JOHN C. SCHROER
COMMISSIONER

BILL HASLAM
GOVERNOR

February 18, 2016

To whom it may concern,

Starting March 1, 2016 we will temporarily extend the amendment period from eight (8) hours to twenty-four (24) hours. Our goal is to reduce the amount of voids processed each day. This process will be in effect during the entire month of March.

Permits may be amended one time; and multiple fields may be amended at once. However, either the Origin and the Route, or the Destination and the Route may be amended. All three (3) of those fields cannot be amended at one time. The table below explains what will and will not need to be reviewed by our office.

Auto-Approved Changes	Requires Permit Agent Review
Start Date	Width
Vehicle Information	Height
Equipment Information	Length
Date Extension	Axle – Quantity, Spacing, Weight
	Route

Once a permit has been created, but before final submission, please double check the company name, origin, destination, and route. If the origin and/or destination are located in Tennessee, a street address must be provided. All routes must be complete and include secondary roads.

We appreciate your cooperation as we strive to improve our processes and provide a better experience for all involved. Please contact the Overweight and Overdimensional Permit Office at (615)741-3821 or TDOT.PermitOffice@tn.gov, with any questions or concerns.
