Audit Findings

Audit Narrative

The auditor’s description of the audit methodology should include a detailed description of the following processes during the pre-on-site audit, onsite audit, and post-audit phases: documents and files reviewed, discussions and types of interviews conducted, number of days spent on-site, observations made during the site-review, and a detailed description of any follow-up work conducted during the post-audit phase. The narrative should describe the techniques the auditor used to sample documentation and select interviewees, and the auditor’s process for the site review.

The onsite PREA audit of the Tennessee Department of Corrections (TDOC) - Mark Luttrell Transition Center Memphis, TN., was conducted on April 4, 2018, by Certified PREA Auditor Clayton S. Kellum. The facility supplied the auditor with a list of staff, their training records, positions, and shifts. Also, copies of contract staff and volunteers. The auditor was given copies of all polices, documentation as it related to PREA standards, procedures, and program curriculums. The facility supplied the auditor with resident’s rosters with resident names, TOMIS ID, race, date of birth, custody level, unit, cell and bed. To ensure that there was consistency in the sampling the auditor included at least one staff member of each shift and locations. The on-site audit began with a meeting on Wednesday April 4, 2018, at 8:30 am in a staff conference room. The following staff attended the meeting: Superintendent, Associate Superintendent of Treatment, facility PREA Compliance Manager, and Agency wide PREA Coordinator. The auditor began the tour of the Mark Luttrell Transition at approximately 9:00 am and completed it at approximately 8:30 pm. During the tour the auditor reviewed for PREA notifications, blind spots, camera placements, mirrors, staff assignment, log books, policy and procedures and documentation to determine compliance. While touring the facility, staff and residents were interviewed in private and in common areas to determine that residents were receiving the same information as it related to the PREA program. During the close-out of the audit the following staff attended the meeting: Superintendent, Associate Superintendent of Treatment, facility PREA Compliance Manager, and Agency wide PREA Coordinator. During the close out the auditor went over the process that would follow the on-site audit to include corrective measures, any additional photos, documentations, work orders, etc. Also, the auditor explained that any areas found not to meet the standards during the on-site must be corrected and documented and the auditor would work with the facility to accomplish PREA compliance. The auditor acknowledged the hard work and professionalism of the staff and their willingness to accomplish PREA compliance. Finally, the auditor advised the facility of their requirement to post the final report on the agency website once compliance with all the standards were achieved.

Facility Characteristics

The auditor’s description of the audited facility should include details about the facility type, demographics and size of the inmate, resident or detainee population, numbers and type of staff positions, configuration and layout of the facility, numbers of housing units, description of housing units including any special housing units, a description of programs and services, including food service and recreation. The auditor should describe how these details are relevant to PREA implementation and compliance.
Tennessee Department of Corrections (TDOC) - Mark Luttrell Transition Center is located at 6000 State Road, Memphis, Tennessee. Mark Luttrell Transition Center is a time building prison with minimum trustee to minimum restrict security designation for housing adult males for the state of Tennessee. At the time of the audit there were 260 residents housed at Mark Luttrell Transition Center. There are five buildings located inside two 12-foot fences. The secured perimeter includes such buildings as food services, administration, education, religious, resident housing, unit management, recreation, visitation, industries and staff offices. All housing units, work areas, recreation area, special housing (with bed space for 14 residents which is not being used), classrooms and any other areas that were accessible to residents were toured. The facility was clean and well maintained and there were no issues concerning food, religious services and visitation. Mark Luttrell Transition Center is dedicated to the rehabilitation of residents through innovative programming and work force development for successful reentry. The facility is a transition center for male residents and has operating capacity of 454 residents. Resident will be provided with a supportive living environment with the ultimate goal of successful reentry. This will be accomplished through a phased-based model emphasizing accountability. Residents referred for placement into the transition program with focus on cognitive and behavior core, education and job skills. The housing units reflected the population of the state. The demographics of the facility will allow a diverse population to better understand lifestyle and tradition of people with different backgrounds. The number of staff employed by the facility at the time of the audit was 153.

Summary of Audit Findings

The summary should include the number of standards exceeded, number of standards met, and number of standards not met, along with a list of each of the standards in each category. If relevant, provide a summarized description of the corrective action plan, including deficiencies observed, recommendations made, actions taken by the agency, relevant timelines, and methods used by the auditor to reassess compliance.

Generally, PREA notifications existed throughout the institution, especially within each housing area. In addition, there was a notice on each door of each unit of the requirement for opposite gender announcements. Pictures were taken at each sally port that indicates the placing of PREA notices. Some areas that did not have a PREA notice were remedied with the placement of the PREA notice before the tour ended. This included the education area (a total of 4 classrooms), and the barber shop. As stated, these areas had PREA notices before the end of the tour of the facility. Special attention should be given to the laundry area which did not have any cameras. This concern has been addressed by the facility with requests for cameras in next year’s budget (which begins in July) and a memo was addressed to the Assistant Commissioner of Prisons concerning the cameras. During the tour of the Education area the auditor noticed that the bathroom on Housing Unit E was missing two stall walls. Work orders were submitted to install extended wall in bathroom on Housing Unit E (30 North) upper near the classroom area. Subsequent pictures indicated that the wall have been installed. In the Food Service area, a light was out in one of the cooler (#3). A work order was requested and approval for the replacement of the light. Before the auditor left the area, this has been remedied. In the North dorm area, the utility room was not secured, however it was secured by an Officer once it was brought to their attention. The Tennessee Department of Corrections (TDOC) - Mark Luttrell Transition Center staff and management take the PREA program very serious. They showed respect to residents and the resident population was aware of PREA and felt that if they (residents) had to file a PREA complaint the
facility would respond and follow upon it in a timely manner. All corrective actions were taken on and completed in a timely manner. Therefore, the Tennessee Department of Corrections (TDOC) - Mark Luttrell Transition Center are in compliance with the PREA standards.

Auditor Note: No standard should be found to be “Not Applicable” or “NA”. A compliance determination must be made for each standard.

Auditor Overall Compliance Determination

☐ Exceeds Standard (Substantially exceeds requirement of standards)

☒ Meets Standard (Substantial compliance; complies in all material ways with the standard for the relevant review period)

☐ Does Not Meet Standard (Requires Corrective Action)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

These findings are based on Tennessee Department of Corrections (TDOC) Mark Luttrell Transition Center PREA policy 506.06, PREA policy 305.03, TDOC policy 112.08, MLTC 112.08-1, staff interviews, training records reviews, training curriculums and other documentation provided. The following was determined by the auditor. A review of the training curriculums and staff interviews indicated that cross-gender strip searches are prohibited except in exigent circumstances and must be approved and documented when they occur. During the past 12 months, there have be no documented cross-gender strip searches or visual body cavity searches reported. Since there are no female residents housed at this facility, staff interviews, and documentation revealed the absence male employees engaging in frisk/pat searches of female residents and no cross-gender searches in the past 12 months. TDOC PREA policy 502.06, training curriculum, staff
interviews and staff training records reviews showed that the facility trained security staff to conduct cross-gender pat-down searches and searches of transgender, and intersex residents in a professional and respectful manner. The facility has demonstrated compliance with the standard.

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

These findings are based on Tennessee Department of Corrections (TDOC) Mark Luttrell Transition Center, TDOC policy 502.06.2, staff and residents’ interviews, Housing Unit log books, and documentation review. The auditor’s findings regarding this standard are as follows. The facility always refrains from placing residents at high risk for sexual victimization in involuntary segregated housing unless an assessment of all available alternatives has been made, and a determination has been made that there are no available alternative means of separation from likely abusers. Interviews of staff and residents revealed no incidents of involuntary segregated housing being used for this purpose in the last 12 months. Residents who are placed in segregated housing because they are at high risk of sexual victimization have access to programs, education, privileges, and work opportunities to the extent possible. If the facility restricts access to programs, privileges, education, or work opportunities, they document the opportunities that have been limited, the duration of the limitation, and the reasons for such limitations on the LCDG-Contact Notes. Again, there were no incidents during the last 12 months. The facility affords a review to determine whether there is a continuing need for separation from the general population every 30 days. The facility demonstrated compliance with the standard.
