

Make a Difference With United Way

United Ways of Tennessee

As Tennessee's leading community solutions provider, United Way is the driving force behind many initiatives that provide solutions to our state's most critical needs. United Ways in Tennessee and throughout the nation invest in and activate resources to make the greatest impact possible in communities across America, and here at home.

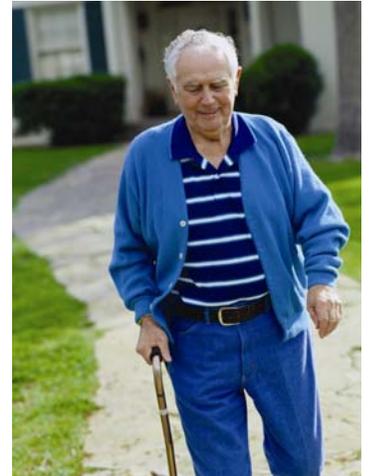

United Ways, as the largest and broadest federation of charitable organizations, provide funding and other support to more than 1,200 agencies and programs, meeting the most diverse and essential needs of Tennesseans...

Such as:

- Literacy programs
- Initiatives creating economic opportunity
- Enrichment programs for children and youth
- Domestic violence prevention and services
- Assistance to vulnerable and aging populations

In addition to traditional agency funding, United Ways are directly involved in initiatives that address critical community needs, including:

- Supporting the development of 46 pre-K classrooms across the state this year alone
- 2-1-1, the statewide information and referral line
- Early childhood intervention programs
- HIV/AIDS initiatives
- Crisis readiness and homeland security
- Family resource centers

Donating to United Way enables your gift to have a meaningful impact in your community, with measurable, accountable results for those dollars. To find out more or to get information about a local United Way, go to <http://uwtn.org>.

what matters in Tennessee.
