

# Application for a §1915(c) Home and Community-Based Services Waiver

## PURPOSE OF THE HCBS WAIVER PROGRAM

---

The Medicaid Home and Community-Based Services (HCBS) waiver program is authorized in §1915(c) of the Social Security Act. The program permits a State to furnish an array of home and community-based services that assist Medicaid beneficiaries to live in the community and avoid institutionalization. The State has broad discretion to design its waiver program to address the needs of the waiver's target population. Waiver services complement and/or supplement the services that are available to participants through the Medicaid State plan and other federal, state and local public programs as well as the supports that families and communities provide.

The Centers for Medicare & Medicaid Services (CMS) recognizes that the design and operational features of a waiver program will vary depending on the specific needs of the target population, the resources available to the State, service delivery system structure, State goals and objectives, and other factors. A State has the latitude to design a waiver program that is cost-effective and employs a variety of service delivery approaches, including participant direction of services.

## Request for a Renewal to a §1915(c) Home and Community-Based Services Waiver

### 1. Major Changes

---

Describe any significant changes to the approved waiver that are being made in this renewal application:  
With this renewal, the State of Tennessee proposes the following changes to the Self-Determination waiver:

1. Adjust the number of unduplicated participants to reflect current enrollment and projected changes in enrollment. On July 1, 2016, Tennessee implemented the Employment and Community First CHOICES program for people with I/DD under the State's 1115 demonstration waiver authority. This is a new MLTSS program that aligns incentives toward promoting and supporting integrated competitive employment and integrated community living as the first and preferred alternative for all individuals with I/DD enrolled in the program. Consistent with the special terms and conditions of the State's approved 1115 demonstration and the June 2015 guidance issued by CMS, Tennessee has opted to utilize tiered standards in its HCBS programs, working to ensure minimum compliance across settings in its Section 1915(c) waivers while closing all new enrollment into these waivers and directing all new HCBS enrollment into the Employment and Community First CHOICES program. Note that the # of unduplicated participants in this renewal application is based on current enrollment in the program, and that reductions in the # of unduplicated participants in subsequent program years are based on anticipated voluntary transition to Employment and Community First CHOICES or other voluntary or involuntary disenrollment from the program—for reasons unrelated to waiver capacity. TennCare and DIDD will monitor participation in this waiver on an ongoing basis, and submit waiver amendments each year as necessary to adjust the # of unduplicated participants based on actual enrollment.
2. Revise the minimum contact requirements for DIDD case managers to align with the ongoing contact requirements for similar HCBS programs for individuals with I/DD with comparable levels of support needs. Specifically, persons enrolled in this waiver shall be contacted by their DIDD Case Manager at least monthly either in person or by telephone (i.e., the member's Case Manager must complete each subsequent contact in person or by telephone within thirty (30) calendar days of the previous in-person or telephone contact). These individuals shall be visited in their residence face-to-face by their DIDD Case Manager at least quarterly (i.e., within ninety (90) calendar days of the previous face-to-face visit). Face-to-face and/or telephone contacts shall be conducted more frequently when appropriate based on the person's needs and/or request which shall be documented in the ISP, or based on a significant change in needs or circumstances.
3. Update the waiver specific transition plan based on the State's approved Statewide Transition Plan, as requested by CMS.
4. Update terminology through the waiver document to reflect the State's change from the Bureau of TennCare to the Division of TennCare.

5. Update the waiver to reflect the new contractual relationship between TennCare and the Financial Management Service (FMS) vendor that will be in effect upon renewal of this waiver.

PLEASE NOTE that Tennessee requests to renew this waiver for a period of only three (3), rather than five (5) years. While the application includes both options, it did not allow the State to select the three-year renewal period. While we were unable to enter "zeros" in all fields applicable to years 4 and 5, as advised, we entered one (1) in any field where a number greater than zero was required for years 4 and 5, and zeros for remaining fields for years 4 and 5.

## Application for a §1915(c) Home and Community-Based Services Waiver

### 1. Request Information (1 of 3)

- A. The **State of Tennessee** requests approval for a Medicaid home and community-based services (HCBS) waiver under the authority of §1915(c) of the Social Security Act (the Act).
- B. **Program Title** *(optional - this title will be used to locate this waiver in the finder):*  
**Tennessee Self-Determination Waiver Program**
- C. **Type of Request:** renewal

**Requested Approval Period:** *(For new waivers requesting five year approval periods, the waiver must serve individuals who are dually eligible for Medicaid and Medicare.)*

☐ 3 years ☒ 5 years

**Original Base Waiver Number:** TN.0427

**Waiver Number:** TN.0427.R03.00

**Draft ID:** TN.012.03.00

- D. **Type of Waiver** *(select only one):*

Regular Waiver ▼

- E. **Proposed Effective Date:** *(mm/dd/yy)*

01/01/18

**Approved Effective Date:** 01/01/18

### 1. Request Information (2 of 3)

- F. **Level(s) of Care.** This waiver is requested in order to provide home and community-based waiver services to individuals who, but for the provision of such services, would require the following level(s) of care, the costs of which would be reimbursed under the approved Medicaid State plan *(check each that applies)*:

☐ **Hospital**

Select applicable level of care

☐ **Hospital as defined in 42 CFR §440.10**

If applicable, specify whether the State additionally limits the waiver to subcategories of the hospital level of care:

☐ **Inpatient psychiatric facility for individuals age 21 and under as provided in 42 CFR §440.160**

☐ **Nursing Facility**

Select applicable level of care

☐ **Nursing Facility as defined in 42 CFR §§440.40 and 42 CFR §§440.155**

If applicable, specify whether the State additionally limits the waiver to subcategories of the nursing facility level of care:

☐ **Institution for Mental Disease for persons with mental illnesses aged 65 and older as provided in 42 CFR §440.140**

☒ **Intermediate Care Facility for Individuals with Intellectual Disabilities (ICF/IID) (as defined in 42 CFR**

**§440.150)**

If applicable, specify whether the State additionally limits the waiver to subcategories of the ICF/IID level of care: Consistent with the special terms and conditions of the State's approved 1115 demonstration and the June 2015 guidance issued by CMS, Tennessee has opted to utilize tiered standards in its HCBS programs, working to ensure minimum compliance across settings in its Section 1915(c) waivers while closing all new enrollment into these waivers and directing all new HCBS enrollment into the Employment and Community First CHOICES program. The Tennessee Self-Determination Waiver remains available to Tennessee residents in the target population already enrolled in the waiver who:

- a. Meet TennCare ICF/IID level of care criteria (TennCare Rule 1200-13-1-.15) and financial eligibility criteria and have a PreAdmission Evaluation approved by TennCare;
- b. Have been assessed and found to:
  - i. Have an intellectual disability manifested before eighteen (18) years of age, as specified in Tennessee State law (Tennessee Code Annotated, Title 33-1-101); or,
  - ii. Have a developmental disability, which is defined as a condition of substantial developmental delay or specific congenital or acquired conditions with a high probability of resulting an intellectual disability and be a child five (5) years of age or younger; and
- c. Do not require residential waiver services (e.g., family model, residential habilitation, supported living) and have an established non-institutional place of residence where they live with their family, a non-related caregiver or in their own home.

## 1. Request Information (3 of 3)

---

- G. Concurrent Operation with Other Programs.** This waiver operates concurrently with another program (or programs) approved under the following authorities  
Select one:

☒ **Not applicable**

☐ **Applicable**

Check the applicable authority or authorities:

☐ **Services furnished under the provisions of §1915(a)(1)(a) of the Act and described in Appendix I**

☐ **Waiver(s) authorized under §1915(b) of the Act.**

Specify the §1915(b) waiver program and indicate whether a §1915(b) waiver application has been submitted or previously approved:

**Specify the §1915(b) authorities under which this program operates (check each that applies):**

☐ **§1915(b)(1) (mandated enrollment to managed care)**

☐ **§1915(b)(2) (central broker)**

☐ **§1915(b)(3) (employ cost savings to furnish additional services)**

☐ **§1915(b)(4) (selective contracting/limit number of providers)**

☐ **A program operated under §1932(a) of the Act.**

Specify the nature of the State Plan benefit and indicate whether the State Plan Amendment has been submitted or previously approved:

☐ **A program authorized under §1915(i) of the Act.**

☐ **A program authorized under §1915(j) of the Act.**

☐ **A program authorized under §1115 of the Act.**

Specify the program:

- H. Dual Eligibility for Medicaid and Medicare.**

Check if applicable:

- ☒ **This waiver provides services for individuals who are eligible for both Medicare and Medicaid.**

## 2. Brief Waiver Description

**Brief Waiver Description.** *In one page or less*, briefly describe the purpose of the waiver, including its goals, objectives, organizational structure (e.g., the roles of state, local and other entities), and service delivery methods.

The Self-Determination Waiver Program serves children and adults with intellectual disabilities and children under age six with developmental delay who qualify for and, absent the provision of services provided under the Self-Determination waiver, would require placement in a private Intermediate Care Facility for Individuals with Intellectual Disabilities (ICF/IID).

The Self-Determination Waiver Program affords persons supported the opportunity to directly manage selected services, including the recruitment and management of service providers. Participants and families (as appropriate) electing self-direction are empowered and have the responsibility for managing, in accordance with waiver service definitions and limitations, a self-determination budget affording flexibility in service design and delivery.

The Self-Determination Waiver Program serves persons who have an established non-institutional place of residence where they live with their family, a non-related caregiver or in their own home and whose needs can be met effectively by the combination of waiver services through this program and natural and other supports available to them. The Self-Determination Waiver does not include residential services such as supported living.

The Self-Determination Waiver offers a continuum of services that are selected by each individual pursuant to a person-centered planning process and support each person's independence and full integration into the community, including opportunities to seek employment and work in competitive, integrated settings and engage in community life. Services are delivered in a manner which ensures each individual's rights of privacy, dignity, respect and freedom from coercion and restraint; optimizes individual initiative, autonomy, and independence in making life choices; and are delivered in a manner that comports fully with standards applicable to HCBS settings delivered under Section 1915(c) of the Social Security Act, including those requirements applicable to provider-owned or controlled homes, except as supported by the individual's specific assessed need and set forth in the person-centered ISP.

## 3. Components of the Waiver Request

**The waiver application consists of the following components.** *Note: Item 3-E must be completed.*

- A. Waiver Administration and Operation.** Appendix A specifies the administrative and operational structure of this waiver.
- B. Participant Access and Eligibility.** Appendix B specifies the target group(s) of individuals who are served in this waiver, the number of participants that the State expects to serve during each year that the waiver is in effect, applicable Medicaid eligibility and post-eligibility (if applicable) requirements, and procedures for the evaluation and reevaluation of level of care.
- C. Participant Services.** Appendix C specifies the home and community-based waiver services that are furnished through the waiver, including applicable limitations on such services.
- D. Participant-Centered Service Planning and Delivery.** Appendix D specifies the procedures and methods that the State uses to develop, implement and monitor the participant-centered service plan (of care).
- E. Participant-Direction of Services.** When the State provides for participant direction of services, Appendix E specifies the participant direction opportunities that are offered in the waiver and the supports that are available to participants who direct their services. (*Select one*):
 

- ☒ **Yes. This waiver provides participant direction opportunities.** Appendix E is required.
  - ☐ **No. This waiver does not provide participant direction opportunities.** Appendix E is not required.
- F. Participant Rights.** Appendix F specifies how the State informs participants of their Medicaid Fair Hearing rights and other procedures to address participant grievances and complaints.

- G. Participant Safeguards.** **Appendix G** describes the safeguards that the State has established to assure the health and welfare of waiver participants in specified areas.
- H. Quality Improvement Strategy.** **Appendix H** contains the Quality Improvement Strategy for this waiver.
- I. Financial Accountability.** **Appendix I** describes the methods by which the State makes payments for waiver services, ensures the integrity of these payments, and complies with applicable federal requirements concerning payments and federal financial participation.
- J. Cost-Neutrality Demonstration.** **Appendix J** contains the State's demonstration that the waiver is cost-neutral.

#### 4. Waiver(s) Requested

---

- A. Comparability.** The State requests a waiver of the requirements contained in §1902(a)(10)(B) of the Act in order to provide the services specified in **Appendix C** that are not otherwise available under the approved Medicaid State plan to individuals who: (a) require the level(s) of care specified in Item 1.F and (b) meet the target group criteria specified in **Appendix B**.
- B. Income and Resources for the Medically Needy.** Indicate whether the State requests a waiver of §1902(a)(10)(C)(i) (III) of the Act in order to use institutional income and resource rules for the medically needy (*select one*):
  - ☒ **Not Applicable**
  - ☐ **No**
  - ☐ **Yes**
- C. Statewide.** Indicate whether the State requests a waiver of the statewide requirements in §1902(a)(1) of the Act (*select one*):
  - ☒ **No**
  - ☐ **Yes**

If yes, specify the waiver of statewide that is requested (*check each that applies*):

- ☐ **Geographic Limitation.** A waiver of statewide is requested in order to furnish services under this waiver only to individuals who reside in the following geographic areas or political subdivisions of the State. *Specify the areas to which this waiver applies and, as applicable, the phase-in schedule of the waiver by geographic area:*

- ☐ **Limited Implementation of Participant-Direction.** A waiver of statewide is requested in order to make *participant-direction of services* as specified in **Appendix E** available only to individuals who reside in the following geographic areas or political subdivisions of the State. Participants who reside in these areas may elect to direct their services as provided by the State or receive comparable services through the service delivery methods that are in effect elsewhere in the State. *Specify the areas of the State affected by this waiver and, as applicable, the phase-in schedule of the waiver by geographic area:*

#### 5. Assurances

---

In accordance with 42 CFR §441.302, the State provides the following assurances to CMS:

- A. Health & Welfare:** The State assures that necessary safeguards have been taken to protect the health and welfare of persons receiving services under this waiver. These safeguards include:
  - 1. As specified in **Appendix C**, adequate standards for all types of providers that provide services under this waiver;

2. Assurance that the standards of any State licensure or certification requirements specified in **Appendix C** are met for services or for individuals furnishing services that are provided under the waiver. The State assures that these requirements are met on the date that the services are furnished; and,
  3. Assurance that all facilities subject to §1616(e) of the Act where home and community-based waiver services are provided comply with the applicable State standards for board and care facilities as specified in **Appendix C**.
- B. Financial Accountability.** The State assures financial accountability for funds expended for home and community-based services and maintains and makes available to the Department of Health and Human Services (including the Office of the Inspector General), the Comptroller General, or other designees, appropriate financial records documenting the cost of services provided under the waiver. Methods of financial accountability are specified in **Appendix I**.
- C. Evaluation of Need:** The State assures that it provides for an initial evaluation (and periodic reevaluations, at least annually) of the need for a level of care specified for this waiver, when there is a reasonable indication that an individual might need such services in the near future (one month or less) but for the receipt of home and community-based services under this waiver. The procedures for evaluation and reevaluation of level of care are specified in **Appendix B**.
- D. Choice of Alternatives:** The State assures that when an individual is determined to be likely to require the level of care specified for this waiver and is in a target group specified in **Appendix B**, the individual (or, legal representative, if applicable) is:
1. Informed of any feasible alternatives under the waiver; and,
  2. Given the choice of either institutional or home and community-based waiver services. **Appendix B** specifies the procedures that the State employs to ensure that individuals are informed of feasible alternatives under the waiver and given the choice of institutional or home and community-based waiver services.
- E. Average Per Capita Expenditures:** The State assures that, for any year that the waiver is in effect, the average per capita expenditures under the waiver will not exceed 100 percent of the average per capita expenditures that would have been made under the Medicaid State plan for the level(s) of care specified for this waiver had the waiver not been granted. Cost-neutrality is demonstrated in **Appendix J**.
- F. Actual Total Expenditures:** The State assures that the actual total expenditures for home and community-based waiver and other Medicaid services and its claim for FFP in expenditures for the services provided to individuals under the waiver will not, in any year of the waiver period, exceed 100 percent of the amount that would be incurred in the absence of the waiver by the State's Medicaid program for these individuals in the institutional setting(s) specified for this waiver.
- G. Institutionalization Absent Waiver:** The State assures that, absent the waiver, individuals served in the waiver would receive the appropriate type of Medicaid-funded institutional care for the level of care specified for this waiver.
- H. Reporting:** The State assures that annually it will provide CMS with information concerning the impact of the waiver on the type, amount and cost of services provided under the Medicaid State plan and on the health and welfare of waiver participants. This information will be consistent with a data collection plan designed by CMS.
- I. Habilitation Services.** The State assures that prevocational, educational, or supported employment services, or a combination of these services, if provided as habilitation services under the waiver are: (1) not otherwise available to the individual through a local educational agency under the Individuals with Disabilities Education Act (IDEA) or the Rehabilitation Act of 1973; and, (2) furnished as part of expanded habilitation services.
- J. Services for Individuals with Chronic Mental Illness.** The State assures that federal financial participation (FFP) will not be claimed in expenditures for waiver services including, but not limited to, day treatment or partial hospitalization, psychosocial rehabilitation services, and clinic services provided as home and community-based services to individuals with chronic mental illnesses if these individuals, in the absence of a waiver, would be placed in

an IMD and are: (1) age 22 to 64; (2) age 65 and older and the State has not included the optional Medicaid benefit cited in 42 CFR §440.140; or (3) age 21 and under and the State has not included the optional Medicaid benefit cited in 42 CFR § 440.160.

## 6. Additional Requirements

---

*Note: Item 6-I must be completed.*

- A. Service Plan.** In accordance with 42 CFR §441.301(b)(1)(i), a participant-centered service plan (of care) is developed for each participant employing the procedures specified in **Appendix D**. All waiver services are furnished pursuant to the service plan. The service plan describes: (a) the waiver services that are furnished to the participant, their projected frequency and the type of provider that furnishes each service and (b) the other services (regardless of funding source, including State plan services) and informal supports that complement waiver services in meeting the needs of the participant. The service plan is subject to the approval of the Medicaid agency. Federal financial participation (FFP) is not claimed for waiver services furnished prior to the development of the service plan or for services that are not included in the service plan.
- B. Inpatients.** In accordance with 42 CFR §441.301(b)(1)(ii), waiver services are not furnished to individuals who are inpatients of a hospital, nursing facility or ICF/IID.
- C. Room and Board.** In accordance with 42 CFR §441.310(a)(2), FFP is not claimed for the cost of room and board except when: (a) provided as part of respite services in a facility approved by the State that is not a private residence or (b) claimed as a portion of the rent and food that may be reasonably attributed to an unrelated caregiver who resides in the same household as the participant, as provided in **Appendix I**.
- D. Access to Services.** The State does not limit or restrict participant access to waiver services except as provided in **Appendix C**.
- E. Free Choice of Provider.** In accordance with 42 CFR §431.151, a participant may select any willing and qualified provider to furnish waiver services included in the service plan unless the State has received approval to limit the number of providers under the provisions of §1915(b) or another provision of the Act.
- F. FFP Limitation.** In accordance with 42 CFR §433 Subpart D, FFP is not claimed for services when another third-party (e.g., another third party health insurer or other federal or state program) is legally liable and responsible for the provision and payment of the service. FFP also may not be claimed for services that are available without charge, or as free care to the community. Services will not be considered to be without charge, or free care, when (1) the provider establishes a fee schedule for each service available and (2) collects insurance information from all those served (Medicaid, and non-Medicaid), and bills other legally liable third party insurers. Alternatively, if a provider certifies that a particular legally liable third party insurer does not pay for the service(s), the provider may not generate further bills for that insurer for that annual period.
- G. Fair Hearing:** The State provides the opportunity to request a Fair Hearing under 42 CFR §431 Subpart E, to individuals: (a) who are not given the choice of home and community-based waiver services as an alternative to institutional level of care specified for this waiver; (b) who are denied the service(s) of their choice or the provider(s) of their choice; or (c) whose services are denied, suspended, reduced or terminated. **Appendix F** specifies the State's procedures to provide individuals the opportunity to request a Fair Hearing, including providing notice of action as required in 42 CFR §431.210.
- H. Quality Improvement.** The State operates a formal, comprehensive system to ensure that the waiver meets the assurances and other requirements contained in this application. Through an ongoing process of discovery, remediation and improvement, the State assures the health and welfare of participants by monitoring: (a) level of care determinations; (b) individual plans and services delivery; (c) provider qualifications; (d) participant health and welfare; (e) financial oversight and (f) administrative oversight of the waiver. The State further assures that all problems identified through its discovery processes are addressed in an appropriate and timely manner, consistent with the severity and nature of the problem. During the period that the waiver is in effect, the State will implement the Quality Improvement Strategy specified in **Appendix H**.

**I. Public Input.** Describe how the State secures public input into the development of the waiver:

The proposed waiver renewal application for the Tennessee Self-Determination Waiver Program (TN 0427) was posted for public comment on 8/22/17. It was posted on the TennCare website; sent directly to advocacy groups (The Arc Tennessee, Tennessee Council on Developmental Disabilities, Disability Rights Tennessee, and the Tennessee Disability Coalition) with a request to distribute to waiver participants and families; and to TNCO, the HCBS provider association, also with a request to share with their members and to ask those providers to share with persons supported and families. Finally, we asked DIDD our contracted operating agency to include in Open Line, an electronic newsletter distributed weekly to providers, advocacy organizations, and other stakeholders.

Comments on the proposed waiver renewal application were received from a total of ten (10) people (primarily family members of waiver participants and a self-directed worker) and The Arc Tennessee.

Nearly all of the individual comments centered around the upcoming transition of contracted fiscal employer agent services provided as an administrative function under this waiver program. As part of our state procurement rules, we were recently required to competitively re-procure this contract and the incumbent did not win. The procurement process included a thorough review of qualifications, performance and cost, as is required under state rule. As the state is bound by these rules, these comments did not result in any changes to the proposed renewal application, but we will be carefully monitoring the transition and implementation of the new vendor.

Other comments included outreach to persons not currently enrolled in HCBS programs, portability of HCBS when people move between states, concerns regarding the process for potential transition of waiver participants into the state's new MLTSS program, Employment and Community First CHOICES, and a comment expressing support for the continuation of facility-based day services. These changes did not result in any changes to the proposed waiver renewal application.

One comment expressed concern regarding the impact of recent rate increases targeted to increasing wages for direct support professionals. These rate increases had unintended negative consequences for a small number of waiver participants whose services had been close to the individual cost limit. The higher rate of reimbursement for certain services would have caused these individuals to exceed the cost limit; they were thus required to reduce services to remain within the limit. As a result of this comment, we included language in the renewal application which will avoid reductions in service when rate increases would have this unintended negative consequence for waiver participants.

In addition to comments regarding the procurement of a new FEA vendor, comments from The Arc Tennessee included concern regarding the state's decision to pursue a 3-year renewal of the waiver, technical edits, clarifications regarding the scope of contracted advocacy services they provide, and questions regarding the projected number of people electing to participate in self-direction of one or more services. The numbers had not yet been updated, as was reflected in comments the State's included in the posted document.

A detailed listing of comments and the State's responses are available at: <https://www.tn.gov/tenncare/article/proposed-section-1915c-hcbs-self-determination-waiver-renewal-comments>.

- J. Notice to Tribal Governments.** The State assures that it has notified in writing all federally-recognized Tribal Governments that maintain a primary office and/or majority population within the State of the State's intent to submit a Medicaid waiver request or renewal request to CMS at least 60 days before the anticipated submission date is provided by Presidential Executive Order 13175 of November 6, 2000. Evidence of the applicable notice is available through the Medicaid Agency.
- K. Limited English Proficient Persons.** The State assures that it provides meaningful access to waiver services by Limited English Proficient persons in accordance with: (a) Presidential Executive Order 13166 of August 11, 2000 (65 FR 50121) and (b) Department of Health and Human Services "Guidance to Federal Financial Assistance Recipients Regarding Title VI Prohibition Against National Origin Discrimination Affecting Limited English Proficient Persons" (68 FR 47311 - August 8, 2003). **Appendix B** describes how the State assures meaningful access to waiver services by Limited English Proficient persons.

## 7. Contact Person(s)

---

- A.** The Medicaid agency representative with whom CMS should communicate regarding the waiver is:

**Last Name:**

	<input type="text" value="Killingsworth"/>
<b>First Name:</b>	<input type="text" value="Patti"/>
<b>Title:</b>	<input type="text" value="Chief of Long Term Care"/>
<b>Agency:</b>	<input type="text" value="Division of TennCare"/>
<b>Address:</b>	<input type="text" value="310 Great Circle Road"/>
<b>Address 2:</b>	<input type="text"/>
<b>City:</b>	<input type="text" value="Nashville"/>
<b>State:</b>	<b>Tennessee</b>
<b>Zip:</b>	<input type="text" value="37243"/>
<b>Phone:</b>	<input type="text" value="(615) 507-6468"/> <b>Ext:</b> <input type="text"/> <input type="checkbox"/> TTY
<b>Fax:</b>	<input type="text" value="(615) 532-9140"/>
<b>E-mail:</b>	<input type="text" value="patti.killingsworth@tn.gov"/>

**B.** If applicable, the State operating agency representative with whom CMS should communicate regarding the waiver is:

<b>Last Name:</b>	<input type="text" value="Heart"/>
<b>First Name:</b>	<input type="text" value="Alex"/>
<b>Title:</b>	<input type="text" value="Assistant Commissioner of Policy and Innovation"/>
<b>Agency:</b>	<input type="text" value="Department of Intellectual and Developmental Disabilities"/>
<b>Address:</b>	<input type="text" value="400 Deaderick Street"/>
<b>Address 2:</b>	<input type="text"/>

<b>Fax:</b>	<input type="text" value="(615) 532-9940"/>
<b>E-mail:</b>	<input type="text" value="alex.heart@tn.gov"/>

## 8. Authorizing Signature

---

This document, together with Appendices A through J, constitutes the State's request for a waiver under §1915(c) of the Social

Security Act. The State assures that all materials referenced in this waiver application (including standards, licensure and certification requirements) are **readily** available in print or electronic form upon request to CMS through the Medicaid agency or, if applicable, from the operating agency specified in Appendix A. Any proposed changes to the waiver will be submitted by the Medicaid agency to CMS in the form of waiver amendments.

Upon approval by CMS, the waiver application serves as the State's authority to provide home and community-based waiver services to the specified target groups. The State attests that it will abide by all provisions of the approved waiver and will continuously operate the waiver in accordance with the assurances specified in Section 5 and the additional requirements specified in Section 6 of the request.

**Signature:**

## Attachments

### Attachment #1: Transition Plan

Check the box next to any of the following changes from the current approved waiver. Check all boxes that apply.

- ☐ Replacing an approved waiver with this waiver.
- ☐ Combining waivers.
- ☐ Splitting one waiver into two waivers.
- ☐ Eliminating a service.
- ☐ Adding or decreasing an individual cost limit pertaining to eligibility.
- ☐ Adding or decreasing limits to a service or a set of services, as specified in Appendix C.
- ☒ Reducing the unduplicated count of participants (Factor C).
- ☐ Adding new, or decreasing, a limitation on the number of participants served at any point in time.
- ☐ Making any changes that could result in some participants losing eligibility or being transferred to another waiver under 1915(c) or another Medicaid authority.

☐ **Making any changes that could result in reduced services to participants.**

Specify the transition plan for the waiver:

While this renewal application requests a reduction in the unduplicated count of participants, the number of unduplicated participants for Year 1 is based on the number of persons currently enrolled in the Self-Determination Waiver Program, such that no current waiver participants will be disenrolled or need to transition as a result of this renewal application.

The reduction in unduplicated participants represents slots that either have never been filled, or that have been filled and are now vacated, and will not be refilled.

Consistent with the special terms and conditions of the State's approved 1115 demonstration and the June 2015 guidance issued by CMS, Tennessee has opted to utilize tiered standards in its HCBS programs, working to ensure minimum compliance across settings in its Section 1915(c) waivers while closing all new enrollment into these waivers and directing all new HCBS enrollment into the Employment and Community First CHOICES program.

Reductions in the # of unduplicated participants in subsequent program years are based on anticipated voluntary transition to Employment and Community First CHOICES or other voluntary or involuntary disenrollment from the program—for reasons unrelated to waiver capacity.

TennCare and DIDD will monitor participation in this waiver on an ongoing basis, and submit waiver amendments each year as necessary to adjust the # of unduplicated participants based on actual enrollment.

**Attachment #2: Home and Community-Based Settings Waiver Transition Plan**

Specify the state's process to bring this waiver into compliance with federal home and community-based (HCB) settings requirements at 42 CFR 441.301(c)(4)-(5), and associated CMS guidance.

*Consult with CMS for instructions before completing this item. This field describes the status of a transition process at the point in time of submission. Relevant information in the planning phase will differ from information required to describe attainment of milestones.*

*To the extent that the state has submitted a statewide HCB settings transition plan to CMS, the description in this field may reference that statewide plan. The narrative in this field must include enough information to demonstrate that this waiver complies with federal HCB settings requirements, including the compliance and transition requirements at 42 CFR 441.301(c)(6), and that this submission is consistent with the portions of the statewide HCB settings transition plan that are germane to this waiver. Quote or summarize germane portions of the statewide HCB settings transition plan as required.*

*Note that Appendix C-5 HCB Settings describes settings that do not require transition; the settings listed there meet federal HCB setting requirements as of the date of submission. Do not duplicate that information here.*

*Update this field and Appendix C-5 when submitting a renewal or amendment to this waiver for other purposes. It is not necessary for the state to amend the waiver solely for the purpose of updating this field and Appendix C-5. At the end of the state's HCB settings transition process for this waiver, when all waiver settings meet federal HCB setting requirements, enter "Completed" in this field, and include in Section C-5 the information on all HCB settings in the waiver.*

**Tennessee Home and Community Based Services Settings Rule Transition Plan**

Tennessee's State Medicaid Agency (SMA), the Division of TennCare (TennCare) submits this proposed Transition Plan in accordance with requirements set forth in the Centers for Medicare and Medicaid Services (CMS) Home and Community Based Services (HCBS) Settings Rule released on January 16, 2014.

Tennessee's approved Statewide Transition Plan is located at:

<http://www.tn.gov/assets/entities/tenncare/attachments/TNProposedAmendedStatewideTransitionPlanCV.pdf>.

In preparation for development of the state's proposed Transition Plan, TennCare completed certain activities believed to be pertinent to the development of the Transition Plan. Those activities are detailed below. Detailed Provider Self-Assessment and Individual Experience tools and the Assessment Worksheet, including instructions with timelines, will be submitted separately to the CMS regional project officer. Transition Plan activities were designed to lead to a waiver-specific Transition Plan for each HCBS program as well as a Statewide Transition Plan, encompassing Medicaid HCBS programs and authorities.

**Section 1: Transition Plan Development and Public Input Activities (Forms of Public Notice)**

## 1) Provider information meetings

a) Invitations were posted on the TennCare website and distributed through provider and advocacy organizations, the Department of Intellectual and Developmental Disabilities (DIDD) and contracted Managed Care Organizations (MCOs). They will be submitted separately to the CMS regional project officer.

b) Seven separate meetings were held across the state between July 8-24, 2014.

c) 628 attendees in total

d) Power point presentation was posted on the TennCare website on July 25, 2014 and submitted separately to the CMS regional project officer.

## 2) Consumer and family information materials and meetings

a) Consumer/family friendly materials were developed with input from provider and advocacy organizations.

b) Materials were posted on the TennCare website and distributed through provider and advocacy organizations, DIDD and MCOs.

c) TennCare hosted 2 open forum conference calls to educate consumers and families on the HCBS Settings Rule and the importance of their public input.

i. There were a total of 251 distinct phone numbers that accessed the calls, but since there were several participants who were gathered in groups, the actual number of participants is unknown, but greater than the number represented by distinct phone numbers.

ii. HCBS providers participated in these calls as well as consumers and families.

d) Some providers held family meetings as well.

e) Copies of these materials were submitted separately to the CMS regional project officer.

## 3) State posting of draft transition plan and assessment tools for public comment

a) All Transition Plan and Assessment Tool documents were posted at: [http://tn.gov/tenncare/long\\_hcbstransition.shtml](http://tn.gov/tenncare/long_hcbstransition.shtml). Individuals could provide comments online through the website, via the US postal service, or by emailing program staff directly.

b) The comment period extended from July 25, 2014 – September 19, 2014 as an interactive, working time between the state, providers, advocates, consumers and families. TennCare updated documents based on comments received and reposted the documents to the TennCare website as updated drafts.

i. The Transition Plan was revised based on:

1. Public comments received regarding timelines and assessment activities; and

2. Feedback received from CMS, including removal of Person-Centered Planning (PCP) components.

3. The proposed Transition Plan was revised and reposted on September 18, 2014.

c) Documents were finalized (with any additional comments received), posted and entered into CMS web portal with waiver submission October 1, 2014.

d) Cover letter, assessment tools and assessment tools instructions were submitted separately to the CMS regional project officer.

e) The final version of the Transition Plan submitted to CMS was posted on the TennCare website.

## Section 2: Transition Plan Components

## Part A: SMA Self-Assessment and Remediation

## 1) SMA self-assessment process: Ongoing – February 28, 2015

a) The state initiated ongoing internal strategy meetings to assess all rules, regulations, policies, protocols, practices and contracts.

b) The state developed and implemented strategies for consumer and family, provider, advocate, and other stakeholder input into the self-assessment of state standards, requirements and practices.

c) TennCare presented specialized webinars to consumers, families, and caregivers.

d) Components of the SMA Self-Assessment shall include, at a minimum, the following:

The State's systemic assessment included a review of state statutes, 1915(c) waivers, rules, contracts, rate methodologies and billing practices, protocols, policies, and procedures across all departments involved in the licensure and administration of Medicaid-reimbursed HCBS. The specific items reviewed during this assessment are explained in greater detail below:

State statutes: The State assessed state statutes concerning licensure for all state departments authorized to license Medicaid-reimbursed HCBS settings. The assessment involved reviewing statutory authority concerning the Tennessee Departments of Mental Health and Substance Abuse Services (DMHSAS), Intellectual and Developmental Disabilities (DIDD), Health (DOH), and Human Services (DHS) located in Tennessee Code Annotated Titles 33, 68, and 71, respectively.

1915(c) and 1115 Waivers: The State assessed its three 1915c Waivers serving individuals with intellectual disabilities that are administered by the DIDD, and the 1115 Demonstration Waiver which provides authority for the CHOICES HCBS program. All aspects of the waivers were reviewed.

State rules: The State assessed rules for all state departments authorized to license and administer Medicaid-reimbursed HCBS settings. This assessment involved reviewing state rules for the Division of TennCare, DMHSAS, DOH, and DHS concerning the areas of licensure, HCBS setting definitions, and residents' rights in TennCare Rule 1200-13-01, DMHSAS Rules 0940-01 – 0940-06, DOH Rules 1200-08-01 – 1200-08-36, and DHS Rules 1240-01 – 1240-09.

State contracts: The State assessed all state contracts concerning the administration and provision of services in Medicaid-reimbursed HCBS settings. This assessment involved reviewing the State's Contractor Risk Agreement (CRA) with its three Managed Care Organizations (MCOs), its 1915(c) Waiver Interagency Agreement with DIDD, the DIDD Provider Agreement, and the MCOs' HCBS Provider Agreements. Of note, the MCO HCBS Provider Agreements must also be approved by the Tennessee Department of Commerce and Insurance (TDCI).

The SMA Self-Assessment Remediation Milestones and Timelines include:

State Statutes: In order to amend the state statutes (as detailed above) the State needed to submit and pass legislation authorizing the departments that license Medicaid-reimbursed HCBS to amend their departmental rules.

- The State proposed legislation to amend Tennessee Code Annotated Sections 33-2-404, 68-11-202, and 71-2-412 as detailed above during the 2015 legislative session of the 109th General Assembly. Rather than attempting a comprehensive re-write of statutory language, TennCare proposed language to be added to each of the applicable statutes that would allow the licensing authority to modify its rules to ensure compliance with the HCBS settings rule, even if such rule is in conflict with a previously existing statutory provision—in essence, pre-empting the previous requirements of state law to ensure compliance with the federal HCBS settings rule. HB101/SB112 was passed on April 2nd and approved on April 16th granting authority for the DOH board for licensing healthcare facilities and the DMHSAS, DHS and DIDD to amend licensure rules to be consistent with the federal HCBS Settings final Rule. Therefore, the statutory assessment and revision process is complete (<http://www.tn.gov/sos/acts/109/pub/pc0153.pdf>).

1915(c) Waivers: In order to amend the State's 1915(c) Waiver definitions in Appendices C, the State needed to revise the service definitions in the Waivers as well as revise language related to the care planning process and participant rights, and submit these revisions as part of its Waiver amendment and renewal requests to CMS. Additional changes in employment and day services to further strengthen compliance in non-residential settings are part of an amendment to each of the State's 1915(c) waivers that was posted for public comment in November 2015 (<https://www.tn.gov/tenncare/topic/hcbs-for-individuals-with-intellectual-and-developmental-disabilities>). An approach for modification of the reimbursement structure to de-link staffing ratios from rates of reimbursement for certain services is being contemplated for 2017, and provider education around person-centered plan development and implementation to ensure that expectations pertaining to protection from harm are not prohibiting individual choice and freedom began in the fall and will continue with revisions to the provider manual in 2016.

- The State submitted waiver renewals to CMS on October 1, 2014. Changes to the waivers in areas as identified above in two of its three 1915(c) Waivers, and comparable changes were submitted in an amendment to the State's remaining 1915(c) Waiver, as applicable, on October 15, 2014. Waiver renewal requests and all amendments were approved by CMS on March 27, 2015. Redesign of reimbursement methodologies to eliminate staffing requirements has begun, including an initial planning meeting with HSRI through a Technical Assistance Grant funded by CMS via New Editions Consulting, and initial stakeholder discussions. We expect that design and implementation of a new reimbursement approach cannot be completed until at least July 1, 2017. Provider education around person-centered plan development and implementation to ensure that expectations pertaining to protection from harm are not prohibiting individual choice and freedom will proceed and is expected to continue into 2016, and will be reflected in changes to the provider manual to be completed by December 31, 2016. Additional changes in the waivers will be proposed based on key learnings as the state moves forward with implementation of remediation strategies, in order to align incentives toward helping to support individual integrated employment at a competitive wage and integrated community living as the preferred outcomes for all program participants. TennCare and DIDD are working with a national subject matter expert on Employment and Day Services definition revisions and rate structures. Proposed revisions to service definitions were presented to stakeholders for initial input in the fall of 2015 and posted for public comment. It was determined that changes in the service definitions should be implemented at the same time as changes in reimbursement. The proposed rate structure will be posted for public comment prior to being submitted as waiver amendments. The projected date that these changes will be implemented is July 2017.

State Rules: The State has identified areas of non-compliance and areas to strengthen compliance in State rules across multiple departments as detailed above. The rulemaking process is lengthy, comprising a minimum of roughly six months from the notice of rulemaking to a final rule. TennCare will promulgate new rules, including collecting stakeholder input, by

January 1, 2017. In addition, TennCare will collaborate to assist other state departments in revising their rules, as applicable, by January 1, 2017, or will take necessary steps to otherwise plan for transition if compliance cannot be achieved. Copies of memos to other state departments will be submitted to the CMS Regional Project Officer once mailed to applicable state departments.

State Contracts: In order to amend the state contracts as detailed above, the State needed to include in its CRA with its contracted MCOs and its Interagency Agreement with DIDD HCBS Settings Rule language.

- The State amended its 1915(c) Waiver Interagency Agreement with DIDD to include the HCBS Settings Rule language detailed above effective July 1, 2015. The State monitors DIDD compliance with the Interagency Agreement through several quality mechanisms and these components have been incorporated into that compliance monitoring structure. Therefore, this contractual amendment has been made and is complete.
- The State will amend its DIDD Provider Agreement in 2016 to include reference to the HCBS Settings Rule. This Provider Agreement will be effective January 1, 2017.

#### Part B. Contracted Entity Self-Assessment and Remediation

##### 2) Contracted entity self-assessment process: October 1, 2014 – March 31, 2015

During the Systemic Self-Assessment Process, LTSS contracted entities, including the Department of Intellectual and Developmental Disabilities (DIDD under the State's three 1915 (c) Waivers) were assigned the following tasks:

- The DIDD was required to review all policies, procedures and practices (including Quality Management practices), training requirements, contracts, billing practices, person-centered planning requirements and documentation, and information systems to determine their compliance with the HCBS Settings Rule. DIDD was required to submit its assessment along with evidence of compliance to TennCare. DIDD was also required to identify any modifications needed to achieve compliance with the HCBS Settings Rule. TennCare reviewed the self-assessment and evidence of compliance (100% review and validation) to ensure that all aspects of the system are congruent with CMS expectations and will allow the State to operate HCBS programs in a manner which comports with the HCBS Settings Rule.
- All revisions to contract language (Provider Agreement), policies, procedures, training requirements, etc. needed to achieve compliance with the new rule were submitted to TennCare for review and approval, and implementation will be tracked by the State in accordance with approved timeframes.
- Upon approval, final versions of revised documents will be completed and distributed to providers.
- Additional provider education/training sessions have been scheduled for the first two weeks of March 2016. All education and training sessions and materials will be led by or reviewed and approved by TennCare.
- Specific to DIDD, in instances where a change in rule or policy requires a public comment period, time lines will be adjusted accordingly to accommodate time needed to process and respond to public input and incorporate such comments into document revisions.

Contracted Entity Remediation Milestones and Timelines include:

#### DIDD

As detailed above, DIDD determined that its provider manual and medical necessity protocols contained non-compliant language. These documents have been submitted to TennCare and are currently under review for approval and will be distributed to providers no later than June 30, 2016.

Additionally, TennCare has identified one additional item for DIDD to remediate:

DIDD should add a provision to the DIDD Provider Agreement that requires providers maintain compliance with the HCBS Settings Rule. While this is already an expectation of DIDD HCBS providers included in TennCare's contract with DIDD, the requirement is not included in the provider agreement. Adding this provision will be accomplished by June 30, 2016. The effective DIDD/TennCare Interagency Agreement language is below:

A.24. The Contractor shall ensure, prior to contracting with a new provider and as part of on-going monitoring of existing providers, that all HCBS settings where Medicaid-reimbursed services are provided are compliant with the CMS HCBS Settings Rule 42 C.F.R. § 441.301(c)(4)-(5) and in accordance with the state's approved transition plan.

A.30. The Contractor shall comply with state and federal rules, laws and regulations, all applicable federal and state court orders including, but not limited to, those set forth in *Grier v. Goetz*, CMS HCBS Settings and Person-Centered Planning Rules in 42 C.F.R. § 441.301(c), and TennCare policies and procedures in the administration of the Waivers.

DIDD CQL accreditation:

Finally, as part of DIDDs ongoing partnership with The Council on Quality and Leadership, the Department has been working on network accreditation and has submitted a Personal Outcome Measure ® Plan (POM) in order to implement the POMs on an individual and systemic level by May 2016. The plan includes policy and process actions in the areas of: 1) People Exercise Rights; 2) People Choose Where and with Whom to Live; and 3) People Choose Personal Goals <http://www.tn.gov/didd/news/7827>.

In January 2015, DIDD received official Person-Centered Excellence network accreditation from the Council on Quality and Leadership (CQL) <http://www.tn.gov/didd/topic/policy-innovation>.

#### Part C. Provider Self-Assessment and Remediation

##### 3) Provider self-assessment process: October 15, 2014 – March 31, 2015

Complete details pertaining to the provider training, self-assessment, validation and heightened scrutiny processes can be found in the State's approved Statewide Transition Plan located at: <http://www.tn.gov/assets/entities/tenncare/attachments/TNProposedAmendedStatewideTransitionPlanCV.pdf>.

Highlights from the State's approved Statewide Transition Plan are included below:

The provider self-assessment process consisted of the following:

- a) The State conducted statewide provider education and training sessions on how to complete the Provider Self-Assessment Tool. These training sessions will be conducted between October 15, 2014 – November 15, 2014.
- b) Providers received the applicable Provider Self-Assessment Tool with the Assessment Tool instructions and time lines. At a minimum, all HCBS residential, employment and day program, and PA providers will be required to complete a self-assessment.
- c) Providers were required to include persons served, family members/representatives, advocates, and other stakeholders in their assessment process.
- d) Providers were required to include in their self-assessment a description of their self-assessment process, including participation of the aforementioned persons.
- e) Providers submitted their respective Self-Assessment along with specific evidence of compliance for further review by the SMA or its designee (DIDD). Additional evidence was requested or additional reviews conducted as needed to further assess and validate compliance with these rules.
- f) Providers who self-reported or were assessed to be non-compliant with the HCBS Settings Rule were required to submit a Provider Transition Plan identifying the area(s) of non-compliance and describing their proposed plan for coming into compliance along with associated time lines. Information regarding Provider Transition Plans and specific timelines for achieving compliance will be incorporated in the State's approved Transition Plan.
- g) All completed and validated Provider Transition Plans were reviewed and approved by the DIDD, and implementation will be monitored based on approved timeframes, with oversight by TennCare.
- h) Providers needing assistance to achieve compliance may request such assistance from DIDD, another (compliant) provider of the same service type, and/or consumers and family members or advocates.
- i) Providers assessed to be unwilling or unable to come into compliance, will be required to cooperate with transition assistance to ensure all individuals served are transitioned to an appropriate provider type that was determined to be compliant with the Rule or has an approved transition plan that is believed to be adequate to bring the provider into compliance, maintaining continuity of services.
- i. The SMA, in conjunction with DIDD, will oversee all necessary transition processes as outlined in the State's approved Statewide Transition Plan, pages 28-30.

The Validation Process included the following:

TennCare has implemented a multi-layered validation processes to ensure responses from providers represent complete and accurate interpretations of the final rule requirements. First, each contracted entity was charged with reviewing and validating 100% of all provider self-assessments, supporting documentation and transition plans. Each contracted entity was required to identify a point of contact that would be responsible for tracking and reporting assessment progress on a monthly basis to TennCare. Documentation that supported the provider's assessed compliance included: cross walk of supporting documentation, provider policies, training documentation, member materials, and any other pertinent information such as maps, pamphlets or photos and make-up and minutes from stakeholder meetings. If it was determined by the reviewer that the documentation submitted did not support compliance then the applicable indicator(s) was marked accordingly on the tracking mechanism and the provider received additional technical assistance in order to become compliant or revise the self-assessment and/or transition plan as appropriate to accurately reflect compliance.

Each contracted entity utilized staff that was familiar with the program to help with the validation process. For example, DIDD utilized its three regional offices to validate provider responses. The designated regional office staff were either part of the quality assurance monitoring or were in some way part of the larger quality management system. The review team consisted of: 1) one person from Quality Assurance, these are the regional QA directors who are involved in surveys for numerous providers; 2) one person from the Accreditation Team, these are people that are out in the field very frequently conducting Personal Outcomes Measures ® and Basic Assurances reviews at agencies; 3) one person from Operations, these are staff that are involved with ongoing monitoring, remediation of issues and technical assistance to providers; and 4) one person from Compliance; these are Compliance Directors and the organizers of information who are heavily involved in the Quality Management Committee process and routinely work with agencies and data storage.

TennCare strongly believed that providers should involve their stakeholders that are outside of the provider agency, but are directly impacted by the final rule, in the entire self-assessment process as a way to further ensure validity. TennCare required all providers establish a HCBS Setting compliance stakeholder group consisting of agency executive staff, direct support staff, individuals served, a family member or representative of individuals served, an advocate from an organization not associated with or receiving payment from the agency, and a support coordinator/care coordinator. Each provider was required to utilize this stakeholder group in the self-assessment and transition plan development process and submit documentation demonstrating stakeholder involvement, agreement with provider self-assessment and agreement with the provider transition plan.

Heightened Scrutiny Process included the following:

As a final verification and validation step, TennCare has determined it is necessary to apply a “heightened scrutiny” review to specific services/settings. This heightened scrutiny review will be based on the CMS Heightened Scrutiny process: <http://www.medicaid.gov/medicaid-chip-program-information/by-topics/long-term-services-and-supports/home-and-community-based-services/downloads/settings-that-isolate.pdf>. This will help the State to determine whether such settings in fact should be “presumed to have the qualities of an institution,” and if so, will require submission of evidence to CMS in order to demonstrate that the setting does not have the qualities of an institution and that it does have the qualities of a home and community-based setting.

The settings that will be included in the Heightened Scrutiny review are:

- Facility Based Day
- Residential Habilitation settings where more than 4 persons reside
- Supported Living and Residential Habilitation settings close in proximity (e.g., next door or multiple homes on a cul-de-sac)

The TennCare Heightened Scrutiny review will begin April 1, 2016 and conclude by March 31, 2017. This will allow time for the state to conduct a thorough review, including an on-site visit, of each applicable setting and spend the time needed with each individual provider to ensure an adequate transition plan is in place.

Contracted Entity Analysis:

Based on the DIDD analysis submitted, community integration also appeared to be one of the biggest opportunities for improvement. Facility-Based Day (FBD) service was mentioned multiple times in the summary. FBD neither encouraged community integration nor had developed ways to integrate the setting with non-disabled peers. Some did have parallel use for the building; such as club use or recreation for the community. There was one self-defined disability community. Community integration was lacking personal community connection with non-disabled peers being promoted and supported by providers. Public transportation education was not being pursued due to providers having internal transportation and the cost of transportation being included in the rates for residential and day services.

Additionally individual rights and privacy stood out as an area that is lacking adequate provider understanding, lacking up to date policy, or lacking appropriate implementation. Rights were not well defined, in some cases differences in defined rights were noted for different services or sections of a program. Staff was not always receiving training regarding the rights of persons supported. There was little education on rights and member experience for volunteers. There appeared to be longstanding trend of placing restrictions for an extended amount of time rather than finding ways to phase out the plans and/or looking at least restrictive methods. DIDD found instances of both video and auditory monitoring in private area. Some providers had blanket policies in place that were restrictive in nature not offering flexibility to people supported and at times, imposed restrictions on a group of people with certain behavioral concerns without a Human Rights Committee review. Some residential settings, usually residential habilitation homes, which are larger and more congregate, did not have basic privacy mechanisms in place, such as locked bedroom doors.

Finally, legal lease or tenant agreements were not in place before this process for Family Model and they were inconsistently found for Residential Habilitation. Providers did begin to put these in place either while developing their assessments or through transition plans.

It was noted that a majority of DIDD providers believed the lack of flexibility in achieving community integration was due in part to the inflexible rate structure of day services. Some DIDD providers continue to feel that facility-based settings and services should be a choice regardless of the propensity to segregate. Providers, and some families and people supported, feel that if the person chooses this service from among other service options that the service should be an acceptable option. Also noted, some CHOICES providers believed that the HCBS Setting Rule and Person-Centered Planning flagged individuals receiving Medicaid and set them apart from other members receiving services.

#### Provider Self-Assessment Remediation Milestones and Timelines

##### Provider Transition Plan:

Provider level transition plans were required when there was a deficiency in any of the provider self-assessment compliance areas: physical location, community integration, resident rights, living arrangements, or policy enforcement, whether identified by the provider or as part of the contracted entity validation process. For each of these sections, there were specific indicators that need to be met at 100%. If these indicators were not met, then the provider was required to address the deficiency in their provider transition plan. Each contracted entity reviewed these plans and either approved them or provided additional technical assistance in order to meet the September 30, 2015 deadline for submitting both final self-assessments and transition plans. Supporting documentation for compliance in each area was also required.

Timelines were established by individual providers as a result of public comment received, as well as the heightened scrutiny review process, TennCare will be working with providers whose settings are subject to the heightened scrutiny review process to revise transition plans to reflect additional time needed for transition. As part of the heightened scrutiny review process, providers will be asked to submit data regarding services provided. Providers whose data reflects large numbers of persons served spending most of their time in a facility based setting with minimal to no community interaction will be targeted for review first. This will allow the state to complete the heightened scrutiny review with these providers earlier in the timeline and work individually with each provider to modify transition plans to ensure adequate time is allocated for meeting compliance.

##### Tracking and Monitoring Provider Transition Plans:

DIDD is responsible for ensuring provider transition plans are being implemented effectively. The process for tracking and monitoring transition plans is to be determined by the contracted entity. For example, DIDD will begin monitoring provider transition plans during routine provider visits. A tracking spreadsheet that identifies the provider transition plan milestones and deliverable dates will be used to help coordinate this effort. The regional office provider supports teams will monitor the plans on a monthly basis and roll their findings up into a quarterly summary for discussion and review. Quarterly meetings will be held to provide plan implementation updates. The quarterly meetings will take data that has been rolled up and determine if additional technical assistance is warranted. Technical assistance will be provided if there is a problem with the implementation of the transition plan, if an agency is not implementing the plan or if the agency decides to significantly change their plan or implementation of their plan. TennCare will require all contracted entities to submit transition plan monitoring updates on a quarterly basis.

##### DIDD Basic Assurances ®

As part of DIDD's ongoing partnership with The Council on Quality and Leadership, the Department has submitted a network accreditation Basic Assurances ® Plan in order to bring all Basic Assurances ® into alignment by January 2016. The Basic Assurances ® can be cross-walked with the CMS final rule and is a tool utilized by a number of states to measure provider compliance or incorporated in standards and certification tools. DIDD has incorporated a number of the Basic Assurances ® in their Provider Manual that is currently under review, as well as matched assurances to the DIDD provider Quality Assurance monitoring tools. Some areas that were addressed in DIDD's Basic Assurance ® Plan include: 1) the organization supports people to exercise their rights and responsibilities; 2) staff recognize and honor people's rights; 3) the organization upholds due process; 4) decision-making supports are provided to people as needed; 5) people have meaningful work and activity choices; and 6) policies and practices facilitate continuity of natural support systems.

#### Part D. Individual Experience Assessment

4) Individual Experience Assessment process: November 1, 2014 – October 31, 2015

a) Each individual's case manager or care coordinator, as applicable, will assist the individual and his/her family

member/representative, as appropriate, in completing an initial Individual Experience Assessment. Service provider staff may participate as requested by the individual and his/her family member/representative.

b) Such assessments will be conducted, beginning November 1, 2014 during the individual's annual person-centered plan review, or sooner if an amendment or plan review is conducted prior to the annual review.

c) This initial assessment period will be ongoing for one year to allow each case manager and care coordinator the opportunity to conduct the Individual Experience Assessment while completing a scheduled annual review or needed amendment.

d) For provider owned/controlled settings, any proposed modification of requirements set forth in the HCBS Settings Rule for the individual shall be reviewed to confirm that:

- i. There is a specific individualized assessed need for such modifications;
- ii. Prior interventions and supports including less intrusive methods have been tried and demonstrated to be unsuccessful;
- iii. The proposed modification is appropriate based on the specific need identified; and
- iv. The proposed modification, including interventions and support will not cause harm to the individual.

e) Each of the above items (i.-iv.) shall be documented in the person-centered plan, along with:

- i. The method of collecting data on an ongoing basis to measure the effectiveness of the modification;
- ii. A specific time limit for periodic review of the data and the effectiveness of the modification to ensure it continues to be appropriate; and
- iii. The individual shall provide informed consent of the proposed modification.

f) If a modification to the HCBS Settings Rule is determined to be inappropriate based on the person's individualized needs (and in accordance with the requirements above), the area identified as non-compliant will trigger a new assessment of the provider, as applicable, and a Transition Plan developed by the provider to address any issues of non-compliance will be submitted to the contracting entity for review, approval and monitoring of implementation.

#### Part E. Achieving Initial Compliance

Upon review and validation of State, contracted entity, and provider self-assessments, the State submitted an amendment to the State Transition Plan with specific remediation activities and milestones for achieving compliance with the HCBS Settings Rule.

In addition, the State will submit an amendment to this waiver with timelines and milestones for achieving compliance with the HCBS settings requirements in the final rule, as well as incorporation of waiver revisions based on public comments where appropriate.

For providers needing assistance to come into compliance the state proposes to implement the following strategies, July 1, 2015 – March 31, 2017:

- Facilitate focus groups of non-compliant and compliant providers who can talk through provider specific issues and problem-solve how to achieve compliance together. For example, DIDD hosted a facility-based day workgroup focused on achieving compliance through conversion strategies during the 2015 waiver year. National subject matter experts were asked to present methods for converting day programs from congregated and segregated to full integration into the community. Continued participation will be voluntary and can include consumers and family members who may aid in the problem solving process. The primary focus will be on residential settings in the living arrangements category and on non-residential settings in regards to facility based day and sheltered workshop services. As described in Section 3 above, in January 2016 TennCare conducted provider training on HCBS Setting requirements and the upcoming heightened scrutiny review process. These trainings were held in each region during the regularly scheduled DIDD Quarterly Provider meetings. Each training offered a presentation by current DIDD providers that have converted their facility-based day services to community-based services.
- Provide one-on-one technical assistance (TA) (TA will be provided upon request by DIDD or SMA as appropriate)

#### Part F. Assuring Ongoing Compliance

Once overall compliance is achieved, strategies to ensure ongoing compliance will include:

- Incorporating the Individual Experience Assessment (as described above) into all initial and annual person-centered plan reviews. This means each person served will have an opportunity upon enrollment in a program and annually to provide information on his/her experience with supports provided in Medicaid reimbursed HCBS settings.
- Quality assurance methodologies will incorporate the addition of monitoring performance measures that ensure compliance with HCBS Settings and PCP Rules. TennCare has renamed and expanded the role of an existing Care Coordination Unit to monitor and ensure PCP practices are implemented effectively and a person's experience with HCBS settings is congruent with the intent of the final rule. This unit is now referred to as the Person-Centered Practices team.
- The Plan of Care document utilized by the MCOs is being revised to a standardized template that aids in facilitating person-

centered planning practices.

- Annual consumer/family satisfaction surveys that include questions relevant to the HCBS Settings and PCP Rules. TennCare previously participated in the National Core Indicators for individuals with I/DD and has begun participation for seniors and adults with physical disabilities beginning with face-to-face surveys in 2015.
- Exploration of the use of national accreditation standards to support its ongoing compliance monitoring efforts.
- Training of the TennCare Audit & Compliance staff and the LTSS Person-Centered Practices staff in Person-Centered Thinking, Planning and Practices to ensure staff are knowledgeable on how to ensure the final rule is being adhered to.

#### Transition Plan Public Comments

The State received 44 public comment surveys online and 278 public comment surveys via mail, totaling 322 written public comment surveys plus an additional 5 personal letters via mail. The surveys were from 6 different types of submitting entities and most public comment surveys included comments/recommendations. The six submitting entities included: family members, non ISC (Independent Support Coordinator) provider, advocacy organization, ISC/CM (Case Manager)/CC (Care Coordinator), Consumer and Other. The “Other” category is solely comprised of provider staff. The overwhelming majority of public comment surveys were identical. For example, all 153 public comment surveys from the “Other” category (provider staff) were identical and an additional 125 family members submitted identical responses as the “Other” category (total of 278 comment surveys with identical question responses and comments). It appears that one (or perhaps more) large facility-based day providers (or their staff and/or family members of persons supported) may have developed a template response to the 12 questions, and disseminated the response to staff and family members of persons supported by their program(s). The template response was then submitted by 153 staff and 125 family members. These responses express frustration with the Statewide Transition Plan and process, in particular with the lack of clarity regarding how expectations pertaining to employment and community integration are impacted by a person’s right to choose services and settings. The responses strongly support the continuation of facility-based day services based on the choice of the person, and request more time and additional resources to achieve compliance with the HCBS settings rule.

TennCare tracked all the responses to the survey questions, as well as the corresponding comments which will be discussed further.

The surveys received provided a total of 2494 written comments. 2224 of those comments were identical (as described above), 182 comments were unique, 48 were not applicable to the Amended Statewide Transition Plan and 40 of the comments received were in reference to proposed waiver amendments pertaining to Employment and Day Services that were posted at the same time which are now planned for a later implementation date.

All public comments and the State’s responses can be found in the State’s approved Statewide Transition Plan, pages 33-56.

### Additional Needed Information (Optional)

Provide additional needed information for the waiver (optional):

### Appendix A: Waiver Administration and Operation

- 1. State Line of Authority for Waiver Operation.** Specify the state line of authority for the operation of the waiver (*select one*):

- ☐ **The waiver is operated by the State Medicaid agency.**

Specify the Medicaid agency division/unit that has line authority for the operation of the waiver program (*select one*):

- ☐ **The Medical Assistance Unit.**

Specify the unit name:

(Do not complete item A-2)

- ☐ **Another division/unit within the State Medicaid agency that is separate from the Medical Assistance Unit.**

Specify the division/unit name. This includes administrations/divisions under the umbrella agency that has been identified as the Single State Medicaid Agency.

(Complete item A-2-a).

- ☒ **The waiver is operated by a separate agency of the State that is not a division/unit of the Medicaid agency.**

Specify the division/unit name:

**Department of Intellectual and Developmental Disabilities (DIDD)**

In accordance with 42 CFR §431.10, the Medicaid agency exercises administrative discretion in the administration and supervision of the waiver and issues policies, rules and regulations related to the waiver. The interagency agreement or memorandum of understanding that sets forth the authority and arrangements for this policy is available through the Medicaid agency to CMS upon request. (Complete item A-2-b).

## Appendix A: Waiver Administration and Operation

### 2. Oversight of Performance.

- a. Medicaid Director Oversight of Performance When the Waiver is Operated by another Division/Unit within the State Medicaid Agency.** When the waiver is operated by another division/administration within the umbrella agency designated as the Single State Medicaid Agency. Specify (a) the functions performed by that division/administration (i.e., the Developmental Disabilities Administration within the Single State Medicaid Agency), (b) the document utilized to outline the roles and responsibilities related to waiver operation, and (c) the methods that are employed by the designated State Medicaid Director (in some instances, the head of umbrella agency) in the oversight of these activities:

**As indicated in section 1 of this appendix, the waiver is not operated by another division/unit within the State Medicaid agency. Thus this section does not need to be completed.**

- b. Medicaid Agency Oversight of Operating Agency Performance.** When the waiver is not operated by the Medicaid agency, specify the functions that are expressly delegated through a memorandum of understanding (MOU) or other written document, and indicate the frequency of review and update for that document. Specify the methods that the Medicaid agency uses to ensure that the operating agency performs its assigned waiver operational and administrative functions in accordance with waiver requirements. Also specify the frequency of Medicaid agency assessment of operating agency performance:

The Self-Determination Waiver Program is operated by the Department of Intellectual and Developmental Disabilities (DIDD) through an interagency agreement with the Division of TennCare, Department of Finance and Administration. The Tennessee Department of Finance and Administration is designated as the Single State Medicaid Agency for the State of Tennessee. The Division of TennCare is the state's medical assistance unit and is located within the Department of Finance and Administration. The TennCare Director, who serves as a Deputy to the Commissioner of the Department of Finance and Administration, is the State Medicaid Director and exercises legal authority in the administration and supervision of the Medicaid State Plan and the TennCare 1115 Demonstration Waiver, and issues policies, rules and regulations on program matters. TennCare is accountable for oversight of this waiver program and retains the responsibility for approval of policies and promulgation of rules governing this waiver.

DIDD is responsible for the operational management of the waiver on a day-to-day basis and is accountable to the State Medicaid agency which ensures that the waiver operates in accordance with federal waiver assurances. Responsibility is delegated to DIDD and monitored by TennCare for level of care reevaluations, development of the ISP, prior authorization of waiver services, enrollment of qualified providers, and certain

quality assurance activities. TennCare exercises administrative authority and supervision of these functions through the interagency agreement which is reviewed on an annual basis to ensure that it accurately reflects expectations and incorporates any program changes implemented as a result of recent waiver amendments or changes in state or federal requirements. TennCare promulgates state waiver rules and approves all documents pertaining to daily operational management of the waiver prior to their issuance and implementation, including (but not limited to): all DIDD policies and procedures, Provider Manual revisions, provider rate changes, and mass communications to providers and persons supported.

In addition to ongoing informal communication processes, monthly meetings between TennCare and DIDD ensure adequate TennCare oversight. Monthly meetings include:

- The Interagency Executive and Senior Leadership Meeting: Executive and Senior leadership of TennCare and DIDD meet on at least a monthly basis to discuss issues pertaining to operation and oversight of this (and other) HCBS waiver program(s) for individuals with intellectual disabilities.
- The Policy Meeting: TennCare and DIDD staff review DIDD policies and stakeholder memorandums under development, including the status of those under review at TennCare; Provider Manual revisions; changes in TennCare rules and policy; and the status of waiver applications or amendments, as applicable. This forum is also used as a mechanism for DIDD to obtain TennCare policy interpretations and for TennCare to assign responsibility for CMS deliverables.
- The Statewide Continuous Quality Improvement Meeting: DIDD and TennCare LTSS Quality and Administration staff review identified data and reporting issues, as well as findings resulting from DIDD and TennCare Quality Assurance activities (e.g., targeted Reviews, utilization reviews, fiscal audits) and discuss appropriate corrective actions.
- The Abuse Registry Review Committee Meeting: A TennCare representative serves on the Abuse Registry Review Committee and participates in the review of substantiated allegations of abuse, neglect, and exploitation. The committee decides when individuals will be referred for placement on the Tennessee Department of Health Abuse Registry.
- The Statewide and Regional Planning and Policy Council Meetings: DIDD and TennCare staff participate in meetings with stakeholders including persons supported and their family members, a variety of provider representatives enrolled as waiver service providers (e.g., clinical service providers, residential/day providers, and personal assistance providers), representatives from self-advocacy and provider advocacy organizations, and other stakeholders. Planning and Policy Council members are routinely advised of expected changes in policy, provider requirements, and provider reimbursement; waiver application and amendment status; HCBS program expenditures and the state's budget situation; and other issues impacting service delivery and program operations. The Council makes recommendations to the State regarding program and policy improvements.

## Appendix A: Waiver Administration and Operation

---

3. **Use of Contracted Entities.** Specify whether contracted entities perform waiver operational and administrative functions on behalf of the Medicaid agency and/or the operating agency (if applicable) (*select one*):

- ☒ **Yes. Contracted entities perform waiver operational and administrative functions on behalf of the Medicaid agency and/or operating agency (if applicable).**

Specify the types of contracted entities and briefly describe the functions that they perform. *Complete Items A-5 and A-6.:*

TennCare has an administrative contract with a financial management services company to perform certain financial management services on behalf of persons supported who elect self-direction. These financial management services include: making payment for services self-directed by persons supported; handling federal/state taxes and other payroll or benefits related to the employment of the worker(s) by persons supported; and helping manage the individual's budget. In addition, individuals have access to independent support broker services through this administrative contract.

- ☐ **No. Contracted entities do not perform waiver operational and administrative functions on behalf of the Medicaid agency and/or the operating agency (if applicable).**

## Appendix A: Waiver Administration and Operation

---

4. **Role of Local/Regional Non-State Entities.** Indicate whether local or regional non-state entities perform waiver operational and administrative functions and, if so, specify the type of entity (*Select One*):

☒ **Not applicable**

☐ **Applicable** - Local/regional non-state agencies perform waiver operational and administrative functions.

Check each that applies:

- ☐ **Local/Regional non-state public agencies** perform waiver operational and administrative functions at the local or regional level. There is an **interagency agreement or memorandum of understanding** between the State and these agencies that sets forth responsibilities and performance requirements for these agencies that is available through the Medicaid agency.

*Specify the nature of these agencies and complete items A-5 and A-6:*

- ☐ **Local/Regional non-governmental non-state entities** conduct waiver operational and administrative functions at the local or regional level. There is a contract between the Medicaid agency and/or the operating agency (when authorized by the Medicaid agency) and each local/regional non-state entity that sets forth the responsibilities and performance requirements of the local/regional entity. The **contract(s)** under which private entities conduct waiver operational functions are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

*Specify the nature of these entities and complete items A-5 and A-6:*

## Appendix A: Waiver Administration and Operation

---

- 5. Responsibility for Assessment of Performance of Contracted and/or Local/Regional Non-State Entities.** Specify the state agency or agencies responsible for assessing the performance of contracted and/or local/regional non-state entities in conducting waiver operational and administrative functions:

The State of Tennessee Department of Intellectual and Developmental Disabilities (DIDD), is responsible for performance oversight for Medicaid Home and Community-Based Services waiver contracted providers. This includes assisting in the oversight of the company contracted by TennCare to provide fiscal management and support brokerage services.

TennCare oversees and evaluates DIDD's effectiveness in monitoring the performance of contracted service providers and shared oversight of administrative entities through analysis of performance measure data, review of remediation activities, receipt of information during regularly scheduled meetings, reviews of policy and other program materials and documents, and other quality assurance activities as appropriate (e.g., financial audits, follow-along and follow behind reviews, targeted reviews).

## Appendix A: Waiver Administration and Operation

---

- 6. Assessment Methods and Frequency.** Describe the methods that are used to assess the performance of contracted and/or local/regional non-state entities to ensure that they perform assigned waiver operational and administrative functions in accordance with waiver requirements. Also specify how frequently the performance of contracted and/or local/regional non-state entities is assessed:

On an annual basis, TennCare and/or the Department of Intellectual and Developmental Disabilities (DIDD) Office of Quality Management, Fiscal Accountability Review Unit performs audits of the contractor that manages the statewide scoring for the uniform assessment (e.g., the Supports Intensity Scale {SIS}) and of the contractor that provides financial management and support brokerage services. During audits and/or on-site surveys, auditors assess the contractor's effectiveness in performing contracted waiver administrative functions in accordance with waiver requirements and the terms and conditions of the contract.

If performance issues are identified, the contractor is required to submit an acceptable corrective action plan.

TennCare and/or DIDD perform follow up activities to ensure that the corrective action plan is implemented and successfully resolves performance issues. TennCare is provided a copy of all audit reports and subsequent corrective action plans for review.

TennCare has responsibility for final approval of the language contained in the three-way provider agreement template, which specifies provider requirements and responsibilities as well as DIDD and TennCare responsibilities in administration/operation of the waiver program. TennCare reviews individual waiver provider and administrative contracts prior to execution and is a signatory on these provider agreements.

TennCare reviews monthly Qualified Provider performance measure data collected and compiled by DIDD. Information contained in the monthly performance measure reports includes compliance issues discovered and remedial actions taken. TennCare determines if the appropriate remedial actions have been taken, and if not, requests that DIDD provide additional information and/or take additional remedial action.

DIDD conducts Provider Performance Surveys. Reports containing survey findings and domain scores are available for TennCare review. TennCare reviews monthly DIDD summary reports containing descriptive information about investigations completed. Individual detailed investigation reports are available to TennCare for review.

In addition, TennCare may initiate targeted quality assurance activities (e.g., follow-along or follow-behind surveys, or fiscal audits) as determined appropriate.

## Appendix A: Waiver Administration and Operation

7. **Distribution of Waiver Operational and Administrative Functions.** In the following table, specify the entity or entities that have responsibility for conducting each of the waiver operational and administrative functions listed (*check each that applies*):

In accordance with 42 CFR §431.10, when the Medicaid agency does not directly conduct a function, it supervises the performance of the function and establishes and/or approves policies that affect the function. All functions not performed directly by the Medicaid agency must be delegated in writing and monitored by the Medicaid Agency. *Note: More than one box may be checked per item. Ensure that Medicaid is checked when the Single State Medicaid Agency (1) conducts the function directly; (2) supervises the delegated function; and/or (3) establishes and/or approves policies related to the function.*

Function	Medicaid Agency	Other State Operating Agency	Contracted Entity
Participant waiver enrollment	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Waiver enrollment managed against approved limits	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Waiver expenditures managed against approved levels	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
Level of care evaluation	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Review of Participant service plans	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>

Utilization management	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Qualified provider enrollment	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Execution of Medicaid provider agreements	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Establishment of a statewide rate methodology	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Rules, policies, procedures and information development governing the waiver program	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Quality assurance and quality improvement activities	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>

## Appendix A: Waiver Administration and Operation

### Quality Improvement: Administrative Authority of the Single State Medicaid

## Agency

As a distinct component of the State's quality improvement strategy, provide information in the following fields to detail the State's methods for discovery and remediation.

### a. Methods for Discovery: Administrative Authority

*The Medicaid Agency retains ultimate administrative authority and responsibility for the operation of the waiver program by exercising oversight of the performance of waiver functions by other state and local/regional non-state agencies (if appropriate) and contracted entities.*

#### i. Performance Measures

*For each performance measure the State will use to assess compliance with the statutory assurance, complete the following. Performance measures for administrative authority should not duplicate measures found in other appendices of the waiver application. As necessary and applicable, performance measures should focus on:*

- Uniformity of development/execution of provider agreements throughout all geographic areas covered by the waiver
- Equitable distribution of waiver openings in all geographic areas covered by the waiver
- Compliance with HCB settings requirements and other new regulatory components (for waiver actions submitted on or after March 17, 2014)

*Where possible, include numerator/denominator.*

*For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.*

#### Performance Measure:

**a.i.8. Number and percentage of inappropriate provider claims identified via post-payment review processes that were appropriately and timely remediated by DIDD.**  
**[Interagency Contract section A.2.b.] Percentage = number of individual inappropriate claims that were appropriately and timely remediated / total number of inappropriate claims identified via post-payment review processes.**

**Data Source (Select one):**

**Record reviews, on-site**

If 'Other' is selected, specify:

- ii. If applicable, in the textbox below provide any necessary additional information on the strategies employed by the State to discover/identify problems/issues within the waiver program, including frequency and parties responsible.

**b. Methods for Remediation/Fixing Individual Problems**

- i. Describe the State's method for addressing individual problems as they are discovered. Include information regarding responsible parties and GENERAL methods for problem correction. In addition, provide information on the methods used by the State to document these items.

Performance Measure a.i.1: The TennCare Interagency Agreement specifies that DIDD may not implement policy prior to TennCare approval. TennCare policy reviews will be documented in the TennCare Policy Review Log as well as in DIDD Monthly Quality Management and Discovery Reports. Each DIDD policy distributed notes the date of TennCare approval within the document. TennCare will monitor compliance with this sub assurance through analysis of monthly data reports, information presented during monthly TennCare/ DIDD meetings, and other quality assurance activities (e.g., survey follow-along or follow-behind, audits) conducted as determined appropriate. Upon discovery of a policy that was not prior-approved, TennCare will provide written notification to DIDD that the policy must be submitted to TennCare for approval and will not be effective until such approval is obtained. TennCare will perform a review of the new or revised policy, and will advise DIDD if additional revisions are needed as a result of TennCare review. Approval will be granted when TennCare-requested final edits have been made. The effective date of an approved new or revised policy will be a date after TennCare approval is obtained, unless TennCare determines it appropriate to approve the policy for a retroactive date. Failure to obtain policy prior-approval will be brought to the attention of the DIDD Commissioner, the DIDD Assistant Commissioner of Policy and Innovation, and other DIDD staff, as applicable. TennCare may assess monetary sanctions against DIDD, require additional DIDD staff training, conduct additional monitoring and/or require the submission of additional data to ensure 100% compliance with this sub assurance.

Performance Measures a.i.2. through a.i.8.: Issues requiring individual remediation will be discovered primarily through analysis of DIDD performance measure discovery data files and DIDD Quality Management Reports. TennCare will hold DIDD accountable for timely remediation of all individual issues identified. TennCare routinely monitors DIDD monthly remediation reports to determine if acceptable remedial activities have been completed. DIDD is notified monthly of any remediation determined unacceptable and is required to provide additional information and/or complete additional remediation activities until TennCare can determine that the issue has been resolved. DIDD is required to remediate all individual issues identified within a targeted time-frame of 30 calendar days. Remediation Reports contain data indicating the number of compliance issues for which remediation was completed within 30 calendar days.

Individual Remediation Data Aggregation: DIDD has developed a data flow document which identifies data collection, reporting, and aggregation tasks that must be completed to generate the required reports for submission to TennCare. For each task, due dates are specified. Responsible DIDD staff and back-up staff are identified for each task. Designated DIDD Central Office staff compile the data collected and entered by regional and central office staff into DIDD databases to create data files that are posted for TennCare analysis

and aggregation. In addition, DIDD generates a Quality Management Report using the data collected and reported. The Quality Management Report is submitted to TennCare each month and information contained therein is reviewed during monthly Statewide Continuous Quality Improvement Committee Meetings.

ii. **Remediation Data Aggregation**

**Remediation-related Data Aggregation and Analysis (including trend identification)**

Responsible Party( <i>check each that applies</i> ):	Frequency of data aggregation and analysis( <i>check each that applies</i> ):
<input checked="" type="checkbox"/> State Medicaid Agency	<input type="checkbox"/> Weekly
<input checked="" type="checkbox"/> Operating Agency	<input checked="" type="checkbox"/> Monthly

<input type="checkbox"/> Other Specify: <input type="text"/>	<input checked="" type="checkbox"/> Annually
	<input type="checkbox"/> Continuously and Ongoing
	<input type="checkbox"/> Other Specify: <input type="text"/>

c. **Timelines**

When the State does not have all elements of the Quality Improvement Strategy in place, provide timelines to design methods for discovery and remediation related to the assurance of Administrative Authority that are currently non-operational.

- ☒ No  
☐ Yes

Please provide a detailed strategy for assuring Administrative Authority, the specific timeline for implementing identified strategies, and the parties responsible for its operation.

## Appendix B: Participant Access and Eligibility

### B-1: Specification of the Waiver Target Group(s)

- a. **Target Group(s).** Under the waiver of Section 1902(a)(10)(B) of the Act, the State limits waiver services to one or more groups or subgroups of individuals. Please see the instruction manual for specifics regarding age limits. *In accordance with 42 CFR §441.301(b)(6), select one or more waiver target groups, check each of the subgroups in the selected target group(s) that may receive services under the waiver, and specify the minimum and maximum (if any) age of individuals served in each subgroup:*

Target Group	Included	Target SubGroup	Minimum Age	Maximum Age	
				Maximum Age Limit	No Maximum Age Limit
<input type="checkbox"/> Aged or Disabled, or Both - General					
	<input type="checkbox"/>	Aged	<input type="text"/>	<input type="text"/>	<input type="checkbox"/>
	<input type="checkbox"/>	Disabled (Physical)	<input type="text"/>	<input type="text"/>	
	<input type="checkbox"/>	Disabled (Other)	<input type="text"/>	<input type="text"/>	
<input type="checkbox"/> Aged or Disabled, or Both - Specific Recognized Subgroups					

<input type="checkbox"/>	Brain Injury	<input type="text"/>	<input type="text"/>	<input type="checkbox"/>
<input type="checkbox"/>	HIV/AIDS	<input type="text"/>	<input type="text"/>	<input type="checkbox"/>
<input type="checkbox"/>	Medically Fragile	<input type="text"/>	<input type="text"/>	<input type="checkbox"/>
<input type="checkbox"/>	Technology Dependent	<input type="text"/>	<input type="text"/>	<input type="checkbox"/>
<input checked="" type="checkbox"/> Intellectual Disability or Developmental Disability, or Both				
<input type="checkbox"/>	Autism	<input type="text"/>	<input type="text"/>	<input type="checkbox"/>
<input checked="" type="checkbox"/>	Developmental Disability	0	5	<input type="checkbox"/>
<input checked="" type="checkbox"/>	Intellectual Disability	0	<input type="text"/>	<input checked="" type="checkbox"/>
<input type="checkbox"/> Mental Illness				
<input type="checkbox"/>	Mental Illness	<input type="text"/>	<input type="text"/>	
<input type="checkbox"/>	Serious Emotional Disturbance	<input type="text"/>	<input type="text"/>	

**b. Additional Criteria.** The State further specifies its target group(s) as follows:

Consistent with the special terms and conditions of the State's approved 1115 demonstration and the June 2015 guidance issued by CMS, Tennessee has opted to utilize tiered standards in its HCBS programs, working to ensure minimum compliance across settings in its Section 1915(c) waivers while closing all new enrollment into these waivers and directing all new HCBS enrollment into the Employment and Community First CHOICES program. The Tennessee Self-Determination Waiver remains available to Tennessee residents in the target population who:

- a. Meet TennCare ICF/IID level of care criteria (TennCare Rule 1200-13-1-.15) and financial eligibility criteria and have a PreAdmission Evaluation approved by TennCare;
- b. Have been assessed and found to:
  - i. Have an intellectual disability manifested before eighteen (18) years of age, as specified in Tennessee State law (Tennessee Code Annotated, Title 33-1-101); or,
  - ii. Have a developmental disability, which is defined as a condition of substantial developmental delay or specific congenital or acquired conditions with a high probability of resulting an intellectual disability and be a child five (5) years of age or younger; and
- c. **Transition of Individuals Affected by Maximum Age Limitation.** When there is a maximum age limit that applies to individuals who may be served in the waiver, describe the transition planning procedures that are undertaken on behalf of participants affected by the age limit (*select one*):

☐ **Not applicable. There is no maximum age limit**

☒ **The following transition planning procedures are employed for participants who will reach the waiver's maximum age limit.**

*Specify:*

The maximum age limit on children with developmental disabilities is to allow time for formal testing to be completed, such that a formal diagnosis of intellectual disabilities can be established on or before the child's sixth birthday.

There are currently no children age (5) or under in the waiver.

Consistent with the special terms and conditions of the State's approved 1115 demonstration and the June 2015 guidance issued by CMS, Tennessee has opted to utilize tiered standards in its HCBS programs, working to ensure minimum compliance across settings in its Section 1915(c) waivers while closing all new enrollment into these waivers and directing all new HCBS enrollment into the Employment and Community First CHOICES program.

## Appendix B: Participant Access and Eligibility

### B-2: Individual Cost Limit (1 of 2)

- a. Individual Cost Limit.** The following individual cost limit applies when determining whether to deny home and community-based services or entrance to the waiver to an otherwise eligible individual (*select one*). Please note that a State may have only ONE individual cost limit for the purposes of determining eligibility for the waiver:
- ☐ **No Cost Limit.** The State does not apply an individual cost limit. *Do not complete Item B-2-b or item B-2-c.*
  - ☐ **Cost Limit in Excess of Institutional Costs.** The State refuses entrance to the waiver to any otherwise eligible individual when the State reasonably expects that the cost of the home and community-based services furnished to that individual would exceed the cost of a level of care specified for the waiver up to an amount specified by the State. *Complete Items B-2-b and B-2-c.*

**The limit specified by the State is (*select one*)**

- ☐ **A level higher than 100% of the institutional average.**

Specify the percentage:

- ☐ **Other**

*Specify:*

- ☐ **Institutional Cost Limit.** Pursuant to 42 CFR 441.301(a)(3), the State refuses entrance to the waiver to any otherwise eligible individual when the State reasonably expects that the cost of the home and community-based services furnished to that individual would exceed 100% of the cost of the level of care specified for the waiver. *Complete Items B-2-b and B-2-c.*
- ☒ **Cost Limit Lower Than Institutional Costs.** The State refuses entrance to the waiver to any otherwise qualified individual when the State reasonably expects that the cost of home and community-based services furnished to that individual would exceed the following amount specified by the State that is less than the cost of a level of care specified for the waiver.

*Specify the basis of the limit, including evidence that the limit is sufficient to assure the health and welfare of waiver participants. Complete Items B-2-b and B-2-c.*

This cost limit was established at the inception of the Self-Determination Waiver Program. The target population for this waiver is persons who live with their family, a non-related caregiver or in their own home. These are individuals who have support systems in place, and this waiver is intended to support, but not supplant, that natural caregiving system. Because many of the support needs are met by family and other caregivers, based on the State's experience in this program, this level of service is sufficient to meet the needs of this target population.

However, should the person's needs change, or should the natural support system collapse, provisions exist for the individual to transition to the Employment and Community First CHOICES program which offers a more comprehensive package of benefits, when needed.

**The cost limit specified by the State is (*select one*):**

- ☒ **The following dollar amount:**

Specify dollar amount:

The dollar amount (select one)

- ☐ Is adjusted each year that the waiver is in effect by applying the following formula:

Specify the formula:

- ☒ May be adjusted during the period the waiver is in effect. The State will submit a waiver amendment to CMS to adjust the dollar amount.

- ☐ The following percentage that is less than 100% of the institutional average:

Specify percent:

- ☐ Other:

Specify:

## Appendix B: Participant Access and Eligibility

### B-2: Individual Cost Limit (2 of 2)

- b. Method of Implementation of the Individual Cost Limit.** When an individual cost limit is specified in Item B-2-a, specify the procedures that are followed to determine in advance of waiver entrance that the individual's health and welfare can be assured within the cost limit:

Consistent with the special terms and conditions of the State's approved 1115 demonstration and the June 2015 guidance issued by CMS, Tennessee has opted to utilize tiered standards in its HCBS programs, working to ensure minimum compliance across settings in its Section 1915(c) waivers while closing all new enrollment into these waivers and directing all new HCBS enrollment into the Employment and Community First CHOICES program. For persons currently enrolled in the Self-Determination Waiver program, prior to entrance into the Self-Determination Waiver Program, an individualized assessment of need was conducted by the DIDD case manager. The purpose of this assessment was to identify the service needs and to project the total cost for the services in order to determine whether the person's needs could be satisfactorily met in a manner that assures the individual's health and welfare.

- c. Participant Safeguards.** When the State specifies an individual cost limit in Item B-2-a and there is a change in the participant's condition or circumstances post-entrance to the waiver that requires the provision of services in an amount that exceeds the cost limit in order to assure the participant's health and welfare, the State has established the following safeguards to avoid an adverse impact on the participant (*check each that applies*):

- ☒ The participant is referred to another waiver that can accommodate the individual's needs.
- ☒ Additional services in excess of the individual cost limit may be authorized.

Specify the procedures for authorizing additional services, including the amount that may be authorized:

Under the Self-Determination Waiver Program, each participant has an individual budget based on an assessment of the participant's need for the services available in the program.

If a participant's budget reaches \$30,000 and emergency assistance is needed, an exception to the cost limit of \$30,000 may be granted to provide up to an additional \$6,000 in covered waiver services to provide an extra measure of protection when the participant experiences a crisis or emergency situation that threatens his/her health and well-being.

The total of all waiver services shall not exceed \$36,000 per year per participant, provided however, that a waiver participant shall not be required to experience a reduction in the amount of services currently being provided as a result of any increase in the rate of payment for such services, including rate increases targeted to increase wages for direct support professionals in order to help providers recruit and retain staff. If an increase in the rate of payment for service(s) would result in a person's cost limit being exceeded, the person shall not be required to reduce the amount of previously authorized services. All new or additional services will be subject to the \$30,000 cost limit (or \$36,000 cost limit when emergency services are authorized) as specified in this waiver.

Except as provided above with regard to services a person is currently receiving for which the rate of payment is increased, if the cost for all waiver services, including additional services authorized Emergency Assistance services, reaches or is projected to reach the absolute waiver limit of \$36,000 per year per participant and the participant's health and welfare cannot be ensured after seeking funding through non-waiver resources, the participant will be given an opportunity to request services through the Employment and Community First CHOICES program for which the participant may be eligible or, as appropriate, will be assisted in seeking admission to an ICF/IID.

If the condition or circumstances of a person enrolled in the waiver should change that requires the provision of services in an amount that exceeds the cost limit in order to assure the participant's health and welfare, and the person is not willing or able to enroll in a different program where his needs could be safely met, DIDD must submit to TennCare in writing an involuntary disenrollment request. Upon review and approval by TennCare, DIDD shall issue advance notice of involuntary disenrollment, including the right to request a fair hearing within 30 days. Fair hearings regarding involuntary termination of enrollment into an HCBS waiver are conducted in accordance with the Uniform Administrative Procedures Act. If an appeal is filed prior to the effective date of the action, continuation of waiver enrollment and waiver services are provided pending resolution of the appeal. In addition, if the person is disenrolled, DIDD shall provide reasonable assistance in locating appropriate alternative placement.

☐ **Other safeguard(s)**

Specify:

## Appendix B: Participant Access and Eligibility

### B-3: Number of Individuals Served (1 of 4)

- a. Unduplicated Number of Participants.** The following table specifies the maximum number of unduplicated participants who are served in each year that the waiver is in effect. The State will submit a waiver amendment to CMS to modify the number of participants specified for any year(s), including when a modification is necessary due to legislative appropriation or another reason. The number of unduplicated participants specified in this table is basis for the cost-neutrality calculations in Appendix J:

**Table: B-3-a**

Waiver Year	Unduplicated Number of Participants
Year 1	1194
Year 2	1144
Year 3	1094
Year 4	1
Year 5	1

- b. Limitation on the Number of Participants Served at Any Point in Time.** Consistent with the unduplicated number of participants specified in Item B-3-a, the State may limit to a lesser number the number of participants who will be served at any point in time during a waiver year. Indicate whether the State limits the number of participants in this way: (*select one*):

- ☒ The State does not limit the number of participants that it serves at any point in time during a waiver year.
- ☐ The State limits the number of participants that it serves at any point in time during a waiver year.

The limit that applies to each year of the waiver period is specified in the following table:

Table: B-3-b

Waiver Year	Maximum Number of Participants Served At Any Point During the Year
Year 1	<input type="text"/>
Year 2	<input type="text"/>
Year 3	<input type="text"/>
Year 4	<input type="text"/>
Year 5	<input type="text"/>

## Appendix B: Participant Access and Eligibility

### B-3: Number of Individuals Served (2 of 4)

- c. **Reserved Waiver Capacity.** The State may reserve a portion of the participant capacity of the waiver for specified purposes (e.g., provide for the community transition of institutionalized persons or furnish waiver services to individuals experiencing a crisis) subject to CMS review and approval. The State (*select one*):
- ☒ Not applicable. The state does not reserve capacity.
- ☐ The State reserves capacity for the following purpose(s).

## Appendix B: Participant Access and Eligibility

### B-3: Number of Individuals Served (3 of 4)

- d. **Scheduled Phase-In or Phase-Out.** Within a waiver year, the State may make the number of participants who are served subject to a phase-in or phase-out schedule (*select one*):
- ☒ The waiver is not subject to a phase-in or a phase-out schedule.
- ☐ The waiver is subject to a phase-in or phase-out schedule that is included in Attachment #1 to Appendix B-3. This schedule constitutes an intra-year limitation on the number of participants who are served in the waiver.
- e. **Allocation of Waiver Capacity.**

*Select one:*

- ☒ Waiver capacity is allocated/managed on a statewide basis.
- ☐ Waiver capacity is allocated to local/regional non-state entities.

Specify: (a) the entities to which waiver capacity is allocated; (b) the methodology that is used to allocate capacity and how often the methodology is reevaluated; and, (c) policies for the reallocation of unused capacity among local/regional non-state entities:

- f. **Selection of Entrants to the Waiver.** Specify the policies that apply to the selection of individuals for entrance to the

waiver:

Consistent with the special terms and conditions of the State's approved 1115 demonstration and the June 2015 guidance issued by CMS, Tennessee has opted to utilize tiered standards in its HCBS programs, working to ensure minimum compliance across settings in its Section 1915(c) waivers while closing all new enrollment into these waivers and directing all new HCBS enrollment into the Employment and Community First CHOICES program. The Tennessee Self-Determination Waiver remains available to Tennessee residents in the target population already enrolled in the waiver who:

1. Meet Medicaid financial eligibility criteria in one of the specified eligibility categories;
2. Need the level of care provided in an Intermediate Care Facility for Individuals with Intellectual Disabilities (ICF/IID) as evidenced by TennCare approval of a Pre-Admission Evaluation (PAE);
3. Meet all applicable enrollment requirements set forth in TennCare Rule Chapter 1200-13-1-.29, including a determination by DIDD that the individual's medical, behavioral and specialized services and support needs can be safely met through the Waiver, based on a pre-enrollment assessment; and a place of residence with an environment that is adequate to reasonably ensure the person's health, safety and welfare.
4. Have adequate caregiver support to assure health, safety, and welfare;
5. Have needs which can be met through the budget limits established for the Self-Determination Waiver Program; and
6. Do not need 24-hour staff-supported residential services.

The previous process for selection of entrants to the waiver included a comprehensive assessment by the case manager of the individual's social and family situation, health care status, need for assistance with activities of daily living, and caregiver support. Review of records may have included the individual's medical records, psychological evaluation, the uniform assessment (such as the Supports Intensity Scale {SIS}) if one was available, and other records. The availability of caregiver support was assessed, including the number of available caregivers and whether or not the caregivers were supporting more than one individual. Priority levels were determined based on the immediacy of need for caregiver support and need for waiver services.

## Appendix B: Participant Access and Eligibility

### B-3: Number of Individuals Served - Attachment #1 (4 of 4)

Answers provided in Appendix B-3-d indicate that you do not need to complete this section.

## Appendix B: Participant Access and Eligibility

### B-4: Eligibility Groups Served in the Waiver

a.

1. **State Classification.** The State is a *(select one)*:

- ☒ §1634 State
- ☐ SSI Criteria State
- ☐ 209(b) State

2. **Miller Trust State.**

Indicate whether the State is a Miller Trust State *(select one)*:

- ☐ No
- ☒ Yes

- b. **Medicaid Eligibility Groups Served in the Waiver.** Individuals who receive services under this waiver are eligible under the following eligibility groups contained in the State plan. The State applies all applicable federal financial participation limits under the plan. *Check all that apply:*

**Eligibility Groups Served in the Waiver (excluding the special home and community-based waiver group under 42 CFR §435.217)**

- ☐ Low income families with children as provided in §1931 of the Act
- ☒ SSI recipients

- ☐ Aged, blind or disabled in 209(b) states who are eligible under 42 CFR §435.121
- ☐ Optional State supplement recipients
- ☐ Optional categorically needy aged and/or disabled individuals who have income at:

Select one:

- ☐ 100% of the Federal poverty level (FPL)
- ☐ % of FPL, which is lower than 100% of FPL.

Specify percentage:

- ☐ Working individuals with disabilities who buy into Medicaid (BBA working disabled group as provided in §1902(a)(10)(A)(ii)(XIII) of the Act)
- ☐ Working individuals with disabilities who buy into Medicaid (TWWIIA Basic Coverage Group as provided in §1902(a)(10)(A)(ii)(XV) of the Act)
- ☐ Working individuals with disabilities who buy into Medicaid (TWWIIA Medical Improvement Coverage Group as provided in §1902(a)(10)(A)(ii)(XVI) of the Act)
- ☐ Disabled individuals age 18 or younger who would require an institutional level of care (TEFRA 134 eligibility group as provided in §1902(e)(3) of the Act)
- ☐ Medically needy in 209(b) States (42 CFR §435.330)
- ☐ Medically needy in 1634 States and SSI Criteria States (42 CFR §435.320, §435.322 and §435.324)
- ☐ Other specified groups (include only statutory/regulatory reference to reflect the additional groups in the State plan that may receive services under this waiver)

Specify:

---

**Special home and community-based waiver group under 42 CFR §435.217) Note: When the special home and community-based waiver group under 42 CFR §435.217 is included, Appendix B-5 must be completed**

---

- ☐ No. The State does not furnish waiver services to individuals in the special home and community-based waiver group under 42 CFR §435.217. Appendix B-5 is not submitted.
- ☒ Yes. The State furnishes waiver services to individuals in the special home and community-based waiver group under 42 CFR §435.217.

Select one and complete Appendix B-5.

- ☐ All individuals in the special home and community-based waiver group under 42 CFR §435.217
- ☒ Only the following groups of individuals in the special home and community-based waiver group under 42 CFR §435.217

Check each that applies:

- ☒ A special income level equal to:

Select one:

- ☒ 300% of the SSI Federal Benefit Rate (FBR)
- ☐ A percentage of FBR, which is lower than 300% (42 CFR §435.236)

Specify percentage: 

- ☐ A dollar amount which is lower than 300%.

Specify dollar amount: 

- ☐ Aged, blind and disabled individuals who meet requirements that are more restrictive than the SSI program (42 CFR §435.121)
- ☐ Medically needy without spenddown in States which also provide Medicaid to recipients of SSI (42 CFR §435.320, §435.322 and §435.324)
- ☐ Medically needy without spend down in 209(b) States (42 CFR §435.330)
- ☐ Aged and disabled individuals who have income at:

Select one:

- ☐ 100% of FPL
- ☐ % of FPL, which is lower than 100%.

Specify percentage amount: 

- ☐ Other specified groups (include only statutory/regulatory reference to reflect the additional groups in the State plan that may receive services under this waiver)

Specify:

## Appendix B: Participant Access and Eligibility

### B-5: Post-Eligibility Treatment of Income (1 of 7)

*In accordance with 42 CFR §441.303(e), Appendix B-5 must be completed when the State furnishes waiver services to individuals in the special home and community-based waiver group under 42 CFR §435.217, as indicated in Appendix B-4. Post-eligibility applies only to the 42 CFR §435.217 group.*

- a. Use of Spousal Impoverishment Rules.** Indicate whether spousal impoverishment rules are used to determine eligibility for the special home and community-based waiver group under 42 CFR §435.217:

*Note: For the five-year period beginning January 1, 2014, the following instructions are mandatory. The following box should be checked for all waivers that furnish waiver services to the 42 CFR §435.217 group effective at any point during this time period.*

- ☒ **Spousal impoverishment rules under §1924 of the Act are used to determine the eligibility of individuals with a community spouse for the special home and community-based waiver group. In the case of a participant with a community spouse, the State uses *spousal* post-eligibility rules under §1924 of the Act. Complete Items B-5-e (if the selection for B-4-a-i is SSI State or §1634) or B-5-f (if the selection for B-4-a-i is 209b State) and Item B-5-g unless the state indicates that it also uses spousal post-eligibility rules for the time periods before January 1, 2014 or after December 31, 2018.**

*Note: The following selections apply for the time periods before January 1, 2014 or after December 31, 2018 (select one).*

- ☒ **Spousal impoverishment rules under §1924 of the Act are used to determine the eligibility of individuals with a community spouse for the special home and community-based waiver group.**

In the case of a participant with a community spouse, the State elects to (*select one*):

- ☒ **Use spousal post-eligibility rules under §1924 of the Act.**  
(Complete Item B-5-b (SSI State) and Item B-5-d)
- ☐ **Use regular post-eligibility rules under 42 CFR §435.726 (SSI State) or under §435.735 (209b State)**  
(Complete Item B-5-b (SSI State). Do not complete Item B-5-d)
- ☐ **Spousal impoverishment rules under §1924 of the Act are not used to determine eligibility of individuals with a community spouse for the special home and community-based waiver group. The State uses regular post-eligibility rules for individuals with a community spouse.**  
(Complete Item B-5-b (SSI State). Do not complete Item B-5-d)

## Appendix B: Participant Access and Eligibility

### B-5: Post-Eligibility Treatment of Income (2 of 7)

*Note: The following selections apply for the time periods before January 1, 2014 or after December 31, 2018.*

#### b. Regular Post-Eligibility Treatment of Income: SSI State.

The State uses the post-eligibility rules at 42 CFR 435.726 for individuals who do not have a spouse or have a spouse who is not a community spouse as specified in §1924 of the Act. Payment for home and community-based waiver services is reduced by the amount remaining after deducting the following allowances and expenses from the waiver participant's income:

#### i. Allowance for the needs of the waiver participant (select one):

- ☒ **The following standard included under the State plan**

Select one:

- ☐ **SSI standard**
- ☐ **Optional State supplement standard**
- ☐ **Medically needy income standard**
- ☒ **The special income level for institutionalized persons**

(select one):

- ☒ **300% of the SSI Federal Benefit Rate (FBR)**
- ☐ **A percentage of the FBR, which is less than 300%**

Specify the percentage:

- ☐ **A dollar amount which is less than 300%.**

Specify dollar amount:

- ☐ **A percentage of the Federal poverty level**

Specify percentage:

- ☐ **Other standard included under the State Plan**

Specify:

⬆  
⬇

☐ **The following dollar amount**

Specify dollar amount:  If this amount changes, this item will be revised.

☐ **The following formula is used to determine the needs allowance:**

*Specify:*

☐ **Other**

*Specify:*

---

**ii. Allowance for the spouse only (select one):**

---

☒ **Not Applicable**

☐ **The state provides an allowance for a spouse who does not meet the definition of a community spouse in §1924 of the Act. Describe the circumstances under which this allowance is provided:**

*Specify:*

**Specify the amount of the allowance (select one):**

☐ **SSI standard**

☐ **Optional State supplement standard**

☐ **Medically needy income standard**

☐ **The following dollar amount:**

Specify dollar amount:  If this amount changes, this item will be revised.

☐ **The amount is determined using the following formula:**

*Specify:*

---

**iii. Allowance for the family (select one):**

---

☐ **Not Applicable (see instructions)**

☐ **AFDC need standard**

☒ **Medically needy income standard**

☐ **The following dollar amount:**

Specify dollar amount:  The amount specified cannot exceed the higher of the need standard for a family of the same size used to determine eligibility under the State's approved AFDC plan or the

medically needy income standard established under 42 CFR §435.811 for a family of the same size. If this amount changes, this item will be revised.

- ☐ **The amount is determined using the following formula:**

*Specify:*

- ☐ **Other**

*Specify:*

---

**iv. Amounts for incurred medical or remedial care expenses not subject to payment by a third party, specified in 42 §CFR 435.726:**

---

- a. Health insurance premiums, deductibles and co-insurance charges
- b. Necessary medical or remedial care expenses recognized under State law but not covered under the State's Medicaid plan, subject to reasonable limits that the State may establish on the amounts of these expenses.

Select one:

- ☐ **Not Applicable (see instructions)***Note: If the State protects the maximum amount for the waiver participant, not applicable must be selected.*
- ☐ **The State does not establish reasonable limits.**
- ☒ **The State establishes the following reasonable limits**

*Specify:*

Deductions for any other medical services recognized under State law but not covered by Medicaid will be provided per contract of the providers usual and customary charges, billed charges, or 80% of the Medicare fee schedule. Deductions will be allowed only for services that are determined by the state to be medically necessary for the particular individual on whose behalf the services are being requested.

## Appendix B: Participant Access and Eligibility

---

### B-5: Post-Eligibility Treatment of Income (3 of 7)

*Note: The following selections apply for the time periods before January 1, 2014 or after December 31, 2018.*

**c. Regular Post-Eligibility Treatment of Income: 209(B) State.**

---

Answers provided in Appendix B-4 indicate that you do not need to complete this section and therefore this section is not visible.

---

## Appendix B: Participant Access and Eligibility

---

### B-5: Post-Eligibility Treatment of Income (4 of 7)

*Note: The following selections apply for the time periods before January 1, 2014 or after December 31, 2018.*

**d. Post-Eligibility Treatment of Income Using Spousal Impoverishment Rules**

The State uses the post-eligibility rules of §1924(d) of the Act (spousal impoverishment protection) to determine the contribution of a participant with a community spouse toward the cost of home and community-based care if it determines the individual's eligibility under §1924 of the Act. There is deducted from the participant's monthly income a personal needs allowance (as specified below), a community spouse's allowance and a family allowance as specified in the State Medicaid Plan. The State must also protect amounts for incurred expenses for medical or remedial care (as specified below).

**i. Allowance for the personal needs of the waiver participant**

(select one):

- ☐ SSI standard
- ☐ Optional State supplement standard
- ☐ Medically needy income standard
- ☒ The special income level for institutionalized persons
- ☐ A percentage of the Federal poverty level

Specify percentage:

- ☐ The following dollar amount:

Specify dollar amount:  If this amount changes, this item will be revised

- ☐ The following formula is used to determine the needs allowance:

*Specify formula:*

- ☐ Other

*Specify:*

**ii. If the allowance for the personal needs of a waiver participant with a community spouse is different from the amount used for the individual's maintenance allowance under 42 CFR §435.726 or 42 CFR §435.735, explain why this amount is reasonable to meet the individual's maintenance needs in the community.**

Select one:

- ☒ Allowance is the same
- ☐ Allowance is different.

*Explanation of difference:*

**iii. Amounts for incurred medical or remedial care expenses not subject to payment by a third party, specified in 42 CFR §435.726:**

- a. Health insurance premiums, deductibles and co-insurance charges
- b. Necessary medical or remedial care expenses recognized under State law but not covered under the

State's Medicaid plan, subject to reasonable limits that the State may establish on the amounts of these expenses.

Select one:

- ☐ **Not Applicable (see instructions)***Note: If the State protects the maximum amount for the waiver participant, not applicable must be selected.*
- ☐ **The State does not establish reasonable limits.**
- ☒ **The State uses the same reasonable limits as are used for regular (non-spousal) post-eligibility.**

## Appendix B: Participant Access and Eligibility

### B-5: Post-Eligibility Treatment of Income (5 of 7)

*Note: The following selections apply for the five-year period beginning January 1, 2014.*

- e. Regular Post-Eligibility Treatment of Income: §1634 State - 2014 through 2018.**

**Answers provided in Appendix B-5-a indicate the selections in B-5-b also apply to B-5-e.**

## Appendix B: Participant Access and Eligibility

### B-5: Post-Eligibility Treatment of Income (6 of 7)

*Note: The following selections apply for the five-year period beginning January 1, 2014.*

- f. Regular Post-Eligibility Treatment of Income: 209(B) State - 2014 through 2018.**

**Answers provided in Appendix B-4 indicate that you do not need to complete this section and therefore this section is not visible.**

## Appendix B: Participant Access and Eligibility

### B-5: Post-Eligibility Treatment of Income (7 of 7)

*Note: The following selections apply for the five-year period beginning January 1, 2014.*

- g. Post-Eligibility Treatment of Income Using Spousal Impoverishment Rules - 2014 through 2018.**

The State uses the post-eligibility rules of §1924(d) of the Act (spousal impoverishment protection) to determine the contribution of a participant with a community spouse toward the cost of home and community-based care. There is deducted from the participant's monthly income a personal needs allowance (as specified below), a community spouse's allowance and a family allowance as specified in the State Medicaid Plan. The State must also protect amounts for incurred expenses for medical or remedial care (as specified below).

**Answers provided in Appendix B-5-a indicate the selections in B-5-d also apply to B-5-g.**

## Appendix B: Participant Access and Eligibility

### B-6: Evaluation/Reevaluation of Level of Care

*As specified in 42 CFR §441.302(c), the State provides for an evaluation (and periodic reevaluations) of the need for the level (s) of care specified for this waiver, when there is a reasonable indication that an individual may need such services in the near future (one month or less), but for the availability of home and community-based waiver services.*

- a. Reasonable Indication of Need for Services.** In order for an individual to be determined to need waiver services, an individual must require: (a) the provision of at least one waiver service, as documented in the service plan, and (b) the provision of waiver services at least monthly or, if the need for services is less than monthly, the participant requires regular monthly monitoring which must be documented in the service plan. Specify the State's policies concerning the reasonable indication of the need for services:

**i. Minimum number of services.**

The minimum number of waiver services (one or more) that an individual must require in order to be determined to need waiver services is:

**ii. Frequency of services.** The State requires (select one):

- ☐ The provision of waiver services at least monthly
- ☒ Monthly monitoring of the individual when services are furnished on a less than monthly basis

*If the State also requires a minimum frequency for the provision of waiver services other than monthly (e.g., quarterly), specify the frequency:*

- b. Responsibility for Performing Evaluations and Reevaluations.** Level of care evaluations and reevaluations are performed (*select one*):

- ☐ Directly by the Medicaid agency
- ☐ By the operating agency specified in Appendix A
- ☐ By an entity under contract with the Medicaid agency.

*Specify the entity:*

- ☒ Other
- Specify:*

1. The Division of TennCare, the State's Medical Assistance Unit, which is within the Department of Finance and Administration, performed the initial level of care evaluations (PAE's) for persons currently enrolled in the Self-Determination Waiver.

2. The Department of Intellectual and Developmental Disabilities (DIDD) is responsible for the annual level of care reevaluation.

- c. Qualifications of Individuals Performing Initial Evaluation:** Per 42 CFR §441.303(c)(1), specify the educational/professional qualifications of individuals who perform the initial evaluation of level of care for waiver applicants:

Physician (M.D. or D.O.) or Registered Nurse, licensed in the State of Tennessee

- d. Level of Care Criteria.** Fully specify the level of care criteria that are used to evaluate and reevaluate whether an individual needs services through the waiver and that serve as the basis of the State's level of care instrument/tool. Specify the level of care instrument/tool that is employed. State laws, regulations, and policies concerning level of care criteria and the level of care instrument/tool are available to CMS upon request through the Medicaid agency or the operating agency (if applicable), including the instrument/tool utilized.

Initial Level of Care Criteria

The State's level of care criteria for the Self-Determination Waiver specify that the applicant must meet ICF/IID level of care criteria, as verified by approval of the PreAdmission Evaluation (PAE) for ICF/IID Care (the State's level of care assessment tool). Those criteria are as follows:

1. Have a diagnosis of an intellectual disability manifested before eighteen (18) years of age or a Developmental Disability, which is defined as a condition of substantial developmental delay or specific congenital or acquired conditions with a high probability of resulting in an intellectual disability and be a child five (5) years of age or younger; and
2. Require a program of specialized services for an intellectual disability or related conditions provided under the supervision of a Qualified Intellectual Disabilities professional (QIDP); and
3. Have a significant deficit or impairment in adaptive functioning in one of the following areas: communication, comprehension, behavior, or activities of daily living (e.g., toileting, bathing, eating, dressing/grooming, transfer, mobility).

In addition, the person must have been assessed as having needs that can be satisfactorily met by the services available through the Self-Determination Waiver Program in a manner that assures the individual's health and welfare.

- e. **Level of Care Instrument(s).** Per 42 CFR §441.303(c)(2), indicate whether the instrument/tool used to evaluate level of care for the waiver differs from the instrument/tool used to evaluate institutional level of care (*select one*):
- ☒ **The same instrument is used in determining the level of care for the waiver and for institutional care under the State Plan.**
  - ☐ **A different instrument is used to determine the level of care for the waiver than for institutional care under the State plan.**

Describe how and why this instrument differs from the form used to evaluate institutional level of care and explain how the outcome of the determination is reliable, valid, and fully comparable.

- f. **Process for Level of Care Evaluation/Reevaluation:** Per 42 CFR §441.303(c)(1), describe the process for evaluating waiver applicants for their need for the level of care under the waiver. If the reevaluation process differs from the evaluation process, describe the differences:

#### Level of Care Criteria for Reevaluation

There are four level of care requirements that must be met for continued enrollment in the waiver during the reevaluation process. The enrollee must:

1. Need the level of care being provided and would, but for the provision of waiver services, otherwise be institutionalized in an ICF/IID.
  2. Require services to enhance functional ability or to prevent or delay the deterioration or loss of functional ability.
  3. Have a significant deficit in impairment in adaptive functioning involving communication, comprehension, behavior, or activities of daily living (e.g., toileting, bathing, eating, dressing/grooming, transfer, or mobility); and
  4. Require a program of specialized supports and services provided under supervision of a Qualified Intellectual Disabilities Professional (QIDP).
- g. **Reevaluation Schedule.** Per 42 CFR §441.303(c)(4), reevaluations of the level of care required by a participant are conducted no less frequently than annually according to the following schedule (*select one*):
- ☐ **Every three months**
  - ☐ **Every six months**
  - ☒ **Every twelve months**
  - ☐ **Other schedule**  
*Specify the other schedule:*

- h. Qualifications of Individuals Who Perform Reevaluations.** Specify the qualifications of individuals who perform reevaluations (*select one*):
- ☐ The qualifications of individuals who perform reevaluations are the same as individuals who perform initial evaluations.
  - ☒ The qualifications are different.  
*Specify the qualifications:*

Qualifications of professionals who conduct annual reevaluations are:

- Physician, either a D.O. or M.D.;
- Registered Nurse licensed in the State of Tennessee; or
- Qualified Intellectual Disabilities Professional (QIDP), as defined in 42 CFR 483.430(a)

- i. Procedures to Ensure Timely Reevaluations.** Per 42 CFR §441.303(c)(4), specify the procedures that the State employs to ensure timely reevaluations of level of care (*specify*):

Each DIDD regional office tracks and monitors annual level of care reevaluations due dates through the DIDD Client Information Tracking System on a monthly basis to ensure timely receipt.

- j. Maintenance of Evaluation/Reevaluation Records.** Per 42 CFR §441.303(c)(3), the State assures that written and/or electronically retrievable documentation of all evaluations and reevaluations are maintained for a minimum period of 3 years as required in 45 CFR §92.42. Specify the location(s) where records of evaluations and reevaluations of level of care are maintained:

Initial Level of Care Evaluations: Initial Level of Care evaluation determinations for persons currently enrolled in the Self-Determination Waiver were made by the Division of TennCare which maintains all applicable written and electronic documentation for a minimum of 3 years.

Annual Level of Care Reevaluations: Annual Level of Care Reevaluations are conducted by DIDD, which maintains all applicable written and electronic documentation for a minimum of 3 years.

## Appendix B: Evaluation/Reevaluation of Level of Care

### Quality Improvement: Level of Care

*As a distinct component of the State's quality improvement strategy, provide information in the following fields to detail the State's methods for discovery and remediation.*

**a. Methods for Discovery: Level of Care Assurance/Sub-assurances**

*The state demonstrates that it implements the processes and instrument(s) specified in its approved waiver for evaluating/reevaluating an applicant's/waiver participant's level of care consistent with level of care provided in a hospital, NF or ICF/IID.*

**i. Sub-Assurances:**

- a. Sub-assurance:** *An evaluation for LOC is provided to all applicants for whom there is reasonable indication that services may be needed in the future.*

**Performance Measures**

*For each performance measure the State will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.*

*For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.*

- b. Sub-assurance:** *The levels of care of enrolled participants are reevaluated at least annually or as*

*specified in the approved waiver.*

#### Performance Measures

*For each performance measure the State will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.*

*For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.*

- c. **Sub-assurance: The processes and instruments described in the approved waiver are applied appropriately and according to the approved description to determine participant level of care.**

#### Performance Measures

*For each performance measure the State will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.*

*For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.*

- ii. If applicable, in the textbox below provide any necessary additional information on the strategies employed by the State to discover/identify problems/issues within the waiver program, including frequency and parties responsible.

#### b. Methods for Remediation/Fixing Individual Problems

- i. Describe the State's method for addressing individual problems as they are discovered. Include information regarding responsible parties and GENERAL methods for problem correction. In addition, provide information on the methods used by the State to document these items.  
Consistent with the special terms and conditions of the State's approved 1115 demonstration and the June 2015 guidance issued by CMS, Tennessee has opted to utilize tiered standards in its HCBS programs, working to ensure minimum compliance across settings in its Section 1915(c) waivers while closing all new enrollment into these waivers and directing all new HCBS enrollment into the Employment and Community First CHOICES program. Accordingly, all performance measures related to this sub-assurance have been removed.

#### ii. Remediation Data Aggregation

##### Remediation-related Data Aggregation and Analysis (including trend identification)

Responsible Party(check each that applies):	Frequency of data aggregation and analysis (check each that applies):
<input type="checkbox"/> State Medicaid Agency	<input type="checkbox"/> Weekly
<input type="checkbox"/> Operating Agency	<input type="checkbox"/> Monthly
<input type="checkbox"/> Sub-State Entity	<input type="checkbox"/> Quarterly
<input checked="" type="checkbox"/> Other Specify: All performance measures related to this sub-assurance have been removed.	<input type="checkbox"/> Annually

<input type="checkbox"/> <b>Continuously and Ongoing</b>
<input checked="" type="checkbox"/> <b>Other</b> Specify: All performance measures related to this sub-assurance have been removed.

**c. Timelines**

When the State does not have all elements of the Quality Improvement Strategy in place, provide timelines to design methods for discovery and remediation related to the assurance of Level of Care that are currently non-operational.

☒ **No**

☐ **Yes**

Please provide a detailed strategy for assuring Level of Care, the specific timeline for implementing identified strategies, and the parties responsible for its operation.

## Appendix B: Participant Access and Eligibility

### B-7: Freedom of Choice

**Freedom of Choice.** *As provided in 42 CFR §441.302(d), when an individual is determined to be likely to require a level of care for this waiver, the individual or his or her legal representative is:*

- i. informed of any feasible alternatives under the waiver; and*
- ii. given the choice of either institutional or home and community-based services.*

- a. Procedures.** Specify the State's procedures for informing eligible individuals (or their legal representatives) of the feasible alternatives available under the waiver and allowing these individuals to choose either institutional or waiver services. Identify the form(s) that are employed to document freedom of choice. The form or forms are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

#### FREEDOM OF CHOICE

Consistent with the special terms and conditions of the State's approved 1115 demonstration and the June 2015 guidance issued by CMS, Tennessee has opted to utilize tiered standards in its HCBS programs, working to ensure minimum compliance across settings in its Section 1915(c) waivers while closing all new enrollment into these waivers and directing all new HCBS enrollment into the Employment and Community First CHOICES program. For persons already enrolled in the Tennessee Self-Determination Waiver, the process for ensuring Freedom of Choice was as follows:

1. When an individual was determined to qualify in the target group specified for the Self-Determination waiver, and to meet all other applicable requirements for enrollment into the Self-Determination waiver, including ICF/IID level of care, and the waiver capacity had not reached the specified cap of unduplicated participants for the calendar year, the individual or his or her legal representative were:

- a. informed of any feasible alternatives under the waiver; and
- b. given the choice of either institutional or Home and Community-Based services.

#### PROCESS:

The following describes the agency's previous procedure(s) for informing eligible individuals of the feasible alternatives available under the waiver and allowing these individuals to choose either institutional or waiver services:

When an individual was determined to require the level of care provided by an ICF/IID, DIDD informed the individual or the individual's legal representative of any feasible alternatives available under the waiver program, including a description of the waiver services and names and addresses of available qualified providers, and offered the choice of either institutional or waiver services.

Notice to the individual contained a simple explanation of the waiver and waiver services; a statement that participation in the Waiver is voluntary; and notification of the opportunity to apply for enrollment in the Waiver and an explanation of the procedures for enrollment. The Freedom of Choice form was explained and the signature of the person to receive waiver services or the legal representative was obtained on the Freedom of Choice form, which was

completed prior to admission into the waiver program.

In addition to freedom of choice of institutional or HCBS alternatives, individuals electing to participate in the Self-Determination Waiver are supported to exercise informed choice regarding services and supports they receive, providers of such services, and the setting in which services and supports are received and which are integrated in, and support full access to the greater community, including opportunities to seek employment and work in competitive integrated settings, engage in community life, control personal resources, and receive services in the community to the same degree of access as individuals not receiving Medicaid HCBS.

- b. Maintenance of Forms.** Per 45 CFR §92.42, written copies or electronically retrievable facsimiles of Freedom of Choice forms are maintained for a minimum of three years. Specify the locations where copies of these forms are maintained.

Copies of freedom of choice documentation are maintained in the following location(s):

The Freedom of Choice documentation will be maintained by DIDD.

## Appendix B: Participant Access and Eligibility

### B-8: Access to Services by Limited English Proficiency Persons

**Access to Services by Limited English Proficient Persons.** Specify the methods that the State uses to provide meaningful access to the waiver by Limited English Proficient persons in accordance with the Department of Health and Human Services "Guidance to Federal Financial Assistance Recipients Regarding Title VI Prohibition Against National Origin Discrimination Affecting Limited English Proficient Persons" (68 FR 47311 - August 8, 2003):

For Individuals with Limited English Proficiency (LEP)

The Division of TennCare, the Department of Human Services, and the Department of Intellectual and Developmental Disabilities (DIDD) provide a number of options to assist individuals with Limited English Proficiency (LEP) as they navigate the application process for TennCare eligibility.

The Division of TennCare provides eligibility applications and mails notices in English and Spanish. An insert in each TennCare mailing provides information in each of the following languages and a toll-free phone number that individuals may call for translation assistance: Arabic, Kurdish-Bandinani, Kurdish-Sorani, Bosnian, and Vietnamese. Translation services are provided by the TennCare Advocacy Program, a program of Health Assist Tennessee. In addition to translation services, the TennCare Advocacy Program also assists TennCare enrollees and applicants with TennCare questions or problems, and can direct enrollees and applicants to other local community resources for translation and other assistance. DIDD also provides translation services as needed.

All notices contain the numbers of the TennCare Solutions Unit, the TennCare Advocacy Program and a TTY/TDD line.

The Division of TennCare provides a list of accommodations that are made available to the TennCare population. These accommodations include:

- Accepting online applications;
- Accepting applications submitted through the U.S. Mail;
- Allowing the applicant to designate a third party to represent him/her during the eligibility process;
- Conducting any interview or discussion that might be needed to gather additional information over the phone or outside of normal working hours;
- When needed because of the applicant's disability, providing in-home assistance in completing the application process.

## Appendix C: Participant Services

### C-1: Summary of Services Covered (1 of 2)

- a. Waiver Services Summary.** List the services that are furnished under the waiver in the following table. If case management is not a service under the waiver, complete items C-1-b and C-1-c:

Service Type	Service	
Statutory Service	Respite	
Extended State Plan Service	Nursing Services	
Extended State Plan Service	Nutrition Services	
Extended State Plan Service	Occupational Therapy	

Extended State Plan Service	Physical Therapy
Extended State Plan Service	Specialized Medical Equipment and Supplies and Assistive Technology
Extended State Plan Service	Speech, Language, and Hearing Services
Other Service	Adult Dental Services
Other Service	Behavior Services
Other Service	Behavioral Respite Services
Other Service	Employment and Day Services
Other Service	Environmental Accessibility Modifications
Other Service	Individual Transportation Services
Other Service	Orientation and Mobility Services for Impaired Vision
Other Service	Personal Assistance
Other Service	Personal Emergency Response Systems
Other Service	Semi-Independent Living Services

## Appendix C: Participant Services

##### Sub-Category 3:

##### Category 4:

##### Sub-Category 4:

Complete this part for a renewal application or a new waiver that replaces an existing waiver. Select one :

- ☒ Service is included in approved waiver. There is no change in service specifications.
- ☐ Service is included in approved waiver. The service specifications have been modified.

☐ **Service is not included in the approved waiver.**

**Service Definition (Scope):**

Respite shall mean services provided to a person supported when unpaid caregivers are absent or need relief from routine caregiving responsibilities. Respite may be provided in the person's place of residence, in a Family Model Residential Support home, in a Medicaid-certified ICF/IID, in a home operated by a licensed residential provider, in a licensed respite care facility, or in the home of an approved respite provider. The Respite provider may also accompany the person on short outings for exercise, recreation, shopping or other purposes while providing respite care.

Reimbursement for Respite shall not include payment for Respite provided by the spouse of a person supported or family member or relative (whether by birth or marriage) who resides with the person supported in the home. The Respite provider and provider staff shall not be the parent or custodial grandparent of a person supported under age 18 years, whether the relationship is by blood, by marriage, or by adoption; and reimbursement shall not include payment for Respite provided by such individuals. Reimbursement for Respite shall not include payment for Respite provided by any individual who has been appointed as the conservator for the person supported unless so permitted in the Order for Conservatorship. Family members who provide Respite must meet the same standards as providers who are unrelated to the person supported, including implementing services as specified in the individual support plan (ISP).

When less than 8 hours of respite services is needed in a day, the unit of reimbursement shall be per 15 minutes.

When 8 hours or more of respite services are needed in a day, the unit of reimbursement shall be per day.

Level 1 per day reimbursement shall be for persons requiring at least 8 hours, but less than 16 hours of respite services in a day. Level 2 per day reimbursement shall be for persons requiring at least 16 and up to 24 hours of respite services in a day, but no awake overnight direct support staff. Level 3 per day reimbursement shall be for persons requiring 24 hour respite services, including awake overnight direct support staff.

Respite shall be limited to a maximum of 30 days per person supported per waiver program year (i.e. calendar year).

Family members are required to implement services as specified in the ISP. Reimbursement to family members shall be limited to forty hours per week per family member for self-directed services as well as those delivered by contracted provider agencies. The person's Circle of Support shall ensure that paid services do not supplant natural supports that would otherwise be provided at no cost to the Medicaid program.

Providers who receive the per diem reimbursement rate for Respite shall be responsible for the cost of any Day Services needed while the person is receiving Respite services.

Respite Services shall not be provided during the same time period that the person supported is receiving Personal Assistance Services, Day Services, or services under a 504 Plan or Individual Education Program (IEP), is being homeschooled, or any combination thereof.

**Specify applicable (if any) limits on the amount, frequency, or duration of this service:**

Respite shall be limited to a maximum of 30 days per service recipient per calendar year.

Reimbursement to family members shall be limited to forty (40) hours per week per family member for self-directed services as well as those delivered by contracted provider agencies.

**Service Delivery Method (check each that applies):**

☒ **Participant-directed as specified in Appendix E**

☒ **Provider managed**

**Specify whether the service may be provided by (check each that applies):**

☐ **Legally Responsible Person**

☒ **Relative**

☐ **Legal Guardian**

**Provider Specifications:**

**Sub-Category 4:**

▼

Complete this part for a renewal application or a new waiver that replaces an existing waiver. Select one :

- ☒ **Service is included in approved waiver. There is no change in service specifications.**
- ☐ **Service is included in approved waiver. The service specifications have been modified.**
- ☐ **Service is not included in the approved waiver.**

**Service Definition (Scope):**

Nursing Services shall mean skilled nursing tasks that must be performed by a registered or licensed nurse pursuant to Tennessee's Nurse Practice Act and that are directly provided to the person supported in accordance

with a person-centered ISP. Nursing Services shall be ordered by the physician, physician assistant, or nurse practitioner of the person supported, who shall document the medical necessity of the services and specify the nature and frequency of the skilled nursing tasks to be performed. Nursing Services shall be provided face to face with the person supported by a licensed registered nurse or licensed practical nurse under the supervision of a registered nurse.

Nursing Services shall also include the provision of services to teach and train the person supported and their family or other paid or unpaid caregivers how to manage the treatment regimen, and the provision of evaluation and training, specific to an individual person supported, by a registered nurse, for purposes of delegation of non-complex health maintenance tasks to unlicensed direct support staff, as determined appropriate by the delegating nurse, and as permitted by State law and contingent upon the registered nurse's evaluation of each individual's condition and also upon the registered nurse's evaluation of the competency of each unlicensed direct support staff. Evaluation, teaching and training required for delegation is considered part of the established rate; it is not billed separately.

The nurse shall also be responsible for the provision of non-skilled services including eating, toileting, grooming, and other activities of daily living, needed by the person supported during the period that Nursing Services are authorized and provided, unless such assistance cannot be safely provided by the nurse while also attending to the skilled nursing needs of the person supported (which must be documented in writing and approved pursuant to protocol). However, the amount of Nursing Services authorized and provided shall depend only on the skilled nursing needs of the person supported. Additional Nursing Services shall not be authorized only for purposes of providing unskilled needs.

A single nurse may provide services to more than one individual receiving services in the same setting, provided each person's needs can be safely and appropriately met. When Nursing Services are provided as a shared service for 2 or more individuals residing in the same home (regardless of funding source), the total number of units of shared Nursing Services shall be apportioned based on the total units of nursing services prescribed for each person supported, and the apportioned amount shall be specified in the ISP for each person supported, as applicable. Only one unit of service will be billed for each unit of service provided, regardless of the number of persons supported. Documentation of service delivery must be kept for each person supported and shall reflect the total number of shared units of service provided, and the specific nursing tasks performed for that individual. Nursing assessment and/or nursing oversight shall not be a separate billable service under this definition.

Nursing Services shall consist of 2 categories of services and reimbursement:

- a. RN services: RN services shall mean skilled nursing services, as specified above, which are provided by a registered nurse. This includes those services which require the skills of a registered nurse and which are required by Tennessee's Nurse Practice Act to be performed by a registered nurse.
- b. LPN services: LPN services shall mean skilled nursing services, as specified above, which are provided by a licensed practical nurse working under the supervision of a registered nurse and which are permitted by Tennessee's Nurse Practice Act to be performed by a licensed practical nurse working under the supervision of a registered nurse.

This service shall be provided in home and community settings, as specified in the ISP, excluding schools, inpatient hospitals, nursing facilities, and Intermediate Care Facilities for Individuals with Intellectual Disabilities (ICFs/IID). A person supported who is receiving Medical Residential Services shall not be eligible to receive Nursing Services.

Nursing Services shall not be billed when provided during the same time period as other therapies unless there is documentation in the individual's record of medical justification for the two services to be provided concurrently.

Nursing Services are not intended to replace either intermittent home health skilled nursing visits or private duty nursing services available through the Medicaid State Plan/TennCare program or services available under the Rehabilitation Act of 1973 or Individuals with Disabilities Education Act. To the extent that such services are covered in the Medicaid State Plan/TennCare Program, all applicable Medicaid State Plan/TennCare Program services shall be exhausted prior to using the waiver service. Nursing Services shall not be covered for children under age 21 years (since it would duplicate TennCare/EPSTD benefits).

**Specify applicable (if any) limits on the amount, frequency, or duration of this service:**

Nursing Services shall be limited to a maximum of 48 units (12 hours) per day per waiver participant.

Extended State Plan Service ▼

**Service Title:**

Nutrition Services

**HCBS Taxonomy:****Category 1:****Sub-Category 1:**

**Category 2:****Sub-Category 2:**

**Category 3:****Sub-Category 3:**

**Category 4:****Sub-Category 4:**

Complete this part for a renewal application or a new waiver that replaces an existing waiver. Select one :

- ☒ **Service is included in approved waiver. There is no change in service specifications.**
- ☐ **Service is included in approved waiver. The service specifications have been modified.**
- ☐ **Service is not included in the approved waiver.**

**Service Definition (Scope):**

Nutrition Services shall mean assessment of nutritional needs, nutritional counseling, and education of the person supported and of caregivers responsible for food purchase, food preparation, or assisting the person supported to eat. Nutrition Services must be provided in accordance with therapeutic goals and objectives specified in an ISP that is specific for the individual receiving services and developed by a dietitian or nutritionist. A dietitian or nutritionist who provides Nutrition Services must provide services within the scope of licensure and must be licensed as required by the State of Tennessee. Nutrition Services are intended to promote healthy eating practices and to enable the person supported and direct support professionals to follow special diets ordered by a physician, physician assistant, or nurse practitioner.

Nutrition Services must be provided face to face with the person supported except for training caregivers responsible for food purchase or food preparation on the specific needs of the person supported, or assisting the person supported to eat and except for that portion of the assessment involving development of the ISP. To the greatest extent possible, it is expected that the person supported is engaged in these activities as learning opportunities.

Nutrition Services shall not be billed when provided during the same time period as Physical Therapy, Occupational Therapy, Speech, Language, and Hearing Services, Orientation and Mobility Services for Impaired Vision, or Behavior Services, unless there is documentation in the individual's record of medical justification for the two services to be provided concurrently.

The unit of reimbursement for a Nutrition Services assessment with plan development shall be per day. The unit of reimbursement for other Nutrition Services shall be per day.

A Nutrition Services assessment cannot be billed on the same day with other Nutrition Services. Reimbursement shall not be made for telephone consultations. A provider shall not receive reimbursement for Nutrition Services unless provided by a licensed dietitian or nutritionist.

Nutrition Services are not intended to replace services available through the Medicaid State Plan/TennCare program.

**Specify applicable (if any) limits on the amount, frequency, or duration of this service:**

Reimbursement for a Nutrition Services assessment visit, which includes the Nutritional Services plan development resulting from such an assessment, shall be limited to one assessment visit per waiver participant (person supported) per waiver program year (calendar year). Nutrition Services other than the assessment (e.g., person supported-specific training of caregivers; monitoring dietary compliance and food preparation) shall be limited to a maximum of one visit per day.

Nutrition Services (including Nutrition Services assessments and other non-assessment services) shall be limited to a maximum of six (6) visits per waiver participant (person supported) per waiver program year (calendar year), of which no more than one (1) visit per waiver program year (calendar year) may be an assessment.

*Complete this part for a renewal application or a new waiver that replaces an existing waiver. Select one :*

- ☒ **Service is included in approved waiver. There is no change in service specifications.**
- ☐ **Service is included in approved waiver. The service specifications have been modified.**
- ☐ **Service is not included in the approved waiver.**

**Service Definition (Scope):**

Occupational Therapy shall mean medically necessary diagnostic, therapeutic, and corrective services which are within the scope of state licensure and which are provided to assess and treat functional limitations involving performance of activities of daily living; and the initial training of provider staff on the appropriate implementation of the therapy plan of care. Occupational Therapy services provided to improve or maintain current functional abilities as well as prevent or minimize deterioration of chronic conditions leading to a further loss of function are also included within this definition. Services must be provided by a licensed occupational therapist or by a licensed occupational therapist assistant working under the supervision of a licensed occupational therapist. Occupational Therapy must be ordered by a physician, physician assistant, or nurse practitioner and must be provided face to face with the person supported except for that portion of the assessment involving development of the therapy plan of care. Occupational Therapy therapeutic and corrective services shall not be ordered concurrently with Occupational Therapy assessments (i.e., assess and treat orders are not accepted).

Occupational Therapy shall be provided in accordance with a treatment plan developed by a licensed occupational therapist based on a comprehensive assessment of the needs of the person supported and shall include specific functional and measurable therapeutic goals and objectives. The goals and objectives shall be related to provision of Occupational Therapy to prevent or minimize deterioration involving a chronic condition which would result in further loss of function. Continuing approval of Occupational Therapy services shall require documentation of reassessment of the condition of the person supported and continuing progress of the person supported toward meeting the goals and objectives.

Occupational Therapy shall not be billed when provided during the same time period as Physical Therapy; Speech, Hearing, and Language Services; Nutrition Services, Orientation and Mobility Services for Impaired Vision, or Behavior Services, unless there is documentation in the person supported has a record of medical justification for the two services to be provided concurrently. Occupational Therapy is not intended to replace services that would normally be provided by direct care staff.

Occupational Therapy services are not intended to replace services available through the Medicaid State

Plan/TennCare Program or services available under the Rehabilitation Act of 1973 or Individuals with Disabilities Education Act. To the extent that such services are covered in the Medicaid State Plan/TennCare Program, all applicable Medicaid State Plan/TennCare Program services shall be exhausted prior to using the waiver service. Occupational Therapy shall not be covered for children under age 21 years (since it would duplicate TennCare/EPSTDT benefits).

The unit of reimbursement for an Occupational Therapy assessment with plan development shall be per day. The unit of reimbursement for other Occupational Therapy services shall be per 15 minutes.

Reimbursement for an Occupational Therapy assessment with development of an Occupational Therapy plan based on such an assessment shall be limited to a maximum of one assessment with plan development per month with a maximum of 3 assessments per calendar year per person supported per provider. Occupational Therapy services other than such assessments (e.g., person supported-specific training of caregivers; provision of therapeutic services; monitoring progress) shall be limited to a maximum of 1.5 hours per person supported per day. Occupational Therapy assessments shall not be billed on the same day with other Occupational Therapy services. Reimbursement shall not be made for telephone consultations. A provider shall not receive reimbursement for Occupational Therapy unless provided by a licensed occupational therapist or by a licensed occupational therapist assistant working under the supervision of a licensed occupational therapist.

**Specify applicable (if any) limits on the amount, frequency, or duration of this service:**

Reimbursement limits:

- \* 1 assessment with plan development per month;
- \* 3 assessments per year per provider; and
- \* 1.5 hours per day for services other than assessments.

Complete this part for a renewal application or a new waiver that replaces an existing waiver. Select one :

- ☒ **Service is included in approved waiver. There is no change in service specifications.**
- ☐ **Service is included in approved waiver. The service specifications have been modified.**
- ☐ **Service is not included in the approved waiver.**

**Service Definition (Scope):**

Physical therapy shall mean medically necessary diagnostic, therapeutic, and corrective services which are within the scope of state licensure and which are provided to assess and treat functional limitations related to ambulation

and mobility; and the initial training of provider staff on the appropriate implementation of the therapy plan of care. Physical Therapy services provided to improve or maintain current functional abilities as well as prevent or minimize deterioration of chronic conditions leading to a further loss of function are also included within this definition. Services must be provided by a licensed physical therapist or by a licensed physical therapist assistant working under the supervision of a licensed physical therapist. Physical Therapy must be ordered by a physician, physician assistant, or nurse practitioner and must be provided face to face with the person supported except for that portion of the assessment involving development of the therapy plan of care.

Physical Therapy therapeutic and corrective services shall not be ordered concurrently with Physical Therapy assessments (i.e., assess and treat orders are not accepted).

Physical Therapy shall be provided in accordance with a treatment plan developed by a licensed physical therapist based on a comprehensive assessment of the needs of the person supported and shall include specific functional and measurable therapeutic goals and objectives. The goals and objectives shall be related to provision of Physical Therapy to prevent or minimize deterioration involving a chronic condition which would result in further loss of function. Continuing approval of Physical Therapy services shall require documentation of reassessment of the condition of the person supported and continuing progress of the person supported toward meeting the goals and objectives.

Physical Therapy shall not be billed when provided during the same time period as Occupational Therapy; Speech, Language, and Hearing Services; Nutrition Services, Orientation and Mobility Services for Impaired Vision; or Behavior Services, unless there is documentation in the individual's record of medical justification for the two services to be provided concurrently. Physical Therapy is not intended to replace services that would normally be provided by direct care staff.

Physical Therapy services are not intended to replace services available through the Medicaid State Plan/TennCare Program or services available under the Rehabilitation Act of 1973 or Individuals with Disabilities Education Act. To the extent that such services are covered in the Medicaid State Plan/TennCare Program, all applicable Medicaid State Plan/TennCare Program services shall be exhausted prior to using the waiver service. Physical Therapy shall not be covered for children under age 21 years (since it would duplicate TennCare/EPSTDT benefits).

The unit of reimbursement for a Physical Therapy assessment with plan development shall be per day. The unit of reimbursement for other Physical Therapy services shall be per 15 minutes.

Reimbursement for a Physical Therapy assessment with development of a Physical Therapy plan based on such an assessment shall be limited to a maximum of one assessment with plan development per month with a maximum of 3 assessments per calendar year per person supported per provider. Physical Therapy services other than such assessments (e.g., person supported-specific training of caregivers; provision of therapeutic services; monitoring progress) shall be limited to a maximum of 1.5 hours per person supported per day. Physical Therapy assessments shall not be billed on the same day with other Physical Therapy services. Reimbursement shall not be made for telephone consultations. A provider shall not receive reimbursement for Physical Therapy unless provided by a licensed physical therapist or by a licensed physical therapist assistant working under the supervision of a licensed physical therapist.

- ☒ **Service is included in approved waiver. There is no change in service specifications.**
- ☐ **Service is included in approved waiver. The service specifications have been modified.**
- ☐ **Service is not included in the approved waiver.**

**Service Definition (Scope):**

Specialized Medical Equipment and Supplies and Assistive Technology shall only mean the following:

a. An assistive device or adaptive aid or control designed for individuals with special functional needs which:

(1) Increases the ability to perform activities of daily living (e.g., adaptive eating utensils and dishware; an adaptive toothbrush); or

(2) Increases the ability to communicate with others (e.g., a hearing aid; an augmentative alternative communication device or system; an adaptive phone for individual with visual or hearing impairments); or

(3) Increases the ability to perceive or control the environment within the home (e.g., a smoke alarm with a vibrating pad or flashing light); and

a. A gait trainer; and

b. A sidelyer or similar positioning device; positioning wedges or rolls or similar positioning items; and

c. Supplies necessary for the proper functioning of specialized medical equipment or assistive technology covered within the scope of this waiver definition; and

d. Repair of specialized medical equipment or assistive technology devices covered within the scope of this waiver definition when the repair is not covered by warranty and when it is substantially less expensive to repair the equipment or device than replace it.

Specialized Medical Equipment, Supplies, and Assistive technology shall be medically necessary and shall be recommended by a qualified health care professional (e.g., physician, occupational therapist, physical therapist).

The following items are excluded from coverage:

a. Items not of direct medical or remedial benefit to the person supported;

b. Items covered by the Medicaid State Plan/TennCare Program;

c. Hearing aids and augmentative alternative communication systems for children under age 21 years;

d. Eyeglasses, frames, and lenses;

e. Elevators, stairway lifts, stair glides, platform lifts, stair-climbing devices, electric powered recliners, elevating seats, and lift chairs;

f. Sensory processing/sensory integration equipment or other items used in sensory integration therapy (e.g., ankle weights, weighted vests or blankets, sensory/therapy balls, swings, vibrators, floor mats, balance boards, brushes, trampolines);

g. Carpets, rugs, flooring, floor pads and mats; curtains, drapes, and window treatments; furniture, lamps, and lighting;

h. Beds, mattresses, bedding, and overbed tables;

i. Air conditioning systems or units, heating systems or units; water purifiers, air purifiers, vaporizers, dehumidifiers, and humidifiers;

j. Electrical generators, electrical service, or emergency electrical backup systems;

k. Adaptive devices for use with items specifically excluded by this waiver definition;

l. Recreational or exercise equipment and adaptive devices for such; adaptive tricycles;

m. Toys, toy equipment, and adaptive devices for toys (e.g., flash switches);

n. Radios, televisions, or related electronic audiovisual equipment (e.g., DVD players); telephone, television, or internet service; and equipment or items for education, training, or entertainment purposes;

o. Personal computers; printers, monitors, scanners, and other computer-related hardware and software (excluding equipment designed specifically and primarily to be used as an augmentative alternative communication systems for adults);

- p. Orthotics;
- q. Stethoscopes or blood pressure cuffs;
- r. Clothing;
- s. Diapers and other incontinence supplies;
- t. Food, food supplements, food substitutes (including formulas), and thickening agents;
- u. Prescription and over-the-counter medications; vitamins, minerals, and nutritional supplements;
- v. Swimming pools, hot tubs, whirlpools and whirlpool equipment, and health club memberships;
- w. Lifting and tracking systems for transfer of persons supported;
- x. Supplies other than those supplies specifically required for the proper functioning of specialized medical equipment or assistive technology devices that are covered within the scope of this definition;
- y. Duplicate items of specialized medical equipment or assistive technology, excluding adaptive eating utensils and dishware, to provide the person supported with a backup or spare;
- z. Repair of equipment covered by warranty;
- aa. Physical modification of the interior or exterior of a place of residence; and
- bb. Physical modification of a motor vehicle or motor vehicle parts and services, including adaptive devices to facilitate driving.

Specialized Medical Equipment, Supplies and Assistive Technology is not intended to replace services available through the Medicaid State Plan/TennCare Program or services available under the Rehabilitation Act of 1973 or Individuals with Disabilities Education Act. To the extent that such services are covered, all applicable Medicaid State Plan/TennCare Program services shall be exhausted prior to using the waiver service.

Reimbursement shall be subject to approval of an itemized competitive bid as required in accordance with the Department's policy on submission of bids. If the requirement for an itemized competitive bid is applicable, documentation of an approved bid must be submitted with the request for the Specialized Medical Equipment, Supplies, and Assistive Technology or the request will be denied.

Specialized Medical Equipment, Supplies and Assistive Technology shall be limited to a maximum of \$10,000 per person supported per 2 waiver program years (calendar years).

The purchase price for waiver-reimbursed Specialized Medical Equipment, Supplies and Assistive Technology shall be considered to include the cost of the item as well as basic training on operation and maintenance of the item.

**Specify applicable (if any) limits on the amount, frequency, or duration of this service:**

Specialized Medical Equipment, Supplies and Assistive Technology shall be limited to a maximum of \$10,000 per service recipient per 2 waiver program years (i.e. calendar years).

Complete this part for a renewal application or a new waiver that replaces an existing waiver. Select one :

- ☒ Service is included in approved waiver. There is no change in service specifications.
- ☐ Service is included in approved waiver. The service specifications have been modified.

☐ **Service is not included in the approved waiver.**

**Service Definition (Scope):**

Behavior Services shall mean:

- a. Services to assess and ameliorate behavior that jeopardizes the health and safety of the person supported, that endangers others, or that prevents the person supported from being able to successfully participate in community activities; and
- b. Development, monitoring, and revision of behavior intervention strategies, including development of a Behavior Support Plan and staff instructions for caregivers who are responsible for implementation of prevention and intervention strategies; and
- c. The initial training of caregivers on the appropriate implementation of behavior intervention strategies, including the Behavior Support Plan (BSP) and staff instructions.

The BSP shall be developed through the person-centered planning process in collaboration with the person receiving the services, family members, the conservator if applicable and others selected by the person who will be supporting the person receiving the services, and responsible for implementing the BSP. Therapeutic goals and objectives shall be required for persons supported receiving Behavior Services.

Behavior Services shall not be billed when provided during the same time period as Physical Therapy, Occupational Therapy, Nutrition Services, Orientation and Mobility Services for Impaired Vision, or Speech, Language, and Hearing Services, unless there is documentation in the person's record of medical justification for the two services to be provided concurrently.

Behavior Services shall be provided by a Behavior Analyst face to face with the person supported except for:

- (a) Completion of the Behavior Assessment Report; and
- (b) Person supported-specific training of staff, except in instances when the Behavior Analyst can demonstrate appropriate interventions in real time; and

(c) Presentation of behavior information of the person supported at human rights committee meetings, behavior support committee meetings, and planning meetings related to the person supported. Reimbursement for presentation of behavior information related to the person supported at meetings shall be limited to a maximum of 5 hours per person supported per calendar year per provider.

Behavior assessments, behavior plan development, and presentations at meetings shall not be performed by Behavior Specialists. Behavior specialists are responsible for providing training, data collection and plan implementation but only behavior analysts can conduct a behavior assessment and develop the behavior support plan. Reimbursement for behavior assessments shall be limited to a maximum of 8 hours per assessment (32 qtr hour units per calendar year) with a maximum of 2 assessments per calendar year.

Reimbursement for behavior plan development resulting from such a behavior assessment and the training of staff on the plan during the first 30 calendar days following its approval for use shall be limited to a maximum of 6 hours (24 qtr hour units per calendar year). Reimbursement shall not be made for travel time to meetings and for telephone consultations, but may be made for consultations with treating the physician or psychiatrist during an office visit when the person supported is present.

Reimbursement for presentation of person supported behavior information at human rights committee meetings, behavior support committee meetings, and person supported planning meetings shall be limited to 5 hours per provider (20 qtr hour units per calendar year).

Behavior Services are not intended to replace services that would normally be provided by direct care staff or to replace services available through the Medicaid State Plan/TennCare Program, including psychological evaluations and psychiatric diagnostic interview examinations.

Behavior Services shall not be covered for children under age 21 years (since it would duplicate TennCare/EPSTD benefits).

**Specify applicable (if any) limits on the amount, frequency, or duration of this service:**

Reimbursement limits:

- \* 5 hours for presentations at meetings per calendar year;
- \* 2 assessments per calendar year;
- \* 8 hours per assessment for completion of the behavior assessment;
- \* 6 hours per assessment for behavior plan development and staff training during the first 30 calendar days following its approval.

- ☒ **Service is included in approved waiver. There is no change in service specifications.**
- ☐ **Service is included in approved waiver. The service specifications have been modified.**
- ☐ **Service is not included in the approved waiver.**

**Service Definition (Scope):**

Behavioral Respite Services shall mean short-term behavior-oriented services for a person supported who is experiencing a behavioral crisis that requires removal from the current residential setting in order to assist in resolving the behavioral crisis. Behavioral Respite Services providers shall also help to plan, coordinate, and prepare for the individual's transition back to his/her residential setting.

Behavioral Respite Services shall be provided in a setting staffed by individuals who have received training in the management of behavioral issues. Direct support staff must have received training in the prevention and management of crisis behavior. Behavioral Respite Services may be provided in a Medicaid-certified ICF/IID, in a licensed respite care facility, or in a home operated by a licensed residential provider. Behavioral Respite Services shall not be provided in a home where a person supported lives with family members unless such family members are also persons supported receiving Behavioral Respite Services. Family member shall be interpreted to mean the mother, father, grandmother, grandfather, sister, brother, son, daughter, or spouse, whether the relationship is by blood, by marriage, or by adoption.

The Behavioral Respite Services provider shall be responsible for providing an appropriate level of services and supports 24 hours per day during the hours the person supported is not at school, including behavioral supervision and intervention for aggressive or inappropriate behavior that jeopardizes the health and safety of the person supported or others. The Behavioral Respite Services provider shall oversee health care needs of the person supported. Behavioral Respite Services providers shall be responsible for the cost of any Day Services needed while the person supported is receiving Behavioral Respite Services.

Reimbursement for Behavioral Respite Services shall not include payment for Behavioral Respite Services provided by the spouse of a person supported. The Behavioral Respite Services provider and provider staff shall not be the parent or custodial grandparent of a person supported under age 18 years, whether the relationship is by blood, by marriage, or by adoption; and reimbursement shall not include payment for Behavioral Respite Services provided by such individuals.

With the exception of transportation to and from medical services covered through the Medicaid State Plan/TennCare Program and in accordance with TennCare protocol, transportation shall be a component of Behavioral Respite Services and shall be included in the reimbursement rate for such.

A person supported who is receiving Behavioral Respite Services shall not be eligible to receive Personal Assistance, Respite, or Day Services (which would duplicate services that are the responsibility of the Behavioral Respite Services provider).

Restraints shall not be used unless used in accordance with the Department's policy on use of restraints.

**Specify applicable (if any) limits on the amount, frequency, or duration of this service:**

Behavioral Respite Services shall be limited to a maximum of 60 days per person supported per waiver (i.e., calendar) year.

### C-1/C-3: Service Specification

State laws, regulations and policies referenced in the specification are readily available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

**Service Type:**

Other Service ▼

As provided in 42 CFR §440.180(b)(9), the State requests the authority to provide the following additional service not specified in statute.

**Service Title:**

Employment and Day Services

**HCBS Taxonomy:**

**Category 1:**

▼

**Sub-Category 1:**

**Category 2:**

▼

**Sub-Category 2:**

**Category 3:**

▼

**Sub-Category 3:**

**Category 4:**

▼

**Sub-Category 4:**

Complete this part for a renewal application or a new waiver that replaces an existing waiver. Select one :

- ☒ **Service is included in approved waiver. There is no change in service specifications.**
- ☐ **Service is included in approved waiver. The service specifications have been modified.**
- ☐ **Service is not included in the approved waiver.**

**Service Definition (Scope):**

Employment and Day Services shall mean individualized services and supports selected by the person supported, that help the person to seek employment and work in competitive integrated settings and engage in community life, based on his or her individualized needs and preferences and as reflected in the person-centered ISP, and to acquire, retain, or improve skills in the area of self-care, sensory/motor development, socialization, daily living skills, and communication, in order to pursue and achieve his or her personal employment and/or community living goals.

All individual employment and day services goals and objectives, along with needed supports shall be established through the person-centered planning process and documented in the person-centered ISP and shall include opportunities to seek employment and work in competitive integrated settings, engage in community life, and control personal resources, as applicable based on the needs and preferences of the individual.

Employment and Day Services shall be provided as specified in the person-centered ISP in order to support the individual's employment and/or community living activities, or the development, retention, and improvement of skills necessary to achieve employment and/or community living goals. Day Services may be provided to persons as a separate service where permitted under service specifications described in this waiver.

Supported Employment shall be the preferred option for all persons supported that are not of retirement age, based on each person's needs and preferences, and shall be provided in accordance with the following requirements:

- a. A job coach employed by the Day Services provider shall be on-site at the work location and shall support the person; or
- b. The Day Services provider shall oversee the person's supported employment services including on-site supervisors, and shall have a minimum of one contact per week with the person including at least one contact per month at the work site, and shall have a job coach employed by the Day Services provider who is available on-call if needed to go to the work site.

Community-based Day Services shall support each person's full engagement in community life, based on his or her individualized needs and preferences and as reflected in the person-centered ISP, and the acquisition, retention, or improvement of skills in the area of self-care, sensory/motor development, socialization, daily living skills, communication, and social skills in order to pursue and achieve his or her personal employment and/or community living goals. This includes assisting the person to build relationships and natural supports.

Community-based Day Services are designed such that the person spends the majority of his/her time, while participating in this service, actively engaged in activities in the community. Supervision, monitoring, training, education, demonstration, or support is provided to assist with the acquisition of skills in the following areas: leisure activities and community/public events, utilizing community resources (e.g. public transportation), acquiring and maintaining employment, educational activities, hobbies, unpaid work experiences (e.g. volunteer opportunities), and maintaining contact with family and friends.

Day Services may be provided in a facility setting only when selected by a person supported who needs time-limited pre-vocational training, when such training is not available on the job site, and to persons who, through their person-centered planning process choose to participate in a facility based program in order to focus on the development of individualized and specific skills that will support them in pursuing and achieving employment and/or community living goals. Facility-based day services must allow for opportunities for all persons supported to be engaged in the broader community when appropriate and be specified in the person-centered ISP. Opportunities to transition into more integrated settings, including competitive integrated employment, will be evaluated on at least an annual basis.

In-home Day Services are provided in the person's residence only if selected by the person supported because there is a health, behavioral, or other medical reason, or if the person has chosen retirement or is unable to participate in services outside the home.

#### Additional Requirements

Transportation of the person to and from the person's place of residence to the location where Day Services will be provided shall be the responsibility of the Employment or Day Services provider. With the exception of transportation to and from medical services covered through the Medicaid State Plan/TennCare Program and in accordance with TennCare protocol, transportation that is needed during the time that the person is receiving Day Services shall be the responsibility of the Day Services provider, and the cost of such transportation shall be considered to be included within the Day Services reimbursement rate.

Day Services shall not be provided in inpatient hospitals, nursing facilities, and Intermediate Care Facilities for Individuals with Intellectual Disabilities (ICFs/IID).

Day Services are not intended to replace services available through the Medicaid State Plan/TennCare program. Services provided by natural supports are not reimbursable and are excluded from reimbursement as part of this service.

Day Services shall not replace services available under a program funded by the Rehabilitation Act of 1973 or the Individuals with Disabilities Education Act. Day Services shall not be provided during the same time period that the person is receiving Personal Assistance Services, Respite Services, or services under a 504 Plan or Individual Education Program (IEP), is being homeschooled, or any combination thereof, or as a substitute for education services which are available pursuant to the Individual with Disabilities Education Act (IDEA), but which the person or his/her legal representative has elected to forego. Except for students who have graduated prior to May of 2014, Day Services for school aged persons (i.e., under the age of 22) are limited to regular school break periods.

The reimbursement for Supported Employment Day Services shall include incentive payments for vocational related specified, measurable outcomes such as:

- a. A one-time payment that is made to an Employment provider when an individual obtains employment as a result of that provider's direct involvement in the job placement.
- b. Stipends paid to employers that are passed through to individuals on the work site who, in addition to their regular job duties, function as a work place support for individuals served in the waiver.

c. A one-time payment that is made to an Employment provider when an individual has been employed consecutively for one year.

The reimbursement for Supported Employment Day Services shall not include incentive payments, subsidies, or unrelated vocational training expenses: such as,

- a. Incentive payments that would duplicate or replace milestone payments made by Vocational Rehabilitation.
- b. Incentive payments made to an employer to encourage or subsidize the employer's participation in a supported employment program.
- c. Payments that are passed through to users of supported employment programs.
- d. Payments for vocational training that is not directly related to a person's supported employment program.

**Specify applicable (if any) limits on the amount, frequency, or duration of this service:**

Day Services shall be limited to a maximum of 5 days per week up to a maximum of 243 days per person per calendar year. Family members who provide Day Services are required to implement services as specified in the Individual Support Plan (ISP). Reimbursement to family members shall be limited to forty (40) hours per week per family member for self-directed services as well as those delivered by contracted provider agencies. The person's Circle of Support is responsible for determining if the use of family members to deliver paid care is the best choice for the person supported and shall ensure that paid services do not supplant natural supports that would otherwise be provided at no cost to the Medicaid program.

Day Services shall be reimbursed in accordance with the requirements set forth herein. The provider may receive the per diem reimbursement for Day Services if:

- a. The person receives 6 hours of direct services, which may include, in accordance with requirements specified herein, combinations of Supported Employment, Community-based, Facility-based Day, and In-home Day Services.
- b. The person receives at least 2 hours of Day Services and there is documentation that the person was unable to complete the full 6 hours of Day Services for reasons beyond the provider's control (e.g., sickness of the person).

Reimbursement for a combination of different Day Services (e.g., supported employment, community-based, and/or facility-based; or community-based and/or facility-based in conjunction with in-home) provided on the same day shall be made in accordance with the following:

- a. If the person receives up to or in excess of 6 hours of a combination of Community-based and Facility-based Day Services, the reimbursement shall be the per diem reimbursement rate for the type of service provided for the greatest amount of time that day.
- b. If the person receives up to or in excess of 6 hours of a combination of Day services that includes Supported Employment, the reimbursement shall be the per diem reimbursement rate for Supported Employment Day Services.
- c. Only in the case of a person who has chosen retirement and to encourage the person's continued participation in community life, if the person receives at least 2 hours of Community-Based Day Services in order to participate in integrated community activities of his/her choosing, and chooses to receive some or all of the remainder of the 6 hours receiving In-home Day Services, the reimbursement shall be the per diem reimbursement rate for Community-Based Day Services.

State laws, regulations and policies referenced in the specification are readily available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

**Service Type:**

Other Service ▼

As provided in 42 CFR §440.180(b)(9), the State requests the authority to provide the following additional service not specified in statute.

**Service Title:**

Environmental Accessibility Modifications

**HCBS Taxonomy:**

**Category 1:**

**Sub-Category 1:**

**Category 2:****Sub-Category 2:**

**Category 3:****Sub-Category 3:**

**Category 4:****Sub-Category 4:**

Complete this part for a renewal application or a new waiver that replaces an existing waiver. Select one :

- ☒ **Service is included in approved waiver. There is no change in service specifications.**
- ☐ **Service is included in approved waiver. The service specifications have been modified.**
- ☐ **Service is not included in the approved waiver.**

**Service Definition (Scope):**

Environmental Accessibility Modifications shall only mean the following modifications to the place of residence of the person supported:

- a. Physical modifications to the interior of a place of residence to increase the mobility and accessibility within the residence of the person supported;
- b. Physical modifications to an existing exterior doorway of place of residence to increase the mobility and accessibility for entrance into and exit from the residence of the person supported;
- c. A wheelchair ramp and modifications directly related to, and specifically required for, the construction or installation of the ramp; or as an alternative to a wheelchair ramp, a platform lift (to lift wheelchairs) and modifications directly related to, and specifically required for, the installation of a platform lift for one entrance into the residence;
- d. Hand rails for exterior stairs or steps to increase the mobility and accessibility of the person supported for entrance into and exit from the residence; or
- e. Replacement of glass window panes with a shatterproof or break-resistant material when medically necessary based on a history of destructive behavior by the person supported.

The following are specifically excluded from coverage:

- a. Any adaptation or modification of the home which is of general utility and is not of direct medical or remedial benefit to the person supported;
- b. Any adaptation or modification which is considered to be general maintenance of the residence;
- c. Any physical modification to the exterior of the place of residence or lot of the person supported (e.g., driveways, sidewalks, fences, decks, patios, porches) that is not explicitly listed above as being covered;
- d. Any physical modification to garage doors for entry of vehicles;
- e. Any item that would be covered by the Medicaid State Plan/TennCare Program;
- f. Construction of an additional room or modification of an existing room which increases the total square footage of the residence;
- g. Construction of a new room within existing floor space (e.g., construction of an additional bathroom), including construction of new interior walls to subdivide existing rooms;
- h. A second or additional wheelchair ramp when there is a functional wheelchair ramp for one entrance into the residence of the person supported;
- i. A wheelchair ramp when there is a functional platform lift (to lift wheelchairs) for one entrance into the residence of the person supported; or a platform lift for entrance into the residence when there is a functional wheelchair ramp for one entrance into the residence;
- j. Platform lifts for use inside the place of residence of the person supported;
- k. Stairway lifts, stair glides, or elevators or the installation, repair, or replacement of stairway lifts, stair glides, or elevators;
- l. Repair or replacement of roofing or siding;
- m. Installation, repair, replacement, or painting of ceiling, walls, or floors or installation, repair, or replacement

of carpet or other flooring except:

- (1) When the need for such is directly related to and necessitated by another approved environmental accessibility modification (e.g., flooring or carpet repair when a doorway is widened); and
- (2) When the cost of such is included in the cost of the other approved environmental accessibility modification;

n. Rugs and floor mats;

o. Furniture, lamps, beds, mattresses, bedding, and over bed tables;

p. Water purifiers, air purifiers, vaporizers, dehumidifiers, and humidifiers;

q. Air conditioning or heating systems or units or the installation, repair, or replacement of air conditioning or heating systems or units;

r. Electrical generators; emergency electrical backup systems; batteries, or battery chargers;

s. Installation, repair, or replacement of electrical units or systems, except for the installation or replacement of electrical outlets which will be used for medical equipment;

t. Lights or lighting systems or the installation, repair, or replacement of lights or lighting systems; except for the installation or replacement of lights when the need for such is directly related to and necessary in order to complete another approved environmental accessibility modification;

u. Construction of additional exterior doorways or windows;

v. Any item that meets the waiver service definition of Specialized Medical Equipment, Supplies, and Assistive Technology;

w. Sprinklers and sprinkler systems; and

x. Costs for removing an Environmental Accessibility Modification in order to convert or otherwise restore the place of residence to its pre-existing condition (i.e., the condition before the modification was made).

Environmental Accessibility Modifications shall be recommended by a qualified health care professional (e.g., physician, occupational therapist, physical therapist).

To facilitate community transition of a Medicaid eligible person residing in an Intermediate Care Facility for Individuals with Intellectual Disabilities (ICF/IID) or other institutional setting who has been determined to qualify for HCBS waiver services upon discharge, Environmental Accessibility Modifications may be made to the place of residence of the persons supported during the last 180 consecutive days of the person's institutional stay prior to being discharged and enrolled in the waiver. In such cases, the Environmental Accessibility Modification will not be considered complete until the date the person leaves the ICF/IID or other institutional setting and is enrolled in the waiver, and such date shall be the date of service for billing purposes.

Environmental Accessibility Modifications shall be available only for newly enrolled waiver participants, including (but not limited to) persons transitioning to the community from an institutional setting, and existing waiver participants who have recently experienced a significant loss of mobility function.

Environmental Accessibility Modifications shall be limited to a maximum of \$15,000 per person supported per three (3) consecutive waiver program years (calendar years).

Reimbursement shall be subject to approval of an itemized competitive bid as required in accordance with the Department's policy on submission of bids. If the requirement for an itemized competitive bid is applicable, documentation of an approved bid must be submitted with the request for an Environmental Accessibility Modification or the request will be denied.

If the person supported does not own the place of residence, there must be written approval from the landlord for the Environmental Accessibility Modification to be approved. Such written approval must acknowledge that the person supported will not be responsible for the costs of removing an Environmental Accessibility Modification in order to convert or otherwise restore the place of residence to its pre-existing condition.

**Specify applicable (if any) limits on the amount, frequency, or duration of this service:**

Environmental Accessibility Modifications shall be limited to a maximum of \$15,000 per service recipient per three (3) consecutive waiver program years (i.e. calendar years).

**Provider Category:** **Provider Type:**

Individual carpenter or craftsman (including a family member)

**Provider Qualifications****License (specify):**

Individual carpenter or craftsman - Must be licensed in accordance with the requirements of the county or city where the service will be provided.

**Certificate (specify):**

N/A

**Other Standard (specify):**

Modifications requiring the skill of a carpenter, electrician, plumber, or other craftsman must be made by persons with sufficient skills and training to meet state and local building codes and standards.

The provider must meet the general requirements for all waiver service providers:

1. All providers shall be at least 18 years of age.
2. Staff who have direct contact with or direct responsibility for the service recipient shall be able to effectively read, write, and communicate verbally in English and shall be able to read and understand instructions, perform record-keeping, and write reports.
3. Any waiver service provider who is responsible for transporting a service recipient shall ensure that the driver has a valid driver's license and automobile liability insurance.
4. Staff who have direct contact with or direct responsibility for the service recipient shall pass a criminal background check performed in accordance with a process approved by the Department of Intellectual and Developmental Disabilities (DIDD).
5. Staff who have direct contact with or direct responsibility for the service recipient shall not be listed in the Tennessee Department of Health Abuse Registry or the Tennessee Sexual Offender Registry.
6. Waiver service providers shall not have been excluded from participation in the Medicare or Medicaid programs.
7. All providers must comply with TennCare-approved policies, procedures, and rules for waiver service providers, including quality monitoring requirements.

- ☐ **Service is not included in the approved waiver.**

**Service Definition (Scope):**

Individual Transportation Services shall mean non-emergency transport of a person supported to and from approved activities specified in the ISP. Whenever possible, immediate family members, friends who are involved in providing supports and community agencies who can provide this service without charge should be utilized.

The following transportation services are excluded from coverage:

- Transportation to and from medical services covered by the Medicaid State Plan/TennCare Program; and
- Transportation of school aged children to and from school; and
- Transportation to and from supported or competitive employment; and
- Transportation that is the responsibility of the provider of a residential service (e.g., Residential Habilitation, Medical Residential Services, Family Model Residential Support, or Supported Living) or that is the responsibility of the provider of Day Services or Behavioral Respite Services, since it would duplicate services that are the responsibility of such providers.

Individual Transportation Services shall not be provided by the spouse of a person supported and shall not be provided by the parent or custodial grandparent of a person supported under age 18 years, whether the relationship is by blood, by marriage, or by adoption, and reimbursement shall not be provided for Individual Transportation Services provided by such individuals.

Complete this part for a renewal application or a new waiver that replaces an existing waiver. Select one :

- ☒ **Service is included in approved waiver. There is no change in service specifications.**
- ☐ **Service is included in approved waiver. The service specifications have been modified.**
- ☐ **Service is not included in the approved waiver.**

**Service Definition (Scope):**

Orientation and Mobility Services for Impaired Vision shall mean services (1) to assess the orientation and mobility of a person supported to determine functional limitations resulting from severe visual impairment and (2) to provide orientation and mobility training to enable a person supported with functional limitations resulting from severe visual impairment to move with greater independence and safety in the home and community environment.

Orientation and Mobility Services for Impaired Vision shall be based on a formal assessment of the person supported and may include concept development (i.e. body image); motor development (i.e., motor skills needed for balance, posture and gait); sensory development (i.e. functioning of the various sensory systems); residual vision stimulation and training; techniques for travel (indoors and outdoors) including human guide technique, trailing, cane techniques, following directions, search techniques, utilizing landmarks, route planning, techniques for crossing streets, and use of public transportation; and instructional use of Low Vision devices.

Orientation and Mobility Services for Impaired Vision shall be provided by a Certified Orientation and Mobility Specialist (COMS) who is nationally certified through the Academy for Certification of Vision Rehabilitation and Education Professionals (ACVREP). Orientation and Mobility Services for Impaired Vision shall be provided face to face with the person supported except for training of caregivers responsible for assisting in the mobility of the person supported and except for that portion of the assessment involving development of the plan of care. Therapeutic goals and objectives shall be required for persons supported receiving Orientation and Mobility Services for Impaired Vision. Continuing approval of Orientation and Mobility Services for Impaired Vision shall require documentation of reassessment of the condition and continuing progress of the person supported toward meeting the goals and objectives.

Orientation and Mobility Services for Impaired Vision shall not be billed when provided during the same time period as Physical Therapy, Occupational Therapy, Nutrition Services, Behavior Services, or Speech, Language, and Hearing Services, unless there is documentation in the record of medical justification of the person supported for the two services to be provided concurrently.

Orientation and Mobility Services for Impaired Vision shall not replace services available under a program funded by the Rehabilitation Act of 1973 or Individuals with Disabilities Education Act.

The unit of reimbursement for an Orientation and Mobility Services for Impaired Vision assessment with plan development shall be per day. The unit of reimbursement for other Orientation and Mobility Services for Impaired Vision shall be per 15 minutes.

Reimbursement for an Orientation and Mobility Services for Impaired Vision assessment with development of the plan based on such an assessment shall be limited to a maximum of one assessment with plan development per month with a maximum of 3 assessments per calendar year per person supported per provider. Orientation and Mobility Services for Impaired Vision assessments shall not be billed on the same day with other Orientation and Mobility Services for Impaired Vision services. Orientation and Mobility Services for Impaired Vision services other than such assessments (e.g., person supported training; person supported-specific training of caregivers), which shall be reimbursed on a per diem basis, shall be limited to a maximum of 52 hours of services per person supported per calendar year. Reimbursement shall not be made for telephone consultations. A provider shall not receive reimbursement for Orientation and Mobility Services for Impaired Vision unless provided by a Certified Orientation and Mobility Specialist (COMS) who is nationally certified through the Academy for Certification of Vision Rehabilitation and Education Professionals (ACVREP).

**Specify applicable (if any) limits on the amount, frequency, or duration of this service:**

Reimbursement limits:

- \* 1 assessment with plan development per month;
- \* 3 assessments per year per enrollee per provider; and
- \* 52 hours of non-assessment services per calendar year.

- ☒ **Service is included in approved waiver. There is no change in service specifications.**
- ☐ **Service is included in approved waiver. The service specifications have been modified.**
- ☐ **Service is not included in the approved waiver.**

**Service Definition (Scope):**

Personal Assistance shall mean a type of service, selected by the person supported, offering individualized services and supports that enable the person to live in the community in a setting of their choice and which supports each person's independence, rights, and full inclusion in the community; and ensures each resident's choice and rights. Personal Assistance services shall be delivered in a manner that comports fully with standards applicable to HCBS settings delivered under Section 1915(c) of the Social Security Act, except as supported by the individual's specific assessed need and set forth in the person-centered ISP.

All individual goals and objectives, along with needed supports shall be established through the person-centered planning process and documented in the person-centered ISP and shall include opportunities to seek employment and work in competitive integrated settings, engage in community life, and control personal resources, as applicable based on the needs and preferences of the individual. Supports may include of direct assistance as needed with, participating in, and learning how to complete independently activities of daily living (e.g., bathing, dressing, personal hygiene, feeding/assistance with eating, meal preparation excluding cost of food, toileting and incontinence care, assistance with transfer and mobility), household chores essential to the health and safety of the person supported (e.g., washing dishes; personal laundry; general housecleaning in areas of the residence used by the person supported); budget management (which shall include supporting the individual in managing his/her personal funds, as appropriate), supervising and accompanying the person supported to medical appointments if needed, and on personal errands such as grocery shopping, picking up prescriptions, paying bills; and trips to the post office. Supports shall be provided in a manner which ensures an individual's rights of privacy, dignity, respect and freedom from coercion and restraint; and which optimizes individual initiative, autonomy, and independence in making life choices.

Personal Assistance may include medication administration as permitted under Tennessee's Nurse Practice Act and performance of other non-complex health maintenance tasks, as permitted by State law.

Personal Assistance is a service that is provided for the direct benefit of the person supported. It is not a service that provides direct assistance to other members of the household (e.g., preparation of meals for the family, family laundry) who are not persons supported through the waiver. Personal Assistance staff shall not provide

any personal assistance services to family members of the person supported, unless such family members are also supported through the waiver residing in the same home (e.g., when 2 siblings in the home are both waiver participants).

A single staff person may provide Personal Assistance services to more than one individual residing in the same home at the same time, provided each person's needs can be safely and appropriately met. When Personal Assistance is provided as a shared service for 2 or more family members residing in the same home (regardless of funding source), the total number of units of shared Personal Assistance shall be apportioned based on an assessment of individual need and the apportioned amount included in the ISP for each waiver participant, as applicable. Only one unit of service will be billed for each unit of service provided, regardless of the number of persons supported. Documentation of service delivery must be kept for each person supported and shall reflect the total number of shared units of service provided, and the tasks performed/assistance provided for that individual.

Personal Assistance is often delivered in the place of residence of the person supported; however, it may be provided outside the person supported home in community-based settings where the Personal Assistance provider accompanies the person supported to perform tasks and functions in accordance with the approved service definition and as specified in the person-centered ISP. Personal Assistance does not include routine provision of Personal Assistance services in an area outside the person's local community of residence. On an infrequent and exceptional basis and in accordance with the approved person-centered ISP, Personal Assistance services may be provided in an area outside the person's local community of residence.

Personal Assistance may be provided in the home or community; however, it shall not be provided in schools for school-age children, to replace personal assistance or similar services required to be covered by schools, to transport or otherwise take children to or from school, or to replace services available through the Medicaid State Plan/TennCare Program. Personal Assistance services shall not be provided in the home of the Personal Assistant, except (1) when the person supported lives in the home with the Personal Assistant or (2) on an infrequent and exceptional basis when the person supported is attending a special event (e.g., a party) that is held in the home of the Personal Assistant. Services provided in the Personal Assistant's home must be specified and in accordance with the approved person-centered ISP.

Personal Assistance may be provided during the day or night, as specified in the person-centered ISP. A person supported who is receiving a residential service (i.e., Supported Living, Residential Habilitation, Medical Residential Services, or Family Model Residential Support) shall not be eligible to receive Personal Assistance. Individuals receiving Personal Assistance services may choose to receive services in a shared living arrangement with other persons who need differing levels of support, differing types of waiver services, or who participate in different HCBS programs, as permitted in state licensure law and regulation, as long as there is a willing, qualified provider who can safely meet the needs of each resident in the home.

Personal Assistant Services shall not be provided during the same time period that the person supported is receiving Day Services, Respite Services, services under a 504 Plan or Individual Education Program (IEP), is being homeschooled, or any combination thereof or as a substitute for education services which are available pursuant to IDEA, but which the person or his representative has elected to forego.

This service shall not be provided in inpatient hospitals, nursing facilities, and Intermediate Care Facilities for Individuals with Intellectual Disabilities (ICFs/IID). Personal Assistance shall not be provided in a licensed facility (e.g., a group home, boarding home, or assisted living home) when the facility's licensure category requires the provision of personal assistance or personal care services.

Family members who provide Personal Assistance must meet the same standards as providers who are unrelated to the person supported. The Personal Assistant shall not be the spouse of a person supported and shall not be the parent or custodial grandparent of a person supported under age 18 years, whether the relationship is by blood, by marriage, or by adoption; and reimbursement shall not include payment for Personal Assistance provided by such individuals. Reimbursement shall not be made to any other individual who is a conservator unless so permitted in the Order for Conservatorship.

Family members are required to implement services as specified in the person-centered ISP. Reimbursement to family members shall be limited to forty hours per week per family member. The person's Circle of Support is responsible for determining if the use of family members to deliver paid care is the best choice for the person supported and shall ensure that paid services do not supplant natural supports that would otherwise be provided at no cost to the Medicaid program.

The unit of reimbursement for Personal Assistance services shall be 15 minutes.

The Personal Assistance provider is not obligated to provide transportation for the person supported as part of the Personal Assistance service; however, a Personal Assistance provider who is also an Individual Transportation Services provider may bill for Individual Transportation Services for transport of the person supported into the community.

Personal Assistance may be provided out-of-state under the following circumstances:

- a. Out-of-state services shall be subject to the same monthly limitation as Personal Assistance services provided in-state and in addition, are limited to a maximum of 14 days of service per person supported per waiver program year (calendar year), regardless of the number of hours of service provided each day.
- b. The waiver service provider agency must be able to assure the health and safety of the person supported during the period when services will be provided out-of-state and must be willing to assume the additional risk and liability of provision of services out-of-state (i.e., provision of out-of-state services is at the discretion of the service provider).
- c. During the period when out-of-state services are being provided, the waiver service provider agency must maintain an adequate amount of staffing (including services of a nurse if applicable) to meet the needs of the person supported and must ensure that staff meet waiver provider qualifications.
- d. The waiver service provider agency shall not receive any additional reimbursement for provision of services out-of-state. The costs of travel, lodging, food, and other expenses incurred by staff during the provision of out-of-state services shall not be reimbursed through the waiver. The costs of travel, lodging, food, and other expenses incurred by the person supported while receiving out-of-state services shall be the responsibility of the person supported and shall not be reimbursed through the waiver.

**Specify applicable (if any) limits on the amount, frequency, or duration of this service:**

Personal Assistance services shall be limited to a maximum of 860 units (215 hours) per waiver participant per month. Out of state Personal Assistance services are subject to the same monthly limitation, and in addition, are limited to a maximum of 14 days per waiver participant per waiver program year (i.e. calendar year).

Reimbursement to family members shall be limited to forty hours per week per family member for self-directed services as well as those delivered by contracted provider agencies.

**Service Type:** Other Service

**Service Name:** Personal Assistance

**Provider Category:**

Agency ▼

**Provider Type:**

Home care organization

**Provider Qualifications**

**License** (*specify*):

Home care organization - Must be licensed as a home care organization in Tennessee (TDH Rule 1200-8-8-.01)

**Certificate** (*specify*):

N/A

**Other Standard** (*specify*):

The provider must meet the general requirements for all waiver service providers:

1. All providers shall be at least 18 years of age.
2. Staff who have direct contact with or direct responsibility for the service recipient shall be able to effectively read, write, and communicate verbally in English and shall be able to read and understand instructions, perform record-keeping, and write reports.
3. Any waiver service provider who is responsible for transporting a service recipient shall ensure that the driver has a valid driver's license and automobile liability insurance.
4. Staff who have direct contact with or direct responsibility for the service recipient shall pass a criminal background check performed in accordance with a process approved by the Department of Intellectual and Developmental Disabilities (DIDD).
5. Staff who have direct contact with or direct responsibility for the service recipient shall not be listed in the Tennessee Department of Health Abuse Registry or the Tennessee Sexual Offender Registry.
6. Waiver service providers shall not have been excluded from participation in the Medicare or Medicaid programs.
7. All providers must comply with TennCare-approved policies, procedures, and rules for waiver service providers, including quality monitoring requirements.

- ☐ **Service is not included in the approved waiver.**

**Service Definition (Scope):**

A Personal Emergency Response System shall mean a stationary or portable electronic device used in the place of residence of the person supported which enables the person supported to secure help in an emergency. The system shall be connected to a response center staffed by trained professionals who respond upon activation of the electronic device. The system shall be limited to those who are alone for parts of the day and who have demonstrated mental and physical capability to utilize such a system effectively.

A Personal Emergency Response System shall consist of installation and testing of the Personal Emergency Response System as well as monthly monitoring performed by a response center.

**Specify applicable (if any) limits on the amount, frequency, or duration of this service:**

Monitoring is limited to 1 unit/month (12 units/calendar year) maximum.

**Service Type:**

Other Service ▼

As provided in 42 CFR §440.180(b)(9), the State requests the authority to provide the following additional service not specified in statute.

**Service Title:**

Semi-Independent Living Services

**HCBS Taxonomy:**

**Category 1:**

▼

**Sub-Category 1:**

**Category 2:**

▼

**Sub-Category 2:**

**Category 3:**

▼

**Sub-Category 3:**

**Category 4:**

▼

**Sub-Category 4:**

*Complete this part for a renewal application or a new waiver that replaces an existing waiver. Select one :*

- ☒ **Service is included in approved waiver. There is no change in service specifications.**
- ☐ **Service is included in approved waiver. The service specifications have been modified.**
- ☐ **Service is not included in the approved waiver.**

**Service Definition (Scope):**

Semi-Independent Living Services (SILS) shall mean services selected by the person supported that include training and assistance in managing money, preparing meals, shopping, personal appearance and hygiene, interpersonal and social skills building, and other activities needed to maintain and improve the capacity of an individual with an intellectual disability to live in the community, and which supports the person's independence

and full integration into the community, ensures the person's choice and rights, and comports fully with standards applicable to HCBS settings delivered under Section 1915(c) of the Social Security Act, except as supported by the individual's specific assessed need and set forth in the person-centered Individual Support Plan (ISP).

The service also includes oversight and assistance in managing self-administered medication and/or medication administration as permitted under Tennessee's Nurse Practice Act and performance of other non-complex health maintenance tasks, as permitted by State law. The SILS provider shall oversee the health care needs of the person supported.

This service is appropriate for people who need intermittent or limited support to remain in their own home and do not require staff that lives on-site. However, access to emergency supports as needed from the provider on a 24/7 basis is an essential component of this residential service and is what differentiates it from Personal Assistance services.

Individuals receiving SILS may choose to receive services in a shared living arrangement with other persons who need differing levels of support, differing types of waiver services, or who participate in different HCBS programs, as permitted in state licensure law and regulation, as long as there is a willing, qualified provider who can safely meet the needs of each resident in the home. No more than 3 persons receiving services will be permitted per residence. All individual goals and objectives, along with needed supports shall be established through the person-centered planning process and documented in the person-centered ISP and shall include opportunities to seek employment and work in competitive integrated settings, engage in community life, and control personal resources, as applicable based on the needs and preferences of the individual. Supports shall be provided in a manner which ensures an individual's rights of privacy, dignity, respect and freedom from coercion and restraint; and which optimizes individual initiative, autonomy, and independence in making life choices. The Circle of Support must consider the person's level of independence and safety prior to establishing a semi-independent living arrangement. Safety considerations must be reviewed at least annually (and more often should a change of needs or circumstances warrant). Consideration regarding the use of a Personal Emergency Response System should be given when appropriate. The ISP must reflect the routine supports that will be provided by residential staff.

The person may choose to live with one or two other persons supported and share expenses or to live alone as long as sufficient financial resources are available to do so.

Reimbursement for SILS shall not include the cost of maintenance of the dwelling. Residential expenses (e.g., phone, cable TV, food, rent) shall be apportioned between the person(s) supported and other residents in the home (if applicable).

A person who is receiving SILS shall not be eligible to receive Personal Assistance, Respite or Transportation as separate services. With the exception of transportation to and from medical services covered through the Medicaid State Plan/TennCare Program, transportation shall be a component of SILS and shall be included in the reimbursement rate for such.

The SILS provider shall not own the person's place of residence or be a co-signer of a lease on the person's place of residence unless the provider signs a written agreement with the person that states that the person will not be required to move if the primary reason is because the person desires to change to a different provider. The SILS provider shall not own, be owned by, or be affiliated with any entity that leases or rents a place of residence to a person supported if such entity requires, as a condition of renting or leasing, the person to move if the person desires to change to a different provider.

SILS shall not be provided in inpatient hospitals, nursing facilities, and Intermediate Care Facilities for individuals with Intellectual Disabilities (ICFs/IID). A family member(s) of the person supported shall not be reimbursed to provide SILS. SILS shall not be provided in a home where a person supported lives with family members unless such family members are also persons receiving waiver services. Family member shall be interpreted to mean the mother, father, grandmother, grandfather, sister, brother, son, daughter, or spouse, whether the relationship is by blood, by marriage, or by adoption.

On a case-by-case basis, the DIDD Commissioner or designee may authorize SILS for a person supported who resides with his or her spouse and or minor children.

SILS shall not be provided out-of-state.

A minimum of two face-to-face direct service visits in the home per week are required for each person receiving SILS. However, providers delivering this service are required to implement provisions for availability of provider staff on a 24 hour basis in case emergency supports are needed.

SILS providers are required to be licensed as Mental Retardation (i.e., Intellectual Disabilities) Semi-Independent Living Providers.

**Specify applicable (if any) limits on the amount, frequency, or duration of this service:**

## **Appendix C: Participant Services**

### **C-1: Summary of Services Covered (2 of 2)**

- b. Provision of Case Management Services to Waiver Participants.** Indicate how case management is furnished to waiver participants (*select one*):

- ☐ **Not applicable** - Case management is not furnished as a distinct activity to waiver participants.
- ☒ **Applicable** - Case management is furnished as a distinct activity to waiver participants.

*Check each that applies:*

- ☐ **As a waiver service defined in Appendix C-3. Do not complete item C-1-c.**
- ☐ **As a Medicaid State plan service under §1915(i) of the Act (HCBS as a State Plan Option). Complete item C-1-c.**
- ☐ **As a Medicaid State plan service under §1915(g)(1) of the Act (Targeted Case Management). Complete item C-1-c.**
- ☒ **As an administrative activity. Complete item C-1-c.**

- c. Delivery of Case Management Services.** Specify the entity or entities that conduct case management functions on behalf of waiver participants:

All participants in the Self Determination Waiver Program will have a case manager (employed by DIDD) assigned by DIDD. Responsibilities include facilitating the development of the ISP; ensuring that services are initiated within required timeframes; providing an orientation to self-determination; continuously reviewing the participant's budget; ongoing monitoring of the implementation of the ISP; and submitting requests for alternative emergency back-up services.

DIDD case managers shall also be responsible for coordination with the person's Managed Care Organization when a person will transition into the Employment and Community First CHOICES program.

## **Appendix C: Participant Services**

### **C-2: General Service Specifications (1 of 3)**

- a. Criminal History and/or Background Investigations.** Specify the State's policies concerning the conduct of criminal history and/or background investigations of individuals who provide waiver services (*select one*):

- ☐ **No. Criminal history and/or background investigations are not required.**
- ☒ **Yes. Criminal history and/or background investigations are required.**

Specify: (a) the types of positions (e.g., personal assistants, attendants) for which such investigations must be conducted; (b) the scope of such investigations (e.g., state, national); and, (c) the process for ensuring that mandatory investigations have been conducted. State laws, regulations and policies referenced in this description are available to CMS upon request through the Medicaid or the operating agency (if applicable):

Any staff person who has direct contact with or direct responsibility for the person supported must pass a criminal background check performed in accordance with a process approved by the Department of Intellectual

and Developmental Disabilities (DIDD) and must not be listed on the Tennessee Department of Health Abuse Registry, the Tennessee Sexual Offender Registry, the Tennessee Felony Offender List, or the Office of Inspector General List of Excluded Individuals and Entities.

A statewide criminal background check is performed by the Tennessee Bureau of Investigation or a Tennessee-licensed private investigation company. If the staff person has resided in Tennessee for one year or less, a nationwide criminal background check is required in accordance with DIDD requirements.

During Qualified Provider Reviews conducted by DIDD, the provider's personnel files are reviewed to ensure that there is documentation that the mandatory background and registry checks have been conducted on potential staff who will have direct contact with or direct responsibility for the person supported.

- b. Abuse Registry Screening.** Specify whether the State requires the screening of individuals who provide waiver services through a State-maintained abuse registry (select one):

- ☐ **No. The State does not conduct abuse registry screening.**
- ☒ **Yes. The State maintains an abuse registry and requires the screening of individuals through this registry.**

Specify: (a) the entity (entities) responsible for maintaining the abuse registry; (b) the types of positions for which abuse registry screenings must be conducted; and, (c) the process for ensuring that mandatory screenings have been conducted. State laws, regulations and policies referenced in this description are available to CMS upon request through the Medicaid agency or the operating agency (if applicable):

The Tennessee Department of Health maintains the State's Abuse Registry under the authority of T.C.A. 68-11-1001, et seq.

The provider agreement requires that each provider have background and registry checks completed for all new employees whose responsibilities include direct care for a person supported and any current employees who have a change in job responsibilities to include direct care for a person supported, prior to, but no more than 30 calendar days in advance of, employment or a change in duties. This requirement includes specifically: (1) an appropriate background check completed by either the Tennessee Bureau of Investigation or a company licensed by the state to conduct such checks; (2) a check of the Tennessee Department of Health Abuse Registry; (3) a check of the Tennessee Sexual Offender Registry; (4) a check of the Tennessee Felony Offender List; and (5) a check of the Office of Inspector General List of Excluded Individuals and Entities.

The process for ensuring that these checks have been completed appropriately and timely is part of the quality assurance survey process set forth in the waiver application (see performance measure a.i.a.6.). During the provider performance review, determination is made as to the provider's compliance with the above requirements through a check of personnel records for all new employees and employees with a change in job responsibilities to include direct care for a person supported (existing employees would have already been verified). Should there be any deficiencies in a provider's performance within this area, the provider is required to correct the deficiencies within 30 calendar days of discovery. DIDD collects data regarding compliance with these requirements and remediation of deficiencies, and reports monthly to TennCare in performance measure compliance reports. Furthermore, DIDD conducts monthly checks of the Office of Inspector General List of Excluded Individuals and Entities for all providers and sends the monthly reports directly to TennCare Program Integrity.

## Appendix C: Participant Services

### C-2: General Service Specifications (2 of 3)

- c. Services in Facilities Subject to §1616(e) of the Social Security Act. *Select one:***

- ☒ **No. Home and community-based services under this waiver are not provided in facilities subject to §1616 (e) of the Act.**
- ☐ **Yes. Home and community-based services are provided in facilities subject to §1616(e) of the Act. The standards that apply to each type of facility where waiver services are provided are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).**

## Appendix C: Participant Services

## C-2. General Service Specifications (6 of 7)

- d. **Provision of Personal Care or Similar Services by Legally Responsible Individuals.** A legally responsible individual is any person who has a duty under State law to care for another person and typically includes: (a) the parent (biological or adoptive) of a minor child or the guardian of a minor child who must provide care to the child or (b) a spouse of a waiver participant. Except at the option of the State and under extraordinary circumstances specified by the State, payment may not be made to a legally responsible individual for the provision of personal care or similar services that the legally responsible individual would ordinarily perform or be responsible to perform on behalf of a waiver participant. *Select one:*

- ☒ **No. The State does not make payment to legally responsible individuals for furnishing personal care or similar services.**
- ☐ **Yes. The State makes payment to legally responsible individuals for furnishing personal care or similar services when they are qualified to provide the services.**

Specify: (a) the legally responsible individuals who may be paid to furnish such services and the services they may provide; (b) State policies that specify the circumstances when payment may be authorized for the provision of *extraordinary care* by a legally responsible individual and how the State ensures that the provision of services by a legally responsible individual is in the best interest of the participant; and, (c) the controls that are employed to ensure that payments are made only for services rendered. *Also, specify in Appendix C-1/C-3 the personal care or similar services for which payment may be made to legally responsible individuals under the State policies specified here.*

☐ **Self-directed**

☐ **Agency-operated**

- e. **Other State Policies Concerning Payment for Waiver Services Furnished by Relatives/Legal Guardians.** Specify State policies concerning making payment to relatives/legal guardians for the provision of waiver services over and above the policies addressed in Item C-2-d. *Select one:*

- ☐ **The State does not make payment to relatives/legal guardians for furnishing waiver services.**
- ☐ **The State makes payment to relatives/legal guardians under specific circumstances and only when the relative/guardian is qualified to furnish services.**

Specify the specific circumstances under which payment is made, the types of relatives/legal guardians to whom payment may be made, and the services for which payment may be made. Specify the controls that are employed to ensure that payments are made only for services rendered. *Also, specify in Appendix C-1/C-3 each waiver service for which payment may be made to relatives/legal guardians.*

- ☒ **Relatives/legal guardians may be paid for providing waiver services whenever the relative/legal guardian is qualified to provide services as specified in Appendix C-1/C-3.**

Specify the controls that are employed to ensure that payments are made only for services rendered.

The State prohibits legally responsible persons as defined in d. above from being paid to provide waiver services. In addition, reimbursement for the provision of waiver services shall not be made to any individual who is a conservator unless so permitted in the Order of Conservatorship [T.C.A.1200-13-1-.25(3)].

Family members other than the spouse, or the parent or custodial grandparent if the person supported is a minor child, may be employed by a person electing to self-direct such service or by a provider agency selected by the person supported to provide waiver services, including Personal Assistance.

Family members who provide Personal Assistance or any other waiver service as permitted in accordance with the waiver service definition must meet the same standards as staff who are unrelated to the person supported. This requirement includes implementing services as specified in the ISP, and documentation of service delivery to support services billed.

Such service providers are subject to review by both DIDD and the State Medicaid Agency. Family members who are employed by persons supported, or who are providers or are employed by providers are expected to abide by all applicable state and federal guidelines, as well as all policies administered by either DIDD or the State Medicaid Agency.

Documentation of services delivered by a family member is reviewed as part of the Medicaid Agency's Utilization Review process and the DIDD FAR Audit process, as applicable, as well as the Quality Assurance process which assures that services are delivered as specified in the plan of care (i.e., ISP).

For waiver services that are self-directed, the invoice for waiver services is signed off on by the participant and is submitted to the financial management services company. The Support Broker, as well as the Case Manager, provide oversight and monitoring of the implementation of the ISP, and help to ensure that services are delivered as specified in the ISP.

Reimbursement to family members shall be limited to forty hours per week per family member across all waiver services. Regardless of who is being paid to provide services, the needs assessment should include a review of existing natural supports in order to identify the waiver services that are needed to support, but not supplant, care that is already in place from family caregivers and others, and that can continue to be provided at no cost to the Medicaid program. The person supported, working with his/her Circle of Support, as desired and appropriate, is responsible for determining if the use of family members to deliver his/her paid care is the best choice for him or herself.

☐ **Other policy.**

Specify:

- f. Open Enrollment of Providers.** Specify the processes that are employed to assure that all willing and qualified providers have the opportunity to enroll as waiver service providers as provided in 42 CFR §431.51:

TennCare and the Department of Intellectual and Developmental Disabilities (DIDD) allow for enrollment of all willing and qualified providers of waiver services during recruitment cycles. The DIDD website provides information to interested providers regarding the DIDD enrollment process, which includes obtaining a provider application, Applicant Forums and information regarding Open and Targeted Enrollment (recruitment cycles). Information regarding the provider enrollment process, provider qualifications for waiver services and other helpful information is also available to prospective services on the DIDD website and by contacting designated staff at DIDD whose contact information is posted online. All information and forms mentioned are available at all times to potential providers. All applications submitted by providers are reviewed by DIDD and submitted to TennCare for enrollment as a waiver provider if the specified qualifications are met.

Prospective providers are given the opportunity to respond to any questions or additional information requested to complete the application. DIDD staff are available to address any questions the prospective provider may have regarding the application process.

In addition to the provider qualifications specified in Appendix C-1 for each HCBS service, the following general requirements apply to all providers of waiver services:

- All providers shall be at least 18 years of age.
- Staff who have direct contact with or direct responsibility for the person supported shall be able to effectively read, write, and communicate verbally in English and shall be able to read and understand instructions, perform record-keeping, and write reports.
- Any waiver service provider who is responsible for transporting a person supported shall ensure that the driver has a valid driver's license and current automobile liability insurance.
- Staff who have direct contact with or direct responsibility for the person supported shall pass a criminal background check performed in accordance with a process approved by DIDD.

- Staff who have direct contact with or direct responsibility for the person supported shall not be listed in the Tennessee Department of Health Abuse Registry, the Tennessee Sexual Offender Registry, the Tennessee Felony Offender List, or the Office of Inspector General List of Excluded Individuals and Entities.
- Waiver service providers shall not have been excluded from participation in the Medicare or Medicaid programs.
- All providers must comply with TennCare-approved policies, procedures, and rules for waiver service providers, including quality monitoring requirements.

## Appendix C: Participant Services

### Quality Improvement: Qualified Providers

*As a distinct component of the State's quality improvement strategy, provide information in the following fields to detail the State's methods for discovery and remediation.*

#### a. Methods for Discovery: Qualified Providers

*The state demonstrates that it has designed and implemented an adequate system for assuring that all waiver services are provided by qualified providers.*

##### i. Sub-Assurances:

- a. *Sub-Assurance: The State verifies that providers initially and continually meet required licensure and/or certification standards and adhere to other standards prior to their furnishing waiver services.*

#### Performance Measures

*For each performance measure the State will use to assess compliance with the statutory assurance, complete the following. Where possible, include numerator/denominator.*

*For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.*

#### Performance Measure:

**a.i.a.1. # & % of approved new providers who met all applicable qualifications (e.g., licensure/certification, background and registry checks, references) prior to service provision. % = # of newly approved providers meeting all qualifications / total # of newly approved providers.**

- ii. If applicable, in the textbox below provide any necessary additional information on the strategies employed by the State to discover/identify problems/issues within the waiver program, including frequency and parties responsible.

**b. Methods for Remediation/Fixing Individual Problems**

- i. Describe the State's method for addressing individual problems as they are discovered. Include information regarding responsible parties and GENERAL methods for problem correction. In addition, provide information on the methods used by the State to document these items.
- Performance Measures a.i.a.1.: Providers who do not meet the requirements specified in these performance measures will not be allowed to sign a Provider Agreement, enroll in the DIDD and/or TennCare MMIS claims processing systems, or receive payment for services rendered. Applications that do not meet requirements will be denied. Written denials of provider applications will indicate which requirements have not been met and advise that the provider may reapply for consideration with additional documentation that such requirements have been met.

Performance Measure a.i.a.4.: When DIDD identifies that an existing provider has not maintained required licensure/certification, DIDD will notify TennCare within two (2) working days so that funds may be recouped for payment of any past period during which services were billed while the provider qualifications were not met. The Provider Agreement will be terminated unless proof of licensure/certification is submitted to DIDD within 30 days of the date the issue was identified. The provider will not be eligible for payment of claims until licensure/certification issues are resolved.

Performance Measures a.i.a.5. through a.i.a.8: DIDD will review a sample of provider agency staff personnel records during Qualified Provider Reviews. A Qualified Provider Review will be conducted with the contracted fiscal management agency annually. For individual direct support staff who did not have required background/registry checks at the time of the Qualified Provider Review, DIDD will request that the background and/or registry check be initiated during the review. Designated DIDD Regional Office staff will be responsible for verifying that the background/registry check was obtained and reviewing the results. If staff did not pass the background/registry check, DIDD will require the provider agency or fiscal management agency to take appropriate personnel action(s), and designated DIDD Regional Office staff will verify that appropriate action was taken within 30 days of the provider's receipt of the completed background check. For staff in the sample who commit a serious criminal offense during the course of employment, DIDD will determine if the provider agency or fiscal management agency took appropriate action, or if action is pending, will verify that action was taken within 30 days of discovery. Failure to obtain background or registry checks in accordance with state law and DIDD requirements and/or failure to take appropriate personnel actions may result in sanctions, including institution of a moratorium on serving new waiver participants currently enrolled in the program.

Performance Measures a.i.a.10. through a.i.a.11: DIDD will review a sample of staff personnel records during Qualified Provider Reviews. For individual direct support staff who did not meet waiver general qualifications, DIDD will notify the provider or fiscal management agency and request that appropriate personnel action be taken, which may include termination of the employee, ensuring that the employee acquire the skills needed to meet general requirements, or reassignment to a non-contact position. Designated DIDD Regional Office staff will be responsible for verifying that the appropriate actions were taken within 30 days of discovery.

Performance Measure a.i.b.1.: Non-licensed/non certified providers who do not meet provider qualifications will be subject to termination of their Provider Agreement unless identified issues can be resolved within 30 days of the date of discovery. DIDD will notify TennCare within two (2) working days of any lapse in meeting provider qualifications, so that payment may be recouped for services reimbursed during the time period when qualifications were not met. The provider will not be able to receive reimbursement for additional services provided prior to the date when provider qualification issues are resolved.

Individual Remediation Data Aggregation: DIDD has developed a data flow document which identifies data collection, reporting, and aggregation tasks that must be completed to generate the required reports for submission to TennCare. For each task, due dates are specified. Responsible DIDD staff and back-up staff are identified for each task. Designated DIDD Central Office staff compile the data collected and entered by regional and central office staff into DIDD databases to create data files that are posted for TennCare analysis and aggregation. In addition, DIDD generates a Quality Management Report using the data collected and reported. The Quality Management Report is submitted to TennCare each month and information contained therein is reviewed during monthly Statewide Continuous Quality Improvement Committee Meetings.

ii. **Remediation Data Aggregation**

**Remediation-related Data Aggregation and Analysis (including trend identification)**

Responsible Party( <i>check each that applies</i> ):	Frequency of data aggregation and analysis( <i>check each that applies</i> ):
<input type="checkbox"/> State Medicaid Agency	<input type="checkbox"/> Weekly

## Appendix C: Participant Services

### C-3: Waiver Services Specifications

Section C-3 'Service Specifications' is incorporated into Section C-1 'Waiver Services.'

## Appendix C: Participant Services

### C-4: Additional Limits on Amount of Waiver Services

- a. **Additional Limits on Amount of Waiver Services.** Indicate whether the waiver employs any of the following additional limits on the amount of waiver services (*select one*).

- ☐ **Not applicable-** The State does not impose a limit on the amount of waiver services except as provided in Appendix C-3.
- ☒ **Applicable -** The State imposes additional limits on the amount of waiver services.

When a limit is employed, specify: (a) the waiver services to which the limit applies; (b) the basis of the limit, including its basis in historical expenditure/utilization patterns and, as applicable, the processes and methodologies that are used to determine the amount of the limit to which a participant's services are subject; (c) how the limit will be adjusted over the course of the waiver period; (d) provisions for adjusting or making exceptions to the limit based on participant health and welfare needs or other factors specified by the state; (e) the safeguards that are in effect when the amount of the limit is insufficient to meet a participant's needs; (f) how participants are notified of the amount of the limit. (*check each that applies*)

- ☒ **Limit(s) on Set(s) of Services.** There is a limit on the maximum dollar amount of waiver services that is authorized for one or more sets of services offered under the waiver.  
*Furnish the information specified above.*

The home and community-based service provided through this waiver are intended to provide services and supports that are essential for participants to continue residing in their own or family homes and participate as members of their communities. The services are classified under two broad service categories: (a) the Supports for Community Living Service Category and (b) the Professional and Technical Supports Service Category. The Supports for Community Living Service Category includes the following services: Behavioral Respite Services, Respite, Personal Assistance, Day Services, Semi-Independent Living Services, and Individual Transportation Services. A participant's use of any service or combination of services included in the Supports for Community Living Service Category is limited to \$23,000 per year per participant unless an exception to the service limit has been approved.

The Professional and Technical Supports Service Category includes the following services: Occupational Therapy; Physical Therapy; Speech, Language and Hearing; Nursing; Specialized Medical Equipment and Supplies and Assistive Technology; Behavior Services; Environmental Accessibility Modifications; Personal Emergency Response System; Orientation and Mobility Services for Impaired Vision; Nutrition Services, and Adult Dental Services. A participant's use of any service or combination of services included in the Professional and Technical Supports Service Category is limited to \$7,000 per year per participant unless an exception to the service limit has been approved.

The \$23,000 per year per individual in the Supports for Community Living Category and \$7,000 per year per individual in the Professional and Technical Support Services Category which are uniformly applied to all waiver participants were established with input from consumers, family members, and other stakeholders, as well as review of HCBS utilization in similar programs in other states in order to provide a wide array of services and an adequate level of home and community based services to sustain community living in the most integrated setting appropriate while assuring their health, safety and welfare. Over time, these limits have proven to be adequate as the average expenditures per person has been much lower than the applicable limits allow. The 372 report for year ending 2015 reported an average expenditure of \$18,809 per person. Upon approval of this waiver renewal, the projected average expenditure is \$21,324 per person for 2018.

An exception to the service limit in either category may be approved if the increased service limit is determined necessary to protect the participants' health and welfare, prevent the participant's admission to an institution or an exception is necessary to ensure that the participant receives services necessary to achieve goals identified in the ISP. In the event an exception to a service category limit is approved, the combination of services included in the Supports for Community Living Service Category and the Professional and Technical Supports Service Category may not exceed \$30,000 per participant per year, unless Emergency Services are approved.

Supplemental emergency assistance services may be provided in an amount not to exceed \$6,000 when: (a) the total cost of services or combination of services included in Supports for Community Living and the Professional and Technical Supports Service Categories totals \$30,000 and (b) the participant has experienced the following:

- Permanent or temporary involuntary loss of the participant's current residence for any reason;
- Loss of the current caregiver for any reason, including death of a caregiver or changes in the caregiver's mental or physical status resulting in the caregiver's inability to perform effectively for the individual;
- Significant changes in the behavioral, physical or mental condition of the individual that necessitates increased services.
- Emergency Assistance consists of services available in the Supports for Community Living Category and the Professional and Technical Supports Service Category.
- In addition, selected services have service limits as specified in Appendix C-1/C-3.
- Limits on Sets of Services are discussed in the Family Resource Guide and during a service recipient's original orientation to the Self-Determination Waiver.

- ☒ **Prospective Individual Budget Amount.** There is a limit on the maximum dollar amount of waiver services authorized for each specific participant.  
*Furnish the information specified above.*

The maximum individual cost limit is \$30,000 per program year per individual. The \$30,000 limit provides for up to \$23,000 per year per individual in the Supports for Community Living Category, and \$7,000 per year per individual in the Professional and Technical Support Services Category. Exceptions may be granted to increase the \$23,000 or \$7,000 limit so long as the \$30,000 combined limit is not exceeded.

When an individual's budget reaches \$30,000, emergency assistance services may be provided to the person in an amount up to \$6,000 (as described above) in order to provide an extra measure of protection when the person experiences a crisis or emergency situation that threatens his/her health and well-being.

The total of all waiver services shall not exceed \$36,000 per year per participant.

The \$30,000 per year per individual limit on all waiver services and hard cap of \$36,000 per year per individual (inclusive of up to \$6,000 in Emergency Services, when necessary) which are uniformly applied to all waiver participants were established with input from consumers, family members, and other stakeholders, as well as review of HCBS utilization in similar programs in other states in order to provide a wide array of services and an adequate level of home and community based services to sustain community living in the most integrated setting appropriate while assuring their health, safety and welfare. Over time, these limits have proven to be adequate as the average expenditures per person has been much lower than the applicable limits allow. The 372 report for year ending 2015 reported an average expenditure of \$18,809 per person. Upon approval of this waiver renewal, the projected average expenditure is \$21,324 per person for 2018.

Limits on the Individual budget amount are discussed during a person's original orientation to the Self-Determination Waiver.

Subject to applicable service limits, limits on sets of services, and cost limits, an individualized budget is established for each waiver participant, based on an individualized assessment of his or her needs, and the specific waiver services that will be needed as specified in the Individual Support Plan (i.e., plan of care). Adjustments to authorized services (and to the individual's budget) may be requested at any time based on the needs of the individual. Case managers submit a request and services are approved as appropriate within the waiver limitations.

Should the waiver no longer meet the needs of the individual due to an increase in need, provisions exist for the individual to transition to other state home and community-based services waivers as appropriate.

The methodology for determining the individual budget is detailed in the DIDD Provider Manual and therefore is open for public inspection. The individual budget is defined as the total cost of all waiver services authorized in the Individual Support Plan. The amount of the budget is based on the type and amount of services needed to address the person's needs and personal outcomes. The individual budget is initially established during the initial planning meeting and updated at least annually during the annual planning meeting.

- ☐ **Budget Limits by Level of Support.** Based on an assessment process and/or other factors, participants are assigned to funding levels that are limits on the maximum dollar amount of waiver services.  
*Furnish the information specified above.*

- ☐ **Other Type of Limit.** The State employs another type of limit.  
*Describe the limit and furnish the information specified above.*

## Appendix C: Participant Services

### C-5: Home and Community-Based Settings

Explain how residential and non-residential settings in this waiver comply with federal HCB Settings requirements at 42 CFR 441.301(c)(4)-(5) and associated CMS guidance. Include:

1. Description of the settings and how they meet federal HCB Settings requirements, at the time of submission and in the future.
2. Description of the means by which the state Medicaid agency ascertains that all waiver settings meet federal HCB Setting requirements, at the time of this submission and ongoing.

*Note instructions at Module 1, Attachment #2, HCBS Settings Waiver Transition Plan for description of settings that do not meet requirements at the time of submission. Do not duplicate that information here.*

Services are provided in a person's home and community. All settings in which HCBS are provided are selected by the person supported and support each resident's independence and full integration into the community, and ensures each resident's choice and rights. HCBS providers shall comport fully with standards applicable to HCBS settings delivered under Section 1915(c) of the Social Security Act, including those requirements applicable to provider-owned or controlled homes, except as supported by the individual's specific assessed need and set forth in the person-centered ISP.

All individual goals and objectives, along with needed supports are established through the person-centered planning process and documented in the person-centered ISP and shall include opportunities to seek employment and work in competitive integrated settings, engage in community life, and control personal resources, as applicable based on the needs and preferences of the person supported. Supports shall be provided in a manner which ensures an individual's rights of privacy, dignity, respect and freedom from coercion and restraint; and which optimizes individual initiative, autonomy, and independence in making life choices.

Each provider is assessed to ensure that each service is being delivered to all persons supported in a manner that comports with the HCBS settings rule. In addition, an assessment of each person's experience is embedded into the person-centered planning process on an ongoing basis to ensure that services and supports received by that person are non-institutional in nature, and consistent with the requirements and objectives of the HCBS settings rule.

## Appendix D: Participant-Centered Planning and Service Delivery

### D-1: Service Plan Development (1 of 8)

**State Participant-Centered Service Plan Title:**  
Individual Support Plan

- a. Responsibility for Service Plan Development.** Per 42 CFR §441.301(b)(2), specify who is responsible for the development of the service plan and the qualifications of these individuals (*select each that applies*):

- ☐ **Registered nurse, licensed to practice in the State**  
☐ **Licensed practical or vocational nurse, acting within the scope of practice under State law**  
☐ **Licensed physician (M.D. or D.O)**  
☐ **Case Manager** (qualifications specified in Appendix C-1/C-3)  
☒ **Case Manager** (qualifications not specified in Appendix C-1/C-3).

*Specify qualifications:*

In addition to general qualifications applicable to all providers, individuals employed as case managers must meet the following educational/professional experience requirements:

1. The Case Manager must have:
  1. A Bachelor's degree from an accredited college or university in a human services field; or
  2. A Bachelor's degree from an accredited college or university in a non-related field and one (1) year of relevant experience; or
  3. Associate degree plus two (2) years of relevant experience; or
  4. High School diploma or general educational development (GED) certificate plus four (4) years of relevant experience.

Relevant experience as it relates to Case Managers means experience in working directly with persons with intellectual, developmental, or other types of disabilities or mental illness.

Case Managers who do not have a Bachelor's degree in a human services field must be supervised by someone who does meet that qualification.

The Department of Intellectual and Developmental Disabilities (DIDD), as the employer of case managers for this waiver, is required to ensure that persons employed to render case management services receive effective guidance, mentoring, and training, including all training required by DIDD. Effective training must include opportunities to practice case management duties in a manner that promotes development and mastery of essential job skills.

Case management must be conducted in a manner that ensures person-centered planning processes and practices are followed pursuant to all applicable state and federal regulations.

- ☐ **Social Worker**

*Specify qualifications:*

- ☐ **Other**

*Specify the individuals and their qualifications:*

## Appendix D: Participant-Centered Planning and Service Delivery

### D-1: Service Plan Development (2 of 8)

- b. Service Plan Development Safeguards.** *Select one:*

- ☒ **Entities and/or individuals that have responsibility for service plan development may not provide other direct waiver services to the participant.**  
☐ **Entities and/or individuals that have responsibility for service plan development may provide other direct waiver services to the participant.**

The State has established the following safeguards to ensure that service plan development is conducted in the best interests of the participant. *Specify:*

## Appendix D: Participant-Centered Planning and Service Delivery

### D-1: Service Plan Development (3 of 8)

- c. Supporting the Participant in Service Plan Development.** Specify: (a) the supports and information that are made available to the participant (and/or family or legal representative, as appropriate) to direct and be actively engaged in the service plan development process and (b) the participant's authority to determine who is included in the process.

As part of the enrollment process into the waiver, DIDD intake staff advise and explain to the individual or person legally authorized to act on behalf of the individual (as applicable), the operation of the waiver program and waiver services offered as an alternative to care in an Intermediate Care Facility for individuals with Intellectual Disabilities (ICF/IID), including the person's right to direct the person-centered planning process. The intake staff discussed with the person and any legally authorized representative, the supports the person will need to engage in the development of the initial ISP, and will help to arrange for such supports, and actively engage the person and others he designates in the development of the initial ISP. Intake staff will review the PreAdmission Evaluation (PAE) and the initial ISP with the person and his representative, provide a list of available service providers with contact information, and answer any questions related to the waiver. The intake staff person will provide information, including a copy of the Family Resource Guide, to the person supported or person's family representative. The Family Resource Guide is available to support services for family members of individuals with intellectual disabilities. The intake staff are also expected to share information about non-state services and supports such as community resources, etc.

Once enrolled in the waiver, all persons supported have an assigned Case Manager who is responsible for facilitating the development of the ISP; ensuring that person-centered planning process is driven by the person supported, as appropriate; services are initiated within required time frames; and conducting ongoing monitoring of the implementation of the ISP and the person's health and welfare.

The Case Manager is responsible for providing necessary information and support to the individual to support his/her direction of the person-centered planning process to the maximum extent desired and possible. The person supported has the authority to decide who is included in the development of the ISP.

## Appendix D: Participant-Centered Planning and Service Delivery

### D-1: Service Plan Development (4 of 8)

- d. Service Plan Development Process.** In four pages or less, describe the process that is used to develop the participant-centered service plan, including: (a) who develops the plan, who participates in the process, and the timing of the plan; (b) the types of assessments that are conducted to support the service plan development process, including securing information about participant needs, preferences and goals, and health status; (c) how the participant is informed of the services that are available under the waiver; (d) how the plan development process ensures that the service plan addresses participant goals, needs (including health care needs), and preferences; (e) how waiver and other services are coordinated; (f) how the plan development process provides for the assignment of responsibilities to implement and monitor the plan; and, (g) how and when the plan is updated, including when the participant's needs change. State laws, regulations, and policies cited that affect the service plan development process are available to CMS upon request through the Medicaid agency or the operating agency (if applicable):

DIDD Case Managers assist persons supported in identifying their needs and preferences and selecting, obtaining and coordinating services using paid and natural supports. The Case Manager, in collaboration with the person supported, the person supported's authorized representative (if applicable), other persons specified by the person supported (this may include family members, friends, and paid service providers selected by the person) convene at time and location convenient to the person supported, in a formal Planning Meeting to discuss and finalize the ISP which is the person-centered ISP.

Each person-centered planning process must:

- a. Be directed by the individual to the greatest extent possible,
- b. Identify strengths and needs, both clinical and support needs, and desired outcomes,
- c. Reflect cultural considerations and use language understandable by the individual,
- d. Include strategies for solving disagreements,
- e. Provide method for individual to request updates to be made to their ISP.

The policy and procedures which define and guide the person-centered planning process and assure that people chosen by the individual supported are integrally involved in the development of an ISP that reflects their preferences, choices, and desired outcomes provide for:

- a. An assessment of the individual's status, adaptive functioning, and service needs through the administration of a uniform assessment instrument (such as the Supports Intensity Scale);
- b. The identification of individual risk factors through the administration of the Risk Issues Identification Tool, and identification of strategies to mitigate risks, including documentation of the individual's understanding of the risks and mitigation strategies, including documentation that those strategies have been clearly explained;
- c. Additional assessments, where appropriate, by health care professionals (e.g., occupational or physical therapists, behavior analysts, etc.);
- d. The identification of personal outcomes, support goals, supports and services needed, information about the person's current situation, what is important to the person supported, and changes desired in the person's life (e.g., home, work, relationships, community membership, health and wellness). (Information for the ISP will be gathered and developed through the person-centered planning process driven, to the greatest extent possible, by the person supported and, if applicable, in collaboration with the guardian or conservator, as well as family members and other persons specified by the person supported.);
- e. Initial and at least annual assessment of the individual's experience to confirm that the setting in which the individual is receiving services and supports comports fully with standards applicable to HCBS settings delivered under Section 1915(c) of the Social Security Act, except as supported by the individual's specific assessed need and set forth in the person-centered ISP; and
- f. Waiver and other services are coordinated by the DIDD Case Manager through the development and implementation of the ISP. The ISP describes all the supports and services necessary to support the person to achieve their desired outcomes and attain or maintain a quality life as defined by them, including services that may be provided through natural supports, the Medicaid State Plan or pursuant to the person's Individual Education Plan (IEP).

The ISP development process includes the following: identification of personal outcomes, support goals, supports and services needed, information about the individual's current situation, what is important to the individual, and changes desired in the person's life (e.g., home, work, relationships, community membership, health and wellness), supporting the individual's informed choice regarding services and supports they receive, providers of such services, and the setting in which services and supports are received and which shall be integrated in, and support full access to the greater community, including opportunities to seek employment and work in competitive integrated settings, engage in community life, control personal resources, and receive services in the community to the same degree of access as individuals not receiving Medicaid HCBS; and specific documentation of any modifications to HCBS settings requirements based on the needs of the individual and in accordance with processes prescribed in federal and state regulation and protocol.

A formal Planning Meeting which is convened to finalize the ISP.

The ISP is the fundamental tool by which the state ensures the health and welfare of the individuals served under this waiver. As such, it is subject to periodic review and update. These reviews will take place to determine the appropriateness and adequacy of the services, and to ensure that the services furnished are consistent with the nature and severity of the person's disability and are responsive to the person's needs and preferences. Persons enrolled in this waiver shall be contacted by their DIDD Case Manager at least monthly either in person or by telephone (i.e., the member's Case Manager must complete each subsequent contact in person or by telephone within thirty (30) calendar days of the previous in-person or telephone contact). These individuals shall be visited in their residence face-to-face by their DIDD Case Manager at least quarterly (i.e., within ninety (90) calendar days of the previous face-to-face visit). Face-to-face and/or telephone contacts shall be conducted more frequently when appropriate based on the person's needs and/or request which shall be documented in the ISP, or based on a significant change in needs or circumstances.

The ISP will contain, at a minimum, the type of services to be furnished, the amount, the frequency and duration of each service, and the type of provider to furnish each service regardless of funding source. As required pursuant to the federal Person Centered Planning Rule, the ISP shall be signed by the individual and all persons involved in implementing the plan, including those providing paid and or unpaid supports.

## Appendix D: Participant-Centered Planning and Service Delivery

### D-1: Service Plan Development (5 of 8)

- e. **Risk Assessment and Mitigation.** Specify how potential risks to the participant are assessed during the service plan development process and how strategies to mitigate risk are incorporated into the service plan, subject to participant needs and preferences. In addition, describe how the service plan development process addresses backup plans and the arrangements that are used for backup.

A Risk Issues Identification Tool is administered as part of the process for developing the person's ISP. A person-centered approach is employed to identify risk factors and develop proactive strategies to address those factors. The tool identifies potential situational, environmental, behavioral, medical, and financial risks. When risks are identified, the strategies necessary to address them are incorporated into the ISP.

In addition, the State has a system in place for assuring emergency backup and/or emergency response capability in the event those providers of services and supports essential to the individual's health and welfare are not available. While the state may define and plan for emergencies on an individual basis, the state also must have system procedures in place.

As a result of the administration of the Risk Issues Identification Tool, situations will be identified when access to emergency backup services could be required and appropriate person-centered strategies will delineate how emergency backup services will be triggered and responsibilities for ensuring that such services are furnished. As appropriate, strategies will identify informal (unpaid) supports that could assist in meeting emergency backup needs.

As a third tier of emergency backup services, regional office personnel will directly furnish the emergency backup services.

The state has procedures for how it will work with families and their employer agents (if applicable) to monitor the ongoing expenditures of the individual budgets.

The financial management services entity is required to prepare a monthly report that details participant expenditures for participant-managed services. These monthly reports will be distributed to the participant, and the DIDD regional office case manager. In addition, the Financial Management/Supports Brokerage entity is required to alert the DIDD regional office whenever the pattern of expenditures reveals the potential that the self-determination budget would be prematurely exhausted. The DIDD case manager will review the monthly expenditure report to identify potential problems, including potential over-expenditure of funds or expenditure patterns that might indicate that the participant is having difficulty in accessing authorized services. The DIDD case manager will follow-up with the participant and/or the Financial Management/Supports Brokerage entity (if applicable).

The state has procedures for how it will handle those instances where this ongoing monitoring has failed to prevent the expenditure of the individual budget in advance of the re-determination date. These procedures are to assure that services needed to avoid out-of-home placement and the health and welfare of the individual are available.

There will be close, continuous monitoring of the funds contained in the self-determination budget by the Financial Management/Supports Brokerage entity, and the DIDD case manager. All disbursements of funds must be approved by the participant and will be made only upon the presentation of proper documentation and the determination by the Financial Management/Supports Brokerage entity that the disbursement would be made for items identified in the approved ISP. The Financial Management/Supports Brokerage entity will alert the case manager to potential overspending.

## Appendix D: Participant-Centered Planning and Service Delivery

### D-1: Service Plan Development (6 of 8)

- f. **Informed Choice of Providers.** Describe how participants are assisted in obtaining information about and selecting from among qualified providers of the waiver services in the service plan.

Participation in a waiver program is voluntary. Prior to being enrolled in a waiver, a qualified applicant has the right to freely choose whether they want to receive services in the waiver or in an Intermediate Care Facility for Individuals

with Intellectual Disabilities (ICF/IID). Freedom of choice also includes the right to select any provider with an active provider agreement with the Department of Intellectual and Developmental Disabilities (DIDD) and the Division of TennCare if the provider is available, willing, and able to provide the services needed, and choice of the setting in which services and supports are received which shall be integrated in, and support full access to the greater community, including opportunities to seek employment and work in competitive integrated settings, engage in community life, control personal resources, and receive services in the community to the same degree of access as individuals not receiving Medicaid HCBS.

The state assures that each individual found eligible for the waiver will be given free choice of all qualified providers of each service included in his or her written ISP. The case manager will provide information about selecting from among qualified providers of the waiver services in the ISP.

For self-directed services, the Supports Broker will assist the participant in the recruitment of providers of participant-managed services and negotiating payment rates.

## Appendix D: Participant-Centered Planning and Service Delivery

### D-1: Service Plan Development (7 of 8)

- g. Process for Making Service Plan Subject to the Approval of the Medicaid Agency.** Describe the process by which the service plan is made subject to the approval of the Medicaid agency in accordance with 42 CFR §441.301(b)(1)(i):

The initial ISP must have been submitted to TennCare as part of the PreAdmission Evaluation (PAE or level of care) application. All initial ISPs were reviewed and approved as part of the PAE. While subsequent plans of care are reviewed and approved by DIDD, they remain subject to the review and approval of TennCare at TennCare's discretion. TennCare reviews the adequacy and appropriateness of ISP through the quality assurance process set forth in the waiver application (see Appendix D). In addition, TennCare regularly reviews ISPs as part of the utilization review process which is described in Appendix I.

## Appendix D: Participant-Centered Planning and Service Delivery

### D-1: Service Plan Development (8 of 8)

- h. Service Plan Review and Update.** The service plan is subject to at least annual periodic review and update to assess the appropriateness and adequacy of the services as participant needs change. Specify the minimum schedule for the review and update of the service plan:

- ☐ Every three months or more frequently when necessary
- ☐ Every six months or more frequently when necessary
- ☒ Every twelve months or more frequently when necessary
- ☐ Other schedule

*Specify the other schedule:*

- i. Maintenance of Service Plan Forms.** Written copies or electronic facsimiles of service plans are maintained for a minimum period of 3 years as required by 45 CFR §92.42. Service plans are maintained by the following (*check each that applies*):

- ☐ Medicaid agency
- ☒ Operating agency
- ☐ Case manager
- ☐ Other

*Specify:*

## Appendix D: Participant-Centered Planning and Service Delivery

### D-2: Service Plan Implementation and Monitoring

- a. **Service Plan Implementation and Monitoring.** Specify: (a) the entity (entities) responsible for monitoring the implementation of the service plan and participant health and welfare; (b) the monitoring and follow-up method(s) that are used; and, (c) the frequency with which monitoring is performed.

DIDD Case Managers assist persons supported in identifying needs and preferences, and in selecting, obtaining, and coordinating services using paid and natural supports. Ongoing monitoring by Case Managers is essential and they are responsible for determining if services are being implemented as specified in the ISP and if the services described in the plan are meeting the person's needs.

Persons enrolled in this waiver shall be contacted by their DIDD Case Manager at least monthly either in person or by telephone (i.e., the member's Case Manager must complete each subsequent contact in person or by telephone within thirty (30) calendar days of the previous in-person or telephone contact). These individuals shall be visited in their residence face-to-face by their DIDD Case Manager at least quarterly (i.e., within ninety (90) calendar days of the previous face-to-face visit). Face-to-face and/or telephone contacts shall be conducted more frequently when appropriate based on the person's needs and/or request which shall be documented in the ISP, or based on a significant change in needs or circumstances.

The Case Manager reports issues identified to management staff from the appropriate provider agencies. DIDD Regional Office management staff may assist in achieving resolution when timely provider response does not occur.

All individuals who receive supports and services through DIDD are required to have an annual risk assessment. This assessment is a component of the planning process intended to identify potential risks and create an environment that establishes appropriate safeguards without limiting personal experiences. Risk management is accomplished through risk assessment and identification of risk factors, risk analysis and planning, ongoing evaluation of the effectiveness of risk management strategies, and staff training and re-training as appropriate.

The success of individual strategies to ameliorate individual risks identified through risk assessment are evaluated by the person supported, their families and significant others, providers, and the Case Manager as part of on-going planning for and monitoring of services.

In addition, the Case Manager conducts initial (i.e., as part of the State's initial assessment of compliance with the new federal HCBS Setting rule) and at least annual assessment of the individual's experience, in accordance with timeframes outlined in State Protocol, to confirm that the setting in which the person supported is receiving services and supports comports fully with standards applicable to HCBS settings delivered under Section 1915(c) of the Social Security Act, including those requirements applicable to provider-owned or controlled homes, except as supported by the individual's specific assessed need and set forth in the person-centered ISP.

- b. **Monitoring Safeguards.** *Select one:*

- ☒ **Entities and/or individuals that have responsibility to monitor service plan implementation and participant health and welfare may not provide other direct waiver services to the participant.**
- ☐ **Entities and/or individuals that have responsibility to monitor service plan implementation and participant health and welfare may provide other direct waiver services to the participant.**

The State has established the following safeguards to ensure that monitoring is conducted in the best interests of the participant. *Specify:*

## Appendix D: Participant-Centered Planning and Service Delivery

### Quality Improvement: Service Plan

As a distinct component of the State's quality improvement strategy, provide information in the following fields to detail the State's methods for discovery and remediation.

#### a. Methods for Discovery: Service Plan Assurance/Sub-assurances

*The state demonstrates it has designed and implemented an effective system for reviewing the adequacy of service plans for waiver participants.*

##### i. Sub-Assurances:

- a. *Sub-assurance: Service plans address all participants' assessed needs (including health and safety risk factors) and personal goals, either by the provision of waiver services or through other means.*

#### Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

#### Performance Measure:

a.i.a.4. # and % of consumer satisfaction survey respondents who reported that the things important to them were addressed in their Individual Support Plan. (People Talking to People Consumer survey question: "Were the things that are important to you included in your Individual Support Plan?") % = # of respondents reporting that important things were addressed in the ISP / total # of respondents.

- ii. If applicable, in the textbox below provide any necessary additional information on the strategies employed by the State to discover/identify problems/issues within the waiver program, including frequency and parties responsible.

**b. Methods for Remediation/Fixing Individual Problems**

- i. Describe the State's method for addressing individual problems as they are discovered. Include information regarding responsible parties and GENERAL methods for problem correction. In addition, provide information on the methods used by the State to document these items.

Performance Measures a.i.c.1. and a.i.c.2.: Designated DIDD Regional Office staff will notify DIDD Case Managers and other provider agencies as appropriate when service planning and implementation compliance issues are identified. DIDD Case Managers will be held accountable for ensuring necessary corrections are made to Individual Support Plans within 30 calendar days, and for reporting remedial actions and resolution dates to DIDD Regional Office staff. Other contracted providers will be held accountable, as appropriate, for resolution of issues involving ISP implementation. Remediation actions are expected to be completed within a targeted time frame of 30 calendar days.

Regional Office staff will monitor remediation actions until able to verify that the issue has been resolved satisfactorily. Remediation actions and timeframes are reported to TennCare monthly. TennCare notifies DIDD of any remediation determined unacceptable and requires DIDD to provide additional information and/or take additional remedial action until remediation can be determined appropriately completed.

DIDD will, pursuant to State personnel policies and processes, take appropriate personnel actions to address case management employee job performance, including, but not limited to training and retraining, verbal or written warning, suspension or termination.

Performance Measure a.i.a.4.: When individuals report issues with the ISP, the satisfaction survey (known as People Talking to People Survey) interviewer will notify the DIDD People Talking to People Director within three business days. The DIDD People Talking to People Director will take appropriate action, which could include filing a complaint if appropriate and in accordance with the waiver participant's wishes, or notifying the Case Manager of the waiver participant's need to consider plan amendment. The DIDD People Talking to People Director will monitor remedial actions and track remediation timeframes. Complaints filed will be resolved in accordance with DIDD complaint resolution processes. The DIDD goal is to resolve complaint issues within a 30 calendar day time frame. Designated DIDD staff will compile monthly information about complaints and complaint resolution, including complaint types and referral sources, into data files and the Quality Management Report, all of which will be submitted monthly to TennCare. Appeals filed will be processed in accordance with TennCare rules and TennCare approved DIDD policy.

Performance Measure a.i.d.2. through a.i.d.4.: TennCare and DIDD have determined that there are acceptable reasons when services may not be provided exactly in accordance with plan specifications. Such acceptable reasons (e.g., holidays, inclement weather, person supported choice, hospitalization) have been identified and shared with DIDD staff and waiver service providers through a memorandum. When service amount, frequency, or duration varies for acceptable reasons, compliance is indicated; however, data is tracked regarding the reasons services were not provided in the amount, frequency, and duration in approved plan. In situations where more services were billed than were actually provided or documented, DIDD reviewers will

forward this information to designated DIDD administrative staff who will initiate recoupment procedures. If warranted, a provider may be referred to DIDD audit staff for a more extensive fiscal audit. The DIDD Deputy Commissioner will determine the need for more extensive provider level fiscal audits during monthly State Quality Management meetings.

**Individual Remediation Data Aggregation:** DIDD has developed a data flow document which identifies data collection, reporting, and aggregation tasks that must be completed to generate the required reports for submission to TennCare. For each task, due dates are specified. Responsible DIDD staff and back-up staff are identified for each task. Designated DIDD Central Office staff compile the data collected and entered by regional and central office staff into DIDD databases to create data files that are posted for TennCare analysis and aggregation. In addition, DIDD generates a Quality Management Report using the data collected and reported. The Quality Management Report is submitted to TennCare each month and information contained therein is reviewed during monthly Statewide Continuous Quality Improvement Committee Meetings.

**ii. Remediation Data Aggregation**

**Remediation-related Data Aggregation and Analysis (including trend identification)**

<b>Responsible Party</b> (check each that applies):	<b>Frequency of data aggregation and analysis</b> (check each that applies):
<input type="checkbox"/> <b>State Medicaid Agency</b>	<input type="checkbox"/> <b>Weekly</b>

**c. Timelines**

When the State does not have all elements of the Quality Improvement Strategy in place, provide timelines to design methods for discovery and remediation related to the assurance of Service Plans that are currently non-operational.

- ☒ **No**  
☐ **Yes**

Please provide a detailed strategy for assuring Service Plans, the specific timeline for implementing identified strategies, and the parties responsible for its operation.

## Appendix E: Participant Direction of Services

**Applicability** (from Application Section 3, Components of the Waiver Request):

- ☒ **Yes. This waiver provides participant direction opportunities.** Complete the remainder of the Appendix.  
☐ **No. This waiver does not provide participant direction opportunities.** Do not complete the remainder of the Appendix.

*CMS urges states to afford all waiver participants the opportunity to direct their services. Participant direction of services*

*includes the participant exercising decision-making authority over workers who provide services, a participant-managed budget or both. CMS will confer the Independence Plus designation when the waiver evidences a strong commitment to participant direction.*

**Indicate whether Independence Plus designation is requested (select one):**

- ☒ **Yes. The State requests that this waiver be considered for Independence Plus designation.**
- ☐ **No. Independence Plus designation is not requested.**

## Appendix E: Participant Direction of Services

### E-1: Overview (1 of 13)

- a. Description of Participant Direction.** In no more than two pages, provide an overview of the opportunities for participant direction in the waiver, including: (a) the nature of the opportunities afforded to participants; (b) how participants may take advantage of these opportunities; (c) the entities that support individuals who direct their services and the supports that they provide; and, (d) other relevant information about the waiver's approach to participant direction.

The Self-Determination Waiver Program provides that certain services may be managed directly by the person supported. Services elected to be self-directed must be provided pursuant to a person-centered planning process and support each person's independence and full integration into the community, including opportunities to seek employment and work in competitive integrated settings and engage in community life. Services will be delivered in a manner which ensures each individual's rights of privacy, dignity, respect and freedom from coercion and restraint; optimizes individual initiative, autonomy, and independence in making life choices; and are delivered in a manner that comports fully with standards applicable to HCBS settings delivered under Section 1915(c) of the Social Security Act, except as supported by the individual's specific assessed need and set forth in the person-centered ISP.

The person supported or the conservator or family (as appropriate) will decide whether to directly manage these services or receive them through the standard service delivery method. When a person supported or the conservator or family elects to manage one or more services included in the ISP, a Financial Management/Supports Brokerage entity will assist in their management of the self-determination budget and other facets of self-direction.

The self-determination budget of the person supported will include the services in the ISP that the person supported has elected to manage directly. The person supported will be responsible for managing the self-determination budget.

#### 1. Role of the Person Supported Under Self-Direction:

In the case of minor children, the decision to select self-direction will be made by the child's legally responsible family member or guardian. In the case of adults, the decision to select self-direction will be made by the person supported. If the person supported has a legally-appointed representative, the person supported will participate in the decision to self-direct to the extent they are able and allowed under the legal representation. In addition, an adult person supported who does not have a legally-appointed representative may designate one or more individuals (including family members, friends, or other persons) to advise and assist the person supported in self-directing his or her services.

Such a representative must meet the following requirements:

- Demonstrate knowledge and understanding of the needs and preferences of the person supported;
- Be willing to comply with program requirements;
- Be at least 18 years of age;
- Be approved by the person supported to act in this capacity; and,
- Not be a provider of services under this program.

When a representative for self-direction has been designated, the person supported will participate in self-direction activities to the extent they are able and allowed under the legal representation.

The key responsibilities of the person supported when self-direction is selected are:

- Lead the ISP development process;
- Receive an orientation to and training in self-direction from the Financial Management/Supports Brokerage entity;
- Understand the rights and responsibilities of directing one's care and be willing to manage services or select a representative who is willing and capable of assuming this responsibility;
- Develop a back-up/emergency plan that is included in the ISP;
- Recruit, hire, and manage personal assistants and other providers of services managed by the person supported;
- Prepare an outline of duties and work schedule for providers of services managed by the person supported;

- Notify providers of services managed by the person supported of schedule changes in a timely manner;
- Train, supervise, and evaluate providers of services managed by the person supported as necessary;
- Negotiate reimbursement or payment rates approved by the state with providers of services managed by the person supported;
- Serve as the employer of record for providers of services managed by the person supported;
- Verify accuracy of documentation or provide documentation, as appropriate, to the Financial Management entity regarding services provided;
- Review and monitor payments for services reported by the Financial Management entity to confirm that services have been rendered;
- Notify the case manager and Financial Management/Supports Brokerage entity (if applicable) of concerns about service delivery that affect health and welfare; and
- Develop and manage services within the self-determination budget;

## 2. Supports Brokerage Activities

Supports brokerage is an activity provided by the Financial Management/Supports Brokerage entity which provides training to the person supported concerning self-direction and assists the person supported as needed or requested with:

- The recruitment of providers of services managed by the person supported and negotiating payment rates;
- The scheduling and training of providers of services managed by the person supported;
- Developing a back-up plan;
- Managing and monitoring the self-determination budget;
- Maintaining contact with the person supported to ensure that needed services are being provided;
- Participation in the development of the ISP if requested by person supported; and
- Notifying the case manager of the person supported in the event of concerns about service delivery problems or issues that affect health and welfare.

## 3. Case Manager Role in Self-Direction

All persons supported will have an assigned DIDD case manager. The case manager will have the following responsibilities:

- Facilitate the development of the ISP, including arranging for a person-centered planning facilitator if desired by the person supported and providing necessary information and support to the person supported to ensure that the person supported directs the ISP process to the maximum extent desired and possible;
- Prevent the provision of unnecessary or inappropriate services and supports;
- Ensure that the ISP is developed pursuant to the person centered planning rules, including the following:
  - o The plan reflects cultural considerations and uses plain language;
  - o The plan development process includes strategies for solving conflict/disagreements, as applicable;
  - o The process is timely and occurs at convenient time/location for person supported;
  - o The process provides method for the person supported to request updates to the ISP.
- Ensure that services are initiated within required time frames;
- Provide an orientation to self-direction so that the person supported has the information necessary to understand the requirements and responsibilities associated with self-direction;
- Inform persons supported who elect self-direction of the required use of the DIDD contracted Financial Management/Supports Brokerage entity or entities;
- Continuously review the status of the self-determination budget;
- Conduct ongoing monitoring of the implementation of the ISP and health and welfare of the person supported, including review/revision upon reassessment of functional need at least every 12 months, when the circumstances or needs of the person supported change significantly, or at the request of the person supported; and,
- Arrange alternative emergency back-up services as necessary in the event that the emergency back-up services provided for in the ISP cannot be employed.

## 4. Financial Management Activities:

The state contracts with a Financial Management Services provider contracted as a Section 3504 Agent in accordance with Internal Revenue Code for participant managed programs. A person supported must utilize the DIDD contracted Financial Management/Supports Brokerage entity when self-direction is selected. Financial Management activities focus on the financial, ministerial, and clerical aspects associated with the guardian/conservator of the person supported being the common law employer of workers hired by the person supported to provide services managed by the person supported. The Financial Management Services contractor is responsible for acting on behalf of the common law employer in regards to managing payroll and tax filing and recording activities.

Financial Management activities include:

- Providing the person supported or the guardian/conservator of the person supported with the information and materials required for them to carry out self-direction and person supported service management, including procedures for approving payment for services and obtaining necessary payroll and employment information;
- Filing claims with DIDD for payment through the MMIS;

Reimbursing providers of services managed by the person supported (i.e., processing payroll);

- Assuring that funds are disbursed only for services that are authorized in the ISP, approved by the person supported, and properly documented.
- Preparing and submitting a monthly, self-determination budget status report to the person supported, and the DIDD regional office case manager;

Making payroll deductions (including applicable taxes); and,

- Verification that providers of services managed by the person supported possess the qualifications specified in state regulations and, as necessary, arranging for the criminal background checks at no cost to the person supported.

The following waiver services may be managed directly by the person supported:

1. Respite Services (when provided by an approved respite provider who serves only 1 person supported);
2. Personal Assistance;
3. Day Services (except those selected by and provided in a facility-based setting); and
4. Individual Transportation Services.

## Appendix E: Participant Direction of Services

### E-1: Overview (2 of 13)

- b. Participant Direction Opportunities.** Specify the participant direction opportunities that are available in the waiver. *Select one:*

- ☐ **Participant: Employer Authority.** As specified in *Appendix E-2, Item a*, the participant (or the participant's representative) has decision-making authority over workers who provide waiver services. The participant may function as the common law employer or the co-employer of workers. Supports and protections are available for participants who exercise this authority.
- ☐ **Participant: Budget Authority.** As specified in *Appendix E-2, Item b*, the participant (or the participant's representative) has decision-making authority over a budget for waiver services. Supports and protections are available for participants who have authority over a budget.
- ☒ **Both Authorities.** The waiver provides for both participant direction opportunities as specified in *Appendix E-2*. Supports and protections are available for participants who exercise these authorities.

- c. Availability of Participant Direction by Type of Living Arrangement.** *Check each that applies:*

- ☒ **Participant direction opportunities are available to participants who live in their own private residence or the home of a family member.**
- ☒ **Participant direction opportunities are available to individuals who reside in other living arrangements where services (regardless of funding source) are furnished to fewer than four persons unrelated to the proprietor.**
- ☐ **The participant direction opportunities are available to persons in the following other living arrangements**

Specify these living arrangements:

## Appendix E: Participant Direction of Services

### E-1: Overview (3 of 13)

- d. Election of Participant Direction.** Election of participant direction is subject to the following policy (*select one*):

- ☐ **Waiver is designed to support only individuals who want to direct their services.**
- ☒ **The waiver is designed to afford every participant (or the participant's representative) the opportunity to elect to direct waiver services. Alternate service delivery methods are available for participants who decide not to direct their services.**

- ☐ **The waiver is designed to offer participants (or their representatives) the opportunity to direct some or all of their services, subject to the following criteria specified by the State. Alternate service delivery methods are available for participants who decide not to direct their services or do not meet the criteria.**

*Specify the criteria*

## Appendix E: Participant Direction of Services

### E-1: Overview (4 of 13)

- e. Information Furnished to Participant.** Specify: (a) the information about participant direction opportunities (e.g., the benefits of participant direction, participant responsibilities, and potential liabilities) that is provided to the participant (or the participant's representative) to inform decision-making concerning the election of participant direction; (b) the entity or entities responsible for furnishing this information; and, (c) how and when this information is provided on a timely basis.

All waiver eligible individuals (persons supported) are informed of the variety of service options available to them. The state has procedures to assure that individuals, and families as appropriate, requesting services have the requisite information and/or tools to participate in a person-centered planning process and to direct and manage their care as outlined in the ISP. All persons supported will have a DIDD case manager who will facilitate the development of the ISP pursuant to the person centered planning rules, and provide an orientation to self-direction. During the development of the ISP, the DIDD case manager will provide participants and families with an orientation to self-direction, including information concerning the added responsibilities and benefits of self-direction. The state will make available and provide services such as assistance in locating and selecting qualified workers, training in managing workers, and completing and submitting paperwork associated with billing, payment and taxation.

## Appendix E: Participant Direction of Services

### E-1: Overview (5 of 13)

- f. Participant Direction by a Representative.** Specify the State's policy concerning the direction of waiver services by a representative (*select one*):
- ☐ **The State does not provide for the direction of waiver services by a representative.**
- ☒ **The State provides for the direction of waiver services by representatives.**

Specify the representatives who may direct waiver services: (*check each that applies*):

- ☒ **Waiver services may be directed by a legal representative of the participant.**
- ☒ **Waiver services may be directed by a non-legal representative freely chosen by an adult participant.**

Specify the policies that apply regarding the direction of waiver services by participant-appointed representatives, including safeguards to ensure that the representative functions in the best interest of the participant:

The representative appointed by the person supported must be willing to accept responsibility for self-directing services on behalf of the person supported and must:

- Understand the rights and responsibilities of directing the person's care and be willing to manage services;
- Develop a back-up/emergency plan that is included in the ISP;
- Recruit, hire, and manage personal assistants and other providers of services managed by the person supported;

- Prepare an outline of duties and work schedule for providers of services managed by the person supported;
- Notify providers of services managed by the person supported of schedule changes in a timely manner;
- Train, supervise, and evaluate providers of services managed by the person supported as necessary;
- Negotiate reimbursement or payment rates with providers of services managed by the person supported;
- Serve as the employer of record for providers of services managed by the person supported;
- Verify accuracy of documentation or provide documentation, as appropriate, to the Financial Management entity regarding services provided;
- Review and monitor payments for services reported by the Financial Management entity to confirm that services have been rendered;
- Notify the case manager and Financial Management/Supports Brokerage entity (if applicable) of concerns about service delivery that affect health and welfare; and
- Develop and manage services within the self-determination budget.

There are several oversight mechanisms in place to ensure any representative for a person serves in the best interest of the person supported. Each person enrolled in the waiver (person supported) has a case manager assigned to him/her who is responsible on an ongoing basis for ensuring all supports and services are being delivered in accordance with the approved ISP. Persons enrolled in this waiver shall be contacted by their DIDD Case Manager at least monthly either in person or by telephone (i.e., the member's Case Manager must complete each subsequent contact in person or by telephone within thirty (30) calendar days of the previous in-person or telephone contact). These individuals shall be visited in their residence face-to-face by their DIDD Case Manager at least quarterly (i.e., within ninety (90) calendar days of the previous face-to-face visit).

Face-to-face and/or telephone contacts shall be conducted more frequently when appropriate based on the person's needs and/or request which shall be documented in the ISP, or based on a significant change in needs or circumstances. The case manager will ensure on an ongoing basis that person centered planning rules and HCBS Settings rules are being met. In addition to the case manager, each person supported is assigned a support broker. The role of the support broker is to assist the person supported and their representative when needed or requested in the activities needed to be the employer of direct support staff including staff training, assisting in processing necessary paperwork, and any other issues that arise around a person and their employees.

If the representative of the person supported is unwilling or unable to carry out the responsibilities outlined above, DIDD may require the person supported to select another personal representative or may require the person supported to only use agency based services.

As a general rule of state policy, the right to self-direct will be terminated if the appointed representative of the person supported refuses to abide by the ISP or related waiver policies, resulting in the inability to assure quality care or the health and safety of the person, and the person supported will not select an alternate representative.

## Appendix E: Participant Direction of Services

### E-1: Overview (6 of 13)

- g. Participant-Directed Services.** Specify the participant direction opportunity (or opportunities) available for each waiver service that is specified as participant-directed in Appendix C-1/C-3.

Waiver Service	Employer Authority	Budget Authority
Personal Assistance	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
Employment and Day Services	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
Individual Transportation Services	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
Respite	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>

## Appendix E: Participant Direction of Services

- h. Financial Management Services.** Except in certain circumstances, financial management services are mandatory and integral to participant direction. A governmental entity and/or another third-party entity must perform necessary financial transactions on behalf of the waiver participant. *Select one:*

☒ **Yes. Financial Management Services are furnished through a third party entity.** *(Complete item E-1-i).*

Specify whether governmental and/or private entities furnish these services. *Check each that applies:*

☐ **Governmental entities**

☒ **Private entities**

☐ **No. Financial Management Services are not furnished. Standard Medicaid payment mechanisms are used.**  
*Do not complete Item E-1-i.*

## Appendix E: Participant Direction of Services

### E-1: Overview (8 of 13)

- i. Provision of Financial Management Services.** Financial management services (FMS) may be furnished as a waiver service or as an administrative activity. *Select one:*

☐ **FMS are covered as the waiver service specified in Appendix C-1/C-3**

The waiver service entitled:

☒ **FMS are provided as an administrative activity.**

#### Provide the following information

- i. Types of Entities:** Specify the types of entities that furnish FMS and the method of procuring these services:

The State provides Financial Administration services as an administrative cost through a contract with a financial management services company. The contract was awarded through the State's competitive bidding process for awarding contracts. The procurement method resulted in the selection of a single entity to furnish financial management services.

- ii. Payment for FMS.** Specify how FMS entities are compensated for the administrative activities that they perform:

The Financial Administration entity is reimbursed on a per person per month basis.

- iii. Scope of FMS.** Specify the scope of the supports that FMS entities provide *(check each that applies):*

Supports furnished when the participant is the employer of direct support workers:

- ☒ **Assist participant in verifying support worker citizenship status**  
☒ **Collect and process timesheets of support workers**  
☒ **Process payroll, withholding, filing and payment of applicable federal, state and local employment-related taxes and insurance**  
☒ **Other**

*Specify:*

-Filing claims through DIDD to the MMIS for participant managed services and reimbursing

individual providers;

-Making Workers Compensation premium payments for persons employed by person supported (if applicable according to state law);

-Verifying that goods and services for which reimbursement is requested have been authorized in the ISP;

-Ensuring that requests for payment have been approved by the person supported or the guardian or conservator of the person supported.

---

**Supports furnished when the participant exercises budget authority:**

---

- ☒ **Maintain a separate account for each participant's participant-directed budget**
- ☒ **Track and report participant funds, disbursements and the balance of participant funds**
- ☒ **Process and pay invoices for goods and services approved in the service plan**
- ☒ **Provide participant with periodic reports of expenditures and the status of the participant-directed budget**
- ☐ **Other services and supports**

*Specify:*

---

**Additional functions/activities:**

---

- ☐ **Execute and hold Medicaid provider agreements as authorized under a written agreement with the Medicaid agency**
- ☒ **Receive and disburse funds for the payment of participant-directed services under an agreement with the Medicaid agency or operating agency**
- ☐ **Provide other entities specified by the State with periodic reports of expenditures and the status of the participant-directed budget**
- ☐ **Other**

*Specify:*

- iv. **Oversight of FMS Entities.** Specify the methods that are employed to: (a) monitor and assess the performance of FMS entities, including ensuring the integrity of the financial transactions that they perform; (b) the entity (or entities) responsible for this monitoring; and, (c) how frequently performance is assessed.

On an annual basis, TennCare and/or the Office of Quality Management of the Department of Intellectual and Developmental Disabilities (DIDD) conducts a performance audit of the contractor that provides financial management services for persons supported in the Self-Determination Waiver. The auditors review a sample of persons supported for whom the contractor provides financial management services to support services managed by the person supported. If deficiencies are identified during the audits, the contractor will be required to submit an acceptable corrective action plan that addresses the deficiencies. DIDD reports findings of its audits to TennCare via monthly Quality Monitoring Reports.

## Appendix E: Participant Direction of Services

---

### E-1: Overview (9 of 13)

- j. **Information and Assistance in Support of Participant Direction.** In addition to financial management services,

participant direction is facilitated when information and assistance are available to support participants in managing their services. These supports may be furnished by one or more entities, provided that there is no duplication. Specify the payment authority (or authorities) under which these supports are furnished and, where required, provide the additional information requested (*check each that applies*):

- ☒ **Case Management Activity.** Information and assistance in support of participant direction are furnished as an element of Medicaid case management services.

*Specify in detail the information and assistance that are furnished through case management for each participant direction opportunity under the waiver:*

All participants will have an assigned DIDD case manager. The case manager will have the following responsibilities:

- Facilitate the development of the ISP, including arranging for a person-centered planning facilitator if desired by the person supported and providing necessary information and support to the person supported to ensure that the person supported directs the ISP process to the maximum extent desired and possible;
- Prevent the provision of unnecessary or inappropriate services and supports;
- Ensure that the ISP is developed pursuant to the person centered planning rules, including the following:
  - o The plan reflects cultural considerations and uses plain language;
  - o The plan development process includes strategies for solving conflict/disagreements, as applicable;
  - o The process is timely and occurs at convenient time/location for person supported;
  - o The process provides method for the person supported to request updates to the ISP.
- Ensure that services are initiated within required time frames;
- Provide an orientation to self-direction so that the person supported has the information necessary to understand the requirements and responsibilities associated with self-direction;
- Inform persons supported who elect self-direction of the required use of the TennCare contracted Financial Management/Supports Brokerage entity;
- Continuously review the status of the self-determination budget;
- Conduct ongoing monitoring of the implementation of the ISP and health and welfare of the person supported, including review/revision upon reassessment of functional need at least every 12 months, when the circumstances or needs of the person supported change significantly, or at the request of the person supported; and,
- Arrange alternative emergency back-up services as necessary in the event that the emergency back-up services provided for in the ISP cannot be employed.

- ☐ **Waiver Service Coverage.** Information and assistance in support of participant direction are provided through the following waiver service coverage(s) specified in Appendix C-1/C-3 (*check each that applies*):

Participant-Directed Waiver Service	Information and Assistance Provided through this Waiver Service Coverage
Nutrition Services	<input type="checkbox"/>
Occupational Therapy	<input type="checkbox"/>
Speech, Language, and Hearing Services	<input type="checkbox"/>
Adult Dental Services	<input type="checkbox"/>
Semi-Independent Living Services	<input type="checkbox"/>
Personal Emergency Response Systems	<input type="checkbox"/>
Personal Assistance	<input type="checkbox"/>
Employment and Day Services	<input type="checkbox"/>
Behavioral Respite Services	<input type="checkbox"/>
Individual Transportation Services	<input type="checkbox"/>
Respite	<input type="checkbox"/>

Specialized Medical Equipment and Supplies and Assistive Technology	<input type="checkbox"/>
Nursing Services	<input type="checkbox"/>
Behavior Services	<input type="checkbox"/>
Environmental Accessibility Modifications	<input type="checkbox"/>
Physical Therapy	<input type="checkbox"/>
Orientation and Mobility Services for Impaired Vision	<input type="checkbox"/>

- ☒ **Administrative Activity.** Information and assistance in support of participant direction are furnished as an administrative activity.

*Specify (a) the types of entities that furnish these supports; (b) how the supports are procured and compensated; (c) describe in detail the supports that are furnished for each participant direction opportunity under the waiver; (d) the methods and frequency of assessing the performance of the entities that furnish these supports; and, (e) the entity or entities responsible for assessing performance:*

The role of the DIDD case manager was described above. TennCare contracts with a financial management services company to provide financial management support for self-direction and to provide supports brokerage services.

The financial management services provider has the responsibility for the following financial management support services:

1. Providing the person supported or their guardian/conservator with the information and materials necessary to self-direct services, including procedures for approving payment for services and obtaining necessary payroll and employment information;
2. Filing claims with DIDD for payment;
3. Reimbursing providers of services managed by the person supported;
4. Assuring that funds are disbursed only for services that are authorized in the ISP approved by the person supported and that are properly documented;
5. Preparing and submitting a monthly self-determination budget status report to the person supported and the DIDD regional office case manager;
6. Making payroll deductions; and
7. Verification that providers of services managed by the person supported possess required qualifications.

The financial management services contractor provides supports brokerage services to enable the person supported to self-direct participant-managed services and is responsible for training the person supported in participant managed services and assisting with the following employer duties as needed or requested by the person supported:

1. Recruitment of individual providers of services managed by the person supported and negotiating payment rates;
2. Scheduling and training of individual providers;
3. Managing and monitoring of the individual budget; and
4. Notifying the case manager of the person supported in the event of concerns about service delivery problems or issues that affect health and welfare.

A supports broker also may assist in locating and securing services and other community resources that promote community integration, community membership and independence, as provided in the person-centered ISP. As requested by the person supported or their guardian or conservator, the supports broker also may participate in the development of the ISP.

## Appendix E: Participant Direction of Services

### E-1: Overview (10 of 13)

- k. Independent Advocacy** (*select one*).

- ☐ **No. Arrangements have not been made for independent advocacy.**
- ☒ **Yes. Independent advocacy is available to participants who direct their services.**

*Describe the nature of this independent advocacy and how participants may access this advocacy:*

The state provides supports brokerage as an administrative service rather than as a waiver service. TennCare contracts with a financial management services company to provide both financial management services and supports brokerage services for persons supported who choose to self-direct waiver services.

Supports brokerage is an activity designed to enable a person supported to manage services and to assist the enrollee in locating, assessing, and coordinating needed services. A supports broker serves as a link between the person supported or their guardian or conservator, providers and the financial administration entity. Authority and responsibility for self-direction is retained by the person supported or their guardian or conservator.

While the contract for financial management and supports brokerage is with a single entity, the entity is independent from the State, the case manager, and from providers and workers employed to provide care. Because the financial management entity reimburses workers for services that are provided, and is in turn, reimbursed for these services by the State, there is no conflict of interest regarding the level of services a person receives.

DIDD contracts with The Arc Tennessee for advocacy services which includes the Statewide Class Members, as well as Advocacy Services during Transition from an Intermediate Care Facility for Individuals with Intellectual and Developmental Disabilities (ICF/IDD) to the Community Service System and advocacy for other individuals with I/DD receiving services (persons supported) or individuals with I/DD who are potentially eligible for any services through DIDD or TennCare programs.

The Arc Tennessee offers advocacy services statewide to former members of the Arlington and At-Risk class, and Settlement Agreement class members. Referrals are made based on the needs of the person. Services provided are issue-based. Advocacy services through The Arc Tennessee include, but are not limited to, educating persons referred on self-advocacy; identifying natural supports; rights and responsibilities in regards to exercising their rights, etc.

In addition, under its advocacy contract with DIDD, The Arc Tennessee offers advocacy services statewide to a minimum of three hundred individuals and families who receive support or services through DIDD Waiver funded programs, Family Support Program or individuals on the Employment and Community First CHOICES Referral List to receive DIDD supports or services. Advocacy intervention services may include, but are not limited to, assistance with SSI, Medicaid, TennCare, relationship training, placement processes, investigations of abuse and neglect, human rights violations, service provider complaints, police and law enforcement issues and family/parent-to-parent counseling. A person may contact The Arc Tennessee directly or may be referred for advocacy assistance.

The paid advocates through The Arc Tennessee are not employees of DIDD. DIDD's statewide Director of Advocacy Services is responsible for the oversight of the Advocacy Contract. This oversight involves reviewing and approving monthly vouchers for services based on the scope of the contract; meeting with the representatives of The Arc Tennessee to ensure compliance with the contract; and reviewing and receiving quarterly and annual reports. DIDD's Director of the Office of Civil Rights is responsible for oversight of the Advocacy Contract.

## Appendix E: Participant Direction of Services

### E-1: Overview (11 of 13)

1. **Voluntary Termination of Participant Direction.** Describe how the State accommodates a participant who voluntarily terminates participant direction in order to receive services through an alternate service delivery method, including how the State assures continuity of services and participant health and welfare during the transition from participant direction:

An individual who has elected self-direction and continues to be eligible for the Self-Determination Waiver Program may voluntarily elect to terminate self-direction as the method of service provision and receive waiver services through the standard service delivery method. To voluntarily terminate self-direction of services, the person supported must contact the DIDD case manager. If requested by the person supported, the case manager will seek to identify and address any issues the person supported may have with self-directing that can be resolved so the person supported may continue self-directing services. If the person supported still wants to voluntarily terminate self-direction of services, the case manager will assist the person supported in transitioning to traditional provider agency services without interruption in service. The case manager will assist the person supported in choosing a provider from the available qualified providers and will work with the person supported to revise the person-centered ISP.

## Appendix E: Participant Direction of Services

### E-1: Overview (12 of 13)

- m. Involuntary Termination of Participant Direction.** Specify the circumstances when the State will involuntarily terminate the use of participant direction and require the participant to receive provider-managed services instead, including how continuity of services and participant health and welfare is assured during the transition.

#### Involuntary Termination of Self-Direction of Services

An individual who has elected self-direction and continues to be eligible for the Self-Determination Waiver Program may be involuntarily required to terminate self-direction as the method of service provision and receive waiver services through the standard method of service delivery under the following circumstances:

1. The person is no longer willing or able to serve as the employer of record for his or her employees and to fulfill all of the required responsibilities of self-direction, and does not have a qualified representative who is willing and able to serve as the employer of record and to fulfill all of the required responsibilities for self-direction.
2. The person is unwilling to sign a risk agreement which identifies and addresses any additional risks associated with the person's decision to participate in self-direction, or the risks associated with the person's decision to participate in self-direction pose too great a threat to the person's health, safety, and welfare.
3. The person's health, safety, and welfare are in jeopardy if the person or his or her representative continues to employ a worker but the person or representative does not want to terminate the worker.
4. The person refuses to develop a backup and emergency plan for self-determination.
5. The person or his or her representative for self-direction or self-directed workers he or she wants to employ are unwilling to use the services of the department's contracted FA/SB to perform required financial administration and supports brokerage functions.
6. The person or his or her representative is unwilling to abide by the requirements of the Self Determination Waiver self-direction program.
7. If a person's representative fails to perform in accordance with the terms of the representative agreement and the health, safety, and welfare of the person is at risk, and the person wants to continue to use the representative.
8. If the person has consistently demonstrated that he or she is unable to manage, with sufficient supports, including appointment of a representative, his or her services and the case manager or FA/SB has identified health, safety, and or welfare issues.
9. Other significant concerns identified and reported and or documented by the person's supports broker, case manager or member of the Circle of Support regarding the person's participation in self-direction which jeopardize the health, safety or welfare of the person.

In the event that the self-direction option is involuntarily terminated, the person's case manager will work with the person supported to revise the person-centered ISP. Termination of the self-direction option will not affect the ongoing receipt of services specified in the ISP of the person supported. Services, however, will be provided through the standard method of service delivery.

## Appendix E: Participant Direction of Services

### E-1: Overview (13 of 13)

- n. Goals for Participant Direction.** In the following table, provide the State's goals for each year that the waiver is in effect for the unduplicated number of waiver participants who are expected to elect each applicable participant direction opportunity. Annually, the State will report to CMS the number of participants who elect to direct their waiver services.

Table E-1-n

	Employer Authority Only	Budget Authority Only or Budget Authority in Combination with Employer Authority
Waiver Year	Number of Participants	Number of Participants
Year 1	<input type="text"/>	606
Year 2	<input type="text"/>	642
Year 3	<input type="text"/>	678
Year 4	<input type="text"/>	1
Year 5	<input type="text"/>	1

## Appendix E: Participant Direction of Services

### E-2: Opportunities for Participant Direction (1 of 6)

- a. **Participant - Employer Authority** Complete when the waiver offers the employer authority opportunity as indicated in Item E-1-b:

- i. **Participant Employer Status.** Specify the participant's employer status under the waiver. *Select one or both:*

- ☐ **Participant/Co-Employer.** The participant (or the participant's representative) functions as the co-employer (managing employer) of workers who provide waiver services. An agency is the common law employer of participant-selected/recruited staff and performs necessary payroll and human resources functions. Supports are available to assist the participant in conducting employer-related functions.

Specify the types of agencies (a.k.a., agencies with choice) that serve as co-employers of participant-selected staff:

- ☒ **Participant/Common Law Employer.** The participant (or the participant's representative) is the common law employer of workers who provide waiver services. An IRS-approved Fiscal/Employer Agent functions as the participant's agent in performing payroll and other employer responsibilities that are required by federal and state law. Supports are available to assist the participant in conducting employer-related functions.

- ii. **Participant Decision Making Authority.** The participant (or the participant's representative) has decision making authority over workers who provide waiver services. *Select one or more decision making authorities that participants exercise:*

- ☒ **Recruit staff**  
☐ **Refer staff to agency for hiring (co-employer)**  
☒ **Select staff from worker registry**  
☒ **Hire staff common law employer**  
☐ **Verify staff qualifications**  
☐ **Obtain criminal history and/or background investigation of staff**

Specify how the costs of such investigations are compensated:

- ☒ **Specify additional staff qualifications based on participant needs and preferences so long as such qualifications are consistent with the qualifications specified in Appendix C-1/C-3.**

- ☒ Determine staff duties consistent with the service specifications in Appendix C-1/C-3.
- ☒ Determine staff wages and benefits subject to State limits
- ☒ Schedule staff
- ☒ Orient and instruct staff in duties
- ☒ Supervise staff
- ☒ Evaluate staff performance
- ☒ Verify time worked by staff and approve time sheets
- ☒ Discharge staff (common law employer)
- ☐ Discharge staff from providing services (co-employer)
- ☐ Other

Specify:

## Appendix E: Participant Direction of Services

### E-2: Opportunities for Participant-Direction (2 of 6)

**b. Participant - Budget Authority** *Complete when the waiver offers the budget authority opportunity as indicated in Item E-1-b:*

**i. Participant Decision Making Authority.** When the participant has budget authority, indicate the decision-making authority that the participant may exercise over the budget. *Select one or more:*

- ☒ Reallocate funds among services included in the budget
- ☒ Determine the amount paid for services within the State's established limits
- ☒ Substitute service providers
- ☒ Schedule the provision of services
- ☒ Specify additional service provider qualifications consistent with the qualifications specified in Appendix C-1/C-3
- ☒ Specify how services are provided, consistent with the service specifications contained in Appendix C-1/C-3
- ☒ Identify service providers and refer for provider enrollment
- ☐ Authorize payment for waiver goods and services
- ☒ Review and approve provider invoices for services rendered
- ☐ Other

Specify:

## Appendix E: Participant Direction of Services

### E-2: Opportunities for Participant-Direction (3 of 6)

**b. Participant - Budget Authority**

- ii. **Participant-Directed Budget** Describe in detail the method(s) that are used to establish the amount of the participant-directed budget for waiver goods and services over which the participant has authority, including how the method makes use of reliable cost estimating information and is applied consistently to each participant. Information about these method(s) must be made publicly available.

Methodology for the Uniform Calculation of the Individual Self-Determination Budget:

Each waiver participant (person supported) will have an individual budget. The individual budget is defined as the total cost of all waiver services authorized in the ISP. The amount of the budget shall be based on the type and amount of services needed to address the needs of the person supported and personal outcomes, and to assist the participant to achieve the goals and objectives contained in the ISP, based on an individualized assessment of the needs of the person supported.

The individual budget shall include the cost of services in the Supports for Community Living Service Category and the Professional and Technical Support Services Category. As provided in Appendix B, the amount of the individual budget for the services under the Supports for Community Living Category shall not exceed \$23,000 unless an exception has been approved. The amount of the individual budget for the services under the Professional and Technical Support Services Category shall not exceed \$7,000 unless an exception has been approved. Unless supplemental Emergency Assistance has been authorized, the total amount of the individual budget is subject to a \$30,000 per calendar year per waiver participant limitation. In the event that a person's budget has reached \$30,000 and the person experiences an emergency or crisis (e.g., a family member can no longer provide the level of support that was previously provided), supplemental Emergency Assistance up to \$6,000 may be provided as indicated in Appendix B. The total budget for all waiver services, including Emergency Assistance, shall not exceed \$36,000 per calendar year per needs of the person supported.

The foregoing basic methodology for calculating the individual budget will be employed regardless of whether the person supported elects self-direction. As a consequence, the budget calculation methodology is uniform for all persons supported in the program. If a person supported elects to directly manage services which may be managed by the person supported, the self-determination budget for those services shall be an annual amount included as part of the base individual budget. Within this amount, the person supported may:

1. Select and/or recruit service providers.
2. Negotiate payment rates with the providers of services managed by the person supported up to the state-determined maximum payment rate for the service under the agency-directed method of service delivery.
3. Change the amounts of services managed by the person supported specified and approved in the ISP so long as the change is consistent with the needs, goals and objectives identified in the ISP and the health/welfare of the person supported is not compromised. When a change is made, the person supported must notify the DIDD regional office case manager who is responsible for notifying the Financial Management entity. The ISP shall be updated to reflect the change in amounts of services managed by the person supported. In addition, the DIDD case manager and the Financial Management entity shall maintain documentation of such changes for audit purposes.
4. Schedule and reschedule services.

DIDD provides information about rate methodology, including maximum reimbursement schedules, to the contracted Financial Management entity. The Financial Management entity is responsible for ensuring that staff employed as supports brokers have access to this information and are trained to assist people who elect self-direction in establishing provider/staff reimbursement rates that are consistent with effective management of the individual budget.

The DIDD Provider Manual, discusses both the method by which a person supported is capable of directly managing services and the latitude available within practice as it relates to selection of provider and services. The provider manual and all relevant DIDD protocols are made available to the public via the DIDD web site.

## Appendix E: Participant Direction of Services

### E-2: Opportunities for Participant-Direction (4 of 6)

#### b. Participant - Budget Authority

- iii. **Informing Participant of Budget Amount.** Describe how the State informs each participant of the amount of the participant-directed budget and the procedures by which the participant may request an adjustment in the budget amount.

The Tennessee Self-Determination waiver program methodology is explained to the person supported, or their

representative or family member by the DIDD case manager as part of ISP development. During the ISP development process, all persons supported and families will receive an orientation to self-direction. Persons supported and families who express an interest in self-direction will be provided more in-depth information, including the added responsibilities that accompany person supported management of services and its benefits. This information will include examples of a self-determination budget and how it may be managed. Requests for adjustments in the budget amount or in waiver services are submitted through the DIDD case manager.

In addition, a person supported who elects self-direction will have a supports broker who among other activities will provide assistance to the person supported in the managing and monitoring of the individual self-determination budget.

Subject to the limits specified herein, the amount of each budget is based on the waiver services authorized in the ISP of the person supported. The State provides notice, including the right to request a fair hearing, regarding any adverse action pertaining to the denial of a waiver service, including the approval of a lesser amount of services than requested.

## Appendix E: Participant Direction of Services

### E-2: Opportunities for Participant-Direction (5 of 6)

#### b. Participant - Budget Authority

##### iv. Participant Exercise of Budget Flexibility. *Select one:*

- ☒ **Modifications to the participant directed budget must be preceded by a change in the service plan.**
- ☐ **The participant has the authority to modify the services included in the participant directed budget without prior approval.**

Specify how changes in the participant-directed budget are documented, including updating the service plan. When prior review of changes is required in certain circumstances, describe the circumstances and specify the entity that reviews the proposed change:

## Appendix E: Participant Direction of Services

### E-2: Opportunities for Participant-Direction (6 of 6)

#### b. Participant - Budget Authority

- v. **Expenditure Safeguards.** Describe the safeguards that have been established for the timely prevention of the premature depletion of the participant-directed budget or to address potential service delivery problems that may be associated with budget underutilization and the entity (or entities) responsible for implementing these safeguards:

DIDD case managers assist persons supported in identifying their needs and preferences, and selecting, obtaining and coordinating services and Persons enrolled in this waiver shall be contacted by their DIDD Case Manager at least monthly either in person or by telephone (i.e., the member's Case Manager must complete each subsequent contact in person or by telephone within thirty (30) calendar days of the previous in-person or telephone contact). These individuals shall be visited in their residence face-to-face by their DIDD Case Manager at least quarterly (i.e., within ninety (90) calendar days of the previous face-to-face visit). Face-to-face and/or telephone contacts shall be conducted more frequently when appropriate based on the member's needs and/or request which shall be documented in the ISP, or based on a significant change in needs or circumstances.

For persons supported who self-direct services, the Financial Management entity prepares and submits

monthly Self-Determination budget status reports to the person supported and to the DIDD case manager. In addition, the Financial Management entity is required to alert the person supported or representative, as appropriate, and the DIDD case manager whenever the pattern of expenditures reveals the potential that the self-determination budget would be prematurely exhausted. The DIDD case manager will review the monthly expenditure report with the person supported or representative, as appropriate, to identify and discuss potential problems, including potential over-expenditure of funds or expenditure patterns that might indicate that the person supported is having difficulty in accessing authorized services. The DIDD case manager will assist the participant as needed to ensure the ISP is adequate to meet the person's needs and the person supported or representative is properly trained on how to manage the self-determination budget.

## Appendix F: Participant Rights

### Appendix F-1: Opportunity to Request a Fair Hearing

The State provides an opportunity to request a Fair Hearing under 42 CFR Part 431, Subpart E to individuals: (a) who are not given the choice of home and community-based services as an alternative to the institutional care specified in Item 1-F of the request; (b) are denied the service(s) of their choice or the provider(s) of their choice; or, (c) whose services are denied, suspended, reduced or terminated. The State provides notice of action as required in 42 CFR §431.210.

**Procedures for Offering Opportunity to Request a Fair Hearing.** Describe how the individual (or his/her legal representative) is informed of the opportunity to request a fair hearing under 42 CFR Part 431, Subpart E. Specify the notice(s) that are used to offer individuals the opportunity to request a Fair Hearing. State laws, regulations, policies and notices referenced in the description are available to CMS upon request through the operating or Medicaid agency.

The Medicaid Agency will provide an opportunity for a fair hearing under 42 CFR Part 431, subpart E, to individuals who are not given the choice of home or community-based services as an alternative to the institutional care or who are denied the service(s) of their choice, or the provider(s), services and settings of their choice.

#### PROCESS:

The following describes the process for informing eligible individuals of their right to request a fair hearing under 42 CFR Part 431, Subpart E:

1. A plain language explanation of appeal rights shall be provided to persons supported upon enrollment in the waiver.
2. DIDD shall provide in advance a plain language written notice to the persons supported of any action to delay, deny, terminate, suspend, or reduce waiver services, including the setting in which services are provided, or of any action to deny choice of available qualified providers.
3. Notice must be received by the persons supported prior to the date of the proposed termination, suspension, or reduction of waiver services unless one of the exceptions exists under 42 CFR 431.211-214.
4. A persons supported has the right to appeal the adverse action and to request a fair hearing.
5. Appeals must be submitted to the Division of TennCare within thirty (30) calendar days of receipt of notice of the adverse action. Receipt of any notice shall be presumed to be within five (5) calendar days of the mailing date.
6. Reasonable accommodations shall be made for persons with disabilities who require assistance with the appeal process.
7. Hearings shall be held pursuant to the provisions of the Tennessee Uniform Administrative Procedures Act and shall be held before an impartial hearing officer or administrative judge.
8. A written hearing decision shall be issued within ninety (90) calendar days from the date the appeal is received. If the hearing decision is not issued by the 90th day, the waiver service may under specified circumstances be provided until an order is issued.
9. Waiver services shall continue until an initial hearing decision if the persons supported appeals and requests continuation of waiver services within ten (10) calendar days or five (5) calendar days, as applicable under 42 CFR 431.213-214 and 431.231, of the receipt of the notice of action to suspend or reduce ongoing waiver services. If the denial decision is sustained by the hearing, recovery procedures may be instituted against the persons supported to recoup the cost of any waiver services furnished solely by reason of the continuation of services due to the appeal.

Notices of Fair Hearing that are required by 42 CFR §431.210, are maintained by the State entity (either TennCare or DIDD) that is responsible for issuing the notice.

## Appendix F: Participant-Rights

### Appendix F-2: Additional Dispute Resolution Process

- a. **Availability of Additional Dispute Resolution Process.** Indicate whether the State operates another dispute resolution

process that offers participants the opportunity to appeal decisions that adversely affect their services while preserving their right to a Fair Hearing. *Select one:*

- ☒ **No. This Appendix does not apply**
- ☐ **Yes. The State operates an additional dispute resolution process**

- b. Description of Additional Dispute Resolution Process.** Describe the additional dispute resolution process, including: (a) the State agency that operates the process; (b) the nature of the process (i.e., procedures and timeframes), including the types of disputes addressed through the process; and, (c) how the right to a Medicaid Fair Hearing is preserved when a participant elects to make use of the process: State laws, regulations, and policies referenced in the description are available to CMS upon request through the operating or Medicaid agency.

## Appendix F: Participant-Rights

### Appendix F-3: State Grievance/Complaint System

- a. Operation of Grievance/Complaint System.** *Select one:*

- ☐ **No. This Appendix does not apply**
- ☒ **Yes. The State operates a grievance/complaint system that affords participants the opportunity to register grievances or complaints concerning the provision of services under this waiver**

- b. Operational Responsibility.** Specify the State agency that is responsible for the operation of the grievance/complaint system:

Division of TennCare and the Department of Intellectual and Developmental Disabilities (DIDD - the Operating Agency).

- c. Description of System.** Describe the grievance/complaint system, including: (a) the types of grievances/complaints that participants may register; (b) the process and timelines for addressing grievances/complaints; and, (c) the mechanisms that are used to resolve grievances/complaints. State laws, regulations, and policies referenced in the description are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

Resolution of complaints:

The majority of complaints that are unable to be resolved with the provider agency are filed directly with DIDD. In the event that persons supported, family members and/or legal representatives do not agree with a provider's proposed solution to a complaint, they may contact the DIDD Regional Complaint Resolution Coordinator for assistance. The DIDD Regional Complaint Resolution Coordinator will:

- Contact the provider(s) and/or other party(ies) involved to discuss potential resolutions to the complaint. These could include formal mediation or intervention meetings.
- Resolve the complaint within 30 calendar days of the date that the complaint was filed.
- Notify, in writing, the provider(s) and/or other party(ies) involved of the outcome of the complaint within 2 business days of resolution.

In the event the person filing the complaint is not satisfied with the outcome or if a complaint is filed directly with TennCare, the complaint will be referred to the LTSS Quality and Administration Director of ID/DD Services or designee. A complaint is any allegation or charge against a party, an expression of discontent, or information as it pertains to wrong doing affecting the well-being of a person supported. All complaints will be maintained on a complaint log. Each HCBS waiver will have a separate log. Entries to the complaint log will include the following elements:

1. The name of the waiver participant(s)
2. Social security numbers of the participant(s) (if not available from the complainant, to be retrieved from the InterChange System)
3. The name and phone number of the individual reporting the complaint
4. The nature of the complaint(s) or problem(s)
5. The date the Department of Intellectual and Developmental Disabilities (DIDD) was notified of the complaint. If the complainant expressly requests that DIDD not be notified, the reason must be documented.

6. If the complaint is such that appeal rights are involved, documentation that the complainant was informed of such rights.

7. If appeal is requested by the complainant, documentation of the date of referral to the appropriate entity with request for a copy of the final directive.

8. Any actions taken to research, investigate, or resolve the complaint or problem, including dates of such action

9. The results of complaint investigations, including complaints that were validated and a general description of actions taken to resolve complaints (e.g., Corrective Action Plans)

Upon receiving a complaint, designated TennCare staff will determine from the complainant any provider or DIDD staff involved in resolving the issue prior to the complainant's contact with TennCare and the extent to which prior DIDD or provider actions have been successful in resolving the problem.

If the complainant indicates that DIDD has been notified of the complaint/problem and has not responded timely or satisfactorily, TennCare staff will contact the appropriate DIDD staff by telephone within two (2) business days (unless requested not to do so by the complainant) to advise of the nature of the complaint and request that all information pertaining to the complaint be provided within five (5) business days, including any actions taken to resolve the complaint or problem as of the date of the contact.

A follow-up memo will be sent to DIDD via fax or mail to document the date of DIDD notification, the request for related DIDD information, and the expected date of receipt.

DIDD will be required to collect any requested information from involved providers and submit it to the TennCare Division of Long Term Services and Supports. Upon receipt of information regarding DIDD completed actions or anticipated actions, a determination will be made as to whether adequate steps have been or are being taken to resolve the issue.

TennCare and DIDD will work cooperatively to achieve complaint resolution. Once TennCare and appropriate DIDD staff have agreed on a course of action to resolve the problem, the complainant and any providers involved will be notified in writing of the proposed solution and expected date of resolution. Sufficient follow-up contacts to the complainant and DIDD will be made by TennCare LTSS Quality and Administration staff to determine if the problem has been adequately resolved. DIDD will be responsible for providing adequate follow-up documentation as requested by TennCare Waiver staff to document that the agreed upon actions were completed. All complaints filed with TennCare are expected to be resolved within 30 calendar days. DIDD will be required to provide written notification of complaint resolution to designated TennCare staff for and will be required to advise TennCare of any TennCare complaints for which resolution cannot be achieved within targeted timeframes. TennCare will continue to monitor remedial actions until it is determined that the problem is resolved and the complaint can be closed.

Outstanding complaint cases will be discussed at the monthly TennCare/DIDD meetings.

The complainant will receive written notification from designated TennCare, including the data the complaint was considered resolved and closed, a summary of information discovered, and remedial actions taken.

#### DIDD Complaint Resolution System

DIDD utilizes staff from their Customer Focused Services Unit to receive complaints and work with waiver participants and their families, as well as contracted providers, to determine the appropriate actions needed to resolve complaints and ensure that actions are implemented in a timely manner (within a 30 calendar day targeted timeframe). Complaint coordination staff receive training in mediation techniques.

DIDD service providers are required to establish a complaint resolution system and inform persons supported and or their legal representative of this system and allow easy access when seeking assistance and answers for concerns and questions about the care being provided. Upon admission and periodically, DIDD service providers are required to notify each person supported and or their legal representative of their Complaint Resolution System, its purpose and the steps involved to access it.

Providers are asked to resolve all complaints in a timely manner, and within 30 calendar days of the date that the complaint was filed. In the event that a person supported and or their legal representative does not agree with a provider's proposed resolution to a complaint, they may contact the DIDD Complaint Resolution Unit for assistance. The DIDD Regional Complaint Resolution Coordinator will subsequently contact the provider(s) and or other party (ies) involved to discuss potential resolutions to the complaint. This could include formal mediation or intervention meetings. Additionally, case managers are required to notify individuals of their rights, including how to file a complaint, an explanation of their appeal rights and the process for requesting a fair hearing, upon enrollment into a waiver program.

Filing a complaint does not void an individual's right to request a fair hearing in accordance with 42 CFR Part 431, Subpart E, nor is it a prerequisite for a fair hearing.

DIDD collects information regarding waiver participant familiarity with the complaint process through the participant satisfaction survey. Information collected is compiled and reported to TennCare in monthly data files and the Quality Management Report. DIDD also reports monthly DIDD complaint data, including the number and type of complaints received, referral sources, remedial actions, and timeframes for achieving resolution. TennCare monitors DIDD complaint remedial actions on a monthly basis and advises DIDD of any that require further action.

## Appendix G: Participant Safeguards

### Appendix G-1: Response to Critical Events or Incidents

- a. **Critical Event or Incident Reporting and Management Process.** Indicate whether the State operates Critical Event or Incident Reporting and Management Process that enables the State to collect information on sentinel events occurring in the waiver program. *Select one:*

- ☒ **Yes. The State operates a Critical Event or Incident Reporting and Management Process** (*complete Items b through e*)
- ☐ **No. This Appendix does not apply** (*do not complete Items b through e*)
- If the State does not operate a Critical Event or Incident Reporting and Management Process, describe the process that the State uses to elicit information on the health and welfare of individuals served through the program.

- b. **State Critical Event or Incident Reporting Requirements.** Specify the types of critical events or incidents (including alleged abuse, neglect and exploitation) that the State requires to be reported for review and follow-up action by an appropriate authority, the individuals and/or entities that are required to report such events and incidents and the timelines for reporting. State laws, regulations, and policies that are referenced are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

The Department of Intellectual and Developmental Disabilities (DIDD) requires reporting of all incidents classified as "Reportable." This applies to employees and volunteers of contracted service providers, as well as DIDD employees who witness or discover such an incident.

Critical events categorized as abuse, neglect, exploitation, suspicious injury, serious injury of unknown cause and unexpected/unexplained deaths are required to be reported to the DIDD Investigations hotline within four (4) hours of the discovery of the incident. The incident can be reported by telephone, email, and fax or in person. Within one (1) business day, the incident is reported by email or fax to DIDD Central Office and the Case Manager using a Reportable Incident Form. For incidents that are not reported as abuse, neglect, exploitation, suspicious injury, serious injury of unknown cause or unexpected or unexplained death, a next business day reporting requirement is in place. Those incidents are reported via the Reportable Incident Form by email or fax. The hotline number and Reportable Incident Form are located on the DIDD Website.

If a provider reports an allegation of abuse, neglect or exploitation, they are required by State law to contact the appropriate authorities such as Adult Protective Services, Child Protective Services or law enforcement.

- c. **Participant Training and Education.** Describe how training and/or information is provided to participants (and/or families or legal representatives, as appropriate) concerning protections from abuse, neglect, and exploitation, including how participants (and/or families or legal representatives, as appropriate) can notify appropriate authorities or entities when the participant may have experienced abuse, neglect or exploitation.

Participants and their families or legal representatives are provided the DIDD Family Resource Guide which includes information on how to report abuse, neglect, and exploitation to DIDD. The document is also posted on the DIDD website.

DIDD provides ongoing training for providers which include information on how to identify and who to contact when there is an allegation of abuse, neglect or exploitation. Providers use information from this training to educate persons supported and family members upon admission into their services. The DIDD Case Manager is in regular contact with the person and their family and available to provide information should the need arise.

Additional information is also provided via posters and signs which are visibly posted and which outline the same practices taught in the original training. Finally, training is also provided on an as requested basis.

- d. **Responsibility for Review of and Response to Critical Events or Incidents.** Specify the entity (or entities) that receives reports of critical events or incidents specified in item G-1-a, the methods that are employed to evaluate such reports, and the processes and time-frames for responding to critical events or incidents, including conducting investigations.

The DIDD Protection From Harm Unit receives allegations of abuse, neglect, exploitation, serious injuries of unknown cause and suspicious deaths. All such incidents are investigated by trained DIDD investigators who interview the participant, service provider, and all available witnesses. The DIDD investigators examine the incident

scene and collect other available relevant circumstantial evidence (written statements, expert medical opinions as needed, etc.). Based on the preponderance of the cited evidence, each allegation is determined to either be substantiated or unsubstantiated, and a formal written Investigation Report is generally completed within 30 calendar days of the allegation being witnessed or discovered. (In some extraordinary situations, such as a pending criminal investigation, the DIDD investigation may take longer than 30 calendar days. DIDD requires the waiver service provider to develop and implement a written management plan that addresses the issues and conclusions specified in the DIDD Investigations report within 14 calendar days of the completion of the Investigation Report.

For all other “Reportable Incidents”, DIDD requires the person witnessing or discovering the incident to ensure that a written incident report form is forwarded to the responsible waiver service provider and to DIDD. The service provider is required by DIDD to have incident management processes and personnel in place sufficient to review and respond to all “Reportable Incidents.” The service provider is required to ensure that the incident and the initial response to the incident are documented on the incident report form, to review all provider incidents are reviewed immediately and discussed during biweekly meetings for the purpose of identifying any additional actions needed, and to organize all incident information in a way that would facilitate the identification of at-risk participants as well as other trends and patterns that could be used in agency-level incident prevention initiatives.

The relevant parties of an investigation are notified of the results of an investigation via the following:

1. DIDD will send a final DIDD Investigation Report, as well as, a DIDD Summary of Investigation Report to the Executive Director and when applicable, to the Chair of the Board of Directors of the provider(s) responsible for the person(s) supported involved.
  2. The DIDD Summary of Investigation Report will be sent to the DIDD case manager for all persons supported involved in the incident.
  3. The provider will be expected to document reasonable attempts to notify alleged perpetrator(s) of the outcome of the investigation.
  4. Within fifteen (15) business days of receipt of the DIDD Summary of Investigation Report, the summary shall be discussed with the person(s) supported involved to the extent possible (if a legal representative has been appointed, the legal representative shall be invited to participate), with such discussion conducted by a representative of the provider who supports the person. The provider will document the date and time of this discussion and the efforts to coordinate the meeting with the legal representative, as applicable.
- e. **Responsibility for Oversight of Critical Incidents and Events.** Identify the State agency (or agencies) responsible for overseeing the reporting of and response to critical incidents or events that affect waiver participants, how this oversight is conducted, and how frequently.

The Department of Intellectual and Developmental Disabilities (DIDD) is the agency responsible for overseeing the reporting of and response to all “Reportable Incidents.”

Investigation reports involving allegations of abuse, neglect, or exploitation are reviewed by the DIDD Director of Investigations and are available for review by the Division of TennCare.

All “Reportable Incidents” received by DIDD are reviewed for completeness of information (with follow-up for more information if needed), are categorized according to written criteria, and are entered into an electronic database. This database provides data management capabilities including the ability to:

1. Generate “alerts” of individual incidents to designated DIDD staff for follow-up as needed;
2. Support reporting to external entities (e.g., TennCare); and
3. Support internal DIDD trends analysis and reporting functions such as:
  - a. Identification of at-risk participants;
  - b. Identification of employees or contract staff with multiple episodes of substantiated abuse, neglect, and exploitation allowing voluntary screening of prospective employees by service providers during the hiring process;
  - c. Identification of at-risk situations (e.g., data on injuries from falls);
  - d. Creating a detailed profile of identified service providers, with information about reportable incidents related to that provider, and for comparison between service providers; and
  - e. Distribution of monthly reports to DIDD management and other staff.

All Incident and Investigation reports completed by DIDD are available for TennCare review. Monthly data files and Quality Management Reports are submitted to TennCare containing information about the number and types of critical incidents reported, the number of investigations initiated and completed, the number and percentage of substantiated allegations, and time frames for completion of investigations. TennCare reviews incident and investigation data to ensure appropriate and timely remediation of identified findings. TennCare notifies DIDD, on a monthly basis, of any investigation findings that are not acceptably remediated. DIDD is required to provide additional information and/or take additional remedial action until TennCare can determine that appropriate remediation has taken place.

## Appendix G: Participant Safeguards

---

## Appendix G-2: Safeguards Concerning Restraints and Seclusion Interventions (1 of 3)

- a. Use of Restraints.** *(Select one): (For waiver actions submitted before March 2014, responses in Appendix G-2-a will display information for both restraints and seclusion. For most waiver actions submitted after March 2014, responses regarding seclusion appear in Appendix G-2-c.)*

☐ **The State does not permit or prohibits the use of restraints**

Specify the State agency (or agencies) responsible for detecting the unauthorized use of restraints and how this oversight is conducted and its frequency:

☒ **The use of restraints is permitted during the course of the delivery of waiver services.** Complete Items G-2-a-i and G-2-a-ii.

- i. Safeguards Concerning the Use of Restraints.** Specify the safeguards that the State has established concerning the use of each type of restraint (i.e., personal restraints, drugs used as restraints, mechanical restraints). State laws, regulations, and policies that are referenced are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

The use of seclusion is prohibited.

All take-downs and prone restraints are prohibited.

Except for emergency situations that could not have been anticipated in which a restraint is needed to ensure the health and safety of the person or others, restraints may be utilized only as specified below, and with documentation in the person-centered plan of the following: the person's specific, individualized assessed need; the positive interventions and supports that are used prior to the use of restraints; the less intrusive methods of meeting the need that have been tried but did not work; a clear description of the condition that is directly proportionate to the specific assessed need; a requirement for regular collection and review of data to measure the ongoing effectiveness of the modification; established time limits for periodic reviews to determine if the modification is still necessary or can be terminated; and an assurance that interventions and supports will cause no harm to the individual.

When any restraint is used to ensure the health and safety of the person or others that was not anticipated, it will trigger notification to the Circle of Support, and the review and revision of the ISP as appropriate, and as reflected above to address its use going forward.

When any behavior-related restraint is used, regardless of length of time used, type or approved by a plan, it must be reported as a critical incident.

Restraints, including chemical restraints, may be used only when necessary to protect the participant or others from harm and when less intrusive methods have been ineffective. Take downs and horizontal restraint are prohibited. The following mechanical restraints are prohibited: restraint vest, camisoles, body wrap, devices that are used to tie or secure a wrist or ankle to prevent movement, restraint chairs or chairs with devices that prevent movement, and removal of a person's mobility aids such as a wheelchair or walker.

Staff are required to use positive proactive and reactive strategies for preventing and minimizing the intensity and risk factors presented by an individual's behavior whenever possible in order to minimize the use of personal and mechanical restraint. Interventions that should be employed prior to the use of restraints must be documented in the person centered ISP. Staff must be trained on the use of positive interventions and document that positive interventions were employed prior to the use of restraints.

Emergency personal restraint, mechanical restraint, or emergency medication (chemical restraint) is used only as a last resort to protect the person or others from harm. The use of emergency personal restraints or mechanical restraints requires proper authorization, is limited to the time period during which it is absolutely necessary to protect the individual or others, and is not permitted as a punishment by staff, for staff convenience, or in lieu of person-centered programmatic services. The provider agency director or designee must ensure that staff are able to correctly apply the emergency personal restraint or mechanical

restraint.

Time period limitations for the use of restraints will be determined on an individual basis. The modification will be assessed at the end of each individualized time period to determine if continued authorization is needed or if the use of restraints can be terminated and other methods can be utilized. Such determinations shall be made with appropriate agency staff including management and direct support staff as well as the behavior analyst and, as necessary, members of the Circle of Support as well as anyone else the individual or their representative wishes to include.

In cases where a behavior analyst assesses the level of behavior need and risk factors and the planning team concurs, the use of personal or manual restraint may be specified only as a Specialized Behavioral Safety Intervention for use in emergency circumstances, and not as an ongoing intervention or treatment in a behavior support plan that is reviewed and approved by the Circle of Support, including the person supported and his/her guardian/conservator, as applicable. Such use of restraint must be justified as a necessary component of the least restrictive, most effective behavioral intervention. The use of personal or manual restraint is limited to the time period during which it is absolutely necessary to protect the individual or others and is not permitted as a punishment by staff, for staff convenience, or in lieu of person-centered programmatic services. Provider staff who are responsible for carrying out the behavior support plan must be trained on the plan prior to implementation.

Emergency use of personal restraint or mechanical restraint constitutes a reportable incident and as such must comply with DIDD reporting procedures. The case manager must be notified of each use of emergency personal or mechanical restraint within 1 business day.

The use of a psychotropic medication requires a formal diagnosis and informed consent from the persons supported or their legal representative. In addition, the use of psychotropic medications requires review by a human rights committee. When emergency psychotropic medications are administered pursuant to physician's orders, a Reportable Incident Form must be completed and submitted.

Agencies must provide staff training in the area of proactive and reactive supports and restraints adequate to support individuals for whom they are responsible. Quality Assurance standards require that each staff member supporting a person with an approved personal safety system is provided training on its use. Agencies are required to show proof of this training during QA surveys.

- ii. **State Oversight Responsibility.** Specify the State agency (or agencies) responsible for overseeing the use of restraints and ensuring that State safeguards concerning their use are followed and how such oversight is conducted and its frequency:

DIDD, the contracted operating agency, is responsible for overseeing the use of restraints and ensuring that State safeguards concerning their use are followed.

The Quality Strategy includes performance measures specifically designed to facilitate discovery and remediation of any use of prohibited restrictive interventions as well as the inappropriate use of restrictive interventions. New performance measures more closely reflect the State's monitoring and prevention efforts around these restrictive interventions.

Two new measures pertain specifically to restraints and other restrictive interventions:

a.i.22 Number and percentage of Behavior Support Plans (BSPs) that comply with State policies and procedures regarding the use of restrictive interventions.

This involves a 100% review of all Behavior Support Plans that include any restrictive intervention by the DIDD Director of Behavioral and Psychological Services.

a.i.23 Number and percentage of reported critical incidents NOT involving use of prohibited restrictive interventions.

This involves a 100% review of all incidents reported in the DIDD Incident and Investigations Database on an ongoing basis.

Any instances of the use of prohibited restrictive interventions or other inappropriate use of restrictive interventions will be promptly remediated.

## Appendix G: Participant Safeguards

### Appendix G-2: Safeguards Concerning Restraints and Restrictive Interventions (2 of 3)

- b. **Use of Restrictive Interventions.** (*Select one*):

☐ The State does not permit or prohibits the use of restrictive interventions

Specify the State agency (or agencies) responsible for detecting the unauthorized use of restrictive interventions and how this oversight is conducted and its frequency:

● **The use of restrictive interventions is permitted during the course of the delivery of waiver services**

Complete Items G-2-b-i and G-2-b-ii.

- i. Safeguards Concerning the Use of Restrictive Interventions.** Specify the safeguards that the State has in effect concerning the use of interventions that restrict participant movement, participant access to other individuals, locations or activities, restrict participant rights or employ aversive methods (not including restraints or seclusion) to modify behavior. State laws, regulations, and policies referenced in the specification are available to CMS upon request through the Medicaid agency or the operating agency.

Restrictive interventions may be utilized only as specified below, and with documentation in the person-centered plan of the following: the person's specific, individualized assessed need; the positive interventions and supports that are used prior to the use of restrictive interventions; the less intrusive methods of meeting the need that have been tried but did not work; a clear description of the condition that is directly proportionate to the specific assessed need; a requirement for regular collection and review of data to measure the ongoing effectiveness of the modification; established time limits for periodic reviews to determine if the modification is still necessary or can be terminated; and an assurance that interventions and supports will cause no harm to the individual.

Restrictive interventions are only implemented as part of a behavior support plan approved by a Behavior Support Committee and a Human Rights Committee and after informed written consent has been obtained from the person supported or the person's legal representative. The emphasis, however, is placed on developing effective behavior support plans that do not require the use of restrictive interventions. Person centered ISPs shall document positive interventions that are to be employed prior to the use of restrictive interventions. Staff must be trained on the use of positive interventions and document that positive interventions were employed prior to the use of restrictive interventions.

The following types of restricted interventions are permitted:

1. Contingent effort;
2. Escape extinction;
3. Non-exclusion and \*exclusion time-out;
4. Negative practice;
5. Contingent use of personal property or freedoms;
6. Delay of meals;
7. \*Manual restraint;
8. Overcorrection, positive practice;
9. Response cost;
10. Satiation;
11. Substitution of food/meals;
12. \*Mechanical restraint;
13. \*Protective equipment;
14. Required (forced) relaxation; or
15. Sensory extinction.

\*Restraints and protective equipment may be used only when necessary to protect the person supported or others from harm and when less intrusive methods have been ineffective. The application of restraint or protective equipment and exclusionary time-out to a specific location must be implemented carefully to ensure protection from harm and to protect the person's rights.

Behavior support plans including restricted interventions must be written by a DIDD approved Behavior Analyst. In special cases, the behavior analyst may request a variance from current policies given a person's unique needs. A variance must be included in a behavior support plan and must be reviewed and approved by the individual and/or guardian or conservator, the Circle of Support, a Behavior Support Committee and Human Rights Committee, and by the Director of Behavior and Psychological Services. Final authorization must be provided by the Commissioner of the Department of Intellectual and Developmental Disabilities or designee.

The application review and approval process for behavior services providers is managed by the DIDD Director of Behavior and Psychological Services. Behavior analysts must have board certification as a behavior analyst (BCBA) to be approved, although providers with a graduate degree and a minimum of

12 graduate hours in behavior analysis are “grandfathered” pending a transition period to obtain such certification. Courses must focus upon behavior analysis, rather than more generic topics in the discipline for which the graduate degree was awarded. The courses should address the following issues in applied behavior analysis: ethical considerations in the practice of applied behavior analysis; definitions, characteristics, principles, processes and concepts related to applied behavior analysis; behavioral assessment and the selection of intervention strategies and outcomes; experimental evaluation of interventions; measurement of behavior and displaying/interpreting behavioral data; behavioral change procedures and systems support.

A DIDD approved behavior analyst must complete DIDD required training courses as specified in the Provider Manual and DIDD Staff Development plan. Once the behavior support plan has been developed by the behavior analyst, direct support staff are required to receive training on the implementation of the behavior support plan prior to working with the person supported.

All incidents involving the use of restraints are reported through the DIDD incident management system. Regional Office Behavior Analysis staff routinely (daily, weekly, monthly, annually) review incident reports to determine inappropriate or excessive use of restraint. When inappropriate or excessive use is identified, Regional Office Behavior Analysts investigate and follow up to ensure appropriate actions are taken to address any emerging problems. Examples of actions that might be taken include encouraging the person’s circle of support to discuss retaining the services of a behavior analyst or reviewing an existing behavior support plan to determine what types of adjustments might be appropriate.

Agencies must provide staff training adequate to support individuals under their care. Quality Assurance standards require that each staff member supporting a person with an approved personal safety system is provided training on its use. Agencies are required to show proof of this training during QA surveys.

- ii. **State Oversight Responsibility.** Specify the State agency (or agencies) responsible for monitoring and overseeing the use of restrictive interventions and how this oversight is conducted and its frequency:

DIDD, the contracted operating agency, is responsible for monitoring and overseeing the use of restrictive interventions.

The Quality Strategy includes performance measures specifically designed to facilitate discovery and remediation of the inappropriate use of restrictive interventions. New performance measures more closely reflect the State’s monitoring and prevention efforts around these restrictive interventions.

Two new measures pertain specifically to seclusion and other restrictive interventions:

a.i.22 Number and percentage of Behavior Support Plans (BSPs) that comply with State policies and procedures regarding the use of restrictive interventions.

This involves a 100% review of all Behavior Support Plans that include any restrictive intervention by the DIDD Director of Behavioral and Psychological Services.

a.i.23 Number and percentage of reported critical incidents NOT involving use of prohibited restrictive interventions.

This involves a 100% review of all incidents reported in the DIDD Incident and Investigations Database on an ongoing basis.

Any instances of the inappropriate use of restrictive interventions will be promptly remediated.

## Appendix G: Participant Safeguards

### Appendix G-2: Safeguards Concerning Restraints and Restrictive Interventions (3 of 3)

- c. **Use of Seclusion.** *(Select one): (This section will be blank for waivers submitted before Appendix G-2-c was added to WMS in March 2014, and responses for seclusion will display in Appendix G-2-a combined with information on restraints.)*

☒ **The State does not permit or prohibits the use of seclusion**

Specify the State agency (or agencies) responsible for detecting the unauthorized use of seclusion and how this oversight is conducted and its frequency:

DIDD, the contracted operating agency, is responsible for detecting the unauthorized use of seclusion. The Quality Strategy includes performance measures specifically designed to facilitate discovery and

remediation of the use of seclusion as well as the inappropriate use of other restrictive interventions. New performance measures more closely reflect the State's monitoring and prevention efforts around these restrictive interventions.

Two new measures pertain specifically to seclusion and other restrictive interventions:

a.i.22 Number and percentage of Behavior Support Plans (BSPs) that comply with State policies and procedures regarding the use of restrictive interventions.

This involves a 100% review of all Behavior Support Plans that include any restrictive intervention by the DIDD Director of Behavioral and Psychological Services.

a.i.23 Number and percentage of reported critical incidents NOT involving use of prohibited restrictive interventions.

This involves a 100% review of all incidents reported in the DIDD Incident and Investigations Database on an ongoing basis.

Any instances of the use of seclusion (or other inappropriate use of restrictive interventions) will be promptly remediated.

- ☐ **The use of seclusion is permitted during the course of the delivery of waiver services.** Complete Items G-2-c-i and G-2-c-ii.

- i. **Safeguards Concerning the Use of Seclusion.** Specify the safeguards that the State has established concerning the use of each type of seclusion. State laws, regulations, and policies that are referenced are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

- ii. **State Oversight Responsibility.** Specify the State agency (or agencies) responsible for overseeing the use of seclusion and ensuring that State safeguards concerning their use are followed and how such oversight is conducted and its frequency:

## Appendix G: Participant Safeguards

### Appendix G-3: Medication Management and Administration (1 of 2)

*This Appendix must be completed when waiver services are furnished to participants who are served in licensed or unlicensed living arrangements where a provider has round-the-clock responsibility for the health and welfare of residents. The Appendix does not need to be completed when waiver participants are served exclusively in their own personal residences or in the home of a family member.*

- a. **Applicability.** Select one:

- ☐ **No. This Appendix is not applicable** (do not complete the remaining items)
- ☒ **Yes. This Appendix applies** (complete the remaining items)

- b. **Medication Management and Follow-Up**

- i. **Responsibility.** Specify the entity (or entities) that have ongoing responsibility for monitoring participant medication regimens, the methods for conducting monitoring, and the frequency of monitoring.

All waiver service providers employing staff who administer medications to persons supported have ongoing responsibility for monitoring to ensure that medications are correctly administered and that medication administration is appropriately documented in accordance with DIDD requirements. Providers must have written policies and procedures for medication administration and implementation of such policies is evaluated during annual DIDD Provider Performance Surveys. On an ongoing basis, providers are required to report medication variances that have caused, or are likely to cause harm to a person supported. DIDD Regional Office staff receive and review reportable incident forms for completeness and determination of the nature of the incident. DIDD monitors for medication variance trends utilizing data from the Incident and Investigations database.

During DIDD Provider Performance Surveys, DIDD Regional Quality Assurance surveyors review a sample of person's Medication Administration Records to identify potentially harmful practices and to ensure compliance with medication administration documentation requirements. Medication variance reports are also reviewed. Provider medication management policies and practices are reviewed to ensure that:

- a. The Medication Administration Record correctly lists all medications taken by the person supported;
- b. The Medication Administration Record is updated, signed, and maintained in compliance with DIDD medication administration documentation requirements;
- c. All medications are administered in accordance with prescriber's orders;
- d. Medications are administered by medication administration certified staff;
- e. Medications are kept separated for each person supported and are stored safely, securely, and under appropriate environmental conditions.

If a person supported is using a behavior modifying medication (including psychotropic medications, the DIDD Regional Quality Assurance surveyors will determine whether (1) there is documentation of voluntary, informed consent for the use of the medication; (2) the persons supported or the person's family member or guardian/conservator was provided information about the risks and benefits of the medication; and (3) the use of a behavior modifying medication as a restricted intervention was reviewed by Behavior Support and/or Human Rights Committees.

Personnel records are reviewed to ensure that licensed staff who administer medications are appropriately licensed and that unlicensed staff who are permitted by state law to administer medications have documentation of completion of current medication administration certification.

- ii. **Methods of State Oversight and Follow-Up.** Describe: (a) the method(s) that the State uses to ensure that participant medications are managed appropriately, including: (a) the identification of potentially harmful practices (e.g., the concurrent use of contraindicated medications); (b) the method(s) for following up on potentially harmful practices; and, (c) the State agency (or agencies) that is responsible for follow-up and oversight.

DIDD is responsible for oversight of medication management. During annual Provider Performance Surveys, DIDD reviews the person supported Medication Administration Record (MAR) to identify potentially harmful practices and to ensure compliance with documentation requirements. Medication variance reports are reviewed. Personal Records are reviewed to ensure that licensed staff who administer medications are appropriately licensed and that unlicensed staff who are permitted by state law to administer medications have documentation of current medication administration certification. When the DIDD quality assurance surveyors identify potentially harmful medication administration/management practices, the surveyors notify the provider during the survey and then review such issues during the exit conference at the end of the survey. In addition, the provider is notified in writing of any problems identified during the survey, and the provider is required to take appropriate action to resolve such problems in a timely manner. When deficiencies are identified, the DIDD Regional Director is notified and is responsible for ensuring that DIDD Regional Office staff follow up to verify timely and appropriate resolution.

Providers are required to complete a reportable incident form for medication variances if the variance is category E to I on the Medication Variance Form, and a copy of the DIDD Medication Variance Report is submitted with the RIF. In all cases, medication administration by a person who was not trained and certified, or was not licensed by the State of Tennessee to administer medications requires notification to the DIDD Investigations Hotline. Provider agencies are responsible for identifying medication variance trends. Agencies with systemic performance issues identified regarding medication administration during the annual quality assurance survey are discussed during the monthly Statewide Continuous Quality Improvement Committee Meeting.

## Appendix G: Participant Safeguards

### Appendix G-3: Medication Management and Administration (2 of 2)

#### c. Medication Administration by Waiver Providers

##### i. Provider Administration of Medications. *Select one:*

- ☐ **Not applicable.** *(do not complete the remaining items)*
- ☒ **Waiver providers are responsible for the administration of medications to waiver participants who cannot self-administer and/or have responsibility to oversee participant self-administration of**

**medications.** *(complete the remaining items)*

- ii. **State Policy.** Summarize the State policies that apply to the administration of medications by waiver providers or waiver provider responsibilities when participants self-administer medications, including (if applicable) policies concerning medication administration by non-medical waiver provider personnel. State laws, regulations, and policies referenced in the specification are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

The Nurse Practice Act in Tennessee generally prohibits administration of medication by unlicensed individuals. There is, however, a statutory exemption for providers who administer medications to individuals receiving services through the Department of Intellectual and Developmental Disabilities (DIDD). This exemption permits certain unlicensed direct support staff to administer medications after successfully completing medication administration certification developed by DIDD. After completing the training program, the individual may administer medications within specified parameters and in accordance with the prescriber's order; however, the individual is not permitted to administer medications when such administration requires judgment, evaluation, or assessment before the medication is administered. The individual must make a written record of any medication that is administered, including the time and amount taken.

- iii. **Medication Error Reporting.** *Select one of the following:*

- ☒ **Providers that are responsible for medication administration are required to both record and report medication errors to a State agency (or agencies).**

*Complete the following three items:*

- (a) Specify State agency (or agencies) to which errors are reported:

The provider agency is required to complete the approved DIDD incident form used to report all medication variances. This form includes information that specifies the name of the physician notified and the date and time of notification. Medication variances are reported to DIDD. DIDD reviews medication variance reports monthly to determine trends that must be addressed with contracted providers or systemically.

- (b) Specify the types of medication errors that providers are required to *record*:

Providers are required to record a medication variance whenever a medication was given in a way that was not consistent with the prescriber's orders, including the following:

1. Medication was given to the wrong person;
2. Medication was given at the wrong time;
3. Wrong dose of medication was given;
4. Wrong form of medication was given (e.g., tablet instead of liquid form);
5. Wrong medication was given;
6. Medication was given by the wrong route of administration;
7. Failure to give the medication; or
8. Medication was not prepared according to the physician's orders (e.g., was not crushed).

- (c) Specify the types of medication errors that providers must *report* to the State:

A medication variance must be reported if it:

1. Requires intervention and caused, or is likely to cause, the person temporary harm;
2. Caused, or is likely to cause, temporary harm requiring hospitalization;
3. Caused, or is likely to cause, permanent harm to the person;
4. Resulted in a near death event (e.g., anaphylaxis, cardiac arrest); or
5. Resulted in or contributed to the person's death.

- ☐ **Providers responsible for medication administration are required to record medication errors but make information about medication errors available only when requested by the State.**

Specify the types of medication errors that providers are required to record:

- iv. **State Oversight Responsibility.** Specify the State agency (or agencies) responsible for monitoring the performance of waiver providers in the administration of medications to waiver participants and how monitoring is performed and its frequency.

The state agency responsible for monitoring the performance of waiver providers in the administration of medications to persons supported Department of Intellectual and Developmental Disabilities (DIDD). Provider Performance Surveys are conducted annually by the DIDD Regional Quality Assurance Units to assess the performance of waiver providers in the administration of medications. All waiver service providers who administer medications to persons supported are subject to Provider Performance Surveys and are monitored annually unless they meet established criteria for reduced frequency of monitoring. During Provider Performance Surveys, DIDD Regional Office nurses serve as consultants to non-nurse surveyors. The following Quality Assurance Indicators are evaluated during Provider Performance Surveys:

1. Medication variances are reported and addressed in a timely manner.

Compliance with requirements to detect, respond to, and report medication variances in accordance with DIDD policy and procedures is assessed. Surveyors determine if the agency has developed and implemented effective procedures for oversight of medication administration and reporting medication variances.

2. The provider analyzes trends in medication variances and implements prevention strategies.

Monitoring is conducted to assess compliance with the requirement that the agency has policies and procedures in place for tracking and trending medication variances that include implementation of prevention strategies. Reviews are conducted to assess whether the agency has a self-assessment process to review medication administration variance; whether the agency reviews recommendations resulting from monitoring; and whether the agency has implemented corrective action in response to recommendations.

3. The person's record adequately reflects all the medications taken by the person.

Surveyors assess whether current prescriber's orders are present for each medication received by the person supported.

4. Needed medications are provided and administered in accordance with prescriber's orders.

Surveyors assess documentation of medication administration or refusal, identification of medication variances with required action being taken, and monitoring of medication self-administration.

5. Only appropriately certified staff administer medication.

Surveyors assess whether licensed staff who administer medications have a current license, unlicensed staff who administer medications have received appropriate training, whether there has been appropriate delegation of medication administration by a registered nurse, and whether the provider conducts ongoing monitoring of staff administering medications.

6. Medication administration records are appropriately maintained.

Surveyors assess compliance with the requirement that agencies must develop and implement procedures for oversight and completion of the Medication Administration Records. Surveyors also assess compliance with the requirement that providers must maintain information on medication side-effects and that the MAR matches prescription labels and prescriber's orders.

7. Storage of medication ensures appropriate access, security, separation, and environmental conditions.

Surveyors assess the provider's compliance with the requirement that provider medication administration policy address procedures for and monitoring of medication storage and disposal.

## Appendix G: Participant Safeguards

### Quality Improvement: Health and Welfare

*As a distinct component of the State's quality improvement strategy, provide information in the following fields to detail the State's methods for discovery and remediation.*

#### a. Methods for Discovery: Health and Welfare

***The state demonstrates it has designed and implemented an effective system for assuring waiver participant health and welfare.*** (For waiver actions submitted before June 1, 2014, this assurance read "The State, on an ongoing basis, identifies, addresses, and seeks to prevent the occurrence of abuse, neglect and exploitation.")

##### i. Sub-Assurances:

- a. ***Sub-assurance: The state demonstrates on an ongoing basis that it identifies, addresses and seeks to prevent instances of abuse, neglect, exploitation and unexplained death.*** (Performance measures in

*this sub-assurance include all Appendix G performance measures for waiver actions submitted before June 1, 2014.)*

### Performance Measures

*For each performance measure the State will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.*

*For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.*

#### Performance Measure:

**a.i.19 Number and percentage of Plans of Correction related to substantiated investigations, required to be submitted by DIDD providers, which are accepted by DIDD after review.**

- ii. If applicable, in the textbox below provide any necessary additional information on the strategies employed by the State to discover/identify problems/issues within the waiver program, including frequency and parties responsible.

**b. Methods for Remediation/Fixing Individual Problems**

- i. Describe the State's method for addressing individual problems as they are discovered. Include information regarding responsible parties and GENERAL methods for problem correction. In addition, provide information on the methods used by the State to document these items.

Performance Measures a.i.1.: When waiver participants are identified who have not received timely medical examinations, DIDD Regional Office staff will notify the DIDD Case Manager and any providers, as applicable, to appropriately facilitate completion of a medical examination. Completion of the medical examination is expected within 30 days. Case Managers and provider agencies, as applicable, will be held accountable for taking appropriate personnel actions within 30 days, including, but not limited to training and retraining, verbal or written warning, suspension or termination. Other provider agencies, as applicable, will be required to report resolution dates to DIDD monthly.

Performance Measures a.i.2., a.i.3 and a.i.4.: When individuals do not know how to report complaints, the satisfaction survey interviewer will provide the appropriate information. The DIDD People Talking to People Director or designee will contact the waiver participant and/or person assisting the waiver participant who received complaint reporting instruction within 60 days to verify that the person who received information knows how to report complaints and has the appropriate written resources describing reporting processes. On a monthly basis, the DIDD People Talking to People Director will report information regarding the number of survey respondents who did not know how to appropriately report a complaint, as well as education provided and verifications completed, to DIDD Central Office staff responsible for data aggregation.

When waiver participants report that they have not been treated well or are dissatisfied with the amount of privacy allowed, the interviewer will determine how circumstances failed to meet expectations, when any specific event(s) described happened, and if the waiver participant wants to file a complaint or take other action, such as attending self-advocacy meetings or amending the Individual Support Plan. Negative responses to participant survey questions will be reported to the DIDD People Talking to People Director within three working days. The DIDD People Talking to People Director will ensure that a complaint is filed, if appropriate and in accordance with the waiver participant's wishes. The DIDD People Talking to People Director will track resolution of issues identified, as well as timeframes to achieve resolution. Complaints filed will be resolved in accordance with DIDD complaint resolution processes. DIDD' goal is to resolve complaint issues within a 30 day time frame. Monthly information about complaints and complaint resolution, including types of complaint and referral sources, will be reported to DIDD Central Office staff responsible for data aggregation.

Performance Measures a.i.8., a.i.9, a.i.13 and a.i.19: Individual issues identified during DIDD investigations are reported to involved providers, who are required to respond within 30 days to identify corrective actions to be taken. DIDD Regional Office Investigations Follow-up staff are responsible for verifying that appropriate corrective actions were completed within 45 days of issuance of the investigation findings. Investigations results and follow-up actions will be reported monthly to DIDD Central Office staff responsible for data

aggregation.

DIDD Death Reviews are conducted within 45 business days of the individual's death; however, the time period may be extended by the DIDD Deputy Commissioner for good cause. The Regional Death Review Committee conducts a Death Review of any death determined to be Suspicious, Unexpected, or Unexplained and prepares detailed minutes including conclusions and recommendations for corrective actions. DIDD Regional Office staff ensure that the appropriate providers receive copies of the Committee's conclusions and recommendations. DIDD Regional Office Staff verify whether provider corrective actions are appropriately implemented within 45 days of the date the written conclusions/recommendations are.

Performance Measure a.i.11.: When unreported critical incidents are identified, the reviewer will immediately contact the appropriate provider to request that a late report be filed within two working days and will verify that the complaint was actually filed either by observing the completed report and evidence of submission or by verifying receipt of the report with appropriate Regional Office staff. Failure to file timely critical incident reports may result in provider sanctions as specified in the Provider Agreement. The number of unreported critical incidents discovered will be reported by reviewers via entry into a database that is used by DIDD Central Office staff for data aggregation. Both a DIDD monthly Quality Management Reports and data files containing discovery and remediation data are submitted to TennCare.

Performance Measure a.i.20, a.i.21: When providers cannot demonstrate, during their annual Quality Assurance survey, that they regularly review their critical incidents, DIDD issues a 'finding' and requires remediation within 30 days. Likewise, when providers cannot demonstrate that they are implementing corrective actions outlined in their Plans of Correction related to substantiated incidents, DIDD will report those instances.

Performance Measure a.i.22: The DIDD Director of Behavioral Services will review behavior support plans (BSPs) to ensure that they comply with state policies and procedures related to restrictive interventions.

Performance Measure a.i.23: The number of critical incidents that involve the use of prohibited interventions will be tracked and reported.

Performance Measure a.i.24: When providers are not able to provide evidence of policies and practices that achieve outcomes related to health care management and oversight, DIDD will issue a finding.

**ii. Remediation Data Aggregation**

**Remediation-related Data Aggregation and Analysis (including trend identification)**

**c. Timelines**

When the State does not have all elements of the Quality Improvement Strategy in place, provide timelines to design methods for discovery and remediation related to the assurance of Health and Welfare that are currently non-operational.

- ☒ No  
☐ Yes

Please provide a detailed strategy for assuring Health and Welfare, the specific timeline for implementing identified strategies, and the parties responsible for its operation.

## Appendix H: Quality Improvement Strategy (1 of 2)

Under §1915(c) of the Social Security Act and 42 CFR §441.302, the approval of an HCBS waiver requires that CMS determine that the State has made satisfactory assurances concerning the protection of participant health and welfare, financial accountability and other elements of waiver operations. Renewal of an existing waiver is contingent upon review by CMS and a finding by CMS that the assurances have been met. By completing the HCBS waiver application, the State specifies how it has designed the waiver's critical processes, structures and operational features in order to meet these assurances.

- Quality Improvement is a critical operational feature that an organization employs to continually determine whether it operates in accordance with the approved design of its program, meets statutory and regulatory assurances and requirements, achieves desired outcomes, and identifies opportunities for improvement.

CMS recognizes that a state's waiver Quality Improvement Strategy may vary depending on the nature of the waiver target population, the services offered, and the waiver's relationship to other public programs, and will extend beyond regulatory requirements. However, for the purpose of this application, the State is expected to have, at the minimum, systems in place to measure and improve its own performance in meeting six specific waiver assurances and requirements.

It may be more efficient and effective for a Quality Improvement Strategy to span multiple waivers and other long-term care services. CMS recognizes the value of this approach and will ask the state to identify other waiver programs and long-term care services that are addressed in the Quality Improvement Strategy.

### Quality Improvement Strategy: Minimum Components

The Quality Improvement Strategy that will be in effect during the period of the approved waiver is described throughout the waiver in the appendices corresponding to the statutory assurances and sub-assurances. Other documents cited must be available to CMS upon request through the Medicaid agency or the operating agency (if appropriate).

In the QIS discovery and remediation sections throughout the application (located in Appendices A, B, C, D, G, and I) , a state spells out:

- The evidence based discovery activities that will be conducted for each of the six major waiver assurances;
- The *remediation* activities followed to correct individual problems identified in the implementation of each of the assurances;

In Appendix H of the application, a State describes (1) the *system improvement* activities followed in response to aggregated, analyzed discovery and remediation information collected on each of the assurances; (2) the correspondent *roles/responsibilities* of those conducting assessing and prioritizing improving system corrections and improvements; and (3) the processes the state will follow to continuously *assess the effectiveness of the OIS* and revise it as necessary and appropriate.

If the State's Quality Improvement Strategy is not fully developed at the time the waiver application is submitted, the state may provide a work plan to fully develop its Quality Improvement Strategy, including the specific tasks the State plans to undertake during the period the waiver is in effect, the major milestones associated with these tasks, and the entity (or entities) responsible for the completion of these tasks.

When the Quality Improvement Strategy spans more than one waiver and/or other types of long-term care services under the Medicaid State plan, specify the control numbers for the other waiver programs and/or identify the other long-term services that are addressed in the Quality Improvement Strategy. In instances when the QIS spans more than one waiver, the State must be able to stratify information that is related to each approved waiver program. Unless the State has requested and received approval from CMS for the consolidation of multiple waivers for the purpose of reporting, then the State must stratify information that is related to each approved waiver program, i.e., employ a representative sample for each waiver.

## Appendix H: Quality Improvement Strategy (2 of 2)

### H-1: Systems Improvement

#### a. System Improvements

- i. Describe the process(es) for trending, prioritizing, and implementing system improvements (i.e., design changes) prompted as a result of an analysis of discovery and remediation information.

The State's goal is to maintain a quality improvement system that identifies problems, assesses the scope of the problem and ensures that system redesign strategies proactively address issues statewide. This section addresses the process of determining, developing, and implementing statewide remediation strategies. Remediation strategies implemented to address issues affecting the quality of services offered in the waiver program are vital. It is equally important to evaluate the scope of the problem, so that broader improvements can address the potential for issues to affect other persons supported. One of the State's remediation strategies includes DIDD Regional and State Quality Management Committee monitoring systems.

#### Regional Quality Management Committees (RQMC)

Each region has an RQMC meeting at least monthly to review provider performance. The RQMC reviews Quality Assurance surveys, Complaint data, Incident and Investigation data or any other issues warranting attention.

Gathered information is analyzed to:

1. determine the scope of each discovery or remediation problem identified (both isolated and systemic);
2. identify whether additional data is needed for cause of the issue;
3. develop recommendations for remediation / improvement strategies ; and
4. evaluate the effectiveness of improvement strategies previously implemented.

The DIDD RQMC is responsible for monitoring provider level remediation and regional improvement strategies through analysis of performance measure data collected. Provider specific issues / data and Regional analysis will be presented to the SQMC throughout the course of the waiver year through a quality management report.

#### Statewide Quality Management Committee (SQMC)

The SQMC is comprised of management level staff from the Central Office in addition to Regional Office representation. The SQMC analyzes regional data submitted to identify trends, initiate follow up actions, ensure statewide consistency and maintain oversight of RQMC activities.

During the monthly meetings, a prepared Statewide Quality Management Report containing submitted data from all RQMCs is reviewed. The report contains provider information and data for the previous month along with cumulative year-to-date compliance data.

The SQMC reviews:

1. the analysis performed by RQMC's on monthly, cumulative year-to-date, or annual findings;
2. the appropriateness and adequacy of any improvement strategies recommended;
3. the aggregated data for indications of statewide systemic issues;

The SQMC may also determine improvement strategies for systemic level issues and identify the best process for developing those strategies. Appropriate DIDD staff may be assigned as lead for specific responsibilities. Remediation data received from the RQMCs on provider performance is collated and produced into a monthly DIDD State Quality Management Report. Designated DIDD Central Office Compliance Unit staff develop the report for CMS assurance and sub-assurance performance measure results. This information is reviewed by DIDD and TennCare.

#### Statewide Continuous Quality Improvement Committee (SCQI)

The SCQI is comprised of management level staff from DIDD Central Office and senior level staff from TennCare. The purpose of this committee is to ensure TennCare's involvement in the ongoing monitoring of overall waiver performance. This committee meets monthly and is focused on statewide systemic trends and issues. Isolated issues are presented as they relate to the minimum compliance threshold because TennCare and DIDD require a 100% remediation standard. The committee reviews, at a minimum:

1. Systemic remediations,
2. Quality Assurance Summary (performance percentages of all providers by type),
3. Status of providers receiving Mandatory Technical Assistance, and
4. Focused performance measure review.

The goals of the SCQI committee are:

1. Identifying systemic issues through the study of the data,
2. Intervene with appropriate, effective quality improvement strategies,

3. Monitor implementation of quality improvement strategies to ensure prevention of reoccurrence of performance issues, and
4. Brainstorm innovative ideas for continuously improving programs and services.

**ii. System Improvement Activities**

<b>Responsible Party</b> (check each that applies):	<b>Frequency of Monitoring and Analysis</b> (check each that applies):
<input checked="" type="checkbox"/> <b>State Medicaid Agency</b>	<input type="checkbox"/> <b>Weekly</b>
<input checked="" type="checkbox"/> <b>Operating Agency</b>	<input checked="" type="checkbox"/> <b>Monthly</b>
<input type="checkbox"/> <b>Sub-State Entity</b>	<input checked="" type="checkbox"/> <b>Quarterly</b>
<input type="checkbox"/> <b>Quality Improvement Committee</b>	<input checked="" type="checkbox"/> <b>Annually</b>
<input type="checkbox"/> <b>Other</b> Specify: <div style="border: 1px solid black; height: 20px; width: 100%;"></div>	<input type="checkbox"/> <b>Other</b> Specify: <div style="border: 1px solid black; height: 20px; width: 100%;"></div>

**b. System Design Changes**

- i. Describe the process for monitoring and analyzing the effectiveness of system design changes. Include a description of the various roles and responsibilities involved in the processes for monitoring & assessing system design changes. If applicable, include the State's targeted standards for systems improvement.

Performance measures with a compliance percentage below 86% consistently in a quarter (i.e. once every 3 months) are assessed for systemic impact with a Quality Improvement Plan developed and implemented if indicated.

1. Monthly, year-to-date, and annual performance measure data will be monitored during the course of the subsequent months to determine if system redesign strategies employed to address regional and state level performance problems were effective in increasing compliance percentages.
2. The DIDD Program Operations unit is responsible for monitoring and evaluating the effectiveness of provider improvement strategies with input and assistance provided by the SQMC, and oversight from TennCare.
3. Consideration will be given as to whether aggregate data indicates a system-wide issue. Annual recommendations on long term improvement strategies will be made by the DIDD Program Operations unit staff to the SQMC. The appropriate DIDD senior management staff will develop a work plan for those measures to be addressed in the coming year. Appropriate DIDD leadership staff will be responsible for the oversight of implementation of the work plan. Results will be reported to TennCare in monthly SCQI meetings.
4. DIDD posts monthly discovery and remediation data files allowing TennCare to generate Compliance Summary Reports containing information on Individual Record Reviews completed, percentage of compliance for each performance measure, number of findings remediated, and timeframes required for remediation. The TennCare Director of Quality and Administration- Intellectual Disabilities Services, with assistance and input from TennCare Long Term Services and Supports division staff, will have responsibility for monitoring and evaluating the effectiveness of improvement strategies specifically applicable to identified systemic issues and TennCare processes.

- ii. Describe the process to periodically evaluate, as appropriate, the Quality Improvement Strategy.

At least annually, the SQMC will review the information needed to assess waiver quality or whether aspects of the quality improvement system require revision and submit recommendations to TennCare. The SQMC will also consider if existing performance measures are appropriate, if revision or deletion of existing measures should be undertaken, or if new performance measures should be added. This information is provided to TennCare as necessary for consideration.

Monthly State Continuous Quality Improvement Committee (SCQI) meetings are held as an opportunity for a collaborative review between DIDD and TennCare concerning issues related to the overall quality of the HCBS waivers. Included in the agenda of these meetings are the performance data, remediation and validation

results for the previous month, results of DIDD quality assurance surveys, and a summary of the actions taken at the previous SQMC. As appropriate, additional areas such as DIDD Protection from Harm, Legal Affairs and Provider Development are discussed.

## Appendix I: Financial Accountability

### I-1: Financial Integrity and Accountability

**Financial Integrity.** Describe the methods that are employed to ensure the integrity of payments that have been made for waiver services, including: (a) requirements concerning the independent audit of provider agencies; (b) the financial audit program that the state conducts to ensure the integrity of provider billings for Medicaid payment of waiver services, including the methods, scope and frequency of audits; and, (c) the agency (or agencies) responsible for conducting the financial audit program. State laws, regulations, and policies referenced in the description are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

#### A. An Independent Audit

The Department of Intellectual and Developmental Disabilities (DIDD) requires providers receiving \$750,000 or more in aggregate state and federal funds to obtain an independent audit of the organization and to submit copies of the independent audit to the Tennessee Office of the Comptroller and to the DIDD Office of Risk Management and Licensure.

The Independent Audit is an industry standard audit performed by a CPA/accounting firm to verify that the provider's business practices adhere to Generally Accepted Accounting Principles (GAAP). To ensure that auditors are truly independent, a preliminary step to all such audits includes written verification that no conflicts of interest exist between the auditor and the agency or firm being audited.

All provider types are included in the audit requirement. All providers, whether independent or part of a larger organization, are reviewed to ensure compliance with the Independent Audit requirement if they meet the \$750,000 threshold.

DIDD maintains a listing of all providers with "total annual funding" listed (i.e., aggregate state and federal funds). The Fiscal Accountability Review (FAR) unit of the Office of Quality Management conducts annual on-site reviews of all applicable providers, per DIDD policy, to determine compliance with the Independent Audit requirement. DIDD policy defines applicable providers as those with annual billing in excess of \$500,000. If reviewers find that an Independent Audit has not been completed within the past 12 months, a "finding" is issued and the provider is required to submit a written corrective action plan and, as soon as completed, a copy of the Independent Audit.

B. Financial audit program that the state conducts to ensure the integrity of provider billings for Medicaid payment of waiver services, including the methods, scope and frequency of audits:

Utilization Review Process - The Division of TennCare conducts utilization reviews of the HCBS waivers for persons with intellectual disabilities to determine compliance with federal and state regulations and waiver requirements. Post-payment claim reviews to ensure that services are appropriately documented and appropriately billed are conducted as part of the utilization review process.

Utilization reviews are conducted according to a predetermined audit schedule for the year. Post-payment reviews (UR) are done on all providers billing under \$500,000 per year and may also include some providers over the \$500k threshold. Sample sizes vary depending on the service, taking into account both the number of participants receiving the service and the average number of units received, and the time requirements for that service's review. Reviews are conducted in each region of the state, and cover different waiver services each month. The process includes a review of the approved service plan with the amount, frequency and duration, review of the billing documents and supporting documentation, and a comparison of all documents to adjudicated claims. Identified inconsistencies are documented and researched. Unsupported and/or inappropriate payments result in recoupment.

Fiscal Accountability Review (FAR) – The DIDD Office of Quality Management, Fiscal Accountability Review (FAR) Unit monitors contracts and conducts onsite reviews. A review of the claims billed is compared to supporting documentation and all discrepancies are noted in a report that is submitted to the contract provider for comment. Recoupment for unsupported charges is made after review of the agency's comments. The initial report and final resolution is then submitted to TennCare for additional follow up where appropriate.

State of Tennessee, Department of Audit, Audit Manual, Section A-2 - Audits cover at least one fiscal year, 12 months, unless otherwise approved by the Comptroller. The Division of TennCare (State Medicaid Agency) is subject to an annual audit as required by the Single Audit Act. The audit includes a random sample of each program and includes the 1915(c) HCBS waiver programs. Requests for documentation to support paid claims are made directly to selected providers by the Department of Audit and all information is submitted by providers to this Department. At the completion of the audit process, a comprehensive report is submitted to TennCare staff for review and follow-up to insure that findings are not repeated in subsequent years.

C. Agency (or agencies) responsible for conducting the financial audit program:

- The Division of TennCare conducts utilization reviews of the HCBS waivers.
- The Department of Intellectual and Developmental Disabilities (DIDD) Office of Quality Management Financial Accountability Reviews Unit (FAR) conducts the Fiscal Accountability Reviews. - The Division of State Audit of Tennessee Comptroller of the Treasury, under an agreement with the TennCare Division of the Department of Finance and Administration, performs an annual audit of the State's TennCare program.

## Appendix I: Financial Accountability

### Quality Improvement: Financial Accountability

*As a distinct component of the State's quality improvement strategy, provide information in the following fields to detail the State's methods for discovery and remediation.*

**a. Methods for Discovery: Financial Accountability Assurance:**

***The State must demonstrate that it has designed and implemented an adequate system for ensuring financial accountability of the waiver program. (For waiver actions submitted before June 1, 2014, this assurance read "State financial oversight exists to assure that claims are coded and paid for in accordance with the reimbursement methodology specified in the approved waiver.")***

**i. Sub-Assurances:**

- a. Sub-assurance: The State provides evidence that claims are coded and paid for in accordance with the reimbursement methodology specified in the approved waiver and only for services rendered. (Performance measures in this sub-assurance include all Appendix I performance measures for waiver actions submitted before June 1, 2014.)**

#### Performance Measures

*For each performance measure the State will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.*

*For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.*

#### Performance Measure:

**a.i.3. # and % of paid claims for services delivered to persons enrolled in the waiver, in accordance with the approved ISP, and with documentation to support the amount, frequency and duration of services billed. % = # of paid claims for services delivered to persons enrolled in the waiver, in accordance with the ISP, and with documentation to support paid claims / total # of claims reviewed.**

**Data Source (Select one):**

**Other**

- ii. If applicable, in the textbox below provide any necessary additional information on the strategies employed by the State to discover/identify problems/issues within the waiver program, including frequency and parties responsible.

**b. Methods for Remediation/Fixing Individual Problems**

- i. Describe the State's method for addressing individual problems as they are discovered. Include information regarding responsible parties and GENERAL methods for problem correction. In addition, provide information on the methods used by the State to document these items.

Performance Measure a.i.1.: The TennCare MMIS system generates a Remittance Advice Report listing the status of all submitted claims, including those approved, those denied, and those suspended. DIDD Administrative Unit staff receive reports following each billing cycle. DIDD must correct errors, based on the reason for denial specified in the report, and resubmit the corrected claims within six months. If the error is not appropriately corrected upon resubmission, the claim will be denied again. Upon second denial of a claim, TennCare will issue a written notice to DIDD indicating that a resubmitted claim was denied and cannot be paid until errors are appropriately corrected. TennCare will provide technical assistance as needed to ensure correction of the error. TennCare will track the number of claims denied multiple times for the same error. If more than two denials are generated for the same claim error, TennCare will send a written notice to DIDD requesting corrective action, which may include procedural changes, staff training, or staff disciplinary actions. DIDD will be required to respond with a written explanation of the corrective actions taken within 30 days of receiving the TennCare request for corrective action. Suspended claims are reviewed by designated TennCare staff for determination of the reasons and appropriateness of suspension. TennCare staff will work toward correction of any issues causing the claim to suspend until they are resolved and result in approval or denial of the claim.

The TennCare MMIS system has edits in place to automatically deny claims that are not consistent with the approved rate methodology. The TennCare Information Systems Unit reports monthly to confirm that no claims have been paid that are inconsistent with that methodology.

Performance Measure a.i.3.: Findings from DIDD FAR reviews are included in an audit report that is sent to

the audited provider and copied to the appropriate DIDD, TennCare and Comptroller staff. Repeat findings are identified in the report. Payments made for claims with inadequate or missing information are recouped, unless the provider responds with additional information to justify claims billed. Providers will be required to submit a management response to DIDD FAR reports within 15 business days. Responses may include additional information to justify billing, agreement with findings and identification of management strategies to improve documentation and billing processes, or a combination of both. For responses not received within 15 business days, the DIDD FAR Director will send a notice advising that the recoupment is due within 30 days and will provide instructions for accomplishing the recoupment. The DIDD FAR Director will track recoupments in a database. At the end of each review period (calendar year), a final reckoning process will be initiated. If recouped amounts have not been collected from the provider, the amount will be withheld from provider payments so that all recoupments for the review cycle are collected no later than the end of the first quarter of the subsequent calendar year (March 31). DIDD FAR reviewers collect information identifying the waiver program in which the waiver participant whose records are being reviewed is enrolled. Consequently, review data is available by waiver program. DIDD reports monthly concerning the number of paid claims and findings if applicable. The FAR Director completes an annual summary regarding collection of recoupments from providers resulting from DIDD FAR findings and submits this to TennCare.

Performance Measure a.i.4: The state will ensure that the rates approved are consistent with the approved rate methodology throughout the five year waiver cycle, and report cases that vary from the approved rate, if applicable.

ii. **Remediation Data Aggregation**

**Remediation-related Data Aggregation and Analysis (including trend identification)**

Responsible Party <i>(check each that applies):</i>	Frequency of data aggregation and analysis <i>(check each that applies):</i>
<input checked="" type="checkbox"/> State Medicaid Agency	<input type="checkbox"/> Weekly
<input checked="" type="checkbox"/> Operating Agency	<input checked="" type="checkbox"/> Monthly
<input type="checkbox"/> Sub-State Entity	<input type="checkbox"/> Quarterly
<input type="checkbox"/> Other Specify: <input type="text"/>	<input checked="" type="checkbox"/> Annually
	<input type="checkbox"/> Continuously and Ongoing
	<input type="checkbox"/> Other Specify: <input type="text"/>

c. **Timelines**

When the State does not have all elements of the Quality Improvement Strategy in place, provide timelines to design methods for discovery and remediation related to the assurance of Financial Accountability that are currently non-operational.

- ☒ No  
☐ Yes

Please provide a detailed strategy for assuring Financial Accountability, the specific timeline for implementing identified strategies, and the parties responsible for its operation.

## Appendix I: Financial Accountability

### I-2: Rates, Billing and Claims (1 of 3)

- a. **Rate Determination Methods.** In two pages or less, describe the methods that are employed to establish provider

payment rates for waiver services and the entity or entities that are responsible for rate determination. Indicate any opportunity for public comment in the process. If different methods are employed for various types of services, the description may group services for which the same method is employed. State laws, regulations, and policies referenced in the description are available upon request to CMS through the Medicaid agency or the operating agency (if applicable).

Proposed service rates are determined by the Department of Intellectual and Developmental Disabilities (DIDD) and are approved by TennCare, the State Medicaid Agency. The State Medicaid Agency, TennCare, has oversight of the rate determination process. TennCare reviews and approves all rates and keys approved rates into the MMIS for purposes of processing claims for waiver services.

Maximum allowable rates are established for each service based on an analysis of provider costs to deliver services and based on experience, as set forth in DIDD Administrative Rule (<http://publications.tnsosfiles.com/rules/0465/0465-01/0465-01-02.20140312.pdf>). Rates paid in the self-determination waiver are the same as those paid in the two other 1915(c) home and community-based waivers for people with intellectual disabilities. The methodology was developed in conjunction with providers and other stakeholders in 2005 with the average expenses incurred by providers in 2004 used as the cost model. Adjustments have been made to the 2005 rates, primarily the direct support professional hourly wage component within the rates, based on feedback from providers, current employment trends, and State appropriations. This includes rate increases for nearly all residential and day services in FY 2014, FY 2015, FY 2017, and FY 2018.

Rates must be sufficient to recruit an adequate supply of qualified providers for each service to ensure participants statewide have adequate access to waiver services. In setting rates, the rates for similar services in other state programs are considered. Providers are reimbursed up to the maximum allowable rate established for a service. Stakeholders have the opportunity to provide input into the development and sufficiency of rates through the DIDD Statewide Planning and Policy Councils, provider meetings, and other public meetings, as well as through the DIDD rule-making hearing process, which includes public notice and a rule-making hearing. Information about payment rates is made public and is available on the DIDD web site, i.e., TennCare Maximum Reimbursement Rate Schedule. Persons who choose to self-direct have input into setting rates for workers. For each service, a maximum allowable rate is proposed by DIDD and approved by TennCare. These are communicated to persons self-directing their services through "The Self-Determination Waiver Program: Guide to Self-Directing Services." Waiver participants self-directing may determine rates for workers that are no greater than the maximum allowable rate.

- b. Flow of Billings.** Describe the flow of billings for waiver services, specifying whether provider billings flow directly from providers to the State's claims payment system or whether billings are routed through other intermediary entities. If billings flow through other intermediary entities, specify the entities:

All Waiver services are prior approved by DIDD. Providers submit invoices for delivered services to the DIDD central office. The DIDD system has numerous edits including an edit that verifies the services provided on the date of service were approved in the participant's ISP.

The DIDD system converts the provider claims that successfully process through all of its edits to the appropriate claim format and submits the claims electronically to TennCare for processing through the MMIS. The MMIS processes the claims and returns the remittance advices electronically to DIDD and a hard copy to each provider. TennCare issues reimbursement payments to the providers. Providers retain 100% of the payment calculated in the MMIS.

For waiver services that are self-directed, the invoice for waiver services is signed off on by the participant and is submitted to a financial management services company. The financial management services company processes payroll to the workers then submits a claim for the waiver services to DIDD, as do all other providers. The claims process through DIDD edits and are electronically sent to TennCare for processing through the MMIS. The financial management services contractor receives payment and a remittance advice directly from TennCare and pays workers who are employed by participants from the funds.

The financial management services company provides payroll and support broker services under an administrative contract. For administrative services, the financial management services company submits a monthly invoice to DIDD based on the number of participants served that month, separately indicating the number of participants who received supports brokerage services and the number of participants who received financial management services. The contractor is reimbursed through administrative claiming for these service components.

## Appendix I: Financial Accountability

### I-2: Rates, Billing and Claims (2 of 3)

**c. Certifying Public Expenditures** *(select one):*

- ☒ **No. State or local government agencies do not certify expenditures for waiver services.**
- ☐ **Yes. State or local government agencies directly expend funds for part or all of the cost of waiver services and certify their State government expenditures (CPE) in lieu of billing that amount to Medicaid.**

*Select at least one:*☐ **Certified Public Expenditures (CPE) of State Public Agencies.**

Specify: (a) the State government agency or agencies that certify public expenditures for waiver services; (b) how it is assured that the CPE is based on the total computable costs for waiver services; and, (c) how the State verifies that the certified public expenditures are eligible for Federal financial participation in accordance with 42 CFR §433.51(b). *(Indicate source of revenue for CPEs in Item I-4-a.)*

☐ **Certified Public Expenditures (CPE) of Local Government Agencies.**

Specify: (a) the local government agencies that incur certified public expenditures for waiver services; (b) how it is assured that the CPE is based on total computable costs for waiver services; and, (c) how the State verifies that the certified public expenditures are eligible for Federal financial participation in accordance with 42 CFR §433.51(b). *(Indicate source of revenue for CPEs in Item I-4-b.)*

**Appendix I: Financial Accountability****I-2: Rates, Billing and Claims (3 of 3)**

- d. Billing Validation Process.** Describe the process for validating provider billings to produce the claim for federal financial participation, including the mechanism(s) to assure that all claims for payment are made only: (a) when the individual was eligible for Medicaid waiver payment on the date of service; (b) when the service was included in the participant's approved service plan; and, (c) the services were provided:

DIDD approves services in the ISP. All providers submit service invoices to DIDD. The DIDD system validates service invoices against the DIDD approved service plans. The DIDD system creates a claim for services that were in an approved plan and submits the claims to TennCare for processing through the MMIS. When the claims process through the MMIS, the system checks to verify that the person had an active Pre-Admission Evaluation establishing waiver eligibility, and the person's eligibility for Medicaid on the date of service is verified. Claims are also processed against a number of other edits or audits specific to service limits within the MMIS. Post-payment reviews are conducted by the DIDD Internal Audit Unit and by TennCare to ensure services were provided.

- e. Billing and Claims Record Maintenance Requirement.** Records documenting the audit trail of adjudicated claims (including supporting documentation) are maintained by the Medicaid agency, the operating agency (if applicable), and providers of waiver services for a minimum period of 3 years as required in 45 CFR §92.42.

**Appendix I: Financial Accountability****I-3: Payment (1 of 7)****a. Method of payments -- MMIS** *(select one):*

- ☒ **Payments for all waiver services are made through an approved Medicaid Management Information**

**System (MMIS).**

- ☐ **Payments for some, but not all, waiver services are made through an approved MMIS.**

Specify: (a) the waiver services that are not paid through an approved MMIS; (b) the process for making such payments and the entity that processes payments; (c) and how an audit trail is maintained for all state and federal funds expended outside the MMIS; and, (d) the basis for the draw of federal funds and claiming of these expenditures on the CMS-64:

- ☐ **Payments for waiver services are not made through an approved MMIS.**

Specify: (a) the process by which payments are made and the entity that processes payments; (b) how and through which system(s) the payments are processed; (c) how an audit trail is maintained for all state and federal funds expended outside the MMIS; and, (d) the basis for the draw of federal funds and claiming of these expenditures on the CMS-64:

- ☐ **Payments for waiver services are made by a managed care entity or entities. The managed care entity is paid a monthly capitated payment per eligible enrollee through an approved MMIS.**

Describe how payments are made to the managed care entity or entities:

## Appendix I: Financial Accountability

### I-3: Payment (2 of 7)

- b. Direct payment.** In addition to providing that the Medicaid agency makes payments directly to providers of waiver services, payments for waiver services are made utilizing one or more of the following arrangements (*select at least one*):

- ☐ **The Medicaid agency makes payments directly and does not use a fiscal agent (comprehensive or limited) or a managed care entity or entities.**
- ☒ **The Medicaid agency pays providers through the same fiscal agent used for the rest of the Medicaid program.**
- ☐ **The Medicaid agency pays providers of some or all waiver services through the use of a limited fiscal agent.**

Specify the limited fiscal agent, the waiver services for which the limited fiscal agent makes payment, the functions that the limited fiscal agent performs in paying waiver claims, and the methods by which the Medicaid agency oversees the operations of the limited fiscal agent:

- ☐ **Providers are paid by a managed care entity or entities for services that are included in the State's contract with the entity.**

Specify how providers are paid for the services (if any) not included in the State's contract with managed care entities.

## Appendix I: Financial Accountability

### I-3: Payment (3 of 7)

- c. **Supplemental or Enhanced Payments.** Section 1902(a)(30) requires that payments for services be consistent with efficiency, economy, and quality of care. Section 1903(a)(1) provides for Federal financial participation to States for expenditures for services under an approved State plan/waiver. Specify whether supplemental or enhanced payments are made. *Select one:*

- ☒ **No. The State does not make supplemental or enhanced payments for waiver services.**
- ☐ **Yes. The State makes supplemental or enhanced payments for waiver services.**

Describe: (a) the nature of the supplemental or enhanced payments that are made and the waiver services for which these payments are made; (b) the types of providers to which such payments are made; (c) the source of the non-Federal share of the supplemental or enhanced payment; and, (d) whether providers eligible to receive the supplemental or enhanced payment retain 100% of the total computable expenditure claimed by the State to CMS. Upon request, the State will furnish CMS with detailed information about the total amount of supplemental or enhanced payments to each provider type in the waiver.

## Appendix I: Financial Accountability

### I-3: Payment (4 of 7)

- d. **Payments to State or Local Government Providers.** *Specify whether State or local government providers receive payment for the provision of waiver services.*

- ☒ **No. State or local government providers do not receive payment for waiver services.** Do not complete Item I-3-e.
- ☐ **Yes. State or local government providers receive payment for waiver services.** Complete Item I-3-e.

Specify the types of State or local government providers that receive payment for waiver services and the services that the State or local government providers furnish:

## Appendix I: Financial Accountability

### I-3: Payment (5 of 7)

- e. **Amount of Payment to State or Local Government Providers.**

Specify whether any State or local government provider receives payments (including regular and any supplemental payments) that in the aggregate exceed its reasonable costs of providing waiver services and, if so, whether and how the State recoups the excess and returns the Federal share of the excess to CMS on the quarterly expenditure report. *Select one:*

---

Answers provided in Appendix I-3-d indicate that you do not need to complete this section.

---

- ☐ The amount paid to State or local government providers is the same as the amount paid to private providers of the same service.
- ☐ The amount paid to State or local government providers differs from the amount paid to private providers of the same service. No public provider receives payments that in the aggregate exceed its reasonable costs of providing waiver services.
- ☐ The amount paid to State or local government providers differs from the amount paid to private providers of the same service. When a State or local government provider receives payments (including regular and any supplemental payments) that in the aggregate exceed the cost of waiver services, the State recoups the excess and returns the federal share of the excess to CMS on the quarterly expenditure report.

Describe the recoupment process:

## Appendix I: Financial Accountability

---

### I-3: Payment (6 of 7)

- f. **Provider Retention of Payments.** Section 1903(a)(1) provides that Federal matching funds are only available for expenditures made by states for services under the approved waiver. *Select one:*

- ☒ Providers receive and retain 100 percent of the amount claimed to CMS for waiver services.
- ☐ Providers are paid by a managed care entity (or entities) that is paid a monthly capitated payment.

Specify whether the monthly capitated payment to managed care entities is reduced or returned in part to the State.

## Appendix I: Financial Accountability

---

### I-3: Payment (7 of 7)

- g. **Additional Payment Arrangements**

- i. **Voluntary Reassignment of Payments to a Governmental Agency.** *Select one:*

- ☒ No. The State does not provide that providers may voluntarily reassign their right to direct payments to a governmental agency.
- ☐ Yes. Providers may voluntarily reassign their right to direct payments to a governmental agency as provided in 42 CFR §447.10(e).

Specify the governmental agency (or agencies) to which reassignment may be made.

- ii. **Organized Health Care Delivery System.** *Select one:*

- ☒ **No. The State does not employ Organized Health Care Delivery System (OHCDS) arrangements under the provisions of 42 CFR §447.10.**
- ☐ **Yes. The waiver provides for the use of Organized Health Care Delivery System arrangements under the provisions of 42 CFR §447.10.**

Specify the following: (a) the entities that are designated as an OHCDS and how these entities qualify for designation as an OHCDS; (b) the procedures for direct provider enrollment when a provider does not voluntarily agree to contract with a designated OHCDS; (c) the method(s) for assuring that participants have free choice of qualified providers when an OHCDS arrangement is employed, including the selection of providers not affiliated with the OHCDS; (d) the method(s) for assuring that providers that furnish services under contract with an OHCDS meet applicable provider qualifications under the waiver; (e) how it is assured that OHCDS contracts with providers meet applicable requirements; and, (f) how financial accountability is assured when an OHCDS arrangement is used:

**iii. Contracts with MCOs, PIHPs or PAHPs. *Select one:***

- ☒ **The State does not contract with MCOs, PIHPs or PAHPs for the provision of waiver services.**
- ☐ **The State contracts with a Managed Care Organization(s) (MCOs) and/or prepaid inpatient health plan(s) (PIHP) or prepaid ambulatory health plan(s) (PAHP) under the provisions of §1915(a)(1) of the Act for the delivery of waiver and other services. Participants may voluntarily elect to receive waiver and other services through such MCOs or prepaid health plans. Contracts with these health plans are on file at the State Medicaid agency.**

Describe: (a) the MCOs and/or health plans that furnish services under the provisions of §1915(a)(1); (b) the geographic areas served by these plans; (c) the waiver and other services furnished by these plans; and, (d) how payments are made to the health plans.

- ☐ **This waiver is a part of a concurrent §1915(b)/§1915(c) waiver. Participants are required to obtain waiver and other services through a MCO and/or prepaid inpatient health plan (PIHP) or a prepaid ambulatory health plan (PAHP). The §1915(b) waiver specifies the types of health plans that are used and how payments to these plans are made.**
- ☐ **This waiver is a part of a concurrent ☐1115/☐1915(c) waiver. Participants are required to obtain waiver and other services through a MCO and/or prepaid inpatient health plan (PIHP) or a prepaid ambulatory health plan (PAHP). The ☐1115 waiver specifies the types of health plans that are used and how payments to these plans are made.**

## Appendix I: Financial Accountability

### I-4: Non-Federal Matching Funds (1 of 3)

- a. State Level Source(s) of the Non-Federal Share of Computable Waiver Costs.** Specify the State source or sources of the non-federal share of computable waiver costs. *Select at least one:*

- ☒ **Appropriation of State Tax Revenues to the State Medicaid agency**
- ☐ **Appropriation of State Tax Revenues to a State Agency other than the Medicaid Agency.**

If the source of the non-federal share is appropriations to another state agency (or agencies), specify: (a) the State entity or agency receiving appropriated funds and (b) the mechanism that is used to transfer the funds to the Medicaid Agency or Fiscal Agent, such as an Intergovernmental Transfer (IGT), including any matching arrangement, and/or, indicate if the funds are directly expended by State agencies as CPEs, as indicated in Item I-

2-c:

☐ **Other State Level Source(s) of Funds.**

Specify: (a) the source and nature of funds; (b) the entity or agency that receives the funds; and, (c) the mechanism that is used to transfer the funds to the Medicaid Agency or Fiscal Agent, such as an Intergovernmental Transfer (IGT), including any matching arrangement, and/or, indicate if funds are directly expended by State agencies as CPEs, as indicated in Item I-2-c:

## Appendix I: Financial Accountability

### I-4: Non-Federal Matching Funds (2 of 3)

- b. Local Government or Other Source(s) of the Non-Federal Share of Computable Waiver Costs.** Specify the source or sources of the non-federal share of computable waiver costs that are not from state sources. *Select One:*

☒ **Not Applicable.** There are no local government level sources of funds utilized as the non-federal share.

☐ **Applicable**

*Check each that applies:*

☐ **Appropriation of Local Government Revenues.**

Specify: (a) the local government entity or entities that have the authority to levy taxes or other revenues; (b) the source(s) of revenue; and, (c) the mechanism that is used to transfer the funds to the Medicaid Agency or Fiscal Agent, such as an Intergovernmental Transfer (IGT), including any matching arrangement (indicate any intervening entities in the transfer process), and/or, indicate if funds are directly expended by local government agencies as CPEs, as specified in Item I-2-c:

☐ **Other Local Government Level Source(s) of Funds.**

Specify: (a) the source of funds; (b) the local government entity or agency receiving funds; and, (c) the mechanism that is used to transfer the funds to the State Medicaid Agency or Fiscal Agent, such as an Intergovernmental Transfer (IGT), including any matching arrangement, and/or, indicate if funds are directly expended by local government agencies as CPEs, as specified in Item I-2-c:

## Appendix I: Financial Accountability

### I-4: Non-Federal Matching Funds (3 of 3)

- c. Information Concerning Certain Sources of Funds.** Indicate whether any of the funds listed in Items I-4-a or I-4-b that make up the non-federal share of computable waiver costs come from the following sources: (a) health care-related taxes or fees; (b) provider-related donations; and/or, (c) federal funds. *Select one:*

☒ **None of the specified sources of funds contribute to the non-federal share of computable waiver costs**

- ☐ **The following source(s) are used**  
*Check each that applies:*
- ☐ **Health care-related taxes or fees**
  - ☐ **Provider-related donations**
  - ☐ **Federal funds**

For each source of funds indicated above, describe the source of the funds in detail:

## Appendix I: Financial Accountability

### I-5: Exclusion of Medicaid Payment for Room and Board

**a. Services Furnished in Residential Settings. *Select one:***

- ☐ **No services under this waiver are furnished in residential settings other than the private residence of the individual.**
- ☒ **As specified in Appendix C, the State furnishes waiver services in residential settings other than the personal home of the individual.**

**b. Method for Excluding the Cost of Room and Board Furnished in Residential Settings.** The following describes the methodology that the State uses to exclude Medicaid payment for room and board in residential settings:

Individuals in this waiver typically live in their own home or with family. There are three residential services offered through the waiver: semi-independent living services, respite, and behavior respite. By design, semi-independent living services are comprised of intermittent services and supports that do not require staff that live on-site. There are two services that individuals may use on a temporary basis, behavior respite or respite, which may be provided in a licensed residential setting or private residence. As per 42 CFR 441.310(a)(2), FFP may be claimed for respite services that are provided in a facility approved by the State. When respite services are provided in a private residence, room and board costs are excluded from the provider's reimbursement rate.

## Appendix I: Financial Accountability

### I-6: Payment for Rent and Food Expenses of an Unrelated Live-In Caregiver

**Reimbursement for the Rent and Food Expenses of an Unrelated Live-In Personal Caregiver. *Select one:***

- ☒ **No. The State does not reimburse for the rent and food expenses of an unrelated live-in personal caregiver who resides in the same household as the participant.**
- ☐ **Yes. Per 42 CFR §441.310(a)(2)(ii), the State will claim FFP for the additional costs of rent and food that can be reasonably attributed to an unrelated live-in personal caregiver who resides in the same household as the waiver participant. The State describes its coverage of live-in caregiver in Appendix C-3 and the costs attributable to rent and food for the live-in caregiver are reflected separately in the computation of factor D (cost of waiver services) in Appendix J. FFP for rent and food for a live-in caregiver will not be claimed when the participant lives in the caregiver's home or in a residence that is owned or leased by the provider of Medicaid services.**

The following is an explanation of: (a) the method used to apportion the additional costs of rent and food attributable to the unrelated live-in personal caregiver that are incurred by the individual served on the waiver and (b) the method used to reimburse these costs:

## Appendix I: Financial Accountability

### I-7: Participant Co-Payments for Waiver Services and Other Cost Sharing (1 of 5)

- a. **Co-Payment Requirements.** Specify whether the State imposes a co-payment or similar charge upon waiver participants for waiver services. These charges are calculated per service and have the effect of reducing the total computable claim for federal financial participation. *Select one:*

- ☒ **No. The State does not impose a co-payment or similar charge upon participants for waiver services.**
- ☐ **Yes. The State imposes a co-payment or similar charge upon participants for one or more waiver services.**
- i. **Co-Pay Arrangement.**

Specify the types of co-pay arrangements that are imposed on waiver participants (*check each that applies*):

***Charges Associated with the Provision of Waiver Services (if any are checked, complete Items I-7-a-ii through I-7-a-iv):***

- ☐ **Nominal deductible**
- ☐ **Coinsurance**
- ☐ **Co-Payment**
- ☐ **Other charge**

*Specify:*

## Appendix I: Financial Accountability

### I-7: Participant Co-Payments for Waiver Services and Other Cost Sharing (2 of 5)

- a. **Co-Payment Requirements.**
- ii. **Participants Subject to Co-pay Charges for Waiver Services.**

***Answers provided in Appendix I-7-a indicate that you do not need to complete this section.***

## Appendix I: Financial Accountability

### I-7: Participant Co-Payments for Waiver Services and Other Cost Sharing (3 of 5)

- a. **Co-Payment Requirements.**
- iii. **Amount of Co-Pay Charges for Waiver Services.**

***Answers provided in Appendix I-7-a indicate that you do not need to complete this section.***

## Appendix I: Financial Accountability

### I-7: Participant Co-Payments for Waiver Services and Other Cost Sharing (4 of 5)

## a. Co-Payment Requirements.

## iv. Cumulative Maximum Charges.

**Answers provided in Appendix I-7-a indicate that you do not need to complete this section.**

## Appendix I: Financial Accountability

### I-7: Participant Co-Payments for Waiver Services and Other Cost Sharing (5 of 5)

**b. Other State Requirement for Cost Sharing.** Specify whether the State imposes a premium, enrollment fee or similar cost sharing on waiver participants. *Select one:*

- ☒ **No. The State does not impose a premium, enrollment fee, or similar cost-sharing arrangement on waiver participants.**
- ☐ **Yes. The State imposes a premium, enrollment fee or similar cost-sharing arrangement.**

Describe in detail the cost sharing arrangement, including: (a) the type of cost sharing (e.g., premium, enrollment fee); (b) the amount of charge and how the amount of the charge is related to total gross family income; (c) the groups of participants subject to cost-sharing and the groups who are excluded; and, (d) the mechanisms for the collection of cost-sharing and reporting the amount collected on the CMS 64:

## Appendix J: Cost Neutrality Demonstration

### J-1: Composite Overview and Demonstration of Cost-Neutrality Formula

**Composite Overview.** Complete the fields in Cols. 3, 5 and 6 in the following table for each waiver year. The fields in Cols. 4, 7 and 8 are auto-calculated based on entries in Cols 3, 5, and 6. The fields in Col. 2 are auto-calculated using the Factor D data from the J-2-d Estimate of Factor D tables. Col. 2 fields will be populated ONLY when the Estimate of Factor D tables in J-2-d have been completed.

**Level(s) of Care:** ICF/IID

Col. 1	Col. 2	Col. 3	Col. 4	Col. 5	Col. 6	Col. 7	Col. 8
Year	Factor D	Factor D'	Total: D+D'	Factor G	Factor G'	Total: G+G'	Difference (Col 7 less Column4)
1	21319.18	3285.41	24604.59	160371.00	4474.72	164845.72	140241.13
2	21788.81	3383.97	25172.78	165182.13	4608.96	169791.09	144618.31
3	22182.48	3485.49	25667.97	170137.59	4747.23	174884.82	149216.85
4	1.00	1.00	2.00	1.00	1.00	2.00	0.00
5	1.00	1.00	2.00	1.00	1.00	2.00	0.00

## Appendix J: Cost Neutrality Demonstration

### J-2: Derivation of Estimates (1 of 9)

**a. Number Of Unduplicated Participants Served.** Enter the total number of unduplicated participants from Item B-3-a who will be served each year that the waiver is in operation. When the waiver serves individuals under more than one level of care, specify the number of unduplicated participants for each level of care:

Table: J-2-a: Unduplicated Participants

Waiver Year	Total Unduplicated Number of Participants (from Item B-3-a)	Distribution of Unduplicated Participants by Level of Care (if applicable)
		Level of Care:
		ICF/IID
Year 1	1194	1194
Year 2	1144	1144
Year 3	1094	1094
Year 4	1	1
Year 5	1	1

## Appendix J: Cost Neutrality Demonstration

### J-2: Derivation of Estimates (2 of 9)

- b. Average Length of Stay.** Describe the basis of the estimate of the average length of stay on the waiver by participants in item J-2-a.

The average length of stay was updated in this renewal and derived from the most recently filed CMS 372 report for the Home and Community-Based Services Waiver for Persons with Intellectual Disabilities(control number 0427) for the period January 1, 2015, through December 31, 2015. Due to the state's request for a 3-year renewal period, for waiver years 4 and 5, "1.00" was entered in each field in the portal where a zero or blank is not permitted.

## Appendix J: Cost Neutrality Demonstration

### J-2: Derivation of Estimates (3 of 9)

- c. Derivation of Estimates for Each Factor.** Provide a narrative description for the derivation of the estimates of the following factors.

- i. Factor D Derivation.** The estimates of Factor D for each waiver year are located in Item J-2-d. The basis for these estimates is as follows:

Twelve-month actual participant data for the program year prior to submission of the renewal application for this waiver (January 2016 through December 2016) from DIDD formed the basis in estimating participant utilization (i.e., # of users and the average number of units per user) by service. Per unit costs are based on the current fee schedule. Per unit costs are not trended forward in the waiver application, as any changes in the fee schedule are subject to the availability of appropriations through the State's budget process. Due to the state's request for a 3-year renewal period, for waiver years 4 and 5, "1.00" was entered in each field in the portal where a zero or blank is not permitted.

- ii. Factor D' Derivation.** The estimates of Factor D' for each waiver year are included in Item J-1. The basis of these estimates is as follows:

The basis for Factor D' was derived from the average per capita acute medical costs for this waiver population reported on the most recently filed CMS Form 372 report for this waiver(control number 0427) for the year which ended 12/31/15. This data was trended forward for years 1 through 3 of the waiver, anticipating a 3% rate of inflation. Due to the state's request for a 3-year renewal period, for waiver years 4 and 5, "1.00" was entered in each field in the portal where a zero or blank is not permitted. Factor D' is less than Factor G' because, based on actual utilization, persons in an institution utilize more "other" Medicaid services, likely as a result of more complex medical and behavior support needs than persons living in the community.

- iii. Factor G Derivation.** The estimates of Factor G for each waiver year are included in Item J-1. The basis of these estimates is as follows:

Factor G was derived from the annualized average per diem cost of private ICF/IID services as determined by
