

<b>TENNESSEE STATE BOARD OF EDUCATION</b>	
<b>TWO-WAY COMMUNICATION SYSTEMS</b>	<b>2.301</b>

School systems choosing to place two-way communication systems in new and renovated schools shall ensure that teachers and other personnel are trained to use the two-way communication system as follows:<sup>1</sup>

1. The building administrator will ensure all teachers and other personnel have been trained and can effectively use the two-way communication system provided in their school. The building administrator will consider whether to train designated students to use the two-way communication system in special instances in which the teacher is unable to notify an administrator of an emergency.
  
2. The building administrator will provide teachers and other personnel with written emergency procedures which include procedures for using the two-way communication system provided in their school. Such emergency procedures shall be provided prior to the beginning of classes for any school year and when changes are made in the emergency procedures and/or personnel. Such emergency procedures shall be linked to the school and school system emergency preparedness plan.
