Since 1981, National Crime Victims’ Rights Week (NCVRW) has challenged the Nation to confront and remove barriers to achieving justice for all victims of crime. The 40th anniversary of NCVRW will be commemorated April 18–24, 2021. This week is dedicated to learn about victimization, the effect victimization has on individuals, families, friends and the community, and to promote laws, policies, and programs to help victims of crime. Every year, thousands of communities across the nation honor the dedication of those before us that established victim rights and renew commitment to guarantee that all victims have the rights and services they need to recover from crime. This year’s theme—Support Victims, Build Trust, Engage Communities—emphasizing the importance of leveraging community support to help victims of crime.

The Tennessee Board of Parole (TBOP), Tennessee Bureau of Investigation (TBI), Tennessee Department of Correction (TDOC), and the Tennessee Rehabilitative Initiative in Correction (TRICOR) will showcase a series of videos highlighting victim coordinators and victim services agencies across the state. The videos will begin with an introduction from each department’s leaders followed by victim coordinator/agencies throughout the state. The series will end with a conclusion video by the National Crime Victims’ Rights Week committee members.

Be sure to check out all of the above mentioned agencies websites and social media pages to view the video series!

Fayona Pitts is a Probation Parole Manager (PPM) with TDOC from District 40. She is a proud native of Baton Rouge, Louisiana. She obtained her B.S. in Criminal Justice (2002) from Southern University. Recently she received her Master’s Degree in Criminal Justice (2020) from Bethel University. Prior to TDOC her career predates to corrections in various states such as Colorado and Alaska where she served as both a correctional officer and case manager for the State and Federal prisons. Under TDOC she has held several roles as a caseload carrying officer, Program Liaison, Housing Coordinator, Intake Specialist, and Victim Coordinator for D40 and D41. It is my passion to work and serve the community by providing effective community supervision. I enjoy working with Victim services because it is rewarding to know that you can provide comfort and support to any victim by assisting them along the way during their process.
Tennessee Department of Correction Victim Services has been diligently working to implement the Victim Information and Notification Everyday (VINE) service. VINE is the nation’s leading victim notification network. It allows survivors, victims of crime, and other concerned citizens to access timely and reliable information about offenders or criminal cases in U.S. jails and prisons. Victims can register to receive automated notifications via email, text, or phone call, or check custody status information online at any time. VINE can be accessed at vinelink.com, the online portal for VINE. The VINELink Mobile App is the on-the-go version of VINE that lets you access vital information right from your mobile device. The VINELink Mobile App is available for iOS and Android devices and is completely free for users. Toll-free phone support from the Appriss Customer First Center is available 24/7/365 for callers who need help locating an offender, registering for notifications, or accessing victim services in their area. Over 200 languages are available via live operator support.

In 2017, Appriss, launched an enhanced platform with new features and a more intuitive user experience. The Enhanced VINE service leverages technology to provide a refined user experience and improve access to services for victims of crime. Some of the new benefits include:

- **Service Provider Directory:** Less than 1 out of 10 victims reportedly get the professional help they need. To bridge this gap, Appriss designed a nationwide Service Provider Directory. The Service Provider Directory enables victims to locate appropriate service providers using a self-guided workflow.

- **Offender Watch List:** Bookmark offenders to a personalized ‘Watch List.’

- **Contacts List:** Save preferred service providers to your VINE account contacts list.

- **Interactive Voice Response (IVR) Technology:** Search for offenders using advanced voice and keypad technology.

- **“Quick Escape” Button:** One click will immediately redirect you from the VINE website to google.com

The county jails in Tennessee currently use VINE for notifications; once TDOC is implemented, it will allow for a more seamless notification process. Be on the lookout for more information about this new service as things continue to develop.
