1. INTRODUCTION

Statement of Purpose

The purpose of this **FUNDING OPPORTUNITY** is to define the State's minimum requirements, solicit grant proposals, and gain adequate information by which the State may evaluate the services offered by Proposers.

The Department of Children's Services (DCS) is seeking a statewide evidence-based intensive in-home program that will provide the necessary services to support youth and their families in their homes, schools and communities. This is in an effort to divert and prevent youth's entry into the custody of the state. This program must have a direct impact on reducing the number of delinquent youth entering custody statewide.

The intensive in-home services shall serve youth ages 12 – 18 that have been referred to juvenile court for a delinquent charge, including youth adjudicated for a delinquent offense and at risk of detention or possible commitment to DCS or youth who have previously been on probation, pre-trial diversion, judicial diversion or other pre-custodial program or aftercare and have re-offended and are at risk of detention or DCS custody. Youth may have co-occurring mental health and/or substance abuse disorders with involvement in the Juvenile Justice system.

Considerable evidence has been found to show that assessing each youth's risk and re-arrest can help with classifying youth for both appropriate levels/types of programming as well as the intensity level of services. Therefore applicants will be required to utilize the CANS as the standardized risk/needs assessment to aid decision-making.

Entities applying for these funds will be expected to bring together system stakeholders, community leaders and residents, to identify and access existing local resources, for the development of multifaceted responses, to prevent further penetration in the system. This community-focused planning approach will allow for the maximum usage of available community resources and ensure broad community support. Part of this planning process will include a requirement for both judicial and DCS support of the programming through an execution of a Memorandum of Understanding (MOU).

Through the AOF evaluation high priority will be given to applications that specifically formulate strategies that address the reduction of juvenile justice commitments and recommitments to the Tennessee Department of Children's Services (DCS).

Priority will be given to agencies that have a statewide presence and can provide all needed evidenced-based services in the community, home or school.

Goals and Objectives:

Each applicant must utilize the following goals and objectives for this project and may add additional goals or objects specific to their proposal.

1. Reduce juvenile justice commitments to DCS statewide;
2. Increase the use of evidence-based practices in Tennessee's juvenile justice system as part of a strategy to keep delinquent youth out of state custody; and,
3. Reduce recidivism rate of youth involved with the court and DCS.

Scope of Service

The scope of services will be developed and will reflect the selected Proposer's proposal
