**TENNESSEE ATTORNEY GENERAL JONATHAN SKRMETTI SUES AVID
TELECOM OVER ILLEGAL ROBOCALLS**

Avid Telecom is accused of initiating and facilitating billions of illegal robocalls to millions of people on the Do Not Call Registry

Nashville – Tennessee Attorney General Jonathan Skrmetti today sued Michael D. Lansky, LLC, which does business under the name Avid Telecom, its owner Michael Lansky, and its vice president Stacey S. Reeves, for allegedly initiating and facilitating billions of illegal robocalls to millions of people and violating the Telephone Consumer Protect Act, the Telemarketing Sales Rule, and other federal and state telemarketing and consumer laws. Avid Telecom sent or transmitted more than 7.5 billion calls to telephone numbers on the National Do Not Call Registry between December 2018 and January 2023 – approximately 200 million of those calls were to numbers in Tennessee.

“Everybody hates robocalls, especially when they are used to take advantage of our most vulnerable citizens,” General Skrmetti said. “I appreciate the efforts of this bipartisan group to stop this relentless annoyance and protect Tennesseans from exploitive interruptions.”

Avid Telecom is a Voice over Internet Protocol (VoIP) service provider that sells data, phone numbers, dialing software, and/or expertise to help its customers make mass robocalls. It also serves as an intermediate provider and allegedly facilitated or helped route illegal robocalls across the country. Between December 2018 and January 2023, Avid sent or attempted to transmit more than 24.5 billion calls. More than 90 percent of those calls lasted less than 15 seconds, which indicates they were likely robocalls. Further, Avid helped make hundreds of millions of calls using spoofed or invalid caller ID numbers, including more than 8.4 million calls that appeared to be coming from government and law enforcement agencies, as well as private companies.

Avid Telecom allegedly sent or transmitted scam calls about Social Security Administration scams, Medicare scams, auto warranty scams, Amazon scams, DirecTV scams, credit card interest rate reduction scams, and employment scams. Examples of some of these scams are available to listen to [here](#) and [here](#).

The USTelecom-led Industry Traceback Group, which notifies providers about known and suspected illegal robocalls sent across their networks, sent at least 329 notifications to Avid Telecom that it was transmitting these calls, but Avid Telecom continued to do so.

Today's legal action arises from the nationwide Anti-Robocall Multistate Litigation Task Force of 51 bipartisan attorneys general. The task force is investigating and taking legal action against those responsible for routing significant volumes of illegal robocall traffic into and across the United States. The Federal Trade Commission and the Social Security Administration's Office of the Inspector General provided investigative assistance in this matter.

Attorney General Skrametti is joined in filing today's complaint by attorneys general from Alabama, Arizona, Arkansas, California, Colorado, Connecticut, D.C., Delaware, Florida, Georgia, Hawaii, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, Nevada, New Hampshire, New Jersey, New Mexico, New York, North Carolina, North Dakota, Ohio, Oklahoma, Oregon, Pennsylvania, Rhode Island, South Carolina, Texas, Utah, Vermont, Virginia, Washington, West Virginia, Wisconsin, and Wyoming.
