# **SCENARIO:** AN **ENTIRE** SERVICE AUTHORIZATION IS <u>INCORRECT</u> ON A PERSON'S PCSP AND CLAIMS ARE IN A STATUS OF "PAID" OR "PAID ADJUSTED"

**Description:** The process to REMOVE a Service Authorization because an "<u>entire</u>" Service Authorization is incorrect on the Person's plan and needs to be replaced with a new Service Authorization, but there is **billing** against the incorrect Service Authorization.

**Prevention:** To AVOID incorrect Service Authorizations, it is important...

- to review EACH Service Authorization before acknowledging (check, check, and recheck). If not correct, contact the ISC.
- before billing on a Service Authorization, check to ensure the service is "correct." If not, <u>do not</u> bill on the Service Authorization.

**Disclaimer:** The below instructions include one way to search for claims. However, when searching for claims, multiple search options can be used to identify the claim(s) to be voided.

#### **Overview Workflow**

**\*\*\*IMMEDIATELY STOP** entering billing data (i.e. Attendance or Schedule/EVV Slots), generation or importing Billing Data, and creation/submission of Institutional Claims.)

### Part One – Institutional Claim Search for "Paid" or "Paid Adjusted" claims

- On the "Individual" tab, locate the "Pre Auth Service Authorization" section and click on "Search" next to "Service Authorization."
- 2. In the "Individual" field, enter the person's name and select from the drop-down.

## Part Four - MONITOR Claim(s)

**IMPORTANT:** Providers will monitor CLAIM(s) until the MCO processes the claim(s) and the claim(s) are in a "Voided" status.

Once the claim(s) have been voided by the MCOs or State Funded, you will need to release the units from the claim.

### Part Five: Release the Units

The "Release Units" option can be applied to Claims that are in "Voided" status. The "Release Units" option will update the corresponding Billing Data Billable Units to zero (0), detach the Billing Data from the Claim, and change the status of the claim to "Deleted".
