Audit Findings

Audit Narrative

The onsite PREA audit of the Tennessee Department of Corrections (TDOC)-Northeast Correctional Complex in Mountain City, TN., was conducted on January 16-17, 2018, by Certified PREA Auditor Clayton S. Kellum and his assistant, Dr. Don T. Gala. Part of the onsite audit included an Annex location at 188 Old Railroad Grade Road, Roan Mountain, TN 37687. The facility supplied the auditors with a list of staff, their training records, positions, and shifts. Copies of contract staff and volunteers were also provided. The auditors were given copies of all polices, documentation as it related to PREA standards, procedures, and program curriculums. The facility supplied the auditors with offender’s rosters with offender names, TOMIS ID, race, date of birth, custody level, unit, cell and bed. To ensure that there was consistency in the sampling (systematic random sample) the auditors included at least one staff member of each shift and locations. In addition to the inmate population. The on-site audit began with a meeting on Tuesday January 16, 2018, at 9:00 AM in staff conference room. The following staff attended the meeting: Warden, Associate Warden of Treatment, Associate Warden of Security, facility PREA Compliance Manager, and Agency wide PREA Coordinator. The auditors began the tour of Northeast Correctional Complex at approximately 9:30 AM and completed it at approximately 7:00 PM. The Carter County Annex audit was conducted Wednesday January 17, 2018, at 8:45-10:45 AM. During the tours the auditors reviewed for PREA notifications, blind spots, camera placements, mirrors, staff assignment, log books, policy and procedures and documentation to determine compliance. While touring the facility staff and inmates were interviewed in private offices and in common areas to determine that inmates were receiving the same information as it related to the PREA program. During the close-out of the audit the following staff attended the meeting: Associate Warden of Treatment, and Associate Warden of Security, facility PREA Compliance Manager, and Agency-wide PREA Coordinator. During the close-out the auditors went over the process that would follow the on-site audit to include corrective measures, any additional photos, documentations, work orders, etc. Also, the auditors explained that any areas found not to meet the standards during the on-site must be corrected and documented and we would work with the facility managers to accomplish PREA compliance. The auditors acknowledged the hard work and professionalism of the staff and their willingness to accomplish PREA compliance. Finally, the auditors advised the facility of their requirement to post the final report on the agency website once compliance with all the standards was achieved.

Facility Characteristics

The auditor’s description of the audited facility should include details about the facility type, demographics and size of the inmate, resident or detainee population, numbers and type of staff positions, configuration and layout of the facility, numbers of housing units, description of housing units including any special housing units, a description of programs and services, including food service and recreation. The auditor should describe how these details are relevant to PREA implementation and compliance.

...Tennessee Department of Corrections (TDOC)-Northeast Correctional Complex is located at 5249 Highway 67 West, Mountain City, TN 37683-5000, with an annex, NECX Carter County Annex 188 Old Railroad Grade Road, Roan Mountain, TN 37687. Additionally, the Carter County Annex house an

The secured perimeter includes such buildings as food services, administration, education, religious, inmate housing, unit management, recreation, visitation, industries and staff offices. All housing units, work areas, recreation area, special housing (with bed space for 48 inmates), classrooms and food services and any other areas that were accessible to inmates were toured. The facility was clean and well maintained and there were no issues concerning food, religious services and visitation. Northeast Correctional Complex offers intensive substance use and anger manager counseling program. Also, inmates may attend Adult Basic Education classes or one of six vocational programs. Most demographics was represented in the facility. The housing units reflected the population of the state. The number of staff employed by the facility at the time of the audit was 499. The demographics of the facility will allow a diverse population to better understand lifestyle and tradition of people with different backgrounds.

**Summary of Audit Findings**

The summary should include the number of standards exceeded, number of standards met, and number of standards not met, along with a list of each of the standards in each category. If relevant, provide a summarized description of the corrective action plan, including deficiencies observed, recommendations made, actions taken by the agency, relevant timelines, and methods used by the auditor to reassess compliance.

Generally, PREA notifications existed throughout the institution, especially within each housing area. In addition, there was a notice on each door of each pod of the requirement for opposite gender announcements.

Pictures were taken at each sally port that indicates the placing of PREA notices. Some areas that did not have a PREA notice, and was remedied before the tour ended, included the intake area where male inmates were strip-searched, the visitation gallery, and the visitation area. As stated, these areas that have PREA notices before the end of the tour of the facility. During interviews, it was found that there was consistency with reported lack of privacy when using the toilet and dressing (Unit 3), when a female Correctional Officer was working. There is a need for directive to make certain that genitalia and buttocks are not viewable during the use of toilet, shower, and dressing. Special attention should be given to Unit 3. This concern has been addressed by ensuring that female Correctional Officers announce themselves when on the ranges.

During the tour of the medical area (E62-66) no PREA signs were found. Subsequent to the walk-through of the medical area PREA notices were displayed. In the dental examination rooms, there is no way to see whether anyone is in the examination room. The doors to the dental examination rooms were replaced with doors that had windows. This area was corrected and now meet the standard. The telephones in Unit 11 had a PREA notice posted on every telephone, except one telephone, where it was missing. PREA notice was posted before the end of the tour of the facility. Although the library had a PREA notice displayed, the law library did not have a PREA notice. Facility staff had a PREA notice placed in a law library when this was brought to their attention during the tour. The industry building had cameras with several personnel in the area in every area and the laundry area had a PREA notice posted. PREA Notices and the Notice of Audit were properly displayed throughout the Carter County Annex. There were telephones on the outside of each unit for use by inmates, including PREA notices on each phone. In the East dorm area the utility room was not secured, however it was secured by a manager upon bringing the odd secure door to their attention. Each stall that included a separate toilet provided privacy. There was one missing cover and management stated that that would be remedied immediately. Before the PREA auditor and his assistant left the area this had been remedied. The Tennessee Department of Corrections (TDOC)-Northeast Correctional Complex staff and management
takes the PREA program very serious. They showed respect to inmates and the inmate population was aware of PREA and felt that if they (inmates) had to file a PREA complaint the facility would respond and follow in a timely manner. All corrective actions were taken on and completed in a timely manner. Therefore, the Tennessee Department of Corrections (TDOC)-Northeast Correctional Complex/ Carter County Annex are in compliance with the PREA standards.

This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Based upon Tennessee Department of Corrections (TDOC), the agency has published on its agency website at: [http://www.tn.gov/correction/article/prison-rape-elimination-act-of-2003](http://www.tn.gov/correction/article/prison-rape-elimination-act-of-2003), and all Final Audit Reports will be displayed within 90 days of issuance by auditor. The review period is for prior audits completed during the past three years preceding this agency audit. Therefore, the facility demonstrated compliance with the standard.
