**Project 1 – Fire Officer I Practical Exam Score Sheet  
Scenarios 1- 5**

	Possible Points	Points Awarded
1. Did the applicant clearly establish command? <u>Remember, they can not pass or transfer command</u>	<u>15</u>	_____
2. a) Did the applicant provide a detailed size-up of the incident based upon the information provided?	<u>10</u>	_____
2. b) Did the applicant communicate the incident priorities? <u>Examples: Life Safety, Incident Stabilization, Property Conservation</u>	<u>10</u>	_____
3. Did the applicant communicate their strategies for the incident? <u>How will the applicant accomplish the incident priorities?</u>	<u>10</u>	_____
4. Did the applicant develop the written action plan?	<u>5</u>	_____
a) Did the applicant include the tactics to meet the strategies?	<u>5</u>	_____
b) Did the applicant include accountability of personnel?	<u>5</u>	_____
c) Did the applicant comply with two in/two out?	<u>5</u>	_____
5. Did the applicant use the resources given in the scenario to accomplish the strategies?	<u>10</u>	_____
<b><u>Deduction for using resources not listed in the scenario -10</u></b>

**Project #10 Scenario 1**  
**Page 1**

Grading Item	Possible Points	Points Awarded
1. Identifies	up to <u>10</u>	_____
At least two employees enter the IDLH atmosphere and remain in visual or voice contact with one another at all times;		
2. Identifies	up to <u>10</u>	_____
At least two employees are located outside the IDLH atmosphere. Employee(s) located outside the IDLH atmospheres are equipped with: Pressure demand or other positive pressure SCBAs, or a pressure demand or other positive pressure supplied-air respirator with auxiliary SCBA; and appropriate retrieval equipment for removing the employee(s) who enter(s) these hazardous atmospheres where retrieval equipment would contribute to the rescue of the employee(s) and would not increase the overall risk resulting from entry.		
3. Identifies	up to <u>10</u>	_____
Visual, voice, or signal line communication is maintained between the employee(s) in the IDLH atmosphere and the employee(s) located outside the IDLH atmosphere;		
4. Identifies	up to <u>10</u>	_____
One of the two individuals located outside the IDLH atmosphere may be assigned to an additional role, such as incident commander in charge of the emergency or safety officer, so long as this individual is able to perform assistance or rescue activities without jeopardizing the safety or health of any firefighter working at the incident.		
5. Identifies	up to <u>10</u>	_____
The employer or designee is notified before the employee(s) located outside the IDLH atmosphere enter the IDLH atmosphere to provide emergency rescue;		
6. Correct memo format:		
a. addressed to a supervisor	<u>3</u>	_____
b. appropriate letterhead with address	<u>4</u>	_____
c. date	<u>1</u>	_____
e. signature	<u>2</u>	_____

**Project #10 Scenario 2**  
**Page 1**

Grading Item	Possible Points	Points Awarded
1. Identifies	up to <u>10</u>	_____

When backing the apparatus, all members (excluding the driver and tiller person) should dismount and act as spotters for the backing operation. Spotters should not be permitted to ride the apparatus from an exposed position such as the tailboard.

2. Identifies	up to <u>10</u>	_____
---------------	-----------------	-------

The spotters should discuss a backing plan with the driver and agree on the communication or warning process prior to beginning. Communication could be verbal, by a remote electronic signaling device, hand signals, or radio.

3. Identifies	up to <u>10</u>	_____
---------------	-----------------	-------

The vehicle should not be moved until the spotters are in position and have communicated their approval to start backing. Once the backing begins, the spotters should remain visible to the driver.

4. Identifies	up to <u>10</u>	_____
---------------	-----------------	-------

Spotters who are not in their turnout gear should always wear high visibility reflective vests. At least one spotter should be positioned at the left rear corner and operate as the primary spotter. Whenever the driver cannot see the primary spotter, the backing operation should immediately stop.

5. Recommendations	up to 15	_____
--------------------	----------	-------

Fire apparatus could be equipped or retrofitted with additional mirrors, commercially available video cameras, or sensing devices. This would help to alleviate some of the risk involved with backing operations; however, these devices cannot take the place of spotters, who are not riding on the apparatus, but assisting and directing the driver while backing.

6. Correct memo format:		
a. addressed to a supervisor	<u>3</u>	_____
b. appropriate letterhead with address	<u>4</u>	_____
c. date	<u>1</u>	_____
e. signature	<u>1</u>	_____
f. subject	<u>1</u>	_____
