# Adoption Fee Schedule

Schedule of Fees for Adoption-Related Services 2022

Tennessee Department of Children's Services | Division of Child Welfare Licensing  
Effective January 1, 2022- December 31, 2022

# Introduction

The following document is a comprehensive list of all agencies licensed to provide adoption-related services within the State of Tennessee and includes each agency's associated fee schedules. All data, including contact information, service rates, service descriptions, etc. is self-reported by each licensed agency. This information is gathered, compiled and published annually by the Tennessee Department of Children's Services Division of Licensing.

Please note that this information is provided in a truncated format and therefore lists only general fee schedule information. Additional fee information for specific services may be obtained by contacting each agency directly. All fee schedule data is subject to change so please confirm current service rates with the individual agencies.

Some agencies may not be represented on this schedule if they become licensed after the publication date. A current, itemized fee schedule should be requested from any agency you may be considering, regardless of whether it is reflected on this list.

## **A Note from the Licensing Office Regarding Consumer Awareness**

There are many children currently in need of a loving, permanent family and the process of opening one's home to a child in need can be one of the most beautiful and significant events in the life of both a child and that child's adoptive parents.

The State of Tennessee offers many quality options for adoption-related services. However, as with any fee-based business transaction, it is still very important to take time to become familiar with the process and to compare the costs, quality and scope of services among each of the agencies providing adoption-related services.

We encourage each prospective adoptive family to research an agency's itemized fees; accreditation status; licensing status and history; liability insurance, etc. and to please read the contract carefully. Tennessee's laws and regulations are in place to help protect both the child and the family (as consumers) but once a legal and binding contract has been signed, our offices have very few avenues for corrective action or for assisting a disappointed client seeking redress.

*Please also ensure that the agency you are engaging is licensed to provide adoption-related services within the State of Tennessee.* Many internet-based adoption services are not effectively regulated and only those programs licensed in Tennessee are covered by

Tennessee regulations and consumer-protection laws. Only those agencies reflected on this list or otherwise confirmed by our office are licensed to work with Tennessee children and families.

If you are in doubt, please call us. We want to help ensure your adoption journey offers a beautiful and rewarding experience for all involved and a little “homework” goes a long way in ensuring that outcome.

Please feel free to contact the DCS Division of Licensing if we can ever be of assistance to you.

Sincerely,

Mark Anderson, Director  
Tennessee Department of Children’s Services  
Division of Licensing
