INTRODUCTION & OVERVIEW

Note from the Director of Eligible Training Providers

This is the 11th edition of the *Annual Performance Report of Statewide Eligible Training Providers*. In the time since the release of the first report, significant improvements have occurred in the Tennessee Department of Labor and Workforce Development's data infrastructure, policies and procedures, and the WIA quarterly reporting process. All of these changes were made with the intention of lessening the reporting obligation for our training providers while simultaneously ensuring that we obtain the mandated performance data in a standardized and timely fashion.

Performance Measures

In the current report, there are eight main performance measures provided for each program. The measures include:

1. *Completion Rate*: The percentage of students enrolled in the training program during the reporting year and who completed by June 30, 2012.
2. *Average Time to Completion*: For the WIA student population only, we have provided a measure of the average amount of time that it took students to complete each training program. This is valuable information for dislocated WIA students who perhaps desire to return to the labor force rather quickly. Times shown are listed in weeks.
3. *Entered Employment Rate*: The percentage of total completers with a valid wage recorded the 1st quarter after completion who were not employed the quarter before or during training.
4. *Placement Rate*: The percentage of individuals who completed the training program and were gainfully employed in the first quarter after completion.
5. *Employment Retention Rate*: For each program, this measure provides the percentage of completers who were gainfully employed the first quarter after completion and were still working 6-months later or the 2nd and 3rd quarters after completion
6. *Average Earnings (1st Quarter)*: Average wage the quarter following completion for those successfully placed during the first quarter after program completion.
7. *Average Earnings (2nd & 3rd Quarter)*: Average wage for those successfully placed during the second and third quarter after program completion. This captures wage data for students who may have had to undergo further testing (to obtain licenses, certifications, etc) after program completion.
8. *Average Earnings Adjustment*: Of those employed the quarter before program enrollment and the subsequent quarters of training, the average difference in the earnings the quarter before training compared to the first quarter after completion.

In sum, the report supplies valuable information to assist state and local WIA officials as well as potential WIA students in making informed choices when selecting training programs. An essential feature of the Workforce Investment Act is the "Customer Choice" orientation of the program. Individuals seeking assistance through WIA funding have the freedom of choice in selecting the training program that best fits their personal and career needs. As such, it is important that customers receive accurate information regarding the performance record of all training providers eligible to participate in

the WIA program. Informed customer choice requires a stringent system of accountability for all certified training providers.

ELIGIBLE TRAINING PROVIDERS & PERFORMANCE DATA

The Workforce Investment Act establishes requirements that a provider of a training program must meet in order to remain eligible to receive adult or dislocated worker funds under this title. There are two sets of requirements -- the first set relating to a providers **initial eligibility** and the second set relating to a provider maintaining **subsequent eligibility**.

Initial Eligibility

With respect to requirements for initial eligibility during the early stages of WIA implementation, a training provider that was a postsecondary education institution certified under the Higher Education Act and provided a program leading to a two or four-year degree or certificate, or that was an entity that carried out an apprenticeship program registered under the National Apprenticeship Act, was automatically eligible to receive funds if they filed an appropriate application with a local board. Providers of programs not meeting either of those two conditions had to satisfy alternative procedures that were established by the Governor for initial eligibility. That procedure was to include appropriate levels of performance if the provider had previously provided training services and other appropriate criteria.

Presently, the local boards certify all applications for initial eligibility to the statewide list. The local board submits the application(s) to the Tennessee Department of Labor and Workforce Development (TDLWD). TDLWD distributes a single list of providers identified from all local areas, making it available through the One-Stop System. Subsequent to the initial eligibility period, all providers (including those that were automatically eligible) must meet performance criteria established by the Governor to maintain eligibility.

Subsequent Eligibility

The performance criteria include levels of performance for all individuals participating in the provider's program relating to: the rate of completion; the percentage of all such individuals who obtain unsubsidized employment (which also may include the percentage of those who obtained such employment in occupations related to the program); and the wages at placement of such individuals. The criteria also include levels of performance relating only to students receiving WIA funds who participated in the provider's program. These criteria include the percentage of those participants who completed the program and obtained unsubsidized employment, the retention rate in such employment and the wage rate of those participants who completed the applicable program 6 months after employment; and the rate of licensure or certification as appropriate of those who completed. Each provider also must submit information relating to the costs of the program. The local boards may modify the performance criteria for programs of providers in the local areas by increasing the levels of performance above the minimum levels established by the Governor.

The performance information for each eligible program of a provider relating to these criteria are provided annually to the local boards. The Governor or the local boards may require providers to submit other additional program-specific information. The local boards or the Governor also may accept performance information consistent with the requirements of the Higher Education Act to fulfill these requirements. On-the-job training (OJT) and customized training are not subject to these requirements; however, the Governor may require such institutions to provide performance information to the one-stop operator and may establish performance criteria.

A participant may select any eligible program in the state if all other criteria relating to initial and subsequent eligibility for training services are met. An essential feature of the Workforce Investment Act was the “Customer Choice” orientation of the program. Individuals seeking assistance through WIA funding have the freedom of choice in selecting the training program that best fits their personal and career needs. As such, it is important that customers receive accurate information regarding the performance records of all training providers eligible to participate in the WIA program. Informed customer choice requires a stringent system of accountability for all certified training providers. Since the goal of the Workforce Investment Act is to obtain gainful employment, providers must demonstrate through performance data that in addition to simply completing a certified program, the obtained credential subsequently leads to increased employment opportunities.

Along with the goal of informed customer choice, analysis of performance data is also necessary to ensure the integrity of the Workforce Investment Act. To protect the WIA program from saturation with fraudulent or ineffective training providers, the Workforce Investment Act requires subsequent eligibility decisions based on annual performance standards. Only those programs compliant with mandated performance standards are eligible for continued placement onto the *Statewide List of Eligible Training Providers*.

The current report provides a performance assessment of completion and job placement rates for all WIA certified training providers in the state of Tennessee. Specifically, the report details performance data for the period covering July 1, 2011 through June 30, 2012. The report begins with a statewide analysis of the federally mandated performance data. Following the statewide analysis, the report summarizes the performance data for each Local Workforce Investment Area and then for each individual certified training provider.

DATA SOURCES

The WIA Quarterly Performance Reports provided the vast majority of the performance information on the WIA and ALL of student populations. However, giving the difficulty in obtaining information for the ALL of student population by program, certain providers received exemptions from reporting this information. Those granted exemptions are the Tennessee public 4-Year Universities, the Community Colleges, and the Technology Centers. These providers submit performance data for their WIA students only, and TDLWD receives performance data for their ALL of student populations from the *Tennessee Board of Regents*.

In all, six data sources were utilized in compiling the current report:

- WIA Quarterly Performance Reports – Covering July 1, 2011 through June 30, 2012.
- Tennessee Board of Regents – *Regular and Supplemental Enrollment Reports* for Summer 2011, Fall 2011, and Spring 2012.
- Tennessee Board of Regents – *2011-2012 Annual Report of Graduates* for 4-year universities and community colleges.
- Tennessee Board of Regents – *Tennessee College of Applied Technology Student Information System 2011-2012 Enrollment Report*.
- Tennessee Department of Labor and Workforce Development (TDLWD), Division of Employment Security – Tennessee Unemployment Insurance Wage Records (TUIWR) from April 1, 2011 through March 31, 2013.
- Wage Record Interchange System (WRIS) – National Unemployment Insurance Wage Records for each participant by quarter from April 1, 2011 through March 31, 2013.

WIA Quarterly Performance Reports – Description

All WIA certified training providers are required to submit quarterly reports detailing program progress for both WIA and ALL of students. “ALL of students” refer to the total number of students, and not just to the number of non-WIA students. Intrinsically, WIA students are a component of the figures describing the ALL of student population.

In each report, the certified provider documents the number of newly enrolled students, dropouts, completers, still enrolled, etc. In addition, when a student successfully completes a certified training program, TDLWD submits the student’s social security number to both TUIWR and WRIS at the conclusion of the fiscal year to check for wages the quarter following completion. Consequently, effective evaluation of each training program requires that providers submit all of the above information for both the WIA and ALL of student populations; with the exception of the TBR providers who only have to submit data for their WIA student population due to ALL of student data being obtained from TBR.

The current report may not include 4 quarters of performance data for all providers. In some cases a provider may have been removed from the Eligible Training Provider List during the report year. In another instance, a provider may not have become WIA certified until the last 2 or 3 quarters of the report period. There are three types of providers who are exempt from submitting quarterly reports and thus do not appear in the current report.

1. *New Provider:* Any provider whose initial application into WIA was certified between July 1, 2011 and June 30, 2012 and who did not receive a WIA student during that time is not required to begin submitting WIA quarterly reports until receiving a minimum of one WIA student. However, if the minimum of one WIA student was enrolled during the time after certification, the provider is required to submit a performance report.
2. *Never Received a WIA Student:* Any provider that has **NEVER** received a WIA student (since their inception into WIA) does not have to complete a quarterly performance report until they receive their first WIA student. This exemption does not refer to the quarter of the report, but rather the period that covers the provider’s initial inception into WIA up through June 30, 2012. Subsequently, after one WIA student is received, the provider is required to forever report on that particular program unless the terms are met to become a Dormant Training Provider as noted in 3 below.
3. *Dormant Training Provider:* Any provider that has received WIA students in the past although has not received any new WIA students within the previous 8 consecutive quarters. Determining this exemption status, WIA student enrollment dates are taken in account and not completion or withdrawal dates. Also, the provider cannot have any current WIA student enrollments.

Given conditions 1, 2 and 3 from above, not all of the providers who appear on the *Statewide List of Eligible Training Providers* will appear in the current report.

TBR Regular and Supplemental Enrollment Reports – Description

The enrollment reports consist of a record on each student attending the institution on the census date. The census date is the 14th calendar day from the beginning of classes each term. A record is generated for each student attending the institution, regardless of his/her courses. The data files include continuing education and co-op students, as well as regular resident students. The report from each institution is submitted through the reporting institutions governing board to the Tennessee Board of Regents.

General Guidelines of the TBR Enrollment Data Files:

- Courses are reported in the term in which the ending date of the course falls. The only exception to this rule is when a course, which is in progress on the 14th day of a term has an ending date in the succeeding term prior to the 14th day of the succeeding term. In these cases the course is reported in the regular report of the first term.
- Only those courses actually in progress on the 14th day census date are reported in the regular report. All other courses are reported in the supplemental report of the term in which the ending date of the course falls.
- Short courses are reported in the supplemental report even if they are in progress on the 14th day census date.
- Students enrolled exclusively in continuing education units are reported in the supplemental report. In addition, reporting on continuing education units was optional.
- Students who are permitted to enter a course after the 14th day are reported in the supplemental report.

TBR Annual Report of Graduates – Description

The Annual Report of Graduates consists of information on each student who completed academic programs during the 2011-2012 year. The year is defined as all of the academic terms from summer 2011 term through spring 2012 term. All 4-year universities and community colleges submitted the reports to the TBR no later than August 2011.

TBR TCAT Student Information System 2011-2012 Enrollment Report – Description

The student information report is due in the TBR office no later than 15 calendar days after the completion of each term. The term dates are the same as those for the WIA Quarterly Performance Reports.

The enrollment report consists of a record for each student who attended the institution during a term. If a student enrolls in more than one program in a term, then a separate record is generated for each program. In the case of satellite sites, the lead institutions submit the report electronically.

The enrollment report for the technology centers includes all of the graduate information, thus there is no need for a separate graduates report.

Tennessee Unemployment Insurance Wage Records (TUIWR) – Description

The Workforce Investment Act creates a performance accountability system to assess the effectiveness of states and local areas in achieving continuous improvement of workforce investment activities. The system requires that each state and local area, as part of a regular performance accountability assessment, consider the impact of workforce investment services upon wages of the recipients of those services.

Utilizing Tennessee Unemployment Insurance Wage Records (TUIWR), TDLWD checked for reported wages across the state of Tennessee. TUIWR data provided wage information for eight consecutive quarters spanning from April 1, 20011 through March 31, 2013. In all, 933,004 wage records from

Tennessee were analyzed in computing placement the rates. The 933,004 records reflected wage data for 99,437 students who completed training programs in the state of Tennessee.

Eight quarters of wage information are analyzed for each completer. Only those individuals with a reported wage amount during the quarter immediately following the completion of a WIA certified training program are classified as a job placement. The obtained wage amount does not have to be in the individual's particular field of study. Also the nature of the business conducted by the employer who submitted each particular wage is unknown.

Wage Record Interchange System (WRIS) - Description

The Wage Record Interchange System (WRIS) is an important element in the effort of states to comply with the program assessment and reporting requirements of the Workforce Investment Act. In order to realistically measure the benefits derived from workforce investment services, wages earned outside the state where the services were provided must be measured in addition to those earned locally.

Through WRIS, requesting states can obtain access to other states' confidential Unemployment Insurance (UI) wage data for individuals to whom the requesting states have provided workforce investment services. All states participating in WRIS have entered into Data Sharing Agreements with one another, thereby agreeing that their employees, contractors and/or agents will handle WRIS data in a manner that will protect its confidentiality to the greatest extent possible. Individuals at TDLWD with access to WRIS data have signed a form acknowledging their understanding of the confidential nature of WRIS data and their obligation to follow prescribed standards for its proper handling.

Complementing the information obtained from TUIWR, WRIS was designed to obtain wage data for the following individuals in WIA certified programs:

- Individuals who received services in a WIA program and who subsequently relocated to another state for employment.
- Individuals who reside in the state where they received services in a WIA program but who obtained their primary employment in another state.
- Individuals who reside in the state where they received services in a WIA program and who obtained employment in their resident state as well as secondary employment in another state.

With Tennessee bordering eight states, it is important that we check for wages beyond the Tennessee state line. As of April 2012, all 50 states as well as the District of Columbia and Puerto Rico participate in WRIS.

In the current report, WRIS provided wage information for eight consecutive quarters for the time period spanning from April 1, 20011 through March 31, 2013. In all, WRIS supplied 31,274 wage records that were analyzed computing placement rates. The 31,274 wage records were extracted from Unemployment Insurance Wage data. Table 1 presents a breakdown of the top 20 states supplying wage records for inclusion in the current report. Not surprisingly, the eight states that directly border Tennessee appear among the top 20 (**bold states**).

Table 1

State	Number of Wage Records Submitted
Kentucky	4,077
Mississippi	3,009
Virginia	2,967
North Carolina	2,290
Texas	2,028
Florida	1,972
Alabama	1,524
Arkansas	1,433
California	1,200
Illinois	1,187
Georgia	915
Ohio	860
New York	611
Louisiana	531
Michigan	527
Colorado	517
Missouri	453
South Carolina	437
Maryland	352
Washington	340

DATA LIMITATIONS

TBR Regular and Supplemental Enrollment Reports – Limitations

Proxy ALL of Student Completion Rate – Because of the lack of a still enrolled indicator, the ALL of student completion rate for 4-year universities and community colleges is not directly comparable to the remaining WIA providers. The completion rates are calculated by subtracting the number of students still enrolled from the total population of enrollments (See page 14). However, in the case of the 4-year universities and the community colleges, a proxy variable was created to reflect the total population of eligible completers, and then ALL of student completion rate was calculated based on how many of these individuals were recorded in the *Annual Report of Graduates*.

TUIWR & WRIS - Limitations

1. Unfound Social Security Numbers – Some certified programs train students for self-employment (i.e. barbering), in which case their wage amounts would not show up in the Tennessee Unemployment Insurance Wage Records or in WRIS. The same would occur for deceased individuals or those who joined the military. In which case, an unfound social security number does not necessarily mean an individual did not have gainful employment; it just means the social security number was not matched in either of the two sources utilized for wage information (TUIWR and WRIS).
2. Failure to Submit ALL of Student Social Security Numbers – Providers are generally exceptional in submitting social security numbers for WIA completers; however, many neglect to do so for their ALL of student completers (in this case non-WIA completers). As a result, their ALL of student placement rates may not reflect their true rate of placement. Each provider is aware of the importance of submitting

social security numbers for ALL completers and the failure to submit this information does not exempt the provider from meeting this performance standard.

DESCRIPTION OF PERFORMANCE STANDARDS

The procedures for determination of subsequent eligibility includes a review of each certified training program that has served at least 10 WIA students since its initial inception onto the *Statewide Eligible Training Providers List*. The current report includes performance analysis for all certified programs that received a minimum of 1 WIA students between the period of July 1, 2011 through June 30, 2012. (Although, a program having 1 WIA student enrollment and not having any performance information, i.e. 1 WIA student enrollment who was still enrolled at the conclusion of the report year and not having any ALL of student information.) However, only those programs with a minimum of 10 WIA students enrolled during this time are considered in subsequent eligibility decisions. To remain subsequently eligible to receive WIA funds, each certified program **must meet one of four performance standards**.

Any program receiving at least 10 WIA students and failing to meet at least one of the four performance measures is subsequently ineligible to receive WIA students. Those programs removed from the list are eligible for reinstatement at the end of the suspension period, which expires at the conclusion of each fiscal year.

The state minimum performance standards have not been changed since WIA inception in Tennessee; however, the LWIB standards have changed. Additionally, there is a general state initiative to increase the proportion of students who complete higher education in the state. This is indicated by the passage of the Complete College Tennessee Act in January 2010. Among other things, the Act brought a change in the performance funding model used by the Tennessee Higher Education Commission (THEC). Under the old funding model, institutional funding levels were determined based on the number of student enrollments. The Act changed the formula and tied institutional funding levels to the graduation rates. The change was intended to hold public institutions more accountable for getting their students to graduation. The new performance standards are noted below.

Performance Standards – Text Description

- The **WIA completion rate** for each program must be equal to or greater than 40 percent.
- The **ALL of student completion rate** for each program must be equal to or greater than 40 percent.
- The **WIA placement rate** for each program must be equal to or greater than the 70 percent.
- The **ALL of student placement rate** for each program must be equal to or greater than 70 percent.

Figure 1 – Illustration of the Four Performance Standards

Calculation of Performance Standards

The performance standards for WIA Eligible Training Providers are calculated as follows:

Completion Rate

$$\left\{ \frac{\text{Total Number of Completers During the Fiscal Year}}{(\text{Total Number Enrolled During the Fiscal Year}) - (\text{Total Number Still Enrolled at End of Year})} \right\} * 100$$

The ALL of student completion rates for the 4-year universities and the community colleges were calculated using a slightly different equation given the absence of an indicator for the number of students still enrolled. The first step in computing the ALL of student completion rate for this subset of providers was to find the total population of eligible completers.

The total population of eligible completers at the 4-year universities was established by extracting from the *TBR Regular and Supplemental Enrollment Reports* only those students classified as a “Senior or a Fifth Year Undergraduate.”

Note: According to the Data Dictionary for the *TBR Regular and Supplemental Enrollment Report*, a fifth-year undergraduate is a student enrolled in a program, which normally takes five years to complete, e.g. some engineering programs or medical technology degrees. The term does not describe students who take five years to complete a four-year degree.

For the community colleges, the total population of eligible completers was established by extracting from the *TBR Regular and Supplemental Enrollment Reports* only those students classified as a “Sophomore” or those classified as “Undergraduate Special.”

Note: According to the Data Dictionary for the *TBR Regular and Supplemental Enrollment Report*, an Undergraduate Special student is classified as one who is 1) non-degree seeking and holds no

degree or certificate; or 2) non-degree seeking, holding any level degree, but taking only courses for undergraduate credit; or 3) non-degree seeking, holding no bachelor's degree, and taking courses for both graduate and undergraduate credit; or 4) one seeking a Technical Certificate or Credit.

The community college ALL of student performance rates include undergraduate special students, because a significant proportion of WIA students fall into this category (particularly condition 4).

The ALL of student completion rate for the 4-year universities and community colleges was estimated by computing the percentage of population of eligible completers that were found in the *2011-2012 Annual Report of Graduates* (see Figure 2). The percentages were computed by program.

For example, assume that Middle Tennessee State University (MTSU) has 100 students enrolled in their psychology program that are classified as a senior according to the *TBR Regular and Supplemental Enrollment Reports* for the 2011-12 academic year. If 75 of these students are reported in the *2012 Annual Report of Graduates*, then MTSU's annual completion rate for their psychology program is figured as 75%.

Figure 2 – Illustration of ALL of Student Completion Rate for 4–Year Universities & Community Colleges

Placement Rate

What is Considered a Placement?

Figure 3 – Illustration of Placement Indicator

The blue cells indicate the quarters included in the current annual report. For every social security number submitted in WRIS and TUIWR queries, reported wage amounts for the specified eight quarters are returned. Both WRIS and TUIWR data files are combined into one database. This process adds the wages that were earned outside of Tennessee, to the participants' in-state earnings. If an individual was unemployed for one quarter, then the returned file would only contain seven reported wage amounts. In addition to combining the two wage sources, the reported wage amounts are aggregated by quarter, i.e. if an individual was working for two different employers for any particular quarter, the two wage amounts are added together to reflect one quarterly earnings indicator. In determining job placements, TDLWD considers when the individual completed their respective program. For instance, if an individual completed a WIA program during the fourth quarter of 2011, in order for the provider to receive credit for this individual as a job placement, the completer must show a wage during the first quarter of 2012 (see Figure 3).

ABBREVIATIONS GUIDE & DESCRIPTION

Throughout the individual provider summary pages, there appears a series of abbreviations denoting the following:

- EX EXCLUDED – Data for the program in question has been excluded in order to maintain the confidentiality of individual student data. In some instances a provider may have 2 programs; 1 listed with performance data (having 5 or more WIA student enrollments) and another listed with NA (not having 5 or more WIA enrollments). In this instance, “EX” is listed in Institutional Totals in place of actual calculations to eliminate the ease of computing masked data.
- IC INSUFFICIENT COMPLETERS – The program in question had 3 or few completers. To protect the confidentiality of individual students, this data is not displayed. This is done according to WRIS requirements.
- IE INSUFFICIENT ENROLLMENTS - The program in question had less than 10 WIA enrollments during the fiscal year and therefore, is not considered in subsequent eligibility decisions. Only programs having 10 or more WIA student enrollments are held accountable for obtaining the stated performance standards.
- NA NOT APPLICABLE – One of two things will result in having NA in place of program data. (1.) The program in consideration had less than 5 WIA students enrolled as of the report conclusion date, 06/30/12 Or (2.) a calculation was not applicable for the stated variable. Data may not have be available to provide a calculation.
- NP NO PLACEMENTS – The program in question had no completers who were successfully placed within the first quarter following program completion. In such cases, the placements rates and wage information will be limited.

2011-2012 STATEWIDE LIST CHANGES

Table 2 lists those institutions added to the *Statewide List of Eligible Training Providers* during the 2011-12 fiscal year. There were 11 new providers added to the statewide list.

Table 2 – 2011-12 Statewide List Additions

Provider	LWIA
Bryan College Knoxville Campus	3
Advanced Nurse Assistant Training, LLC	9
CDL Academy	13
Compassionate Clinical Services, LLC	5
Driver Training Center, LLC – Dyersburg	12
Edumed Partners, LLC	9
Motlow State Community College – McMinnville	6
Motlow State Community College – Smyrna	9
Tennessee Real Estate Education Systems, Inc. (TREES)	9
Vatterott Career College – Appling Farms	13
Welding 101, LLC - Clarksville	8

Table 3 provides a list of those institutions deleted from the *Statewide List of Eligible Training Providers* during the 2011-12 fiscal year. In all, there were 5 providers removed from the statewide list. The providers were removed for various reasons as indicated by the table. Specifically, 2 providers requested removal, 1 was removed for failing to submit quarterly performance data and 2 were removed due to school closure.

Table 3 – 2011-12 Statewide List Removals

Provider	LWIA	Reason
Baptist Memorial College of Health Sciences	13	PRR
CAC Office on Aging	3	PRR
CNA – Compassionate Care Program, LLC	11	RSC
Heartland Truck Driving Institute – Dyersburg	12	RSC
West Tennessee CDL Tennessee, LLC	11	RQD

PRR = Provider requested removal

RQD = Removed because the provider failed to submit a quarterly performance report

RSC = Removed as a result of the school closing

Table 4 provides a list of providers who underwent a name change during the 2011-12 fiscal year. In all, there were 3 providers that submitted a provider name change. These providers underwent the appropriate process as given by their authorizing body.

Table 4 – 2011-12 Provider Name Changes

Previous Provider Name	Current Provider Name	LWIA
MedVance Institute – Cookeville	Fortis Institute – Cookeville	7
MedVance Institute – Nashville	Fortis Institute – Nashville	9
Nashville Auto Diesel College	Lincoln College of Technology	9

Local Workforce Investment Area 1
