PUBLIC WORKS - STRUCTURAL/WATER LINES

The term "structural" in Tennessee Code Annotated, Section 62-2-107(b), shall not include single water lines not more than 3,000 feet serving up to ten homes. (This does not include wastewater line extensions.)

NOTE: The Board's policy is based on its opinion that the above-described water line is clearly "civil" in nature, rather than "structural." This interpretation is confined to T.C.A., Section 62-2-107(b) and is not to be construed as addressing any other provision of state law.

Adopted 4-30-92
