AUDIT FINDINGS

NARRATIVE

The Prison Rape Elimination Act on-site PREA audit of the CoreCivic - Trousdale Turner Correctional Center in Hartsville, Tennessee, was conducted July 31- August 1, 2017, with follow-up visits to the facility on November 27, 2017 and February 5, 2018. The audit was conducted by Rodney P. Bivens (Lead Auditor) and Brian D. Bivens, both are United States Department of Justice Certified PREA Auditors for adult facilities. The auditors wish to extend their deepest appreciation to Warden Russell Washburn and his staff for their professionalism, hospitality, and kindness. The auditors also want to compliment the CoreCivic's PREA Coordinator Eric Pierson and the facility PREA Compliance Manager Yolanda Pittman for their outstanding work in organizing the files that were provided to the auditors in advance of the on-site visit. This enabled the audit to move forward very efficiently.

The pre-audit preparations consist of a thorough review of all documentation and materials submitted by the facility which included the "Pre-Audit Questionnaire". The documentation reviewed included agency policies, procedures, forms, posters, pamphlets, brochures, handbooks, educational materials, training curriculums, organizational charts, and all other PREA related materials the facility provided to demonstrate compliance with each PREA standard. The lead auditor and the PREA Team had ongoing communication for several weeks prior to the audit to prepare for the on-site visit.

During the on-site visit, the facility supplied a list of inmate names sorted by housing units, disabilities, and special designations, as well as a list of facility staff names to the auditors. From these lists the auditors selected, at random, a sampling of inmates and staff to be interviewed during the on-site visit. Due to the size of this facility the sampling size for both inmates and staff was elevated to ensure consistency in training and implementation of the PREA standards. The sampling size for inmates included at least two inmates from each individualized housing unit pod during the initial visit and a random sampling of 15 inmates during the follow-up visit in November. This decision was made to ensure all inmates throughout the facility were receiving the same information and education related to all aspects of the PREA program.

The on-site audit began with an entrance meeting being conducted on Monday, July 31, 2017 at 8:15 a.m. in the administrative conference room. The following staff attended the entrance meeting:

Warden Russell Washburn
Assistant Warden Jerry Wardlow
Eric Pierson, PREA Coordinator
Johanna Veal, Chief of Unit Management
Brian Doser, Unit Manager
Paul Oswald, Unit Manager
Teri Carter, Unit Manager
James Topper, Jr., Captain
Brian Mendenhall, Investigator
Ansley Peterson, STG Investigator
Samantha Grossman, Security Manager
Katanga Taylor, Quality Assurance Manager
Beverly Atwood, Warden's Secretary
Jon Shonebarger, Chaplain
Brandi Kennedy-Brown, Learning and Development Manager
Stacey Williamson, Correctional Counselor
Dale Loudin, Visitation
Patty Stacy, Business Manager
Peaches Poole, Human Resource Manager
Sandra Dotson, Records Supervisor

The follow-up visits also began with entrance meetings which was conducted on Monday, November 27, 2017 at 9:00 a.m. and Monday, February 5, 2018 at 9:30 a.m. in the same administrative conference room with the following staff in attendance:

Warden Russell Washburn
Assistant Warden Yolanda Pittman, PREA Manager
Assistant Warden Jerry Wardlow
Eric Pierson, PREA Coordinator

Following the entrance meeting, the auditors conducted a comprehensive site review that began at approximately 8:45 a.m. and continued throughout the entire on-site visit. During the on-site review, the auditors reviewed camera placement, blind spots, staff placement, and documentation to assist in determining standard compliance. While touring the facility the auditors observed the notices of this PREA audit in all the buildings, as well as posters that called attention to the agency's Zero Tolerance Policy and how to report allegations of

sexual abuse and sexual harassment. Random staff and inmate interviews were conducted in private offices provided at each housing unit during the on-site review as well. The following staff accompanied the auditor on the site review:

Initial site review:

Warden Russell Washburn
Assistant Warden Jerry Wardlow
Eric Pierson, PREA Coordinator
Katanga Taylor, Quality Assurance Manager
John Allen, Investigator
Johanna Veal, Chief of Unit Management

Follow-up site reviews:

Warden Russell Washburn
Assistant Warden Yolanda Pittman, PREA Manager
Eric Pierson, PREA Coordinator

All housing units, day rooms, inmate program areas, work areas, and all other inmate accessible areas were toured during the initial site review. During the follow-up site reviews the auditors revisited those areas of the facility found not meeting standards during the initial on-site visit. While touring several inmates and staff were questioned about their knowledge of PREA standards, procedures for reporting, services available, and their responsibilities. All staff and inmates informally interviewed during the initial tour acknowledged receiving training and procedures for reporting sexual abuse, sexual harassment, and/or retaliation for reporting. However, not all PREA documentation was being provided to the limited English proficient inmates in Spanish resulting in a does not meet standard for 115.16 (b), 115.33 (d), and 115.33(f). During the follow-up visits the auditors confirmed that all documentation was translated to Spanish. Staff and limited English inmates confirmed that the information was now being provided as required by the standard.

A total of 56 staff members was interviewed during the course of this on-site audit. Staff interviews consisted of: 20 randomly selected correctional security staff members covering all shifts, 2 volunteers, 3 contract employees, 5 intermediate or higher-level supervisors, 16 specialized staff members, and 10 employees informally selected during the facility tour. All staff interviewed were well versed in their respective areas of responsibility regarding PREA and affirmed compliance with the applicable PREA standards. When questioned about evidence preservation, all staff responses reflected knowledge of agency policies and procedures. There is no SAFE or SANE staff at the facility; they are made available at the Sumner Regional Medical Center in Gallatin, Tennessee. Staff interviewed were well versed as well in their responsibilities regarding procedures for reporting sexual abuse, sexual harassment, staff negligence, and retaliation for reporting.

There were 72 inmates interviewed during the on-site visit. These inmates consisted of: 55 inmates selected at random and 17 informally selected during the facility tour. There were 17 of the 55 inmates selected at random requiring specialized interviews broken down as follows: 2 inmates that had self-reported as being gay, 4 inmates that had reported as transgender, 5 limited English proficient, and 6 that had reported PREA incidents. All the inmates interviewed acknowledged receiving PREA training and written materials (posters, pamphlets, and inmate handbooks) outlining the agencies zero tolerance policies towards sexual abuse, sexual harassment, and retaliation for reporting, as well as the procedures for reporting during intake. However, the auditors determined that not all inmates were being shown the more in-depth PREA education video with 30 days resulting in a finding of “does not meet” for standard 115.33. The limited English proficient inmates interviewed complained that the PREA training and written materials were not translated in languages they could understand. The auditors confirmed that not all materials were translated resulting in the facility not meeting the requirements of standard 115.16. During interviews with the inmates that had self-reported as being gay they both reported that staff treated them equitably before and after self-reporting. While interviewing the 4 transgender inmates the auditors determined that they were not being given the opportunity to shower separately as required by standard 115.42 requiring corrective action. During interviews with 4 inmates that had reported an incident of sexual abuse, they reported that PREA violations were taken serious and investigated properly in their opinions. These inmates also reported being kept informed during the investigative process and that retaliation monitoring was being conducted regularly. However, the auditors strongly suggest that the facility consider someone other than the investigator to conduct retaliation monitoring. The warden concurred and will be assigning this task to someone else in the future. All inmates interviewed felt if they had to file a PREA complaint the facility would respond appropriately to their complaint and that all PREA complaints are taken very serious by staff at this facility. During the corrective action period the auditors revisited the facility and conducted a total of 15 inmate interviews. These interviews consisted of 7 randomly selected inmates, 4 transgender inmates, and 4 limited English proficient inmates. Based on these interviews, documentation provided, and two separate site reviews the auditors confirmed compliance with all aspects of standards 115.16, 115.33, and 115.42.

The auditors selected and carefully examined 20 personnel files, 20 staff training files, and 25 volunteer\contractor files. The personnel and volunteer\contractor files were very well organized and contained all the necessary background check information and signed statements regarding previous sexual misconduct described in the standards. The training records were also very complete and included written documentation that staff, contractors, and volunteers received the required PREA training. The training records also contained a signed “Training Acknowledgement Form” documenting that the staff understood the PREA Training being taught.

The auditors deferred offender file reviews until the follow-up visit due to inconsistent answers being offered during random inmate interviews regarding; PREA training, initial risk screenings, the 30-day re-screenings, and screenings upon additional information. Staff also confirmed during interviews that the initial risk screening, 30-day rescreening's and screenings upon additional information were not being completed as required by the standards resulting in a finding of "does not met" for standards 115.41, 115.42 and 115.81. The auditors also determined that not all inmates were being shown the more in-depth PREA education video with 30 days resulting in a finding of "does not meet" for standard 115.33. During the corrective action period the auditors conducted two separate site reviews and reviewed a total of 32 offender files as well as the screening and referral process implemented during the corrective action period. The auditors were impressed with the corrective actions implemented for standards 115.41, 115.42, and 115.81. Based on the documentation provided during the corrective action period as well as additional staff and inmate interviews the auditors were able to confirm compliance with all aspects of standards 115.41, 115.42, and 115.81 during the corrective action period.

In the twelve months preceding the audit, CoreCivic - Trousdale Turner Correctional Center had received and investigated a total of twenty-six PREA complaints broken down as follows:

<u>Number Received</u>	<u>Description of Complaint</u>	<u>Offender</u>	<u>Investigative Results</u>
12	Sexual Abuse (Contact and/or Penetration)	Inmate	7 Unsubstantiated 4 Unfounded 1 Pending
3	Sexual Abuse (Intentional touching)	Inmate	2 Unsubstantiated 1 Unfounded
2	Sexual Harassment	Inmate	1 Pending 1 Unsubstantiated
2	Sexual Abuse (Intentional touching)	Staff	1 Unsubstantiated 1 Unfounded
4	Sexual Abuse (Contact and/or Penetration)	Staff	1 Substantiated 2 Unsubstantiated 1 Unfounded
1	Sexual Abuse (Voyeurism)	Staff	1 Unfounded
2	Sexual Harassment	Staff	1 Unfounded 1 Unsubstantiated

All investigative files were reviewed during the on-site visit and appeared to thoroughly document the investigation process per agency policy. Criminal investigative referrals were documented and proper referrals were made when warranted. During interviews with the 4 inmates that had reported an incident of sexual abuse, they stated that PREA complaints were taken serious and investigated properly in their opinion. They all reported being kept informed during the investigative process and that retaliation monitoring was being conducted regularly as well. However, during the initial on-site visit the auditors found inconsistent findings being reported to the inmate after the PREA call with CoreCivic executive staff. The auditors confirmed during the corrective action period that investigative staff had been retrained on the notification procedures and the inmates were only being notified once the case was completed.

During the random inmate interviews it was repeatedly reported to the auditors that inmates continually filed false PREA reports to have a staff member removed from their post or to obtain an unnecessary housing change. During follow up questioning with the random inmates reporting this behavior, they confirmed that each case was investigated and taken just as serious as if it had really happened. All sexual abuse cases warranting a criminal investigation were referred to the Trousdale County Sheriff's Office in Hartsville, Tennessee and the Tennessee Department of Corrections Special Investigations Unit who are responsible for investigating each case for potential criminal activity.

At the conclusion of the on-site visit an exit meeting was held to discuss the audit findings. The following people were in attendance:

Warden Russell Washburn
 Assistant Warden Yolanda Pittman, PREA Manager
 Eric Pierson, PREA Coordinator
 Jason Medlin, Managing Director

Also, exit meeting were held after each follow-up visit during the corrective action period to discuss the auditor's findings. The following

people attended each follow-up exit meeting:

Warden Russell Washburn
Assistant Warden Yolanda Pittman, PREA Manager
Assistant Warden Jerry Wardlow
Eric Pierson, PREA Coordinator

During the initial exit meeting the lead auditor explained the process that would follow the on-site visit. The lead auditor also explained that if any part of a standard was found to not meet the standard requirements corrective action would be required and he would be working closely with the PREA team to accomplish compliance, as needed. Finally, the lead auditor acknowledged the willingness of all staff involved to accomplish PREA compliance and advised the PREA team of their requirements to post the final report on the facility website or to utilize other means to make the report available to the public once compliance with all standards was achieved. The follow-up exit meetings consisted of the lead auditor reporting his findings regarding the successful completion of the corrective action plans.

SUMMARY OF AUDIT FINDINGS

On July 31-August 1, 2017 the initial on-site visit was conducted with two follow-up visits being conducted during the corrective action period. The first follow-up visit was conducted November 27, 2017 with the second follow-up being conducted on February 2, 2018. The following is a detailed summary of the CoreCivic - Trowsdale Turner Correctional Center's audit findings:

During the initial visit the auditors determined that the facility exceeded the requirements of the following standards:

115.17 (e) CoreCivic - Trowsdale Turner Correctional Center requires a criminal background records check be completed on all current employees, volunteers, and contractors annually. Therefore, exceeding the requirements of this part of the standard.

115.31 (c) The training staff provided a report containing all staff that had been PREA trained which confirmed the requirements needed to meet the standard and proved that all current staff was trained within one year of the effective date of the PREA standards. All staff receive annual refresher PREA training during in-service which exceeds the requirements of this standard. Therefore, the facility exceeded this part of the standard during this audit.

115.64 (a) All staff, contractors, and volunteers are provided and carry a First Responder Card, on their person, for quick reference of the responsibilities of a first responder. During the onsite review, the auditor was provided a copy of the First Responder Card and determined that by providing such valuable information to their staff, contractors, and volunteers the facility had exceeded the requirements of this part of the standard.

115.65 (a) CoreCivic - Trowsdale Turner Correctional Center has a very comprehensive written plan to coordinate actions taken in response to an incident of sexual abuse, among staff first responders, medical and mental health practitioners, investigators and facility leadership. The plan clearly defines the roles and responsibilities of each person involved and the procedures to be followed in detail. Interviews with SART members confirmed their knowledge of the response plan. Part of the response plan is the "Sexual Abuse Incident Check Sheet" form 14-2C which is initiated upon receiving a PREA allegation and ensures all steps in the plan are carried out in a timely manner exceeding the requirements of this standard.

During the initial visit the auditors determined as well that the following standards were not applicable to this facility:

115.12 CoreCivic - Trowsdale Turner Correctional Center does not contracting with other entities for the confinement of their inmates.

115.14 CoreCivic - Trowsdale Turner Correctional Center does not house youthful inmates.

115.52 CoreCivic - Trowsdale Turner Correctional Center does not require an inmate to exhaust administrative remedies through a grievance system for PREA incidents.

It was also determined during the initial visit that the facility did not meet the requirements of the following standards and that corrective action was required to bring them into compliance. After the corrective action period and two separate visits to the facility the auditors confirmed that corrective action was completed for each of the following standards:

115.15 (d) CoreCivic - Trowsdale Turner Correctional Center PREA policy 14-2, section K on pages 16 and 17 outlines that inmates shall be permitted to shower, perform bodily functions and change clothing without non-medical staff of the opposite gender viewing their breasts, buttocks or genitalia. The inmates confirmed during interviews they have privacy when showering, using the toilets and while changing their clothes. CoreCivic - Trowsdale Turner Correctional Center PREA policy 14-2, section K on pages 16 and 17 also requires staff of the opposite gender to announce their presence prior to entering the housing units. Inmate and staff interviews revealed that opposite gender announcements were common practice at this facility and reminders of this requirement are posted on the entry doors of all housing units exceeding the requirements of this part of the standard during this audit. However, during the tour the auditors found that the showers in each pod could be viewed directly into by opposite gender staff from the top tiers as well as the inmate toilets in both gymnasiums. Therefore, not meeting this part of the standard. During the corrective action period the auditors conducted two separate site visits, one on November 27, 2017 and the other on February 5, 2018. During these follow-up visits the auditors revisited all areas of the facility that were found deficient during the initial site visit to confirm the implementation of the following corrective action plans for standard 115.15 (d):

Corrective action:

- Restrooms in both gymnasiums are in direct sight of opposite gender staff. The corrective action required to meet this part of the standard is to restrict the view with privacy screens, curtain, or expand the wall. The auditor will verify privacy in these areas during a follow-up visit.
- The showers in each housing unit are in direct sight of opposite gender staff from the top tier. The corrective action required to meet this part of the standard is to restrict the view with privacy screens, curtain, or expand the wall. The auditor will verify privacy in these areas during a follow-up visit.

During the corrective action period the facility installed privacy curtains in both gymnasium restrooms as well as in all housing unit showers. The auditors confirmed that privacy was made available in all areas during the follow-up visits to the facility. Therefore, the facility has demonstrated compliance with all aspects of this standard

115.16 (b) The CoreCivic - Trousdale Turner Correctional Center PREA policy mandates the agency to take reasonable steps to ensure meaningful access to all aspects of the agency's efforts to prevent, detect, and respond to sexual abuse and sexual harassment to inmates who are limited English proficient, including steps to provide interpreters who can interpret effectively, accurately, and impartially. The agency has a contract with Language Line Interpreter Services if a staff interpreter is not available to translate at this facility. The inmates and staff also confirmed that interpretive services are available when needed. There were five limited English proficient inmates interviewed during the on-site visit they all reported that the PREA training and written materials were not translated in languages they could understand. The auditors confirmed that not all materials were translated resulting in the facility not meeting the requirements of standard. During the corrective action period the auditors conducted two separate site visits, one on November 27, 2017 and the other on February 5, 2018. During these follow-up visits the auditors confirm the implementation of the following corrective action plans for standard 115.16 (b):

Corrective action required:

- All identified limited English proficient inmates must be provided education as well as all PREA information must be translated into the language they can comprehend.
- Attendance in the Spanish educational classes or viewing the Spanish video as well as written acknowledgements of receiving the PREA information must be available for review by the auditors during the follow-up visit.
- The auditor will verify attendance and understanding during the follow-up visit to the facility.

Based on inmate interviews, staff interviews, documentation provided, and offender file reviews during the corrective action period the auditors confirmed that the corrective actions were completed, and the facility now meets all aspects of this standard.

115.33 (d) CoreCivic - Trousdale Turner Correctional Center provides inmate education in formats accessible to all inmates, including those who are limited English proficient, deaf, visually impaired, or otherwise disabled, as well as to inmates who have limited reading skills. The facility has an agreement with Language Line Interpreter Services as well as TDD phones to assist inmates with these disabilities. There were five limited English proficient inmates interviewed during the on-site visit they all reported that the PREA training and written materials were not translated in languages they could understand. The auditors confirmed that not all materials were translated resulting in the facility not meeting the requirements of standard. During the corrective action period the auditors conducted two separate site visits, one on November 27, 2017 and the other on February 5, 2018. During these follow-up visits the auditors confirm the implementation of the following corrective action plans for standard 115.33 (d):

Corrective action required:

- All identified limited English proficient inmates must be provided education as well as all PREA information must be translated into the language they can comprehend.
- Attendance in the Spanish educational classes or viewing the Spanish video as well as written acknowledgements of receiving the PREA information must be available for review by the auditors during the follow-up visit.
- The auditor will verify attendance and understanding during the follow-up visit to the facility.

Based on inmate interviews, staff interviews, documentation provided, and offender file reviews during the corrective action period the auditors confirmed that the corrective actions were completed, and the facility now meets all aspects of this standard.

115.33 (f) CoreCivic - Trousdale Turner Correctional Center does provide the inmates with posters, pamphlets, and an inmate handbook in English and Spanish outlining the zero-tolerance policy regarding sexual abuse and sexual harassment and how to report incidents or suspicions of sexual abuse or sexual harassment. There were five limited English proficient inmates interviewed during the on-site visit they all reported that the PREA training and written materials were not translated in languages they could understand. The auditors confirmed that not all materials were translated resulting in the facility not meeting the requirements of standard. During the corrective action period the auditors conducted two separate site visits, one on November 27, 2017 and the other on February 5, 2018. During these follow-up visits the auditors confirm the implementation of the following corrective action plans for standard 115.33 (f):

Corrective action required:

- All identified limited English proficient inmates must be provided education as well as all PREA information must be translated into the language they can comprehend.
- Attendance in the Spanish educational classes or viewing the Spanish video as well as written acknowledgements of receiving the PREA information must be available for review by the auditors during the follow-up visit.
- The auditor will verify attendance and understanding during the follow-up visit to the facility.

Based on inmate interviews, staff interviews, documentation provided, and offender file reviews during the corrective action period the auditors confirmed that the corrective actions were completed, and the facility now meets all aspects of this standard.

115.41 (All parts) CoreCivic - Trousdale Turner Correctional Center was utilizing the PREA monitoring part of the electronic system and not completing the initial risk screenings, 30-day re-screenings, or screenings upon additional information as required by this standard.

Therefore, the auditors determined that the facility does not meet the aspects of this standard and corrective action is required. During the corrective action period the auditors conducted two separate site visits, one on November 27, 2017 and the other on February 5, 2018. During these follow-up visits the auditors confirm the implementation of the following corrective action plans for standard 115.41:

Corrective action required:

- Screening staff must be trained in all aspects of the screening process and documentation of training attendance provided.
- Initial screening must be completed upon intake with the results of the screening being entered into the Tennessee Department of Corrections electronic screening instrument and made available to the staff responsible for Housing, Programs, Work, and educational assignments at all times to ensure protection and separation from potential abusers.
- Mental health referrals must be made, completed, and documented.
- Rescreening's must be completed within 30-days of intake, upon receiving additional information, or upon completion of a PREA investigation resulting in an Unsubstantiated or Substantiated finding.
- A tracking system must be developed and in place to track the 30-day requirement to ensure completion.
- All current inmates must be rescreened with the results being entered into the Tennessee Department of Corrections electronic screening instrument and made available to the staff responsible for Housing, Programs, Work, and Educational assignments at all times to ensure protection and separation from potential abusers.
- The auditor will ensure compliance during the follow-up visit to the facility.

Based on inmate interviews, staff interviews, documentation provided, and offender file reviews during the corrective action period the auditors confirmed that the corrective actions were completed, and the facility now meets all aspects of this standard.

115.42 (a) CoreCivic - Trousdale Turner Correctional Center uses information from the risk screening to decide housing, bed, work, education, and program assignments with the goal of keeping separate those inmates at high risk of being sexually victimized from those at high risk of being sexually abusive. However, the facility was utilizing the PREA monitoring part of the electronic system and not completing the initial risk screenings, 30-day re-screenings, or screenings upon additional information as required by this standard. Therefore, the auditors determined that the facility does not meet the aspects of this part of the standard and corrective action is required. During the corrective action period the auditors conducted two separate site visits, one on November 27, 2017 and the other on February 5, 2018. During these follow-up visits the auditors confirm the implementation of the following corrective action plans for standard 115.42 (a):

Corrective action required:

- Screening staff must be trained in all aspects of the screening process and documentation of training attendance provided.
- Initial screening must be completed upon intake with the results of the screening being entered into the Tennessee Department of Corrections electronic screening instrument and made available to the staff responsible for Housing, Programs, Work, and educational assignments at all times to ensure protection and separation from potential abusers.
- Mental health referrals must be made, completed, and documented.
- Rescreening's must be completed within 30-days of intake, upon receiving additional information, or upon completion of a PREA investigation resulting in an Unsubstantiated or Substantiated finding.
- A tracking system must be developed and in place to track the 30-day requirement to ensure completion.
- All current inmates must be rescreened with the results being entered into the Tennessee Department of Corrections electronic screening instrument and made available to the staff responsible for Housing, Programs, Work, and Educational assignments at all times to ensure protection and separation from potential abusers.
- The auditor will ensure compliance during the follow-up visit to the facility.

Based on inmate interviews, staff interviews, documentation provided, and offender file reviews during the corrective action period the auditors confirmed that the corrective actions were completed, and the facility now meets all aspects of this standard.

115.42 (b) CoreCivic - Trousdale Turner Correctional Center makes individualized determinations about how to ensure the safety of each inmate. However, the facility was utilizing the PREA monitoring part of the electronic system and not completing the initial risk screenings, 30-day re-screenings, or screenings upon additional information as required by this standard. Therefore, the auditors determined that the facility does not meet the aspects of this part of the standard and corrective action is required. During the corrective action period the auditors conducted two separate site visits, one on November 27, 2017 and the other on February 5, 2018. During these follow-up visits the auditors confirm the implementation of the following corrective action plans for standard 115.42 (b):

Corrective action required:

- Screening staff must be trained in all aspects of the screening process and documentation of training attendance provided.

- The auditor will ensure compliance during the follow-up visit to the facility.

Based on inmate interviews, staff interviews, documentation provided, and offender file reviews during the corrective action period the auditors confirmed that the corrective actions were completed, and the facility now meets all aspects of this standard.

115.42 (f) CoreCivic - Trousdale Turner Correctional Center policy requires that transgender and intersex inmates be given the opportunity to shower separately from other inmates. The transgender inmates complained this was not been offered and no documentation was available to prove the inmates were given the opportunity to shower separate from the other inmates as required. Therefore, the facility did not meet the requirements of this part of the standard and corrective action is required. During the corrective action period the auditors conducted two separate site visits, one on November 27, 2017 and the other on February 5, 2018. During these follow-up visits the auditors confirm the implementation of the following corrective action plans for standard 115.42 (f):

Corrective action required:

The CoreCivic - Trousdale Turner Correctional Center has provided the phone number and address for the Nashville Sexual Assault Center of Nashville, Tennessee to the inmates. However, during the audit it was determined that the 453-hotline number provided did not work without adding a * before the 453. Therefore, the facility did not meet this part of the standard and corrective action is required. During the corrective action period the auditors conducted two separate site visits, one on November 27, 2017 and the other on February 5, 2018. The documentation provided confirmed the inmates would be provided this notification on the "Inmate/Resident PREA Allegation Status Notification" form 14-2E. However, during the on-site visit the auditors found inconsistent findings being reported to the inmate after the PREA call with home office. Therefore, the facility did not meet this part of the standard and corrective action is required. During the corrective action period the auditors conducted two separate site visits, one on November 27, 2017 and the other on February 5, 2018. During these follow-up visits the auditors confirm the implementation of the following corrective action plans for standard 115.73 (a):

Therefore, the auditors determined that the facility does not meet the aspects of this part of the standard and corrective action is required. During the corrective action period the auditors conducted two separate site visits, one on November 27, 2017 and the other on February 5, 2018. During these follow-up visits the auditors confirm the implementation of the following corrective action plans for standard 115.81 (b):

Corrective action required:

The CoreCivic - Trousdale Turner Correctional Center PREA policy, 14-2, pages 1 and 2 outlines the responsibilities of the PREA Coordinator and the PREA Compliance Manager. Mr. Eric Pierson is the agency-wide PREA Coordinator at CoreCivic - Trousdale Turner Correctional Center. Eric was appointed as the agency-wide PREA Coordinator on December 12, 2016 and was assisted by PREA Compliance Manager Yolanda Pittman during this audit. The facility provided the auditor with the organizational chart showing the PREA Coordinator position as an upper-level, agency-wide position. Eric is new to this position and appears eager to learn his role and responsibility regarding the PREA standards and facility compliance. Mr. Pierson has been given the authority to develop, implement, and oversee PREA compliance. The agency requires the PREA Coordinator to update the facility as new Frequently Ask Questions (FAQ's) results are published on the PREA Resource Center website.

During interviews with the PREA Coordinator and the PREA Compliance Manager, both indicated they had sufficient time and authority to coordinate the facility's efforts to comply with the PREA standards as required. The following delineates the audit findings regarding this standard:

115.13 (a) The facility has documented and made its best efforts to comply on a regular basis with a staffing plan that provides for adequate levels of staffing as described and required by this standard. The established staffing plan uses the criteria found in the standard 115.13 (a) to include the physical layout of the facility, composition of the residents housed, the prevalence of substantiated and unsubstantiated incidents of sexual abuse, and any other relevant factors identified. Video monitoring has been deployed and upgraded to assist with the protection of offenders against sexual abuse at this facility. The staffing levels are monitored daily by review of shift rosters. Therefore, the facility demonstrated compliance with this part of the standard during this audit.

There have been no deviations reported where the staffing plan has not been complied with in the past twelve months, as confirmed by written documentation and during interview with the Warden. Therefore, the facility demonstrated compliance with this part of the standard during this audit.

115.13 (c) The staffing plan is reviewed annually by the PREA Manager and forwarded to the PREA Coordinator and Warden for review. It is then forwarded to the Vice President of Facility Operations for signature and approval of any recommendations made which would include changes to policy and procedures, physical plant, video monitoring, or staffing levels. The last Annual Staffing Plan assessment was completed on November 22, 2016. Therefore, the facility demonstrated compliance with this part of the standard during this audit.

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

Based on CoreCivic - Trousedale Turner Correctional Center PREA policy 14-2, section K, pages 16 and 17, training curriculums, staff interviews, training file reviews, and documentation provided. The following delineates the audit findings regarding this standard:

115.15 (a) CoreCivic - Trousedale Turner Correctional Center PREA policy 14-2, section K on pages 16 and 17 outlines offender searches including searches of transgender and intersex offenders. The review of training curriculums and staff interviews revealed cross gender strip searches are prohibited except in exigent circumstances and must be documented on "Notice to Administration" form 5-1B when conducted. There have been no documented cross-gender visual body cavity or strip searches reported in the past 12 months. Therefore, the facility demonstrated compliance with this part of the standard during this audit.

115.15 (b) CoreCivic - Trousedale Turner Correctional Center PREA policy 14-2, section K, 1, b on page 16 prohibits male employees from frisk/pat searches of female inmates/residents except in exigent circumstances. However, CoreCivic - Trousedale Turner Correctional Center is an all adult male facility. Therefore, this part of the standard was found to be non-applicable to this facility.

115.15 (c) CoreCivic - Trousedale Turner Correctional Center PREA policy 14-2, section K on pages 16 and 17 prohibits frisk/pat searches of the female inmates by male staff and requires that all cross-gender searches in exigent circumstances be documented on the "Notice to Administration" form 5-1B. However, CoreCivic - Trousedale Turner Correctional Center is an all adult male facility. Therefore, this part of the standard was found to be non-applicable to this facility.

115.15 (d) CoreCivic - Trousedale Turner Correctional Center PREA policy 14-2, section K on pages 16 and 17 outlines that inmates shall be permitted to shower, perform bodily functions and change clothing without non-medical staff of the opposite gender viewing their breasts, buttocks or genitalia. The inmates confirmed during interviews they have privacy when showering, using the toilets and while changing their clothes. CoreCivic - Trousedale Turner Correctional Center PREA policy 14-2, section K on pages 16 and 17 also requires staff of the opposite gender to announce their presence prior to entering the housing units. Inmate and staff interviews revealed that opposite gender announcements were common practice at this facility and reminders of this requirement are posted on the entry doors of all housing units exceeding the requirements of this part of the standard during this audit. However, during the tour the auditors found that the showers in each pod could be viewed directly into by opposite gender staff from the top tiers as well as the inmate toilets in both gymnasiums. Therefore, not meeting this part of the standard. During the corrective action period the auditors conducted two separate site visits, one on November 27, 2017 and the other on February 5, 2018. During these follow-up visits the auditors revisited all areas of the facility that were found deficient during the initial site visit to confirm the implementation of the following corrective action plans for standard 115.15 (d):

Corrective action:

- Restrooms in both gymnasiums are in direct sight of opposite gender staff. The corrective action required to meet this part of the standard is to restrict the view with privacy screens, curtain, or expand the wall. The auditor will verify privacy in these areas during a follow-up visit.
- The showers in each housing unit are in direct sight of opposite gender staff from the top tier. The corrective action required to meet this part of the standard is to restrict the view with privacy screens, curtain, or expand the wall. The auditor will verify privacy in these areas during a follow-up visit.

During the corrective action period the facility installed privacy curtains in both gymnasium restrooms as well as in all housing unit showers. The auditors confirmed that privacy was made available in all areas during the follow-up visits to the facility. Therefore, the facility has demonstrated compliance with all aspects of this standard.

115.15 (e) Based on CoreCivic - Trousedale Turner Correctional Center PREA policy 14-2, section K on pages 16 and 17, training

curriculum provided, and staff interviews the facility prohibits staff from physically examining transgender or intersex inmates for the sole purpose of determining genital status. If the inmate's genital status is unknown, it is determined during conversations with the inmate, by reviewing medical records, or, if necessary, by learning that information as part of a broader medical examination conducted in private by a medical practitioner. During interviews with the LBGTI inmates it was confirmed by the inmates that a strip search was not performed to determine genital status. Therefore, the facility demonstrated compliance with this part of the standard during this audit.

115.15 (f) Based on CoreCivic - Trousdale Turner Correctional Center PREA policy 14-2, section K on pages 16 and 17, training curriculum provided, staff training file reviews, and staff interviews the facility trains security staff to conduct cross-gender pat-down searches, and searches of transgender and intersex inmates, in a professional and respectful manner, and in the least intrusive manner possible, consistent with security needs. During interviews with the LBGTI inmates it was confirmed by the inmates that the staff at this facility conducts a proper search. It was also confirmed during interviews with the Warden and the investigator that no complaints had been filed by any LBGTI inmate in the past 12 months related to searches. Therefore, the facility demonstrated compliance with this part of the standard during this audit.

Standard 115.16 Inmates with disabilities and inmates who are limited English proficient

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Based on CoreCivic - Trousdale Turner Correctional Center PREA policy 14-2, pages 13 and 14, section I, review of the lesson plans, and review of Language Line contract, as well as staff and inmate interviews. The following delineates the audit findings regarding this standard:

115.16 (a) The CoreCivic - Trousdale Turner Correctional Center PREA policy 14-2 mandates the agency to take appropriate steps to ensure inmates with disabilities (including, for example, inmates who are deaf or hard of hearing, those who are blind or have low vision, or those who have intellectual, psychiatric, or speech disabilities), have an equal opportunity to participate in or benefit from all aspects of its efforts to prevent, detect, and respond to sexual abuse and sexual harassment, including steps to provide interpreters who can interpret effectively, accurately, and impartially, both receptively and expressively, using any necessary specialized vocabulary. There were no inmates identified with a disability (including, for example, inmates who are deaf or hard of hearing, those who are blind or have low vision, or those who have intellectual, psychiatric, or speech disabilities), by the staff during the on-site visit. Therefore, the facility demonstrated compliance with this part of the standard during this audit.

115.16 (b) The CoreCivic - Trousdale Turner Correctional Center PREA policy mandates the agency to take reasonable steps to ensure meaningful access to all aspects of the agency's efforts to prevent, detect, and respond to sexual abuse and sexual harassment to inmates who are limited English proficient, including steps to provide interpreters who can interpret effectively, accurately, and impartially. The agency has a contract with Language Line Interpreter Services if a staff interpreter is not available to translate at this facility. The inmates and staff also confirmed that interpretive services are available when needed. There were five limited English proficient inmates interviewed during the on-site visit they all reported that the PREA training and written materials were not translated in languages they could understand. The auditors confirmed that not all materials were translated resulting in the facility not meeting the requirements of standard. During the corrective action period the auditors conducted two separate site visits, one on November 27, 2017 and the other on February 5, 2018. During these follow-up visits the auditors confirm the implementation of the following corrective action plans for standard 115.16 (b):

Corrective action required:

- All identified limited English proficient inmates must be provided education as well as all PREA information must be translated into the language they can comprehend.
- Attendance in the Spanish educational classes or viewing the Spanish video as well as written acknowledgements of receiving the PREA information must be available for review by the auditors during the follow-up visit.
- The auditor will verify attendance and understanding during the follow-up visit to the facility.

Based on inmate interviews, staff interviews, documentation provided, and offender file reviews during the corrective action period the auditors confirmed that the corrective actions were completed, and the facility now meets all aspects of this standard.

115.16 (c) CoreCivic - Trousdale Turner Correctional Center does not rely on inmate interpreters, inmate readers, or other types of inmate assistants except in limited circumstances where an extended delay in obtaining an effective interpreter could compromise the inmate's safety. During this audit cycle, there were no instances where an inmate interpreter had to be utilized. Therefore, the facility demonstrated compliance with this part of the standard during this audit.
