

TCAP Assessment Subjects by Grade Accountability, Educator Evaluation, and TVAAS Reporting

The table below provides a snapshot of TCAP assessment subjects by grade and what data are available across various reporting systems, including school/district accountability, educator evaluation, TVAAS reporting, and performance level reporting for the 2021-22 school year. The key highlights are summarized below:

- In 2021-22, only grades 3 through 8 ELA and math subjects and EOC subjects (i.e., English I, II, Algebra 1, 2, Geometry, Integrated Math 1, 2, 3) are included in school and district accountability.
- TVAAS value-added reports allow teachers, schools, and districts to select data of interest, assess trends over time, and compare results. In 2021-22, data are available for: grades 3 through 8 and EOC tests in ELA and math subject areas; grades 5 through 8 and EOC biology 1 in science subject areas; grades 6 through 8 and EOC US History subject areas.
- ELA and math teachers from grades 3 through 8 and EOC subject areas, science teachers from grade 5 through 8 and EOC biology 1, and social studies teachers from grades 6 through 8 and EOC US History receive TVAAS composite scores when sufficient data are available to generate a TVAAS composite.
- Student-level performance data are available in all tested subject areas. In 2021-22, the performance level descriptors are updated from Below/Approaching/On-track/Mastered to Below/Approaching/Met/Exceeded Expectations.

Grade Level	School/District Accountability	TVAAS Value-Added Reports	TVAAS Educator Evaluation Composites	Performance Level Reporting
ELA / Math				
2	No	No	No	Yes
3 ^a	Yes ^b	Yes ^a	Yes ^a	Yes
4-8	Yes	Yes	Yes	Yes
EOC ^c	Yes	Yes	Yes	Yes
Science				
3 - 4	No	No ^d	No ^d	Yes
5 - 8	No	Yes	Yes	Yes
EOC Biology I	No	Yes	Yes	Yes
Social Studies				
3-5	Not tested	Not tested	Not tested	Not tested
6-8	No	Yes	Yes	Yes
EOC US History	No	Yes	Yes	Yes

^a Grade 3 ELA and math are only available for districts that administered the 2nd grade assessment in Spring 2021 *and* in Spring 2022.

^b For accountability, district TVAAS composites for grades 3-5 accountability will include the early grade (Grade 3) ELA and math scores only if the composite has a better score than the composite created without early grade data.

^c EOC includes English I, II, Algebra 1, 2, Geometry, and Integrated Math 1, 2, 3.

^d The science assessments in these grades do not have enough items to produce valid and reliable TVAAS scores.
