5-6 PROGRAM REPORTING AND REVIEW REQUIREMENTS FOR AREA AGENCIES ON AGING AND DISABILITY

5-6-.01 REPORTS

(3) Required reports must be submitted to the State Agency according to the instructions and schedule provided. Failure to comply with the report requirements may result in either withholding of funds or possible suspension/termination of operations. This procedure is necessary since late or improperly completed reports often prevent the State Agency from complying with Administration on Aging (AoA) report requirements or from properly carrying out its management function.

(4) The State Agency requires each AAAD to establish a program reporting system that will ensure the provision of accurate program reports from service providers covered by the area plan. Such reports are deemed necessary for the AAAD to meet its reporting requirements to the State Agency and to facilitate proper administration of the area plan.

5-6-.02 TCAD Monitoring and Program Review of the AAAD

Purpose of Section
Monitoring activities are performed to ensure the AAAD programs adhere to the terms and conditions of the grant and/or contract with Tennessee Commission on Aging and Disability (TCAD). (1) Scope of Monitoring

a. Program Monitoring. Annually, the TCAD will monitor AAADs to determine that they are operating effectively and according to applicable program standards. Areas included in program monitoring may include, but are not limited to, TCAD program policy and manual, federal and state contract, and state rules and regulations.

b. Fiscal Monitoring. The TCAD will monitor the AAAD to determine that each establishes and maintains, as appropriate, a fiscal system according to generally accepted accounting principles, that the conditions of the grant and/or contract award document are met, that the service provider maintains an adequate system of internal accounting and administrative controls, and that
funds are requested, expended, and reported according to the grant and/or contract award. Specific areas of fiscal operations that may be monitored include, but are not limited to, the following:

i. appropriateness of the fiscal system and the written policies and procedures used by the service provider;

ii. accuracy and timeliness of fiscal reporting information;

iii. service provider's understanding of fiscal requirements and capability to perform; and,

iv. appropriate use of grant and/or contract funds, as written in the grant and/or contract award and this Manual.

(2) Methods of Monitoring

The TCAD shall conduct program and fiscal monitoring through any of several types of activities, including the following:

a. Use approved TCAD monitoring tools.

b. Review of monthly invoice for reimbursement (IFR), independent audit reports, and other written communication.

(3) TCAD On-site Compliance Reviews

a. The TCAD shall monitor each AAAD annually during the state fiscal year. A Civil Rights (Title VI) review shall be a component of the TCAD review.

An on-site compliance review must be followed with a formal written report by the TCAD to the grantee agency/AAAD. The report shall be emailed, mailed or faxed to the grantee agency/AAAD within 30 calendar days of the site review. The report shall include: AAAD monitored, the date of the compliance review; observations, recognition of strengths (optional); specify areas of noncompliance citing the standard or policy; and any recommendations to promote improvements of services.
(4) **Plan of Correction**

When responding to findings listed in the final report, choose from one (1) of the following responses and provide explanation for the response.

**Concur:** The AAAD is in agreement with the remarks and findings cited in the monitoring report as being accurate.

**Concur in Part:** The AAAD is in partial agreement with the overall conclusions cited in the monitoring report; however, it seeks to have certain information amended due to inaccuracies such as dates, names, etc. This response is appropriate whenever the Agency has evidence to refute some conclusions drawn in the monitoring report. Any perceived inaccuracies must be substantiated with supporting documentation provided to TCAD for review.

**Do Not Concur:** The AAAD rejects all the conclusions and findings in the monitoring report as groundless and without merit. The Agency maintains that all areas subject to review adhere to the requirements within the Scope of Services cited in the contract; TCAD program and Policy Manual; the Federal/State statutes and laws. Such situations must be addressed by the Program Director.

All correspondence between the TCAD and the AAAD concerning the resolution of the findings will become part of the final monitoring record. Plan of Correction must be received by the AAAD in 30 calendar days of the date sent.

(5) **Final Authority in a Corrective Action Challenge:**

During the Corrective Action process should an impasse occur between a subrecipient and the TCAD monitors over a finding or appropriate Plan of Correction, the TCAD Executive Director will act as the final authority to settle the dispute. This final recourse while available to subrecipient it is rarely used.

The AAAD shall monitor all service providers at least annually using monitoring tools approved by TCAD that are based on the *Program and Policy Manual.* If deficiencies that result in a finding are found during the monitoring process, the AAAD shall require the service provider to submit a Plan of Correction and conduct follow-up monitoring until all findings are resolved. If findings are not resolved to the satisfaction of the AAAD, the AAAD may take any type of correction action, including but not
limited to, termination of the contract. In determining whether a Service Provider is a subrecipient or a contractor, refer to HHS Uniform Administrative Requirements, Cost Principles, and Audit Requirements for HHS Awards in section 75.351.

b. An on-site compliance review must be followed with a formal written report by the AAAD to the responsible service provider listed on the contract. The report shall be emailed, mailed or faxed to the service provider within 30 calendar days of the site review. The report shall include: who conducted the monitoring, name of the provider, the date of the compliance review; recognition of strengths (optional); specify areas of noncompliance citing the standard or policy; and any recommendations to promote improvements of services. When a Senior Center is monitored a copy of the monitoring report and plan of correction must be given to the

(4) **Plan of Correction**

When responding to findings listed in the final report, choose from one (1) of the following responses and provide explanation for the response.

**Concur:** The Subcontracting Agency is in agreement with the remarks and findings cited in the monitoring report as being accurate.

**Concur in Part:** The Subcontracting Agency is in partial agreement with the overall conclusions cited in the monitoring report; however, it seeks to have certain information amended due to inaccuracies such as dates, names, etc. This response is appropriate whenever the Agency has evidence to refute some conclusions drawn in the monitoring report. Any perceived inaccuracies must be substantiated with supporting documentation provided to the AAAD for review.

**Do Not Concur:** The Subcontracting Agency rejects all the conclusions and findings in the monitoring report as groundless and without merit. The Agency maintains that all areas subject to review adhere to the requirements within the Scope of Services cited in the contract; TCAD program and Policy Manual; the Federal/State statutes and laws. Such situations must be addressed by the Program Director.

All correspondence between the AAAD and the Subcontracting Agency concerning the resolution of the findings will become part of the final monitoring record. The Plan of Correction must be received by AAAD within 30 calendar days of the date sent.
