

**PERSONAL FOCUS
OTHER IMPORTANT THINGS THAT SUPPORTERS SHOULD KNOW
TIP SHEET**

👉 These are suggestions of what to consider when completing the “Other Important Things That Supporters Should Know” section of the Personal Focus. Inclusion in the ISP should be based on the unique characteristics, needs and preferences of the person. There is no expectation or requirement that all areas be specifically addressed in the ISP.

1. Include anything that is important for others to know about the person that has not already been addressed.
2. Include things that are so critical they need to be reiterated.

This area addresses those things that are so important to or for the person that it must be included in the plan for others to know and not overlook in order for the person to have a quality life.
