CHAPTER 1

INTRODUCTION TO TIBRS

The Tennessee Incident Based Reporting System (TIBRS) is the method used to collect crime statistics in Tennessee. TIBRS is based upon the concept of collecting data on crime incidents and all of the elements associated with each incident. Having the ability to precisely identify when and where crime takes place, what form it takes and the characteristics of its victims and perpetrators is an indispensable tool for law enforcement.

Reporting crime statistics is mandated by law, Tennessee Code Annotated (T.C.A.) §38-10-101, et seq., for all law enforcement agencies and T.C.A. §49-7-2201, et seq., for colleges/universities.

HOW DOES TIBRS WORK?

First, an officer fills out an incident report. The report should contain certain elements pertaining to the incident. Chapter 2 will discuss the elements and codes used when reporting the information to TIBRS. The second step will be to classify the offense(s) that have occurred. It should then be determined whether Group A or Group B offense(s) have occurred. To accomplish this step, standard TIBRS offense definitions should be identified and applied. TIBRS offense definitions can be found in Chapter 3 (Group A) and Chapter 4 (Group B).

Each agency will select a software program to collect the data. TBI provides a web-based application called the Tennessee Crime Online Portal (*TnCOP*). The only cost involved at the agency level is a computer with high speed internet. Additionally, agencies may choose to purchase a *complete* records management system from a commercial vendor.

Agencies using vendor software are required to submit a file each month to the TBI. The data for agencies using the web-based software known as *TnCOP* is submitted over the Internet as they are entered. Statistical reports based on this data are available to all agencies at: www.tncrimeonline.com.

JURISDICTIONAL REPORTING GUIDELINES

Many law enforcement agencies in the state have jurisdictions that overlap. To prevent data in these particular jurisdictions from being reported more than once, the following guidelines have been developed:

1. City law enforcement agencies will report offenses that occur within their city boundaries.
2. County agencies will report offenses that take place in the county outside the limits of the city.
3. State agencies will report offenses in which they have original jurisdiction.

4. Colleges and universities report incidents that occur on their campus. If the incident occurs on a satellite campus, it must be reported by the main campus. For a detailed definition of “campus” please refer to the TIBRS section on the TBI web site (www.tbi.tn.gov).
5. If local, state and federal agencies are all involved in an investigation, the local agency will be responsible for reporting the incident.
6. When two or more agencies are involved in the investigation of the same incident and there is an agreement defining the roles of the agencies, the agreement should designate which agency will report the incident to TIBRS.
7. Arrests are reported by the agency that first reported the incident, regardless of which agency makes the arrest or where the arrest is made.
8. Recovery of property is reported by the agency that first reported it stolen, regardless of which agency recovered the property or where they recovered it.

The purpose of reporting TIBRS data is to depict the nature and volume of crime in a particular community, not to claim or “take credit” for the number of investigations, arrests, etc., or to serve as a measurement of workload. Most agencies will, of course, maintain a separate record of such arrests for administrative use.

DEFINITION OF AN “INCIDENT”

An “incident” is defined for TIBRS reporting purposes as “one or more offenses committed by the same offender, or group of offenders acting in concert, at the same time and place.” “Acting in concert” requires that the offenders actually commit or assist in the commission of the crime(s). The offenders must be aware of, and consent to, the commission of the crime(s); or even if non-consenting, their actions assist in the commission of the offense(s). This is important because all of the offenders in an incident are considered to have committed all of the offenses in the incident. [See Example 1]

If one or more of the offenders did not act in concert, then there is more than one incident involved. [See Example 2]

“Same time and place,” means that the time interval between the offenses and the distance between the locations where they occurred were insignificant. Normally, the offenses must have occurred during a continuing time duration and at the same or adjoining location(s). However, incidents can also be comprised of offenses, which by their nature involve continuing criminal activity by the same offender(s) at different times and places, as long as the activity is deemed to constitute a single criminal transaction. [See Example 3 on next page]

EXAMPLE 1: Two offenders entered a convenience store. One offender pointed a gun at the clerk and said, “Give me the money”. The other offender was just standing there. However, offender two did nothing to stop the robbery. This would be reported as one incident with two offenses (Robbery, Weapon Law Violation), two offenders and two victims (the clerk and the store).

EXAMPLE 2: Same store, same two offenders. This time, however, when they left the store they separated. One offender ran down the street (south) and stole a car. The other offender ran up the street (north) and was chased by an officer. He shot at the officer. This would be reported as three separate incidents: 1) Robbery, Weapon Law Violation; 2) Motor Vehicle Theft; and 3) Aggravated Assault, Weapon Law Violation.

EXAMPLE 3: Over a period of 18 months, a computer programmer working for a bank manipulated the bank's computer and systematically embezzled \$70,000. The continuing criminal activity constituted a single "incident" involving the offense of Embezzlement.

CLASSIFYING AN OFFENSE

When classifying an offense, it should first be determined if it is a Group A or Group B offense. A Group A incident may contain up to ten (10) offense codes. Group B offenses, because they consist of arrestee information only, may only contain one (1) offense code. ***If multiple arrests for Group B offenses are made during one event (i.e. four juveniles are cited for Liquor Law Violations at the same time, same location), the arrests should be submitted under separate incident numbers.*** The TIBRS definitions in Chapters 3 and 4 should be used. If an agency has evidence that proves the crime to be unfounded (never actually occurred), the incident should not be reported to TIBRS. If the agency has already submitted the incident, it should be deleted.

TIBRS Tip: Offenses should be classified according to the TIBRS definitions and not according to local, state, or federal codes. The following examples show the differences between classification at the local level and classification for TIBRS.

EXAMPLE 1: A victim's car was broken into and an audio CD was stolen from the glove compartment. Under T.C.A. this would be considered burglary of a motor vehicle. For TIBRS reporting purposes this would be reported as Larceny, Theft From a Motor Vehicle (23F). The property category is Recordings – Audio/Visual (27).

EXAMPLE 2: Same situation as the first example, but this time the suspect took the car stereo from the dashboard. Under T.C.A. this would also be considered burglary of a motor vehicle. This would be reported in TIBRS as Larceny, Theft of Vehicle Parts/Accessories (23G) because the stereo was "attached" to the vehicle. The property category is Vehicle Parts/Accessories (38).

EXAMPLE 3: A victim's house was burglarized and his television was stolen. Under T.C.A. and TIBRS this would be reported as a Burglary (220). The property category is Radios/TVs/VCRs (26).

EXAMPLE 4: A subject visited a car dealership to test drive a truck. He told the sales person that he would return it in twenty minutes, but never brought the truck back. Under T.C.A. this would be considered Motor Vehicle Theft. For TIBRS reporting purposes it would be reported as Fraud, False Pretenses/Swindle/Confidence Game, (26A) because the subject lied, or used deceit, to steal the car. The property category is Trucks (37).

OFFENSE CATEGORIES AND COUNTING METHODOLOGY

Offenses are divided into three categories:

CRIMES AGAINST PERSONS:

Victims are always “individuals,” e.g., murder, rape, aggravated assault. ONE offense is counted for each VICTIM.

CRIMES AGAINST PROPERTY:

The offender’s intent is to obtain money, property, or some other benefit, e.g., robbery, bribery, burglary. ONE offense is counted for each distinct OPERATION (each incident/case) except motor vehicle theft, where one offense is counted for each vehicle stolen.

CRIMES AGAINST SOCIETY:

Represent society’s prohibition against engaging in certain types of activity, e.g., gambling, prostitution, and drug violations. ONE offense is counted for each OPERATION (each incident/case).

CHAPTER 2

ELEMENTS OF DATA COLLECTION

GROUP A INCIDENT REPORT

ADMINISTRATIVE DATA

The administrative data section of the Group A incident report identifies each incident uniquely. Each reported Group A incident has one administrative segment. The following information must be entered for each incident:

ORI NUMBER

The nine-character National Crime Information Center (NCIC) Originating Agency Identifier (ORI) number assigned to your agency is used to identify (a) the reporting agency, and (b) the location where the incident occurred.

INCIDENT NUMBER

An incident number is assigned by your agency containing up to 12 characters to identify each Group A Incident and can be the actual case number or a number assigned for TIBRS purposes. For *TnCOP* software users, the incident number is automatically generated. Each incident must have a unique number comprised of A-Z, 0-9 or – (hyphen). Alpha characters, if used, must be capitalized. These are the only valid characters that can be used. It *cannot* contain any other characters or symbols. ***The number for a Group A incident cannot be the same number used for a Group B incident.***

INCIDENT DATE

The incident date is the actual month, day and year when the incident occurred. It must be entered in a mm/dd/yyyy format (8 digits). If the actual incident date is not known, the incident date should be the earliest possible date that the incident could have occurred. It is **NOT** the date the report was taken.

REPORT DATE

If the incident date is unknown *and there is no possible way* to determine a reasonable time frame estimate, use the month, day and year the incident was reported followed by an “R”. These instances should be extremely rare.

INCIDENT TIME

The actual time an incident occurred or the beginning of the time frame in which it could have occurred. TIBRS uses 24 hour military time.

MILITARY TIME TABLE

A.M.	P.M.
Midnight = 0000	Noon = 1200
01:00 = 0100	01:00 = 1300
02:00 = 0200	02:00 = 1400
03:00 = 0300	03:00 = 1500
04:00 = 0400	04:00 = 1600
05:00 = 0500	05:00 = 1700
06:00 = 0600	06:00 = 1800
07:00 = 0700	07:00 = 1900
08:00 = 0800	08:00 = 2000
09:00 = 0900	09:00 = 2100
10:00 = 1000	10:00 = 2200
11:00 = 1100	11:00 = 2300

CLEARING AN INCIDENT

There are two ways to clear an incident in TIBRS: Group A incidents can be cleared either by “arrest” or “exceptional means.” Group B incidents may only be cleared by arrest.

If an arrest has been made in an incident, then an exceptional clearance is never applicable and cannot be submitted.

It is recognized that some law enforcement agencies permit the discontinuance of investigation and the administrative closing of cases when all productive investigation has been exhausted or cases the agency deems to be “unsolvable.”

However, the administrative closing of a case or the “clearing” of it by departmental policy does not permit exceptionally clearing an offense in TIBRS unless all four criteria, listed on the following page, have been met. In addition, the recovery of property alone does not clear an incident for TIBRS purposes.

ARREST CLEARANCES

When an offender is arrested for a reportable offense, the incident is considered cleared for TIBRS purposes. Instances may occur when an offender already in your custody or serving a sentence confesses to a crime which has not been cleared. In this situation the incident will be cleared by arrest. Arrestee data should be reported on the offender who will, in most instances, be prosecuted for the new charge. The offense will be cleared automatically upon receipt of the arrestee data by the TBI and FBI.

EXCEPTIONAL CLEARANCES

An incident is cleared exceptionally when a qualifying element beyond law enforcement control prevents a physical arrest. **ALL FOUR** of the following conditions must be met to clear an offense by exceptional means:

1. Investigation must have established the identity of at least one offender. This means the agency knows at least one offender’s name, sex, race, age and ethnicity.
2. Sufficient probable cause must have been developed to support the arrest, charging, and prosecution of the offender.
3. The exact (present) location of the offender must be known so that an arrest could be made.
4. There must be a reason outside of law enforcement control, which prevents the arrest. The valid reasons and explanations are provided below.

EXCEPTIONAL CLEARANCE CODES

Death of the Offender.....A	Victim Refused to Cooperate.....D
Prosecution Declined.....B	Juvenile/No Custody.....E
In Custody of Other Agency/Jurisdiction.....C	Not Applicable (No Exceptional Clearance).....N

DEATH OF THE OFFENDER: Offender accidentally killed or dies of natural causes, suicide of the offender, double murder, deathbed confession, or offender is killed by police or citizen. *Only applicable when you have established the identity of at least one offender, have probable cause to arrest that offender, and you know the exact (present) location of that offender.*

PROSECUTION DECLINED: Prosecution declined by the *prosecutor* for reasons other than lack of probable cause, e.g., offense falls outside prosecution guidelines by virtue of value of loss, first-time offender, etc. *Only applicable when you have established the identity of at least one offender, have probable cause to arrest that offender, and you know the exact (present) location of that offender.*

IN CUSTODY OF OTHER AGENCY/JURISDICTION: Offender was prosecuted by authorities in another city or state for a different offense, or for an offense which may be the same (an attempt is made to return the offender for prosecution but other jurisdiction will not allow the release, or extradition is waived). *Only applicable when you have established the identity of at least one offender, have probable cause to arrest that offender, and you know the exact (present) location of that offender.*

VICTIM REFUSED TO COOPERATE: Victim refused to cooperate in the prosecution of the offender. This code is only applicable when a *victim* has actually stated or made it known to the agency that they refuse to cooperate or pursue the prosecution of the offender. This code is NOT used simply because an agency is unable to contact a victim. *Only applicable when you have established the identity of at least one offender, have probable cause to arrest that offender, and you know the exact (present) location of that offender.*

JUVENILE/NO CUSTODY: The warning to the parents or legal guardian of a juvenile offender in a case involving a minor offense, without the juvenile having further contact with the criminal justice system/authorities. *Only applicable when you have established the identity of at least one offender, have probable cause to arrest that offender, and you know the exact (present) location of that offender.*

EXCEPTIONAL CLEARANCE DATE

If an incident was cleared by exceptional means, the month, day and year it was cleared must be reported (mm/dd/yyyy).

CLEARING MULTIPLE-OFFENSE INCIDENTS

In a multiple-offense incident, the exceptional clearance of any one of the offenses involved clears the entire incident. An incident cannot be cleared exceptionally when an arrest has been made in connection with the incident, because the incident will be cleared by arrest.

Report the Latitude for the location where the incident occurred if known.

LONGITUDE

Report the Longitude for the location where the incident occurred if known.

INVESTIGATION

This question refers to whether the incident/shooting was investigated by an outside agency. Enter “Yes” or “No”.

OFFENSE DATA

The following information requirements apply to each offense within each crime incident.

TIBRS OFFENSE CODE

Report the TIBRS Offense Code(s) for the most serious offenses (up to 10) involved in a Group A incident. Record each code only once even though there may have been more than one victim per offense. One set of offense data is to be submitted for each code reported.

Classifying offenses is determining the appropriate crime categories (or codes) in which to report offenses in TIBRS. Classification is based on the facts of the agency’s investigation of crimes.

BIAS MOTIVATION

Because of the difficulty in ascertaining the offender’s subjective motivation, bias is to be reported only if the investigation reveals sufficient objective facts to lead a reasonable and prudent person to conclude that the offender’s actions were motivated, in whole or in part, by bias against a racial, religious, ethnic/national origin, physical or mental disability, or sexual orientation group.

TIBRS Tip: Incidents which do not involve any facts and/or evidence indicating biased motivation on the part of the offender are to be reported as “None.”

Incidents involving ambiguous facts and/or evidence (i.e., where some facts/evidence are present but are not conclusive) are to be reported as “Unknown.” However, upon completion of the investigation, the incident should be edited to either “None” or the proper bias motivation code.

In a Hate Crime, the Victim should rarely be “Society”.

<p><i>If there is no evidence that a Hate Crime was committed, select “None” as the Bias Motivation code. Incidents submitted with a bias motivation code of “Unknown” will be counted as a Hate Crime in the agency’s statistics.</i></p>

Assault and Homicide Offenses are always reported as “Completed” for TIBRS.

OFFENDER SUSPECTED OF USING

Indicate whether any of the offenders in the incident were suspected of consuming alcohol, using drugs/narcotics during or shortly before the incident, or of using a computer, computer terminal, or other computer equipment to perpetrate the crime. Any or all of the following first three categories can be used for each offense. If none apply, select “Not Applicable.”

When reporting the weapon used, select the most specific weapon type listed, e.g., a revolver should be reported as “Handgun” rather than “Firearm.” If a weapon was used that could be employed in several ways, choose the weapon type that indicates how the weapon was used.

EXAMPLE 1: If a murder victim was beaten with a baseball bat, report as “Blunt Object.”

EXAMPLE 2: If the victim was cut or stabbed with the broken bottle, the weapon/force should be reported as “Knife/Cutting Instrument.”

METHOD OF ENTRY FOR BURGLARY

For each Burglary/Breaking and Entering offense, report whether or not force was used by the burglar(s) to enter the structure. A forced entry is where force of any degree or a mechanical contrivance of any kind is used to unlawfully enter a structure for the purpose of committing a theft or felony. This act includes entry by use of tools; breaking windows; forcing windows, doors, transoms, or ventilators; cutting screens, walls, or roofs; and where known, the use of master keys, picks, unauthorized keys, celluloid, or other devices which leave no outward mark but are used to force a lock. Burglary by concealment inside a building followed by exiting the structure after the theft is also considered forced entry.

An unforced entry involves unlawful entry through an unlocked or open door or window.

The element of trespass to the structure is essential in this classification. This includes thefts from open garages and warehouses, open or unlocked dwellings, and open or unlocked common basement areas in apartment houses (where entry is by someone other than the tenant who has lawful access). If the structure was one of open access, thefts from the premises would not involve an unlawful trespass and would be reported as larceny.

TIBRS Tip: If both forcible and non-forcible entries were involved in the crime, the offense should be reported as having been accomplished through force.

NUMBER OF PREMISES ENTERED

Report this information ONLY if the crime is Burglary/Breaking and Entering and the location is “Hotel/Motel/Etc.” or “Rental Storage Facility.” In such cases, the number of structures (premises) entered (01-99) is to be reported. The total should include the number of individual rooms, units, suites, storage compartments, etc., entered.

HOME INVASION

If the incident included a Burglary or Robbery offense, was a Home Invasion involved?

A Home Invasion occurs when one or more subjects enter an occupied dwelling with the intent to commit an offense therein, and in the course of their entry or presence in the dwelling, commit one or more violent offenses (e.g. rape, assault, etc.) against the occupants of the dwelling. The valid codes are: “Y” (Yes) and “N” (No).

IDENTITY THEFT FLAG

Whenever an offender steals or counterfeits/forges any type of identity document, including but not limited to credit or debit cards, credit or debit card account numbers, pin numbers, driver's license numbers, social security numbers, etc. with the intent to use the stolen or counterfeited/forged document(s) to:

Deceive, defraud, or otherwise illegally obtain money, property or any other thing of value, including intangibles; or to negatively influence the victim's credit rating.

From Investipedia:

“The crime of obtaining the personal or financial information of another person for the sole purpose of assuming that person's name or identity in order to make transactions or purchases.”

Indicate whether or not this incident included the element of identity theft by selecting Yes (Y) or No (N). It is only applicable when reporting the following offenses:

GANG ACTIVITY

This data field collects information on gang involvement in an incident. A gang is defined as an ongoing organization, association, or group of three or more persons and who have a common interest and/or activity characterized by the commission of, or involvement in, a pattern of criminal or delinquent conduct. By Tennessee statute any offense may involve gang activity. For additional information, including gang definitions, please refer to Chapter 5, pages 87-90.

DRUG-RELATED OFFENSES, DRUG ORIGINS AND PRECURSORS

DRUG-RELATED/MOTIVATED OFFENSES

All Drug/Narcotic Violations are by their inherent nature drug-related. Other offenses should be reported as drug-related if there is strong reason to believe that the offense was committed either in order to obtain illegal drugs or money to pay for illegal drugs, or in order to promote or facilitate the possession, manufacture, distribution, or sale of illegal drugs.

Examples of drug-related offenses: a homicide committed in the course of a drug transaction; a theft of OxyContin from a retail store; a burglary where the suspect admits to stealing the property to sell in order to buy drugs; a theft of precursor chemicals to be used to manufacture methamphetamine.

DRUG TYPE

Enter the type of drug involved in the incident. “Processed” marijuana would be marijuana that has been removed from the plant, dried, and often compressed. “Cultivated” marijuana is either living plants or plants that have been pulled or cut but not processed. If the drug type is not listed, enter code 12 for “other prescription drugs” or code 13 for “other non-prescription drugs” dependent on the type drug present. If you have more than one drug type, choose methamphetamine first (if applicable) otherwise, choose the one with the largest amount by weight.

DRUG ORIGIN TYPE

Enter the origin for the drug. Note that “illegally imported” does not mean “imported into the US”. Drugs that come from anywhere outside the immediate site of the seizure should be listed as imported (i.e. processed marijuana that was grown in an indoor grow in Memphis and then processed and smuggled to Nashville, then seized in Nashville, should be listed as “illegally imported”).

This category should never be used unless agencies receive prior notification from the TBI.</i>

VALUE OF PROPERTY

Report the total dollar value of the property burned, stolen, destroyed, etc., as a result of the incident. Up to ten values can be entered to match the up to ten property categories. If more than ten types of property are involved, the values of the nine most valuable properties are to be reported; then, the total value of the remaining properties which were coded “Other” are to be combined and reported as one total.

There is no requirement to list the value of any drugs/narcotics “seized” in a Drugs/Narcotic Violation offense. However, when drugs are involved in other types of crime (e.g., they were stolen in a burglary or burned in an arson) their value is to be reported. Data on drugs seized are handled separately in specific categories relating to them.

PROPERTY VALUE OVER \$500.00 FLAG

If the loss type is Burned (2), Destroyed/Damaged/Vandalized (4) or Stolen (7), indicate whether or not the total value of property, *per loss type*, in the incident is more than \$500.00. This indicator may be set by the user or by the system dependent upon the software used. Use only for the following specific offenses:

200, 220, 240, 290, 23A, 23B, 23D, 23E, 23F, 23G, 23H (*excludes* Shoplifting 23C).

If you select Yes (Y), total property value entered as anything but “recovered” or “none” must be \$500.00 or over . In that situation, anything under \$500.00 will generate an error.

GUIDELINES FOR PROPERTY VALUATION

Questions frequently arise as to how to evaluate property involved in a criminal incident. The following guidelines are suggested:

1. Use fair market value for articles which are subject to depreciation because of wear and tear, age, or other factors which cause the value to decrease with use.
2. Use cost to the merchant (wholesale cost) of goods recovered, seized, stolen, etc., from retail establishments, warehouses, etc. In other words, use the dollar value representing the actual cash loss to the victim without any markup or profit added.
3. Use victim’s valuation of items such as jewelry, watches, and other similar goods, which decrease in value slightly or not at all with use or age.
4. Use replacement cost or actual cash cost to victim for new or almost new clothes, auto accessories, bicycles, etc.
5. When the victim obviously exaggerates the value of stolen/destroyed/damaged property for insurance or other purposes, common sense and good judgment will dictate a fair market value to be placed on the stolen items by law enforcement.

In most instances, the victim’s valuation can be accepted. The theft of non-negotiable (unendorsed) instruments such as traveler’s checks, personal checks, money orders, stocks, bonds, food stamps, etc., should be reported but no value recorded. Again, “hair splitting” refinements are unnecessary. Negotiable instruments such as bonds payable to the bearer, etc.,

are valued at the current market price at the time of the theft, seizure, etc. Values should be rounded to the nearest whole dollar.

Often the condition of the property is different at the time of recovery than when it was stolen. The market value at the time of recovery should be used even though it is less than the value reported at the time of the theft. Even if the value has increased by the time the property is recovered, the recovery value should not exceed its value at the time it was stolen.

An agency should only report the value of property stolen in its jurisdiction. Likewise, the value of property recovered will include only property originally stolen in its own jurisdiction. It does not matter who recovers the property or where it was recovered. Although another police agency recovers the stolen property, the jurisdiction from which the property was stolen would report the value of the recovery. This procedure applies to all stolen property, including motor vehicles. Some agencies find it valuable, of course, to maintain separate records on property recovered by them for other jurisdictions.

DATE RECOVERED

If previously stolen property is recovered, the month, day, and year of its recovery is to be reported. Up to ten dates of recovery can be reported to match each of the up to ten property descriptions in the incident. If there is more than one date of recovery for the same type of property, report the earliest date. If the recovery date is unknown, record the date of the report.

RECOVERED VALUE

If previously stolen property is recovered, the recovered value is reported. The recovered value can be less than or equal to the value at the time it was stolen.

<p><i>A recovered value cannot be greater than the amount entered when it was stolen. If recovered, submit the value entered in the incident previously, or less than that amount.</i></p>
--

SUSPECTED DRUG TYPE

Because it is often difficult to determine the true identity of drugs or narcotics at the time an initial incident report is prepared, only the “suspected type of drug” is to be reported. Suspected drug type is required only for Drug/Narcotic Violations. No report is necessary when stolen, etc., in connection with other offenses such as arson, burglary, larceny/theft, etc.

Up to three drug/narcotic types can be recorded. If more than three drugs are involved, the two most important (as determined by the reporting agency taking into account the quantity, value, and deadliness of the drugs) are to be reported under their applicable drug type code and then “X” is entered for the third drug type. No quantity is entered for “X”.

NOTES

DRUG QUANTITY/MEASUREMENT

Because of problems in determining the “street value” of drugs or narcotics, no monetary value is to be reported when they are seized in connection with Drug/Narcotic Violations. However, in order to obtain some measure of the problem, the “Estimated Quantity” of seized drugs or narcotics is to be reported for each Drug/Narcotic Violation.

The quantity of the drugs can be up to 9 digits with 3 digits for a fraction. No quantity indicator is required for the “Over Three Types” category.

Frequently, suspected drugs/narcotics are sent to a forensic laboratory for assessment as to measurement. In such instances, “Not Reported” can be used in the interim. Upon receipt of laboratory results, the “Not Reported” must be replaced with the code for the correct measurement.

OFFENDER DATA

Offender data includes characteristics (age, sex, and race) of each offender (up to 99) involved in an incident whether or not an arrest has been made. The object is to capture any information known to law enforcement concerning the offender(s) even though they may not have been identified. There are, of course, instances where no information about perpetrators is known.

OFFENDER SEQUENCE NUMBER

Each offender in the incident is to be assigned a sequence number from “01” to “99.” This number is usually generated by the software. A separate set of offender data is to be submitted for each numbered offender. If nothing is known about the offender(s), report “00” as the sequence number.

OFFENDER SEX CODES

01 to 98 Years Old – report exact age	Unknown	00
Over 98 Years Old	Age Range for Teenager	13-19

Should the exact age be unknown, an age range can be reported. Although any range in years is acceptable, age ranges of greater than 10 years will be listed on quality control reports.

ETHNICITY OF OFFENDER

GUIDELINES

The ethnic designation of Hispanic or Latino includes persons of Mexican, Puerto Rican, Cuban, Central or South American, or other Spanish culture or origin, regardless of race.

ARRESTEE DATA

Arrestee data are to be reported for all persons apprehended for the commission of Group A or Group B offenses. Listings of the Group A and B offenses, along with their definitions can be found in Chapters 3 and 4.

It must be remembered that the object of this data set is to collect data on persons arrested, not on charges lodged. For example, a person may be arrested on several charges in connection with the same incident. Likewise, one person may be arrested many times during a given time span for similar or different violations within a jurisdiction. Because of a separation of time between arrests, a set of arrestee data is to be reported for each separate arrest. Again, more than one charge could be lodged during the individual arrests, but only one set of arrestee data would be reported for each crime incident.

The arrestee data describes the arrestee (age, sex, race, name, date of birth, ethnicity, etc.) and the circumstances of the arrest. Data are to be recorded for each of the arrestees (up to 99) involved in each incident. If there were no arrests, an arrest segment is not required.

Record arrest data on all persons processed by arrest, citation, or summons for committing an offense within the reporting jurisdiction. Include:

1. Those persons arrested and released without a formal charge being placed against them. (An arrest has occurred when a law enforcement officer detains an adult with the intention of seeking charges against the person for a specific offense(s) and a record is made of the detention).
2. Juveniles taken into custody or arrested but merely warned and released without being formally charged.

Data on persons taken into custody for other jurisdictions should not be reported by the arresting agency. To avoid duplication, the agency for which the arrest was made, i.e., the jurisdiction where the offense occurred, will report the arrestee data. Most agencies will, of course, maintain a separate record of such arrests for administrative use.

ARRESTEE SEQUENCE NUMBER

Each arrestee reported in a Group A incident report or a Group B incident report is to be assigned a sequence number from 01 to 99. In Group A Incident Reports, a separate set of arrestee data is to be supplied for each numbered arrestee. A separate Group B Arrest Report is to be supplied for each person arrested for a Group B offense. This number is usually generated by the computer.

The date of birth for the arrestee is to be reported using the format mm/dd/yyyy.

ARRESTEE AGE CODES

01 to 98 Years Old – report exact age	Unknown.....00
Over 98 Years Old99	Age Range for Teenager13 – 17

Should the exact age be unknown, an age range can be reported. Although any range in years is acceptable, age ranges of greater than 10 years will be listed on quality control reports.

STATE CONTROL NUMBER

Please enter the State Control Number from the TBI Fingerprint card.

ARRESTEE NAME

Enter the name of the person arrested in the following format: First Name, Middle Name or Initial, Last Name.

ETHNICITY OF ARRESTEE

Hispanic or Latino..... H	Not Hispanic or LatinoN	Unknown.....U

GUIDELINES

The ethnic designation of Hispanic or Latino includes persons of Mexican, Puerto Rican, Cuban, Central or South American, or other Spanish culture or origin, regardless of race.

PREVIOUS DOMESTIC VIOLENCE FLAG

This question refers to whether the arrestee has been arrested in previous domestic violence incidents. The question should only be answered if the domestic violence flag is answered “Yes”. ***This question is for domestic violence with their current partner or anyone else.*** This is answered with “Yes” or left blank.

RESIDENT STATUS OF ARRESTEE

Record whether the arrestee was a resident or non-resident of the jurisdiction where the crime occurred. A resident is a person who maintains his/her permanent home for legal purposes in the locality (i.e., town, city, or community) where the crime took place. “Legal purposes” does not mean the arrestee has to have a house or a physical address, post office box, etc. ***If the person is currently living in your jurisdiction, classify them as a “Resident”*** (please see examples below). Federal, state and county law enforcement agencies should base their determinations of residency on the town, city or community where the crime occurred rather than their broader geographical jurisdictions.

EXAMPLE 1: A transient/homeless man is arrested for Public Intoxication. He is currently living under a bridge in that jurisdiction. TIBRS would consider this man a resident.

EXAMPLE 2: A crime occurs on a college/university campus. The offender is a student at the college/university and lives *on campus* in a residence hall/dormitory. TIBRS would consider this person a resident of the college/university.

EXAMPLE 3: A crime occurs on a college/university campus. The offender is a student at the college/university and lives *off campus* in the same city where the college/university is located.

TIBRS would classify this person as a non-resident. If a college/university does not provide on-campus housing, all of their offenders/arrestees will be entered as non-resident.

RESIDENT STATUS CODES

Resident..... R	Non-Resident.....N	Unknown.....U
-----------------	--------------------	---------------

TYPE OF ARREST CODES

Describe the type of arrest (at the time of initial contact with the arrestee) by selecting one of the following:

On-View O	Summoned/Cited S	Taken Into Custody.... T
-----------------	------------------------	--------------------------

ARREST CODE GUIDELINES

ON-VIEW: Use this arrest code when the offender is arrested at the scene without a warrant or previous incident report.

SUMMONED/CITED: Use this arrest code when the offender is issued a summons or citation at the scene and released on their own recognizance until their scheduled court appearance.

TAKEN INTO CUSTODY: Use this arrest code when the offender is arrested based on a warrant for an incident that occurred on an earlier date/time. *Note: The warrant must be served.*

MULTIPLE ARRESTEE INDICATOR

This information helps ensure that an arrestee (person) is counted only once when a single arrest results in the submission of arrestee data for more than one Group A Incident Report for your jurisdiction. That is, the arrestee was involved in more than one crime incident, and his/her arrest data are duplicated in each Group A Incident Report. In such situations, “Count Arrestee” is to be recorded in one set of arrestee data. “Multiple” is recorded in the other Group A Incident Reports containing data on this arrestee.

MULTIPLE ARRESTEE INDICATOR CODES

Count Arrestee.....C	Multiple.....M	Not Applicable.....N
----------------------	----------------	----------------------

This process allows the TIBRS program to identify that one arrestee is involved in multiple Group A offenses and only count the arrestee (person) once.

EXAMPLE: An offender was arrested for a crime and found to be involved in previous crimes that have not been cleared. “Count Arrestee” is then reported in one set of arrestee data and “Multiple” is reported in all other reports containing data on this arrestee. “Not Applicable” is chosen when the arrestee is only involved in this incident.

ARREST TRANSACTION NUMBER

This number is assigned by your agency to an arrest report to identify it uniquely. It may be the Incident Number relating to the arrest or a separate arrest transaction number. The number may be up to 12 characters in length. The arrest transaction number may be comprised of A – Z, 0 – 9, or – (hyphen).

ARREST OFFENSE CODE

The three-digit TIBRS Offense Code of the offense for which the arrestee was apprehended is to be reported. There are 60 possible codes, as the perpetrator may have been arrested for any of the 50 Group A offenses or any of the 10 Group B offense categories.

If the arrestee was charged with more than one offense, the reporting agency is to determine the most serious reported offense and report that offense only as the arresting offense.

ARREST DATE

The month, day, and year (mm/dd/yyyy) the arrest took place are to be reported. Please note that you must enter all eight digits.

ARRESTEE WAS ARMED WITH

Indicate whether the arrestee was armed with a commonly known weapon at the time of his/her arrest. Up to two weapons can be reported.

Unarmed (do not use if other weapons are chosen)..... 01	Other Firearm (i.e. machine gun)..... 15
Firearm – Type Unknown..... 11	Lethal Cutting Instrument..... 16
Handgun..... 12	Club/Blackjack/Brass Knuckles17
Rifle 13	
Shotgun 14	

Note: If a firearm is fully automatic, an “A” is placed after the applicable code.

WARRANT SIGNED BY

For Domestic Violence only, select one of the following to indicate who signed the warrant.

Officer..... O	Victim..... V	Both..... B
----------------	---------------	-------------

DISPOSITION OF ARRESTEE UNDER 18

The information to be reported in this category relates to law enforcement disposition of juveniles (Under age 18) who are taken into custody or arrested. An adult is usually held for

prosecution for some charge or is released for future handling in court. However, a juvenile, depending on the seriousness of the offense and the offender’s prior criminal record, may be warned by the police and released to parents, relatives, friends, or guardians. Juveniles may also be referred to the probation department or some other branch of juvenile court; to welfare agencies; to other law enforcement agencies; or in the case of a serious offender, to criminal or adult court by the waiver of juvenile court. Report one of the following to indicate the disposition of the arrestee under 18:

Handled Within Department	H	Referred to Other Authorities	R
---------------------------------	---	-------------------------------------	---

GUIDELINES

HANDLED WITHIN THE DEPARTMENT: This code is used when the juvenile is released to the parents with a verbal or written warning only – no official charges placed.

REFERRED TO OTHER AUTHORITIES: This code is used when the juvenile is turned over to juvenile court, probation, welfare agency, other police agency, criminal or adult court.

JUVENILE ARREST REPORTING

The word “arrest” as it applies to juveniles is intended to mean the law enforcement handling of all juveniles (under age 18) who have committed a crime and are taken into custody under such circumstances that, if the juvenile were an adult, an arrest would have usually been reported.

EXAMPLE: A juvenile was caught shoplifting. The officer held the juvenile *in custody* until the parents arrived, then released the offender to them. Although no official charges were placed, this would be reported to TIBRS as an arrest because the juvenile was in custody for committing a reportable offense (Shoplifting).

Any situation where a person under age 18 is officially summoned, cited or notified to appear before a juvenile, adult, or youth court or similar authority for a violation of the law should also be reported as an arrest.

Police “contact” with juveniles where no offense has been committed and instances wherein juveniles are taken into custody for their own protection/welfare should not be recorded as arrests. Juvenile arrests should be reported under the classification of the offense for which they were taken into custody.

“Callbacks” or “follow-up contacts” with young offenders by officers for the purpose of determining their progress should not be counted as “arrests.”

VICTIM DATA

Victim data is collected to describe the victims involved in the incident. A separate set of victim data is to be submitted for each of the (up to 999) victims involved in the incident. There must be at least one set of victim data for each incident.

VICTIM SEQUENCE NUMBER

Each victim in an incident is to be assigned a sequence number from 001 to 999. A separate set of victim data is to be submitted for each numbered victim.

The sequence numbers provide uniqueness when there are multiple victims. For example, if three victims were involved in an incident, one victim would be assigned the number 001, the next victim would be designated 002, and the last victim 003.

Some assault situations can pose difficulties in distinguishing victims. If a number of persons are involved in a dispute or disturbance and law enforcement’s investigations cannot distinguish the aggressors from the victims, record all persons involved as both victims and offenders. Similar situations can occur with domestic violence disputes, etc.

VICTIM CONNECTED TO TIBRS OFFENSE CODE(S)

For each victim, report up to the 10 most serious Group A offenses (as determined by the reporting agency) which were perpetrated against him/her during the incident. See Chapter 3 for a listing of Group A offense definitions.

TIBRS Tip: Every victim may not be affected by each offense within an incident. Connect each victim to only those offenses affecting him/her.

TYPE OF VICTIM CODES

The type of victim is to be reported for each numbered victim. Only one of the following victim types is to be reported for each victim:

Individual	I	Religious Organization	R
Law Enforcement Official	L	Society/Public	S
Business	B	Other	O
Financial Institution	F	Unknown.....	U
Government.....	G		

VICTIM SEX CODES

Female.....	F	Male.....	M	Unknown	U
-------------	---	-----------	---	---------------	---

VICTIM RACE CODES

White.....W	Asian.....A
Black/African American.....B	Native Hawaiian/Other Pacific Islander.....P
American Indian/Alaskan Native.....I	Unknown.....U

VICTIM DATE OF BIRTH

The date of birth for the victim is to be reported using the format mm/dd/yyyy.

VICTIM AGE

The age of each numbered victim is to be reported either as an exact number of years, a range of years, or as unknown.

Report one of the following to indicate the age of the victim:

Under 24 hours (neonate).....NN	01 – 98 years old.....report exact age
01 – 06 days old.....NB	Over 98 years old.....99
07 – 364 days old.....BB	Unknown.....00

Should the exact age be unknown, an age range can be reported. Any range in years is acceptable. However, an age range of greater than 10 years will be listed on quality control reports.

ETHNICITY OF VICTIM

If the victim is an individual, his/her ethnic origin is to be reported as:

Hispanic or Latino.....H	Not Hispanic or Latino.....N	Unknown.....U
--------------------------	------------------------------	---------------

GUIDELINES

The ethnic designation of Hispanic or Latino includes persons of Mexican, Puerto Rican, Cuban, Central or South American, or other Spanish culture or origin, regardless of race.

RESIDENT STATUS OF VICTIM

Record whether the victim was a resident or non-resident of the locality where the crime occurred. A resident is a person who maintains his/her permanent home for legal purposes in the locality (i.e., town, city, or community) where the crime took place. “Legal purposes” does not mean the victim has to have a house or a physical address, post office box, etc. ***If the person is currently living in your jurisdiction, classify them as a “Resident.”*** Federal, state and county

law enforcement agencies should base their determinations of residency on the town, city or community where the crime occurred rather than their broader geographical jurisdictions.

EXAMPLE 1: A transient/homeless man is the victim of a Simple Assault. He is currently living under a bridge in that jurisdiction. TIBRS would consider this man a resident.

EXAMPLE 2: A crime occurs on a college/university campus. The victim is a student at the college/university and lives *on campus* in a residence hall/dormitory. TIBRS would consider this person a resident of the college/university.

EXAMPLE 3: A crime occurs on a college/university campus. The victim is a student at the college/university and lives *off campus* in the same city where the college/university is located. TIBRS would classify this person as a non-resident. If a college/university does not provide on-campus housing, *all* of their victims will be entered as non-resident.

AGGRAVATED ASSAULT/HOMICIDE CIRCUMSTANCES

The circumstances surrounding Aggravated Assaults and Homicide Offenses (Murder/Non-negligent Manslaughter, Negligent Manslaughter, and Justifiable Homicide) are to be reported for each victim. Remember the selection of circumstances should be based on information known to law enforcement following their investigation, *not* the decision of a grand jury, coroner’s inquest, or other agency outside law enforcement. Always select the most descriptive circumstances as determined by investigations. Choose up to two categories from the following table for each victim:

Homicide/Assault Circumstance	Codes	Homicide/Assault Circumstance	Codes

OFFENDER NUMBER(S) TO BE RELATED AND VICTIM TO OFFENDER RELATIONSHIP

The Offender Number is the sequence number used to identify the offenders involved in the incident. For Crimes Against Persons, the victim’s relationship to the offender must be identified. Up to 10 relationships can be shown. If there are more than 10 offenders, show the relationship for the 10 offenders closest to the victim.

If nothing is known about the offender(s), the relationship is “RU”, relationship unknown. If and when the offender is arrested, the relationship will need to be modified. The same sequence numbers must be used to identify the same offender(s) in the offender segment of the incident report.

VO relationship requires at least two individual victim segments and at least two relationships of VO.

DOMESTIC VIOLENCE DATA

Offenses which may be reported as Domestic Violence based upon victim to offender relationships are provided below. Additionally, the incident may involve a violation of an Order of Protection.

DOMESTIC VIOLENCE FLAG

This is answered with “Yes” or “No.”

Mandatory when Transported to Safe Place is “Y” or “N”. Must be blank if Transported to Safe Place is blank.

The question should only be answered if the domestic violence flag is answered “Yes”. ***This question is for domestic violence with their current partner or anyone else.*** This is answered with “Yes” or left blank.

COLLEGE/UNIVERSITY STUDENTS

Law enforcement agencies will sometimes come into contact with victims who are college students. Agencies are responsible for reporting information for college students attending colleges/universities located in the same COUNTY as the agency (even if the college is in a different CITY). The following questions will then need to be asked:

IS THE VICTIM A COLLEGE STUDENT?

This is answered with “Yes” or “No.”

IF THE VICTIM IS A COLLEGE STUDENT, NAME OF COLLEGE/UNIVERSITY

Enter the name of the college or university.

DID THE CRIME OCCUR ON CAMPUS?

This is answered with “Yes” or “No.”

LAW ENFORCEMENT OFFICERS KILLED OR ASSAULTED (LEOKA)

LEOKA Victim Data relates to *sworn officers with full arrest powers* killed or assaulted in the line of duty. The number of officers slain by felonious acts and those killed by accident or negligence should be entered.

The importance of Law Enforcement Officers Killed or Assaulted data cannot be over emphasized. They are the basis of an analysis of assaults of police officers; thus, the more complete the data collected, the more valid the conclusions.

Once notified of an officer’s death, the FBI will contact the victim officer’s agency for additional details concerning the circumstances pertaining to the incident. The FBI will also furnish information on two Federal programs – a compensation program for non-federal law enforcement officers overseen by the U.S. Department of Labor and the Public Safety Officer’s Benefits Program administered by the U.S. Department of Justice for local, state, and federal officers. These programs provide benefits to survivors of law enforcement officers killed in the line of duty, as well as disability benefits for officers suffering duty-related injuries. Either can be contacted directly for information. The addresses and telephone numbers are:

Office of Workers’ Compensation Programs
 United States Department of Labor
 800 North Capitol Street Northwest
 Room 800
 Washington, DC 20211
 (202) 693-0031

Public Safety Officers’ Benefit Program
 United States Department of Justice
 Bureau of Justice Assistance
 633 Indiana Avenue Northwest
 Washington, DC 20531
 (202) 654-6679

Count all assaults which resulted in injury or in which a weapon was used which could have caused serious injury or death. Other assaults not causing injury should be included if they involved more than mere verbal abuse or minor resistance to an arrest. In other words, all assaults on officers with or without injuries should be included.

LEOKA - APPLICABLE OFFENSE CODES

Use only for the following specific offenses when submitting LEOKA data:

Murder/Non-negligent Manslaughter09A	Intimidation..... 13C
Aggravated Assault.....13A	Stalking 13D

LEOKA - VEHICLE ASSIGNMENT CODES

The vehicle assignment should be selected from the following categories:

One Man Vehicle (Uniformed Officer Alone).....G	*Other (Alone).....K
One Man Vehicle (Assisted).....H	Other (**Assisted)..... L
Detective Special Assignment (Alone) I	

* “Other” refers to officers assaulted while in other capacities (i.e. foot patrol).
 **“Assisted” refers to law enforcement assistance only.

LEOKA - TYPE OF ACTIVITY CODES

Each time an officer is assaulted in the line of duty, the type of activity in which the officer was engaged at the time of the assault will need to be reported. The circumstance/type of activity the officer(s) are responding to is chosen from the list below:

Responding to “Disturbance Calls”01	Investigating Suspicious Persons
Burglaries in Progress or Pursuing Burglary Suspects .02	or Circumstances07

Handling, Transporting, Custody of Prisoners.....06	All Other11

LEOKA - OFFICER FROM OTHER JURISDICTION

If a law enforcement officer is killed or injured in the line of duty in a jurisdiction other than his/her own, the law enforcement agency having jurisdiction should submit the LEOKA data to TIBRS. In the LEOKA segment, the Other ORI field is used to indicate the agency employing the officer who was killed or injured. *The ORI entered in this field **cannot** be the reporting agency's ORI.*

GROUP B INCIDENT DATA

ORI NUMBER

The nine-character NCIC Originating Agency Identifier (ORI) assigned to your agency is used to identify (a) the reporting agency and (b) the location where the incident occurred.

INCIDENT NUMBER

An incident number is assigned by your agency containing up to 12 characters to identify each Group B Incident and can be the actual case number or a number assigned for TIBRS purposes. Each incident must have a unique incident number comprised of A-Z, 0-9 or – (hyphen). These characters are the only valid characters that can be used. It cannot contain any embedded blanks, or forward (/) or backward (\) slashes. The incident number for a Group B incident cannot be the same number used for a Group A incident.

INCIDENT DATE

The incident date is the month, day and year when the incident occurred. Other than very rare occasions, it is **NOT** the date the report was taken. It must be entered in a mm/dd/yyyy format (8 digits).

INCIDENT TIME

The time that the incident occurred or the beginning of the time period in which it could have occurred: It is **NOT** necessarily the officer’s arrival time. TIBRS uses 24 hour military time. See military time table located on page 8.

ARRESTEE SEQUENCE NUMBER

Each arrestee in the incident is to be assigned a sequence number from “01” to “99.” This number is usually generated by the software.

ARRESTEE SEX CODES

The sex of the arrestee is to be indicated as:

Female.....F	Male.....M
--------------	------------

ARRESTEE RACE CODES

The race of the arrestee is to be indicated as one of the following:

White.....W	Asian.....A
Black or African American.....B	Native Hawaiian/Other Pacific Islander P
American Indian/Alaskan Native.....I	Unknown.....U

ARRESTEE DATE OF BIRTH

The date of birth for the arrestee is to be reported using the format mm/dd/yyyy.

ARRESTEE AGE CODES

The age of each numbered arrestee is to be reported either as an exact number of years, a range of years, or as unknown. Record one of the following:

01 to 98 Years Old – report exact age	Unknown.....00
Over 98 Years Old99	Age Range for Teenager13 – 19

TIBRS Tip: Should the exact age be unknown, an age range can be reported. Any range in years is acceptable. However, an age range of greater than 10 years will be listed on quality control reports.

STATE CONTROL NUMBER

Please enter the State Control Number from the TBI Fingerprint card.

ARRESTEE NAME

Enter the name of the person arrested in the following format: First Name, Middle Name or Initial, Last Name.

ETHNICITY OF ARRESTEE

For each arrestee, the ethnic origin is to be recorded as one of the following:

Hispanic/Latino..... H	Non Hispanic/LatinoN	Unknown.....U
------------------------	----------------------------	---------------

GUIDELINES

Hispanic origin is a person of Mexican, Puerto Rican, Cuban, Central or South American, or other Spanish culture or origin, regardless of race.

RESIDENT STATUS OF ARRESTEE

Record whether the arrestee was a resident or non-resident of the locality where the crime occurred. A resident is a person who maintains his/her permanent home for legal purposes in the locality (i.e., town, city, or community) where the crime took place. “Legal purposes” does not mean the arrestee has to have a house or a physical address, post office box, etc. ***If the person is currently living in your jurisdiction, classify them as a “Resident”*** (please see the examples

below). Federal, state and county law enforcement agencies should base their determinations of residency on the town, city or community where the crime occurred rather than their broader geographical jurisdictions.

EXAMPLE 1: A transient/homeless man is arrested for Public Intoxication. He is currently living under a bridge in that jurisdiction. TIBRS would consider this man a resident.

EXAMPLE 2: A crime occurs on a college/university campus. The offender is a student at the college/university and lives on campus in a residence hall/dormitory. TIBRS would consider this person a resident of the college/university.

EXAMPLE 3: A crime occurs on a college/university campus. The offender is a student at the college/university and lives off campus in the same city where the college/university is located. TIBRS would classify this person as a non-resident. If a college/university does not provide on-campus housing, all of their offenders/arrestees will be entered as non-resident.

The allowed categories and corresponding codes are:

Resident..... R	Non-Resident.....N	Unknown.....U
-----------------	--------------------	---------------

ARREST DATE

The month, day, and year (mm/dd/yyyy) the arrest took place are to be reported. Note that you must enter 8 digits.

ARREST TRANSACTION NUMBER

This number is assigned by your agency to an arrest report to identify it uniquely. It may be the Incident Number relating to the arrest or a separate arrest transaction number. The number may be up to 12 characters in length. The arrest transaction number may be comprised of A – Z, 0 – 9, or – (hyphen).

ARREST OFFENSE CODE

The three-digit TIBRS Offense Code for the offense which the arrestee was apprehended is to be reported. There are 10 possible codes.

Usually there is only one crime classification involved in an arrest. If the arrestee was charged with more than one offense, the reporting agency is to determine the most serious reported offense and report that offense only as the arresting offense.

NOTES

ARRESTEE WAS ARMED WITH

Indicate whether the arrestee was armed with a commonly known weapon at the time of his/her apprehension. Up to two weapons can be reported.

Unarmed (cannot be used if other weapons are chosen) 01	Other Firearm – type known, but not covered by allowed categories -
Firearm – type unknown 11	e.g. bazooka, machine gun, etc.....15
Handgun.....12	Lethal Cutting Instrument -
Rifle 13	e.g. knife, switchblade knife, sword, etc....16
Shotgun 14	Club/Blackjack/Brass Knuckles17

TYPE OF ARREST CODES

Describe the type of arrest (at the time of initial contact with the arrestee) by selecting one of the following codes:

On-View	O	Summoned/Cited	S	Taken Into Custody....	T
---------------	---	----------------------	---	------------------------	---

GUIDELINES

ON-VIEW: Use this arrest code when the offender is arrested at the scene without a warrant or previous incident report.

SUMMONED/CITED: Use this arrest code when the offender is issued a summons or citation at the scene and released on their own recognizance until their scheduled court appearance.

TAKEN INTO CUSTODY: Use this arrest code when the offender is arrested based on a warrant for an incident that occurred on an earlier date/time. *Note: The warrant must be served.*

DISPOSITION OF ARRESTEE UNDER 18

The information to be reported in this category relates to law enforcement disposition of juveniles (age 17 or younger only) who are taken into custody or arrested. An adult is usually held for prosecution for some charge or is released for future handling in court. However, a juvenile, depending on the seriousness of the offense and the offender's prior criminal record, may be warned by the police and released to parents, relatives, friends, or guardians. Juveniles may also be referred to the probation department or some other branch of juvenile court; to welfare agencies; to other law enforcement agencies; or in the case of a serious offender, to criminal or adult court by the waiver of juvenile court.

Report one of the following to indicate the disposition of an arrestee under the age of 18:

DISPOSITION OF ARRESTEE UNDER 18 CODES

Handled Within Department	H	Referred to Other Authorities	R
---------------------------------	---	-------------------------------------	---

GUIDELINES

HANDLED WITHIN DEPARTMENT: Use this code when the juvenile is released to the parents with an oral warning only.

REFERRED TO OTHER AUTHORITIES: Use this code when the juvenile is turned over to juvenile court, probation, welfare agency, other police agency, criminal or adult court.

JUVENILE ARREST REPORTING

The word “arrest” as it applies to juveniles is intended to mean the law enforcement handling of all juveniles (under age 18) who have committed a crime and are taken into custody under such circumstances that, if the juvenile were an adult, an arrest would have usually been reported. Police “contact” with juveniles where no offense has been committed and instances wherein juveniles are taken into custody for their own protection should not be recorded as arrests. Juvenile arrests should be reported under the classification of the offense for which they were taken into custody.

Arrests should not be reported in the cases described below:

1. Police “contacts” with juveniles where no offense was committed.
2. Juvenile taken into custody for their own protection but no crime was committed (e.g., neglect cases).

Except for the Group B offense of Curfew/Loitering/Vagrancy, violation of local juvenile acts should be included in the “All Other Offenses” classification. Arrests of juveniles in the usual sense should be included. Any situation where a young person instead of being arrested, is summoned, cited or notified to appear before a juvenile or youth court or similar authority for a violation of the law should also be reported as an arrest.

For example, children playing ball in the street who are instructed by an officer to go to the playground for such activity would not be counted as “arrested” any more than would an adult who is only warned against burning leaves on a windy day. Do not include those situations where young persons have committed no violation but are taken into custody because their welfare is endangered. “Callbacks” or “follow-up contacts” with young offenders by officers for the purpose of determining their progress should not be counted as “arrests.”

DUI - OFFENDER WAS USING

Indicate whether the arrestee was using/under the influence of alcohol, drugs, or both by using the following codes:

Alcohol.....A	Drugs.....D	Both.....B
<i>NOTE: This applies to DUI only. Leave this field blank for all other Group B offenses.</i>		

NOTES

CHAPTER 3

GROUP A OFFENSE DEFINITIONS

Chapter 3 contains the definitions used in TIBRS to classify Group A offenses. These definitions are not meant to be used for charging persons with crimes but used as “pigeonholes” for reporting crimes. This allows for comparison statewide as well as nationwide

Since all Group A offenses occurring in an incident are to be reported, care must be taken to identify all such offenses involved in an incident. Care must also be taken to ensure that each offense that is reported is a separate, distinct crime, rather than just a part of another offense.

EXAMPLE: Every robbery includes some type of assault; but because the assault is an element of the robbery, only Robbery should be reported. If during a robbery, the victim is forced to engage in sexual relations, both Robbery and Rape should be reported, as rape is not an element of robbery.

In TIBRS, the classifications of felonies and misdemeanors do not apply. TIBRS offenses are classified according to their definitions and the facts involved in the incident. However, this does not change what a person is charged with under Tennessee statute(s).

PART ONE: CRIMES AGAINST PERSONS

ASSAULT OFFENSES

Definition: An unlawful attack by one person upon another.

All assaults are reported as completed offenses. Attempted Murder is reported as completed Aggravated Assault (13A).

AGGRAVATED ASSAULT (13A)

Definition: An unlawful attack by one person upon another wherein the offender uses a weapon or displays it in a threatening manner, or the victim suffers obvious severe or aggravated bodily injury involving apparent broken bones, loss of teeth, possible internal injury, severe laceration, or loss of consciousness.

When reporting Aggravated Assault there must be some type of weapon involved. This could include conventional weapons such as guns or knives, unconventional weapons (items that may

not be thought of as a weapon but can be used to cause serious bodily injury such as a baseball bat, broken beer bottle, etc.). *It could also include personal weapons i.e. hands, fists, feet, etc.*

EXAMPLE: A man struck another man with his fist, breaking the man's jaw. This would be reported to TIBRS as Aggravated Assault (13A) with a weapon type of Personal Weapons (40).

Regarding injury, a severe laceration is one that should receive medical attention. Loss of consciousness must be the direct result of force inflicted on the victim by the offender. It is not necessary that injury result from an aggravated assault when a gun, knife, or other weapon is used which *could* cause serious personal injury. *Aggravated Assaults can only be reported as completed, and cannot be reported as attempted.*

On occasion, agencies may charge offenders with simple assault even though a knife, gun, or other weapon was used in the incident. For TIBRS purposes, this type of assault must be classified as Aggravated Assault.

Examples relating T.C.A. to TIBRS:

1. An intoxicated motorist drove onto the sidewalk and struck a pedestrian, causing serious injury. The motorist was charged with Vehicular Assault (T.C.A. §39-13-106)¹ For TIBRS purposes, the reportable offense is DUI. The assault would not be reported to TIBRS *unless* there is evidence to show that the driver intentionally struck the pedestrian.
2. A child was shot by a parent and rushed to the hospital. The parent was arrested and charged with Aggravated Child Abuse (T.C.A. §39-15-402)². For TIBRS purposes this offense is reported as Aggravated Assault.

SIMPLE ASSAULT (13B)

Definition: An unlawful physical attack by one person upon another where neither the offender displays a weapon, nor the victim suffers obvious severe or aggravated bodily injury involving apparent broken bones, loss of teeth, possible internal injury, severe laceration, or loss of consciousness.

As with Aggravated Assault, Simple Assaults can only be reported as completed.

¹Section 39-13-106. Vehicular Assault (a) A person commits vehicular assault who, as the proximate result of the person's intoxication (alcohol, drug or both) recklessly causes serious bodily injury to another person by the operation of a motor vehicle.

²Section 39-15-402. Aggravated Child Abuse. (a) A person is guilty of the offense of aggravated child abuse who commits the offense of child abuse ... (1) The act of abuse results in serious bodily injury to the child or (2) A deadly weapon is used to accomplish the act of abuse ...

INTIMIDATION (13C)

Definition: To unlawfully place another person in reasonable fear of bodily harm through the use of threatening words and/or other conduct, but without displaying a weapon or subjecting the victim to actual physical attack.

Intimidation involves an offender making some type of threat to the victim without actually using or displaying a weapon. Such threats can be made in person, over the telephone, or in writing.

A bomb threat is reported as Intimidation. The victim is the person who received the call, letter, note, etc.

Example relating T.C.A. to TIBRS:

The wife of a defendant threatened to harm a witness after a guilty verdict was rendered to her husband. The wife was arrested and charged with Retaliation for Past Action (T.C.A. §39-16-510)³. In TIBRS this would be reported as Intimidation.

STALKING (13D)

Definition: To intentionally and repeatedly follow or harass another person in such a manner as would cause that person to be in reasonable fear of being assaulted, suffering bodily injury or death.

TIBRS Tip: In most cases, the weapons used or the extent of the injury sustained will be the deciding factors in distinguishing Aggravated Assault from Simple Assault. In only a very limited number of instances should it be necessary to examine the intent and capability of the assailant.

Prosecutorial policy in a jurisdiction should not influence classification or reporting of law enforcement offense statistical data. It is necessary that assaults in each jurisdiction be examined and classified according to the standard TIBRS definitions, regardless of whether they are termed felonies or misdemeanors by local definitions.

³Section 39-16-510. Retaliation for Past Action. (a) A person commits the offense of retaliation for past action who harms or threatens to harm a witness at an official proceeding, judge, juror or former juror by any unlawful act in retaliation for anything the witness, judge or juror did in an official capacity as witness, judge or juror.

HOMICIDE OFFENSES

Definition: The killing of one human being by another.

Like assaults, all homicides are reported as completed offenses.

MURDER AND NON-NEGLIGENT MANSLAUGHTER (09A)

Definition: The willful (non-negligent) killing of one human being by another.

As a general rule, any death due to injuries received in a fight, argument, quarrel, assault, or commission of a crime is classified in this category. Although offenders may be charged with lesser offenses, e.g., manslaughter, if the killing was willful or intentional it must be reported as Murder and Non-negligent Manslaughter. The findings of a court, coroner's inquest, etc., do not affect the reporting of offenses in this category; these are law enforcement statistics.

Suicides, accidental deaths, traffic fatalities, and attempted murders are not classified as Murder and Non-negligent Manslaughter. Situations where a victim dies of a heart attack as a result of a robbery or witnessing a crime likewise do not meet the criteria for inclusion in this classification. An offender cannot, in fact, cause a heart attack at will. Even in instances where an individual is known to have a weak heart, there is no assurance that an offender can cause sufficient emotional or physical stress to guarantee the victim will suffer a fatal heart attack. Suicides, traffic fatalities, and fetal deaths are excluded from the TIBRS program, while some accidental deaths are counted as Negligent Manslaughter. Attempted murder is classified as Aggravated Assault.

NEGLIGENT MANSLAUGHTER (09B)

Definition: The killing of another person through negligence. Included in this offense are killings resulting from hunting accidents, gun cleaning, children playing with guns, etc. Not included are deaths of persons due to their own negligence; accidental deaths not resulting from gross negligence; and accidental traffic fatalities. Again, the subsequent findings of a court, coroner's inquest, etc., do not affect the reporting of offenses in this category; these are law enforcement statistics.

Example relating T.C.A. to TIBRS:

A person cleaning a firearm accidentally fired it, killing another person in the room. The person was charged with Reckless Homicide (T.C.A. §39-13-215)⁴. For TIBRS, this is classified as Negligent Manslaughter.

⁴Section 39-13-215. Reckless Homicide. (a) Reckless homicide is a reckless killing by another.

JUSTIFIABLE HOMICIDE (09C)

Definition: The killing of a perpetrator of a serious criminal offense by a peace officer in the line of duty; or the killing, during the commission of a serious criminal offense, of the perpetrator by a private individual.

Justifiable Homicide is not a criminal offense and therefore is not included in an agency's crime count. A serious criminal offense is a felony or high misdemeanor. Do not count a killing as justifiable or excusable solely on the basis of self-defense or the action of a coroner, prosecutor, grand jury, or court. The willful killing of one individual by another is being reported, not the criminal liability of the person or persons involved. For TIBRS purposes, crime determinations and counts are based on law enforcement investigations.

Justifiable Homicide, by definition, often occurs in conjunction with other offenses. The crime that was being committed when the justifiable homicide took place must be reported as a separate incident. *These guidelines are based on the definition of an incident which requires that all of the offenders act in concert.* It cannot be said that the criminal who was killed acted in concert with the police officer or civilian who killed him; nor that the police officer or civilian who killed the criminal acted in concert with the criminal in committing the offense that gave rise to the justifiable homicide. Therefore, justifiable homicide cases involve two incidents rather than one.

If the justified killer (officer or civilian) committed another offense in connection with the justifiable homicide (e.g., illegal possession of the gun he/she used) that offense would constitute a third incident.

A Justifiable Homicide can ***never*** be cleared. Because the killing was ***justifiable***, the incident cannot be cleared by arrest because the offender would not be arrested. It cannot be cleared exceptionally, because it would not meet the criteria (i.e. no probable cause).

HUMAN TRAFFICKING OFFENSES

COMMERCIAL SEX ACTS (64A)

Definition: Inducing a person by force, fraud, or coercion to participate in commercial sex acts, or in which the person induced to perform such act(s) has not attained 18 years of age.

INVOLUNTARY SERVITUDE (64B)

Definition: The obtaining of a person(s) through recruitment, harboring, transportation, or provision, and subjecting such persons by force, fraud, or coercion into involuntary servitude, peonage, debt bondage, or slavery (not to include commercial sex acts).

KIDNAPPING/ABDUCTION (100)

Definition: The unlawful seizure, transportation, and/or detention of a person against his/her will, or of a minor without the consent of his/her custodial parent(s) or legal guardian.

This offense includes not only kidnapping and abduction, but hostage situations as well. Although, in some cases, the object of a kidnapping may be to obtain money or property, this category is intended to capture information only on the persons actually kidnapped or abducted, not those persons or organizations paying ransoms. Therefore, for each kidnapping incident, report victims as only those persons taken or detained against their will.

Assault is not an element of kidnapping. Example: A person is kidnapped at knifepoint. In this case, the offenses of Aggravated Assault and Kidnapping should both be reported.

Example relating T.C.A. to TIBRS:

A victim was kidnapped and beaten severely with a blunt object. The offender was arrested and charged with Especially Aggravated Kidnapping (T.C.A. §39-13-305)⁵. For TIBRS purposes, Kidnapping and Aggravated Assault should be reported.

SEX OFFENSES, NON-CONSENSUAL

Definition: Any sexual act directed against another person, without the consent of the victim, including instances where the victim is incapable of giving consent.

RAPE (11A)

Definition: The carnal knowledge of a person, without the consent of the victim, including instances where the victim is incapable of giving consent because of his/her age or because of his/her temporary or permanent mental or physical incapacity.

This offense includes the *opposite sex* rape of both males and females. In cases where several offenders rape one person, report one incident of Rape, with multiple offenders.

When reporting an offense of Rape in TIBRS, the victim and at least one of the offenders have to be of opposite sexes. Same-sex rapes are reported in TIBRS as Sodomy.

⁵Section 39-13-305. Especially Aggravated Kidnapping. (1) Accomplished with a deadly weapon or by display of any article used or fashioned to lead the victim to reasonably believe it to be a deadly weapon; (2) Where the victim was under the age of 13 at the time of removal or confinement; (3) Committed to hold the victim for ransom or reward, or as a shield or hostage; or (4) Where the victim suffers serious bodily injury.

If the victim did not consent, the crime should be classified as Rape regardless of the age of the victim. If no force or threat of force was used and the victim was under the age of thirteen (13), the crime should be classified as Rape. The ability of the victim to give consent must be a professional determination by the law enforcement agency.

SODOMY (11B)

Definition: Oral or anal sexual intercourse with another person, without the consent of the victim, including instances where the victim is incapable of giving consent because of his/her age or because of his/her temporary or permanent mental or physical incapacity.

Example relating T.C.A. to TIBRS:

A person was forced to participate in an act of sodomy. The offender was charged with Rape (T.C.A. §39-13-503)⁶. For TIBRS purposes, since an act of sodomy was involved, Sodomy is the reportable offense.

If a victim is raped and sodomized in one incident, report both offenses.

SEXUAL ASSAULT WITH AN OBJECT (11C)

Definition: To use an object or instrument to unlawfully penetrate, however slightly, the genital or anal opening of the body of another person, without the consent of the victim, including instances where the victim is incapable of giving consent because of his/her age or because of his/her temporary or permanent mental or physical incapacity.

An object or instrument is anything used by the offender other than the offender's genitalia. Examples are a bottle, handgun, stick, finger, etc.

FONDLING (11D)

Definition: The touching of the private body parts of another person for the purpose of sexual gratification or any other reason, without the consent of the victim, including instances where the victim is incapable of giving consent because of his/her age or because of his/her temporary or permanent mental or physical incapacity.

Private body parts include the primary genital area, groin, inner thigh, buttock or breast of a human being.

⁶Section 39-13-503. Rape. (a) Rape is unlawful sexual penetration of a victim by the defendant or of the defendant by a victim accompanied by any of the following circumstances; (1) Force or coercion...(2) The sexual penetration is accomplished without the consent of the victim and the defendant knows or has reason to know at the time of the penetration that the victim did not consent; (3) The defendant knows or has reason to know that the victim is mentally defective, mentally incapacitated or physically helpless; or (4) The sexual penetration is accomplished by fraud.

SEX OFFENSES, CONSENSUAL

Definition: Unlawful, consensual sexual intercourse.

INCEST (36A)

Definition: Consensual sexual intercourse between persons who are related to each other within the degrees wherein marriage is prohibited by law.

STATUTORY RAPE (36B)

Definition: Consensual sexual intercourse with a person who is under the statutory age of consent.

To report the offense of Statutory Rape, the victim and offender have to be of opposite sexes. In addition, the victim must be between the ages of 13 and 17 and the offender must be at least four years older than the victim. If force was used or threatened or the victim was incapable of giving consent because of his/her youth or mental impairment, either temporary or permanent, report it as Rape.

If the offender is an authority figure (i.e. teacher), do not classify it as Statutory Rape. Rape perpetrated by an authority figure, for TIBRS reporting purposes, is classified as Rape (11A).

GROUP A OFFENSE DEFINITIONS

PART TWO: CRIMES AGAINST PROPERTY

ARSON (200)

Definition: To unlawfully and intentionally damage, or attempt to damage any real or personal property by fire or incendiary device.

Only fires determined through investigation to have been unlawfully and intentionally set are to be classified as Arson. *Attempts* to burn should be included, but fires of suspicious or unknown origin should *not* be reported until the investigation determines that arson was committed. One incident should be reported for each distinct arson operation originating within the reporting jurisdiction. If arson is perpetrated in one locale and spreads to another, it should only be reported only by the jurisdiction in which the fire originated.

If a victim dies as a result of arson the incident should be reported with the offenses Arson (200) and Murder/Non-negligent Manslaughter (09A). If the victims suffer injury or are placed in imminent danger, the offense of Aggravated Assault (13A) should be reported with Arson (200). Whatever property is damaged by burning, along with incidental damage resulting from fighting the fire is included as part of the loss caused by burning. The offense of Vandalism (290) is *not* reported with Arson unless the damage has nothing to do with the arson.

EXAMPLE: A man burned his neighbor's house down. During the same incident, the offender broke the windows in his neighbor's car, which was parked 200 feet away from the house. The car was not damaged by the fire. In this example, there are two reportable offenses – Arson and Vandalism.

Arson-related deaths and injuries of police officers and firefighters, *unless willful murders or assaults*, are excluded from the TIBRS Program due to the hazardous nature of these professions.

Arson - Attempted vs. Completed: In determining whether an offense of arson is completed or attempted, consider whether the intended target/property was ignited. If the intended target/property was lit, report it as completed, even if the target was not damaged or destroyed by the fire. If the offender is unsuccessful in getting the fire started, then report the arson as attempted.

BRIBERY (510)

Definition: The offering, giving, receiving, or soliciting of anything of value (i.e., a bribe, gratuity, or kickback) to sway the judgment or action of a person in a position of trust or influence.

This offense excludes sports bribery or “game-fixing”, i.e., changing the outcome of a sporting contest or event, which is covered in the offenses dealing with gambling. The phrase, “The offering, giving, receiving, or soliciting of anything of value”, includes such things as gratuities, kickbacks, favors, or anything else used illegally to influence the outcome of something that is governed by law, fair play, contractual agreement, or any other guideline. The bribe would bring the outcome of an event outside any realm of reasonableness, the result of which could be predicted based on the offering or influence given to the person(s) in a position to render decisions.

BURGLARY/BREAKING AND ENTERING (220)

Definition: The unlawful entry into a building or other structure with the intent to commit a felony or a theft.

For TIBRS purposes, offenses locally known as burglary (any degree); unlawful entry with intent to commit a larceny or felony; breaking and entering with intent to commit a larceny; housebreaking; and safecracking should be classified as Burglary. In many cases, burglary includes some type of larceny offense. Because the definition of Burglary includes theft, an additional Larceny/Theft offense (i.e. Theft From a Building) should *not* be reported.

A structure is defined for TIBRS purposes as four walls, a roof and a point of entry. It must be for human use.

In the TIBRS standard definition of Burglary, a structure may include, but is not limited to, the following:

Apartment	Office	Railroad Car
Barn	Outbuilding	Room
Cabin	Condominium	School
Church	Vessel (Ship)	Garage
House (Dwelling)	Mill	
Warehouse	Public Building	
House Trailer or Houseboat (if used as a permanent dwelling)		

Whenever a question arises as to whether a type of structure falls within the purview of the burglary definition, the law enforcement officer should look to the nature of the crime and be guided by the examples set forth. If a question remains, please contact the TBI's CJIS Support Center. The illegal entry of a tent, tent trailer, motor home, house trailer, or any other mobile unit that is *being used for recreational purposes*, followed by a theft, felony, or attempt to commit a felony or theft, should NOT be classified as burglary, but as larceny.

Burglaries of hotels, motels, lodging houses, or other places where lodging of transients is their main function, or burglaries of temporary rental storage facilities, i.e., mini-storage and self-storage buildings, can pose reporting questions. If a number of units under a single manager are burglarized and the offenses are most likely to be reported to the police by the manager rather than the individual tenants/renters, the burglary should be reported as a single incident. Examples are burglaries of a number of rental hotel rooms, rooms in flophouses, rooms in a youth hostel, units in a motel, and storage units in a commercial self-storage building.

The burglary of a Hotel/Motel or Rental Storage Facility (same location, same day and time) is reported as one incident. Each room is counted as a premise.

If the individual living areas in a building are rented or leased to the occupants for a period of time, (which would preclude the tenancy from being classified as transient) then the occupants would most likely report the burglaries separately. Such burglaries should be reported as separate incidents.

Some examples of this latter type of multiple burglaries would include burglaries of:

- Multiple units in an apartment building;
- Multiple offices in a business building; and
- Multiple rooms in a college/university residence hall/dormitory.

Remember that offenses should be classified according to TIBRS definitions and not according to state, local, or federal codes. Some jurisdictions might, for example, categorize a shoplifting or a theft from an automobile as burglary. These offenses are not classified as burglaries in TIBRS and must be considered larcenies for reporting purposes. Thefts from automobiles (whether locked or unlocked); shoplifting from commercial establishments; and thefts from pay

telephones or other coin-operated machines that do not involve unlawful entry of a structure; thus, no burglary occurred.

Example relating T.C.A. to TIBRS:

A home was broken into. An elderly man was pistol-whipped and suffered serious bodily injury. The suspect took the victim's money and some belongings. The suspect was caught and arrested. He was charged with Especially Aggravated Burglary (T.C.A. §39-14-404)⁷. For TIBRS purposes this is reported as Burglary, Robbery and Weapon Law Violation. Since the suspect took something, the robbery would be reported (assault is not reportable in this situation because it is an element of the robbery); however if the man was pistol-whipped and the suspect did not take anything then Burglary, Aggravated Assault and the Weapon Law Violation would be reported.

Reporting Burglary and Vandalism/Destruction/Damage: The offense of Burglary includes the element of forcibly breaking into a structure, which means there is a likelihood of causing damage. Report an additional offense of Vandalism only when the amount of damage done to the structure upon entry is greater than \$500.00, or if there is damage above and beyond what was required to gain entry to the structure (i.e. broken lamps, painting on the walls, etc.) regardless of the amount.

COUNTERFEITING/FORGERY (250)

Definition: The altering, copying, or imitation of something, without authority or right, with the intent to deceive or defraud by passing the copy or thing altered or imitated as that which is original or genuine; or the selling, buying, or possession of an altered, copied, or imitated thing with the intent to deceive or defraud.

In most states, counterfeiting and forgery are treated as allied offenses. Included in this category are offenses such as altering and forging public and other records; making, altering, forging or counterfeiting bills, notes, drafts, tickets, checks, credit cards, etc.; forging wills, deeds, notes, bonds, seals, trademarks, etc.; counterfeiting coins, plates, banknotes, checks, etc.; possessing forged or counterfeited instruments; erasures; signing the name of another or fictitious person with intent to defraud; using forged labels; possession, manufacture, etc., of counterfeiting apparatus; and selling goods with altered, forged, or counterfeited trademarks. Although Counterfeiting/Forgery offenses can involve elements of fraud, they are treated separately due to their unique nature.

When reporting Counterfeiting/Forgery (250) of a passed check, a second offense of Fraud (26A) is reported. There are two victims involved in this incident. The victim of the

⁷Section 39-14-404. Especially Aggravated Burglary (a) Especially aggravated burglary is (1) burglary of a habitation or building other than a habitation; and (2) where the victim suffers serious bodily injury.

Counterfeiting/Forgery offense is the person whose name was forged on the check. The victim of the Fraud will either be the bank or the business where the check was passed. The property segment for the Counterfeiting/Forgery will be a counterfeited/forged property loss and the property category is negotiable instrument with a value of the amount written on the check. The property segment for the Fraud will be a stolen property loss with the property category either money or the type of property that was obtained in the illegal transaction.

Example relating T.C.A. to TIBRS:

A person was manufacturing and selling academic documents. He was charged with Falsifying of Educational and Academic Records (T.C.A. §39-14-136)⁸. For TIBRS purposes the classification is Counterfeiting/Forgery (250) and Fraud (26A).

EMBEZZLEMENT (270)

Definition: The unlawful misappropriation by an offender to his/her own use or purpose of money, property, or some other thing of value entrusted to his/her care, custody, or control.

Generally, the victims of embezzlement offenses are businesses, financial institutions, etc.

Example relating T.C.A. to TIBRS:

A computer company employee stole a computer design from his employer and sold it to another company. The employee was arrested and charged with Theft of Trade Secrets (T.C.A. §39-14-138)⁹. For TIBRS purposes the offense is reported as Embezzlement.

EXTORTION/BLACKMAIL (210)

Definition: To unlawfully obtain money, property, or any other thing of value, either tangible or intangible, through the use or threat of force, misuse of authority, threat of criminal prosecution, threat of destruction of reputation or social standing, or through other coercive means.

⁸Section 39-14-136. Falsifying Educational and Academic Records. (a) A Person commits the offense of falsifying educational and academic documents who buys, sells, creates, duplicates, alters, files to obtain a diploma, academic record, certificate of enrollment or other instrument which purports to signify merit or achievement conferred by an institution of education with the intent to use fraudulently that document or to allow the fraudulent use of the document.

⁹Section 39-14-138. Theft of Trade Secrets. Steals or embezzles an article representing a trade secret or ...without authority makes or causes to be made a copy of an article representing a trade secret.

Even though persons are involved or victimized in Extortion/Blackmail cases, this offense is considered a crime against property. Like Robbery, the object or target of Extortion/Blackmail is to obtain money or property; therefore, it is classified as a crime against property.

Extortion includes offenses where threats are made in non-confrontational circumstances and the victim is not in fear of immediate harm. If during a demand for money, property, etc., there is a personal confrontation between the victim and offender and the threat of force or violence could be carried out immediately, the offense should be reported as Robbery.

FRAUD OFFENSES

Definition: The intentional perversion of the truth for the purpose of inducing another person or other entity in reliance upon it to part with something of value or surrender a legal right.

By definition, Fraud involves either the offender receiving a benefit or the victim incurring a detriment. The benefit or detriment could be either a tangible or an intangible object. For example, if a person impersonates a doctor to gain entrance to a restricted area of a hospital, the benefit to the offender (entry to the restricted area) is an intangible object.

The most specific subcategory of fraud should be reported whenever the circumstances fit the definition of more than one of the subcategories listed below. For example, most frauds would fit the definition of False Pretenses/Swindle/Confidence Game. However, if a credit card were used to perpetrate the fraud, the offense would be classified as Credit Card/Automatic Teller Machine Fraud.

The only fraud-related violations that would not be reported under the Fraud Offenses category are counterfeiting, forgery, and bad checks. These offenses are reported under their own specific offense classifications.

When classifying fraud cases other than the most obvious ones, i.e., con games, swindles, etc., care should be taken in applying the facts of the case to the TIBRS definition(s) of fraud. Often, questions arise as to whether or not the facts of a case describe a fraud or a larceny. Though both offenses can involve theft, it is the method used to steal that makes the difference between the two. Fraud is achieved through deceit or lying, whereas larceny is the physical taking of something.

An example of a common classification problem is the taking of gasoline without paying for it. If an offender takes gasoline from a self-service gas station without paying for it, the offense is classified as larceny. In this case, no contract was entered into nor agreement made for payment. However, if an attendant at a full service station is asked to dispense the gas into the tank, there is a tacit agreement that he/she will be paid for the gas, and the offender, never having the intention to pay for it in the first place, utilized deception in stealing the gas. This offense is classified as fraud.

FALSE PRETENSES/SWINDLE/CONFIDENCE GAME (26A)

Definition: The intentional misrepresentation of existing fact or conditions, or the use of some other deceptive scheme or device, to obtain money, goods, or other things of value.

Example relating T.C.A. to TIBRS:

Two persons had dinner in a restaurant and left without paying the check. They were charged with Theft of Services (T.C.A. §39-14-104)¹⁰. For TIBRS purposes, this is recorded as False Pretenses/Swindle/Confidence Game.

CREDIT CARD/AUTOMATIC TELLER MACHINE FRAUD (26B)

Definition: The unlawful use of a credit (or debit) card or automatic teller machine for fraudulent purposes.

This offense does not apply to the theft of a credit/debit card, but rather its fraudulent use. Consequently, the credit/debit card itself should NOT be listed in the property segment.

IMPERSONATION (26C)

Definition: Falsely representing one's identity or position, and acting in the character or position thus unlawfully assumed, to deceive others and thereby gain a profit or advantage, enjoy some right or privilege, or subject another person or entity to an expense, charge, or liability which would not have otherwise been incurred.

The person they are impersonating or attempting to impersonate must be an actual person. If a suspect "pulls a name out of a hat" so to speak, do not classify the incident as Impersonation. If they are arrested and charged with providing false information, report it as Group B, All Other Offenses (as long the arrestee did not commit a Group A offense in the same incident).

TIBRS Tip: When reporting an incident that includes Impersonation, a Property segment must be entered for that offense. The Property category will be Identity - Intangible (66) and the value will be zero (0).

¹⁰Section 39-14-104. Theft of Services...(1) Intentionally obtains services by deception, fraud, coercion, false pretense or any other means...(2) Having control over the disposition of service to others, knowingly diverts those services to the person's own benefit or the other benefit to another not entitled thereto; (3) Knowingly absconds from establishments where compensation for services is ordinarily paid immediately upon the rendering of the service, including, but not limited to hotels, motels and restaurants, without payment or a legitimate offer to pay.

WELFARE FRAUD (26D)

Definition: The use of deceitful statements, practices, or devices to unlawfully obtain welfare benefits.

WIRE FRAUD (26E)

Definition: The use of an electric or electronic communications facility to intentionally transmit a false and/or deceptive message in furtherance of a fraudulent activity.

This classification applies to those cases where the internet, teletype, micro-relay facilities, etc., are used in the commission or furtherance of a fraud.

LARCENY/THEFT OFFENSES

Definition: The unlawful taking, carrying, leading, or riding away of property from the possession, or constructive possession, of another person.

Larceny and theft mean the same thing in TIBRS. Motor Vehicle Theft is not included and is counted separately because of the great volume of such thefts. Local offense classifications such as grand theft, petty larceny, felony larceny, or misdemeanor larceny have no bearing on the fact that each distinct operation of larceny is reported as one offense.

All larceny offenses are reported regardless of the value of the property stolen. However, in larceny situations where both motor vehicle parts and accessories and articles from the motor vehicle are stolen, report the offense resulting in the greatest value of property loss. Report all of the property and property values pertaining to the incident.

Do not classify embezzlement, fraudulent conversion of entrusted property, conversion of goods lawfully possessed by bailees, counterfeiting, obtaining money by false pretenses, larceny by check, larceny by bailee and check fraud as larceny offenses. Each of the aforementioned crimes are reported in other offense categories.

If a vehicle is stolen from another motor vehicle or from a vehicle's trailer, classify the offense as Motor Vehicle Theft. Even though, by definition, larceny offenses may seem applicable, the reporting software will not allow you to enter a motor vehicle as property in any of the eight TIBRS Larceny offenses.

POCKET-PICKING (23A)

Definition: The theft of articles from another person's physical possession by stealth where the victim usually does not become immediately aware of the theft.

This type of theft includes removal of such items as wallets from women's purses and men's pockets and usually occurs in a crowd, public conveyance, or other similar situation to disguise the activity or detection of the activity. Theft from a person in an unconscious state, including drunks, should also be classified as Pocket-Picking. However, if the victim is manhandled or force beyond simple jostling is used to overcome the resistance of the victim, the offense should be reported as Robbery.

PURSE-SNATCHING (23B)

Definition: The grabbing or snatching of a purse, handbag, etc., from the physical possession of another person.

If more force is used than is actually necessary to remove the purse from the grasp of the person, or if the victim resists the theft in any way, then report the incident as Robbery.

Cases in which a purse or some other item of value is left unattended and is stolen should not be classified as a Purse-Snatching. This offense would generally be classified as Theft From a Building, Theft From a Motor Vehicle, or other appropriate larceny category.

SHOPLIFTING (23C)

Definition: The theft, by someone other than an employee of the victim, of goods or merchandise exposed for sale.

This violation assumes that the offender had legal access to the premises, and thus, no trespass or unlawful entry was involved. This offense includes thefts of merchandise displayed as part of the stock-in-trade outside buildings, such as department stores, hardware stores, supermarkets, fruit stands, gas stations, etc.

EXAMPLE: A woman stole a framed Babe Ruth first-day issue stamp from the sales table in the Post Office. She was charged with Shoplifting.

In a Shoplifting incident, a business may be owned by an individual, a corporation, or as in this case, owned (operated) by the government. Shoplifting involves the theft of merchandise exposed for sale by the place of business. The victim should always be Business.

THEFT FROM A BUILDING (23D)

Definition: A theft from within a building which is either open to the general public or where the offender has legal access.

Do not include shoplifting and thefts from coin-operated devices or machines within open buildings; these are other specific larceny types. Thefts from buildings include, but are not limited to, such places as residences, churches, restaurants, schools, libraries, public buildings, and other public and professional offices during the hours when such facilities are open to the public. A theft from a structure, accompanied by a breaking or unlawful entry (trespass) without breaking, should be reported as Burglary and not larceny.

THEFT FROM A COIN-OPERATED MACHINE OR DEVICE (23E)

Definition: A theft from a machine or device which is operated or activated by the use of coins.

Some examples of such machines are candy, cigarette, and food vending machines, telephone coin boxes, parking meters, pinball machines or washers and dryers located in Laundromats where no breaking or illegal entry of the building is involved.

If a building was broken into or illegally entered and a coin-operated machine in the building was rifled for money and/or merchandise, the offense would be classified as Burglary.

THEFT FROM A MOTOR VEHICLE (23F)

Definition: The theft of articles from a motor vehicle, whether locked or unlocked.

This type of larceny includes thefts from automobiles, trucks, semi-truck trailers (attached), buses, motorcycles, or recreational vehicles e.g., motor homes. It also includes thefts from any area in the vehicle, e.g., the trunk, glove compartment, or other enclosure. Some examples of items stolen in this type of theft are purses, compact disks, cassette tapes, cameras, wearing apparel, packages, etc., which are not an integral part of the vehicle. Do not include items that are automobile accessories *unless* they are not attached or installed (i.e. a new antenna, not installed, lying on the back seat). Certain state statutes may interpret thefts from motor vehicles as burglaries. For TIBRS, these thefts must be classified as larcenies.

<p><i>Reporting property involved in an incident with the offense of Theft of Motor Vehicle Parts or Accessories: Please be sure not to confuse the offense title with the Property category of Vehicle Parts/Accessories. Property should be reported in the most descriptive category.</i></p>

Reporting Theft From a Motor Vehicle (23F) and Destruction/Damage Vandalism (290): The offense of 23F often includes the element of forcibly breaking into a vehicle, which means there is a likelihood of causing damage. Do not report Vandalism unless the amount of damage done to the vehicle is more than necessary to enter the vehicle. If the offender had a separate intent to damage the vehicle in addition to the theft, report a second offense of Vandalism.

If a Theft From a Motor Vehicle occurs in conjunction with a Motor Vehicle Theft, the incident will most often be reported as Motor Vehicle Theft with the stolen property recorded within the appropriate property-type categories. If, however, the reporting jurisdiction determines that the motive of the theft was the contents, rather than the vehicle, two offenses can be reported, Motor Vehicle Theft and the Theft From a Motor Vehicle. For example, if an automobile with a coat in the back seat is stolen, the offense would be reported as Motor Vehicle Theft and the coat accounted for as property stolen in connection with the automobile theft. The theft of a truck containing a shipment of televisions can, however, be reported as two offenses if, in the judgment of the reporting agency, the motive of the theft was the televisions, e.g., the truck is found abandoned and empty not far from the scene of the theft.

TIBRS Tip: In larceny incidents where both motor vehicle parts and accessories and articles from the motor vehicle are stolen, report the offense resulting in the greatest value of property loss, and report all of the property and property values pertaining to the incident.

THEFT OF MOTOR VEHICLE PARTS OR ACCESSORIES (23G)

Definition: The theft of any part or accessory affixed to the interior or exterior of a motor vehicle in a manner which would make the item an attachment of the vehicle or necessary for its operation.

Thefts of motors, transmissions, radios, heaters, hubcaps/wheel covers, manufacturers' emblems, license plates, radio antennas, side-view mirrors, gasoline, tape decks, CB radios, radar detectors, etc., are included in this larceny type. If items being transported in the vehicle are stolen, the offense should be classified as Theft From a Motor Vehicle.

Reporting Theft of Motor Vehicle Parts or Accessories (23G) and Destruction/Damage Vandalism (290): Like a 23F, the offense of 23G often includes the element of forcibly breaking into a vehicle, which means there is a likelihood of causing damage. Do not report Vandalism unless the amount of damage done to the vehicle is more than necessary to enter the vehicle. If the offender had a separate, obvious intent to damage the vehicle in addition to the theft, report a second offense of Vandalism.

ALL OTHER LARCENY (23H)

Definition: All thefts which do not fit any of the definitions of the specific subcategories of Larceny/Theft listed above.

This offense includes thefts from fenced enclosures. Thefts of bicycles, boats, bulldozers, airplanes, animals, lawn mowers, lawn furniture, hand tools, and farm and construction equipment are also included where no breaking or entering of a structure is involved. Additionally, the illegal entry of a tent, tent trailer, or travel trailer used for recreational purposes, followed by a theft or attempted theft, should be counted as All Other Larceny.

Taking gasoline from a self-service gas station and leaving without paying (“Gas Drive-off”) is included in this category.

MOTOR VEHICLE THEFT (240)

Definition: The theft of a motor vehicle.

A motor vehicle is defined for TIBRS purposes as a self-propelled vehicle that runs on land surface and not on rails and which fits one of the following property descriptions:

AUTOMOBILES: Sedans, coupes, SUVs, station wagons, convertibles, taxicabs, or other similar motor vehicles, which serve the primary purpose of transporting people.

BUSES: Motor vehicles that are specifically designed (but not necessarily used) to transport groups of people on a commercial basis.

RECREATIONAL VEHICLES: Motor vehicles that are specifically designed (but not necessarily used) to transport people and also ***provide them temporary lodging*** for recreational purposes.

TRUCKS: Motor vehicles that are specifically designed (but not necessarily used) to transport cargo or other items by a private citizen or on a commercial basis.

OTHER MOTOR VEHICLES: Any other motor vehicles (motorcycles, motor scooters, trail bikes, mopeds, snowmobiles, golf carts, motorized wheelchairs, etc.) whose primary purpose is to transport people.

Classify as Motor Vehicle Theft all cases where vehicles are taken by persons not having lawful access even if the vehicles are later abandoned, including joyriding.

Do not include the taking of a vehicle for temporary use when prior authority has been granted or can be assumed, such as in family situations; or unauthorized use by chauffeurs and others having lawful access to the vehicle. Other Group A offenses may, however, have occurred in these situations. For example, if a chauffeur steals a car entrusted to his care, Embezzlement should be reported.

ROBBERY (120)

Definition: The taking, or attempting to take, anything of value under confrontational circumstances from the control, custody, or care of another person by force or threat of force or violence and/or by putting the victim in fear of immediate harm.

Robbery involves the offender taking or attempting to take something of value from a victim, aggravated by the element of force or threat of force. The victim, who usually is the owner or person having custody of the property, is directly confronted by the perpetrator and is threatened with force or is put in fear that force will be used. If there is no direct confrontation and the victim is not in fear of immediate harm, Extortion should be reported. In Pocket-pickings or Purse-snatchings, direct confrontation does occur, but force or threat of force is absent. However, if during a Purse-snatching or other such crime, force or threat of force is used to overcome the active resistance of the victim, the offense is to be classified as Robbery.

Cases involving pretend weapons or where the weapon is not seen by the victim but the robber claims to possess one are also classified as Robbery and the alleged weapon reported. ***If an immediate on-view arrest proves that there was no weapon, the offense is classified as Robbery, but the weapon is reported as None.***

Because assault is an element of the crime of robbery, an assault should not be reported as a separate offense as long as it was performed in furtherance of the robbery. However, if the injury results in death, a homicide offense must also be reported.

In any instance of robbery, report one offense for each distinct operation. As in the case of other crimes against property, only one offense is reported regardless of the number of victims involved. The victims of a robbery include not only those persons and other entities (businesses, financial institutions, etc.) from whom property was taken, but also those persons toward whom the robber(s) directed force or threat of force in perpetrating the offense. Therefore, although the primary victim in a bank robbery would be the bank, the teller toward whom the robber pointed a gun and made a demand should also be reported as a victim, as well as any other person upon whom an assault was committed during the course of the robbery.

Example relating T.C.A. to TIBRS:

During the course of a robbery, the victim was shot and seriously injured. The robber fled with the victim's jewelry. The offender was arrested and charged with Especially Aggravated Robbery (T.C.A. §39-13-403)¹¹. For TIBRS purposes this would be classified as one incident with two offenses (Robbery, Weapon Law Violation).

TIBRS Tip: Carjacking is reported as Robbery in TIBRS.

¹¹Section 39-13-403. Especially Aggravated Robbery. Especially aggravated robbery is robbery...(1) accomplished with a deadly weapon; and (2) where the victim suffers serious bodily injury.

STOLEN PROPERTY OFFENSES (280)

Definition: Receiving, buying, selling, possessing, concealing, or transporting any property with the knowledge that it has been unlawfully taken, as by burglary, embezzlement, fraud, larceny, robbery, etc.

The offense of Stolen Property requires that an offender have the property in their possession, and has knowledge that the property is stolen. Abandoned stolen property is not reportable to TIBRS. However, if that property had previously been reported stolen, the original incident should be edited to show the recovery, but a Stolen Property Offense would not be reportable.

<p><i>If the property recovered was stolen from another jurisdiction, the recovery of the property must be reported by the jurisdiction in which the theft originally occurred.</i></p>
--

VANDALISM - INTENTIONAL DESTRUCTION/DAMAGE OF PROPERTY (290)

Definition: To willfully or maliciously destroy, damage, deface, or otherwise injure real or personal property without the consent of the owner or the person having custody or control of it.

This offense includes a broad scope of intentional damage to property ranging from deliberate, extensive destruction of property at one extreme to mischievous, less extensive damage at the other extreme. It does not include destruction or damage to property caused by arson.

TIBRS Tip: Accidental property damage caused by storms, high winds, etc. is not a crime and is not reportable to TIBRS.

¹²Section 39-17-425. Unlawful Drug Paraphernalia Uses and Activities. ...It is unlawful for any person to use, or to possess with intent to use, drug paraphernalia to plant, propagate, cultivate, grow, harvest, manufacture, compound, convert, produce, process, prepare, test, analyze, pack, repack, store, contain, conceal, inject, ingest, inhale, or otherwise introduce into the human body a controlled substance in violation to the part ...

NOTES

CHAPTER 4

GROUP B OFFENSE DEFINITIONS

There are ten Group B offense categories. Group B offenses encompass all of the crimes that are not Group A offenses. *Only arrestee data is reported for Group B crimes.* Traffic offenses are excluded from TIBRS reporting with four exceptions which are discussed on page 84.

For Group B incidents, report only one offense per incident. As a guideline, the agency should report the offense that the agency believes to be the most serious. If the incident involves multiple offenders, report them as separate incidents.

EXAMPLE 1: A man was arrested for DUI. He was also charged with Liquor Law Violation. Most agencies would choose to report DUI to TIBRS.

EXAMPLE 2: Two men were publically intoxicated. Report *two* separate incidents of Drunkenness to TIBRS, using two separate, unique incident numbers.

BAD CHECKS (90A)

Definition: Knowingly and intentionally writing and/or negotiating checks drawn against insufficient or non-existent funds.

This offense includes Worthless Checks. This offense *does not* include “Counterfeited Checks” and “Forged Checks.”

Each individual check passed is a distinct operation, separated by time and place, and must be reported to TIBRS in that fashion. Example: A person is arrested and charged with writing seven bad checks. This would be reported as seven separate incidents of Bad Checks (90A).

For an alternative method of reporting Bad Check offenses to TIBRS, please view the training tips on the TBI web site!

CURFEW/LOITERING/VAGRANCY VIOLATIONS (90B)

Definition: The violation of a court order, regulation, ordinance, or law requiring the withdrawal of persons from the streets or other specified areas; prohibiting persons from remaining in an area or place in an idle or aimless manner; or prohibiting persons from going place to place without visible means of support.

DISORDERLY CONDUCT (90C)

Definition: Any behavior that tends to disturb the public peace or decorum, scandalize the community, or shock the public sense of morality.

Possible examples include Indecent Exposure, Disorderly Conduct, Disrupting Meeting, Obstructing Highway/Passageway, Riot, Inciting a Riot, etc.

DRIVING UNDER THE INFLUENCE (90D)

Definition: Driving or operating a motor vehicle or common carrier while mentally or physically impaired as the result of consuming an alcoholic beverage or using a drug or narcotic.

Possible examples include Driving under the Influence, DUI using Commercial Vehicle, Juvenile DUI, Boating under the Influence, Vehicular Assault, etc.

DUI - OFFENDER WAS USING

Indicate whether the arrestee was using/under the influence of alcohol, drugs, or both by using the following codes:

Alcohol.....A	Drugs.....D	Both.....B
---------------	-------------	------------

NOTE: This applies to DUI only. Leave this field blank for all other Group B offenses.

REPORTING TRAFFIC OFFENSES TO TIBRS

There are only four traffic violations that are reportable to TIBRS:

- DUI*
- Hit and Run of a Person*
- Vehicular Homicide*
- Driving While in Possession of Methamphetamine*

Driving Under the Influence is reported as DUI (90D). Hit and Run of a Person is reported as All Other Offenses (90Z). The TIBRS classification for Vehicular Homicide will depend upon whether or not the offender was drinking. If the offender was drinking, enter the arrest as 90D. If the offender was *not* drinking, enter the arrest as 90Z. Driving While in Possession of Methamphetamine is reported as a Drug/Narcotic Violation (35A).

<i>Other traffic violations, i.e. Reckless Driving, Driving on a Suspended or Revoked License, Speeding, etc. are NOT reportable to TIBRS.</i>

DRUNKENNESS (90E)

Definition: To drink alcoholic beverages to the extent that one's mental faculties and physical coordination are substantially impaired.

This offense includes Public Intoxication.

FAMILY OFFENSES, NON-VIOLENT (90F)

Definition: Unlawful, non-violent acts by a family member (or legal guardian) which threaten the physical, mental, or economic well-being or morals of another family member and which are not classifiable as other offenses, such as Assault, Incest, Statutory Rape, etc.

Possible examples include Child Abuse and neglect (non-violent), Non-support/Flagrant Non-support. The offense would also include the non-payment of court-ordered alimony, as long as it is not considered to be "Contempt of Court" within the reporting jurisdiction.

LIQUOR LAW VIOLATIONS (90G)

Definition: The violation of laws or ordinances prohibiting the manufacture, sale, purchase, transportation, possession, or use of alcoholic beverages.

Possible examples include Open Container, Illegal Manufacture/Sale/Purchase, Underage Drinking, etc.

PEEPING TOM (90H)

Definition: To secretly look through a window, doorway, keyhole, or other aperture for the purpose of voyeurism.

TRESPASS OF REAL PROPERTY (90J)

Definition: To unlawfully enter land, a dwelling or other real property.

All burglary offenses include the element of trespass; however, trespass involves entry with no intent to commit a felony or theft.

Possible examples include Criminal Trespassing, Trespass by Motor Vehicle, etc.

ALL OTHER OFFENSES (90Z)

Definition: All crimes which are not Group A offenses and are not included in one of the specifically named Group B crime categories listed above.

Possible examples include Contempt of Court, Failure to Appear, Violation of Probation/Parole, etc.

OFFENSES OF GENERAL APPLICABILITY

Offenses of General Applicability: Offenses prefixed by “Accessory Before the Fact,” “Accessory After the Fact,” “Aiding and Abetting,” “Conspiracy to Commit,” “Solicitation to Commit,” “Facilitation of,” or any other prefix identifying the offense as other than the *substantive* offense, are reported as follows:

If the substantive offense is a *Group A offense*, report the offense as a All Other Offenses (90Z).

EXAMPLE 1: A man was charged with Conspiracy to Commit Murder.

Since murder is a Group A offense, this would be reported to TIBRS as All Other Offenses (90Z).

However, if the substantive offense is a *Group B offense*, report the offense/incident as the Group B offense that was committed.

EXAMPLE 2: A man was charged with Conspiracy to Sell Untaxed Whiskey.

A Liquor Law Violation is a Group B offense, so the offense/incident would be reported to TIBRS as a Liquor Law Violation (90G).

DEFINITION OF GANG TYPES

PRISON GANGS OR SECURITY THREAT GROUP

Definition: A group of individuals possessing common characteristics which serve to distinguish them from other individuals or groups who have been determined to be acting in concert, so as to pose a threat or potential threat to staff, other inmates, the institution, or the community.

Prison Gangs or Security Threat Groups are not limited to traditional prison gangs, but also include non-traditional, less well-organized groups of inmates. These groups, both traditional and non-traditional, are problematic because of the threat that they pose in the institution, and because in many instances they continue to operate or assist in the operation of criminal street gang activity while incarcerated.

EXAMPLES OF TRADITIONAL PRISON GANGS/SECURITY THREAT GROUPS:

Aryan Brotherhood

Mexican Mafia

Black Guerrilla Family

Texas Syndicate

La Nuestra Family

EXAMPLES OF NON-TRADITIONAL PRISON GANGS/SECURITY THREAT GROUPS:

Aryan Warriors

Dirty White Boys

Traditional organized crime groups are self-perpetuating entities, usually with some common cultural background, that sustain themselves through ongoing criminal activity. APPENDIX – TABLE 1
T.C.A. CONVERSION GUIDE
TENNESSEE CODE ANNOTATED ORDER

INTRODUCTION

This document is an attempt to demonstrate how offenses found in Tennessee Code Annotated are *generally* classified according to the definitions developed by the FBI with the National Incident Based Reporting System (NIBRS) program.

Because each criminal incident is unique, this document is only meant to serve as a guide in the classification of various offenses. For more specific offense definitions, please refer to the TIBRS Data Collection Manual.

Example: One man strikes another man with his fist. No weapons are used (other than the offender's Personal Weapons) and the victim is not injured. The offender is arrested and charged with Disorderly Conduct. For TIBRS reporting purposes, Disorderly Conduct is a Group B offense. This document shows that "Disorderly Conduct" should be reported to TIBRS as "90C Disorderly Conduct". However, in this example, a Group A offense (Simple Assault) occurred, and that is the offense that should be reported to TIBRS.

This document is comprised of two separate sections. The first section is a table organized by Tennessee Code Annotated. The second section is a table organized by Tennessee offense titles.

Use of these tables will help ensure more accurate and uniform classification of offenses according to NIBRS and TIBRS standards. If you encounter offenses not specifically listed in this document or are unsure about the classification of a particular offense, please contact your agency's Law Enforcement Information Coordinator (LEIC) for assistance. This information is also available in a database or spreadsheet file if needed. For your convenience, it is also available on our website (www.tbi.tn.gov) and may be printed from that location.
