

SFMO Electrical Engineer Registry

Pursuant to Tenn. Code Ann. § 68-120-118, the State Fire Marshal's Office ("SFMO") will publish and maintain a registry of actively licensed engineers in Tennessee who have elected to conduct electrical inspections for an exempt jurisdiction.

Registration submissions for the SFMO Electrical Engineer Registry are verified to ensure the engineer is actively licensed as an engineer in Tennessee by the Board of Architectural and Engineering Examiners. The SFMO Registration Number below is identical to the number issued to the active engineer license issued by the Tennessee Board of Architectural and Engineering Examiners. The SFMO Registration Date is the date in which the engineer was added to the SFMO Electrical Engineer Registry and registration to this list does not have an expiration date. The SFMO Registration Date is not associated with the expiration date of the engineer license issued by the Board of Architectural and Engineering Examiners, and it is recommended that all engineering licenses be verified at verify.tn.gov to ensure the licensee is actively licensed as an engineer in Tennessee.

Engineers who wish to be removed from the list can email, SFMO.records@tn.gov, requesting that action.
