(X) Not applicable.

¹Includes amounts not shown separately.

Note: See Appendix B for a description of state-specific reporting anomalies. Revenue from and payments to other school systems are excluded to avoid double counting. Expenditures for adult education, community services, and other nonelementary-secondary programs are also excluded. Some data appear under local sources for Hawaii's state-operated school system for consistency with data presented for all other school systems. Enrollments used to calculate per pupil amounts represent fall 2018 memberships collected by NCES on the CCD agency universe file - "Local Education Agency (School District) Universe Survey: School Year 2018-19, Provisional Version 1a." Enrollments for state educational facilities, federal school systems, and charter schools whose charters are held by a nongovernmental entity have been excluded. Enrollments from the CCD agency universe file were subject to adjustment if the enrollments were inconsistent with the finances reported. Annual Survey of School System Finances statistics include the finances of charter schools whose charters are held directly by a government or a government agency. Charter schools whose charters are held by nongovernmental entities are deemed to be out of scope for the Annual Survey of School System Finances. SOURCE: 2019 Annual Survey of School System Finances. Data are not subject to sampling error, but for information on nonsampling error and definitions, see
