Children's Services

Adoption Fee Schedule

Schedule of Fees for Adoption-Related Services 2020

Tennessee Department of Children's Services | Division of Child Welfare Licensing
Effective January 1, 2020- December 31, 2020

Introduction

The following document is a comprehensive list of all agencies licensed to provide adoption-related services within the State of Tennessee and includes each agency's associated fee schedules. All data, including contact information, service rates, service descriptions, etc. is self-reported by each licensed agency. This information is gathered, compiled and published annually by the Tennessee Department of Children's Services Office of Child Welfare Licensing pursuant to Tennessee Code Annotated 36-1-108(d).

Please note that this information is provided in a truncated format and therefore lists only general fee schedules for comparison purposes. More specific fee information may be obtained by contacting each agency directly. All fee schedule data is subject to change so please confirm current service rates with the individual agencies. Some agencies may not be represented on this schedule if they become licensed after the publication date. A current, itemized fee schedule should be requested from any agency you may be considering, whether or not it is included on this list.

If you are attempting to verify information on an agency that has not been included in this schedule, please contact the DCS Division of Licensing at (615) 532-5640 for additional information.

Consumer Awareness

Many children are currently in need of a loving, permanent family and the process of opening one's home to a child in need can be one of the most beautiful and significant events in the life of both a child and that child's adoptive parents.

The State of Tennessee offers many quality options for adoption-related services. However, as with any fee-based business transaction, it is still very important to take time to become familiar with the process and to compare the costs, quality and scope of services among each of the agencies providing these services.

We encourage each prospective adoptive family to research an agency's itemized fees; consumer comments; accreditation status; licensing status and history; liability insurance, etc. and to please read the contract carefully. Tennessee's laws and regulations are in place to help protect both the child and the family (as consumers) but once a legal and binding

contract has been signed, our offices have very few avenues for corrective action or for assisting a disappointed client seeking redress.

Please also ensure that the agency you are engaging is licensed to provide adoption-related services within the State of Tennessee.

Many internet-based adoption services are not effectively regulated and only those programs licensed in Tennessee are covered by Tennessee regulations and consumer-protection laws. Only those agencies reflected on this list or otherwise confirmed by our office are licensed to work with Tennessee children and families.

If you are in doubt, please call us. We want to ensure your adoption offers a beautiful and rewarding experience for all involved and a little “homework” goes a long way in ensuring that outcome.

We wish each of you the best of luck in your endeavors and please feel free to contact the DCS Office of Child Welfare Licensing if we can ever be of assistance to you.

Mark Anderson, Director
Tennessee Department of Children’s Services
Office of Child Welfare Licensing
