

Donna Bingham

Prior to this year, Donna Bingham in Shelbyville had never held a job. Recently she decided she wanted to earn some extra spending money for her love of clothes and jewelry, and to save enough to purchase some new furniture for her home. Now, with the support of her Employment Specialist at Skills Developmental Services and after doing a short work trial, Donna ended up getting a job at a local dentist's office. Dr. Koonce and his team are very pleased with her work so far. Way to go, Donna!
