### 2. DIRECTIONS

Please list specific supports and services that you would like to see incorporated into the funding formula for each category. (In other words, what supports and services do you think are most important so that the cost of those supports and services can be included. It does not mean a district MUST spend money in a certain way, only that they would be funded to do so). Please prioritize each item as a:

- **Must Have**: Those supports and services required as a result of federal and/or state law, for safety, or similar.
- **Should Have**: Those supports and services that may not be mandatory but are essential to ensure the student or student group receives access to a quality education.
- **Nice to Have**: Those supports and services that are not mandatory and not essential, but (1) may provide a clear and added benefit to students and (2) have a clear return on the investment related to student achievement and future success.
- **Long Shot**: All other supports and services ideas.

### Tennessee Funding Review Engagement

- essential to start by having the new formula support consistent delivery of pre-K for 4 year olds first, to provide a basis from which to possibly expand to younger students in the future
- transportation

**TRANSPORTATION:**
- A new formula should consider equity in transportation support for districts with high numbers of rural, dispersed, and/or economically disadvantaged students.
- The formula should do this not only to support attendance and learning generally, but also because transportation challenges pose major barriers to student participation and success in WBL and CTE programs.

**WEIGHT**

*NO PUBLIC FUNDING TO PRIVATE, HOMESCHOOL, OR OTHER OUTSIDE SUPPORTS*

- CTE as part of weighting (i.e., completers, industry certs) due to costs (equipment, transportation) and staffing challenges
  - The growing importance of CTE as a support/service which improves students’ post-secondary, life and career outcomes;
  - The importance of CTE as an input which supports the growth and quality of Tennessee’s workforce and economy.

**DIRECT FUNDING**

Emphasize consistency across the state

**CTE:**
- extended day
- Ensure new formula fully accounts for necessarily-smaller sizes of CTE classes
- Transportation costs

Work-based learning (i.e., coordinator, transportation, dedicated personnel)

**FINANCIAL LITERACY**

- Enhance financial literacy curriculum at middle school to:
  - (avoid a gap in learning from lower grades and HS)
  - enhance financial literacy’s ability to support aligned middle-school student and parent career awareness and academic pathway decisions leading into high school.

**FACILITIES (equity across the state to support upkeep)**

**INCREASE OPPS FOR AP AND DUAL ENROLLMENT**
#### LEADERSHIP DEVELOPMENT

STEM

#### OUTCOMES
- Incentivizing students that are enrolled in work-based learning (vs completion)
