## Addictions Recovery Program (ARP)

### Provider List

Effective July 2026-June 2027

Updated June 11, 2026

Updated June 11, 2026

FY26-27

## **TENNESSEE ADDICTIONS RECOVERY PROGRAM (TN-ARP) SERVICES**

### **Recovery Support Services Assessment**

This consists of the TN-ARP screening tool and the TN-ARP Recovery Support Services Assessment Summary and Service Plan. This is available to individuals assessing ONLY recovery support services.

### **Case Management**

This service involves coordination of care services which assist an individual in identifying, accessing, and coordinating resources that are supportive in achieving the person's treatment and recovery goals. Services may be delivered face to face or by telephone. Time spent in direct contact with the individual, or with collateral on behalf of the person, is reimbursable. The staff performing this service must be trained and qualified according to the agency's governing body. This service may be offered by state-licensed treatment providers and non-licensed recovery support providers.

### **Drug Testing**

Random drug testing is used to determine the presence of substances.

### **Employment Skills**

This service can be utilized to teach the transferable skills needed by an individual to make them 'employable.' A component of SAMHSA's definition of recovery is purpose, which includes obtaining and holding a job. Employment Skills are designed to assist the individual in obtaining the necessary skills to be a successful and productive member of the community and offer skill-building topics such as budgeting, personal growth, responsible decision making, interviewing skills, resume writing, career exploration and job retention skills.

### **Health/Wellness**

These activities promote confidence and a positive outlook which helps to maintain abstinence and overall wellbeing. These can include tobacco cessation, healthy eating, exercise and fitness support as well as mindfulness activities such as painting, etc.

## **Recovery Activities**

Recovery activities are activities that involve discovering new opportunities to have fun without using substances. They could include museums, picnics, parks, local events, etc.

## **Recovery Skills**

This service is designed to assist the individual in obtaining the necessary skills to be a successful and productive member of the community. It offers skill-building topics such as budgeting, parenting, personal growth, responsible decision making, etc. If performed in a group setting, the group size must be a minimum of two individuals and no more than 12 individuals. The staff facilitating this service must be trained and qualified according to the agency's governing body. This service may be offered by state-licensed treatment providers and non-licensed recovery support providers. Individual sessions are 50 minutes and group sessions are 60 minutes in duration.

## **Relapse Prevention**

This service is designed to assist the individual in developing skills to recognize early signs that may lead to relapse and to develop methods to counteract these triggers. If performed in a group setting, group size must be a minimum of two individuals and no more than 12 individuals. Staff must be trained and qualified according to the agency's governing body. This service may be offered by state-licensed treatment providers and non-licensed recovery support providers. Individual sessions are 50 minutes and group sessions are 60 minutes in duration.

## **Transitional Housing**

This is housing that is required on a transitional basis to support the individual during their treatment and/or recovery phase. The housing must be community based, safe, and drug free. This service must be governed or staffed to assure a safe and drug-free environment. The agency must meet all local housing codes and have adequate liability insurance. The staff providing this service must be trained and qualified according to the agency's governing body. This service is done in conjunction with other treatment/recovery services.

## **Transportation**

This service provides transportation for individuals for the purpose of accessing treatment and/or recovery services or any other activity that supports an individual's recovery. The vehicle used must be owned or leased by the TN-ARP provider. The agency must have proper vehicle insurance coverage. Agency staff may use their personal vehicles if the following conditions are met: a) must have a Class D License, with a F Endorsement and, b) staff must have copy of current full-coverage automobile insurance on file at agency. The vehicle driver(s) must have the appropriate chauffeur's or commercial license. Transportation is reimbursable based on the following three criteria: 1) there is no other payment source for this service and, 2) the individual has no other reliable transportation alternative, and 3) there is no public transportation or its use would create a hardship on the person.
