2020 Prescription Drug List
Finding a Medication

Tier 0 - No copayment for those drugs that are used for prevention and are mandated by the Affordable Care Act. Select oral contraceptives, vitamin D, folic acid for women of child bearing age, over-the-counter (OTC) aspirin, and smoking cessation products may be covered under this tier. Certain age or gender limits apply.

Tier 1 - Lowest copayment for those drugs that offer the greatest value compared to other drugs used to treat similar conditions. Select over-the-counter (OTC), generic or brand name drugs may be covered under this tier.

Tier 2 - Medium copayment covers brand name drugs that are generally more affordable, or may be preferred compared to other drugs to treat the same conditions.

Tier 3 - Highest copayment covers higher cost brand name drugs. This tier may also cover non-specialty drugs that are not on the Preferred Drug List but approval has been granted for coverage.

Tier 4 - Coverage for this tier is for “specialty” drugs used to treat complex, chronic conditions that may require special handling, storage or clinical management. For members who do not have a Tier 4 plan, these drugs may be covered under Tier 3.
