INSTRUCTIONS TO ARCHITECT EXAMINATION CANDIDATES REQUESTING ACCOMMODATION

- If you have a disability that may require some accommodation in taking the Architect Registration Examination (ARE), please complete the “Request for Accommodation” form below, and submit it to the Board office at the address listed above. This form should be submitted with your application to assure that the appropriate accommodations can be provided without delay.

- Contact the National Council of Examiners for Engineering and Surveying (NCEES), the Council of Landscape Architectural Registration Boards (CLARB), or the Council for Interior Design Qualification (CIDQ) regarding accommodations for the engineering, landscape architectural, or interior design examinations.

- Some disabilities that are not readily discernable may also require additional documentation. This documentation should be from an appropriate professional who is familiar with your situation. If you have not been given accommodation in recent similar testing situations, the form below for obtaining this documentation, "Documentation of Disability Related Needs," should be signed by the professional in question. Supporting documentation regarding your disability that may be helpful in determining what accommodation may be required in an examination setting should also be attached.

- Because the ARE is developed and provided by the National Council of Architectural Registration Boards (NCARB), NCARB will also review your accommodation request and supporting documentation after it has been reviewed by the Board. When we receive notification that NCARB has approved your request for accommodation, we will notify you as soon as possible.

- Any documentation regarding your disability and your need for accommodation in testing will be considered strictly confidential and will not be shared with any outside parties other than NCARB without your express written permission.
