professional liability and other actions alleging wrongful conduct and seeking punitive damages often are filed against health care providers. Litigation may also arise from the corporate and business activities of the Corporation and its affiliates, employee-related matters, medical staff and provider network matters and denials of medical staff and provider network membership and privileges. As with professional liability, many of these risks are covered by insurance, but some are not. For example, some antitrust claims, business disputes and workers' compensation claims are not covered by insurance or other sources and, in whole or in part, may be a liability of the Corporation and its affiliates if determined or settled adversely. Claims for punitive damages may not be covered by insurance under certain state laws. Although the Members of the Obligated Group currently maintain actuarially determined self-insurance reserves and carry excess malpractice and general liability insurance which management of the Corporation considers adequate, management of the Corporation is unable to predict the availability, cost or adequacy of such insurance in the future.

Other Risk Factors Generally Affecting Health Care Facilities

In the future, the following factors, among others, may adversely affect the operations of health care providers, including the Obligated Group Members or the market value of the Bonds, to an extent that cannot be determined at this time:

a. Hospitals are major employers, combining a complex mix of professional, quasi-professional, technical, clerical, housekeeping, maintenance, dietary and other types of workers in a single operation. As with all large employers, the Obligated Group Members bear a wide variety of risks in connection with their employees. These risks include strikes and other related work actions, contract disputes, discrimination claims, personal tort actions, work-related injuries, exposure to hazardous materials, interpersonal torts (such as between employees, between physicians or management and employees, or between employees and patients), and other risks that may flow from the relationships between employer and employee or between physicians, patients and employees. Many of these risks are not covered by insurance, and certain of them cannot be anticipated or prevented in advance. The Obligated Group Members are subject to all of the risks listed above, and such risks, alone or in combination, could have material adverse consequences to the financial condition or operations of the Obligated Group.

b. Competition from other hospitals and other competitive facilities now or hereafter located in the respective service areas of the facilities operated by the Corporation and the Obligated Group Members may adversely affect revenues of the Obligated Group. Development of health maintenance and other alternative health delivery programs could result in decreased usage of inpatient hospital facilities and other facilities operated by the Obligated Group Members.

c. Cost and availability of any insurance, including self-insurance, such as malpractice, fire, automobile, and general comprehensive liability, that hospitals and other health care facilities of similar size and type as the Obligated Group Members generally carry may adversely affect revenues. The costs of such insurance have increased significantly in the past few years, and such increases are likely to continue in the near future.

d. The occurrences of natural disasters may damage some or all of the facilities, interrupt utility service to some or all of the facilities or otherwise impair the operation of some or all of the facilities operated by the Obligated Group Members or the generation of revenues from some or all of the facilities.

e. Scientific and technological advances, new procedures, drugs and appliances, preventive medicine, occupational health and safety and outpatient health care delivery may reduce utilization and revenues of the facilities. Technological advances in recent years have accelerated the trend toward the use by hospitals of sophisticated and costly equipment and services for diagnosis and treatment. The acquisition and operation of certain equipment or services may continue to be a significant factor in hospital utilization, but the ability of the Obligated Group Members to offer the equipment or services may be subject to the availability of equipment or specialists, governmental approval or the ability to finance these acquisitions or operations.

f. Reduced demand for the services of the Obligated Group Members that might result from decreases in population in their respective service areas.

g. Increased unemployment or other adverse economic conditions in the service areas of the Obligated Group Members which would increase the proportion of patients who are unable to pay fully for the cost of their care.

h. Any increase in the quantity of indigent care provided which is mandated by law or required due to increased needs of the community in order to maintain the charitable status of the Obligated Group Members.

i. Regulatory actions which might limit the ability of the Obligated Group Members to undertake capital improvements to their respective facilities or to develop new institutional health services.

j. The occurrence of a large scale terrorist attack that increases the proportion of patients who are unable to pay fully for the cost of their care and that disrupts the operation of certain health care facilities by resulting in an abnormally high demand for health care services.

k. Instability in the stock market or other investment markets which may adversely affect both the principal value of, and income from, the Corporation's investment portfolio.

CONTINUING DISCLOSURE

The Corporation and the other Obligated Group members (collectively, the "Obligors") will enter into a continuing disclosure agreement (the "Continuing Disclosure Agreement") pursuant to the requirements of Rule 15c2-12 ("Rule 15c2-12") adopted by the Securities and Exchange Commission (the "SEC") under the Securities Exchange Act of 1934, as amended. The Continuing Disclosure Agreement will be entered into by the Obligors for the benefit of the beneficial owners of the Bonds and will obligate the Obligors to provide certain information annually and quarterly and to file notice of the occurrence of certain events. A summary of the Continuing Disclosure Agreement is included in APPENDIX E.

The Corporation serves as the parent organization for affiliated entities, including the members of the Obligated Group. The audited financial statements of the Corporation included in APPENDIX B are consolidated statements that provide financial information with respect to the Corporation and its affiliates described in the audit report, including the other Obligors. The Obligors do not have audited financial statements prepared for the Obligors alone. The Obligors intend to comply with their obligations under the Continuing Disclosure Agreement by continuing to provide audited annual financial statements substantially in the form presented in APPENDIX B.

The Obligors have represented that they are in compliance with all agreements previously entered into by them pursuant to Rule 15c2-12. A failure by the Obligors to comply with the Continuing Disclosure Agreement will not constitute an event of default under the Loan Agreement. Beneficial owners of the Bonds are limited to the remedies described in the Continuing Disclosure Agreement. A failure by the Issuer to comply with the Continuing

Disclosure Agreement must be reported in accordance with Rule 15c2-12 and must be considered by any broker, dealer or municipal securities dealer before recommending the purchase or sale of the Bonds in the secondary market. Consequently, such a failure may adversely affect the transferability and liquidity of the Bonds and their market price.

TAX STATUS

Opinion of Bond Counsel—Federal Income Tax Status of Interest

The opinion of McGuireWoods LLP, Richmond, Virginia, Bond Counsel, will state that, under current law, interest on the Bonds is excludable from gross income for purposes of federal income taxation and is not a specific item of tax preference for purposes of the federal alternative minimum tax imposed on individuals and corporations. For purposes of the alternative minimum tax imposed on corporations (as defined for federal income tax purposes under Section 56 of the Internal Revenue Code of 1986, as amended (the “Code”)), interest on the Bonds must be included in computing adjusted current earnings. See “APPENDIX D – FORM OF APPROVING OPINION OF BOND COUNSEL”.

Bond Counsel will express no opinion regarding other federal tax consequences arising with respect to the Bonds.

Bond Counsel’s opinion speaks as of its date, is based on current legal authority and precedent, covers certain matters not directly addressed by such authority and precedent, and represents Bond Counsel’s judgment as to the proper treatment of interest on the Bonds for federal income tax purposes. Bond Counsel’s opinion does not contain or provide any opinion or assurance regarding the future activities of the Issuer or the Obligated Group or about the effect of future changes in the Code, the applicable regulations, the interpretation thereof or the enforcement thereof by the Internal Revenue Service (the “IRS”). The Issuer and the Corporation have covenanted, however, to comply with the requirements of the Code.

Reliance and Assumptions; Effect of Certain Changes

In delivering its opinion regarding the Bonds, Bond Counsel is relying upon (i) certifications of representatives of the Issuer and the Corporation and other parties as to facts material to the opinion, which Bond Counsel has not independently verified and (ii) the opinion of Hunter, Smith & Davis, LLP, Counsel for the Corporation, to be delivered in connection with the issuance of the Bonds, that the Corporation is an organization described in Section 501(c)(3) of the Code.

In addition, Bond Counsel is assuming continuing compliance with the Covenants (as hereinafter defined) by the Issuer and the Corporation. The Code and the regulations promulgated thereunder contain a number of requirements that must be satisfied after the issuance of the Bonds in order for interest on the Bonds to be and remain excludable from gross income for purposes of federal income taxation. These requirements include, by way of example and not limitation, the requirement that the Corporation maintain its status as an organization described in Section 501(c)(3) of the Code, restrictions on the use, expenditure and investment of the proceeds of the Bonds and the use of the property financed or refinanced by the Bonds, limitations on the source of the payment of and the security for the Bonds, and the obligation to rebate certain excess earnings on the gross proceeds of the Bonds to the Treasury of the United States (the “Treasury”). The Indenture, the Loan Agreement and the Tax Compliance Agreement contain covenants (the “Covenants”) under which the Issuer and the Corporation have agreed to comply with such requirements. Failure by the Issuer or the Corporation to comply with their respective Covenants could cause interest on the Bonds to become includable in gross income for federal income tax purposes retroactively to their date of issue. In the event of noncompliance with the Covenants, the available enforcement remedies may be limited by applicable provisions of law and, therefore, may not be adequate to prevent interest on the Bonds from becoming includable in gross income for federal income tax purposes. Compliance by the Issuer with its respective Covenants does not require the Issuer to make any financial contribution for which it does not receive funds from the Issuer and the Corporation.

Certain requirements and procedures contained, incorporated or referred to in the Indenture, the Loan Agreement and the Tax Compliance Agreement, including the Covenants, may be changed and certain actions may be taken or omitted under the circumstances and subject to the terms and conditions set forth therein. Bond Counsel expresses no opinion concerning any effect on the excludability of interest on the Bonds from gross income for federal income tax purposes of any such subsequent change or action that may be made, taken or omitted upon the advice or approval of counsel other than Bond Counsel.

Certain Collateral Federal Tax Consequences

The following is a brief discussion of certain collateral federal income tax matters with respect to the Bonds. It does not purport to address all aspects of federal taxation that may be relevant to a particular owner thereof. Prospective purchasers of the Bonds, particularly those who may be subject to special rules, are advised to consult their own tax advisors regarding the federal tax consequences of owning or disposing of the Bonds.

Prospective purchasers of the Bonds should be aware that the ownership of tax-exempt obligations may result in collateral federal income tax consequences to certain taxpayers, including, without limitation, financial institutions, certain insurance companies, certain corporations (including S corporations and foreign corporations), certain foreign corporations subject to the “branch profits tax,” individual recipients of Social Security or Railroad Retirement benefits, taxpayers who may be deemed to have incurred or continued indebtedness to purchase or carry tax-exempt obligations and taxpayers attempting to qualify for the earned income tax credit.

In addition, prospective purchasers should be aware that the interest paid on, and the proceeds of the sale of, tax-exempt obligations, including the Bonds, are in many cases required to be reported to the IRS in a manner similar to interest paid on taxable obligations. Additionally, backup withholding may apply to any such payments made after March 31, 2007 to any owner of a Bond who fails to provide an accurate Form W-9 Request for Taxpayer Identification Number and Certification, or a substantially identical form, or to any owner of a Bond who is notified by the IRS of a failure to report all interest and dividends required to be shown on federal income tax returns. The reporting and withholding requirements do not in and of themselves affect the excludability of interest on the Bonds from gross income for federal tax purposes or any other federal tax consequence of purchasing, holding or selling tax-exempt obligations.

Possible Legislative or Regulatory Action

Legislation and regulations affecting tax-exempt bonds are continually being considered by the United States Congress, the Treasury and the IRS. In addition, the IRS has established an expanded audit and enforcement program for tax-exempt bonds. There can be no assurance that legislation enacted or proposed after the date of issue of the Bonds or an audit initiated or other enforcement or regulatory action taken by the Treasury or the IRS involving either the Bonds or other tax-exempt obligations will not have an adverse effect on the tax status or the market price of the Bonds or on the economic value of the tax-exempt status of the interest thereon.

Opinion of Bond Counsel — Tennessee Income Tax Consequences

In the opinion of Bond Counsel, under existing law, the Bonds and the interest thereon are exempt from all State of Tennessee state, county and municipal taxation except for inheritance, transfer and estate taxes and except to the extent that the Bonds and the interest thereon are included within the measure of certain privilege and excise taxes imposed under Tennessee law.

Bond Counsel will express no opinion regarding (i) other Tennessee tax consequences arising with respect to the Bonds or (ii) any consequences arising with respect to the Bonds under the tax laws of any state or local jurisdiction other than Tennessee. Prospective purchasers of the Bonds should consult their own tax advisors regarding state and local tax issues not covered by Bond Counsel's opinion, including the tax status of interest on the Bonds in a particular state or local jurisdiction other than Tennessee.

LEGAL COUNSEL

McGuireWoods LLP, Richmond, Virginia has served as bond counsel to the Corporation with respect to the issuance of the Bonds. Bond counsel will render an opinion with respect to the Bonds in substantially the form attached as APPENDIX D. The opinion of bond counsel should be read in its entirety for a complete understanding of the scope of the opinion and the conclusions expressed. Delivery of the Bonds is contingent upon the delivery of the opinion of bond counsel.

In connection with the issuance of the Bonds, Penn, Stuart & Eskridge, A Professional Corporation, Bristol, Tennessee, has served as counsel to the Issuer, Hunter, Smith & Davis, LLP, Kingsport, Tennessee, has served as counsel to the Corporation and the Obligated Group, and Presley Burton & Collier, LLC, Birmingham, Alabama, has served as counsel to the Underwriter.

INDEPENDENT AUDITORS

The consolidated financial statements of the Corporation as of June 30, 2010 and June 30, 2009 and for the years then ended, included in APPENDIX B to this Official Statement, have been audited by KPMG LLP, independent auditors, as stated in their report included in APPENDIX B.

LITIGATION

To the best of the Issuer's knowledge, there is no litigation pending or threatened (i) restraining or enjoining the issuance or delivery of the Bonds, (ii) contesting or affecting the validity of the Bonds or the proceedings or authority under which they are to be issued, (iii) contesting the creation, organization or existence of the Issuer or the title of any of its present officials to their respective offices, or (iv) contesting the right of the Issuer to enter into the Financing Documents to which it is a party or to secure the Bonds in accordance with the Indenture.

To the best of the Corporation's knowledge, there is no litigation pending or threatened regarding the matters described in the preceding paragraph. For a description of litigation pending against the Corporation and the Obligated Group, see APPENDIX A.

RATINGS

The following ratings have been assigned to the Bonds based on an assessment by each rating agency of the Obligated Group's ability to make payments on the Bonds:

Rating Agency	Rating Assigned
S & P	BBB+
Fitch	BBB+

Any further explanation as to the significance of these ratings may be obtained only from the appropriate rating agency. There is no assurance that any such rating will remain in effect for any given period of time or that the rating will not be revised downward or withdrawn entirely by the rating agency furnishing the same, if, in its judgment, the circumstances so warrant. Any such downward revision or withdrawal of a rating may have an adverse effect on the market price of the Bonds. The above ratings are not recommendations to buy, sell or hold the Bonds.

UNDERWRITING

Merrill Lynch, Pierce, Fenner & Smith Incorporated (the "Underwriter"), will enter into a bond purchase agreement in which the Underwriter will agree to purchase the Bonds, subject to certain conditions precedent, at a purchase price of \$75,934,587.50 (face amount less underwriter's discount of \$230,412.50). The Underwriter will

purchase all of the Bonds if any are purchased. The Underwriter has arranged for the purchase of the Bonds by its affiliate, Bank of America, N.A. (the “Initial Purchaser”). The Initial Purchaser will have the right to sell or distribute the Bonds or interests therein to subsequent purchasers or investors. Under the bond purchase agreement, the Corporation will agree to indemnify the Underwriter against certain costs, claims and liabilities, including certain liabilities arising under the Securities Act of 1933.

FINANCIAL ADVISOR

Ponder & Co. was engaged by the Corporation to provide financial advisory services in connection with the issuance of the Bonds. Ponder & Co. is a national consulting firm that acts as financial advisor to health care organizations in matters of capital formation, including debt financing, interest rate swaps and strategic capital planning.

RELATED PARTIES

Hunter, Smith & Davis, LLP, counsel to the Corporation and the Obligated Group, is regular counsel to the Issuer on matters unrelated to the Corporation and Obligated Group. McGuireWoods LLP, bond counsel, also represents the Trustee, the Master Trustee and the Underwriter in unrelated transactions.

MISCELLANEOUS

Neither this Official Statement nor any advertisement of the Bonds is to be construed as a contract or agreement with the holders of the Bonds. The agreement of the Issuer, the Corporation and the Obligated Group with the holders of the Bonds is fully set forth in the Bonds and the Financing Documents.

No dealer, broker, salesman or other person has been authorized by the Issuer or the Obligated Group to give any information or to make any representation other than as contained in this Official Statement, and, if given or made, such other information or representation must not be relied upon as having been authorized by them.

This Official Statement does not constitute an offer to sell or the solicitation of an offer to buy, nor shall there be any sale of the Bonds by any person in any jurisdiction in which it is unlawful for such person to make such offer, solicitation or sale.

The Bonds have not been registered under The Securities Act of 1933, as amended, or any state securities laws, and neither the Securities and Exchange Commission nor any state regulatory agency will pass upon the accuracy, completeness or adequacy of this Official Statement. Neither the Indenture nor the Master Indenture has been qualified under the Trust Indenture Act of 1939, as amended.

The information in this Official Statement is provided as of the date of this Official Statement. Nothing contained in this Official Statement shall under any circumstances create an implication that there has been no change in such information after the date of this Official Statement.

The information set forth in this Official Statement has been obtained from the sources which are deemed to be reliable but is not guaranteed as to accuracy or completeness. All estimates and assumptions contained herein are believed to be reliable, but no representation is made that such estimates or assumptions are correct or will be realized.

Certain statements contained in this Official Statement reflect forecasts and forward-looking statements, rather than historical facts. In this respect, the words “estimate,” “project,” “anticipate,” “expect,” “intend,” “believe,” and similar expressions are intended to identify forward-looking statements. All such forward-looking statements are expressly qualified by the cautionary statements set forth in this Official Statement.

The summaries and explanations of the provisions of the Bonds and the Financing Documents do not purport to be complete, and reference is made to the pertinent provisions of the Bonds and the Financing Documents

for a complete statement of their provisions. Such documents are on file and available for review during regular business hours upon request at the corporate trust offices of the Trustee, The Bank of New York Mellon Trust Company, N.A., Corporate Trust Services, 900 Ashwood Parkway, Suite 425, Atlanta, Georgia 30338.

In connection with this offering, the Underwriter may engage in transactions that stabilize, maintain or otherwise affect the price of the Bonds. Such transactions may include purchases of the Bonds for the purpose of maintaining the price of the Bonds. Such transactions, if commenced, may be discontinued at any time.

The attached appendices are integral parts of this Official Statement and must be read together with all of the foregoing statements.

APPROVAL OF USE OF OFFICIAL STATEMENT

INTRODUCTION

Overview

Wellmont Health System (“Wellmont”) is a Tennessee non-profit corporation based in Kingsport, Tennessee and a premier provider of healthcare services in Northeast Tennessee and Southwest Virginia. Wellmont was formed in July 1996 with the merger of Bristol Memorial Hospital in Bristol, Tennessee and Holston Valley Medical Center in Kingsport, Tennessee. Over the past decade, Wellmont has grown to include six additional hospitals, an integrated physician network and several ambulatory sites. Wellmont hospitals offer a broad scope of services ranging from community-based acute care to highly specialized tertiary services including two trauma centers, comprehensive heart care and cancer care.

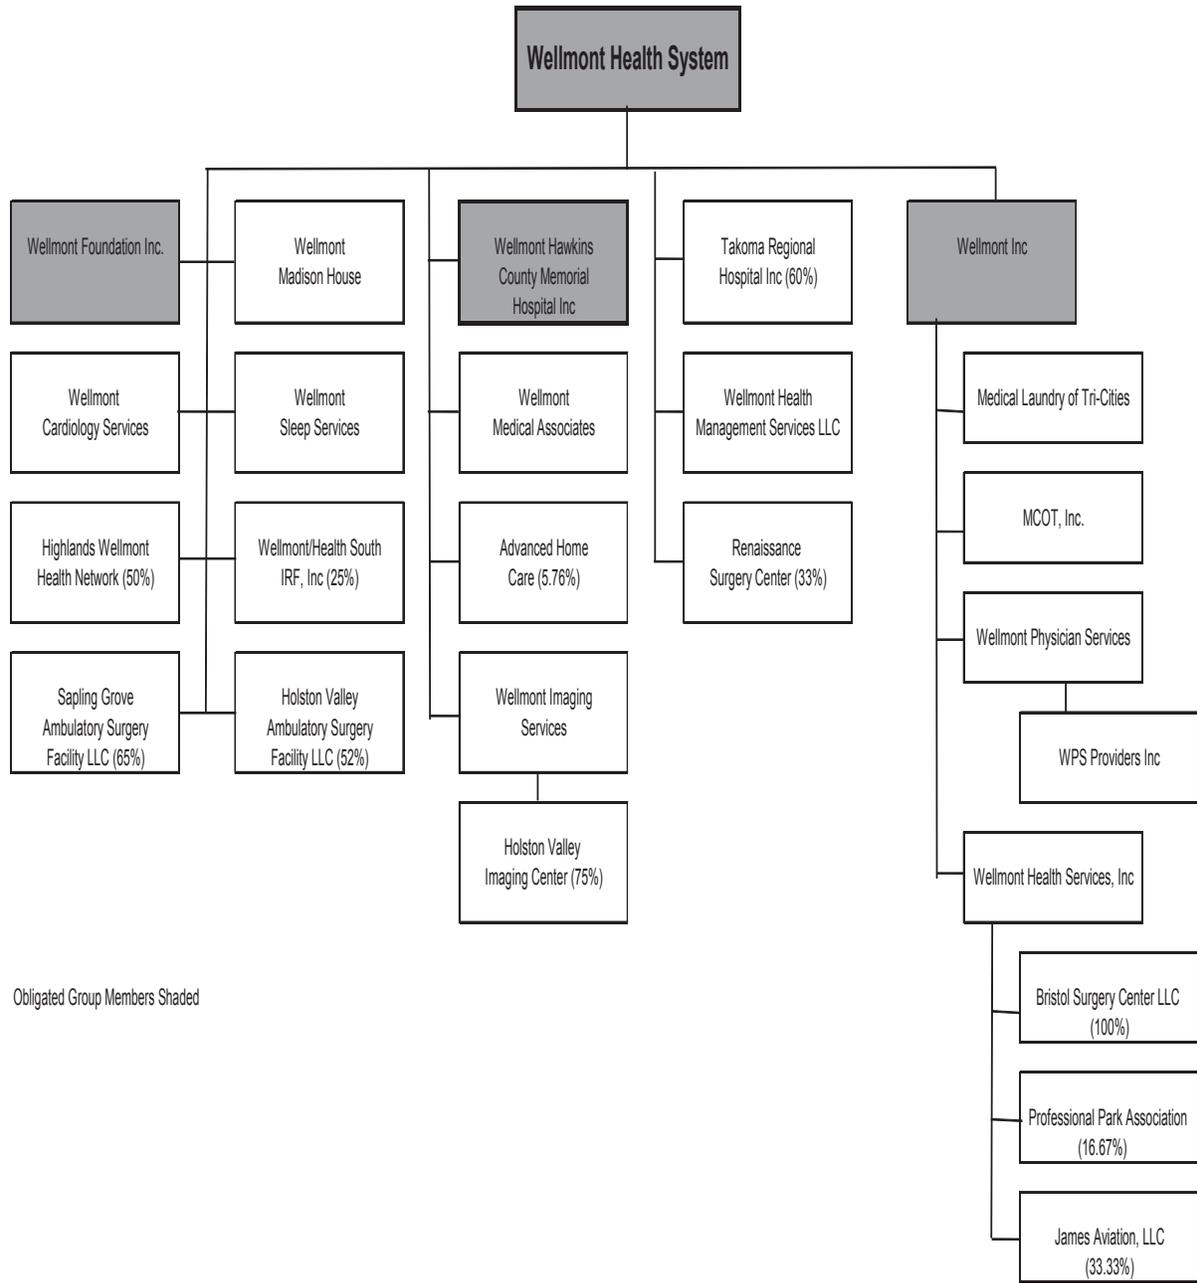

Wellmont owns and operates an integrated health care delivery system providing inpatient, outpatient and other health care services at multiple locations in Northeast Tennessee and Southwest Virginia. Currently, Wellmont owns and operates six acute care hospital facilities and one critical access hospital with a total of 1,253 licensed beds and, through a joint venture, partners to operate an additional acute care hospital facility with 100 licensed beds. The acute care facilities owned by Wellmont include Holston Valley Medical Center, Bristol Regional Medical Center, Mountain View Regional Medical Center in Norton, Virginia, Lee Regional Medical Center in Pennington Gap, Virginia, Lonesome Pine Hospital in Big Stone Gap, Virginia, Hawkins County Memorial Hospital in Rogersville, Tennessee and the critical access hospital, Hancock County Hospital in Sneedville, Tennessee. Wellmont is the majority partner with Adventist Health System at Takoma Regional Hospital, an acute care hospital in Greeneville, Tennessee.

Wellmont also, directly or indirectly, controls, owns or is affiliated with various nonprofit and for-profit corporations and other organizations that currently provide health care and health care-related services throughout the service area. Wellmont and such other entities, as set forth in the organizational chart below, are sometimes collectively referred to in this Appendix A as the “Health System.” In addition to the hospital campuses and ambulatory care centers described above, the Health System also operates medical clinics, ambulatory surgery centers, comprehensive cancer care centers, and imaging facilities as further described herein.

Organization

Obligated Group

Wellmont is a member of the Obligated Group (as defined in Appendix C) under the Master Indenture (as defined in Appendix C). The other members of the Obligated Group include Wellmont Hawkins County Memorial Hospital, Inc. (“WHCMH”), Wellmont, Inc. (“Wellmont, Inc.”), Wellmont Foundation (the “Foundation”) and each other Person (as defined in Appendix C) who becomes a member of the Obligated Group in accordance with the Master Indenture. The Corporation, WHCMH, Wellmont, Inc. and the Foundation are hereinafter in this Appendix A referred to as the Obligated Group. For the fiscal year ended June 30, 2010, the Obligated Group accounted for 89.4% of the System’s total net assets, 87.6% of its operating revenues and 64.7% of its operating income. For financial reporting purposes, the results of operations of System affiliates are consolidated with the results of operations of Members of the Obligated Group. It should be noted that given the subsidiary structure of the Corporation, the assets and associated revenues of the unobligated entities are essentially accessible to support debt of the organization.

FACILITIES

Hospital Campuses

The Health System is licensed to operate 1,253 inpatient beds and, as of December 31, 2010, operated 804 acute care, critical care, psychiatric and rehab beds, 8 hospice beds and 44 long term care beds. The complement of available beds as of December 31, 2010 was as follows:

Available Bed Complement							
As of December 31, 2010							
	Acute Care	Critical Care	Psychiatric	Rehab	Hospice	Long Term Care	Total
Bristol Regional Medical Center	183	29	26		8		246
Holston Valley Medical Center	258	60					318
Mountain View Regional Medical Center	50	4				44	98
Lee Regional Medical Center	52	6					58
Lonesome Pine Hospital	51	6					57
Hawkins County Memorial Hospital	25	4					29
Hancock County Hospital	10						10
Wholly-owned	629	109	26	0	8	44	816
Takoma Regional Hospital	20		10	10			40
TOTAL	649	109	36	10	8	44	856

Bristol Regional Medical Center. Bristol Regional Medical Center, founded in 1925, operates in a state-of-the-art facility that opened in January 1994. The 348-bed facility is situated on a 125-acre campus with easy interstate access. Bristol Regional is staffed by 314 board-certified physicians and 1,779 employees. Centers of excellence include the Wellmont CVA Heart Institute, the J.D. and Lorraine Nicewonder Cancer Center, the Primary Stroke Center, cardiac care, a diabetes treatment center, an emergency department and Level II trauma center, inpatient and outpatient hospice care, neuroscience, occupational health, outpatient services, psychiatric care, rehabilitation services, women’s health and a Level II neonatal intensive care unit. Bristol Regional was the first hospital in the Southeast to offer CyberKnife radiosurgery for the treatment of cancer and other tumors, and it has recently augmented its robotics program with the Da Vinci Robotic Surgery System.

Holston Valley Medical Center. Holston Valley Medical Center has been located in the Kingsport community since 1935. The 505-bed facility is staffed by 439 board-certified physicians and 2,120 employees. Centers of excellence include the Wellmont CVA Heart Institute, the Christine LaGuardia Phillips Cancer Center, a Level I trauma center (one of six in Tennessee), the Holston Valley Regional Children’s Hospital including a Level III neonatal intensive care unit and pediatric intensive care, Madison House, a 27-bed assisted living and adult day care facility, a diabetes treatment center, neuroscience services, outpatient services, rehabilitation services and women’s health. Thompson Reuters has named Holston Valley among its top 50 Heart Hospitals in the United States for 2011 and Holston Valley has been ranked Number 1 in Tennessee for cardiology for two years in a row by HealthGrades. Additionally, Holston Valley is the recipient of the 2011 HealthGrades Coronary Intervention Excellence Award™ and is ranked among the top ten percent in the nation for coronary interventional procedures in 2011. In fact, Holston Valley has been five-star rated for coronary interventional procedures two years in a row, five-star rated for treatment of heart failure three years in a row and ranked among the top ten in Tennessee for overall cardiac services two years in a row.

Mountain View Regional Medical Center. Mountain View Regional Medical Center was founded in the Norton, Virginia in 1948. The hospital joined the Wellmont System in 2007. The 118-bed facility (44 long term care beds) is staffed by 55 board-certified physicians and 240 employees. Medical and surgical services are provided with the support of an emergency room and diagnostic imaging including a 64-slice CT/cardiac imaging. Mountain View Regional Medical Center houses the System's only long term care unit.

Lee Regional Medical Center. Lee Regional Medical Center was founded in Pennington Gap, Virginia in 1930 and has served as the only county hospital for more than 70 years. The hospital joined the Wellmont System in 2007. The 70-bed facility is staffed by 34 board-certified physicians and 227 employees. Lee Regional Medical Center provides 24-hour emergency services, as well as a broad array of inpatient and outpatient medical and surgical services. The hospital also offers outpatient rehabilitation and cardiac stress testing.

Lonesome Pine Hospital. Lonesome Pine Hospital, located in Big Stone Gap, Va., is a 60-bed facility that has served the community since 1973. Lonesome Pine joined the Wellmont System in 1997. The facility is staffed by 104 board-certified physicians and 266 employees. Services include emergency care, intensive care, a medical/surgical/pediatric unit and obstetrics. The Southwest Virginia Cancer Center serving medical and radiation oncology patients is part of Lonesome Pine Hospital operations.

Hawkins County Memorial Hospital. On July 1, 2000, Hawkins County Memorial Hospital became the fourth member hospital in the Wellmont Health System. Established in 1961, the 50-bed, primary-care hospital provides care in a rural setting with a staff of 100 board-certified physicians and 203 employees. Services include emergency care, inpatient and outpatient surgery, occupational therapy, physical therapy and radiology. Outpatient clinics include gynecology, cardiology, gastroenterology, neurology, orthopedics, pulmonology, chemotherapy and urology.

Hancock County Hospital. Hancock County Hospital opened in April 2005. This innovative facility has been designated by the state as a critical-access hospital that provides care to a medically underserved region. The hospital was built through a partnership between the Wellmont System and the Hancock County Commission. Dedicated physicians and a staff of 53 employees provide inpatient and outpatient acute care, emergency care, radiology, laboratory services, respiratory therapy and physical therapy.

Takoma Regional Hospital. Takoma Regional Hospital was founded in 1928 in Greeneville, TN. The 100-bed acute care hospital is owned 60/40 and operated 50/50 through a management agreement with Adventist as a joint venture between Wellmont and Adventist Health System since 2007. The 369 employees provide emergency services, obstetric services, surgery, imaging and diagnostic services to the community.

Physician Clinics

Through its integrated physicians, Wellmont offers a network of primary care and specialty clinics located throughout the service area. The Wellmont Clinic is a physician led, professionally managed organization of 113 physicians and over 590 employees that provide nationally recognized cardiovascular care, medical oncology services, pulmonary and sleep services, surgical services, obstetric and gynecological services, family and internal medicine and hospitalists' services through our clinics and hospitals.

Historical Utilization

The following table sets forth selected historical utilization statistics of the inpatient and specialty care facilities owned and operated by Wellmont for fiscal years ended June 30, 2008, 2009 and 2010 and the six months ended December 31, 2009 and 2010.

PROGRAMS AND SERVICES

Specialty Services

Wellmont hospitals offer an array of medical specialties and sub-specialties that remain on the forefront of medical innovation through the partnership and drive of our experienced physicians and caregivers, some of the finest in the Southeast. Each of our medical specialties is complemented by a team of caring professionals dedicated to providing our patients and their families the best possible care.

At Wellmont, we believe there is no substitute for expertise. And we also believe each patient deserves to be cared for in an environment of comfort and healing. We deliver superior care with compassion.

Wellmont CVA Heart Institute. The Wellmont CVA Heart Institute provides a comprehensive cardiovascular program, including preventative, diagnostic, and interventional services on a regionally integrated basis. Wellmont's heart program has been repeatedly recognized for quality outcomes by some

of the nation's leading ratings groups and organizations. These awards serve as independent measures of our commitment to quality and provision of the best possible heart care.

The best heart care involves an integrated approach, bringing leading cardiovascular physicians together with cutting-edge cardiovascular technologies and treatments. The Wellmont CVA Heart Institute brings together seamless integration of top-quality heart services on a level never before realized in Northeast Tennessee and Southwest Virginia through the region's only Level One Heart Attack Network.

The Wellmont CVA Heart Institute is:

- 36 leading cardiologists and cardiac surgeons
- Eight member hospitals of Wellmont Health System
- Nine community cardiac offices with locations across Northeast Tennessee and Southwest Virginia

Wellmont Cancer Institute. The Wellmont Cancer Institute provides comprehensive cancer care, including cyberknife robotic radiosurgery, gliasite, image-guided and intensity-modulated radiation therapy, chemotherapy, counseling services, nutritional services, and patient education. More than 20 oncologists and surgeons practice at the Wellmont Cancer Institute. In addition, the Wellmont Cancer Institute performs research on the prevention and treatment of cancer. The Wellmont Cancer Institute locations include:

- The Christine LaGuardia Phillips Cancer Center at Holston Valley Medical Center
- The J.D. and Lorraine Nicewonder Cancer Center at Bristol Regional Medical Center
- Kingsport Hematology Oncology on Holston Valley Medical Center's outpatient campus
- Tri-City Oncology Center on Bristol Regional Medical Center's campus
- Blue Ridge Medical Specialists on the Bristol Regional Medical Center campus
- The Southwest Virginia Cancer Center, Norton, Va.
- Abingdon Hematology Oncology, Abingdon, Va

Wellmont Stroke Center. As the first certified primary stroke center in the region, the Primary Stroke Center at Bristol Regional Medical Center leads the way in exceptional stroke care. Bristol Regional is a founding member of the Appalachian Regional Stroke Center Network (ARSCN).

The Primary Stroke Center at Bristol Regional has full neurological coverage 24 hours a day, seven days a week. The professionals at the stroke center also provide their expertise to the member hospitals of the ARSCN when a patient presents with stroke. Along with Bristol Regional, Lonesome Pine Hospital is a founding member of the ARSCN. Holston Valley Medical Center also provides specialized stroke care.

Wellmont Emergency Services. Wellmont provides emergency services at all eight hospitals with one of the State's six Level I Trauma Centers located at Holston Valley Medical Center and affiliated with East Tennessee State University and its traumatologists. Bristol Regional Hospital offers Level II Trauma Center services. Our Holston Valley and Bristol Regional trauma programs are supported by WellmontOne Air Transport and by MedFlight (a partnership with the Virginia State Police). The emergency departments at all Wellmont Hospitals are staffed with exceptionally trained and highly experienced staff members and physicians to ensure the best care possible. Patient care liaisons and pastoral care staff are available to provide additional resources, spiritual counseling and emotional support.

Other Services

Marsh Regional Blood Center. Since its establishment as the region's first independent blood bank at Holston Valley Community Hospital in 1947, the goal of Marsh Regional Blood Center has been to collect and maintain a local blood supply to meet local needs. Through generous support from donors, it has grown steadily. In 1987, it was officially named Marsh Regional in honor of Lois Marsh, its founder and supervisor for forty years.

Today, Marsh Regional continues to operate as an independent blood center, providing a safe and affordable blood supply to hospitals and other medical facilities throughout Northeast Tennessee and Southwest Virginia. Each year Marsh Regional collects, processes, tests, stores and distributes tens of thousands of units of blood and blood products.

Marsh Regional Blood Center is a member of American Association of Blood Banks and the Tennessee Association of Blood Banks and is a federally inspected and licensed blood center through the Food & Drug Administration.

Wellmont Nurse Connection. Wellmont Nurse Connection provides health information any time, 24 hours a day, seven days a week. Experienced nurses are available to answer questions via a toll free Wellmont Nurse Connection phone line. An online library may be accessed by patients to learn more about a variety of essential health topics.

Wellmont's Healing Environment. Wellmont's Healing Environment utilizes Shepherds, specially trained and empowered caregivers who exhibit a passion for helping patients heal – physically, mentally and spiritually. These Shepherds are dedicated to creating healing spaces around us, healing attitudes within us and healing relationships between us.

The Healing Environment focuses as much energy on healing patients as it does on curing diseases. In a Healing Environment, patients are the focal points. Decisions are made and actions are taken with our patients first and foremost in mind.

The Healing Environment is not a new concept. Its principles are rooted in the basic concepts of medicine and in the idea that we are each capable of being a Good Samaritan. At times, that may involve the simple offering of a kind word or a compassionate heart. And the Healing Environment acknowledges that sometimes, when that is all we have to give, it is also what is most needed.

The Healing Environment is more than a program or a set of guidelines for care. It is a concept that takes care to another level and a set of principles that promotes true healing.

Other Activities

Graduate Medical Education. Wellmont operates seven accredited residency training programs through affiliations with East Tennessee State University and Lincoln Memorial University: two in Family Medicine, two in Internal Medicine, two in General Surgery and one osteopathic family medicine program. Eighty-three full-time residents participate in the seven programs. Wellmont will be adding a new osteopathic orthopedic residency program affiliated with Lincoln Memorial University in July 2011 with 6 additional residents.

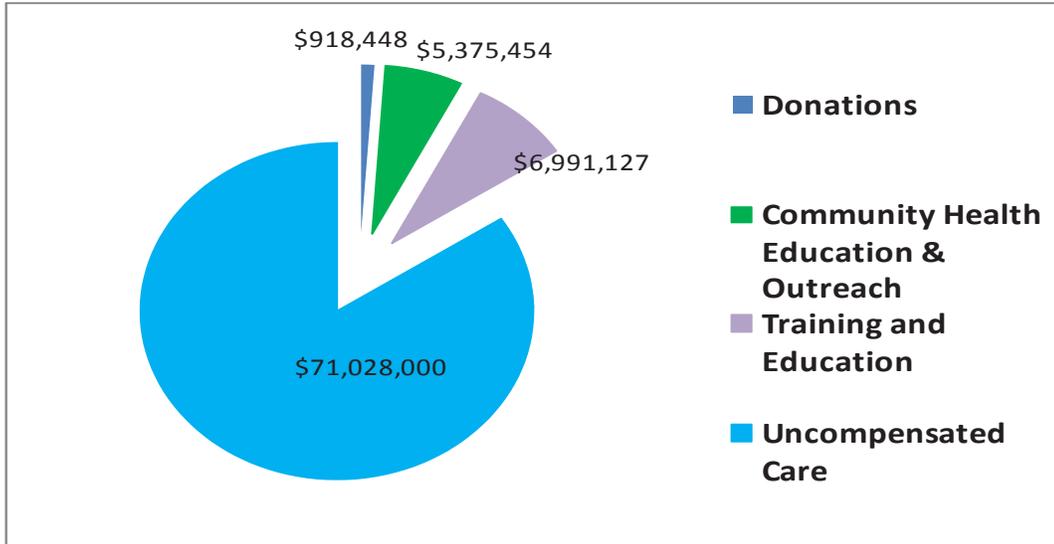

Other Education Programs. Wellmont participates in other education programs for a variety of patient care professions. The 156 programs with 79 different institutions include registered nurse,

certified nursing assistant, physical therapist, surgical technician and respiratory therapist training programs.

Community Health Education. Wellmont offers a variety of courses for the community, as well as for patients and families. Through free health fairs, screenings, lectures and events, we devote significant financial and human resources to help area residents become more aware of their health and wellness. Wellmont serves as the regional affiliate for Children’s Miracle Network Hospitals and the American Heart Association’s Go Red for Women initiative and supports Susan G. Komen for the Cure.

CHARITY CARE

Wellmont offers free or discounted hospital services for those who cannot afford to pay. At Wellmont, a patient with an annual income of less than 200% of the federal poverty level will qualify for a full uncompensated care write-off. In 2010, the cost to Wellmont of providing uncompensated care was \$71 million. Wellmont provides financial assistance for uninsured patients in cases when the annual family income is over 200% of the federal poverty level and the account balance is equal to or greater than 100% of the patients total annual household income. Wellmont has adopted a charity care policy that is designed to ensure that financial constraints are not a barrier to the provision of care.

SERVICE AREA AND COMPETITION

Composition of Service Area

Wellmont’s service area is defined by management at the county level based on patient activity and locations of our campuses. The primary service area (“PSA”) includes the Tennessee counties of Sullivan, Hawkins and Hancock and the Virginia counties of Washington, Wise, Lee and Scott. The Virginia secondary service area (“VSSA”) is defined as Russell, Buchanan, Smyth, Tazewell, Dickenson and Wythe counties. The Tennessee secondary service area (“TSSA”) is defined as Washington, Greene, Carter, Johnson and Unicoi counties. The map below details the service area:

HISTORICAL FINANCIAL INFORMATION

General

The following consolidated financial results of operations and changes in net assets and consolidated balance sheets of Wellmont and its affiliates (all of which are listed in the organizational chart on page A-2 hereof and collectively hereinafter referred to as “Wellmont and Affiliates”) as of and for the years ended June 30, 2008, June 30, 2009 and June 30, 2010 are derived from consolidated financial statements which have been audited by KPMG, LLP, independent auditors. The financial information below and in audited financial statements of Wellmont and Affiliates, included in Appendix B hereto, includes affiliates of Wellmont that are not Members of the Obligated Group. Affiliates of Wellmont which are not Members of the Obligated Group contributed less than 1.5% of the total revenues for the fiscal years ended June 30, 2008, 2009 and 2010 and less than 1.5% of the total revenues for the six-months ended December 31, 2009 and 2010. The data should be read in conjunction with the

consolidated audited financial statements, related notes and other financial information contained herein as Appendix B.

Summary Financial Information

The following consolidated statement of operations and changes in net assets and balance sheets of Wellmont and Affiliates for the three fiscal years ended June 30, 2008, 2009 and 2010 have been derived from the audited consolidated financial statements of Wellmont and Affiliates. The complete audited consolidated financial statements and supplemental information for the fiscal years ended June 30, 2009 and 2010 are included in APPENDIX B – “WELLMONT HEALTH SYSTEM AND AFFILIATES CONSOLIDATED FINANCIAL STATEMENTS AND SUPPLEMENTAL INFORMATION” hereto. The following summary consolidated financial information should be read in conjunction with the section herein entitled “MANAGEMENT’S DISCUSSION AND ANALYSIS OF FINANCIAL INFORMATION” and the complete audited consolidated financial statements and related notes that appear in APPENDIX B.

The following consolidated statement of operations and changes in net assets and balance sheets of Wellmont and Affiliates for the six months ended December 31, 2009 and 2010 were derived from the internal unaudited financial statements for such periods. The financial data for the six months ended December 31, 2009 and 2010 include all adjustments management of Wellmont considers necessary to present such information in conformity with accounting principles generally accepted in the United States of America on a basis consistent with that of the audited financial statements for the fiscal year ended June 30, 2010. The results of operations and changes in net assets for the six months ended December 31, 2010 are not necessarily indicative of the operating results to be expected for the entire fiscal year ending June 30, 2011.

Sources of Patient Service Revenue

The following table shows the percentage of gross patient service revenue by payor for the fiscal years ended June 30, 2008, 2009 and 2010, and the six months ended December 31, 2010.

	Sources of Revenue			December 31, 2010
	June 30, 2008	June 30, 2009	June 30, 2010	
Medicare	34.5%	33.6%	32.5%	32.7%
Medicaid	13.5%	13.5%	13.5%	12.9%
Self Pay	6.1%	6.2%	6.5%	6.7%
Medicare Managed Care	14.7%	17.0%	18.4%	18.8%
Managed Care	25.8%	25.1%	25.0%	25.3%
Other	5.4%	4.7%	4.2%	3.5%
	<u>100.0%</u>	<u>100.0%</u>	<u>100.0%</u>	<u>100.0%</u>

Source: Wellmont management

Approximately 49 percent of Wellmont's revenue sources are under managed care contracts – 6% in TennCare, 19% in Medicare Managed Care and 25% in Managed Care. The Medicare and TennCare contracts cover 127,000 lives in our service area. Wellmont Health System has contracts with 29 different managed care companies. Approximately 87 percent of our managed care revenues are concentrated with four different payors. Our contracts are normally reimbursed on a case basis with a percent of charge applied to most outpatient business.

Capitalization

The following table sets forth the capitalization ratios for Wellmont and Affiliates as of June 30, 2008, 2009 and 2010 and as of December 31, 2010.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL INFORMATION

Accounting Policies and Estimates

The preparation of consolidated financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the

consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Significant items subject to such estimates include: the carrying amounts for goodwill, and property, plant, and equipment; valuation allowances for receivables; and liabilities for claims incurred but not reported under self-insured programs. Actual results could differ from those estimates.

For more information regarding Wellmont's accounting policies, see the notes to the audited consolidated financial statements that appear in APPENDIX B.

Historical Performance

Fiscal Year Ended June 30, 2009 vs. 2008

Net patient collections (defined as net patient revenues less bad debt) increased by \$24.6 million or 4.0 percent for the fiscal year ended June 30, 2009 compared to the same period in 2008. Patients in a bed, excluding newborns, were 50,650, which represented an increase of 2,276 (4.7 percent). Gross revenues increased by \$69.0 million resulting from utilization increases as additional operations came on line. Contractual adjustments and bad debt were higher by \$40.0 million, reflective of modest payor mix changes. Charity care increased by \$4.5 million versus 2008, reflective of the overall utilization increases. The increase is net of the effect of reclassification of certain accounts as charity care versus bad debt due to a policy change.

Salaries, benefits and purchased services increased by \$9.0 million or 2.3 percent. Rate of pay and benefits increases provided to employees caused the increase. Supply costs increased by \$6.7 million or 5.0 percent as a result of volume along with increases in price and mix of services provided. Other direct expenses decreased slightly (\$0.4 million or 0.7 percent) over the same period last year. This was caused by increases in lease, rental, repair and maintenance offset by consulting and discretionary spending control.

Bad debt expense reflects a significant decrease due to a change in policy resulting in a reclassification of accounts as charity versus bad debt in FY 2009. The slight net increase associated with volume and shift to Medicare Managed Care is reflected in the net collections discussed above.

Interest, depreciation and amortization increased by \$5.3 million or 9.8 percent related to purchases and Project Platinum coming on line.

Operating income was a \$7.1 million or a 1.0 percent margin compared to \$2.4 million or a .30 percent margin for fiscal year 2008.

Investment income was lower in fiscal year 2009 than in fiscal year 2008 given greater investment market volatility. Discontinued operations included the impact of Jenkins Community Hospital and Medical Mall Pharmacy over the two periods.

Excess of Revenues over Expenses was \$1.3 million in fiscal year 2009 compared to \$22.4 million for fiscal year 2008.

Fiscal Year Ended June 30, 2010 vs. 2009

Net patient collections increased by \$11.0 million or 1.7 percent for the fiscal year ended June 30, 2010 compared to the same period in 2009. Patients in a bed, excluding newborns, were 50,910, which represented an increase of 260 (.5 percent). Gross revenues decreased by \$19.2 million resulting from overall volume and utilization decreases. Contractual adjustments and bad debt were lower by \$27.1

million, reflective of utilization changes and improvements in reimbursement and contracted rates. Charity care decreased by \$2.9 million versus 2009, reflective of the utilization changes combined with slight payor mix changes.

Salaries, benefits and purchased services expenses decreased year over year by \$19.2 million or 4.8 percent. This decrease was driven by a reduction of full time equivalents and contractual obligation negotiations to reduce costs and right size operations. Supply expense was higher year over year by \$9.1 million or 6.5 percent. \$4 million of the supply increase is directly related to the increase in blood products. Drug costs drove another \$3.8 million of the increase primarily related to oncology drug costs. Other operating expense increased by \$4.1 million or 6.6 percent as a result of fees and other changes in expense structure associated with the right-sizing.

Bad debt expense increased by \$1.9 million or 5.7 percent because employers and payors shifted a larger amount of expenses to co-payments and deductibles.

Interest, depreciation and amortization increased by \$4.8 million or 8.2 percent related to Project Platinum coming on line and additional debt-related expenses.

Operating income was \$22.8 million or a 3.2 percent margin in fiscal year 2010, compared to \$7.1 million or a 1.0 percent margin in fiscal year 2009.

Investment income was lower in FY 2010 as a result of continued volatility in the market and the recognition of other than temporary losses. Discontinued operations were driven by the recognition of the sale of the Medical Mall Pharmacy operation.

Excess of Revenues over Expenses was \$19.2 million compared to \$1.3 million in the prior fiscal year.

Interim Six-Months Ended December 31, 2010 vs. 2009

Net patient revenue has grown 2.0% or \$6.9 million over the previous six month period last year. This excludes the additional revenue of \$16.6 million reported as a result of the merger of the cardiology practice in May 2010 and \$9.5 million related to the TennCare fee assessment. The \$9.5 million of fee assessment is offset in other expenses. Other revenue shows a decrease as a result of poor performance related to the Takoma joint venture.

Salaries and benefits for the six month period has increased over last year-to-date by \$1.9 million or 1.2% , net of cardiology practice expenses of \$15.4 million, driven by the increase in FTEs for patient care as well as to support computerized order entry and electronic health record system build and implementation. Supplies have increased by \$4.6 million or 6.1%, net of cardiology practice expenses of \$1.1 million, driven by higher drug costs, particularly in oncology, and utilization as well as volume.

Other expenses increased in the period over the same period last year by \$0.7 million as a result of increases in rental to support new operations and increases in maintenance for software systems.

Interest and depreciation increases are related to the completion of Project Platinum

Year-to-date, growth in expenses has out-stripped the growth in revenues resulting in a 1.1% operating margin.

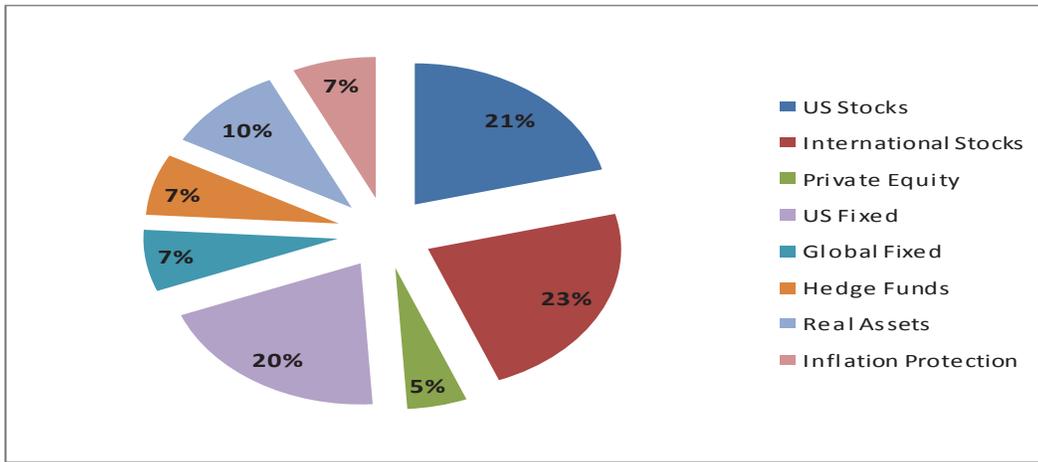

Investments are performing well with the rebound in the market while the mark-to-market on our derivatives is not as volatile as last year.

Discontinued operations include changes related to the valuation of the Jenkins' accounts receivable where last year also includes the Medical Mall Pharmacy operations.

Excess of Revenues over Expenses was \$12.5 million compared to \$22.3 million in the prior fiscal year.

Liquidity and Investment Policy

At December 31, 2010, Wellmont Health System had approximately \$293.3 million of unrestricted cash and cash equivalents and investments. The following chart sets forth the asset allocation of those funds.

Board-designated investments are invested pursuant to an investment policy approved by the Board (the "Investment Policy"). The policy specifies allowable investments, liquidity needs, performance benchmarks and asset allocation guidelines. The Board has delegated the implementation of this policy to the Finance and Investment Committee, which consists of members of the Board and other appointed members.

At the beginning of 2010, Wellmont completed a revision to the Investment Policy and implemented an asset allocation study for the investment portfolio. Wellmont relied on an external investment consultant to conduct a study that reviewed the existing investment pool and associated allocations and the efficiency of the investment pool's performance to date. The investment advisor, at the direction of Wellmont management, considered the operating characteristics, including time horizon, liquidity requirements, return expectations and risk tolerance, as well as the overall objective for the investment pool for incorporation into its investment policy and asset allocations recommendation. The allocation targets for the investment pool were adopted as follows: 28% fixed income (risk reduction assets), 21% domestic equity, 21% international equity, 3% emerging market, 5% private equity/special purposes, 6% hedge funds and 16% in inflation protection assets. These target allocations are based upon a long-term outlook. Performance is monitored regularly and adjustments are made if necessary. Actual allocations may differ from target allocations in the short-term or during periods of significant market fluctuations, and there can be no assurance that Wellmont will always rebalance the investment portfolios.

The investment policies are subject to revision from time to time by the Finance and Investment Committee. There can be no assurance that Wellmont will achieve its investment objectives or that it will receive any return on their investments. Investment performance may be volatile, and Wellmont may lose a significant portion of its investment portfolio. Adverse economic and market conditions or other events could result in substantial or total loss in respect of some or all investments.

Achievement of investment income is subject to significant risks and Wellmont can give no assurance that its investments will generate any particular level of return. See “BONDHOLDERS’ RISKS” in the forepart of this Official Statement. If Wellmont suffers investment losses, their business plans and financial results could be materially impacted.

Retirement Plan

Wellmont sponsors a retirement program and defined contribution retirement plan (Retirement Plan) that covers substantially all employees. This program and the related Retirement Plan were created from amendments, restatements, and mergers of existing defined contribution plans at Holston Valley and Bristol Regional. Wellmont makes annual contributions to the Retirement Plan in an amount equal to three percent of each participant’s base wages and contributes an additional amount, based on each participant’s voluntary contributions, which cannot exceed certain limits established in the Internal Revenue Service Code, up to three percent of each participant’s wages.

In addition, there is a legacy Wellmont Health System Defined Benefit Plan that includes grandfathered employees at Holston Valley and Lonesome Pine Hospitals. The Defined Benefit Plan is frozen and no further benefits accrue. The plan is actuarially valued annually and Wellmont recognizes the funded status as an asset or liability in its consolidated balance sheets and recognizes changes in funded status in the year in which the change occurs as a change in unrestricted net assets.

Certain Indebtedness and Liabilities

Wellmont’s current and projected debt profiles (refinancing the 2006A Bonds with fixed rate debt with the same maturity to 2032 and replacing the letter of credit issued by Bank of America, N.A. securing the Series 2005 Bonds with a letter of credit issued by JP Morgan Chase Bank, N.A.) are shown in the schedules below:

Current Debt Profile:

Capital Improvement Plans

Overview of 2011 Capital Budget. The 2011 capital budget is approximately \$44.0 million. Management expects that \$10.0 million will be spent on strategic items with the majority being spent on the purchase of the Southwest Virginia Cancer Center building and land. Before any individual project is commenced or significant capital costs are incurred, the project is evaluated by management to determine financial feasibility and is submitted for approval to the Board. Management expects that the sources of funding for the capital projects approved will be cash from operations and philanthropic donations. Management closely monitors the progress of each project, including oversight of the schedule and the budget, and regularly reports such progress to the Board.

CORPORATE GOVERNANCE

Wellmont Board of Directors

Wellmont is governed by the Board, which is composed of community members. The role of the Board is to establish policy, promote performance improvement and provide for necessary resources and organizational management and planning.

Each trustee is elected for a four-year term and may serve a maximum of two terms, which then must be followed by one year off the Board before being elected to serve again. The bylaws of Wellmont require that there be at least 13 and not more than 15 voting trustees, four of whom must be physicians. There are seven at large members, one member as designated by the Lonesome Pine Advisory Board, one member designated by the Hawkins County Advisory Board. In addition there are two ex-officio

members by virtue of their positions of chairs of the Bristol and Holston Valley Advisory Boards. The chief executive officer of Wellmont serves on the Board as an *ex-officio* non-voting member.

The Directors serve on a voluntary basis and receive no compensation for their services. The names of the current Directors, their occupations and years of service are as follows:

Name/Title	Term Expires	Eligible for Another Term	Occupation
R. David Crockett Sr., chairman	06/30/2013	Yes - Through 6/30/2017	Consultant
T. Arthur Scott Jr., vice chairman	06/30/2014	Yes - Through 6/30/2018	Attorney
Julie Bennett, secretary	06/30/2013	Yes - Through 6/30/2017	Attorney
E. Wayne Kirk, treasurer/assistant secretary	06/30/2011	No	Certified Valuation Analyst and Certified Public Accountant
Robert Burgin	06/30/2013	Yes - Through 6/30/2017	Retired Hospital Administrator
Dr. Marvin Cameron	06/30/2012	ex-officio	Consultant
Denny DeNarvaez		by virtue of office	President and CEO
Dr. Pierre Istfan	06/30/2013	Yes - Through 6/30/2017	Cardiologist
Wayne Kennedy	06/30/2011	ex-officio	Retired Executive - Bristol Compressors
Ravan Krickbaum	06/30/2014	No	Retired - Superintendent of Rogersville City Schools
Roger Leonard	06/30/2013	Yes - Through 6/30/2017	Consultant
Roger K. Mowen Jr.	06/30/2012	Yes - Through 6/30/2016	Retired Executive Eastman Chemical Company
Dr. Thomas Pugh	06/30/2012	No	Radiologist
Glen "Skip" Skinner	06/30/2012	Yes - Through 6/30/2016	Administrator Wise County
Dr. Douglas Springer	06/30/2014	Yes - Through 6/30/2018	Gastroenterologist
Dr. David Thompson	06/30/2011	No	Internal Medicine Physician
John Williams	06/30/2014	Yes - Through 6/30/2018	CEO, Regional Eye Center

The Board delegates certain of its functions to several committees. Currently, the bylaws provide for five standing committees: Audit and Compliance; Governance; Human Resources; Finance and Investment; and Quality/Safety/Service. In addition to the five standing committees, the Board may appoint other committees from time to time. The committee responsible for oversight of Wellmont's financial operations is the Finance and Investment Committee. The Finance and Investment Committee is comprised of at least three trustees, and its purpose is to develop and monitor oversight of the operating and capital budgets and the investment portfolio of Wellmont. The Audit and Compliance Committee is responsible for oversight of Wellmont's financial reporting. Oversight responsibility of the Audit and Compliance Committee includes, but is not limited to: the integrity of financial statements, the financial reporting process, the systems of internal accounting and financial controls; the performance of a coordinated internal audit function; the performance of independent auditors; compliance with ethics policies; and compliance with legal and regulatory requirements.

Relationships with Board Members

Wellmont is permitted to enter into transactions from time to time with business organizations with which one or more of Wellmont's officers or Directors are affiliated. Pursuant to existing policy of the Board, such transactions or affiliations are permitted only after full disclosure of potential conflicts of interest to the Board and approval by a majority of the disinterested Directors. Interested Directors are not permitted to vote or to use personal influence on the matter and such Director is not counted in determining the quorum for a meeting when Board action is to be taken on the matter. The minutes of the meeting must reflect that a disclosure was made, the abstention from voting and the quorum satisfaction. There are currently no conflicts of interest with Directors relating to the Series 2011 Bonds.

Executive Management

Brief biographies of the executive management of Wellmont are set out below.

Margaret “Denny” DeNarvaez is president and CEO of Wellmont Health System. An accomplished executive with nearly 30 years of healthcare experience, DeNarvaez previously served as CEO of St. John’s Mercy Health Care, which includes hospitals in both St. Louis and Washington, Mo. DeNarvaez also provided leadership for Mercy’s extensive operations in Missouri and Oklahoma, encompassing more than 2,200 licensed beds, nearly 15,000 employees and nearly 3,000 physicians. During her five-year tenure with the Mercy system, DeNarvaez refocused the organization on its mission, vision and values, led a multimillion-dollar financial turnaround, established a dedicated heart hospital and developed a physician clinical council to leverage the experience and judgment of physicians in operations and planning. Under her leadership, St. John’s Mercy was recognized as a “best place to work” by both the St. Louis Business Journal and Modern Healthcare magazine. DeNarvaez previously served as president of Abbott Northwestern Hospital in Minneapolis, part of Allina Hospitals and Clinics. Abbott Northwestern, the largest hospital in Minnesota’s Twin Cities, is nationally recognized for clinical expertise in cardiac care through its renowned Minneapolis Heart Institute. She has also served as CEO and chief financial officer of Florida Medical Center in Fort Lauderdale, Fla. DeNarvaez is a graduate of Drake University in Fort Lauderdale, where she earned a bachelor’s degree of business administration in accounting. She is a certified public accountant and holds leadership certifications from the University of Michigan Business School in Ann Arbor and the University of St. Thomas in St. Paul, Minn. She was the 2009 recipient of the Visionary Leadership Award from the Missouri Hospital Association and in 2007 was named one of the Top 25 most influential businesswomen by the St. Louis Business Journal.

Elizabeth “Beth” Ward is executive vice president and chief financial officer of Wellmont Health System. She was appointed to this role in 2010. Ms. Ward was previously employed as CFO and treasurer of Moses Cone Health System in Greensboro, N.C., a position she had held since 2001. She joined Moses Cone in 1996 as the first corporate controller and previously worked in leadership roles at the University of North Carolina at Chapel Hill’s Division of Health Affairs and the University of North Carolina Hospitals. Ms. Ward is a graduate of Radford University in Virginia, where she received a bachelor’s degree in business finance and insurance. She earned a master’s degree in business administration from the University of North Carolina at Greensboro. She is a member of the Health Management Academy and the American Institute of Certified Public Accountants, as well as an advanced member of the Healthcare Financial Management Association. She is a certified public accountant in North Carolina and Tennessee and holds a leadership certification from the University of Michigan Business School in Ann Arber. She was named Business Woman of the Year by the Triad Business Journal in 2007 and CFO of the Year for Extra Large Organizations by the Triad Business Journal in August, 2009.

Tracey Moffatt is chief operating officer for Wellmont Health System. Moffatt, who has more than 25 years’ experience as a clinical and operations leader, joined Wellmont in January, 2011. As COO, Moffatt provides strategic leadership across the health system in areas of clinical service delivery, performance and quality management and decision support. She previously was senior vice president of consulting for Navvis and Company, a national healthcare consulting firm. Previously, Moffatt was employed for nearly two decades by the Sisters of Mercy Health System in St. Louis. She held positions of increasing responsibility during her tenure there, culminating in her service as executive vice president of clinical performance/chief nurse executive for St. John’s Mercy Health Care. Moffatt received her bachelor’s degree in nursing from Louisiana State University Medical Center in New Orleans. She earned a master’s degree in healthcare administration from Trinity University in San Antonio. She is a member of Sigma Theta Tau and in 2009 received the Missouri Hospital Association’s Distinguished Quality Professional Award.

Patrick Kane, an Emmy-nominated producer with nearly 25 years’ experience in advertising, marketing and communications, is senior vice president of marketing communications for Wellmont Health System. Before joining Wellmont in 2005, Mr. Kane served as director of marketing

communications for Conemaugh Health System in Johnstown, Pa. Prior to joining Conemaugh in 1997; he served as vice president and treasurer of Kane and Company Advertising Inc. in Johnstown. Mr. Kane is a graduate of Saint Joseph's College in Rensselaer, Ind., where he received a bachelor's degree in communications and theater arts, and King College in Bristol, Tenn., where he earned a master's degree in business administration.

Hamlin Wilson, senior vice president of human resources, joined the Wellmont Health System executive leadership staff in 2003. He has 22 years experience in health care, directing human resources functions for healthcare organizations in Tennessee and Mississippi. Mr. Wilson received his bachelor's degree at Southern Illinois University in Carbondale, Ill., and earned his master's degree at the University of Southern Mississippi in Hattiesburg, Miss. He holds advanced certification as a senior professional in human resources from the Society for Human Resource Management. He is a past president of the Tennessee Healthcare Human Resources Association and was honored by the American Society of Healthcare Human Resources Association when he received the Paul Guy Mentorship Award in 2003.

John Howard, an accomplished healthcare executive who holds doctorate and law degrees, serves as Wellmont Health System's general counsel and will help guide the organization's medical practice operations as of April 1, 2011. Mr. Howard worked for St. John's Mercy Health Care in St. Louis from 2001 to 2011. Most recently, he served as executive vice president and chief development officer. He was previously senior vice president, general counsel and assistant secretary. He also served as director of corporate compliance and privacy officer. Mr. Howard received a Bachelor of Arts degree in liberal studies from Concordia Lutheran College in Austin, Texas; a master's degree in English and philosophy from the University of Texas at Austin; a doctorate degree in English from St. Louis University; and a law degree from St. Louis University.

Todd Norris is executive director of the Wellmont Foundation and Wellmont Health System's senior vice president of institutional advancement. Mr. Norris is a graduate of East Tennessee State University, where he received his bachelor's and master's degrees. He has completed certificate programs through the Institute for Charitable Giving and Wharton's Institute for Higher Education Research. He is a member of the Council for Advancement and Support of Education, the Institute for Charitable Giving and the Association for Healthcare Philanthropy.

Virginia Frank is president of Holston Valley Medical Center. Ms. Frank previously served as administrator of the Heart and Vascular Hospital, a 96-bed facility that is part of St. John's Mercy Medical Center in St. Louis. She also served as vice president of operations for St. John's Mercy Medical Center. She previously worked as vice president of operations for Abbott Northwestern Hospital in Minneapolis and as chief information officer for Florida Medical Center Hospital in Fort Lauderdale, Fla. She earned a bachelor's degree in business administration from Florida Atlantic University in Boca Raton, Fla. She has also participated in the Global Leadership Development Program of the University of Michigan Business School.

Bart Hove, president of Bristol Regional Medical Center, is a graduate of Georgia Institute of Technology in Atlanta and the University of Alabama in Birmingham, where he received a master's degree in hospital administration. Before joining Bristol Regional in 2000, Mr. Hove was previously employed as chief executive officer of Delta Regional Medical Center in Greenville, Miss., CEO and president of Good Samaritan Hospital in Lexington, Ky., CEO of Crestwood Hospital in Huntsville, Ala., and administrator of Beaches Hospital in Jacksonville, Fla. He is a member of the American College of Hospital Administrators and the American Hospital Association.

David Brash serves as president of Lonesome Pine Hospital and regional vice president of Wellmont Health System hospitals in Southwest Virginia. Mr. Brash earned his bachelor's degree in

healthcare administration from West Virginia Institute of Technology and received his master's degree in healthcare administration from West Virginia College in Charleston. Prior to joining Mountain View, Brash served as the chief executive officer at Harlan Appalachian Regional Hospital in Kentucky, Russell County Medical Center in Lebanon, Va., and Plateau Medical Center in Oak Hill, W.Va. He has achieved fellow status with the American College of Healthcare Executives and is a member of the Virginia Hospital and Healthcare Association.

Fred Pelle, president of Hawkins County Memorial Hospital since 2005 and president of Hancock County Hospital since 2008, began his healthcare career in 1982 and has served in executive positions at hospitals in Alabama, Kentucky, Georgia and Virginia. Most recently, he served as CEO of Buchanan General Hospital in Grundy, Va. He is a graduate of Athens State College, where he earned a bachelor's degree in accounting, and Troy State University, where he received a master's degree in business administration. He is a fellow of the American College of Healthcare Executives and an advanced member of the Healthcare Financial Management Association.

Daniel Wolcott is president of Takoma Regional Hospital. Mr. Wolcott previously served as vice president of Florida Hospital Ormond Memorial and as administrator of Florida Hospital Oceanside, 205-bed and 119-bed hospitals, respectively, in Ormond Beach, Fla. He also previously served as director of patient financial services at Florida Hospital Ormond Memorial, and held the same title at Emory-Adventist Hospital in Smyrna, Ga. Mr. Wolcott received a master's degree in business administration with an emphasis in finance from Georgia State University. He earned a bachelor's degree in business administration/marketing from Southern Adventist University.

Tim Attebery is Senior Vice President of Cardiology Services for Wellmont Health System. Mr. Attebery has 26 years of healthcare consulting and senior management experience focused on cardiovascular services. From 1992 until 2010, he served as CEO at three different large cardiovascular group practices. Mr. Attebery managed the integration of Cardiovascular Associates and Wellmont Health System in 2010. He started CVI3, a national cardiovascular services consulting and training company in 2004 and sold that company in 2008. Mr. Attebery served on the Executive Committee and as President of the Cardiology Leadership Alliance, a national network of premier cardiology groups now known as MedAxiom. He organized the founding of the Society of Cardiovascular CT, which currently has over 5,000 international members and is recognized by the American College of Cardiology and the American Heart Association as the definitive, scientific organization for all cardiac CT matters.

MEDICAL STAFF

General. As of March 31, 2011, the combined medical staff of the Wellmont Health System consisted of 1,044 physicians with 932 or 89 percent being board certified. The average age of the medical staff was approximately 50 years.

OTHER INFORMATION

Employees

Wellmont employs over 6,369 persons or 5,278 full time equivalents. Of these 113 are physicians. There are 389 part time employees or 251 full time equivalents. None of Wellmont's employees are represented by a labor union, nor is management aware of any union-organizing activities among its employees. Employee relations are considered to be excellent.

Insurance Coverage and Litigation

Wellmont maintains a self-insurance program that includes general and professional liability coverage for its entire operations. The insurance provides coverage in amounts consistent with those normally maintained by similar health care facilities.

Wellmont maintains a risk management program to avert and mitigate potential losses through early reporting and intervention. Claims are managed cooperatively between Wellmont's risk manager and Wellmont's primary insurance carrier.

Currently, there are no known claims against Wellmont with the potential of exceeding the limits of coverage available under the insurance plan.

Wellmont is involved in various liability disputes, governmental and regulatory inspections, inquiries, investigations, proceedings and litigation matters that arise from time to time in the ordinary course of business. Wellmont is self-insured with respect to professional liability, medical, dental and workers compensation claims and comprehensive general liability risks, subject to certain limitations. Professional and comprehensive general healthcare liability risks in excess of \$1 million per occurrence are reinsured with major independent insurance companies up to an aggregate liability of \$50 million.

Philanthropy

The Foundation seeks charitable donations from individuals, corporations, foundations and other organizations on behalf of Wellmont. The Foundation has established programs in major gifts, planned giving, annual gifts, tribute and memorial gifts, and in-kind gifts.

Licenses, Accreditation and Approvals

The Health System's hospitals are licensed by the respective States in which they operate and are accredited by The Joint Commission. The Joint Commission's accreditation process seeks to help organizations identify and correct problems to improve the safety and quality of care and services provided. The process focuses on systems critical to the safety and quality of care, treatment and services.

The Health System's laboratories hold medical test site licenses issued by the respective States in which they operate and are accredited by the College of American Pathologists.

Independent Auditors' Report

The Board of Directors
Wellmont Health System:

We have audited the accompanying consolidated balance sheets of Wellmont Health System and affiliates (Wellmont) as of June 30, 2010 and 2009, and the related consolidated statements of operations and changes in net assets, and cash flows for the years then ended. These consolidated financial statements are the responsibility of Wellmont's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Wellmont's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of Wellmont Health System and affiliates as of June 30, 2010 and 2009, and the consolidated results of their operations and changes in net assets, and cash flows for the years then ended in conformity with U.S. generally accepted accounting principles.

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2010 and 2009

(Dollars in thousands)

(1) Operations and Basis of Presentation

Wellmont Health System (Wellmont) was formed to assume operations of Bristol Regional Medical Center (BRMC) and Holston Valley Health Care, Inc. (HVHC), including Holston Valley Medical Center, Inc. (HVMC), and to act as sole corporate member of its consolidated foundations. Effective July 1, 1996, under terms of an agreement and plan of consolidation and merger, BRMC and HVHC, including HVMC, were merged and consolidated into Wellmont. Effective January 1, 1997, Lonesome Pine Hospital (LPH), a Virginia corporation, was merged into Wellmont under terms of a plan of merger and merger agreement. Effective July 1, 2000, Hawkins County Memorial Hospital (HCMH) transferred its operations and operating assets to Wellmont Hawkins County Memorial Hospital (WHCMH), a tax-exempt organization that is wholly owned and controlled by Wellmont. Hancock County Hospital (HCH), a critical access hospital, was opened in March 2005 to help provide for the immediate healthcare needs of the residents of Sneedville and the surrounding counties. As of July 16, 2007, Wellmont acquired Jenkins Community Hospital (Jenkins) in Kentucky. As of August 1, 2007, Wellmont acquired two hospitals in Virginia, Lee Regional Medical Center in Pennington Gap and Mountain View Regional Medical Center in Norton. On May 30, 2008, Wellmont acquired the Holston Valley Cath Lab, an outpatient lab. On May 1, 2010, Wellmont acquired Cardiovascular Associates.

As of April 30, 2009, Wellmont closed Jenkins, sold the majority of the facility's property and equipment to Appalachian Regional Healthcare, Inc for \$1,000 and recorded a loss on sale of approximately \$256. The consolidated financial statements for the years ended June 30, 2010 and 2009 present Jenkins as a discontinued operation. The operating losses of \$474 and \$3,659 for the years ended June 30, 2010 and 2009, respectively, and the impairment are included in the classification of discontinued operations.

As of June 30, 2010, it was announced that Wellmont will sell the majority of Medical Mall Pharmacy's assets to a national pharmacy company for \$1,300 plus inventory value. The consolidated financial statements for the years ended June 30, 2010 and 2009 present Medical Mall Pharmacy as a discontinued operation. The operating losses of \$635 and \$540 for the years ended June 30, 2010 and 2009, respectively, are included in the classification of discontinued operations. The sale was completed on September 23, 2010.

All acute care operations remain separately licensed and are treated as operating divisions within Wellmont. Wellmont's operations consist primarily of the delivery of healthcare services in northeast Tennessee and southwest Virginia.

The consolidated financial statements include the acute care operations of the above entities along with:

- Wellmont Foundation (the Foundation), which was created from the merger of Bristol Regional Medical Center Foundation and Holston Valley Health Care Foundation, Inc. The Foundation conducts fund-raising activities for the benefit of Wellmont.
- Wellmont, Inc., a wholly owned taxable subsidiary of Wellmont, formed as the holding company of various other taxable subsidiaries that provide medical collection and medical laundry services, operate a pharmacy and physician practices, provide other healthcare-related services, and invest in affiliates and other activities.

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2010 and 2009

(Dollars in thousands)

- The Alzheimer's Center of East Tennessee was merged into Wellmont and changed its name to Wellmont Madison House effective September 1, 1997. Wellmont is the sole corporate member and the consolidated financial statements include the operations of this entity.

All significant intercompany accounts and transactions have been eliminated in the accompanying consolidated financial statements.

(2) Significant Accounting Policies

A summary of significant accounting policies follows:

(a) *Use of Estimates*

The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the consolidated financial statements. Estimates also affect the reported amounts of revenue and expenses during the reporting period. Significant estimates include: allowances for contractual adjustments and bad debts; third-party payor settlements; valuation of investments, land, buildings, equipment, and goodwill; and self-insurance and other liabilities. Actual results could differ from these estimates.

(b) *Cash and Cash Equivalents*

Wellmont considers all highly liquid investments with a maturity of three months or less when purchased, excluding amounts whose use is limited by board of director's designation or other arrangements under trust agreements, to be cash equivalents.

(c) *Investments*

Marketable equity securities and debt securities are recorded at fair value and classified as other than trading. Fair value is determined primarily using quoted prices (unadjusted) in active markets for identical assets or liabilities that Wellmont has the ability to access at the measurement date. However, Wellmont also uses observable and unobservable inputs for investments without quoted market prices to determine the fair value of certain investments at the measurement date. Investments in limited partnerships are recorded at fair value as determined by the partnership using net asset value. Wellmont elected to early adopt the measurement provisions of Accounting Standards Update No. 2009-12, *Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*, to certain investments in funds that do not have readily determinable fair values including private investments, hedge funds, real estate, and other funds. Investments in affiliates in which Wellmont has significant influence but does not control are reported on the equity method of accounting, which represents Wellmont's equity in the underlying net book value. Long-term investments include those investments that have not been designated by the board of directors for specific purposes and are also not intended to be used for the liquidation of current liabilities. Investment income is recognized when earned.

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2010 and 2009

(Dollars in thousands)

Realized gains and losses are determined on the specific-identification method and included in investment income with interest and dividends. Investment income is reported net of related investment fees. Unrealized gains and losses are included in other changes in unrestricted net assets except for losses determined to be other than temporary, which are considered realized losses and included in investment income.

On July 1, 2008, Wellmont adopted new guidance issued by the Financial Accounting Standards Board (FASB), which defines fair value, establishes a framework for the measurement of fair value, and enhances disclosures about fair value measurements now codified into Accounting Standards Codification (ASC) 850. ASC 850 statement does not require any new fair value measures and did not have a material impact on Wellmont's consolidated financial statements for the year ended June 30, 2009, however, expanded fair value disclosures have been provided in note 19.

(d) *Assets Limited as to Use*

Assets limited as to use primarily include assets held by trustees under bond indenture and self-insurance agreements, as well as designated assets set aside by the board of directors for future capital improvements, over which the board of directors retains control and may, at its discretion, subsequently use for other purposes. Amounts required to meet current liabilities of Wellmont have been reclassified to current assets in the accompanying consolidated balance sheets.

(e) *Inventories*

Inventories are stated at the lower of cost or market value and are valued principally by the first-in, first-out, and average-cost methods.

(f) *Land, Buildings, and Equipment*

Land, buildings, and equipment are stated at cost, if purchased, or fair value at date of donation. Depreciation is computed using the straight-line method based on the estimated useful life of the asset, ranging from 3 to 40 years. Buildings and equipment held under capital leases are recorded at net present value of future lease payments and are amortized on a straight-line basis over the shorter of the lease term or estimated useful life of the asset. Costs of maintenance and repairs are expensed as incurred. Upon sale or retirement of land, buildings, or equipment, the cost and related accumulated depreciation are eliminated from the respective accounts and the resulting gain or loss, if any, is included in other revenues on the consolidated statements of operations and changes in net assets. Interest costs incurred on borrowed funds during the period of construction of capital assets is capitalized as a component of the cost of acquiring those assets. The amount capitalized is net of investment earnings on assets limited as to use derived from borrowings designated for capital assets. Renewals and betterments are capitalized and depreciated over their useful life, whereas costs of maintenance and repairs are expensed as incurred.

Wellmont evaluates long-lived assets for impairment on annual basis. Long-lived assets are considered to be impaired whenever events or changes in circumstances indicate the carrying amount of an asset may not be recoverable from future cash flows. Recoverability of long-lived assets to be held and used is measured by a comparison of the carrying amount of an asset to future cash flows

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2010 and 2009

(Dollars in thousands)

expected to be generated by the asset. When such assets are considered to be impaired, the impairment loss recognized is measured by the amount by which the carrying value of the asset exceeds the fair value of the asset.

(g) Goodwill

Goodwill represents the difference between the cost of net assets acquired and estimated fair value at purchase date, and is being amortized using the straight-line method over periods of 5 to 15 years. For goodwill acquired by its taxable entities, the FASB has implemented a nonamortization approach to goodwill. However, the effective date for not-for-profit entities is not effective until fiscal year 2011 for Wellmont and, as such, Wellmont continues to amortize the goodwill associated with its tax-exempt entities. Wellmont assesses the recoverability and the amortization period of goodwill for not-for-profit entities by determining whether the amount can be recovered through undiscounted cash flows of the business acquired, excluding interest and amortization, over the remaining amortization period. If impairment is indicated by this analysis, measurement of the impairment recognized is based on the difference between the fair value and the carrying amount of the asset. Management considers external factors relating to each acquired business, including local market developments, regional and national trends, regulatory developments, and other pertinent factors in making its assessment. Goodwill for Wellmont's for-profit/taxable entities is reviewed for impairment at least annually in accordance with the provisions of FASB ASC 350, *Intangibles – Goodwill and Other* (Statement No. 142, *Goodwill and Other Intangible Assets*). The goodwill impairment test is a two-step test. Under the first step, the fair value of the reporting unit is compared with its carrying value (including goodwill). If the fair value of the reporting unit is less than its carrying value, an indication of goodwill impairment exists for the reporting unit and the enterprise must perform step two of the impairment test. Under step two, an impairment loss is recognized for any excess of the carrying amount of the reporting unit's goodwill over the implied fair value of that goodwill. The implied fair value of goodwill is determined by allocating the fair value of the reporting unit in a manner similar to a purchase price allocation and the residual fair value after this allocation is the implied fair value of the reporting unit goodwill. Fair value of the reporting unit is determined using a discounted cash flow analysis. If the fair value of the reporting unit exceeds its carrying value, step two does not need to be performed. A summary of goodwill and related amortization for the years ended June 30 follows:

	<u>2009</u>	<u>Additions</u>	<u>Decreases</u>	<u>2010</u>
Goodwill	\$ 12,604	—	—	12,604
Amortization	(3,095)	(8)	—	(3,103)
	<u>\$ 9,509</u>	<u>(8)</u>	<u>—</u>	<u>9,501</u>

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2010 and 2009

(Dollars in thousands)

	<u>2008</u>	<u>Additions</u>	<u>Decreases</u>	<u>2009</u>
Goodwill	\$ 12,771	—	(167)	12,604
Amortization	(3,130)	(30)	65	(3,095)
	<u>\$ 9,641</u>	<u>(30)</u>	<u>(102)</u>	<u>9,509</u>

(h) *Deferred Debt Expense*

Deferred debt expense is amortized over the life of the related bond issues using the effective-interest method.

(i) *Derivative Financial Instruments*

As further described in note 12, Wellmont is a party to interest rate swap and other derivative agreements. These financial instruments are not designated as hedges and are presented at estimated fair market value in the accompanying consolidated balance sheets. These fair values are based on the estimated amount Wellmont would receive, or be required to pay, to enter into equivalent agreements with a third party at the valuation date. Due to the nature of these financial instruments, such estimates are subject to significant change in the near term. Wellmont recognizes changes in the fair values of derivatives as nonoperating gains or losses in the consolidated statements of operations and changes in net assets. The cash settlements resulting from these interest rate swaps are reported as interest expense in the consolidated statements of operations and changes in net assets.

(j) *Asset Retirement Obligations*

Asset retirement obligations (AROs) are legal obligations associated with the retirement of long-lived assets. These liabilities are initially recorded at fair value, and the related asset retirement costs are capitalized by increasing the carrying amount of the related assets by the same amount as the liability. Asset retirement costs are subsequently depreciated over the useful lives of the related assets. Subsequent to initial recognition, Wellmont records period-to-period changes in the ARO liability resulting from the passage of time and revisions to either the timing or the amount of the original estimate of undiscounted cash flows. Wellmont derecognizes ARO liabilities when the related obligations are settled.

(k) *Temporarily and Permanently Restricted Net Assets*

Temporarily restricted net assets are those whose use by Wellmont has been limited by donors to a specific time period or purpose. Permanently restricted net assets have been restricted by donors to be maintained by Wellmont in perpetuity. Generally, donors of permanently restricted assets permit use of all or part of the income earned on related investments for general or specific purposes.

Temporarily restricted net assets relate primarily to amounts held by the Foundation and include amounts restricted for future capital expenditures and for operations of such areas as children's healthcare services, hospice, and cancer research.

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2010 and 2009

(Dollars in thousands)

Net assets are released from restrictions by Wellmont incurring expenses that satisfy the restricted purposes. Such net assets released during 2010 and 2009 primarily included amounts related to the purchase of buildings and equipment for pediatrics, cancer, and other healthcare operations.

(l) Net Patient Service Revenue and Accounts Receivable

Net patient service revenue is reported on the accrual basis in the period in which services are provided at the estimated net realizable amounts expected to be collected. Net patient service revenue includes amounts estimated by management to be reimbursable by patients and various third-party payors under provisions of reimbursement formulas in effect, including retroactive adjustments under reimbursement agreements. Estimated retroactive adjustments are accrued in the period related services are rendered and adjusted in future periods as final and other settlements are determined. Wellmont provides care to patients who meet criteria under its charity care policy without charge or at amounts less than its established rates. Because Wellmont does not pursue collection of amounts determined to qualify as charity care, they are not included in net patient service revenue.

Patient accounts receivable are reported net of both an allowance for uncollectible accounts and an allowance for contractual adjustments. The contractual allowance represents the difference between established billing rates and estimated reimbursement from Medicare, TennCare, Medicaid, and other third-party payment programs. Wellmont's policy does not require collateral or other security for patient accounts receivable. Wellmont routinely obtains assignment of, or is otherwise entitled to receive, patient benefits payable under health insurance programs, plans, or policies.

(m) Revenue and Gains in Excess of Expenses and Losses

The consolidated statements of operations and changes in net assets include revenue and gains in excess of expenses and losses. Changes in unrestricted net assets that are excluded from revenue and gains in excess of expenses and losses, consistent with industry practice, include changes in net unrealized gains (losses) on investments other-than-trading securities, changes in the funded status of Wellmont's defined benefit plans, contributions of long-lived assets, including assets acquired using contributions that, by donor restriction, were to be used for the purpose of acquiring such assets, and cumulative effects of changes in accounting principles.

For purposes of financial statement display, those activities directly associated with Wellmont's mission of providing healthcare services are considered to be operating activities. Nonoperating activities primarily include investment and related activities. Other operating revenues primarily include cafeteria, rental, and income from affiliates.

(n) Contributed Resources

Gifts of long-lived assets, such as land, buildings, or equipment, are reported as unrestricted contributions, and are excluded from revenue and gains in excess of expenses and losses, unless explicit donor stipulations specify how the donated assets must be used. Gifts of long-lived assets with explicit restrictions that specify how the assets are to be used and gifts of cash or other assets that must be used to acquire long-lived assets are reported as restricted contributions. Absent explicit

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2010 and 2009

(Dollars in thousands)

donor stipulations about how long those long-lived assets must be maintained, expiration of donor restrictions is reported when the donated or acquired long-lived assets are placed in service.

Unconditional promises to give cash or other assets are reported at fair value at the date the promise is received. Gifts are reported as either a temporarily or permanently restricted contribution if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated time restriction ends or a purpose restriction is accomplished, temporarily restricted net assets are reclassified as unrestricted net assets and reported in the consolidated statements of operations and changes in net assets as net assets released from restrictions. Donor-restricted contributions whose restrictions are met within the same year as received are recorded as unrestricted contributions. Unrestricted contributions are included in other revenues.

(o) Federal Income Taxes

The Wellmont entities are primarily classified as organizations exempt from federal income taxes under Section 501(a) as entities described in Section 501(c)(3) of the Internal Revenue Code. Accordingly, no provision for income taxes has been included for these entities in the consolidated financial statements. The operations of Wellmont, Inc. and its subsidiaries are subject to state and federal income taxes, which are accounted for in accordance with ASC 740, *Income Taxes*; however, such amounts are not material.

On July 1, 2007, Wellmont adopted new guidance issued by on the accounting for uncertainty in income tax positions now codified into ASC 740. It also provides guidance on when tax positions are recognized in an entity's financial statements and how the values of these positions are determined. There was no impact on Wellmont's consolidated financial statements as a result of the adoption of the new guidance.

(p) New Accounting Pronouncements

Effective July 1, 2008, Wellmont adopted new guidance issued by FASB, which provides guidance on the net asset classification of donor-restricted endowment funds for a tax-exempt organization that is subject to an enacted version of the Uniform Prudent Management of Institutional Funds Act of 2006 (UPMIFA) now codified into ASC 958, *Not-for-Profit Entities*. Effective July 1, 2007, the State of Tennessee adopted legislation that incorporates the provisions outlined in UPMIFA. Wellmont's endowments consist solely of donor-restricted endowment funds. Wellmont's endowments consist of four individual funds established for a variety of purposes.

Wellmont has interpreted UPMIFA as requiring the preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment funds absent explicit donor stipulations to the contrary. As a result of this interpretation, Wellmont classifies as permanently restricted net assets (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment, and (c) accumulations to the donor gift instrument at the time the accumulation is added to the fund. The remaining portion of the donor-restricted endowment fund that is not classified in permanently restricted net assets is classified as temporarily restricted net assets until those amounts are approved for expenditure by the organization in a

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2010 and 2009

(Dollars in thousands)

manner consistent with the standard of prudence prescribed by UPMIFA. In accordance with UPMIFA, Wellmont considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds: (1) the duration and preservation of the fund; (2) the purposes of the organization and the donor-restricted endowment fund; (3) general economic conditions; (4) the possible effect of inflation and deflation; (5) the expected total return from income and the appreciation of investments; (6) other resources of the organization; and (7) the investment policies of the organization.

On June 30, 2009, Wellmont adopted guidance issued by the FASB for subsequent events, now codified into ASC 855, *Subsequent Events*. ASC 855 defines the period after the balance sheet date during which management shall evaluate events or transactions that may occur for potential recognition or disclosure, the circumstances under which an organization shall recognize events occurring after the balance sheet date and the disclosures that an organization shall make about those events or transactions. ASC 855 defines two types of subsequent events. The first type consists of events or transactions that provide additional evidence about conditions that existed at the date of the balance sheet, including the estimates inherent to the process of preparing financial statements (i.e., recognized subsequent events). The second type consists of events that provide evidence about conditions that did not exist at the date of the balance sheet but arose after the date (i.e., nonrecognized event).

Management evaluated all events and transactions that occurred through October 28, 2010. Other than described in note 11, Wellmont did not have any material subsequent events during this period.

On July 1, 2009, the FASB issued Statement No. 168, *The FASB Accounting Standards Codification™ and the Hierarchy of Generally Accepted Accounting Principles* (Statement 168). Statement 168 is the single source of authoritative nongovernmental GAAP, superseding existing FASB, American Institute of Certified Public Accountants, Emerging Issues Task Force, and related accounting literature. Statement 168 reorganizes the thousands of pages of GAAP pronouncements into roughly 90 accounting topics and displays them using a consistent structure. Also included is relevant Securities and Exchange Commission guidance organized using the same topical structure in separate sections. Statement 168 is effective for interim and annual periods ending after September 15, 2009. The adoption of Statement 168 had no significant effect on the Wellmont's consolidated financial statements.

(q) *Reclassifications*

Certain 2009 amounts have been reclassified to conform to the 2010 consolidated financial statement presentation.

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2010 and 2009

(Dollars in thousands)

(3) Net Patient Service Revenue

A reconciliation of the amount of services provided to patients at established rates to net patient service revenue as presented in the consolidated statements of operations and changes in net assets is as follows for the years ended June 30:

	<u>2010</u>	<u>2009</u>
Gross patient service charges	\$ 2,158,847	2,178,018
Less:		
Contractual adjustments and other discounts	(1,411,435)	(1,440,519)
Charity care	(54,492)	(57,443)
	<u>(1,465,927)</u>	<u>(1,497,962)</u>
Net patient service revenue	<u>\$ 692,920</u>	<u>680,056</u>

(4) Third-Party Reimbursement Arrangements

Wellmont renders services to patients under contractual arrangements with the Medicare and Medicaid programs. The Medicaid program in Tennessee was replaced with a managed care program known as TennCare, which was designed to cover previous Medicaid eligible enrollees. Amounts earned under these contractual arrangements are subject to review and final determination by fiscal intermediaries and other appropriate governmental authorities or their agents. Management believes that adequate provision has been made for any adjustments that may result from such reviews. Participation in these programs subjects Wellmont to significant rules and regulations; failure to adhere to such could result in fines, penalties, or expulsion from the programs.

Wellmont contracts with various managed care organizations under the TennCare program. TennCare reimbursement for both inpatient and outpatient services is based upon prospectively determined rates, including diagnostic-related group assignments, fee schedules, and per diem amounts. Reimbursement under the Virginia Medicaid program is also based upon prospectively determined amounts.

The Medicare program pays for the costs of inpatient services on a prospective basis. Payments are based upon diagnostic-related group assignments, which are determined by the patient's clinical diagnosis and medical procedures utilized. Wellmont receives additional payments from Medicare based on the provision of services to a disproportionate share of Medicaid-eligible and other low income patients. Outpatient services are also reimbursed primarily on a prospectively determined basis.

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2010 and 2009

(Dollars in thousands)

Net patient service revenue in 2010 and 2009 related to Medicare, TennCare, and Virginia Medicaid and net patient accounts receivable at June 30, 2010 and 2009 from Medicare, TennCare, and Virginia Medicaid were as follows:

	<u>2010</u>	<u>2009</u>
Net patient service revenue:		
Medicare	\$ 277,372	272,259
TennCare	22,918	22,509
Virginia Medicaid	23,536	19,036
Net patient accounts receivable:		
Medicare	\$ 41,125	39,852
TennCare	2,206	4,072
Virginia Medicaid	3,739	3,172

Wellmont has filed cost reports with Medicare and Virginia Medicaid. The cost reports are subject to final settlement after audits by the fiscal intermediary. The Medicare and Virginia Medicaid cost reports have been audited by the intermediary through June 30, 2006.

Wellmont has also entered into reimbursement agreements with certain commercial insurance companies, health maintenance organizations, and preferred provider organizations. The basis for reimbursement under these agreements includes prospectively determined rates per discharge, per diem rates, and discounts from established charges.

Net patient service revenue is reported at the net amounts billed to patients, third-party payors, and others for services rendered, including estimated retroactive adjustments under reimbursement agreements with third-party payors. Estimated retroactive adjustments are accrued in the period the related services are rendered and adjusted in future periods as changes in estimated provisions and final settlements are determined. Net patient service revenue increased (decreased) approximately \$863 and \$(2,600) in 2010 and 2009, respectively, due to final settlements and revised estimates in excess of amounts previously recorded, removal of allowances previously estimated that are no longer necessary as a result of final settlements, and years that are not longer subject to audits, reviews, and investigations.

Estimated settlements recorded at June 30, 2010 could differ materially from actual settlements based on the results of third-party audits.

(5) Charity Care and Community Services

Wellmont accepts all patients within its primary service area regardless of their ability to pay. A patient is classified as a charity patient by reference to certain established policies that consider, among other factors, generally recognized poverty income levels.

Wellmont maintains records to identify and monitor the level of charity care it provides. Charges foregone for services and supplies furnished under its charity care policy, the estimated cost of those services, and the equivalent percentage of charity care patients to all patients serviced were \$54,492, \$15,567, and

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2010 and 2009

(Dollars in thousands)

2.52%, respectively, for the year ended June 30, 2010 and \$57,443, \$16,203, and 2.63%, respectively, for the year ended June 30, 2009.

In addition to the charity care services described above, Wellmont provides a number of other services to benefit the indigent for which little or no payment is received. Medicare, Medicaid, and State indigent programs do not cover the full cost of those services. The shortfall between actual receipts from those programs and Wellmont's cost of providing care to those patients totaled \$55,461 and \$57,212 for the years ended June 30, 2010 and 2009, respectively.

Wellmont also provides services to the community at large for which it receives little or no payment. Health evaluations, screening programs, and specific services for the elderly and homebound are other services supplied. Wellmont also provides public health education, trains new health professionals, and conducts health research.

(6) Investment in Affiliates

Wellmont has investments with other healthcare providers, which include hospital, home care, regional laboratories, and other healthcare-related organizations. Wellmont records its share of equity in the operations of the respective organizations. Equity in net income of affiliates was approximately \$6,773 and \$5,549 for the years ended June 30, 2010 and 2009, respectively, and is included in other operating revenue in the consolidated financial statements. Wellmont made additional contributions of \$0 and \$4,453 during 2010 and 2009, respectively, to affiliates, which increased Wellmont's overall investment in affiliates. Wellmont received distributions of \$6,730 and \$7,181 during 2010 and 2009, respectively, which reduced Wellmont's overall investment in the affiliates.

The following table summarizes the unaudited aggregate financial information of Wellmont's investments in affiliates:

	<u>2010</u>	<u>2009</u>
Total assets	\$ 129,720	137,737
Total liabilities	13,943	39,913
Total net assets	<u>\$ 115,777</u>	<u>97,824</u>
Net revenues	\$ 166,815	178,253
Expenses	142,534	159,004
Revenues in excess of expenses	<u>\$ 24,281</u>	<u>19,249</u>

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2010 and 2009

(Dollars in thousands)

Wellmont's equity investment in these affiliates and its ownership percentage as of June 30, 2010 and 2009 are as follows:

	Amount		Percentage	
	2010	2009	2010	2009
Takoma Regional Hospital	\$ 12,645	12,302	60%	60%
Holston Valley Imaging Center (HVIC)	8,048	9,047	75	75
Advanced Home Care (AHC)	6,092	6,092	6	6
Spectrum Tennessee Network	3,850	3,462	20	20
Others	1,384	1,073	4% – 50%	4% – 50%
	<u>\$ 32,019</u>	<u>31,976</u>		

Wellmont provided billing and management services to the affiliates. Income recognized by Wellmont for the services was \$1,766 in 2010 and \$1,501 in 2009 and is included in other revenues.

Included in other receivables are \$124 and \$135 as of June 30, 2010 and 2009, respectively, of amounts due to Wellmont from these entities.

Although Wellmont's ownership percentage in Takoma Regional Hospital and HVIC is greater than 50%, Wellmont does not consolidate these entities because Wellmont only has a 50% representation on each respective board and does not have control over these entities.

Long-term investments, including assets limited as to use, at June 30 are reported at fair value and consist of the following:

	<u>2010</u>	<u>2009</u>
Assets limited as to use by Board for capital improvements:		
Stock mutual funds	\$ 109,629	108,036
Bond mutual funds	71,698	5,910
Cash and money market funds	1,474	2,517
Real estate funds	7,468	5,419
Alternative investments (private equity, hedge funds, commingled funds, and real estate funds):		
Liquid	33,915	12,415
Illiquid	23,490	23,171
	<u>247,674</u>	<u>157,468</u>
Assets limited as to use under self-insurance agreements:		
Corporate bonds	6,867	7,464
Cash and money market funds	558	643
	<u>7,425</u>	<u>8,107</u>
Assets limited as to use under bond indenture agreements:		
Cash and money market funds	48,523	82,226
Less assets limited as to use that are required for current liabilities	<u>1,815</u>	<u>2,201</u>
Assets limited as to use, net of current portion	\$ <u>301,807</u>	<u>245,600</u>
Long-term investments:		
Stock mutual funds	\$ 9,279	8,631
Bond mutual funds	7,599	3,648
Preferred equity investment and related options	11,512	11,512
Cash, money market funds, and certificates of deposit	287	5,202
Real estate funds	1,722	1,255
Alternative investments (private equity, hedge funds, commingled funds, and real estate funds):		
Liquid	1,992	1,726
Total long-term investments	\$ <u>32,391</u>	<u>31,974</u>

Investments in certain alternative limited partnership investments contain agreements whereby Wellmont is committed to contribute approximately \$12,112 as of June 30, 2010 of additional funds to the limited partnerships in the form of capital calls at the discretion of the general partner, of which \$417 was paid subsequent to June 30, 2010.

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2010 and 2009

(Dollars in thousands)

Wellmont has invested \$10,000 in the preferred equity of a regional managed services organization and \$1,512 on a right of first refusal related to any future sale of this organization. This equity has a guaranteed annual return of at least 6.5% of the outstanding preferred equity balance.

Wellmont's investments are concentrated in stock and bond mutual funds. In the event of a downward trend in the stock and bond markets, Wellmont's overall market value of net assets could be adversely affected by a material amount. Investments in alternative investments are generally illiquid investments whose value is determined by the general partner such as hedge funds, private equity, commingled funds, and real estate funds. Distributions are only at the discretion of a voting majority of the general partners.

Wellmont evaluates whether unrealized losses on investment securities indicate other-than-temporary impairment. Based on this evaluation, the Company recognized other-than-temporary impairment losses of \$8,233 and \$4,654 on investments as of June 30, 2010 and 2009, respectively. The unrealized losses on these mutual funds were primarily caused by the overall decline in the world's economy in 2009 and 2010. Other-than-temporary impairment losses are considered as realized losses and are reported within "investment income" in the consolidated statements of operations and changes in net assets.

Gross unrealized losses on investments for which other-than-temporary impairments have not been recognized and the fair values of those investments, aggregated by the length of time that individual investments have been in a continuous unrealized loss position, at June 30, 2010 and 2009, were as follows:

		June 30, 2010					
		Less than 12 months		12 months or more		Total	
		Unrealized		Unrealized		Unrealized

Total other long-term liabilities	<u>\$ 47,364</u>	<u>38,422</u>

(10) Lines of Credit/Notes Payable

During 2008, Wellmont entered into three lines of credit for \$15,000, \$1,800, and \$10,000. The \$15,000 line of credit had a variable interest rate based upon LIBOR plus 1% and a termination date of August 2009; at June 30, 2009, \$14,000 was outstanding on this line. During 2010, the \$15,000 line of credit was paid in full with a \$14,000 note payable, which was initiated with one bank to pay off the line of credit. The \$14,000 note payable has a variable interest rate based upon LIBOR plus 2% and a termination date of December 2010. At June 30, 2010, \$14,000 was outstanding on this note. During 2008, a \$1,800 line of credit was initiated with one bank and was paid in full with the funds from the \$10,000 line of credit from another bank, which had variable interest rate based upon LIBOR plus 0.95% and a termination date of August 31, 2009; at June 30, 2010 and 2009, \$0 and \$1,811, respectively, was outstanding on this line. The \$10,000 line of credit was paid in full in 2010.

	<u>\$ 467,833</u>	<u>474,608</u>

(b) Series 2007 Bonds

On July 24, 2007, The Virginia Small Business Financing Authority issued, on behalf of Wellmont, \$55,000 of Hospital Revenue Bonds, Series 2007A. The Series 2007A Bonds, with other methods of financing, were used to purchase the assets of Mountain View Regional Medical Center and Lee Regional Medical Center.

Principal on outstanding Series 2007A Bonds is payable through maturity or mandatory sinking fund redemption in annual amounts ranging from \$360 to \$2,460 commencing on September 1, 2017 through September 1, 2036, with a balloon payment of \$29,245 due on September 1, 2037. The outstanding bonds accrue interest at rates ranging from 5.125% to 5.25%.

(c) Series 2006C

On October 26, 2006, The Health, Educational and Housing Facilities Board of the County of Sullivan Tennessee issued, on behalf of Wellmont, \$200,000 of Hospital Revenue Bonds, Series 2006C. The Series 2006C Bonds were used to: finance the costs of acquisition of land for expansion, construction, expansion, equipping, and renovation of HVMC, including the construction of a new patient tower (collectively known as Project Platinum); finance the costs of the

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2010 and 2009

(Dollars in thousands)

construction, expansion, equipping, and renovation of the emergency department at BRMC (the Bristol Emergency Department Project); and finance the costs of construction, expansion, renovation, and equipping of an operating room and related facilities at HCMH.

Principal on outstanding Series 2006C Bonds is payable through maturity or mandatory sinking fund redemption in annual amounts ranging from \$1,605 to \$25,330 commencing on September 1, 2017 through September 1, 2036. The outstanding bonds accrue interest at rates ranging from 5.00% to 5.25%.

(d) Series 2006 A and B

On June 23, 2006, The Health, Educational and Housing Facilities Board of the County of Sullivan, Tennessee issued, on behalf of Wellmont, \$98,475 of Hospital Revenue Refunding Bonds, Series 2006. This bond issuance consists of Series A tax-exempt and Series B taxable bonds of \$76,595 and \$21,880, respectively. The Series 2006 Bonds together with other available funds were used to advance refund all the previously issued Hospital Revenue Bonds, Series 1993, to reimburse Wellmont for payments made on other taxable borrowings and to pay certain expenses incurred in connection with the issuance of the Series 2006 Bonds. Upon this refunding, a trust was established to pay all future bond payments related to the Series 1993 Bonds. Wellmont was deemed to have paid the Series 1993 Bonds and these Bonds are no longer deemed to be outstanding for purposes of the Series 1993 Trust Indenture.

Principal on outstanding Series 2006A Bonds is payable through maturity or mandatory sinking fund redemption in annual amounts ranging from \$875 to \$6,400 commencing on September 1, 2013 through September 1, 2032; and the outstanding bonds accrue interest on a variable rate, which is reset monthly based upon the AAA-insured Municipal Market Data Index, plus 85 basis points. Principal on outstanding Series 2006B Bonds is payable through maturity in annual amounts ranging from \$1,600 to \$2,930 commencing on September 1, 2007 through September 1, 2016, and the outstanding bonds accrue interest at a fixed rate of 6.95%.

Outstanding Series 2006A Bonds are subject to redemption prior to maturity at the option of The Health, Educational and Housing Facilities Board of the County of Sullivan, Tennessee upon direction by Wellmont in whole at any time, or in part on any certain specified days at redemption prices of 100%–102% of the principal amount of the Series 2006A Bonds being redeemed, plus accrued interest thereon to the redemption date.

On October 1, 2010, the Series 2006B Bonds were called and paid in full at par value of \$14,880.

(e) Series 2005

On December 8, 2005, The Health, Educational and Housing Facilities Board of the County of Sullivan, Tennessee, issued, on behalf of Wellmont, \$70,620 of Hospital Revenue Refunding Bonds, Series 2005. The Series 2005 Bonds together with other available funds were used to advance refund the previously issued Hospital Revenue Bonds, Series 2002, and to pay certain expenses incurred in connection with the issuance of the Series 2005 Bonds.

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2010 and 2009

(Dollars in thousands)

Principal on outstanding Series 2005 Bonds is payable through maturity or scheduled mandatory sinking fund redemption in annual amounts ranging from \$1,945 to \$3,390 commencing on September 1, 2007 through September 1, 2032. The terms of the bonds provide that bondholders may redeem or put the bonds to the remarketing agent on dates that approximate a weekly basis. The remarketing agent is obligated to remarket the redeemed bonds on a “best efforts” basis. Redeemed bonds are repaid to bondholders from the proceeds of the remarketing effort or, in the event of an inability to remarket the bonds, from a letter of credit. Subsequent to year-end, Wellmont amended its letter of credit to cover an amount equal to the principal and up to 40 days’ interest on the bonds at a maximum interest rate of 12% per annum, and is effective through July 1, 2011. This letter secures the bonds in the event of a failed remarketing or liquidity issue. In the event of a liquidity drawing under the letter of credit, Wellmont shall pay the Base Rate for the first 90 days equal to the greater of (i) the Prime Rate plus 1.50% per annum, ii) the Federal Funds Rate plus 3.00% per annum, or iii) 7.50% per annum. ; the Base Rate plus 0.50% for days 91 through 366 and the Base Rate plus 1.00% thereafter until the amount is paid in full.

Outstanding Series 2005 Bonds are subject to redemption prior to maturity at the option of The Health, Educational and Housing Facilities Board of the County of Sullivan, Tennessee upon direction by Wellmont in whole at any time, or in part on any certain specified days at redemption prices of 100%–102% of the principal amount of the Series 2005 Bonds being redeemed, plus accrued interest thereon to the redemption date.

(f) Series 2003

On June 1, 2003, The Health, Educational and Housing Facilities Board of the County of Sullivan, Tennessee issued, on behalf of Wellmont, \$59,100 of Hospital Revenue Bonds, Series 2003. The bonds were issued to provide funds necessary to refund Wellmont’s Hospital Revenue Bonds, Series 1993 (HVHC), to fund a debt service reserve fund and to pay certain expenses incurred in connection with the issuance of the Series 2003 Bonds.

The Wellmont Series 2003 Bonds consist of \$27,460 in fixed rate serial bonds and \$19,280 in fixed rate term bonds payable through maturity or mandatory sinking fund redemption maturing in annual amounts ranging from \$3,230 on September 1, 2007 to \$4,140 on September 1, 2019, and carrying interest rates ranging from 2.5% to 5.00%.

(g) Master Trust Indenture

The master trust indenture and loan agreements for the 2007, 2006, 2005, and 2003 bonds contain certain requirements regarding deposits to trustee funds, maintenance of rates, maintenance of debt service coverage and liquidity, permitted indebtedness, and permitted disposition of assets. Gross receipts of Wellmont collateralize the bonds. The purpose of the master trust indenture is to provide a mechanism for the efficient and economical issuance of notes by individual members of Wellmont using the collective borrowing capacity and credit rating of Wellmont. The master trust indenture requires individual members of Wellmont to make principal and interest payments on notes issued for their benefit. The master trust indenture also requires Wellmont members to make payments on notes issued by other members of Wellmont if such other members are unable to satisfy their

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2010 and 2009

(Dollars in thousands)

obligations under the master trust indenture. Payments of principal and interest on certain bonds are also insured by bond insurance policies.

Funds held by the trustee related to the various revenue bonds are available for specific purposes. The bond interest and revenue funds may be used only to pay interest and principal on the bonds; the debt service reserve fund may be used to pay interest and principal if sufficient funds are not available in the bond interest and revenue funds. The original issue discount and premium on all Bond Series outstanding are being amortized over the life of the bond issue using the effective-interest method.

(h) Notes Payable

During 2007, Wellmont entered into a five-year \$3,000 note payable, which has a fixed interest rate of 7.25% and a termination date of July 2011; at June 30, 2010 and 2009, \$2,062 and \$2,319, respectively, was outstanding on this note.

During 2008, Wellmont entered into a five-year \$2,400 term note payable, which has a fixed interest rate of 7.25% and a termination date of August 2012; at June 30, 2010 and 2009, \$1,600 and \$2,080, respectively, was outstanding on this note.

During 2010, Wellmont entered into a \$2,767 note payable to finance the purchase of Cardiovascular Associates. The note payable has a fixed interest rate of 5.5% and a termination date of May 2013. At June 30, 2010, \$2,767 was outstanding on this note.

(i) Capital Lease Obligations

Wellmont has entered into leases for certain equipment under agreements classified as capital leases that expire over periods through 2011. Assets under capital leases are included in property and equipment and have a net carrying value of \$26,325 and \$29,625 as of June 30, 2010 and 2009, respectively. Amortization of capital assets is included in depreciation expense. The lease obligations are recorded at the net present value of the minimum lease payments with interest rates from 4.3% to 6.0%.

(j) Long-term Debt Maturities Schedule

Bond maturities in accordance with the original terms of the Master Trust Indenture and other long-term debt maturities for each of the next five years and in the aggregate at June 30, 2010 are as follows:

2011	\$	11,958
2012		13,329
2013		12,935
2014		12,193
2015		12,415
Thereafter		410,536
	\$	<u>473,366</u>

The following table reflects the required repayment terms for the years ended June 30 of Wellmont's debt obligations in the event that the put options associated with the 2005 bonds were exercised, but not successfully remarketed.

2011	\$	11,958
2012		30,859
2013		30,365
2014		29,508
2015		9,755
Thereafter		360,921
	\$	<u>473,366</u>

Interest paid for the years ended June 30, 2010 and 2009 was \$20,792 and \$21,564, respectively, net of amounts capitalized. Interest costs of \$2,776 and \$3,421, net of interest income of \$683 and \$3,293 in 2010 and 2009, respectively, were capitalized.

(12) Derivative Transactions

Interest Rate Swaps: Wellmont is a party to a number of interest rate swap agreements. Such swaps have not been designated as hedges and are valued at estimated fair value in the accompanying consolidated balance sheets. By using derivative financial instruments to hedge exposures to changes in interest rates, Wellmont exposes itself to credit risk and market risk. Credit risk is the failure of the counterparty to perform under the terms of the derivative contract. When the fair value of a derivative contract is positive, the counterparty owes Wellmont, which creates credit risk for Wellmont. When the fair value of a derivative contract is negative, Wellmont owes the counterparty, and therefore, Wellmont is not exposed to the counterparty's credit risk in those circumstances. Pursuant to the terms of its interest rate swap agreements, Wellmont is required to postcollateral with its counterparties under certain specified conditions. Collateral posting requirements are based on the amount of Wellmont's derivative liability and

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2010 and 2009

(Dollars in thousands)

Wellmont's bond rating. As of June 30, 2010 and 2009, Wellmont was not required to postcollateral related to its swaps.

Market risk is the adverse effect on the value of a derivative instrument that results from a change in interest rates. The market risk associated with interest-rate contracts is managed by establishing and monitoring parameters that limit the types and degree of market risk that may be undertaken.

In September and October 2008, the counterparty and credit support provider to the swaps filed bankruptcy. Subsequent to the bankruptcy filings, no payments have been made by Wellmont or the counterparty to each other. As of June 30, 2010, the net amounts due to Wellmont for this period are less than \$100 and have been fully reserved. The bankruptcy process is underway and the outcome cannot be determined at this time.

Management's primary objective in holding such derivatives is to introduce a fixed or variable rate component into its debt structure using LIBOR. The fair value as of June 30, 2010 and 2009 of approximately \$(12,943) and \$(10,250), respectively, is included in other liabilities in the consolidated balance sheets. The change in the fair value of the derivative instruments was approximately \$(2,693) and \$(5,747), respectively, in 2010 and 2009 and is included in nonoperating losses, net in the consolidated statements of operations. The terms of the swap agreements allow netting of all amounts due from/to the counterparty. The net amounts have been recorded pending the outcome of any bankruptcy proceedings. The following is a summary of the interest rate swap information as of June 30, 2010:

<u>Type of interest swap</u>	<u>Debt hedging</u>	<u>Notional amount</u>	<u>Effective date</u>	<u>Maturity date</u>	<u>Rate paid</u>	<u>Rate received</u>	<u>Swap fair value asset (liability)</u>
Total return swap	Series 2006A	\$ 76,595	June 29, 2006	September 1, 2011	1.103%	5.440%	\$ 1,101
Pay fixed interest rate swap	Series 2005	65,975	December 13, 2005	September 1, 2016	3.548	0.217	(6,810)

(Dollars in thousands)

(13) Pension and Other Postretirement Benefits

Wellmont sponsors a retirement program and defined contribution retirement plan (Retirement Plan) that covers substantially all employees. This program and the related Retirement Plan were created from amendments, restatements, and mergers of existing defined contribution plans at BRMC and HVMC. Wellmont makes annual contributions to the Retirement Plan in an amount equal to 3% of each participant's base wages and contributes an additional amount, based on each participant's voluntary contributions, which cannot exceed certain limits established in the Internal Revenue Code, up to 3% of each participant's wages. The total pension expense related to the Retirement Plan was \$9,990 and \$9,937 for the years ended June 30, 2010 and 2009, respectively.

HVMC sponsored a noncontributory, defined benefit pension plan covering substantially all its employees. However, effective June 30, 1996, this plan was frozen and no further benefits accrue. LPH also sponsors a defined benefit pension plan covering substantially all its employees.

HVMC's defined pension benefits are actuarially determined based on a formula taking into consideration an employee's compensation and years of service. HVMC's funding policy is to make annual contributions to the plan based upon the funding standard developed by the plan actuary. This standard uses the projected unit credit actuarial cost method, including the amortization of prior service costs, over a 20-year period. Contributions are intended to provide not only for benefits attributed to service to date but also for those expected to be earned in the future. The LPH plan contains similar funding and actuarial policies.

On June 30, 2007, the HVMC plan merged into LPH plan and the plan name changed to Wellmont Health System Defined Benefit Plan. At the end of 2008, only a single defined pension plan exists. Collectively, the two defined benefit plans are referred to as the "Plans."

Wellmont recognizes the funded status (i.e., difference between the fair value of plan assets and projected benefit obligations) of its defined benefit pension plans as an asset or liability in its consolidated balance sheets and recognizes changes in that funded status in the year in which the changes occur as a change in unrestricted net assets. All defined benefit pension plans use a June 30 measurement date.

Amortization of actuarial gain or loss	(600)	—
Amortization of prior service cost	<u>—</u>	<u>—</u>
Net amounts recognized as a charge to unrestricted net assets	\$ <u>2,307</u>	<u>13,210</u>

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2010 and 2009

(Dollars in thousands)

	<u>2010</u>	<u>2009</u>
Estimate of amounts that will be amortized from unrestricted net assets to net pension cost in 2011:		
Amortization of net loss	\$ 791	—
Amortization of prior service cost	—	2
Estimated future benefit payments:		
Fiscal 2011	2,211	2,150
Fiscal 2012	2,220	2,189
Fiscal 2013	2,337	2,314
Fiscal 2014	2,472	2,456
Fiscal 2015 (FY09 fiscal 2015 – 2019)	2,578	13,769
Fiscal 2016 – 2020	14,278	
Weighted average assumptions used to determine benefit obligations:		
Settlement (discount) rate	5.50%	6.25%
Weighted average rate of increase in future compensation levels	3.00	3.00
Components of net periodic benefit cost (benefit):		
Service cost	\$ 230	234
Interest cost	2,432	2,441
Expected return on plan assets	(2,259)	(2,968)
Amortization of unrecognized net loss	600	—
Amortization of unrecognized prior service cost	—	0
Net periodic benefit cost (benefit)	<u>\$ 1,003</u>	<u>(293)</u>
Weighted average assumptions used to determine net periodic benefit cost:		
Settlement (discount) rate	6.25%	6.75%
Expected long-term return on plan assets (HVMC)	7.00	7.00
Expected long-term return on plan assets (LPH)	7.00	7.00
Weighted average rate of increase in future compensation levels	3.00	3.00

Wellmont's overall expected long-term rate of return on assets is 7.00%. The expected long-term rate of return is based on the portfolio as a whole and not on the sum of the returns on individual asset categories. The return is based exclusively on historical returns, without adjustments.

Wellmont does not expect to make any contributions to the Plans during 2011.

Wellmont has developed a plan investment policy, which is reviewed and approved by the board of directors. The policy established goals and objectives of the fund, asset allocations, asset classifications, and manager guidelines. The policy dictates a target asset allocation and an allowable range for such

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2010 and 2009

(Dollars in thousands)

categories based on quarterly investment fluctuations. Investments are managed by independent advisers who are monitored by management and the board of directors.

The table below shows the target allocation and actual asset allocations as of June 30, 2010 and 2009:

Asset	Target allocation	June 30,	
		2010	2009
Equity securities	65%	56%	53%
Fixed income	28	27	29
Cash	5% – 15%	1	3
Other	5 – 15	16	15

Wellmont monitors the asset allocation and executes required recalibrations of the portfolio allocation on a regular basis in response to fluctuations in market conditions and the overall portfolio composition.

HVMC also participates in a health and welfare plan for its retirees. The plan provides postretirement medical and life insurance benefits to certain employees who meet minimum age and service requirements. Effective January 1, 1995, the death benefit was changed to provide a flat \$5 benefit to all future retirees. During 1995, the medical program for retirees was amended to terminate medical benefits for any active employees who would not meet the full eligibility requirements of the program by January 1, 1996. The plan is contributory and contains other cost-sharing features such as deductibles and coinsurance.

Notes to Consolidated Financial Statements

June 30, 2010 and 2009

(Dollars in thousands)

The following table sets forth the postretirement plan's funded status, amounts recognized in the accompanying consolidated financial statements, and assumptions at June 30:

	<u>2010</u>	<u>2009</u>
Change in benefit obligation:		
Benefit obligation at beginning of year	\$ 5,653	5,637
Interest cost	320	355
Plan participants contributions	73	36
Actuarial losses	197	23
Benefits paid	<u>(382)</u>	<u>(398)</u>
Benefit obligation at end of year	<u>5,861</u>	<u>5,653</u>
Change in plan assets:		
Fair value of plan assets at beginning of year	—	—
Employer contribution	309	362
Plan participants contributions	73	36
Benefits paid	<u>(382)</u>	<u>(398)</u>
Fair value of plan assets at end of year	<u>—</u>	<u>—</u>
Funded status	\$ <u>(5,861)</u>	<u>(5,653)</u>
Amounts recognized in the consolidated balance sheets consist of:		
Noncurrent liabilities	\$ (5,861)	(5,653)
Accumulated credit to unrestricted net assets	<u>3,560</u>	<u>4,076</u>
	\$ <u>(2,301)</u>	<u>(1,577)</u>

Amounts recognized as an accumulated credit to unrestricted net assets consist of:

	<u>Postretirement benefits</u>	
	<u>2010</u>	<u>2009</u>
Net actuarial gain	\$ 3,560	4,076

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2010 and 2009

(Dollars in thousands)

Net periodic benefit cost recognized and other changes in plan assets and benefit obligations recognized in unrestricted net assets in 2010 and 2009 were:

	Postretirement benefits	
	2010	2009
Net periodic benefit cost:		
Interest cost	\$ 320	355
Amortization of net gain	(319)	(335)
Net periodic benefit cost recognized	<u>1</u>	<u>20</u>
Other changes in plan assets and benefit obligations recognized in unrestricted net assets:		
Net actuarial loss	197	23
Amortization of net gain	319	335
Total recognized as a charge to unrestricted net assets	<u>516</u>	<u>358</u>
Total recognized in net periodic benefit cost and unrestricted net assets	<u>\$ 517</u>	<u>378</u>

The net gain and prior service credit for the defined benefit postretirement plan that will be amortized from unrestricted net assets into net periodic benefit cost over the next fiscal year are \$(261) and \$0, respectively. Weighted average assumptions used to determine benefit obligations for 2010 and 2009 were as follows:

	Postretirement benefits	
	2010	2009
Discount rate	5.00%	6.00%
Rate of compensation increase	—	—
Healthcare cost trend rate	5.00	5.00

Weighted average assumptions used to determine net benefit cost for 2010 and 2009 were as follows:

	Postretirement benefits	
	2010	2009
Discount rate	6.00%	6.75%
Expected long-term rate of return on plan assets	N/A	N/A
Rate of compensation increase	N/A	N/A
Healthcare cost trend rate	5.00%	5.00%

Wellmont's overall expected long-term rate of return on assets is 7%. The expected long-term rate of return is based on the portfolio as a whole and not on the sum of the returns on individual asset categories. The return is based exclusively on historical returns, without adjustments.

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2010 and 2009

(Dollars in thousands)

For measurement purposes, a 5% annual rate of increase in the per capita cost of covered healthcare benefits was assumed for 2010.

The following table summarizes the effect of one-percentage-point increase/decrease in healthcare costs trends:

	<u>2010</u>	<u>2009</u>
Effect of one-percentage-point increase in healthcare cost trend on:		
Service and interest cost	\$ 20	22
Accumulated pension benefit obligation	330	326
Effect of one-percentage-point decrease in healthcare cost trend on:		
Service and interest cost	(18)	(20)
Accumulated pension benefit obligation	(294)	(291)

The asset allocations of Wellmont's pension and postretirement benefits as of June 30, 2010 and 2009, respectively, were as follows:

Fair value measurement at June 30, 2010				
pension benefits – plan assets				
		Quoted prices

(14) Self-Insurance Programs

Wellmont is self-insured for professional and general liability and workers’ compensation liability. Consulting actuaries have been retained to determine funding requirements and estimate claim liability exposures. Wellmont has established revocable self-insurance trust funds to provide for professional and general liability claims and workers’ compensation claims and related expenses. Wellmont’s contributions to the self-insurance trusts are based upon actuarial determinations by an independent service company. The professional and general liability self-insurance program is supplemented by umbrella excess liability policies consisting of various layers of coverage with commercial carriers based on policy year. The workers’ compensation program is supplemented for Tennessee and Virginia by excess workers’ compensation policies, with a commercial carrier for statutory limits per occurrence. Wellmont does not

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2010 and 2009

(Dollars in thousands)

qualify as a self-insurer in Kentucky and hence purchases a separate policy for its operation in Kentucky. Provisions based on actuarial estimates are made for the ultimate cost of claims asserted, as well as estimates of claims incurred but not reported as of the respective consolidated balance sheet dates. Insurance expense under these programs amounted to approximately \$3,414 and \$5,658 for the years ended June 30, 2010 and 2009, respectively, and are included in other expense in the accompanying consolidated statements of operations and changes in net assets.

At June 30, 2010 and 2009, Wellmont was involved in litigation relating to medical malpractice and workers' compensation claims arising in the ordinary course of business. There are also known incidents that occurred through June 30, 2010 that may result in the assertion of additional claims, and other claims may be asserted arising from services provided to patients in the past. Claims have been filed requesting damages in excess of the amount accrued for estimated malpractice costs. Management of Wellmont is of the opinion that estimated professional and general liability amounts accrued at June 30, 2010 are adequate to provide for potential losses resulting from pending or potential litigation. Amounts of claim settlements may be more or less than what has been provided for by management. The ultimate settlement of claims could be different from recorded accruals, with such differences being potentially significant.

Wellmont is also self-insured for medical and other healthcare benefits provided to its employees and their families. A provision for estimated incurred but not reported claims has been provided in the consolidated financial statements.

(15) Commitments and Contingencies

Construction in progress at June 30, 2010 and 2009 relates primarily to the completion of certain buildings and renovations. Total costs to complete these and other projects were approximately \$11,920 at June 30, 2010. Wellmont has entered into contracts of approximately \$11,920 related to these projects.

Wellmont leases certain equipment and office space under operating lease agreements. Total rental expense under cancelable and noncancelable agreements was \$16,857 and 16,441 for the years ended June 30, 2010 and 2009, respectively. Minimum future lease payments under noncancelable operating leases with initial or remaining lease terms in excess of one year as of June 30, 2010 are as follows:

2011	\$	14,227
2012		12,318
2013		8,149
2014		3,763
2015		3,383
Thereafter		20,699
	\$	<u>62,539</u>

The HCHM lease to WHCMH is for 20 years and can be automatically extended for two additional terms of 10 years each. Should WHCMH generate annual net excess revenue over expenses, 50% shall be transferred to a designated fund in the Foundation for the purpose of healthcare projects. No transfers were required for the years ended June 30, 2010 and 2009.

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2010 and 2009

(Dollars in thousands)

Wellmont has entered into contractual employment relationships with physicians to provide services to Wellmont physician practices that are intended to qualify under the employee safe harbor of the Anti-Kickback Statute and the employee exception of the Physician Self-Referral Law. These contracts have terms of varying lengths, guarantee certain base payments, and may provide for additional incentives based upon productivity.

The healthcare industry is subject to numerous laws and regulations of federal, state, and local governments. These laws and regulations include, but are not necessarily limited to, such matters as licensure, accreditation, government healthcare program participation requirements, reimbursement for patient services, and Medicare fraud and abuse. Recently, government activity has increased with respect to investigations and allegations concerning possible violations of fraud and abuse statutes and regulations by healthcare providers. Violations of these laws and regulations could result in expulsion from government healthcare programs together with the imposition of significant fines and penalties, as well as significant repayments for patient services previously billed. Management believes Wellmont is in compliance with fraud and abuse statutes and other applicable government laws and regulations. Compliance with such laws and regulations can be subject to future government review and interpretation, as well as regulatory actions unknown or unasserted at this time.

(16) Functional Expense Disclosure

Wellmont provides healthcare services to residents within its geographic location. Expenses based upon functional classification related to providing these services during the years ended June 30 are as follows:

	<u>2010</u>	<u>2009</u>
Professional care of patients	\$ 583,222	597,951
Administrative and general	117,123	101,641
Fund-raising	1,235	1,260
	<u>\$ 701,580</u>	<u>700,852</u>

(17) Income Taxes

Wellmont, Inc. and its subsidiaries file consolidated federal and separate company state income tax returns. These companies have combined net operating loss carryforwards for federal income tax purposes of approximately \$52,000 at June 30, 2010, which begin expiring in fiscal 2016 and expire through 2030. These net operating losses can be used to offset future consolidated taxable income of Wellmont, Inc. and subsidiaries. Wellmont participates in certain activities that generate unrelated business taxable income. These activities have generated net operating losses in prior years, and Wellmont files a Form 990-T with the Internal Revenue Service to report such activity. Wellmont has net operating loss carryforwards for federal income tax purposes of approximately \$975 for unrelated business activities. Management believes that it is not more likely than not that deferred tax assets arising from net operating loss carryforwards will be realizable. Accordingly, these are fully reserved at June 30, 2010 and 2009.

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2010 and 2009

(Dollars in thousands)

(18) Concentration of Credit Risk

Wellmont grants credit without collateral to its patients, most of who are local residents and are insured under third-party payor agreements. The mix of receivables from patients and third-party payors at June 30, 2010 and 2009 was as follows:

	<u>2010</u>	<u>2009</u>
Medicare	46%	45%
TennCare	4	4
Medicaid	8	8
Other third-party payors	31	31
Patients	11	12
	<u>100%</u>	<u>100%</u>

(19) Disclosures about Fair Value of Financial Instruments

(a) *Fair Value of Financial Instruments*

The following methods and assumptions were used to estimate fair value of each class of instruments:

Cash and Cash Equivalents

The carrying amount approximates fair value due to the short maturities of these instruments.

Patient Accounts and Other Receivables

The net recorded carrying value approximates fair value due to the short maturities of these instruments.

Investments and Assets Limited as to Use

The fair values of investments and assets limited as to use are based on quoted market prices and quotes obtained from security brokers or, in the case of the limited partnerships, by the general partner.

Accounts Payable and Accrued Expenses

The carrying amount approximates fair value due to the short maturities of these liabilities.

Estimated Third-Party Payor Settlements, Other Long-Term Liabilities

The carrying amount approximates fair market value due to the nature of these liabilities.

Long-Term Debt

The fair value of revenue bonds, using current market rates, was estimated at \$422,290 and \$344,863 for the years ended June 30, 2010 and 2009, respectively.

(b) *Fair Value Hierarchy*

On July 1, 2008, Wellmont adopted new guidance issued by FASB for fair value measurement of financial assets and financial liabilities and for fair value measurement of nonfinancial items that are recognized or disclosed at fair value in the consolidated financial statements on a recurring basis now codified into ASC 820, *Fair Value Measurements and Disclosures*. ASC 820 establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1 measurement) and the lowest priority to measurements involving significant unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are as follows:

- Level 1 inputs are quoted market prices (unadjusted) in active markets for identical assets or liabilities that Wellmont has the ability to access at the measurement date.
- Level 2 inputs are inputs other than quoted market prices including within Level 1 that are observable for the asset or liability, either directly or indirectly. If the asset or liability has a specified (contractual) term, a Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 inputs are unobservable inputs for the asset or liability.

The level in the fair value hierarchy within which a fair value measurement in its entirety falls is based on the lowest level input that is significant to the fair value measurement in its entirety.

In conjunction with the adoption of the new guidance, Wellmont elected to early adopt the measurement provisions of Accounting Standards Update No. 2009-12 to certain investments in funds that do not have readily determinable fair values including private investments, hedge funds, real estate, and other funds. This guidance amends the previous guidance and allows for the estimation of the fair value of investments in investment companies for which the investment does not have a readily determinable fair value using net asset value per share or its equivalent. Net asset value, in many instances may not equal fair value that would be calculated pursuant to ASC 820. The fair value of these investments was \$56,972 and \$37,312 at June 30, 2010 and 2009, respectively.

Purchases, issuances, and settlements	5,602
Transfers in and/or out of Level 3 (net)	—
Balance at June 30, 2010	\$ <u>39,362</u>

APPENDIX C.

SUMMARY OF THE FINANCING DOCUMENTS

[THIS PAGE INTENTIONALLY LEFT BLANK]

SUMMARY OF THE FINANCING DOCUMENTS

Brief descriptions of the Master Indenture, the 2011 Bond Indenture and the Loan Agreement are included hereafter in this Appendix C to the Official Statement. Such descriptions do not purport to be comprehensive or definitive. All references herein to the Master Indenture, the 2011 Bond Indenture and the Loan Agreement are qualified in their entirety by reference to each such document, copies of which are available for review at the offices of the Corporation and the Bond Trustee. All references to the Series 2011 Bonds are qualified in their entirety by reference to the definitive forms thereof and the information with respect thereto included in the 2011 Bond Indenture.

DEFINITIONS OF CERTAIN TERMS

The following are definitions of certain terms used in the Master Indenture, the 2011 Bond Indenture, the Loan Agreement and the Official Statement. Certain definitions used below may have been modified so long as the Series 2011 Obligation is outstanding. See "Summary of Certain Provisions of the Master Indenture - Provisions Applicable as Long as Series 2011 Obligation Outstanding."

"Accountant" means any Person who or which is appointed (a) by any member of the Combined Group for the purpose of examining and reporting on or passing on questions relating to the financial statements of such member or (b) by the Obligated Group Agent for the purpose of examining and reporting on or passing on questions relating to the financial statements of two or more members of the Combined Group or the entire Combined Group, has all certifications necessary for the performance of such services, and, in the good faith opinion of the person making the appointment, has a favorable reputation for skill and experience in performing similar services in respect of entities of a comparable size and nature. If any Accountant's report or opinion is required to be given with respect to matters partly within and partly without the expertise of such Accountant, such Accountant may rely upon the report or opinion of another Accountant, which other Accountant shall be reasonably satisfactory to the relying Accountant and the Obligated Group Agent.

"Act" means Sections 48-101-301 to 48-101-318, Tennessee Code Annotated, as from time to time amended.

"Act of Bankruptcy" means the filing of a petition in bankruptcy (or any other commencement of a bankruptcy or similar proceeding) by or against the Corporation or any affiliate of the Corporation under any applicable bankruptcy, insolvency, reorganization or similar law, now or hereafter in effect.

"Additional Indebtedness" means any Indebtedness (including all Obligations, other than the Series 2003 Obligation, the Series 2005 Obligations, the Series 2006C Obligation, the Series 2007A Obligation, the Series 2010 Obligation, the Series 2011 Obligation and Series 2011 Swap Obligation) incurred by any Obligated Issuer, subsequent to its becoming an Obligated Issuer.

"Affiliate" of any specified Person means any other Person directly or indirectly controlling or controlled by or under direct or indirect common control with such specified Person. For purposes of this definition, (i) "control" when used with respect to any specified Person means the power to direct the management and policies of such Person, directly or indirectly, whether through the power to appoint and remove its directors, the ownership of voting securities, by contract, membership or otherwise; and (ii) the terms "controlling" and "controlled" have meanings correlative to the foregoing.

"Architect" means a Person who or which is appointed by any member of the Combined Group for the purpose of passing on questions relating to the design and construction of Facilities, has all licenses and certifications necessary for the performance of such services, and, in the good faith opinion of the Person making the appointment, has a favorable reputation for skill and experience in performing similar service in respect of Facilities of a comparable size and nature.

"Balloon Indebtedness" means (a) Long-Term Indebtedness as to which, when issued, 25% or more of the debt service thereon is due in a single year, or (b) Long-Term Indebtedness as to which, when issued, 25% or more of the original principal amount thereof may, at the option of the Holder or registered owner thereof, be redeemed or repurchased at one time, which portion of the principal is not required by the documents pursuant to which such Indebtedness is issued to be amortized by redemption prior to such date, or (c) any Guaranty of Long-Term Indebtedness that is Balloon Indebtedness.

"Bankruptcy Law" means the United States Bankruptcy Code, 11 U.S.C. §§ 101 et seq. or any similar statute.

"Bond Counsel" means a firm of nationally recognized standing in the field of municipal finance law whose opinions are generally accepted by purchasers of public obligations and who is acceptable to the Bond Trustee.

"Bond Fund" means the fund by that name created pursuant to the provisions of the 2011 Bond Indenture.

"Bond Index" means (i) in respect of any Outstanding Indebtedness, the average interest rate on such Indebtedness for the twelve (12) months immediately preceding the month prior to such calculation, or if such Indebtedness shall have had a variable rate for less than a twelve (12) month period, the average interest rate on such Indebtedness for such lesser period; and (ii) in respect of any proposed Indebtedness, at the option of the Obligated Group Agent, the initial rate established or reasonably expected to be established for such Indebtedness, as determined by an Officer's Certificate.

"Bond Trustee" means The Bank of New York Mellon Trust Company, N.A., a national banking association organized and existing under the laws of the United States, and its successors and any corporation resulting from or surviving any consolidation or merger to which it or its successors may be a party and any successor Bond Trustee at the time serving as successor Bond Trustee under the 2011 Bond Indenture.

"Book Entry System" means the system maintained by the Securities Depository as provided in the 2011 Bond Indenture.

"Book Value", when used in connection with Property of any member of the Combined Group, means the cost of such Property, net of accumulated depreciation, calculated in conformity with generally accepted accounting principles, and when used in connection with Property of the Combined Group, means the aggregate of the values so determined with respect to such Property of all members of the Combined Group determined in such a manner that no portion of such value of Property of any member of the Combined Group is included more than once.

"Business Day" means any day other than (a) a Saturday or Sunday, (b) a day on which the Bond Trustee is required or permitted by law to close, and (c) a day on which the New York Stock Exchange is closed.

"Capitalization" means the principal amount of all outstanding Long-Term Indebtedness of the Combined Group, plus the equity accounts of the Combined Group (i.e., unrestricted fund balances, including any shareholder equity or partnership equity).

"Code" means the Internal Revenue Code of 1986, as amended from time to time, and any successor thereto.

"Combined Group" means the Obligated Group and all Restricted Affiliates.

"Commitment Indebtedness" means the obligation of any Person to repay amounts disbursed pursuant to a credit facility to pay when due such Person's obligations under Indebtedness incurred in accordance with the provisions of the Master Indenture.

"Completion Indebtedness" means any Long-Term Indebtedness (a) incurred by any Person for the purpose of financing the completion of constructing or equipping Facilities with respect to which Long-Term Indebtedness was theretofore incurred in accordance with the provisions of the Master Indenture, and (b) with a principal amount

not in excess of the amount required (1) to provide a completed and equipped Facility of substantially the type and scope contemplated at the time such prior Long-Term Indebtedness was incurred, (2) to provide for capitalized interest during the period of construction, (3) to capitalize a reserve with respect to such Completion Indebtedness and (4) to pay the costs and expenses of issuing such Completion Indebtedness.

"Construction Index" means the health care component of the implicit price deflator for the gross national product as most recently reported prior to the date in question by the United States Department of Commerce or its successor agency, or, if such index is no longer published, such other index which is certified to be comparable and appropriate by the Obligated Group Agent in an Officer's Certificate delivered to the Master Trustee.

"Consultant" means a Person who or which is appointed by the Obligated Group Agent for the purpose of passing on questions relating to the financial affairs, management or operations of one or more members of the Combined Group or the entire Combined Group and, in the good faith opinion of the Obligated Group Agent, has a favorable reputation for skill and experience in performing similar services in respect of entities engaged in reasonably comparable endeavors. If any Consultant's report or opinion is required to be given with respect to matters partly within and partly without the expertise of such Consultant, such Consultant may rely upon the report or opinion of another Consultant, which other Consultant shall be reasonably satisfactory to the relying Consultant and the Obligated Group Agent.

"Corporation" means Wellmont Health System, a Tennessee nonprofit corporation, and its successors and assigns and any surviving, resulting or transferee entity as provided in the Agreement.

"Corporation Representative" means the person or persons at the time designated to act on behalf of the Corporation by written certificate furnished to the Issuer and the Bond Trustee containing the specimen signatures of such person or persons and signed on behalf of the Corporation by its President or Vice President. Such certificate may designate an alternate or alternates.

"Costs of Issuance" means the fees, costs, expenses and other charges incurred in connection with the issuance of the Series 2011 Bonds, including, but not limited to, the following: (a) counsel fees (including but not limited to Bond Counsel, Issuer's counsel, Trustee's counsel, Corporation's counsel, and underwriter's counsel); (b) underwriter's discount and financial advisor fees incurred in connection with the issuance of the Series 2011 Bonds; (c) initial Trustee acceptance and set-up fees and expenses incurred in connection with the issuance of the Series 2011 Bonds; (d) Trustee and authenticating agent fees and expenses related to issuance of the Series 2011 Bonds; and (e) printing costs for any offering materials.

"Costs of Issuance Fund" means the fund by that name created pursuant to the provisions of the 2011 Bond Indenture.

"Counsel" means a lawyer duly admitted to practice law before the highest court of any state in the United States of America or the District of Columbia, or any law firm, who or which, as the case may be, is not unsatisfactory to any recipient of the opinion to be rendered by such Counsel.

"Cross Guarantee" means the obligations of each Obligated Issuer pursuant to Section 2.3 of the Master Indenture.

"Debt Service Requirement" of any Person means, for any period of time, the amounts payable or the payments required to be made by such Person in respect of principal and interest on Outstanding Long-Term Indebtedness during such period (calculated in such a manner that no portion of Long-Term Indebtedness is included more than once), taking into account (for purposes of calculating any projected debt service requirements) (a) that any Indebtedness represented by a Guaranty shall be deemed payable on the dates and in the amounts contemplated in Section 4.3 of the Master Indenture (concerning the assumptions to be used in including debt service requirements of the guaranteed obligations), (b) that any payments to be made in respect of Balloon Indebtedness and Variable Rate Indebtedness shall be calculated in accordance with the provisions of Section 4.4 of the Master Indenture, (c) that, with respect to Indebtedness refunded or refinanced during such period, only an amount of principal and interest equal to the principal and interest not payable from the proceeds of Indebtedness

shall be taken into account during such period, and (d) any amounts payable from funds available under an Escrow Deposit (other than amounts so payable solely by reason of the obligor's failure to make payments from other sources), or funded from the proceeds of such Long-Term Indebtedness (i.e., accrued and capitalized interest), shall be excluded from the determination of the Debt Service Requirement.

"Eighth Supplemental Master Indenture" means the Eighth Supplemental Master Indenture, dated as of November 1, 2006, among the Corporation (as successor to Bristol Memorial Hospital), Wellmont Hawkins County Memorial Hospital, Inc., Wellmont, Inc., Wellmont Foundation and the Master Trustee pursuant to which the Series 2006C Obligation was issued.

"Eleventh Supplemental Master Indenture" means the Eleventh Supplemental Master Indenture dated as of May 1, 2011 among the Corporation (as the successor to Bristol Memorial Hospital), Wellmont Hawkins County Memorial Hospital, Inc., Wellmont, Inc., Wellmont Foundation and the Master Trustee pursuant to which the Series 2011 Obligation is issued.

"Escrow Deposit" means a segregated escrow fund or other similar fund, account or deposit in trust of cash in an amount (or Investment Securities the principal of and interest on which will be in an amount), and under terms, sufficient to pay all or a portion of the principal of, and premium, if any, and interest on, the indebtedness secured by such escrow fund or other similar fund, account or deposit as the same shall become due or payable upon redemption.

"Facilities" means all land, leasehold interests and buildings and all fixtures and equipment of a Person.

"Fair Value Net Worth" of a Person as of any date means:

(a) the fair value or fair saleable value (as the case may be, determined in accordance with applicable federal and state laws affecting creditors rights and governing determinations of insolvency of debtors) of such Person's assets (including such person's rights to contribution and subrogation under Sections 2.3(d) and (f) of the Master Indenture or in respect of any other guarantee) as of such date, minus

(b) the amount of all liabilities of such Person (determined in accordance with such laws) as of such date, excluding (x) such Person's Cross Guarantee and (y) any liabilities subordinated in right of payment to such Cross Guarantee, minus

(c) \$1.00.

"Fifth Supplemental Master Indenture" means the Fifth Supplemental Master Indenture, dated as of February 1, 2003, among the Corporation (as successor to Bristol Memorial Hospital) as a member of the Obligated Group, Wellmont Hawkins County Memorial Hospital, Inc., Wellmont, Inc., Wellmont Foundation and the Master Trustee pursuant to which the Series 2003 Obligation was issued.

"Financial Advisor" means an investment banking or financial advisory firm, commercial bank or any other qualified Person who or which is appointed by the Obligated Group Agent for the purpose of passing on questions relating to the availability and terms of specified types of Indebtedness for any member of the Combined Group and is actively engaged in and, in the good faith opinion of the Obligated Group Agent, has a favorable reputation for skill and experience in underwriting or providing financial advisory services in respect of similar types of Indebtedness incurred by entities engaged in reasonably comparable endeavors.

"Fiscal Year" means a period of twelve consecutive months ending on June 30 or on such other date as may be specified in an Officer's Certificate of the Obligated Group Agent executed and delivered to the Master Trustee.

"Fitch" means Fitch Ratings, Inc., its successors and their assigns, and, if such corporation is dissolved or liquidated or no longer performs the functions of a securities rating agency, "Fitch" will be deemed to refer to any other nationally recognized securities rating agency designated by the Corporation by written notice to the Bond Trustee.

"Governing Body" means, when used with respect to any Person, its board of directors, board of trustees, or other board, committee or group of individuals in which the powers of a board of directors or board of trustees is vested generally or for the specific matters under consideration.

"Government Issuer" means any federal, state or municipal corporation or political subdivision thereof or any instrumentality of any of the foregoing empowered to issue obligations on behalf thereof.

"Government Obligations" as used in the Master Indenture means (i) direct obligations of, or obligations the principal of and interest on which are unconditionally guaranteed by, the United States of America, including evidences of a direct ownership interest in future interest or principal payments on obligations issued or guaranteed by the United States of America, which obligations are held in a custody account by a custodian pursuant to the terms of a custody agreement, and (ii) obligations issued by any state of the United States of America or any political subdivision, public instrumentality or public authority of any state of the United States of America, provision for the full and timely payment of the principal or premium of and interest on which shall have been made by deposit with a trustee or escrow agent, pursuant to an irrevocable security agreement, of obligations described in clause (i) above.

"Government Obligations" as used in the 2011 Bond Indenture means direct general obligation of, or obligations the payment of the principal of and interest on which are unconditionally guaranteed as to full and timely payment by, the United States of America, which obligations are noncallable.

"Gross Receipts" means all receipts, revenues, income, gifts, donations, contributions, grants, bequests, pledges, chattel paper and instruments and other moneys received by or on behalf of the Obligated Group, including, but without limiting the generality of the foregoing, (a) revenues derived from the ownership or operation of Property, including insurance and condemnation proceeds with respect to Property or any portion thereof, and (b) all rights to receive the same, whether in the form of accounts, accounts receivable, contract rights or other rights and the proceeds of such rights, whether now owned, or held or hereafter coming into existence; provided however that (i) gifts, donations, contributions, grants (including Hill-Burton grants), bequests and pledges heretofore or hereafter made and designated as specified by the granting authority, donor or maker thereof as being for specified purposes (inconsistent with the payment of debt service on Indebtedness) and income derived therefrom to the extent required by such designation or specification, and (ii) revenues, receipts and income derived from the ownership and operation of Property which secures Non-Recourse Indebtedness shall be excluded from Gross Receipts.

"Guaranty" means any obligation of a Combined Group member guaranteeing any obligation of any other Person other than a Combined Group member, whether or not issued under the Master Indenture as an Indenture Guaranty, which obligation would, if such other Person were a member of the Combined Group, constitute Indebtedness thereunder.

"Historical Debt Service Coverage Ratio" means, for any period of time, the ratio determined by dividing Total Income Available for Debt Service for such period by the Debt Service Requirement of the Combined Group for such period.

"Historical Maximum Annual Debt Service Coverage Ratio" means, for any period of time, the ratio determined by dividing Total Income Available for Debt Service for such period by the Maximum Annual Debt Service of the Combined Group.

"Historical Pro Forma Debt Service Coverage Ratio" means for any period of time, the ratio determined by dividing Total Income Available for Debt Service for such period by the Maximum Annual Debt Service of the Combined Group for all Long-Term Indebtedness then Outstanding and the Long-Term Indebtedness then proposed to be issued.

"Holder" means, as the context requires, the registered owner of any Note, the beneficiary of any Indenture Guaranty in whose name an Indenture Guaranty is issued or the holder or beneficiary of any other type of Obligation. In the case of an Obligation issued to a trustee or other fiduciary acting on behalf of the holders of any bonds, notes or other similar obligations which are secured by such Obligation, including any registered securities

depository then in the business of holding (for the benefit of beneficial owners whose interests may be evidenced by book-entry registration) substantial amounts of obligations of types comprising the Obligations, the term Holder means the trustee or other fiduciary or, if so provided in the Related Financing Documents, the holders of the Related Bonds in proportion to their respective interests therein, including any registered securities depository then in the business of holding (for the benefit of beneficial owners whose interests may be evidenced by book-entry registration) substantial amounts of obligations of types comprising the Obligations.

"Income Available For Debt Service" of a Person means, with respect to any period of time, the excess of revenues over expenses, or, in the case of for-profit entities, net income after tax, as determined in accordance with generally accepted accounting principles, to which shall be added, in either case, (a) depreciation, (b) amortization, and (c) interest expense on Indebtedness, and from which shall be excluded any extraordinary items, any gain or loss resulting from either the extinguishment of indebtedness or the sale, exchange or other disposition of assets not made in the ordinary course of business and any revenues or expenses of any Person which is not a member of the Combined Group.

"Indebtedness" of a Person means (a) all Notes and Guaranties, (b) all liabilities (exclusive of reserves) recorded as indebtedness on the audited financial statements of such Person as of the end of the most recent Fiscal Year for which financial statements reported upon by an Accountant are available, and (c) all other obligations for borrowed money; provided that Indebtedness shall not include (1) Subordinated Indebtedness, (2) Interest Rate Swap Obligations, (3) any other Indebtedness of any member of the Combined Group to any other member of the Combined Group, (4) rentals payable under leases which are not properly capitalized under generally accepted accounting principles, or (5) any other obligation which does not constitute indebtedness under generally accepted accounting principles.

"Indenture Guaranty" means any Guaranty issued under the Master Indenture by an Obligated Issuer.

"Insurance Consultant" means a Person, who or which is appointed by any member of the Combined Group for the purpose of reviewing and recommending insurance coverage for the Facilities and operations of one or more members of the Combined Group or the entire Combined Group and, in the good faith opinion of the person making the appointment, has a favorable reputation for skill and experience in performing such services in respect of Facilities and operations of a comparable size and nature. If an Insurance Consultant's report or opinion is required to be given with respect to matters partly within and partly without the expertise of such Insurance Consultant, such Insurance Consultant may rely upon the report or opinion of another Insurance Consultant or other expert, which other Insurance Consultant or other expert shall be reasonably satisfactory to the relying Insurance Consultant and the Obligated Group Agent.

"Interest Payment Date" means each March 1 and September 1, commencing September 1, 2011.

"Investment Securities" means and includes the following:

- (a) Government Obligations;
- (b) debt obligations issued by any of the following agencies or such other like governmental or government-sponsored agencies which may be hereafter created; Bank for Cooperatives; Federal Intermediate Credit Banks; Federal Financing Bank; Federal Home Loan Bank System; Federal National Mortgage Association; Export-Import Bank of the United States; Farmers Home Administration; Small Business Administration; Inter-American Development Bank; International Bank for Reconstruction and Development; Federal Land Banks; Government National Mortgage Association; or Resolution Funding Corporation;
- (c) long-term debt obligations of any state or political subdivision thereof or any agency or instrumentality of such a state or political subdivision or of any corporation, provided that such obligations are rated by S&P or Moody's in any of the three highest rating categories (without reference to sub-categories) assigned by S&P or Moody's;

(d) rights to receive the principal of or the interest on obligations of states, political subdivisions, agencies or instrumentalities meeting the requirements set forth in subparagraph (c) above, whether through

(1) direct ownership as evidenced by physical possession of such obligations or unmatured interest coupons or by registration as to ownership on the books of the issuer or its duly authorized paying agent or transfer agent, or

(2) purchase of certificates or other instruments evidencing an undivided ownership interest in payments of the principal of or interest on such obligations;

(e) negotiable and non-negotiable certificates of deposit, time deposits or other similar banking arrangements which are issued by banks, trust companies or savings and loan associations, provided that, unless issued by a Qualified Financial Corporation, any such certificate, deposit or other arrangement shall be continuously secured as to principal in the manner and to the extent provided in the last paragraph of this definition;

(f) repurchase agreements for Investment Securities described in subparagraph (a) or (b) above with a Qualified Financial Corporation or with dealers in government bonds which report to, trade with and are recognized as primary dealers by a Federal Reserve Bank or are members of the Securities Investors Protection Corporation, provided that the repurchase price payable under any such agreement shall be continuously secured in the manner and to the extent provided in the last paragraph of this definition;

(g) investment agreements with Qualified Financial Corporations;

(h) commercial paper rated in the highest rating category (without reference to sub-categories) by S&P or Moody's;

(i) shares or certificates in any short-term investment fund which short-term investment fund invests solely in obligations described in subparagraph (a), (b), (c) or (h) above; or

(j) debt obligations of any foreign government or political subdivision thereof or any agency or instrumentality of such foreign government or political subdivision provided that such obligations are rated by S&P or Moody's (without reference to subcategories) in the highest rating category assigned by S&P or Moody's.

Any security required to be maintained for Investment Securities in the form of certificates of deposit, time deposits, other similar banking arrangements and repurchase agreements described in subparagraphs (e) and (f) above shall be subject to the following:

(1) the collateral shall be in the form of obligations described in subparagraphs (a) or (b) above, except that the security for certificates of deposit, time deposits or other similar banking arrangements may include other marketable securities which are eligible as security for trust funds under applicable regulations of the Comptroller of the Currency of the United States of America or under applicable state laws and regulations.

(2) the collateral shall have an aggregate market value, calculated not less frequently than monthly, at least equal to the principal amount (less any portion insured by the Federal Deposit Insurance Corporation or any comparable insurance corporation chartered by the United States of America) or the repurchase price secured thereby, as the case may be. The instruments governing the issuance of and security for the Investment Securities shall designate the Person responsible for making the foregoing calculations; provided that the Master Trustee shall make such calculations if they are not made by the Person so designated.

"Issuer" means The Health, Educational and Housing Facilities Board of the County of Sullivan, Tennessee.

"Lien" means any mortgage or pledge of, security interest in or lien or encumbrance on any Property of any member of the Combined Group in favor of, or which secures any Indebtedness or any other obligation of any member of the Combined Group to any Person other than another member of the Combined Group, but specifically excluding subordination arrangements among creditors.

"Limited Obligor" means any Person, other than a member of the Combined Group, on whose account any Obligated Issuer has issued a Guaranty as consideration for such Person's execution and delivery to such Obligated Issuer of a Pledged Note.

"Long-Term Indebtedness" means (a) all Indebtedness which, at the time of incurrence or issuance, has a final maturity or term greater than one year or which is renewable at the option of the obligor thereof for a term greater than one year from the date of original incurrence or issuance; and (b) Short-Term Indebtedness which is incurred as interim financing and which is intended to be repaid out of the proceeds of other Long-Term Indebtedness, provided that any one of the applicable conditions described in Section 4.2 of the Master Indenture are met with respect to such Short-Term Indebtedness on the date of incurrence, assuming for purposes of compliance therewith that such Short-Term Indebtedness is Long-Term Indebtedness characterized as Balloon Indebtedness for purposes of meeting any of the applicable conditions in Section 4.2 of the Master Indenture; provided, that, Long-Term Indebtedness shall not include (1) Non-Recourse Indebtedness or Subordinated Indebtedness; (2) current obligations payable out of current revenues, including current payments for the funding of pension plans and contributions to self insurance programs; (3) obligations under contracts for supplies, services or pensions, allocated to the current operating expenses of future years in which the supplies are to be furnished, the services rendered or the pensions paid; and (4) rentals payable under leases which are not properly capitalized under generally accepted accounting principles.

"Master Indenture" means the Master Trust Indenture, dated as of May 1, 1991, between the Corporation's predecessor, Bristol Memorial Hospital, and the Master Trustee, as supplemented prior to the date hereof, and as further supplemented by the Eleventh Supplemental Master Indenture and Twelfth Supplemental Master Indenture and as it may from time to time be amended or supplemented in accordance with the terms thereof.

"Master Trustee" means U.S. Bank National Association (as successor to Wachovia Bank, National Association, First Union National Bank and Dominion Bank of Middle Tennessee), or any successor master trustee under the Master Indenture.

"Maximum Annual Debt Service" of the Combined Group means the highest annual Debt Service Requirement of the Combined Group for the current or any succeeding Fiscal Year during the remaining term of all Outstanding Obligations.

"Maximum Guaranty Liability" of a Person as of any date means the greater of (i) or (ii) below:

(i) The greater of (A) or (B) as of such date:

(A) the outstanding amount of all Obligations issued by such Person or

(B) the fair market value of all property acquired, in whole or in part, with the proceeds of such Obligations by such Person.

(ii) The greatest of the Fair Value Net Worth of such Person as of the latest fiscal year-end of such Person, each fiscal year-end of such Person thereafter occurring on or prior to the date of the determination of Maximum Guaranty Liability, the date on which enforcement of the pertinent Cross Guarantee is sought, and the date on which a case under the U.S. Bankruptcy Code is commenced with respect to any Obligated Issuer.

"Moody's" means Moody's Investors Service, Inc., a corporation organized and existing under the laws of the State of Delaware, its successors and assigns, and, if such corporation is dissolved or liquidated or no longer performs the functions of a securities rating agency, "Moody's" will be deemed to refer to any other nationally recognized securities rating agency designated by the Corporation by written notice to the Bond Trustee.

"Net Operating Revenues" of a Person means, with respect to any period of time, operating revenues less contractual allowances, free care, discounts and allowances for bad debts, all determined in accordance with generally accepted accounting principles.

"Ninth Supplemental Master Indenture" means the Ninth Supplemental Master Indenture dated as of July 1, 2007 among the Corporation (as the successor to Bristol Memorial Hospital), Wellmont Hawkins County Memorial Hospital, Inc., Wellmont, Inc., Wellmont Foundation and the Master Trustee, pursuant to which the Series 2007A Obligation is issued.

"Non-Arbitrage Certificate" means the Non-Arbitrage Certificate dated the date of delivery of the Series 2011 Bonds and executed by the Issuer.

"Non-Recourse Indebtedness" means any Indebtedness secured by a Lien on any real property, fixtures and tangible personal property, which Indebtedness is not a general obligation of the Obligated Group or any Obligated Issuer, and the liability for which Indebtedness is effectively limited to the property subject to such Lien (and the revenues derived therefrom), with no recourse, directly or indirectly, to any other property.

"Note" means any note issued under the Master Indenture by an Obligated Issuer to evidence Long-Term Indebtedness or Short-Term Indebtedness incurred pursuant to the terms thereof.

"Obligated Group" means the Corporation, Wellmont Hawkins County Memorial Hospital, Inc., Wellmont, Inc., Wellmont Foundation and each other Person who becomes a member of the Obligated Group in accordance with the Master Indenture.

"Obligated Group Agent" means the Corporation and any successor Obligated Group Agent appointed pursuant to the Master Indenture.

"Obligated Issuer" means (a) the Corporation, Wellmont Hawkins County Memorial Hospital, Inc., Wellmont, Inc. and Wellmont Foundation and each other Person which becomes an Obligated Issuer in accordance with the provisions of Article Three of the Master Indenture, whether or not such Person has issued any Obligations thereunder, and which has not withdrawn from the Obligated Group pursuant to Article Three thereof, and (b) when used in respect of any particular Obligation or other Indebtedness, means the obligor thereunder.

"Obligations" means all Notes and Indenture Guaranties issued under the Master Indenture, any lease, contractual agreement to pay money or other obligations of any Obligated Group Member issued under the Master Indenture and any additional forms of Obligations created pursuant to Section 9.1 of the Master Indenture.

"Officer's Certificate" means a certificate signed, in the case of a corporation, by the Chairman, Vice Chairman, President or Chief Financial Officer or, in the case of a certificate delivered by any other Person, the chief executive or chief financial officer of such Person, in either case whose authority to execute such certificate shall be evidenced to the satisfaction of the Master Trustee. When an Officer's Certificate is required to set forth matters relating to one or more Obligated Issuers, such Officer's Certificate may be given in reliance upon another certificate, or other certificates, and supporting materials, if any, provided by any duly authorized officer of the applicable Obligated Issuer.

"Opinion of Bond Counsel" means an opinion in writing signed by an attorney or firm of attorneys experienced in the field of municipal bonds whose opinions are generally accepted by purchasers of municipal bonds.

"Outstanding" (a) when used with reference to Notes, means, as of any date of determination, all Notes theretofore issued or incurred and not paid and discharged other than (1) Notes theretofore cancelled by the Master Trustee or delivered to the Master Trustee for cancellation, (2) Notes deemed paid and no longer Outstanding as provided in Article XI of the Master Indenture or for which an Escrow Deposit has been established, (3) Notes in lieu of which other Notes have been authenticated and delivered or have been paid pursuant to the provisions of the Master Indenture regarding mutilated, destroyed, lost or stolen Notes unless proof satisfactory to the Master Trustee has been received that any such Note is held by a bona fide purchaser for value without notice, and (4) any Note held by any Obligated Issuer; or, (b) all Indenture Guaranties unless the Master Trustee has received from the Holder thereof a written release of all claims thereof against the Obligated Issuer thereunder and all other Obligated Issuers; or, (c) when referring to Indebtedness other than Notes and Indenture Guaranties, means, as of any date of determination, all Indebtedness theretofore issued or incurred other than (1) Indebtedness which has been paid, (2) Indebtedness for which an opinion of Counsel stating that such Indebtedness has been discharged has been provided to the Master Trustee, (3) evidence of Indebtedness for which new evidence has been substituted in a manner analogous to clause (a)(3) above, and (4) any evidence of Indebtedness held by any Obligated Issuer, provided that Obligations or evidences of Indebtedness held by any Obligated Issuer may be deemed by such Obligated Issuer to be continuously Outstanding if such Obligations or evidences of Indebtedness were acquired with an intent that they only be held temporarily in connection with an effort to remarket them to Persons other than the Obligated Issuer.

"Outstanding" or "Bonds Outstanding" means all Series 2011 Bonds which have been authenticated and delivered by the Bond Trustee under the 2011 Bond Indenture, except:

- (a) Series 2011 Bonds canceled after purchase in the open market or because of payment at, or redemption prior to, maturity;
- (b) Series 2011 Bonds paid or deemed paid pursuant to the 2011 Bond Indenture;
- (c) Series 2011 Bonds in lieu of which others have been authenticated under the provisions of the 2011 Bond Indenture; and
- (d) Series 2011 Bonds deemed tendered under the 2011 Bond Indenture and for which another Series 2011 Bond has been issued.

"Owner" means the person or persons in whose name or names a Series 2011 Bond is registered on the books of the Issuer kept by the Bond Trustee for that purpose in accordance with provisions of the 2011 Bond Indenture.

"Participant" means one of the entities which is a member of the Securities Depository and deposits securities, directly or indirectly, in the Book Entry System.

"Permitted Liens" means the Master Indenture, all Related Financing Documents and, as of any particular time:

- (a) Any judgment lien or notice of pending action against any member of the Combined Group so long as (1) such judgment or pending action is being contested and execution thereon has been stayed or the period for responsive pleading or appeal has not lapsed, or (2) in the absence of such contest, neither the pledge and security interest of the Master Indenture nor any Property of any member of the Combined Group will be materially impaired or subject to material loss or forfeiture;
- (b) (1) Rights reserved to or vested in any municipality or public authority by the terms of any right, power, franchise, grant, license, permit or provision of law affecting any Property, to (i) terminate such right, power, franchise, grant, license or permit, provided that the exercise of such right would not, in the opinion of the Obligated Group Agent, materially impair the use of such Property or materially and adversely affect the value thereof, or (ii) purchase, condemn, appropriate or recapture, or designate a purchaser of, such Property; (2) any liens (or deposits to obtain the release of such liens) on any

Property for taxes, assessments, levies, fees, water and sewer charges, and other governmental and similar charges and any liens of mechanics, materialmen, laborers, suppliers or vendors for work or services performed or materials furnished in connection with such Property, which are not due and payable or which are not delinquent or which, or the amount or validity of which, are being contested and execution thereon is stayed; (3) easements, rights-of-way, servitudes, restrictions and other minor defects, encumbrances, and irregularities in the title to any Property which do not, in the opinion of the Obligated Group Agent, materially impair the use of such Property or materially and adversely affect the value thereof; (4) rights reserved to or vested in any municipality or public authority to control or regulate any Property or to use such Property in any manner, which rights do not, in the opinion of the Obligated Group Agent, materially impair the use of such Property or materially and adversely affect the value thereof; and (5) to the extent that it affects title to any Property, the Master Indenture;

(c) Any lease which relates to Property of the Combined Group which is of a type that is customarily the subject of such leases, including but not limited to any leasehold interest required under any Related Financing Documents, leases with respect to office space for physicians and educational institutions, food service facilities, gift shops and radiology or other hospital-based specialty services, pharmacy and similar departments and statutory landlord's liens with respect to such leases;

(d) Any Lien securing Indebtedness provided such Lien also secures all Obligations (other than Obligations representing Subordinated Indebtedness or Non-Recourse Indebtedness) on a parity basis;

(e) Any Lien arising by reason of good faith deposits in connection with leases of real estate, bids or contracts (other than contracts for the payment of money), deposits by any member of the Combined Group to secure public or statutory obligations, or to secure, or in lieu of, surety, stay or appeal bonds, and deposits as security for the payment of taxes or assessments or other similar charges;

(f) Any Lien arising by reason of deposits with, or the giving of any form of security to, any governmental agency or any body created or approved by law or government regulation for any purpose at any time as required by law or governmental regulation as a condition to the transaction of any business or the exercise of any privilege or license, or to enable any member of the Combined Group to maintain self insurance or to participate in any funds established to cover any insurance risks or in connection with workers compensation, unemployment insurance, pension or profit sharing plans or other similar social security plans, or to share in the privileges or benefits required for companies participating in such arrangements;

(g) Any Lien arising by reason of an Escrow Deposit;

(h) (1) Any Lien in favor of a trustee or the holder of a Note on the proceeds of Indebtedness or cash or investments deposited with such trustee and acquired with such proceeds prior to the application of such proceeds or cash or investments and (2) Liens in favor of a trustee, including the Master Trustee, to secure obligations to compensate, reimburse or indemnify such trustees;

(i) Any Lien on moneys deposited by patients or others with any member of the Combined Group as security for or as prepayment for the cost of patient care;

(j) Any Lien on Property received by any member of the Combined Group through gifts, grants or bequests, such Lien being due to restrictions on such gifts, grants or bequests of property or the income thereon;

(k) Statutory rights of the United States of America by reason of federal funds made available under 42 U.S.C. §§ 291 et seq. and similar rights under other federal and state statutes;

(l) Liens existing at the time of a Consolidation or Merger pursuant to Section 6.4 of the Master Indenture, on the date of acquisition of any Property or at the time a Person becomes an Obligated

Issuer pursuant to "-Persons Becoming Obligated Issuers" below or a Restricted Affiliate pursuant to "-Conditions for Designation of Restricted Affiliates" below;

(m) Liens existing at the time of any consolidation, merger, sale or conveyance pursuant to Section 6.4 of the Master Indenture, on the date of acquisition of any Property or at the time a Person becomes an Obligated Issuer pursuant to "-Persons Becoming Obligated Issuers" below or a Restricted Affiliate pursuant to "-Conditions for Designation of Restricted Affiliates" below; provided that

(1) No lien so described may be extended or renewed, nor may it be modified, to apply to any Property or any member of the Obligated Group not subject to such lien on the effective date, unless the lien as so extended, renewed or modified, or the replacement lien, otherwise qualified as a Permitted Encumbrance;

(2) No Additional Indebtedness may be thereafter incurred that is secured by such lien;

(3) No such lien was created in order to avoid the limitations contained herein on the imposition of liens on the property of the Obligated Group; and

(4) Such indebtedness does not become part of the Indebtedness of the Obligated Group.

(n) Any Lien described in Exhibit A to the Master Indenture which is existing on the date of authentication and delivery of the Initial Obligation provided that no such Lien (or the amount of indebtedness secured thereby) may be increased, extended, renewed or modified to apply to any Property of any member of the Combined Group not subject to such Lien on such date, unless such Lien as so extended, renewed or modified otherwise qualifies as a Permitted Lien thereunder;

(o) A security interest in any funds or accounts established pursuant to the provisions of any Related Financing Documents;

(p) Liens in the form of purchase money security interests in Property financed with the proceeds of Indebtedness secured thereby;

(q) Deposits of cash or cash equivalents to secure obligations under letters of credit incurred in the ordinary course of business of any member of the Combined Group.

"Person" means an individual, a corporation, a partnership, an association, a joint stock company, a joint venture, a trust, an unincorporated organization, a governmental unit or an agency, political subdivision or instrumentality thereof or any other group or organization of individuals.

"Pledged Note" means a promissory note executed by a Limited Obligor, as maker, in favor of an Obligated Issuer, as payee, evidencing a sum certain liability of such maker to such payee, which is assigned by such payee to the Master Trustee pursuant to Section 2.3 of the Master Indenture.

"Principal Office" of the Bond Trustee means the address specified in the 2011 Bond Indenture or such other address as may be designated in writing to the Issuer and the Corporation.

"Projected Debt Service Coverage Ratio" means for any future period of time, the ratio determined by dividing projected Total Income Available for Debt Service for such period by Maximum Annual Debt Service of the Combined Group.

"Property" means any and all land, leasehold interests, building, machinery, equipment, hardware, and inventory of each Obligated Issuer wherever located and whether now or hereafter acquired, and any and all rights,

title and interest in and to any and all property whether real or personal, tangible or intangible and wherever situated and whether now or hereafter acquired.

"Property, Plant and Equipment" means all Property which is classified as property, plant and equipment under generally accepted accounting principles.

"Qualified Financial Corporation" means a bank, trust company, national banking association, insurance company or other financial services company whose unsecured long-term debt obligations (in the case of a bank, trust company, national banking association or other financial services company) or whose claims paying abilities (in the case of an insurance company) are rated in any of the three highest rating categories (without reference to sub-categories) by S&P or Moody's. For purposes hereof, the term "financial services company" shall include any investment banking firm or any affiliate or division thereof which may be legally authorized to enter into the transactions described in the Master Indenture pertaining, applicable or limited to a Qualified Financial Corporation.

"Rating Agency" means, severally or collectively, if applicable (a) S&P and any successor thereto, if it has assigned a rating to any Obligation issued and Outstanding under the Master Indenture or any Related Bonds issued and Outstanding pursuant to any Related Financing Documents, (b) Moody's and any successor thereto, if it has assigned a rating to any Obligation issued and Outstanding under the Master Indenture or any Related Bonds issued and Outstanding pursuant to any Related Financing Documents, and (c) Fitch and any successor thereto, if it has assigned a rating to any Obligation issued and Outstanding pursuant to any Related Financing Documents. If any such Rating Agency shall no longer perform the functions of a securities rating service for whatever reason, the term "Rating Agency" shall thereafter be deemed to refer to the others, but if both of the others shall no longer perform the functions of a securities rating service for whatever reason, the term "Rating Agency" shall thereafter be deemed to refer to any other nationally recognized rating service or services as shall be designated in writing by the Obligated Group Agent to the Master Trustee; provided that such designee shall not be unsatisfactory to the Master Trustee.

"Rebate Fund" means the fund by that name created pursuant to the provisions of the 2011 Bond Indenture.

"Related Bond Indenture" means any indenture, bond resolution or other comparable instrument pursuant to which a series of Related Bonds is issued.

"Related Bond Issuer" means the Government Issuer of any issue of Related Bonds.

"Related Bond Trustee" means the trustee and its successors in the trust created under any Related Bond Indenture, and if there is no such trustee, means the Related Bond Issuer.

"Related Bonds" means the revenue bonds, notes, other evidences of indebtedness or any other obligations issued by a Government Issuer, pursuant to a single Related Bond Indenture, the proceeds of which are loaned or otherwise made available to an Obligated Issuer in consideration of the execution, authentication and delivery of a Note to or for the order of such Government Issuer.

"Related Financing Documents" means:

(a) in the case of any Note, (1) all documents, including any Related Bond Indenture, pursuant to which the proceeds of the Note are made available to an Obligated Issuer, the payment obligations evidenced by the Note are created and any security for the Note (if permitted under the Master Indenture) is granted, and (2) all documents creating any additional payment or other obligations on the part of an Obligated Issuer which are executed in favor of the Holder in consideration of the Note proceeds being loaned or otherwise made available to the Obligated Issuer;

(b) in the case of any Indenture Guaranty, all documents creating the indebtedness being guaranteed pursuant to the Indenture Guaranty and providing for the loan or other disposition of the proceeds of the indebtedness and all documents pursuant to which any security for the Indenture Guaranty (if permitted under the Master Indenture) is granted; and

(c) in the case of Indebtedness other than Notes and Indenture Guaranties, all documents relating thereto which are of the same nature and for the same purpose as the documents described in clauses (a) and (b) above.

"Reserved Rights" means amounts payable to the Issuer pursuant to the Loan Agreement as described under "Summary of Certain Provisions of the Loan Agreement - Obligation Payments; Fund Deposits; Prepayments and Other Payments - Additional Payments," "- Particular Covenants of the Corporation - Indemnity" and "- Defaults and Remedies - Agreement to Pay Attorneys' Fees, Costs and Expenses" below, and the right of the Issuer to receive notices.

"Responsible Officer" when used with respect to the Bond Trustee, means any officer within the corporate trust administrative department of the Bond Trustee, including any vice president, any assistant vice president, any trust officer, or any other officer of the Bond Trustee customarily performing functions similar to those performed by any of the above designated officers and also means, with respect to a particular corporate trust matter, any other officer to whom such matter is referred because of his or her knowledge of and familiarity with the particular subject.

"Restricted Affiliate" means any Affiliate of a member of the Obligated Group that:

(a) is either (1) a non-stock membership corporation of which one or more members of the Combined Group are the sole members, or (2) a non-stock, non-membership corporation or a trust of which the sole beneficiaries or controlling Persons are one or more members of the Combined Group, or (3) a stock corporation all of the outstanding shares of stock of which are owned by one or more members of the Combined Group, and

(b) if such Affiliate is a non-stock corporation or a trust,

(1) has the legal power, with approval of a majority of its Governing Body but without the consent of any other Person, to transfer to any Obligated Issuer (or to another Restricted Affiliate that possesses the power to transfer to any Obligated Issuer) money required for the payment of Indebtedness of any Obligated Issuer, and

(2) one or more members of the Combined Group have the sole right to elect or appoint and to remove, with or without cause, a majority of the members of the Governing Body thereof, and

(3) has the ability under applicable law and its organizational documents, with approval of a majority of the members of its Governing Body, to transfer all assets of such Affiliate remaining after payment of its debts to any Obligated Issuer or to another Restricted Affiliate whose remaining assets may be so transferred, provided that if such Affiliate is an organization described in Section 501(c)(3) of the Code, then for so long as the applicable Obligated Issuer is an organization described in Section 501(c)(3) of the Code, the organizational documents of such Affiliate and applicable law may (i) provide for the naming of another member of the Combined Group as a substitute beneficiary if the then current beneficiary ceases to be an organization described in Section 501(c)(3) of the Code and (ii) prohibit transfers to organizations not described in Section 501(c)(3) of the Code, and

(c) has satisfied (or a predecessor has satisfied) the requirements set forth in the Master Indenture for becoming a Restricted Affiliate and has not thereafter ceased to satisfy the requirements of clauses (a) and (b) above or satisfied the requirements set forth in the Master Indenture for ceasing to be a Restricted Affiliate.

The fact that one or more specified elements described above is not satisfied shall not disqualify a Person as a Restricted Affiliate if, in the written opinion of Counsel to such Restricted Affiliate delivered to the Master Trustee, substantially all of the indicia described above relating to the power to transfer Property of, and control, the

applicable Affiliate of a member of the Combined Group, is vested in one or more members of the Combined Group.

"Securities Depository" means The Depository Trust Corporation, New York, New York, or its nominee, and its successors and assigns.

"Series 2003 Bonds" means the Issuer's Hospital Revenue Refunding Bonds (Wellmont Health System Project) Series 2003 issued in the original aggregate principal amount of \$59,100,000 pursuant to the terms and conditions of the Bond Trust Indenture dated as of February 1, 2003 between the Issuer and BNY Trust Company of Missouri, as bond trustee thereunder.

"Series 2003 Obligation" means the \$59,100,000 principal amount Wellmont Health System Note (The Health, Educational and Housing Facilities Board of the County of Sullivan, Tennessee), Refunding Series 2003, issued pursuant to the Fifth Supplemental Master Indenture

"Series 2005 Bonds" means the Issuer's Hospital Revenue Refunding Bonds (Wellmont Health System Project) Series 2005 issued in the original aggregate principal amount of \$70,620,000 pursuant to the terms and conditions of the Bond Trust Indenture dated as of December 1, 2005 between the Issuer and The Bank of New York Mellon Trust Company, N.A., as bond trustee thereunder.

"Series 2005 Obligations" means the \$70,620,000 principal amount Wellmont Health System Note (The Health, Educational and Housing Facilities Board of the County of Sullivan, Tennessee), Refunding Series 2005, and the \$71,548,702 principal amount Standby Note (2005 Master Note) of the Obligated Group, Reimbursement Obligation, each issued pursuant to the Sixth Supplemental Master Indenture.

"Series 2006C Bonds" means the Issuer's Hospital Revenue Bonds (Wellmont Health System Project) Series 2006C issued in the original aggregate principal amount of \$200,000,000 pursuant to the terms and conditions of the Bond Trust Indenture dated as of November 1, 2006 between the Issuer and The Bank of New York Mellon Trust Company, N.A., as bond trustee thereunder.

"Series 2006C Obligation" means the \$200,000,000 principal amount Wellmont Health System Note (The Health, Educational and Housing Facilities Board of the County of Sullivan, Tennessee), Series 2006C, issued pursuant to the Eighth Supplemental Master Indenture.

"Series 2007A Bonds" means the Virginia Small Business Financing Authority's Hospital Revenue Bonds (Wellmont Health System Project), Series 2007A issued in the original aggregate principal amount of \$55,000,000 pursuant to the terms and conditions of the Bond Trust Indenture dated as of July 1, 2007 between the Virginia Small Business Financing Authority and The Bank of New York Mellon Trust Company, N.A., as bond trustee thereunder.

"Series 2007A Obligation" means the \$55,000,000 principal amount Wellmont Health System Note (Virginia Small Business Financing Authority), Series 2007A, issued pursuant to the Ninth Supplemental Master Indenture.

"Series 2010 Bond" means the Issuer's Hospital Revenue Bond (Wellmont Health System Project), Series 2010 (Bank Qualified) issued in the original aggregate principal amount of \$30,000,000 pursuant to the terms and conditions of the Bond Purchase Agreement dated as of November 1, 2010 between the Issuer and First Tennessee Bank National Association, a national banking association, as purchaser.

"Series 2010 Obligation" means the \$30,000,000 principal amount Wellmont Health System Note (The Health, Educational and Housing Facilities Board of the County of Sullivan, Tennessee), Series 2010, issued pursuant to the Tenth Supplemental Master Indenture.

"Series 2011 Bonds" means the Issuer's Hospital Revenue Refunding Bonds (Wellmont Health System Project), Series 2011 issued in the original aggregate principal amount of \$76,165,000 pursuant to the terms and

conditions of the Bond Trust Indenture dated as of May 1, 2011 between The Bank of New York Mellon Trust Company, N.A., as bond trustee thereunder.

"Series 2011 Obligation" means the \$76,165,000 principal amount Wellmont Health System Note (The Health Educational and Housing Facilities Board of the County of Sullivan, Tennessee), Series 2011, issued pursuant to the Eleventh Supplemental Master Indenture.

"Series 2011 Swap Obligation" means the Wellmont Health System Promissory Note Constituting Series 2011 Swap Obligation, issued pursuant to the Twelfth Supplemental Master Indenture.

"Short-Term Indebtedness" means all Indebtedness other than Long-Term Indebtedness.

"Sixth Supplemental Master Indenture" means the Sixth Supplemental Master Indenture dated as of December 1, 2005 among the Corporation (as the successor to Bristol Memorial Hospital), Wellmont Hawkins County Memorial Hospital, Inc., Wellmont, Inc., Wellmont Foundation and the Master Trustee, pursuant to which the Series 2005 Obligations were issued.

"S&P" means Standard & Poor's Ratings Services, a Division of The McGraw-Hill Companies, Inc., a corporation organized and existing under the laws of the State of New York, its successors and assigns, and, if such corporation is dissolved or liquidated or no longer performs the functions of a securities rating agency, "S&P" will be deemed to refer to any other nationally recognized securities rating agency designated by the Corporation by written notice to the Bond Trustee.

"State" means the State of Tennessee.

"Subordinated Indebtedness" means any promissory note, guaranty, lease, contractual agreement to pay money or other obligation of any Obligated Issuer which is expressly made subordinate and junior in right of payment of principal of, redemption premium, if any, and interest on, (a) all Obligations issued pursuant to the Master Indenture, and (b) all other obligations of the Obligated Group thereunder, on terms and conditions which substantially require that (1) no payment on account of principal of, redemption premium, if any, or interest on such Subordinated Indebtedness shall be made, nor shall any property or assets be applied to the purchase or other acquisition or retirement of such Subordinated Indebtedness, unless full payment of all amounts when due and payable upon maturity of Obligations issued under the Master Indenture have been made or duly provided for in accordance with the terms of such Obligations; (2) no payment on account of principal of, redemption premium, if any, or interest on such Subordinated Indebtedness shall be made, nor shall any property or assets be applied to the purchase or other acquisition or retirement of such Subordinated Indebtedness if, at the time of such payment or application, or immediately after giving effect thereto, (i) there shall exist a default in the payment of the principal of, redemption premium, if any, or interest on any Obligations (whether at maturity or upon mandatory redemption), or (ii) there shall have occurred an "event of default" with respect to any Obligations, as defined therein and in the Master Indenture, and such "event of default" shall not have been cured or waived or shall not have ceased to exist; and (c) in the event that any Subordinated Indebtedness is declared or otherwise becomes due and payable because of the occurrence of an "event of default" with respect thereto, (x) the Holders at such time shall be entitled to receive payment in full thereon before the holders of the Subordinated Indebtedness shall be entitled to receive any payment on account of such Subordinated Indebtedness as a result of such "event of default", and (y) no holder of Subordinated Indebtedness, or a trustee acting on such holder's behalf, shall be entitled to exercise any control over proceedings to enforce the terms and conditions of the Master Indenture.

"Supplemental Indenture" means an indenture supplemental to, and authorized and executed pursuant to, the terms of the Master Indenture.

"Tax Compliance Agreement" means the Tax Compliance Agreement dated as of May 1, 2011 between the Issuer and the Corporation.

"Tax-Exempt Organization" means a Person organized under the laws of the United States of America or any state thereof which is an organization described in Section 501(c)(3) of the Code, which is exempt from federal

income taxes under Section 501(a) of the Code, and which is not a "private foundation" within the meaning of Section 509(a) of the Code, or corresponding provisions of federal income tax laws from time to time in effect.

"Tenth Supplemental Master Indenture" means the Tenth Supplemental Master Indenture dated as of November 1, 2010 among the Corporation (as the successor to Bristol Memorial Hospital), Wellmont Hawkins County Memorial Hospital, Inc., Wellmont Inc., Wellmont Foundation and the Master Trustee pursuant to which the Series 2010 Obligation was issued.

"Total Income Available for Debt Service" means, as to any period, (a) the aggregate of Income Available for Debt Service of each member of the Combined Group for such period, determined in such a manner that no portion of Income Available for Debt Service of any member of the Combined Group is included more than once, plus (b) the Income Available For Debt Service of each Limited Obligor up to an amount equal to the amount of such Limited Obligor's Debt Service Requirement for such period with respect to the Indebtedness of such Limited Obligor guaranteed by a member of the Combined Group.

"Total Net Operating Revenues" means, as to any period, the aggregate of Net Operating Revenues of each member of the Combined Group for such period, determined in such a manner that no portion of Net Operating Revenues of any member of the Combined Group is included more than once.

"Trust Estate" means the property conveyed to the Bond Trustee pursuant to the Granting Clauses of the 2011 Bond Indenture.

"Twelfth Supplemental Master Indenture" means the Twelfth Supplemental Master Indenture dated as of May 1, 2011 among the Corporation (as the successor to Bristol Memorial Hospital), Wellmont Hawkins County Memorial Hospital, Inc., Wellmont Inc., Wellmont Foundation and the Master Trustee pursuant to which the Series 2011 Swap Obligation was issued.

"Unrelated Trade or Business" means an activity which constitutes an "unrelated trade or business" within the meaning of Section 513(a) of the Code without regard to whether such activity results in unrelated trade or business income subject to taxation under Section 512(a) of the Code.

"Value", when used in connection with any Property, means either (a) Book Value, or (b) at the election of the Obligated Group Agent evidenced by an Officer's Certificate delivered to the Master Trustee, the aggregate fair market value of such Property, as reflected in the most recent written report of an appraiser selected by the Obligated Group Agent and, in the case of real property, who or which is a member of the American Institute of Real Estate Appraisers (MAI), delivered to the Master Trustee (which report shall be dated not more than three years prior to the date as of which value is to be calculated) (1) increased or decreased by the cost of any Property acquired, or the fair market value of any Property disposed of, since the date of such report and (2) increased or decreased by a percentage equal to the aggregate percentage increase or decrease in the Construction Index from the date of such report to the date as of which value is to be calculated.

"Written Request" means with reference to the Issuer, a request in writing signed by the Chairman, Vice-Chairman or Secretary of the Issuer and with reference to the Corporation means a request in writing signed by the President or a Vice President of the Corporation, or any other officers designated by the Issuer or the Corporation, as the case may be.

SUMMARY OF CERTAIN PROVISIONS OF THE MASTER INDENTURE

The following is a summary of certain provisions of the Master Indenture, to which reference is made for a full and complete statement of its provisions.

Obligations

Each Obligation will be issued pursuant to the Master Indenture and will entitle each Holder thereof to the protection of the covenants, restrictions and other obligations imposed upon the Corporation and each Obligated Issuer by the Master Indenture. Such Obligations will be secured equally and ratably by the assignment and pledge to the Master Trustee of a security interest in all money and Investment Securities, if any, held from time to time by the Master Trustee in the funds and accounts established under the Master Indenture and in all Pledged Notes

Accounting Principles

Where the character or amount of any asset or liability or item of income or expense is required to be determined or any consolidation, combination or other accounting computation is required to be made for the purposes of the Master Indenture or any agreement, document or certificate executed and delivered in connection with or pursuant to the Master Indenture, such determination or computation shall be done in accordance with generally accepted accounting principles in effect on (a) the date of the delivery of the Master Indenture, or (b) at the election of the Obligated Group Agent, as specified in an Officer's Certificate delivered to the Master Trustee, the date such determination or computation is made for any purpose of the Master Indenture, such accounting principles, to the extent applicable, consistently applied; provided that intercompany balances and liabilities among the Obligated Issuers shall be disregarded and that the requirements set forth in this paragraph shall prevail, if inconsistent with generally accepted accounting principles. In the event that the fiscal year of any Obligated Issuer ends on a date other than the last day of a Fiscal Year, the character or amount of any asset or liability or item of income or expense of such Obligated Issuer for its fiscal year ending within any Fiscal Year under consideration shall be deemed to be the character or amount of the appropriate asset or liability or item of income or expense for such Fiscal Year. For purposes of calculating Total Income Available for Debt Service and Total Net Operating Revenues for any period, if any Obligated Issuer shall have become a member of the Combined Group during such period, such calculations shall be made assuming that such Obligated Issuer became a member of the Combined Group at the beginning of such period.

Master Indenture Obligations

Each Obligated Issuer is permitted to issue one or more series of Obligations under the Master Indenture on which all Obligated Issuers will be jointly and severally liable. The terms of each Obligation shall be set forth in a Supplemental Indenture.

The principal of, premium, if any, and interest on the Obligations shall be payable in any currency of the United States of America which is legal tender for the payment of public and private debts. Such payment shall be made at the principal corporate trust office of the Master Trustee or, if an Obligated Issuer so elects, by check, draft or wire transfer to such Holder. In the case of all payments made directly to a Holder, the Obligated Issuer shall give notice of such payment to the Master Trustee concurrently with the making thereof.

Each Obligated Issuer, jointly and severally, unconditionally guarantees to the Holders of the Obligations and to the Master Trustee the due and punctual payment of the principal of, and interest on, the Obligations and all other amounts due and payable under the Master Indenture. Further, each Obligated Issuer shall cause, to the extent permitted by law, its Restricted Affiliates to transfer to the Obligated Group such of their property as shall be necessary to enable the Obligated Group to meet all of its joint and several liability (determined without regard to the aggregate Maximum Guaranty Liability of the Obligated Issuers) in respect of all Outstanding Obligations, in the maximum amount permissible under the applicable fraudulent conveyance or similar laws.

Each Obligated Issuer shall be subrogated to all rights of the Holders of the Obligations and the Master Trustee against the other Obligated Issuers in respect of any amounts paid by such Obligated Issuer pursuant to the Master Indenture; provided, however, that no Obligated Issuer shall be entitled to enforce or receive any payments arising out of, or based upon such right of subrogation until all Obligations shall have been paid in full and discharged.

If any person ceases to be an Obligated Issuer, such person shall cease to be a "Cross Guarantor" under the Master Indenture, and its obligations as such shall be terminated and released; provided, however, that the foregoing provision is inapplicable (a) if such Person ceases to be an Obligated Issuer as a result of a transaction which is prohibited by the terms of the Master Indenture or (b) if, at the time such Person would otherwise have been released under the provisions of this paragraph, there has occurred and is continuing a default in the payment of principal of or interest on any Obligation (in which event this clause (b) shall cease to apply to such person at such time as such default shall be cured).

If an Obligated Issuer is called upon to make a payment under its Cross Guarantee, each of the Obligated Issuers will contribute to such paying Obligated Issuer their pro rata share, determined pursuant to the Master Indenture, of the amount of such payment.

The Master Trustee shall maintain at its principal corporate trust office a registration book relating to Obligations of the Obligated Group. These registration books shall contain (a) the names and addresses of Holders of Obligations, and (b) any other information which may be necessary for the proper discharge of the Master Trustee's duties under the Master Indenture. The Obligations of any series may be transferred or exchanged in the manner specified in the Supplemental Indenture providing for the issuance thereof.

The Master Trustee shall establish and maintain a revenue or similar debt service fund for the purpose of accumulating and paying amounts due on Outstanding Obligations (a) if the applicable Supplemental Indenture provides for the making of deposits directly with the Master Trustee in respect of an Obligation, or (b) upon the occurrence of an "event of default" under the Master Indenture and the exercise of any remedies by the Master Trustee for the benefit of all Holders of Outstanding Obligations.

All money held in any fund established under the Master Indenture, in the case of (a) above, shall, upon written request and direction of the Obligated Group Agent, be invested in Investment Securities, and any money realized by the Master Trustee in the case of (b) above, shall be invested by the Master Trustee, without need of any further authorization or direction, only in Government Obligations with maturities not in excess of ninety days, unless the Master Trustee is otherwise directed by Holders as provided in the Master Indenture. The Master Trustee shall not be liable or responsible for any loss resulting from any such investment.

Any Obligated Issuer and the Master Trustee may enter into a Supplemental Indenture to create an Obligation issued under the Master Indenture. The Supplemental Indenture shall (a) with respect to Obligations created thereby, set forth the date thereof, and the date or dates on which principal of, premium, if any, and interest on such Obligations shall be payable, and (b) provide for the form of such Obligations and shall contain such other terms and provisions as shall not be inconsistent with the provisions of the Master Indenture.

Simultaneously with or prior to the execution, authentication and delivery of the Obligations pursuant to the Master Indenture:

(a) All requirements and conditions to the issuance of such Obligations, if any, set forth in the Master Indenture and the Supplemental Indenture shall have been complied with and satisfied, as evidenced by an opinion of Counsel to that effect delivered to the Master Trustee;

(b) The applicable Obligated Issuer or the Obligated Group Agent shall have delivered to the Master Trustee such opinions, certificates, proceedings, instruments and other documents as the Master Trustee or the Related Bond Issuer, if any, may reasonably request;

(c) The requirements of the Master Indenture with respect to the incurrence of Additional Indebtedness shall have been satisfied if such Obligations constitute Indebtedness;

(d) Each Supplemental Indenture shall specify the purpose or purposes for which such Obligations are being issued, which may be any purpose within the corporate power of the applicable Obligated Issuer; and

(e) The Obligated Group Agent shall have delivered to the Master Trustee an opinion of counsel, regarding the Securities Act of 1933 and the Trust Indenture Act of 1939, as required pursuant to the Master Indenture.

Persons Becoming Obligated Issuers

The Master Indenture permits Persons other than the Corporation to become members of the Obligated Group subject to the satisfaction of certain conditions. These conditions include the following:

First, such Person must execute and deliver to the Master Trustee an appropriate instrument, satisfactory to the Obligated Group Agent, containing (a) the agreement of such Person to become an Obligated Issuer under the Master Indenture and thereby to become subject to compliance with all provisions of the Master Indenture pertaining to an Obligated Issuer, including the performance and observance of all covenants and obligations of an Obligated Issuer under the Master Indenture; (b) the agreement of such Person to consult with each other member of the Obligated Group prior to incurring any Obligations; and (c) such other restrictions on the ability of such Person to incur Obligations as may be imposed by the Obligated Group.

Second, each instrument executed and delivered to the Master Trustee as described in the preceding paragraph must be accompanied by an Officer's Certificate from the Obligated Group Agent to the effect that the Obligated Group Agent consents to such Person becoming an Obligated Issuer and an opinion of Counsel to the effect that (a) the conditions contained in the Master Indenture relating to such Person's membership in the Obligated Group have been satisfied; (b) under then existing law, such Person becoming an Obligated Issuer will not subject any Obligation to the registration provisions of the Securities Act of 1933, as amended, or that such Obligation has been so registered if so required, or the qualification of the Master Indenture pursuant to the Trust Indenture Act of 1939, as amended, or that the Master Indenture has been so qualified if qualification is required; and (c) each instrument delivered by the Person seeking to become a member of the Obligated Group has been duly authorized, executed and delivered by such Person and constitutes a legal, valid and binding agreement of such Person, enforceable in accordance with its terms, except as limited by then existing laws relating to bankruptcy and insolvency and other standard and customary legal exceptions.

If all amounts due or to become due on any Outstanding Related Bond which bears interest that is not includable in gross income under the Code has not been paid to the holder thereof (or provision for such payment has not been made in such manner as to have resulted in the defeasance of the Related Financing Documents), the Master Trustee must receive an Opinion of Bond Counsel to the effect that under then existing law such Person becoming an Obligated Issuer would not adversely affect the validity of such Related Bond or cause the interest payable on such Related Bond to become includable in gross income under the Code.

As a further condition to a Person becoming a member of the Obligated Group, the Master Trustee must receive:

An Officer's Certificate from the Obligated Group Agent to the effect that (i) no "event of default" then exists under the Master Indenture, nor to such officer's knowledge, does there then exist any event which, with the passage of time or giving of notice or both, would or might become an "event of default" under the Master Indenture, and (ii) either (A) if one dollar of Additional Indebtedness were incurred immediately following such Person's admission, the Combined Group would meet the test providing for the incurrence of Long-Term Indebtedness pursuant to the Master Indenture and described in (a)(1) or (2) under "- Additional Long Term Indebtedness" below (assuming, for purposes of such certificate, that the Income Available for Debt Service and Indebtedness of such Person were Income Available for Debt Service and Indebtedness of an Obligated Issuer), or (B) such Person becoming a member of the Obligated Group will cure any "event of default" then in existence under the Master Indenture, or (C) by reason of such membership, the Projected Debt Service Coverage Ratio for each of the two Fiscal Years following such entry into the Obligated Group will be greater than the Projected Debt Service Coverage Ratio for such Fiscal Years had such entry into the Obligated Group not occurred.

Withdrawal from Obligated Group

No Obligated Issuer may withdraw from the Obligated Group unless:

(a) If the Obligated Issuer is other than the Obligated Group Agent, the Obligated Group Agent consents to the withdrawal;

(b) If all amounts due on any Outstanding Related Bond which bears interest that is not includable in gross income under the Code have not been paid to the holder thereof (or provision for such payments has not been made in such manner as to have resulted in the defeasance of the Related Financing Documents), the Master Trustee receives an Opinion of Bond Counsel, in form and substance satisfactory to the Master Trustee, to the effect that under then existing law such Obligated Issuer's withdrawal from the Obligated Group would not adversely affect the validity of such Related Bond or cause the interest payable on such Related Bond to become includable in gross income under the Code;

(c) The Master Trustee receives an Officer's Certificate from the Obligated Group Agent to the effect that either (1) after giving effect to such withdrawal, if one dollar of Additional Indebtedness were incurred, the Obligated Group would meet the test providing for the incurrence of Long-Term Indebtedness pursuant to the Master Indenture, or (2) such Person's withdrawal from the Obligated Group will cure any "event of default" then in existence under the Master Indenture, or (3) by reason of such withdrawal, the Projected Debt Service Coverage Ratio for each of the two Fiscal Years immediately following withdrawal of such Obligated Issuer from the Obligated Group will be greater than the Projected Debt Service Coverage Ratio for such Fiscal Years had such withdrawal not occurred;

(d) The Master Trustee receives an Officer's Certificate from the Obligated Group Agent to the effect that, immediately after the withdrawal of such Person from the Obligated Group, no "event of default" then exists under the Master Indenture, nor to such officer's knowledge, does there then exist any event which, with the passage of time or giving of notice or both, would or might become an "event of default" thereunder; and

(e) The Obligated Group Agent receives an opinion of Counsel to such Person to the effect that following such Person's withdrawal from the Obligated Group no member of the Obligated Group will have any liability for the payment of any indebtedness of such Person.

Upon compliance with the above conditions, the Master Trustee will execute any documents reasonably requested by the withdrawing Obligated Issuer to evidence the termination of such Issuer's obligations under the Master Indenture, under any Supplemental Indenture and under all Obligations.

Conditions for Designation of Restricted Affiliates

Any Affiliate of an Obligated Issuer that satisfies the definition of "Restricted Affiliate" will become a Restricted Affiliate upon delivery to the Master Trustee of the following documents:

(a) an Officer's Certificate from the Obligated Group Agent to the effect that the Obligated Group Agent consents to such Person becoming a Restricted Affiliate;

(b) a written undertaking for the benefit of the Master Trustee duly authorized and executed by such Affiliate evidencing the agreement of such Affiliate (1) to observe and perform the obligations that the Obligated Group has covenanted to cause Restricted Affiliates to observe and perform under the Master Indenture, and (2) subject to any applicable legal restrictions relating to dispositions of assets by organizations described in Section 501(c)(3) of the Code, that upon the liquidation or dissolution of such Affiliate, all remaining assets thereof shall be transferred to an Obligated Issuer, a specified Obligated Issuer, or another Restricted Affiliate;

(c) evidence of appropriate action of the Governing Body of such Affiliate authorizing such undertaking;

(d) an opinion of Counsel to the effect that the conditions contained in the Master Indenture relating to designation of a Restricted Affiliate have been satisfied and an opinion of Counsel to the effect that the instrument described in subparagraph (b) above has been duly authorized, executed and delivered by such Person and constitutes a legal, valid and binding agreement of such Person, enforceable in accordance with its terms, subject only to and limited by the then existing law relating to bankruptcy and insolvency and other standard and customary legal exceptions; and

(e) an Officer's Certificate of the Obligated Group Agent to the effect that (1) no "event of default" then exists under the Master Indenture, nor to such officer's knowledge, does there then exist any event which, with the passage of time or giving of notice or both, would or might become an "event of default" under the Master Indenture, and (2) either (i) if one dollar of Additional Indebtedness were incurred immediately following the designation of such Affiliate, the Combined Group would meet the test providing for the incurrence of Long-Term Indebtedness pursuant to the Master Indenture and described in (a)(1) or (2) under "- Additional Long Term Indebtedness" below, or (ii) such Person becoming a Restricted Affiliate will cure any "event of default" then in existence under the Master Indenture, or (iii) by reason of such status, the Projected Debt Service Coverage Ratio for each of the two Fiscal Years following such designation as a Restricted Affiliate will be greater than the Projected Debt Service Coverage Ratio for such Fiscal Years had such designation of such Person as a Restricted Affiliate not occurred.

Release of Restricted Affiliates

Any Person shall be released from its obligations and status as a Restricted Affiliate only upon the following conditions:

(a) The Master Trustee receives an Officer's Certificate from the Obligated Group Agent consenting to the release of such Person from its status as a Restricted Affiliate and certifying that either (1) if one dollar of Additional Indebtedness were incurred after giving effect to such release, the Obligated Group would meet the test providing for the incurrence of Long-Term Indebtedness pursuant to the Master Indenture and described in (a)(1) or (2) under "- Additional Long Term Indebtedness" below or (2) such release will cure any "event of default" then in existence under the Master Indenture, or (3) by reason of such release, the Projected Debt Service Coverage Ratio for each of the two Fiscal Years following such release will be greater than the Projected Debt Service Coverage Ratio for such Fiscal Years had such release not occurred.

(b) The Master Trustee receives an Officer's Certificate of the Person requesting such release stating that all conditions precedent provided for under the Master Indenture relating to the release of such Person as a Restricted Affiliate have been complied with and that, were such Person released as a Restricted Affiliate on the date of such Officer's Certificate, no "event of default" would then exist under the Master Indenture, nor to such officer's knowledge, would there then exist any event which, with the passage of time or giving of notice, or both, would or might become an "event of default" thereunder.

(c) Upon compliance with the conditions described in subparagraphs (a) and (b) above, the Master Trustee will execute any documents reasonably requested by the released Person to evidence the termination of such Person's status as a Restricted Affiliate.

Short-Term Indebtedness

Each Obligated Issuer has agreed that it will not incur, nor permit any of its Restricted Affiliates to incur, any Additional Indebtedness constituting Short-Term Indebtedness unless immediately after the incurrence of such Short-Term Indebtedness.

(a) (1) the principal amount of all Short-Term Indebtedness of the Combined Group then Outstanding does not exceed 25% of the Total Net Operating Revenues for the most recent Fiscal Year for which consolidated or combined financial statements reported upon by an independent certified public Accountant are available, or

(2) any such Short-Term Indebtedness could be incurred under the tests set forth in the Master Indenture relating to Long-Term Indebtedness treating such Short-Term Indebtedness as Long-Term Indebtedness, and

(b) For a period of not fewer than 15 consecutive days within each Fiscal Year commencing July 1, 1991, the Combined Group reduces the aggregate principal amount of all Outstanding Short-Term Indebtedness described in (a)(1) above to less than 5% of the Total Net Operating Revenues for the immediately preceding Fiscal Year.

Additional Long-Term Indebtedness

Each Obligated Issuer has agreed that it will not incur, nor permit any of its Restricted Affiliates to incur, any Additional Indebtedness constituting Long-Term Indebtedness unless such Long-Term Indebtedness consists of one or more of the following:

(a) Long-Term Indebtedness of any member of the Combined Group, if prior to the incurrence thereof, there is delivered to the Master Trustee:

(1) an Officer's Certificate of the Obligated Group Agent demonstrating that the Historical Pro Forma Debt Service Coverage Ratio for the most recent Fiscal Year for which consolidated or combined financial statements reported upon by an independent certified public Accountant are available was not less than 1.20; or

(2) (i) an Officer's Certificate of the Obligated Group Agent demonstrating that the Historical Debt Service Coverage Ratio for the most recent Fiscal Year for which consolidated or combined financial statements reported upon by an independent certified public Accountant are available was not less than 1.10, and (ii) a Consultant's report (or, in lieu thereof, an Officer's Certificate of the Obligated Group Agent if the Projected Debt Service Coverage Ratio described in this clause (ii) is 1.75 or greater) to the effect that the Projected Debt Service Coverage Ratio, taking the proposed Additional Indebtedness into account, (x) in the case of Additional Indebtedness (other than a Guaranty) to finance capital improvements, for each of the two Fiscal Years succeeding the date on which such capital improvements are expected to be in operation, or (y) in the case of Long-Term Indebtedness not financing capital improvements or in the case of a Guaranty, for each of the two Fiscal Years succeeding the date on which the Indebtedness or Guaranty is incurred, is not less than 1.20.

The requirements described in (a)(2)(i) and (ii) above will be deemed satisfied if (A) a Consultant's report filed with the Master Trustee states that applicable laws or regulations have prevented or will prevent the achievement of such debt service coverage ratios, and (B) the Combined Group has generated Total Income Available for Debt Service in an amount which, in the opinion of such Consultant, the Combined Group could reasonably have generated given such laws and regulations during the period affected thereby.

(b) Completion Indebtedness of any member of the Combined Group without limit if there is delivered to the Master Trustee: (1) an Officer's Certificate of the applicable member of the Combined Group stating that at the time the original Long-Term Indebtedness for the Facilities to be completed was incurred, such Combined Group member had reason to believe that the proceeds of such Long-Term Indebtedness, together with other moneys then expected to be available, would provide sufficient moneys for the completion of such Facilities; (2) a statement of an Architect setting forth the amount estimated to be needed to complete the Facilities, and (3) an Officer's Certificate of such member of the Combined Group stating that the proceeds of such Completion Indebtedness to be applied to the completion of the Facilities, together with a reasonable estimate of investment income to be earned on such proceeds and the amount of moneys, if any, committed to such completion by such Combined Group member or through enumerated bank loans (including letters or lines of credit) or through federal or state grants, will be in an amount not less than the amount set forth in the statement of an Architect or other expert referred to in (2).

(c) Commitment Indebtedness of any member of the Combined Group or any Guaranty of any Commitment Indebtedness of any member of the Obligated Group without limit;

(d) Long-Term Indebtedness of any member of the Combined Group incurred for the purpose of refunding, repurchasing or refinancing (whether in advance or otherwise) any outstanding Long-Term Indebtedness;

(e) The conversion without limit of Long-Term Indebtedness of any member of the Combined Group that is convertible from one interest or payment mode to another interest or payment mode (e.g., weekly to monthly or to a fixed rate) from one mode to another pursuant to the terms of the documentation authorizing such Long-Term Indebtedness;

(f) Subordinated Indebtedness without limit of any member of the Combined Group or Non-Recourse Indebtedness without limit of any member of the Combined Group;

(g) Indebtedness incurred in connection with a sale of accounts receivable with recourse by any member of the Combined Group consisting of an obligation to repurchase all or a portion of such accounts receivable upon certain conditions, provided that the principal amount of such Indebtedness permitted may not exceed the aggregate sales price of such accounts receivable received by such Combined Group member;

(h) Long-Term Indebtedness of any member of the Combined Group, the principal amount of which at the time incurred, together with the aggregate principal amount of all other Long-Term Indebtedness of the Combined Group then Outstanding, does not exceed 25% of the Total Net Operating Revenues for the most recent Fiscal Year for which consolidated or combined financial statements reported upon by an independent certified public Accountant are available;

(i) Long-Term Indebtedness of any member of the Combined Group if prior to the incurrence thereof an Officer's Certificate of the Obligated Group Agent is delivered to the Master Trustee certifying that, immediately following the incurrence of such Long-Term Indebtedness, the total Outstanding Long-Term Indebtedness of the Combined Group will not exceed 66-2/3% of the Capitalization.

Guaranties

(a) Each Obligated Issuer has agreed that it will not enter into, or become liable in respect of, or permit any Restricted Affiliate to enter into, or become liable in respect of, any Guaranty dated after the date of the Master Indenture unless the principal amount of the Indebtedness being guaranteed could then be incurred as Indebtedness described under the heading "- Additional Long-Term Indebtedness", taking into account the assumptions as to calculating the aggregate annual principal and interest payments on, and

the principal amount of, the Indebtedness being guaranteed, contained in the immediately succeeding paragraph.

(b) In the case of Guaranties of indebtedness that would, if such indebtedness were incurred by a member of the Combined Group, constitute Long-Term Indebtedness, the aggregate annual principal and interest payments on, and the principal amount of, the Guaranty will be deemed to be equal to 20% of the principal and interest payments which would be payable on the Indebtedness being guaranteed as if such indebtedness were Long-Term Indebtedness of the Guarantor. If at any time the Guaranty becomes due and payable, the aggregate annual principal and interest payments on, and the principal amount of, the Guaranty will, for purposes of this paragraph, be deemed to equal 100% of the principal and interest payable on, and the principal amount of, the Indebtedness being guaranteed for the Fiscal Year in which payment is made.

Limited Obligor

(a) Any Person may become a Limited Obligor upon delivery to the Master Trustee of the following:

(1) An Officer's Certificate from the Obligated Group Agent to the effect that the Obligated Group Agent consents to such Person becoming a Limited Obligor;

(2) An opinion of Counsel to the effect that the Pledged Note (i) has been duly authorized, executed and delivered by the Limited Obligor and (ii) constitutes the legal, valid and binding obligation of the Limited Obligor, enforceable in accordance with its terms, subject only to and limited by the then existing law relating to bankruptcy and insolvency and other customary and standard legal exceptions, and an opinion of Counsel to the applicable Obligated Issuer to the effect that the Pledged Note has been validly assigned by the applicable Obligated Issuer to the Master Trustee; and

(3) The duly executed Pledged Note made by such Person.

(b) Any Person may be released from its obligations and status as a Limited Obligor upon the following conditions:

(1) The Master Trustee receives an Officer's Certificate from the Obligated Group Agent consenting to the release of such Person from its status as a Limited Obligor and certifying that immediately after the release of such Person, no "event of default" then exists under the Master Indenture, nor to such officer's knowledge, would there then exist any event which, with the passage of time or giving of notice or both, would or might become an "event of default" thereunder; and

(2) The Master Trustee receives an Officer's Certificate from the Obligated Group Agent to the effect that either (i) after giving effect to such release, if one dollar of Additional Indebtedness were incurred, the Combined Group would meet the test providing for the incurrence of Long-Term Indebtedness pursuant to Section 4.2(a)(i) or (ii) of the Master Indenture, or (ii) by reason of such release, the Projected Debt Service Coverage Ratio for each of the two Fiscal Years immediately following such release will be greater than the Projected Debt Service Coverage Ratio for such Fiscal Years had such release not occurred, or (iii) such Person has become a member of the Combined Group.

(c) Upon compliance with the conditions described in subparagraph (b) above, the Master Trustee will surrender the Pledged Note to the released Person, duly marked "cancelled" and will execute such other documents reasonably requested by such Person to evidence the termination of such Person's status as a Limited Obligor.

Debt Service on Balloon Indebtedness and Variable Rate Indebtedness

For purposes of the covenants and computations required or permitted pursuant to the Master Indenture, it will be assumed, at the discretion of the Obligated Group Agent, as the case may be, that (a) the interest rate on Variable Rate Indebtedness is equal to that rate derived from the Bond Index and (b) the principal of Balloon Indebtedness is amortized:

- (1) from the date of calculation thereof over a term of thirty (30) years with level annual debt service payments at an assumed interest rate equal to the Bond Index; or
- (2) during the term to the maturity thereof by deposits made to a sinking fund therefor pursuant to the terms of such Balloon Indebtedness or in accordance with a sinking fund schedule established by resolution of the Governing Body of the applicable Obligated Issuer adopted at or subsequent to the time of incurrence of such Balloon Indebtedness, as certified in an Officer's Certificate, provided that, at the time of such calculation, all deposits required to have been made prior to such date shall have been made; or
- (3) the principal of Balloon Indebtedness is due and payable on the specified due date or due dates thereof; or
- (4) with respect to Balloon Indebtedness for which there exists a Credit Facility, the principal of such Balloon Indebtedness is due and payable in the amounts and at the times specified in the Credit Facility.

Insurance

Each Obligated Issuer have covenanted that it will maintain, or cause to be maintained, and will require each of its Restricted Affiliates to maintain or cause to be maintained, insurance covering such risks and in such amounts as, in its reasonable judgment, is adequate to protect it and its Property and operations, including (to the extent that such Obligated Issuer or Restricted Affiliate is a health care institution) professional liability or medical malpractice insurance. The Obligated Group Agent shall retain an Insurance Consultant who will prepare and file with the Master Trustee a report showing the adequacy of such insurance once every three years (such report to be filed as soon as practicable but in no event later than five months after the end of the applicable third Fiscal Year). Each Obligated Issuer will follow, and will require each of its Restricted Affiliates to follow, any recommendations of the Insurance Consultant to the extent feasible in the opinion of the Obligated Group Agent.

In lieu of maintaining the insurance policies described above, the Combined Group, or any member thereof, may self-insure any of the required coverages (or a portion thereof), provided the Master Trustee receives a report (as soon as practicable but in no event later than five months after the end of each Fiscal Year) of an Insurance Consultant to the effect that such self insurance is consistent with proper management and insurance practices. If any member of the Combined Group elects to self-insure in lieu of maintaining medical liability and malpractice insurance, a report of an Insurance Consultant must be filed with the Master Trustee annually stating that such Insurance Consultant has reviewed the self-insurance program and that the self-insured Combined Group Member has available the estimated amount required for the payment of claims and associated claims expenses with respect to such Fiscal Year.

In the event of damage to or destruction of all or any part of the Facilities of the Combined Group with a Value in excess of five percent (5%) of the Value of all Property of the Combined Group, the affected Combined Group member or the Obligated Group Agent will exercise its best efforts to recover any applicable insurance. Such proceeds will be paid to the Obligated Group Agent for the payment or reimbursement of reasonable expenses of obtaining the recovery. The Obligated Group Agent will then give notice to the Master Trustee of such expenses and of the amount of the remaining proceeds (herein called the "Net Proceeds").

Subject to the provisions of any Related Financing Document pertaining to a Permitted Lien, the affected Combined Group member will apply the Net Proceeds for any lawful corporate purpose as such Combined Group member determines, if the Obligated Group Agent first delivers to the Master Trustee an Officer's Certificate stating that the Projected Debt Service Coverage Ratio for each of the next two full succeeding Fiscal Years immediately following the date of such certificate(s), taking into account such damage or destruction and the proposed use of the Net Proceeds is at least 1.10. If the Obligated Group Agent is unable to deliver such an Officer's Certificate, the affected Combined Group member must apply the Net Proceeds or so much thereof as may be needed to the repair, replacement, restoration or reconstruction of the affected Facilities or, at the option of the applicable Combined Group member, to any other capital project of equivalent value and utility, to the acquisition of any Property or to the repayment in whole or in part of any Outstanding Obligations in such order of maturity or maturities or proportions as the Obligated Group Agent determines.

Any Net Proceeds remaining after compliance by the affected Combined Group member and the Obligated Group Agent with the provisions of the Master Indenture described in the immediately preceding paragraph will be transferred by the Obligated Group Agent to the Master Trustee and applied to the redemption of the Outstanding Obligations in such order of maturity or maturities or proportions as the Obligated Group Agent determines.

In the event of a taking by eminent domain of all or any part of the Facilities of the Combined Group with a Value in excess of five percent (5%) of the Value of all Property of the Combined Group, the affected Combined Group member or the Obligated Group Agent will exercise its best efforts to recover any applicable proceeds. Such proceeds shall be paid to the Obligated Group Agent. The Obligated Group Agent will make appropriate deductions from such proceeds and give notice to the Master Trustee of such deductions and of the amount of the remaining proceeds (also, "Net Proceeds"). The Net Proceeds shall be applied in the same manner as insurance proceeds are applied as described in the two immediately preceding paragraphs.

Certain Covenants of the Obligated Issuers

Each Obligated Issuer has covenanted (and will cause each of its Restricted Affiliates to comply with such covenants), among other things, to maintain its corporate or other separate legal existence and to be qualified to do business where such qualification is necessary, to maintain and keep its Facilities in good repair, to conduct its affairs in compliance with all applicable laws and regulations, to pay all lawful taxes and governmental charges and assessments levied or assessed upon or against it or its Property (except that each Obligated Issuer or Restricted Affiliate thereof may withhold such payments where the validity of such taxes and assessments is being contested in good faith), to comply with any covenants and provisions of any Liens upon its Property or securing any of its Indebtedness, to procure and maintain all necessary licenses and permits, to maintain accreditation of its health care Facilities and its status as a provider of health care services eligible for reimbursement under government programs (subject to certain exceptions set forth in the Master Indenture), and not to discriminate on any legally impermissible basis.

In addition, each Obligated Issuer has covenanted not to merge with or consolidate with any other Person not a member of the Combined Group or sell or convey all or substantially all of its assets to any Person not a member of the Combined Group unless: (a) the successor corporation (if other than the Obligated Issuer) is a Person organized and existing under the laws of the United States of America or a state thereof and such Person becomes an Obligated Issuer and expressly assumes the due and punctual payment of the principal of, premium, if any, and interest on all Outstanding Obligations according to their tenor, and the due and punctual performance and observance of all of the covenants and conditions of the Master Indenture by a Supplemental Indenture satisfactory to the Master Trustee, executed and delivered to the Master Trustee by such Person; (b) if all amounts due or to become due on any Outstanding Related Bonds which bear interest that is not includable in gross income under the Code have not been fully paid to the holders thereof (or provision for such payment has not been made in such manner as will result in the defeasance of the Related Financing Documents), the Master Trustee must receive an Opinion of Bond Counsel, in form and substance satisfactory to the Master Trustee, to the effect that under then existing law the consummation of such merger, consolidation, sale or conveyance, whether or not contemplated on the date of the delivery of any such Related Bonds, would not cause the interest payable on such Related Bonds to become includable in gross income under the Code or adversely affect the validity of such Related Bonds; and (c) there is delivered to the Master Trustee an Officer's Certificate of the Obligated Group Agent to the effect that

immediately following such transaction, (i) no "event of default" then exists nor, to such officer's knowledge, does there exist any event which, with the passage of time or the giving of notice or both, would or might become an "event of default" under the Master Indenture, and (ii) either (A) if one dollar of Additional Indebtedness were incurred, the Obligated Group would meet the tests providing for the incurrence of Long-Term Indebtedness described in Section 4.2(a)(i) or (ii) of the Master Indenture (assuming for purposes of such Certificate that the Income Available for Debt Service and Indebtedness of such Person were Income Available for Debt Service and Indebtedness of an Obligated Issuer), or (B) such transaction will cure any "event of default" then in existence under the Master Indenture, or (3) by reason of such transaction, the Projected Debt Service Coverage Ratio for each of the two Fiscal Years following such release will be greater than the Projected Debt Service Coverage Ratio for such Fiscal Years had such transaction not occurred.

In case of any such consolidation, merger, sale or conveyance and upon any such assumption by the successor corporation, such successor corporation will succeed to and be substituted for its predecessor.

In case of any such consolidation, merger, sale or conveyance, such changes in phraseology and form (but not in substance) may be made in Obligations thereafter to be issued as may be appropriate.

Permitted Encumbrances

No Obligated Issuer may create or suffer to be created or to exist (or permit any Restricted Affiliate to create or suffer to be created or to exist) any Lien upon any of their Property including, without limitation, all proceeds thereof, whether cash or non-cash, now owned or after acquired by any of them, other than Permitted Liens.

Disposition of Property

Each Obligated Issuer has agreed that it will not, nor will it permit any of its Restricted Affiliates to, sell, lease or otherwise dispose of any Property, except for sales, leases or other dispositions of Property:

(a) To another member of the Combined Group;

(b) To any Person if prior to the sale, lease or other disposition there is delivered to the Master Trustee an Officer's Certificate stating that, in the judgment of the officer executing such certificate, such Property has become, or within the next succeeding 24 calendar months is reasonably expected to become, inadequate, obsolete, worn out, unsuitable, unprofitable, undesirable or unnecessary and the sale, lease, removal or other disposition thereof will not impair the structural soundness, efficiency or economic value of the remaining Property;

(c) To any Person provided that prior to the sale, lease or other disposition there is delivered to the Master Trustee an Officer's Certificate of the Obligated Group Agent certifying that Property transferred as described in this subparagraph (c) in the then-current Fiscal Year by all Obligated Issuers and Restricted Affiliates does not exceed 10% of the Value of all Property of the Combined Group for the immediately preceding Fiscal Year;

(d) To any Person provided that prior to the sale, lease or other disposition there is delivered to the Master Trustee an Officer's Certificate of the Obligated Group Agent, to the effect that immediately after the transfer in question, either (1) if one dollar of Additional Indebtedness were incurred, the Combined Group would meet the test providing for the incurrence of Long-Term Indebtedness pursuant to Section 4.2(a)(i) or (ii) of the Master Indenture or (2) such disposition will increase the Projected Debt Service Coverage Ratio in the Fiscal Year immediately following such disposition over what such ratio would have been in such Fiscal Year had such disposition not occurred;

(e) As part of a merger, consolidation, sale or conveyance permitted by the Master Indenture;

- (f) In the ordinary course of business;
- (g) To any Person in connection with an operating lease of Property to such Person;
- (h) Upon fair and reasonable terms no less favorable than would be obtained in a comparable arm's-length transaction;
- (i) To any Person if the transfer involves any Property received as restricted gifts, grants, bequests or other similar sums or the income thereon, to the extent that such sums may not be pledged or applied to the payment of any Debt Service Requirement or operating expenses generally as a result of restrictions or designations imposed by the donor or maker of the gift, grant, bequest or other sums in question; or
- (j) Certain Property specified in the Master Indenture, which Property may be transferred at any time, at the option of the Obligated Group Agent, notwithstanding anything to the contrary contained in the Master Indenture as described above.

Disposition of Restricted Affiliates

No Obligated Group Member may:

(a) Permit any of its Restricted Affiliates to issue or sell any shares of stock of such Restricted Affiliate to any Person (other than members of the Combined Group and except for director's qualifying shares), except for the purpose of paying a common stock dividend on, or splitting the common stock of such Restricted Affiliate; or

(b) Sell, transfer, or otherwise dispose of any shares of stock (except to members of the Combined Group) of any Restricted Affiliates or permit any of its Restricted Affiliates to sell, transfer, or otherwise dispose of (except to members of the Combined Group) any shares of stock of any other Restricted Affiliate, unless all shares of stock of such Restricted Affiliate owned by the members of the Combined Group are sold, transferred or disposed of and either (1) after giving effect to such disposition if one dollar of Additional Indebtedness were incurred, the Combined Group would meet the test providing for the incurrence of Long-Term Indebtedness pursuant to Section 4.2(a)(i) or (ii) of the Master Indenture, or (2) the Projected Debt Service Coverage Ratio for each of the two Fiscal Years immediately following such disposition will be greater than the Projected Debt Service Coverage Ratio for such Fiscal Years had such disposition not occurred; or

(c) Permit any of the Restricted Affiliates to consolidate with or merge into any other corporation or to transfer all or substantially all of its assets as an entirety to another Person, unless the successor formed by such consolidation or into which the Restricted Affiliate is merged or the Person which acquires by conveyance or transfer the assets of the Restricted Affiliate substantially as an entirety is a member of the Combined Group or, if such successor or the transferee is not a member of the Combined Group, either (1) after giving effect to such consolidation, merger or transfer if one dollar of additional Indebtedness were incurred, the Obligated Group would meet the test providing for the incurrence of Long-Term Indebtedness pursuant to Section 4.2(a)(i) or (ii) of the Master Indenture, or (2) the Projected Debt Service Coverage Ratio for each of the two Fiscal Years immediately following such consolidation, merger or transfer will be greater than the Projected Debt Service Coverage Ratio for such Fiscal Years had such consolidation, merger or transfer not occurred.

Filing of Financial Statements, Certificate of No Default, Other Information

The Obligated Group Agent has covenanted that it will:

(a) As soon as practicable but in no event later than five months after the end of each Fiscal Year, file, or cause to be filed, with the Master Trustee and, if such Persons are then providing a rating with respect to Obligations or any Related Bonds, with each Rating Agency, (1) a combined or consolidated revenue and expense statement of the Corporation, each other Obligated Issuer and each Restricted Affiliate, for such Fiscal Year and (2) a combined or consolidated balance sheet of the Corporation, each other Obligated Issuer and each Restricted Affiliate as of the end of such Fiscal Year, each accompanied by the required report of an Accountant.

(b) As soon as practicable but in no event later than five months after the end of each Fiscal Year, file with the Master Trustee (1) a written statement of the Accountant whose report accompanies the financial statements referred to in (a) above stating the Historical Debt Service Coverage Ratio and the Historical Maximum Annual Debt Service Coverage Ratio for such Fiscal Year, and (2) an Officer's Certificate of the Obligated Group Agent stating that all insurance required under the Master Indenture has been obtained and is in full force and effect, and stating whether or not, to the best knowledge of the signers, any Obligated Issuer is in default in the performance of any covenant contained in the Master Indenture, and, if so, specifying each such default of which the signers may have knowledge.

(c) If an "event of default" has occurred and is continuing under the Master Indenture, (1) file with the Master Trustee such other financial statements and information concerning its operations and financial affairs (or of any consolidated group of companies of which it is a member) as the Master Trustee may from time to time reasonably request, excluding specifically donor records, patient records and personnel records and (2) provide access to its Facilities for the purpose of inspection by the Master Trustee during regular business hours or at such other times as the Master Trustee may reasonably request.

(d) Within 10 days after its receipt thereof, file with the Master Trustee a copy of each report which any provision of the Master Indenture requires to be prepared by a Consultant or an Insurance Consultant.

Rates and Charges

Each Obligated Issuer has covenanted and agreed that it will, and cause each of its Restricted Affiliated to, operate on a revenue producing basis and charge such fees and rates for its Facilities and services and exercise such skill and diligence as to provide income from its Property together with other available funds sufficient to pay promptly all payments of principal and interest on its Indebtedness, all expenses of operation, maintenance and repair of its Property and all other payments required to be made by it under the Master Indenture to the extent permitted by law, and to use its best efforts to maintain in each Fiscal Year a ratio of Total Income Available For Debt Service to Maximum Annual Debt Service at least equal to 1.10:1. Each Obligated Issuer has further covenanted and agreed that it will from time to time as often as necessary and to the extent permitted by law, revise, and cause each of its Restricted Affiliates to revise, its rates, fees and charges in such manner as may be necessary or proper to comply with the provisions of the Master Indenture described herein.

If in any Fiscal Year the Historical Maximum Annual Debt Service Coverage Ratio of the Combined Group is less than 1.10:1, the Master Trustee will require the Obligated Group, at the expense of the Obligated Group, to retain a Consultant to make recommendations with respect to the rates, fees and charges of the Combined Group and its methods of operation and other factors affecting its financial condition in order to increase such Historical Maximum Annual Debt Service Coverage Ratio to at least 1.10:1.

A copy of the Consultant's report and recommendations, if any, will be filed with each Obligated Issuer, the Master Trustee, each Related Issuer and each Related Bond Trustee. Each Obligated Issuer must follow, and cause each of its Restricted Affiliates to follow, each recommendation of the Consultant applicable to it to the extent feasible (as determined by the Governing Body of such Obligated Issuer) and permitted by law. The provision of the Master Indenture herein described will not be construed to prohibit any Obligated Issuer or Restricted Affiliate from serving indigent patients to the extent required for such Obligated Issuer or Restricted Affiliate to continue its qualification as a Tax-Exempt Organization or from serving any other class or classes of patients without charge or at reduced rates, so long as such service does not prevent the Combined Group from satisfying the other

requirements of the Master Indenture herein described. So long as the Obligated Group retains a Consultant and follows such Consultant's recommendations to the extent permitted by law, the provisions of the Master Indenture herein described will be deemed to have been complied with even if such ratio for any subsequent Fiscal Year is below 1:10:1; provided, however, that in no event may the Historical Maximum Annual Debt Service Coverage Ratio for any year be less than 1:00:1.

The foregoing provisions of the Master Indenture notwithstanding, if in any Fiscal Year the Historical Maximum Annual Debt Service Coverage Ratio of the Obligated Group is less than 1.10:1, the Master Trustee will not be obligated to require the Obligated Group to retain a Consultant to make such recommendations if: (a) (1) there is filed with the Master Trustee (who will provide a copy to each Related Bond Trustee and Related Issuer) a written report addressed to them of a Consultant (which Consultant and report, including without limitation the scope, form, substance and other aspects of such report, are acceptable to the Master Trustee) which contains an opinion of such Consultant that applicable laws or regulations have prevented the Combined Group from generating Income Available for Debt Service during such Fiscal Year in an amount sufficient to attain a Historical Maximum Annual Debt Service Coverage Ratio of at least 1.10:1 and, if requested by the Master Trustee, such report is accompanied by a concurring opinion of Counsel (which Counsel and opinion, including without limitation the scope, form, substance and other aspects thereof, are acceptable to the Master Trustee) as to any conclusions of law supporting the opinion of such Consultant; and (2) the report of such Consultant indicates that the rates charged by the Obligated Group are such that, in the opinion of the Consultant, the Obligated Group has generated the maximum amount of revenues reasonably practicable given such laws or regulations; or (b) there is filed with the Master Trustee (who will provide a copy to each Related Bond Trustee and Related Issuer) an Officer's Certificate of the Obligated Group Agent stating that a Consultant's report described in the second paragraph under the heading "- Rates and Charges" has been filed previously, the facts and assumptions therein have not materially changed and the Obligated Group is continuing to use its best efforts to implement the Consultant's recommendations.

Defaults and Remedies

The following events are "events of default" under the Master Indenture:

(a) failure of any Obligated Issuer to make any payment of principal, redemption price or interest when due under the terms of any Obligation and such failure continues to exist as of the end of any applicable grace period; or

(b) failure of any Obligated Issuer to observe or perform any covenant or agreement contained in the Master Indenture or any Related Financing Documents for any Obligations for a period of 30 days after written notice of such failure, requiring the same to be remedied, has been given by the Master Trustee to each of the Obligated Issuers, the giving of which notice will be at the discretion of the Master Trustee unless the Master Trustee is requested in writing to do so by the Holders of at least 25% in aggregate principal amount of all Outstanding Obligations, in which event such notice must be given; provided, however, that if such observance or performance requires work to be done, actions to be taken, or conditions to be remedied, which by their nature cannot reasonably be done, taken or remedied, within such 30-day period, no "event of default" will be deemed to have occurred or to exist if, and so long as, the defaulting Obligated Issuer commences such observance or performance within such 30-day period and diligently and continuously prosecutes the same to completion; or

(c) (1) default of any Obligated Issuer in the payment of any Indebtedness (other than Obligations issued and Outstanding under the Master Indenture), the principal amount of which in the aggregate exceeds 5% of the Book Value of all Property of the Combined Group for the immediately preceding Fiscal Year, whether such Indebtedness now exists or is created after the date of the Master Indenture and any grace period with respect thereto expires, or (2) any "event of default" as defined in any Related Financing Documents under which any such Indebtedness may be issued, secured or evidenced occurs, which default in payment or "event of default" results in such Indebtedness becoming or being declared due and payable, unless within the time allowed for service of a responsive pleading in any proceeding to enforce payment of the Indebtedness under the laws governing such proceeding (1) the Obligated Issuer commences proceedings to contest the existence or payment of such Indebtedness, and (2)

in the absence of such contest, neither the pledge and security interest created under the Master Indenture nor any Property of the Combined Group will be materially impaired or subject to material loss or forfeiture; or

(d) bankruptcy, dissolution, liquidation or reorganization in bankruptcy of any Obligated Issuer or other similar events as provided in the Master Indenture.

Upon the occurrence of an "event of default" under the Master Indenture, the Master Trustee may, by notice in writing to the Obligated Issuers, declare the principal of all (but not less than all) Outstanding Obligations to be immediately due and payable, provided that the Master Trustee will be required to make such a declaration (1) if an "event of default" has occurred as described in subparagraph (a) above, (2) if an "event of default" has occurred as described in subparagraph (b) above as a result of a default under the Related Financing Documents for any Obligations, if the Related Financing Documents permit the Holders of such Obligations to declare (or to request the Master Trustee to declare) such Obligations to be immediately due and payable and if the Master Trustee is requested to make such a declaration by the Holders of not less than 25% in aggregate principal amount of such Obligations then Outstanding or such greater percentage as may be required under the Related Financing Documents, or (3) if the Master Trustee is requested to make such a declaration by the Holders of not less than 25% in aggregate principal amount of all Outstanding Obligations.

Any acceleration of the principal of the Obligations as described in the preceding paragraph will be subject to the condition that if, at any time after the principal of all Outstanding Obligations has been accelerated, and before any judgment or decree for the payment of the moneys due has been obtained or entered: (a) one or more Obligated Issuers deposits with the Master Trustee an aggregate sum sufficient to pay (1) all matured installments of interest upon all Outstanding Notes and the principal and premium, if any, of all Outstanding Notes due otherwise than by acceleration (with interest on overdue installments of interest, to the extent permitted by law and on such principal and premium, if any, at the respective rates borne by such Notes to the date of such deposit) and any other amounts required to be paid pursuant to such Notes, (2) all amounts due under each Indenture Guaranty other than by reason of acceleration, (3) all sums due under any Obligations other than Notes and Indenture Guaranties, other than by reason of acceleration, and (4) the expenses and fees of the Master Trustee; and (b) any and all "events of default" under the Master Indenture, other than the nonpayment of principal of and accrued interest on Outstanding Obligations that have become due by acceleration, are remedied, then and in every such case, the Master Trustee will, if requested by the Holders of 25% in aggregate principal amount of all Obligations then Outstanding, waive all "events of default" under the Master Indenture and rescind and annul such declaration and its consequences, but no such waiver or rescission and annulment will extend to or effect any subsequent "event of default" under the Master Indenture.

Upon the occurrence of an "event of default", as described in the Master Indenture, and upon demand of the Master Trustee, each Obligated Issuer will pay to the Master Trustee, for the benefit of the Holders of all Outstanding Obligations, (a) the whole amount then due and payable on all Obligations for principal or interest, or both, and such other amounts as may be required to be paid on all such Obligations, with interest on the overdue principal and installments of interest (to the extent permitted by law) at the respective rates of interest borne by such Obligations or as is provided in the applicable Supplemental Indenture, and (b) such further amounts sufficient to cover the cost and expenses of collection, including a reasonable compensation to the Master Trustee, its agents, attorneys and counsel, and any expenses incurred by the Master Trustee other than as a result of its gross negligence or bad faith.

The Master Trustee may institute any actions or proceedings at law or in equity for the collection of the sums due and may collect such sums in the manner provided by law out of the Property of the Obligated Group wherever situated.

If there are pending proceedings for the bankruptcy or for the reorganization of any Obligated Issuer, or if a receiver or trustee is appointed for its Property, the Master Trustee will be entitled and empowered, by intervention in such proceedings or otherwise, to file and prove a claim or claims for the whole amount of principal, premium, if any, interest and any other amounts owing and unpaid in respect of Obligations, and, in case of any judicial proceedings, to file such proofs of claim and other papers as may be necessary or advisable in order to have the claims of the Master Trustee and of the Holders of the Obligations allowed in such judicial proceedings relative to

such member of the Obligated Group, its creditors or its Property, and to collect and receive any moneys or other Property payable or deliverable on any such claim and to distribute the same after the deduction of its charges and expenses.

All rights of action and rights to assert claims under any Obligation may be enforced by the Master Trustee without the possession of such Obligation. In any proceedings brought by the Master Trustee (and also any proceedings involving the interpretation of any provision of the Master Indenture to which the Master Trustee is a party) the Master Trustee will be held to represent all the Holders of Obligations, and it will not be necessary to make any Holders of Obligations parties to such proceedings.

Application of Moneys Collected

Any amounts collected by the Master Trustee in connection with the exercise of any rights and remedies following an "event of default" under the Master Indenture and, except as otherwise provided in the Master Indenture, all money and Investment Securities on deposit in any funds which the Master Trustee may establish under the Master Indenture from time to time shall be applied for the equal and ratable benefit of the Holders of Obligations in the following order at the date or dates fixed by the Master Trustee for the distribution of such moneys, upon presentment of such Obligations, and stamping thereon the payment, if only partially paid, and upon surrender thereof if fully paid:

(a) to the payment of costs and expenses of collection, including fees of Counsel and reasonable compensation to the Master Trustee; and thereafter

(b) whether or not the principal of all Outstanding Obligations has become or has been declared due and payable, to Holders of the Outstanding Obligations for amounts due and unpaid on the Obligations, ratably, without preference or priority of any kind, according to the amounts due and payable on the Obligations; provided that for the purpose of determining the unpaid amount of any Obligation, there will be deducted the amount, if any, which has been realized by the Holder by exercise of its rights as a secured party with respect to any Liens permitted pursuant to the Master Indenture or is on deposit in any fund established pursuant to any Related Financing Documents for such Obligations (other than amounts consisting of payments of principal and interest previously made and credited against the payments due under such Obligations) as of the date of payment by the Master Trustee as described in this subparagraph (b), all as certified to the Master Trustee by the Holder; and

(c) to the payment of the remainder, if any, to the Obligated Group Agent, its successors or assigns, or to whomsoever may be lawfully entitled to receive the same, or as a court of competent jurisdiction may direct.

Actions by Holders

(a) No Holder of an Obligation has any right by virtue of or by availing of any provision of the Master Indenture to institute any suit, action or proceeding in equity or at law upon or under or with respect to the Master Indenture or for the appointment of a receiver or trustee, or any other remedy, unless the Holders of not less than 25% in aggregate principal amount of Obligations then Outstanding have made written request upon the Master Trustee to institute such action, suit or proceeding in its own name as Master Trustee and have offered to the Master Trustee such reasonable indemnity as it may require against the costs, expenses and liabilities which may be incurred therein or thereby, and the Master Trustee, for 30 days after its receipt of such notice, request and offer of indemnity, neglects or refuses to institute any such action, suit or proceeding and no direction inconsistent with such written request has been given to the Master Trustee; it being understood and intended, and being expressly covenanted by the Holder of an Obligation and the Master Trustee, that no one or more Holders of Obligations will have any right in any manner whatever by virtue of or by availing of any provision of the Master Indenture to affect, disturb or prejudice the rights of any other Holder of an Obligation or to obtain or seek to obtain priority over or

preference to any other such Holder, or to enforce any right under the Master Indenture, except in the manner therein provided and for the equal, ratable and common benefit of all Holders of Obligations. For the protection and enforcement of these provisions, each and every Holder of an Obligation and the Master Trustee will be entitled to such relief as can be given either at law or in equity.

(b) The Holder of an Obligation instituting a suit, action or proceeding in compliance with the provisions outlined in the Master Indenture and more fully set forth therein will be entitled in such suit, action or proceeding to such amounts as may be sufficient to cover the costs and expenses of collection, including to the extent permitted by applicable law, a reasonable compensation to its Counsel.

(c) Notwithstanding any other provision of the Master Indenture, the right of a Holder of an Obligation to receive payment of the principal of and interest on any Obligation and any other amounts payable thereunder, on or after the respective due dates expressed in such Obligation, or to institute suit for the enforcement of any such payment on or after such respective dates, may not be impaired or affected without the consent of such Holder, provided that any moneys collected through the exercise of rights and remedies of any Holder against any Obligated Issuer pursuant to the Related Financing Documents for an Obligation (other than rights and remedies relating to Liens permitted pursuant to the Master Indenture or to funds and accounts established under such Related Financing Documents) will be paid over to the Master Trustee or, with the consent of the Holder, collected directly by the Master Trustee.

Direction of Proceedings by Holders

The Holders of a majority in aggregate principal amount of Obligations then Outstanding have the right to direct the time, method, and place of conducting any proceeding for any remedy available to the Master Trustee, or exercising any trust or power conferred on the Master Trustee; provided, however, that, subject to its right to be indemnified in the Master Indenture, the Master Trustee has the right to decline to follow any such direction if the Master Trustee, being advised by Counsel, determines that the action so directed may not lawfully be taken, or if the Master Trustee in good faith, by a responsible officer or officers of the Master Trustee, determines that the proceedings so directed would be illegal or involve it in personal liability, and provided further that nothing in the Master Indenture will impair the right of the Master Trustee in its discretion to take any action deemed proper by the Master Trustee and which is not inconsistent with such direction by the Holders. The Master Trustee may require, at its option, that prior to taking any action under the Master Indenture, it be provided indemnity with respect to the taking of such action satisfactory to the Master Trustee.

Notice of Default

The Master Trustee will, within 10 days after the occurrence of an "event of default" under the Master Indenture known to the Master Trustee, mail to all Holders of Obligations, as the names and addresses of such Holders appear upon the books maintained by the Master Trustee, notice of such "event of default" under the Master Indenture known to the Master Trustee, unless such "event of default" has been cured before the giving of such notice; provided that, except in the case of a payment default on any Obligation, the Master Trustee will be protected in withholding such notice if and so long as the Master Trustee in good faith determines that the withholding of such notice is in the interest of the Holders of the Obligations. For purposes of the Master Indenture, matters will not be considered to be known to the Master Trustee unless an officer of its corporate trust department located at its principal corporate trust office has actual knowledge thereof.

Concerning the Master Trustee

Prior to the occurrence of an "event of default" under the Master Indenture and after the curing or waiving of all such "events of default" which may have occurred, the Master Trustee has undertaken to perform only those duties specifically set forth in the Master Indenture. If such an "event of default" occurs and is not cured or waived, the Master Trustee will exercise the rights and powers vested in it by the Master Indenture, and use the same degree

of care and skill in their exercise as a prudent man would exercise or use under the circumstances in the conduct of his own affairs.

No provision of the Master Indenture will be construed to relieve the Master Trustee from liability for its own grossly negligent action, its own grossly negligent failure to act, or its own willful misconduct; provided, however, that:

(1) the Master Trustee will not be liable for any error of judgment made in good faith by a responsible officer or officers of the Master Trustee, unless it is proved that the Master Trustee was grossly negligent in ascertaining the pertinent facts, other than facts which the Master Trustee is not required to investigate as provided in the Master Indenture; and

(2) the Master Trustee will not be liable with respect to any action taken or admitted to be taken by it in good faith in accordance with the direction of the Holders of the majority in aggregate principal amount of Obligations then Outstanding relating to the time, method and place of conducting any proceeding for any remedy available to the Master Trustee, or exercising any trust or power conferred upon the Master Trustee, under the Master Indenture.

Except as otherwise described in the immediately preceding paragraphs:

(a) The Master Trustee may rely and will be protected in acting or refraining from acting upon various papers or documents believed by it in good faith to be genuine and to have been signed or presented by the proper party or parties.

(b) An Officer's Certificate (unless otherwise specifically prescribed) will be sufficient evidence of any request, direction, order or demand of any Obligated Issuer mentioned under the Master Indenture. Any resolution of the Governing Body of an Obligated Issuer may be evidenced to the Master Trustee by copy thereof, certified by the Secretary or an Assistant Secretary of such Obligated Issuer.

(c) The Master Trustee may consult with Counsel, and the advice of such Counsel will be full and complete authorization and protection. The Master Trustee will be relieved of liability to the Holders of the Obligations and to the Obligated Issuers in respect of any action taken, suffered or omitted by it under the Master Indenture in good faith and in accordance with Counsel's advice.

(d) Prior to the occurrence of an "event of default" under the Master Indenture and after the curing of all "events of default", the Master Trustee is not bound to make any investigation into facts or matters stated in various papers or documents, unless requested in writing to do so by the Holders of a majority in aggregate principal amount of Obligations then Outstanding. As a condition to proceeding with the requested investigation, the Master Trustee, in accordance with the terms of the Master Indenture, may require indemnity against various costs, expenses or liabilities.

(e) The Master Trustee may execute any of the trusts or powers under the Master Indenture or perform any duties under the Master Indenture either directly or by or through agents or attorneys.

(f) The Master Trustee is under no responsibility for the approval by it in good faith by an expert or other skilled person for any of the purposes expressed in the Master Indenture.

The recitals contained in the Master Indenture and in the Obligations (other than the certificate of authentication on such Obligations) will be taken as the statements of the Obligated Issuers, and the Master Trustee assumes no responsibility for the correctness thereof. Further, the Master Trustee makes no representations as to the validity or sufficiency of the Master Indenture or the liens and security created thereunder or of the Obligations. The Master Trustee is not accountable for the use or application by any Obligated Issuer of any of the Notes or the proceeds of such Obligations, any moneys paid over by the Master Trustee, or any moneys received by any paying agent other than the Master Trustee.

The Master Trustee, in its individual or any other capacity, may become the owner or pledgee of Obligations with the same rights it would have if it were not the Master Trustee under the Master Indenture.

Further, the Master Indenture does not prohibit the Master Trustee from serving as trustee under any Related Financing Documents or for maintaining a banking relationship with any Obligated Issuer; provided that if the Master Trustee determines that there is a conflict with its duties under the Master Indenture, it will eliminate the conflict or resign as Master Trustee.

Each Obligated Issuer will pay, and will be jointly and severally liable to pay, to the Master Trustee reasonable compensation and reimbursement for all reasonable expenses, disbursement and advances incurred or made by the Master Trustee in connection with the acceptance or administration of its trusts under the Master Indenture. Each Obligated Issuer will indemnify, defend and will be jointly and severally liable to indemnify, the Master Trustee and its officers, directors, employees and agents for, and to hold them harmless against, any loss, liability or expense incurred without gross negligence or willful misconduct on the part of the Master Trustee and arising out of or in connection with the acceptance or administration of such trusts, including the costs and expenses of defending itself against any claim of liability in the premises. The Obligated Issuers' joint and several obligations described herein will survive the satisfaction and discharge of the Master Indenture and the resignation, removal and succession of the Master Trustee. Subject only to the rights of any Holder, the Master Trustee will have an express first and prior lien on any moneys or Investment Securities on deposit in any funds established under the Master Indenture as security for the payment of all such obligations.

Subject to the provisions of the Master Indenture described in the first paragraph under "- Concerning the Master Trustee", any matter may be conclusively proved and established by an Officer's Certificate delivered to the Master Trustee. In the absence of willful misconduct or gross negligence on the part of the Master Trustee, any such Officer's Certificate will be full ratification of any action taken, suffered or omitted by the Master Trustee under the provisions of the Master Indenture upon the faith thereof, and the Master Trustee will not be obligated to make any investigation into the facts stated therein.

The Master Trustee may resign at any time without cause by giving notice as provided in the Master Indenture. Further, the Master Trustee may be removed (a) with cause at the direction of the Holders of not less than 66-2/3% in aggregate principal amount of Obligations then Outstanding, delivered to the Obligated Group and the Master Trustee and such other notice required by the Master Indenture, or (b) for any reason at the direction of the Obligation Group Agent if no "event of default" then exists under the Master Indenture. The Master Trustee will promptly give notice of any removal as described in the previous sentence in writing to each Holder of an Obligation then Outstanding. In the case of the resignation and removal of the Master Trustee, a successor Master Trustee may be appointed by the Obligated Group unless an "event of default" exists under the Master Indenture. If an "event of default" exists under the Master Indenture, or if the Obligated Group otherwise fails to appoint a successor in accordance with the terms of the Master Indenture, a successor may be appointed at the direction of the Holders of not less than 66-2/3% in aggregate principal amount of Obligations then Outstanding.

Any successor Master Trustee, however appointed, in accordance with the terms of the Master Indenture, must accept such appointment in writing, and, without further act, will become vested with all the estates, properties, rights, powers and duties of its predecessor under the Master Indenture as if originally named the Master Trustee. The successor Master Trustee may, however, request that its predecessor execute and deliver an instrument transferring the above and assigning, transferring, delivering and paying over to such successor Master Trustee all moneys or other property then held by the predecessor under the Master Indenture.

Any successor Master Trustee, however appointed, must be a bank or trust company having together with its Affiliates a combined capital and surplus on a consolidated basis of at least \$50,000,000.

Any corporation into which the Master Trustee may be merged or converted or with which it may be consolidated, or any corporation resulting from any merger, conversion or consolidation to which the Master Trustee is a party, or any corporation to which substantially all the business of the Master Trustee may be transferred, will, subject to the provisions of the Master Indenture described in the immediately preceding paragraph, be the Master Trustee under the Master Indenture without further act.

Subject to the terms and conditions set forth in the Master Indenture, the Master Trustee will have the power to appoint one or more Persons not unsatisfactory to the Obligated Group Agent to act as Co-Master Trustee as provided in the Master Indenture.

Modifications

Each Obligated Issuer, when authorized by a resolution of its Governing Body, and the Master Trustee may, without the consent of the Holders of the Obligations then Outstanding, enter into a Supplemental Indenture to the Master Indenture to (a) provide for the issuance of any Obligations under the Master Indenture, (b) evidence the addition of an Obligated Issuer or the succession of another corporation to any Obligated Issuer, (c) add additional covenants for the protection of the Holders of Obligations, (d) cure any ambiguity or defective provision of the Master Indenture or any Supplemental Indenture in such manner as is not inconsistent with and does not impair the security of the Master Indenture or adversely affect the Holders of any particular Obligations or series of Obligations issued under the Master Indenture, (e) qualify the Master Indenture under the Trust Indenture Act of 1939 or under any similar federal statute hereafter enacted, (f) provide for the establishment of additional funds and accounts, (g) permit the issuance of additional forms of Obligations, provided such Obligations are equally and ratably secured with all other Obligations issued under the Master Indenture (except as otherwise provided therein), (h) reflect a change in applicable law, and (i) modify, amend, change or remove any covenant, agreement, term or provision of the Master Indenture (other than a modification of the type described in the immediately following paragraph hereof requiring the unanimous written consent of the Holders), provided that either of the following conditions is satisfied prior to the effective date of such Supplemental Indenture: (x) if at the time of the proposed amendment, the Obligations or any series of Related Bonds are rated by one or more Rating Agencies, written notice of the substance of such proposed amendment is given to such Rating Agencies by the Obligated Group Agent not fewer than 30 days prior to the date such amendment is to take effect, and the Obligated Group Agent provides evidence satisfactory to the Master Trustee that the ratings on the Obligations or any series of Related Bonds will not be lowered or withdrawn by such Rating Agencies as a result of such proposed amendment; or (y) a Consultant's report is delivered to the Master Trustee prior to the date such amendment is to take effect, to the effect that the proposed amendment is consistent with then current industry standards for comparable institutions and demonstrating either that (1) the Projected Debt Service Coverage Ratio for the full Fiscal Year immediately after the effective date of such proposed amendment is not less than 1.20, assuming the maximum implementation (or such lower implementation certified to the Master Trustee by the Obligated Group Agent as being a reasonable basis for assumption) by the Obligated Group of the proposed amendment; or (2) if the proposed amendment is to a provision of the Master Indenture that contains a quantitative restriction or covenant, the average of the Projected Debt Service Coverage Ratio for the two full Fiscal Years immediately after the effective date of such proposed amendment or supplement will be greater than the average of the Debt Service Coverage Ratio for such period had the proposed amendment not been implemented, assuming the maximum implementation (or such lower implementation certified to the Master Trustee by the Obligated Group Agent as being a reasonable basis for assumption) of the proposed amendment; or (3) (A) the average of the Projected Debt Service Coverage Ratio for the two full Fiscal Years immediately after the effective date of such proposed amendment will not be less than 1.10, and (B) the average of the Projected Debt Service Coverage Ratios for the two full Fiscal Years immediately after the effective date of such proposed amendment will not be more than 35% lower than the average of the Debt Service Coverage Ratios had the proposed amendment not been implemented, assuming with respect to the projections made under (A) and (B) the maximum implementation (or such lower implementation certified to the Master Trustee by the Obligated Group Agent as being a reasonable basis for assumption) of the proposed amendment if the proposed amendment is to a provision of the Master Indenture that contains a quantitative restriction or covenant.

Each Obligated Issuer, when authorized by its Governing Body, and the Master Trustee may, with the consent of the Holders of a majority in aggregate principal amount of Obligations then Outstanding, otherwise amend or supplement the Master Indenture, subject to the provisions contained in the Master Indenture; provided, however, that (a) without the consent of the Holders of all Obligations whose Obligations are proposed to be modified, no such Supplemental Indenture may effect a change in the times, amounts or currency of payment of the principal of, premium, if any, or interest on any Obligation or a reduction in the principal amount or redemption price of any Obligation or the rate of interest thereon or permit the preference or priority of any Obligation or Obligations over any other Obligation or Obligations, and (b) without the consent of the Holders of all Obligations

then Outstanding, no such Supplemental Indenture may reduce the aforesaid percentage or affected class of Obligations, the Holders of which are required to consent to any such Supplemental Indenture.

Effect of Supplemental Indenture

Upon the execution of any Supplemental Indenture, the Master Indenture will be modified and amended in accordance therewith, and the respective rights, limitation of rights, obligations, duties, and immunities under the Master Indenture of the Master Trustee, each Obligated Issuer and the Holders of Obligations issued under the Master Indenture will thereafter be determined, exercised and enforced under the Master Indenture subject in all respects to such modifications and amendments, and all the terms and conditions of any such Supplemental Indenture will be deemed to be part of the terms and conditions of the Master Indenture.

Immunity of Incorporators, Members, Officers and Members of Governing Body

No recourse under or upon any obligation, covenant or agreement of the Master Indenture, or of any Obligations issued under the Master Indenture, or for any claim based thereon or otherwise in respect thereof, may be had against any incorporator, member, officer or member of the Governing Body, as such, past, present or future, of any Obligated Issuer or of any successor corporation, either directly or through such Obligated Issuer, whether by virtue of any constitution, statute or rule of law, or by the enforcement of any assessment or penalty or otherwise.

Immunity of Officers, Employees and Directors of the Master Trustee

No recourse may be had by the Obligated Group, the Issuer or any Holder for any claim based upon the Master Indenture or any Obligation issued thereunder against any director, officer or employee of the Master Trustee unless such claim is based on bad faith, fraud, deceit or other willful misconduct of such Person or the gross negligence of such Person.

Satisfaction and Discharge of Indenture

If the Master Trustee receives: (a) an amount which is (1) in the form of (i) cash, or (ii) Government Obligations, and (2) in a principal amount sufficient, as determined in the sole and absolute discretion of the Master Trustee, together with the interest thereon and any funds on deposit under the Master Indenture and available for such purpose, to provide for the payment of the principal of and premium, if any, and interest on all Outstanding Obligations to and including the maturity date or prior redemption or prepayment date thereof; (b) irrevocable instructions to redeem all Obligations to be redeemed prior to maturity and to notify the Holders of each such redemption; (c) an amount sufficient, as determined in the sole and absolute discretion of the Master Trustee, to pay or provide for the payment of all other sums payable under the Master Indenture by the Obligated Issuers or any thereof; and (d) a verification report of an independent nationally recognized certified public accounting firm that the principal and interest becoming due on Government Obligations held by the Master Trustee after such transaction and any other moneys available therefor will provide the Master Trustee with moneys which at all times will be sufficient to pay the principal, premium, if any, and interest on the outstanding Obligations, then the Master Indenture will cease to be of further effect, and the Master Trustee, on demand of the Obligated Group Agent, will execute all such instruments acknowledging satisfaction of and discharging the Master Indenture as requested by the Obligated Group Agent.

Similarly, the Obligated Issuer of any particular Obligation may provide for the payment thereof (or a portion thereof) at or prior to maturity, and the Obligation (or portion thereof) so provided for will thereupon cease to be Outstanding under the Master Indenture.

In lieu of the foregoing, the Obligated Issuer of any particular Obligation may deliver to the Holder thereof the amount required under the Related Financing Documents to provide for the payment of the principal, premium,

if any, and interest due or to become due in respect of such Obligation and such Obligation will, upon surrender to the Master Trustee for cancellation, no longer be deemed Outstanding under the Master Indenture.

**Fifth Supplemental Master Indenture, Sixth Supplemental Master Indenture;
and Eighth Supplemental Master Indenture**

The Fifth Supplemental Master Indenture, the Sixth Supplemental Master Indenture and Eighth Supplemental Master Indenture contain terms and provisions in addition to those described above that apply only so long as the Series 2003 Obligation, the Series 2005 Obligations and the Series 2006C Obligation, respectively, remain Outstanding.

SUMMARY OF CERTAIN PROVISIONS OF THE 2011 BOND INDENTURE

The 2011 Bond Indenture contains various covenants, security provisions, terms and conditions, certain of which are summarized below. Reference is made to the 2011 Bond Indenture for a full and complete statement of its provisions.

Payment of Principal, Premium, if any, and Interest

The Issuer has covenanted that it will promptly pay or cause to be paid the principal of, premium, if any, and interest on every Series 2011 Bond issued under the 2011 Bond Indenture at the place, on the dates, and in the manner provided therein and in said Series 2011 Bonds according to the true intent and meaning thereof, but solely from the amounts pledged therefor. Neither the Issuer, the State, nor any political subdivision of the State will in any event be liable for the payment of the principal of, premium, if any, or interest on any of the Series 2011 Bonds or for the performance of any pledge, obligation or agreement undertaken by the Issuer except to the extent that the moneys pledged in the 2011 Bond Indenture are sufficient therefor. No Owner of any Series 2011 Bond has the right to compel any exercise of taxing power of the State or any political subdivision thereof to pay the Series 2011 Bonds or the interest thereon, and the Series 2011 Bonds do not constitute an indebtedness of the Issuer, the State or any political subdivision of the State, or a loan of credit of any of the foregoing within the meaning of any constitutional or statutory provision.

Revenues and Funds

Bond Fund. The 2011 Bond Indenture creates and establishes with the Bond Trustee a trust fund to be designated "The Health, Educational and Housing Facilities Board of the County of Sullivan, Tennessee - Bond Fund, Wellmont Health System," which will be used to pay when due the principal of, premium, if any, and interest on the Series 2011 Bonds. The Bond Trustee will make a deposit from the proceeds of the Series 2011 Bonds representing accrued interest on the Series 2011 Bonds in the Costs of Issuance Fund on the date of issuance of the Series 2011 Bonds, as described under "Sources and Uses of Funds" in this Official Statement. There will be deposited into the Bond Fund from time to time, all moneys received by the Bond Trustee under and pursuant to any of the provisions of the 2011 Bond Indenture, the Loan Agreement, the Series 2011 Obligation or otherwise which are required to be or which are accompanied by directions that such moneys are to be paid into the Bond Fund. Except as otherwise specifically provided in the 2011 Bond Indenture, moneys in the Bond Fund will be used solely for the payment of the principal of, premium, if any, and interest on the Series 2011 Bonds and for the redemption of the Series 2011 Bonds prior to maturity.

Costs of Issuance Fund. The Trustee will make a deposit from the proceeds of the Series 2011 Bonds in the Costs of Issuance Fund on the date of issuance of the Series 2011 Bonds. Amounts in the Costs of Issuance Fund will be disbursed by the Bond Trustee to pay Costs of Issuance upon receipt of a Written Request by the Corporation which states the amount to be paid, the payee and the purpose for such payment. Upon the receipt of Written Request from the Corporation or the date that is 120 days following the date of issuance of the Series 2011 Bonds,

whichever date is sooner, the Bond Trustee will transfer amounts remaining in the Costs of Issuance Fund to the Bond Fund to be applied as provided in the 2011 Bond Indenture.

Nonpresentment of Bonds. If any Series 2011 Bond is not presented for payment when the principal thereof becomes due, either at maturity, or at the date fixed for redemption thereof, or otherwise, if moneys sufficient to pay any such Series 2011 Bond have been deposited with the Bond Trustee for the benefit of the Owner thereof, all liability of the Issuer to the Owner thereof for the payment of such Series 2011 Bond will forthwith cease, determine and be completely discharged, and thereupon it will be the duty of the Bond Trustee to hold such funds, uninvested or invested in Government Obligations maturing overnight, but in any event without liability for interest thereon, for the benefit of the Owner of such Series 2011 Bond, to which funds the Owner will thereafter be restricted exclusively for any claim of whatever nature on its part under the 2011 Bond Indenture with respect to such Series 2011 Bond.

Any moneys so deposited with and held by the Bond Trustee not so applied to the payment of Series 2011 Bonds within two years after the date on which the same became due will be repaid by the Bond Trustee to the Corporation upon written direction of a Corporation Representative, and thereafter Owners of Series 2011 Bonds will be entitled to look only to the Corporation for payment, and then to the extent of the amount so repaid, and all liability of the Bond Trustee with respect to such money will thereupon cease, and the Corporation will not be liable for any interest thereon and will not be regarded as a trustee of such money.

Moneys to be Held in Trust. All moneys required to be deposited with or paid to the Bond Trustee for the account of any fund or account referred to in any provision of the 2011 Bond Indenture or the Loan Agreement will be held by the Bond Trustee in trust, and, while held by the Bond Trustee, will constitute part of the Trust Estate and be subject to the lien and security interest created thereby, except as otherwise specifically provided in the 2011 Bond Indenture.

Rebate Fund. The 2011 Bond Indenture creates and establishes with the Bond Trustee a trust fund to be held in trust to be designated "The Health, Educational and Housing Facilities Board of the County of Sullivan, Tennessee Rebate Fund Wellmont Health System." The Bond Trustee will make information regarding the Series 2011 Bonds and the investments under the 2011 Bond Indenture available to the Corporation upon written request, will make deposits to and disbursements from the Rebate Fund in accordance with the directions received from the Corporation or the Corporation Representative, will invest moneys in the Rebate Fund pursuant to said directions and will deposit income from such investments pursuant to said directions, and will make payments to the United States of America in accordance with directions received from the Corporation.

Notwithstanding any provision of the 2011 Bond Indenture to the contrary, the Bond Trustee will not be liable or responsible for any calculation or determination which may be required in connection with or for the purpose of complying with Section 148 of the Code or any applicable Treasury regulation (the "Arbitrage Rules"), including, without limitation, the calculation of amounts required to be paid to the United States under the provisions of the Arbitrage Rules, the maximum amount which may be invested in "nonpurpose obligations" as defined in the Code and the fair market value of any investment made thereunder, it being understood and agreed that the sole obligation of the Bond Trustee with respect to investments of funds under the 2011 Bond Indenture will be to invest the moneys received by the Bond Trustee pursuant to the written instructions of the Corporation Representative given in accordance with the 2011 Bond Indenture and as described under "- Investment of Moneys" below. The Bond Trustee will have no responsibility for determining whether or not the investments made pursuant to the direction of the Corporation Representative or any of the instructions received by the Bond Trustee as described herein comply with the requirements of the Arbitrage Rules and will have no responsibility for monitoring the obligations of the Corporation or the Issuer for compliance with the provisions of the 2011 Bond Indenture with respect to the Arbitrage Rules.

Investment of Moneys

Any moneys held as a part of the Costs of Issuance Fund, upon a Written Request of the Corporation, will be invested or reinvested by the Bond Trustee in Investment Securities maturing at such time or times so that the Bond Trustee will be able to pay the costs of issuance of the Bonds from time to time upon the Written Request of

the Corporation. The Bond Trustee will not be obligated to invest any moneys held by it in the Costs of Issuance Fund except as directed in writing by the Corporation, but will inform the Corporation as soon as practicable of any amounts that remain uninvested but are eligible for investment in Investment Securities.

Any moneys held as a part of the Bond Fund or the Rebate Fund will be invested or reinvested by the Bond Trustee in Government Obligations with such maturities as required in order to assure full and timely payment of amounts required to be paid from such funds, which maturities, in the case of the Bond Fund, may extend no more than 30 days from the date of acquisition thereof.

The Bond Trustee will sell or present for redemption any investments so purchased whenever necessary to provide moneys to meet any payment pursuant to the Bond Indenture and the Bond Trustee will not be liable or responsible for any loss resulting from such investments. The Bond Trustee will not be responsible for any reduction of the value of any investments made in accordance with the Written Request of the Corporation or any losses incurred in the sale of such investments.

The Bond Trustee may make any and all such investments through its own bond or investment department or the bond or investment department of any bank or trust company under common control with the Bond Trustee, and may charge and collect its and/or pay its customary fees and expenses in connection therewith. The Bond Trustee will not be liable for any depreciation in the value of any investment made pursuant to the 2011 Bond Indenture or for any loss arising from any such investment, or any determination that the Series 2011 Bonds are "arbitrage bonds" as a result of any such investments. All such investments will at all times be a part of the fund or account from which the moneys used to acquire such investments have come and all income and profits on such investments will be credited to, and losses thereon will be charged against, such fund. All investments under the 2011 Bond Indenture will be registered in the name of the Bond Trustee, as Bond Trustee under the 2011 Bond Indenture, and will be held by or under the control of the Bond Trustee. The Bond Trustee may conclusively rely upon the Corporation's written instructions as to both the suitability and legality of all directed investments under the Bond Indenture. Ratings of investment shall be determined at the time of purchase of such investments and without regard to ratings subcategories. The Bond Trustee shall have no responsibility to monitor the ratings of investments after the initial purchase of such investments. In the absence of written investment instructions from the Corporation, the Bond Trustee shall not be responsible or liable for keeping the moneys held by it under the Bond Indenture fully invested. Confirmations of investments are not required to be issued by the Bond Trustee for each month in which a monthly statement is rendered.

Notwithstanding any other provisions of the 2011 Bond Indenture described herein, all investment earnings will be subject to the provisions of the Tax Compliance Agreement and Non-Arbitrage Certificate. The Issuer has covenanted and certified to and for the benefit of the Owners of the Series 2011 Bonds from time to time Outstanding that so long as any of the Series 2011 Bonds remain Outstanding, the Issuer will not direct that moneys on deposit in any fund or account in connection with the Series 2011 Bonds (whether or not such moneys were derived from the proceeds of the sale of the Series 2011 Bonds or from any other sources), be used in a manner which will cause the Series 2011 Bonds to be classified as "arbitrage bonds" within the meaning of Section 148 of the Code. Pursuant to such covenants, the Issuer has obligated itself to comply throughout the term of the Series 2011 Bonds with any request of the Corporation regarding the requirements of Section 148 of the Code, and any regulations promulgated thereunder. Notwithstanding any provision of the 2011 Bond Indenture to the contrary, the Bond Trustee will not be liable or responsible for any calculation or determination which may be required in connection with or for the purpose of complying with Section 148 of the Code including, without limitation, the calculation of amounts required to be paid to the United States under the provisions of such Section 148 of the Code, and will be entitled to rely on the directions or the absence of directions of the Corporation and any rebate analyst.

Discharge of Indenture

If the Issuer pays or causes to be paid, in accordance with the provisions of the 2011 Bond Indenture, to the Owners of the Series 2011 Bonds, the principal of, premium, if any, and interest due or to become due thereon at the times and in the manner stipulated therein, and if the Issuer is not then in default in any of the other covenants and promises in the Series 2011 Bonds and in the 2011 Bond Indenture expressed as to be kept, performed and observed by it or on its part, and if the Issuer pays or causes to be paid to the Bond Trustee all sums of money due or to

become due according to the provisions thereof, then the presents and the estate and rights granted by the 2011 Bond Indenture will cease, determine and be void, whereupon the Bond Trustee will cancel and discharge the lien of the 2011 Bond Indenture, and execute and deliver to the Issuer such instruments in writing as are required to release the lien thereof and re-convey, release, assign and deliver to the Issuer any and all of the estate, right, title and interest in and to any and all rights or property conveyed, assigned or pledged to the Bond Trustee or otherwise subject to the lien of the 2011 Bond Indenture, except (i) cash held by the Bond Trustee for the payment of the principal of, premium, if any, or interest on particular Series 2011 Bonds and (ii) amounts in the Rebate Fund required to be paid to the United States.

Defeasance of Bonds

Any Series 2011 Bond will be deemed to be paid within the meaning of the 2011 Bond Indenture and for all purposes thereof when (a) payment of the principal of and premium, if any, on such Series 2011 Bond, plus interest thereon to the due date thereof (whether such due date is by reason of maturity or upon redemption) either (i) have been made or caused to be made in accordance with the terms thereof, or (ii) have been provided for by irrevocably depositing with the Bond Trustee, in trust and irrevocably set aside exclusively for such payment, (1) moneys sufficient to make such payment or (2) Government Obligations maturing as to principal and interest in such amounts and at such times as will insure, without further investment or reinvestment thereof, in the opinion of an independent certified public accounting firm of national reputation (a copy of which opinion must be furnished to the rating agency then providing the rating borne by the Series 2011 Bonds, if any), the availability of sufficient moneys to make such payment, and (b) all necessary and proper fees, compensation and expenses of the Bond Trustee and the Issuer pertaining to the Series 2011 Bonds with respect to which such deposit is made, have been paid or the payment thereof provided for to the satisfaction of the Bond Trustee. At such time as a Series 2011 Bond is deemed to be paid under the 2011 Bond Indenture, as aforesaid, such Series 2011 Bond will no longer be secured by or entitled to the benefits of the 2011 Bond Indenture, except for the purposes of any such payment from such moneys or Government Obligations.

Notwithstanding the foregoing, no deposit described in clause (a)(ii) of the immediately preceding paragraph will be deemed payment of such Series 2011 Bonds as aforesaid until (a) proper notice of redemption of such Series 2011 Bonds has been previously given in accordance with the 2011 Bond Indenture, or if said Series 2011 Bonds are not by their terms subject to redemption within the next 60 days, until the Corporation has given the Bond Trustee, in form satisfactory to the Bond Trustee, irrevocable instructions to notify, as soon as practicable, the Owners of the Series 2011 Bonds that the deposit described in such clause (a)(ii) above has been made with the Bond Trustee and that said Series 2011 Bonds are deemed to have been paid in accordance with the 2011 Bond Indenture and stating the maturity or redemption date upon which moneys are to be available for the payment of the principal of and the applicable redemption premium, if any, on said Series 2011 Bonds, plus interest thereon to the due date thereof; or (b) the maturity of such Series 2011 Bonds.

Before accepting or using any moneys to be deposited as described herein, the Bond Trustee may require that the Corporation furnish to it (i) an opinion of Bond Counsel to the effect that such deposit will not adversely affect the exclusion from gross income for federal income tax purposes of interest on the Series 2011 Bonds and that all conditions of the 2011 Bond Indenture described herein have been satisfied, and (ii) a certificate of an independent certified public accountant to the effect that such deposit will be sufficient to defease the Series 2011 Bonds as provided in the 2011 Bond Indenture. The Bond Trustee will be fully protected in relying upon such Bond Counsel opinion and/or accountant's certificate in accepting or using any moneys deposited as described herein.

All moneys so deposited with the Bond Trustee may also be invested and reinvested, at the written direction of the Corporation, in noncallable Government Obligations, maturing in the amounts and times as hereinbefore set forth, and all income from all Government Obligations in the hands of the Bond Trustee as described herein which is not required for the payment of the Series 2011 Bonds and interest and premium, if any, thereon with respect to which such moneys have been so deposited will be deposited in the Bond Fund as and when realized and collected for use and application as are other moneys deposited in the Bond Fund; provided that unless the opinion of Bond Counsel specifically permits any such reinvestment, the Corporation will furnish to the Bond Trustee an opinion of Bond Counsel to the effect that such reinvestment will not adversely affect the exclusion from gross income for federal income tax purposes of interest on the Series 2011 Bonds.

The Issuer has covenanted in the 2011 Bond Indenture that no deposit will knowingly be made or accepted and no use knowingly made of any such deposit which would cause the Series 2011 Bonds to be treated as arbitrage bonds within the meaning of Section 148 of the Code.

Notwithstanding any provision of any other article of the 2011 Bond Indenture which may be contrary to the provisions described herein, all moneys or Government Obligations so set aside and held in trust for the payment of Series 2011 Bonds (including interest and premium thereon, if any) will be applied to and used solely for the payment of the particular Series 2011 Bonds (including the interest and premium thereon, if any) with respect to which such moneys or Government Obligations have been so set aside in trust.

Defaults and Remedies

Defaults. The occurrence of any of the following events constitutes a "Default" under the 2011 Bond Indenture:

- (a) Default in the due and punctual payment of interest on any Series 2011 Bond;
- (b) Default in the due and punctual payment of the principal of or premium, if any, on any Series 2011 Bond, whether at the stated maturity thereof, or upon proceedings for redemption thereof, or upon the maturity thereof by declaration;
- (c) The occurrence of a Default under the Loan Agreement;
- (d) An event of default as described in subparagraph (a) under "Summary of Certain Provisions of the Master Indenture - Defaults and Remedies" above occurs and is continuing from and after the date on which the Master Trustee is entitled under the Master Indenture to declare any Obligation immediately due and payable, or the Master Trustee declares any Obligation immediately due and payable; and
- (e) Default in the performance or observance of any other of the covenants, agreements or conditions on the part of the Issuer contained in the 2011 Bond Indenture or in the Series 2011 Bonds contained and failure to remedy the same after notice thereof pursuant to the provisions of the 2011 Bond Indenture.

Acceleration. Upon the occurrence of any Default, the Bond Trustee may, and at the written request of the Owners of at least a majority in aggregate principal amount of Outstanding Series 2011 Bonds must, by notice in writing delivered to the Issuer and the Corporation (or, if the Book Entry System is in effect, the Securities Depository), declare the principal of all Series 2011 Bonds and the interest accrued thereon to the date of such acceleration immediately due and payable. Upon any declaration of acceleration as described herein, the Bond Trustee will immediately declare all payments required to be made by the Corporation under the Loan Agreement to be immediately due and payable. Interest will cease to accrue on the Series 2011 Bonds on the date of declaration of acceleration as so described.

Other Remedies; Rights of Owners of Bonds. Subject to the provisions of the 2011 Bond Indenture described under "- Acceleration" above and with respect to indemnification of the Bond Trustee, upon the occurrence of a Default, the Bond Trustee may pursue any available remedy at law or in equity to enforce the payment of the principal of, premium, if any, and interest on the Outstanding Series 2011 Bonds.

Subject to the provisions of the 2011 Bond Indenture described under "- Acceleration" above, if a Default has occurred and is continuing and if requested so to do by the Owners of at least a majority in aggregate principal amount of Outstanding Series 2011 Bonds and provided the Bond Trustee is indemnified as provided in the 2011 Bond Indenture, the Bond Trustee will be obligated to exercise such one or more of the rights and powers conferred by the 2011 Bond Indenture, as the Bond Trustee, being advised by counsel, deems most expedient in the interests of the Owners of Series 2011 Bonds.

Subject to the provisions of the 2011 Bond Indenture described under "- Acceleration" above, no remedy by the terms of the 2011 Bond Indenture conferred upon or reserved to the Bond Trustee (or to the Owners of Series 2011 Bonds) is intended to be exclusive of any other remedy, but each and every such remedy will be cumulative and in addition to any other remedy given to the Bond Trustee or to the Owners of Series 2011 Bonds under the 2011 Bond Indenture or now or hereafter existing at law or in equity.

No delay or omission to exercise any right or power accruing upon any Default will impair any such right or power or be construed to be a waiver of any such Default or acquiescence therein; such right or power may be exercised from time to time as often as may be deemed expedient.

No waiver of any Default under the 2011 Bond Indenture, whether by the Bond Trustee or by the Owners of Series 2011 Bonds, will extend to or affect any subsequent Default or impair any rights or remedies consequent thereon.

Right of Owners of Series 2011 Bonds to Direct Proceedings. Subject to the provisions of the 2011 Bond Indenture described under "- Acceleration" above, anything in the 2011 Bond Indenture to the contrary notwithstanding, the Owners of at least a majority in aggregate principal amount of the Outstanding Series 2011 Bonds will have the right, at any time, by an instrument or instruments in writing executed and delivered to the Bond Trustee, to direct the method and place of conducting all proceedings to be taken in connection with the enforcement of the terms and conditions of the 2011 Bond Indenture, or for the appointment of a receiver or any other proceedings thereunder provided that such direction may not be otherwise than in accordance with the provisions of law and of the 2011 Bond Indenture.

Appointment of Receivers. Upon the occurrence of a Default, and upon the filing of a suit or other commencement of judicial proceedings to enforce the rights of the Bond Trustee and of the Owners of Series 2011 Bonds under the 2011 Bond Indenture, the Bond Trustee will be entitled, as a matter of right, to the appointment of a receiver or receivers of the Trust Estate and of the revenues, earnings, income, products and profits thereof, pending such proceedings, with such powers as the court making such appointment confers.

Waiver. Upon the occurrence of a Default, to the extent that such rights may then lawfully be waived, neither the Issuer nor anyone claiming through or under it, will set up, claim or seek to take advantage of any appraisal, valuation, stay, extension or redemption laws of any jurisdiction now or hereafter in force, in order to prevent or hinder the enforcement of the 2011 Bond Indenture, and the Issuer, for itself and all who may claim through or under it, has waived, to the extent that it lawfully may do so, the benefit of all such laws.

Application of Moneys. All moneys received by the Bond Trustee pursuant to any right given or action taken under the provisions of the 2011 Bond Indenture (other than moneys deposited with the Bond Trustee and held in accordance with the provisions of the 2011 Bond Indenture as described under "- Revenues and Funds - Nonpresentment of Bonds" above) will, after payment of the costs and expenses of the proceedings resulting in the collection of such moneys and of the fees, expenses, liabilities and advances owing to or incurred or made by the Bond Trustee and the creation of a reasonable reserve for anticipated fees, costs and expenses, be deposited in the Bond Fund and applied as follows:

(a) Unless the principal of all the Series 2011 Bonds has become or has been declared due and payable, all such moneys will be applied:

FIRST – To the payment to the persons entitled thereto of all installments of interest then due on the Series 2011 Bonds, in the order of the maturity of the installments of such interest (with interest on overdue installments of such interest, to the extent permitted by law, at the rate of interest borne by the Series 2011 Bonds) and, if the amount available are not sufficient to pay in full any particular installment, then to the payment ratably, according to the amounts due on such installment, to the persons entitled thereto, without any discrimination or privilege; and

SECOND – To the payment to the persons entitled thereto of the unpaid principal of and premium, if any, on any of the Series 2011 Bonds which have become due (other than Series 2011 Bonds matured or called for redemption for the payment of which moneys are held pursuant to the

provisions of the 2011 Bond Indenture), (with interest on overdue installments of principal and premium, if any, to the extent permitted by law, at the rate of interest borne by the Series 2011 Bonds) and, if the amount available are not sufficient to pay in full all Series 2011 Bonds due on any particular date, then to the payment ratably according to the amount of principal due on such date, to the persons entitled thereto without any discrimination or privilege; and

THIRD – To the payment to the persons entitled thereto as the same become due of the principal of and premium, if any, and interest on the Series 2011 Bonds which may thereafter become due and, if the amount available are not sufficient to pay in full Series 2011 Bonds due on any particular date, together with interest and premium, if any, then due and owing thereon, payment will be made ratably according to the amount of interest, principal and premium, if any, due on such date to the persons entitled thereto without any discrimination or privilege.

(b) If the principal of all the Series 2011 Bonds has become due or has been declared due and payable, all such moneys will be applied to the payment of the principal and interest then due and unpaid upon the Series 2011 Bonds, without preference or priority of principal over interest or of interest over principal, or of any installment of interest over any other installment of interest, or of any Series 2011 Bond over any other Series 2011 Bond, ratably, according to the amounts due, respectively, for principal and interest, to the persons entitled thereto without any discrimination or privilege, with interest on overdue installments of interest or principal, to the extent permitted by law, at the rate of interest borne by the Series 2011 Bonds.

(c) If the principal of all the Series 2011 Bonds has been declared due and payable and if such declaration thereafter has been rescinded and annulled as provided in the 2011 Bond Indenture, then, subject to the provisions of the 2011 Bond Indenture described in subparagraph (b) above, if the principal of all the Series 2011 Bonds later becomes due or be declared due and payable, the moneys will be applied in accordance with the provisions of the 2011 Bond Indenture described in subparagraph (a) above.

Whenever moneys are to be applied as described herein, such moneys will be applied at such times, and from time to time, as the Bond Trustee determines, having due regard to the amount of such moneys available for application and the likelihood of additional moneys becoming available for such application in the future. Whenever the Bond Trustee applies such funds, it will fix the date (which must be an Interest Payment Date unless it deems another date more suitable) upon which such application is to be made and upon such date interest on the amounts of principal to be paid on such dates will cease to accrue; provided that upon an acceleration of Series 2011 Bonds as described under "- Acceleration" above, interest will cease to accrue on the Series 2011 Bonds on and after the date of such acceleration. The Bond Trustee will give such notice as it may deem appropriate of the deposit with it of any such moneys and of the fixing of any such date, and will not be required to make payment to the Owner of any Series 2011 Bond until such Series 2011 Bond is presented to the Bond Trustee for appropriate endorsement or for cancellation if fully paid.

Whenever the principal of, premium, if any, and interest on all Series 2011 Bonds have been paid as provided in the 2011 Bond Indenture and all expenses and charges of the Bond Trustee have been paid, any balance remaining in the Bond Fund will be paid to the Corporation as described under "- Revenues and Funds --Bond Fund" above.

Rights and Remedies of Owners of Bonds. No Owner of any Series 2011 Bond will have any right to institute any suit, action or proceeding at law or in equity for the enforcement of the 2011 Bond Indenture or for the execution of any trust thereof or for the appointment of a receiver or any other remedy thereunder, unless (subject to the provisions of the 2011 Bond Indenture described under "- Acceleration" above) (i) a Default has occurred of which the Bond Trustee has been notified as provided in the 2011 Bond Indenture, or of which it is deemed to have notice, (ii) the Owners of at least a majority in aggregate principal amount of Outstanding Series 2011 Bonds have made written request to the Bond Trustee and have offered it reasonable opportunity either to proceed to exercise the powers granted by the 2011 Bond Indenture or to institute such action, suit or proceeding and have offered to the Bond Trustee indemnity as provided in the 2011 Bond Indenture, and (iii) the Bond Trustee thereafter fails or refuses to exercise the powers granted by the 2011 Bond Indenture, or to institute such action, suit or proceeding. Such notification, request and offer of indemnity are in every case at the option of the Bond Trustee conditions

precedent to the execution of the powers and trusts of the 2011 Bond Indenture, and to any action or cause of action for the enforcement of the 2011 Bond Indenture, or for the appointment of a receiver or for any other remedy thereunder; it being understood and intended that no one or more Owners of the Series 2011 Bonds have any right in any manner whatsoever to affect, disturb or prejudice the lien of the 2011 Bond Indenture by their action or to enforce any right thereunder except in the manner provided therein, and that all proceedings at law or equity must be instituted, had and maintained in the manner therein provided and for the equal and ratable benefit of the Owners of all Outstanding Series 2011 Bonds. However, nothing contained in the 2011 Bond Indenture will affect or impair the right of any Owner of Series 2011 Bonds to enforce the payment of the principal of, premium, if any, and interest on any Series 2011 Bond at and after the maturity thereof, or the obligation of the Issuer to pay the principal of, premium, if any, and interest on each of the Series 2011 Bonds issued under the 2011 Bond Indenture to the respective Owners thereof at the time and place, from the source and in the manner in the Series 2011 Bonds expressed.

Waivers of Default. The Bond Trustee will waive any Default under the 2011 Bond Indenture and its consequences and rescind any declaration of acceleration of principal upon the written request of the Owners of (1) at least a majority in aggregate principal amount of all Outstanding Series 2011 Bonds in respect of which default in the payment of principal or interest, or both, exists or (2) at least a majority in aggregate principal amount of Outstanding Series 2011 Bonds in the case of any other Default; provided that there may not be waived any Default as described in subparagraphs (a) or (b) under "- Defaults" above unless prior to such waiver or rescission, the Corporation has caused to be paid to the Bond Trustee (i) all arrears of principal and interest (other than principal of or interest on the Series 2011 Bonds which became due and payable by declaration of acceleration), with interest at the rate then borne by the Series 2011 Bonds on overdue installments, to the extent permitted by law, and (ii) all fees and expenses of the Bond Trustee in connection with such Default. In case of any waiver or rescission described above, or in case any proceeding taken by the Bond Trustee on account of any such Default has been discontinued or concluded or determined adversely, then and in every such case the Issuer, the Bond Trustee and the Owners of Series 2011 Bonds will be restored to their former positions and rights under the 2011 Bond Indenture, respectively, but no such waiver or rescission will extend to any subsequent or other Default, or impair any right consequent thereon.

Notice of Certain Defaults; Opportunity to Cure Such Defaults. Anything in the 2011 Bond Indenture to the contrary notwithstanding, no Default under the 2011 Bond Indenture as described in subparagraphs (c) or (d) under "- Defaults" above will be deemed a Default until notice of such Default has been given to the Issuer and the Corporation by the Bond Trustee or by the Owners of at least a majority in aggregate principal amount of all Outstanding Series 2011 Bonds, and the Issuer and the Corporation have had 30 days after receipt of such notice to correct said Default or to cause said Default to be corrected and have not corrected said Default or caused said Default to be corrected within the applicable period; provided that if said Default is such that it cannot be corrected within the applicable period, it will not constitute a Default if corrective action is instituted by the Issuer or the Corporation within the applicable period and diligently pursued until the Default is corrected.

With regard to any Default concerning which notice is given to the Issuer and the Corporation as described above, the Issuer has granted the Corporation full authority for the account of the Issuer to perform any covenant or obligation alleged in said notice to constitute a Default, in the name and stead of the Issuer with full power to do any and all things and acts to the same extent that the Issuer could do and perform any such things and acts and with power of substitution.

Bond Trustee

Acceptance of Trusts. The Bond Trustee has accepted the trusts imposed upon it by the 2011 Bond Indenture, and has agreed to perform said trusts, but only upon and subject to the terms and conditions set forth in the 2011 Bond Indenture.

Notice to Owners of Bonds if Default Occurs. If a Default occurs of which the Bond Trustee has been notified or of which it is deemed to have notice, as provided in the 2011 Bond Indenture, then the Bond Trustee will promptly give notice thereof to the Owner of each Series 2011 Bond.

Successor Bond Trustee. Any corporation or association into which the Bond Trustee may be converted or merged, or with which it may be consolidated, or to which it may sell or transfer its corporate trust business and assets as a whole or substantially as a whole, or any corporation or association resulting from any such conversion, sale, merger, consolidation or transfer to which it is a party, will be and become successor Bond Trustee under the 2011 Bond Indenture and vested with all of the title to the Trust Estate and all the trusts, powers, discretions, immunities, privileges and all other matters as was its predecessor, without the execution or filing of any instrument or any further act, deed or conveyance on the part of any of the parties to the 2011 Bond Indenture, anything therein to the contrary notwithstanding.

Resignation by the Bond Trustee. The Bond Trustee and any successor Bond Trustee may at any time resign from the trusts created by the 2011 Bond Indenture by giving 30 days' notice to the Issuer, the Corporation, and the Owner of each Series 2011 Bond. Such resignation will not take effect until the appointment of a successor Bond Trustee or temporary Bond Trustee. Upon such resignation, the resigning Bond Trustee shall be entitled to prompt payment in full of all fees and expenses and other amounts payable to the Bond Trustee pursuant to the 2011 Bond Indenture or the Loan Agreement.

Removal of the Bond Trustee. The Bond Trustee may be removed at any time by an instrument or concurrent instruments in writing delivered to the Bond Trustee and to the Issuer and signed by the Owners of at least a majority in aggregate principal amount of Outstanding Series 2011 Bonds. Such removal will not take effect until (i) the appointment of a successor Bond Trustee or temporary Bond Trustee and the transfer to said successor or temporary Bond Trustee of the Credit Facility and (ii) payment in full of all fees and expenses and other amounts payable to the Bond Trustee pursuant thereto or to the Loan Agreement.

Appointment of Successor Bond Trustee by Owners of Bonds. If the Bond Trustee resigns or is removed, or is dissolved, or is in the course of dissolution or liquidation, or otherwise becomes incapable of acting under the 2011 Bond Indenture, or if it is taken under the control of any public officer or officers, or of a receiver appointed by a court, a successor may be appointed by the Owners of at least a majority in aggregate principal amount of Outstanding Series 2011 Bonds by an instrument or concurrent instruments in writing signed by such Owners, or by their attorneys in fact duly authorized, a copy of which will be delivered personally or sent by registered mail to the Issuer and the Corporation. In case of any such vacancy, the Issuer, by an instrument executed by its official who executed the Series 2011 Bonds or his successor in office, may appoint a temporary successor Bond Trustee to fill such vacancy until a successor Bond Trustee may be appointed by the Owners of Series 2011 Bonds in the manner above described; and such temporary successor Bond Trustee so appointed by the Issuer will immediately and without further act be superseded by the Bond Trustee appointed by the Owners of Series 2011 Bonds. If no successor Bond Trustee has accepted appointment in the manner described in the immediately following paragraph within 60 days after the Bond Trustee has given notice of resignation to the Issuer and the Owner of each Series 2011 Bond, the Bond Trustee may petition any court of competent jurisdiction for the appointment of a temporary successor Bond Trustee; provided that any Bond Trustee so appointed will immediately and without further act be superseded by a Bond Trustee appointed by the Issuer or the Owners of Series 2011 Bonds as described herein. Every successor Bond Trustee appointed pursuant to the provisions of the 2011 Bond Indenture described herein, if there be such an institution willing, must be qualified and able to accept the trust upon customary terms, a bank or trust company within or without the State, in good standing and having reported capital and surplus of not less than \$50,000,000 and rated Baa3/Prime-3 or better by Moody's (or a substantially equivalent rating by such other rating agency then providing the rating borne by the Series 2011 Bonds).

Acceptance by Successor Bond Trustee. Every successor Bond Trustee appointed under the 2011 Bond Indenture will execute, acknowledge and deliver to its or his predecessor and also to the Issuer and the Corporation an instrument in writing accepting such appointment and thereupon such successor, without any further act, deed or conveyance, will become fully vested with all the estates, properties, rights, powers, trusts, duties and obligations of its predecessor; but its predecessor will, nevertheless, on the written request of the Issuer, or of its successor, execute and deliver an instrument transferring to such successor all the estates, properties, rights, powers and trusts of such predecessor under the 2011 Bond Indenture; and every predecessor Bond Trustee will deliver all securities and moneys held by it as Bond Trustee under the 2011 Bond Indenture to its successor. Should any instrument in writing from the Issuer be required by any successor Bond Trustee for more fully and certainly vesting in such successor the estate, rights, powers and duties vested by the 2011 Bond Indenture or intended to be vested in the

predecessor, any and all such instruments in writing will, on request, be executed, acknowledged and delivered by the Issuer.

Supplemental Indentures

Supplemental Indentures Not Requiring Consent of Owners of Bonds. The Issuer and the Bond Trustee may, upon receipt of an opinion of Bond Counsel to the effect that the proposed supplemental indenture will not adversely affect the excludability of interest on the Series 2011 Bonds from gross income for federal income tax purposes and is authorized by the 2011 Bond Indenture, and without consent of, or notice to, any of the Owners of Series 2011 Bonds, enter into an indenture or indentures supplemental to the 2011 Bond Indenture for any one or more of the following purposes:

- (a) To cure any ambiguity or formal defect or omission in the 2011 Bond Indenture;
- (b) To grant to or confer upon the Bond Trustee for the benefit of the Owners of Series 2011 Bonds any additional rights, remedies, powers or authorities that may lawfully be granted to or conferred upon the Owners of Series 2011 Bonds or the Bond Trustee;
- (c) To subject to the 2011 Bond Indenture additional revenues, properties or collateral;
- (d) To modify, amend or supplement the 2011 Bond Indenture or any indenture supplemental thereof in such manner as to permit the qualification thereof under the Trust Indenture Act of 1939, as amended, or any similar federal statute hereafter in effect or to permit the qualification of the Series 2011 Bonds for sale under the securities laws of any of the states of the United States of America;
- (e) To evidence the appointment of a separate or Co-Bond Trustee or the succession of a new Bond Trustee;
- (f) To correct any description of, or to reflect changes in, any of the properties comprising the Trust Estate;
- (g) To make any revisions of the 2011 Bond Indenture required by Fitch, Moody's or S&P in order to obtain or maintain an investment grade rating on the Series 2011 Bonds;
- (h) To provide for an uncertificated system of registering the Series 2011 Bonds or to provide for changes to or from the Book Entry System; or
- (i) To effect any other change in the 2011 Bond Indenture which is not to the material prejudice of the Bond Trustee or the Owners of Series 2011 Bonds.

If Fitch, S&P and/or Moody's, as the case may be, has issued a rating of any of the Series 2011 Bonds, the Bond Trustee will provide written notice of the proposed amendment to such rating agencies, but such notice will not be a condition of the effectiveness of such amendment.

Supplemental Indentures Requiring Consent of Owners of Bonds. Exclusive of supplemental indentures described under "- Supplemental Indentures Not Requiring Consent of Owners of Bonds" above, and subject to the terms and provisions contained in the 2011 Bond Indenture and not otherwise, the Owners of not less than a majority in aggregate principal amount of the Outstanding Series 2011 Bonds have the right, from time to time, anything contained in the 2011 Bond Indenture to the contrary notwithstanding, to consent to and approve the execution by the Issuer and the Bond Trustee of such other indenture or indentures supplemental to the 2011 Bond Indenture as deemed necessary and desirable for the purpose of modifying, altering, amending, adding to or rescinding, in any particular, any of the terms or provisions contained in the 2011 Bond Indenture or in any supplemental indenture; provided that nothing contained in the 2011 Bond Indenture will permit, or be construed as permitting, without the consent of the Owners of all Series 2011 Bonds Outstanding, (a) an extension of the maturity

of the principal of, or the interest on, any bond issued under the 2011 Bond Indenture, or (b) a reduction in the principal amount of, or redemption premium on, any Series 2011 Bond or the rate of interest thereon, or (c) a privilege or priority of any Series 2011 Bond or Series 2011 Bonds over any other Series 2011 Bond or Series 2011 Bonds, or (d) a reduction in the aggregate principal amount of the Series 2011 Bonds required for consent to such supplemental indentures or any modifications or waivers of the provisions of the 2011 Bond Indenture or the Loan Agreement, or (e) the creation of any lien ranking prior to or on a parity with the lien of the 2011 Bond Indenture on the Trust Estate or any part thereof, except as hereinbefore expressly described, or (f) the deprivation of the Owner of any Outstanding Series 2011 Bond of the lien created by the 2011 Bond Indenture on the Trust Estate.

If at any time the Issuer requests the Bond Trustee to enter into any such supplemental indenture for any of the purposes described in the preceding paragraph, the Bond Trustee will, upon being satisfactorily indemnified with respect to expenses, cause notice of the proposed execution of such supplemental indenture to be given to the Owners of the Series 2011 Bonds as provided in the 2011 Bond Indenture; provided that prior to the delivery of such notice, the Bond Trustee may require that an opinion of Bond Counsel be furnished to the effect that the supplemental indenture complies with the provisions of the 2011 Bond Indenture and will not adversely affect the excludability of interest on the Series 2011 Bonds from gross income for federal income tax purposes. Such notice will briefly set forth the nature of the proposed supplemental indenture and state that copies thereof are on file at the Principal Office of the Bond Trustee for inspection by all Owners of Series 2011 Bonds. If, within 60 days or such longer period as prescribed by the Issuer following such notice, the Owners of not less than a majority in aggregate principal amount of the Series 2011 Bonds Outstanding (except for those supplemental indentures requiring the consent of the Owners of all Series 2011 Bonds Outstanding as described above) at the time of the execution of any such supplemental indenture have consented to and approved the execution thereof as described herein, no Owner of any Series 2011 Bond will have any right to object to any of the terms and provisions contained therein, or the operation thereof, or in any manner to question the propriety of the execution thereof, or to enjoin or restrain the Bond Trustee or the Issuer from executing the same or from taking any action pursuant to the provisions thereof. Upon the execution of any such supplemental indenture as permitted by the 2011 Bond Indenture, the 2011 Bond Indenture will be and be deemed to be modified and amended in accordance therewith.

If Fitch, S&P and/or Moody's, as the case may be, has issued a rating of any of the Series 2011 Bonds, the Bond Trustee will provide written notice of the proposed amendment to such rating agencies, but such notice will not be a condition of the effectiveness of such amendment.

Consent of the Corporation. Anything in the 2011 Bond Indenture to the contrary notwithstanding, a supplemental indenture as described above will not become effective unless and until the Corporation has consented to the execution and delivery of such supplemental indenture. In this regard, the Bond Trustee will cause notice of the proposed execution of any such supplemental indenture, together with a copy of the proposed supplemental indenture, to be mailed to the Corporation at least 15 Business Days prior to the proposed date of execution and delivery of any such supplemental indenture.

Amendment without Consent of Issuer. If the Issuer is unable to enter into any supplemental indenture permitted by the 2011 Bond Indenture as described above, the Bond Trustee may, without the consent of the Issuer, amend or supplement the 2011 Bond Indenture in any manner otherwise permitted by the 2011 Bond Indenture so long as such supplemental indenture does not adversely affect the rights of the Issuer.

Execution of Amendments and Supplements by Bond Trustee. The Bond Trustee will not be obligated to sign any amendment or supplement to the 2011 Bond Indenture or the Series 2011 Bonds if the amendment or supplement, in the judgment of the Bond Trustee, could adversely affect the rights, duties, liabilities, protections, privileges, indemnities or immunities of the Bond Trustee. In signing an amendment or supplement, the Bond Trustee will be entitled to receive, and to be fully protected in conclusively relying on, an opinion of Bond Counsel stating that such amendment or supplement is authorized by the 2011 Bond Indenture, and will not adversely affect the exclusion of interest on the Series 2011 Bonds from gross income for federal income tax purposes.

Amendment of Loan Agreement

Amendments to Loan Agreement Not Requiring Consent of Owners of Bonds. The Issuer and the Bond Trustee may, upon receipt of an opinion of Bond Counsel to the effect that the proposed amendment will not adversely affect the excludability of interest on the Series 2011 Bonds from gross income for federal income tax purposes and is authorized by the 2011 Bond Indenture, and without the consent of or notice to the Owners of Series 2011 Bonds, consent to any amendment, change or modification of the Loan Agreement as may be required (i) by the provisions of the Loan Agreement, (ii) for the purpose of curing any ambiguity or formal defect or omission in the Loan Agreement, (iii) to enter into an indenture or indentures supplemental to the 2011 Bond Indenture as described under "- Supplemental Indentures - Supplemental Indentures Not Requiring Consent of Owners of Bonds" above; (iv) to make any revisions required by Fitch, Moody's and/or S&P in order to obtain or maintain an investment grade rating on the Series 2011 Bonds, (v) in connection with any other change therein which is not to the prejudice of the Bond Trustee or the Owners of Series 2011 Bonds or (vi) to make revisions thereto which will be effective only upon, and in connection with, the remarketing of all of the Series 2011 Bonds then Outstanding.

Amendments to Loan Agreement Requiring Consent of Owners of Bonds. Except for amendments, changes or modifications as described in the immediately preceding paragraph, neither the Issuer nor the Bond Trustee may consent to any other amendment, change or modification of the Loan Agreement without mailing of notice and the written approval or consent of the Owners of a majority in aggregate principal amount of the Outstanding Series 2011 Bonds, provided that the consent of the Owners of all Series 2011 Bonds Outstanding is required for any amendment, change or modification of the Loan Agreement that would permit the termination or cancellation of the Loan Agreement or a reduction in or postponement of the payments under the Loan Agreement or any change in the provisions relating to payment thereunder. If at any time the Issuer and the Corporation request the consent of the Bond Trustee to any such proposed amendment, change or modification of the Loan Agreement, the Bond Trustee, upon being satisfactorily indemnified with respect to expenses, will cause notice of such proposed amendment, change or modification to be given as provided in the 2011 Bond Indenture; provided that prior to the delivery of such notice or request, the Bond Trustee and the Issuer may require that an opinion of Bond Counsel be furnished to the effect that such amendment, change or modification complies with the provisions of the 2011 Bond Indenture and will not adversely affect the excludability of interest on the Series 2011 Bonds from gross income for federal income tax purposes.

The Bond Trustee will not be obligated to sign any amendment or supplement to the Loan Agreement if such amendment or supplement, in the judgment of the Bond Trustee, might adversely affect the rights, duties, liabilities, protections, indemnities or immunities of the Bond Trustee. In signing any such amendment or supplement, the Bond Trustee will be entitled to receive, and will be fully protected in conclusively relying upon, an opinion of Bond Counsel stating that such amendment or supplement is authorized by the 2011 Bond Indenture and will not impair the exclusion of the interest on any Series 2011 Bonds from the gross income of the Owners thereof for federal income tax purposes.

Payments Due on Saturdays, Sundays and Holidays

In any case where the date of maturity of interest on or principal of the Series 2011 Bonds or the date fixed for purchase or redemption of any Series 2011 Bonds is not be Business Day, then payment of principal, premium, if any, or interest need not be made on such date but may be made on the next Business Day with the same force and effect as if made on the date of maturity or the date fixed for purchase or redemption.

No Personal Liability

Notwithstanding anything to the contrary contained in the 2011 Bond Indenture or in any of the Series 2011 Bonds or the Loan Agreement, or in any other instrument or document executed by or on behalf of the Issuer in connection therewith, no stipulation, covenant, agreement or obligation contained therein may be deemed or construed to be a stipulation, covenant, agreement or obligation of any present or future member, commissioner, director, trustee, officer, employee or agent of the Issuer, or of any incorporator, member, commissioner, director,

trustee, officer, employee or agent of any successor to the Issuer, in any such person's individual capacity, and no such person, in his individual capacity, will be liable personally for any breach or non observance of or for any failure to perform, fulfill or comply with any such stipulations, covenants, agreements or obligations, nor may any recourse be had for the payment of the principal of, premium, if any, or interest on any of the Series 2011 Bonds or for any claim based thereon or on any such stipulation, covenant, agreement or obligation, against any such person, in his individual capacity, either directly or through the Issuer or any successor to the Issuer, under any rule of law or equity, statute or constitution or by the enforcement of any assessment or penalty or otherwise, and all such liability of any such person, in his individual capacity, has been expressly waived and released in the 2011 Bond Indenture.

SUMMARY OF CERTAIN PROVISIONS OF THE LOAN AGREEMENT

The following is a summary of certain provisions of the Loan Agreement between the Corporation and the Issuer, to which reference is made for a full and complete statement of its provisions.

Loan of Series 2011 Bond Proceeds

Pursuant to the Loan Agreement, the Issuer will lend the proceeds from the sale of the Series 2011 Bonds to the Corporation. The Series 2011 Obligation will be delivered to the Issuer and assigned to the Bond Trustee to evidence such loan and the obligation of the Obligated Group to repay the same. The Series 2011 Obligation will be issued in a principal amount equal to the aggregate principal amount of the Series 2011 Bonds, and will provide for payment of principal, premium, if any, and interest thereon, sufficient to permit the Issuer to make payments of principal, premium, if any, and interest on the Series 2011 Bonds.

Payment of Series 2011 Bonds

The Corporation has agreed that the principal of, premium, if any, and interest on the Series 2011 Bonds will be payable in accordance with the provisions of the 2011 Bond Indenture and the Loan Agreement. The Corporation has further agreed that the Loan Agreement, the Series 2011 Obligation and any additional Obligation delivered to the Issuer to evidence loans made by the Issuer pursuant to the Loan Agreement from the proceeds of Additional Bonds and payments to be made thereunder and thereon (excluding Reserved Rights) will be assigned and pledged to the Bond Trustee to secure the payment of the Series 2011 Bonds. The foregoing notwithstanding, the Corporation has agreed that the moneys and securities, if any, on deposit in the Rebate Fund created under the 2011 Bond Indenture are not part of the Trust Estate and are not available to make payments of principal and interest on the Series 2011 Bonds.

Obligation Payments; Fund Deposits; Prepayments And Other Payments

Payment of Principal, Premium, if any, and Interest. The Corporation has covenanted that it will duly and punctually pay the principal of, premium, if any, and interest on the Series 2011 Bonds at the dates and the places and in the manner mentioned in the Series 2011 Bonds according to the true intent and meaning thereof.

Payments in Respect of the Series 2011 Obligation. The Corporation has covenanted and agreed to make the following payments in respect of the Series 2011 Obligation directly to the Bond Trustee for application under the 2011 Bond Indenture on the following dates:

- (a) Interest: On or prior to each Interest Payment Date for the Series 2011 Bonds, an amount which is not less than the interest to become due on the next Interest Payment Date of the Series 2011 Bonds; provided that the Corporation will be entitled to certain credits on such payments as permitted by the Loan Agreement and described under "- Credits on Obligation" below.

(b) Principal: On or prior to each date on which principal of the Series 2011 Bonds is due and payable, an amount which is not less than the next installment of principal coming due on the Series 2011 Bonds by maturity or mandatory sinking fund redemption; provided that the Corporation will be entitled to certain credits on such payments as permitted by the Loan Agreement and described under "- Credits on Obligation" below.

Credits on Obligation. Notwithstanding any provision contained in the Loan Agreement or in the 2011 Bond Indenture to the contrary, in addition to any credits on the Series 2011 Obligation or any additional Obligation pledged under the 2011 Bond Indenture resulting from the payment or prepayment thereof from other sources:

(a) any moneys deposited by the Bond Trustee or the Corporation in the Bond Fund maintained under the 2011 Bond Indenture will be credited against the obligation of the Corporation to pay the principal of and interest on the Obligation pledged under the 2011 Bond Indenture as the same become due and in the order of maturity to the same extent as payments are applied upon the principal of and interest on, respectively, the Series 2011 Bonds through the Bond Fund; and

(b) the principal amount of Series 2011 Bonds of any series and maturity purchased by the Corporation and delivered to the Bond Trustee, or purchased by the Bond Trustee and cancelled, will be credited against the obligation of the Corporation to pay the principal of the Obligation (including installment payments corresponding to mandatory sinking fund payments on such Series 2011 Bonds) related to such series of Series 2011 Bonds so purchased; provided that deposit of a Series 2011 Bond of one maturity may not be credited against an Obligation which would be used, in the normal course, to retire a Series 2011 Bond of another maturity.

Additional Payments. The Corporation has agreed to pay directly all costs incurred by or on behalf of the Issuer or the Corporation in connection with or incident to the issuance and sale of the Series 2011 Bonds which exceed the amount on deposit in the Costs of Issuance Fund established under the 2011 Bond Indenture. The Corporation has also agreed to pay the following items to the following persons as additional payments under the Loan Agreement:

(a) To the Bond Trustee, within 30 days of receipt of written demand therefor, all reasonable fees and expenses of the Bond Trustee for services rendered under the 2011 Bond Indenture and all reasonable fees and charges of any Paying Agent, registrars, counsel, accountants, consultants, engineers and other persons incurred in the performance of services under the 2011 Bond Indenture, on request of the Bond Trustee for which the Bond Trustee and such other persons are entitled to payment or reimbursement;

(b) To the Issuer, upon demand, all fees and expenses incurred by the Issuer in relation to the Series 2011 Obligation pledged under the 2011 Bond Indenture or the Series 2011 Bonds which are not otherwise required to be paid by the Corporation under the terms of the Loan Agreement, and all fees, expenses, taxes and assessments of the Issuer as provided for under the Act; and

(c) To the Master Trustee or the Bond Trustee, as the case may be, the amount of all advances of funds made by either of them under the provisions of the Master Indenture or the 2011 Bond Indenture, with interest thereon from the date of each such advance at the lesser of (i) Master Trustee's or Bond Trustee's (or the Bond Trustee's affiliated bank's), as the case may be, announced prime rate per annum from time to time in effect or (ii) the highest amount then allowed by law.

(d) If the Corporation fails to make any of the payments required by the Loan Agreement as described herein, the item or installment so in default will continue as an obligation of the Corporation until the amount in default has been fully paid, and the Corporation has agreed to pay the same with interest thereon, to the extent permitted by law, from the date when such payment was due, at the rate of interest borne by the Series 2011 Bonds.

Obligation of Corporation Unconditional. The obligations of the Corporation to make the payments described above and to perform and observe the other agreements contained in the Loan Agreement are absolute and

unconditional will not be subject to any defense or any right of setoff, counterclaim or recoupment arising out of any breach by the Issuer or the Bond Trustee of any obligation to the Corporation, whether under the Loan Agreement or otherwise, or out of any indebtedness or liability at any time owing to the Corporation by the Issuer or the Bond Trustee, and, until such time as the principal of, premium, if any, and interest on the Series 2011 Bonds have been fully paid or provision for the payment thereof has been made in accordance with the 2011 Bond Indenture, the Corporation has agreed that it (i) will not suspend or discontinue any payments provided for in the Loan Agreement as described above, (ii) will perform and observe all other agreements contained in the Loan Agreement and (iii) except as otherwise provided in the Loan Agreement, will not terminate the Term of Agreement for any cause, including, without limiting the generality of the foregoing, any change in the tax or other laws of the United States of America or of the State or any political subdivision of either thereof or any failure of the Issuer or the Bond Trustee to perform and observe any agreement, whether express or implied, or any duty, liability or obligation arising out of or connected with the Loan Agreement. Nothing contained in the Loan Agreement as herein described will be construed to release the Issuer from the performance of any of the agreements on its part contained in the Loan Agreement, and if the Issuer or the Bond Trustee fails to perform any such agreement on its part, the Corporation may institute such action against the Issuer or the Bond Trustee as the Corporation deems necessary to compel performance so long as such action does not abrogate the obligations of the Corporation described in the first sentence of this paragraph.

Prepayment and Redemption

Prepayment Generally. The Corporation will have the option to prepay its obligations under the Loan Agreement at the times and in the amounts as necessary to exercise its option to prepay to cause the Series 2011 Bonds to be redeemed as set forth in the 2011 Bond Indenture and in the Series 2011 Bonds. If such prepayment is made, the Issuer agrees to accept prepayment of the Series 2011 Obligation pledged under the 2011 Bond Indenture to the extent required to provide for a permitted prepayment or redemption of the Series 2011 Bonds. No other prepayment of the Series 2011 Obligation pledged under the 2011 Bond Indenture will be permitted.

Amortization Schedules. On the date of any partial prepayment of any Obligation pledged under the 2011 Bond Indenture, the Corporation, upon consultation with the Bond Trustee, will deliver to the Issuer two copies of an amortization schedule with respect to the Series 2011 Obligation then outstanding setting forth the amount of the installments to be paid on the Series 2011 Obligation after the date of such partial prepayment and the unpaid principal balance of the Series 2011 Obligation after payment of each such installment.

Covenants Relating to Use and Operation of Corporation's Property

Use of the Corporation's Property. The Corporation will use its health care Facilities primarily as and for a general hospital and related activities and only in furtherance of the lawful corporate purposes of the Corporation.

The Corporation has agreed that it will not permit any of the Property for which it or the Issuer is or was reimbursed or which is or has been acquired, constructed or equipped, in whole or in part, out of (a) the loan of proceeds of the Series 2011 Bonds or (b) the proceeds of any loan refinanced or for the refinancing of which the Corporation or the Issuer is or has been reimbursed, in whole or in part, whether directly or indirectly, from the proceeds of the Series 2011 Bonds, to be used (i) by any Person in an Unrelated Trade or Business of the Corporation, or (ii) by any Person who is not a Tax-Exempt Organization, in either case in such manner or to such extent as would result in the loss of tax exemption of interest on the Series 2011 Bonds or the Series 2011 Bonds or any other such tax-exempt bonds otherwise afforded under Section 103(a) of the Code.

The Corporation has further agreed that it will not use or permit to be used any of the Property for which it is reimbursed or which is acquired, constructed or equipped, in whole or in part, out of (a) the loan of proceeds of the Prior Bonds or (b) the proceeds of any loans refinanced or for the refinancing of which the Corporation is reimbursed, in whole or in part, whether directly or indirectly, from the proceeds of the Series 2011 Bonds (i) primarily for sectarian instruction or study or as a place of devotional activities or religious worship or as a facility used primarily in connection with any part of the program of a school or department of divinity for any

religious denomination or the training of ministers, priests, rabbis or other similar persons in the field of religion, or (ii) in a manner which is prohibited by the Establishment of Religion Clause of the First Amendment to the Constitution of the United States of America and the decisions of the United States Supreme Court interpreting the same or by any comparable provisions of the Constitution of the State and the decisions in the Supreme Court of the State interpreting the same.

The Corporation will permit the Issuer and the Bond Trustee to make inspections of any of its Property to determine compliance with the provisions of the Loan Agreement described in the two preceding paragraphs. The provisions of the Loan Agreement described in this paragraph and the immediately preceding paragraph will remain in full force and effect notwithstanding the payment of the Series 2011 Bonds and the Series 2011 Obligation and the termination of the 2011 Bond Indenture and the Loan Agreement.

Rates and Charges. The Corporation has covenanted and agreed to operate its existing health care Facilities primarily as a revenue producing hospital or as facilities related thereto, and to operate all its Property on a nondiscriminatory basis, to charge such fees and rates for its Facilities and services and to exercise such skill and diligence as to provide income from its Property together with other available funds sufficient to pay promptly all expenses of operation, maintenance and repair of its Property, all amounts owing under the 2011 Bond Indenture and all other payments required to be made by the Corporation under the Loan Agreement to the extent permitted by law. The Corporation has further covenanted and agreed that it will, from time to time as often as necessary, to the extent permitted by law, revise its rates, fees and charges in such manner as may be necessary or proper to comply with the provisions of the Loan Agreement described herein. The provisions of the Loan Agreement described in this paragraph may not be construed to prohibit the Corporation from serving indigent patients to the extent required for it to continue its qualification as a Tax-Exempt Organization or from serving any other class or classes of patients without charge at or reduced rates so long as such service does not prevent the Corporation from satisfying the other requirements of the Loan Agreement described herein.

Particular Corporation Covenants

Maintenance of Corporate Existence and Status. The Corporation has agreed that, except as permitted by the Master Indenture, it will at all times maintain its existence as a Tennessee nonprofit corporation and that it will neither take any action nor suffer any action to be taken by others which will alter, change or destroy its status as a nonprofit corporation or its status as a Tax-Exempt Organization. The Corporation has further covenanted and agreed that, as long as any Series 2011 Bonds remain Outstanding, it or any successor thereto into which it is merged or consolidated under the terms of the Master Indenture will remain a member of the Obligated Group. The Corporation has further agreed that it will not act or fail to act in any other manner which would adversely affect the exemptions from federal income tax of the interest earned by the owners of the Series 2011 Bonds to which such Series 2011 Bonds would otherwise be entitled.

Maintenance; Recording. The Corporation will, at its expense, take all necessary action to maintain and preserve the Loan Agreement so long as the Series 2011 Obligation or any additional Obligation pledged under the 2011 Bond Indenture is Outstanding. The Corporation will, forthwith after the execution and delivery of the Loan Agreement and thereafter from time to time, cause the Loan Agreement and all documents securing the Loan Agreement or any document securing the Series 2011 Obligation pledged under the 2011 Bond Indenture (including any amendments and supplements thereof) and any financing statements in respect thereof to be filed, registered and recorded in such manner and in such places as may be required by law in order to publish notice thereof and fully to perfect and protect the lien of the 2011 Bond Indenture upon the trust estate referred to therein or any part thereof and, from time to time, will perform or cause to be performed any other act as provided by law and will execute or cause to be executed any and all continuation statements and further instruments that may be requested by the Issuer or the Bond Trustee for such publication, perfection and protection. The Corporation will provide copies to the Bond Trustee of any such filings or registrations. Except to the extent it is exempt therefrom, the Corporation will pay or cause to be paid all filing and registration and recording fees incident to such filing and registration and recording, and all expenses incident to the preparation, execution and acknowledgment of such instruments of further assurance and all federal or state fees and other similar fees, duties, imposts, assessments and charges arising out of or in connection with the execution and delivery of the Loan Agreement, the Series 2011 Obligation and such instruments of further assurance.

Financial Statements. The Corporation has covenanted that it will keep proper books of records and accounts in which full, true and correct entries will be made of all dealings or transactions of, or in relation to, the business and affairs of the Corporation in accordance with generally accepted principles of accounting consistently applied and will furnish the materials and notice required to be delivered to the Master Trustee pursuant to the Master Indenture. In addition, the Corporation covenants that it will prepare unaudited consolidated financial statements, including balance sheets, income statements and cash flow for the three-month periods ending September 30, December 31 and March 31 of each year and will file the same with the Municipal Securities Rulemaking Board's Electronic Municipal Market Access system within 45 days following the end of each such three-month period.

Indemnity. The Corporation has agreed that it will pay, protect, indemnify and save the Issuer and the Bond Trustee harmless from and against any and all liabilities, losses, damages, costs and expenses (including reasonable attorneys' fees, costs and expenses of the Issuer and the Bond Trustee), causes of action, suits, claims, demands and judgments of whatsoever kind and nature (including those arising or resulting from any injury to or death of any person or damage to property) arising from or in any manner directly or indirectly growing out of or connected with the following:

- (a) the use, non-use, condition or occupancy of any of the Corporation's Property, any repairs, construction, alterations, renovation, relocation, remodeling and equipping thereof or thereto or the condition of any of such Property including adjoining sidewalks, streets or alleys and any equipment or Facilities at any time located on such Property or used in connection therewith but which are not the result of the negligence of the Issuer or the Bond Trustee;
- (b) violation of any agreement, warranty, covenant or condition of the Loan Agreement, except by the Issuer;
- (c) violation of any contract, agreement, or restriction by the Corporation relating to its Property;
- (d) violation of any law, ordinance, regulation or court order affecting any of the Corporation's Property or the ownership, occupancy or use thereof;
- (e) any statement or information concerning the Corporation or any other Obligated Issuer, any of its or their officers and members or its or their Property, contained in any official statement furnished to the Issuer or the purchaser of any Series 2011 Bonds, that is untrue or incorrect in any material respect, and any omission from such official statement of any statement or information which should be contained therein for the purpose for which the same is to be used or which is necessary to make the statements therein concerning the Corporation or any other Obligated Issuer, any of its or their officers and members and its or their Property not misleading in any material respect, provided that such official statement has been approved by the Corporation or the Obligated Group Agent and the indemnified party did not have knowledge of the omission or misstatement or did not use such official statement with reckless disregard of or gross negligence in regard to the accuracy or completeness of such official statement; and
- (f) the performance by the Bond Trustee of its duties under the 2011 Bond Indenture, but only to the extent that the Bond Trustee is not negligent in such performance.

For purposes of the provisions of the Loan Agreement described under "- Indemnity," Property will be deemed to include property otherwise excluded from the definition of "Property" as described in subparagraph (j) "Summary of Certain Provisions of the Master Indenture - Disposition of Property" above.

Such indemnity will extend to each person, if any, who "controls" the Issuer or the Bond Trustee, as the case may be, as that term is defined in Section 15 of the Securities Act of 1933, as amended, and to any officer, director or employee of the Issuer or the Bond Trustee.

In the event of settlement of any litigation commenced or threatened, such indemnity will be limited to the aggregate amount paid under a settlement effected with the written consent of the Corporation or the Obligated Group Agent.

The Issuer and the Bond Trustee will promptly notify the Corporation and the Obligated Group Agent in writing of any claim or action brought against the Issuer, the Bond Trustee or any controlling person, as the case may be, in respect of which indemnity may be sought against the Corporation, setting forth the particulars of such claim or action, and the Corporation will assume the defense thereof, including the employment of counsel satisfactory to the Issuer, the Bond Trustee or such controlling person, as the case may be, and the payment of all reasonable expenses. The Issuer, the Bond Trustee or any such controlling person, as the case may be, may employ separate counsel in any such action and participate in the defense thereof, but the fees and expenses of such counsel will not be payable by the Corporation unless such employment has been specifically authorized in writing by the Corporation.

All amounts payable to or with respect to the Issuer as herein described will be deemed to be fees and expenses of the Issuer for the purposes of the provisions of the Loan Agreement and of the 2011 Bond Indenture dealing with assignment of the Issuer's rights under the loan Agreement. The indemnification provided in the Loan Agreement shall survive the termination of the Loan Agreement, the payment in full of the Series 2011 Bonds or the sooner resignation or removal of the Bond Trustee and shall inure to the benefit of the Bond Trustee's successor and assigns.

Accreditation and Licensure. The Corporation has warranted that its hospitals are accredited by the Joint Commission on Accreditation of Healthcare Organizations and that its health care Facilities have all state and local licenses required for the operation thereof. The Corporation has covenanted that it will obtain and maintain all such licenses required for its operations and the operation of its health care Facilities and will use its best efforts to obtain and maintain such accreditation, so long as it is in the best interests of the Corporation and the Bondholders.

Government Grants. The Corporation has covenanted to comply with all of the terms and provisions of any government grants it receives, including those made by the State and the federal government, and the laws and regulations under which they are made.

Transfer of Assets. The Corporation has covenanted and agreed that it will not sell, lease or otherwise dispose of any of its Property except as permitted by the Master Indenture. The provisions of the Master Indenture notwithstanding, the Corporation has further covenanted and agreed that it will not sell, lease or otherwise dispose (including without limitation any involuntary disposition) of in excess of 2% in the aggregate of the Property financed or refinanced with the proceeds of the Series 2011 Bonds (which percentage will be reduced to the extent Property financed or refinanced with the proceeds of the Series 2011 Bonds is being used in an Unrelated Trade or Business of the Corporation) unless (a) prior to such sale, lease or other disposition the Corporation delivers to the Bond Trustee and the Issuer a written Opinion of Bond Counsel (which counsel and opinion are acceptable to the Bond Trustee) to the effect that any such disposition will not adversely affect the validity of the Series 2011 Bonds or the exemption from federal income taxation of the interest paid on the Series 2011 Bonds or any other such tax-exempt bonds under Section 103(a) of the Code, or (b) prior to such sale, lease or other disposition there is delivered to the Bond Trustee an Officer's Certificate of the Corporation stating that, in the judgment of such officer, such Property has become inadequate, obsolete or worn out and that any amounts received by the Corporation upon such disposition must be applied by the Corporation to acquire additional Property constituting a "project" under the Act. The Corporation has agreed to apply the proceeds of any disposition referred to in a certificate of the type described in clause (b) above as described in such clause and has agreed that any property acquired with such proceeds will be deemed to be Property financed or refinanced with the proceeds of the Series 2011 Bonds for the purposes of applying the provisions of the Loan Agreement. The amount of Property disposed of will be calculated in accordance with the provisions of the Master Indenture.

The provisions of the Master Indenture notwithstanding, the Corporation has further covenanted and agreed that it will not sell, lease or otherwise dispose (including without limitation any involuntary disposition) of any Property pursuant to the provisions of the Master Indenture described in subparagraph (c) under "Summary of Certain Provisions of the Master Indenture - Disposition of Property" above unless, prior to the sale, lease or other disposition, the Corporation delivers to the Master Trustee and the Bond Trustee an Officer's Certificate certifying

that Property so transferred in the then-current Fiscal Year by all Obligated Issuers and Restricted Affiliates does not exceed the lesser of (i) 10% of the Value of all Property of the Combined Group for the immediately preceding Fiscal Year or (ii) 5% of the aggregate of "gross patient revenues" of each member of the Combined Group for the immediately preceding Fiscal Year.

The provisions of the Master Indenture notwithstanding, the Corporation has further covenanted and agreed that it will not sell, lease or otherwise dispose (including without limitation any involuntary disposition) of any Property pursuant to the provisions of the Master Indenture described under "Summary of Certain Provisions of the Master Indenture - Disposition of Property" above unless, prior to the sale, lease or other disposition, the Corporation delivers to the Master Trustee and the Bond Trustee an Officer's Certificate certifying that, after such sale, lease or other disposition, the Corporation will have Unrestricted Cash and Investments in an amount equal to at least 100 Days of Operating Expenses, calculated as of the end of the most recently audited fiscal year and as if the sale, lease or other disposition had occurred at the beginning of such fiscal year. For purposes of this paragraph, "Unrestricted Cash and Investments" means the sum of cash, cash equivalents and unrestricted/unencumbered long term marketable or liquid investments less trustee held funds, reserves, deposits or set asides including debt service funds, construction funds, reserve funds, malpractice funds, litigation reserves, self insurance or captive insurer funds, and pension or retirement funds, adjusted to exclude any short term indebtedness, and "100 Days of Operating Expenses" means operating expenses minus depreciation and amortization expense for the applicable fiscal year divided by 365 or 366, as appropriate, then multiplied by 100.

Maintenance of Status as a Member of the Obligated Group. The Corporation has covenanted and agreed that as long as any Series 2011 Bonds remain Outstanding, it will remain a member of the Obligated Group.

Defaults and Remedies

Defaults Defined. The following are "Defaults" under the Loan Agreement and the term "Default" means, whenever it is used in the Loan Agreement, any one or more of the following events:

(a) Failure by the Corporation to pay any amount required to be paid as described under "- Obligation Payments; Fund Deposits; Prepayments and Other Payments - Payments in Respect of the Series 2011 Obligation."

(b) Failure by the Corporation to observe and perform any covenant, condition or agreement on its part to be observed or performed, other than as described in subparagraph (a) above, for a period of 30 days after written notice specifying such failure and requesting that it be remedied has been given to the Corporation by the Issuer or the Bond Trustee, unless the Issuer and the Bond Trustee agree in writing to an extension of such time prior to its expiration; provided that if the failure stated in the notice cannot be corrected within the applicable period, the Issuer and the Bond Trustee will not unreasonably withhold their consent to an extension of such time if corrective action is instituted by the Corporation within the applicable period and diligently pursued until such failure is corrected.

(c) The dissolution or liquidation of the Corporation, except as authorized by the Loan Agreement or the Master Indenture, or the voluntary initiation by the Corporation of any proceeding under any federal or state law relating to bankruptcy, insolvency, arrangement, reorganization, readjustment of debt or any other form of debtor relief, or the initiation against the Corporation of any such proceeding which remain undismissed for 60 days, or failure by the Corporation to promptly have discharged any execution, garnishment or attachment of such consequence as would impair the ability of the Corporation to carry on its operations at the Facilities, or assignment by the Corporation for the benefit of creditors, or the entry by the Corporation into an agreement of composition with its creditors or the failure generally by the Corporation to pay its debts as they become due.

(d) The occurrence of a Default under the 2011 Bond Indenture.

The provisions of the Loan Agreement described in subparagraph (b) above are subject to the following limitation: if by reason of force majeure the Corporation is unable in whole or in part to carry out any of its agreements contained herein (other than its obligations as described under "- Obligation Payments; Fund Deposits; Prepayments And Other Payments" above), the Corporation will not be deemed in Default during the continuance of such inability. The term "force majeure" as used herein means, without limitation, the following: acts of God; strikes or other industrial disturbances; acts of public enemies; orders or restraints of any kind of the government of the United States of America, or of the State or of any of their departments, agencies or officials, or of any civil or military authority; insurrections; riots; landslides; earthquakes; fires; storms; droughts; floods; explosions; breakage or accident to machinery, transmission pipes or canals; and any other cause or event not reasonably within the control of the Corporation. The Corporation has agreed, however, to remedy with all reasonable dispatch the cause or causes preventing the Corporation from carrying out its agreement, provided that the settlement of strikes and other industrial disturbances will be entirely within the discretion of the Corporation and the Corporation will not be required to settle strikes, lockouts and other industrial disturbances by acceding to the demands of the opposing party or parties when such course is in the judgment of the Corporation unfavorable to the Corporation.

Remedies on Default. Whenever any Default described under "- Defaults Defined" above has happened and is continuing, the Bond Trustee, or the Issuer with the written consent of the Bond Trustee, may take one or any combination of the following remedial steps:

(a) If the Bond Trustee has declared the Series 2011 Bonds immediately due and payable pursuant to the acceleration provisions of the 2011 Bond Indenture, by written notice to the Corporation, declare an amount equal to all amounts then due and payable on the Series 2011 Bonds, whether by acceleration of maturity (as provided in the 2011 Bond Indenture) or otherwise, to be immediately due and payable as liquidated damages under the Loan Agreement and not as a penalty, whereupon the same will become immediately due and payable;

(b) Have reasonable access to and inspect, examine and make copies of the books and records and any and all accounts, data and income tax and other tax returns of the Corporation during regular business hours of the Corporation if reasonably necessary in the opinion of the Bond Trustee; or

(c) Take whatever action at law or in equity may appear necessary or desirable to collect the amounts then due and thereafter to become due, or to enforce performance and observance of any obligation, agreement or covenant of the Corporation under the Loan Agreement.

Any amounts collected pursuant to action taken as herein described will be paid into the Bond Fund and applied in accordance with the provisions of the 2011 Bond Indenture.

No Remedy Exclusive. Subject to the acceleration provisions of the 2011 Bond Indenture, no remedy in the Loan Agreement conferred upon or reserved to the Issuer or the Bond Trustee is intended to be exclusive of any other available remedy or remedies, but each and every such remedy will be cumulative and be in addition to every other remedy given under the Loan Agreement or now or hereafter existing at law or in equity. No delay or omission to exercise any right or power accruing upon any Default will impair any such right or power or be construed to be a waiver thereof, but any such right or power may be exercised from time to time and as often as may be deemed expedient. In order to entitle the Issuer or the Bond Trustee to exercise any remedy reserved to it as described herein, it will not be necessary to give any notice other than such notice as may be required by the Loan Agreement. Such rights and remedies as are given the Issuer under the Loan Agreement will also extend to the Bond Trustee, and the Bond Trustee and the Owners of the Series 2011 Bonds, subject to the provisions of the 2011 Bond Indenture, will be entitled to the benefit of all covenants and agreements contained in the Loan Agreement.

Agreement to Pay Attorneys' Fees, Costs and Expenses. If the Corporation defaults under any of the provisions of the Loan Agreement and the Issuer or the Bond Trustee employs attorneys or incurs other costs or expenses for the collection of payments required thereunder or the enforcement of performance or observance of any obligation or agreement on the part of the Corporation contained therein, the Corporation has agreed that it will on demand therefor pay to the Issuer or the Bond Trustee, as applicable, the reasonable fees, costs and expenses of such attorneys and such other costs or expenses so incurred by the Issuer or the Bond Trustee, as applicable.

No Additional Waiver Implied by One Waiver. If any agreement contained in the Loan Agreement is breached by either party and thereafter waived by the other party, such waiver will be limited to the particular breach so waived and may not be deemed to waive any other breach thereunder.

Term of Agreement

The Loan Agreement will remain in full force and effect from its date to and including September 1, 2032 or until such time as all of the Series 2011 Bonds and the fees and expenses of the Issuer and the Bond Trustee have been fully paid or provision made for such payments, whichever is later; provided that the Loan Agreement may be terminated prior to such date as provided in the Loan Agreement, but in no event before all of the obligations and duties of the Corporation thereunder have been fully performed, including, without limitation, the payments of all costs and fees mandated thereunder.

APPENDIX D.

FORM OF APPROVING OPINION OF BOND COUNSEL

[THIS PAGE INTENTIONALLY LEFT BLANK]

May __, 2011

The Health, Educational and Housing Facilities Board
of the County of Sullivan, Tennessee
Sullivan, Tennessee

\$76,165,000
The Health, Educational and Housing Facilities Board
of the County of Sullivan, Tennessee
Hospital Revenue Refunding Bonds
(Wellmont Health System Project)
Series 2011

Ladies and Gentlemen:

We have served as Bond Counsel in connection with the issuance by The Health, Educational and Housing Facilities Board of the County of Sullivan, Tennessee (the "Board") of the Board's \$76,165,000 Hospital Revenue Refunding Bonds (Wellmont Health System Project), Series 2011 (the "Bonds"). The Bonds have been issued pursuant to the terms of a Bond Trust Indenture dated as of May 1, 2011 (the "Indenture"), between the Board and The Bank of New York Mellon Trust Company, N.A., as bond trustee (the "Trustee"). Unless otherwise defined, each capitalized term used in this opinion shall have the meaning given it in Article I of the Indenture.

The proceeds of the Bonds are to be loaned by the Board to Wellmont Health System (the "Borrower") pursuant to the terms of a Loan Agreement dated as of May 1, 2011 (the "Loan Agreement"), between the Board and the Borrower.

The Bonds will be dated their date of delivery. The Bonds are payable solely from the revenues, receipts and payments pledged pursuant to the Indenture. We refer you to the Bonds, the Indenture and the Loan Agreement for a description of the purposes for which the Bonds are issued and the security for them.

We have examined the Constitution of the State of Tennessee (the "State") and the laws of both the United States and the State, including, without limitation, the Internal Revenue Code of 1986, as amended (the "Code"), and the Act, and such certified proceedings and other documents of the Board as we deem necessary to render this opinion, including the resolution adopted by the Board on April 14, 2011 authorizing the issuance of the Bonds.

As to questions of fact material to our opinion, we have relied upon (a) representations of and compliance with covenants by the Borrower and the Board contained in the Indenture, the Loan Agreement and the Tax Compliance Agreement, (b) certificates of public officials furnished to us, (c) computations provided by Merrill Lynch, Pierce, Fenner & Smith Incorporated (the "Underwriter"), relating to the yield on the Bonds, and (d) certificates of representatives of the Borrower, the Board, the Trustee and other parties, including, without limitation, representations, covenants and certifications as to the use of the proceeds of the Bonds and the property financed or refinanced thereby, compliance with the arbitrage yield restriction and rebate requirements, the average reasonably expected economic life of the property being financed with the Bonds and other factual matters which are relevant to the opinions expressed in paragraph 5, in each case without undertaking any independent verification. We have assumed that all signatures on documents, certificates and instruments examined by us are genuine, all documents, certificates and instruments submitted to us as originals are authentic and all documents, certificates and instruments submitted to us as copies conform to the originals. In addition, we have assumed that all documents, certificates and instruments relating to this financing have been duly authorized, executed and delivered by all of their parties other than the Board, and we have further assumed the due organization, existence and powers of such other parties other than the Board.

Reference is made to the opinion, of even date hereof, of Hunter, Smith & Davis, LLP as counsel to the Borrower, with respect to the organization of the Borrower, the status of the Borrower as an organization described in Section 501(c)(3) of the Code, the power of the Borrower to enter into and perform its obligations under the Corporation Documents (as defined in the Loan Agreement), and other related documents to which the Borrower is a party, and the authorization, execution, delivery and enforceability of the Corporation Documents and the other documents by and against the Borrower.

Based on the foregoing, we are of the opinion that, under current law:

1. The Bonds have been duly authorized and issued in accordance with the Act and the Indenture and, subject to paragraph 4 below, constitute valid, binding and enforceable limited obligations of the Board, payable as to principal, premium, if any, and interest solely from the revenues, receipts and payments pledged to such purpose under the Indenture. The Bonds do not constitute a debt of the Board within the meaning of any constitutional or statutory limitation and is not in any respect a general obligation of the Board nor are the Bonds payable in any manner by taxation.

2. The Indenture and the Loan Agreement have been duly authorized, executed and delivered by the Board and, subject to paragraph 4 below, constitute valid and binding agreements of the Board, enforceable against the Board in accordance with their terms.

3. The Board's right, title and interest in the Loan Agreement (except for Authority's rights to payment of costs and expenses, indemnification and exemption from liability thereunder and Authority's right to receive notices) and in Series 2011 Obligation have been assigned to the

Trustee and, subject to paragraph 4 below, such assignment constitutes a valid and binding assignment by the Board, enforceable against the Board in accordance with its terms.

4. The enforceability of the obligations of the parties under the Bonds, the Indenture and the Loan Agreement and the Board's assignment of the Loan Agreement and the Series 2011 Obligation to the Trustee, is subject to the provisions of applicable bankruptcy, insolvency, reorganization, moratorium and similar laws, now or hereafter in effect, relating to or affecting the enforcement of creditors' rights. The enforceability of such obligations is also subject to usual equitable principles, which may limit the specific enforcement of certain remedies but which do not affect the validity of such documents. Certain indemnity provisions may be unenforceable pursuant to court decisions invalidating such indemnity agreements on grounds of public policy.

5. Interest on the Bonds is excludable from gross income for federal income tax purposes and is not a specific item of tax preference for purposes of the federal alternative minimum tax imposed on individuals and corporations. Further, for purposes of alternative minimum tax imposed on corporations (as defined for federal income tax purposes under Section 56 of the Code), interest on the Bonds must be included in the calculation of adjusted current earnings. We express no opinion regarding other federal tax consequences arising with respect to the Bonds.

In providing the opinions set forth in this paragraph, we are assuming continuing compliance with the Covenants (as hereinafter defined) by the Board and the Borrower. The Code and the regulations promulgated thereunder contain a number of requirements that must be satisfied after the issuance of the Bonds in order for interest on the Bonds to be and remain excludable from gross income for purposes of federal income taxation. These requirements include, by way of example and not limitation, the requirement that the Borrower maintain its status as an organization described in Section 501 (c)(3) of the Code, restrictions on the use, expenditure and investment of the proceeds of the Bonds and the use of the property financed or refinanced by the Bonds, limitations on the source of the payment of and the security for the Bonds, and the obligation to rebate certain excess earnings on the gross proceeds of the Bonds to the United States Treasury. The Indenture, the Loan Agreement and the Tax Compliance Agreement contain covenants (the "Covenants") under which the Board and the Borrower have agreed to comply with such requirements. Failure by the Board or the Borrower to comply with their respective Covenants could cause interest on the Bonds to become includable in gross income for federal income tax purposes retroactively to their date of issue. In the event of noncompliance with the Covenants, the available enforcement remedies may be limited by applicable provisions of law and, therefore, may not be adequate to prevent interest on the Bonds from becoming includable in gross income for federal income tax purposes. Compliance by the Board with its respective Covenants does not require the Board to make any financial contribution for which it does not receive funds from the Borrower.

This opinion speaks as of its date, is based on current legal authority and precedent, covers certain matters not directly addressed by such authority and precedent, and represents our judgment as to the proper treatment of interest on the Bonds for federal income tax purposes.

The Health, Educational and Housing Facilities Board
of the County of Sullivan, Tennessee
May __, 2011
Page 4

This opinion does not contain or provide any opinion or assurance regarding the future activities of the Board or the Borrower or about the effect of future changes in the Code, the applicable regulations, the interpretation thereof or the enforcement thereof by the Internal Revenue Service. The Board and the Borrower have covenanted, however, to comply with the requirements of the Code.

Certain requirements and procedures contained, incorporated or referred to in the Indenture, the Loan Agreement and the Tax Compliance Agreement, including the Covenants, may be changed and certain actions may be taken or omitted under the circumstances and subject to the terms and conditions set forth in such documents.

6. The Bonds and the interest thereon are exempt from all state, county and municipal taxation in the State, except for inheritance, transfer and estate taxes and except to the extent that the Bonds and the interest thereon are included within the measure of certain privilege and excise taxes imposed under State law. We express no opinion regarding (i) other State tax consequences arising with respect to the Bonds or (ii) any consequences arising with respect to the Bonds under the tax laws of any state or local jurisdiction other than the State. Prospective purchasers of the Bonds should consult its own tax advisors regarding state and local tax issues not covered by this opinion, including the tax status of interest on the Bonds in a particular state or local jurisdiction other than the State.

Our services as Bond Counsel to the Board have been limited to rendering the foregoing opinions based on our review of such legal proceedings and other documents as we deem necessary to approve the validity of the Bonds and tax-exempt status of the interest on them and the enforceability of the Indenture and the Loan Agreement. The foregoing opinions are in no respect an opinion as to the business or financial resources of the Board or the Borrower or the ability of the Board or the Borrower to provide for the payment of the Bonds or the accuracy or completeness of any information, including the Board's Preliminary Official Statement dated April 28, 2011, and Official Statement dated May 2, 2011, that anyone may have relied upon in making the decision to purchase the Bonds.

This opinion is given as of the date hereof, and we assume no obligation to revise or supplement this opinion to reflect any facts or circumstances that may hereafter come to our attention, or any changes in law that may hereafter occur.

Very truly yours,

APPENDIX E.

SUMMARY OF THE CONTINUING DISCLOSURE AGREEMENT

[THIS PAGE INTENTIONALLY LEFT BLANK]

SUMMARY OF THE CONTINUING DISCLOSURE AGREEMENT

The Continuing Disclosure Agreement will be entered into by the Corporation, Wellmont, Inc., Wellmont Foundation and Wellmont Hawkins County Memorial Hospital, Inc. The following is a summary of the proposed form of the Continuing Disclosure Agreement. It is expected that the executed Continuing Disclosure Agreement will conform to this summary in all material respects; however, in the event of conflict between the executed version of the Continuing Disclosure Agreement and this summary, the executed version will control.

This summary is being provided in the form of excerpts from the proposed Continuing Disclosure Agreement. Section references in these excerpts correspond to the sections of the proposed form of the Continuing Disclosure Agreement.

Excerpts from the proposed form of Continuing Disclosure Agreement:

Section 1. Definitions

Capitalized terms not otherwise defined in this Agreement shall have the meaning assigned in the Indenture. In addition, the terms set forth below shall have the meaning assigned unless the context clearly otherwise requires:

“**Bonds**” means the \$76,165,000 Hospital Revenue Refunding Bonds (Wellmont Health System Project), Series 2011, issued by the Issuer.

“**Corporation**” means Wellmont Health System, a Tennessee nonprofit corporation and a 501(c)(3) organization under the Internal Revenue Code.

“**EMMA**” means the MSRB’s Electronic Municipal Market Access System (EMMA) established pursuant to the Rule.

“**Indenture**” means the Bond Trust Indenture dated as of May 1, 2011 between the Issuer and the Trustee.

“**Issuer**” means The Health, Educational and Housing Facilities Board of the County of Sullivan, Tennessee, a Tennessee public corporation.

“**MSRB**” means the Municipal Securities Rulemaking Board.

“**Obligors**” means the Corporation and the other Obligors described in the opening paragraph of this Agreement.

“**Official Statement**” means the Official Statement dated May 2, 2011 with respect to the Bonds.

“**Rule**” means Rule 15c2-12 adopted by the Securities and Exchange Commission, as the same may be amended from time to time.

“**Trustee**” means The Bank of New York Mellon Trust Company, N.A., as trustee under the Indenture.

Section 2. Purpose and Beneficiaries of this Agreement

This Agreement is entered into by the Obligors for the benefit of the holders of the Bonds in order to assist the underwriter or underwriters for the Bonds in complying with the requirements of the Rule.

Section 3. Annual Financial Information

(a) Within 150 days after the end of each fiscal year, the Obligors shall file with the MSRB the following information:

(1) **Operating data.** Information about operating statistics for such fiscal year, and comparative information for the prior fiscal year, but not partial year information, substantially in the form included in APPENDIX A to the Official Statement under the following heading:

“FACILITIES—Historical Utilization”

(2) **Financial information.** Information about financial performance for such fiscal year, and comparative information for the prior fiscal year, but not partial year information, substantially in the form included in APPENDIX A to the Official Statement under the following headings:

“HISTORICAL FINANCIAL INFORMATION—Summary Financial Information”

“HISTORICAL FINANCIAL INFORMATION—Sources of Patient Service Revenue”

“HISTORICAL FINANCIAL INFORMATION—Estimated Days Cash on Hand”

“HISTORICAL FINANCIAL INFORMATION—Historical Annual Debt Service Coverage”

(b) The Obligors may omit or modify any part of the annual information required by this section if the operations to which it relates have been discontinued or materially changed. The Obligors will include an explanation to that effect as part of the annual information for the year in which such event first occurs.

(c) If any amendment is made to this Agreement, the annual information for the year in which such amendment is made shall contain a description of the reasons for such amendment and its impact on the type of information being provided.

Section 4. Audited Financial Statements

(a) Within 30 days after receipt by the Obligors, but in no event more than 150 days after the end of each fiscal year, the Obligors shall file with the MSRB audited financial statements of the Corporation and its affiliates. The audited financial statements shall be prepared on a basis consistent with the accounting principles and auditing standards used to prepare the financial statements attached as APPENDIX B to the Official Statement, as such standards may be modified from time to time under generally accepted accounting principles and auditing standards applicable to the Obligors.

(b) The Obligors operate acute care hospitals and related healthcare facilities that are part of a healthcare delivery system that is managed and supervised by the Corporation. The Corporation serves as the parent organization for the Obligors. The annual audited financial statements of the Corporation are consolidated statements that provide financial information with respect to the Corporation and its affiliates described in the audit report, including the other Obligors. The Obligors do not have audited financial statements prepared for the Obligors alone. The Obligors intend to comply with their continuing disclosure obligations under this Agreement by providing consolidated annual audited financial information for the Corporation and its affiliates that will include information about the Obligors substantially in the form included in APPENDIX B to the Official Statement.

Section 5. Quarterly Financial Information

(a) Within 45 days after the end of each of the first three quarters of the fiscal year, the Obligors shall file with the MSRB the following information:

(1) **Operating data.** Information about operating statistics for the period ending on the last day of such quarter, together with comparative information for the corresponding period of the prior fiscal

year, substantially in the form included in APPENDIX A to the Official Statement under the following heading:

“FACILITIES—Historical Utilization”

(2) **Financial information.** Information about financial performance for the period ending on the last day of such quarter, together with comparative information for the corresponding period of the prior fiscal year, substantially in the form included in APPENDIX A to the Official Statement under the following headings:

“HISTORICAL FINANCIAL INFORMATION—Summary Financial Information”

“HISTORICAL FINANCIAL INFORMATION—Sources of Patient Service Revenue”

“HISTORICAL FINANCIAL INFORMATION—Estimated Days Cash on Hand”

“HISTORICAL FINANCIAL INFORMATION—Historical Annual Debt Service Coverage”

(b) The Obligors may omit or modify any part of the quarterly information required by this section if the operations to which it relates have been discontinued or materially changed. The Obligors will include an explanation to that effect as part of the quarterly information for the quarter in which such event first occurs (or, if such event occurs in the last quarter of the fiscal year, as part of the annual financial information provided by Section 4).

Section 6. Event Disclosure

(a) In a timely manner not in excess of 10 business days after the occurrence of the event, the Obligors shall file with the MSRB notice of the occurrence of any of the following events affecting the Bonds:

- (1) principal and interest payment delinquencies;
- (2) non-payment related defaults, if material;
- (3) unscheduled draws on debt service reserves reflecting financial difficulties;
- (4) unscheduled draws on credit enhancements reflecting financial difficulties;
- (5) substitution of credit or liquidity providers, or their failure to perform;
- (6) adverse tax opinions, the issuance by the Internal Revenue Service of proposed or final determinations of taxability, Notice of Proposed Issue (IRS Form 5701-TEB), or other material notices or determinations with respect to the tax status of the Bonds, or other material events affecting the tax status of the Bonds;
- (7) modifications to rights of the holders of the Bonds, if material;
- (8) Bond calls, if material, and tender offers;
- (9) defeasances;
- (10) release, substitution or sale of property securing repayment of the Bonds, if material;
- (11) rating changes;
- (12) bankruptcy, insolvency, receivership or similar events affecting an Obligor;
- (13) the consummation of a merger, consolidation, or acquisition involving an Obligor or the sale of all or substantially all of the assets of an Obligor, other than in the ordinary course of business, the entry into a definitive agreement to undertake such an action or the termination of a definitive agreement relating to any such actions, other than pursuant to its terms, if material; and
- (14) appointment of a successor or additional trustee or the change of name of a trustee, if material.

(b) In a timely manner the Obligors shall file with the MSRB notice of failure to make a filing, on or before the date specified in this Agreement, of annual information required by Section 3 or Section 4 of this Agreement.

Section 7. Consequences of Failure to File

If the Obligors fail to comply with any provision of this Agreement, the holder of any Bond may seek mandamus or specific performance by court order, to cause the Obligors to comply with their obligations under this Agreement. A default under this Agreement shall not be deemed an event of default under the Indenture or any other financing document related to the issuance of the Bonds, including without limitation the Loan Agreement and the Master Indenture referred to in the Indenture. The sole remedy under this Agreement shall be an action to compel performance.

Section 8. Amendment

This Agreement may be amended by the Obligors if the amendment is required by, or consistent with, changes to, or interpretations of, the Rule made by governmental authority after the Bonds are issued.

Section 9. Termination

(a) This Agreement shall terminate when (i) all Bonds have been paid or defeased in accordance with the terms of the Indenture or (ii) the continuing disclosure obligation of the Rule is no longer applicable to the Bonds.

(b) Any Obligor may terminate its obligations under this Agreement if and when such Obligor no longer remains an obligated person with respect to the Bonds.

Section 10. Filing

(a) The Obligors shall make the information filings required or permitted by this Agreement with the MSRB through the MSRB's Electronic Municipal Market Access System (EMMA).

(b) All documents provided to the MSRB pursuant to this Agreement shall be filed in electronic format as prescribed by the MSRB and shall be accompanied by identifying information as prescribed by the MSRB.

(c) Information about the filing system and requirements of EMMA is available at www.emma.msrb.org.

Section 11. Additional Information

The Obligors may, in their sole discretion, file with the MSRB additional notices with information not required by this Agreement or the Rule. Such additional filings may be discontinued by the Obligors at any time in their sole discretion.

Section 12. No Indirect Beneficiaries

This Agreement is for the benefit of the underwriter or underwriters for the Bonds and the holders of the Bonds and shall not create rights or benefits for any other person or entity.

Section 13. Agent for Filings

The Obligors may appoint an agent for purposes of making the filings required or permitted by this Agreement, but no such appointment, or failure of such agent to perform, shall relieve the Obligors of their responsibilities under this Agreement.

Section 14. Governing Law

This Agreement shall be governed by the laws of the State of Tennessee.

Dated: _____.

[Execution by Obligor]

[THIS PAGE INTENTIONALLY LEFT BLANK]

APPENDIX F.

THE DTC BOOK ENTRY SYSTEM

[THIS PAGE INTENTIONALLY LEFT BLANK]

The DTC Book Entry System

1. The Depository Trust Company (“DTC”), New York, New York, will act as securities depository for the Bonds (the “Securities”). The Securities will be issued as fully-registered securities registered in the name of Cede & Co. (DTC’s partnership nominee) or such other name as may be requested by an authorized representative of DTC. One fully-registered Security certificate will be issued for each maturity of the Securities, in the aggregate principal amount of such maturity, and will be deposited with DTC.

2. DTC, the world’s largest depository, is a limited-purpose trust company organized under the New York Banking Law, a “banking organization” within the meaning of the New York Banking Law, a member of the Federal Reserve System, a “clearing corporation” within the meaning of the New York Uniform Commercial Code, and a “clearing agency” registered pursuant to the provisions of Section 17A of the Securities Exchange Act of 1934. DTC holds and provides asset servicing for over 3.5 million issues of U.S. and non-U.S. equity, corporate and municipal debt issues, and money market instrument from over 100 countries that DTC’s participants (“Direct Participants”) deposit with DTC. DTC also facilitates the post-trade settlement among Direct Participants of sales and other securities transactions in deposited securities through electronic computerized book-entry transfers and pledges between Direct Participants’ accounts. This eliminates the need for physical movement of securities certificates. Direct Participants include both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, clearing corporations, and certain other organizations. DTC is a wholly-owned subsidiary of The Depository Trust & Clearing Corporation (“DTCC”). DTCC is the holding company for DTC, National Securities Clearing Corporation, and Fixed Income Clearing Corporation, all of which are registered clearing agencies. DTCC is owned by the users of its regulated subsidiaries. Access to the DTC system is also available to others such as both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, and clearing corporations that clear through or maintain a custodial relationship with a Direct Participant, either directly or indirectly (“Indirect Participants”). DTC has Standard & Poor’s highest rating: AAA. The DTC Rules applicable to its Participants are on file with the Securities and Exchange Commission. More information about DTC can be found at www.dtcc.com and www.dtc.org.

3. Purchases of Securities under the DTC system must be made by or through Direct Participants, which will receive a credit for the Securities on DTC’s records. The ownership interest of each actual purchaser of each Security (“Beneficial Owner”) is in turn to be recorded on the Direct and Indirect Participants’ records. Beneficial Owners will not receive written confirmation from DTC of their purchase. Beneficial Owners are, however, expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the Direct or Indirect Participant through which the Beneficial Owner entered into the transaction. Transfers of ownership interests in the Securities are to be accomplished by entries made on the books of Direct and Indirect Participants acting on behalf of Beneficial Owners. Beneficial Owners will not receive certificates representing their ownership interests in Securities, except in the event that use of the book-entry system for the Securities is discontinued.

4. To facilitate subsequent transfers, all Securities deposited by Direct Participants with DTC are registered in the name of DTC’s partnership nominee, Cede & Co. or such other name as may be requested by an authorized representative of DTC. The deposit of Securities with DTC and their registration in the name of Cede & Co. or such other DTC nominee do not effect any change in beneficial ownership. DTC has no knowledge of the actual Beneficial Owners of the Securities; DTC’s records reflect only the identity of the Direct Participants to whose accounts such Securities are credited, which may or may not be the Beneficial Owners. The Direct and Indirect Participants will remain responsible for keeping account of their holdings on behalf of their customers.

5. Conveyance of notices and other communications by DTC to Direct Participants, by Direct Participants to Indirect Participants, and by Direct Participants and Indirect Participants to Beneficial Owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time. Beneficial Owners of Securities may wish to take certain steps to augment the transmission to them of notices of significant events with respect to the Securities, such as redemptions, tenders, defaults, and proposed amendments to the Security documents. For example, Beneficial Owners of Securities may wish to ascertain that the nominee holding the Securities for their benefit has agreed to obtain and transmit notices to Beneficial Owners.

In the alternative, Beneficial Owners may wish to provide their names and addresses to the registrar and request that copies of notices be provided directly to them.

6. Redemption notices shall be sent to DTC. If less than all of the Securities within one issue are being redeemed, DTC's practice is to determine by lot the amount of the interest of each Direct Participant in such issue to be redeemed.

7. Neither DTC nor Cede & Co. (nor such other DTC nominee) will consent or vote with respect to the Securities unless authorized by a Direct Participant in accordance with DTC's MMI Procedures. Under its usual procedures, DTC mails an Omnibus Proxy to the Issuer as soon as possible after the record date. The Omnibus Proxy assigns Cede & Co.'s consenting or voting rights to those Direct Participants to whose accounts the Securities are credited on the record date (identified in a listing attached to the Omnibus Proxy).

8. Redemption proceeds, distributions and dividend payments on the Securities will be made to Cede & Co., or such other nominee as may be requested by an authorized representative of DTC. DTC's practice is to credit Direct Participants' accounts upon DTC's receipt of funds and corresponding detail information from the Issuer or Trustee on the payable date in accordance with their respective holdings shown on DTC's records. Payments by Participants to Beneficial Owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name," and will be the responsibility of such Participant and not of DTC, the Issuer, or the Trustee, subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of redemption proceeds, distributions and dividend payments to Cede & Co. (or such other nominee as may be requested by an authorized representative of DTC) is the responsibility of the Issuer and Trustee, disbursement of such payments to Direct Participants will be the responsibility of DTC, and disbursement of such payments to the Beneficial Owners will be the responsibility of Direct and Indirect Participants.

9. A Beneficial Owner shall give notice to elect to have its Securities purchased or tendered, through its Participant, to the Trustee, and shall effect delivery of such Securities by causing the Direct Participant to transfer the Participant's interest in the Securities, on DTC's records, to the Trustee. The requirement for physical delivery of Securities in connection with an optional tender or a mandatory purchase will be deemed satisfied when the ownership rights in the Securities are transferred by Direct Participants on DTC's records and followed by a book-entry credit of tendered Securities to the Trustee's DTC account.

10. DTC may discontinue providing its services as depository with respect to the Securities at any time by giving reasonable notice to the Issuer or Trustee. Under such circumstances, in the event that a successor securities depository is not obtained, Security certificates are required to be printed and delivered.

11. The Issuer may decide to discontinue use of the system of book-entry-only transfers through DTC (or a successor securities depository). In that event, Security certificates will be printed and delivered to DTC.

12. The information in this section concerning DTC and DTC's book-entry system has been obtained from sources that the Issuer and the Corporation believe to be reliable, but neither the Issuer nor the Corporation takes responsibility for the accuracy thereof.

Independent Auditors' Report

The Board of Directors
Wellmont Health System:

We have audited the accompanying consolidated balance sheets of Wellmont Health System and affiliates (Wellmont) as of June 30, 2010 and 2009, and the related consolidated statements of operations and changes in net assets, and cash flows for the years then ended. These consolidated financial statements are the responsibility of Wellmont's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Wellmont's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of Wellmont Health System and affiliates as of June 30, 2010 and 2009, and the consolidated results of their operations and changes in net assets, and cash flows for the years then ended in conformity with U.S. generally accepted accounting principles.

Supplemental disclosures of noncash items:

Wellmont entered into capital lease obligations for buildings and equipment in the amount of \$1,290 and \$18,050 in 2010 and 2009, respectively.

Additions to property and equipment financed through current liabilities of \$5,182 and \$5,977 in 2010 and 2009, respectively.

See accompanying notes to consolidated financial statements.

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2010 and 2009

(Dollars in thousands)

(1) Operations and Basis of Presentation

Wellmont Health System (Wellmont) was formed to assume operations of Bristol Regional Medical Center (BRMC) and Holston Valley Health Care, Inc. (HVHC), including Holston Valley Medical Center, Inc. (HVMC), and to act as sole corporate member of its consolidated foundations. Effective July 1, 1996, under terms of an agreement and plan of consolidation and merger, BRMC and HVHC, including HVMC, were merged and consolidated into Wellmont. Effective January 1, 1997, Lonesome Pine Hospital (LPH), a Virginia corporation, was merged into Wellmont under terms of a plan of merger and merger agreement. Effective July 1, 2000, Hawkins County Memorial Hospital (HCMH) transferred its operations and operating assets to Wellmont Hawkins County Memorial Hospital (WHCMH), a tax-exempt organization that is wholly owned and controlled by Wellmont. Hancock County Hospital (HCH), a critical access hospital, was opened in March 2005 to help provide for the immediate healthcare needs of the residents of Sneedville and the surrounding counties. As of July 16, 2007, Wellmont acquired Jenkins Community Hospital (Jenkins) in Kentucky. As of August 1, 2007, Wellmont acquired two hospitals in Virginia, Lee Regional Medical Center in Pennington Gap and Mountain View Regional Medical Center in Norton. On May 30, 2008, Wellmont acquired the Holston Valley Cath Lab, an outpatient lab. On May 1, 2010, Wellmont acquired Cardiovascular Associates.

As of April 30, 2009, Wellmont closed Jenkins, sold the majority of the facility's property and equipment to Appalachian Regional Healthcare, Inc for \$1,000 and recorded a loss on sale of approximately \$256. The consolidated financial statements for the years ended June 30, 2010 and 2009 present Jenkins as a discontinued operation. The operating losses of \$474 and \$3,659 for the years ended June 30, 2010 and 2009, respectively, and the impairment are included in the classification of discontinued operations.

As of June 30, 2010, it was announced that Wellmont will sell the majority of Medical Mall Pharmacy's assets to a national pharmacy company for \$1,300 plus inventory value. The consolidated financial statements for the years ended June 30, 2010 and 2009 present Medical Mall Pharmacy as a discontinued operation. The operating losses of \$635 and \$540 for the years ended June 30, 2010 and 2009, respectively, are included in the classification of discontinued operations. The sale was completed on September 23, 2010.

All acute care operations remain separately licensed and are treated as operating divisions within Wellmont. Wellmont's operations consist primarily of the delivery of healthcare services in northeast Tennessee and southwest Virginia.

The consolidated financial statements include the acute care operations of the above entities along with:

- Wellmont Foundation (the Foundation), which was created from the merger of Bristol Regional Medical Center Foundation and Holston Valley Health Care Foundation, Inc. The Foundation conducts fund-raising activities for the benefit of Wellmont.
- Wellmont, Inc., a wholly owned taxable subsidiary of Wellmont, formed as the holding company of various other taxable subsidiaries that provide medical collection and medical laundry services, operate a pharmacy and physician practices, provide other healthcare-related services, and invest in affiliates and other activities.

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2010 and 2009

(Dollars in thousands)

- The Alzheimer's Center of East Tennessee was merged into Wellmont and changed its name to Wellmont Madison House effective September 1, 1997. Wellmont is the sole corporate member and the consolidated financial statements include the operations of this entity.

All significant intercompany accounts and transactions have been eliminated in the accompanying consolidated financial statements.

(2) Significant Accounting Policies

A summary of significant accounting policies follows:

(a) Use of Estimates

The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the consolidated financial statements. Estimates also affect the reported amounts of revenue and expenses during the reporting period. Significant estimates include: allowances for contractual adjustments and bad debts; third-party payor settlements; valuation of investments, land, buildings, equipment, and goodwill; and self-insurance and other liabilities. Actual results could differ from these estimates.

(b) Cash and Cash Equivalents

Wellmont considers all highly liquid investments with a maturity of three months or less when purchased, excluding amounts whose use is limited by board of director's designation or other arrangements under trust agreements, to be cash equivalents.

(c) Investments

Marketable equity securities and debt securities are recorded at fair value and classified as other than trading. Fair value is determined primarily using quoted prices (unadjusted) in active markets for identical assets or liabilities that Wellmont has the ability to access at the measurement date. However, Wellmont also uses observable and unobservable inputs for investments without quoted market prices to determine the fair value of certain investments at the measurement date. Investments in limited partnerships are recorded at fair value as determined by the partnership using net asset value. Wellmont elected to early adopt the measurement provisions of Accounting Standards Update No. 2009-12, *Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*, to certain investments in funds that do not have readily determinable fair values including private investments, hedge funds, real estate, and other funds. Investments in affiliates in which Wellmont has significant influence but does not control are reported on the equity method of accounting, which represents Wellmont's equity in the underlying net book value. Long-term investments include those investments that have not been designated by the board of directors for specific purposes and are also not intended to be used for the liquidation of current liabilities. Investment income is recognized when earned.

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2010 and 2009

(Dollars in thousands)

Realized gains and losses are determined on the specific-identification method and included in investment income with interest and dividends. Investment income is reported net of related investment fees. Unrealized gains and losses are included in other changes in unrestricted net assets except for losses determined to be other than temporary, which are considered realized losses and included in investment income.

On July 1, 2008, Wellmont adopted new guidance issued by the Financial Accounting Standards Board (FASB), which defines fair value, establishes a framework for the measurement of fair value, and enhances disclosures about fair value measurements now codified into Accounting Standards Codification (ASC) 850. ASC 850 statement does not require any new fair value measures and did not have a material impact on Wellmont's consolidated financial statements for the year ended June 30, 2009, however, expanded fair value disclosures have been provided in note 19.

(d) *Assets Limited as to Use*

Assets limited as to use primarily include assets held by trustees under bond indenture and self-insurance agreements, as well as designated assets set aside by the board of directors for future capital improvements, over which the board of directors retains control and may, at its discretion, subsequently use for other purposes. Amounts required to meet current liabilities of Wellmont have been reclassified to current assets in the accompanying consolidated balance sheets.

(e) *Inventories*

Inventories are stated at the lower of cost or market value and are valued principally by the first-in, first-out, and average-cost methods.

(f) *Land, Buildings, and Equipment*

Land, buildings, and equipment are stated at cost, if purchased, or fair value at date of donation. Depreciation is computed using the straight-line method based on the estimated useful life of the asset, ranging from 3 to 40 years. Buildings and equipment held under capital leases are recorded at net present value of future lease payments and are amortized on a straight-line basis over the shorter of the lease term or estimated useful life of the asset. Costs of maintenance and repairs are expensed as incurred. Upon sale or retirement of land, buildings, or equipment, the cost and related accumulated depreciation are eliminated from the respective accounts and the resulting gain or loss, if any, is included in other revenues on the consolidated statements of operations and changes in net assets. Interest costs incurred on borrowed funds during the period of construction of capital assets is capitalized as a component of the cost of acquiring those assets. The amount capitalized is net of investment earnings on assets limited as to use derived from borrowings designated for capital assets. Renewals and betterments are capitalized and depreciated over their useful life, whereas costs of maintenance and repairs are expensed as incurred.

Wellmont evaluates long-lived assets for impairment on annual basis. Long-lived assets are considered to be impaired whenever events or changes in circumstances indicate the carrying amount of an asset may not be recoverable from future cash flows. Recoverability of long-lived assets to be held and used is measured by a comparison of the carrying amount of an asset to future cash flows

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2010 and 2009

(Dollars in thousands)

expected to be generated by the asset. When such assets are considered to be impaired, the impairment loss recognized is measured by the amount by which the carrying value of the asset exceeds the fair value of the asset.

(g) Goodwill

Goodwill represents the difference between the cost of net assets acquired and estimated fair value at purchase date, and is being amortized using the straight-line method over periods of 5 to 15 years. For goodwill acquired by its taxable entities, the FASB has implemented a nonamortization approach to goodwill. However, the effective date for not-for-profit entities is not effective until fiscal year 2011 for Wellmont and, as such, Wellmont continues to amortize the goodwill associated with its tax-exempt entities. Wellmont assesses the recoverability and the amortization period of goodwill for not-for-profit entities by determining whether the amount can be recovered through undiscounted cash flows of the business acquired, excluding interest and amortization, over the remaining amortization period. If impairment is indicated by this analysis, measurement of the impairment recognized is based on the difference between the fair value and the carrying amount of the asset. Management considers external factors relating to each acquired business, including local market developments, regional and national trends, regulatory developments, and other pertinent factors in making its assessment. Goodwill for Wellmont's for-profit/taxable entities is reviewed for impairment at least annually in accordance with the provisions of FASB ASC 350, *Intangibles – Goodwill and Other* (Statement No. 142, *Goodwill and Other Intangible Assets*). The goodwill impairment test is a two-step test. Under the first step, the fair value of the reporting unit is compared with its carrying value (including goodwill). If the fair value of the reporting unit is less than its carrying value, an indication of goodwill impairment exists for the reporting unit and the enterprise must perform step two of the impairment test. Under step two, an impairment loss is recognized for any excess of the carrying amount of the reporting unit's goodwill over the implied fair value of that goodwill. The implied fair value of goodwill is determined by allocating the fair value of the reporting unit in a manner similar to a purchase price allocation and the residual fair value after this allocation is the implied fair value of the reporting unit goodwill. Fair value of the reporting unit is determined using a discounted cash flow analysis. If the fair value of the reporting unit exceeds its carrying value, step two does not need to be performed. A summary of goodwill and related amortization for the years ended June 30 follows:

	<u>2009</u>	<u>Additions</u>	<u>Decreases</u>	<u>2010</u>
Goodwill	\$ 12,604	—	—	12,604
Amortization	(3,095)	(8)	—	(3,103)
	<u>\$ 9,509</u>	<u>(8)</u>	<u>—</u>	<u>9,501</u>

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2010 and 2009

(Dollars in thousands)

	<u>2008</u>	<u>Additions</u>	<u>Decreases</u>	<u>2009</u>
Goodwill	\$ 12,771	—	(167)	12,604
Amortization	(3,130)	(30)	65	(3,095)
	<u>\$ 9,641</u>	<u>(30)</u>	<u>(102)</u>	<u>9,509</u>

(h) Deferred Debt Expense

Deferred debt expense is amortized over the life of the related bond issues using the effective-interest method.

(i) Derivative Financial Instruments

As further described in note 12, Wellmont is a party to interest rate swap and other derivative agreements. These financial instruments are not designated as hedges and are presented at estimated fair market value in the accompanying consolidated balance sheets. These fair values are based on the estimated amount Wellmont would receive, or be required to pay, to enter into equivalent agreements with a third party at the valuation date. Due to the nature of these financial instruments, such estimates are subject to significant change in the near term. Wellmont recognizes changes in the fair values of derivatives as nonoperating gains or losses in the consolidated statements of operations and changes in net assets. The cash settlements resulting from these interest rate swaps are reported as interest expense in the consolidated statements of operations and changes in net assets.

(j) Asset Retirement Obligations

Asset retirement obligations (AROs) are legal obligations associated with the retirement of long-lived assets. These liabilities are initially recorded at fair value, and the related asset retirement costs are capitalized by increasing the carrying amount of the related assets by the same amount as the liability. Asset retirement costs are subsequently depreciated over the useful lives of the related assets. Subsequent to initial recognition, Wellmont records period-to-period changes in the ARO liability resulting from the passage of time and revisions to either the timing or the amount of the original estimate of undiscounted cash flows. Wellmont derecognizes ARO liabilities when the related obligations are settled.

(k) Temporarily and Permanently Restricted Net Assets

Temporarily restricted net assets are those whose use by Wellmont has been limited by donors to a specific time period or purpose. Permanently restricted net assets have been restricted by donors to be maintained by Wellmont in perpetuity. Generally, donors of permanently restricted assets permit use of all or part of the income earned on related investments for general or specific purposes.

Temporarily restricted net assets relate primarily to amounts held by the Foundation and include amounts restricted for future capital expenditures and for operations of such areas as children's healthcare services, hospice, and cancer research.

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2010 and 2009

(Dollars in thousands)

Net assets are released from restrictions by Wellmont incurring expenses that satisfy the restricted purposes. Such net assets released during 2010 and 2009 primarily included amounts related to the purchase of buildings and equipment for pediatrics, cancer, and other healthcare operations.

(l) Net Patient Service Revenue and Accounts Receivable

Net patient service revenue is reported on the accrual basis in the period in which services are provided at the estimated net realizable amounts expected to be collected. Net patient service revenue includes amounts estimated by management to be reimbursable by patients and various third-party payors under provisions of reimbursement formulas in effect, including retroactive adjustments under reimbursement agreements. Estimated retroactive adjustments are accrued in the period related services are rendered and adjusted in future periods as final and other settlements are determined. Wellmont provides care to patients who meet criteria under its charity care policy without charge or at amounts less than its established rates. Because Wellmont does not pursue collection of amounts determined to qualify as charity care, they are not included in net patient service revenue.

Patient accounts receivable are reported net of both an allowance for uncollectible accounts and an allowance for contractual adjustments. The contractual allowance represents the difference between established billing rates and estimated reimbursement from Medicare, TennCare, Medicaid, and other third-party payment programs. Wellmont's policy does not require collateral or other security for patient accounts receivable. Wellmont routinely obtains assignment of, or is otherwise entitled to receive, patient benefits payable under health insurance programs, plans, or policies.

(m) Revenue and Gains in Excess of Expenses and Losses

The consolidated statements of operations and changes in net assets include revenue and gains in excess of expenses and losses. Changes in unrestricted net assets that are excluded from revenue and gains in excess of expenses and losses, consistent with industry practice, include changes in net unrealized gains (losses) on investments other-than-trading securities, changes in the funded status of Wellmont's defined benefit plans, contributions of long-lived assets, including assets acquired using contributions that, by donor restriction, were to be used for the purpose of acquiring such assets, and cumulative effects of changes in accounting principles.

For purposes of financial statement display, those activities directly associated with Wellmont's mission of providing healthcare services are considered to be operating activities. Nonoperating activities primarily include investment and related activities. Other operating revenues primarily include cafeteria, rental, and income from affiliates.

(n) Contributed Resources

Gifts of long-lived assets, such as land, buildings, or equipment, are reported as unrestricted contributions, and are excluded from revenue and gains in excess of expenses and losses, unless explicit donor stipulations specify how the donated assets must be used. Gifts of long-lived assets with explicit restrictions that specify how the assets are to be used and gifts of cash or other assets that must be used to acquire long-lived assets are reported as restricted contributions. Absent explicit

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2010 and 2009

(Dollars in thousands)

donor stipulations about how long those long-lived assets must be maintained, expiration of donor restrictions is reported when the donated or acquired long-lived assets are placed in service.

Unconditional promises to give cash or other assets are reported at fair value at the date the promise is received. Gifts are reported as either a temporarily or permanently restricted contribution if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated time restriction ends or a purpose restriction is accomplished, temporarily restricted net assets are reclassified as unrestricted net assets and reported in the consolidated statements of operations and changes in net assets as net assets released from restrictions. Donor-restricted contributions whose restrictions are met within the same year as received are recorded as unrestricted contributions. Unrestricted contributions are included in other revenues.

(o) Federal Income Taxes

The Wellmont entities are primarily classified as organizations exempt from federal income taxes under Section 501(a) as entities described in Section 501(c)(3) of the Internal Revenue Code. Accordingly, no provision for income taxes has been included for these entities in the consolidated financial statements. The operations of Wellmont, Inc. and its subsidiaries are subject to state and federal income taxes, which are accounted for in accordance with ASC 740, *Income Taxes*; however, such amounts are not material.

On July 1, 2007, Wellmont adopted new guidance issued by on the accounting for uncertainty in income tax positions now codified into ASC 740. It also provides guidance on when tax positions are recognized in an entity's financial statements and how the values of these positions are determined. There was no impact on Wellmont's consolidated financial statements as a result of the adoption of the new guidance.

(p) New Accounting Pronouncements

Effective July 1, 2008, Wellmont adopted new guidance issued by FASB, which provides guidance on the net asset classification of donor-restricted endowment funds for a tax-exempt organization that is subject to an enacted version of the Uniform Prudent Management of Institutional Funds Act of 2006 (UPMIFA) now codified into ASC 958, *Not-for-Profit Entities*. Effective July 1, 2007, the State of Tennessee adopted legislation that incorporates the provisions outlined in UPMIFA. Wellmont's endowments consist solely of donor-restricted endowment funds. Wellmont's endowments consist of four individual funds established for a variety of purposes.

Wellmont has interpreted UPMIFA as requiring the preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment funds absent explicit donor stipulations to the contrary. As a result of this interpretation, Wellmont classifies as permanently restricted net assets (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment, and (c) accumulations to the donor gift instrument at the time the accumulation is added to the fund. The remaining portion of the donor-restricted endowment fund that is not classified in permanently restricted net assets is classified as temporarily restricted net assets until those amounts are approved for expenditure by the organization in a

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2010 and 2009

(Dollars in thousands)

manner consistent with the standard of prudence prescribed by UPMIFA. In accordance with UPMIFA, Wellmont considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds: (1) the duration and preservation of the fund; (2) the purposes of the organization and the donor-restricted endowment fund; (3) general economic conditions; (4) the possible effect of inflation and deflation; (5) the expected total return from income and the appreciation of investments; (6) other resources of the organization; and (7) the investment policies of the organization.

On June 30, 2009, Wellmont adopted guidance issued by the FASB for subsequent events, now codified into ASC 855, *Subsequent Events*. ASC 855 defines the period after the balance sheet date during which management shall evaluate events or transactions that may occur for potential recognition or disclosure, the circumstances under which an organization shall recognize events occurring after the balance sheet date and the disclosures that an organization shall make about those events or transactions. ASC 855 defines two types of subsequent events. The first type consists of events or transactions that provide additional evidence about conditions that existed at the date of the balance sheet, including the estimates inherent to the process of preparing financial statements (i.e., recognized subsequent events). The second type consists of events that provide evidence about conditions that did not exist at the date of the balance sheet but arose after the date (i.e., nonrecognized event).

Management evaluated all events and transactions that occurred through October 28, 2010. Other than described in note 11, Wellmont did not have any material subsequent events during this period.

On July 1, 2009, the FASB issued Statement No. 168, *The FASB Accounting Standards Codification™ and the Hierarchy of Generally Accepted Accounting Principles* (Statement 168). Statement 168 is the single source of authoritative nongovernmental GAAP, superseding existing FASB, American Institute of Certified Public Accountants, Emerging Issues Task Force, and related accounting literature. Statement 168 reorganizes the thousands of pages of GAAP pronouncements into roughly 90 accounting topics and displays them using a consistent structure. Also included is relevant Securities and Exchange Commission guidance organized using the same topical structure in separate sections. Statement 168 is effective for interim and annual periods ending after September 15, 2009. The adoption of Statement 168 had no significant effect on the Wellmont's consolidated financial statements.

(q) Reclassifications

Certain 2009 amounts have been reclassified to conform to the 2010 consolidated financial statement presentation.

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2010 and 2009

(Dollars in thousands)

(3) Net Patient Service Revenue

A reconciliation of the amount of services provided to patients at established rates to net patient service revenue as presented in the consolidated statements of operations and changes in net assets is as follows for the years ended June 30:

	<u>2010</u>	<u>2009</u>
Gross patient service charges	\$ 2,158,847	2,178,018
Less:		
Contractual adjustments and other discounts	(1,411,435)	(1,440,519)
Charity care	<u>(54,492)</u>	<u>(57,443)</u>
	<u>(1,465,927)</u>	<u>(1,497,962)</u>
Net patient service revenue	\$ <u>692,920</u>	<u>680,056</u>

(4) Third-Party Reimbursement Arrangements

Wellmont renders services to patients under contractual arrangements with the Medicare and Medicaid programs. The Medicaid program in Tennessee was replaced with a managed care program known as TennCare, which was designed to cover previous Medicaid eligible enrollees. Amounts earned under these contractual arrangements are subject to review and final determination by fiscal intermediaries and other appropriate governmental authorities or their agents. Management believes that adequate provision has been made for any adjustments that may result from such reviews. Participation in these programs subjects Wellmont to significant rules and regulations; failure to adhere to such could result in fines, penalties, or expulsion from the programs.

Wellmont contracts with various managed care organizations under the TennCare program. TennCare reimbursement for both inpatient and outpatient services is based upon prospectively determined rates, including diagnostic-related group assignments, fee schedules, and per diem amounts. Reimbursement under the Virginia Medicaid program is also based upon prospectively determined amounts.

The Medicare program pays for the costs of inpatient services on a prospective basis. Payments are based upon diagnostic-related group assignments, which are determined by the patient's clinical diagnosis and medical procedures utilized. Wellmont receives additional payments from Medicare based on the provision of services to a disproportionate share of Medicaid-eligible and other low income patients. Outpatient services are also reimbursed primarily on a prospectively determined basis.

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2010 and 2009

(Dollars in thousands)

Net patient service revenue in 2010 and 2009 related to Medicare, TennCare, and Virginia Medicaid and net patient accounts receivable at June 30, 2010 and 2009 from Medicare, TennCare, and Virginia Medicaid were as follows:

	<u>2010</u>	<u>2009</u>
Net patient service revenue:		
Medicare	\$ 277,372	272,259
TennCare	22,918	22,509
Virginia Medicaid	23,536	19,036
Net patient accounts receivable:		
Medicare	\$ 41,125	39,852
TennCare	2,206	4,072
Virginia Medicaid	3,739	3,172

Wellmont has filed cost reports with Medicare and Virginia Medicaid. The cost reports are subject to final settlement after audits by the fiscal intermediary. The Medicare and Virginia Medicaid cost reports have been audited by the intermediary through June 30, 2006.

Wellmont has also entered into reimbursement agreements with certain commercial insurance companies, health maintenance organizations, and preferred provider organizations. The basis for reimbursement under these agreements includes prospectively determined rates per discharge, per diem rates, and discounts from established charges.

Net patient service revenue is reported at the net amounts billed to patients, third-party payors, and others for services rendered, including estimated retroactive adjustments under reimbursement agreements with third-party payors. Estimated retroactive adjustments are accrued in the period the related services are rendered and adjusted in future periods as changes in estimated provisions and final settlements are determined. Net patient service revenue increased (decreased) approximately \$863 and \$(2,600) in 2010 and 2009, respectively, due to final settlements and revised estimates in excess of amounts previously recorded, removal of allowances previously estimated that are no longer necessary as a result of final settlements, and years that are not longer subject to audits, reviews, and investigations.

Estimated settlements recorded at June 30, 2010 could differ materially from actual settlements based on the results of third-party audits.

(5) Charity Care and Community Services

Wellmont accepts all patients within its primary service area regardless of their ability to pay. A patient is classified as a charity patient by reference to certain established policies that consider, among other factors, generally recognized poverty income levels.

Wellmont maintains records to identify and monitor the level of charity care it provides. Charges foregone for services and supplies furnished under its charity care policy, the estimated cost of those services, and the equivalent percentage of charity care patients to all patients serviced were \$54,492, \$15,567, and

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2010 and 2009

(Dollars in thousands)

2.52%, respectively, for the year ended June 30, 2010 and \$57,443, \$16,203, and 2.63%, respectively, for the year ended June 30, 2009.

In addition to the charity care services described above, Wellmont provides a number of other services to benefit the indigent for which little or no payment is received. Medicare, Medicaid, and State indigent programs do not cover the full cost of those services. The shortfall between actual receipts from those programs and Wellmont's cost of providing care to those patients totaled \$55,461 and \$57,212 for the years ended June 30, 2010 and 2009, respectively.

Wellmont also provides services to the community at large for which it receives little or no payment. Health evaluations, screening programs, and specific services for the elderly and homebound are other services supplied. Wellmont also provides public health education, trains new health professionals, and conducts health research.

(6) Investment in Affiliates

Wellmont has investments with other healthcare providers, which include hospital, home care, regional laboratories, and other healthcare-related organizations. Wellmont records its share of equity in the operations of the respective organizations. Equity in net income of affiliates was approximately \$6,773 and \$5,549 for the years ended June 30, 2010 and 2009, respectively, and is included in other operating revenue in the consolidated financial statements. Wellmont made additional contributions of \$0 and \$4,453 during 2010 and 2009, respectively, to affiliates, which increased Wellmont's overall investment in affiliates. Wellmont received distributions of \$6,730 and \$7,181 during 2010 and 2009, respectively, which reduced Wellmont's overall investment in the affiliates.

The following table summarizes the unaudited aggregate financial information of Wellmont's investments in affiliates:

	<u>2010</u>	<u>2009</u>
Total assets	\$ 129,720	137,737
Total liabilities	13,943	39,913
Total net assets	<u>\$ 115,777</u>	<u>97,824</u>
Net revenues	\$ 166,815	178,253
Expenses	142,534	159,004

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2010 and 2009

(Dollars in thousands)

Wellmont's equity investment in these affiliates and its ownership percentage as of June 30, 2010 and 2009 are as follows:

	Amount		Percentage	
	2010	2009	2010	2009
Takoma Regional Hospital	\$ 12,645	12,302	60%	60%
Holston Valley Imaging Center (HVIC)	8,048	9,047	75	75
Advanced Home Care (AHC)	6,092	6,092	6	6
Spectrum Tennessee Network	3,850	3,462	20	20
Others	1,384	1,073	4% – 50%	4% – 50%
	<u>\$ 32,019</u>	<u>31,976</u>		

Wellmont provided billing and management services to the affiliates. Income recognized by Wellmont for the services was \$1,766 in 2010 and \$1,501 in 2009 and is included in other revenues.

Included in other receivables are \$124 and \$135 as of June 30, 2010 and 2009, respectively, of amounts due to Wellmont from these entities.

Although Wellmont's ownership percentage in Takoma Regional Hospital and HVIC is greater than 50%, Wellmont does not consolidate these entities because Wellmont only has a 50% representation on each respective board and does not have control over these entities.

Investments in certain alternative limited partnership investments contain agreements whereby Wellmont is committed to contribute approximately \$12,112 as of June 30, 2010 of additional funds to the limited partnerships in the form of capital calls at the discretion of the general partner, of which \$417 was paid subsequent to June 30, 2010.

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2010 and 2009

(Dollars in thousands)

Wellmont has invested \$10,000 in the preferred equity of a regional managed services organization and \$1,512 on a right of first refusal related to any future sale of this organization. This equity has a guaranteed annual return of at least 6.5% of the outstanding preferred equity balance.

Wellmont's investments are concentrated in stock and bond mutual funds. In the event of a downward trend in the stock and bond markets, Wellmont's overall market value of net assets could be adversely affected by a material amount. Investments in alternative investments are generally illiquid investments whose value is determined by the general partner such as hedge funds, private equity, commingled funds, and real estate funds. Distributions are only at the discretion of a voting majority of the general partners.

Wellmont evaluates whether unrealized losses on investment securities indicate other-than-temporary impairment. Based on this evaluation, the Company recognized other-than-temporary impairment losses of \$8,233 and \$4,654 on investments as of June 30, 2010 and 2009, respectively. The unrealized losses on these mutual funds were primarily caused by the overall decline in the world's economy in 2009 and 2010. Other-than-temporary impairment losses are considered as realized losses and are reported within "investment income" in the consolidated statements of operations and changes in net assets.

Gross unrealized losses on investments for which other-than-temporary impairments have not been recognized and the fair values of those investments, aggregated by the length of time that individual investments have been in a continuous unrealized loss position, at June 30, 2010 and 2009, were as follows:

		June 30, 2010					
		Less than 12 months		12 months or more		Total	
		Unrealized		Unrealized		Unrealized

Total other long-term liabilities	<u>\$ 47,364</u>	<u>38,422</u>

(10) Lines of Credit/Notes Payable

During 2008, Wellmont entered into three lines of credit for \$15,000, \$1,800, and \$10,000. The \$15,000 line of credit had a variable interest rate based upon LIBOR plus 1% and a termination date of August 2009; at June 30, 2009, \$14,000 was outstanding on this line. During 2010, the \$15,000 line of credit was paid in full with a \$14,000 note payable, which was initiated with one bank to pay off the line of credit. The \$14,000 note payable has a variable interest rate based upon LIBOR plus 2% and a termination date of December 2010. At June 30, 2010, \$14,000 was outstanding on this note. During 2008, a \$1,800 line of credit was initiated with one bank and was paid in full with the funds from the \$10,000 line of credit from another bank, which had variable interest rate based upon LIBOR plus 0.95% and a termination date of August 31, 2009; at June 30, 2010 and 2009, \$0 and \$1,811, respectively, was outstanding on this line. The \$10,000 line of credit was paid in full in 2010.

Less current maturities	<u>(11,958)</u>	<u>(13,197)</u>
	<u>\$ 467,833</u>	<u>474,608</u>

(b) Series 2007 Bonds

On July 24, 2007, The Virginia Small Business Financing Authority issued, on behalf of Wellmont, \$55,000 of Hospital Revenue Bonds, Series 2007A. The Series 2007A Bonds, with other methods of financing, were used to purchase the assets of Mountain View Regional Medical Center and Lee Regional Medical Center.

Principal on outstanding Series 2007A Bonds is payable through maturity or mandatory sinking fund redemption in annual amounts ranging from \$360 to \$2,460 commencing on September 1, 2017 through September 1, 2036, with a balloon payment of \$29,245 due on September 1, 2037. The outstanding bonds accrue interest at rates ranging from 5.125% to 5.25%.

(c) Series 2006C

On October 26, 2006, The Health, Educational and Housing Facilities Board of the County of Sullivan Tennessee issued, on behalf of Wellmont, \$200,000 of Hospital Revenue Bonds, Series 2006C. The Series 2006C Bonds were used to: finance the costs of acquisition of land for expansion, construction, expansion, equipping, and renovation of HVMC, including the construction of a new patient tower (collectively known as Project Platinum); finance the costs of the

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

(Dollars in thousands)

construction, expansion, equipping, and renovation of the emergency department at BRMC (the Bristol Emergency Department Project); and finance the costs of construction, expansion, renovation, and equipping of an operating room and related facilities at HCMH.

Principal on outstanding Series 2006C Bonds is payable through maturity or mandatory sinking fund redemption in annual amounts ranging from \$1,605 to \$25,330 commencing on September 1, 2017 through September 1, 2036. The outstanding bonds accrue interest at rates ranging from 5.00% to 5.25%.

(d) Series 2006 A and B

On June 23, 2006, The Health, Educational and Housing Facilities Board of the County of Sullivan, Tennessee issued, on behalf of Wellmont, \$98,475 of Hospital Revenue Refunding Bonds, Series 2006. This bond issuance consists of Series A tax-exempt and Series B taxable bonds of \$76,595 and \$21,880, respectively. The Series 2006 Bonds together with other available funds were used to advance refund all the previously issued Hospital Revenue Bonds, Series 1993, to reimburse Wellmont for payments made on other taxable borrowings and to pay certain expenses incurred in connection with the issuance of the Series 2006 Bonds. Upon this refunding, a trust was established to pay all future bond payments related to the Series 1993 Bonds. Wellmont was deemed to have paid the Series 1993 Bonds and these Bonds are no longer deemed to be outstanding for purposes of the Series 1993 Trust Indenture.

Principal on outstanding Series 2006A Bonds is payable through maturity or mandatory sinking fund redemption in annual amounts ranging from \$875 to \$6,400 commencing on September 1, 2013 through September 1, 2032; and the outstanding bonds accrue interest on a variable rate, which is reset monthly based upon the AAA-insured Municipal Market Data Index, plus 85 basis points. Principal on outstanding Series 2006B Bonds is payable through maturity in annual amounts ranging from \$1,600 to \$2,930 commencing on September 1, 2007 through September 1, 2016, and the outstanding bonds accrue interest at a fixed rate of 6.95%.

Outstanding Series 2006A Bonds are subject to redemption prior to maturity at the option of The Health, Educational and Housing Facilities Board of the County of Sullivan, Tennessee upon direction by Wellmont in whole at any time, or in part on any certain specified days at redemption prices of 100%–102% of the principal amount of the Series 2006A Bonds being redeemed, plus accrued interest thereon to the redemption date.

On October 1, 2010, the Series 2006B Bonds were called and paid in full at par value of \$14,880.

(e) Series 2005

On December 8, 2005, The Health, Educational and Housing Facilities Board of the County of Sullivan, Tennessee, issued, on behalf of Wellmont, \$70,620 of Hospital Revenue Refunding Bonds, Series 2005. The Series 2005 Bonds together with other available funds were used to advance refund the previously issued Hospital Revenue Bonds, Series 2002, and to pay certain expenses incurred in connection with the issuance of the Series 2005 Bonds.

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2010 and 2009

(Dollars in thousands)

Principal on outstanding Series 2005 Bonds is payable through maturity or scheduled mandatory sinking fund redemption in annual amounts ranging from \$1,945 to \$3,390 commencing on September 1, 2007 through September 1, 2032. The terms of the bonds provide that bondholders may redeem or put the bonds to the remarketing agent on dates that approximate a weekly basis. The remarketing agent is obligated to remarket the redeemed bonds on a “best efforts” basis. Redeemed bonds are repaid to bondholders from the proceeds of the remarketing effort or, in the event of an inability to remarket the bonds, from a letter of credit. Subsequent to year-end, Wellmont amended its letter of credit to cover an amount equal to the principal and up to 40 days’ interest on the bonds at a maximum interest rate of 12% per annum, and is effective through July 1, 2011. This letter secures the bonds in the event of a failed remarketing or liquidity issue. In the event of a liquidity drawing under the letter of credit, Wellmont shall pay the Base Rate for the first 90 days equal to the greater of (i) the Prime Rate plus 1.50% per annum, ii) the Federal Funds Rate plus 3.00% per annum, or iii) 7.50% per annum. ; the Base Rate plus 0.50% for days 91 through 366 and the Base Rate plus 1.00% thereafter until the amount is paid in full.

Outstanding Series 2005 Bonds are subject to redemption prior to maturity at the option of The Health, Educational and Housing Facilities Board of the County of Sullivan, Tennessee upon direction by Wellmont in whole at any time, or in part on any certain specified days at redemption prices of 100%–102% of the principal amount of the Series 2005 Bonds being redeemed, plus accrued interest thereon to the redemption date.

(f) Series 2003

On June 1, 2003, The Health, Educational and Housing Facilities Board of the County of Sullivan, Tennessee issued, on behalf of Wellmont, \$59,100 of Hospital Revenue Bonds, Series 2003. The bonds were issued to provide funds necessary to refund Wellmont’s Hospital Revenue Bonds, Series 1993 (HVHC), to fund a debt service reserve fund and to pay certain expenses incurred in connection with the issuance of the Series 2003 Bonds.

The Wellmont Series 2003 Bonds consist of \$27,460 in fixed rate serial bonds and \$19,280 in fixed rate term bonds payable through maturity or mandatory sinking fund redemption maturing in annual amounts ranging from \$3,230 on September 1, 2007 to \$4,140 on September 1, 2019, and carrying interest rates ranging from 2.5% to 5.00%.

(g) Master Trust Indenture

The master trust indenture and loan agreements for the 2007, 2006, 2005, and 2003 bonds contain certain requirements regarding deposits to trustee funds, maintenance of rates, maintenance of debt service coverage and liquidity, permitted indebtedness, and permitted disposition of assets. Gross receipts of Wellmont collateralize the bonds. The purpose of the master trust indenture is to provide a mechanism for the efficient and economical issuance of notes by individual members of Wellmont using the collective borrowing capacity and credit rating of Wellmont. The master trust indenture requires individual members of Wellmont to make principal and interest payments on notes issued for their benefit. The master trust indenture also requires Wellmont members to make payments on notes issued by other members of Wellmont if such other members are unable to satisfy their

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2010 and 2009

(Dollars in thousands)

obligations under the master trust indenture. Payments of principal and interest on certain bonds are also insured by bond insurance policies.

Funds held by the trustee related to the various revenue bonds are available for specific purposes. The bond interest and revenue funds may be used only to pay interest and principal on the bonds; the debt service reserve fund may be used to pay interest and principal if sufficient funds are not available in the bond interest and revenue funds. The original issue discount and premium on all Bond Series outstanding are being amortized over the life of the bond issue using the effective-interest method.

(h) Notes Payable

During 2007, Wellmont entered into a five-year \$3,000 note payable, which has a fixed interest rate of 7.25% and a termination date of July 2011; at June 30, 2010 and 2009, \$2,062 and \$2,319, respectively, was outstanding on this note.

During 2008, Wellmont entered into a five-year \$2,400 term note payable, which has a fixed interest rate of 7.25% and a termination date of August 2012; at June 30, 2010 and 2009, \$1,600 and \$2,080, respectively, was outstanding on this note.

During 2010, Wellmont entered into a \$2,767 note payable to finance the purchase of Cardiovascular Associates. The note payable has a fixed interest rate of 5.5% and a termination date of May 2013. At June 30, 2010, \$2,767 was outstanding on this note.

(i) Capital Lease Obligations

Wellmont has entered into leases for certain equipment under agreements classified as capital leases that expire over periods through 2011. Assets under capital leases are included in property and equipment and have a net carrying value of \$26,325 and \$29,625 as of June 30, 2010 and 2009, respectively. Amortization of capital assets is included in depreciation expense. The lease obligations are recorded at the net present value of the minimum lease payments with interest rates from 4.3% to 6.0%.

(j) Long-term Debt Maturities Schedule

Bond maturities in accordance with the original terms of the Master Trust Indenture and other long-term debt maturities for each of the next five years and in the aggregate at June 30, 2010 are as follows:

2011	\$	11,958
2012		13,329
2013		12,935
2014		12,193
2015		12,415
Thereafter		410,536
	\$	<u>473,366</u>

The following table reflects the required repayment terms for the years ended June 30 of Wellmont's debt obligations in the event that the put options associated with the 2005 bonds were exercised, but not successfully remarketed.

2011	\$	11,958
2012		30,859
2013		30,365
2014		29,508
2015		9,755
Thereafter		360,921
	\$	<u>473,366</u>

Interest paid for the years ended June 30, 2010 and 2009 was \$20,792 and \$21,564, respectively, net of amounts capitalized. Interest costs of \$2,776 and \$3,421, net of interest income of \$683 and \$3,293 in 2010 and 2009, respectively, were capitalized.

(12) Derivative Transactions

Interest Rate Swaps: Wellmont is a party to a number of interest rate swap agreements. Such swaps have not been designated as hedges and are valued at estimated fair value in the accompanying consolidated balance sheets. By using derivative financial instruments to hedge exposures to changes in interest rates, Wellmont exposes itself to credit risk and market risk. Credit risk is the failure of the counterparty to perform under the terms of the derivative contract. When the fair value of a derivative contract is positive, the counterparty owes Wellmont, which creates credit risk for Wellmont. When the fair value of a derivative contract is negative, Wellmont owes the counterparty, and therefore, Wellmont is not exposed to the counterparty's credit risk in those circumstances. Pursuant to the terms of its interest rate swap agreements, Wellmont is required to postcollateral with its counterparties under certain specified conditions. Collateral posting requirements are based on the amount of Wellmont's derivative liability and

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2010 and 2009

(Dollars in thousands)

Wellmont's bond rating. As of June 30, 2010 and 2009, Wellmont was not required to postcollateral related to its swaps.

Market risk is the adverse effect on the value of a derivative instrument that results from a change in interest rates. The market risk associated with interest-rate contracts is managed by establishing and monitoring parameters that limit the types and degree of market risk that may be undertaken.

In September and October 2008, the counterparty and credit support provider to the swaps filed bankruptcy. Subsequent to the bankruptcy filings, no payments have been made by Wellmont or the counterparty to each other. As of June 30, 2010, the net amounts due to Wellmont for this period are less than \$100 and have been fully reserved. The bankruptcy process is underway and the outcome cannot be determined at this time.

Management's primary objective in holding such derivatives is to introduce a fixed or variable rate component into its debt structure using LIBOR. The fair value as of June 30, 2010 and 2009 of approximately \$(12,943) and \$(10,250), respectively, is included in other liabilities in the consolidated balance sheets. The change in the fair value of the derivative instruments was approximately \$(2,693) and \$(5,747), respectively, in 2010 and 2009 and is included in nonoperating losses, net in the consolidated statements of operations. The terms of the swap agreements allow netting of all amounts due from/to the counterparty. The net amounts have been recorded pending the outcome of any bankruptcy proceedings. The following is a summary of the interest rate swap information as of June 30, 2010:

<u>Type of interest swap</u>	<u>Debt hedging</u>	<u>Notional amount</u>	<u>Effective date</u>	<u>Maturity date</u>	<u>Rate paid</u>	<u>Rate received</u>	<u>Swap fair value asset (liability)</u>
Total return swap	Series 2006A	\$ 76,595	June 29, 2006	September 1, 2011	1.103%	5.440%	\$ 1,101

(13) Pension and Other Postretirement Benefits

Wellmont sponsors a retirement program and defined contribution retirement plan (Retirement Plan) that covers substantially all employees. This program and the related Retirement Plan were created from amendments, restatements, and mergers of existing defined contribution plans at BRMC and HVMC. Wellmont makes annual contributions to the Retirement Plan in an amount equal to 3% of each participant's base wages and contributes an additional amount, based on each participant's voluntary contributions, which cannot exceed certain limits established in the Internal Revenue Code, up to 3% of each participant's wages. The total pension expense related to the Retirement Plan was \$9,990 and \$9,937 for the years ended June 30, 2010 and 2009, respectively.

HVMC sponsored a noncontributory, defined benefit pension plan covering substantially all its employees. However, effective June 30, 1996, this plan was frozen and no further benefits accrue. LPH also sponsors a defined benefit pension plan covering substantially all its employees.

HVMC's defined pension benefits are actuarially determined based on a formula taking into consideration an employee's compensation and years of service. HVMC's funding policy is to make annual contributions to the plan based upon the funding standard developed by the plan actuary. This standard uses the projected unit credit actuarial cost method, including the amortization of prior service costs, over a 20-year period. Contributions are intended to provide not only for benefits attributed to service to date but also for those expected to be earned in the future. The LPH plan contains similar funding and actuarial policies.

On June 30, 2007, the HVMC plan merged into LPH plan and the plan name changed to Wellmont Health System Defined Benefit Plan. At the end of 2008, only a single defined pension plan exists. Collectively, the two defined benefit plans are referred to as the "Plans."

Wellmont recognizes the funded status (i.e., difference between the fair value of plan assets and projected benefit obligations) of its defined benefit pension plans as an asset or liability in its consolidated balance sheets and recognizes changes in that funded status in the year in which the changes occur as a change in unrestricted net assets. All defined benefit pension plans use a June 30 measurement date.

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2010 and 2009

(Dollars in thousands)

The following table sets forth the funded status of the combined Plans, amounts recognized in the accompanying consolidated financial statements, and assumptions at June 30:

	<u>2010</u>	<u>2009</u>
Change in benefit obligation:		
Benefit obligation at beginning of year	\$ 40,035	37,212
Service cost	230	234
Interest cost	2,432	2,441
Actuarial losses	4,008	2,132
Benefits paid	<u>(2,140)</u>	<u>(1,984)</u>
Benefit obligation at end of year	\$ <u>44,565</u>	<u>40,035</u>
Change in plan assets:		
Fair value of plan assets at beginning of year	33,326	43,420
Actual return on plan assets	3,361	(8,110)
Benefits paid	<u>(2,140)</u>	<u>(1,984)</u>
Fair value of plan assets at end of year	<u>34,547</u>	<u>33,326</u>
Funded status	\$ <u><u>(10,018)</u></u>	<u><u>(6,709)</u></u>
Amounts recognized in the accompanying consolidated balance sheets:		
Pension liability – other long-term liability	\$ (10,018)	(6,709)

(Dollars in thousands)

	<u>2010</u>	<u>2009</u>
Amounts not yet reflected in net periodic benefit cost and included as an accumulated charge to unrestricted net assets:		
Unrecognized actuarial loss	\$ 13,158	10,851
Unrecognized prior service cost	<u>2</u>	<u>2</u>
Net amounts included as an accumulated charge to unrestricted net assets	\$ <u>13,160</u>	<u>10,853</u>
Calculation of change in unrestricted net assets:		
Accumulated charge to unrestricted net assets, end of year	\$ 13,160	10,853
Reversal of accumulated credit to unrestricted net assets, prior year	<u>(10,853)</u>	<u>2,357</u>
Change in unrestricted net assets	\$ <u>2,307</u>	<u>13,210</u>
Other changes in plan assets and benefit obligations recognized in unrestricted net assets:		
Actuarial loss arising during the year	\$ 2,907	13,210
Amortization of actuarial gain or loss	(600)	—
Amortization of prior service cost	<u>—</u>	<u>—</u>
Net amounts recognized as a charge to unrestricted net assets	\$ <u>2,307</u>	<u>13,210</u>

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2010 and 2009

(Dollars in thousands)

	<u>2010</u>	<u>2009</u>
Estimate of amounts that will be amortized from unrestricted net assets to net pension cost in 2011:		
Amortization of net loss	\$ 791	—
Amortization of prior service cost	—	2
Estimated future benefit payments:		
Fiscal 2011	2,211	2,150
Fiscal 2012	2,220	2,189
Fiscal 2013	2,337	2,314
Fiscal 2014	2,472	2,456
Fiscal 2015 (FY09 fiscal 2015 – 2019)	2,578	13,769
Fiscal 2016 – 2020	14,278	
Weighted average assumptions used to determine benefit obligations:		
Settlement (discount) rate	5.50%	6.25%
Weighted average rate of increase in future compensation levels	3.00	3.00
Components of net periodic benefit cost (benefit):		
Service cost	\$ 230	234
Interest cost	2,432	2,441
Expected return on plan assets	(2,259)	(2,968)
Amortization of unrecognized net loss	600	—
Amortization of unrecognized prior service cost	—	0
Net periodic benefit cost (benefit)	<u>\$ 1,003</u>	<u>(293)</u>
Weighted average assumptions used to determine net periodic benefit cost:		
Settlement (discount) rate	6.25%	6.75%
Expected long-term return on plan assets (HVMC)	7.00	7.00
Expected long-term return on plan assets (LPH)	7.00	7.00
Weighted average rate of increase in future compensation levels	3.00	3.00

Wellmont's overall expected long-term rate of return on assets is 7.00%. The expected long-term rate of return is based on the portfolio as a whole and not on the sum of the returns on individual asset categories. The return is based exclusively on historical returns, without adjustments.

Wellmont does not expect to make any contributions to the Plans during 2011.

Wellmont has developed a plan investment policy, which is reviewed and approved by the board of directors. The policy established goals and objectives of the fund, asset allocations, asset classifications, and manager guidelines. The policy dictates a target asset allocation and an allowable range for such

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2010 and 2009

(Dollars in thousands)

categories based on quarterly investment fluctuations. Investments are managed by independent advisers who are monitored by management and the board of directors.

The table below shows the target allocation and actual asset allocations as of June 30, 2010 and 2009:

<u>Asset</u>	<u>Target allocation</u>	<u>June 30,</u>	
		<u>2010</u>	<u>2009</u>
Equity securities	65%	56%	53%
Fixed income	28	27	29
Cash	5% – 15%	1	3
Other	5 – 15	16	15

Wellmont monitors the asset allocation and executes required recalibrations of the portfolio allocation on a regular basis in response to fluctuations in market conditions and the overall portfolio composition.

HVMC also participates in a health and welfare plan for its retirees. The plan provides postretirement medical and life insurance benefits to certain employees who meet minimum age and service requirements. Effective January 1, 1995, the death benefit was changed to provide a flat \$5 benefit to all future retirees. During 1995, the medical program for retirees was amended to terminate medical benefits for any active employees who would not meet the full eligibility requirements of the program by January 1, 1996. The plan is contributory and contains other cost-sharing features such as deductibles and coinsurance.

Notes to Consolidated Financial Statements

June 30, 2010 and 2009

(Dollars in thousands)

The following table sets forth the postretirement plan's funded status, amounts recognized in the accompanying consolidated financial statements, and assumptions at June 30:

	<u>2010</u>	<u>2009</u>
Change in benefit obligation:		
Benefit obligation at beginning of year	\$ 5,653	5,637
Interest cost	320	355
Plan participants contributions	73	36
Actuarial losses	197	23
Benefits paid	<u>(382)</u>	<u>(398)</u>
Benefit obligation at end of year	<u>5,861</u>	<u>5,653</u>
Change in plan assets:		
Fair value of plan assets at beginning of year	—	—
Employer contribution	309	362
Plan participants contributions	73	36
Benefits paid	<u>(382)</u>	<u>(398)</u>
Fair value of plan assets at end of year	<u>—</u>	<u>—</u>
Funded status	\$ <u>(5,861)</u>	<u>(5,653)</u>
Amounts recognized in the consolidated balance sheets consist of:		
Noncurrent liabilities	\$ (5,861)	(5,653)
Accumulated credit to unrestricted net assets	<u>3,560</u>	<u>4,076</u>
	\$ <u>(2,301)</u>	<u>(1,577)</u>

Amounts recognized as an accumulated credit to unrestricted net assets consist of:

	<u>Postretirement benefits</u>	
	<u>2010</u>	<u>2009</u>
Net actuarial gain	\$ 3,560	4,076

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2010 and 2009

(Dollars in thousands)

Net periodic benefit cost recognized and other changes in plan assets and benefit obligations recognized in unrestricted net assets in 2010 and 2009 were:

	Postretirement benefits	
	2010	2009
Net periodic benefit cost:		
Interest cost	\$ 320	355
Amortization of net gain	(319)	(335)
Net periodic benefit cost recognized	<u>1</u>	<u>20</u>
Other changes in plan assets and benefit obligations recognized in unrestricted net assets:		
Net actuarial loss	197	23
Amortization of net gain	319	335
Total recognized as a charge to unrestricted net assets	<u>516</u>	<u>358</u>
Total recognized in net periodic benefit cost and unrestricted net assets	<u>\$ 517</u>	<u>378</u>

The net gain and prior service credit for the defined benefit postretirement plan that will be amortized from unrestricted net assets into net periodic benefit cost over the next fiscal year are \$(261) and \$0, respectively. Weighted average assumptions used to determine benefit obligations for 2010 and 2009 were as follows:

	Postretirement benefits	
	2010	2009
Discount rate	5.00%	6.00%
Rate of compensation increase	—	—
Healthcare cost trend rate	5.00	5.00

Weighted average assumptions used to determine net benefit cost for 2010 and 2009 were as follows:

	Postretirement benefits	
	2010	2009
Discount rate	6.00%	6.75%
Expected long-term rate of return on plan assets	N/A	N/A
Rate of compensation increase	N/A	N/A
Healthcare cost trend rate	5.00%	5.00%

Wellmont's overall expected long-term rate of return on assets is 7%. The expected long-term rate of return is based on the portfolio as a whole and not on the sum of the returns on individual asset categories. The return is based exclusively on historical returns, without adjustments.

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2010 and 2009

(Dollars in thousands)

For measurement purposes, a 5% annual rate of increase in the per capita cost of covered healthcare benefits was assumed for 2010.

The following table summarizes the effect of one-percentage-point increase/decrease in healthcare costs trends:

	<u>2010</u>	<u>2009</u>
Effect of one-percentage-point increase in healthcare cost trend on:		
Service and interest cost	\$ 20	22
Accumulated pension benefit obligation	330	326
Effect of one-percentage-point decrease in healthcare cost trend on:		
Service and interest cost	(18)	(20)
Accumulated pension benefit obligation	(294)	(291)

The asset allocations of Wellmont's pension and postretirement benefits as of June 30, 2010 and 2009, respectively, were as follows:

Fair value measurement at June 30, 2010				
pension benefits – plan assets				
		Quoted prices		
<u>Asset category</u>	<u>Total</u>	in active	Significant	Significant

Balance at June 30, 2010	\$ 5,500

(14) Self-Insurance Programs

Wellmont is self-insured for professional and general liability and workers’ compensation liability. Consulting actuaries have been retained to determine funding requirements and estimate claim liability exposures. Wellmont has established revocable self-insurance trust funds to provide for professional and general liability claims and workers’ compensation claims and related expenses. Wellmont’s contributions to the self-insurance trusts are based upon actuarial determinations by an independent service company. The professional and general liability self-insurance program is supplemented by umbrella excess liability policies consisting of various layers of coverage with commercial carriers based on policy year. The workers’ compensation program is supplemented for Tennessee and Virginia by excess workers’ compensation policies, with a commercial carrier for statutory limits per occurrence. Wellmont does not

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2010 and 2009

(Dollars in thousands)

qualify as a self-insurer in Kentucky and hence purchases a separate policy for its operation in Kentucky. Provisions based on actuarial estimates are made for the ultimate cost of claims asserted, as well as estimates of claims incurred but not reported as of the respective consolidated balance sheet dates. Insurance expense under these programs amounted to approximately \$3,414 and \$5,658 for the years ended June 30, 2010 and 2009, respectively, and are included in other expense in the accompanying consolidated statements of operations and changes in net assets.

At June 30, 2010 and 2009, Wellmont was involved in litigation relating to medical malpractice and workers' compensation claims arising in the ordinary course of business. There are also known incidents that occurred through June 30, 2010 that may result in the assertion of additional claims, and other claims may be asserted arising from services provided to patients in the past. Claims have been filed requesting damages in excess of the amount accrued for estimated malpractice costs. Management of Wellmont is of the opinion that estimated professional and general liability amounts accrued at June 30, 2010 are adequate to provide for potential losses resulting from pending or potential litigation. Amounts of claim settlements may be more or less than what has been provided for by management. The ultimate settlement of claims could be different from recorded accruals, with such differences being potentially significant.

Wellmont is also self-insured for medical and other healthcare benefits provided to its employees and their families. A provision for estimated incurred but not reported claims has been provided in the consolidated financial statements.

(15) Commitments and Contingencies

Construction in progress at June 30, 2010 and 2009 relates primarily to the completion of certain buildings and renovations. Total costs to complete these and other projects were approximately \$11,920 at June 30, 2010. Wellmont has entered into contracts of approximately \$11,920 related to these projects.

Wellmont leases certain equipment and office space under operating lease agreements. Total rental expense under cancelable and noncancelable agreements was \$16,857 and 16,441 for the years ended June 30, 2010 and 2009, respectively. Minimum future lease payments under noncancelable operating leases with initial or remaining lease terms in excess of one year as of June 30, 2010 are as follows:

2011	\$	14,227
2012		12,318
2013		8,149
2014		3,763
2015		3,383
Thereafter		20,699
	\$	<u>62,539</u>

The HCHM lease to WHCMH is for 20 years and can be automatically extended for two additional terms of 10 years each. Should WHCMH generate annual net excess revenue over expenses, 50% shall be transferred to a designated fund in the Foundation for the purpose of healthcare projects. No transfers were required for the years ended June 30, 2010 and 2009.

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2010 and 2009

(Dollars in thousands)

Wellmont has entered into contractual employment relationships with physicians to provide services to Wellmont physician practices that are intended to qualify under the employee safe harbor of the Anti-Kickback Statute and the employee exception of the Physician Self-Referral Law. These contracts have terms of varying lengths, guarantee certain base payments, and may provide for additional incentives based upon productivity.

The healthcare industry is subject to numerous laws and regulations of federal, state, and local governments. These laws and regulations include, but are not necessarily limited to, such matters as licensure, accreditation, government healthcare program participation requirements, reimbursement for patient services, and Medicare fraud and abuse. Recently, government activity has increased with respect to investigations and allegations concerning possible violations of fraud and abuse statutes and regulations by healthcare providers. Violations of these laws and regulations could result in expulsion from government healthcare programs together with the imposition of significant fines and penalties, as well as significant repayments for patient services previously billed. Management believes Wellmont is in compliance with fraud and abuse statutes and other applicable government laws and regulations. Compliance with such laws and regulations can be subject to future government review and interpretation, as well as regulatory actions unknown or unasserted at this time.

(16) Functional Expense Disclosure

Wellmont provides healthcare services to residents within its geographic location. Expenses based upon functional classification related to providing these services during the years ended June 30 are as follows:

	<u>2010</u>	<u>2009</u>
Professional care of patients	\$ 605,360	617,198
Administrative and general	117,123	101,641
Fund-raising	1,235	1,260
	<u>\$ 723,718</u>	<u>720,099</u>

(17) Income Taxes

Wellmont, Inc. and its subsidiaries file consolidated federal and separate company state income tax returns. These companies have combined net operating loss carryforwards for federal income tax purposes of approximately \$52,000 at June 30, 2010, which begin expiring in fiscal 2016 and expire through 2030. These net operating losses can be used to offset future consolidated taxable income of Wellmont, Inc. and subsidiaries. Wellmont participates in certain activities that generate unrelated business taxable income. These activities have generated net operating losses in prior years, and Wellmont files a Form 990-T with the Internal Revenue Service to report such activity. Wellmont has net operating loss carryforwards for federal income tax purposes of approximately \$975 for unrelated business activities. Management believes that it is not more likely than not that deferred tax assets arising from net operating loss carryforwards will be realizable. Accordingly, these are fully reserved at June 30, 2010 and 2009.

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2010 and 2009

(Dollars in thousands)

(18) Concentration of Credit Risk

Wellmont grants credit without collateral to its patients, most of who are local residents and are insured under third-party payor agreements. The mix of receivables from patients and third-party payors at June 30, 2010 and 2009 was as follows:

	<u>2010</u>	<u>2009</u>
Medicare	46%	45%
TennCare	4	4
Medicaid	8	8
Other third-party payors	31	31
Patients	11	12
	<u>100%</u>	<u>100%</u>

(19) Disclosures about Fair Value of Financial Instruments

(a) Fair Value of Financial Instruments

The following methods and assumptions were used to estimate fair value of each class of instruments:

Cash and Cash Equivalents

The carrying amount approximates fair value due to the short maturities of these instruments.

Patient Accounts and Other Receivables

The net recorded carrying value approximates fair value due to the short maturities of these instruments.

Investments and Assets Limited as to Use

The fair values of investments and assets limited as to use are based on quoted market prices and quotes obtained from security brokers or, in the case of the limited partnerships, by the general partner.

Accounts Payable and Accrued Expenses

The carrying amount approximates fair value due to the short maturities of these liabilities.

Estimated Third-Party Payor Settlements, Other Long-Term Liabilities

The carrying amount approximates fair market value due to the nature of these liabilities.

Long-Term Debt

The fair value of revenue bonds, using current market rates, was estimated at \$422,290 and \$344,863 for the years ended June 30, 2010 and 2009, respectively.

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2010 and 2009

(Dollars in thousands)

(b) Fair Value Hierarchy

On July 1, 2008, Wellmont adopted new guidance issued by FASB for fair value measurement of financial assets and financial liabilities and for fair value measurement of nonfinancial items that are recognized or disclosed at fair value in the consolidated financial statements on a recurring basis now codified into ASC 820, *Fair Value Measurements and Disclosures*. ASC 820 establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1 measurement) and the lowest priority to measurements involving significant unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are as follows:

- Level 1 inputs are quoted market prices (unadjusted) in active markets for identical assets or liabilities that Wellmont has the ability to access at the measurement date.
- Level 2 inputs are inputs other than quoted market prices including within Level 1 that are observable for the asset or liability, either directly or indirectly. If the asset or liability has a specified (contractual) term, a Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 inputs are unobservable inputs for the asset or liability.

The level in the fair value hierarchy within which a fair value measurement in its entirety falls is based on the lowest level input that is significant to the fair value measurement in its entirety.

In conjunction with the adoption of the new guidance, Wellmont elected to early adopt the measurement provisions of Accounting Standards Update No. 2009-12 to certain investments in funds that do not have readily determinable fair values including private investments, hedge funds, real estate, and other funds. This guidance amends the previous guidance and allows for the estimation of the fair value of investments in investment companies for which the investment does not have a readily determinable fair value using net asset value per share or its equivalent. Net asset value, in many instances may not equal fair value that would be calculated pursuant to ASC 820. The fair value of these investments was \$56,972 and \$37,312 at June 30, 2010 and 2009, respectively.

Independent Auditors' Report

The Board of Directors
Wellmont Health System:

We have audited the accompanying consolidated balance sheets of Wellmont Health System and affiliates (Wellmont) as of June 30, 2011 and 2010, and the related consolidated statements of operations and changes in net assets, and cash flows for the years then ended. These consolidated financial statements are the responsibility of Wellmont's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Wellmont's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of Wellmont Health System and affiliates as of June 30, 2011 and 2010, and the consolidated results of their operations and changes in net assets, and their cash flows for the years then ended in conformity with U.S. generally accepted accounting principles.

Supplemental disclosures of noncash items:

Wellmont entered into capital lease obligations for buildings and equipment in the amount of \$5,785 and \$1,290 in 2011 and 2010, respectively.

Additions to property and equipment financed through current liabilities of \$2,933 and \$5,182 in 2011 and 2010, respectively.

See accompanying notes to consolidated financial statements.

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2011 and 2010

(Dollars in thousands)

(1) Operations and Basis of Presentation

Wellmont Health System (Wellmont) was formed to assume operations of Bristol Regional Medical Center (BRMC) and Holston Valley Health Care, Inc. (HVHC), including Holston Valley Medical Center, Inc. (HVMC), and to act as sole corporate member of its consolidated foundations. Effective July 1, 1996, under terms of an agreement and plan of consolidation and merger, BRMC and HVHC, including HVMC, were merged and consolidated into Wellmont. Effective January 1, 1997, Lonesome Pine Hospital (LPH), a Virginia corporation, was merged into Wellmont under terms of a plan of merger and merger agreement. Effective July 1, 2000, Hawkins County Memorial Hospital (HCMH) transferred its operations and operating assets to Wellmont Hawkins County Memorial Hospital (WHCMH), a tax-exempt organization that is wholly owned and controlled by Wellmont. Hancock County Hospital (HCH), a critical access hospital, was opened in March 2005 to help provide for the immediate healthcare needs of the residents of Sneedville and the surrounding counties. As of July 16, 2007, Wellmont acquired Jenkins Community Hospital in Kentucky. As of August 1, 2007, Wellmont acquired two hospitals in Virginia, Lee Regional Medical Center in Pennington Gap and Mountain View Regional Medical Center in Norton. On May 30, 2008, Wellmont acquired the Holston Valley Cath Lab, an outpatient lab. On May 1, 2010, Wellmont acquired Cardiovascular Associates. On January 1, 2011 Wellmont acquired Pulmonary Associates of Kingsport.

As of April 30, 2009, Wellmont closed Jenkins. The consolidated financial statements for the years ended June 30, 2011 and 2010 present Jenkins as a discontinued operation. Losses of \$120 and \$474 for the years ended June 30, 2011 and June 30, 2010, respectively, are included in discontinued operations.

As of September 23, 2010 Wellmont sold the majority of Medical Mall Pharmacy's assets to a national pharmacy company for \$1,300 plus inventory value and recorded a gain of approximately \$517 at June 30, 2011. The consolidated financial statements for the years ended June 30, 2011 and 2010 present Medical Mall Pharmacy as a discontinued operation. Losses of \$353 and \$635 for the years ended June 30, 2011 and June 30, 2010, respectively, are included in discontinued operations.

All acute care operations remain separately licensed and are treated as operating divisions within Wellmont. Wellmont's continuing operations consist primarily of the delivery of healthcare services in northeast Tennessee, and southwest Virginia.

The consolidated financial statements include the acute care operations of the above entities along with:

- Wellmont Foundation (the Foundation), which was created from the merger of Bristol Regional Medical Center Foundation and Holston Valley Health Care Foundation, Inc. The Foundation conducts fund-raising activities for the benefit of Wellmont.
- Wellmont, Inc., a wholly owned taxable subsidiary of Wellmont, formed as the holding company of various other taxable subsidiaries that provide medical collection and medical laundry services, operate physician practices, provide other healthcare-related services, and invest in affiliates and other activities.

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2011 and 2010

(Dollars in thousands)

- The Alzheimer's Center of East Tennessee was merged into Wellmont and changed its name to Wellmont Madison House effective September 1, 1997. Wellmont is the sole corporate member and the consolidated financial statements include the operations of this entity.

All significant intercompany accounts and transactions have been eliminated in the accompanying consolidated financial statements.

(2) Significant Accounting Policies

A summary of significant accounting policies follows:

(a) *Use of Estimates*

The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the consolidated financial statements. Estimates also affect the reported amounts of revenue and expenses during the reporting period. Significant estimates include: allowances for contractual adjustments and bad debts; third-party payor settlements; valuation of investments, land, buildings, equipment and goodwill; and self-insurance and other liabilities. Actual results could differ from these estimates.

(b) *Cash and Cash Equivalents*

Wellmont considers all highly liquid investments with a maturity of three months or less when purchased, excluding amounts whose use is limited by board of director's designation or other arrangements under trust agreements, to be cash equivalents.

(c) *Investments*

Marketable equity securities and debt securities are recorded at fair value and classified as other than trading. Fair value is determined primarily using quoted prices (unadjusted) in active markets for identical assets or liabilities that Wellmont has the ability to access at the measurement date. However, Wellmont also uses observable and unobservable inputs for investments without quoted market prices to determine the fair value of certain investments at the measurement date. Investments in limited partnerships are recorded at fair value as determined by the partnership using net asset value. Wellmont has adopted the measurement provisions of Accounting Standards Update No. 2009-12, *Investments in certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*, to certain investments in funds that do not have readily determinable fair values including private investments, hedge funds, real estate, and other funds. Investments in affiliates in which Wellmont has significant influence but does not control are reported on the equity method of accounting, which represents Wellmont's equity in the underlying net book value. Long-term investments include those investments that have not been designated by the board of directors for specific purposes and are also not intended to be used for the liquidation of current liabilities. Investment income is recognized when earned.

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2011 and 2010

(Dollars in thousands)

Realized gains and losses are determined on the specific-identification method and included in investment income with interest and dividends. Investment income is reported net of related investment fees. Unrealized gains and losses are included in other changes in unrestricted net assets except for losses determined to be other than temporary, which are considered realized losses and included in investment income.

(d) *Assets Limited as to Use*

Assets limited as to use primarily include assets held by trustees under bond indenture and self-insurance agreements, as well as designated assets set aside by the board of directors for future capital improvements, over which the board of directors retains control and may, at its discretion, subsequently use for other purposes. Amounts required to meet current liabilities of Wellmont have been reclassified to current assets in the accompanying consolidated balance sheets.

(e) *Inventories*

Inventories are stated at the lower of cost or market value and are valued principally by the first-in, first-out and average-cost methods.

(f) *Land, Buildings, and Equipment*

Land, buildings, and equipment are stated at cost, if purchased, or fair value at date of donation. Depreciation is computed using the straight-line method based on the estimated useful life of the asset, ranging from 3 to 40 years. Buildings and equipment held under capital leases are recorded at net present value of future lease payments and are amortized on a straight-line basis over the shorter of the lease term or estimated useful life of the asset. Costs of maintenance and repairs are expensed as incurred. Upon sale or retirement of land, buildings, or equipment, the cost and related accumulated depreciation are eliminated from the respective accounts and the resulting gain or loss, if any, is included in other revenues on the consolidated statements of operations and changes in net assets. Interest costs incurred on borrowed funds during the period of construction of capital assets is capitalized as a component of the cost of acquiring those assets. The amount capitalized is net of investment earnings on assets limited as to use derived from borrowings designated for capital assets. Renewals and betterments are capitalized and depreciated over their useful life, whereas costs of maintenance and repairs are expensed as incurred.

Wellmont evaluates long-lived assets for impairment on annual basis. Long-lived assets are considered to be impaired whenever events or changes in circumstances indicate the carrying amount of an asset may not be recoverable from future cash flows. Recoverability of long-lived assets to be held and used is measured by a comparison of the carrying amount of an asset to future cash flows expected to be generated by the asset. When such assets are considered to be impaired, the impairment loss recognized is measured by the amount by which the carrying value of the asset exceeds the fair value of the asset.

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2011 and 2010

(Dollars in thousands)

(g) Goodwill

Effective July 1, 2010, Wellmont adopted ASU 2010-07 which in part requires healthcare entities to follow ASC Topic 350-20-35, *Intangibles – Goodwill and Other*. ASC Topic 350-20-35 requires goodwill of not-for-profit entities to be evaluated for impairment at least annually. The goodwill impairment test is a two-step test. Under the first step, the fair value of each reporting unit is compared with its carrying value (including goodwill). If the fair value of a reporting unit is less than its carrying value, an indication of goodwill impairment exists for the reporting unit and the entity must perform step two of the impairment test (measurement). Under step two, an impairment loss is recognized for any excess of the carrying amount of the reporting unit’s goodwill over the implied fair value of that goodwill. The implied fair value of goodwill is determined by allocating the fair value of the reporting unit in a manner similar to a purchase price allocation and the residual fair value after this allocation is the implied fair value of the reporting unit goodwill. Fair value of the reporting unit is determined using a discounted cash flow analysis. If the fair value of the reporting unit exceeds its carrying value, step two does not need to be performed. Wellmont has determined that the appropriate reporting unit for goodwill is the consolidated Wellmont entity and the annual impairment test is performed as of June 30. A summary of goodwill and related amortization for the year ended June 30 follows:

	<u>2010</u>	<u>Additions</u>	<u>Decreases</u>	<u>2011</u>
Goodwill	\$ 9,501	7,220	—	16,721
	<u>2009</u>	<u>Additions</u>	<u>Decreases</u>	<u>2010</u>
Goodwill	\$ 12,604	—	—	12,604
Amortization	(3,095)	(8)	—	(3,103)
	\$ 9,509	(8)	—	9,501

(h) Deferred Debt Expense

Deferred debt expense is amortized over the life of the related bond issues using the effective-interest method.

(i) Derivative Financial Instruments

As further described in note 12, Wellmont is a party to interest rate swap and other derivative agreements. These financial instruments are not designated as hedges and are presented at estimated fair market value in the accompanying consolidated balance sheets. These fair values are based on the estimated amount Wellmont would receive, or be required to pay, to enter into equivalent agreements with a third party at the valuation date. Due to the nature of these financial instruments, such estimates are subject to significant change in the near term. Wellmont recognizes changes in the fair values of derivatives as nonoperating gains or losses in the consolidated statements of operations

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2011 and 2010

(Dollars in thousands)

and changes in net assets. The cash settlements resulting from these interest rate swaps are reported as interest expense in the consolidated statements of operations and changes in net assets.

(j) *Asset Retirement Obligations*

Asset retirement obligations (AROs) are legal obligations associated with the retirement of long-lived assets. These liabilities are initially recorded at fair value, and the related asset retirement costs are capitalized by increasing the carrying amount of the related assets by the same amount as the liability. Asset retirement costs are subsequently depreciated over the useful lives of the related assets. Subsequent to initial recognition, Wellmont records period-to-period changes in the ARO liability resulting from the passage of time and revisions to either the timing or the amount of the original estimate of undiscounted cash flows. Wellmont derecognizes ARO liabilities when the related obligations are settled.

(k) *Temporarily and Permanently Restricted Net Assets*

Temporarily restricted net assets are those whose use by Wellmont has been limited by donors to a specific time period or purpose. Permanently restricted net assets have been restricted by donors to be maintained by Wellmont in perpetuity. Generally, donors of permanently restricted assets permit use of all or part of the income earned on related investments for general or specific purposes.

Temporarily restricted net assets relate primarily to amounts held by the Foundation and include amounts restricted for future capital expenditures and for operations of such areas as children's healthcare services, hospice, and cancer research.

Net assets are released from restrictions by Wellmont incurring expenses that satisfy the restricted purposes. Such net assets released during 2011 and 2010 primarily included amounts related to the purchase of buildings and equipment for pediatrics, cancer, and other healthcare operations.

Wellmont has adopted guidance issued by FASB, which provides guidance on the net asset classification of donor-restricted endowment funds for a tax-exempt organization that is subject to an enacted version of the Uniform Prudent Management of Institutional Funds Act of 2006 (UPMIFA). Effective July 1, 2007, the State of Tennessee adopted legislation that incorporates the provisions outlined in UPMIFA. Wellmont's endowments consist solely of donor-restricted endowment funds. Wellmont's endowments consist of four individual funds established for a variety of purposes.

Wellmont has interpreted UPMIFA as requiring the preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment funds absent explicit donor stipulations to the contrary. As a result of this interpretation, Wellmont classifies as permanently restricted net assets (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment, and (c) accumulations to the donor gift instrument at the time the accumulation is added to the fund. The remaining portion of the donor-restricted endowment fund that is not classified in permanently restricted net assets is classified as temporarily restricted net assets until those amounts are approved for expenditure by the organization in a manner consistent with the standard of prudence prescribed by UPMIFA. In accordance with UPMIFA, Wellmont considers the following factors in making a determination to appropriate or

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2011 and 2010

(Dollars in thousands)

accumulate donor-restricted endowment funds: (1) the duration and preservation of the fund; (2) the purposes of the organization and the donor-restricted endowment fund; (3) general economic conditions; (4) the possible effect of inflation and deflation; (5) the expected total return from income and the appreciation of investments; (6) other resources of the organization; and (7) the investment policies of the organization.

(l) *Net Patient Service Revenue and Accounts Receivable*

Net patient service revenue is reported on the accrual basis in the period in which services are provided at the estimated net realizable amounts expected to be collected. Net patient service revenue includes amounts estimated by management to be reimbursable by patients and various third-party payors under provisions of reimbursement formulas in effect, including retroactive adjustments under reimbursement agreements. Estimated retroactive adjustments are accrued in the period related services are rendered and adjusted in future periods as final and other settlements are determined. Wellmont provides care to patients who meet criteria under its charity care policy without charge or at amounts less than its established rates. Because Wellmont does not pursue collection of amounts determined to qualify as charity care, they are not included in net patient service revenue.

Patient accounts receivable are reported net of both an allowance for contractual adjustments and an allowance for uncollectible accounts. The contractual allowance represents the difference between established billing rates and estimated reimbursement from Medicare, TennCare, Medicaid, and other third-party payment programs. Wellmont's policy does not require collateral or other security for patient accounts receivable. Wellmont routinely obtains assignment of, or is otherwise entitled to receive, patient benefits payable under health insurance programs, plans, or policies.

(m) *Revenue and Gains in Excess of Expenses and Losses*

The consolidated statements of operations and changes in net assets include revenue and gains in excess of expenses and losses. Changes in unrestricted net assets that are excluded from revenue and gains in excess of expenses and losses, consistent with industry practice, include changes in net unrealized gains (losses) on investments other than trading securities, changes in the funded status of Wellmont's defined benefit plan, contributions of long-lived assets, including assets acquired using contributions that, by donor restriction, were to be used for the purposes of acquiring such assets, and cumulative effects of changes in accounting principles.

For purposes of financial statement display, those activities directly associated with Wellmont's mission of providing healthcare services are considered to be operating activities. Nonoperating activities primarily include investment and related activities. Other operating revenues primarily include cafeteria, rental, and income from affiliates.

(n) *Contributed Resources*

Gifts of long-lived assets, such as land, buildings, or equipment, are reported as unrestricted contributions, and are excluded from revenue and gains in excess of expenses and losses, unless explicit donor stipulations specify how the donated assets must be used. Gifts of long-lived assets

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2011 and 2010

(Dollars in thousands)

with explicit restrictions that specify how the assets are to be used and gifts of cash or other assets that must be used to acquire long-lived assets are reported as restricted contributions. Absent explicit donor stipulations about how long those long-lived assets must be maintained, expiration of donor restrictions is reported when the donated or acquired long-lived assets are placed in service.

Unconditional promises to give cash or other assets are reported at fair value at the date the promise is received. Gifts are reported as either a temporarily or permanently restricted contribution if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated time restriction ends or a purpose restriction is accomplished, temporarily restricted net assets are reclassified as unrestricted net assets and reported in the consolidated statements of operations and changes in net assets as net assets released from restrictions. Donor-restricted contributions whose restrictions are met within the same year as received are recorded as unrestricted contributions. Unrestricted contributions are included in other revenues.

(o) Federal Income Taxes

The Wellmont entities are primarily classified as organizations exempt from federal income taxes under Section 501(a) as entities described in Section 501(c)(3) of the Internal Revenue Code. Accordingly, no provision for income taxes has been included for these entities in the consolidated financial statements. The operations of Wellmont, Inc. are subject to state and federal income taxes, which are accounted for in accordance with ASC 740, *Income Taxes*; however, such amounts are not material.

On July 1, 2007, Wellmont adopted new guidance issued on the accounting for uncertainty in income tax positions now codified into ASC 740. It also provides guidance on when tax positions are recognized in an entity's financial statements and how the values of these positions are determined. There was no impact on Wellmont's consolidated financial statements as a result of the adoption of the new guidance.

(p) New Accounting Pronouncements

Effective July 1, 2010, Wellmont adopted the new provisions of ASC 810-10-65-1 regarding noncontrolling interests in consolidated financial statements. This guidance requires Wellmont to clearly identify and present ownership interest in subsidiaries held by parties other than Wellmont in the consolidated financial statements within the net assets section. It also requires the amounts of consolidated revenues and gains in excess of expenses and losses attributable to Wellmont and to the noncontrolling interest to be clearly identified and presented on the face of the consolidated statements of operations. Upon adoption, Wellmont recorded a reclassification of \$2,054 to reclass noncontrolling interest to net assets as of July 1, 2009.

In January 2010, the Financial Accounting Standards Board issued ASU 2010-06, *Improving Disclosures about Fair Value Measurements* (ASU 2010-06). ASU 2010-06 amends ASC Subtopic 820-10, Fair Value Measurements and Disclosures, to provide additional disclosure requirements for transfers into and out of Levels 1 and 2 and for activity in Level 3 and to clarify

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2011 and 2010

(Dollars in thousands)

other existing disclosure requirements. WHS implemented ASU 2010-06 for the period ended June 30, 2011.

In January 2010, the Financial Accounting Standards Board issued ASU 2010-07, *Not-for-Profit Entities: Mergers and Acquisitions* (ASU 2010-07). ASU 2010-07 provides guidance on a transaction or other event in which a not-for-profit entity that is a reporting entity combines with one or more other not-for-profit, businesses or nonprofit activities in a transaction that meets the definition of a merger of not-for-profit entities or an acquisition by a not-for-profit entity. In addition the ASU provides transitional guidance on existing goodwill at the time this ASU is adopted. WHS adopted ASU 2010-07 effective July 1, 2010.

In August 2010, the Financial Accounting Standards Board issued ASU 2010-23, *Measuring Charity Care for Disclosure* (ASU 2010-23). ASU 2010-23 requires that cost be used as the measurement basis for charity care disclosures purposes and that cost can be identified as direct and indirect costs of providing charity care. The adoption of ASU 2010-23 will be effective for WHS beginning in fiscal year 2012.

In August 2010, the Financial Accounting Standards Board issued ASU 2010-24, *Presentation of Insurance Claims and Related Insurance Recoveries* (ASU 2010-24). ASU 2010-24 clarifies that healthcare entities should not net insurance recoveries against the related claim liability and that the claim liability amount should be determined without consideration of insurance recoveries. The adoption of ASU 2010-24 will be effective for WHS beginning in fiscal year 2012.

In July 2011, the Financial Accounting Standards Board issued ASU 2011-07, *Presentation and Disclosure of Patient Service Revenue, Provision for Bad Debts, and the Allowance for Doubtful Accounts for Certain Health Care Entities* (ASU 2011-07). ASU 2011-07 will change WHS' presentation of provision for bad debts in the consolidated statements of operations and changes in net assets to a deduction from net patient service revenue. In addition there are enhanced disclosures about the entities policies for recognizing revenue and assessing bad debts. The ASU also requires disclosures of patient service revenue as well as qualitative and quantitative information about changes in the allowance for doubtful accounts. The adoption of ASU 2011-07 will be effective for WHS beginning in fiscal year 2013 with early adoption permitted.

(q) Reclassifications

Certain 2010 amounts have been reclassified to conform to the 2011 consolidated financial statement presentation. The reclassifications had no impact on total assets or changes in net assets.

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2011 and 2010

(Dollars in thousands)

(3) Net Patient Service Revenue

A reconciliation of the amount of services provided to patients at established rates to net patient service revenue as presented in the consolidated statements of operations and changes in net assets is as follows for the years ended June 30:

	<u>2011</u>	<u>2010</u>
Gross patient service charges	\$ 2,260,489	2,158,847
Less:		
Contractual adjustments and other discounts	(1,431,215)	(1,411,435)
Charity care	(61,824)	(54,492)
	<u>(1,493,039)</u>	<u>(1,465,927)</u>
Net patient service revenue	<u>\$ 767,450</u>	<u>692,920</u>

(4) Third-Party Reimbursement Arrangements

Wellmont renders services to patients under contractual arrangements with the Medicare and Medicaid programs. The Medicaid program in Tennessee was replaced with a managed care program known as TennCare, which was designed to cover previous Medicaid eligible enrollees. Amounts earned under these contractual arrangements are subject to review and final determination by fiscal intermediaries and other appropriate governmental authorities or their agents. Management believes that adequate provision has been made for any adjustments that may result from such reviews. Participation in these programs subjects Wellmont to significant rules and regulations; failure to adhere to such could result in fines, penalties, or expulsion from the programs.

Wellmont contracts with various managed care organizations under the TennCare program. TennCare reimbursement for both inpatient and outpatient services is based upon prospectively determined rates, including diagnostic-related group assignments, fee schedules and per diem amounts. Reimbursement under the Virginia Medicaid program is also based upon prospectively determined amounts.

The Medicare program pays for the costs of inpatient services on a prospective basis. Payments are based upon diagnostic-related group assignments, which are determined by the patient's clinical diagnosis and medical procedures utilized. Wellmont receives additional payments from Medicare based on the provision of services to a disproportionate share of Medicaid-eligible and other low-income patients. Outpatient services are also reimbursed primarily on a prospectively determined basis.

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2011 and 2010

(Dollars in thousands)

Net patient service revenue in 2011 and 2010 related to Medicare, TennCare and Virginia Medicaid and net patient accounts receivable at June 30, 2011 and 2010 from Medicare, TennCare, and Virginia Medicaid were as follows:

	<u>2011</u>	<u>2010</u>
Net patient service revenue:		
Medicare	\$ 286,977	277,372
TennCare	23,575	22,918
Virginia Medicaid	22,555	23,536
Net patient accounts receivable:		
Medicare	\$ 34,671	41,125
TennCare	2,798	2,206
Virginia Medicaid	3,427	3,739

Wellmont has filed cost reports with Medicare and Virginia Medicaid. The cost reports are subject to final settlement after audits by the fiscal intermediary. The Medicare and Virginia Medicaid cost reports have been audited and final settled by the intermediary through June 30, 2006 and audit adjustments have been received and considered for certain hospital and year-ends through June 30, 2010.

Wellmont has also entered into reimbursement agreements with certain commercial insurance companies, health maintenance organizations, and preferred provider organizations. The basis for reimbursement under these agreements includes prospectively determined rates per discharge, per diem rates, and discounts from established charges.

Net patient service revenue is reported at the net amounts billed to patients, third-party payors, and others for services rendered, including estimated retroactive adjustments under reimbursement agreements with third-party payors. Estimated retroactive adjustments are accrued in the period the related services are rendered and adjusted in future periods as changes in estimated provisions and final settlements are determined. Net patient service revenue increased approximately \$2,319 and \$863 in 2011 and 2010, respectively, due to final settlements and revised estimates in excess of amounts previously recorded, removal of allowances previously estimated that are no longer necessary as a result of audits and final settlements, and years that are no longer subject to audits, reviews, and investigations.

Estimated settlements recorded at June 30, 2011 could differ materially from actual settlements based on the results of third-party audits.

(5) Charity Care and Community Services

Wellmont accepts all patients within its primary service area regardless of their ability to pay. A patient is classified as a charity patient by reference to certain established policies that consider, among other factors, generally recognized poverty income levels.

Wellmont maintains records to identify and monitor the level of charity care it provides. Charges foregone for services and supplies furnished under its charity care policy, the estimated cost of those services, and

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2011 and 2010

(Dollars in thousands)

the equivalent percentage of charity care patients to all patients serviced were \$61,824, \$18,080, and 2.73%, respectively, for the year ended June 30, 2011 and \$54,492, \$15,567, and 2.52%, respectively, for the year ended June 30, 2010.

In addition to the charity care services described above, Wellmont provides a number of other services to benefit the indigent for which little or no payment is received. Medicare, Medicaid, and State indigent programs do not cover the full cost of those services. The shortfall between actual receipts from those programs and Wellmont's cost of providing care to those patients totaled \$56,658 and \$55,461 for the years ended June 30, 2011 and 2010, respectively.

Wellmont also provides services to the community at large for which it receives little or no payment. Health evaluations, screening programs, and specific services for the elderly and homebound are other services supplied. Wellmont also provides public health education, trains new health professionals and conducts health research.

(6) Investment in Affiliates

Wellmont has investments with other healthcare providers, which include hospital, home care, regional laboratories, and other healthcare-related organizations. Wellmont records its share of equity in the operations of the respective organizations. Equity in earnings of affiliates was approximately \$4,478 and \$6,773 for the years ended June 30, 2011 and 2010, respectively, and is included in other operating revenue in the consolidated financial statements. During FY2011, Wellmont Health Services, Inc. 20% membership interest in Spectrum Tennessee Network, LLC was exchanged through a capital contribution for a 1.19% membership interest in Lab Group Holdings, LLC. Wellmont received distributions of \$5,320 and \$6,730 during 2011 and 2010, respectively, which reduced Wellmont's overall investment in the affiliates.

The following table summarizes the unaudited aggregate financial information of Wellmont's investments in affiliates:

	<u>2011</u>	<u>2010</u>
Total assets	\$ 127,545	129,720
Total liabilities	31,326	13,943
Total net assets	<u>\$ 96,219</u>	<u>115,777</u>
Net revenues	\$ 184,648	166,815
Expenses	171,070	142,534
Revenues in excess of expenses	<u>\$ 13,578</u>	<u>24,281</u>

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2011 and 2010

(Dollars in thousands)

Wellmont's equity investment in these affiliates and its ownership percentage as of June 30, 2011 and 2010 are as follows:

	Amount		Percentage	
	2011	2010	2011	2010
Takoma Regional Hospital	\$ 11,161	12,645	60%	60%
Holston Valley Imaging Center (HVIC)	8,689	8,048	75	75
Advanced Home Care (AHC)	6,092	6,092	6	6
Spectrum Tennessee Network	—	3,850	—	20
Lab Group Holdings LLC	3,500	—	1	—
Others	1,735	1,384	4% – 50%	4% – 50%
	\$ 31,177	32,019		

Wellmont provided billing, management, and professional services to the affiliates. Income recognized by Wellmont for the services was \$943 in 2011 and \$1,766 in 2010 and is included in other revenues.

Included in other receivables are \$0 and \$124 as of June 30, 2011 and 2010, respectively, of amounts due to Wellmont from these entities.

Although Wellmont's ownership percentage in Takoma Regional Hospital and HVIC is greater than 50%, Wellmont does not consolidate these entities because Wellmont only has a 50% representation on each respective board and does not have control over these entities.

Total long-term investments	<u>\$ 36,437</u>	<u>32,391</u>

Investments in certain alternative limited partnership investments contain agreements whereby Wellmont is committed to contribute approximately \$8,805 as of June 30, 2011 of additional funds to the limited partnerships in the form of capital calls at the discretion of the general partner, of which \$353 was paid subsequent to June 30, 2011.

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2011 and 2010

(Dollars in thousands)

Wellmont has invested \$10,000 in the preferred equity of a regional managed services organization and \$1,512 on a right of first refusal related to any future sale of this organization. This equity has a guaranteed annual return of at least 6.5% of the outstanding preferred equity balance.

Wellmont's investments are concentrated in stock and bond mutual funds. In the event of a downward trend in the stock and bond markets, Wellmont's overall market value of net assets could be adversely affected by a material amount. Investments in alternative investments are generally illiquid investments whose value is determined by the general partner such as hedge funds, private equity, commingled funds and real estate funds. Distributions are only at the discretion of a voting majority of the general partners.

Wellmont evaluates whether unrealized losses on investment securities indicate other-than-temporary impairment. Based on this evaluation, the Company recognized other-than-temporary impairment losses of \$610 and \$8,233 on investments as of June 30, 2011 and 2010, respectively. The unrealized losses on these mutual funds were primarily caused by the overall decline in the world's economy. Other-than-temporary impairment losses are considered as realized losses and are reported within "investment income" in the consolidated statements of operations and changes in net assets.

Gross unrealized losses on investments for which other-than-temporary impairments have not been recognized and the fair values of those investments, aggregated by the length of time that individual investments have been in a continuous unrealized loss position, at June 30, 2011 and 2010, were as follows:

	Less than 12 months		12 months or more		Total	
	Unrealized Losses	Fair value	Unrealized Losses	Fair value	Unrealized Losses	Fair value
2011:						
Alternative investments	\$ —	—	402	5,421	402	5,421
Stock mutual funds	616	75,091	9	158	625	75,249
	<u>\$ 616</u>	<u>75,091</u>	<u>411</u>	<u>5,579</u>	<u>1,027</u>	<u>80,670</u>
	Unrealized losses	Fair value	Unrealized losses	Fair value	Unrealized losses	Fair value
2010:						
Alternative investments	\$ —	—	910	4,219	910	4,219

	<u>\$ 2,184</u>	<u>29,658</u>	<u>25,727</u>	<u>87,932</u>	<u>27,911</u>	<u>117,590</u>

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2011 and 2010

(Dollars in thousands)

Investment income is comprised of the following for the years ended June 30:

	<u>2011</u>	<u>2010</u>
Interest and dividends net of amounts capitalized	\$ 9,407	5,330
Realized gains (losses) on investments	976	(4,318)
Investment income, net	<u>\$ 10,383</u>	<u>1,012</u>
Change in net unrealized gains on investments	<u>\$ 42,186</u>	<u>22,312</u>

(8) Land, Buildings, and Equipment

Land, buildings, and equipment at June 30 consist of the following:

	<u>2011</u>	<u>2010</u>
Land	\$ 49,060	41,210
Buildings and improvements	509,382	488,285
Equipment	328,604	327,896
Buildings and equipment under capital lease obligations	39,661	39,591
	<u>926,707</u>	<u>896,982</u>
Less accumulated depreciation	<u>(484,187)</u>	<u>(459,935)</u>
	442,520	437,047
Construction in progress	12,417	13,158
Land, buildings, and equipment	<u>\$ 454,937</u>	<u>450,205</u>

Depreciation expense for the years ended June 30, 2011 and 2010 was \$46,070 and \$43,755, respectively. Included in depreciation expense is amortization related to capitalized software and equipment under capital leases. Accumulated amortization for equipment under capitalized software and lease obligations was \$15,336 and \$13,266 as of June 30, 2011 and 2010, respectively.

(b) Series 2011 Bonds

On May 5, 2011, Wellmont refunded the Revenue Bonds, Series 2006A, with the proceeds of the Revenue Bonds, Series 2011. The Series 2011 Bonds were issued by Health, Educational and Housing Facilities Board of the County of Sullivan, Tennessee on behalf of Wellmont. Under the terms of the bond indenture, the proceeds were used to advance refund the Revenue Bonds, Series 2006A and to pay the costs of issuing the Series 2011 Bonds.

In order to refund the Series 2006A Bonds, Wellmont made a tender offer to the holders of the Series 2006A Bonds. The holders of all outstanding Series 2006A Bonds agreed to tender their Series 2006A Bonds to Wellmont. Proceeds of the Series 2011 Bonds were used to pay the purchase price of Series 2006A Bonds tendered for purchase. All outstanding Series 2006A Bonds were purchased by the Wellmont on the date of issuance of the Bonds and were immediately surrendered to the trustee for the Series 2006A Bonds for retirement and cancellation.

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2011 and 2010

(Dollars in thousands)

The Series 2011 Bonds were issued with two maturities of \$42,385 and \$33,780 for 2026 and 2032, respectively. The Series 2011 Bonds maturing September 1, 2026 are subject to mandatory redemption prior to maturity pursuant to the operation of a sinking fund, in part by lot starting on the redemption dates starting on September 1, 2013 and ending on September 1, 2026 in annual amounts ranging from \$865 to \$4,680. The Series 2011 Bonds maturing September 1, 2032 are subject to mandatory redemption prior to maturity pursuant to the operation of a sinking fund, in part by lot starting on the redemption dates starting on September 1, 2027 and ending on September 1, 2032 in annual amounts ranging from \$4,980 to \$6,300. The Series 2011 Bonds were issued as fixed rate obligations at 6.0% and 6.5% for the two maturities (2026 and 2032, respectively).

(c) *Series 2010 Bank Qualified Bonds*

On November 1, 2010, The Health, Educational and Housing Facilities Board of the County of Sullivan, Tennessee (the Board) issued \$30,000 Hospital Revenue Bonds, Series 2010 (Bank Qualified). The Series 2010 Bonds were issued and sold pursuant to the Bond Purchase Agreement dated as of November 1, 2010, between the Board and First Tennessee Bank National Association. As of June 30, 2011, Wellmont has received advances on the bonds in the amount of \$14,968.

Commencing on January 1, 2011, and continuing on the first day of each fiscal quarter thereafter, WHS shall pay accrued interest on the outstanding balance of the loan. Commencing on October 1, 2011 and continuing on the first day of each fiscal quarter thereafter, WHS shall also make principal payments equal to \$500,000. The outstanding bonds accrue interest at a rate equal to the product of 65% of the sum of LIBOR plus the applicable margin which at June 30, 2011 was set at 1.95%.

(d) *Series 2007 Bonds*

On July 24, 2007, The Virginia Small Business Financing Authority issued, on behalf of Wellmont, \$55,000 of Hospital Revenue Bonds, Series 2007A. The Series 2007A Bonds, with other methods of financing, were used to purchase the assets of Mountain View Regional Medical Center and Lee Regional Medical Center.

Principal on outstanding Series 2007A Bonds is payable through maturity or mandatory sinking fund redemption in annual amounts ranging from \$360 to \$2,460 commencing on September 1, 2017 through September 1, 2036, with a balloon payment of \$29,245 due on September 1, 2037. The outstanding bonds accrue interest at rates ranging from 5.125% to 5.25%.

(e) *Series 2006 C*

On October 26, 2006, The Health, Educational and Housing Facilities Board of the County of Sullivan Tennessee issued, on behalf of Wellmont, \$200,000 of Hospital Revenue Bonds, Series 2006C. The Series 2006C Bonds were used to: finance the costs of acquisition of land for expansion, construction, expansion, equipping, and renovation of HVMC, including the construction of a new patient tower (collectively known as Project Platinum); finance the costs of the construction, expansion, equipping, and renovation of the emergency department at BRMC (the Bristol Emergency Department Project); and finance the costs of construction, expansion, renovation and equipping of an operating room and related facilities at HCMH.

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2011 and 2010

(Dollars in thousands)

Principal on outstanding Series 2006C Bonds is payable through maturity or mandatory sinking fund redemption in annual amounts ranging from \$1,605 to \$25,330 commencing on September 1, 2017 through September 1, 2036. The outstanding bonds accrue interest at rates ranging from 5.00% to 5.25%.

(f) Series 2006 A and B

On June 23, 2006, The Health, Educational and Housing Facilities Board of the County of Sullivan, Tennessee, issued, on behalf of Wellmont, \$98,475 of Hospital Revenue Refunding Bonds, Series 2006. This bond issuance consisted of Series A tax-exempt and Series B taxable bonds of \$76,595 and \$21,880, respectively. The Series 2006 Bonds together with other available funds were used to advance refund all the previously issued Hospital Revenue Bonds, Series 1993, to reimburse Wellmont for payments made on other taxable borrowings and to pay certain expenses incurred in connection with the issuance of the Series 2006 Bonds. Upon this refunding, a trust was established to pay all future bond payments related to the Series 1993 Bonds. Wellmont was deemed to have paid the Series 1993 Bonds and these Bonds are no longer deemed to be outstanding for purposes of the Series 1993 Trust Indenture.

Principal on outstanding Series 2006A Bonds was payable through maturity or mandatory sinking fund redemption in annual amounts ranging from \$875 to \$6,400 commencing on September 1, 2013 through September 1, 2032; and the outstanding bonds accrued interest on a variable rate, which was reset monthly based upon the AAA-insured Municipal Market Data Index, plus 85 basis points. Principal on outstanding Series 2006B Bonds was payable through maturity in annual amounts ranging from \$1,600 to \$2,930 commencing on September 1, 2007 through September 1, 2016, and the outstanding bonds accrued interest at a fixed rate of 6.95%.

Outstanding Series 2006A Bonds were subject to redemption prior to maturity at the option of The Health, Educational and Housing Facilities Board of the County of Sullivan, Tennessee, upon direction by Wellmont in whole at any time, or in part on any certain specified days at redemption prices of 100%-102% of the principal amount of the Series 2006A Bonds being redeemed, plus accrued interest thereon to the redemption date.

On October 1, 2010, the Series 2006B Bonds were called and paid in full at par value of \$14,880.

On May 5, 2011, the Series 2006A Bonds were refunded with the proceeds of the Revenue Bonds, Series 2011.

(g) Series 2005

On December 8, 2005, The Health, Educational and Housing Facilities Board of the County of Sullivan, Tennessee, issued, on behalf of Wellmont, \$70,620 of Hospital Revenue Refunding Bonds, Series 2005. The Series 2005 Bonds together with other available funds were used to advance refund the previously issued Hospital Revenue Bonds, Series 2002, and to pay certain expenses incurred in connection with the issuance of the Series 2005 Bonds.

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2011 and 2010

(Dollars in thousands)

Principal on outstanding Series 2005 Bonds is payable through maturity or mandatory sinking fund redemption in annual amounts ranging from \$1,945 to \$3,390 commencing on September 1, 2007 through September 1, 2032. The terms of the bonds provide that bondholders may redeem or put the bonds to the remarketing agent on dates that approximate a weekly basis. The remarketing agent is obligated to remarket the redeemed bonds on a “best efforts” basis. Redeemed bonds are repaid to bondholders from the proceeds of the remarketing effort or, in the event of an inability to remarket the bonds, from a letter of credit. This letter secures the bonds in the event of a failed remarketing or liquidity issue. In the event of a liquidity drawing under the letter of credit, Wellmont shall pay the Base Rate equal to the greater of (i) the Prime Rate plus 1.5% per annum, (ii) LIBOR plus 2.5% per annum, or (iii) 7.50% per annum. Wellmont shall repay the liquidity drawing amount in twelve equal quarterly installments, with the first such installment due on the first anniversary of the related liquidity drawing.

Outstanding Series 2005 Bonds are subject to redemption prior to maturity at the option of The Health, Educational and Housing Facilities Board of the County of Sullivan, Tennessee, upon direction by Wellmont in whole at any time, or in part on any certain specified days at redemption prices of 100%-102% of the principal amount of the Series 2005 Bonds being redeemed, plus accrued interest thereon to the redemption date.

(h) Series 2003

On June 1, 2003, The Health, Educational and Housing Facilities Board of the County of Sullivan, Tennessee, issued, on behalf of Wellmont, \$59,100 of Hospital Revenue Bonds, Series 2003. The bonds were issued to provide funds necessary to refund Wellmont’s Hospital Revenue Bonds, Series 1993 (HVHC), to fund a debt service reserve fund and to pay certain expenses incurred in connection with the issuance of the Series 2003 Bonds.

The Wellmont Series 2003 Bonds consist of \$27,460 in fixed-rate serial bonds and \$19,280 in fixed-rate term bonds payable through maturity or mandatory sinking fund redemption maturing in annual amounts ranging from \$3,230 on September 1, 2007 to \$4,140 on September 1, 2019, and carrying interest rates ranging from 2.5% to 5.00%.

(i) Master Trust Indenture

The master trust indentures and loan agreements for the 2011, 2010, 2007, 2006, 2005, and 2003 bonds contain certain requirements regarding deposits to trustee funds, maintenance of rates, maintenance of debt service coverage and liquidity, permitted indebtedness, and permitted disposition of assets. Gross receipts of Wellmont collateralize the bonds. The purpose of the master trust indenture is to provide a mechanism for the efficient and economical issuance of notes by individual members of Wellmont using the collective borrowing capacity and credit rating of Wellmont. The master trust indenture requires individual members of Wellmont to make principal and interest payments on notes issued for their benefit. The master trust indenture also requires Wellmont members to make payments on notes issued by other members of Wellmont if such other members are unable to satisfy their obligations under the master trust indenture. Payments of principal and interest on certain bonds are also insured by bond insurance policies.

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2011 and 2010

(Dollars in thousands)

Funds held by the trustee related to the various revenue bonds are available for specific purposes. The bond interest and revenue funds may be used only to pay interest and principal on the bonds; the debt service reserve fund may be used to pay interest and principal if sufficient funds are not available in the bond interest and revenue funds. The original issue discount and premium on all Bond Series outstanding are being amortized over the life of the bond issue using the effective-interest method.

(j) Notes Payable

During 2007, Wellmont entered into a five-year \$3,000 note payable, which has a fixed interest rate of 7.25% and a termination date of July 2011. At June 30, 2011 and 2010, \$1,784 and \$2,062, respectively, was outstanding on this note.

During 2008, Wellmont entered into a five-year \$2,400 term note payable, which has a fixed interest rate of 7.25% and a termination date of August 2012. At June 30, 2011 and 2010, \$1,120 and \$1,600, respectively, was outstanding on this note.

During 2010, Wellmont entered into a \$2,767 note payable to finance the purchase of Cardiovascular Associates. The note payable has a fixed interest rate of 5.5% and a termination date of May, 2013. At June 30, 2011 and 2010, \$1,845 and \$2,767, respectively, was outstanding on this note.

(k) Capital Lease Obligations

Wellmont has entered into leases for certain equipment under agreements classified as capital leases that expire over periods through 2011. Assets under capital leases are included in property and equipment and have a net carrying value of \$24,325 and \$26,325 as of June 30, 2011 and 2010, respectively. Amortization of capital assets is included in depreciation expense. The lease obligations are recorded at the net present value of the minimum lease payments with interest rates from 4.3% to 12%.

(l) Long-term Debt Maturities Schedule

Bond maturities in accordance with the original terms of the Master Trust Indenture and other long-term debt maturities for each of the next five years and in the aggregate at June 30, 2011 are as follows:

2012	\$	9,273
2013		13,454
2014		9,572
2015		9,608
2016		9,896
Thereafter		409,820
	\$	<u>461,623</u>

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2011 and 2010

(Dollars in thousands)

The following table reflects the required repayment terms for the years ended June 30 of Wellmont's debt obligations in the event that the put options associated with the 2005 bonds were exercised, but not successfully remarketed.

2012	\$	9,273
2013		25,337
2014		26,110
2015		26,032
2016		11,887
Thereafter		<u>362,984</u>
	\$	<u>461,623</u>

Interest paid for the years ended June 30, 2011 and 2010 was \$20,750 and \$20,792, respectively, net of amounts capitalized. Interest costs of \$590 and \$2,776, net of interest income of \$49 and \$683 in 2011 and 2010, respectively, were capitalized.

(12) Derivative Transactions

Wellmont is a party to a number of interest rate swap agreements. Such swaps have not been designated as hedges and are valued at estimated fair value in the accompanying consolidated balance sheets. By using derivative financial instruments to hedge exposures to changes in interest rates, Wellmont exposes itself to credit risk and market risk. Credit risk is the failure of the counterparty to perform under the terms of the derivative contract. When the fair value of a derivative contract is positive, the counterparty owes Wellmont, which creates credit risk for Wellmont. When the fair value of a derivative contract is negative, Wellmont owes the counterparty, and therefore, Wellmont is not exposed to the counterparty's credit risk in those circumstances. Pursuant to the terms of its interest rate swap agreements, Wellmont is required to post collateral with its counterparties under certain specified conditions. Collateral posting requirements are based on the amount of Wellmont's derivative liability and Wellmont's bond rating. As of June 30, 2011, and 2010, Wellmont was not required to post collateral related to its swaps.

Market risk is the adverse effect on the value of a derivative instrument that results from a change in interest rates. The market risk associated with interest-rate contracts is managed by establishing and monitoring parameters that limit the types and degree of market risk that may be undertaken.

In September and October, 2008, the counterparty and credit support provider, for four of the swaps held at June 30, 2010, filed bankruptcy. Subsequent to the bankruptcy filings and into 2011, no payments were made by Wellmont or the counterparty to each other. During 2011, Wellmont and the counterparty agreed to settle all amounts due on the swaps for net cash flow receivables or payables. The bankruptcy process is underway and the ultimate outcome regarding any final settlement cannot be determined at this time.

Wellmont has a Total Return Swap on the Series 2011 Bonds with a new counterparty.

Management's primary objective in holding such derivatives is to introduce a fixed or variable rate component into its variable rate debt structure using LIBOR rates. The fair value as of June 30, 2011 and

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2011 and 2010

(Dollars in thousands)

2010 of approximately \$(11,588) and \$(12,943), respectively, is included in other liabilities in the consolidated balance sheets. The change in the fair value of the derivative instruments was approximately \$1,355 and \$(2,693), respectively, in 2011 and 2010 and is included in nonoperating gains (losses), net in the consolidated statements of operations. The terms of the swap agreements allow netting of all amounts due from/to the counterparty. The following is a summary of the interest rate swap information as of June 30, 2011:

<u>Type of interest swap</u>	<u>Debt hedging</u>	<u>Notional amount</u>	<u>Effective date</u>	<u>Maturity date</u>	<u>Rate paid</u>	<u>Rate received</u>	<u>Swap fair value asset (liability)</u>
Total return swap	Series 2011	\$ 76,165	May 5, 2011	September 1, 2032	1.440%	6.200%	\$ (377)

							<u>\$ (12,943)</u>

(13) Pension and Other Postretirement Benefits

Wellmont sponsors a retirement program and defined contribution retirement plan (Retirement Plan) that covers substantially all employees. This program and the related Retirement Plan were created from amendments, restatements, and mergers of existing defined contribution plans at BRMC and HVMC. Wellmont makes annual contributions to the Retirement Plan in an amount equal to 3% of each participant's base wages and contributes an additional amount, based on each participant's voluntary contributions, which cannot exceed certain limits established in the Internal Revenue Code, up to 3% of each participant's wages. The total pension expense related to the Retirement Plan was \$10,344 and \$9,990 for the years ended June 30, 2011 and 2010, respectively.

HVMC sponsored a noncontributory, defined benefit pension plan covering substantially all its employees. However, effective June 30, 1996, this plan was frozen and no further benefits accrue. LPH also sponsors a defined benefit pension plan covering substantially all its employees.

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2011 and 2010

(Dollars in thousands)

HVMC's defined pension benefits are actuarially determined based on a formula taking into consideration an employee's compensation and years of service. HVMC's funding policy is to make annual contributions to the plan based upon the funding standard developed by the plan actuary. This standard uses the projected unit credit actuarial cost method, including the amortization of prior service costs, over a 20-year period. Contributions are intended to provide not only for benefits attributed to service to date but also for those expected to be earned in the future. The LPH plan contains similar funding and actuarial policies.

On June 30, 2007, the HVMC plan merged into LPH plan and the plan name changed to Wellmont Health System Defined Benefit Plan. At the end of 2008, only a single defined pension plan exists. Collectively, the two defined benefit plans are referred to as the "Plans." Effective June 30, 2010, the plan was frozen for all Lonesome Pine Hospital employees and no further benefits will be accrued.

Wellmont recognizes the funded status (i.e., difference between the fair value of plan assets and projected benefit obligations) of its defined benefit pension plans as an asset or liability in its consolidated balance sheet and recognizes changes in that funded status in the year in which the changes occur as a change in unrestricted net assets. All defined benefit pension plans use a June 30 measurement date.

The following table sets forth the funded status of the combined Plans, amounts recognized in the accompanying consolidated financial statements, and assumptions at June 30:

	<u>2011</u>	<u>2010</u>
Change in benefit obligation:		
Benefit obligation at beginning of year	\$ 44,565	40,035
Service cost	220	230
Interest cost	2,390	2,432
Actuarial losses	896	4,008
Benefits paid	(2,239)	(2,140)
Curtailments *	(495)	—
	<u>45,337</u>	<u>44,565</u>
Change in plan assets:		
Fair value of plan assets at beginning of year	34,547	33,326

(Dollars in thousands)

	<u>2011</u>	<u>2010</u>
Estimate of amounts that will be amortized from unrestricted net assets to net pension cost in 2012:		
Amortization of net loss	\$ 382	791
Amortization of prior service cost	—	—
Estimated future benefit payments:		
Fiscal 2012	2,276	2,220
Fiscal 2013	2,369	2,337
Fiscal 2014	2,492	2,472
Fiscal 2015	2,596	2,578
Fiscal 2016 (FY10 fiscal 2016 – 2020)	2,671	14,278
Fiscal 2017 – 2021	14,819	
Weighted average assumptions used to determine benefit obligations:		
Settlement (discount) rate	5.50%	5.50%
Weighted average rate of increase in future compensation levels	3.00	3.00
Components of net periodic benefit cost (benefit):		
Service cost	\$ 220	230
Interest cost	2,390	2,432
Expected return on plan assets	(2,340)	(2,259)
Amortization of net loss	831	600
Amortization of unrecognized prior service cost curtailments	1	—
Net periodic benefit cost	<u>\$ 1,102</u>	<u>1,003</u>
Weighted average assumptions used to determine net periodic benefit cost:		
Settlement (discount) rate	5.50%	6.25%
Expected long-term return on plan assets (HVMC)	7.00	7.00
Expected long-term return on plan assets (LPH)	7.00	7.00
Weighted average rate of increase in future compensation levels	3.00	3.00

Wellmont's overall expected long-term rate of return on assets is 7.00%. The expected long-term rate of return is based on the portfolio as a whole and not on the sum of the returns on individual asset categories. The return is based exclusively on historical returns, without adjustments.

Wellmont has developed a Plan investment policy, which is reviewed and approved by the board of directors. The policy established goals and objectives of the fund, asset allocations, asset classifications, and manager guidelines. The policy dictates a target asset allocation and an allowable range for such categories based on quarterly investment fluctuations. Investments are managed by independent advisers who are monitored by management and the board of directors.

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2011 and 2010

(Dollars in thousands)

The table below shows the target allocation and actual asset allocations as of June 30, 2011 and 2010:

Asset	Target allocation	2011	2010
Equity securities	65%	46%	56%
Fixed income	28	35	27
Cash	5 – 15%	2	1
Other	5 – 15%	17	16

Wellmont monitors the asset allocation and executes required recalibrations of the portfolio allocation on a regular basis in response to fluctuations in market conditions and the overall portfolio composition.

HVMC also participates in a health and welfare plan for its retirees. The plan provides postretirement medical and life insurance benefits to certain employees who meet minimum age and service requirements. Effective January 1, 1995, the death benefit was changed to provide a flat \$5 benefit to all future retirees. During 1995, the medical program for retirees was amended to terminate medical benefits for any active employees who would not meet the full eligibility requirements of the program by January 1, 1996. The plan is contributory and contains other cost-sharing features such as deductibles and coinsurance.

	Postretirement benefits	
	2011	2010
Discount rate	5.00%	6.00%
Expected long-term rate of return on plan assets	N/A	N/A
Rate of compensation increase	N/A	N/A
Healthcare cost trend rate	5.00	5.00

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2011 and 2010

(Dollars in thousands)

Wellmont's overall expected long-term rate of return on assets is 7%. The expected long-term rate of return is based on the portfolio as a whole and not on the sum of the returns on individual asset categories. The return is based exclusively on historical returns, without adjustments.

For measurement purposes, a 5% annual rate of increase in the per capita cost of covered healthcare benefits was assumed for 2011.

The following table summarizes the effect of one-percentage-point increase/decrease in healthcare costs trends:

	<u>2011</u>	<u>2010</u>
Effect of one-percentage point increase in healthcare cost trend on:		
Service and interest cost	\$ 27	20
Accumulated pension benefit obligation	545	330
Effect of one-percentage point decrease in healthcare cost trend on:		
Service and interest cost	(24)	(18)
Accumulated pension benefit obligation	(486)	(294)

The asset allocations of Wellmont's pension and postretirement benefits as of June 30, 2011 and 2010, respectively, were as follows:

Fair Value measurement at June 30, 2011				
Pension benefits – plan assets				
	Total	Quoted prices in active markets for identical assets (Level 1)	Significant other observable inputs (Level 2)	Significant unobservable inputs (Level 3)

(14) Self-Insurance Programs

Wellmont is self-insured for professional and general liability and workers' compensation liability. Consulting actuaries have been retained to determine funding requirements and estimate claim liability exposures. Wellmont has established revocable self-insurance trust funds to provide for professional and general liability claims and workers' compensation claims and related expenses. Wellmont's contributions to the self-insurance trusts are based upon actuarial determinations by an independent service company. The professional and general liability self-insurance program is supplemented by umbrella excess liability policies consisting of various layers of coverage with commercial carriers based on policy year. The workers' compensation program is supplemented for Tennessee and Virginia by excess workers' compensation policies, with a commercial carrier for statutory limits per occurrence. Provisions based on

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2011 and 2010

(Dollars in thousands)

actuarial estimates are made for the ultimate cost of claims asserted, as well as estimates of claims incurred but not reported as of the respective consolidated balance sheet dates. Insurance expense under these programs amounted to approximately \$4,692 and \$3,414 for the years ended June 30, 2011 and 2010, respectively, and are included in other expense in the accompanying consolidated statements of operations and changes in net assets.

At June 30, 2011 and 2010, Wellmont was involved in litigation relating to medical malpractice and workers' compensation claims arising in the ordinary course of business. There are also known incidents which occurred through June 30, 2011 that may result in the assertion of additional claims, and other claims may be asserted arising from services provided to patients in the past. Claims have been filed requesting damages in excess of the amount accrued for estimated malpractice costs. Management of Wellmont is of the opinion that estimated professional and general liability amounts accrued at June 30, 2011 are adequate to provide for potential losses resulting from pending or potential litigation. Amounts of claim settlements may be more or less than what has been provided for by management. The ultimate settlement of claims could be different from recorded accruals, with such differences being potentially significant.

Wellmont is also self-insured for medical and other healthcare benefits provided to its employees and their families. A provision for estimated incurred but not reported claims has been provided in the consolidated financial statements.

(15) Commitments and Contingencies

Construction in progress at June 30, 2011 and 2010 relates primarily to the completion of certain buildings and renovations. Total costs to complete these and other projects were approximately \$12,448 at June 30, 2011. Wellmont has entered into contracts of \$12,448 related to these projects.

Wellmont leases certain equipment and office space under operating lease agreements. Total rental expense under cancelable and noncancelable agreements was \$18,179 and \$16,857 for the years ended June 30, 2011 and 2010, respectively. Minimum future lease payments under noncancelable operating leases with initial or remaining lease terms in excess of one year as of June 30, 2011 are as follows:

2012	\$	13,168
2013		10,071
2014		6,269
2015		5,491
2016		4,190
Thereafter		28,904
	\$	<u>68,093</u>

Wellmont has entered into contractual employment relationships with physicians to provide services to Wellmont physician practices that are intended to qualify under the employee safe harbor of the Anti-Kickback Statute and the employee exception of the Physician Self-Referral Law. These contracts

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2011 and 2010

(Dollars in thousands)

have terms of varying lengths, guarantee certain base payments, and may provide for additional incentives based upon productivity.

The healthcare industry is subject to numerous laws and regulations of federal, state, and local governments. These laws and regulations include, but are not necessarily limited to, such matters as licensure, accreditation, government healthcare program participation requirements, reimbursement for patient services, and Medicare fraud and abuse. Recently, government activity has increased with respect to investigations and allegations concerning possible violations of fraud and abuse statutes and regulations by healthcare providers. Violations of these laws and regulations could result in expulsion from government healthcare programs together with the imposition of significant fines and penalties, as well as significant repayments for patient services previously billed. Management believes Wellmont is in compliance with fraud and abuse statutes and other applicable government laws and regulations. Compliance with such laws and regulations can be subject to future government review and interpretation, as well as regulatory actions unknown or unasserted at this time.

(16) Functional Expense Disclosure

Wellmont provides healthcare services to residents within its geographic location. Expenses based upon functional classification related to providing these services during the years ended June 30 are as follows:

	<u>2011</u>	<u>2010</u>
Professional care of patients	\$ 636,403	583,222
Administrative and general	142,768	117,123
Fund-raising	913	1,235
	<u>\$ 780,084</u>	<u>701,580</u>

(17) Income Taxes

Wellmont, Inc. and its subsidiaries file consolidated federal and separate company state income tax returns. These companies have combined net operating loss carry forwards for federal income tax purposes of approximately \$67,000 at June 30, 2011, which begin expiring in fiscal 2018 and expire through 2032. These net operating losses can be used to offset future consolidated taxable income of Wellmont, Inc. and subsidiaries. Wellmont Health System participates in certain activities that generate unrelated business taxable income. These activities have generated net operating losses in prior years, and Wellmont Health System files a Form 990-T with the IRS to report such activity. Wellmont Health System has net operating loss carry forwards for federal income tax purposes of approximately \$1,766 for unrelated business activities. Management believes that it is not more likely than not that deferred tax assets arising from net operating loss carry forwards will be realizable. Accordingly, these are fully reserved at June 30, 2011 and 2010.

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2011 and 2010

(Dollars in thousands)

(18) Concentration of Credit Risk

Wellmont grants credit without collateral to its patients, most of whom are local residents and are insured under third-party payor agreements. The mix of receivables from patients and third-party payors at June 30, 2011 and 2010, was as follows:

	2011	2010
Medicare	42%	46%
TennCare	4	4
Medicaid	9	8
Other third-party payors	35	31
Patients	10	11
	100%	100%

(19) Disclosures about Fair Value of Financial Instruments

(a) Fair Value of Financial Instruments

The following methods and assumptions were used to estimate fair value of each class of instruments:

- *Cash and Cash Equivalents*

The carrying amount approximates fair value due to the short maturities of these instruments.

- *Patient Accounts and Other Receivables*

The net recorded carrying value approximates fair value due to the short maturities of these instruments.

- *Investments and Assets Limited as to Use*

The fair values of investments and assets limited as to use are based on quoted market prices and quotes obtained from security brokers or, in the case of the limited partnerships, by the general partner.

- *Accounts Payable and Accrued Expenses*

The carrying amount approximates fair value due to the short maturities of these liabilities.

- *Estimated Third-Party Payor Settlements, Other Long-Term Liabilities*

The carrying amount approximates fair market value due to the nature of these liabilities.

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2011 and 2010

(Dollars in thousands)

- *Long-Term Debt*

The fair value of revenue bonds, using current market rates, was estimated at \$419,960 and \$422,290 for the years ended June 30, 2011 and 2010, respectively.

(b) *Fair Value Hierarchy*

On July 1, 2008, Wellmont adopted new guidance issued by FASB for fair value measurement of financial assets and financial liabilities and for fair value measurement of nonfinancial items that are recognized or disclosed at fair value in the consolidated financial statements on a recurring basis now codified into ASC 820, *Fair Value Measurements and Disclosures*. ASC 820 establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1 measurement) and the lowest priority to measurements involving significant unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are as follows:

- Level 1 inputs are quoted market prices (unadjusted) in active markets for identical assets or liabilities that Wellmont has the ability to access at the measurement date.
- Level 2 inputs are inputs other than quoted market prices including within Level 1 that are observable for the asset or liability, either directly or indirectly. If the asset or liability has a specified (contractual) term, a Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 inputs are unobservable inputs for the asset or liability.

The level in the fair value hierarchy within which a fair measurement in its entirety falls is based on the lowest level input that is significant to the fair value measurement in its entirety.

In conjunction with the adoption of the new guidance, Wellmont elected to early adopt the measurement provisions of Accounting Standards Update No. 2009-12 to certain investments in funds that do not have readily determinable fair values including private investments, hedge funds, real estate, and other funds. This guidance amends the previous guidance and allows for the estimation of the fair value of investments in investment companies for which the investment does not have a readily determinable fair value using net asset value per share or its equivalent. Net asset value, in many instances may not equal fair value that would be calculated pursuant to ASC 820. The fair value of these investments was \$66,529 and \$59,397 at June 30, 2011 and 2010, respectively.

Independent Auditors' Report

The Board of Directors
Wellmont Health System:

We have audited the accompanying consolidated balance sheets of Wellmont Health System and affiliates (Wellmont) as of June 30, 2012 and 2011, and the related consolidated statements of operations and changes in net assets, and cash flows for the years then ended. These consolidated financial statements are the responsibility of Wellmont's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Wellmont's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of Wellmont Health System and affiliates as of June 30, 2012 and 2011, and the consolidated results of their operations and changes in their net assets, and their cash flows for the years then ended, in conformity with U.S. generally accepted accounting principles.

As discussed in note 2 to the consolidated financial statements, Wellmont changed its presentation of provision for bad debts as a result of the adoption of Accounting Standards Update No. 2011-07, *Health Care Entities: Presentation and Disclosure of Patient Service Revenue, Provision for Bad Debts, and the Allowance for Doubtful Accounts for Certain Health Care Entities*.

Supplemental disclosures of noncash items:

Wellmont entered into capital lease obligations for buildings and equipment in the amount of \$3,281 and \$5,785 in 2012 and 2011, respectively.

Additions to property and equipment financed through current liabilities of \$2,487 and \$2,933 in 2012 and 2011, respectively.

See accompanying notes to consolidated financial statements.

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2012 and 2011

(Dollars in thousands)

(1) Operations and Basis of Presentation

Wellmont Health System (Wellmont) was formed to assume operations of Bristol Regional Medical Center (BRMC) and Holston Valley Health Care, Inc. (HVHC), including Holston Valley Medical Center, Inc. (HVMC), and to act as sole corporate member of its consolidated foundation. Effective July 1, 1996, under terms of an agreement and plan of consolidation and merger, BRMC and HVHC, including HVMC, were merged and consolidated into Wellmont. Effective January 1, 1997, Lonesome Pine Hospital (LPH), a Virginia corporation, was merged into Wellmont under terms of a plan of merger and merger agreement. Effective July 1, 2000, Hawkins County Memorial Hospital (HCMH) transferred its operations and operating assets to Wellmont Hawkins County Memorial Hospital (WHCMH), a tax-exempt organization that is wholly owned and controlled by Wellmont. Hancock County Hospital (HCH), a critical access hospital, was opened in March 2005 to help provide for the immediate healthcare needs of the residents of Sneedville and the surrounding counties. As of July 16, 2007, Wellmont acquired Jenkins Community Hospital in Kentucky. As of August 1, 2007, Wellmont acquired two hospitals in Virginia, Lee Regional Medical Center in Pennington Gap and Mountain View Regional Medical Center in Norton. On May 30, 2008, Wellmont acquired the Holston Valley Cath Lab, an outpatient lab. On May 1, 2010, Wellmont acquired Cardiovascular Associates. On January 1, 2011, Wellmont acquired Pulmonary Associates of Kingsport.

As of April 30, 2009, Wellmont closed Jenkins. The consolidated financial statements for the years ended June 30, 2012 and 2011 present Jenkins as a discontinued operation. Losses of \$4 and \$120 for the years ended June 30, 2012 and June 30, 2011, respectively, are included in discontinued operations.

As of September 23, 2010 Wellmont sold the majority of Medical Mall Pharmacy's assets to a national pharmacy company for \$1,300 plus inventory value and recorded a gain of approximately \$517 at June 30, 2011. The consolidated financial statements for the years ended June 30, 2012 and 2011 present Medical Mall Pharmacy as a discontinued operation. The gains (losses) of \$92 and \$(353) for the years ended June 30, 2012 and June 30, 2011, respectively, are included in discontinued operations.

All acute care operations remain separately licensed and are treated as operating divisions within Wellmont. Wellmont's continuing operations consist primarily of the delivery of healthcare services in northeast Tennessee and southwest Virginia.

The consolidated financial statements include the acute care operations of the above entities along with:

- Wellmont Foundation (the Foundation), which was created from the merger of Bristol Regional Medical Center Foundation and Holston Valley Health Care Foundation, Inc. The Foundation conducts fund-raising activities for the benefit of Wellmont.
- Wellmont, Inc., a wholly owned taxable subsidiary of Wellmont, formed as the holding company of various other taxable subsidiaries that provide medical collection and medical laundry services, operate physician practices, provide other healthcare-related services, and invest in affiliates and other activities.

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2012 and 2011

(Dollars in thousands)

- The Alzheimer's Center of East Tennessee was merged into Wellmont and changed its name to Wellmont Madison House effective September 1, 1997. Wellmont is the sole corporate member and the consolidated financial statements include the operations of this entity.

All significant intercompany accounts and transactions have been eliminated in the accompanying consolidated financial statements.

(2) Significant Accounting Policies

A summary of significant accounting policies is as follows:

(a) *Use of Estimates*

The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the consolidated financial statements. Estimates also affect the reported amounts of revenue and expenses during the reporting period. Significant estimates include: allowances for contractual adjustments and bad debts; third-party payor settlements; valuation of investments, land, buildings, equipment and goodwill; and self-insurance and other liabilities. Actual results could differ from these estimates.

(b) *Cash and Cash Equivalents*

Wellmont considers all highly liquid investments with a maturity of three months or less when purchased, excluding amounts whose use is limited by board of directors' designation or other arrangements under trust agreements, to be cash equivalents.

(c) *Investments*

Marketable equity securities and debt securities are recorded at fair value and classified as other than trading. Fair value is determined primarily using quoted prices (unadjusted) in active markets for identical assets or liabilities that Wellmont has the ability to access at the measurement date. However, Wellmont also uses observable and unobservable inputs for investments without quoted market prices to determine the fair value of certain investments at the measurement date. Investments in limited partnerships are recorded at fair value as determined by the partnership using net asset value. Wellmont has adopted the measurement provisions of Accounting Standards Update (ASU) No. 2009-12, *Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*, to certain investments in funds that do not have readily determinable fair values including private investments, hedge funds, real estate, and other funds. Investments in affiliates in which Wellmont has significant influence but does not control are reported on the equity method of accounting, which represents Wellmont's equity in the underlying net book value. Long-term investments include those investments that have not been designated by the board of directors for specific purposes and are also not intended to be used for the liquidation of current liabilities. Investment income is recognized when earned.

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2012 and 2011

(Dollars in thousands)

Realized gains and losses are determined on the specific-identification method and included in investment income with interest and dividends. Investment income is reported net of related investment fees. Unrealized gains and losses are included in other changes in unrestricted net assets except for losses determined to be other than temporary, which are considered realized losses and included in investment income.

(d) *Assets Limited as to Use*

Assets limited as to use primarily include assets held by trustees under bond indenture and self-insurance agreements, as well as designated assets set aside by the board of directors for future capital improvements, over which the board of directors retains control and may, at its discretion, subsequently use for other purposes. Amounts required to meet current liabilities of Wellmont have been reclassified to current assets in the accompanying consolidated balance sheets.

(e) *Inventories*

Inventories are stated at the lower of cost or market value and are valued principally by the first-in, first-out and average-cost methods.

(f) *Land, Buildings, and Equipment*

Land, buildings, and equipment are stated at cost, if purchased, or fair value at date of donation. Depreciation is computed using the straight-line method based on the estimated useful life of the asset, ranging from 3 to 40 years. Buildings and equipment held under capital leases are recorded at net present value of future lease payments and are amortized on a straight-line basis over the shorter of the lease term or estimated useful life of the asset. Costs of maintenance and repairs are expensed as incurred. Upon sale or retirement of land, buildings, or equipment, the cost and related accumulated depreciation are eliminated from the respective accounts and the resulting gain or loss, if any, is included in other revenues on the consolidated statements of operations and changes in net assets. Interest costs incurred on borrowed funds during the period of construction of capital assets is capitalized as a component of the cost of acquiring those assets. The amount capitalized is net of investment earnings on assets limited as to use derived from borrowings designated for capital assets. Renewals and betterments are capitalized and depreciated over their useful life, whereas costs of maintenance and repairs are expensed as incurred.

Wellmont evaluates long-lived assets for impairment on annual basis. Long-lived assets are considered to be impaired whenever events or changes in circumstances indicate the carrying amount of an asset may not be recoverable from future cash flows. Recoverability of long-lived assets to be held and used is measured by a comparison of the carrying amount of an asset to future cash flows expected to be generated by the asset. When such assets are considered to be impaired, the impairment loss recognized is measured by the amount by which the carrying value of the asset exceeds the fair value of the asset.

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2012 and 2011

(Dollars in thousands)

(g) Goodwill

Effective July 1, 2010, Wellmont adopted Accounting Standards Update (ASU) No. 2010-07, *Not for Profit Entities: Mergers and Acquisitions* which in part requires healthcare entities to follow Accounting Standards Codification (ASC) Topic 350-20-35, *Intangibles – Goodwill and Other*. ASC Topic 350-20-35 requires goodwill of not-for-profit entities to be evaluated for impairment at least annually. The goodwill impairment test is a two-step test. Under the first step, the fair value of each reporting unit is compared with its carrying value (including goodwill). If the fair value of a reporting unit is less than its carrying value, an indication of goodwill impairment exists for the reporting unit and the entity must perform step two of the impairment test (measurement). Under step two, an impairment loss is recognized for any excess of the carrying amount of the reporting unit's goodwill over the implied fair value of that goodwill. The implied fair value of goodwill is determined by allocating the fair value of the reporting unit in a manner similar to a purchase price allocation and the residual fair value after this allocation is the implied fair value of the reporting unit goodwill. Fair value of the reporting unit is determined using a discounted cash flow analysis. If the fair value of the reporting unit exceeds its carrying value, step two does not need to be performed. The annual impairment test is performed as of June 30. A summary of goodwill and related amortization for the years ended June 30 follows:

	<u>2011</u>	<u>Additions</u>	<u>Decreases</u>	<u>2012</u>
Goodwill	\$ 16,721	369	—	17,090
	<u>2010</u>	<u>Additions</u>	<u>Decreases</u>	<u>2011</u>
Goodwill	\$ 9,501	7,220	—	16,721

(h) Deferred Debt Expense

Deferred debt expense is amortized over the life of the related bond issues using the effective-interest method.

(i) Derivative Financial Instruments

As further described in note 12, Wellmont is a party to interest rate swap and other derivative agreements. These financial instruments are not designated as hedges and are presented at estimated fair market value in the accompanying consolidated balance sheets. These fair values are based on the estimated amount Wellmont would receive, or be required to pay, to enter into equivalent agreements with a third party at the valuation date. Due to the nature of these financial instruments, such estimates are subject to significant change in the near term. Wellmont recognizes changes in the fair values of derivatives as nonoperating gains or losses in the consolidated statements of operations and changes in net assets. The cash settlements resulting from these interest rate swaps are reported as interest expense in the consolidated statements of operations and changes in net assets.

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2012 and 2011

(Dollars in thousands)

(j) *Asset Retirement Obligations*

Asset retirement obligations (AROs) are legal obligations associated with the retirement of long-lived assets. These liabilities are initially recorded at fair value, and the related asset retirement costs are capitalized by increasing the carrying amount of the related assets by the same amount as the liability. Asset retirement costs are subsequently depreciated over the useful lives of the related assets. Subsequent to initial recognition, Wellmont records period-to-period changes in the ARO liability resulting from the passage of time and revisions to either the timing or the amount of the original estimate of undiscounted cash flows. Wellmont derecognizes ARO liabilities when the related obligations are settled.

(k) *Temporarily and Permanently Restricted Net Assets*

Temporarily restricted net assets are those whose use by Wellmont has been limited by donors to a specific-time period or purpose. Permanently restricted net assets have been restricted by donors to be maintained by Wellmont in perpetuity. Generally, donors of permanently restricted assets permit use of all or part of the income earned on related investments for general or specific purposes.

Temporarily restricted net assets relate primarily to amounts held by the Foundation and include amounts restricted for future capital expenditures and for operations of such areas as children's healthcare services, hospice, and cancer care.

Net assets are released from restrictions by Wellmont incurring expenses that satisfy the restricted purposes. Such net assets released during 2012 and 2011 primarily included amounts related to the purchase of equipment for pediatrics, cancer, and other healthcare operations.

Wellmont has adopted guidance issued by Financial Accounting Standards Board (FASB), which provides guidance on the net asset classification of donor-restricted endowment funds for a tax-exempt organization that is subject to an enacted version of the Uniform Prudent Management of Institutional Funds Act of 2006 (UPMIFA). Effective July 1, 2007, the State of Tennessee adopted legislation that incorporates the provisions outlined in UPMIFA. Wellmont's endowments consist solely of donor-restricted endowment funds. Wellmont's endowments consist of five individual funds established for a variety of purposes.

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2012 and 2011

(Dollars in thousands)

Wellmont has interpreted UPMIFA as requiring the preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment funds absent explicit donor stipulations to the contrary. As a result of this interpretation, Wellmont classifies as permanently restricted net assets (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment, and (c) accumulations to the donor gift instrument at the time the accumulation is added to the fund. The remaining portion of the donor-restricted endowment fund that is not classified in permanently restricted net assets is classified as temporarily restricted net assets until those amounts are approved for expenditure by the organization in a manner consistent with the standard of prudence prescribed by UPMIFA. In accordance with UPMIFA, Wellmont considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds: (1) the duration and preservation of the fund; (2) the purposes of the organization and the donor-restricted endowment fund; (3) general economic conditions; (4) the possible effect of inflation and deflation; (5) the expected total return from income and the appreciation of investments; (6) other resources of the organization; and (7) the investment policies of the organization.

(l) *Net Patient Service Revenue and Accounts Receivable*

Net patient service revenue is reported on the accrual basis in the period in which services are provided at the estimated net realizable amounts expected to be collected. Net patient service revenue includes amounts estimated by management to be reimbursable by patients and various third-party payors under provisions of reimbursement formulas in effect, including retroactive adjustments under reimbursement agreements. Estimated retroactive adjustments are accrued in the period related services are rendered and adjusted in future periods as final and other settlements are determined. On the basis of historical experience, a significant portion of Wellmont's uninsured patients will be unable or unwilling to pay for the services provided. Therefore, Wellmont records a significant provision for bad debts related to uninsured patients in the period the services are provided. This provision for bad debts is presented on the statement of operations as a component of net patient revenue. Wellmont provides care to patients who meet criteria under its charity care policy without charge or at amounts less than its established rates. Because Wellmont does not pursue collection of amounts determined to qualify as charity care, they are not included in net patient service revenue.

Patient accounts receivable are reported net of both an allowance for contractual adjustments and an allowance for uncollectible accounts. The contractual allowance represents the difference between established billing rates and estimated reimbursement from Medicare, TennCare, Medicaid, and other third-party payment programs. Wellmont's policy does not require collateral or other security for patient accounts receivable. Wellmont routinely obtains assignment of, or is otherwise entitled to receive, patient benefits payable under health insurance programs, plans, or policies.

(m) *Revenue and Gains in Excess of Expenses and Losses*

The consolidated statements of operations and changes in net assets include revenue and gains in excess of expenses and losses. Changes in unrestricted net assets that are excluded from revenue and gains in excess of expenses and losses, consistent with industry practice, include changes in net

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2012 and 2011

(Dollars in thousands)

unrealized gains (losses) on investments other than trading securities, changes in the funded status of Wellmont's defined-benefit plan, contributions of long-lived assets, including assets acquired using contributions that, by donor restriction, were to be used for the purposes of acquiring such assets, and cumulative effects of changes in accounting principles.

For purposes of financial statement display, those activities directly associated with Wellmont's mission of providing healthcare services are considered to be operating activities. Nonoperating activities primarily include investment and related activities. Other operating revenues primarily include cafeteria, rental, meaningful use incentives, and income from affiliates.

(n) Contributed Resources

Gifts of long-lived assets, such as land, buildings, or equipment, are reported as unrestricted contributions, and are excluded from revenue and gains in excess of expenses and losses, unless explicit donor stipulations specify how the donated assets must be used. Gifts of long-lived assets with explicit restrictions that specify how the assets are to be used and gifts of cash or other assets that must be used to acquire long-lived assets are reported as restricted contributions. Absent explicit donor stipulations about how long those long-lived assets must be maintained, expiration of donor restrictions is reported when the donated or acquired long-lived assets are placed in service.

Unconditional promises to give cash or other assets are reported at fair value at the date the promise is received. Gifts are reported as either a temporarily or permanently restricted contribution if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated time restriction ends or a purpose restriction is accomplished, temporarily restricted net assets are reclassified as unrestricted net assets and reported in the consolidated statements of operations and changes in net assets as net assets released from restrictions. Donor-restricted contributions whose restrictions are met within the same year as received are recorded as unrestricted contributions. Unrestricted contributions are included in other revenues.

(o) Federal Income Taxes

The Wellmont entities are primarily classified as organizations exempt from federal income taxes under Section 501(a) as entities described in Section 501(c)(3) of the Internal Revenue Code. Accordingly, no provision for income taxes has been included for these entities in the consolidated financial statements. The operations of Wellmont, Inc. are subject to state and federal income taxes, which are accounted for in accordance with ASC Topic 740, *Income Taxes*; however, such amounts are not material.

On July 1, 2007, Wellmont adopted new guidance issued on the accounting for uncertainty in income tax positions now codified into ASC 740. It also provides guidance on when tax positions are recognized in an entity's financial statements and how the values of these positions are determined. There was no impact on Wellmont's consolidated financial statements as a result of the adoption of the new guidance.

Notes to Consolidated Financial Statements

June 30, 2012 and 2011

(Dollars in thousands)

(p) New Accounting Pronouncements

In August 2010, the Financial Accounting Standards Board issued ASU No. 2010-23, *Measuring Charity Care for Disclosure* (ASU 2010-23). ASU 2010-23 requires that cost be used as the measurement basis for charity care disclosures purposes and that cost can be identified as direct and indirect costs of providing charity care. The adoption of ASU 2010-23 as of July 1, 2011 had no impact on the consolidated financial statements. In August 2010, the Financial Accounting Standards Board issued ASU No. 2010-24, *Presentation of Insurance Claims and Related Insurance Recoveries* (ASU 2010-24). ASU 2010-24 clarifies that healthcare entities should not net insurance recoveries against the related claim liability and that the claim liability amount should be determined without consideration of insurance recoveries. The adoption of ASU 2010-24 as of July 1, 2011 had no impact on the consolidated financial statements.

In July 2011, the Financial Accounting Standards Board issued ASU No. 2011-07, *Presentation and Disclosure of Patient Service Revenue, Provision for Bad Debts, and the Allowance for Doubtful Accounts for Certain Health Care Entities* (ASU 2011-07). Wellmont adopted ASU 2011-07 on July 1, 2011 and applied it retrospectively to fiscal year 2011. Wellmont's presentation of provision for bad debts in the consolidated statements of operations and changes in net assets is now shown as a deduction from net patient service revenue. In addition, there are enhanced disclosures about the entities policies for recognizing revenue and assessing bad debts. The ASU also requires disclosures of patient service revenue as well as qualitative and quantitative information about changes in the allowance for doubtful accounts.

The Financial Accounting Standards Board issued ASU No. 2011-08, *Intangibles – Goodwill and Other (Topic 350): Testing Goodwill for Impairment* (ASU 2011-08) in September 2011. ASU 2011-08 allows entities to assess qualitative factors first to determine whether the existence of events or circumstances leads to a determination that it is more likely than not that the fair value of a reporting unit is less than its carrying amount. If the initial determination is negative, then the entity does not need to perform the two-step impairment test. If the conclusion is otherwise, then the entity must perform the first step of the two-step impairment test. The adoption of ASU 2011-08 will be effective for Wellmont beginning in fiscal year 2013.

The Financial Accounting Standards Board issued ASU No. 2011-11, *Balance Sheet (Topic 210): Disclosures about Offsetting Assets and Liabilities* (ASU 2011-11) in December 2011. This ASU requires improved disclosures about financial instruments and derivative instruments that are offset in accordance with Section 210-20-45 or Section 815-10-45 or subject to an enforceable master netting arrangement or similar agreement. The adoption of ASU 2011-11 will be effective for Wellmont beginning in fiscal year 2014.

(q) Reclassifications

Certain 2011 amounts have been reclassified to conform to the 2012 consolidated financial statement presentation. The reclassifications had no impact on total assets or changes in net assets.

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2012 and 2011

(Dollars in thousands)

(3) Net Patient Service Revenue

A reconciliation of the amount of services provided to patients at established rates to net patient service revenue as presented in the consolidated statements of operations and changes in net assets is as follows for the years ended June 30:

	<u>2012</u>	<u>2011</u>
Gross patient service revenue	\$ 2,398,999	2,260,489
Less:		
Contractual adjustments and other discounts	(1,524,110)	(1,431,215)
Charity care	<u>(61,660)</u>	<u>(61,824)</u>
Net patient service revenue before provision for bad debts	813,229	767,450
Less provision for bad debts	<u>(71,407)</u>	<u>(37,858)</u>
Net patient service revenue	<u>\$ 741,822</u>	<u>729,592</u>

Wellmont's allowance for doubtful accounts is predominantly for self-pay patients and patient balances remaining after third-party payments. The provision for bad debts increased \$33,549 from fiscal 2011 to fiscal 2012 and the net write-offs increased \$31,272 from fiscal 2011 to fiscal 2012. Both increases were the result of negative trends experienced in the collection of amounts from patients in fiscal year 2012 as a result of the economic conditions and due to the increased proportion of patient financial responsibility for those patients with health insurance. Wellmont has not changed its charity care or uninsured discount policies during fiscal 2012. Wellmont does not maintain a material allowance for doubtful accounts from third-party payors, nor did it have significant write-offs from third-party payors.

(4) Third-Party Reimbursement Arrangements

Wellmont renders services to patients under contractual arrangements with the Medicare and Medicaid programs. The Medicaid program in Tennessee was replaced with a managed care program known as TennCare, which was designed to cover previous Medicaid eligible enrollees. Amounts earned under these contractual arrangements are subject to review and final determination by fiscal intermediaries and other appropriate governmental authorities or their agents. Management believes that adequate provision has been made for any adjustments that may result from such reviews. Participation in these programs subjects Wellmont to significant rules and regulations; failure to adhere to such could result in fines, penalties, or expulsion from the programs.

Wellmont contracts with various managed care organizations under the TennCare program. TennCare reimbursement for both inpatient and outpatient services is based upon prospectively determined rates, including diagnostic-related group assignments, fee schedules, and per diem amounts. Reimbursement under the Medicaid program is also based upon prospectively determined amounts.

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2012 and 2011

(Dollars in thousands)

The Medicare program pays for the costs of inpatient services on a prospective basis. Payments are based upon diagnostic-related group assignments, which are determined by the patient's clinical diagnosis and medical procedures utilized. Wellmont receives additional payments from Medicare based on the provision of services to a disproportionate share of Medicaid-eligible and other low-income patients. Outpatient services are also reimbursed primarily on a prospectively determined basis.

Net patient service revenue in 2012 and 2011 related to Medicare, TennCare, and Medicaid and net patient accounts receivable at June 30, 2012 and 2011 from Medicare, TennCare, and Medicaid were as follows:

	<u>2012</u>	<u>2011</u>
Net patient service revenue:		
Medicare	\$ 312,202	285,821
TennCare	28,548	23,791
Medicaid	19,541	22,336
Net patient accounts receivable:		
Medicare	\$ 41,883	34,671
TennCare	2,957	2,798
Medicaid	5,244	3,427

Wellmont has filed cost reports with Medicare and Medicaid. The cost reports are subject to final settlement after audits by the fiscal intermediary. The Medicare and Medicaid cost reports have been audited and final settled by the intermediary through June 30, 2006 and audit adjustments have been received and considered for certain hospitals and year-ends through June 30, 2010.

Wellmont has also entered into reimbursement agreements with certain commercial insurance companies, health maintenance organizations, and preferred provider organizations. The basis for reimbursement under these agreements includes prospectively determined rates per discharge, per diem rates, and discounts from established charges.

Net patient service revenue is reported at the net amounts billed to patients, third-party payors, and others for services rendered, including estimated retroactive adjustments under reimbursement agreements with third-party payors. Estimated retroactive adjustments are accrued in the period the related services are rendered and adjusted in future periods as changes in estimated provisions and final settlements are determined. Net patient service revenue increased approximately \$3,575 and \$2,319 in 2012 and 2011, respectively, due to final settlements and revised estimates in excess of amounts previously recorded, removal of allowances previously estimated that are no longer necessary as a result of audits and final settlements, and years that are no longer subject to audits, reviews, and investigations.

Estimated settlements recorded at June 30, 2012 could differ materially from actual settlements based on the results of third-party audits.

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2012 and 2011

(Dollars in thousands)

(5) Meaningful Use Incentives

The American Recovery and Reinvestment Act of 2009 (ARRA) established incentive payments under the Medicare and Medicaid programs for certain professionals and hospitals that meaningfully use certified electronic health record (EHR) technology. The Medicare incentive payments are paid out to qualifying hospitals and physician groups over four consecutive years on a transitional schedule. To qualify for Medicare incentives, hospitals and physician groups must meet EHR “meaningful use” criteria that become more stringent over three stages as determined by Centers for Medicare & Medicaid Services (CMS). Medicaid programs and payment schedules vary from state to state.

During the fiscal year ended June 30, 2012, Wellmont recorded \$13.1 million in other operating revenue related to the EHR and meaningful use incentives. These incentives have been recognized following the grant accounting model, recognizing income ratably over the applicable reporting period as management becomes reasonably assured of meeting the required criteria.

Amounts recognized represent management’s best estimates for payments ultimately expected to be received based on estimated discharges, charity care, and other input data. Subsequent changes to these estimates will be recognized in other operating revenue in the period in which additional information is available. Such estimates are subject to audit by the federal government or its designee.

(6) Charity Care and Community Services

Wellmont accepts all patients within its primary service area regardless of their ability to pay. A patient is classified as a charity patient by reference to certain established policies that consider, among other factors, generally recognized poverty income levels.

Wellmont maintains records to identify and monitor the level of charity care it provides. Charges foregone for services and supplies furnished under its charity care policy, the estimated cost of those services, and the equivalent percentage of charity care patients to all patients serviced were \$61,660, \$16,144, and 2.57%, respectively, for the year ended June 30, 2012 and \$61,824, \$16,982, and 2.73%, respectively, for the year ended June 30, 2011.

In addition to the charity care services described above, Wellmont provides a number of other services to benefit the indigent for which little or no payment is received. Medicare, Medicaid, and State indigent programs do not cover the full cost of those services. The shortfall between actual receipts from those programs and Wellmont’s cost of providing care to those patients totaled \$44,432 and \$49,180, for the years ended June 30, 2012 and 2011, respectively.

Wellmont also provides services to the community at large for which it receives little or no payment. Health evaluations, screening programs, and specific services for the elderly and homebound are other services supplied. Wellmont also provides public health education, trains new health professionals, and conducts health research.

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2012 and 2011

(Dollars in thousands)

(7) Investment in Affiliates

Wellmont has investments with other healthcare providers, which include hospital, home care, regional laboratories, and other healthcare-related organizations. Wellmont records its share of equity in the operations of the respective organizations. Equity in earnings of affiliates was approximately \$7,233 and \$4,478 for the years ended June 30, 2012 and 2011, respectively, and is included in other operating revenue in the consolidated financial statements. Wellmont received distributions of \$5,764 and \$5,320 during 2012 and 2011, respectively, which reduced Wellmont's overall investment in the affiliates.

The following table summarizes the unaudited aggregate financial information of Wellmont's investments in affiliates:

		<u>2012</u>	<u>2011</u>
Total assets	\$	127,206	127,545
Total liabilities		<u>27,732</u>	<u>31,326</u>
Total net assets	\$	<u>99,474</u>	<u>96,219</u>
Net revenues	\$	228,644	184,648
Expenses		<u>207,806</u>	<u>171,070</u>
Revenues in excess of expenses	\$	<u>20,838</u>	<u>13,578</u>

Wellmont's equity investment in these affiliates and its ownership percentage as of June 30, 2012 and 2011 is as follows:

		<u>Amount</u>		<u>Percentage</u>	
		<u>2012</u>	<u>2011</u>	<u>2012</u>	<u>2011</u>
Takoma Regional Hospital	\$	12,350	11,161	60%	60%
Holston Valley Imaging Center (HVIC)		8,818	8,689	75	75
Advanced Home Care (AHC)		6,092	6,092	6	6
Lab Group Holdings LLC		3,500	3,500	1	1
Others		<u>1,886</u>	<u>1,735</u>	4% – 50%	4% – 50%
	\$	<u>32,646</u>	<u>31,177</u>		

Although Wellmont's ownership percentage in Takoma Regional Hospital and HVIC is greater than 50%, Wellmont does not consolidate these entities because Wellmont only has a 50% representation on each respective board and does not have control over these entities.

Wellmont provided billing, management, and professional services to some of the affiliates. Income recognized by Wellmont for the services was \$929 in 2012 and \$943 in 2011 and is included in other revenues.

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2012 and 2011

(Dollars in thousands)

During the fiscal year ended June 30, 2012, Takoma Regional Hospital recorded \$3.2 million in net revenue related to the EHR and meaningful use incentives of which \$1.9 million is included as income in affiliates in Wellmont's consolidated financial statements. These incentives have been recognized following the grant accounting model, recognizing income ratably over the applicable reporting period as management becomes reasonably assured of meeting the required criteria.

Included in other receivables are \$374 and \$320 as of June 30, 2012 and 2011, respectively, of amounts due to Wellmont from these entities.

(8) Investments

Long-term investments, including assets limited as to use, at June 30 are reported at fair value and consist of the following:

Total long-term investments	<u>\$ 36,633</u>	<u>36,437</u>

Investments in certain alternative limited partnership investments contain agreements whereby Wellmont is committed to contribute approximately \$6,705 as of June 30, 2012 of additional funds to the limited partnerships in the form of capital calls at the discretion of the general partner, of which \$157 was paid subsequent to June 30, 2012.

Wellmont has invested \$10,000 in the preferred equity of a regional managed services organization and \$1,512 on a right of first refusal related to any future sale of this organization. This equity has a guaranteed annual return of at least 6.5% of the outstanding preferred equity balance.

Wellmont's investments are concentrated in stock and bond mutual funds. In the event of a downward trend in the stock and bond markets, Wellmont's overall market value of net assets could be adversely affected by a material amount. Investments in alternative investments are generally illiquid investments whose value is determined by the general partner such as hedge funds, private equity, commingled funds and real estate funds. Distributions are only at the discretion of a voting majority of the general partners.

Wellmont evaluates whether unrealized losses on investment securities indicate other-than-temporary impairment. Based on this evaluation, Wellmont recognized other-than-temporary impairment losses of \$265 and \$610 on investments as of June 30, 2012 and 2011, respectively. The unrealized losses on these mutual funds were primarily caused by the overall decline in the world's economy. Other-than-temporary impairment losses are considered as realized losses and are reported within "investment income" in the consolidated statements of operations and changes in net assets.

(b) Series 2011 Bonds

On May 5, 2011, Wellmont refunded the Revenue Bonds, Series 2006A, with the proceeds of the Revenue Bonds, Series 2011. The Series 2011 Bonds were issued by Health, Educational, and Housing Facilities Board of the County of Sullivan, Tennessee on behalf of Wellmont. Under the terms of the bond indenture, the proceeds were used to advance refund the Revenue Bonds, Series 2006A and to pay the costs of issuing the Series 2011 Bonds.

In order to refund the Series 2006A Bonds, Wellmont made a tender offer to the holders of the Series 2006A Bonds. The holders of all outstanding Series 2006A Bonds agreed to tender their Series 2006A Bonds to Wellmont. Proceeds of the Series 2011 Bonds were used to pay the purchase price of Series 2006A Bonds tendered for purchase. All outstanding Series 2006A Bonds were purchased by the Wellmont on the date of issuance of the Bonds and were immediately surrendered to the trustee for the Series 2006A Bonds for retirement and cancellation.

The Series 2011 Bonds were issued with two maturities of \$42,385 and \$33,780 for 2026 and 2032, respectively. The Series 2011 Bonds maturing September 1, 2026 are subject to mandatory redemption prior to maturity pursuant to the operation of a sinking fund, in part by lot starting on the redemption dates beginning on September 1, 2013 and ending on September 1, 2026 in annual

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

(Dollars in thousands)

amounts ranging from \$865 to \$4,680. The Series 2011 Bonds maturing September 1, 2032 are subject to mandatory redemption prior to maturity pursuant to the operation of a sinking fund, in part by lot starting on the redemption dates beginning on September 1, 2027 and ending on September 1, 2032 in annual amounts ranging from \$4,980 to \$6,300. The Series 2011 Bonds were issued as fixed-rate obligations at 6.0% and 6.5% for the two maturities (2026 and 2032, respectively).

(c) Series 2010 Bank Qualified Bonds

On November 1, 2010, The Health, Educational, and Housing Facilities Board of the County of Sullivan, Tennessee (the Board) issued \$30,000 Hospital Revenue Bonds, Series 2010 (Bank Qualified). The Series 2010 Bonds were issued and sold pursuant to the Bond Purchase Agreement dated as of November 1, 2010, between the Board and First Tennessee Bank National Association. During the fiscal year ended June 30, 2012 and 2011, Wellmont has received advances on the bonds in the amounts of \$11,368 and \$14,968, respectively.

Commencing on January 1, 2011, and continuing on the first day of each fiscal quarter thereafter, Wellmont shall pay accrued interest on the outstanding balance of the loan. Commencing on October 1, 2011 and continuing on the first day of each fiscal quarter thereafter, Wellmont shall also make principal payments equal to \$500. The outstanding bonds accrue interest at a rate equal to the product of 65% of the sum of LIBOR plus the applicable margin, which at June 30, 2012 was set at 1.95%.

(d) Series 2007 Bonds

On July 24, 2007, The Virginia Small Business Financing Authority issued, on behalf of Wellmont, \$55,000 of Hospital Revenue Bonds, Series 2007A. The Series 2007A Bonds, with other methods of financing, were used to purchase the assets of Mountain View Regional Medical Center and Lee Regional Medical Center.

Principal on outstanding Series 2007A Bonds is payable through maturity or mandatory sinking fund redemption in annual amounts ranging from \$360 to \$2,460 commencing on September 1, 2017 through September 1, 2036, with a balloon payment of \$29,245 due on September 1, 2037. The outstanding bonds accrue interest at rates ranging from 5.125% to 5.250%.

(e) Series 2006 C

On October 26, 2006, The Health, Educational, and Housing Facilities Board of the County of Sullivan Tennessee issued, on behalf of Wellmont, \$200,000 of Hospital Revenue Bonds, Series 2006C. The Series 2006C Bonds were used to: finance the costs of acquisition of land for expansion, construction, expansion, equipping, and renovation of HVMC, including the construction of a new patient tower (collectively known as Project Platinum); finance the costs of the construction, expansion, equipping, and renovation of the emergency department at BRMC (the Bristol Emergency Department Project); and finance the costs of construction, expansion, renovation and equipping of an operating room and related facilities at HCMH.

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2012 and 2011

(Dollars in thousands)

Principal on outstanding Series 2006C Bonds is payable through maturity or mandatory sinking fund redemption in annual amounts ranging from \$1,605 to \$25,330 commencing on September 1, 2017 through September 1, 2036. The outstanding bonds accrue interest at rates ranging from 5.00% to 5.25%.

(f) Series 2006 A and B

On June 23, 2006, The Health, Educational, and Housing Facilities Board of the County of Sullivan, Tennessee, issued, on behalf of Wellmont, \$98,475 of Hospital Revenue Refunding Bonds, Series 2006. This bond issuance consisted of Series A tax-exempt and Series B taxable bonds of \$76,595 and \$21,880, respectively. The Series 2006 Bonds together with other available funds were used to advance refund all the previously issued Hospital Revenue Bonds, Series 1993, to reimburse Wellmont for payments made on other taxable borrowings and to pay certain expenses incurred in connection with the issuance of the Series 2006 Bonds. Upon this refunding, a trust was established to pay all future bond payments related to the Series 1993 Bonds. Wellmont was deemed to have paid the Series 1993 Bonds and these Bonds are no longer deemed to be outstanding for purposes of the Series 1993 Trust Indenture.

Principal on outstanding Series 2006A Bonds was payable through maturity or mandatory sinking fund redemption in annual amounts ranging from \$875 to \$6,400 commencing on September 1, 2013 through September 1, 2032; and the outstanding bonds accrued interest on a variable rate, which was reset monthly based upon the AAA-insured Municipal Market Data Index, plus 85 basis points. Principal on outstanding Series 2006B Bonds was payable through maturity in annual amounts ranging from \$1,600 to \$2,930 commencing on September 1, 2007 through September 1, 2016, and the outstanding bonds accrued interest at a fixed rate of 6.95%.

Outstanding Series 2006A Bonds were subject to redemption prior to maturity at the option of The Health, Educational, and Housing Facilities Board of the County of Sullivan, Tennessee, upon direction by Wellmont in whole at any time, or in part on any certain specified days at redemption prices of 100% – 102% of the principal amount of the Series 2006A Bonds being redeemed, plus accrued interest thereon to the redemption date.

On October 1, 2010, the Series 2006B Bonds were called and paid in full at par value of \$14,880.

On May 5, 2011, the Series 2006A Bonds were refunded with the proceeds of the Revenue Bonds, Series 2011.

(g) Series 2005

On December 8, 2005, The Health, Educational, and Housing Facilities Board of the County of Sullivan, Tennessee, issued, on behalf of Wellmont, \$70,620 of Hospital Revenue Refunding Bonds, Series 2005. The Series 2005 Bonds together with other available funds were used to advance refund the previously issued Hospital Revenue Bonds, Series 2002, and to pay certain expenses incurred in connection with the issuance of the Series 2005 Bonds.

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2012 and 2011

(Dollars in thousands)

Principal on outstanding Series 2005 Bonds is payable through maturity or mandatory sinking fund redemption in annual amounts ranging from \$1,945 to \$3,390 commencing on September 1, 2007 through September 1, 2032. The terms of the bonds provide that bondholders may redeem or put the bonds to the remarketing agent on dates that approximate a weekly basis. The remarketing agent is obligated to remarket the redeemed bonds on a “best efforts” basis. Redeemed bonds are repaid to bondholders from the proceeds of the remarketing effort or, in the event of an inability to remarket the bonds, from a letter of credit. This letter secures the bonds in the event of a failed remarketing or liquidity issue. In the event of a liquidity drawing under the letter of credit, Wellmont shall pay the Base Rate equal to the greater of (i) the Prime Rate plus 1.50% per annum, (ii) LIBOR plus 2.50% per annum, or (iii) 7.50% per annum. Wellmont shall repay the liquidity drawing amount in 12 equal quarterly installments, with the first such installment due on the first anniversary of the related liquidity drawing.

Outstanding Series 2005 Bonds are subject to redemption prior to maturity at the option of The Health, Educational, and Housing Facilities Board of the County of Sullivan, Tennessee, upon direction by Wellmont in whole at any time, or in part on any certain specified days at redemption prices of 100% – 102% of the principal amount of the Series 2005 Bonds being redeemed, plus accrued interest thereon to the redemption date.

(h) Series 2003

On June 1, 2003, The Health, Educational, and Housing Facilities Board of the County of Sullivan, Tennessee, issued, on behalf of Wellmont, \$59,100 of Hospital Revenue Bonds, Series 2003. The bonds were issued to provide funds necessary to refund Wellmont’s Hospital Revenue Bonds, Series 1993 (HVHC), to fund a debt service reserve fund and to pay certain expenses incurred in connection with the issuance of the Series 2003 Bonds.

The Wellmont Series 2003 Bonds consist of \$27,460 in fixed-rate serial bonds and \$19,280 in fixed-rate term bonds payable through maturity or mandatory sinking fund redemption maturing in annual amounts ranging from \$3,230 on September 1, 2007 to \$4,140 on September 1, 2019, and carrying interest rates ranging from 2.5% to 5.00%.

(i) Master Trust Indenture

The master trust indentures and loan agreements for the 2011, 2010, 2007, 2006, 2005, and 2003 bonds contain certain requirements regarding deposits to trustee funds, maintenance of rates, maintenance of debt service coverage and liquidity, permitted indebtedness, and permitted disposition of assets. Gross receipts of Wellmont collateralize the bonds. The purpose of the master trust indenture is to provide a mechanism for the efficient and economical issuance of notes by individual members of Wellmont using the collective borrowing capacity and credit rating of Wellmont. The master trust indenture requires individual members of Wellmont to make principal and interest payments on notes issued for their benefit. The master trust indenture also requires Wellmont members to make payments on notes issued by other members of Wellmont if such other members are unable to satisfy their obligations under the master trust indenture. Payments of principal and interest on certain bonds are also insured by bond insurance policies.

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2012 and 2011

(Dollars in thousands)

Funds held by the trustee related to the various revenue bonds are available for specific purposes. The bond interest and revenue funds may be used only to pay interest and principal on the bonds; the debt service reserve fund may be used to pay interest and principal if sufficient funds are not available in the bond interest and revenue funds. The original issue discount and premium on all Bond Series outstanding are being amortized over the life of the bond issue using the effective-interest method.

(j) Notes Payable

During 2007, Wellmont entered into a five-year \$3,000 note payable, which has a fixed interest rate of 7.25% and a termination date of July 2011. In August 2011, Wellmont renewed this note agreement in the amount of \$1,760 with a variable interest rate indexed to the Wall Street Journal U.S. Prime Rate with a ceiling of 7.75% and a floor of 4.00% and a maturity date of August 2016. At June 30, 2012 and 2011, \$1,540 and \$1,784, respectively, was outstanding on this note.

During 2009, Wellmont entered into a five-year \$2,400 term note payable with a variable interest rate indexed to the Wall Street Journal U.S. Prime Rate and a maturity date of October 2013. At June 30, 2012 and 2011, \$640 and \$1,120, respectively, was outstanding on this note.

During 2010, Wellmont entered into a \$2,767 note payable to finance the purchase of Cardiovascular Associates. The note payable has a fixed interest rate of 5.5% and a termination date of May, 2013. At June 30, 2012 and 2011, \$922 and \$1,845, respectively, was outstanding on this note.

(k) Capital Lease Obligations

Assets under capital leases are included in property and equipment and have a net carrying value of \$25,170 and \$24,325 as of June 30, 2012 and 2011, respectively. Amortization of capital assets is included in depreciation expense. The lease obligations are recorded at the net present value of the minimum lease payments with interest rates from 4.3% to 12.0%.

(l) Long-Term Debt Maturities Schedule

Bond maturities in accordance with the original terms of the Master Trust Indenture and other long-term debt maturities for each of the next five years and in the aggregate at June 30, 2012 are as follows:

2013	\$	11,913
2014		10,230
2015		10,294
2016		10,610
2017		11,253
Thereafter		410,623
	\$	<u>464,923</u>

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2012 and 2011

(Dollars in thousands)

The following table reflects the required repayment terms for the years ended June 30 of Wellmont's debt obligations in the event that the put options associated with the 2005 bonds were exercised, but not successfully remarketed.

2013	\$	11,913
2014		21,390
2015		25,907
2016		26,103
2017		12,916
Thereafter		<u>366,694</u>
	\$	<u>464,923</u>

Interest paid for the years ended June 30, 2012 and 2011 was \$22,216 and \$21,957, respectively, net of amounts capitalized. Interest costs of \$0 and \$590, net of interest income of \$0 and \$49 in 2012 and 2011, respectively, were capitalized.

(12) Derivative Transactions

Wellmont is a party to a number of interest rate swap agreements. Such swaps have not been designated as hedges and are valued at estimated fair value in the accompanying consolidated balance sheets. By using derivative financial instruments to hedge exposures to changes in interest rates, Wellmont exposes itself to credit risk and market risk. Credit risk is the failure of the counterparty to perform under the terms of the derivative contract. When the fair value of a derivative contract is positive, the counterparty owes Wellmont, which creates credit risk for Wellmont. When the fair value of a derivative contract is negative, Wellmont owes the counterparty, and therefore, Wellmont is not exposed to the counterparty's credit risk in those circumstances. Pursuant to the terms of its interest rate swap agreements, Wellmont is required to post collateral with its counterparties under certain specified conditions. Collateral posting requirements are based on the amount of Wellmont's derivative liability and Wellmont's bond rating. As of June 30, 2012 and 2011, Wellmont was not required to post collateral related to its swaps.

Market risk is the adverse effect on the value of a derivative instrument that results from a change in interest rates. The market risk associated with interest-rate contracts is managed by establishing and monitoring parameters that limit the types and degree of market risk that may be undertaken.

In September and October, 2008, the counterparty and credit support provider, for four of the swaps held at June 30, 2010, filed bankruptcy. Subsequent to the bankruptcy filings and into 2011, no payments were made by Wellmont or the counterparty to each other. During 2011, Wellmont and the counterparty agreed to settle all amounts due on the swaps for net cash flow receivables or payables. The bankruptcy process is underway and the ultimate outcome regarding any final settlement cannot be determined at this time.

Wellmont has a Total Return Swap on the Series 2011 Bonds with a new counterparty.

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2012 and 2011

(Dollars in thousands)

Management's primary objective in holding such derivatives is to introduce a fixed or variable rate component into its variable rate debt structure using LIBOR rates. The fair value as of June 30, 2012 and 2011 of approximately \$(9,781) and \$(11,588), respectively, is included in other long-term liabilities in the consolidated balance sheets. The change in the fair value of the derivative instruments was approximately \$1,807 and \$1,355, respectively, in 2012 and 2011 and is included in nonoperating gains (losses), net in the consolidated statements of operations. The terms of the swap agreements allow netting of all amounts due from/to the counterparty. The following is a summary of the interest rate swap information as of June 30, 2012:

<u>Type of interest swap</u>	<u>Debt hedging</u>	<u>Notional amount</u>	<u>Effective date</u>	<u>Maturity date</u>	<u>Rate paid</u>	<u>Rate received</u>	<u>Swap fair value asset (liability)</u>
Total return swap Pay fixed interest	Series 2011	\$ 76,165	May 5, 2011	September 1, 2032	1.530%	6.200%	\$ 2,888
rate swap	Series 2005	57,250	December 13, 2005	September 1, 2016	3.548	0.165	(6,471)
Basis swap	Series 2002	60,765	September 1, 2002	September 1, 2032	0.180	0.339	(1,662)

(13) Pension and Other Postretirement Benefits

Wellmont sponsors a retirement program and defined-contribution retirement plan (Retirement Plan) that covers substantially all employees. This program and the related Retirement Plan were created from amendments, restatements, and mergers of existing defined-contribution plans at BRMC and HVMC. Wellmont makes annual contributions to the Retirement Plan in an amount equal to 3% of each participant's base wages and contributes an additional amount, based on each participant's voluntary contributions, which cannot exceed certain limits established in the Internal Revenue Code, up to 3% of each participant's wages. The total pension expense related to the Retirement Plan was \$10,346 and \$10,344 for the years ended June 30, 2012 and 2011, respectively.

HVMC sponsored a noncontributory, defined-benefit pension plan covering substantially all its employees. However, effective June 30, 1996, this plan was frozen and no further benefits accrue. LPH also sponsors a defined-benefit pension plan covering substantially all its employees.

HVMC's defined-pension benefits are actuarially determined based on a formula taking into consideration an employee's compensation and years of service. HVMC's funding policy is to make annual contributions to the plan based upon the funding standard developed by the plan actuary. This standard uses the projected unit credit actuarial cost method, including the amortization of prior service costs, over a 20-year period. Contributions are intended to provide not only for benefits attributed to service to date but also for those expected to be earned in the future. The LPH plan contains similar funding and actuarial policies.

On June 30, 2007, the HVMC plan merged into LPH plan and the plan name changed to Wellmont Health System Defined Benefit Plan. At the end of 2008, only a single defined-pension plan exists. Collectively, the two defined-benefit plans are referred to as the "Plans." Effective June 30, 2010, the plan was frozen for all Lonesome Pine Hospital employees and no further benefits will be accrued.

Wellmont recognizes the funded status (i.e., difference between the fair value of plan assets and projected benefit obligations) of its defined-benefit pension plans as an asset or liability in its consolidated balance sheet and recognizes changes in that funded status in the year in which the changes occur as a change in unrestricted net assets. All defined-benefit pension plans use a June 30 measurement date.

(Dollars in thousands)

	<u>2012</u>	<u>2011</u>
Amounts not yet reflected in net periodic benefit cost and included as an accumulated charge to unrestricted net assets:		
Unrecognized actuarial loss	\$ 19,773	8,565
Unrecognized prior service cost	<u>—</u>	<u>—</u>
Net amounts included as an accumulated charge to unrestricted net assets	\$ <u>19,773</u>	<u>8,565</u>
Calculation of change in unrestricted net assets:		
Accumulated charge to unrestricted net assets, end of year	\$ 19,773	8,565
Reversal of accumulated charge to unrestricted net assets, prior year	<u>(8,565)</u>	<u>(13,160)</u>
Change in unrestricted net assets	\$ <u>11,208</u>	<u>(4,595)</u>
Other changes in plan assets and benefit obligations recognized in unrestricted net assets:		
Prior service credit adjustment for curtailment	\$ —	(1)
Actuarial loss (gain) arising during the year	11,577	(3,763)
Amortization of actuarial loss	(369)	(831)
Amortization of prior service cost	<u>—</u>	<u>—</u>
Net amounts recognized in unrestricted net assets	\$ <u>11,208</u>	<u>(4,595)</u>

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2012 and 2011

(Dollars in thousands)

	<u>2012</u>	<u>2011</u>
Estimate of amounts that will be amortized from unrestricted net assets to net pension cost in 2012:		
Amortization of net loss	\$ 2,186	382
Amortization of prior service cost	—	—
Estimated future benefit payments:		
Fiscal 2012	—	2,276
Fiscal 2013	2,609	2,369
Fiscal 2014	2,732	2,492
Fiscal 2015	2,821	2,596
Fiscal 2016	2,996	2,671
Fiscal 2017 – 2021	16,054	14,819
Weighted average assumptions used to determine benefit obligations:		
Settlement (discount) rate	4.00%	5.50%
Weighted average rate of increase in future compensation levels	N/A	N/A
Components of net periodic benefit cost (benefit):		
Service cost	\$ —	220
Interest cost	2,422	2,390
Expected return on plan assets	(2,658)	(2,340)
Amortization of net loss	369	831
Amortization of unrecognized prior service cost curtailments	—	1
Net periodic benefit cost	<u>\$ 133</u>	<u>1,102</u>
Weighted average assumptions used to determine net periodic benefit cost:		
Settlement (discount) rate	5.50%	5.50%
Expected long-term return on plan assets (HVMC)	7.00	7.00
Expected long-term return on plan assets (LPH)	7.00	7.00
Weighted average rate of increase in future compensation levels	N/A	3.00

Wellmont's overall expected long-term rate of return on assets is 7.00%. The expected long-term rate of return is based on the portfolio as a whole and not on the sum of the returns on individual asset categories. The return is based exclusively on historical returns, without adjustments.

Wellmont has developed a plan investment policy, which is reviewed and approved by the board of directors. The policy established goals and objectives of the fund, asset allocations, asset classifications, and manager guidelines. The policy dictates a target asset allocation and an allowable range for such categories based on quarterly investment fluctuations. Investments are managed by independent advisers who are monitored by management and the board of directors.

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2012 and 2011

(Dollars in thousands)

The table below shows the target allocation and actual asset allocations as of June 30, 2012 and 2011:

Asset	Target allocation	2012	2011
Equity securities	65%	47%	46%
Fixed income	28	32	35
Cash	5 – 15%	2	2
Other	5 – 15%	19	17

Wellmont monitors the asset allocation and executes required recalibrations of the portfolio allocation on a regular basis in response to fluctuations in market conditions and the overall portfolio composition.

HVMC also participates in a health and welfare plan for its retirees. The plan provides postretirement medical and life insurance benefits to certain employees who meet minimum age and service requirements. Effective January 1, 1995, the death benefit was changed to provide a flat \$5 benefit to all future retirees. During 1995, the medical program for retirees was amended to terminate medical benefits for any active employees who would not meet the full eligibility requirements of the program by January 1, 1996. The plan is contributory and contains other cost-sharing features such as deductibles and coinsurance.

The following table sets forth the postretirement plan's funded status, amounts recognized in the accompanying consolidated financial statements, and assumptions at June 30:

	Postretirement benefits	
	2012	2011
Change in benefit obligation:		
Benefit obligation at beginning of year	\$ 7,763	5,861
Interest cost	298	365
Plan participants contributions	34	79
Actuarial losses	(975)	1,686
Benefits paid	(81)	(228)
Benefit obligation at end of year	7,039	7,763
Change in plan assets:		
Fair value of plan assets at beginning of year	—	—
Employer contribution	47	149
Plan participants contributions	34	79
Benefits paid	(81)	(228)
Fair value of plan assets at end of year	—	—
Funded status	\$ 7,039	7,763

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2012 and 2011

(Dollars in thousands)

The net gain and prior service credit for the defined-benefit postretirement plan that will be amortized from unrestricted net assets into net periodic benefit cost over the next fiscal year are \$(168) and \$(88), respectively. Weighted average assumptions used to determine benefit obligations for 2012 and 2011 were as follows:

	<u>2012</u>	<u>2011</u>
Discount rate	3.50%	5.00%
Rate of compensation increase	—	—
Healthcare cost trend rate	5.00	5.00

Weighted average assumptions used to determine net benefit cost for 2012 and 2011 were as follows:

	<u>Postretirement benefits</u>	
	<u>2012</u>	<u>2011</u>
Discount rate	5.00%	5.00%
Expected long-term rate of return on plan assets	N/A	N/A
Rate of compensation increase	N/A	N/A
Healthcare cost trend rate	5.00	5.00

Wellmont's overall expected long-term rate of return on assets is 7%. The expected long-term rate of return is based on the portfolio as a whole and not on the sum of the returns on individual asset categories. The return is based exclusively on historical returns, without adjustments.

For measurement purposes, a 5% annual rate of increase in the per capita cost of covered healthcare benefits was assumed for 2012.

The following table summarizes the effect of one-percentage-point increase/decrease in healthcare costs trends:

	<u>2012</u>	<u>2011</u>
Effect of one-percentage-point increase in healthcare cost trend on:		
Service and interest cost	\$ 21	27
Accumulated pension benefit obligation	533	545
Effect of one-percentage-point decrease in healthcare cost trend on:		
Service and interest cost	\$ (19)	(24)
Accumulated pension benefit obligation	(473)	(486)

(Dollars in thousands)

The following table presents Wellmont’s activity for assets measured at fair value on a recurring basis using significant unobservable inputs (Level 3) as defined in ASC 820 for the years ended June 30, 2012 and 2011:

	Alternative investments
Balance at June 30, 2010	\$ 5,500
Net change in value	1,349
Purchases, issuances, and settlements	19
Transfers in and/or out of Level 3 (net)	(3,280)
Balance at June 30, 2011	3,588
Net change in value	(29)
Purchases, issuances, and settlements	(12)
Transfers in and/or out of Level 3 (net)	—
Balance at June 30, 2012	\$ 3,547

(14) Self-Insurance Programs

Wellmont is self-insured for professional and general liability and workers’ compensation liability. Consulting actuaries have been retained to determine funding requirements and estimate claim liability exposures. Wellmont has established revocable self-insurance trust funds to provide for professional and general liability claims and workers’ compensation claims and related expenses. Wellmont’s contributions to the self-insurance trusts are based upon actuarial determinations by an independent service company. The professional and general liability self-insurance program is supplemented by umbrella excess liability policies consisting of various layers of coverage with commercial carriers based on policy year. The workers’ compensation program is supplemented for Tennessee and Virginia by excess workers’ compensation policies, with a commercial carrier for statutory limits per occurrence. Provisions based on actuarial estimates are made for the ultimate cost of claims asserted, as well as estimates of claims incurred but not reported as of the respective consolidated balance sheet dates. Workers’ compensation expense under these programs amounted to approximately \$4,100 and \$4,056 for the years ended June 30, 2012 and 2011, respectively, and are included in salaries and benefits expense in the accompanying consolidated statements of operations and changes in net assets. All other self-insurance expense under these programs amounted to approximately \$2,763 and \$3,097 for the years ended June 30, 2012 and 2011, respectively, and are included in other expense in the accompanying consolidated statements of operations and changes in net assets.

At June 30, 2012 and 2011, Wellmont was involved in litigation relating to medical malpractice and workers’ compensation claims arising in the ordinary course of business. There are also known incidents that occurred through June 30, 2012 that may result in the assertion of additional claims, and other claims may be asserted arising from services provided to patients in the past. Claims have been filed requesting damages in excess of the amount accrued for estimated malpractice costs. Management of Wellmont is of the opinion that estimated professional and general liability amounts accrued at June 30, 2012 are adequate

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2012 and 2011

(Dollars in thousands)

to provide for potential losses resulting from pending or potential litigation. Amounts of claim settlements may be more or less than what has been provided for by management. The ultimate settlement of claims could be different from recorded accruals, with such differences being potentially significant.

Wellmont is also self-insured for medical and other healthcare benefits provided to its employees and their families. A provision for estimated incurred but not reported claims has been provided in the consolidated financial statements.

(15) Commitments and Contingencies

Construction in progress at June 30, 2012 and 2011 relates primarily to the completion of certain buildings and renovations. Total costs to complete these and other projects were approximately \$2,768 at June 30, 2012. Wellmont has entered into contracts of \$2,768 related to these projects.

Wellmont leases certain equipment and office space under operating lease agreements. Total rental expense under cancelable and noncancelable agreements was \$19,391 and \$18,179 for the years ended June 30, 2012 and 2011, respectively. Minimum future lease payments under noncancelable operating leases with initial or remaining lease terms in excess of one year as of June 30, 2012 are as follows:

2013	\$	13,473
2014		7,613
2015		6,564
2016		4,527
2017		4,364
Thereafter		19,713
	\$	<u>56,254</u>

Wellmont has entered into contractual employment relationships with physicians to provide services to Wellmont physician practices that are intended to qualify under the employee safe harbor of the Anti-Kickback Statute and the employee exception of the Physician Self-Referral Law. These contracts have terms of varying lengths, guarantee certain base payments, and may provide for additional incentives based upon productivity.

The healthcare industry is subject to numerous laws and regulations of federal, state, and local governments. These laws and regulations include, but are not necessarily limited to, such matters as licensure, accreditation, government healthcare program participation requirements, reimbursement for patient services, and Medicare fraud and abuse. Recently, government activity has increased with respect to investigations and allegations concerning possible violations of fraud and abuse statutes and regulations by healthcare providers. Violations of these laws and regulations could result in expulsion from government healthcare programs together with the imposition of significant fines and penalties, as well as significant repayments for patient services previously billed. Management believes Wellmont is in compliance with fraud and abuse statutes and other applicable government laws and regulations. Compliance with such laws and regulations can be subject to future government review and interpretation, as well as regulatory actions unknown or unasserted at this time.

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2012 and 2011

(Dollars in thousands)

(16) Functional Expense Disclosure

Wellmont provides healthcare services to residents within its geographic location. Expenses based upon functional classification related to providing these services during the years ended June 30 are as follows:

	<u>2012</u>	<u>2011</u>
Professional care of patients	\$ 619,560	598,545
Administrative and general	146,740	142,768
Fund-raising	1,103	913
	<u>\$ 767,403</u>	<u>742,226</u>

(17) Income Taxes

Wellmont, Inc. and its subsidiaries file consolidated federal and separate company state income tax returns. These companies have combined net operating loss carryforwards for federal income tax purposes of approximately \$84,000 at June 30, 2012, which begin expiring in fiscal 2018 and expire through 2032. These net operating losses can be used to offset future consolidated taxable income of Wellmont, Inc. and subsidiaries. Wellmont Health System participates in certain activities that generate unrelated business taxable income. These activities have generated net operating losses in prior years, and Wellmont Health System files a Form 990-T with the IRS to report such activity. Wellmont Health System has net operating loss carry forwards for federal income tax purposes of approximately \$1,800 for unrelated business activities. Management believes that it is not more likely than not that deferred tax assets arising from net operating loss carry forwards will be realizable. Accordingly, these are fully reserved at June 30, 2012 and 2011.

(18) Concentration of Credit Risk

Wellmont grants credit without collateral to its patients, most of whom are local residents and are insured under third-party payor agreements. The mix of receivables from patients and third-party payors at June 30, 2012 and 2011, was as follows:

	<u>2012</u>	<u>2011</u>
Medicare	50%	42%
TennCare	5	4
Medicaid	7	9
Other third-party payors	31	35
Patients	7	10
	<u>100%</u>	<u>100%</u>

June 30, 2012 and 2011

(Dollars in thousands)

(19) Disclosures about Fair Value of Financial Instruments

(a) Fair Value of Financial Instruments

The following methods and assumptions were used to estimate fair value of each class of instruments:

- *Cash and Cash Equivalents*

The carrying amount approximates fair value due to the short maturities of these instruments.

- *Patient Accounts and Other Receivables*

The net recorded carrying value approximates fair value due to the short maturities of these instruments.

- *Investments and Assets Limited as to Use*

The fair values of investments and assets limited as to use are based on quoted market prices and quotes obtained from security brokers or, in the case of the limited partnerships, by the general partner.

- *Accounts Payable and Accrued Expenses*

The carrying amount approximates fair value due to the short maturities of these liabilities.

- *Estimated Third-Party Payor Settlements, Other Long-Term Liabilities*

The carrying amount approximates fair market value due to the nature of these liabilities.

- *Long-Term Debt*

The fair value of revenue bonds, using current market rates, was estimated at \$436,634 and \$419,960 for the years ended June 30, 2012 and 2011, respectively.

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2012 and 2011

(Dollars in thousands)

(b) Fair Value Hierarchy

On July 1, 2008, Wellmont adopted new guidance issued by FASB for fair value measurement of financial assets and financial liabilities and for fair value measurement of nonfinancial items that are recognized or disclosed at fair value in the consolidated financial statements on a recurring basis now codified into ASC 820, *Fair Value Measurement*. ASC 820 establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to measurements involving significant unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are as follows:

- Level 1 inputs are quoted market prices (unadjusted) in active markets for identical assets or liabilities that Wellmont has the ability to access at the measurement date.
- Level 2 inputs are inputs other than quoted market prices including within Level 1 that are observable for the asset or liability, either directly or indirectly. If the asset or liability has a specified (contractual) term, a Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 inputs are unobservable inputs for the asset or liability.

The level in the fair value hierarchy within which a fair measurement in its entirety falls is based on the lowest level input that is significant to the fair value measurement in its entirety.

Wellmont also applies the measurement provisions of ASU No. 2009-12 to certain investments in funds that do not have readily determinable fair values including private investments, hedge funds, real estate, and other funds. This guidance amends the previous guidance and allows for the estimation of the fair value of investments in investment companies for which the investment does not have a readily determinable fair value using net asset value per share or its equivalent. Net asset value, in many instances may not equal fair value that would be calculated pursuant to ASC 820. The fair value of these investments was \$36,989 and \$66,529 at June 30, 2012 and 2011, respectively.

Notes to Consolidated Financial Statements

June 30, 2012 and 2011

(Dollars in thousands)

The following table presents Wellmont's activity for assets measured at fair value on a recurring basis using significant unobservable inputs (Level 3) as defined in ASC 820 for the years ended June 30, 2012 and 2011:

	Alternative investments
Balance at June 30, 2010	\$ 39,362
Total realized and unrealized gains (losses):	
Included in revenues and gains in excess of expenses and losses	—
Included in changes in net assets	(3,401)
Purchases, issuances, and settlements	1,817
Transfers in and/or out of Level 3 (net)	—
Balance at June 30, 2011	37,778
Total realized and unrealized gains (losses):	
Included in revenues and gains in excess of expenses and losses	264
Included in changes in net assets	(420)
Purchases, issuances, and settlements	(633)
Transfers in and/or out of Level 3 (net)	—
Balance at June 30, 2012	\$ <u>36,989</u>

(20) Subsequent Events

On September 7, 2012, Wellmont entered into a \$55 million contract with a major information systems service provider to replace its clinical information systems. Wellmont expects to spend approximately \$100 million on the project.

Wellmont has evaluated subsequent events from the balance sheet date through October 24, 2012, the date at which the financial statements were available to be issued. No other material subsequent events were identified for recognition.

Independent Auditors' Report

The Board of Directors
Wellmont Health System:

Report on the Financial Statements

We have audited the accompanying consolidated financial statements of Wellmont Health System and affiliates, which comprise the consolidated balance sheets as of June 30, 2013 and 2012, and the related consolidated statements of operations and changes in net assets, and cash flows for the years then ended, and the related notes to the consolidated financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Wellmont Health System and affiliates as of June 30, 2013 and 2012, and the results of their operations and their cash flows for the years then ended in accordance with U.S. generally accepted accounting principles.

Supplemental disclosures of noncash items:

Wellmont entered into capital lease obligations for buildings and equipment in the amount of \$5,262 and \$3,281 in 2013 and 2012, respectively.

Additions to property and equipment financed through current liabilities of \$5,589 and \$2,487 in 2013 and 2012, respectively.

See accompanying notes to consolidated financial statements.

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2013 and 2012

(Dollars in thousands)

(1) Operations and Basis of Presentation

Wellmont Health System (Wellmont), a Tennessee not-for-profit corporation, currently operates seven community acute care hospitals in Tennessee and Virginia that include Bristol Regional Medical Center in Bristol, Tennessee, Holston Valley Medical Center in Kingsport, Tennessee, Lonesome Pine Hospital in Big Stone Gap, Virginia, Hawkins County Memorial Hospital in Rogersville, Tennessee, Hancock County Hospital in Sneedville, Tennessee, Lee Regional Medical Center in Pennington Gap, Virginia, and Mountain View Regional Medical Center in Norton, Virginia.

Wellmont also operates physician organizations and practices that are organized within Wellmont Medical Associates and Wellmont Cardiology Services.

As of May 17, 2013, a subsidiary of Wellmont ceased operating its sleep labs, which were managed by a third party. The consolidated financial statements for the year ended June 30, 2013 present the sleep labs as discontinued operations. The losses of \$2,302, including an impairment loss of \$2,007, and \$140 for the years ended June 30, 2013 and 2012, respectively, are included in discontinued operations.

Wellmont's continuing operations consist primarily of the delivery of healthcare services in northeast Tennessee and southwest Virginia.

The consolidated financial statements include the operations of the above entities along with:

- Wellmont Foundation (the Foundation), which conducts fund-raising activities for the benefit of Wellmont
- Wellmont, Inc., a wholly owned taxable subsidiary of Wellmont, formed as the holding company of various other taxable subsidiaries that provide medical collection and medical laundry services, operate physician practices, provide other healthcare-related services, and invest in affiliates and other activities.

All significant intercompany accounts and transactions have been eliminated in the accompanying consolidated financial statements.

(2) Significant Accounting Policies

A summary of significant accounting policies is as follows:

(a) Use of Estimates

The preparation of consolidated financial statements in conformity with U.S. generally accepted accounting principles (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the consolidated financial statements. Estimates also affect the reported amounts of revenue and expenses during the reporting period. Significant estimates include allowances for contractual adjustments and bad debts; third-party payor settlements; valuation of investments, land, buildings, equipment and goodwill; and self-insurance and other liabilities. Actual results could differ from these estimates.

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2013 and 2012

(Dollars in thousands)

(b) Cash and Cash Equivalents

Wellmont considers all highly liquid investments with a maturity of three months or less when purchased, excluding amounts whose use is limited by board of directors' designation or other arrangements under trust agreements, to be cash equivalents.

(c) Investments

Marketable equity securities and debt securities are recorded at fair value and classified as other than trading. Fair value is determined primarily using quoted prices (unadjusted) in active markets for identical assets or liabilities that Wellmont has the ability to access at the measurement date. However, Wellmont also uses observable and unobservable inputs for investments without quoted market prices to determine the fair value of certain investments at the measurement date. Investments in limited partnerships are recorded at fair value as determined by the partnership using net asset value. Wellmont has adopted the measurement provisions of Accounting Standards Update (ASU) No. 2009-12, *Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*, to certain investments in funds that do not have readily determinable fair values including private investments, hedge funds, real estate, and other funds. Investments in affiliates in which Wellmont has significant influence but does not control are reported on the equity method of accounting, which represents Wellmont's equity in the underlying net book value. Long-term investments include those investments that have not been designated by the board of directors for specific purposes and are also not intended to be used for the liquidation of current liabilities. Investment income is recognized when earned.

Realized gains and losses are determined on the specific-identification method and included in investment income with interest and dividends. Investment income is reported net of related investment fees. Unrealized gains and losses are included in other changes in unrestricted net assets except for losses determined to be other than temporary, which are considered realized losses and included in investment income.

(d) Assets Limited as to Use

Assets limited as to use primarily include assets held by trustees under bond indenture and self-insurance agreements, as well as designated assets set aside by the board of directors for future capital improvements, over which the board of directors retains control and may, at its discretion, subsequently use for other purposes. Amounts required to meet current liabilities of Wellmont have been reclassified to current assets in the accompanying consolidated balance sheets.

(e) Inventories

Inventories are stated at the lower of cost or market value and are valued principally by the first-in, first-out and average-cost methods.

(f) Land, Buildings, and Equipment

Land, buildings, and equipment are stated at cost, if purchased, or fair value at date of donation. Depreciation is computed using the straight-line method based on the estimated useful life of the

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2013 and 2012

(Dollars in thousands)

asset, ranging from 3 to 40 years. Buildings and equipment held under capital leases are recorded at net present value of future lease payments and are amortized on a straight-line basis over the shorter of the lease term or estimated useful life of the asset. Costs of maintenance and repairs are expensed as incurred. Upon sale or retirement of land, buildings, or equipment, the cost and related accumulated depreciation are eliminated from the respective accounts and the resulting gain or loss, if any, is included in other revenues on the consolidated statements of operations and changes in net assets. Interest costs incurred on borrowed funds during the period of construction of capital assets is capitalized as a component of the cost of acquiring those assets. The amount capitalized is net of investment earnings on assets limited as to use derived from borrowings designated for capital assets. Renewals and betterments are capitalized and depreciated over their useful life, whereas costs of maintenance and repairs are expensed as incurred.

Wellmont evaluates long-lived assets for impairment on annual basis. Long-lived assets are considered to be impaired whenever events or changes in circumstances indicate the carrying amount of an asset may not be recoverable from future cash flows. Recoverability of long-lived assets to be held and used is measured by a comparison of the carrying amount of an asset to future cash flows expected to be generated by the asset. When such assets are considered to be impaired, the impairment loss recognized is measured by the amount by which the carrying value of the asset exceeds the fair value of the asset.

(g) Goodwill

Wellmont adopted ASU No. 2010-07, *Not for Profit Entities: Mergers and Acquisitions*, which in part requires healthcare entities to follow Accounting Standards Codification (ASC) Topic 350-20-35, *Intangibles – Goodwill and Other* along with ASU 2011-08, *Testing Goodwill for Impairment*, effective July 1, 2012. ASC Topic 350-20-35 requires goodwill of not-for-profit entities to be evaluated for impairment at least annually. An entity has the option to first assess qualitative factors to determine whether the existence of events or circumstances leads to a determination that it is more likely than not that the fair value of a reporting unit is less than its carrying amount. If, after assessing the totality of events or circumstances, an entity determines it is not more likely than not that the fair value of a reporting unit is less than its carrying amount, then performing the two-step impairment test is unnecessary. The more-likely than-not threshold is defined as having a likelihood of more than 50 percent. However, if an entity concludes otherwise, then it is required to perform the first step of the two-step impairment test by calculating the fair value of the reporting unit and comparing the fair value with the carrying amount (including goodwill) of the reporting unit. If the carrying amount of a reporting unit exceeds its fair value, then the entity is required to perform the second step of the goodwill impairment test to measure the amount of the impairment loss. Under step two, an impairment loss is recognized for any excess of the carrying amount of the reporting unit's goodwill over the implied fair value of that goodwill. The implied fair value of goodwill is determined by allocating the fair value of the reporting unit in a manner similar to a purchase price allocation and the residual fair value after this allocation is the implied fair value of the reporting unit goodwill. Fair value of the reporting unit is determined using a discounted cash flow analysis. If the fair value of the reporting unit exceeds its carrying value, step

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2013 and 2012

(Dollars in thousands)

two does not need to be performed. The annual impairment test is performed as of June 30. A summary of goodwill for the years ended June 30 is as follows:

	<u>2012</u>	<u>Additions</u>	<u>Decreases</u>	<u>2013</u>
Goodwill	\$ 17,090	13	(2,007)	15,096

	<u>2011</u>	<u>Additions</u>	<u>Decreases</u>	<u>2012</u>
Goodwill	\$ 16,721	369	—	17,090

(h) *Deferred Debt Expense*

Deferred debt expense is amortized over the life of the related bond issues using the effective-interest method.

(i) *Derivative Financial Instruments*

As further described in note 12, Wellmont is a party to interest rate swap and other derivative agreements. These financial instruments are not designated as hedges and are presented at estimated fair market value in the accompanying consolidated balance sheets. These fair values are based on the estimated amount Wellmont would receive, or be required to pay, to enter into equivalent agreements with a third party at the valuation date. Due to the nature of these financial instruments, such estimates are subject to significant change in the near term. Wellmont recognizes changes in the fair values of derivatives as nonoperating gains or losses in the consolidated statements of operations and changes in net assets. The cash settlements resulting from these interest rate swaps are reported as interest expense in the consolidated statements of operations and changes in net assets.

(j) *Asset Retirement Obligations*

Asset retirement obligations (AROs) are legal obligations associated with the retirement of long-lived assets. These liabilities are initially recorded at fair value, and the related asset retirement costs are capitalized by increasing the carrying amount of the related assets by the same amount as the liability. Asset retirement costs are subsequently depreciated over the useful lives of the related assets. Subsequent to initial recognition, Wellmont records period-to-period changes in the ARO liability resulting from the passage of time and revisions to either the timing or the amount of the original estimate of undiscounted cash flows. Wellmont derecognizes ARO liabilities when the related obligations are settled.

(k) *Temporarily and Permanently Restricted Net Assets*

Temporarily restricted net assets are those whose use by Wellmont has been limited by donors to a specific-time period or purpose. Permanently restricted net assets have been restricted by donors to be maintained by Wellmont in perpetuity. Generally, donors of permanently restricted assets permit use of all or part of the income earned on related investments for general or specific purposes.

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2013 and 2012

(Dollars in thousands)

Temporarily restricted net assets relate primarily to amounts held by the Foundation and include amounts restricted for future capital expenditures and for operations of such areas as children's healthcare services, hospice, and cancer care.

Net assets are released from restrictions by Wellmont incurring expenses that satisfy the restricted purposes. Such net assets released during 2013 and 2012 primarily included amounts related to the purchase of equipment for pediatrics, cancer, and other healthcare operations.

Wellmont has adopted guidance issued by Financial Accounting Standards Board (FASB), which provides guidance on the net asset classification of donor-restricted endowment funds for a tax-exempt organization that is subject to an enacted version of the Uniform Prudent Management of Institutional Funds Act of 2006 (UPMIFA). Effective July 1, 2007, the State of Tennessee adopted legislation that incorporates the provisions outlined in UPMIFA. Wellmont's endowments consist solely of donor-restricted endowment funds. Wellmont's endowments consist of five individual funds established for a variety of purposes.

Wellmont has interpreted UPMIFA as requiring the preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment funds absent explicit donor stipulations to the contrary. As a result of this interpretation, Wellmont classifies as permanently restricted net assets (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment, and (c) accumulations to the donor gift instrument at the time the accumulation is added to the fund. The remaining portion of the donor-restricted endowment fund that is not classified in permanently restricted net assets is classified as temporarily restricted net assets until those amounts are approved for expenditure by the organization in a manner consistent with the standard of prudence prescribed by UPMIFA. In accordance with UPMIFA, Wellmont considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds: (1) the duration and preservation of the fund; (2) the purposes of the organization and the donor-restricted endowment fund; (3) general economic conditions; (4) the possible effect of inflation and deflation; (5) the expected total return from income and the appreciation of investments; (6) other resources of the organization; and (7) the investment policies of the organization.

(l) Net Patient Service Revenue and Accounts Receivable

Net patient service revenue is reported on the accrual basis in the period in which services are provided at the estimated net realizable amounts expected to be collected. Net patient service revenue includes amounts estimated by management to be reimbursable by patients and various third-party payors under provisions of reimbursement formulas in effect, including retroactive adjustments under reimbursement agreements. Estimated retroactive adjustments are accrued in the period related services are rendered and adjusted in future periods as final and other settlements are determined. On the basis of historical experience, a significant portion of Wellmont's uninsured patients will be unable or unwilling to pay for the services provided. Therefore, Wellmont records a significant provision for bad debts related to uninsured patients in the period the services are provided. This provision for bad debts is presented on the statement of operations as a component of net patient revenue. Wellmont provides care to patients who meet criteria under its charity care

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2013 and 2012

(Dollars in thousands)

policy without charge or at amounts less than its established rates. Because Wellmont does not pursue collection of amounts determined to qualify as charity care, they are not included in net patient service revenue.

Patient accounts receivable are reported net of both an allowance for contractual adjustments and an allowance for uncollectible accounts. The contractual allowance represents the difference between established billing rates and estimated reimbursement from Medicare, TennCare, Medicaid, and other third-party payment programs. Wellmont's policy does not require collateral or other security for patient accounts receivable. Wellmont routinely obtains assignment of, or is otherwise entitled to receive, patient benefits payable under health insurance programs, plans, or policies.

(m) Revenue and Gains in Excess of Expenses and Losses

The consolidated statements of operations and changes in net assets include revenue and gains in excess of expenses and losses. Changes in unrestricted net assets that are excluded from revenue and gains in excess of expenses and losses, consistent with industry practice, include changes in net unrealized gains (losses) on investments other than trading securities, changes in the funded status of Wellmont's defined-benefit plan, contributions of long-lived assets, including assets acquired using contributions that, by donor restriction, were to be used for the purposes of acquiring such assets, and cumulative effects of changes in accounting principles.

For purposes of financial statement display, those activities directly associated with Wellmont's mission of providing healthcare services are considered to be operating activities. Nonoperating activities primarily include investment and related activities. Other operating revenues primarily include cafeteria, rental, meaningful use incentives, and income from affiliates.

(n) Contributed Resources

Gifts of long-lived assets, such as land, buildings, or equipment, are reported as unrestricted contributions, and are excluded from revenue and gains in excess of expenses and losses, unless explicit donor stipulations specify how the donated assets must be used. Gifts of long-lived assets with explicit restrictions that specify how the assets are to be used and gifts of cash or other assets that must be used to acquire long-lived assets are reported as restricted contributions. Absent explicit donor stipulations about how long those long-lived assets must be maintained, expiration of donor restrictions is reported when the donated or acquired long-lived assets are placed in service.

Unconditional promises to give cash or other assets are reported at fair value at the date the promise is received. Gifts are reported as either a temporarily or permanently restricted contribution if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated time restriction ends or a purpose restriction is accomplished, temporarily restricted net assets are reclassified as unrestricted net assets and reported in the consolidated statements of operations and changes in net assets as net assets released from restrictions. Donor-restricted contributions whose restrictions are met within the same year as received are recorded as unrestricted contributions. Unrestricted contributions are included in other revenues.

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2013 and 2012

(Dollars in thousands)

(o) Federal Income Taxes

The Wellmont entities are primarily classified as organizations exempt from federal income taxes under Section 501(a) as entities described in Section 501(c)(3) of the Internal Revenue Code. Accordingly, no provision for income taxes has been included for these entities in the consolidated financial statements. The operations of Wellmont, Inc. are subject to state and federal income taxes, which are accounted for in accordance with ASC Topic 740, *Income Taxes*; however, such amounts are not material.

On July 1, 2007, Wellmont adopted new guidance issued on the accounting for uncertainty in income tax positions now codified into ASC 740. It also provides guidance on when tax positions are recognized in an entity's financial statements and how the values of these positions are determined. There was no impact on Wellmont's consolidated financial statements as a result of the adoption of the new guidance.

(p) Recently Adopted Accounting Standards

The FASB issued ASU No. 2011-04, *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs*, in May 2011. This ASU requires the reason for the fair value measurement to be disclosed, a description of the valuation techniques, and descriptions of the inputs used for all Level 2 and Level 3 fair value measurements. It also requires all transfers between levels of the fair value hierarchy to be separately reported and described. Wellmont adopted ASU 2011-04 as of July 1, 2012.

(q) Reclassifications

Certain 2012 amounts have been reclassified to conform to the 2013 consolidated financial statement presentation. The reclassifications had no impact on total assets or changes in net assets.

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2013 and 2012

(Dollars in thousands)

(3) Net Patient Service Revenue

A reconciliation of the amount of services provided to patients at established rates to net patient service revenue as presented in the consolidated statements of operations and changes in net assets is as follows for the years ended June 30:

	<u>2013</u>	<u>2012</u>
Gross patient service revenue	\$ 2,517,774	2,396,167
Less:		
Contractual adjustments and other discounts	(1,646,455)	(1,522,625)
Charity care	<u>(61,802)</u>	<u>(61,660)</u>
Net patient service revenue before provision for bad debts	809,517	811,882
Less provision for bad debts	<u>(55,029)</u>	<u>(71,407)</u>
Net patient service revenue	\$ <u><u>754,488</u></u>	<u><u>740,475</u></u>

Wellmont's allowance for doubtful accounts is predominantly for self-pay patients and patient balances remaining after third-party payments. The provision for bad debts decreased \$16,378 from fiscal 2012 to fiscal 2013 and the net write-offs decreased \$15,521 from fiscal 2012 to fiscal 2013. Both decreases were the result of significant decreases in inpatient and emergency room volumes, which are the primary source of patients with bad debt. Wellmont has not changed its charity care or uninsured discount policies during fiscal 2013. Wellmont does not maintain a material allowance for doubtful accounts from third-party payors, nor did it have significant write-offs from third-party payors.

(4) Third-Party Reimbursement Arrangements

Wellmont renders services to patients under contractual arrangements with the Medicare and Medicaid programs. The Medicaid program in Tennessee is a managed care program known as TennCare, which is designed to cover Medicaid eligible enrollees. Amounts earned under these contractual arrangements are subject to review and final determination by fiscal intermediaries and other appropriate governmental authorities or their agents. Management believes that adequate provision has been made for any adjustments that may result from such reviews. Participation in these programs subjects Wellmont to significant rules and regulations; failure to adhere to such could result in fines, penalties, or expulsion from the programs.

Wellmont contracts with various managed care organizations under the TennCare program. TennCare reimbursement for both inpatient and outpatient services is based upon prospectively determined rates, including diagnostic-related group assignments, fee schedules, and per diem amounts. Reimbursement under the Medicaid program is also based upon prospectively determined amounts.

The Medicare program pays for the costs of inpatient services on a prospective basis. Payments are based upon diagnostic-related group assignments, which are determined by the patient's clinical diagnosis and

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2013 and 2012

(Dollars in thousands)

medical procedures utilized. Wellmont receives additional payments from Medicare based on the provision of services to a disproportionate share of Medicaid-eligible and other low-income patients. Outpatient services are also reimbursed primarily on a prospectively determined basis.

Net patient service revenue in 2013 and 2012 related to Medicare, TennCare, and Medicaid and net patient accounts receivable at June 30, 2013 and 2012 from Medicare, TennCare, and Medicaid were as follows:

	<u>2013</u>	<u>2012</u>
Net patient service revenue:		
Medicare	\$ 303,694	312,202
TennCare	28,749	28,548
Medicaid	30,413	19,541
Net patient accounts receivable:		
Medicare	\$ 44,702	41,883
TennCare	3,298	2,957
Medicaid	6,980	5,244

Wellmont has filed cost reports with Medicare and Medicaid. The cost reports are subject to final settlement after audits by the fiscal intermediary. The Medicare and Medicaid cost reports have been audited and final settled by the intermediary through June 30, 2007 and audit adjustments have been received and considered for certain hospitals and year-ends through June 30, 2011.

Wellmont has also entered into reimbursement agreements with certain commercial insurance companies, health maintenance organizations, and preferred provider organizations. The basis for reimbursement under these agreements includes prospectively determined rates per discharge, per diem rates, and discounts from established charges.

Net patient service revenue is reported at the net amounts billed to patients, third-party payors, and others for services rendered, including estimated retroactive adjustments under reimbursement agreements with third-party payors. Estimated retroactive adjustments are accrued in the period the related services are rendered and adjusted in future periods as changes in estimated provisions and final settlements are determined. Net patient service revenue increased approximately \$6,605 and \$3,575 in 2013 and 2012, respectively, due to final settlements and revised estimates in excess of amounts previously recorded, removal of allowances previously estimated that are no longer necessary as a result of audits and final settlements, and years that are no longer subject to audits, reviews, and investigations.

Estimated settlements recorded at June 30, 2013 could differ materially from actual settlements based on the results of third-party audits.

(5) Meaningful Use Incentives

The American Recovery and Reinvestment Act of 2009 (ARRA) established incentive payments under the Medicare and Medicaid programs for certain professionals and hospitals that meaningfully use certified electronic health record (EHR) technology. The Medicare incentive payments are paid out to qualifying

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2013 and 2012

(Dollars in thousands)

hospitals and physician groups over four consecutive years on a transitional schedule. To qualify for Medicare incentives, hospitals, and physician groups must meet EHR “meaningful use” criteria that become more stringent over three stages as determined by Centers for Medicare & Medicaid Services (CMS). Medicaid programs and payment schedules vary from state to state.

For fiscal years ending June 30, 2013 and 2012, Wellmont recorded \$13,707 and \$13,177, respectively, in other operating revenue related to the EHR and meaningful use incentives. These incentives have been recognized following the grant accounting model, recognizing income ratably over the applicable reporting period as management becomes reasonably assured of meeting the required criteria.

Amounts recognized represent management’s best estimates for payments ultimately expected to be received based on estimated discharges, charity care, and other input data. Subsequent changes to these estimates will be recognized in other operating revenue in the period in which additional information is available. Such estimates are subject to audit by the federal government or its designee.

(6) Charity Care and Community Services

Wellmont accepts all patients within its primary service area regardless of their ability to pay. A patient is classified as a charity patient by reference to certain established policies that consider, among other factors, generally recognized poverty income levels.

Wellmont maintains records to identify and monitor the level of charity care it provides. These records include the amount of charges foregone and estimated costs incurred for services and supplies furnished under its charity care policy. Costs incurred are estimated based on the ratio of total operating expenses to gross charges applied to charity care charges. Charges foregone for services and supplies furnished under its charity care policy, the estimated cost of those services, and the equivalent percentage of charity care patients to all patients serviced were \$61,802, \$15,536, and 2.45%, respectively, for the year ended June 30, 2013 and \$61,660, \$16,144, and 2.57%, respectively, for the year ended June 30, 2012.

In addition to the charity care services described above, Wellmont provides a number of other services to benefit the indigent for which little or no payment is received. Medicare, Medicaid, and State indigent programs do not cover the full cost of those services. The shortfall between actual receipts from those programs and Wellmont’s cost of providing care to those patients totaled \$37,999 and \$44,432, for the years ended June 30, 2013 and 2012, respectively.

Wellmont also provides services to the community at large for which it receives little or no payment. Health evaluations, screening programs, and specific services for the elderly and homebound are other services supplied. Wellmont also provides public health education, trains new health professionals, and conducts health research.

(7) Investment in Affiliates

Wellmont has investments with other healthcare providers, which include hospital, home care, regional laboratories, and other healthcare-related organizations. Wellmont records its share of equity in the operations of the respective organizations. Equity in earnings of affiliates was approximately \$4,594 and \$7,233 for the years ended June 30, 2013 and 2012, respectively, and is included in other operating

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2013 and 2012

(Dollars in thousands)

revenue in the consolidated financial statements. Wellmont received distributions of \$5,366 and \$5,764 during 2013 and 2012, respectively, which reduced Wellmont's overall investment in the affiliates.

The following table summarizes the unaudited aggregate financial information of Wellmont's investments in affiliates:

	<u>2013</u>	<u>2012</u>
Total assets	\$ 135,802	127,206
Total liabilities	<u>40,617</u>	<u>27,732</u>
Total net assets	\$ <u>95,185</u>	<u>99,474</u>
Net revenues	\$ 200,765	228,644
Expenses	<u>186,394</u>	<u>207,806</u>
Revenues in excess of expenses	\$ <u>14,371</u>	<u>20,838</u>

Wellmont's investment in these affiliates and its ownership percentage as of June 30, 2013 and 2012 is as follows:

	<u>Amount</u>		<u>Percentage</u>	
	<u>2013</u>	<u>2012</u>	<u>2013</u>	<u>2012</u>
Takoma Regional Hospital	\$ 11,983	12,350	60%	60%
Holston Valley Imaging Center (HVIC)	8,336	8,818	75	75
Advanced Home Care (AHC)	6,092	6,092	6	6
Lab Group Holdings LLC	3,500	3,500	1	1
Others	<u>1,963</u>	<u>1,886</u>	4%–50%	4%–50%
	\$ <u>31,874</u>	<u>32,646</u>		

Although Wellmont's ownership percentage in Takoma Regional Hospital and HVIC is greater than 50%, Wellmont does not consolidate these entities because Wellmont only has a 50% representation on each respective board and does not have control over these entities.

Wellmont provided billing, management, and professional services to some of the affiliates. Income recognized by Wellmont for the services was \$971 in 2013 and \$929 in 2012 and is included in other revenues.

Included in other receivables are \$406 and \$374 as of June 30, 2013 and 2012, respectively, of amounts due to Wellmont from these entities.

(8) Investments

Long-term investments, including assets limited as to use, at June 30 are reported at fair value and consist of the following:

	<u>2013</u>	<u>2012</u>
Assets limited as to use by Board for capital improvements:		
Stock mutual funds	\$ 109,356	88,942
Bond mutual funds	175,594	163,401
Cash and money market funds	3,749	1,492
Real estate funds	16,377	7,157
Alternative investments (private equity, hedge funds, commingled funds, and real estate funds):		
Liquid	10,504	9,616
Illiquid	26,016	27,373
	<u>341,596</u>	<u>297,981</u>
Assets limited as to use under self-insurance agreements:		
Corporate bonds	—	2,673
Cash and money market funds	—	32
	<u>—</u>	<u>2,705</u>
Assets limited as to use under bond indenture agreements:		
Cash and money market funds	39,174	42,716
Less assets limited as to use that are required for current liabilities	<u>5,061</u>	<u>4,372</u>
Assets limited as to use, net of current portion	<u>\$ 375,709</u>	<u>339,030</u>
Long-term investments:		
Stock mutual funds	\$ 12,228	10,321
Bond mutual funds	13,478	13,926
Preferred equity investment and related options	1,512	11,512
Cash, money market funds, and certificates of deposit	190	189
Real estate funds	1,220	685
Total long-term investments	<u>\$ 28,628</u>	<u>36,633</u>

Investments in certain alternative limited partnership investments contain agreements whereby Wellmont is committed to contribute approximately \$5,229 as of June 30, 2013 of additional funds to the limited partnerships in the form of capital calls at the discretion of the general partner, of which \$117 was paid subsequent to June 30, 2013.

Effective June 27, 2013, Wellmont redeemed its \$10,000 in the preferred equity of a regional managed services organization; however, retained its \$1,512 on a right of first refusal related to any future sale of

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2013 and 2012

(Dollars in thousands)

this organization. This equity had a guaranteed annual return of at least 6.5% of the outstanding preferred equity balance.

Wellmont's investments are concentrated in stock and bond mutual funds. In the event of a downward trend in the stock and bond markets, Wellmont's overall market value of net assets could be adversely affected by a material amount. Investments in alternative investments are generally illiquid investments whose value is determined by the general partner such as hedge funds, private equity, commingled funds, and real estate funds. Distributions are only at the discretion of a voting majority of the general partners.

Wellmont evaluates whether unrealized losses on investment securities indicate other-than-temporary impairment. Based on this evaluation, Wellmont recognized other-than-temporary impairment losses of \$131 and \$265 on investments as of June 30, 2013 and 2012, respectively. Other-than-temporary impairment losses are considered as realized losses and are reported within "investment income" in the consolidated statements of operations and changes in net assets.

Gross unrealized losses on investments for which other-than-temporary impairments have not been recognized and the fair values of those investments, aggregated by the length of time that individual investments have been in a continuous unrealized loss position, at June 30, 2013 and 2012 were as follows:

	<u>Less than 12 months</u>		<u>12 months or more</u>		<u>Total</u>	
	<u>Unrealized losses</u>	<u>Fair value</u>	<u>Unrealized losses</u>	<u>Fair value</u>	<u>Unrealized losses</u>	<u>Fair value</u>
2013:						
Alternative investments	\$ 478	3,243	—	—	478	3,243
Mutual funds	7,304	181,780	371	3,185	7,675	184,965
	<u>\$ 7,782</u>	<u>185,023</u>	<u>371</u>	<u>3,185</u>	<u>8,153</u>	<u>188,208</u>
	<u>Less than 12 months</u>	<u>12 months or more</u>	<u>Total</u>			
	<u>Unrealized losses</u>	<u>Fair value</u>	<u>Unrealized losses</u>	<u>Fair value</u>	<u>Unrealized losses</u>	<u>Fair value</u>

	<u>\$ 475,946</u>	<u>459,654</u>

(b) Series 2011 Bonds

On May 5, 2011, Wellmont refunded the Revenue Bonds, Series 2006A, with the proceeds of the Revenue Bonds, Series 2011. The Series 2011 Bonds were issued by Health, Educational, and Housing Facilities Board of the County of Sullivan, Tennessee on behalf of Wellmont. Under the terms of the bond indenture, the proceeds were used to advance refund the Revenue Bonds, Series 2006A and to pay the costs of issuing the Series 2011 Bonds.

In order to refund the Series 2006A Bonds, Wellmont made a tender offer to the holders of the Series 2006A Bonds. The holders of all outstanding Series 2006A Bonds agreed to tender their Series 2006A Bonds to Wellmont. Proceeds of the Series 2011 Bonds were used to pay the purchase price of Series 2006A Bonds tendered for purchase. All outstanding Series 2006A Bonds were purchased by the Wellmont on the date of issuance of the Bonds and were immediately surrendered to the trustee for the Series 2006A Bonds for retirement and cancellation.

The Series 2011 Bonds were issued with two maturities of \$42,385 and \$33,780 for 2026 and 2032, respectively. The Series 2011 Bonds maturing September 1, 2026 are subject to mandatory redemption prior to maturity pursuant to the operation of a sinking fund, in part by lot starting on the

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2013 and 2012

(Dollars in thousands)

redemption dates beginning on September 1, 2013 and ending on September 1, 2026 in annual amounts ranging from \$865 to \$4,680. The Series 2011 Bonds maturing September 1, 2032 are subject to mandatory redemption prior to maturity pursuant to the operation of a sinking fund, in part by lot starting on the redemption dates beginning on September 1, 2027 and ending on September 1, 2032 in annual amounts ranging from \$4,980 to \$6,300. The Series 2011 Bonds were issued as fixed-rate obligations at 6.0% and 6.5% for the two maturities (2026 and 2032, respectively).

(c) Series 2010 Bank Qualified Bonds

On November 1, 2010, The Health, Educational, and Housing Facilities Board of the County of Sullivan, Tennessee (the Board) issued \$30,000 Hospital Revenue Bonds, Series 2010 (Bank Qualified). The Series 2010 Bonds were issued and sold pursuant to the Bond Purchase Agreement dated as of November 1, 2010, between the Board and First Tennessee Bank National Association. During the fiscal years ended June 30, 2013 and 2012, Wellmont has received advances on the bonds in the amounts of \$0 and \$11,368, respectively.

Commencing on January 1, 2011, and continuing on the first day of each fiscal quarter thereafter, Wellmont shall pay accrued interest on the outstanding balance of the loan. Commencing on October 1, 2011 and continuing on the first day of each fiscal quarter thereafter, Wellmont shall also make principal payments equal to \$500. The outstanding bonds accrue interest at a rate equal to the product of 65% of the sum of LIBOR plus the applicable margin, which at June 30, 2013 was set at 1.95%.

(d) Series 2007 Bonds

On July 24, 2007, The Virginia Small Business Financing Authority issued, on behalf of Wellmont, \$55,000 of Hospital Revenue Bonds, Series 2007A. The Series 2007A Bonds, with other methods of financing, were used to purchase the assets of Mountain View Regional Medical Center and Lee Regional Medical Center.

Principal on outstanding Series 2007A Bonds is payable through maturity or mandatory sinking fund redemption in annual amounts ranging from \$360 to \$2,460 commencing on September 1, 2017 through September 1, 2036, with a balloon payment of \$29,245 due on September 1, 2037. The outstanding bonds accrue interest at rates ranging from 5.125% to 5.250%.

(e) Series 2006 C

On October 26, 2006, The Health, Educational, and Housing Facilities Board of the County of Sullivan Tennessee issued, on behalf of Wellmont, \$200,000 of Hospital Revenue Bonds, Series 2006C. The Series 2006C Bonds were used to finance the costs of acquisition of land for expansion, construction, expansion, equipping, and renovation of HVMC, including the construction of a new patient tower (collectively known as Project Platinum); finance the costs of the construction, expansion, equipping, and renovation of the emergency department at BRMC (the Bristol Emergency Department Project); and finance the costs of construction, expansion, renovation and equipping of an operating room and related facilities at Hawkins County Memorial Hospital.

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2013 and 2012

(Dollars in thousands)

Principal on outstanding Series 2006C Bonds is payable through maturity or mandatory sinking fund redemption in annual amounts ranging from \$1,605 to \$25,330 commencing on September 1, 2017 through September 1, 2036. The outstanding bonds accrue interest at rates ranging from 5.00% to 5.25%.

(f) Series 2005

On December 8, 2005, The Health, Educational, and Housing Facilities Board of the County of Sullivan, Tennessee, issued, on behalf of Wellmont, \$70,620 of Hospital Revenue Refunding Bonds, Series 2005. The Series 2005 Bonds together with other available funds were used to advance refund the previously issued Hospital Revenue Bonds, Series 2002, and to pay certain expenses incurred in connection with the issuance of the Series 2005 Bonds.

Principal on outstanding Series 2005 Bonds is payable through maturity or mandatory sinking fund redemption in annual amounts ranging from \$1,945 to \$3,390 commencing on September 1, 2007 through September 1, 2032. The terms of the bonds provide that bondholders may redeem or put the bonds to the remarketing agent on dates that approximate a weekly basis. The remarketing agent is obligated to remarket the redeemed bonds on a "best efforts" basis. Redeemed bonds are repaid to bondholders from the proceeds of the remarketing effort or, in the event of an inability to remarket the bonds, from a letter of credit. This letter secures the bonds in the event of a failed remarketing or liquidity issue. In the event of a liquidity drawing under the letter of credit, Wellmont shall pay the Base Rate equal to the greater of (i) the Prime Rate plus 1.50% per annum, (ii) LIBOR plus 2.50% per annum, or (iii) 7.50% per annum. Wellmont shall repay the liquidity drawing amount in 12 equal quarterly installments, with the first such installment due on the first anniversary of the related liquidity drawing.

Outstanding Series 2005 Bonds are subject to redemption prior to maturity at the option of The Health, Educational, and Housing Facilities Board of the County of Sullivan, Tennessee, upon direction by Wellmont in whole at any time, or in part on any certain specified days at redemption prices of 100%-102% of the principal amount of the Series 2005 Bonds being redeemed, plus accrued interest thereon to the redemption date.

(g) Series 2003

On June 1, 2003, The Health, Educational, and Housing Facilities Board of the County of Sullivan, Tennessee, issued, on behalf of Wellmont, \$59,100 of Hospital Revenue Bonds, Series 2003. The bonds were issued to provide funds necessary to refund Wellmont's Hospital Revenue Bonds, Series 1993 (HVHC), to fund a debt service reserve fund and to pay certain expenses incurred in connection with the issuance of the Series 2003 Bonds.

The Wellmont Series 2003 Bonds consist of \$27,460 in fixed-rate serial bonds and \$19,280 in fixed-rate term bonds payable through maturity or mandatory sinking fund redemption maturing in annual amounts ranging from \$3,230 on September 1, 2007 to \$4,140 on September 1, 2019, and carrying interest rates ranging from 2.5% to 5.00%.

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2013 and 2012

(Dollars in thousands)

(h) Master Trust Indenture

The master trust indentures and loan agreements for the 2011, 2010, 2007, 2006, 2005, and 2003 bonds contain certain requirements regarding deposits to trustee funds, maintenance of rates, maintenance of debt service coverage and liquidity, permitted indebtedness, and permitted disposition of assets. Gross receipts of Wellmont collateralize the bonds. The purpose of the master trust indenture is to provide a mechanism for the efficient and economical issuance of notes by individual members of Wellmont using the collective borrowing capacity and credit rating of Wellmont. The master trust indenture requires individual members of Wellmont to make principal and interest payments on notes issued for their benefit. The master trust indenture also requires Wellmont members to make payments on notes issued by other members of Wellmont if such other members are unable to satisfy their obligations under the master trust indenture. Payments of principal and interest on certain bonds are also insured by bond insurance policies.

Funds held by the trustee related to the various revenue bonds are available for specific purposes. The bond interest and revenue funds may be used only to pay interest and principal on the bonds; the debt service reserve fund may be used to pay interest and principal if sufficient funds are not available in the bond interest and revenue funds. The original issue discount and premium on all Bond Series outstanding are being amortized over the life of the bond issue using the effective-interest method.

(i) Project Odyssey 2012 Tax-Exempt Master Lease/Sublease Financing

On December 1, 2012, The Health, Educational, and Housing Facilities Board of the County of Sullivan, Tennessee (as Lessee) and Wellmont (as Sub-Lessee) entered into a Master Equipment Lease and Sublease Agreement with Banc of America Public Capital Corp (the Lessor). The proceeds of this Master Lease are being used to finance an electronic medical records system consisting of an EpicCare Inpatient Clinical System and an EpicCare Ambulatory Electronic Medical Records System inclusive of hardware, software, and implementation services subject to a License and Support agreement between Epic Systems Corporate and Sub-lessees dated September 19, 2012. The Sub-Lessee has authorized the Lessor to take a security interest in the entire System although only certain components of the System are to be funded under this Master Lease with the rest to be funded by Bank of America N.A. and Sub-Lessee. During the fiscal year ended June 30, 2013, Wellmont has received two advances totaling \$16,150.

Each Lease Term shall commence and interest shall begin to accrue on the date any funds are advanced by the Lessor. The Lease payments shall be payable on a monthly basis. The first six lease payments under each agreement shall consist only of an interest component and the remaining 78 lease payments shall consist of a principal component and an interest component. Commencing on June 30, 2013, and continuing on the first day of each fiscal quarter thereafter, Wellmont shall pay accrued interest on the outstanding balance of the loan. Each agreement will have an interest component based on a fixed-rate of interest and payable with respect to the amount of funds that the Lessor has advanced. The Leases issued during the fiscal year ended June 30, 2013 as fixed-rate obligations calculated at 0.65% if the Average Life Swap Rate, United States Treasury Swap as of

WELLMONT HEALTH SYSTEM AND AFFILIATES

(Dollars in thousands)

the Request date plus 1.0635% based on Lessor's credit evaluation of Wellmont, which resulted in 1.45% and 1.82% for the two maturities in 2020.

(j) Notes Payable

During 2007, Wellmont entered into a five-year \$3,000 note payable, which has a fixed interest rate of 7.25% and a termination date of July 2011. In August 2011, Wellmont renewed this note agreement in the amount of \$1,760 with a variable interest rate indexed to *The Wall Street Journal* U.S. Prime Rate with a ceiling of 7.75% and a floor of 4.00% and a maturity date of August 2016. At June 30, 2013 and 2012, \$1,199 and \$1,540, respectively, were outstanding on this note.

During 2009, Wellmont entered into a five-year \$2,400 term note payable with a variable interest rate indexed to *The Wall Street Journal* U.S. Prime Rate and a maturity date of October 2013. At June 30, 2013 and 2012, \$379 and \$640, respectively, were outstanding on this note.

During 2010, Wellmont entered into a \$2,767 note payable to finance the purchase of Cardiovascular Associates. The note payable had a fixed interest rate of 5.5% and a termination date of May 2013. At June 30, 2013 and 2012, \$0 and \$922, respectively, were outstanding on this note.

On October 17, 2012, Wellmont entered into a ten-year \$12,500 term note payable with Bank of America, N.A. The proceeds were used for the EpicCare system and its implementation, among other general corporate purposes. The note payable has a fixed interest rate of 3.27% and a maturity date of December 13, 2022. At June 30, 2013, \$10,390 was outstanding on this note.

(k) Capital Lease Obligations

Assets under capital leases are included in property and equipment and have a net carrying value of \$26,695 and \$25,170 as of June 30, 2013 and 2012, respectively. Amortization of capital assets is included in depreciation expense. The lease obligations are recorded at the net present value of the minimum lease payments with interest rates from 2.03% to 12.0%.

(l) Long-Term Debt Maturities Schedule

Bond maturities in accordance with the original terms of the Master Trust Indenture and other long-term debt maturities for each of the next five years and in the aggregate at June 30, 2013 are as follows:

2014	\$	15,002
2015		14,450
2016		14,124
2017		13,677
2018		16,182
Thereafter		411,177
	\$	<u>484,612</u>

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2013 and 2012

(Dollars in thousands)

The following table reflects the required repayment terms for the years ended June 30 of Wellmont's debt obligations in the event that the put options associated with the 2005 bonds were exercised, but not successfully remarketed.

2014	\$	12,457
2015		30,064
2016		29,617
2017		29,045
2018		12,766
Thereafter		<u>370,663</u>
	\$	<u>484,612</u>

Interest paid for the years ended June 30, 2013 and 2012 was \$21,163 and \$22,216, respectively, net of amounts capitalized. Interest costs of \$299 and \$0, net of interest income of \$0 and \$0 in 2013 and 2012, respectively, were capitalized.

(12) Derivative Transactions

Wellmont is a party to a number of interest rate swap agreements. Such swaps have not been designated as hedges and are valued at estimated fair value in the accompanying consolidated balance sheets. By using derivative financial instruments to hedge exposures to changes in interest rates, Wellmont exposes itself to credit risk and market risk. Credit risk is the failure of the counterparty to perform under the terms of the derivative contract. When the fair value of a derivative contract is positive, the counterparty owes Wellmont, which creates credit risk for Wellmont. When the fair value of a derivative contract is negative, Wellmont owes the counterparty, and therefore, Wellmont is not exposed to the counterparty's credit risk in those circumstances. Pursuant to the terms of its interest rate swap agreements, Wellmont is required to post collateral with its counterparties under certain specified conditions. Collateral posting requirements are based on the amount of Wellmont's derivative liability and Wellmont's bond rating. As of June 30, 2013 and 2012, Wellmont was not required to post collateral related to its swaps.

Market risk is the adverse effect on the value of a derivative instrument that results from a change in interest rates. The market risk associated with interest-rate contracts is managed by establishing and monitoring parameters that limit the types and degree of market risk that may be undertaken.

Wellmont has a Total Return Swap on the Series 2011 Bonds with a new counterparty.

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2013 and 2012

(Dollars in thousands)

Management's primary objective in holding such derivatives is to introduce a fixed or variable rate component into its variable rate debt structure using LIBOR rates. The fair value as of June 30, 2013 and 2012 of approximately \$(7,425) and \$(9,781), respectively, is included in other long-term liabilities in the consolidated balance sheets. The change in the fair value of the derivative instruments was approximately \$2,356 and \$1,807, respectively, in 2013 and 2012 and is included in nonoperating gains in the consolidated statements of operations. The terms of the swap agreements allow netting of all amounts due from/to the counterparty. The following is a summary of the interest rate swap information as of June 30, 2013:

<u>Type of interest swap</u>	<u>Debt hedging</u>	<u>Notional amount</u>	<u>Effective date</u>	<u>Maturity date</u>	<u>Rate paid</u>	<u>Rate received</u>	<u>Swap fair value asset (liability)</u>
Total return swap Pay fixed interest	Series 2011	\$ 76,165	May 5, 2011	September 1, 2032	1.400%	6.222%	\$ 1,792
rate swap	Series 2005	54,820	December 13, 2005	September 1, 2016	3.548	0.082	(4,738)
Basis swap	Series 2002	58,680	September 1, 2002	September 1, 2032	0.050	0.163	(1,245)
Pay fixed interest rate swap	*	30,295	October 24, 2003	September 1, 2021	3.613	0.082	<u>(3,234)</u>
							<u>\$ (7,425)</u>

* Previously designated bond series has been refinanced.

The following is a schedule detailing the swap information as of June 30, 2012:

<u>Type of interest swap</u>	<u>Debt hedging</u>	<u>Notional amount</u>	<u>Effective date</u>	<u>Maturity date</u>	<u>Rate paid</u>	<u>Rate received</u>	<u>Swap fair value asset (liability)</u>
Total return swap Pay fixed interest	Series 2011	\$ 76,165	May 5, 2011	September 1, 2032	1.530%	6.200%	\$ 2,888
rate swap	Series 2005	57,250	December 13, 2005	September 1, 2016	3.548	0.165	(6,471)
Basis swap	Series 2002	60,765	September 1, 2002	September 1, 2032	0.180	0.339	(1,662)
Pay fixed interest rate swap	*	32,880	October 24, 2003	September 1, 2021	3.613	0.165	<u>(4,536)</u>
							<u>\$ (9,781)</u>

* Previously designated bond series has been refinanced.

In September and October 2008, the counterparty and credit support provider, for four of the swaps held at that time, filed bankruptcy. The bankruptcy process is underway and the ultimate outcome regarding any final settlement cannot be determined at this time.

(Dollars in thousands)

(13) Pension and Other Postretirement Benefits

Wellmont sponsors a retirement program and defined-contribution retirement plan (Retirement Plan) that covers substantially all employees. This program and the related Retirement Plan were created from amendments, restatements, and mergers of existing defined-contribution plans at BRMC and HVMC. Wellmont makes annual contributions to the Retirement Plan in an amount equal to 3% of each participant's base wages and contributes an additional amount, based on each participant's voluntary contributions, which cannot exceed certain limits established in the Internal Revenue Code, up to 3% of each participant's wages. The total pension expense related to the Retirement Plan was \$13,020 and \$10,346 for the years ended June 30, 2013 and 2012, respectively.

HVMC sponsored a noncontributory, defined-benefit pension plan covering substantially all its employees. However, effective June 30, 1996, this plan was frozen and no further benefits accrue. LPH also sponsors a defined-benefit pension plan covering substantially all its employees.

HVMC's defined-pension benefits are actuarially determined based on a formula taking into consideration an employee's compensation and years of service. HVMC's funding policy is to make annual contributions to the plan based upon the funding standard developed by the plan actuary. This standard uses the projected unit credit actuarial cost method, including the amortization of prior service costs, over a 20-year period. Contributions are intended to provide not only for benefits attributed to service to date but also for those expected to be earned in the future. The LPH plan contains similar funding and actuarial policies.

On June 30, 2007, the HVMC plan merged into LPH plan and the plan name changed to Wellmont Health System Defined Benefit Plan. At the end of 2008, only a single defined-pension plan exists. Collectively, the two defined-benefit plans are referred to as the "Plans." Effective June 30, 2010, the plan was frozen for all Lonesome Pine Hospital employees and no further benefits will be accrued.

Wellmont recognizes the funded status (i.e., difference between the fair value of plan assets and projected benefit obligations) of its defined-benefit pension plans as an asset or liability in its consolidated balance sheet and recognizes changes in that funded status in the year in which the changes occur as a change in unrestricted net assets. All defined-benefit pension plans use a June 30 measurement date.

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2013 and 2012

(Dollars in thousands)

The following table sets forth the funded status of the combined Plans, amounts recognized in the accompanying consolidated financial statements, and assumptions at June 30:

	<u>2013</u>	<u>2012</u>
Change in benefit obligation:		
Benefit obligation at beginning of year	\$ 54,081	45,337
Service cost	—	—
Interest cost	2,102	2,422
Actuarial losses	(3,062)	8,614
Benefits paid	<u>(2,372)</u>	<u>(2,292)</u>
Benefit obligation at end of year	<u>50,749</u>	<u>54,081</u>
Change in plan assets:		
Fair value of plan assets at beginning of year	36,791	38,811
Actual return on plan assets	2,521	(304)
Employer contribution	3,417	576
Benefits paid	<u>(2,372)</u>	<u>(2,292)</u>
Fair value of plan assets at end of year	<u>40,357</u>	<u>36,791</u>
Funded status	\$ <u>(10,393)</u>	<u>(17,290)</u>
Amounts recognized in the accompanying consolidated balance sheets:		
Pension benefit liability (other long-term liabilities)	\$ (10,393)	(17,290)

Other changes in plan assets and benefit obligations recognized in unrestricted net assets:		
Actuarial loss (gain) arising during the year	\$ (3,003)	11,577
Amortization of actuarial loss	(2,218)	(369)
Amortization of prior service cost	<u>—</u>	<u>—</u>
Net amounts recognized in unrestricted net assets	<u>\$ (5,221)</u>	<u>11,208</u>

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2013 and 2012

(Dollars in thousands)

	<u>2013</u>	<u>2012</u>
Estimate of amounts that will be amortized from unrestricted net assets to net pension cost in 2013:		
Amortization of net loss	\$ 1,467	2,186
Amortization of prior service cost	—	—
Estimated future benefit payments:		
Fiscal 2013	\$ —	2,609
Fiscal 2014	2,590	2,732
Fiscal 2015	2,658	2,821
Fiscal 2016	2,741	2,897
Fiscal 2017	2,828	2,996
Fiscal 2018–2022	18,643	16,054
Weighted average assumptions used to determine benefit obligations:		
Settlement (discount) rate	4.50%	4.00%
Weighted average rate of increase in future compensation levels	N/A	N/A
Components of net periodic benefit cost (benefit):		
Service cost	\$ —	—
Interest cost	2,102	2,422
Expected return on plan assets	(2,581)	(2,658)
Amortization of net loss	2,218	369
Net periodic benefit cost	<u>\$ 1,739</u>	<u>133</u>
Weighted average assumptions used to determine net periodic benefit cost:		
Settlement (discount) rate	4.00%	5.50%
Expected long-term return on plan assets (HVMC)	7.00	7.00
Expected long-term return on plan assets (LPH)	7.00	7.00
Weighted average rate of increase in future compensation levels	N/A	N/A

Wellmont’s overall expected long-term rate of return on assets is 7.00%. The expected long-term rate of return is based on the portfolio as a whole and not on the sum of the returns on individual asset categories. The return is based exclusively on historical returns, without adjustments.

Wellmont has developed a plan investment policy, which is reviewed and approved by the board of directors. The policy established goals and objectives of the fund, asset allocations, asset classifications, and manager guidelines. The policy dictates a target asset allocation and an allowable range for such categories based on quarterly investment fluctuations. Investments are managed by independent advisers who are monitored by management and the board of directors.

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2013 and 2012

(Dollars in thousands)

The table below shows the target allocation and actual asset allocations as of June 30, 2013 and 2012:

Asset	Target allocation	2013	2012
Equity securities	65%	48%	47%
Fixed income	28	33	32
Cash	5%–15%	1	2
Other	5%– 5%	18	19

Wellmont monitors the asset allocation and executes required recalibrations of the portfolio allocation on a regular basis in response to fluctuations in market conditions and the overall portfolio composition.

HVMC also participates in a health and welfare plan for its retirees. The plan provides postretirement medical and life insurance benefits to certain employees who meet minimum age and service requirements. Effective January 1, 1995, the death benefit was changed to provide a flat \$5 benefit to all future retirees. During 1995, the medical program for retirees was amended to terminate medical benefits for any active employees who would not meet the full eligibility requirements of the program by January 1, 1996. The plan is contributory and contains other cost-sharing features such as deductibles and coinsurance.

The following table sets forth the postretirement plan's funded status, amounts recognized in the accompanying consolidated financial statements, and assumptions at June 30:

	Postretirement benefits	
	2013	2012
Change in benefit obligation:		
Benefit obligation at beginning of year	\$ 7,039	7,763
Interest cost	163	298
Plan participants contributions	19	34
Actuarial losses	(2,554)	(975)
Benefits paid	(85)	(81)
Benefit obligation at end of year	4,582	7,039
Change in plan assets:		
Fair value of plan assets at beginning of year	—	—
Employer contribution	66	47
Plan participants contributions	19	34
Benefits paid	(85)	(81)
Fair value of plan assets at end of year	—	—
Funded status	\$ 4,582	7,039

Total recognized in unrestricted net assets	<u>(2,138)</u>	<u>(713)</u>
Total recognized in net periodic benefit cost and unrestricted net assets	<u>\$ (2,391)</u>	<u>(676)</u>

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2013 and 2012

(Dollars in thousands)

The net gain and prior service credit for the defined-benefit postretirement plan that will be amortized from unrestricted net assets into net periodic benefit cost over the next fiscal year are \$(405) and \$(168), respectively. Weighted average assumptions used to determine benefit obligations for 2013 and 2012 were as follows:

	<u>2013</u>	<u>2012</u>
Discount rate	4.00%	3.50%
Rate of compensation increase	—	—
Healthcare cost trend rate	5.00	5.00

Weighted average assumptions used to determine net benefit cost for 2013 and 2012 were as follows:

	<u>Postretirement benefits</u>	
	<u>2013</u>	<u>2012</u>
Discount rate	3.50%	5.00%
Expected long-term rate of return on plan assets	N/A	N/A
Rate of compensation increase	N/A	N/A
Healthcare cost trend rate	5.00	5.00

Wellmont's overall expected long-term rate of return on assets is 7%. The expected long-term rate of return is based on the portfolio as a whole and not on the sum of the returns on individual asset categories. The return is based exclusively on historical returns, without adjustments.

For measurement purposes, a 6.50% annual rate of increase in the per capita cost of covered healthcare benefits was assumed for 2013.

The following table summarizes the effect of one-percentage-point increase/decrease in healthcare costs trends:

	<u>2013</u>	<u>2012</u>
Effect of one-percentage-point increase in healthcare cost trend on:		
Service and interest cost	\$ 10	21
Accumulated pension benefit obligation	271	533
Effect of one-percentage-point decrease in healthcare cost trend on:		
Service and interest cost	\$ (9)	(19)
Accumulated pension benefit obligation	(242)	(473)

June 30, 2013 and 2012

(Dollars in thousands)

The following table presents Wellmont’s activity for assets measured at fair value on a recurring basis using significant unobservable inputs (Level 3) as defined in ASC 820 for the years ended June 30, 2013 and 2012:

		Alternative investments
Balance at June 30, 2011	\$	3,588
Net change in value		(29)
Purchases, issuances, and settlements		(12)
Transfers into and/or out of Level 3 (net)		<u>—</u>
Balance at June 30, 2012		3,547
Net change in value		(61)
Purchases, issuances, and settlements		(96)
Transfers into and/or out of Level 3 (net)		<u>—</u>
Balance at June 30, 2013	\$	<u><u>3,390</u></u>

There were no transfers between any levels during the years ended June 30, 2013 and 2012.

(14) Self-Insurance Programs

Wellmont is self-insured for professional and general liability and workers’ compensation liability. Consulting actuaries have been retained to determine funding requirements and estimate claim liability exposures. Wellmont had established revocable self-insurance trust funds to provide for professional and general liability claims and workers’ compensation claims and related expenses. Wellmont’s contributions to the self-insurance trusts were based upon actuarial determinations by an independent service company. The trust fund requirement for professional and general liability was eliminated in 2013. The professional and general liability self-insurance program is supplemented by umbrella excess liability policies consisting of various layers of coverage with commercial carriers based on policy year. The workers’ compensation program is supplemented for Tennessee and Virginia by excess workers’ compensation policies, with a commercial carrier for statutory limits per occurrence. Provisions based on actuarial estimates are made for the ultimate cost of claims asserted, as well as estimates of claims incurred but not reported as of the respective consolidated balance sheet dates. Workers’ compensation expense under these programs amounted to approximately \$3,681 and \$4,100 for the years ended June 30, 2013 and 2012, respectively, and are included in salaries and benefits expense in the accompanying consolidated statements of operations and changes in net assets. All other self-insurance expense under these programs amounted to approximately \$2,229 and \$2,763 for the years ended June 30, 2013 and 2012, respectively, and are included in other expense in the accompanying consolidated statements of operations and changes in net assets.

At June 30, 2013 and 2012, Wellmont was involved in litigation relating to medical malpractice and workers’ compensation claims arising in the ordinary course of business. There are also known incidents that occurred through June 30, 2013 that may result in the assertion of additional claims, and other claims

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2013 and 2012

(Dollars in thousands)

may be asserted arising from services provided to patients in the past. Claims have been filed requesting damages in excess of the amount accrued for estimated malpractice costs. Management of Wellmont is of the opinion that estimated professional and general liability amounts accrued at June 30, 2013 are adequate to provide for potential losses resulting from pending or potential litigation. Amounts of claim settlements may be more or less than what has been provided for by management. The ultimate settlement of claims could be different from recorded accruals, with such differences being potentially significant.

Wellmont is also self-insured for medical and other healthcare benefits provided to its employees and their families. A provision for estimated incurred but not reported claims has been provided in the consolidated financial statements.

(15) Commitments and Contingencies

Construction in progress at June 30, 2013 and 2012 relates primarily to the completion of certain buildings and renovations. Total costs to complete these and other projects were approximately \$15,403 at June 30, 2013. Wellmont has entered into contracts of \$15,403 related to these projects.

Wellmont leases certain equipment and office space under operating lease agreements. Total rental expense under cancelable and noncancelable agreements was \$18,240 and \$19,269 for the years ended June 30, 2013 and 2012, respectively. Minimum future lease payments under noncancelable operating leases with initial or remaining lease terms in excess of one year as of June 30, 2013 are as follows:

2014	\$	9,076
2015		8,164
2016		5,749
2017		4,898
2018		4,377
Thereafter		15,251
	\$	<u>47,515</u>

Wellmont has entered into contractual employment relationships with physicians to provide services to Wellmont physician practices that are intended to qualify under the employee safe harbor of the Anti-Kickback Statute and the employee exception of the Physician Self-Referral Law. These contracts have terms of varying lengths, guarantee certain base payments, and may provide for additional incentives based upon productivity.

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2013 and 2012

(Dollars in thousands)

The healthcare industry is subject to numerous laws and regulations of federal, state, and local governments. These laws and regulations include, but are not necessarily limited to, such matters as licensure, accreditation, government healthcare program participation requirements, reimbursement for patient services, and Medicare fraud and abuse. Recently, government activity has increased with respect to investigations and allegations concerning possible violations of fraud and abuse statutes and regulations by healthcare providers. Violations of these laws and regulations could result in expulsion from government healthcare programs together with the imposition of significant fines and penalties, as well as significant repayments for patient services previously billed. Management believes Wellmont is in compliance with fraud and abuse statutes and other applicable government laws and regulations. Compliance with such laws and regulations can be subject to future government review and interpretation, as well as regulatory actions unknown or unasserted at this time.

(16) Functional Expense Disclosure

Wellmont provides healthcare services to residents within its geographic location. Expenses based upon functional classification related to providing these services during the years ended June 30 are as follows:

	<u>2013</u>	<u>2012</u>
Professional care of patients	\$ 655,152	612,639
Administrative and general	128,955	152,171
Fund-raising	1,172	1,106
	<u>\$ 785,279</u>	<u>765,916</u>

(17) Income Taxes

Wellmont, Inc. and its subsidiaries file consolidated federal and separate-company state income tax returns. These companies have combined net operating loss carryforwards for federal income tax purposes of approximately \$107,000 at June 30, 2013, which begin expiring in fiscal 2018 and expire through 2032. These net operating losses can be used to offset future consolidated taxable income of Wellmont, Inc. and subsidiaries. Wellmont participates in certain activities that generate unrelated business taxable income. These activities have generated net operating losses in prior years, and Wellmont files a Form 990-T with the Internal Revenue Service to report such activity. Wellmont has net operating loss carryforwards for federal income tax purposes of approximately \$1,780 for unrelated business activities. Management believes that it is more likely than not that deferred tax assets arising from net operating loss carryforwards will not be realizable. Accordingly, these are fully reserved at June 30, 2013 and 2012.

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2013 and 2012

(Dollars in thousands)

(18) Concentration of Credit Risk

Wellmont grants credit without collateral to its patients, most of whom are local residents and are insured under third-party payor agreements. The mix of receivables from patients and third-party payors at June 30, 2013 and 2012 was as follows:

	2013	2012
Medicare	53%	50%
TennCare	6	5
Medicaid	9	7
Other third-party payors	26	31
Patients	6	7
	100%	100%

(19) Disclosures about Fair Value of Financial Instruments

The fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer or settle a liability in an orderly transaction between market participants at the measurement date. ASC Topic 820, *Fair Value Measurements and Disclosures*, establishes a three-level fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to measurements involving significant unobservable inputs (Level 3 measurements). The classification of an investment within the hierarchy is based upon the pricing transparency or ability to redeem the investment and does not necessarily correspond to the perceived risk of that investment. Inputs are used in applying various valuation techniques that are assumptions, which market participants use to make valuation decisions, including assumptions about risk. Inputs may include price information, volatility statistics, operating statistics, specific and broad credit data, liquidity statistics, recent transactions, earnings forecasts, future cash flows, market multiples, discount rates and other factors.

Assets and liabilities measured and reported at fair value are classified within the fair value hierarchy as follows:

Level 1 – Valuations based on quoted market prices in active markets.

Level 2 – Investments that trade in markets that are considered to be active, but are based on dealer quotations or alternative pricing sources supported by observable inputs or investments that trade in markets that are not considered to be active, but are valued based on quoted market prices, dealer quotations or alternative pricing sources supported by observable inputs.

Level 3 – Investments classified within Level 3 have significant unobservable inputs, as they trade infrequently or not at all.

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2013 and 2012

(Dollars in thousands)

The level in the fair value hierarchy within which a fair measurement in its entirety falls is based on the lowest-level input that is significant to the fair value measurement in its entirety.

The following table presents assets and liabilities that are measured at fair value on recurring basis at June 30, 2013:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Assets:

Subtotal	<u>25,121</u>	<u>—</u>	<u>—</u>	<u>25,121</u>
	<u>\$ 376,464</u>	<u>—</u>	<u>36,989</u>	<u>413,453</u>
Liabilities:				
Derivatives liability	\$ —	9,781	—	9,781
Total	\$ —	9,781	—	9,781

The following methods and assumptions were used to estimate fair value of each class of instruments:

- *Cash and Cash Equivalents*

The carrying amount approximates fair value due to the short maturities of these instruments.

- *Patient Accounts and Other Receivables*

The net recorded carrying value approximates fair value due to the short maturities of these instruments.

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2013 and 2012

(Dollars in thousands)

- *Investments and Assets Limited as to Use*

The fair values of investments and assets limited as to use are based on quoted market prices and quotes obtained from security brokers or, in the case of the limited partnerships, by the general partner.

Wellmont also applies the measurement provisions of ASU No. 2009-12 to certain investments in funds that do not have readily determinable fair values including private investments, hedge funds, real estate, and other funds. This guidance amends the previous guidance and allows for the estimation of the fair value of investments in investment companies for which the investment does not have a readily determinable fair value using net asset value per share or its equivalent. Net asset value, in many instances may not equal fair value that would be calculated pursuant to ASC 820. The fair value of these investments was \$36,520 and \$36,989 at June 30, 2013 and 2012, respectively.

- *Accounts Payable and Accrued Expenses*

The carrying amount approximates fair value due to the short maturities of these liabilities.

- *Estimated Third-Party Payor Settlements, Other Long-Term Liabilities*

The carrying amount approximates fair market value due to the nature of these liabilities.

- *Long-Term Debt*

The carrying amount of indebtedness with variable interest rates approximates its fair value because the variable rates reflect current market rates for indebtedness with similar maturities and credit quality. The fair value of indebtedness with fixed interest rates is based on rates assumed to be currently available for indebtedness with similar terms and average maturities. Fair value measurements of indebtedness are based on observable interest rates and maturity schedules that fall within Level 2 of the hierarchy of fair value inputs. The estimated fair value of revenue bonds, using current market rates, was estimated at \$436,832 and \$436,634 for the years ended June 30, 2013 and 2012, respectively. The carrying amount of other long-term debt reported in Note 11 and on the consolidated balance sheet approximates the related fair value.

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2013 and 2012

(Dollars in thousands)

The following table presents additional information about Level 3 assets measured at fair value. Both observable and unobservable inputs may be used to determine the fair value of positions that the Health System has classified within the Level 3 category. As a result, the unrealized gains and losses for assets within the Level 3 category in the table below may include changes in fair value that were attributable to both observable and unobservable inputs.

	<u>Alternative investments</u>
Balance at June 30, 2011	\$ 37,778
Total realized and unrealized gains (losses):	
Included in revenues and gains in excess of expenses and losses	264
Included in changes in net assets	(420)
Purchases, issuances, and settlements	(633)
Transfers into and/or out of Level 3 (net)	<u>—</u>
Balance at June 30, 2012	36,989
Total realized and unrealized gains (losses):	
Included in revenues and gains in excess of expenses and losses	(69)
Included in changes in net assets	1,113
Purchases, issuances, and settlements	(1,513)
Transfers into and/or out of Level 3 (net)	<u>—</u>
Balance at June 30, 2013	\$ <u><u>36,520</u></u>

There were no transfers between any of the levels during the years ended June 30, 2013 and 2012.

(20) Subsequent Events

Effective October 1, 2013, Wellmont closed Lee Regional Medical Center in Pennington Gap, Virginia.

Wellmont has evaluated subsequent events from the balance sheet date through October 23, 2013, the date at which the consolidated financial statements were issued. No other material subsequent events were identified for recognition.

Independent Auditors' Report

The Board of Directors
Wellmont Health System:

Report on the Financial Statements

We have audited the accompanying consolidated financial statements of Wellmont Health System and affiliates, which comprise the consolidated balance sheets as of June 30, 2014 and 2013, and the related consolidated statements of operations and changes in net assets, and cash flows for the years then ended, and the related notes to the consolidated financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Wellmont Health System and affiliates as of June 30, 2014 and 2013, and the results of their operations and their cash flows for the years then ended, in accordance with U.S. generally accepted accounting principles.

Supplemental disclosures of noncash items:

Wellmont entered into capital lease obligations for buildings and equipment in the amount of \$1,345 and \$5,262 in 2014 and 2013, respectively.

Additions to property and equipment financed through current liabilities of \$3,770 and \$5,589 in 2014 and 2013, respectively.

See accompanying notes to consolidated financial statements.

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2014 and 2013

(Dollars in thousands)

(1) Operations and Basis of Presentation

Wellmont Health System (Wellmont), a Tennessee not-for-profit corporation, currently operates six acute care hospitals in Tennessee and Virginia that include Bristol Regional Medical Center in Bristol, Tennessee, Holston Valley Medical Center in Kingsport, Tennessee, Lonesome Pine Hospital in Big Stone Gap, Virginia, Hawkins County Memorial Hospital in Rogersville, Tennessee, Hancock County Hospital in Sneedville, Tennessee, and Mountain View Regional Medical Center in Norton, Virginia.

The consolidated financial statements also include the operations of:

- Wellmont Cardiology Services and Wellmont Medical Associates, which operate physician practices.
- Wellmont Madison House and Wellmont Wexford House, which operate assisted living, adult day care, and skilled nursing facilities.
- Wellmont Foundation, which conducts fund-raising activities for the benefit of Wellmont.
- Wellmont Integrated Network, LLC, which is an accountable care organization.
- Wellmont Insurance Company SPC, Ltd, which is a captive insurance company.
- Wellmont, Inc., a wholly owned taxable subsidiary of Wellmont, formed as the holding company of various other taxable subsidiaries that provide medical collection services, provide other healthcare-related services, and invest in affiliates and other activities.

All significant intercompany accounts and transactions have been eliminated in the accompanying consolidated financial statements.

Wellmont's continuing operations consist primarily of the delivery of healthcare services in northeast Tennessee and southwest Virginia.

The following are included in discontinued operations:

- As of October 1, 2013, Wellmont closed Lee Regional Medical Center in Pennington Gap, Virginia. The losses of \$26,091 and \$2,317, including an impairment loss of \$22,456 and \$0, for the years ended June 30, 2014 and 2013, respectively, are included in discontinued operations
- As of May 17, 2013, a subsidiary of Wellmont ceased operating its sleep labs, which were managed by a third party. The losses of \$292 and \$2,302, including an impairment loss of \$0 and \$2,007, for the years ended June 30, 2014 and 2013, respectively, are included in discontinued operations.
- As of September 23, 2010, Wellmont sold the majority of its retail pharmacy's assets to a national pharmacy company. The gains (losses) of \$45 and (\$131) for the years ended June 30, 2014 and 2013, respectively, are included in discontinued operations.
- As of April 30, 2009, Wellmont closed Jenkins Community Hospital in Jenkins, Kentucky. The gains (losses) of (\$301) and \$266 for the years ended June 30, 2014 and 2013, respectively, are included in discontinued operations.

Notes to Consolidated Financial Statements

June 30, 2014 and 2013

(Dollars in thousands)

(2) Significant Accounting Policies

A summary of significant accounting policies is as follows:

(a) Use of Estimates

The preparation of consolidated financial statements in conformity with U.S. generally accepted accounting principles (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the consolidated financial statements. Estimates also affect the reported amounts of revenue and expenses during the reporting period. Significant estimates include allowances for contractual adjustments and bad debts; third-party payor settlements; valuation of investments, land, buildings, equipment, and goodwill; and self-insurance and other liabilities. Actual results could differ from these estimates.

(b) Cash and Cash Equivalents

Wellmont considers all highly liquid investments with a maturity of three months or less when purchased, excluding amounts whose use is limited by board of directors' designation or other arrangements under trust agreements, to be cash equivalents.

(c) Investments

Marketable equity securities and debt securities are recorded at fair value and classified as other than trading. Fair value is determined primarily using quoted prices (unadjusted) in active markets for identical assets or liabilities that Wellmont has the ability to access at the measurement date. However, Wellmont also uses observable and unobservable inputs for investments without quoted market prices to determine the fair value of certain investments at the measurement date. Investments in limited partnerships are recorded at fair value as determined by the partnership using net asset value. Wellmont has adopted the measurement provisions of Accounting Standards Update (ASU) No. 2009-12, *Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*, to certain investments in funds that do not have readily determinable fair values including private investments, hedge funds, real estate, and other funds. Investments in affiliates in which Wellmont has significant influence but does not control are reported on the equity method of accounting, which represents Wellmont's equity in the underlying net book value. Long-term investments include those investments that have not been designated by the board of directors for specific purposes and are also not intended to be used for the liquidation of current liabilities. Investment income is recognized when earned.

Realized gains and losses are determined on the specific-identification method and included in investment income with interest and dividends. Investment income is reported net of related investment fees. Unrealized gains and losses are included in other changes in unrestricted net assets except for losses determined to be other than temporary, which are considered realized losses and included in investment income.

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2014 and 2013

(Dollars in thousands)

(d) *Assets Limited as to Use*

Assets limited as to use primarily include designated assets set aside by the board of directors for future capital improvements, over which the board of directors retains control and may, at its discretion, subsequently use for other purposes, and assets held by trustees under bond indenture and self-insurance arrangements. Amounts required to meet current liabilities of Wellmont have been reclassified to current assets in the accompanying consolidated balance sheets.

(e) *Inventories*

Inventories are stated at the lower of cost or market value and are valued principally by the first-in, first-out, and average-cost methods.

(f) *Land, Buildings, and Equipment*

Land, buildings, and equipment are stated at cost, if purchased, or fair value at date of donation. Depreciation is computed using the straight-line method based on the estimated useful life of the asset, ranging from 3 to 40 years. Buildings and equipment held under capital leases are recorded at net present value of future lease payments and are amortized on a straight-line basis over the shorter of the lease term or estimated useful life of the asset. Costs of maintenance and repairs are expensed as incurred. Upon sale or retirement of land, buildings, or equipment, the cost and related accumulated depreciation are eliminated from the respective accounts and the resulting gain or loss, if any, is included in other revenues on the consolidated statements of operations and changes in net assets. Interest costs incurred on borrowed funds during the period of construction of capital assets is capitalized as a component of the cost of acquiring those assets. The amount capitalized is net of investment earnings on assets limited as to use derived from borrowings designated for capital assets. Renewals and betterments are capitalized and depreciated over their useful life, whereas costs of maintenance and repairs are expensed as incurred.

Wellmont evaluates long-lived assets for impairment on annual basis. Long-lived assets are considered to be impaired whenever events or changes in circumstances indicate the carrying amount of an asset may not be recoverable from future cash flows. Recoverability of long-lived assets to be held and used is measured by a comparison of the carrying amount of an asset to future cash flows expected to be generated by the asset. When such assets are considered to be impaired, the impairment loss recognized is measured by the amount by which the carrying value of the asset exceeds the fair value of the asset.

(g) *Goodwill*

Wellmont adopted ASU No. 2010-07, *Not for Profit Entities: Mergers and Acquisitions*, which in part requires healthcare entities to follow Accounting Standards Codification (ASC) Topic 350-20-35, *Intangibles – Goodwill and Other* along with ASU 2011-08, *Testing Goodwill for Impairment*, effective July 1, 2012. ASC Topic 350-20-35 requires goodwill of not-for-profit entities to be evaluated for impairment at least annually. An entity has the option to first assess qualitative factors to determine whether the existence of events or circumstances leads to a determination that it is more likely than not that the fair value of a reporting unit is less than its

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2014 and 2013

(Dollars in thousands)

carrying amount. If, after assessing the totality of events or circumstances, an entity determines it is not more likely than not that the fair value of a reporting unit is less than its carrying amount, then performing the two-step impairment test is unnecessary. The more-likely than-not threshold is defined as having a likelihood of more than 50%. However, if an entity concludes otherwise, then it is required to perform the first step of the two-step impairment test by calculating the fair value of the reporting unit and comparing the fair value with the carrying amount (including goodwill) of the reporting unit. If the carrying amount of a reporting unit exceeds its fair value, then the entity is required to perform the second step of the goodwill impairment test to measure the amount of the impairment loss. Under step two, an impairment loss is recognized for any excess of the carrying amount of the reporting unit's goodwill over the implied fair value of that goodwill. The implied fair value of goodwill is determined by allocating the fair value of the reporting unit in a manner similar to a purchase price allocation and the residual fair value after this allocation is the implied fair value of the reporting unit goodwill. Fair value of the reporting unit is determined using a discounted cash flow analysis. If the fair value of the reporting unit exceeds its carrying value, step two does not need to be performed. The annual impairment test is performed as of June 30.

(h) *Deferred Debt Expense*

Deferred debt expense is amortized over the life of the related bond issues using the effective-interest method.

(i) *Derivative Financial Instruments*

As further described in note 12, Wellmont is a party to interest rate swap and other derivative agreements. These financial instruments are not designated as hedges and are presented at estimated fair market value in the accompanying consolidated balance sheets. These fair values are based on the estimated amount Wellmont would receive, or be required to pay, to enter into equivalent agreements with a third party at the valuation date. Due to the nature of these financial instruments, such estimates are subject to significant change in the near term. Wellmont recognizes changes in the fair values of derivatives as nonoperating gains or losses in the consolidated statements of operations and changes in net assets. The cash settlements resulting from these interest rate swaps are reported as interest expense in the consolidated statements of operations and changes in net assets.

(j) *Asset Retirement Obligations*

Asset retirement obligations (AROs) are legal obligations associated with the retirement of long-lived assets. These liabilities are initially recorded at fair value, and the related asset retirement costs are capitalized by increasing the carrying amount of the related assets by the same amount as the liability. Asset retirement costs are subsequently depreciated over the useful lives of the related assets. Subsequent to initial recognition, Wellmont records period-to-period changes in the ARO liability resulting from the passage of time and revisions to either the timing or the amount of the original estimate of undiscounted cash flows. Wellmont derecognizes ARO liabilities when the related obligations are settled.

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2014 and 2013

(Dollars in thousands)

(k) *Temporarily and Permanently Restricted Net Assets*

Temporarily restricted net assets are those whose use by Wellmont has been limited by donors to a specific-time period or purpose. Permanently restricted net assets have been restricted by donors to be maintained by Wellmont in perpetuity. Generally, donors of permanently restricted assets permit use of all or part of the income earned on related investments for general or specific purposes.

Temporarily restricted net assets relate primarily to amounts held by the Foundation and include amounts restricted for future capital expenditures and for operations of such areas as children's healthcare services, hospice, and cancer care.

Net assets are released from restrictions by Wellmont incurring expenses that satisfy the restricted purposes. Such net assets released during 2014 and 2013 primarily included amounts related to the purchase of equipment for pediatrics, cancer, and other healthcare operations.

Wellmont has adopted guidance issued by Financial Accounting Standards Board (FASB), which provides guidance on the net asset classification of donor-restricted endowment funds for a tax-exempt organization that is subject to an enacted version of the Uniform Prudent Management of Institutional Funds Act of 2006 (UPMIFA). Effective July 1, 2007, the State of Tennessee adopted legislation that incorporates the provisions outlined in UPMIFA. Wellmont's endowments consist solely of donor-restricted endowment funds. Wellmont's endowments consist of five individual funds established for a variety of purposes.

Wellmont has interpreted UPMIFA as requiring the preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment funds absent explicit donor stipulations to the contrary. As a result of this interpretation, Wellmont classifies as permanently restricted net assets (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment, and (c) accumulations to the donor gift instrument at the time the accumulation is added to the fund. The remaining portion of the donor-restricted endowment fund that is not classified in permanently restricted net assets is classified as temporarily restricted net assets until those amounts are approved for expenditure by the organization in a manner consistent with the standard of prudence prescribed by UPMIFA. In accordance with UPMIFA, Wellmont considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds: (1) the duration and preservation of the fund; (2) the purposes of the organization and the donor-restricted endowment fund; (3) general economic conditions; (4) the possible effect of inflation and deflation; (5) the expected total return from income and the appreciation of investments; (6) other resources of the organization; and (7) the investment policies of the organization.

(l) *Net Patient Service Revenue and Accounts Receivable*

Net patient service revenue is reported on the accrual basis in the period in which services are provided at the estimated net realizable amounts expected to be collected. Net patient service revenue includes amounts estimated by management to be reimbursable by patients and various third-party payors under provisions of reimbursement formulas in effect, including retroactive adjustments under reimbursement agreements. Estimated retroactive adjustments are accrued in the

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2014 and 2013

(Dollars in thousands)

period related services are rendered and adjusted in future periods as final and other settlements are determined. On the basis of historical experience, a significant portion of Wellmont's uninsured patients will be unable or unwilling to pay for the services provided. Therefore, Wellmont records a significant provision for bad debts related to uninsured patients in the period the services are provided. This provision for bad debts is presented on the statements of operations as a component of net patient revenue. Wellmont provides care to patients who meet criteria under its charity care policy without charge or at amounts less than its established rates. Because Wellmont does not pursue collection of amounts determined to qualify as charity care, they are not included in net patient service revenue.

Patient accounts receivable are reported net of both an allowance for contractual adjustments and an allowance for uncollectible accounts. The contractual allowance represents the difference between established billing rates and estimated reimbursement from Medicare, TennCare, Medicaid, and other third-party payment programs. Wellmont's policy does not require collateral or other security for patient accounts receivable. Wellmont routinely obtains assignment of, or is otherwise entitled to receive, patient benefits payable under health insurance programs, plans, or policies.

(m) Revenue and Gains in Excess of Expenses and Losses

The consolidated statements of operations and changes in net assets include revenue and gains in excess of expenses and losses. Changes in unrestricted net assets that are excluded from revenue and gains in excess of expenses and losses, consistent with industry practice, include changes in net unrealized gains (losses) on investments other than trading securities, changes in the funded status of Wellmont's defined-benefit plan, contributions of long-lived assets, including assets acquired using contributions that, by donor restriction, were to be used for the purposes of acquiring such assets, and cumulative effects of changes in accounting principles.

For purposes of financial statement display, those activities directly associated with Wellmont's mission of providing healthcare services are considered to be operating activities. Nonoperating activities primarily include investment and related activities. Other operating revenues primarily include cafeteria, rental, meaningful use incentives, and income from affiliates.

(n) Contributed Resources

Gifts of long-lived assets, such as land, buildings, or equipment, are reported as unrestricted contributions, and are excluded from revenue and gains in excess of expenses and losses, unless explicit donor stipulations specify how the donated assets must be used. Gifts of long-lived assets with explicit restrictions that specify how the assets are to be used and gifts of cash or other assets that must be used to acquire long-lived assets are reported as restricted contributions. Absent explicit donor stipulations about how long those long-lived assets must be maintained, expiration of donor restrictions is reported when the donated or acquired long-lived assets are placed in service.

Unconditional promises to give cash or other assets are reported at fair value at the date the promise is received. Gifts are reported as either a temporarily or permanently restricted contribution if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated time restriction ends or a purpose restriction is accomplished,

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2014 and 2013

(Dollars in thousands)

temporarily restricted net assets are reclassified as unrestricted net assets and reported in the consolidated statements of operations and changes in net assets as net assets released from restrictions. Donor-restricted contributions whose restrictions are met within the same year as received are recorded as unrestricted contributions. Unrestricted contributions are included in other revenues.

(o) Federal Income Taxes

The Wellmont entities are primarily classified as organizations exempt from federal income taxes under Section 501(a) as entities described in Section 501(c)(3) of the Internal Revenue Code. Accordingly, no provision for income taxes has been included for these entities in the consolidated financial statements. The operations of Wellmont, Inc. are subject to state and federal income taxes, which are accounted for in accordance with ASC Topic 740, *Income Taxes*; however, such amounts are not material.

(p) Recently Adopted Accounting Standards

The FASB issued ASU No. 2011-04, *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs*, in May 2011. This ASU requires the reason for the fair value measurement to be disclosed, a description of the valuation techniques, and descriptions of the inputs used for all Level 2 and Level 3 fair value measurements. It also requires all transfers between levels of the fair value hierarchy to be separately reported and described. Wellmont adopted ASU 2011-04 as of July 1, 2012.

(q) Reclassifications

Certain 2013 amounts have been reclassified to conform to the 2014 consolidated financial statement presentation. The reclassifications had no impact on total assets or changes in net assets.

(3) Business Combinations and Goodwill

On November 30, 2013, Wellmont purchased 100% of the membership interest in Wexford House from Residential Healthcare Affiliates. Wexford House is a skilled nursing facility, which serves residents of Sullivan County, Tennessee and the surrounding communities. The facility provides short- and long-term medical and rehabilitation care. In addition, on March 31, 2014, Wellmont purchased the remaining 25% interest in Holston Valley Imaging Center (HVIC), which included the remaining 50% governance interest from Blue Ridge Radiology Investment. The assets acquired and liabilities assumed under each acquisition were recorded at their estimated fair value in accordance with ASC 805.

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2014 and 2013

(Dollars in thousands)

The following table summarizes the consideration paid and the estimated fair value of the assets acquired and liabilities assumed at the business combination date:

	<u>Wexford</u>	<u>HVIC</u>
Consideration:		
Cash	\$ 14,770	7,867
Fair value of Wellmont's equity interest in HVIC held before acquisition	—	23,601
	<u>\$ 14,770</u>	<u>31,468</u>
Recognized amounts of identifiable assets acquired and liabilities assumed:		
Current assets	\$ 2,976	2,474
Other assets	5,277	241
Current liabilities	(564)	(863)
Long-term liabilities	(608)	—
Total identifiable net assets	<u>7,081</u>	<u>1,852</u>
Goodwill	<u>7,689</u>	<u>29,616</u>
	<u>\$ 14,770</u>	<u>31,468</u>

Wellmont recognized a gain of \$14,744 as a result of remeasuring to fair value its 75% equity interest in HVIC held before the business combination. The gain is included in nonoperating gains (losses) on the consolidated statement of operations for the year ended June 30, 2014.

A summary of goodwill for the years ended June 30 is as follows:

	<u>2013</u>	<u>Additions</u>	<u>Decreases</u>	<u>2014</u>
Goodwill	\$ 15,096	37,305	(752)	51,649
	<u>2012</u>	<u>Additions</u>	<u>Decreases</u>	<u>2013</u>
Goodwill	\$ 17,090	13	(2,007)	15,096

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2014 and 2013

(Dollars in thousands)

(4) Net Patient Service Revenue

A reconciliation of the amount of services provided to patients at established rates to net patient service revenue as presented in the consolidated statements of operations and changes in net assets is as follows for the years ended June 30:

	<u>2014</u>	<u>2013</u>
Gross patient service revenue	\$ 2,683,891	2,452,561
Less:		
Contractual adjustments and other discounts	(1,838,900)	(1,605,045)
Charity care	<u>(56,081)</u>	<u>(56,286)</u>
Net patient service revenue before provision for bad debts	788,910	791,230
Less provision for bad debts	<u>(45,644)</u>	<u>(53,251)</u>
Net patient service revenue	<u>\$ 743,266</u>	<u>737,979</u>

Wellmont's allowance for doubtful accounts is predominantly for self-pay patients and patient balances remaining after third-party payments. The provision for bad debts decreased \$7,607 from fiscal 2013 to fiscal 2014 and the net write-offs decreased \$19,262 from fiscal 2013 to fiscal 2014. The decrease in the provision for bad debts was primarily offset by an increase of \$6,594 in self-pay discounts. The decrease in write-offs was due to the above item and the implementation of a new billing system in the last quarter of the fiscal year. Wellmont has not changed its charity care or uninsured discount policies during fiscal 2014. Wellmont does not maintain a material allowance for doubtful accounts from third-party payors, nor did it have significant write-offs from third-party payors.

(5) Third-Party Reimbursement Arrangements

Wellmont renders services to patients under contractual arrangements with the Medicare and Medicaid programs. The Medicaid programs in Tennessee and Virginia are contracted by each state to commercial managed care contractors to cover Medicaid eligible enrollees. Amounts earned under these contractual arrangements are subject to review and final determination by fiscal intermediaries and other appropriate governmental authorities or their agents. Management believes that adequate provision has been made for any adjustments that may result from such reviews. Participation in these programs subjects Wellmont to significant rules and regulations; failure to adhere to such could result in fines, penalties, or expulsion from the programs.

Wellmont contracts with various managed care organizations under the Medicaid programs. Reimbursement for both inpatient and outpatient services is based upon prospectively determined rates, including diagnostic-related group assignments, fee schedules, and per diem amounts. Reimbursement under the Medicaid program is also based upon prospectively determined amounts.

The Medicare program pays for the costs of inpatient services on a prospective basis. Payments are based upon diagnostic-related group assignments, which are determined by the patient's clinical diagnosis and

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2014 and 2013

(Dollars in thousands)

medical procedures utilized. Wellmont receives additional payments from Medicare based on the provision of services to a disproportionate share of Medicaid-eligible and other low-income patients. Outpatient services are also reimbursed primarily on a prospectively determined basis.

Net patient service revenue in 2014 and 2013 related to Medicare and TennCare/Medicaid and net patient accounts receivable at June 30, 2014 and 2013 from Medicare and TennCare/Medicaid were as follows:

	<u>2014</u>	<u>2013</u>
Net patient service revenue:		
Medicare	\$ 304,713	313,429
TennCare/Medicaid	37,216	39,515
Net patient accounts receivable:		
Medicare	\$ 44,480	38,102
TennCare/Medicaid	6,817	6,146

Wellmont has filed cost reports with Medicare and Medicaid. The cost reports are subject to final settlement after audits by the fiscal intermediary. The Medicare and Medicaid cost reports have been audited and final settled by the intermediary through June 30, 2010 and audit adjustments have been received and considered for certain hospitals and year-ends through June 30, 2012.

Wellmont has also entered into reimbursement agreements with certain commercial insurance companies, health maintenance organizations, and preferred provider organizations. The basis for reimbursement under these agreements includes prospectively determined rates per discharge, per diem rates, and discounts from established charges.

Net patient service revenue is reported at the net amounts billed to patients, third-party payors, and others for services rendered, including estimated retroactive adjustments under reimbursement agreements with third-party payors. Estimated retroactive adjustments are accrued in the period the related services are rendered and adjusted in future periods as changes in estimated provisions and final settlements are determined. Net patient service revenue increased approximately \$3,334 and \$6,605 in 2014 and 2013, respectively, due to final settlements and revised estimates in excess of amounts previously recorded, removal of allowances previously estimated that are no longer necessary as a result of audits and final settlements, and years that are no longer subject to audits, reviews, and investigations.

Estimated settlements recorded at June 30, 2014 could differ materially from actual settlements based on the results of third-party audits.

(6) Meaningful Use Incentives

The American Recovery and Reinvestment Act of 2009 (ARRA) established incentive payments under the Medicare and Medicaid programs for certain professionals and hospitals that meaningfully use certified electronic health record (EHR) technology. The Medicare incentive payments are paid out to qualifying hospitals and physician groups over four consecutive years on a transitional schedule. To qualify for Medicare incentives, hospitals, and physician groups must meet EHR “meaningful use” criteria that

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2014 and 2013

(Dollars in thousands)

become more stringent over three stages as determined by Centers for Medicare & Medicaid Services (CMS). Medicaid programs and payment schedules vary from state to state.

For fiscal years ended June 30, 2014 and 2013, Wellmont recorded \$7,211 and \$12,267, respectively, in other operating revenue related to the EHR and meaningful use incentives. These incentives have been recognized following the grant accounting model, recognizing income ratably over the applicable reporting period as management becomes reasonably assured of meeting the required criteria.

Amounts recognized represent management's best estimates for payments ultimately expected to be received based on estimated discharges, charity care, and other input data. Subsequent changes to these estimates will be recognized in other operating revenue in the period in which additional information is available. Such estimates are subject to audit by the federal government or its designee.

(7) Charity Care and Community Services

Wellmont accepts all patients within its primary service area regardless of their ability to pay. A patient is classified as a charity patient by reference to certain established policies that consider, among other factors, generally recognized poverty income levels.

Wellmont maintains records to identify and monitor the level of charity care it provides. These records include the amount of charges foregone and estimated costs incurred for services and supplies furnished under its charity care policy. Costs incurred are estimated based on the ratio of total operating expenses to gross charges applied to charity care charges. Charges foregone for services and supplies furnished under its charity care policy, the estimated cost of those services, and the equivalent percentage of charity care patients to all patients serviced were \$56,081, \$14,567, and 2.39%, respectively, for the year ended June 30, 2014 and \$56,286, \$15,735, and 2.57%, respectively, for the year ended June 30, 2013.

In addition to the charity care services described above, Wellmont provides a number of other services to benefit the indigent for which little or no payment is received. Medicare, Medicaid, and state indigent programs do not cover the full cost of those services. The shortfall between actual receipts from those programs and Wellmont's cost of providing care to those patients totaled \$37,432 and \$45,056 for the years ended June 30, 2014 and 2013, respectively.

Wellmont also provides services to the community at large for which it receives little or no payment. Health evaluations, screening programs, and specific services for the elderly and homebound are other services supplied. Wellmont also provides public health education, trains new health professionals, and conducts health research.

(8) Investment in Affiliates

Wellmont has investments with other healthcare providers, which include hospital, home care, regional laboratories, and other healthcare-related organizations. Wellmont records its share of equity in the operations of the respective organizations. Equity in earnings of affiliates was approximately \$1,764 and \$4,594 for the years ended June 30, 2014 and 2013, respectively, and is included in other operating revenue in the consolidated financial statements. Wellmont received distributions of \$3,484 and \$5,366 during 2014 and 2013, respectively, which reduced Wellmont's overall investment in the affiliates.

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2014 and 2013

(Dollars in thousands)

The following table summarizes the unaudited aggregate financial information of Wellmont's investments in affiliates:

	<u>2014</u>	<u>2013</u>
Total assets	\$ 136,824	135,802
Total liabilities	<u>38,396</u>	<u>40,617</u>
Total net assets	\$ <u>98,428</u>	<u>95,185</u>
Net revenues	\$ 201,639	200,765
Expenses	<u>191,023</u>	<u>186,394</u>
Revenues in excess of expenses	\$ <u>10,616</u>	<u>14,371</u>

Wellmont's investment in these affiliates and its ownership percentage as of June 30, 2014 and 2013 is as follows:

	<u>Amount</u>		<u>Percentages</u>	
	<u>2014</u>	<u>2013</u>	<u>2014</u>	<u>2013</u>
Takoma Regional Hospital	\$ 10,763	11,983	60%	60%
Holston Valley Imaging Center (HVIC)	—	8,336	—	75
Advanced Home Care (AHO)	6,092	6,092	6	6
Lab Group Holdings, LLC	—	3,500	—	1
Others	<u>1,366</u>	<u>1,963</u>	25%–50%	25%–50%
	\$ <u>18,221</u>	<u>31,874</u>		

As of March 31, 2014, Wellmont purchased the remaining 25% interest in HVIC and included HVIC in the consolidated financial statements from that date.

Prior to this transaction and although Wellmont's ownership percentage in Takoma Regional Hospital and HVIC was greater than 50%, Wellmont did not consolidate these entities because Wellmont only had a 50% representation on each respective board and did not have control over these entities. Also, during the fiscal year ended June 30, 2014, Lab Group Holdings, LLC was purchased by another entity, which also purchased all of Wellmont's share in this entity.

Wellmont provided billing, management, and professional services to some of the affiliates. Income recognized by Wellmont for the services was \$173 in 2014 and \$971 in 2013 and is included in other revenues. Included in other receivables are \$242 and \$406 as of June 30, 2014 and 2013, respectively, of amounts due to Wellmont from these entities.

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2014 and 2013

(Dollars in thousands)

(9) Investments

Long-term investments, including assets limited as to use, at June 30 are reported at fair value and consist of the following:

	2014	2013
Assets limited as to use by Board for capital improvements:		
Stock mutual funds	\$ 148,453	109,356
Bond mutual funds	167,156	175,594
Cash and money market funds	5,904	3,749
Real estate funds	21,381	16,377
Alternative investments (private equity, hedge funds, commingled funds, and real estate funds):		
Liquid	14,215	10,504
Illiquid	26,852	26,016
	383,961	341,596
Assets limited as to use under self-insurance agreements:		
Cash and money market funds	16,051	—
Assets limited as to use under bond indenture agreements:		
Cash and money market funds	28,961	39,174
Less assets limited as to use that are required for current liabilities	3,233	5,061
Assets limited as to use, net of current portion	\$ 425,740	375,709
Long-term investments:		
Stock mutual funds	\$ 17,741	12,228
Bond mutual funds	11,420	13,478
Preferred equity investment and related options	1,512	1,512
Cash, money market funds, and certificates of deposit	230	190
Real estate funds	1,618	1,220
Total long-term investments	\$ 32,521	28,628

Investments in certain alternative limited partnership investments contain agreements whereby Wellmont is committed to contribute approximately \$10,162 as of June 30, 2014 of additional funds to the limited partnerships in the form of capital calls at the discretion of the general partner, of which \$567 was paid subsequent to June 30, 2014.

Effective June 27, 2013, Wellmont redeemed its \$10,000 in the preferred equity of a regional managed services organization; however, retained its \$1,512 on a right of first refusal related to any future sale of this organization. This equity had a guaranteed annual return of at least 6.5% of the outstanding preferred equity balance.

Wellmont's investments are concentrated in stock and bond mutual funds. In the event of a downward trend in the stock and bond markets, Wellmont's overall market value of net assets could be adversely

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2014 and 2013

(Dollars in thousands)

affected by a material amount. Investments in alternative investments are generally illiquid investments whose value is determined by the general partner such as hedge funds, private equity, commingled funds, and real estate funds. Distributions are only at the discretion of a voting majority of the general partners.

Wellmont evaluates whether unrealized losses on investment securities indicate other-than-temporary impairment. Based on this evaluation, Wellmont recognized other-than-temporary impairment losses of \$0 and \$131 on investments as of June 30, 2014 and 2013, respectively. Other-than-temporary impairment losses are considered as realized losses and are reported within "investment income" in the consolidated statements of operations and changes in net assets.

Gross unrealized losses on investments for which other-than-temporary impairments have not been recognized and the fair values of those investments, aggregated by the length of time that individual investments have been in a continuous unrealized loss position, at June 30, 2014 and 2013 were as follows:

	Less than 12 months		12 months or more		Total	
	Unrealized losses	Fair value	Unrealized losses	Fair value	Unrealized losses	Fair value
2014:						
Alternative investments	\$ —	—	647	878	647	878
Mutual funds	16	1,655	3,632	119,716	3,648	121,371
	<u>\$ 16</u>	<u>1,655</u>	<u>4,279</u>	<u>120,594</u>	<u>4,295</u>	<u>122,249</u>
	Less than 12 months		12 months or more		Total	
	Unrealized losses	Fair value	Unrealized losses	Fair value	Unrealized losses	Fair value
2013:						
Alternative investments	\$ 478	3,243	—	—	478	3,243
Mutual funds	7,304	181,780	371	3,185	7,675	184,965
	<u>\$ 7,782</u>	<u>185,023</u>	<u>371</u>	<u>3,185</u>	<u>8,153</u>	<u>188,208</u>

Investment income is comprised of the following for the years ended June 30:

	2014	2013
Interest and dividends, net of amounts capitalized	\$ 11,780	15,893
Realized gains on investments, net	2,969	3,423
Investment income, net	<u>\$ 14,749</u>	<u>19,316</u>

(b) Series 2014 Bonds

On June 25, 2014, Wellmont (a) refunded the Revenue Bonds, Series 2003, the Revenue Refunding Bonds, Series 2005, and the Revenue Bonds, Series 2010 (Bank Qualified), with the proceeds of the Hospital Revenue Refunding Bonds, Series 2014A, Series 2014B, and Series 2014C and (b) issued Series 2014D. The Series 2014A through Series 2014D Bonds were issued by Health, Educational, and Housing Facilities Board of the County of Sullivan, Tennessee on behalf of Wellmont. Under the terms of the bond indenture, the proceeds were used to advance refund the Revenue Bonds, Series 2003, the Revenue Refunding Bonds, Series 2005, and the Revenue Bonds, Series 2010 (Bank Qualified) and to issue new debt in the amount of \$13,575 to reimburse Wellmont for the purchase price of Wellmont Wexford House and to pay closing costs of issuing the Series 2014D Bonds. All of the Series 2014 Bonds were issued as tax-exempt and were issued in accordance with the Master Trust Indenture dated May 1, 1991.

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2014 and 2013

(Dollars in thousands)

The Series 2014 Bonds were issued with four maturities; Series 2014A for \$14,242, maturing September, 1, 2019, Series 2014B for \$52,275, maturing September 1, 2032, Series 2014C for \$20,836, maturing September 1, 2024, and Series 2014D for \$13,575, maturing September 1, 2040. Principal and interest will be paid annually, except there will be interest only paid on the Series 2014D through September 2030. Principal payments will begin on September 1, 2031.

Interest on the Series 2014 Bonds is 100% of LIBOR plus a quotient of applicable spread divided by 67%. Accrued interest is paid monthly in arrears. Interest rates on the 2014A, 2014B, 2014C, and 2014D Bonds were 0.92%, 1.02%, 0.85%, and 0.85%, respectively, as of June 30, 2014.

The Series 2014C and Series 2014D Bonds can be called by the bondholders June 1, 2021 and each successive year after that until they mature.

(c) *Project Odyssey 2012 Tax-Exempt Master Lease/Sublease Financing*

On December 1, 2012, The Health, Educational, and Housing Facilities Board of the County of Sullivan, Tennessee (as Lessee) and Wellmont (as Sub-Lessee) entered into a Master Equipment Lease and Sublease Agreement with Banc of America Public Capital Corp (the Lessor). The proceeds of this Master Lease were used to finance an electronic medical records system consisting of an EpicCare Inpatient Clinical System and an EpicCare Ambulatory Electronic Medical Records System inclusive of hardware, software, and implementation services. The Sub-Lessee authorized the Lessor to take a security interest in the entire System although only certain components of the System were funded under this Master Lease with the rest funded by Bank of America N.A. and Sub-Lessee. During the fiscal year ended June 30, 2013, Wellmont received two draws totaling \$16,150. During the fiscal year ended June 30, 2014, Wellmont received two additional draws totaling \$26,349.

Each lease term shall commence and interest shall begin to accrue on the date any funds are advanced by Wellmont. The first six lease payments under each agreement consist only of an interest component and the remaining 78 lease payments consist of a principal component and an interest component. Commencing on June 30, 2013, and continuing on the first day of each fiscal quarter thereafter, Wellmont shall pay accrued interest on the outstanding balance of the loan. Each agreement will have an interest component based on a fixed rate of interest and payable with respect to the amount of funds that the Lessor has advanced. The rates of interest are 1.79% and 1.97% for the two draws in the fiscal year ended June 30, 2014 and 1.45% and 1.82% for the two draws in the fiscal year ended June 30, 2013.

(d) *Series 2011 Bonds*

On May 5, 2011, Wellmont refunded the Revenue Bonds, Series 2006A, with the proceeds of the Revenue Bonds, Series 2011. The Series 2011 Bonds were issued by Health, Educational, and Housing Facilities Board of the County of Sullivan, Tennessee on behalf of Wellmont. Under the terms of the bond indenture, the proceeds were used to advance refund the Revenue Bonds, Series 2006A and to pay the costs of issuing the Series 2011 Bonds.

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2014 and 2013

(Dollars in thousands)

In order to refund the Series 2006A Bonds, Wellmont made a tender offer to the holders of the Series 2006A Bonds. The holders of all outstanding Series 2006A Bonds agreed to tender their Series 2006A Bonds to Wellmont. Proceeds of the Series 2011 Bonds were used to pay the purchase price of Series 2006A Bonds tendered for purchase. All outstanding Series 2006A Bonds were purchased by the Wellmont on the date of issuance of the Bonds and were immediately surrendered to the trustee for the Series 2006A Bonds for retirement and cancellation.

The Series 2011 Bonds were issued with two maturities of \$42,385 and \$33,780 for 2026 and 2032, respectively. The Series 2011 Bonds maturing September 1, 2026 are subject to mandatory redemption prior to maturity pursuant to the operation of a sinking fund, in part by lot starting on the redemption dates beginning on September 1, 2013 and ending on September 1, 2026 in annual amounts ranging from \$865 to \$4,680. The Series 2011 Bonds maturing September 1, 2032 are subject to mandatory redemption prior to maturity pursuant to the operation of a sinking fund, in part by lot starting on the redemption dates beginning on September 1, 2027 and ending on September 1, 2032 in annual amounts ranging from \$4,980 to \$6,300. The Series 2011 Bonds were issued as fixed-rate obligations at 6.0% and 6.5% for the two maturities (2026 and 2032, respectively).

(e) *Series 2010 Bank Qualified Bonds*

On November 1, 2010, The Health, Educational, and Housing Facilities Board of the County of Sullivan, Tennessee (the Board) issued \$30,000 Hospital Revenue Bonds, Series 2010 (Bank Qualified). The Series 2010 Bonds were issued and sold pursuant to the Bond Purchase Agreement dated as of November 1, 2010, between the Board and First Tennessee Bank National Association. Commencing on January 1, 2011, and continuing on the first day of each fiscal quarter thereafter, Wellmont shall pay accrued interest on the outstanding balance of the loan. Commencing on October 1, 2011 and continuing on the first day of each fiscal quarter thereafter, Wellmont shall also make principal payments equal to \$500. The outstanding bonds accrue interest at a rate equal to the product of 65% of the sum of LIBOR plus the applicable margin; however, the Series 2010 Bonds were redeemed upon the issuance of the Series 2014C Bonds.

(f) *Series 2007 Bonds*

On July 24, 2007, The Virginia Small Business Financing Authority issued, on behalf of Wellmont, \$55,000 of Hospital Revenue Bonds, Series 2007A. The Series 2007A Bonds, with other methods of financing, were used to purchase the assets of Mountain View Regional Medical Center and Lee Regional Medical Center.

Principal on outstanding Series 2007A Bonds is payable through maturity or mandatory sinking fund redemption in annual amounts ranging from \$360 to \$2,460 commencing on September 1, 2017 through September 1, 2036, with a balloon payment of \$29,245 due on September 1, 2037. The outstanding bonds accrue interest at rates ranging from 5.125% to 5.250%.

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2014 and 2013

(Dollars in thousands)

(g) Series 2006 C

On October 26, 2006, The Health, Educational, and Housing Facilities Board of the County of Sullivan Tennessee issued, on behalf of Wellmont, \$200,000 of Hospital Revenue Bonds, Series 2006C. The Series 2006C Bonds were used to finance the costs of acquisition of land for expansion, construction, expansion, equipping, and renovation of HVMC, including the construction of a new patient tower (collectively known as Project Platinum); finance the costs of the construction, expansion, equipping, and renovation of the emergency department at BRMC (the Bristol Emergency Department Project); and finance the costs of construction, expansion, renovation, and equipping of an operating room and related facilities at Hawkins County Memorial Hospital.

Principal on outstanding Series 2006C Bonds is payable through maturity or mandatory sinking fund redemption in annual amounts ranging from \$1,605 to \$25,330 commencing on September 1, 2017 through September 1, 2036. The outstanding bonds accrue interest at rates ranging from 5.00% to 5.25%.

(h) Series 2005

On December 8, 2005, The Health, Educational, and Housing Facilities Board of the County of Sullivan, Tennessee, issued, on behalf of Wellmont, \$70,620 of Hospital Revenue Refunding Bonds, Series 2005. The Series 2005 Bonds together with other available funds were used to advance refund the previously issued Hospital Revenue Bonds, Series 2002, and to pay certain expenses incurred in connection with the issuance of the Series 2005 Bonds. Principal on outstanding Series 2005 Bonds is payable through maturity or mandatory sinking fund redemption in annual amounts ranging from \$1,945 to \$3,390 commencing on September 1, 2007 through September 1, 2032; however, the Series 2005 Bonds were redeemed upon the issuance of the Series 2014B Bonds.

(i) Series 2003

On June 1, 2003, The Health, Educational, and Housing Facilities Board of the County of Sullivan, Tennessee, issued, on behalf of Wellmont, \$59,100 of Hospital Revenue Bonds, Series 2003. The bonds were issued to provide funds necessary to refund Wellmont's Hospital Revenue Bonds, Series 1993 (HVHC), to fund a debt service reserve fund and to pay certain expenses incurred in connection with the issuance of the Series 2003 Bonds.

The Wellmont Series 2003 Bonds consist of \$27,460 in fixed-rate serial bonds and \$19,280 in fixed-rate term bonds payable through maturity or mandatory sinking fund redemption maturing in annual amounts ranging from \$3,230 on September 1, 2007 to \$4,140 on September 1, 2019; however, the Series 2003 Bonds were redeemed upon the issuance of the Series 2014A Bonds.

(j) Master Trust Indenture

The master trust indentures and loan agreements for the 2014, 2011, 2007, and 2006 bonds contain certain requirements regarding deposits to trustee funds, maintenance of rates, maintenance of debt service coverage and liquidity, permitted indebtedness, and permitted disposition of assets. Gross

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2014 and 2013

(Dollars in thousands)

receipts of Wellmont collateralize the bonds. The purpose of the master trust indenture is to provide a mechanism for the efficient and economical issuance of notes by individual members of Wellmont using the collective borrowing capacity and credit rating of Wellmont. The master trust indenture requires individual members of Wellmont to make principal and interest payments on notes issued for their benefit. The master trust indenture also requires Wellmont members to make payments on notes issued by other members of Wellmont if such other members are unable to satisfy their obligations under the master trust indenture. Payments of principal and interest on certain bonds are also insured by bond insurance policies.

Funds held by the trustee related to the various revenue bonds are available for specific purposes. The bond interest and revenue funds may be used only to pay interest and principal on the bonds; the debt service reserve fund may be used to pay interest and principal if sufficient funds are not available in the bond interest and revenue funds. The original issue discount and premium on all bond series outstanding are being amortized over the life of the bond issue using the effective-interest method.

(k) Notes Payable

During 2007, Wellmont entered into a five-year \$3,000 note payable, which has a fixed interest rate of 7.25% and a termination date of July 2011. In August 2011, Wellmont renewed this note agreement in the amount of \$1,760 with a variable interest rate indexed to *The Wall Street Journal* U.S. Prime Rate with a ceiling of 7.75% and a floor of 4.00% and a maturity date of August 2016. At June 30, 2014 and 2013, \$828 and \$1,199, respectively, were outstanding on this note.

During 2009, Wellmont entered into a five-year \$2,400 term note payable with a variable interest rate indexed to *The Wall Street Journal* U.S. Prime Rate and a maturity date of October 2014. At June 30, 2014 and 2013, \$150 and \$379, respectively, were outstanding on this note.

On October 17, 2012, Wellmont entered into a 10-year \$12,500 term note payable with Bank of America, N.A. The proceeds were used for the EpicCare system and its implementation, among other general corporate purposes. The note payable has a fixed interest rate of 3.27% and a maturity date of December 13, 2022. At June 30, 2014, \$9,254 and \$10,390 was outstanding on this note.

(l) Capital Lease Obligations

Assets under capital leases are included in property and equipment and have a net carrying value of \$24,242 and \$26,695 as of June 30, 2014 and 2013, respectively. Amortization of capital assets is included in depreciation expense. The lease obligations are recorded at the net present value of the minimum lease payments with interest rates from 2.1% to 12.0%.

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2014 and 2013

(Dollars in thousands)

(m) Long-Term Debt Maturities Schedule

Bond maturities in accordance with the original terms of the Master Trust Indenture and other long-term debt maturities for each of the next five years and in the aggregate at June 30, 2014 are as follows:

2015	\$	18,015
2016		17,318
2017		16,405
2018		18,912
2019		19,638
Thereafter		412,184
	\$	<u>502,472</u>

Interest paid for the years ended June 30, 2014 and 2013 was \$18,899 and \$19,622, respectively, net of amounts capitalized. Interest costs of \$1,444 and \$299 were capitalized in 2014 and 2013, respectively.

(13) Derivative Transactions

Wellmont is a party to a number of interest rate swap agreements. Such swaps have not been designated as hedges and are valued at estimated fair value in the accompanying consolidated balance sheets. By using derivative financial instruments to hedge exposures to changes in interest rates, Wellmont exposes itself to credit risk and market risk. Credit risk is the failure of the counterparty to perform under the terms of the derivative contract. When the fair value of a derivative contract is positive, the counterparty owes Wellmont, which creates credit risk for Wellmont. When the fair value of a derivative contract is negative, Wellmont owes the counterparty, and therefore, Wellmont is not exposed to the counterparty's credit risk in those circumstances. Pursuant to the terms of its interest rate swap agreements, Wellmont is required to postcollateral with its counterparties under certain specified conditions. Collateral posting requirements are based on the amount of Wellmont's derivative liability and Wellmont's bond rating. As of June 30, 2014 and 2013, Wellmont was not required to postcollateral related to its swaps.

Market risk is the adverse effect on the value of a derivative instrument that results from a change in interest rates. The market risk associated with interest-rate contracts is managed by establishing and monitoring parameters that limit the types and degree of market risk that may be undertaken.

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2014 and 2013

(Dollars in thousands)

Management's primary objective in holding such derivatives is to introduce a fixed or variable rate component into its variable rate debt structure using LIBOR rates. The fair value as of June 30, 2014 and 2013 of approximately \$(6,118) and \$(7,425), respectively, is included in other long-term liabilities in the consolidated balance sheets. The change in the fair value of the derivative instruments was approximately \$1,307 and \$2,356, respectively, in 2014 and 2013 and is included in nonoperating gains in the consolidated statements of operations. The terms of the swap agreements allow netting of all amounts due from/to the counterparty. The following is a summary of the interest rate swap information as of June 30, 2014:

<u>Type of interest swap</u>	<u>Debt hedging</u>	<u>Notional amount</u>	<u>Effective date</u>	<u>Maturity date</u>	<u>Rate paid</u>	<u>Rate received</u>	<u>Swap fair value asset (liability)</u>
Total return swap	Series 2011	\$ 75,300	May 5, 2011	September 1, 2032	1.410%	6.222%	\$ 987
Pay fixed interest rate swap	*	52,275	December 13, 2005	September 1, 2016	3.548	0.101	(3,323)
Basis swap	*	56,465	September 1, 2002	September 1, 2032	0.060	0.173	(1,127)
Pay fixed interest rate swap	*	27,575	October 24, 2003	September 1, 2021	3.613	0.104	(2,655)
							<u>\$ (6,118)</u>

* Previously designated bond series has been refinanced.

The following is a schedule detailing the swap information as of June 30, 2013:

<u>Type of interest swap</u>	<u>Debt hedging</u>	<u>Notional amount</u>	<u>Effective date</u>	<u>Maturity date</u>	<u>Rate paid</u>	<u>Rate received</u>	<u>Swap fair value asset (liability)</u>
Total return swap	Series 2011	\$ 76,165	May 5, 2011	September 1, 2032	1.400%	6.222%	\$ 1,792
Pay fixed interest rate swap	Series 2005	54,820	December 13, 2005	September 1, 2016	3.548	0.082	(4,738)
Basis swap	*	58,680	September 1, 2002	September 1, 2032	0.050	0.163	(1,245)
Pay fixed interest rate swap	*	30,295	October 24, 2003	September 1, 2021	3.613	0.082	(3,234)
							<u>\$ (7,425)</u>

* Previously designated bond series has been refinanced.

In September and October 2008, the counterparty and credit support provider, for four of the swaps held at that time, filed bankruptcy. The bankruptcy process is underway and the ultimate outcome regarding any final settlement cannot be determined at this time.

(14) Pension and Other Postretirement Benefits

Wellmont sponsors a retirement program and defined-contribution retirement plan (Retirement Plan) that covers substantially all employees. Wellmont makes annual contributions to the Retirement Plan in an amount equal to 2% (after October 1, 2013) and 3% (before October 1, 2013) of each participant's base wages and contributes an additional amount, based on each participant's voluntary contributions, which

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2014 and 2013

(Dollars in thousands)

cannot exceed certain limits established in the Internal Revenue Code, up to 2.4% (after October 1, 2013) and 3% (before October 1, 2013) of each participant's wages. The total pension expense related to the Retirement Plan was \$10,687 and \$12,765 for the years ended June 30, 2014 and 2013, respectively.

A predecessor to Wellmont sponsored a noncontributory, defined-benefit pension plan covering substantially all its employees. However, effective June 30, 1996, this plan was frozen and no further benefits accrue. One of Wellmont's acquired hospitals also sponsored a defined-benefit pension plan covering substantially all its employees, but the two plans were merged on June 30, 2007 and effective June 30, 2010, the plan was frozen for all employees and no further benefits accrue.

The defined-pension benefits are actuarially determined based on a formula taking into consideration an employee's compensation and years of service. The funding policy is to make annual contributions to the plan based upon the funding standard developed by the plan actuary. This standard uses the projected unit credit actuarial cost method, including the amortization of prior service costs, over a 20-year period. Contributions are intended to provide not only for benefits attributed to service to date but also for those expected to be earned in the future. Wellmont recognizes the funded status (i.e., difference between the fair value of plan assets and projected benefit obligations) of its defined-benefit pension plans as an asset or liability in its consolidated balance sheet and recognizes changes in that funded status in the year in which the changes occur as a change in unrestricted net assets. The defined-benefit pension plans use a June 30 measurement date.

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2014 and 2013

(Dollars in thousands)

The following table sets forth the funded status of the Plans, amounts recognized in the accompanying consolidated financial statements, and assumptions at June 30:

	<u>2014</u>	<u>2013</u>
Change in benefit obligation:		
Benefit obligation at beginning of year	\$ 50,749	54,081
Service cost	—	—
Interest cost	2,196	2,102
Actuarial loss(gain)	5,815	(3,062)
Benefits paid	<u>(2,469)</u>	<u>(2,372)</u>
Benefit obligation at end of year	<u>56,291</u>	<u>50,749</u>
Change in plan assets:		
Fair value of plan assets at beginning of year	40,357	36,791
Actual return on plan assets	4,960	2,521
Employer contribution	2,402	3,417
Benefits paid	<u>(2,469)</u>	<u>(2,372)</u>
Fair value of plan assets at end of year	<u>45,250</u>	<u>40,357</u>
Funded status	\$ <u><u>(11,041)</u></u>	<u><u>(10,393)</u></u>
Amounts recognized in the accompanying consolidated balance sheets:		
Pension benefit liability (other long-term liabilities)	\$ (11,041)	(10,393)

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2014 and 2013

(Dollars in thousands)

	<u>2014</u>	<u>2013</u>
Amounts not yet reflected in net periodic benefit cost and included as an accumulated charge to unrestricted net assets:		
Unrecognized actuarial loss	\$ 16,777	14,552
Unrecognized prior service cost	<u>—</u>	<u>—</u>
Net amounts included as an accumulated charge to unrestricted net assets	\$ <u>16,777</u>	<u>14,552</u>
Calculation of change in unrestricted net assets:		
Accumulated charge to unrestricted net assets, end of year	\$ 16,777	14,552
Reversal of accumulated charge to unrestricted net assets, prior year	<u>(14,552)</u>	<u>(19,773)</u>
Change in unrestricted net assets	\$ <u>2,225</u>	<u>(5,221)</u>
Other changes in plan assets and benefit obligations recognized in unrestricted net assets:		
Actuarial loss (gain) arising during the year	\$ 3,665	(3,003)
Amortization of actuarial loss	(1,440)	(2,218)
Amortization of prior service cost	<u>—</u>	<u>—</u>
Net amounts recognized in unrestricted net assets	\$ <u>2,225</u>	<u>(5,221)</u>

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2014 and 2013

(Dollars in thousands)

	<u>2014</u>	<u>2013</u>
Estimate of amounts that will be amortized from unrestricted net assets to net pension cost in 2013:		
Amortization of net loss	\$ 1,810	1,467
Amortization of prior service cost	—	—
Estimated future benefit payments:		
Fiscal 2014	\$ —	2,590
Fiscal 2015	2,804	2,658
Fiscal 2016	2,894	2,741
Fiscal 2017	3,004	2,828
Fiscal 2018	3,093	2,907
Fiscal 2019–2023	19,937	15,736
Weighted average assumptions used to determine benefit obligations:		
Settlement (discount) rate	4.00%	4.50%
Weighted average rate of increase in future compensation levels	N/A	N/A
Components of net periodic benefit cost (benefit):		
Service cost	\$ —	—
Interest cost	2,196	2,102
Expected return on plan assets	(2,810)	(2,581)
Amortization of net loss	1,440	2,218
Net periodic benefit cost	\$ <u>826</u>	<u>1,739</u>
Weighted average assumptions used to determine net periodic benefit cost:		
Settlement (discount) rate	4.50%	4.00%
Expected long-term return on plan assets (HVMC)	7.00	7.00
Expected long-term return on plan assets (LPH)	7.00	7.00
Weighted average rate of increase in future compensation levels	N/A	N/A

Wellmont’s overall expected long-term rate of return on assets is 7%. The expected long-term rate of return is based on the portfolio as a whole and not on the sum of the returns on individual asset categories. The return is based exclusively on historical returns, without adjustments.

Wellmont has developed a plan investment policy, which is reviewed and approved by the board of directors. The policy established goals and objectives of the fund, asset allocations, asset classifications, and manager guidelines. The policy dictates a target asset allocation and an allowable range for such categories based on quarterly investment fluctuations. Investments are managed by independent advisers who are monitored by management and the board of directors.

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2014 and 2013

(Dollars in thousands)

The table below shows the target allocation and actual asset allocations as of June 30, 2014 and 2013:

Asset	Target allocation	2014	2013
Equity securities	47%	48%	48%
Fixed income	41	33	33
Cash	—	3	1
Other	12	16	18

Wellmont monitors the asset allocation and executes required recalibrations of the portfolio allocation on a regular basis in response to fluctuations in market conditions and the overall portfolio composition.

A predecessor to Wellmont also participates in a health and welfare plan for its retirees. The plan provides postretirement medical and life insurance benefits to certain employees who meet minimum age and service requirements. Effective January 1, 1995, the death benefit was changed to provide a flat \$5 benefit to all future retirees. During 1995, the medical program for retirees was amended to terminate medical benefits for any active employees who would not meet the full eligibility requirements of the program by January 1, 1996. The plan is contributory and contains other cost-sharing features such as deductibles and coinsurance.

The following table sets forth the postretirement plan's funded status, amounts recognized in the accompanying consolidated financial statements, and assumptions at June 30:

	Postretirement benefits	
	2014	2013
Change in benefit obligation:		
Benefit obligation at beginning of year	\$ 4,582	7,039
Interest cost	96	163
Plan participants contributions	17	19
Actuarial losses	(1,978)	(2,554)
Benefits paid	(84)	(85)
Benefit obligation at end of year	2,633	4,582
Change in plan assets:		
Fair value of plan assets at beginning of year	—	—
Employer contribution	66	66
Plan participants contributions	17	19
Benefits paid	(83)	(85)
Fair value of plan assets at end of year	—	—
Funded status	\$ (2,633)	(4,582)

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2014 and 2013

(Dollars in thousands)

	Postretirement benefits	
	2014	2013
Amounts recognized in the consolidated balance sheets consist of:		
Noncurrent assets	\$ —	—
Current liabilities	—	—
Noncurrent liabilities	(2,633)	(4,582)
Accumulated charge to unrestricted net assets	5,939	4,608
	<u>\$ 3,306</u>	<u>26</u>

Amounts recognized as an accumulated credit to unrestricted net assets consist of the following:

	2014	2013
Net actuarial gain	\$ 5,939	4,608

Net periodic benefit cost recognized and other changes in plan assets and benefit obligations recognized in unrestricted net assets in 2014 and 2013 were as follows:

	Postretirement benefits	
	2014	2013
Net periodic benefit cost:		
Interest cost	\$ 95	163
Amortization of net gain	(646)	(416)
Net periodic benefit recognized	<u>(551)</u>	<u>(253)</u>
Other changes in plan assets and benefit obligations recognized in unrestricted net assets:		
Net actuarial loss	(1,978)	(2,554)
Amortization of net gain	646	416
Total recognized in unrestricted net assets	<u>(1,332)</u>	<u>(2,138)</u>
Total recognized in net periodic benefit cost and unrestricted net assets	<u>\$ (1,883)</u>	<u>(2,391)</u>

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2014 and 2013

(Dollars in thousands)

The net gain and prior service credit for the defined-benefit postretirement plan that will be amortized from unrestricted net assets into net periodic benefit cost over the next fiscal year are \$(646) and \$(416), respectively. Weighted average assumptions used to determine benefit obligations for 2014 and 2013 were as follows:

	<u>2014</u>	<u>2013</u>
Discount rate	3.50%	4.00%
Rate of compensation increase	—	—
Healthcare cost trend rate	5.00	5.00

Weighted average assumptions used to determine net benefit cost for 2014 and 2013 were as follows:

	<u>Postretirement benefits</u>	
	<u>2014</u>	<u>2013</u>
Discount rate	4.00%	4.00%
Expected long-term rate of return on plan assets	N/A	N/A
Rate of compensation increase	N/A	N/A
Healthcare cost trend rate	5.00	5.00

Wellmont's overall expected long-term rate of return on assets is 7%. The expected long-term rate of return is based on the portfolio as a whole and not on the sum of the returns on individual asset categories. The return is based exclusively on historical returns, without adjustments.

For measurement purposes, a 6.7% annual rate of increase in the per capita cost of covered healthcare benefits was assumed for 2014.

The following table summarizes the effect of one-percentage-point increase/decrease in healthcare costs trends:

	<u>2014</u>	<u>2013</u>
Effect of one-percentage-point increase in healthcare cost trend on:		
Service and interest cost	\$ 4	10
Accumulated pension benefit obligation	132	271
Effect of one-percentage-point decrease in healthcare cost trend on:		
Service and interest cost	\$ (3)	(9)
Accumulated pension benefit obligation	(116)	(242)

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2014 and 2013

(Dollars in thousands)

The asset allocations of Wellmont's pension and postretirement benefits as of June 30, 2014 and 2013, respectively, were as follows:

Fair value measurement at June 30, 2014				
pension benefits – plan assets				
	Total	Quoted prices in active markets for identical assets (Level 1)	Significant other observable inputs (Level 2)	Significant unobservable inputs (Level 3)
Assets:				
Stock mutual funds	\$ 36,546	36,546	—	—
Cash and money market funds	1,416	1,416	—	—
Alternative funds	7,425	—	3,935	3,490
Total	\$ 45,387	37,962	3,935	3,490

Fair value measurement at June 30, 2013				
pension benefits – plan assets				
	Total	Quoted prices in active markets for identical assets (Level 1)	Significant other observable inputs (Level 2)	Significant unobservable inputs (Level 3)
Assets:

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2014 and 2013

(Dollars in thousands)

The following table presents Wellmont’s activity for assets measured at fair value on a recurring basis using significant unobservable inputs (Level 3) as defined in ASC 820 for the years ended June 30, 2014 and 2013:

	<u>Alternative investments</u>
Balance at June 30, 2012	\$ 3,547
Net change in value	(61)
Purchases, issuances, and settlements	(96)
Transfers into and/or out of Level 3 (net)	—
Balance at June 30, 2013	<u>3,390</u>
Net change in value	232
Purchases, issuances, and settlements	(132)
Transfers into and/or out of Level 3 (net)	—
Balance at June 30, 2014	\$ <u><u>3,490</u></u>

There were no transfers between any levels during the years ended June 30, 2014 and 2013.

(15) Self-Insurance Programs

Wellmont is self-insured for professional and general liability and workers’ compensation liability. Consulting actuaries have been retained to determine funding requirements and estimate claim liability exposures. Wellmont had established revocable self-insurance trust funds to provide for professional and general liability claims and workers’ compensation claims and related expenses. Wellmont’s contributions to the self-insurance trusts were based upon actuarial determinations by an independent service company. The trust fund requirement for professional and general liability was eliminated in fiscal year 2013.

Wellmont Insurance Company SPC, Ltd (the captive) was formed in 2014 as a wholly owned captive insurance company in the Cayman Islands. The captive holds Wellmont’s self-insurance liabilities for professional and general liability and is funded by transfers from Wellmont Health System. These funds are included in assets limited as to use.

The professional and general liability self-insurance program is supplemented by umbrella excess liability policies consisting of various layers of coverage with commercial carriers based on policy year. The workers’ compensation program is supplemented for Tennessee and Virginia by excess workers’ compensation policies, with a commercial carrier for statutory limits per occurrence. Provisions based on actuarial estimates are made for the ultimate cost of claims asserted, as well as estimates of claims incurred but not reported as of the respective consolidated balance sheet dates. Workers’ compensation expense under these programs amounted to approximately \$3,695 and \$3,588 for the years ended June 30, 2014 and 2013, respectively, and are included in salaries and benefits expense in the accompanying consolidated statements of operations and changes in net assets. All other self-insurance expense under these programs amounted to approximately \$5,707 and \$2,229 for the years ended June 30, 2014 and 2013, respectively,

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2014 and 2013

(Dollars in thousands)

and are included in other expense in the accompanying consolidated statements of operations and changes in net assets.

At June 30, 2014 and 2013, Wellmont was involved in litigation relating to medical malpractice and workers' compensation claims arising in the ordinary course of business. There are also known incidents that occurred through June 30, 2014 that may result in the assertion of additional claims, and other claims may be asserted arising from services provided to patients in the past. Claims have been filed requesting damages in excess of the amount accrued for estimated malpractice costs. Management of Wellmont is of the opinion that estimated professional and general liability amounts accrued at June 30, 2014 are adequate to provide for potential losses resulting from pending or potential litigation. Amounts of claim settlements may be more or less than what has been provided for by management. The ultimate settlement of claims could be different from recorded accruals, with such differences being potentially significant.

Wellmont is also self-insured for medical and other healthcare benefits provided to its employees and their families. A provision for estimated incurred but not reported claims has been provided in the consolidated financial statements.

(16) Commitments and Contingencies

Construction in progress at June 30, 2014 and 2013 relates primarily to the completion of certain buildings and renovations. Total costs to complete these and other projects were approximately \$24,685 at June 30, 2014. Wellmont has entered into contracts of \$24,685 related to these projects.

Wellmont leases certain equipment and office space under operating lease agreements. Total rental expense under cancelable and noncancelable agreements was \$15,506 and \$17,892 for the years ended June 30, 2014 and 2013, respectively. Minimum future lease payments under noncancelable operating leases with initial or remaining lease terms in excess of one year as of June 30, 2014 are as follows:

2015	\$	11,222
2016		8,117
2017		7,210
2018		6,439
2019		6,167
Thereafter		20,423
	\$	<u>59,578</u>

Wellmont has entered into contractual employment relationships with physicians to provide services to Wellmont physician practices that are intended to qualify under the employee safe harbor of the Anti-Kickback Statute and the employee exception of the Physician Self-Referral Law. These contracts have terms of varying lengths, guarantee certain base payments, and may provide for additional incentives based upon productivity.

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2014 and 2013

(Dollars in thousands)

The healthcare industry is subject to numerous laws and regulations of federal, state, and local governments. These laws and regulations include, but are not necessarily limited to, such matters as licensure, accreditation, government healthcare program participation requirements, reimbursement for patient services, and Medicare fraud and abuse. Recently, government activity has increased with respect to investigations and allegations concerning possible violations of fraud and abuse statutes and regulations by healthcare providers. Violations of these laws and regulations could result in expulsion from government healthcare programs together with the imposition of significant fines and penalties, as well as significant repayments for patient services previously billed. Management believes Wellmont is in compliance with fraud and abuse statutes and other applicable government laws and regulations. Compliance with such laws and regulations can be subject to future government review and interpretation, as well as regulatory actions unknown or unasserted at this time.

(17) Functional Expense Disclosure

Wellmont provides healthcare services to residents within its geographic location. Expenses based upon functional classification related to providing these services during the years ended June 30 are as follows:

	<u>2014</u>	<u>2013</u>
Professional care of patients	\$ 610,162	613,277
Administrative and general	156,647	150,245
Fund-raising	1,054	1,172
	<u>\$ 767,863</u>	<u>764,694</u>

(18) Income Taxes

Wellmont, Inc. and its subsidiaries file consolidated federal and separate-company state income tax returns. These companies have combined net operating loss carryforwards for federal income tax purposes of approximately \$111,000 at June 30, 2014, which begin expiring in fiscal 2019 and expire through 2033. These net operating losses can be used to offset future consolidated taxable income of Wellmont, Inc. and subsidiaries. Wellmont participates in certain activities that generate unrelated business taxable income. These activities have generated net operating losses in prior years, and Wellmont files a Form 990-T with the Internal Revenue Service to report such activity. Wellmont has net operating loss carryforwards for federal income tax purposes of approximately \$1,796 for unrelated business activities. Management believes that it is more likely than not that deferred tax assets arising from net operating loss carryforwards will not be realizable. Accordingly, these are fully reserved at June 30, 2014 and 2013.

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2014 and 2013

(Dollars in thousands)

(19) Concentration of Credit Risk

Wellmont grants credit without collateral to its patients, most of whom are local residents and are insured under third-party payor agreements. The mix of receivables from patients and third-party payors at June 30, 2014 and 2013 was as follows:

	2014	2013
Medicare	48%	53%
TennCare/Medicaid	13	14
Other third-party payors	31	27
Patients	8	6
	100%	100%

(20) Disclosures about Fair Value of Financial Instruments

The fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer or settle a liability in an orderly transaction between market participants at the measurement date. ASC Topic 820, *Fair Value Measurements*, establishes a three-level fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to measurements involving significant unobservable inputs (Level 3 measurements). The classification of an investment within the hierarchy is based upon the pricing transparency or ability to redeem the investment and does not necessarily correspond to the perceived risk of that investment. Inputs are used in applying various valuation techniques that are assumptions, which market participants use to make valuation decisions, including assumptions about risk. Inputs may include price information, volatility statistics, operating statistics, specific and broad credit data, liquidity statistics, recent transactions, earnings forecasts, future cash flows, market multiples, discount rates, and other factors.

Assets and liabilities measured and reported at fair value are classified within the fair value hierarchy as follows:

Level 1 – Valuations based on quoted market prices in active markets.

Level 2 – Investments that trade in markets that are considered to be active, but are based on dealer quotations or alternative pricing sources supported by observable inputs or investments that trade in markets that are not considered to be active, but are valued based on quoted market prices, dealer quotations, or alternative pricing sources supported by observable inputs.

Level 3 – Investments classified within Level 3 have significant unobservable inputs, as they trade infrequently or not at all.

The level in the fair value hierarchy within which a fair measurement in its entirety falls is based on the lowest-level input that is significant to the fair value measurement in its entirety.

Total	<u>\$ —</u>	<u>7,425</u>	<u>—</u>	<u>7,425</u>

The following methods and assumptions were used to estimate fair value of each class of instruments:

- *Cash and Cash Equivalents*
The carrying amount approximates fair value due to the short maturities of these instruments.
- *Patient Accounts and Other Receivables*
The net recorded carrying value approximates fair value due to the short maturities of these instruments.
- *Investments and Assets Limited as to Use*
The fair values of investments and assets limited as to use are based on quoted market prices and quotes obtained from security brokers or, in the case of the limited partnerships, by the general partner.

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2014 and 2013

(Dollars in thousands)

Wellmont also applies the measurement provisions of ASU No. 2009-12 to certain investments in funds that do not have readily determinable fair values including private investments, hedge funds, real estate, and other funds. This guidance amends the previous guidance and allows for the estimation of the fair value of investments in investment companies for which the investment does not have a readily determinable fair value using net asset value per share or its equivalent. Net asset value, in many instances may not equal fair value that would be calculated pursuant to ASC 820. The fair value of these investments was \$41,067 and \$36,520 at June 30, 2014 and 2013, respectively.

- *Accounts Payable and Accrued Expenses*

The carrying amount approximates fair value due to the short maturities of these liabilities.

- *Estimated Third-Party Payor Settlements, Other Long-Term Liabilities*

The carrying amount approximates fair market value due to the nature of these liabilities.

- *Long-Term Debt*

The carrying amount of indebtedness with variable interest rates approximates its fair value because the variable rates reflect current market rates for indebtedness with similar maturities and credit quality. The fair value of indebtedness with fixed interest rates is based on rates assumed to be currently available for indebtedness with similar terms and average maturities. Fair value measurements of indebtedness are based on observable interest rates and maturity schedules that fall within Level 2 of the hierarchy of fair value inputs. The estimated fair value of revenue bonds, using current market rates, was estimated at \$444,106 and \$436,832 for the years ended June 30, 2014 and 2013, respectively. The carrying amount of other long-term debt reported in note 11 and on the consolidated balance sheet approximates the related fair value.

The following table presents additional information about Level 3 assets measured at fair value. Both observable and unobservable inputs may be used to determine the fair value of positions that the Health System has classified within the Level 3 category. As a result, the unrealized gains and losses for assets within the Level 3 category in the table below may include changes in fair value that were attributable to both observable and unobservable inputs.

	Alternative investments
Balance at June 30, 2012	\$ 36,989
Total realized and unrealized gains (losses):	
Included in revenues and gains in excess of expenses and losses	(69)

There were no transfers between any of the levels during the years ended June 30, 2014 and 2013.

(21) Subsequent Events

On July 1, 2014, Wellmont sold its 60% interest in Takoma Regional Hospital to Adventist Health System (which also owned the other 40%). Cash in the amount of \$11,700 was received prior to July 1, 2014 and is included in current liabilities.

On September 24, 2014, The Health, Educational, and Housing Facilities Board of the County of Sullivan, Tennessee issued, on behalf of Wellmont, \$21,335 of Hospital Revenue Refunding Bonds, Series 2014E. Under the terms of the bond indenture, the proceeds were used to establish a fund to advance refund \$19,580 of the Hospital Revenue Bonds, Series 2006C upon their call date in 2016. The Series 2014E Bonds were issued as tax-exempt and were issued in accordance with the Master Trust Indenture dated May 1, 1991. Upon the issuance of the Series 2014E Bonds, a new Master Trust Indenture was implemented and replaced the one dated May 1, 1991.

Wellmont has evaluated subsequent events from the balance sheet date through October 24, 2014, the date at which the consolidated financial statements were issued. No other material subsequent events were identified for recognition and disclosed.

Independent Auditors' Report

The Board of Directors
Wellmont Health System:

Report on the Financial Statements

We have audited the accompanying consolidated financial statements of Wellmont Health System and affiliates, which comprise the consolidated balance sheets as of June 30, 2015 and 2014, and the related consolidated statements of operations and changes in net assets, and cash flows for the years then ended, and the related notes to the consolidated financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Wellmont Health System and affiliates as of June 30, 2015 and 2014, and the results of their operations and their cash flows for the years then ended, in accordance with U.S. generally accepted accounting principles.

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2015 and 2014

(Dollars in thousands)

(1) Operations and Basis of Presentation

Wellmont Health System (Wellmont), a Tennessee not-for-profit corporation, currently operates six acute care hospitals in Tennessee and Virginia that include Bristol Regional Medical Center in Bristol, Tennessee, Holston Valley Medical Center in Kingsport, Tennessee, Lonesome Pine Hospital in Big Stone Gap, Virginia, Hawkins County Memorial Hospital in Rogersville, Tennessee, Hancock County Hospital in Sneedville, Tennessee, and Mountain View Regional Medical Center in Norton, Virginia.

The consolidated financial statements also include the operations of:

- Wellmont Cardiology Services and Wellmont Medical Associates, which operate physician practices.
- Wellmont Madison House and Wellmont Wexford House, which operate assisted living, adult day care, and skilled nursing facilities.
- Wellmont Foundation, which conducts fund-raising activities for the benefit of Wellmont.
- Wellmont Integrated Network, LLC, which is an accountable care organization.
- Wellmont Insurance Company SPC, Ltd, which is a captive insurance company.
- Wellmont, Inc., a wholly owned taxable subsidiary of Wellmont, formed as the holding company of various other taxable subsidiaries that provide medical collection services, provide other healthcare-related services, and invest in affiliates and other activities.

All significant intercompany accounts and transactions have been eliminated in the accompanying consolidated financial statements.

Wellmont's continuing operations consist primarily of the delivery of healthcare services in northeast Tennessee and southwest Virginia.

The following are included in discontinued operations:

- As of October 1, 2013, Wellmont closed Lee Regional Medical Center in Pennington Gap, Virginia. The losses of \$2,717 and \$26,091, for the years ended June 30, 2015 and 2014, respectively, including an impairment loss of \$22,456, for the year ended June 30, 2014, are included in discontinued operations
- As of May 17, 2013, a subsidiary of Wellmont ceased operating its sleep labs, which were managed by a third party. The gains (losses) of \$3 and (\$292) for the years ended June 30, 2015 and 2014, respectively, are included in discontinued operations.
- As of September 23, 2010, Wellmont sold the majority of its retail pharmacy's assets to a national pharmacy company. The gains (losses) of (\$6) and \$45 for the years ended June 30, 2015 and 2014, respectively, are included in discontinued operations.
- As of April 30, 2009, Wellmont closed Jenkins Community Hospital in Jenkins, Kentucky. The gains (losses) of \$0 and (\$301) for the years ended June 30, 2015 and 2014, respectively, are included in discontinued operations.

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2015 and 2014

(Dollars in thousands)

(2) Significant Accounting Policies

A summary of significant accounting policies is as follows:

(a) *Use of Estimates*

The preparation of consolidated financial statements in conformity with U.S. generally accepted accounting principles (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the consolidated financial statements. Estimates also affect the reported amounts of revenue and expenses during the reporting period. Significant estimates include allowances for contractual adjustments and bad debts; third-party payor settlements; valuation of investments, land, buildings, equipment, and goodwill; and self-insurance and other liabilities. Actual results could differ from these estimates.

(b) *Cash and Cash Equivalents*

Wellmont considers all highly liquid investments with a maturity of three months or less when purchased, excluding amounts whose use is limited by board of directors' designation or other arrangements under trust agreements, to be cash equivalents.

(c) *Investments*

Marketable equity securities and debt securities are recorded at fair value and classified as other than trading. Fair value is determined primarily using quoted prices (unadjusted) in active markets for identical assets or liabilities that Wellmont has the ability to access at the measurement date. However, Wellmont also uses observable and unobservable inputs for investments without quoted market prices to determine the fair value of certain investments at the measurement date. Investments in limited partnerships are recorded at net asset value as determined by the partnership. Wellmont has adopted the measurement provisions of Accounting Standards Update (ASU) No. 2009-12, *Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*, to certain investments in funds that do not have readily determinable fair values including private investments, hedge funds, real estate, and other funds. Investments in affiliates in which Wellmont has significant influence but does not control are reported on the equity method of accounting, which represents Wellmont's equity in the underlying net book value. Long-term investments include those investments that have not been designated by the board of directors for specific purposes and are also not intended to be used for the liquidation of current liabilities. Investment income is recognized when earned.

Realized gains and losses are determined on the specific-identification method and included in investment income with interest and dividends. Investment income is reported net of related investment fees. Unrealized gains and losses are included in other changes in unrestricted net assets except for losses determined to be other than temporary, which are considered realized losses and included in investment income.

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2015 and 2014

(Dollars in thousands)

(d) *Assets Limited as to Use*

Assets limited as to use primarily include designated assets set aside by the board of directors for future capital improvements, over which the board of directors retains control and may, at its discretion, subsequently use for other purposes, and assets held by trustees under bond indenture and self-insurance arrangements. Amounts required to meet current liabilities of Wellmont have been reclassified to current assets in the accompanying consolidated balance sheets.

(e) *Inventories*

Inventories are stated at the lower of cost or market value and are valued principally by the first-in, first-out, and average-cost methods.

(f) *Land, Buildings, and Equipment*

Land, buildings, and equipment are stated at cost, if purchased, or fair value at date of donation. Depreciation is computed using the straight-line method based on the estimated useful life of the asset, ranging from 3 to 40 years. Buildings and equipment held under capital leases are recorded at net present value of future lease payments and are amortized on a straight-line basis over the shorter of the lease term or estimated useful life of the asset. Costs of maintenance and repairs are expensed as incurred. Upon sale or retirement of land, buildings, or equipment, the cost and related accumulated depreciation are eliminated from the respective accounts and the resulting gain or loss, if any, is included in other revenues on the consolidated statements of operations and changes in net assets. Interest costs incurred on borrowed funds during the period of construction of capital assets is capitalized as a component of the cost of acquiring those assets. The amount capitalized is net of investment earnings on assets limited as to use derived from borrowings designated for capital assets. Renewals and betterments are capitalized and depreciated over their useful life, whereas costs of maintenance and repairs are expensed as incurred.

Wellmont evaluates long-lived assets for impairment on annual basis. Long-lived assets are considered to be impaired whenever events or changes in circumstances indicate the carrying amount of an asset may not be recoverable from future cash flows. Recoverability of long-lived assets to be held and used is measured by a comparison of the carrying amount of an asset to future cash flows expected to be generated by the asset. When such assets are considered to be impaired, the impairment loss recognized is measured by the amount by which the carrying value of the asset exceeds the fair value of the asset.

(g) *Goodwill*

Wellmont follows ASU No. 2010-07, *Not for Profit Entities: Mergers and Acquisitions*, which in part requires healthcare entities to follow Accounting Standards Codification (ASC) Topic 350-20-35, *Intangibles – Goodwill and Other* along with ASU 2011-08, *Testing Goodwill for Impairment*. ASC Topic 350-20-35 requires goodwill of not-for-profit entities to be evaluated for impairment at least annually. An entity has the option to first assess qualitative factors to determine whether the existence of events or circumstances leads to a determination that it is more likely than not that the fair value of a reporting unit is less than its carrying amount. If, after assessing the totality of events or circumstances, an entity determines it is not more likely than not that the fair value of a reporting unit

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2015 and 2014

(Dollars in thousands)

is less than its carrying amount, then performing the two-step impairment test is unnecessary. The more-likely than-not threshold is defined as having a likelihood of more than 50%. However, if an entity concludes otherwise, then it is required to perform the first step of the two-step impairment test by calculating the fair value of the reporting unit and comparing the fair value with the carrying amount (including goodwill) of the reporting unit. If the carrying amount of a reporting unit exceeds its fair value, then the entity is required to perform the second step of the goodwill impairment test to measure the amount of the impairment loss. Under step two, an impairment loss is recognized for any excess of the carrying amount of the reporting unit's goodwill over the implied fair value of that goodwill. The implied fair value of goodwill is determined by allocating the fair value of the reporting unit in a manner similar to a purchase price allocation and the residual fair value after this allocation is the implied fair value of the reporting unit goodwill. Fair value of the reporting unit is determined using a discounted cash flow analysis. If the fair value of the reporting unit exceeds its carrying value, step two does not need to be performed. The annual impairment test is performed as of June 30.

(h) *Deferred Debt Expense*

Deferred debt expense is amortized over the life of the related bond issues using the effective-interest method.

(i) *Derivative Financial Instruments*

As further described in note 13, Wellmont is a party to interest rate swap and other derivative agreements. These financial instruments are not designated as hedges and are presented at estimated fair market value in the accompanying consolidated balance sheets. These fair values are based on the estimated amount Wellmont would receive, or be required to pay, to enter into equivalent agreements with a third party at the valuation date. Due to the nature of these financial instruments, such estimates are subject to significant change in the near term. Wellmont recognizes changes in the fair values of derivatives as nonoperating gains or losses in the consolidated statements of operations and changes in net assets. The cash settlements resulting from these interest rate swaps are reported as interest expense in the consolidated statements of operations and changes in net assets.

(j) *Asset Retirement Obligations*

Asset retirement obligations (AROs) are legal obligations associated with the retirement of long-lived assets. These liabilities are initially recorded at fair value, and the related asset retirement costs are capitalized by increasing the carrying amount of the related assets by the same amount as the liability. Asset retirement costs are subsequently depreciated over the useful lives of the related assets. Subsequent to initial recognition, Wellmont records period-to-period changes in the ARO liability resulting from the passage of time and revisions to either the timing or the amount of the original estimate of undiscounted cash flows. Wellmont derecognizes ARO liabilities when the related obligations are settled.

(k) *Temporarily and Permanently Restricted Net Assets*

Temporarily restricted net assets are those whose use by Wellmont has been limited by donors to a specific-time period or purpose. Permanently restricted net assets have been restricted by donors to be

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2015 and 2014

(Dollars in thousands)

maintained by Wellmont in perpetuity. Generally, donors of permanently restricted assets permit use of all or part of the income earned on related investments for general or specific purposes.

Temporarily restricted net assets relate primarily to amounts held by the Foundation and include amounts restricted for future capital expenditures and for operations of such areas as children's healthcare services, hospice, and cancer care.

Net assets are released from restrictions by Wellmont incurring expenses that satisfy the restricted purposes. Such net assets released during 2015 and 2014 primarily included amounts related to the purchase of equipment for pediatrics, cancer, and other healthcare operations.

Wellmont has adopted guidance issued by Financial Accounting Standards Board (FASB), which provides guidance on the net asset classification of donor-restricted endowment funds for a tax-exempt organization that is subject to an enacted version of the Uniform Prudent Management of Institutional Funds Act of 2006 (UPMIFA). Effective July 1, 2007, the State of Tennessee adopted legislation that incorporates the provisions outlined in UPMIFA. Wellmont's endowments consist solely of donor-restricted endowment funds. Wellmont's endowments consist of five individual funds established for a variety of purposes.

Wellmont has interpreted UPMIFA as requiring the preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment funds absent explicit donor stipulations to the contrary. As a result of this interpretation, Wellmont classifies as permanently restricted net assets (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment, and (c) accumulations to the donor gift instrument at the time the accumulation is added to the fund. The remaining portion of the donor-restricted endowment fund that is not classified in permanently restricted net assets is classified as temporarily restricted net assets until those amounts are approved for expenditure by the organization in a manner consistent with the standard of prudence prescribed by UPMIFA. In accordance with UPMIFA, Wellmont considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds: (1) the duration and preservation of the fund; (2) the purposes of the organization and the donor-restricted endowment fund; (3) general economic conditions; (4) the possible effect of inflation and deflation; (5) the expected total return from income and the appreciation of investments; (6) other resources of the organization; and (7) the investment policies of the organization.

(l) *Net Patient Service Revenue and Accounts Receivable*

Net patient service revenue is reported on the accrual basis in the period in which services are provided at the estimated net realizable amounts expected to be collected. Net patient service revenue includes amounts estimated by management to be reimbursable by patients and various third-party payors under provisions of reimbursement formulas in effect, including retroactive adjustments under reimbursement agreements. Estimated retroactive adjustments are accrued in the period related services are rendered and adjusted in future periods as final and other settlements are determined. On the basis of historical experience, a significant portion of Wellmont's uninsured patients will be unable or unwilling to pay for the services provided. Therefore, Wellmont records a significant provision for bad debts related to uninsured patients in the period the services are provided. This provision for bad

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2015 and 2014

(Dollars in thousands)

debts is presented on the statements of operations as a component of net patient revenue. Wellmont provides care to patients who meet criteria under its charity care policy without charge or at amounts less than its established rates. Because Wellmont does not pursue collection of amounts determined to qualify as charity care, they are not included in net patient service revenue.

Patient accounts receivable are reported net of both an allowance for contractual adjustments and an allowance for uncollectible accounts. The contractual allowance represents the difference between established billing rates and estimated reimbursement from Medicare, TennCare, Medicaid, and other third-party payment programs. Wellmont's policy does not require collateral or other security for patient accounts receivable. Wellmont routinely obtains assignment of, or is otherwise entitled to receive, patient benefits payable under health insurance programs, plans, or policies.

(m) Revenue and Gains in Excess of Expenses and Losses

The consolidated statements of operations and changes in net assets include revenue and gains in excess of expenses and losses. Changes in unrestricted net assets that are excluded from revenue and gains in excess of expenses and losses, consistent with industry practice, include changes in net unrealized gains (losses) on investments other than trading securities, changes in the funded status of Wellmont's defined-benefit plan, contributions of long-lived assets, including assets acquired using contributions that, by donor restriction, were to be used for the purposes of acquiring such assets, and cumulative effects of changes in accounting principles.

For purposes of financial statement display, those activities directly associated with Wellmont's mission of providing healthcare services are considered to be operating activities. Nonoperating activities primarily include investment and related activities. Other operating revenues primarily include cafeteria, rental, meaningful use incentives, and income from affiliates.

(n) Contributed Resources

Gifts of long-lived assets, such as land, buildings, or equipment, are reported as unrestricted contributions, and are excluded from revenue and gains in excess of expenses and losses, unless explicit donor stipulations specify how the donated assets must be used. Gifts of long-lived assets with explicit restrictions that specify how the assets are to be used and gifts of cash or other assets that must be used to acquire long-lived assets are reported as restricted contributions. Absent explicit donor stipulations about how long those long-lived assets must be maintained, expiration of donor restrictions is reported when the donated or acquired long-lived assets are placed in service.

Unconditional promises to give cash or other assets are reported at fair value at the date the promise is received. Gifts are reported as either a temporarily or permanently restricted contribution if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated time restriction ends or a purpose restriction is accomplished, temporarily restricted net assets are reclassified as unrestricted net assets and reported in the consolidated statements of operations and changes in net assets as net assets released from restrictions. Donor-restricted contributions whose restrictions are met within the same year as received are recorded as unrestricted contributions. Unrestricted contributions are included in other revenues.

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2015 and 2014

(Dollars in thousands)

(o) Federal Income Taxes

The Wellmont entities are primarily classified as organizations exempt from federal income taxes under Section 501(a) as entities described in Section 501(c)(3) of the Internal Revenue Code. Accordingly, no provision for income taxes has been included for these entities in the consolidated financial statements. The operations of Wellmont, Inc. are subject to state and federal income taxes, which are accounted for in accordance with ASC Topic 740, *Income Taxes*; however, such amounts are not material.

(p) Recently Adopted Accounting Standards

In May 2015, the FASB issued ASU No. 2015-07, *Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share (or Its Equivalent)*. This ASU removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. The amendments also remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. Rather, those disclosures are limited to investments for which the entity has elected to measure the fair value using the practical expedient. Adoption of this standard should be applied on a retrospective basis. Wellmont early implemented the provisions of ASU 2015-07 during fiscal year 2015, retrospectively effective July 1, 2014.

(q) Reclassifications

Certain 2014 amounts have been reclassified to conform to the 2015 consolidated financial statement presentation. The reclassifications had no impact on total assets or changes in net assets.

(3) Business Combinations and Goodwill

On November 30, 2013, Wellmont purchased 100% of the membership interest in Wexford House from Residential Healthcare Affiliates. Wexford House is a skilled nursing facility, which serves residents of Sullivan County, Tennessee and the surrounding communities. The facility provides short- and long-term medical and rehabilitation care. In addition, on March 31, 2014, Wellmont purchased the remaining 25% interest in Holston Valley Imaging Center (HVIC), which included the remaining 50% governance interest from Blue Ridge Radiology Investment. The assets acquired and liabilities assumed under each acquisition were recorded at their estimated fair value in accordance with ASC 805.

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2015 and 2014

(Dollars in thousands)

The following table summarizes the consideration paid and the estimated fair value of the assets acquired and liabilities assumed at the business combination date:

	<u>Wexford</u>	<u>HVIC</u>
Consideration:		
Cash	\$ 14,770	7,867
Fair value of Wellmont's equity interest in HVIC held before acquisition	—	23,601
	<u>\$ 14,770</u>	<u>31,468</u>
Recognized amounts of identifiable assets acquired and liabilities assumed:		
Current assets	\$ 2,976	2,474
Other assets	5,277	241
Current liabilities	(564)	(863)
Long-term liabilities	(608)	—
Total identifiable net assets	7,081	1,852
Goodwill	7,689	29,616
	<u>\$ 14,770</u>	<u>31,468</u>

Wellmont recognized a gain of \$14,744 as a result of remeasuring to fair value its 75% equity interest in HVIC held before the business combination. The gain is included in nonoperating gains (losses) on the consolidated statement of operations for the year ended June 30, 2014.

A summary of goodwill for the years ended June 30 is as follows:

	<u>2014</u>	<u>Additions</u>	<u>Decreases</u>	<u>2015</u>
Goodwill	\$ 51,649		(66)	51,583
	<u>2013</u>	<u>Additions</u>	<u>Decreases</u>	<u>2014</u>
Goodwill	\$ 15,096	37,305	(752)	51,649

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2015 and 2014

(Dollars in thousands)

(4) Net Patient Service Revenue

A reconciliation of the amount of services provided to patients at established rates to net patient service revenue as presented in the consolidated statements of operations and changes in net assets is as follows for the years ended June 30:

	<u>2015</u>	<u>2014</u>
Gross patient service revenue	\$ 2,973,219	2,683,891
Less:		
Contractual adjustments and other discounts	(2,069,377)	(1,838,900)
Charity care	<u>(65,565)</u>	<u>(56,081)</u>
Net patient service revenue before provision for bad debts	838,277	788,910
Less provision for bad debts	<u>(47,307)</u>	<u>(45,644)</u>
Net patient service revenue	<u>\$ 790,970</u>	<u>743,266</u>

Wellmont's allowance for doubtful accounts is predominantly for self-pay patients and patient balances remaining after third-party payments. The provision for bad debts increased \$1,663 from fiscal 2014 to fiscal 2015 and the net write-offs increased \$30,169 from fiscal 2014 to fiscal 2015. The increase in write-offs was due to the implementation of a new billing system in the last quarter of fiscal 2014, which then caused a catch up on write-offs in fiscal 2015. Wellmont has not changed its charity care or uninsured discount policies during fiscal 2015. Wellmont does not maintain a material allowance for doubtful accounts from third-party payors, nor did it have significant write-offs from third-party payors.

(5) Third-Party Reimbursement Arrangements

Wellmont renders services to patients under contractual arrangements with the Medicare and Medicaid programs. The Medicaid programs in Tennessee and Virginia are contracted by each state to commercial managed care contractors to cover Medicaid eligible enrollees. Amounts earned under these contractual arrangements are subject to review and final determination by fiscal intermediaries and other appropriate governmental authorities or their agents. Management believes that adequate provision has been made for any adjustments that may result from such reviews. Participation in these programs subjects Wellmont to significant rules and regulations; failure to adhere to such could result in fines, penalties, or expulsion from the programs.

Wellmont contracts with various managed care organizations under the Medicaid programs. Reimbursement for both inpatient and outpatient services is based upon prospectively determined rates, including diagnostic-related group assignments, fee schedules, and per diem amounts. Reimbursement under the Medicaid program is also based upon prospectively determined amounts.

The Medicare program pays for the costs of inpatient services on a prospective basis. Payments are based upon diagnostic-related group assignments, which are determined by the patient's clinical diagnosis and medical procedures utilized. Wellmont receives additional payments from Medicare based on the provision

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2015 and 2014

(Dollars in thousands)

of services to a disproportionate share of Medicaid-eligible and other low-income patients. Outpatient services are also reimbursed primarily on a prospectively determined basis.

Net patient service revenue in 2015 and 2014 related to Medicare and TennCare/Medicaid and net patient accounts receivable at June 30, 2015 and 2014 from Medicare and TennCare/Medicaid were as follows:

	<u>2015</u>	<u>2014</u>
Net patient service revenue:		
Medicare	\$ 337,813	304,713
TennCare/Medicaid	49,883	37,216
Net patient accounts receivable:		
Medicare	\$ 33,101	44,480
TennCare/Medicaid	6,474	6,817

Wellmont has filed cost reports with Medicare and Medicaid. The cost reports are subject to final settlement after audits by the fiscal intermediary. The Medicare and Medicaid cost reports have been audited and final settled by the intermediary through June 30, 2011 and audit adjustments have been received and considered for certain hospitals and year-ends through June 30, 2013.

Wellmont has also entered into reimbursement agreements with certain commercial insurance companies, health maintenance organizations, and preferred provider organizations. The basis for reimbursement under these agreements includes prospectively determined rates per discharge, per diem rates, and discounts from established charges.

Net patient service revenue is reported at the net amounts billed to patients, third-party payors, and others for services rendered, including estimated retroactive adjustments under reimbursement agreements with third-party payors. Estimated retroactive adjustments are accrued in the period the related services are rendered and adjusted in future periods as changes in estimated provisions and final settlements are determined. Net patient service revenue increased approximately \$2,735 and \$3,334 in 2015 and 2014, respectively, due to final settlements and revised estimates in excess of amounts previously recorded, removal of allowances previously estimated that are no longer necessary as a result of audits and final settlements, and years that are no longer subject to audits, reviews, and investigations.

Estimated settlements recorded at June 30, 2015 could differ materially from actual settlements based on the results of third-party audits.

(6) Meaningful Use Incentives

The American Recovery and Reinvestment Act of 2009 (ARRA) established incentive payments under the Medicare and Medicaid programs for certain professionals and hospitals that meaningfully use certified electronic health record (EHR) technology. The Medicare incentive payments are paid out to qualifying hospitals and physician groups over four consecutive years on a transitional schedule. To qualify for Medicare incentives, hospitals, and physician groups must meet EHR “meaningful use” criteria that become

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2015 and 2014

(Dollars in thousands)

more stringent over three stages as determined by Centers for Medicare & Medicaid Services (CMS). Medicaid programs and payment schedules vary from state to state.

For fiscal years ended June 30, 2015 and 2014, Wellmont recorded \$3,233 and \$7,211, respectively, in other operating revenue related to the EHR and meaningful use incentives. These incentives have been recognized following the grant accounting model, recognizing income ratably over the applicable reporting period as management becomes reasonably assured of meeting the required criteria.

Amounts recognized represent management's best estimates for payments ultimately expected to be received based on estimated discharges, charity care, and other input data. Subsequent changes to these estimates will be recognized in other operating revenue in the period in which additional information is available. Such estimates are subject to audit by the federal government or its designee.

(7) Charity Care and Community Services

Wellmont accepts all patients within its primary service area regardless of their ability to pay. A patient is classified as a charity patient by reference to certain established policies that consider, among other factors, generally recognized poverty income levels.

Wellmont maintains records to identify and monitor the level of charity care it provides. These records include the amount of charges foregone and estimated costs incurred for services and supplies furnished under its charity care policy. Costs incurred are estimated based on the ratio of total operating expenses to gross charges applied to charity care charges. Charges foregone for services and supplies furnished under its charity care policy, the estimated cost of those services, and the equivalent percentage of charity care patients to all patients serviced were \$69,565 and \$17,254, and 2.66%, respectively, for the year ended June 30, 2015 and \$56,081, \$14,567, and 2.39%, respectively, for the year ended June 30, 2014.

In addition to the charity care services described above, Wellmont provides a number of other services to benefit the indigent for which little or no payment is received. Medicare, Medicaid, and state indigent programs do not cover the full cost of those services. The shortfall between actual receipts from those programs and Wellmont's cost of providing care to those patients totaled \$37,818 and \$37,432 for the years ended June 30, 2015 and 2014, respectively.

Wellmont also provides services to the community at large for which it receives little or no payment. Health evaluations, screening programs, and specific services for the elderly and homebound are other services supplied. Wellmont also provides public health education, trains new health professionals, and conducts health research.

(8) Investment in Affiliates

Wellmont has investments with other healthcare providers, which include home care, regional laboratories, and other healthcare-related organizations. Wellmont records its share of equity in the operations of the respective organizations. Equity in earnings of affiliates was approximately \$405 and \$1,764 for the years ended June 30, 2015 and 2014, respectively, and is included in other operating revenue in the consolidated financial statements. Wellmont received distributions of \$231 and \$3,484 during 2015 and 2014, respectively, which reduced Wellmont's overall investment in the affiliates.

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2015 and 2014

(Dollars in thousands)

The following table summarizes the unaudited aggregate financial information of Wellmont's investments in affiliates:

	<u>2015</u>	<u>2014</u>
Total assets	\$ 116,359	136,824
Total liabilities	<u>28,284</u>	<u>38,396</u>
Total net assets	\$ <u>88,075</u>	<u>98,428</u>
Net revenues	\$ 150,253	201,639
Expenses	<u>141,825</u>	<u>191,023</u>
Revenues in excess of expenses	\$ <u>8,428</u>	<u>10,616</u>

Wellmont's investment in these affiliates and its ownership percentage as of June 30, 2015 and 2014 is as follows:

	<u>Amount</u>		<u>Percentages</u>	
	<u>2015</u>	<u>2014</u>	<u>2015</u>	<u>2014</u>
Takoma Regional Hospital	\$ —	10,763	0%	60%
Advanced Home Care (AHO)	6,092	6,092	6	6
Others	<u>1,122</u>	<u>1,366</u>	4%-50%	25%-50%
	\$ <u>7,214</u>	<u>18,221</u>		

As of July 1, 2014, Wellmont sold the 60% ownership in Takoma Regional Hospital. Prior to this transaction and although Wellmont's ownership percentage in Takoma Regional Hospital was greater than 50%, Wellmont did not consolidate this entity because Wellmont only had a 50% representation on the board and did not have control over the entity. Wellmont provides billing, management, and professional services to some of the affiliates. Income recognized by Wellmont for the services was \$173 in 2014 and is included in other revenues. Included in other receivables are \$86 and \$242 as of June 30, 2015 and 2014, respectively, of amounts due to Wellmont from these entities.

(Dollars in thousands)

(9) Investments

Long-term investments, including assets limited as to use, at June 30 are reported at fair value and consist of the following:

	<u>2015</u>	<u>2014</u>
Assets limited as to use by Board for capital improvements:		
Stock mutual funds	\$ 155,165	148,453
Bond mutual funds	157,091	167,156
Cash and money market funds	9,530	5,904
Real estate funds	17,967	21,381
Alternative investments (private equity, hedge funds, commingled funds, and real estate funds):		
Liquid	14,911	14,215
Illiquid	28,012	26,852
	<u>382,676</u>	<u>383,961</u>
Assets limited as to use under self-insurance agreements:		
Cash and money market funds	16,992	16,051
Assets limited as to use under bond indenture agreements:		
Cash and money market funds	28,847	28,961
Less assets limited as to use that are required for current liabilities	<u>3,651</u>	<u>4,066</u>
Assets limited as to use, net of current portion	<u>\$ 424,864</u>	<u>424,907</u>
Long-term investments:		
Stock mutual funds	\$ 15,627	17,741
Bond mutual funds	9,535	11,420
Right of first refusal	1,512	1,512
Cash, money market funds, and certificates of deposit	242	230
Real estate funds	1,048	1,618
Total long-term investments	<u>\$ 27,964</u>	<u>32,521</u>

Investments in certain alternative limited partnership investments contain agreements whereby Wellmont is committed to contribute approximately \$15,917 as of June 30, 2015 of additional funds to the limited partnerships in the form of capital calls at the discretion of the general partner, of which \$1,053 was paid subsequent to June 30, 2015.

Wellmont's investments are concentrated in stock and bond mutual funds. In the event of a downward trend in the stock and bond markets, Wellmont's overall market value of net assets could be adversely affected by a material amount. Investments in alternative investments are generally illiquid investments whose value is

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2015 and 2014

(Dollars in thousands)

determined by the general partner such as hedge funds, private equity, commingled funds, and real estate funds. Distributions are only at the discretion of a voting majority of the general partners.

Wellmont evaluates whether unrealized losses on investment securities indicate other-than-temporary impairment. Based on this evaluation, Wellmont recognized other-than-temporary impairment losses of \$845 and \$0 on investments as of June 30, 2015 and 2014, respectively. Other-than-temporary impairment losses are considered as realized losses and are reported within “investment income” in the consolidated statements of operations and changes in net assets.

Gross unrealized losses on investments for which other-than-temporary impairments have not been recognized and the fair values of those investments, aggregated by the length of time that individual investments have been in a continuous unrealized loss position, at June 30, 2015 and 2014 were as follows:

	Less than 12 months		12 months or more		Total	
	Unrealized losses	Fair value	Unrealized losses	Fair value	Unrealized losses	Fair value
2015:						
Alternative investments	\$ 396	2,975	12	459	408	3,434
Mutual funds	3,282	128,081	8,508	72,699	11,790	200,780
	<u>\$ 3,678</u>	<u>131,056</u>	<u>8,520</u>	<u>73,158</u>	<u>12,198</u>	<u>204,214</u>
	Less than 12 months	12 months or more	Total			
	Unrealized losses	Fair value	Unrealized losses	Fair value	Unrealized losses	Fair value
2014:						
Alternative investments	\$ —	—	647	878	647	878
Mutual funds	16	1,655	3,632	119,716	3,648	121,371
	<u>\$ 16</u>	<u>1,655</u>	<u>4,279</u>	<u>120,594</u>	<u>4,295</u>	<u>122,249</u>

Investment income is comprised of the following for the years ended June 30:

	<u>2015</u>	<u>2014</u>
Interest and dividends, net of amounts capitalized	\$ 13,677	11,780
Realized gains on investments, net	530	2,969
Investment income, net	<u>\$ 14,207</u>	<u>14,749</u>
Change in net unrealized gains on investment	<u>\$ (18,555)</u>	<u>28,333</u>

(10) Land, Buildings, and Equipment

Land, buildings, and equipment at June 30 consist of the following:

	<u>2015</u>	<u>2014</u>
Land	\$ 49,536	49,825
Buildings and improvements	530,904	523,069
Equipment	517,990	490,805
Buildings and equipment under capital lease obligations	54,316	46,031
	<u>1,152,746</u>	<u>1,109,730</u>
Less accumulated depreciation	<u>(674,587)</u>	<u>(623,930)</u>
	478,159	485,800
Construction in progress	<u>6,410</u>	<u>6,781</u>
Land, buildings, and equipment	<u>\$ 484,569</u>	<u>492,581</u>

Depreciation expense for the years ended June 30, 2015 and 2014 was \$58,569 and \$50,058, respectively. Included in depreciation expense is amortization related to capitalized software and equipment under capital leases. Accumulated amortization for equipment under capitalized software and lease obligations was \$26,168 and \$21,789 as of June 30, 2015 and 2014, respectively.

(11) Other Long-Term Liabilities

Other long-term liabilities at June 30 consist of the following:

	<u>2015</u>	<u>2014</u>
Workers' compensation liability	\$ 12,195	11,096
Professional and general liability	15,465	15,940
Postretirement benefit obligation	2,487	2,633
Asset retirement obligation	3,353	3,139
Deferred gain on sale of assets	1,327	409
Derivative liability	(90)	6,118
Pension benefit liability	12,020	11,041
	<u>46,757</u>	<u>50,376</u>
Less current portion	<u>(7,660)</u>	<u>(6,510)</u>
Total other long-term liabilities	<u>\$ 39,097</u>	<u>43,866</u>

(b) Series 2014 Bonds

On June 25, 2014, Wellmont (a) refunded the Revenue Bonds, Series 2003, the Revenue Refunding Bonds, Series 2005, and the Revenue Bonds, Series 2010 (Bank Qualified), with the proceeds of the Hospital Revenue Refunding Bonds, Series 2014A, Series 2014B, and Series 2014C and (b) issued Series 2014D. The Series 2014A through Series 2014E Bonds were issued by Health, Educational, and Housing Facilities Board of the County of Sullivan, Tennessee on behalf of Wellmont. Under the terms of the bond indenture, the proceeds were used to advance refund the Revenue Bonds, Series 2003, the Revenue Refunding Bonds, Series 2005, a portion of the Revenue Refunding Bonds, Series 2006C, and the Revenue Bonds, Series 2010 (Bank Qualified) and to issue new debt in the amount of \$13,575 to reimburse Wellmont for the purchase price of Wellmont Wexford House and to pay closing costs of issuing the Series 2014D Bonds. On September 1, 2014, the 2014E Bonds were issued by The Health, Educational, and Housing Facilities board of the County of Sullivan, Tennessee

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2015 and 2014

(Dollars in thousands)

on behalf of Wellmont. All of the Series 2014 Bonds were issued as tax-exempt and were issued in accordance with the Amended and Restated Master Trust Indenture dated September 1, 2014.

The Series 2014 Bonds were issued with four maturities; Series 2014A for \$14,242, maturing September 1, 2019, Series 2014B for \$52,275, maturing September 1, 2032, Series 2014C for \$20,836, maturing September 1, 2024, Series 2014D for \$13,575, maturing September 1, 2040, and Series 2014E for \$21,335, maturing September 1, 2022. Principal and interest will be paid annually, except there will be interest only paid on the Series 2014D through September 2030 with principal payments beginning on September 1, 2031 and on the Series 2014E through September 2016 with principal payments beginning September 1, 2017.

Interest on the Series 2014 Bonds is 100% of LIBOR plus a quotient of applicable spread divided by 67%. Accrued interest is paid monthly in arrears. Interest rates on the 2014A, 2014B, 2014C, 2014D and 2014E Bonds were .89%, .99%, .97%, .97% and .97%, respectively, as of June 30, 2015.

The Series 2014C and Series 2014D Bonds can be called by the bondholders June 1, 2021 and each successive year after that until they mature. The Series 2014E Bonds can be called by the bondholders September 1, 2021 and on June 1 each successive year after that until they mature.

(c) *Project Odyssey 2012 Tax-Exempt Master Lease/Sublease Financing*

On December 1, 2012, The Health, Educational, and Housing Facilities Board of the County of Sullivan, Tennessee (as Lessee) and Wellmont (as Sub-Lessee) entered into a Master Equipment Lease and Sublease Agreement with Banc of America Public Capital Corp (the Lessor). The proceeds of this Master Lease were used to finance an electronic medical records system consisting of an EpicCare Inpatient Clinical System and an EpicCare Ambulatory Electronic Medical Records System inclusive of hardware, software, and implementation services. The Sub-Lessee authorized the Lessor to take a security interest in the entire System although only certain components of the System were funded under this Master Lease with the rest funded by Bank of America N.A. and Sub-Lessee. During the fiscal year ended June 30, 2014, Wellmont received two draws totaling \$26,349. Each lease term shall commence and interest shall begin to accrue on the date any funds are advanced by Wellmont. The first six lease payments under each agreement consist only of an interest component and the remaining 78 lease payments consist of a principal component and an interest component. Commencing on June 30, 2013, and continuing on the first day of each fiscal quarter thereafter, Wellmont shall pay accrued interest on the outstanding balance of the loan. Each agreement will have an interest component based on a fixed rate of interest and payable with respect to the amount of funds that the Lessor has advanced. The rates of interest range from 1.45% to 1.97%.

(d) *Series 2011 Bonds*

On May 5, 2011, Wellmont refunded the Revenue Bonds, Series 2006A, with the proceeds of the Revenue Bonds, Series 2011. The Series 2011 Bonds were issued by Health, Educational, and Housing Facilities Board of the County of Sullivan, Tennessee on behalf of Wellmont. Under the terms of the bond indenture, the proceeds were used to advance refund the Revenue Bonds, Series 2006A and to pay the costs of issuing the Series 2011 Bonds.

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2015 and 2014

(Dollars in thousands)

In order to refund the Series 2006A Bonds, Wellmont made a tender offer to the holders of the Series 2006A Bonds. The holders of all outstanding Series 2006A Bonds agreed to tender their Series 2006A Bonds to Wellmont. Proceeds of the Series 2011 Bonds were used to pay the purchase price of Series 2006A Bonds tendered for purchase. All outstanding Series 2006A Bonds were purchased by the Wellmont on the date of issuance of the Bonds and were immediately surrendered to the trustee for the Series 2006A Bonds for retirement and cancellation.

The Series 2011 Bonds were issued with two maturities of \$42,385 and \$33,780 for 2026 and 2032, respectively. The Series 2011 Bonds maturing September 1, 2026 are subject to mandatory redemption prior to maturity pursuant to the operation of a sinking fund, in part by lot starting on the redemption dates beginning on September 1, 2013 and ending on September 1, 2026 in annual amounts ranging from \$865 to \$4,680. The Series 2011 Bonds maturing September 1, 2032 are subject to mandatory redemption prior to maturity pursuant to the operation of a sinking fund, in part by lot starting on the redemption dates beginning on September 1, 2027 and ending on September 1, 2032 in annual amounts ranging from \$4,980 to \$6,300. The Series 2011 Bonds were issued as fixed-rate obligations at 6.0% and 6.5% for the two maturities (2026 and 2032, respectively).

(e) Series 2007 Bonds

On July 24, 2007, The Virginia Small Business Financing Authority issued, on behalf of Wellmont, \$55,000 of Hospital Revenue Bonds, Series 2007A. The Series 2007A Bonds, with other methods of financing, were used to purchase the assets of Mountain View Regional Medical Center and Lee Regional Medical Center.

Principal on outstanding Series 2007A Bonds is payable through maturity or mandatory sinking fund redemption in annual amounts ranging from \$360 to \$2,460 commencing on September 1, 2017 through September 1, 2036, with a balloon payment of \$29,245 due on September 1, 2037. The outstanding bonds accrue interest at rates ranging from 5.125% to 5.250%.

(f) Series 2006 C

On October 26, 2006, The Health, Educational, and Housing Facilities Board of the County of Sullivan Tennessee issued, on behalf of Wellmont, \$200,000 of Hospital Revenue Bonds, Series 2006C. The Series 2006C Bonds were used to finance the costs of acquisition of land for expansion, construction, expansion, equipping, and renovation of HVMC, including the construction of a new patient tower (collectively known as Project Platinum); finance the costs of the construction, expansion, equipping, and renovation of the emergency department at BRMC (the Bristol Emergency Department Project); and finance the costs of construction, expansion, renovation, and equipping of an operating room and related facilities at Hawkins County Memorial Hospital.

Principal on outstanding Series 2006C Bonds is payable through maturity or mandatory sinking fund redemption in annual amounts ranging from \$1,605 to \$25,330 commencing on September 1, 2017 through September 1, 2036. The outstanding bonds accrue interest at rates ranging from 5.00% to 5.25%.

(g) Master Trust Indenture

The master trust indenture and loan agreements for the 2014, 2011, 2007, and 2006 bonds contain certain requirements regarding deposits to trustee funds, maintenance of rates, maintenance of debt service coverage and liquidity, permitted indebtedness, and permitted disposition of assets. Gross receipts of Wellmont collateralize the bonds. The purpose of the master trust indenture is to provide a mechanism for the efficient and economical issuance of notes by individual members of Wellmont using the collective borrowing capacity and credit rating of Wellmont. The master trust indenture requires individual members of Wellmont to make principal and interest payments on notes issued for their benefit. The master trust indenture also requires Wellmont members to make payments on notes issued by other members of Wellmont if such other members are unable to satisfy their obligations under the master trust indenture. Payments of principal and interest on certain bonds are also insured by bond insurance policies.

Funds held by the trustee related to the various revenue bonds are available for specific purposes. The bond interest and revenue funds may be used only to pay interest and principal on the bonds; the debt service reserve fund may be used to pay interest and principal if sufficient funds are not available in the bond interest and revenue funds. The original issue premium on all bond series outstanding are being amortized over the life of the bond issue using the effective-interest method.

(h) Notes Payable

In August 2011, Wellmont entered into a note agreement in the amount of \$1,760 with a variable interest rate indexed to *The Wall Street Journal* U.S. Prime Rate with a ceiling of 7.75% and a floor of 4.00% and a maturity date of August 2016. At June 30, 2015 and 2014, \$446 and \$828, respectively, were outstanding on this note.

On October 17, 2012, Wellmont entered into a 10-year \$12,500 term note payable with Bank of America, N.A. The proceeds were used for the EpicCare system and its implementation, among other general corporate purposes. The note payable has a fixed interest rate of 3.27% and a maturity date of December 13, 2022. At June 30, 2015 and 2014, \$9,254 and \$9,254, respectively, were outstanding on this note.

On January 4, 2013, Wellmont entered into a three-year \$193 term note payable with a variable interest rate indexed to *The Wall Street Journal* U.S. Prime Rate and a maturity date of December 2015. At June 30, 2015 and 2014, \$45 and \$107, respectively, were outstanding on this note.

On March 25, 2013, Wellmont entered into a three-year \$47 term note payable with a variable interest rate indexed to *The Wall Street Journal* U.S. Prime Rate and a maturity date of August 2016. At June 30, 2015 and 2014, \$26 and \$43, respectively, were outstanding on this note.

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2015 and 2014

(Dollars in thousands)

(i) Capital Lease Obligations

Assets under capital leases are included in property and equipment and have a net carrying value of \$28,148 and \$24,242 as of June 30, 2015 and 2014, respectively. Amortization of capital assets is included in depreciation expense. The lease obligations are recorded at the net present value of the minimum lease payments with interest rates from 2.1% to 12.0%.

(j) Long-Term Debt Maturities Schedule

Bond maturities in accordance with the terms of the Master Trust Indenture and other long-term debt maturities for each of the next five years and in the aggregate at June 30, 2015 are as follows:

2016	\$	18,626
2017		17,722
2018		20,059
2019		20,027
2020		20,505
Thereafter		396,673
	\$	<u>493,612</u>

Interest paid for the years ended June 30, 2015 and 2014 was \$19,881 and \$18,899, respectively, net of amounts capitalized. Interest costs of \$210 and \$1,444 were capitalized in 2015 and 2014, respectively.

(13) Derivative Transactions

Wellmont is and has been a party to a number of interest rate swap agreements. Such swaps have not been designated as hedges and are valued at estimated fair value in the accompanying consolidated balance sheets. By using derivative financial instruments to hedge exposures to changes in interest rates, Wellmont exposes itself to credit risk and market risk. Credit risk is the failure of the counterparty to perform under the terms of the derivative contract. When the fair value of a derivative contract is positive, the counterparty owes Wellmont, which creates credit risk for Wellmont. When the fair value of a derivative contract is negative, Wellmont owes the counterparty, and therefore, Wellmont is not exposed to the counterparty's credit risk in those circumstances. Pursuant to the terms of its interest rate swap agreements, Wellmont is required to postcollateral with its counterparties under certain specified conditions. Collateral posting requirements are based on the amount of Wellmont's derivative liability and Wellmont's bond rating. As of June 30, 2015 and 2014, Wellmont was not required to postcollateral related to its swaps.

Market risk is the adverse effect on the value of a derivative instrument that results from a change in interest rates. The market risk associated with interest-rate contracts is managed by establishing and monitoring parameters that limit the types and degree of market risk that may be undertaken.

Management's primary objective in holding such derivatives is to introduce a fixed or variable rate component into its variable rate debt structure using LIBOR rates. The fair value as of June 30, 2015 and 2014 of approximately \$90 and \$(6,118), respectively, is included in other long-term liabilities in the

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2015 and 2014

(Dollars in thousands)

consolidated balance sheets. The change in the fair value of the derivative instruments was approximately \$1,637 and \$1,307, respectively, in 2015 and 2014 and is included in nonoperating gains in the consolidated statements of operations. The terms of the swap agreements allow netting of all amounts due from/to the counterparty. Effective May 28, 2015, Wellmont terminated and settled three of the interest rate swaps resulting in a loss of \$2,200 included in Nonoperating gains (losses) in the consolidated statements of operations and changes in net assets. The following is a summary of the interest rate swap information as of June 30, 2015:

<u>Type of interest swap</u>	<u>Debt hedging</u>	<u>Notional amount</u>	<u>Effective date</u>	<u>Maturity date</u>	<u>Rate paid</u>	<u>Rate received</u>	<u>Swap fair value asset (liability)</u>
Total return swap	Series 2011	\$ 75,300	May 5, 2011	September 1, 2032	1.220%	6.249%	\$ 90
							\$ 90

The following is a schedule detailing the swap information as of June 30, 2014:

<u>Type of interest swap</u>	<u>Debt hedging</u>	<u>Notional amount</u>	<u>Effective date</u>	<u>Maturity date</u>	<u>Rate paid</u>	<u>Rate received</u>	<u>Swap fair value asset (liability)</u>
Total return swap	Series 2011	\$ 75,300	May 5, 2011	September 1, 2032	1.410%	6.222%	\$ 987
Pay fixed interest rate swap	*	52,275	December 13, 2005	September 1, 2016	3.548	0.101	(3,323)
Basis swap	*	56,465	September 1, 2002	September 1, 2032	0.060	0.173	(1,127)
Pay fixed interest rate swap	*	27,575	October 24, 2003	September 1, 2021	3.613	0.104	(2,655)
							\$ (6,118)

* Previously designated bond series has been refinanced.

(14) Pension and Other Postretirement Benefits

Wellmont sponsors a retirement program and defined-contribution retirement plan (Retirement Plan) that covers substantially all employees. Wellmont makes annual contributions to the Retirement Plan in an amount equal to 2% (after October 1, 2013) and 3% (before October 1, 2013) of each participant's base wages and contributes an additional amount, based on each participant's voluntary contributions, which cannot exceed certain limits established in the Internal Revenue Code, up to 2.4% (after October 1, 2013) and 3% (before October 1, 2013) of each participant's wages. The total pension expense related to the Retirement Plan was \$8,841 and \$10,687 for the years ended June 30, 2015 and 2014, respectively.

A predecessor to Wellmont sponsored a noncontributory, defined-benefit pension plan covering substantially all its employees. However, effective June 30, 1996, this plan was frozen and no further benefits accrue. One of Wellmont's acquired hospitals also sponsored a defined-benefit pension plan covering substantially all its employees, but the two plans were merged on June 30, 2007 and effective June 30, 2010, the plan was frozen for all employees and no further benefits accrue.

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2015 and 2014

(Dollars in thousands)

The defined-pension benefits are actuarially determined based on a formula taking into consideration an employee's compensation and years of service. The funding policy is to make annual contributions to the plan based upon the funding standard developed by the plan actuary. This standard uses the projected unit credit actuarial cost method, including the amortization of prior service costs, over a 20-year period. Contributions are intended to provide not only for benefits attributed to service to date but also for those expected to be earned in the future. Wellmont recognizes the funded status (i.e., difference between the fair value of plan assets and projected benefit obligations) of its defined-benefit pension plans as an asset or liability in its consolidated balance sheet and recognizes changes in that funded status in the year in which the changes occur as a change in unrestricted net assets. The defined-benefit pension plans use a June 30 measurement date.

The following table sets forth the funded status of the Plans, amounts recognized in the accompanying consolidated financial statements, and assumptions at June 30:

	<u>2015</u>	<u>2014</u>
Change in benefit obligation:		
Benefit obligation at beginning of year	\$ 56,291	50,749
Service cost	—	—
Interest cost	2,176	2,196
Actuarial loss(gain)	(886)	5,815
Benefits paid	<u>(2,501)</u>	<u>(2,469)</u>
Benefit obligation at end of year	<u>55,080</u>	<u>56,291</u>
Change in plan assets:		
Fair value of plan assets at beginning of year	45,250	40,357
Actual return on plan assets	(1,591)	4,960
Employer contribution	1,902	2,402
Benefits paid	<u>(2,501)</u>	<u>(2,469)</u>
Fair value of plan assets at end of year	<u>43,060</u>	<u>45,250</u>
Funded status	<u>\$ (12,020)</u>	<u>(11,041)</u>
Amounts recognized in the accompanying consolidated balance sheets:		
Pension benefit liability (other long-term liabilities)	\$ (12,020)	(11,041)

(Dollars in thousands)

	<u>2015</u>	<u>2014</u>
Estimate of amounts that will be amortized from unrestricted net assets to net pension cost in 2014:		
Amortization of net loss	\$ 2,200	1,810
Amortization of prior service cost	—	—
Estimated future benefit payments:		
Fiscal 2015	—	2,804
Fiscal 2016	2,882	2,894
Fiscal 2017	2,987	3,004
Fiscal 2018	3,079	3,093
Fiscal 2019	3,162	3,178
Fiscal 2020–2023	20,295	16,759
Weighted average assumptions used to determine benefit obligations:		
Settlement (discount) rate	4.25%	4.00%
Weighted average rate of increase in future compensation levels	N/A	N/A
Components of net periodic benefit cost (benefit):		
Service cost	\$ —	—
Interest cost	2,176	2,196
Expected return on plan assets	(3,164)	(2,810)
Amortization of net loss	1,745	1,440
Net periodic benefit cost	<u>\$ 757</u>	<u>826</u>
Weighted average assumptions used to determine net periodic benefit cost:		
Settlement (discount) rate	4.00%	4.50%
Expected long-term return on plan assets (HVMC)	7.00	7.00
Expected long-term return on plan assets (LPH)	7.00	7.00
Weighted average rate of increase in future compensation levels	N/A	N/A

Wellmont’s overall expected long-term rate of return on assets is 7%. The expected long-term rate of return is based on the portfolio as a whole and not on the sum of the returns on individual asset categories. The return is based exclusively on historical returns, without adjustments.

Wellmont has developed a plan investment policy, which is reviewed and approved by the board of directors. The policy established goals and objectives of the fund, asset allocations, asset classifications, and manager guidelines. The policy dictates a target asset allocation and an allowable range for such categories based on quarterly investment fluctuations. Investments are managed by independent advisers who are monitored by management and the board of directors.

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2015 and 2014

(Dollars in thousands)

The table below shows the target allocation and actual asset allocations as of June 30, 2015 and 2014:

Asset	Target allocation	2015	2014
Equity securities	47%	47%	48%
Fixed income	41	33	33
Cash	—	3	3
Other	12	17	16

Wellmont monitors the asset allocation and executes required recalibrations of the portfolio allocation on a regular basis in response to fluctuations in market conditions and the overall portfolio composition.

A predecessor to Wellmont also participates in a health and welfare plan for its retirees. The plan provides postretirement medical and life insurance benefits to certain employees who meet minimum age and service requirements. Effective January 1, 1995, the death benefit was changed to provide a flat \$5 benefit to all future retirees. During 1995, the medical program for retirees was amended to terminate medical benefits for any active employees who would not meet the full eligibility requirements of the program by January 1, 1996. The plan is contributory and contains other cost-sharing features such as deductibles and coinsurance.

The following table sets forth the postretirement plan's funded status, amounts recognized in the accompanying consolidated financial statements, and assumptions at June 30:

	Postretirement benefits	
	2015	2014
Change in benefit obligation:		
Benefit obligation at beginning of year	\$ 2,633	4,582
Interest cost	86	96
Plan participants contributions	16	17
Actuarial losses	(172)	(1,978)
Benefits paid	(76)	(84)
Benefit obligation at end of year	2,487	2,633
Change in plan assets:		
Fair value of plan assets at beginning of year	—	—
Employer contribution	60	66
Plan participants contributions	16	17
Benefits paid	(76)	(83)
Fair value of plan assets at end of year	—	—
Funded status	\$ (2,487)	(2,633)

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

Total recognized in unrestricted net assets	<u>371</u>	<u>(1,332)</u>
Total recognized in net periodic benefit cost and unrestricted net assets	<u>\$ (87)</u>	<u>(1,883)</u>

The net gain and prior service credit for the defined-benefit postretirement plan that will be amortized from unrestricted net assets into net periodic benefit cost over the next fiscal year are \$(544) and \$(646),

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2015 and 2014

(Dollars in thousands)

respectively. Weighted average assumptions used to determine benefit obligations for 2015 and 2014 were as follows:

	<u>2015</u>	<u>2014</u>
Discount rate	3.75%	3.50%
Rate of compensation increase	—	—
Healthcare cost trend rate	5.00	5.00

Weighted average assumptions used to determine net benefit cost for 2015 and 2014 were as follows:

	<u>Postretirement benefits</u>	
	<u>2015</u>	<u>2014</u>
Discount rate	3.50%	4.00%
Expected long-term rate of return on plan assets	N/A	N/A
Rate of compensation increase	N/A	N/A
Healthcare cost trend rate	5.00	5.00

Wellmont's overall expected long-term rate of return on assets is 7%. The expected long-term rate of return is based on the portfolio as a whole and not on the sum of the returns on individual asset categories. The return is based exclusively on historical returns, without adjustments.

For measurement purposes, a 7.25% annual rate of increase in the per capita cost of covered healthcare benefits was assumed for 2015.

The following table summarizes the effect of one-percentage-point increase/decrease in healthcare costs trends:

	<u>2015</u>	<u>2014</u>
Effect of one-percentage-point increase in healthcare cost trend on:		
Service and interest cost	\$ 5	4
Accumulated pension benefit obligation	143	132
Effect of one-percentage-point decrease in healthcare cost trend on:		
Service and interest cost	\$ (5)	(3)
Accumulated pension benefit obligation	(124)	(116)

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2015 and 2014

(Dollars in thousands)

(15) Self-Insurance Programs

Wellmont is self-insured for professional and general liability and workers' compensation liability. Consulting actuaries have been retained to determine funding requirements and estimate claim liability exposures. Wellmont Insurance Company SPC, Ltd (the captive) was formed in 2014 as a wholly owned captive insurance company in the Cayman Islands. The captive holds Wellmont's self-insurance liabilities for professional and general liability and is funded by transfers from Wellmont Health System. These funds are included in assets limited as to use.

The professional and general liability self-insurance program is supplemented by umbrella excess liability policies consisting of various layers of coverage with commercial carriers based on policy year. The workers' compensation program is supplemented for Tennessee and Virginia by excess workers' compensation policies, with a commercial carrier for statutory limits per occurrence. Provisions based on actuarial estimates are made for the ultimate cost of claims asserted, as well as estimates of claims incurred but not reported as of the respective consolidated balance sheet dates. Workers' compensation expense under these programs amounted to approximately \$4,612 and \$3,695 for the years ended June 30, 2015 and 2014, respectively, and are included in salaries and benefits expense in the accompanying consolidated statements of operations and changes in net assets. All other self-insurance expense under these programs amounted to approximately \$1,568 and \$5,707 for the years ended June 30, 2015 and 2014, respectively, and are included in other expense in the accompanying consolidated statements of operations and changes in net assets.

At June 30, 2015 and 2014, Wellmont was involved in litigation relating to medical malpractice, workers' compensation and other claims arising in the ordinary course of business. There are also known incidents that occurred through June 30, 2015 that may result in the assertion of additional claims, and other claims may be asserted arising from services provided to patients in the past. Claims have been filed requesting damages in excess of the amount accrued for estimated malpractice costs. Management of Wellmont is of the opinion that estimated professional and general liability amounts accrued at June 30, 2015 are adequate to provide for potential losses resulting from pending or potential litigation. Amounts of claim settlements may be more or less than what has been provided for by management. The ultimate settlement of claims could be different from recorded accruals, with such differences being potentially significant.

Wellmont is also self-insured for medical and other healthcare benefits provided to its employees and their families. A provision for estimated incurred but not reported claims has been provided in the consolidated financial statements.

(16) Commitments and Contingencies

Construction in progress at June 30, 2015 and 2014 relates primarily to the completion of certain buildings and renovations. Total costs to complete these and other projects were approximately \$5,191 at June 30, 2015. Wellmont has entered into contracts of \$5,191 related to these projects.

Wellmont leases certain equipment and office space under operating lease agreements. Total rental expense under cancelable and noncancelable agreements was \$15,453 and \$15,506 for the years ended June 30, 2015

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2015 and 2014

(Dollars in thousands)

and 2014, respectively. Minimum future lease payments under noncancelable operating leases with initial or remaining lease terms in excess of one year as of June 30, 2015 are as follows:

2016	\$	10,018
2017		8,046
2018		6,692
2019		5,908
2020		5,062
Thereafter		<u>13,822</u>
	\$	<u><u>49,548</u></u>

Wellmont has entered into contractual employment relationships with physicians to provide services to Wellmont physician practices that are intended to qualify under the employee safe harbor of the Anti-Kickback Statute and the employee exception of the Physician Self-Referral Law. These contracts have terms of varying lengths, guarantee certain base payments, and may provide for additional incentives based upon productivity.

The healthcare industry is subject to numerous laws and regulations of federal, state, and local governments. These laws and regulations include, but are not necessarily limited to, such matters as licensure, accreditation, government healthcare program participation requirements, reimbursement for patient services, and Medicare fraud and abuse. Recently, government activity has increased with respect to investigations and allegations concerning possible violations of fraud and abuse statutes and regulations by healthcare providers. Violations of these laws and regulations could result in expulsion from government healthcare programs together with the imposition of significant fines and penalties, as well as significant repayments for patient services previously billed. Management believes Wellmont is in compliance with fraud and abuse statutes and other applicable government laws and regulations. Compliance with such laws and regulations can be subject to future government review and interpretation, as well as regulatory actions unknown or unasserted at this time.

(17) Functional Expense Disclosure

Wellmont provides healthcare services to residents within its geographic location. Expenses based upon functional classification related to providing these services during the years ended June 30 are as follows:

	<u>2015</u>	<u>2014</u>
Professional care of patients	\$ 652,458	643,618
Administrative and general	152,549	123,191
Fund-raising	1,028	1,054
	<u>\$ 806,035</u>	<u>767,863</u>

(18) Income Taxes

Wellmont, Inc. and its subsidiaries file consolidated federal and separate-company state income tax returns. These companies have combined net operating loss carryforwards for federal income tax purposes of approximately \$111,000 at June 30, 2015, which begin expiring in fiscal 2019 and expire through 2033. These net operating losses can be used to offset future consolidated taxable income of Wellmont, Inc. and subsidiaries. Wellmont participates in certain activities that generate unrelated business taxable income. These activities have generated net operating losses in prior years, and Wellmont files a Form 990-T with the Internal Revenue Service to report such activity. Wellmont has net operating loss carryforwards for federal income tax purposes of approximately \$1,860 for unrelated business activities. Management believes that it is more likely than not that deferred tax assets arising from net operating loss carryforwards will not be realizable. Accordingly, these are fully reserved at June 30, 2015 and 2014.

(19) Concentration of Credit Risk

Wellmont grants credit without collateral to its patients, most of whom are local residents and are insured under third-party payor agreements. The mix of receivables from patients and third-party payors at June 30, 2015 and 2014 was as follows:

	<u>2015</u>	<u>2014</u>
Medicare	43%	48%
TennCare/Medicaid	12	13
Other third-party payors	32	31
Patients	13	8
	<u>100%</u>	<u>100%</u>

(20) Disclosures about Fair Value of Financial Instruments

The fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer or settle a liability in an orderly transaction between market participants at the measurement date. ASC Topic 820, *Fair Value Measurements*, establishes a three-level fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to measurements involving significant unobservable inputs (Level 3 measurements). The classification of an investment within the hierarchy is based upon the pricing transparency or ability to redeem the investment and does not necessarily correspond to the perceived risk of that investment. Inputs are used in applying various valuation techniques that are assumptions, which market participants use to make valuation decisions, including assumptions about risk. Inputs may include price information, volatility statistics, operating statistics, specific and broad credit data, liquidity statistics, recent transactions, earnings forecasts, future cash flows, market multiples, discount rates, and other factors. ASC Topic 820 permits, as a practical expedient, for the estimation of the fair value of investment in investment companies for which the investment does not have a readily determinable fair value using net asset value per share or its equivalent. Net asset value in many instance may not equal fair value that would be calculated pursuant to ASC Topic 820. In accordance with ASC Topic 820, investments measured using net asset value as a

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

(Dollars in thousands)

practical expedient are not categorized within the fair value hierarchy, however, the amount measured is included to permit reconciliation of the fair value of investments included in the fair value hierarchy to the line items presented in the consolidated statement of operations and changes in net assets.

Assets and liabilities measured and reported at fair value are classified within the fair value hierarchy as follows:

Level 1 – Valuations based on quoted market prices in active markets.

Level 2 – Investments that trade in markets that are considered to be active, but are based on dealer quotations or alternative pricing sources supported by observable inputs or investments that trade in markets that are not considered to be active, but are valued based on quoted market prices, dealer quotations, or alternative pricing sources supported by observable inputs.

Level 3 – Investments classified within Level 3 have significant unobservable inputs, as they trade infrequently or not at all.

The level in the fair value hierarchy within which a fair measurement in its entirety falls is based on the lowest-level input that is significant to the fair value measurement in its entirety.

The following methods and assumptions were used to estimate fair value of each class of instruments:

- *Cash and Cash Equivalents*
The carrying amount approximates fair value due to the short maturities of these instruments.
- *Patient Accounts and Other Receivables*
The net recorded carrying value approximates fair value due to the short maturities of these instruments.
- *Investments and Assets Limited as to Use*
The fair values of investments and assets limited as to use are based on quoted market prices and quotes obtained from security brokers or, in the case of the limited partnerships, by the general partner.

WELLMONT HEALTH SYSTEM AND AFFILIATES

Notes to Consolidated Financial Statements

June 30, 2015 and 2014

(Dollars in thousands)

Alternative investments are not categorized within the fair value hierarchy because fair value is measured using the net asset (NAV) per share practical expedient. Wellmont's alternative investments' prices are obtained from the fund manager. For Wellmont's fund of funds, the manager receives account statements directly from independent administrators or the underlying hedge fund managers, who are responsible for the pricing of these funds. Before reliance on these valuations, the managers evaluate the investee fund's fair value estimation processes and control environment, the investee fund's policies and procedures for estimating fair value of underlying investments, the investee fund's use of independent third party valuation experts, the portion of the underlying securities traded on active markets, and the professional reputation and standing of the investee fund's auditor.

- *Accounts Payable and Accrued Expenses*

The carrying amount approximates fair value due to the short maturities of these liabilities.

- *Estimated Third-Party Payor Settlements, Other Long-Term Liabilities*

The carrying amount approximates fair market value due to the nature of these liabilities.

- *Long-Term Debt*

The carrying amount of indebtedness with variable interest rates approximates its fair value because the variable rates reflect current market rates for indebtedness with similar maturities and credit quality. The fair value of indebtedness with fixed interest rates is based on rates assumed to be currently available for indebtedness with similar terms and average maturities. Fair value measurements of indebtedness are based on observable interest rates and maturity schedules that fall within Level 2 of the hierarchy of fair value inputs. The estimated fair value of revenue bonds, using current market rates, was estimated at \$455,650 and \$444,106 for the years ended June 30, 2015 and 2014, respectively. The carrying amount of other long-term debt reported in note 12 and on the consolidated balance sheet approximates the related fair value.

(21) Subsequent Events

On July 1, 2014, Wellmont sold its 60% interest in Takoma Regional Hospital to Adventist Health System (which also owned the other 40%). Cash in the amount of \$11,700 was received prior to July 1, 2014 and is included in current liabilities as of June 30, 2014. Subsequently, during 2015, Adventist Health System and Wellmont have agreed in principle that Wellmont will repurchase Takoma in fiscal year 2016. Wellmont has evaluated subsequent events from the balance sheet date through October 27, 2015 the date at which the consolidated financial statements were issued. No other material subsequent events were identified for recognition or disclosure.

Virginia Small Business Fin Auth (Wellmont Health System)

<i>Long Term Rating</i>	BBB+/Stable	Outlook Revised
-------------------------	-------------	-----------------

Many issues are enhanced by bond insurance.

Rationale

Standard & Poor's Ratings Services revised its rating outlook to stable from negative on bonds issued for Wellmont Health System, Tenn. by various issuers. At the same time, Standard & Poor's rating services affirmed its 'BBB+' long-term rating and 'BBB+' underlying ratings (SPUR) on the bonds.

The outlook revision reflects better-than-expected operating performance through the fiscal year ended June 30 (unaudited); the initial implementation of various expense and revenue cycle improvements expected to support improved performance on an ongoing basis; and the culmination of Wellmont's look-back into the previous management's historical accounting practices, which ultimately led to the restatement of fiscal 2007 audited results and a long delay in the release of the system's fiscal 2008 audit.

Wellmont's former CEO and its chief financial officer (CFO) left the organization in July 2008 and December 2008, respectively. After serving in an interim capacity since July 2008, Wellmont named Mike Snow permanent CEO in March 2009. Wellmont is currently operating with an experienced interim CFO while conducting the search for a permanent CFO.

The affirmed 'BBB+' rating reflects Wellmont's:

- Improving financial metrics, including positive (unaudited) fiscal 2009 operating income of \$6.5 million (a 0.9% margin), which compared with operating losses in the previous two years;
- Acceptable 2.1x maximum annual debt services (MADS) coverage (or 1.8x on an operating lease adjusted basis), which remained consistent with prior years, despite the significant decline of investment income and other nonoperating revenues in fiscal 2009;
- A stabilized, although still constrained, balance sheet due to Wellmont's acquisition activity over the past five years. Current balance sheet metrics are characterized by 131 days' cash on hand, a moderately high 58% long-term debt to total capitalization, and unrestricted cash to long-term debt of 54%; and
- The system's solid business position characterized by good market share in a demographically favorable region that is largely dominated by two health care systems that have recently become more collaborative.

Further supporting the rating are revenue cycle, staffing, expense, and other identified operating improvements that generated \$7 million of incremental operating income for fiscal 2009 and are budgeted to produce about \$15 million in improvements for fiscal 2010.

Offsetting factors include current uncertainty related to Wellmont's direct-pay letter of credit (LOC) agreement with Bank of America N.A. (BofA). Wellmont is currently out of compliance with its debt-to-capitalization covenant related to the BofA reimbursement agreement. Wellmont had been operating under a forbearance agreement with BofA and management is in discussions with the bank over debt covenants and the extension of a \$64 million direct-pay LOC related to Wellmont's series 2005 bonds. The LOC expires in December 2010. Management expects to reach a successful extension with BofA, but should an agreement not be reached, the level of puttable debt relative to unrestricted cash is manageable at 26%. Other potentially negative credit factors include the ultimate outcome of health care reform, which may result in a significant reduction in reimbursement to system hospitals, a decrease in current-year inpatient and surgical volumes relative to fiscal 2008 at Wellmont's two newest hospitals, Lee Regional and Mountain View Regional, which represent approximately 7% of Wellmont's net revenue, and additional competitive pressure facing Wellmont's Bristol Regional Medical Center, from a competitor's replacement hospital that is under construction in Abingdon, Va.

In connection with its year-end 2008 audit, Wellmont changed its outside auditing firm to KPMG. KPMG and the audit committee of Wellmont's board identified a number of accounting entries that it believed warranted further review and possible reclassification. That process resulted in a protracted delay in the release of 2008 audited results and the restatement of audited results for fiscal 2007.

Restated results

Although Wellmont's fiscal 2006 results were not restated, accounting errors related to 2006 were recorded as a negative \$15.1 million adjustment to beginning fiscal 2007 net assets. Had 2006 results been restated, reported operating income would have been revised to \$2.8 million. Fiscal 2007 restated results reflected a decrease in operating income to a negative \$6.5 million, as per Standard & Poor's calculation, which treated the \$8.5 million gain on sale of Wellmont's home-care affiliate as a nonoperating item. Management originally reported fiscal 2007 operating income as \$9.2 million, excluding the \$8.5 million gain. The accounting restatements related to numerous accounting entries including the reconciliation of cash, accounts receivable, third-party payor settlement liabilities, prepaid expenses, goodwill amortization, the capitalization and depreciation of buildings and equipment, accounts payable and accruals, as well as other assets and liabilities. There was no fraud or personal gain associated with any of the restatements.

A gross revenue pledge of the obligated group, and a mortgage on Wellmont's two largest hospitals, and the Lee Regional and Mountain View hospitals secure the bonds. The obligated group includes the parent, Hawkins County Memorial Hospital (a leased facility), a for-profit subsidiary, and the system's fundraising arm. Six of the system hospitals are included by virtue of operating as unincorporated divisions of the parent: Holston Valley Medical Center, Bristol Regional Medical Center, Lonesome Pine Hospital, and the three hospitals recently acquired. All of the systems entities are included in the analysis and all numbers cited in this report.

As of June 30, 2009, Wellmont had \$454.3 million of bonded debt. Based upon the increased counterparty risk associated with Lehman bankruptcy, Standard & Poor's revised its Debt Derivative Profile (DDP) on Wellmont to an overall score of '3' on a scale of '1' to '4' with '1' representing the lowest risk and '4' the highest. The overall score of '3' reflects Standard & Poor's view that the risks associated with Wellmont's derivatives portfolio are

moderate at this time.

As of June 30, Wellmont's swap liability was \$10.2 million; however, there was no required posted collateral. There have been no changes to Wellmont's swap portfolio since our last published report in January 2009.

Outlook

The return to a stable outlook reflects our increased comfort that Wellmont has identified and corrected the accounting issues that led to the restated 2007 results and the 2008 audit delay. Additionally, while current economic conditions, and the uncertainty whether limits on future Medicare, TennCare, and Virginia Medicaid reimbursement may constrain operations, we believe that management initiatives to reduce costs and improve Wellmont's revenue cycle will support a generally improving operating trend. In addition, as market conditions improve, Wellmont's liquidity metrics and cash flow coverage will improve. While we remain concerned about the system's balance sheet, particularly leverage, Wellmont's future capital spending plans are modest, as \$45 million remains in the 2006C Project Fund, and management has no current plans to issue additional long-term debt. Should the balance sheet or operations unexpectedly weaken, a downgrade or the return to a negative outlook would be likely. By contrast, significant improvement to the balance sheet over time would be cause for a positive outlook revision and possibly an upgrade.

System And Market Profile

Wellmont Health System, created in 1996 with the merger of Bristol Regional Medical Center and Holston Valley Medical Center, began a series of acquisitions that significantly expanded its geographic footprint. In 1997, the system added Lonesome Pine Hospital, a 60-bed facility in Big Stone Gap, Va. In 2000, the 50-bed Hawkins County Memorial Hospital, located in Rogersville, Tenn., joined the system. In 2005, Wellmont opened Hancock county Hospital a 10-bed, critical-access hospital. In 2007, Wellmont acquired Lee Regional Medical Center, an 80-bed facility, and Mountain View Regional Medical Center, a 133-bed facility. Both hospitals are located in relatively rural areas of southwest Virginia.

Also in 2007, Wellmont acquired a 60% interest in Takoma Regional Hospital from Adventist Health System Sunbelt ('A+'). The 108-bed hospital is located in Greene County, Tenn., southwest of Wellmont's core markets. Although Wellmont acquired a 60% equity stake, Adventist Health System Sunbelt is the manager of the facility so it is not consolidated but is accounted for as an equity investment.

On April 30, 2009, Wellmont closed Jenkins Community Hospital and sold the hospital's property plant and equipment for a \$1 million. Jenkins was a 25-bed critical-access hospital in Jenkins, Ky., about an hour and a half north of Kingsport. Jenkins, acquired in 2007, failed to meet management's financial targets -- having lost \$1.1 million from operations in fiscal 2008. The sale of Jenkins resulted in a fiscal 2008 impairment charge of \$6.3 million.

Other key components of the system include a cancer center in Norton Va., an assisted-living and adult day care center; a hospice; a wellness and fitness center; a fundraising foundation; and a number of relatively small for-profit subsidiaries, including a physician-hospital organization, a billing-and-collection service, two retail pharmacies, and a regional laundry.

The system currently consists of eight hospitals with about 1,286 licensed beds serving Tennessee and Virginia markets. Wellmont's primary service area (PSA) encompasses three Tennessee counties and six Virginia counties. The system's two largest hospitals, Bristol Regional Medical Center and Holston Valley Medical Center, are both in Tennessee but are very close to the Virginia border. Portions of Bristol's facility are across the border in Virginia. The Virginia side of the service area is more rural and has a lower population density than the Tennessee side but also less competition. Even though Wellmont has no hospitals located in some of its PSA counties that are in Virginia, the system draws sizable market share from those counties. For example, market share in Scott County, Va. is 68%. In its core county of Sullivan, Tenn., there are three hospitals: Bristol, Holston Valley, and Mountain State's Indian Path Medical Center. Wellmont draws a solid 59% market share in Sullivan County, while Mountain States Health Alliance (MSHA) garners a 36% market share. Overall, market share for the nine PSA counties is solid at 56% and continues to grow. County-by-county market share ranges from 28% to 85%.

Bristol Regional Medical Center was a brand-new hospital in 1994 and is an attractive facility with a sizable campus and a broad range of services. Holston Valley Medical Center is the core tertiary provider in the primary service area, with a very active cardiac program, a level-one trauma center, a neonatal program, and other programs typical of a tertiary center. Both hospitals should benefit from the "Project Platinum" expansion and renovation plans funded with series 2006C bond proceeds.

Although MSHA and Wellmont have historically been fiercely competitive, both have benefitted from regional population growth. With the change in leadership at Wellmont over the past year, there appears to be a desire for a more collaborative working relationship between the two systems.

Finances: Improved Financial Metrics

For the fiscal year ended June 30, 2009 (unaudited), Wellmont generated operating income of \$6.5 million (a 0.87% margin) on \$739 million of total net revenues. Operating results reflect an \$11.1 million positive swing from fiscal 2008, although 2008 was negatively affected by a \$6.3 million impairment charge related to the April 30, 2009 sale of Jenkins Community Hospital. Net operating income improved from Wellmont's implementation of revenue and expense cycle initiatives, which generated \$7.5 million of incremental income for fiscal 2009, and are expected to produce \$15 million of operational improvements in 2010. Wellmont's 2010 budgeted operating income is \$19.8 million.

Acute discharges were up slightly to 42,558 relative to fiscal 2008 inpatient volumes of 42,401. Combined inpatient and outpatient surgery volumes grew by 3.9% to 25,128. Emergency department visits declined 2% to 222,560 from 227,181 in 2008.

Wellmont's excess revenues, as per Standard & Poor's calculations, were \$10.3 million, which included \$8.4 million of realized investment income offset by discontinued operations and other nonoperating expenses. While positive, investment income was well short of budget and substantially below 2008 when Wellmont's investments generated realized income of \$31.6 million. Unrealized investment losses in fiscal 2009 were \$65 million. Wellmont also had a \$5.7 million unrealized loss on its swaps at year-end. Both unrealized investment and swap losses are treated as below the line for purposes of Standard & Poor's analysis.

Cash flow remains acceptable as evidenced by a 9% EBIDA margin, generating 2.2x coverage of Wellmont's \$30.6 million maximum debt service. Historically operating leases have been relatively modest in amount. However, as

Wellmont monetizes its medical office buildings, operating leases have become more material to its overall financial profile. Adjusted for the growing operating lease expense, MADS coverage is diluted by 0.42x to 1.8x .

Wellmont's balance sheet remains acceptable, although due to the decline in capitalization over the past couple of years, leverage metrics are now at a level where the system has very limited flexibility to issue more debt without a rating implication. However, there are currently no plans to issue new debt, and Wellmont has \$37 million of unspent series 2006C bond proceeds. which is adequate to complete its "Project Platinum," which includes a new surgical suite, intensive care unit, and emergency department projects that are currently underway at Holston Valley Medical Center.

Unrestricted cash and investments totaled \$248.8 million at year-end, equal to 131 days' cash on hand, and 54% of long-term debt. Cash was flat relative to last year. Wellmont's long-term debt to capitalization increased to 58%, from 54% in 2008, although the increase was strictly a function of a smaller denominator. Other than information-technology-related capital spending, Wellmont has limited capital spending plans that should support the continued growth of unrestricted cash and investments. The system's 2010 budget reflects an 18-day increase in day's cash on hand to 149 days, and 62% cash to debt.

About 85% of the system's cash and investment assets are liquid with maturities of less than one year. Less than 10% (\$23.2 million) are invested in real assets and private equity. Wellmont has a moderate level of future private equity capital funding commitments equal to \$15 million.

Debt Derivative Profile: '3.0'

Wellmont's overall DDP score has been revised to '3.0' on a scale of '1' to '4', whereby '1' represents the lowest risk and '4' is the highest. The overall score of '3.0' reflects Standard & Poor's view that Wellmont's swap exposure represents a moderate credit risk at this time.

The overall score of '3.0' includes the following factors:

- Above-average collateral posting risk due to the requirement that Wellmont post collateral when its rating falls to 'BBB-' or lower, a somewhat narrow spread for a 'BBB+' credit (there are no termination-rating triggers);
- High counterparty risk, based on the credit quality of the counterparty, Lehman Brothers Special Financing, guaranteed by Lehman Brothers Holdings (not rated), which filed for bankruptcy in September 2008;
- Low economic viability risk based on projected performance under stressful economic scenarios; and
- Strong management practices, including a written swap policy, thorough audit disclosure, frequent communication of swap performance to the board, and the use of independent financial advisors to assist in evaluating swap strategies and performance.

Wellmont has four swaps in place, all of which are with Lehman Brothers Special Financing. The swaps include a \$66.3 million notional basis swap that matures in 2032, under which Wellmont pays the Securities Industry and Financial Markets Municipal Assn. (SIFMA) swap index rate and receives 73.8% of LIBOR. In 2006, Wellmont executed a total return swap related to its series 2006A bonds, which it placed were privately. Under the total return structure, Wellmont synthetically converted its cost on the bonds to the SIFMA index rate plus 85 basis points from the index rate. The remaining two swaps synthetically fix \$99.3 million of variable-rate debt. They are traditional floating- to fixed-rate swaps using one-month LIBOR as the receive index. Variable-rate debt is 30.9% of the total,

but inclusive of the effects of the swaps, Wellmont's current net variable-rate exposure is 9.1%.

Long Term Rating

BBB+/Stable

Affirmed

Rationale

Standard & Poor's Ratings Services affirmed its 'BBB+' long-term rating and underlying rating (SPUR) on bonds issued for Wellmont Health System, Tenn. by various issuers. The outlook is stable.

The rating affirmations and stable outlook reflect improved operating and financial metrics following management's implementation last year of various expense and revenue cycle improvements, which it expects to support Wellmont's improved performance on an ongoing basis.

More specifically the ratings reflect Wellmont's:

- Stronger financial metrics, including positive fiscal 2009 operating income of \$6.5 million (a 0.88% margin) and six-month year-to-date operating income of \$15.2 million as of Dec. 31;
- Acceptable 2.1x fiscal year-end maximum annual debt service (MADS) coverage (or 1.7x on an operating lease-adjusted basis), which remained consistent with prior years, despite the significant decline of investment income and other nonoperating revenues in fiscal 2009;
- Stabilized, although still constrained, balance sheet due to its acquisition activity over the past five years. Current (Dec. 31) balance sheet metrics are characterized by 146 days' cash on hand, a moderately high 56% long-term debt to total capitalization, and unrestricted cash to long-term debt of 55%; and
- Solid business position characterized by good market share in a demographically favorable region that is largely dominated by two health care systems.

Further supporting the ratings are revenue cycle, staffing, expense, and other operating improvements that generated \$7.5 million of incremental operating income for fiscal 2009 and are expected to produce about \$15 million in improvements for fiscal 2010. Additionally, accounting issues leading to the delayed release of the system's fiscal 2008 audit and the restatement of fiscal 2007 results have been resolved.

Wellmont recently hired a permanent CFO, Beth Ward, who was formerly CFO of Moses Cone Health System in Greensboro N.C. Also, Mike Snow, Wellmont's CEO, announced his resignation effective March 1, 2010. Bob Burgin, who serves on Wellmont's board and who had previously retired as Mission Health's (Asheville, N.C.) president and CEO in 2004, will take over as interim CEO for Wellmont while a search is conducted for his permanent replacement. During his tenure as interim CEO, Mr. Burgin has taken a leave of absence from Wellmont's board.

As of June 30, 2009, Wellmont had \$452.2 million of bonded debt. A gross revenue pledge of the obligated group and a mortgage on Wellmont's two largest hospitals, Lee Regional Hospital, and Mountain View Hospital secure the bonds. The obligated group includes the parent, Hawkins County Memorial Hospital (a leased facility), a for-profit subsidiary, and the system's fundraising arm. Six of the system hospitals are included by virtue of operating as unincorporated divisions of the parent: Holston Valley Medical Center, Bristol Regional Medical Center, Lonesome Pine Hospital, and three recently acquired hospitals. All of the system's entities are included for the purpose of our calculations in this report.

Wellmont's direct-pay letter of credit agreement with Bank of America N.A. (BoFA) expires in December 2010. Management expects to reach a successful extension with BoFA, but should an agreement not be reached, the level of puttable debt relative to unrestricted cash is manageable at about 26%. The system is currently in compliance with its bank and bond covenants.

Wellmont's overall Debt Derivative Profile (DDP) score is '3' on a scale of '1' to '4', with '1' representing the lowest risk. The overall score of '3' reflects Standard & Poor's view that the risks associated with Wellmont's derivatives portfolio are moderate at this time due to risks associated with the Lehman bankruptcy. As of Dec. 31, Wellmont's swap liability was \$7.7 million. There is no required collateral posting at this time. Additionally there have been no changes to Wellmont's swap portfolio since our last published report on Aug, 24, 2009.

Outlook

The stable outlook reflects our increased comfort that Wellmont has corrected the accounting issues that led to the restated fiscal 2007 results and the fiscal 2008 audit delay. Additionally, while reimbursement, competitive issues, or other factors may constrain Wellmont's operations in the future, we believe that management's initiatives to reduce costs and improve the revenue cycle will support a generally improving operating trend over the outlook period. In addition, we believe that as market conditions continue to improve, Wellmont's liquidity metrics and cash flow coverage will likewise improve. While we remain focused on certain credit weaknesses, including leverage, we understand that Wellmont's future capital spending plans are modest and management has no current plans to issue additional long-term debt. Should the balance sheet or operations unexpectedly weaken, a downgrade or the return to a negative outlook would be likely. By contrast, significant improvement to the balance sheet over time would be cause for a positive outlook revision and possibly an upgrade.

Finances

For the fiscal year ended June 30, 2009, Wellmont generated operating income of \$6.5 million (a 0.88% margin) on \$737 million of total net revenues. Operating results reflect an \$11.1 million positive swing from fiscal 2008, although 2008 was negatively affected by a \$6.3 million impairment charge related to the April 30, 2009, sale of Jenkins Community Hospital. Net operating income improved from Wellmont's implementation of revenue and expense cycle initiatives, which generated \$7.5 million of incremental income for fiscal 2009, and are expected to produce \$15 million of operational improvements in fiscal 2010. Wellmont's fiscal 2010 budgeted operating income is \$19.8 million.

Acute discharges rose slightly to 42,558 in fiscal 2009 from 42,401 in fiscal 2008. Combined inpatient and outpatient surgery volumes grew by 3.9% to 25,128. Emergency department visits declined 2% to 222,560 from

227,181 in fiscal 2008.

Wellmont's excess revenues, as per Standard & Poor's calculations, were \$6.1 million, which included \$8.8 million of realized investment income offset by discontinued operations and other nonoperating expenses. While positive, investment income was well short of budget and substantially below fiscal 2008's \$31.6 million. Unrealized investment losses in fiscal 2009 were \$60 million. Wellmont also had a \$5.7 million unrealized loss on its swaps at year-end. Both unrealized investment and swap losses are treated as below the line for purposes of Standard & Poor's analysis.

Cash flow remains acceptable as evidenced by a 9% EBIDA margin, generating 2.1x coverage of Wellmont's \$30.6 million MADS. Historically operating leases have been relatively modest in amount. However, as Wellmont monetizes its medical office buildings, operating leases have become more material to its overall financial profile. Adjusted for the growing operating lease expense, MADS coverage is diluted to 1.7x.

Wellmont's balance sheet remains acceptable, although due to the decline in capitalization over the past couple of years, leverage metrics are now at a level where the system has very limited flexibility to issue more debt without a rating implication. Wellmont recently completed its "Project Platinum," which includes a new surgical suite, intensive care unit, and emergency department project at Holston Valley Medical Center. We understand that management currently no plans to issue new debt.

Unrestricted cash and investments totaled \$250.3 million at year-end, equal to 133 days' cash on hand and 50% of long-term debt. Cash was flat relative to last year. Wellmont's long-term debt to capitalization rose to 60% from 55% in 2008, although the increase was strictly a function of a smaller denominator. Other than information-technology-related capital spending, Wellmont has limited capital spending plans that should support the continued growth of unrestricted cash and investments.

About 85% of the system's cash and investment assets are liquid with maturities of less than one year. Less than 10% (\$23.2 million) are invested in real assets and private equity. Wellmont has a moderate level of future private equity capital funding commitments equal to \$15 million.

Interim Financial Metrics

Through the first six months ended Dec. 31, 2009, Wellmont generated \$15.2 million of operating income (a 4.1% margin) on \$374.4 million of total operating revenues. Operations compared favorably with Wellmont's \$5.2 million loss for the first six months of last year. Excess income was \$19.8 million (a 5.2% margin) compared with an excess loss of \$627,000 in 2009, as per Standard & Poor's calculations, which treat unrealized derivative valuation adjustments as below the line items. Same-facility patient volumes were flat relative to the prior year. Management attributes improved fiscal 2010 operating performance to revenue and expense cycle initiatives implemented in late fiscal 2009.

Unrestricted cash and investments grew to \$270 million by Dec. 31, equal to 146 days of operating expenses and 55% of Wellmont's total debt outstanding. The system's debt to capitalization improved to 56%. All figures are based on Standard & Poor's calculations.

Debt Derivative Profile: '3'

Wellmont's overall DDP score has been revised to '3' on a scale of '1' to '4', whereby '1' represents the lowest risk. The overall score of '3' reflects Standard & Poor's view that Wellmont's swap exposure represents a moderate credit risk at this time.

The overall score of '3.0' includes the following factors:

- Above-average collateral posting risk due to the requirement that Wellmont post collateral when its rating falls to 'BBB-' or lower, a somewhat narrow spread for a 'BBB+' credit (there are no termination-rating triggers);
- High counterparty risk, based on the credit quality of the counterparty, Lehman Brothers Special Financing, guaranteed by Lehman Brothers Holdings (not rated), which filed for bankruptcy in September 2008;
- Low economic viability risk based on projected performance under stressful economic scenarios; and
- Strong management practices, including a written swap policy, thorough audit disclosure, regular communication of swap performance to the board and investors, and the use of independent financial advisors to assist in evaluating swap strategies and performance.

Wellmont has four swaps in place, all of which are with Lehman Brothers Special Financing. At Dec. 31 the swaps had a combined marked to market value of negative \$7.7 million. At that level of swap liability, no collateral posting is required. Variable-rate debt is about 31% of the total, but inclusive of the effects of the swaps, Wellmont's current net variable-rate exposure is about 9.0%.

Rationale

Standard & Poor's Ratings Services assigned its 'BBB+' long-term rating to Sullivan County Health, Educational, and Housing Facilities Board, Tenn.'s \$76.2 million series 2011 fixed-rate refunding bonds issued for Wellmont Health System. At the same time, Standard & Poor's affirmed its 'BBB+' long-term rating and underlying rating (SPUR) on Wellmont's other rated bonds from various issuers. Standard & Poor's expects to assign an 'A-1+' short-term rating to Wellmont's series 2005 bonds based on the support of JP Morgan Chase Bank N.A. (AA-/A-1+), the replacement letter of credit provider. The outlook is stable.

The series 2011 bonds will fully refund Wellmont's series 2006A variable-rate obligations outstanding (not rated) with fixed-rate debt of the same maturity. For the series 2005 variable-rate demand bonds (not rated), Wellmont plans to obtain a replacement direct-pay letter of credit from JP Morgan Chase. The letter of credit is currently provided by Bank of America.

The ratings and stable outlook reflect our view of improved operating and financial metrics following management's implementation in 2009 of various expense and revenue cycle initiatives, which it expects to support Wellmont's improved performance on a sustained basis.

More specifically, the ratings reflect our opinion of Wellmont's:

- Solid financial metrics, including positive fiscal 2010 operating income of \$22.8 million (a 3.2% margin) and six-month year-to-date operating income of \$4.4 million as of December 31;
- Acceptable 2.8x fiscal year-end maximum annual debt service (MADS) coverage (or 2.1x on an operating lease-adjusted basis), which improved from prior years;
- Improved, although still constrained balance sheet due to its acquisition activity over the past several years. As of December 31, Wellmont had 193 days' cash on hand, moderately high 53% long-term debt to total capitalization, and unrestricted cash to long-term debt of 80%; and
- Solid business position characterized by good market share in a demographically favorable region that is largely dominated by two health care systems.

Further supporting the ratings is our view of revenue cycle, staffing, expense, and other operating improvements that

helped Wellmont generate net operating income of \$7.0 million in fiscal 2009 (a \$4.7 million improvement over fiscal 2008) and an operating profit of \$22.8 million in fiscal 2010. In addition, the system's major acquisition activities are completed, which will likely allow Wellmont to continue to build balance sheet strength.

In June 2010, Wellmont named Margaret "Denny" DeNarvaez president and CEO of the health system. She assumed the role in August 2010 from Bob Burgin, who served as Wellmont's interim CEO following the resignation of Mike Snow in March. Ms. DeNarvaez joined Wellmont from St. John's Mercy Healthcare in St. Louis, where she served as its CEO.

As of June 30, 2010, Wellmont had \$447 million of bonded debt. Gross revenues of the obligated group and a mortgage on Wellmont's two largest hospitals, Bristol Regional Medical Center and Holston Valley Medical Center, as well as two of its community hospitals, Lee Regional Medical Center and Mountain View Regional Medical Center, secure the bonds. The obligated group includes the parent, Hawkins County Memorial Hospital (a leased facility), a for-profit subsidiary, and the system's fundraising arm. Six of the system's hospitals are included by virtue of operating as unincorporated divisions of the parent: Holston Valley Medical Center, Bristol Regional Medical Center, Lonesome Pine Hospital, Hancock County Hospital, Lee Regional Medical Center, and Mountain View Regional Medical Center. All of the system's entities are included for the purpose of our calculations in this report.

Wellmont's direct-pay letter of credit agreement with Bank of America N.A. expires on July 1, 2011. As noted above, management plans to obtain a replacement letter of credit for its series 2005 variable-rate demand bonds from JP Morgan Chase. The level of puttable debt relative to unrestricted cash as of Dec. 31, 2010, is manageable, in our view, at about 16%. The system is currently in compliance with all bank and bond covenants.

Wellmont's overall Debt Derivative Profile (DDP) score is '3' on a scale of '1' to '4', with '1' representing the lowest risk. The overall score of '3' reflects Standard & Poor's view that the risks associated with Wellmont's derivatives portfolio are moderate at this time due to risks associated with the Lehman bankruptcy. As of March 31, 2011, Wellmont's swap liability was \$10.0 million. There is no required collateral posting at this time. In addition, there have been no changes to Wellmont's swap portfolio since our last published report on Feb. 19, 2010.

Outlook

The stable outlook reflects our view of management's initiatives to reduce costs and improve the revenue cycle. While we remain focused on certain credit weaknesses, including leverage, we understand that Wellmont's future capital spending plans are modest and that management has no current plans to issue additional long-term debt. Should the balance sheet or operations unexpectedly weaken, a downgrade or a negative outlook would become more likely. By contrast, significant improvement to the balance sheet over time, provided good operating performance is sustained, could be cause for a positive outlook revision and possibly an upgrade.

Finances

For the fiscal year ended June 30, 2010, Wellmont generated operating income of \$22.8 million (a 3.2% margin) on \$724 million of total net revenues. Operating results reflect a \$15.8 million improvement over fiscal 2009. Net operating income has materially improved over the past two years, principally due to Wellmont's implementation of revenue and expense cycle initiatives. Wellmont's fiscal 2011 budgeted operating income was \$24 million; however, operating results are more likely to be about half that amount, resulting in an operating margin of about 1.5%

(down from more than 3% last year). Wellmont attributes this year's decline mainly to weather-related volume decreases at its Virginia hospitals: due to harsh winter weather conditions, volumes in those hospitals declined by 6% to 10% and patient no-show rates exceeded 50%.

Acute discharges dipped 2.8% to 41,380 in fiscal 2010 from 42,558 in fiscal 2009, although with observation patients included, those patient volumes increased by 0.5% to 50,910 in fiscal 2010. Combined inpatient and outpatient surgery volumes declined by 6.0% to 36,559 while emergency department visits decreased 4.6% to 212,383 from 222,560 in fiscal 2009. According to management, those declines were attributed to economic weakness but also transportation problems due to winter weather conditions in 2010.

For the fiscal year, Wellmont's excess revenues, as per Standard & Poor's calculations, were \$20.8 million, which included \$1.0 million of realized investment income offset by discontinued operations and other nonoperating expenses. While positive, investment income was substantially lower than two previous fiscal years; however, unrealized investment gains in fiscal 2010 were \$22.3 million, compared to more than \$60 million of unrealized losses in 2009. Wellmont also had a \$2.7 million unrealized loss on its swaps at year-end. Both unrealized investment gains and the swap loss are treated as below the line for purposes of Standard & Poor's analysis.

Cash flow remains acceptable, in our view, as evidenced by an 11.7% EBIDA margin, generating 2.8x coverage of Wellmont's \$30.6 million MADS. Operating leases have historically been relatively modest in amount. However, as Wellmont monetizes its medical office buildings, operating leases have become more material to its overall financial profile. Adjusted for the growing operating lease expense, MADS coverage is diluted to 2.1x.

Wellmont's balance sheet remains acceptable, in our opinion, although due to the decline in capitalization over the past few years, leverage metrics are now at a level where the system has very limited flexibility to issue more debt at the current rating level. However, we understand that management has no current plans to issue any additional debt, other than for refunding purposes.

Unrestricted cash and investments totaled \$316 million at year-end, equal to 175 days' cash on hand and 64% of long-term debt, as per Standard & Poor's calculation methodology. Wellmont excludes the less liquid investments from the days' cash calculation, resulting in 156 days' cash at the fiscal year-end, compared with its minimum covenant level of 100 days. Robust cash flow and minimal capital spending needs allowed cash to grow by more than \$65 million relative to last year. Other than modest strategic, information technology, and equipment-related capital spending, Wellmont has limited spending plans that will likely support the continued growth of the system's liquidity.

About 85% of the system's cash and investment assets are liquid with maturities of less than one year. Less than 10% (\$23.5 million) are invested in real assets and private equity. Wellmont has a moderate level of future private equity capital funding commitments equal to \$12 million.

Interim Financial Metrics

Through the six months ended Dec. 31, 2010, Wellmont generated \$4.4 million of operating income (a 1.1% margin) on \$390 million of total operating revenues despite an increase in patient volumes. Operations compared unfavorably with Wellmont's \$15 million in operating revenue for last year principally due to expense increases related to drug costs, higher personnel, and other expenses and interest expense and depreciation associated with the

completion of Project Platinum. Excess income for the six months was \$10.7 million (a 2.7% margin), down from \$19.8 million (a 5.2% margin) for the same period in fiscal 2010.

Unrestricted cash and investments grew to \$383 million by December 31, equal to 193 days of operating expenses and 80% of Wellmont's total debt outstanding. The system's debt to capitalization improved to 53%. All figures are based on Standard & Poor's calculations.

Debt Derivative Profile

Wellmont's overall DDP score has been revised to '3' on a scale of '1' to '4', whereby '1' represents the lowest risk. The overall score of '3' reflects Standard & Poor's view that Wellmont's swap exposure represents a moderate credit risk at this time.

The overall score of '3.0' reflects our view of:

- Above-average collateral posting risk due to the requirement that Wellmont post collateral when its bond rating falls to 'BBB-' or lower, a somewhat narrow spread for a 'BBB+' credit (there are no termination-rating triggers);
- High counterparty risk, based on the credit quality of the counterparty, Lehman Brothers Special Financing, guaranteed by Lehman Brothers Holdings (not rated), which filed for bankruptcy in September 2008;
- Low economic viability risk based on projected performance under stressful economic scenarios; and
- Strong management practices, including a written swap policy, thorough audit disclosure, regular communication of swap performance to the board and investors, and the use of independent financial advisors to assist in evaluating swap strategies and performance.

Wellmont has four swaps in place, all of which are with Lehman Brothers Special Financing. At March 31, 2011, the swaps had a combined mark-to-market value of negative \$10 million. At that level of swap liability, no collateral posting is required. Variable-rate debt is about 34% of the total, but inclusive of the effects of the swaps, Wellmont's current net variable-rate exposure is about 15%

FITCH RATES WELLMONT HEALTH SYSTEM, TN'S 2011 REVS 'BBB+'; OUTLOOK STABLE

Fitch Ratings-New York-02 May 2011: Fitch Ratings assigns a 'BBB+' rating to the expected issuance of approximately \$76 million of Health, Educational and Housing Facilities Board of the County of Sullivan, Tennessee hospital revenue refunding bonds (Wellmont Health System Project), series 2011, issued on behalf of Wellmont Health System (Wellmont).

In addition, Fitch affirms the 'BBB+' rating on the following bonds:

- \$76,595,000 revenue refunding bonds, series 2006A;
- \$200,000,000 hospital revenue bonds, series 2006C;
- \$59,580,000 hospital revenue refunding bonds, series 2005;
- \$36,665,000 hospital revenue refunding bonds, series 2003;
- \$55,000,000 Virginia Small Business Financing Authority hospital revenue bonds, series 2007A.

The Rating Outlook is Stable.

Proceeds from the 2011 fixed rate bonds will be used to refinance the series 2006A bonds. In March 2011, Wellmont put out a tender notice for the 2006A bonds, which was accepted by all outstanding bondholders. The 2006A bonds were variable rate index bonds and redeemable in whole at any time. After issuance, Wellmont's long-term debt will total \$457.4 million, which includes a \$30 million variable-rate, bank qualified loan secured in 2010. After replacing the 2006A variable-rate bonds, Wellmont's debt structure will be comprised of 80% of fixed rate bonds, a relatively conservative debt portfolio. The 2011 bonds will be sold the week of May 4th.

RATING RATIONALE:

- Most of Wellmont's financial and capital metrics are consistent with the rating category.
- Wellmont benefits from a leading inpatient market share of 60% (2009) in its primary service area and a stable market share in its secondary markets.
- Operating margins are expected to be approximately 1.5% over the next few years as a new CEO and new senior management team implement strategic initiatives around quality, information technology, and physician alignment.
- Six month fiscal 2011 interim figures show an operating margin of 1.1%, which supports solid pro forma maximum annual debt service (MADS) coverage of 2.6 times (x).
- With no new debt issuance expected over the next two to three years, Fitch expects Wellmont's elevated leverage indicators to moderate.

KEY RATING DRIVERS

- A new senior management team implements its strategy over the medium term, bringing a measure of stability at the senior management level that has eluded Wellmont over the last few years and has been a credit concern.
- In spite of the strategic investments, Wellmont is able to maintain its current level of operations keeping its financial profile relatively stable.

SECURITY

Bonds are secured by gross receipts and mortgage pledge of the obligated group (OG). A fully funded debt service fund and a liquidity covenant provide additional security. For the fiscal year ended June 30, 2010, the OG accounted for 89.4% of the system's total net assets, 87.6% of its operating revenues and 64.7% of its operating income.

CREDIT SUMMARY

The 'BBB+' rating is supported Wellmont's overall financial profile that is consistent with most rating category medians and its leading inpatient market share in its primary service area (PSA).

Credit concerns include the continued turnover in senior management and a slightly elevated debt burden.

Wellmont finished fiscal 2010 (year end June 2010) with a 3.1% operating margin and pro forma MADS coverage of 2.5x, both solid for the 'BBB' category. Six-month interim results show an operating margin of 1.1% and MADS coverage of 2.6x. The lower operating margin is more in line with where Fitch expects Wellmont's operations to be over the next few years, given softer volumes and expenses related to strategic initiatives of the new management team. The former management team was more focused on expense management and efficiency, which contributed to the higher operating margin in fiscal 2010.

Senior management turnover at Wellmont has been a credit concern over the past few years; the new CEO has been in place nine months and has added new members to the management team. A key rating driver for Wellmont is maintaining stability at the senior management level, especially as the management team pursues critical strategic initiatives around quality, information technology, and physician alignment.

Liquidity is good for the rating category. As of Dec. 31, 2010, Wellmont had cash and unrestricted investments of \$315.5 million (adjusted for \$14 million line of credit), which equated to days cash on hand (DCOH) of 167.4, a cushion ratio of 9.2x, and cash to debt of 69.2%. DCOH and the cushion ratio were above their respective category medians, while cash to debt was below. In January 2011, Wellmont paid down \$7 million of the line of credit.

Wellmont's debt burden remains elevated for the rating level, as represented by MADS as a percentage of revenue of 4.4%, Debt-to-EBITDA of 5.1x, and debt to capitalization of 56.6% as of Dec. 31, 2010, all of which are above the category medians. Mitigating this concern is the expectation that Wellmont will be issuing no new debt over the next two to three years, which should help ease some of these ratios.

The Stable Outlook reflects Fitch's belief that Wellmont will maintain its current level of operating performance, which should continue to support solid debt service coverage. The service area remains fairly competitive with Mountain States Health Alliance (general revenue bonds rated 'BBB+' by Fitch) a formidable competitor. However, the competitive pressures have subsided in the past few years, and Wellmont's leading 60% market share in its PSA has been stable. Capital expenditures over the next two to three years are expected to be reasonable at approximately \$45 to \$50 million per year (representing just over 100% of depreciation). The biggest short-term outlay will be \$14 million for information technology. Wellmont expects to be ready for meaningful use within the next 18 months.

Wellmont has four swaps in place. Lehman is the counterparty for all the swaps and there are no collateral posting requirements at the current rating level. The aggregate mark to market as of March 31, 2011 was a negative \$10 million.

Wellmont Health System (WHS) is a large regional health care system with eight acute hospitals (856 staffed beds) and other related entities located in northeastern TN and southwestern VA. Wellmont had approximately \$724.4 million in total revenue in fiscal 2010. WHS covenants to provide audited financial statements to the Municipal Securities Rulemaking Board's Electronic Municipal Market Access system (EMMA), as well as quarterly unaudited statements.

Long Term Rating

BBB+/Stable

Affirmed

Rationale

Standard & Poor's Ratings Services affirmed its 'BBB+' long-term rating and underlying rating (SPUR) on \$360.4 million in bonds, including series 2003, 2006C, 2007A, and 2011, issued for Wellmont Health System, Tenn. by various issuing authorities. The outlook is stable.

In addition, Standard & Poor's 'AA-/A-1+' long-term and short-term ratings on Wellmont's \$54.8 million series 2005 variable-rate demand obligations are based solely on the support of JP Morgan Chase Bank N.A. (AA-/A-1+), the letter of credit provider.

The affirmed ratings and stable outlook reflect our view of Wellmont's improving operating and financial metrics as well as its stable enterprise profile. We believe that Wellmont is well positioned for operational success with respect to its markets, competition, and changing reimbursement environment.

More specifically, the ratings reflect our opinion of Wellmont's:

- Solid financial metrics, including positive fiscal 2012 unaudited operating income of \$20.7 million (a 2.6% margin), as per Standard & Poor's calculations;
- Acceptable 3.0x fiscal year end maximum annual debt service (MADS) coverage, which continues to improve from prior years;
- Improved balance sheet highlighted by the system's 192 days' cash on hand, moderately elevated 50% long-term debt to total capitalization, and unrestricted cash to long-term debt of 83%, as per Standard & Poor's calculations; and
- Solid business position characterized by good market share in a demographically favorable region that is largely dominated by two health care systems.

Further supporting the ratings is our view of revenue cycle, staffing, expense, and other operating improvements that have helped Wellmont generate consistently robust operating results during the past three fiscal years. In addition, we anticipate that as the system's major acquisition activities are completed, Wellmont will likely be able to continue to build balance sheet strength over time.

Partially offsetting the above-noted strengths, in our opinion, is Wellmont's plan to issue roughly \$55 million of new

debt in fiscal 2013, as well as management's plan to transition the health system over to an Epic IT Platform, which during the next five years will involve about \$100 million of capital spending. While the transition to Epic could potentially involve some disruption to Wellmont's operations, management believes that it is very well prepared to undertake the implementation and had a very successful recent implementation of its electronic health record.

In addition, while we believe that major facilities acquisitions are done now that most of the desirable candidates in the markets served by Wellmont and its major competitor have been acquired, we continue to believe that competition for patient volumes between these two sizable systems remains intense.

As of June 30, 2012, Wellmont had \$459 million of bonded debt and capital leases. About \$82 million of Wellmont's outstanding debt is variable-rate obligations, including \$24.8 million in bank qualified directly placed index floating-rate bonds (not rated). The variable-rate obligations have tender provisions that may allow the bonds to be redeemed before maturity. In our opinion, the amount of puttable debt relative to unrestricted cash as of June 30, 2012 is manageable, at about 17%. In addition, Wellmont has more than adequate unrestricted liquidity available to cover these potential tender obligations by a ratio of 4.6x. We understand that Wellmont may issue approximately \$55 million of incremental debt in fiscal 2013, and, in our opinion, the system has capacity to issue some additional debt, including the amount contemplated, without negatively affecting the ratings.

Wellmont uses interest rate swaps to partially hedge its interest rate risk. Wellmont has three swaps totaling \$161 million notional principal; Lehman Brothers Special Financing is the counterparty. In our opinion, the risks associated with Wellmont's derivatives portfolio are moderate at this time. As of June 30, 2012, Wellmont's swap liability was \$16.7 million and there is no required collateral posting. In addition, there were no changes to Wellmont's swap portfolio since our last published report on April 29, 2011.

The system remains in compliance with all bank and bond covenants. Gross revenues of the obligated group and a mortgage on Wellmont's two largest hospitals, Bristol Regional Medical Center and Holston Valley Medical Center, as well as two of its community hospitals, Lee Regional Medical Center and Mountain View Regional Medical Center, secure the bonds. The obligated group includes the parent, Hawkins County Memorial Hospital (a leased facility), a for-profit subsidiary, and the system's fundraising arm. Six of the system's hospitals are included by virtue of operating as unincorporated divisions of the parent: Holston Valley Medical Center, Bristol Regional Medical Center, Lonesome Pine Hospital, Hancock County Hospital, Lee Regional Medical Center, and Mountain View Regional Medical Center. All of the system's entities are included for the purpose of our calculations in this report.

Outlook

The stable outlook reflects our view of management's initiatives to control expenses and increase incremental revenues through its ambulatory strategy and oncology and cardiology service line focus. We anticipate that balance sheet metrics will likely remain stable or improve during the two-year outlook period as most of Wellmont's major bricks-and-mortar capital spending initiatives have been completed -- although the system's transition to Epic for its clinical information system will represent a sizable level of spending during the next five years. We are aware that Wellmont plans to issue about \$55 million of new debt in fiscal 2013 and while the details are uncertain at this time,

the system maintains adequate capacity to support this level of incremental debt at the existing rating level, in our opinion.

Should the system's balance sheet or its operations unexpectedly weaken, such that Wellmont's MADS coverage declines and is sustained below 2.0x, or if unrestricted liquidity falls to fewer than 150 days or 70% of long-term debt, then a downgrade or a negative outlook would become more likely. By contrast, improvement to the balance sheet over time, provided operating performance remains good, could be cause for a positive outlook revision and possibly an upgrade.

Enterprise Profile

Wellmont is an eight-hospital system headquartered in Kingsport, Tenn. and is composed of 1,253 licensed (856 staffed including managed (not owned acute), psych, rehab, and skilled nursing facility) inpatient beds. The system's facilities are located in Tennessee and Virginia. Acute discharges totaled 40,121 in fiscal 2012, down 4.6% from fiscal 2011. Total bedded volumes, including observations, increased to 53,790, or by 1.7%, compared with the previous fiscal year. The system's outpatient registrations continue to grow, and totaled 236,437 in fiscal 2012, up 5.1% from fiscal 2011, partially driven by the system's acquisition of a cardiology practice earlier this year. Emergency department and combined surgery volumes were essentially flat.

Management remains focused on the system's ambulatory strategy, which includes the creation of a strategic infrastructure around oncology and cardiology centers of excellence. Pulmonology is also a service line that management considers a strategic focus. Although in the past several years Wellmont had been focused on the acquisition of hospitals and facilities, both in Tennessee and in Virginia, major facilities acquisition activity is completed as there are few desirable remaining hospital acquisition candidates in the system's service area that are not already affiliated with Wellmont or its major competitor. Management's current strategy is to maintain or develop outposts to draw patients from a larger geographic area without having to have a hospital located in those areas. In addition, management plans to capitalize on its strengths in core service lines supported by its new dyad leadership model, which appears to be creating favorable results through improved patient satisfaction scores.

Management

Wellmont named Alice Pope CFO of Wellmont in August 2012. Ms. Pope previously served as SVP finance managed care and revenue cycle for the system, and has served in various roles with the organization during the past 12 years.

Financial Profile

For the fiscal year ended June 30, 2012 (unaudited), Wellmont generated operating income of \$20.7 million (a 2.6% margin) on \$789.7 million of total net revenues. Commencing with these fiscal 2012 results, and this review, Standard & Poor's analysis conforms to accounting rule ASU 2011-07, which changes the classification of bad debt expense to a deduction from revenues. This change had the effect of elevating days' cash on hand and reflecting modestly higher operating and excess margins.

Operating results reflect a \$4.8 million improvement over fiscal 2011 principally due to Wellmont's implementation of revenue and expense cycle initiatives, including a narrow network agreement with Cigna for a major local employer and physician practice acquisitions, as well as a greater focus on documentation and coding, increasing its case mix, and reducing lengths of stay.

For the fiscal year, Wellmont's excess revenues, as per Standard & Poor's calculations, were \$38 million (or a 4.7% margin), which included \$17.3 million of realized investment income. Wellmont also had a \$5.1 million unrealized loss on its swaps at year end, and unrealized investment losses of \$9.5 million. Both unrealized investment losses and the swap loss are treated as below the line for purposes of Standard & Poor's analysis.

Cash flow remains acceptable, in our view, as evidenced by a 13.2% EBIDA margin, generating just over 3.0x coverage of Wellmont's \$35.2 million MADS. Operating leases have historically been relatively modest in amount; however, with the monetization of Wellmont's medical office buildings, operating leases have become more material to the system's overall financial profile. Adjusted for operating lease expense, MADS coverage is diluted to 2.3x.

Wellmont's fiscal 2013 budgeted operating income is \$15 million, resulting in an operating margin of about 1.9%, a level comparable to fiscal 2011 results, but below fiscal 2012. Wellmont expects to grow its operating margin over time, once the full Epic clinical information system has been implemented in 2014/2015.

Balance sheet

Wellmont's balance sheet remains acceptable, in our view, and although management plans to issue \$55 million of new debt in fiscal 2013, we believe that the system has some flexibility to issue additional debt at the existing rating level given its solid operating performance and improved capitalization during the past three years.

Unrestricted cash and investments totaled \$380 million at year end, equal to 192 days' cash on hand and 83% of long-term debt. As part of its methodology Wellmont excludes the less liquid investments from the days' cash calculation. By making that adjustment, days' cash declines to about 173 days at fiscal year end, which remains solid and in compliance with Wellmont's minimum covenant level of 100 days. Robust cash flow and minimal capital spending needs allowed cash to grow by more than \$32 million relative to last year.

Wellmont's systemwide combined routine and strategic capital budget is \$40 million for fiscal 2013, not including the system's budget for converting to a new Epic IT Platform, which will represent a \$100 million capital spend during the next five years (plus \$84 million of operating costs). Wellmont is budgeting for about \$45 million of meaningful use stimulus money, which will help to offset the cost of its Epic conversion. Other than modest strategic and equipment-related capital spending and the planned spending for its Epic IT Platform conversion, Wellmont has limited other capital spending plans. As a result, we anticipate that the system's liquidity will continue to grow.

McGRAW-HILL

FITCH AFFIRMS WELLMONT HEALTH SYSTEM, TN'S REVS AT 'BBB+'; OUTLOOK STABLE

Fitch Ratings-New York-22 April 2013: Fitch Ratings affirms the 'BBB+' rating on the following bonds issued on behalf of Wellmont Health System (Wellmont):

- \$76,165,000 The Health, Educational and Housing Facilities Board of the County of Sullivan, Tennessee hospital revenue refunding bonds (Wellmont Health System Project), series 2011;
- \$55,000,000 Virginia Small Business Financing Authority hospital revenue bonds, series 2007A (Wellmont Health System Project);
- \$200,000,000 The Health, Educational, and Housing Facilities Board of the County of Sullivan, Tennessee hospital revenue bonds, series 2006C (Wellmont Health System Project);
- \$59,580,000 The Health, Educational and Housing Facilities Board of the County of Sullivan, TN hospital revenue refunding bonds, series 2005 (Wellmont Health System Project);
- \$33,035,000 The Health, Educational and Housing Facilities Board of the County of Sullivan, TN hospital revenue refunding bonds, series 2003 (Wellmont Health System Project).

The Rating Outlook is Stable.

SECURITY

The bonds are secured by gross receipts and mortgage pledge of the obligated group (OG). A fully funded debt service fund provides additional security. In addition, there is a liquidity covenant.

KEY RATING DRIVERS:

STRONG OPERATING EBITDA: Wellmont's operating EBITDA is consistently above Fitch's 'BBB' category medians, averaging 11.2% over the past four audited years and at 10.2% in the six month fiscal 2013 (June 30 year end) interim period.

CATEGORY CONSISTENT METRICS: Most of Wellmont's financial and capital metrics are consistent with the rating category, with liquidity strengthening over the last four audited years to above category medians.

LEADING MARKET SHARE: Wellmont maintains leading 55% inpatient market share in its defined primary service area. Although its market share has declined slightly in the past few years, it is not a credit concern.

ELEVATED DEBT BURDEN: Maximum annual debt service (MADS) as a percentage of revenue is high at 5.3% in the six month interim period relative to a Fitch's 'BBB' median of 3.3%. Wellmont is drawing down a \$42.5 million loan (\$3.1 million has been drawn to date) as part of its EPIC implementation (a separate \$12.5 million was closed and drawn upon last year for a total of \$55 million in additional debt for EPIC), all of which is factored into the MADS figure. With no other additional debt anticipated, Fitch expects Wellmont's debt burden to moderate over next few years.

RATING SENSITIVITIES:

OPERATING PRESSURE: Like many hospitals, Wellmont has seen inpatient volumes decline as services have shifted to an outpatient setting, with Wellmont's operating performance slightly weaker in the six month interim due, in part, to the reduction in inpatient services. Wellmont's ability to adjust to this volume shift and maintain its operating performance is key to the current rating. A weakening of its operating EBITDA would be a credit concern, given Wellmont's elevated debt burden.

CREDIT PROFILE:

The 'BBB+' rating is supported by an overall financial profile consistent with Fitch's 'BBB' rating category medians and Wellmont's leading inpatient market share in its primary service area (PSA). Wellmont finished fiscal 2013 with a 2.8% operating margin and MADS coverage of 2.6x, both solid for the 'BBB' category.

Six month fiscal 2012 interim figures show the operating margin sliding to 1.1%, which is off Wellmont's budget. Wellmont is adjusting its budget and expects to improve operations over the second half of the year, helped by an additional \$6.5 million in meaningful use funds.

Liquidity has strengthened materially over the last four years, with unrestricted cash and investments growing by approximately 45% over that time, and Wellmont's key liquidity ratios now exceeding Fitch's 'BBB' medians. At Dec. 31, 2012, Wellmont had cash and unrestricted investments of \$395.6 million (excluding \$38.4 million in illiquid investments), which equated to days cash on hand of 197.1, a pro forma cushion ratio of 9.5x, and pro forma cash to debt (assuming full draw down on \$45 million loan - only \$3.2 million has been drawn to date) of 76.1%.

Wellmont's debt burden remains elevated for the rating level, as represented by MADS as a percentage of revenue of 5.3% and debt-to-EBITDA of 4.6x, and debt to capitalization of 51.8% as of Dec. 31, 2012, all of which compare unfavorably to 'BBB' category medians. An additional credit concern is competitive service area with Mountain States Health Alliance (general revenue bonds rated 'BBB+'/Outlook Stable by Fitch) a formidable competitor.

The Stable Outlook reflects Fitch's belief that Wellmont will maintain a level of operating performance to support consistent debt service coverage. Capital expenditures over the next two to three years are expected to be reasonable at approximately \$40 million to \$50 million per year, excluding \$100 million EPIC implementation.

Wellmont's debt portfolio is relatively conservative with approximately 12% of its \$481 million of long-term debt in variable rate mode. However, Wellmont does have four swaps. Lehman is the counterparty for three of the swaps. There are no collateral posting requirements at the current rating level. The aggregate mark to market as of Dec. 31, 2012 was a negative \$8.5 million.

Wellmont Health System (WHS) is a large regional health care system with seven acute hospitals (816 staffed beds) and other related entities located in northeastern TN and southwestern VA. Wellmont had approximately \$790 million in total revenue in fiscal 2012. WHS covenants to provide audited financial statements to the Municipal Securities Rulemaking Board's Electronic Municipal Market Access system (EMMA), as well as quarterly unaudited statements.

Long Term Rating

BBB+/Negative

Outlook Revised

Rationale

Standard & Poor's Ratings Services revised its outlook to negative from stable and affirmed its 'BBB+' long-term rating and underlying rating (SPUR) on \$356.4 million in bonds, including series 2003, 2006C, 2007A, and 2011, issued for Wellmont Health System, Tenn. by various issuing authorities.

The long-term and short-term ratings on Wellmont's \$54.8 million series 2005 variable-rate demand obligations are 'A+/A-1' and are based solely on the support of JP Morgan Chase Bank N.A. (A+/A-1), the letter of credit provider.

The 'BBB+' rating is based on our view of Wellmont Health System's group credit profile and core status as the obligated group that includes Wellmont Health System (as parent); Hawkins County Memorial Hospital (a leased facility), a for-profit subsidiary; and the system's fundraising arm. Accordingly, the bonds are rated at the same level as the group credit profile. The negative outlook and affirmed 'BBB+' ratings reflect our view of Wellmont's operating and financial metrics, which while still adequate for the rating level have trended lower and are expected to weaken during fiscal 2014. The rating is supported by the system's stable enterprise profile. In addition, we believe that Wellmont is well positioned for operational success with respect to its markets, its competition, and the changing reimbursement environment.

More specifically, the ratings reflect our opinion of Wellmont's:

- Solid financial metrics, including positive fiscal 2013 operating income of \$11.7 million (a 1.5% margin), as per Standard & Poor's calculations;
- Acceptable 2.5x fiscal year-end maximum annual debt service (MADS) coverage;
- Improved balance sheet, highlighted by the system's 218 days' cash on hand, moderately elevated 48% long-term debt to total capitalization, and unrestricted cash to long-term debt of 90% as of Sept. 30, 2013, and as per Standard & Poor's calculations; and
- Solid business position characterized by good market share in a demographically favorable region that is largely dominated by two health care systems.

Further supporting the ratings is our view of revenue cycle, staffing, expense, and other operating improvements that have helped Wellmont generate favorable operating results during the past four years. In addition, we expect

Wellmont's balance sheet will remain robust, since it has limited capital spending needs for the foreseeable future.

Partially offsetting the above-noted strengths, in our opinion, is Wellmont's plan to issue roughly \$13.5 million of new debt in fiscal 2014, as well as management's ongoing Epic IT Platform implementation, which over last year and during the next four years will involve a total of about \$95 million to \$100 million of capital spending. While the transition to Epic could still potentially involve some disruption to Wellmont's operations, management believes that it is very well prepared to undertake the implementation and successfully implemented its electronic health record during the previous two years.

In addition, while we believe that major facilities acquisitions are done now that most of the desirable candidates in the markets served by Wellmont and its major competitor have been acquired, we continue to believe that competition for patient volumes between these two sizable systems remains intense.

As of June 30, 2013, Wellmont had \$476 million of bonded debt and capital leases. About \$78 million of Wellmont's outstanding debt is variable-rate obligations, including \$23 million in bank qualified directly placed index floating-rate bonds (not rated). The variable-rate obligations have tender provisions that may allow the bonds to be redeemed before maturity. In our opinion, the amount of puttable debt relative to unrestricted cash as of June 30, 2013, is negligible, at less than 10%. We understand that Wellmont may issue approximately \$13.5 million of incremental debt in fiscal 2014, and, in our opinion, the system has capacity to issue this level of additional debt without negatively affecting the ratings.

Wellmont uses interest rate swaps to partially hedge its interest rate risk. Wellmont has four swaps totaling \$220 million notional principal; Lehman Brothers Special Financing is the counterparty for three of the swaps, and Bank of America Merrill Lynch is the counterparty for a \$76.1 million total return swap entered into in 2011. In our opinion, the risks associated with Wellmont's derivatives portfolio are moderate at this time. Wellmont's swap liability was \$7.4 million at June 30, 2013, and there is no required collateral posting. The estate of Lehman Brothers recently filed suit seeking \$21 million of damages from Wellmont in disputed claims related to Wellmont's termination of a total return swap on its series 2006A bonds. Management believes that the suit is without merit and plans to vigorously defend itself.

The system remains in compliance with all bank and bond covenants. Gross revenues of the obligated group and a mortgage on Wellmont's two largest hospitals, Bristol Regional Medical Center and Holston Valley Medical Center, as well as a mortgage on Mountain View Regional Medical Center, a community hospital, secure the bonds. Gross revenues from Lee Regional Medical Center also formerly secured the bonds; however, the facility was recently closed. The obligated group includes the parent, Hawkins County Memorial Hospital (a leased facility), a for-profit subsidiary, and the system's fundraising arm. Six of the system's hospitals are included by virtue of operating as unincorporated divisions of the parent: Holston Valley Medical Center, Bristol Regional Medical Center, Lonesome Pine Hospital, Hancock County Hospital, Lee Regional Medical Center, and Mountain View Regional Medical Center. All of the system's entities are included for the purpose of our calculations in this report.

Outlook

The negative outlook reflects our view of Wellmont's weaker fiscal 2013 and year-to-date operating performance reflecting a decline in patient volumes, higher drug costs, and the step down in meaningful use funds (as expected) leading to more modest coverage at MADS. Management is also expecting a further downturn in operating income for fiscal 2014. While we believe that Wellmont's balance sheet remains robust enough to support current rating, we believe that operating results are likely to be challenged during the two-year outlook period by the changes being brought about by health reform, potentially leading to weaker balance sheet metrics and substandard coverage for the rating level. Should Wellmont's coverage at MADS fall to and be sustained below 2.0x or if unrestricted liquidity falls to fewer than 150 days or 70% of long-term debt, then a downgrade would become more likely. We do not expect to raise the ratings during the outlook period.

While most of Wellmont's major bricks-and-mortar capital spending initiatives have been completed, the system continues to incur capital spending for its Epic IT Platform. We are also aware that Wellmont plans to incur about \$13.5 million of new debt in fiscal 2014, and while the details are uncertain at this time, we believe that the system maintains adequate capacity to support this level of incremental debt at the existing rating level.

Enterprise Profile

Wellmont is a seven-hospital system headquartered in Kingsport, Tenn., and is composed of 781 staffed beds including managed (not owned acute), psych, rehab, and skilled nursing facility) inpatient beds. The system's facilities are located in Tennessee and Virginia. Acute discharges totaled 37,798 in fiscal 2013, down 5.8% from fiscal 2012 (which was down 4.6% from fiscal 2011). Total bedded volumes, including observations, declined to 51,539 from 53,790, or by 4.2%, compared with the previous fiscal year. The system's outpatient registrations continue to grow, and totaled 210,044 in fiscal 2013, up from 209,024 in fiscal 2012. Combined surgery volumes were essentially flat while emergency department volumes were lower (by 6.7%), reflecting the presence of three urgent-care centers that are treating patients in a lower-cost setting.

Management remains focused on the system's ambulatory strategy, which has included the creation of a strategic infrastructure around oncology and cardiology centers of excellence. Pulmonology is also a service line that management considers a strategic focus. Although in the past several years Wellmont had focused on the acquisition of hospitals and facilities, both in Tennessee and in Virginia, facilities acquisition activity is completed and there are very few desirable remaining acquisition candidates in the system's service area that are not already affiliated with Wellmont or its major competitor.

Management's current strategy is to maintain or develop outposts to draw patients from a larger geographic area without having to have a hospital located in those areas and to focus on its strategy regarding the continuum of care including the recently announced acquisition of Wexford House, a post-acute care facility. In addition, management plans to capitalize on its strengths in core service lines supported by its new dyad leadership model, which appears to be creating favorable results through improved patient satisfaction scores.

To address the decline in patient volumes and the resultant effect on operations, Wellmont has eliminated the duplicative administrative overhead at each hospital and consolidated most administrative functions to the system level. In addition, the system has closed inpatient units to improve occupancy and efficiency, established 24/7 case management coverage in its emergency departments, and opened dedicated observation units to better match the cost of care to revenues.

Management

We believe that Wellmont is led by a capable leadership team headed by Denny DeNarvaez, CEO, who joined Wellmont in 2010 following her service to St. John's Mercy Healthcare as CEO. In August 2012 Wellmont named Alice Pope CFO. Ms. Pope previously served as SVP finance managed care and revenue cycle for the system, and has served in various roles with the organization during the past 12 years.

Financial Profile

In accordance with the publication of our article, "New Bad Debt Accounting Rules Will Alter Some U.S. Not-for-Profit Health Care Ratios But Won't Affect Ratings," on Jan.

19, 2012, we have reflected Wellmont's 2012 and 2013 audited results and the year to date interims with the adoption of Financial Accounting Standards Board statement 954 in 2012, but not for prior periods. The new accounting treatment means that Wellmont's fiscal 2012 and subsequent financial statistics are not directly comparable to the results for 2011 and prior years, nor are they directly comparable to the 2011 median ratios. For an explanation of how each financial measure is affected by the change in accounting for bad debt, including the direction and size of the change, please see the above-mentioned article.

For the fiscal year ended June 30, 2013, Wellmont generated operating income of \$11.7 million (a 1.5% margin) on \$798 million of total net revenues. Results compared with \$20.7 million (a 2.6% margin) on \$789.7 million of total net revenues for fiscal 2012. The decline in operating results in fiscal 2013 and for the year to date ended Sept. 30, which saw net operating income of \$580,000 (a 0.3% margin), reflects weaker volumes, the more challenging reimbursement environment, and Wellmont's cost structure, which was too high given the declining revenues. Management is addressing its costs through reduced staffing and the efficiency initiatives noted earlier, including the opening of a dedicated observation units and the elimination of administrative overhead at individual system hospitals.

For the fiscal year, Wellmont's excess revenues, as per Standard & Poor's calculations, were \$29 million (or a 3.6% margin), which included \$19.4 million of realized investment income and gains. Wellmont also had a \$2.1 million loss from discontinued operations.

Cash flow remains acceptable, in our view, as evidenced by a 12.5% EBIDA margin, generating just under 2.5x coverage of Wellmont's \$41.3 million MADS. Operating leases have historically been relatively modest in amount; however, with the monetization of Wellmont's medical office buildings, operating leases have become more material to the system's overall financial profile. Adjusted for operating lease expense, MADS coverage is diluted to 2.0x.

Wellmont's fiscal 2014 budgeted operating income is \$3.9 million inclusive of almost \$9 million of meaningful use

stimulus funds, resulting in an operating margin of about 0.5%. According to management, however, recent reimbursement changes related to CMS's two-midnight rule could have a \$3 million to \$4 million negative impact on Wellmont's reimbursement, which was not known at the time the budget was prepared. In our view, operating performance is becoming more constrained and could be a key issue leading to a lower credit rating in the future.

Balance sheet

Wellmont's balance sheet remains acceptable, in our view, and although management plans to issue \$13.5 million of new debt in fiscal 2014, we believe that the system has some flexibility to issue additional debt at the existing rating level given its improved capitalization during the past four years.

Unrestricted cash and investments totaled \$434 million at Sept. 30, equal to 218 days' cash on hand and 90% of long-term debt, which we view as solid for the rating level. As part of its methodology Wellmont excludes the less liquid investments from the days' cash calculation. By making that adjustment, days' cash declines to about 202 days at Sept. 30, which remains solid and in compliance with Wellmont's minimum covenant level of 100 days. Robust cash flow and minimal capital spending needs allowed cash to grow by more than \$54 million relative to fiscal year-end 2012.

Wellmont's systemwide combined routine and strategic capital budget is \$41.5 million for fiscal 2014 inclusive of approximately \$6 million of funds not yet allocated. The spending budget does not include the remaining spending under the system's budget for converting to a new Epic IT Platform, which is expected to come in below the original \$100 million five-year budget. Wellmont is budgeting for about \$45 million of meaningful use stimulus money, which will help to offset the cost of its Epic conversion. Other than modest strategic and equipment-related capital spending and the planned spending for its Epic IT Platform conversion, Wellmont has limited other capital spending plans. As a result, we anticipate that the system's liquidity will continue to grow.

FITCH AFFIRMS WELLMONT HEALTH SYSTEM, TN REVS AT 'BBB+'; OUTLOOK STABLE

Fitch Ratings-New York-10 April 2014: Fitch Ratings affirms the 'BBB+' rating on the following Health, Education and Housing Facilities Board of the County of Sullivan, Tennessee bonds issued on behalf of Wellmont Health System (Wellmont):

- \$76,165,000, hospital revenue refunding bonds (Wellmont Health System Project), series 2011;
- \$200,000,000 hospital revenue bonds, series 2006C (Wellmont Health System Project);
- \$54,820,000 hospital revenue refunding bonds, series 2005 (Wellmont Health System Project);
- \$25,225,000 hospital revenue refunding bonds, series 2003 (Wellmont Health System Project).

In addition, Fitch affirms at 'BBB+' the following parity debt also issued on behalf of Wellmont:

- \$55,000,000 Virginia Small Business Financing Authority hospital revenue bonds, series 2007A (Wellmont Health System Project).

The Rating Outlook is Stable.

KEY RATING DRIVERS:

STRONG OPERATING EBITDA: Wellmont's operating EBITDA is consistently above Fitch's 'BBB' category median, averaging 11.5% over the past four audited years and at 9.9% in the six-month fiscal 2014 (June 30 year-end) interim period.

LIQUIDITY A CREDIT STRENGTH: Wellmont has \$419.6 million in unrestricted cash and investments (not including \$27 million in illiquid funds) at Dec. 31, 2013, a 6% year-over-year increase. Wellmont's key liquidity figures compare favorably to Fitch's 'BBB' medians.

ADEQUATE DEBT SERVICE: Most of Wellmont's financial and capital metrics are consistent with the rating category.

LEADING MARKET SHARE: Wellmont maintains a leading 56% inpatient market share in its defined primary service area (PSA). Although market share has declined slightly in the past few years, Fitch is not concerned, as Wellmont remains competitive in key strategic service lines.

ELEVATED DEBT BURDEN: Maximum annual debt service (MADS) as a percentage of revenue was high at 5.4% in the six-month interim period relative to a Fitch's 'BBB' median of 3.5%. However, after completing a large EPIC implementation at a cost of approximately \$100 million, for which it assumed additional debt, Wellmont's capital spending should slow, which should allow it to moderate its debt burden.

RATING SENSITIVITIES

SEEKING STRATEGIC PARTNER: Wellmont is in the process of evaluating potential strategic partnerships. The process of evaluating and choosing a potential partner is expected to be completed in the next 12 months. The effect of a strategic partnership on Wellmont is not factored into the rating. Fitch will continue to monitor the process and will evaluate a partnership once the process is completed. For the remaining fiscal year, Fitch expects Wellmont's performance to improve slightly as the expenses related to EPIC implementation have been fully absorbed.

Credit Profile

Wellmont Health System (WHS) is a large regional health care system with seven acute hospitals (816 staffed beds) and other related entities located in northeastern TN and southwestern VA. Wellmont had approximately \$798.2 million in total revenue in fiscal 2013.

Financial Summary

The 'BBB+' rating is supported by an overall financial profile consistent with Fitch's 'BBB' rating category medians and Wellmont's leading inpatient market share in its defined PSA. Wellmont finished fiscal 2013 with a 1.6% operating margin and MADS coverage of 2.6x, both adequate for the 'BBB' category, but below category medians. Wellmont's operating EBITDA was stronger at 10.8%, above the category median of 9%.

Operations were lower in the first six months of fiscal 2014 due largely to EPIC implementation costs, as Wellmont went live with its physicians in December 2013 and live in its hospitals in late March 2014. For fiscal 2014, Wellmont budgeted for \$13.5 million of implementation expenses that cannot be capitalized, with a portion of those expenses coming in the first half of the fiscal year. However, Wellmont did anticipate these expenses and is tracking ahead of budget for the first six months. In the first six months of fiscal 2014, Wellmont posted a 1.2% operating margin and 2.2x debt service coverage, compared to a 1.6% operating margin and 2.5x debt service coverage for the first six months of fiscal 2013. Wellmont's management reports that performance continues to be ahead of budget through February 2014, and Fitch expects Wellmont's operating performance to continue to improve through the end of the fiscal year.

Liquidity has continued to strengthen with unrestricted cash growing 6% in the year-over-year interim period and 49% from fiscal year-end 2010. At Dec. 31, 2013, Wellmont had cash and unrestricted investments of \$419.6 million (excluding \$27 million in illiquid investments), which equated to days cash on hand of 213.3, a cushion ratio of 10x, and cash-to-debt of 82.6%, which compare well to 'BBB' category medians of 144.7, 10.2, and 91.7, respectively.

Wellmont's debt burden remains elevated for the rating level, as represented by MADS as a percentage of revenue of 5.4% and debt-to-EBITDA of 5.5x. as of Dec. 31, 2013, both of which compare unfavorably to 'BBB' category medians. However, Fitch expects debt to moderate with the EPIC implementation completed. Wellmont is issuing bank debt to acquire a skilled nursing facility, Wexford House, but the facility is producing enough cash flow to cover the additional debt.

Fitch views the acquisition as credit neutral. The skilled nursing facility will build on Wellmont's efforts to prepare for population health management and other aspects of health care reform. Other initiatives in this effort include participating in an Accountable Care Organization, structuring shared savings contracts with select payors, and continuing to position the organization as the low-cost, high-quality provider for the region.

Potential Strategic Partnerships

Wellmont is actively exploring a strategic partnership through a formal RFP process.

Wellmont plans to evaluate the RFP responses, and Fitch expects a decision to be made within the next rating cycle. The financial arrangement of a potential partnership is not clear and could range from a loose affiliation to a full asset merger. Fitch views the potential partnership as credit neutral as much will depend on the outcome of the process and the final partner. However, Fitch notes positively that Wellmont is entering the process from a position of credit strength with a strong balance sheet, good market position, and consistent levels of operations and debt service coverage.

Debt Profile

Wellmont's debt portfolio is relatively conservative with approximately 15% of its \$508 million of long-term debt in variable-rate mode. However, Wellmont does have four swaps. Two are fixed payor swaps, one is a basis swap, and one is a total return swap.

There are no collateral posting requirements at the current rating level. The aggregate mark to market as of Dec. 31, 2013 was a negative \$7.2 million.

In addition, Wellmont is planning to restructure some of its debt in the next three months. Fitch expects that the covenants for that debt will remain consistent with the current covenants.

Long Term Rating

BBB+/Stable

Outlook Revised

Rationale

Standard & Poor's Ratings Services revised its outlook to stable from negative and affirmed its 'BBB+' long-term rating and underlying rating (SPUR) on \$135 million in bonds, including series 2006C, 2007A, and 2011, issued for Wellmont Health System, Tenn. by various issuing authorities.

The 'BBB+' rating is based on our view of Wellmont Health System's group credit profile and core status as the obligated group, which includes Wellmont Health System (as parent); Hawkins County Memorial Hospital (a leased facility), a for-profit subsidiary; and the system's fundraising arm. Accordingly, the bonds are rated at the same level as the group credit profile. The stable outlook and affirmed 'BBB+' ratings reflect our view of Wellmont's operating and financial metrics, which were adequate for the rating level in fiscal 2014 and showed improvement during the first fiscal quarter of 2015. The rating is supported by the system's stable enterprise profile. While we understand that management is considering strategic options to strengthen the system's operational viability under health reform, we still believe that Wellmont is adequately positioned for operational success with respect to its markets, its competition, and the changing reimbursement environment.

More specifically, the ratings reflect our opinion of Wellmont's:

- Light but adequate financial metrics, including positive fiscal 2014 operating income of \$3.3 million (a 0.43% margin), as per Standard & Poor's calculations;
- Acceptable 2.0x fiscal year-end maximum annual debt service (MADS) coverage;
- Acceptable balance sheet, highlighted by the system's 212 days' cash on hand, moderately elevated 47% long-term debt to total capitalization, and unrestricted cash to long-term debt of 89% as of Sept. 30, 2014, and as per Standard & Poor's calculations; and
- Solid business position characterized by good market share in a demographically favorable region that is largely dominated by two health care systems.

Further supporting the ratings is our view of revenue cycle, staffing, expense, and other operating initiatives that will likely help Wellmont generate better operating results over time. In addition, we expect Wellmont's balance sheet will remain robust since Wellmont has limited capital spending needs for the foreseeable future.

Partly offsetting rating factors include Wellmont's reliance on supplemental reimbursement and meaningful-use stimulus funds to generate the system's positive net from operations during the past two to three years. In addition, we believe that competition for patient volumes between Wellmont and its main competitors remains intense.

As of Sept. 30, 2014, Wellmont had \$484 million of bonded debt and capital leases. About \$123 million of Wellmont's outstanding debt is variable-rate bank direct purchase obligations. The variable-rate obligations have tender provisions that may allow the bonds to be redeemed before maturity. In our opinion, unrestricted cash to puttable debt as of Sept. 30, 2014, was robust, at about 3.5x.

Wellmont uses interest rate swaps to partly hedge its interest rate risk. Wellmont has four swaps totaling \$260 million notional principal; Lehman Brothers Special Financing is the counterparty for three of the swaps, and Bank of America Merrill Lynch is the counterparty for a \$74.4 million total return swap entered into in 2011. In our opinion, the risks associated with Wellmont's derivatives portfolio are moderate at this time. Wellmont's swap liability was \$5.7 million at Dec. 31, 2014, and there is no required collateral posting.

The system remains in compliance with all bank and bond covenants. Gross revenues of the obligated group and a mortgage on Wellmont's two largest hospitals, Bristol Regional Medical Center and Holston Valley Medical Center, secure the bonds. The obligated group includes the parent, Hawkins County Memorial Hospital (a leased facility), a for-profit subsidiary, and the system's fundraising arm. All of the system's entities are included for the purpose of our calculations in this report.

Outlook

The stable outlook reflects our view of Wellmont's weak fiscal 2014, but improved fiscal 2015 year-to-date, results, supported by the service line expansions, the completion of Wellmont's Epic installation last year, and operational improvement initiatives. While we believe that Wellmont's balance sheet remains robust enough to support the current rating, we believe that operating results may continue to be challenged during the two-year outlook period by the changes being brought about by health reform, potentially leading to weaker balance sheet metrics and lower-than-desirable coverage relative to the rating level.

Downside scenario

Should Wellmont's fiscal 2015 results fall short of budgeted expectations, MADS coverage fall to and be sustained at below 2.0x, or unrestricted liquidity fall to fewer than 150 days or 70% of long-term debt, then a downgrade would become more likely.

Upside scenario

While we do not expect to raise the ratings during the outlook period, we could do so over time in response to, at a minimum, sustained improved operating performance, a moderation in Wellmont's leverage, and no material decline in the system's enterprise profile, which includes market share.

Enterprise Profile

Following the closure of Lee Regional in October 2013, Wellmont is a six-hospital system headquartered in Kingsport, Tenn., and is composed of 711 staffed beds, including acute, psych, rehab, and skilled nursing facility inpatient beds. The system's facilities are located in Tennessee and Virginia. Acute discharges totaled 34,917 in fiscal 2014, down 7.6% from fiscal 2013 (which was down 5.8% from fiscal 2012), although we note that patient volume declines have

not been adjusted for the closure of Lee Regional in October 2013. Inclusive of the same-store adjustment, inpatient volumes declined about 5.7%. Likewise, but also not adjusted on a same-store basis, equivalent inpatient admissions declined to 85,112 from 87,434, or by 2.7%. Combined surgery volumes were essentially flat while emergency department volumes were lower (by 7.1%), reflecting the presence of five urgent-care centers that are treating patients in a lower-cost setting.

Management remains focused on the system's ambulatory strategy, which has included the creation of a strategic infrastructure around oncology and cardiology centers of excellence. Orthopedics, neurology, and pulmonology are also service lines that management considers a strategic focus, along with post-acute and long-term care. Management plans to capitalize on its strengths in core service lines, supported by its dyad leadership model.

Also, in recognition of the challenging operating environment, Wellmont is exploring its strategic options around alignment with another health system. We understand that the system's board will likely reach a decision in early 2015. In our view, alignment with another strong provider will be a credit positive for the system.

Management

We believe that Wellmont is led by a capable leadership team headed by Bart Hove, CEO, who formerly served as the president of Wellmont's Bristol Regional Hospital and took over the system's CEO responsibilities in September 2014, following the departure of Denny DeNarvaez. Wellmont's CFO is Alice Pope, who has served in her current role since 2012 and has been with Wellmont for 15 years. Wellmont's COO is Eric Deaton, who recently rejoined the system after previously having worked for Wellmont for four years.

Financial Profile

For the fiscal year ended June 30, 2014, Wellmont generated operating income of \$3.3 million (a 0.4% margin), under Standard & Poor's methodology, on \$773 million of total net revenues. Results were down from \$11.7 million (a 1.5% margin) on \$798 million of total net revenues for fiscal 2013. The decline in operating results in fiscal 2014 reflects continued weaker volumes; the challenging reimbursement environment, including the effects of Medicare's two-midnight rule for observation patients; and operational inefficiencies. Management is addressing operational inefficiencies through supply chain, labor, and service line initiatives with a goal of reducing expenses by about \$25 million per year. Wellmont's excess revenues, as per Standard & Poor's calculations, were \$33 million (or a 4.1% margin), which included \$15 million of realized investment income and gains.

Cash flow remains acceptable, in our view, as evidenced by an 11% EBIDA margin, generating 2.0x coverage of Wellmont's \$42.8 million MADS. Operating leases have historically been relatively modest in amount; however, with the monetization of Wellmont's medical office buildings, operating leases have become more material to the system's overall financial profile. Adjusted for operating lease expense, MADS coverage is diluted to 1.8x.

Year-to-date results through September 2014 reflected an improvement in operating income of \$4.5 million (or a 2.2% margin) on \$205 million of operating revenues, producing 2.6x MADS coverage on an annualized basis. We understand that through six months Wellmont's consolidated results exceed budget and results for the same period last year.

Wellmont's fiscal 2015 budgeted operating income is just over break even, inclusive of \$4 million of meaningful-use stimulus funds, although results year to date point to a stronger-than-budgeted fiscal 2015. While the operating environment remains challenging, we believe that the Wellmont board's decision to consider an alignment with another system is positive strategic step to help Wellmont remain a healthy system over the long term.

Balance sheet

Wellmont's balance sheet remains acceptable, in our view. Unrestricted cash and investments totaled \$431 million at Sept. 30, equal to 212 days' cash on hand and 89% of long-term debt, which we view as solid for the rating level and in compliance with Wellmont's minimum covenant level of 100 days. We view the system's 47% leverage to be manageable and in line with the median for the rating level. We understand that management has no current plans to issue additional debt.

Wellmont's systemwide combined routine and strategic capital budget is \$35 million for fiscal 2015, inclusive of approximately \$3 million of funds not yet allocated. With the completion of the system's Epic implementation last year, capital spending needs are more limited and approximate about 70% of depreciation. As a result, we anticipate that the system's liquidity will continue to grow.

Bulletin:

Mountain States Health Alliance-Wellmont Health System Merger Does Not Affect Ratings

Primary Credit Analyst:

Karl Propst, Dallas (1) 214-871-1427; karl.propst@standardandpoors.com

Secondary Contact:

Margaret E McNamara (Pugh), New York (1) 212-438-2007;
margaret.mcnamara@standardandpoors.com

DALLAS (Standard & Poor's) April 2, 2015--Standard & Poor's Ratings Services said today that Mountain States Health Alliance's (BBB+/Stable) and Wellmont Health System's (BBB+/Stable) agreement of intent to merge has no immediate effect on ratings. The proposed merger will be a true merger, with equal representation of board members, under a new name for the combined organization to be agreed upon at a later date. We understand that Wellmont and Mountain States will enter into due diligence with anticipated finalization of an agreement by the end of August 2015, completion of regulatory review within 90 days after that, and closing of the merger not later than Dec. 31, 2015.

Mountain States is a 13-hospital system with facilities in Tennessee and Virginia and more than 1,300 staffed acute-care beds along with numerous outpatient facilities. Wellmont is a six-hospital system with facilities in Tennessee and Virginia and operates more than 700 acute-care beds.

While details of the merger remain to be addressed, we understand that the two entities will likely combine their balance sheets and that both organizations are committed to reducing debt. In our view, the merged organization will likely have opportunities for cost reduction and other operating synergies, but at this point detailed benefits of the merger cannot be fully evaluated.

Bulletin: Mountain States Health Alliance-Wellmont Health System Merger Does Not Affect Ratings

We believe that it is likely the two systems will successfully reach a final agreement to merge and that any regulatory issues will be addressed. We are not taking rating action at this time.

Standard & Poor's will review and evaluate the merger integration plan and wait on a final agreement between Mountain States and Wellmont before forming a rating opinion later this year.

For more information on Wellmont Health System, please see our report published Feb. 4, 2015, on RatingsDirect. For more information on Mountain States Health Alliance, please see our report published Jan. 9, 2015.

The current annual budget for Wellmont is considered competitively sensitive information under federal antitrust laws and will be subsequently filed.

Exhibit 11.8

Five Year Projected Budget for the New Health System

FTI Consulting ("FTI") was engaged by the Parties for the purpose of providing an independent and objective review focused on the identification and quantification of potential economies and efficiencies gained through the integration of Wellmont Health System (WHS) and Mountain States Health Alliance (MSHA). Through the development of a financial model (the "Financial Model"), FTI calculated baseline ("Baseline") financial statements for the combined New Health System. The "Baseline" financial statements served as the source for the creation of financial statements for the New Health System to demonstrate the expected impact of the identified synergies of the merger, the "Preliminary Efficiencies" financial statements.

The work completed by FTI was performed by members of FTI's Health Solutions Practice. This Practice consists of over 300 professionals including clinicians, healthcare executives, strategists, and functional specialists located in 27 offices across the United States. Many of FTI's Health Solutions executives have more than 25 years of experience leading health systems, hospitals, and physician organizations; designing and implementing enhanced performance programs; and performing complex healthcare operational and financial analyses. In performance of our work, FTI utilized processes, procedures and methodologies consistent with merger, affiliation and cost efficiency work that we have performed for other healthcare clients. The FTI Team included one member who was involved in the Memorial Mission Hospital/St. Joseph's Hospital COPA development in 1995. FTI created the Financial Model in accordance with Generally Accepted Accounting Principles ("GAAP").

Financial Model

Creation of the Financial Model. The "Baseline" Financial Model portrays the combined operations of the Parties primarily utilizing information contained within the audited financial statements as well as other publicly available data. This financial information is referred to as the "Baseline" financials or the (A + B = C) financial statements. Out of an abundance of caution, FTI worked under a Black Box agreement and established a "Black Box Team" in order to be able to review and take into consideration information that could be deemed proprietary and confidential in creating the assumptions that underpin the projections in our Financial Model.

The "Preliminary Efficiencies" financial statements for the New Health System in FTI's financial model reflect the impacts from the potential efficiency savings to be derived from the synergies identified as well as the expenditures related to the intended uses of efficiency savings for the public benefit as determined by the Parties. The "Preliminary Efficiencies" financial statements are built off of the "Baseline" financial statements. These statements are intended to represent the financial impacts to the New Health System as the result of achieving the identified efficiency savings and investing in the new public benefit initiatives.

In creating both the “Baseline” and “Preliminary Efficiencies” financial statements, the FTI “Clean Team” members considered, but did not directly incorporate in an identifiable way, specific financial information provided by each individual organization in their business plans, projections, or any other source of information that was deemed to be confidential or proprietary given the competitive environment in which the Parties currently operate. All assumptions related to projections in pricing, volume, costs, and other income and expenses are based on the Parties’ combined historical performance, adjusted by FTI’s understanding of the health care provider industry and experience in developing financial forecasting models. Certain financial line items have been consolidated, blended or otherwise adjusted to protect the confidentiality of proprietary information, where applicable.

Both the “Baseline” and “Preliminary Efficiencies” financials include an income statement, balance sheet, and a statement of cash flows. In addition to those schedules, FTI created (1) debt schedules, and (2) PP&E and Capital Expenditures schedules. These schedules calculate certain balance sheet accounts that are dependent on income statement accounts and other investing or financing activities that are not reflected on the face of the income statement.

Timing and Phases of Efficiency Assumptions. During discussions with the Parties’ Management teams, FTI validated “phase in” periods separately for each of the efficiencies savings from “Non-Labor”, “Labor” and “Clinical” work areas. No efficiency savings are projected to be implemented in whole or in part until the FYE 6/17, and timing varies based on the agreed upon ability to successfully implement each individual opportunity.

“Baseline Model” – Income Statement. In the points enumerated below, we delineate the key drivers and/or assumptions used in the Baseline Financial Model for the preparation of a combined New Health System Income Statement. The assumptions apply general industry expectations in accordance with historical performance, and do not include any known or anticipated changes in operations for the individual hospitals that would be deemed to be proprietary or confidential in a manner that would allow either Party’s proprietary or confidential information to be calculated.

- **Revenue.** The key drivers for this account are service volume and reimbursement rates, which are built into the model as percentage changes and applied to the prior year volume and reimbursement rates. Service volume is based on adjusted patient days (“APD”) and reimbursement rates utilize net patient service revenue (“NPSR”) per APD as the proxy for reimbursement rates. Revenue includes the revenue related to Joint Ventures (“JVs”) that are consolidated for financial reporting purposes. The net income attributable to the JVs is eliminated in the “Other non-operating items” line in the income statement. The service volume assumptions in the model account for an initial decrease in service volume related to changes in utilization based on industry trends. The later periods reflect consistent service volume based COPA commitments to maintain/expand locations and services currently available to the community. The model assumption for NPSR per APD includes an annual increase of 2.0%.

- **Other Revenues.** The model assumes other revenues remain flat each year over the 5-year forecasted period.
- **Salaries, Wages, & Benefits.** The key drivers for this expense are total paid full-time equivalents (“FTEs”) and average salaries, wages, & benefits (SW&B) per paid FTE. The total paid FTEs is a function of service volume, which is related to APDs; however, the assumption does not include a proportionate decline in paid FTEs and APDs. Since a portion of the staff is corporate overhead and would not necessarily increase or decrease with service volume, FTI reduced the change in FTE’s by 15% of the change in volume (e.g., if patient volume decreased by 2%, then paid FTEs would only decrease by 1.7%). Additionally, there is an independent assumption that applies a percentage change to the prior period average SW&B per paid FTE to calculate the current period SW&B per paid FTE. The total salaries, wages, & benefits is the product of the current period paid FTEs and the current period average SW&B per paid FTE. The model assumption for SW&B per paid FTE is an annual increase of 3.0%.
- **Medical Supplies & Drugs.** The key drivers for these expenses are service volume and product costs. The financial model calculates the average medical supplies & drugs cost per APD from the base period. Then the model incorporates a cost increase from prior period to the current period for the average medical supplies & drugs cost per APD. The total “medical supplies & drugs” expense is the product of the current period medical supplies & drugs cost per APD and the service volume (e.g., APD). The model assumption for the percentage change is an annual increase of 2.5%.
- **Purchased Services Assumption.** The model assumption applies a percentage change to the prior period amount to calculate the current period amount. The model assumption for the percentage change is an annual increase of 3.0%.
- **Interest & Taxes.** The model uses a blended interest rate of 4.0% derived from the historical experience of the Parties. The outstanding long-term debt balance used in the model is described in the “Baseline Debt Schedule” of this document. The model does not include an input for taxes due to their immaterial nature to the Parties historically.
- **Depreciation & Amortization.** The key drivers are rate of depreciation & amortization, asset disposals, and capital expenditures. The primary assumptions that impact these expenses are capital expenditures and the useful life of property, plant, and equipment (“PP&E”). This represents a non-cash expense and is primarily a function of the PP&E on New Health System’s balance sheet.
- **Maintenance & Utilities.** The model applies a percentage change to the prior period amount to calculate the current period amount. The model assumption for the percentage change is an annual increase of 3.0%.
- **Lease & Rental.** The model applies a percentage change to the prior period amount to calculate the current period amount. The model assumption for the percentage change is an annual increase of 2.5%.

- **Other Expenses.** The model applies a percentage change to the prior period amount to calculate the current period amount. The model assumption for the percentage change is an annual increase of 4.0%.
- **Investment Income.** The key drivers are the rate of return on investments and the long-term investments amount on the balance sheet. The total investment income is the product of the rate of return and the long-term investments balance. The model assumes that investment income is rolled into the long-term investment balance at the end of the fiscal year. The model assumption for the interest income is an annual increase of 2.0%.
- **Derivative Valuation Adjustments.** This expense represents an event driven scenario that would produce a non-cash expense. The user of the financial model may manually change this amount given such an event is known; however, the model, as constructed by FTI, does not contemplate such an event.
- **Loss on Refinancing.** This expense represents an event driven scenario that would produce a non-cash expense. The user of the financial model may manually change this amount given such an event is known; however, the model, as constructed by FTI, does not contemplate such an event.
- **Gain on Revaluation of Equity Method Investment.** This expense represents an event driven scenario that would produce a non-cash expense. The user of the financial model may manually change this amount given such an event is known; however, the model, as constructed by FTI, does not contemplate such an event.
- **Discontinued Operations.** This expense represents an event driven scenario that attempts to present financial statements net of the impact from discontinued segments of operations. The user of the financial model may manually change this amount given such an event is known or expected; however, the model, as constructed by FTI, does not contemplate such an event.
- **Income Attributable to Non-Controlling Interest.** MSHA owns a majority interest in three hospital facilities. The total amounts of revenues, expenses, gains, losses and net income attributed to these facilities is included in the “Income Statement” in the appropriate line item classification. The amount of income attributable to the non-controlling interest (minority interest) is reported as “Income attributable to non-controlling interest” in the “Other non-operating section” of the “Income Statement”.

“Baseline Model”– Balance Sheet. In the points enumerated below, FTI delineates the key drivers and/or assumptions used in the Baseline Financial Model for a combined New Health System Balance Sheet. These assumptions apply general health care industry assumptions to the Parties’ combined historical performance and do not include any known or anticipated changes in operations for the individual hospitals that would be deemed to be proprietary or confidential.

- **Cash & Cash Equivalents.** The balance for this asset account is a function of operations, changes in various balance sheet, etc. The “cash & cash equivalents” is calculated on the “Baseline Cash Flow Statement”.
- **Current Portion of Investments.** This asset account is subject to the duration and timing of when long-term investments reach the end of their stated investment period. Although this may vary significantly from period to period based on the New Health System’s investment strategy, FTI incorporated a model assumption that the current portion of investments remains flat each year over the 5-year forecasted period.
- **Patients Accounts Receivable, Net.** This asset account is a function of NPSR from the income statement and a model assumption that estimates average payor payment terms as days sales outstanding (“DSO”). The balance is the product of the average daily NPSR for the current period and the DSO assumption. The model assumption for the DSO is 55.0 each year over the 5-year forecasted period.
- **Other Receivables, Net.** The model applies an independent percentage change assumption to the prior period amount to calculate the current period amount. The model assumption for the percentage change is an annual increase of 5.0%.
- **Inventories & Prepaid Expenses.** This asset account is a function of “medical supplies & drugs” from the income statement and a model assumption that estimates average inventory & prepaid carrying amount called days inventory outstanding (“DIO”). The balance is the product of the average daily “medical supplies & drugs” expense for the current period and the DIO assumption. The model assumption for the DIO is 65.0 each year over the 5-year forecasted period.
- **Long-Term Investments.** This asset account is dependent on the assumptions related to “Investment Income” on the income statement. The model assumption related to this account is that all “Investment Income” is reinvested. Thus, the current period balance in the model is the summation of the prior period account balance and the current period “Investment Income”. The model assumption for the interest income is an annual increase of 2.0%.
- **Property, Plant, & Equipment, Net.** This asset account is dependent on depreciation & amortization, asset disposals, and capital expenditures. The primary assumptions that impact these expenses are capital expenditures and the useful life of property, plant, and equipment (“PP&E”). The asset account is calculated on a separate schedule FTI prepared that includes our assumptions related to capital expenditures, asset disposals, and depreciation of assets.
- **Goodwill.** Changes in this account balance primarily relate to events such as acquisitions or impairment of prior acquisitions. The balance of this account may be changed manually, but the model, as constructed by FTI, assumes there are no changes in the goodwill balance.

- **Net Deferred Financing, Acquisition Costs & Other Charges.** The model applies an independent percentage change assumption to the prior period amount to calculate the current period amount. The model assumption for the percentage change is an annual decrease of 5.0%.
- **Other Assets.** The model applies an independent percentage change assumption to the prior period amount to calculate the current period amount. The model assumption for the percentage change is an annual increase of 3.0%.
- **Current Portion of Debt & Liabilities.** The model is built to be able to apply an independent percentage change assumption to the prior period amount to calculate the current period amount, if applicable. The model as built by FTI, however, assumes the current portion of debt and liabilities remains flat each year over the 5-year forecasted period.
- **Accounts Payable & Accrued Expenses.** This liability account is a function of certain operating expenses from the income statement and a model assumption that estimates average payment terms as days payables outstanding (“DPO”). The balance is the product of the average daily operating expense for the current period and the DPO assumption. The model assumption for the DPO is 60.0 each year over the 5-year forecasted period.
- **Estimated Third-Party Payor Settlements.** The model applies an independent percentage change assumption to the prior period amount to calculate the current period amount. The model assumption for the percentage change is an annual increase of 2.0%.
- **Long-Term Debt & Liabilities.** The liability account is a function of the principal portion of debt service payments and any new financing or additional principal payments. The balance for this liability is calculated on the “Debt Schedule”, which is discussed later in this section.
- **Retention Bonus Liability.** Since this is an event driven liability and would not likely occur unless an actual merger went into effect, FTI has not included any balance in this liability account for the “Baseline Balance Sheet” in the Baseline model. However, the “Preliminary Efficiencies” balance sheet does include a \$5 million dollar liability for retention bonus liability at 6/30/17 related to the “Uses Expenses”. The liability and remaining portion of the “Uses Expenses” is expected to be paid before 6/30/18.
- **Other Long-Term Liabilities.** The model applies an independent percentage change assumption to the prior period amount to calculate the current period amount. The model assumption for the percentage change is an annual increase of 2.0%.
- **Unrestricted (Net Assets).** This balance is a function of the prior period balance and the “Revenues & Gains in Excess of Expenses & Losses Attributable to the New Health System” on the income statement.

- **Temporarily Restricted (Net Assets).** Since this is an event driven allocation, FTI held this balance flat for each forecasted period and allocated the change in net assets from operations to the “Unrestricted” and the “Non-Controlling Interests” accounts.
- **Permanently Restricted (Net Assets).** Since this is an event driven allocation, FTI held this balance flat for each forecasted period and allocated the change in net assets from operations to the “Unrestricted” and the “Non-Controlling Interests” accounts.
- **Non-Controlling Interests (Net Assets).** MSHA owns a majority interest in three hospital facilities. The non-controlling interest (minority interest) is the portion of equity (net assets) not attributable directly to the majority owner. The non-controlling interest is shown as “Non-controlling interest” in the net assets section of the “Balance Sheet”.

“Preliminary Efficiencies Financial Model”– Functionality & Assumptions. The “Preliminary Efficiencies Financial Model” tabs include the assumptions and results from the “Baseline Income Statement & Balance Sheet” tabs and layers in the anticipated savings from: (1) Non-Labor Efficiencies; (2) Labor Efficiencies; and (3) Clinical Efficiencies. The estimated savings assumptions were presented to and discussed with Management from both Parties and with the Integration Council as well as the “Joint Board Task Force”. Additionally, the “Preliminary Efficiencies Financial Model” includes an additional line item for “Uses expenses related to COPA, excluding D&A expenses” (“Uses Expense”) which includes the estimated expenses related to combination of the hospital systems, COPA compliance costs, and costs associated with providing additional benefits and services to the community. The Uses Expenses were provided by the Integration Council. In FTI’s financial model, the “Preliminary Efficiencies Financial Model” tabs reflect the same assumptions and results as the “Baseline Income Statement & Balance Sheet” tabs previously described, unless modifications to certain assumptions are made by the user, such as the examples provided below.

- **PP&E and Capital Expenditures Schedule.** The “depreciation and amortization expense” and “capital expenditures” may differ from the “Baseline Financial Model” if the user modifies the assumptions within the “PP&E and CapEx schedules” on the “Preliminary Efficiencies” tabs to reflect different decisions or scenarios than those included in the “Baseline Financial Model”. Changes made directly to this schedule within the “Preliminary Efficiencies” model flow directly into the “Preliminary Efficiencies” financial statements, but not into the Baseline financial statements and vice versa, as the “Baseline” and “Preliminary Efficiencies” financial statements operate independently of one another.
- **Debt Schedule.** As is the case with the PP&E and Capital Expenditures Schedules, as described above, the interest expense for this schedule may differ from the “Baseline Income Statement” if certain assumptions within “Preliminary Efficiencies” tabs are modified, since the assumptions within the “Preliminary Efficiencies” financial statements are built and operate independently of the “Baseline” financial statements.

NEW HEALTH SYSTEM ALIGNMENT POLICY

Alignment of Clinical Facilities and Clinical Services by health systems, where appropriate, are a standard and widely accepted mechanism for reducing unnecessary cost in health care, improving quality, and ensuring the services and programs offered are continuously evaluated objectively to ensure efficiency and the best outcome for patients. Among the many benefits of proper alignment are:

1. Assembling a “critical mass” of technology, clinical expertise and financial resources required to develop true centers of excellence.
2. Freeing up resources needed to provide highly technical and resource intensive services that, at a given time, may only be accessed outside the region.
3. Providing financial resources to clinical services that operate at a loss, or are currently not adequately provided, but are vitally important to the health of the region.
4. Improving the financial and clinical performance of services or facilities that currently operate in close proximity of each other.
5. Ensuring overall system financial viability, with an understanding that low overall operating margins inhibit the ability of the system to capitalize and invest in other services important to the region.
6. Realignment of care will improve access and care delivery, and provide effective care at the right locations.

Policy: Alignment of clinical facilities and/or services, where appropriate, may occur after an evaluation of the potential merits and adverse effects related to access, quality and service for patients. The objective of any alignment should include, but may not be limited to: enhanced service to the region, improved quality or scope of care, or enhanced financial performance material to the success of the overall system. Prior to implementing an alignment, it must be determined the benefits of the alignment outweigh the adverse effects.

Application: This policy applies to alignment of clinical facilities and clinical services in those cases where the alignment results in a discontinuation of a major service line or facility such that any such discontinuation would render the service unavailable in that community. This policy is not applicable to alignment of administrative or non-clinical services or programs.

Definitions:

Clinical Facility or Facilities - Any location where inpatient care is provided.

Clinical Service –A scope of patient care generally recognized to be associated with a specific medical or surgical specialty.

Community – The primary service area of a clinical service or facility, generally defined as the area from which 75% of patient volume originates.

Region – the geographic area served by the New Health System

Board Integration Committee – A committee of the Board which shall meet as needed upon a proposal by management to align a facility or service applicable under this policy. The purpose of the committee shall be to evaluate management’s recommendation, and make a recommendation to the Board of Directors prior to the Board’s final approval or rejection of a proposed alignment.

Procedure:

1. Management identifies an opportunity (or opportunities) for alignment which meets the requirement for review as outlined herein.
2. Management will evaluate the opportunity based upon (a) the use of clinical and financial data, and (b) input from physicians and other clinicians relevant to the service or facility which is subject of the alignment. Management will identify the benefits and adverse effects of the proposed alignment, including any cultural impacts. Management may utilize consulting and other independent resources to assist in the evaluation.
3. Upon reaching a conclusion to move forward with alignment, management will notify the Board of its intent, and will request a meeting of the Board Integration Committee. Management will present the proposal for the alignment to the Board Integration Committee.
4. The Board Integration Committee will evaluate the proposal, including the data and input relied upon by management in making its proposal. The Board Integration Committee will formulate a recommendation to the Board of Directors.
5. In considering the recommendation of the Board Integration Committee, the Board shall evaluate the data and input relied upon by the Board Integration Committee, including any data or input which does not support the recommendation.
6. Management shall provide administrative and analytical support to the Board Integration Committee as it contemplates any proposed action.
7. Upon approval by the Board of any alignment, management shall report periodically to the Board Integration Committee on the status of the alignment effort for each project approved, until such project has been completed.

8. One year after the completion of an alignment, management will provide a report to the Board on the results of the alignment, including any lessons learned, physician feedback, community effects and financial impact.

Charter of the Board Integration Committee

Membership. The Board Integration Committee will consist of 10 members (the "Members"), composed of the following:

- A. Six (6) Members shall be non-management Directors, two (2) of whom shall be physicians.
- B. Four (4) Members shall be at-large members who are not Directors and who are not otherwise serving on any committees of the Board of Directors. At least two (2) at-large Members shall be independently practicing physicians.

The Members will be nominated by the Board Governance/Nominating committee, except that the two (2) at-large physician Members will be nominated by the Clinical Council. The initial membership of the Board Integration Committee shall be composed of equal representation from legacy Wellmont Health System and Mountain States Health Alliance until after the second anniversary of the closing of the merger transaction.

1. The Board Integration Committee shall endeavor to ensure management, in making a recommendation to align a service or facility, has deployed a planning process which includes objective financial and clinical data and research, as well as input from affected physicians, clinicians, and other affected stakeholders. The committee will insure a clear vision is articulated by management, including the goals and objectives of the alignment. The committee will evaluate potential community impact of proposed alignment in terms of health status, access, employment and other community considerations.
2. The Board Integration Committee may request that management establish an inventory of current facilities and services and request recommendations for where potential overlap exists and/or synergies could be realized.
3. The Board Integration Committee will ensure management has developed a communication plan and strategy for implementation that considers the various stakeholders affected by any such decision to align a facility or service.

Exhibit 11.14

Overview of IOM Core Metrics: The Institute of Medicine (IOM) recently released a set of core metrics for guidance in population health for use by governments, health systems, insurers, businesses and health departments. (Institute of Medicine, 2015, *Vital signs: Core metrics for health and health care progress*, Washington, D.C.: The National Academies Press) There are 15 core measures grouped into four domains: Healthy People, Care Quality, Care Cost, and Engaged People. Measures within each domain include: *Healthy people:* Life expectancy, well-being, overweight and obesity, addictive behavior, unintended pregnancy, healthy communities; *Care quality:* Preventive services, care access, patient safety, evidence-based care, care match with patient goals; *Care cost:* Personal spending burden, sustainability; *Engaged people:* Individual engagement, community engagement. The IOM report also identified best available measures for each core metric and reported the current national values.

IOM Core Measures

<p>LIFE EXPECTANCY</p> <p>WELL-BEING</p> <p>OVERWEIGHT AND OBESITY</p> <p>ADDICTIVE BEHAVIOR</p> <p>UNINTENDED PREGNANCY</p> <p>HEALTHY COMMUNITIES</p>	<p>1. Life expectancy Infant mortality Maternal mortality Violence and injury mortality</p> <p>2. Well-being Multiple chronic conditions Depression</p> <p>3. Overweight and obesity Activity levels Healthy eating patterns</p> <p>4. Addictive behavior Tobacco use Drug dependence/illicit use Alcohol dependence/misuse</p> <p>5. Unintended pregnancy Contraceptive use</p> <p>6. Healthy communities Childhood poverty rate Childhood asthma Air quality index Drinking water quality index</p>	<p>PREVENTIVE SERVICES</p> <p>CARE ACCESS</p> <p>PATIENT SAFETY</p> <p>EVIDENCE-BASED CARE</p>	<p>7. Preventive services Influenza immunization Colorectal cancer screening Breast cancer screening</p> <p>8. Care access Usual source of care Delay of needed care</p> <p>9. Patient safety Wrong-site surgery Pressure ulcers Medication reconciliation</p> <p>10. IOM Core Measure Set

Domain	Key Element	Core Measure Focus	Best Current Measure	Current National Performance
Healthy People	Length of Life	Life Expectancy	Life expectancy at birth	79 year life expectancy at birth
	Quality of Life	Wellbeing	Self-reported health	66% report being healthy
	Healthy Behaviors	Overweight and Obesity	Body mass index	69% of adults with BMI >25
		Addictive Behavior	Addiction death rate	200 addiction deaths per 100,000, age 15+
	Unintended Pregnancy	Teen pregnancy rate	27 births per 1,000 females aged 15 to 19	
Healthy Social Circumstances	Healthy Communities	High school graduation rate	80% graduate in 4 years	
Care Quality	Prevention	Preventive Services	Childhood immunization rate	68% of children vaccinated by age 3
	Access to Care	Care Access	Unmet care need	5% report unmet medical needs
	Safe Care	Patient Safety	Hospital acquired infection rate	1,700 HAIs per 100,000 admissions
	Appropriate Treatment	Evidence-Based Care	Preventable hospitalization rate	10,000 avoidable per 100,000 admissions
Person-Centered Care	Care Match with Patient Goals	Patient-clinician communication satisfaction	92% satisfied with provider communication	
Care Cost	Affordability	Personal Spending Burden	High spending relative to income	46% spent >10% income on care, or uninsured in 2012
	Sustainability	Population Spending Burden	Per capita expenditures on health care	\$9,000 health care expenditure per capita
Engaged People	Individual Engagement	Individual Engagement	Health literacy rate	12% proficient health literate
	Community Engagement	Community Engagement	Social support	21% inadequate social support

Exhibit 15.1

Plan of Separation
between
Wellmont Health System
and
Mountain States Health Alliance

Pursuant to Grant of Certificate of Public Advantage
By the Tennessee Commissioner of Health

This Plan of Separation (“the Plan”) is prepared as part of the application for Certificate of Public Advantage (“COPA”) submitted jointly by Wellmont Health System and Mountain States Health Alliance (collectively “the Parties”) to the Honorable Dr. John J. Dreyzehner, Commissioner, Tennessee Department of Health (“the Commissioner”). The Plan is intended to set out the process by which the Parties would effect an orderly separation of the new, integrated health system to be created under the COPA (the “New Health System”) in the event that the Commissioner determines that it is necessary to terminate the COPA previously granted to the Parties, as set forth in T.C.A. section 68-11-1303(g).

Upon written notice of a determination by the Commissioner to terminate the COPA pursuant to T.C.A. section 68-11-1303(g), and upon expiration of any period to appeal, or a final ruling adverse to the Parties on appeal, the Parties shall, within thirty (30) days, retain a consultant with expertise in provider operations and competition in the health care industry (“the Consultant”). The Consultant shall assist the Parties in complying with the termination order by analyzing competitive conditions in the markets subject to the Commissioner’s termination order and identifying the specific steps necessary to return the markets to their pre-consolidation competitive state. In undertaking this analysis, the Parties and Consultant shall take into account data submitted in the COPA Application showing the structure of the geographic service area at the time of consolidation, including the number, locations and relative shares of the parties and all other participants. The Parties and Consultant will cooperate with the Commissioner in these efforts. This cooperation shall include, upon the Commissioner’s request, sharing any non-privileged documents, data or other information that the Parties or Consultant may receive, generate or evaluate in the course of this process.

By agreeing that the Consultant will cooperate and share information with the Commissioner, the Parties hereby neither expressly nor implicitly waive any rights they may have with regard to maintaining protections for the privileged, confidential or proprietary content within said information. It is the Parties’ intent to properly manage competitively sensitive information, and thus, to maintain the privileged, confidential and/or proprietary nature of those items and not subject them to public disclosure.

With the assistance from the Consultant, within one hundred (100) days of the Consultant's retention date, the Parties will submit a plan to the Commissioner for divestiture of assets and operations and any other actions that would be appropriate under then-current market circumstances designed to restore, to the extent reasonably practicable, competitive conditions to their pre-consolidation competitive state or otherwise remedy the competitive concerns identified by the Commissioner ("Proposed Plan"). The Proposed Plan will be accompanied by a written report from the Consultant concerning the suitability of the proposed disposition of assets and operations in addressing the competitive deficiencies that resulted in the termination order. The Parties and Consultant will cooperate with the Commissioner in his or her examination and evaluation of the Proposed Plan.

Immediately upon the Commissioner's approval of the Proposed Plan (or of any plan that contains revisions thereto) ("Final Plan"), the Parties shall undertake to execute the Final Plan. Unless the Parties and the Commissioner agree it is not feasible to do so, the Parties will finalize execution of the Plan within two hundred forty (240) days from the date of receipt of written approval by the Commissioner of the Final Plan.

The Proposed Plan may include the following components, absent any then-existing circumstances that would likely negate the effectiveness of said components in restoring competition to its pre-consolidation state:

- Divestiture, into a separate and independent enterprise, of those facilities and other assets of the New Health System that are necessary to establish competition with said enterprise and restore, to the extent reasonably practicable, competitive conditions as they existed immediately prior to the merger in the markets subject to the termination order, along with all rights, title and interest in said assets, as well as applicable associated items including underlying real property, inventories, third-party contracts, names and trademarks, governmental consents, books and records and technologies that are essential to the operation of said assets as a going concern;
- Enablement of physician and non-physician employees of the Parties to be recruited to and employed by the owner of the divested assets, without regard to then-existing contractual restrictions on such recruitment or employment;
- Enablement of any physician to be recruited to, under contract with, and/or extended medical staff privileges by the owner of the divested assets, without regard to then-existing contractual restrictions on such recruitment, contractual relationships, or staff privileges;
- Assignment of any third-party contracts necessary to maintain ongoing, uninterrupted operation of the divested assets, along with cooperation and assistance in obtaining any third-party approvals that are required for such assignments;

- Provision, as needed, of transitional services for up to six months to the owner of the divested assets in the areas of administration, operations, information technology and clinical care, to ensure that the new competitive entity provides health care services with substantially the same level of quality and efficiency as the Parties;
- Maintenance of the same level of administrative, operational and clinical quality of all assets and operations that existed on the day before receipt of the Commissioner’s termination order through the period until obligations under the Plan of Separation expire; and
- Establishment of firewalls and other protective procedures to the extent necessary to enable a separate and independent apparatus for payer contracting by the new competitive entity.

Should the Commissioner believe that it would be beneficial, the Parties will provide for the Commissioner’s benefit an independent third-party health care expert to serve as a monitor (“the Monitor”) for the Plan of Separation. The New Health System would provide the funding for the Monitor.

Through the Monitor, the Commissioner could engage with the Consultant and the Parties to ensure the State’s interests are served. The Monitor would be responsible for ensuring the orderly implementation of the Plan and for providing regular input to the Parties and feedback to the Commissioner.

Should the Parties not fully execute the Plan within the above stated two hundred forty (240) day period, then the Commissioner may require that a Trustee be installed to take over the process of implementing and finalizing the Plan. The Monitor could serve in this role, or another party experienced in the health care industry could be engaged to serve in the role. In either event, the New Health System will be responsible for the costs associated with engaging the Trustee, and the fees and expenses associated with the Trustee’s work.

RE: Review of the Plan of Separation filed under the Application for Certificate of Public Advantage (“COPA”) by Mountain States Health Alliance and Wellmont Health System

Dear Dr. Dreyzehner:

FTI Consulting (“FTI”) has completed an independent review of the above referenced Plan of Separation between Wellmont Health System and Mountain States Health Alliance (collectively “The Parties”) filed under the COPA Application. The remainder of this letter details the objectives of our review, the findings from our review, and the limitations of this letter.

Objective of the Analysis

The objective of our independent review of the Plan of Separation (the “Plan”) was to assess if the Plan could be operationally implemented without undue disruption to essential health services provided by the Parties. To perform our work, FTI reviewed the following documents/materials:

- Community & Stakeholder Certificate of Public Advantage/Cooperative Agreement Pre-Submission Report, January 7, 2016.
- New Health System Alignment Policy.
- Certificate of Public Advantage, State of Tennessee, Application.
- Exhibit 15.1, Plan of Separation, COPA, State of Tennessee, Application.

Background on FTI Consulting

Founded in 1982, FTI Consulting has over 4,400 professionals in 80 cities around the globe. We are a publicly company traded on the NYSE (FCN), and we have an enterprise value in excess of \$1.7 B. FTI has experts in 16 industry specialties who provide advisory services to all 10 of the world’s top bank holding companies, 94 of the world’s top 100 law firms, and 47 of the Fortune 100 corporations. FTI has been built to address the full range of interrelated issues that can affect enterprise value.

FTI’s Health Solutions practice consists of over 300 professionals including clinicians, healthcare executives, strategists, and functional specialists located in 27 offices across the United States. Most of

our Health Solutions executives have more than 25 years of experience leading health systems, hospitals, and physician organizations; designing and implementing enhanced performance programs; and performing complex healthcare operational and financial analyses.

We advise clients on all aspects of provider performance improvement and planning, and tailor our recommendations to focus on solutions that we believe are most appropriate for each specific client situation. We have also worked with clients as they look to combine services, as well as divest them. In the past three years, we have worked with over 180 healthcare industry clients (Health Systems, Medical Groups, Academic Medical Centers) on a variety of projects.

Findings from the Analysis

In reviewing the Pre-Submission Report and the COPA Application, FTI noted that the inpatient hospitals, other patient care facilities, and ancillary entities specifically included in the proposed combination by the Parties can be clearly delineated as to which Party “contributed” the facility to the new combined entity. This delineation can be used as part of a common basis for developing plans for returning contributed assets and services to their pre-consolidation competitive state should the Plan of Separation be triggered.

FTI reviewed the New Health System Alignment Policy, and noted the following:

- The New Health System will evaluate opportunities for alignment of clinical facilities and clinical services provided by the parties based upon use of clinical and financial data, and inputs from physicians and other clinicians relevant to the service or facility which is the subject of the alignment.
- New Health System Management will identify the benefits and adverse effects of the proposed alignment.
- A New Health System Board Integration Committee will evaluate the proposals for alignment, including the data and inputs relied upon by Management, in formulating their recommendations for alignment.
- The New Health System Board Integration Committee will monitor the status of approved alignment efforts through periodic Management reporting. Furthermore, one year after the completion of the alignment, management will provide a report to the New Health System Board identifying lessons learned, physician feedback, community benefits and financial impact.
- The alignment process and all related analyses, studies, inputs, reporting, and other monitoring activities can also be used in developing plans for returning contributed assets and services to their pre-consolidation competitive state should the Plan of Separation be triggered.

Finally, FTI reviewed the Plan of Separation filed in the COPA Application itself, and noted the following:

- The specified intention of the Plan is to set out the process by which the Parties would effect an orderly separation of the New Health System created under the COPA, in the event that the

Commissioner determines it is necessary to terminate the COPA previously granted to the Parties, as set forth in T.C.A. section 68-11-1303(g).

- The Plan of Separation calls for the retention of a consultant with expertise in provider operations and competition in the healthcare industry to assist in complying with any termination order issued by the Commissioner of the Tennessee Department of Health.
 - The Consultant will be asked to analyze the competitive conditions in the market(s) subject to the Commissioner's termination order, and to identify the specific steps necessary to return the market(s) to their pre-consolidation competitive state. The Consultant will also be asked to take into account the data submitted in the COPA Application showing the structure of the geographic service area at the time of the consolidation.
 - The Consultant will assist the Parties in developing a plan to be submitted to the Commissioner for divestiture of assets and operations and any other actions that would be appropriate under then-current market circumstances designed to restore, to the extent reasonably practicable, competitive conditions to their pre-consolidation competitive state or otherwise remedy the competitive concerns identified by the Commissioner.
 - The final plan for divestiture and other actions must be approved by the Commissioner. FTI notes that the final plan will include a number of reasonable and prudent components outlined below in this letter, but not limited to:
 - Divestiture, into a separate and independent enterprise, of those facilities and other assets of the New Health System that are necessary to establish competition with said enterprise and restore, to the extent reasonably practicable, competitive conditions as they existed immediately prior to the merger in the markets subject to the termination order.
 - Enablement of physician and non-physician employees of the Parties to be recruited to and employed by the owner of the divested assets, without regard to then-existing contractual restrictions on such recruitment or employment.
 - Enablement of any physician to be recruited to, under contract with, and/or extended medical staff privileges by the owner of the divested assets, without regard to then-existing contractual restriction on such recruitment, contractual relationships, or staff privileges.
 - Assignment of any third-party contracts necessary to maintain ongoing, uninterrupted operation of the divested assets, along with cooperation and assistance in obtaining any third-party approvals that are required for such assignments.
 - Provision, as needed, of transitional services for up to six months to the owner of the divested assets in the areas of administration, operations, information technology and clinical care, to ensure that the new competitive entity provides health care services with substantially the same level of quality and efficiency as the Parties.

- Maintenance of the same level of administrative, operational and clinical quality of all assets and operations that existed on the day before receipt of the Commissioner's termination order through the period until obligations under the Plan of Separation expire.
- FTI noted that, under the Plan of Separation, the Commissioner has the ability to trigger the use of an independent third-party monitor, funded by the Parties, should the Commissioner determine that the use of such would be beneficial.
- A Trustee can also be named by the Commissioner under the Plan of Separation to take over the process of implementing the divestiture plan should the plan not be executed within 240 days after the termination order is issued.
- FTI further noted that the Plan of Separation must be updated on an annual basis, and that an evaluation and/or analysis of the Plan of Separation must also be conducted by an independent third party, knowledgeable in the healthcare industry and provider operations, on an annual basis.

Based on our experience as healthcare industry consultants, the above observations, and the findings derived from our review of the relevant documents, we believe that the Pre-Submission Report, The New Health System Alignment Policy, the COPA Application, and The Plan of Separation can serve as the basis for an effective process to restore competition to the pre-consolidation competitive state through an orderly transition that can be operationally implemented without undue disruption to the essential health services provided by the Parties so long as all appropriate clinical, operational, legal and other applicable guidelines and statutes are also followed.

Limitations of This Letter

This letter is only intended for the use by the Parties and the Commissioner of the Tennessee Department of Health in preparing, filing and evaluating a COPA application and should not be used for any other purpose. This letter is based on the performance of the procedures described herein, and is limited to assessing whether the Plan of Separation (and other related documents as noted) can be operationally implemented without undue disruption to essential health services provided by the Parties.

Consistent with the current Tennessee COPA Application guidelines, this letter is based on a one-year time horizon. Our understanding is that one year following the combination, the Plan of Separation and this letter would need to be updated.

FTI does not give, and this letter does not constitute, legal advice. This letter is current as of its date, and FTI has no duty to update it. Among other matters, later changes in market conditions may affect the views expressed in this letter.

Sincerely,

FTI CONSULTING
