

MAPs services will support you to **find a job** and **advance your career**.

You can choose to receive supports so you can

- Find a job based on your strengths, skills, and interests
- Figure out what support you will need at your job to be successful
- Learn how to travel to and from work
- Get a promotion

A person called a **Job Coach** or **Job Developer** will help you at work until you no longer need it.

Enabling Technology will also help you reach your goals at work.

There are many different ways you can use Enabling Technology at work. A few examples of Enabling Technology you could use at work are

- A phone or tablet that can teach you or remind you of your job responsibilities using video, audio, or pictures.
- A phone or tablet that provides step by step directions to help you get to and from work.
- Online tools to help you learn your skills, strengths, and interests.
- Virtual reality to help you learn about different career paths and learn your job.

You can learn more about MAPs by scanning the QR code below or visiting tn.gov/dda/maps
