**LIVE FIRE SUPPRESSION VERIFICATION (2013 Edition NFPA 1001 & 472)**  
 (This form **must** be submitted to the Commission for a Written Exam)

Fire Department: \_\_\_\_\_

Expires three (3) years from date of issue

Name: \_\_\_\_\_ ACADIS - PSID Number \_\_\_\_\_

FFI Objective Number	Job Performance Requirement	Date Completed	Instructor/Team Leader's Name
1001-5.3.7	Passenger Vehicle Fire Attack		
1001-5.3.8	Exterior Class A Fire Attack		
1001-5.3.10	Interior Structure Fire Attack		
1001-5.3.16	Portable Fire Extinguisher Suppression		
1001-5.3.19	Ground Cover Fire Attack		

FFII Objective Number	Job Performance Requirement	Date Completed	Instructor/Team Leader's Name
1001-6.3.1; 472-6.6.4.1	Ignitable Liquid Fire Extinguishment with Foam		
1001-6.3.2	Coordination of Interior Fire Attack Various Levels		
1001-6.3.3; 472-6.6.4.1	Flammable Gas Cylinder Fire Control		

I certify that the above named individual has successfully completed the above listed Live Fire Suppression Evolutions during formal training conducted in accordance with the applicable portions of NFPA Standard 1403, Live Fire Training, 2012 Edition and meeting the NFPA 1001 performance objectives listed. Completion of the evolution shall have addressed all requirements of the specified Job Performance Requirement utilizing live fire, **NO SIMULATIONS**. (See reverse side for a complete Job Performance Requirement description) If these requirements were completed over two or more live burns, then separate forms must be completed. **It is our complete understanding that any false information being provided in this form may result in disciplinary action by the Commission in accordance with the Commission's Rules, Chapter 0360-5-1.**

Live Burn Number at which the above objectives were completed: \_\_\_\_\_

The Live burn training exercise was completed at the following location \_\_\_\_\_

\_\_\_\_\_  
 Live Fire Instructor in Charge's Signature

\_\_\_\_\_  
 Date Expires three (3) years from date of issue

\_\_\_\_\_  
 Live Fire Incident Commander's Signature

\_\_\_\_\_  
 Date Expires three (3) years from date of issue

\_\_\_\_\_  
 Training Officer's Signature of Host Fire Department

\_\_\_\_\_  
 Date Expires three (3) years from date of issue

**FIRE FIGHTER I - 2013 NFPA 1001**  
**OBJECTIVE # and JOB PERFORMANCE REQUIREMENT**

**5.3.7 Passenger Vehicle Fire Attack**

Attack a passenger vehicle fire operating as a member of a team, given personal protective equipment, attack line, and band tools, so that hazards are avoided, leaking flammable liquids are identified and controlled, protection from flash fires is maintained, all vehicle compartments are overhauled, and the fire is extinguished.

**5.3.8 Exterior Class (A) Fire Attack**

Extinguish fires in exterior Class A materials, given fires in stacked or piled and small unattached structures or storage containers that can be fought from the exterior, attack lines, hand tools and master stream devices, and an assignment, so that exposures are protected, the spread of fire is stopped, collapse hazards are avoided, water application is effective, the fire is extinguished, and signs of the origin area(s) and arson are preserved.

**5.3.10 Interior Structural Fire Attack**

Attack an interior structure fire operating as a member of a team, given an attack line, ladders when needed, personal protective equipment, tools, and an assignment, so that team integrity is maintained, the attack line is properly deployed for advancement, ladders are correctly placed when used, access is gained into the fire area, effective water application practices are used, the fire is approached safely, attack techniques facilitates suppression given the level of the fire, hidden fires are located and controlled, the correct body posture is maintained, hazards are recognized and managed, and the fire is brought under control.

**5.3.16 Portable Fire Extinguisher Suppression**

Extinguish incipient Class A, Class B, and Class C fires, given a selection of portable fire extinguishers, so that the correct extinguisher is chosen, the fire is completely extinguished, and proper extinguisher-handling techniques are followed.

**5.3.19 Ground Cover Fire Attack**

Combat a ground cover fire operating as a member of a team, given protective clothing, (SCBA if needed), hose lines, extinguishers or hand tools, and an assignment, so that threats to property are reported, threats to personal safety are recognized, retreat is quickly accomplished when warranted, and the assignment is completed.

**FIRE FIGHTER II 2013 – NFPA 1001**  
**OBJECTIVE # and JOB PERFORMANCE REQUIREMENT**

**6.3.1 Ignitable Liquid Fire Extinguishment w/Foam**

Extinguish an ignitable liquid fire, operating as a member of a team, given an assignment, an attack line, personal protective equipment, a foam proportioning device, a nozzle, foam concentrates, and a water supply, so that the proper type of foam concentrate is selected for the given fuel and conditions, a properly proportioned foam stream is applied to the surface of the fuel to create and maintain a foam blanket, fire is extinguished, re-ignition is prevented, team protection is maintained with a foam stream, and the hazard is faced until retreat to safe haven is resolved.

**6.3.2 Coordination of Interior Fire Attack - Various Levels**

Coordinate an interior attack line team's accomplishment of an assignment in a structure fire, given attack lines, personnel, personal protective equipment, and tools, so that crew integrity is established; attack techniques are selected for the given level of the fire (e.g., attic, grade level, upper levels, or basement); attack techniques are communicated to the attack teams, constant team coordination is maintained; fire growth and development is continuously evaluated; search, rescue, and ventilation requirements are communicated or managed; hazards are reported to the attack teams, and incident command is apprised of changing conditions.

**6.3.3 Flammable Gas Cylinder Fire Control**

Control a flammable gas cylinder fire, operating as a member of a team, given an assignment, a cylinder outside of a structure, an attack line, personal protective equipment, and tools, so that crew integrity is maintained, contents are identified, safe havens are identified prior to advancing, open valves are closed, flames are not extinguished unless the leaking gas is eliminated, the cylinder is cooled, cylinder integrity is evaluated, hazardous conditions are recognized and acted upon, and the cylinder is faced during approach and retreat.
